

SEWER BOND VOTE FRIDAY

Texas' 2nd Largest Elevator at Bovina

SEWER BOND ISSUE DISCUSSED AT CHAMBER OF COMMERCE MEETING

After giving brief consideration to the clean-up program for the city, the Farwell Chamber of Commerce held a long and enlightening discussion on the proposed sewer bond issue, on Monday night.

According to previous plans, Robt. Morton and the ag class of the local school have been engaged to clean the city, including the vacant lots, of all debris and rubbish in such a manner that a mowing machine can be used in the control of weed growth during the summer months. This is being done with the view of eliminating, as far as possible, the breeding places of flies, mosquitoes and other insects, as a health measure.

Buddy Jones, Jim Perkins and J. R. Thornton, the committee handling the clean-up program, were instructed to proceed with the work, which is scheduled to begin on Thursday of this week.

Frank Seale, secretary, reported that 37 members had paid their CC dues for this year.

Opening the discussion on the sewer bonds, Mayor C. M. Henderson acted as chairman, and led off with the promise that "Your Commission doesn't intend to do anything you don't want." From that statement he said that the newly-elected City Commission "wanted to give the people service, and the best way we can be of service to you is for you to let us know what you want." Naturally, he added, some desires on the part of individuals might be impossible, "but they will be given consideration."

Turning then to the program of getting the newly-incorporated City of Farwell off in the right manner, Henderson pointed out that "it is going to cost us about \$500—possibly more—to set up for housekeeping."

The meeting approved a motion to loan the City \$500 from CC funds, payable Jan. 1, 1951, without interest, to accomplish this purpose.

Mayor Henderson then explained that the City Commission, with the help of others, had made a survey of the town's physical assets, which reveals that the valuations for taxable purposes inside the corporate limits is "roughly one million, two hundred thousand dollars."

He then added that it was the opinion of the Commission that a tax of 30 cents on the \$100 valuation would return \$3,600 a year, which, plus the anticipated service charge for sewer service, would produce sufficient revenue to retire the bonds in ten years. It was the opinion of the Commission, he said further, that the tax rate could be reduced after two years, and cut still more after five years, adding, "after the fifth year, our tax should not be more than ten or fifteen cents on the hundred."

As a revelation of the tremendous amount of work and time the City Commission has given the bond issue subject, a detailed estimate of the value of each piece of property inside the corporation has been prepared.

Father Of Pastor Is Seriously Ill

G. R. Holladay, father of Rev. O. C. Holladay, pastor of the local Baptist church, is in a semi-coma at the veteran's hospital in Waco, and Rev. Holladay said on Tuesday that little hope is held for his recovery.

The 75-year-old man, veteran of the Spanish-American war, has been in declining health for the past several months, the local minister said, adding that he had spent last week in Waco with his father, returning here on Saturday night.

Aged Lady Dies At Home Of Son, 29th

Death came to Mrs. Marjorie (Granoma Lu) Herington, age 79, at the home of her son, Willie Herington, three miles south of Lariat, shortly after noon on Monday.

Funeral services were conducted by Minister Ebb Randol, of Muleshoe, at the Lariat Church of Christ Tuesday afternoon, and burial took place in the Oklahoma Lane cemetery under the direction of the Steed Funeral Home of Clovis.

Mrs. Herington had been a resident of Bailey County for the past 26 years, and was well known here.

She is survived by three daughters, Mrs. W. B. Owens, Lamesa; Mrs. Mary L. Bingham, Corpus Christi; Mrs. Vernon Vinson, Muleshoe; three sons, H. W. Herington of Lariat, W. R. Herington of Lariat, and Grady Herington of Farwell; also 26 grandchildren and 15 great-grandchildren.

Petit Jury Called For Civil Case

A petit venire of 36 men was called the past weekend to be on hand at the local court house this (Wednesday) morning at 10 o'clock, when a civil case is slated to be tried with Judge E. A. Bills, of Littlefield, on the bench.

The case, John Hartwell vs. Triplett-Pringle, for damages, has been pending for some months, District Clerk Loyde Brewer said Monday.

Called for duty this morning were G. H. Lindop, W. A. Knight, Owen Patton, Loyd Gober, D. B. Ivy, Gordon Duncan, T. F. Taylor, Forrest Osborn, E. J. Gulley, C. M. Nix, S. H. Sides, Robert E. Wilson, John C. A. Lynn, D. O. Rolland, Finnis Jennings, Melvin Treider, G. M. Dial, H. T. Edwards, Howard Ford, J. D. Maury, Gilbert Schueler, Wesley Barnes, Dee Owens, L. R. Vincent, J. D. Stevens, Rudolph Kube, Harold Lillard, Jack Smith, J. M. Watson, R. L. Green, Woodie McDermitt, G. F. Splawn, W. C. Hanna, Willie Steinbock, Melvin Sachs and Davis Gulley.

County Hospital Lab Approved For Tests

The Farmer County Community hospital laboratory, in Friona, has been approved by the state for blood tests, County Clerk Loyde A. Brewer reported this week.

These tests are required in Texas before marriage licenses can be issued, and until the recent approval of the county hospital lab, applicants were forced to secure such data out of the county.

Brewer explained that forms to be filled out upon completion of the tests are available at the local office and must be presented to the doctor. In turn, the forms are returned to the clerk's office, where the marriage licenses are issued.

ATTEND FUNERAL AT OLNEY

Mr. and Mrs. W. W. Hall returned home Monday night from Olney, where they had attended the funeral of Mrs. Hall's nephew, O. C. Elliott. Mrs. Jennie Elliott, mother of the deceased, returned home with the Halls and will probably spend the rest of the summer here.

A new eight-tube addition to the Sherley Grain Company's elevator at Bovina is now under construction which, when completed, will give Bovina the second largest country elevator in the entire state of Texas, with a capacity of 1,600,000 bushels.

Within the state boundaries, its size is exceeded only by the Pitman elevator at Hereford, which outranks the Bovina job by slightly less than 100,000 bushels in storage capacity.

The new eight-tube addition will increase the number of such tanks to 38, ranging in size from 16 to 30 feet in diameter, and all 135 feet high. The overall structure will have 81 storage bins, and is so constructed that grain can be moved from one extreme side of the plant to the other far side by electrically controlled conveyors.

Two dumping pits have been installed, capable of handling anything now in use for hauling grain to market.

The company business is under the management of G. D. Anderson, Jr., son of Mr. and Mrs. G. D. Anderson of this city.

Speaking of the expansions made in the plant since construction work began two years ago, W. M. Sherley, co-owner, made this observation as regards necessity of storage facilities: "When the wheat harvest lasts only about two weeks and the row crop harvest covers about twice that amount of time, there is no need to expect the railroads to be able to furnish sufficient cars to move the grain as it comes in from the farm... the only answer to this congestion at harvest time is more storage."

He shook off a reporter's inquiry as to possible further expansion of the plant with, "We don't have that under consideration now."

Lovelace Elevator Near Completion

The 300,000 bushel grain elevator being erected here by Gene Lovelace is nearing completion, and the contractor announced the first of the week that he expected to finish the work by the latter part of the present week.

Of concrete and steel construction, the new elevator is located just south of the Santa Fe water tower approximately on the state line, with the elevator proper being situated in New Mexico and the office and scales on the Texas side of the line.

Pouring of concrete on the job was completed some days ago, and workmen are now engaged in installing the machinery. Lovelace said today that the building on the grounds would be remodeled for office quarters.

A. F. Roberts, of Sabetha, Kansas, is the contractor, and the new business be managed by Herbert Potts.

No Changes Made In Methodist Pastors

No changes were announced for Methodist pastorates in Farmer County, at the reading of appointments in the Northwest Texas Conference, held in Big Springs the past week.

Four ministers of the county, serving at Bovina, Friona, Oklahoma Lane and Lazbuddy, were present at the conference, and all were returned to their respective work when appointments were read by Bishop William C. Martin.

Rev. Oscar Bruce will begin his second year in the Bovina church and Rev. James E. Tidwell has been returned to the Friona pastorate for his second year. At Oklahoma Lane, Rev. A. D. Moore will continue his work, while Rev. Silas Dixon, who has been at Lazbuddy for some time, will also return to that church.

Dr. Earl G. Hamlett, Abilene, St. Paul Methodist Church pastor, exchanged his charge with Rev. E. D. Landreth, Amarillo district superintendent. Hamlett formerly served in that capacity and as pastor of the Amarillo Polk Street church.

MOVE TO SEMINOLE

Steve Treadwell and family moved to Seminole the latter part of last week, where he has purchased a service station. The Treadwells came here recently from Snyder, Okla., and operated the Phillips 66 Station in Farwell for a brief time, selling out to Buster Lunsford, who is now in charge of the business.

The qualified voters of the City of Farwell will go to the polls on Friday, June 2, to adopt or reject a \$40,000 bond issue for the purpose of installing a sewer system for the city.

Officials said today that the voting box would be set up in the county court room in the Farmer County court house, and that the polls would be open between the hours of eight a. m. and 7 p. m., remaining open during the noon hour.

The ballots are very simple in their make-up, with only two lines appearing by which the voter may express his preference of adopting or the proposed issue. Absentee voting began on Monday, and voters desiring to cast absentee ballots may do so by applying to Jesse Landrum, city clerk.

Speculation early this week indicated that a near-total vote could be expected in Friday's balloting.

If the bonds are approved, the City Commission will then be authorized to issue the bonds and offer them for sale to finance the sewer system. Officials stated early this week that offers to buy the entire issue at 3 1/2% had already been received, and it was considered likely that an even better offer might be obtained.

Bill Howren, Amarillo engineer who has been employed by the Chamber of Commerce to draw the plans and specifications for the system, said here Monday that he saw no reason why the system should not be in operation early in September if the bonds are approved.

Recommend Porter As West Point Cadet

JeDon Porter, 20-year-old son of Mr. and Mrs. John Porter of this city, has been recommended by the local American Legion Post for appointment to West Point.

Porter, who is finishing his junior year at the New Mexico Military Institute in Roswell this week, received his high school education at the same school in 1946, and then enlisted in the U. S. Marines, where he served two years. Following his discharge he returned to NMMI, where he has been the past two years. While in the Marines, Porter was stationed at San Diego and Pendleton on the West Coast.

He is scheduled to report to Fort Benning, Ga., in mid-June, where he has been assigned for instruction in the airborne service of the Army.

Porter's recommendation for appointment to West Point has been forwarded by the local American Legion to Congressman Ben Guill, who announced last week that he had three appointments to make at this time.

Over One Hundred Registered, Monday

A total of one hundred and five children and young people of the community registered at the Baptist Church on Monday morning of this week, when the summer church school opened its two-week session.

Rev. O. O. Holladay, acting as general superintendent, said on Tuesday that classes will be held from 9 to 11:45 each morning, Monday through Friday, with a general commencement program to be arranged for Friday, June 9th, the closing day of the school.

Superintendent of the beginner department is Mrs. Willie Hardage, assisted by Irene Hardage, Mrs. Harry Whitley and Mrs. Bill Moss. Mrs. Gladys Hromas heads the primary group and workers include Mrs. John Lockhart, Mrs. Luther Moss, Mrs. Travis Brown and Mrs. M. H. Poteet.

Mrs. Hugh Tucker is directing the young juniors, Mrs. Luther Moss is superintendent for advanced juniors and workers with the two are Mrs. Joe McWilliams, Mrs. Buddy Pearce, Mrs. S. G. Billington, Mrs. O. O. Holladay, Janie Ross and Carmen Roth.

The intermediate activities are directed by Mrs. W. M. Roberts, assisted by Mrs. Barney Kelley and Mrs. Dallas Brown. Mrs. Ronnie London is in charge of singing, Mrs. Jack McManigal is the pianist; Mrs. Olan Schleuter the secretary, Cary Joe Magness is assisting in boys' handcraft, and Misses Peggy and Betty Donahey are general assistants.

GAS MAIN SNAPPED

Heavy machinery being employed in cultivating the court house lawn in preparation for seeding the plot snapped a large gas main shortly after noon last Thursday. A repair crew was called from Clovis and spent some four hours repairing the break.

FROM THE HOPPER

By HOP

Ben Guill, our new Congressman, in a letter issued the first of the week, admits that he is already running into complex difficulties. He says, in part:

"This business of being a Congressman can be very complicated. The other day I wanted to suck my ear in during a debate on the floor, so I was advised to use the device of asking the permission of the Chair 'to strike out the last word'. I didn't quite know what that meant, so I looked it up in Cannon's Procedure in the House of Representatives, the Congressman's Bible. It described the process as a 'pro forma amendment, not in order, and amendment of amendment as it is an amendment in the third degree'. I didn't find the definition much help, but the technique did allow me to have my say on the floor of the House."

The people of Farwell voted overwhelmingly in favor of incorporating the city with the full understanding that the whole purpose of such a move was to put the city in a position where bonds could be voted for installing a sewer system in the town. Now that the time for actually voting the sewer bonds has arrived, we hear murmurings of opposition to the project because it is going to cost money. Certainly, it is going to cost money. Very few worthwhile material things of life are presented to us on silver platters; we have to pay the costs in cold cash. Progress does not come to us gratis. Granted that many of our homes and places of business are already provided with cess pools or septic tanks, yet we have no assurance that these temporary measures will not collapse before another day arrives. Adequate sewer systems are a public health necessity. There is no question in the minds of many citizens but that the hordes of mosquitoes that have invaded our town the past few years have come from improperly covered cess pools. Where else could they come from, may we ask, when there was not an open pool of water within ten miles of the city? Mosquitoes must have water in which to breed, you know. Then there is another factor that we must think about before we consider seriously rejecting the bonds. Our public school ground is a mass of excavations made in an effort to relieve the critical problem of sewage disposal. Some of these pools are caving in now, creating a menace to the lives of persons crossing the school campus, to say nothing of the health menace this situation causes. We have never been accused of being an alarmist, but the possibility of some child losing its life in one of these pools is ever present. Then who would be to blame if we fail to meet the need of safe sewage disposal? Yes, any time you vote bonds, it is going to cost money; progress always does. But this bond issue is a challenge to our intelligent thinking and, if for no other reason, we owe it to our school children to surround them with health, safe conditions. To our way of thinking, our public school system is the biggest civic asset we have in the town, and our entire school system will be vitally affected if we fail to live up to our responsibility to our children. We must not fail them.

B. N. Graham says that since he (Continued on last page)

MR. AND MRS. W. J. MATTHEWS (above) pioneer Texico residents, will celebrate their fortieth wedding anniversary with open house at their farm home, five miles south of Texico, on Sunday, June 4, from 10 a. m. to 6 p. m., and have issued a cordial invitation to all their friends to be present.

The Matthews were married in Farwell on June 1, 1910, and moved to their present location in July of that same year. He taught school when he first came to New Mexico and was for some time engaged in the grain and feed business in Texico, as a partner with S. C. Hunter, deceased. During that time, Mrs. Matthews served as postmaster in Texico.

As homesteaders, the couple fully understands some of the hardships of the early settlers. The Matthews had their share of hauling water, hunting fuel, and eating red beans, all of which they have enjoyed, and they credit their success and happiness to their many friends and wonderful neighbors.

A barbecue lunch will be spread for all comers at the noon hour.

Faculty Changes Are Being Made; Texico

Slight faculty changes are in the process of being worked out at the Texico school, Supt. Agrie Jones reported this week.

Under the budget recently approved for the school for the 1950-51 term, the school will be allowed one—possibly two—additional members on the faculty. Fern Stout, who has been with the faculty for some time as girls' coach and vocational agriculture director, is changing his job to take over the duty of science instructor in high school, Jones said. In turn, a new ag instructor will be secured, he explained.

If another teacher is okayed, the grade school corps will be increased, the superintendent went on.

General repair, clean-up, painting and polishing work is now going on about the school buildings, Jones said adding that no big improvement projects were on slate for this summer.

Mother Of Local Man Dies At Portales

Mrs. J. W. Pullum, 84-year-old mother of O. C. Pullum of this city, passed away at a Portales hospital last Saturday morning at 2:55.

An ambulance from Tem's Funeral Home at Hollis, Okla., took the body to Eldorado, Okla., Saturday, and burial took place in the Pleasant Hill cemetery, nine miles northeast of Eldorado Sunday afternoon, following the final rites at the Methodist Church in that city.

The aged lady, who had been a resident of Eldorado since 1913, came here only recently to spend the summer with her son in Farwell and her daughter, Mrs. C. E. Richards, in Portales. She suffered a stroke while at the Pullum home in Farwell on May 15 and never regained consciousness.

Survivors include three daughters, Mrs. Ted Daniels, Eldorado; Mrs. Les McDonald, Clovis; Mrs. C. E. Richardson, Portales; three sons, W. J. Pullum, Phoenix, Ariz.; O. N. Pullum, Eldorado; and O. C. Pullum, Farwell; one sister, Mrs. D. J. Pennington, Tahoka; and 17 grandchildren.

Poppy Day Sales Are Highest Ever Made

A total of \$156.36, the greatest amount ever received locally, was recorded from sales of veterans' poppies the past Saturday, when annual Poppy Day was noted over the nation.

Mrs. Graham Thornton, chairman of sales in Texico-Farwell, reported on Saturday evening that the response to the Poppy Day sale had been exceptionally good this year, and final tabulations revealed that total funds far exceeded anything recorded here previously.

All merchants of the Twin Cities cooperated in the sale of the poppies and young people of the town assisted the local Legion Auxiliary, in charge of Poppy Day, with distribution of the little red memorial flowers.

Poppy Day funds go to the rehabilitation of veterans and relief of families of the veterans, with the poppies being made by the "invalided" vets in hospitals over the country.

In behalf of the Auxiliary, Mrs. Thornton tendered her appreciation to the general public for the response made here on Saturday.

Health Note

Texas State Department of Health

AUSTIN—Texas' private war on venereal diseases among indigents is proceeding in wholesale fashion, with over 95,000 patients having passed through State Health Department rapid treatment centers since the first center was opened in 1943.

This was the word from State Health Officer Geo. W. Cox, who described the 95,000 as "unlucky enough to have VD but lucky enough to have gotten attention."

"Untended syphilis can cause heart disease, mental illness, blindness, and other severe physical disabilities," the health official asserted. He asked pointedly, "See why they're lucky?"

Two state supported rapid treatment centers—Rocky Mount Hospital in Overton, and the Mission Medical Center in San Antonio—are maintained by the State Health Department for handling cases of venereal disease in people unable to pay for private care, Cox said.

Gonorrhea is handled in the VD clinics of local health units, rather than sending the indigents to the RTC's, Cox said.

"State Health Department policy calls for local health unit VD clinics as diagnostic centers," he said. "However, a good many rapid treatment center patients are referred there by private physicians."

Rapid treatment center personnel conduct patient education via conferences, pamphlets and motion pictures, which is, Cox said, "one of our most valuable educational processes."

"We learned long ago that educating patients while they are undergoing treatment has more retentive value than any other device we could use."

POLITICAL ANNOUNCEMENTS

The State Line Tribune is authorized to make the following political announcements, subject to the action of the Democratic primary election in July:

- For District Judge, 64th Judicial District: ROBT. (BOB) KIRK
E. A. BILLS
- For Sheriff, Tax Assessor-Collector: CHAS. LOVELACE
(Re-Election)
- For County and District Clerk: LOYDE A. BREWER
(Re-Election)
- For County Judge: W. L. EDELMON
A. D. SMITH
(Re-Election)
- For Commissioner, Precinct 1: E. R. (EMMETT) DAY
(Re-Election)
- For County Commissioner, Pct. 2: C. H. (CHARLES) JEFFERSON
- For County Commissioner, Pct. 3: EARL F. BILLINGSLEY
- For Commissioner, Pct. 4: H. L. IVY
W. S. MENEFFEE
(Re-election)
- For District Attorney, 64th Judicial District: JOE SHARP
- For State Representative: HAROLD M. LaFONT
H. C. (Doc) BLANCHARD
- For Congressman: LeROY LaMASTER
- For County Treasurer: MRS. H. T. (Mabel) REYNOLDS

Something New Is Added: Hi-Hegari

COLLEGE STATION—Seed of a new variety named Hi-Hegari has been released to certified seed growers for increase, R. E. Karper, agronomist in charge of Texas Agricultural Experiment Station grain sorghum investigations, has announced. It is a tall variety of Hegari, bred and developed primarily for forage and silage.

Karper says it has the high quality and palatable forage of hegari and the same maturity and adaptation, but yields approximately 20 percent more forage.

The first grain sorghums were tall and late maturing. Hegari, one of the more popular, was imported from Africa in 1909 and was first grown at the Chillicothe station. In 1938 Texas sorghum breeders came up with Early Hegari, a dwarf, drought resistant, early maturing type which is still the principal variety.

The labor shortage during World War II, the demand for grain and the development of the double dwarf grain sorghums brought the combines into the sorghum fields. In 1949, more than 85 percent of Texas grain sorghums were combine harvested.

The popularity of the combine varieties in turn led to a shortage of bundle feed; the supply is expected to be shorter still in the future because of acreage reductions.

Plant breeders of the Texas Agricultural Experiment Station foresaw the need for forage and silage and the past several years have been working on the problem; Hi-Hegari is the result.

The entire supply of seed has been distributed for increase, and a fair amount of Hi-Hegari will be available for 1951 planting through regular trade channels.

CONTRACTS AWARDED

LUBBOCK—Three contracts for utilities totaling \$213,107 have been authorized by Texas Tech's board of directors and released to Texas firms Pres. D. M. Wiggins announces.

The contracts were made upon the recommendation of David C. Pfeiffer, Dallas consulting engineer. Contracts awarded included \$84,176 to Empire Electrical Co., Fort Worth, for electrical systems; \$49,700 to Standard Construction Co., Lubbock, for a steam tunnel; and \$79,231 to Martyn Bros. Inc., Dallas, for plumbing.

Work on the steam tunnel has begun.

HAS THREE PLANTS

General Motors Overseas Operations Divisions has three car and truck manufacturing plants abroad: Vauxhall Motors Limited, England; Vauxhall cars and Bedford Trucks; General Motors-Holden's, Australia, Holden cars, and Adam Opel, Germany, Opel cars and trucks. In addition, GM Overseas has 14 assembly plants for completely knocked-down cars and trucks, in Argentina, Australia, Brazil, Mexico, Venezuela, Peru, Belgium, Denmark, Sweden, Switzerland, South Africa, India, Java and New Zealand.

"It's Fun to Dress Up Dad"
Gifts FOR Dad
 FATHER'S DAY JUNE 18

Here are gifts for an expectant father... gifts that will please Dad on his day of days. Give him the royal treatment with items he'll wear and enjoy for months to come. See our complete line-up of fine men's wear... choose his favorite... and then hand it to Dad!

GIVE DAD AN ARROW SHIRT

You'll never see a brighter, better collection of fine broadcloth, oxford cloths and white-on-white Arrow shirts for men. All popular color styles. Stripes and patterns, too!

3.65 and 4.00

SIGNET TIES
 He'll Prize

He'll love to tie these on! Fine rayons and handsome pure silk Signet Ties... gay, but not gaudy prints in harmonious colors. Fully lined.

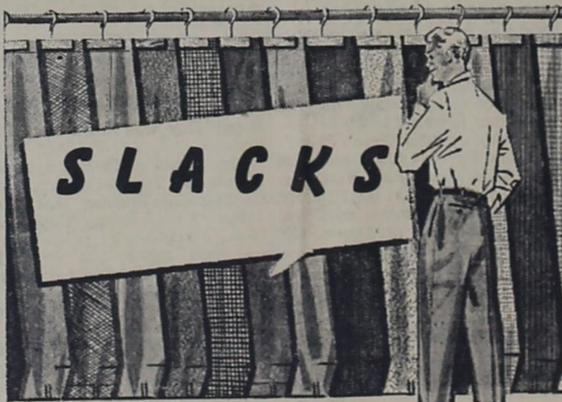

1.50
 AND UP

COOL SUMMER STRAWS

There's lots of summer weather ahead! Get under a cool straw hat—enjoy the shade, the eye appeal and the comfort! Choose from our large selection of summer straws in the latest styles.

1.50 AND UP

SLACKS

Handsome Array

Doeskins, gabardines, coverts and flannels in this large assortment of well-tailored slacks. Plain or pleated styles, regular or extended waistbands. In browns, greys, tan and patterns. All sizes. A top buy for quality and value at unusually low price.

5.95
 AND UP

JACK HOLT

"THE CLOTHIER"

Clovis, N. M.

It's Super

for Watch-Dog Protection!

Protection you can count on... the test-proved protection of new Conoco Super Motor Oil!

Proved by 50,000-mile road test! In a 50,000-mile test, engines lubricated with Conoco Super Motor Oil showed virtually no wear at all... in fact, an average of less than one one-thousandth of an inch on cylinders and crankshafts.

This means that—with proper crankcase drains and regular care—Conoco Super Motor Oil can keep new-car power and performance year after year!

Come in and let me tell you about "50,000 miles no wear!"

Home Canning Time Arrives In Texas

COLLEGE STATION—It's that time of the year. The season when many homemakers will be using the pressure cooker and the water bath canner to preserve the fine fruits and vegetables that are produced in the home garden and orchard. Before the canning equipment is put to use, Louise Mason, extension foods and nutrition specialist of A. & M., says it should all be cleaned and checked to make sure everything is working properly.

The pressure cooker should be washed in hot soapy water and then rinsed well but the lid should not be immersed in water because the water will likely ruin the face of the pressure gauge. Check the pressure gauge for accuracy with a master gauge tester. Using an inaccurate tester will mean either over or under processed products, she adds.

Water or food should never be left in the cooker. Aluminum is a porous metal and absorbs flavors and odors. She points out that a pressure cooker should never be used until the safety valve has been checked and cleaned. Serious accidents can result from stuck safety valves. All parts

of the valve should be kept shining and clean. If the spring on the valve is weak, replace it with a new spring which is inexpensive.

Products to be canned should be fresh and of good quality. The finished product will be no better than what you started with, she says. The products should be canned as soon as they are gathered for delays reduce food values. She recommends the pack raw and steam method of pre-heating, described in bulletin C-223, available in the office of the demonstration agent. All non-acid vegetables should be processed in a pressure canner.

It is best to can about what the family will consume between growing seasons. This will vary with families and individuals, but here is a suggestion: 22 quarts of green and yellow vegetables along with the same number of quarts of other vegetables plus an additional five quarts of pickles and relishes for each member of the family.

The canned products should be stored in a clean, cool, dark and dry place. She points out here that the food value of canned products tend to decline in storage and this is particularly true when the storage conditions are not good. Small quantities of vegetables may be canned in a pressure sauce pan.

Plans Complete For Top O' Texas Show

Directors of The Top O' Texas rodeo and horse show association have announced plans for the staging of the sixth annual Rodeo and Horse Show in Pampa on August 8-12.

Plans call for the big kid pony show on Tuesday night, Aug. 8, and nightly rodeo performances on Aug. 9 through 12. An American Quarter Horse Show will be conducted Aug. 9-10 with the winners being exhibited on Thursday night. The biggest exhibit of quarter horses in the history of the Top o' Texas Show is expected.

Swisher Co. Moves To Organize Water Conservation Assn.

Swisher County is joining Lamb, Hockley and Dallam counties in efforts to form underground water conservation districts under provisions of House Bill 162, according to a report by the High Plains Water Conservation and Users Association.

The announcement came following a meeting in Tulia, May 25, held under auspices of the Swisher County Farm Bureau. Speakers included Clyde Bradford of Happy, president of the Swisher County Water Users Association; Perry Bowser of Kress, member of the executive committee of the High Plains Water Conservation and Users Association; and Miss Salla Rodman of Littlefield, information director of the High Plains group.

Starting in mid-June, the Swisher County Water Users Association will hold a series of meetings through which they hope to reach every water user and submit the proposal for a district, Bradford said.

Fifteen members attended the Farm Bureau meeting and round-table forum. They were unanimous in expressing the opinion that a district should be formed as soon as possible.

Both Bradford and Bowser attacked the idea of state control of underground water use. They told of a fight carried on by High Plains farmers in which two state-control bills were defeated in the Texas Legislature, and of passage in 1949 of a farmer-sponsored "local option" bill. Recently, they reported, the Texas Water Code Committee has heard attacks on the present law and suggestions that a state agency similar to the Railroad Commission be set up to control drilling and pumping of irrigation wells.

Proponents of the state-control bills argue that House Bill 162, that

provides for the creation of locally-controlled independent water districts, is unworkable, Bowser said. He declared that organization of one or more water districts would prove this charge to be untrue.

Both Bradford and Bowser agreed that some sort of regulation is desirable to insure proper spacing of new wells, to prevent waste and to carry out a re-charge program. Water districts, they pointed out, have authority to carry out such a program under the present law.

Miss Rodman explained provisions of the present law in regard to forming districts and told of progress in Dallam, Hockley and Lamb counties toward organizing districts.

RECIPE OF THE WEEK

Blackberry Roll
Prepare baking powder biscuit dough; roll 1/4 inch thick. Place 1 pint blackberries on the dough and sprinkle with 1/2 cup sugar, dust with cinnamon. Roll as jelly roll; place, seam down, on greased baking sheet. Brush with butter and bake in hot oven (400 degrees F.) 25 to 30 min-

utes. Serve with whipped cream.
Baking Powder Biscuit Dough
2 cups sifted allpurpose flour
3 teaspoons baking powder
1 teaspoon salt
1/4 cup shortening
2-3 to 3-4 cup milk
Sift together dry ingredients; cut in shortening until well mixed and add milk, stirring quickly until a soft but not sticky dough is formed. Turn out on lightly floured or cloth covered board and knead gently to shape into smooth ball; roll lightly to 1/4 inch thick.

Texico Seniors Back From Colorado Trip

Concluding a five-day tour over Colorado, thirteen Texico seniors and their sponsors returned to their respective homes last week, after having enjoyed the seasonal class trip. The group went from here to Pagosa Springs, where they took in the sights and enjoyed a dip in the warm springs, then made a drive to the La Verde national park and returned to spend the night on a ranch near Pagosa Springs.

They also visited Royal Gorge, and made the trip down into the gorge, and spent some time taking in the various scenic spots near Colorado Springs. On the trip were Supt. and Mrs. Agrie Jones, the sponsors; Frankie Harris, Lona Mae Jones, Billie Roberts, Joyce Holland, Raymond Troy Martin, James Harding, Jim Billington, Patsy Ingram, Betty and Peggy Donahey, Douglas Williams and Paul Clark, seniors; and T. B. Allen, the bus driver.

MOVING TO ROSWELL
Mr. and Mrs. Lawrence Ham are planning to move to Roswell at an early date. Ham has been employed there for the past several months, and is now building a home there.

ATTEND FUNERAL
Mr. and Mrs. B. L. Harding, J. T. Harding, and Mrs. W. J. Matthews have returned home from Mountain-air, New Mexico, where they went last Tuesday to attend the funeral of a cousin, Jim Farmer.

Scant Wheat Harvest Will Start Shortly

"There is no anticipated need for men or machines anywhere in the Texas wheat belt."

That, in a nutshell, sums up the wheat harvest situation, as reported this week by the Texas Employment office in Amarillo.

Along with Castro, Bailey, and other counties of this particular area Parmer farmers report very little wheat other than irrigated and that on summer tilled land and with fair weather for the past several days, harvest is expected to begin June 12 to 19, the survey reveals.

Deaf Smith county also anticipates an exceedingly light harvest, which is expected to get underway around June 20th.

Wheat fields in this county—such as they are—have begun to show a definite golden cast during the past few days, but the harvest itself will probably be only a mere trickle.

Hail which fell south of Friona the past Thursday afternoon is reported to have done some damage to irrigated fields. The stones, most of them the size of ping-pong balls, pounded the town and area near about for several minutes as the black cloud moved in from the south. In the city and nearby some damage to windows and garden plots was reported.

MOVES OFFICE

The small office building of B. N. Graham was moved the latter part of last week, making way for the large store building to be erected at the corner of Third Street and Ave. A by C. G. Davis. Graham located his office just north of the Ralph Humble implement house on Third Street.

School, Teacherage Will Be Improved

General clean-up and repair work was started during the past week at the Farwell school, following dismissal of the 1949-50 term on Friday May 19th, Supt. Jack Williams said today.

No big changes are planned for the school building, he added, explaining that some painting and general overhaul necessarily follow a term of school. Teacherage units will also feel the paint brush and see other repairs this summer.

Grass is to be planted around the school, particularly in front of the home economics building and at the front of the main building, where preparation work has been in progress for some weeks. Some re-seeding will also be done of the Steer football field, where the grass was badly worn during the last gridiron season, the superintendent added.

County Bond Sales Slow In New Drive

Parmer County Series E bond sales were exceedingly light during the first week of the Independence Bond Drive, which opened on May 15th and will continue through July 4th, according to a report issued by the state office.

With a quota of \$22,000 in Series E government bonds assigned, only \$525.00 was issued in bonds during the initial week of the campaign, the state survey reveals.

Bailey County, the tabulations show, was unreported with no sales listed at the end of the first week, against a quota of \$16,000. In Deaf Smith County, bordering Parmer to the northeast, a quota of \$43,000 has been asked, and sales of \$10,593.75 were reported at the end of the first week.

ALTA NORTON IS BRIDE OF HERMAN GERIES IN QUIET HOME CEREMONY, SUNDAY MAY 28

Miss Alta Pauline Norton, daughter of Mr. and Mrs. L. L. Norton, exchanged wedding vows with Herman Geries, son of Mr. and Mrs. Dick Geries of Lariat, in a quiet but impressive ceremony in the home of the bride's parents on Sunday, May 28, at 2 o'clock.

The single ring ceremony was performed before an improvised altar of red roses mingled with greenery, with Rev. J. J. Terry, pastor of the Oklahoma Lane Baptist Church, officiating.

The bride was lovely in a street-length dress of white nylon tulle featuring a lace yoke. Her white net fingertip veil had a lace edging and was held in place by a halo of artificial orange blossoms. She carried a white Bible on which rested a nosegay of red roses with white satin streamers.

For something borrowed she wore a necklace and ear rings belonging to Mrs. Dick Geries, for something old she carried a white linen handkerchief over fifty years old that belonged to Mrs. Hattie Geries; her traditional blue garter was something blue, and for good luck she wore a coin, dated 1879, in her slipper.

The bride entered on the arm of her father, who gave her in marriage, as Harold Carpenter, uncle of the bride, played the Mendelssohn Wedding March.

Pre-nuptial music was provided by Miss Wilma Norton, young sister of the bride, who sang "Always", accompanied by Harold Carpenter.

Miss Pauline Sheets, close friend of the bride, served as the maid of honor. She was attired in a street-length frock of yellow satin with white accessories, and wore a shoulder corsage of yellow carnations. Bob Geries, brother of the groom, served as best man.

Immediately following the wedding a reception was held in the dining room of the home. A lovely two-tiered wedding cake of white with pink trim, and pink roses centered the serving table, which was draped with a white crocheted cloth.

After the cake had been cut by the newlyweds, Mrs. Harold Carpenter served and Miss Pauline Sheets presided at the punch bowl.

Guests present for the occasion included Mr. and Mrs. Dick Geries and family, Mrs. J. J. Terry, Mr. and Mrs. D. W. Carpenter, Mrs. Hattie Geries, Fred Geries, Mr. and Mrs. Ernest Kube, Mr. and Mrs. Harold Carpenter and Gerald Curtis.

Following the reception the couple left for Ruidoso, N. M., to spend a few days, after which they will be at home near Lariat, where the Geries is engaged in farming. For her traveling costume Mrs. Geries chose a navy and grey linen suit with accessories in white and wore her bridal bouquet.

Both are graduates of the Farwell school, Geries having concluded his work in 1949 and Mrs. Geries having graduated this spring.

Tribune job printing is best.

Recent Nuptials Are Announced Locally

Announcement has been made locally of the marriage of Miss Doris Matthews, daughter of Mr. and Mrs. R. C. Dunlap of Clovis, to Vernon Blain, son of Edgar Blain, formerly of Texico and now of Neosho, Mo.

The ceremony was held in the home of the bride's parents in Clovis on Sunday, May 21, at 9 a. m., with H. B. Gillman, Amarillo minister, officiating in the lovely double-ring ceremony.

Mrs. Calvin Blain of Farwell, sister-in-law of the groom, greeted the guests at the door, and Miss Betty Lawrence, accompanied at the piano by Mrs. Lynn Martin, sang "Because."

Misses Betty Dunlap and Shirley Ann Matthews, sisters of the bride, lit the candles, both dressed in green and white with gardenia corsages. Buford Dresser, brother-in-law of the bride, gave her in marriage.

For her wedding costume she wore navy blue with white accessories and carried a colonial bouquet of white carnations.

Mrs. Buford Dresser served as matron of honor, wearing a lavender frock with a corsage of pink carnations, and Calvin Blain, of Farwell, attended his brother as best man.

Mrs. Blain attended Clovis high school and Blain is a graduate of the Texico school. After honeymooning at Ruidoso, Carlsbad and in Old Mexico the Blains will be at home in Santa Fe where he is employed by the Mountain States Telephone and Telegraph Company.

Mrs. Hadley Hostess To WSCS Meeting

Mrs. J. R. Hadley was hostess the past Thursday afternoon to the regular meeting of ladies from the Women's Society for Christian Service.

"Christianizing Our Homes", the topic of the afternoon study, was directed by Mrs. W. H. Graham, with Mrs. A. D. Smith, Mrs. Murphy Duncan and Mrs. Ruby Dixon assisting in the program.

Report on the recent annual WSCS conference, held in Tucumcari, was given by Mrs. Duncan, delegate from the local church.

At the conclusion of the afternoon the hostess served punch and cake to Mesdames Murphy Duncan, Ruby Dixon, B. N. Graham, A. D. Smith, Albert Thomas, G. W. Atchley, Lena Yoder, N. L. Sharp and W. H. Graham.

Engagement Revealed, Will Marry In July

Mrs. T. E. Roth of Texico is this week announcing the engagement of her daughter, Coeta Fern, to Ansel P. Doolittle, son of Mr. and Mrs. T. T. Doolittle, also of Texico.

Nuptial vows for the couple will be read on Friday, July 2, in the home of the bride-elect.

Roth Home Scene Of Family Reunion

The home of Mrs. T. E. Roth in Texico, was the scene of a family reunion on Sunday, May 28th. Relatives from various parts of the country started arriving at the Roth home on Friday, remaining until Monday morning.

The occasion was a gathering of the Haynes children and other guests also visited in the Roth home Sunday afternoon.

Here for the reunion were Mrs. Roth's father, F. S. Haynes, of Colville, Washington; the children, Mr. and Mrs. Earl Dunn of Ponca City, Oklahoma; Mrs. D. J. Tomlinson and daughter, Barbara, of Ponca City; Mrs. George Woodhouse of Canadian; Mr. and Mrs. Johnny Coleman of Canadian; Mrs. O. E. Cowser of New London, Texas; Mr. and Mrs. Charles Ray of Seminole; Mr. and Mrs. F. L. Haynes and sons, of Guyton, Okla.; A. L. Haynes and daughter, Cora June, of Pollette, Texas; Mrs. Roth and children, Coeta, Carmen, Ted and Bill. Guests present were Ansel Doolittle and Wayne Tucker.

The entire group motored to Hereford, Sunday night, for dedication services at the recently completed First Christian Church.

Girls Sign Up For Summer Classes

Twenty-three girls have enrolled in the summer homemaking course offered by the Farwell school, Mrs. John Lovelace, instructor, reported today.

Home and group projects during the summer, Mrs. Lovelace explained, give the girls an opportunity to earn one-half credit. Approximately 130 hours of home and group work is required to receive the credit.

Some of the home projects include food preservation, meal planning and preparation, working schedules, embroidery, laundering, sewing for self and family, child care, grooming, yard improvement, helping with Bible school, room improvement, or summer house cleaning.

The first group meeting will be held this (Wednesday) afternoon at 2 p. m. in the homemaking department of the school. A demonstration will be given on making plastic plaques, a film will be shown, and plans for work groups will be made, Mr. Lovelace said. The girls will choose from the following: aluminum tray making, copper craft, leather craft, and stenciling.

White Family Members Enjoy Reunion Here

Members of the A. D. White family enjoyed a family get-together on Sunday, May 28th, when the entire group assembled for the first time in ten years.

Present for the occasion included the parents, Mr. and Mrs. A. D. White; four sons, Joe White of Farwell; Wilbert White of Pasadena, California; Milbert White of Garden City, Kansas; Lt. Gwyn White, of Enid, Oklahoma; Henry White and family, of Amarillo; and one daughter and her husband, Mr. and Mrs. Lloyd Taylor, of Amarillo.

Children Gather In B. N. Graham Home

Children of Mr. and Mrs. B. N. Graham gathered in the family home during the weekend, to visit their parents and a brother, Howard, who last week received his bachelor degree at McMurry College, in Abilene.

Visitors here included Mr. and Mrs. Raymond Ross and children of Morton; Mr. and Mrs. John Graham and sons, of Lubbock; and Mr. and Mrs. William Thornton and daughter, of Bovina.

Marcia Johnson Is Worthy Advisor

Miss Marcia Anne Johnson, daughter of Dr. and Mrs. V. Scott Johnson of Clovis and formerly of Farwell, was installed as Worthy Advisor of Rainbow Assembly No. 8, of Clovis, last Wednesday night.

The impressive services were held in the Clovis Masonic Hall, and a decorative scheme, featuring blue and white, the colors chosen by Miss Johnson, was used.

Mrs. Hunter Here

Mrs. S. C. Hunter, pioneer Texico resident who has been making her home in Dallas for the past year, is a guest at present in the home of Mr. and Mrs. W. J. Matthews, near Texico. She will be here for several days, visiting with old friends.

Home From Tennessee

Mrs. Walter Hardage and children, Mrs. Edd Hardage and Mrs. W. H. Spurlin returned home the latter part of last week from an auto trip to Memphis, Tenn., where they saw relatives. Enroute home, they visited in Little Rock and Hot Springs, Ark.

Mrs. Lee McDaniel and children, Tracy Lee and Dana Ralph, are here from Lubbock as guests in the home of her parents, Mr. and Mrs. Ralph Humble.

Mrs. Bess Henneman was a business visitor in Hereford, the past Saturday.

Go To Austin

Mr. and Mrs. Jess Herbert Pipkin and son of Canyon visited briefly in the home of his parents Mr. and Mrs. O. B. Pipkin in Farwell Sunday morning. They were enroute to points near Austin, where they plan to spend several days.

Moves To Hereford

Mrs. Bess Henneman, who has been employed at the local PMA office during the past month, moved to Hereford on Tuesday, where she will be employed.

In McMath Home

Mrs. L. B. Terry, of Lubbock, visited Saturday in the home of Mr. and Mrs. L. L. McMath of Texico. She was accompanied home by her young daughter, Carol Jean, who had been visiting here several days.

To Oklahoma City

Mrs. Sterlyn Billington and daughter, Kathryn, left early Monday morning for Oklahoma City where they will have checkups at an asthma-hay fever clinic. They plan to return to their home on Thursday.

Are Dinner Guests

Mrs. Clara Green of San Jon N. M. Mr. and Mrs. Les Means Mr. and Mrs. J. T. Coburn and Jess Thomas were dinner guests in the home of Mrs. H. Ross in Texico Sunday.

Here From Rule

Mr. and Mrs. Walter Hadley and children, Billy and Geraldine, were here the past weekend from Rule, Texas, for a visit in the home of his parents, Mr. and Mrs. J. R. Hadley.

Band Camp Begins At ENMU, June 1st

PORTALES—The third annual band camp at Eastern New Mexico University will get underway June 1 with 120 students and at least 15 graduate students enrolled, according to C. M. Stookey, University director of bands. Clarence Sawhill, director of bands at the University of Southern California, will head the guest faculty.

In addition to University students enrolled, the membership of the camp will include high school and college students from 23 localities. Represented will be Portales, Santa Fe, Yeso, Albuquerque, Jal, Deming, Clayton, Carlsbad, Rogers, Farwell, Hot Springs, Stigler, Okla.; Alamo-gordo, Clovis, Elephant Butte, Roswell, Vaughn, Derry, Hoops, Las Cruces, Artesia, Eunice and Tucumcari.

Graduate students will include Leroy Jacobs, Clayton; William Wehrsted, Denver City; Gregg Randall, Hot Springs; Creighton Hogan, Seagraves; John Buhalts, Hobbs; Phil Farr, Farmington; Ben Stevens, Artesia; Bernette Shacklette, Santa Fe; Fred Danforth, Morton; Woodrow Cameron, Roswell; Lou Fink, Roswell; Jim Thornton, Albuquerque; Robert Daniel, Albuquerque; George A. Walker, Seminole; and Mrs. Irma Jobs, Farwell.

Other members of the staff will include Himie Voxman, William Gower, and Frank Malewski, all of the State University of Iowa, assisted by various high school band directors of the area.

A public concert by the camp band will be presented Friday evening, June 9, and varied activities have been planned for recreation. Included will be a get-acquainted party, a sand hills picnic, a stunt night, movies, ping pong and tennis tournaments. A feature of the public concert will be the crowning of a camp queen.

The camp closes June 10.

Sen. Anderson Will Dedicate Building

PORTALES—Senator Clinton P. Anderson will deliver the dedicatory address June 1 when the Student Union building on the Eastern New Mexico University campus will be formally dedicated. Governor Thos. J. Mabry has been invited to present the building to the board of regents on behalf of the state.

The dedication ceremonies are scheduled for 4 p. m. in the ballroom of the Student Union. Commencement exercises will occur the same evening at 8 p. m. in the University Quadrangle Building patio. Dr. C. C. Colvert, professor in education at the University of Texas, will deliver the commencement address.

Two other events are also included in commencement week activities. The University symphonette orchestra, conducted by Miss Gillian Buchanan, will present a concert at 3 p. m. Sunday, May 28, and baccalaureate services will follow at 8 p. m. in the Quadrangle Building patio. Dr. Harry P. Stagg, executive secretary-

treasurer of the Baptist Convention of New Mexico, will deliver the baccalaureate address.

The public is invited to attend all four of these commencement week events, according to President Floyd D. Golden, and especially to the dedication of the Student Union building. A public address system will be used throughout the building in order that a greater number of people may hear the dedication program.

University Ag Club Makes Trip Recently

PORTALES—Twenty-seven members of the Eastern New Mexico University Ag Club returned from a field trip to Denver and Ft. Collins, Colo., on May 21. B. L. Allen, instructor in agriculture, accompanied the group.

The group visited packing plants in Denver and an agricultural experiment station at Colorado A. & M. in Fort Collins. The students also studied experiments being carried on at A. & M. in animal husbandry, breeding and feeding, and crops and soils. In the group were two Texico students, Harry Baker and Jack Donahy.

Questions & Answers

Q. I am receiving compensation from VA for a disability incurred in service during World War I. If I retire from my civil service job and receive a pension, will it affect my compensation?

A. No. Your compensation from VA is based only on your disability, not on your income or job status.

Q. I have a World War II service-connected disability. My eyesight is failing and I would like to know if VA will furnish me with spectacles?

A. If your failing eyesight is service-connected or caused by your service-connected disability, VA may furnish corrective glasses upon application.

Q. Our son, a World War II veteran, was killed in battle and his widow is now remarried. Are we entitled

to apply for compensation at this time?

A. You may apply to VA and receive compensation if you are in need, regardless of when the need arises.

Q. My husband refuses to tell me who is the beneficiary of his National Service Life Insurance. Will VA give me the name of the beneficiary?

A. VA does not divulge the name of the beneficiary of a living veteran. Only your husband can give you that information, and he is free to change his beneficiary at any time without consulting or notifying anyone.

CHECK THE COOKER

Before the pressure cooker is used, it should be cleaned and checked. Be sure the pressure gauge is registering correctly and the safety valve is working properly.

IT'S BETTER

"HOME GROWN"

You don't have to be told how good your own garden products taste... the rich, juicy flavor of your *own* tomatoes... a peach from your *own* tree! Well, that's the way we feel about *our* product... electric service. Your Southwestern Public Service Company is a "home-grown" institution... a truly *Southwestern* firm belonging to you or some of the folks you know. We're indeed proud to be a locally operated and managed company... doing business with and for "hometown" people. It's that same pride that keeps us ever-alert to the needs of the great region we serve... to assure dependable, low-cost service for better living... electrically... for everyone.

SOUTHWESTERN PUBLIC SERVICE COMPANY

25 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Lightning Protection Tips Are Outlined

COLLEGE STATION—Early summer weather in Texas is often characterized by violent electrical storms. These storms emphasize the necessity for lightning protection, says W. S. Allen, extension agricultural engineer-buildings of A & M.

He says that farm property losses from lightning average about \$10 million per year to say nothing of the estimated 40 lives lost and the 800 to 1,000 rural people who are injured each year by lightning. Something can be done to prevent these losses.

Allen points out that lightning rods, when properly installed and maintained will give practically complete protection to buildings against damage from lightning. He recommends that the installation of rod be done in accordance with the National Code for the Protection Against Lightning.

It is very important that all metal bodies inside buildings be grounded and bonded together to prevent electricity from jumping from one body to another. The metal tracks for feed carriers, feed or hay elevators and the heavy hardware on barn doors should always be grounded and tied into the lightning rod protection system on the barn.

A metal roof, electrically bonded, properly grounded and provided with air terminals to protect chimneys or other non-metallic projections, usually gives satisfactory protection. The metal roof will give little or no protection unless it is grounded and bonded and here again he says do the job according to the National Code.

If you have lightning rods on the farm buildings, he suggests that you give them a periodic check to be sure they'll perform their duty should the need arise. If you plan to install rod be sure they are installed according to the National Code. That means you've got a good job.

NEW CONTROL METHOD

The use of a new method of control for the corn earworm may make sweet corn a profitable crop in areas where previously the damage done by the worm made the crop unprofit-

able. Spray applications of an emulsion containing DDT, mineral oil and water has proved successful.

CARE FOR PEACH TREES

The best possible care should be given to peach trees suffering from delayed foliage. The delayed foliage is a result of last winter's mild weather. There wasn't enough cold weather before February 15 to break the rest period of the trees. This condition has occurred in Texas only four times in the past 50 years.

TO CONTROL TICKS

Eight pounds of 50 percent wettable DDT powder and four pounds of six percent gamma BHC in 100 gallons of water and used as a dip will control the Lone Star tick and will protect cattle against reinestation for a period of two to four weeks.

Farwell Nine Blanks Big Square, Sunday

The Blue Sox, Texico-Farwell amateur baseballers, blanked the Big Square nine on Sunday, when a regular league game was played on that diamond. The local batters put 19 runs across the plate during the match as three local pitchers handled the opposition with ease.

Don Ford started out on the pitcher's mound for the locals, being relieved by Toby Booth, who handled the fifth and sixth innings, and then Leon London took over to finish up the rout. Only two hits were allowed by the Blue Sox pitchers, while their batting mates ran up 25 hits.

Wilfred Quickel, local manager, said in reporting the game that the Big Square team played nice ball, making only four errors while the Sox were charged with two, but the locals were on a steady batting spree and while not a solitary home run was recorded the two- and three-baggers with the bases full ran up a big count.

Jack Woods led the locals with runs batted in, sending six men across home plate, Don Ford and Carlos Woods each had four, Ronald London scored three, Blackie Williams two and Bob Dollar, one. Carlos Woods, exceptionally fast, was the base stealer of the day, even skittering in home one time on a steal to run up another score for the locals.

Next game will be held on the local diamond on Sunday afternoon, when the Blue Sox will entertain the team from Dimmitt.

Quickel said on Monday that at present the Muleshoe team is leading the league of eight teams, and it was his understanding that they had a perfect record. The Blue Sox have won two and lost the same number thus far, he added. In the league are Farwell, Bovina, Muleshoe, Dimmitt,

Big Square, Lazbuddy (two teams), and Arnold's, of Portales.

HOPPERS—

(Continued from Page 1)
has moved his office to Lariat, he does his shopping there also. But we fail to see where he has any complaint. He is still located within a stone's throw of the main drag while we have been out of circulation down in the south end for 24 years . . . and love it.

Mrs. Dewey Bagley says that we missed the biggest news item of the year last week, when we failed to mention that she went to Kansas on a visit. Our telephone number is 2131, and we always appreciate reports of such worthy news items.

M. C. Roberts is planning to attend the National Grain Dealers meeting in Chicago soon. His wife suggested that he make the trip alone. "No, honey, now with my increasing age and expanding waistline, I'll have to take you along if I have a girl when I get there," he admitted.

A. C. Henneman informs his mother, Bess, who has moved from Friona to Farwell to Hereford within the space of a few weeks, that if she changes her place of residence again within the next month he is going to divorce her.

TO ATTEND GRADUATION

Mr. and Mrs. John Porter plan to leave here Sunday for Roswell, where they will attend the graduation exercises of the New Mexico Military Institute early in the week, returning home Tuesday night.

Their son, JeDon, is completing his junior college year there next week.

Another Farmer County lad, Ted Brock of Bovina, is a member of the four-year graduating class this year. He is a son of Mr. and Mrs. Aubrey Brock of Bovina.

CC MEETING—

(Continued from page 1.)

ed and was circulated at the meeting. Copies of these valuation estimates are on display at the Security State Bank, the Sikes Motor Company and at Aldridge & Aldridge, where any interested party is at liberty to examine them.

Referring to the service charge for sewerage, Mayor Henderson explained that the Commission had tentatively set the rates at \$1.50 per month for each residence, with an additional charge of 15 cents for all outlets above four in number. He explained that the ordinary home with only one bath had at least four outlets to the sewer: enumerating, the commode, sink, lavatory, and bath. All additional outlets, according to current plans, would draw an extra assessment of 15c each per month.

Charges for business houses and commercial users would be set up on a graduated scale, ranging from \$2 to \$10 per month, with laundries in the highest bracket, followed by service stations and garages where car washing is a part of their service to the public. Such businesses are grouped in the five-dollar bracket.

The service charge, once adopted, would be continued from then on, it was brought out, with the explanation that even after the bonds are retired the cost of operation would have to be maintained.

Bill Howren, Amarillo engineer who has been employed to draw the plans and specifications for the system, gave it as his opinion that the sewer set-up could be installed for \$40,000, and he added, "if the bonds carry the contract can be let in two weeks and should be in operation by September first."

He said that the entire system had been planned to accommodate a city of 5,000 population, which should be sufficient to take care of Farwell's needs for years to come.

Speaking about the estimated cost of connecting up with the sewer, Howren said that these costs would vary according to the distance from the house to the sewer lines, and the type of materials now in use for cess pools. "Roughly, I would say \$70 to \$125 will be about the cost to each patron of the sewer disposal service," he concluded.

To Receive Degree At Albuquerque

Bill White, son of Mr. and Mrs. Jack White of Texico, is slated to receive his bachelor degree at the University of New Mexico in Albuquerque next Monday, June 5th, Mrs. White stated here today.

White, a graduate of the Texico school, has majored in biology during his tenure at the University with a minor in education. Baccalaureate exercises will be held on Sunday, June 4, with commencement the following evening.

It is also understood here that Jim Bob Dow, former local resident and son of Mrs. Bess Dow, now of Roswell, will be among the graduates on Monday night.

Snow Storm Chases Vacationers Home

An unseasonable snow storm, even for Colorado, brought an end to the spring tour of the Farwell seniors who came in home shivering and recounting tales of May snow on last Friday.

Up to Thursday, the vacationers had enjoyed beautiful weather for
