

ON THE LINE

by Dolph Moten

There was a time, Farwell School Superintendent Jack Williams tells us, when every member of his faculty had a master's degree!

He didn't say when that was, but he left the impression it was more than just a few semesters in the past. Today, the situation is much different. It's difficult to get good teachers with bachelor's degrees, never mind master's.

And we're not knocking school teachers here, or anywhere else, for having a lack of education. But it is interesting to note how time has changed the situation.

Why this situation has developed thusly, we're not sure. An increased number of students with a smaller percentage of college graduates being trained for the teaching profession has made for more job security for those who go into, and stay in, public school instruction.

School boards, in many instances, have discouraged teachers with low pay and extra duties. But this probably isn't important in the overall picture.

Many teachers, we understand, leave their chosen occupation for more money potential in other fields of employment. Frankly, we don't feel teachers are as underpaid as one can easily be led to believe. For instance, where, and doing what, can the average, experienced woman school teacher make as much money in 12 months as she is making now in nine?

This teacher shortage idea came up while we were talking to Mr. Williams about the fact that just because you hire a new teacher in the summer doesn't mean he or she will be a member of your faculty come September and school-starting time.

After a teacher is signed, there seem to be no ethics which make him or her feel obligated to honor the contract which is signed with the school. On the other hand, the school board isn't in a position to do likewise if a better applicant comes along.

Understand, it's not any of our business, but as we said earlier, it's interesting. It might be well to add, too, that Mr. Williams is more sympathetic toward the job problems of teachers than we are.

The superintendent's feeling is that if a teacher wants to break his contract, it's better to allow him to do so. Mr. Williams backs this idea with the reasoning that if a teacher doesn't want to teach in your school, and feels obligated to do so, he isn't going to do the kind of job you want done anyway.

You know, it might be supply and demand, not love, that makes the world go round.

One more point before we leave this teacher topic: We've never seen or heard of students "escaping" their fundamental education because of lack of teachers. There's a shortage of newspaper people, too, but we don't know of a paper which stopped its press just because it didn't have an editor.

Speaking of education, we recently heard a well-educated local man say that he was almost afraid to admit that he is educated. Reason he gives for this is that he's met so many non-formally educated people who were intelligent that he feels he hasn't made the most of his book learning.

Though we don't exactly agree with the man along that line, we feel that's an expression of humbleness with a capital "H."

The Plains, long known for its weather conditions—sometimes wonderful, sometimes severe and always different—need have no fear of losing that reputation this year. The past several days are proof enough of that.

Late in June, a norther whistled in. Almost the first of July, and the weather was cold enough to make a light jacket feel good!

On that subject, Ray Mears, Farwell businessman, commented: "Everytime I think it's going to warm up, it dang near snows."

More off-season Plains weather showed up over the weekend in the form of money-making rain and crop-destroying hail. The rain was good—and bad—and the hail was nothing but bad as stories elsewhere in this issue point out.

Joe Blair, president of Farwell Chamber of Commerce and one of the farmers in the hailed-out district south of town, wasn't present at the chamber-sponsored watermelon feed Friday evening.

Hail struck a couple of hours prior to the watermelon eating and, as the story goes, Joe not only got his crop hailed out, but the storm caught him in the hallway of his barn and he was all but forced to watch his crop destroyed.

"I was sorta sick at my stomach," is reported as being the excuse the Chamber president made when questioned about his absence at the watermelon feed.

Holiday Hail Destroys Crops South of Town

EROSION — An estimated five inches of rain Friday afternoon caused considerable soil washing south of Farwell. Here, a maintainer is scraping top soil from State Road just south of Farwell Feed Lots.

Fourth Of July Storms Disastrous

Hail struck a devastating blow to crops south and southeast of Farwell the Fourth of July.

Besides the fields of cotton, grain sorghum, corn, and sudan which were destroyed, many others were damaged. Area worst hit by the storm was a two and half by five mile strip which began near the state line about a mile south of Farwell and went east toward Lariat.

The weather which farmers fear most also struck some three or four miles north of town.

In addition to the flattened crops, a large amount of rain, estimated at "at least five inches," caused land washing and soil erosion. Farm roads in the area were washed, causing bumps and holes in the roadbeds.

Lakes in the area were filled with water and in some instances the lake water was backed up in roads, making passage impossible.

The storm began about 5 on the afternoon of the holiday. Some reports were that the destructive hailstones fell for as long as an hour. Roofs of homes on many of the farms were damaged.

No high winds accompanied the excessive amounts of rain and hail. That, however, offers little consolation for farmers who saw their foot-high green-leaved cotton transform into leafless, match stick-like prongs and leaves on milo plants left in shreds.

Joe Magness, whose farm is located in the stricken area, said the storm was the worst he had seen, at this time of year, in 24 years here. "It was the most water we've had at one time since '41," he went on.

Magness says he is more concerned about the soil erosion than he is his destroyed crop. "I can plant another crop next year," he figures, "but I can't move that top soil back into the fields."

Amount of damage can't yet be determined, in every case. Some observers feel the grain sorghum and sudan will "make some" in spite of the hail damage. The same holds true in the case of some cotton fields.

Where the leaves were battered from the cotton stalk and the stalk itself damaged, little hope is given for it to produce. Some feel a small amount of production can be expected from cotton which suffered only leaf damage.

Damage was made doubly worse since it is too late in the year for the land to be re-planted and have time to produce.

To Attend State FFA Convention

Robert Morton, Farwell FFA advisor, and two members of the chapter will attend the annual state FFA convention. The meeting will be in San Antonio Wednesday, Thursday and Friday of next week.

Going with Morton will be the top-ranking officers of the chapter for next school year. They are Bill Owen, president, and J. F. Mounts, vice-president.

Farwell chapter will be allowed one vote at the convention.

Morton and the two delegates will leave for San Antonio Tuesday.

4 Positions Vacant On Farwell Faculty

Four positions remain vacant on the faculty of Farwell Schools for the 1958-59 term. This was revealed at a regular meeting of the school board Monday night.

A. R. Bostick, who taught at Hart last year, was signed earlier this summer to teach in elementary school. However, his resignation was accepted by the board at this week's meeting.

Vacant positions are fourth, fifth, and sixth grade sections and high school English, Superintendent Jack Williams reports.

Also the board interviewed one of three applicants for a custodian job which is open. No action was taken.

Williams says there's a possibility that two of the four faculty vacancies may be filled this week.

Remodeling work at the school is almost over. Carpenters will finish their job in the improved auditorium this week. Painters began redecorating the building Tuesday.

Also on the brink of completion are the remodeling of the science department and the dressing room addition which was constructed on the south side of the auditorium.

Foundation on the new elementary building being built on the block north of the present school plant, was poured this week.

Construction on the cafeteria addition is progressing.

Jobeses To Norman

Mr. and Mrs. Shelby Jobes left Wednesday for Norman, Okla., where Mrs. Jobes, band director in Farwell Schools, is attending a band clinic at the University of Oklahoma today (Thursday) and Friday.

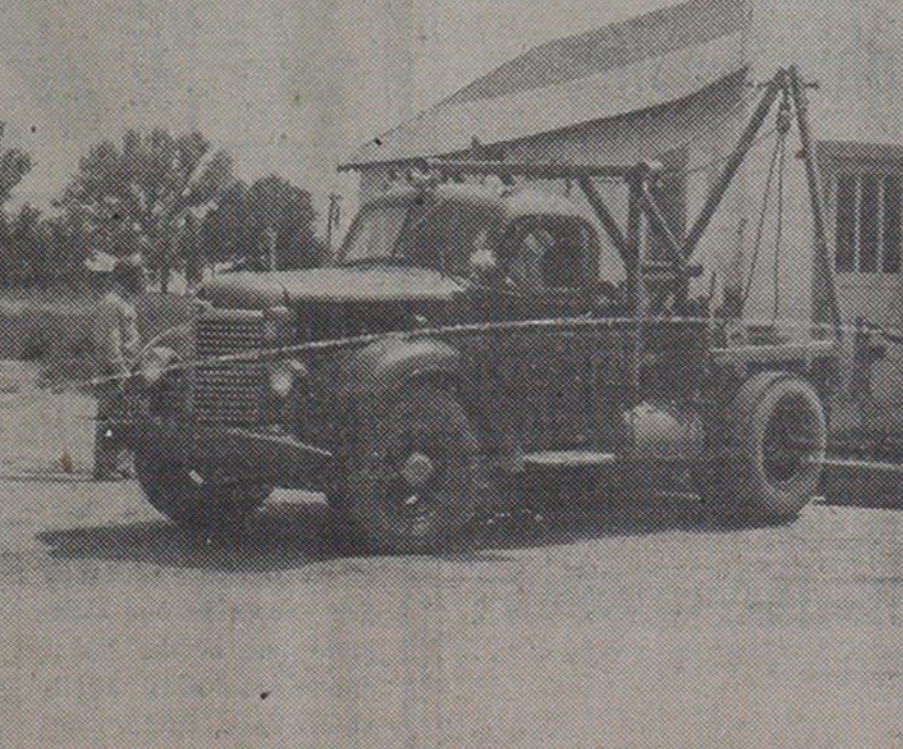

Director of the clinic is A. R. Casavant, director of the nationally famous Chattanooga High School Band, Chattanooga, Tenn. Features of the clinic include lectures, demonstrations, movies, and panel discussions.

Work Begins On New Building In Texico

Construction began Tuesday on a new, \$50,000 building in Texico.

Upon its completion, it will house a service station and a restaurant. Tom J. Finley is owner of the building.

Contractor is L. O. Reynolds Lumber Co., Lubbock. Work is scheduled to be complete in 120 days, Finley reports. Location is on the south side of the highway in Texico, on the lots formerly occupied by Houston Lumber Co.

MAKING WAY FOR PROGRESS—This building, a part of Texico for some 35 years, was moved Monday. Located on the south side of the highway, the structure housed Houston Lumber Co. for many years. More recently it has served as an office for a trucking firm. It was moved to make way for a \$50,000 service station-cafe building which is being built on the lots by Tom J. Finley, Texico and Clovis oil man. The old building was purchased by W. E. Curtis, moved to his farm and will serve as a tenant house.

HAIL-FLATTENED SUDAN — Joe Magness is shown in his field of sudan which suffered severe hail damage. With his right hand, Magness holds a stick indicating how tall the crop was prior to the storm. He feels the sudan will continue to grow to some extent in spite of the damage.

Equalization Board Schedules Hearing

Equalization board for Farwell School District will meet tomorrow (Friday) in the auditorium of the city hall.

Starting time of the meeting will be 9 a.m. The meeting will continue until 5 p.m., Wilfred Quickel, school tax assessor-collector, announces.

Members of the equalization board are G. T. Watkins, C. C. Christian, and L. L. Norton. Dick Gerles, Joe Magness, and Clarence Johnson are alternate members.

School taxes for 1958 will be higher than in '57, Quickel points out. There will be no raise in evaluations, other than natural increases, but the tax rate will be given a boost.

Per \$100 valuation, the tax rate will be increased from 38 to 43 cents, depending on action of the school board. This will make the tax, per \$100 valuation, \$1.88 to \$1.93. Last year the tax rate was \$1.50.

Reason for the increase is the building and expansion program which the school plant is now undergoing. Additional revenue will be used to pay off bonds, which were voted several months ago.

Taxes for 1958 will be due January 1, 1959. However, they may be paid from the first of October until that date.

Cards, announcing the equalization board meeting, have been mailed to all property owners, Quickel states.

Scouts Schedule Park Clean-Up

Texico Boy Scouts will meet at 6 p.m. today (Thursday) for a field day at the park. They are asked by Scoutmaster C. H. Webb to bring hoes and rakes to work with. Care of the park is one of their summer projects.

Because they were unable to secure enough adults to accompany them, the Scouts have postponed a camping trip planned for next week. They were scheduled to attend Camp Wehinapey near Weed, N. M., for a week, but will probably substitute a weekend camping trip in the near future.

REHEARSAL CANCELLED

Rehearsal of the Texico Band scheduled for Thursday night has been cancelled, according to Fred Danforth, director.

More Bootleggers Caught, Tried, Fined \$100 Each

Another bootlegging case, the second in two weeks, was tried in county court at Farwell Saturday.

A Latin-American and an immigrant from Mexico, both Parmer County farm laborers, pled guilty as charged. They were each fined \$100 and costs by Judge A. D. Smith.

Bernade Rodriguez Alonzo, 43, and Julian Hernandez Garza, 27, the immigrant, were apprehended by Ben Moorman, Friona police chief, Friday northwest of Bovina.

According to a report from the sheriff's department, the men were coming from Grady, N. M., where the sale of alcoholic beverages is legal.

They had in their possession five cases of beer in quart bottles and one case of 12-ounce cans.

Absentee Voting Now Underway

Absentee ballots for the Democratic Primary, which is July 26, may now be cast. This announcement comes from County Clerk Hugh Moseley.

Ballots may be marked in the office of the county clerk in the courthouse at Farwell.

Opening day for absentee voting was Monday, July 7.

150 Attend C of C Watermelon Feed

"Definitely a success, considering..."

That is the report of Wilfred Quickel, secretary-manager of Farwell Chamber of Commerce, on the community-wide watermelon feast which was held the evening of July 4.

Rain marred the Chamber-sponsored event, which was held at the football field. But in spite of the bad weather, some 150 people were present to enjoy the free melons.

"We feel a lot more people would have been present if it hadn't been raining," Cary Joe Magness, Chamber vice president, says.

For the occasion, 50 melons were purchased. A total of 24, cut in slices of six and eight, depending on the size of the watermelon, were consumed.

Chamber members assisting with the slicing were Magness, Quickel, G. T. Watkins, D. W. Bagley, J. R. Thornton, and Lawrence McKillip.

District Court Grants Decrees

City of Farwell was granted judgment on four tax suits in a district court session Wednesday afternoon.

This was the first official appearance in Parmer County for Special District Judge Bill Street. Formalities will have to be completed before other action is taken in regard to the delinquent tax suits, Hurshel Harding, county attorney, says.

Members of the jury commission drew up a jury panel for grand and petit juries for next term, which begins September 1. On the jury commission were Charles Allen, Mrs. Clyde Magness, E. B. Caldwell, and R. W. Anderson.

Judge Street recalled the grand jury for Monday, July 28.

Hostesses to the Tierra Blanca Association WMU quarterly meeting today (Thursday) are the members of the Farwell WMU.

The all-day session was slated to begin at 10 a.m. Theme for the day is "From Victory Unto Victory Through Ministry," and the message for the day was by Mrs. Henry Heck of Idalou.

Rev. Jack Jeter, minister of the Bovina Baptist Church, pre-which was followed by special music and the business session conducted by Mrs. P. A. Adams of Friona.

Mrs. Stewart Takes Part In Celebration

Mrs. Stanley Stewart spent the weekend in Amarillo with her sister, Mrs. Lillian Bailey.

The two were guests of the Will Rogers Range Riders for the Pioneer Celebration honoring people in the Golden Spread and homesteaded the territory.

Mrs. Stewart and Mrs. Bailey came with their parents, Mr. and Mrs. Thomas Selman, 52 years ago. The family homesteaded in the Quay Valley.

Following luncheon at an Amarillo restaurant, the women participated in the parade and were guests at the rodeo Friday afternoon.

A highlight of the day was a special tribute to the pioneers given by a band and drill squad of the U. S. Marine Corp from Memphis, Tenn.

Stanley Stewart, who came to Roswell, N. M., in 1900, was unable to attend the celebration.

Texico Will Buy Insurance For Firemen

Town of Texico will purchase health and accident insurance for members of the volunteer fire department.

The town's board of trustees decided to bear this expense at a regular meeting Saturday morning in the municipal building.

Previously, the fire department itself had paid for this insurance. Cost will be less than \$300 for a three-year period, Juanita Autrey, town clerk, reports.

In other action, the trustees approved a request by Texico Boy Scouts to build a hut on the town park. Also, the board passed a resolution to balance the water and sewer budget for the past quarter.

A two week's vacation, from July 12-23, was approved for Mrs. Autrey. The town hall will remain open during her vacation. However, her replacement has not been officially named yet.

The group discussed additional paving for the town, but no official action was taken.

Corypenn Station Schedules Opening

A new service station will open in Farwell Saturday. The Corypenn Co., Inc., which has gasoline stations throughout New Mexico will open a business here in the station building east of Kirkland Pump Co. on Highway 70-84.

Jimmie Phillips, formerly of Clovis, will be dealer for the station. Name of the gasoline sold will be Corypenn. All brands of motor oil will be available to customers. Also,

Phillips says the business will do washing, greasing, handle accessories and other things which are expected of a first class station.

The building has been redecorated and advertising signs have been painted last week and this.

Headquarters for The Corypenn Co. is in Albuquerque, N. M. Name of the station here will be Jim's Corypenn No. 16.

It will be open 24 hours a day and Phillips plans to hire

two men to help him operate the business. Plans for the grand opening have not been completed.

DAMPENED AND HAIL-BEATEN spirits were certainly evident around the country on the aft of the past Fourth. Old-timers in the area tell us that the hailstorm that occurred then was the worst that can be remembered. Am guessing that the damage will amount to hundreds of thousands of dollars. . . and most of it is uninsured. Would certainly like to talk with you about crop insurance. YOU might not be missed next time.

THE PRINTER'S INK on POW WOW could hardly have been dry last week when E. R. (Weedy) Coffman called to inform us that he had ripe tomatoes on his vines. Sure enough the tomatoes are there and Weedy has a malt to his credit. Don't forget that the malt offer is still standing for the first ripe watermelon.

SPECIAL OF JULY. During July we are offering a free analysis and survey of insurance protection. Are you protected properly? Have you too much—too little of some coverage? Can you get greater protection for what you are now spending? Have you overlooked something that might bankrupt you in case of trouble? These, and all other phases, of your insurance will be analyzed expertly. For this service, write Graham-Magness Agency, or phone IV6-3671.

WELCOME TO FARWELL: Mr. and Mrs. Neil Smith, formerly of Bovina, are the newest residents in Farwell. Neil is employed by the local Worley Elevator and they are planning on making Farwell home.

DRIVE WITH CARE: One life is all you'll ever have. Slow down before you lose it. It seems a crime to make good time.

And then not live to use it. **BILL PRINCE**, local grain exchange operator, although a newcomer to Farwell, is doing his share to bring fame to the local area. Clovis Country Club golf tournament held over the past weekend found Bill pretty good competition as he walked away with the runner-up award in the championship flight. Congratulations, Bill!

VACATION TIME IS HERE. Before you start on your trip this year come by the office and let us tell you about our travel accident insurance. Travel with peace of mind, knowing that you and your family are insured against accidental death and serious injury. This policy can be issued for a period from 3 days to 180 days in amounts from \$5,000 to \$50,000 accidental death benefits. Cost of this protection is so small you can't afford not to have it.

ATTENTION YOUNG'UNS: In adding to our supply of give-aways, the Agency now has a goodly number of clever Color Books for kids. If you would like to have one come by the office.

WIFE SAVER: BAKED-ON STAINS IN THE OVEN? Leave a shallow dish of ammonia in the closed oven overnight. Stains will soften and be easy to remove.

HAVE YOU HEARD: . . . "I had to shoot my dog this morning."
 "Was he mad?"
 "Well, he wasn't any too well pleased."

WHEN YOU HAVE FRIENDS OVER, how much will it cost to entertain—a few dollars—or \$22,000? A loose carpet on a stairway was responsible for making a guest take a bad fall, and a jury made her host pay \$22,000 for serious internal injuries. This case is typical of hundreds of almost routine situations that could wind up in a costly lawsuit, and perhaps a judgment for damages against you. Fortunately, one low-cost insurance policy would pay the judgment in this case, and would cover just about anything else you or a member of your household could do to get sued. But that isn't all. . . it pays all costs of defending the suit (often several hundred dollars) and medical expenses for persons injured, whether you are liable or not. By assuming these costs, our Comprehensive Personal Liability policy protects your savings, your assets, and your future earnings.

A THOUGHT FOR THINKING. . . . The nice thing about a college education is that it enables us to worry about things all over the world.

Jerry Henson spent the weekend in the home of his parents, Mr. and Mrs. Clay Henson. He is attending summer school at Hardin-Simmons University in Abilene. He was accompanied by Miss Carolyn Deal, of Abilene.

MRS. OTIS F. CULPEPPER

Miss Magerus Bride Of Otis Culpepper

Otis Fancher Culpepper and his bride, the former Miss Jo Sondra Magerus, are making their home at 2824 S. W. 54th Place, Oklahoma City.

The couple was married recently at the Hillcrest Church of Christ in Oklahoma City. Lewis G. Hale of Oklahoma City officiated at the double ring ceremony. Parents of the couple are Mr. and Mrs. Albert Magerus of Oklahoma City, formerly of Texico, and Mr. and Mrs. O. F. Culpepper of Gould, Okla.

Jade palms and seven-branched candelabra holding white tapers provided the background for the altar setting. Candles were lighted by Daniel Culpepper and Gary Fancher, brother and cousin of the bridegroom.

Wedding music was by Miss Lottie West who sang "At Dawning" and "The Lord's Prayer" and Clifton Mauldin who sang "Because." They were joined by Mrs. Neal Carrick and Alvin Bryan in singing the wedding march and the bridal chorus.

Miss Kathryn Hensley was maid of honor. She wore a ballerina-length dress of orchid peau de sole fashioned with a bateau neckline and bouffant skirt. She carried a cascade of white carnations.

Bridesmaids were Miss La Verne Draper of Oklahoma City; Miss Jimmy Warthan, former roommate of the bride from Avery; and Mrs. George Rodgers, sister of the bridegroom from Lawton, Okla. Their dresses and flowers were identical to those of the honor attendant.

Serving as best man was Jerry Wayne Johnson of Gould, college roommate of the bridegroom. Groomsmen were J. H. Butler and Charles Sheets, both of Oklahoma City; and Captain George Rodgers, brother-in-law of the bridegroom, of Lawton.

Murdicks Hosts To Family Reunion

Ninety-four persons registered at a family reunion at the J. W. Murdick home in Texico last weekend. Mrs. Murdick and her four sisters and one brother were together for the first time in ten years.

They included Mrs. Julie Benson of Corona, Calif.; Mrs. Nannie Chambliss of Post, Mrs. Annie Callahan of Texico, Mrs. Ethel Carter of Fabens, and Ben Davidson of Roaring Springs. Another brother, John Davidson of Oklahoma City, was unable to attend because of illness.

Other immediate family members attending included Mr. and Mrs. Billy Murdick and family of Amarillo, Mr. and Mrs. Melvin Erwin and children of Amarillo, Cal Carter and Mr. and Mrs. Albert Carter and children of Fabens, Mr. and Mrs. Leonard Chambliss and family of Crosbyton, Mrs. Elva Davidson of Roaring Springs, Mr. and Mrs. Billy Ferguson and family of Floydada and Mr. and Mrs. Oscar Gordon and family of Post.

Members of the Chambliss family also had a reunion with the group and relatives from Matador, Amarillo, Brownfield, and Hobbs, Tatum, and Clovis, N. M., were present.

something new. Something blue was a frilly garter presented her by her maid of honor.

Mrs. Magerus chose a black dress of embroidered eyelet for her daughter's wedding. Her accessories were white and she wore a white carnation corsage. Mrs. Culpepper wore navy crepe with white accessories and corsage.

Reception
The home of the maid of honor was the scene of a reception. Miss Barbara Hensley registered approximately 100 guests. The table was covered with an orchid cloth topped with white and silver net overskirts and satin ribbons. In the center were silver candelabras holding long orchid tapers. The modernistic three-tiered wedding cake was trimmed in silver and topped with a miniature bride and bridegroom. A silver punch service and baskets of white gladioli completed the setting.

The newly-weds cut the first slice of cake and drank a toast from the silver troth cup before taking their places in the receiving line. Serving the guests were Mrs. Wirt and Misses Mary Frances Magerus and Marlene Lepak, all cousins of the bride.

For traveling the bride chose a shell-pink sheath of brocade batiste. Her accessories were white and she wore an orchid corsage.

The bride was graduated from Texico High School and the University of Oklahoma. She will resume her duties as teacher of speech and journalism at Capitol Hill High School in September.

Culpepper, a graduate of Gould High School, is a senior student at Central State College, Edmund, Okla. He is employed by Sutherland Lumber Co. in Oklahoma City.

Among the out-of-town guests at the wedding was George Messenger of Clovis, grandfather of the bride.

FIVE GENERATION groups were nothing unusual at the recent golden wedding anniversary celebration given by their children for Mr. and Mrs. H. S. Curtis. Shown above are Mrs. Curtis, second from left; her mother, Mrs. Lula Haynes, extreme left; her oldest son, W. E.; her oldest grandson, Fred; and her oldest great-grandson, Robert. Ages of the group range from 85 to 7.

Charles Honored With Open House

Mr. and Mrs. Wilbur Charles of Bovina were honored with an open house and reception in observance of their 40th wedding anniversary Sunday afternoon.

Hostesses were their daughter, Mrs. Vernon Estes, and their daughters-in-law, Mesdames H. J. Charles, Mark Charles, and Jimmie Charles. A large number of friends and relatives called during the afternoon and were served green floating punch and cake from a table laid with white linen. A centerpiece of white chrysanthemums and red carnations echoed the red and white color scheme of the other decorations.

Mr. and Mrs. Charles were married July 5, 1918, in Alva, Okla., and came to Farmer County in 1926. Mrs. Charles is the former Nettie Morton.

Among the out-of-town guests were Mr. and Mrs. Gabe Anderson and granddaughter, Terry Edwards, and Mr. and Mrs. Wilfred Quickel of Farwell.

Williams Family Has Reunion

Approximately 45 persons attended a Williams family reunion here and in Clovis Thursday and Friday, Mrs. Les Means and Mrs. Charlie Lunsford had the opportunity to visit with seven of their nine brothers and sisters.

The group and their families had a picnic lunch in the park in Clovis both days.

Out-of-town persons here included Mr. and Mrs. Johnnie Williams of Seattle, Wash.; Mr. and Mrs. A. B. Simpson and daughter of Olustee, Okla.; Mr. and Mrs. C. H. Williams of Refugio; Mrs. Faye Jones of Long Beach, and Mrs. C. R. Boyd of Richland, Kan.

Others attending were Mr. and Mrs. Roy Williams and family and Mrs. W. R. Crook of Clovis.

GA's To Camp

Planning to leave Wednesday morning for a stay at the Plains Baptist Assembly near Floydada were nine members of the GA group of the Farwell Baptist Church.

They included Peggy and Shirlene Martin, Peggy Eason, Linda Langston, Donna Dunn, Vickie Moss, Sandra Rundell, Susan Blair, and Sylvia Smith.

They were to be accompanied by Mrs. Cecil Rundell and Mrs. R. T. Langston. Going to the camp to assist with the noon meal Wednesday were Mesdames Jewel Scott, Otis Huggins, Lois Smith, and Wanda Walker.

Expected to return Thursday or Friday from Stillwater, Okla., where they have been visiting relatives since Sunday are Mr. and Mrs. Ival Hesser, Mr. and Mrs. Jack Hesser, and Mrs. Jerry Johnson and daughter.

Gleaners Have Regular Meeting

Mrs. Clytie Dial was hostess to the Gleaners Class of the Farwell Baptist Church at her home Monday night.

During the business session the women discussed their project for the year and appointed a yearbook committee. Mrs. Dial was elected assistant teacher for the group following the resignation of Mrs. Lois Smith.

The hostess served devil food cake and punch to Mesdames Walter Hardage, Joe McWilliams, Bruce Blair, Jack McManigal, Smith, Mabel Martin, and Wanda Walker.

Children Visit Mrs. Tena Roth

Mr. and Mrs. Ansel Doolittle and Debbie of Albuquerque left Sunday night after spending the weekend in the homes of their parents, Mrs. Tena Roth and Mr. and Mrs. T. T. Doolittle.

Arriving Sunday night for an extended visit were Mr. and Mrs. Wayne Tucker. Tucker, who has just received his discharge from the Navy, has been stationed in New Jersey. They will also visit his parents, Mr. and Mrs. Hugh Tucker, in Plainview.

Four-Year-Old Has Birthday Party

Mrs. Mildred Bufkin feted her son, Milton James, on his fourth birthday Saturday with a party in their home in Texico.

Guests were presented favors of whistles, balloons, and suckers and were served refreshments of ice cream and cake.

Attending were Jean, Keith, Donnie, and Floyd Morris, Linda, James, and Roger Hudson, Vernon Ray Thigpen, and the honoree's sisters, Mary LeAnn, and Bobbie Lyn.

Johnsons Entertain

Attending a family get-together at the home of the Russell Johnsons Saturday were Mr. and Mrs. Bill Johnson and family of Alva, Okla., Mr. and Mrs. Jerry Johnson and daughter of Carlbad, Mr. and Mrs. Cecil Dykes and family, Mr. and Mrs. R. F. Gregory of Clovis, Mr. and Mrs. Ival Hesser, and Mr. and Mrs. Jack Hesser.

They played "42" and pitch and viewed home movies. Ice cream and cake were served.

Mrs. Pearl Gerie Presents Devotion

Devotion at the Monday night meeting of the Rebecca Class of the Farwell Baptist Church was given on "God's Arms" by Mrs. Pearl Gerie. Hostess to the group was Mrs. Dickie Magness.

Following the business session and the exchange of secret pal gifts, Mrs. Magness served Cokes, lemonade, and cookies to Mesdames Gerie, Vida Petree, Elsie Hardage, Geraldine Green, Bess Landrum, Ollie Utzman, and Mabel Kesner.

Son Born July 2 To M. A. Snider Jr.

Mr. and Mrs. M. A. Snider Jr. are the parents of their third child, a son who has been named Joel David. He was born July 2 in Clovis Memorial Hospital and weighed 6 pounds and 7½ ounces. Mr. and Mrs. Howard Mayfield of Frisco and Mr. and Mrs. M. A. Snider Sr. are the grandparents.

Williams Have Family Dinner

Mr. and Mrs. Johnnie Williams entertained family members at a dinner Sunday in their home.

Present were Mr. and Mrs. Glenn Fowler and family of Carnegie, Okla., Mr. and Mrs. Hal Stone and Gerald of Clovis, Mrs. J. H. Stone, Mr. and Mrs. Judge Stone, Mr. and Mrs. Bert Williams and family, and Lt. and Mrs. Mark Liethen.

Doshers Have Guests

Mr. and Mrs. Frank Doshier Sr. entertained a number of relatives Sunday.

Lunch was served at noon and homemade ice cream was served later in the afternoon. The group viewed and took home movies.

Present were Mr. and Mrs. Preston Doshier and girls of Orange, Calif., Mrs. B. J. Bellis of Oklahoma City, Mr. and Mrs. Arthur Doshier and Mr. and Mrs. Harold Doshier and girls of Lubbock, Mr. and Mrs. Jimmy McGuire and family, Mr. and Mrs. Frank Doshier Jr., and the hosts and their children.

Spending the weekend in the home of Mr. and Mrs. J. E. Stone were Dr. and Mrs. M. E. Reynolds and family of Tulsa. The women are sisters.

Vickie and Kent, and her son, Jerry Don, went to Wichita Falls to bring her home.

Mrs. Alonzo Owens of Lynch, Ky., is visiting with her son-in-law and daughter, Mr. and Mrs. Leonard Lewis and family. She has been here for about two weeks and plans to return to her home next week.

Guests Sunday and Monday in the home of Mr. and Mrs. R. S. Hines were the Andres Drager family of Rhea. Mrs. Drager is a daughter of the local people.

Attending youth camp with a group from the Clovis Assembly of God Church this week is Kenneth Murdick, son of Mr. and Mrs. J. W. Murdick. He left Monday for the Mountainair camp and will return Friday.

Mr. and Mrs. Benny Darnell of Amarillo are visiting this week in the home of Mrs. Darnell's parents, Mr. and Mrs. C. C. Christian.

To Homecoming

For the first time in 55 years four local people visited their birthplace last weekend. Mrs. H. H. Carlyle of Muleshoe, Mrs. W. J. Matthews, and their brothers, N. R. Harding and J. T. Harding, attended a homecoming at Wilson in Comanche County and visited their old home near Comanche.

Mr. and Mrs. Jerald Norton of Aztec visited several days last week with the L. L. Nortons and other relatives.

Mrs. Roy Nix and Sue of Long Beach, Calif., visited relatives in Farwell and Oklahoma Lane last week. Mrs. Nix is a sister of C. C. Christian.

Visiting with the James Box family in Albuquerque over the July 4 weekend were Mr. and Mrs. L. A. Caillouet. The Boxes' children returned to visit with their grandparents.

W. G. Dyer enjoyed enter-

taining his son-in-law and daughter, Mr. and Mrs. M. D. Ruth-erford of Big Lake, and his grandson, Leslie Dyer, over the Fourth of July weekend.

Mr. and Mrs. W. H. Graham and sons returned Thursday night from a vacation trip through parts of New Mexico and Colorado.

Mr. and Mrs. Preston Doshier and girls left Monday for Norman and Holdenville, Okla., where they will visit relatives for a week. They will return here for another week with Mr. and Mrs. Frank Doshier Sr.

Mrs. Homer Dykes returned Saturday after spending a week in Amarillo with her daughter who recently underwent surgery.

WEATHER BRINGS GOOD, BAD NEWS TO FARMERS

Parmer County area farmers, who have been among the most fortunate on the irrigated High Plains in recent years when it comes to getting a good break from the weather, have gotten several rounds of rough treatment within the past month.

Rains beginning last Thursday and continuing through Sunday over the weekend have been beneficial to almost everyone receiving them, but along with the rains have come some of the most severe hailstorms ever experienced by the farmers.

Hardest hit in the Friday afternoon onslaught of weather, which turned on nature's own brand of July 4th fireworks, were farmers in the extreme southwestern part of Parmer County and the northwestern part of Bailey County. A very severe hailstorm there laid low sorghum-type crops and stripped cotton plants three months ahead of schedule. A swath about five miles long and three miles wide was cut east-and-west south of Farwell.

The severity of that storm was matched three weeks previously east and north of Friona, where farmers on over 50 sections of land in the Black-Summerfield-Lakeview communities reeled from the sight of fields hailed flat.

The afternoon of the 4th, storm heads hovered over other parts of the county, also, inflicting damage that was not widespread, but certainly locally severe. Keeping track of the strikes of the storm has posed a problem for Farm and Home. Almost every contact with farmers brings reports of additional areas that have received damage to a greater or lesser extent.

In cases where the cotton has felt the full brunt of the storm, the crop has been written off as a total loss. Cotton plants

"The High Plains Farm and Home"

Farm and Home makes no claims about the close accuracy of this map, but it does serve to illustrate how widespread moderate to severe hail damage has been this year. Some of the boundaries of areas indicated here may be too general; there may be some other spots that are missing from the map altogether. It is very difficult to piece together such a map from reports.

that are "stripped naked" on July 4th don't have time to rebound with foliage, squares, blooms, and bolls and give the fruit enough time to mature into quality cotton before frost. That would be too much to expect on the High Plains. Damaged feed, on the other

hand, may recover in time to make some grain, although its potentialities for significant production have been minimized considerably. Re-planting hailed-out cotton to sorghum crops is under consideration, but little of that catch-cropping will be done. Ordinarily, even early maturing grain sorghums planted after July 4 do not have time to "make," and few farmers are interested in producing just bundles on irrigated farmland with its production costs. Some are considering using some of the land thus vacated

for specialty vegetable crops, but this will be a very insignificant acreage. It is very difficult to accurately appraise the amount of damage that has resulted from the storms. Until harvests are complete and yields of hail-damaged fields can be compared with those untouched, not even a good guess is possible.

However, if the total Parmer County crop valuation is \$25 million this year, the extent of the hail-hit areas suggests that it would not be too rash to conclude that the storms have represented a million-dollar loss to farmers within the past month. Perhaps the total would be even more.

Meanwhile, the moisture received from the violent weather has offset, or at least partially so, the adverse effects on crop. Rainfall has been very general, although the amounts received at local points have been variable. Amounts reported range from about an inch in the "almost missed us" sections to over four inches in the storm

centers. Averaged out, a figure of 1 1/2 inches for the typical farm would be approximately correct.

The rains have come at a timely moment. Both grain sorghum and cotton are at or near a stage where irrigations would be necessary. In fact, the dashing rains have cut silent several hundred wells that were already at work supplying the supplemental moisture necessary for maximum yields in this semi-arid region.

The wheat harvest was out of the way, so farmers welcomed the moisture practically across the board. In today's complex High Plains farming picture, it's unusual to find a time when almost everyone welcomes rain, but this could be considered one of those moments.

Crops are continuing to make good growth, and cotton appears to be ready to get a good fruit set. Were it not for the hail which has hurt a sizeable number of farmers now, crop prospects would still be considered the best since 1956—which was a record year for just about everything.

This promising grain sorghum was badly ragged by pelting hailstones Friday afternoon on a farm north of Bovina. This crop is expected to recover, however.

Elevator Goes To Hub

Parmer County elevators are a-building, and the newest one is to be at the Hub Community. Work is supposed to start this week on a 646,000-bushel unit south of the Fleming & Son Gin. Woodrow Fleming of Friona made the announcement this week, which was a follow-up to several unofficial reports that an elevator was to be built there this year.

In business with Fleming will be W. E. Stringer of Vernon, Holland Metcalf of Chillicothe, and H. E. Wilson of Electra, all grainmen in the Red River area northeast of here.

Stringer, who has purchased a home and is moving to Friona, will be manager of the new elevator, which as yet has not been named.

The elevator will be composed of both flat and tank storage. An 80x240 steel flat-storage unit will be put up, plus four 21x56 steel cylindrical tanks to make the 646,000-bushel capacity.

Plans already call for an expansion of the first units to give the elevator a 1,000,000-bushel capacity later in the year. However, 646,000 bushels is all the men hope to get completed in

time for grain sorghum harvest this year. The elevator will be equipped with two dumps and a continuous-flow style grain dryer.

First to be constructed will be the 60-foot scales and office, and work was to begin on those units this week.

"The Place Where Most People Trade" Friona, Texas Wednesday, July 9, 1958
Don't know how many of the Friona Lions had to have help to get out of bed Monday morning after the ball game, but we do know that several of them were very disappointed. The last time they'd played ball they'd been the star player able to throw a fast or curve ball at will, able to catch a fly ball or grounder, and always quick enough to keep the opposition from stealing home. Oh! Well! Time marches on.

Hand embroidery on the scarf and bag Kirsti Gunther, center, is showing Gale Hadley, left, and Lou Ann Hadley, right, was done by her aunt. The items are part of the native costume she brought with her from Norway on a visit sponsored by the International Farm Youth Exchange. She will leave Friday after spending the past two weeks with the John Hadley family southwest of Texico. A gray blouse, a long black skirt with similar embroidery, and a green vest laced together with a tiny metal chain complete Kirsti's costume.

speaks better English than we do." Parents of five children, the Hadleys were surprised when Kirsti more than once expressed a preference for staying home rather than going out. "Evidently they stay at home much more than we do," says Hadley. "We have movies, dances, and parties," says Kirsti, "but, of course, we don't drive." She rode a bicycle 10 miles to and from school each day. Singing and playing the piano with the Hadley youngsters has been a favorite pastime of the visitor. She was already familiar with Elvis and also "Sugar-time." Music is much the same as in her country except that church music is more formal and hymns used in our services are heard only in religious meetings outside the church. In addition to participating in the family's activities, Kirsti will give an illustrated talk on Norway at the Texico Farm Bureau meeting tonight (Thursday) and she spoke to an education class at Eastern New Mexico University Tuesday night and also on her agenda was a trip to Carlsbad Caverns Wednesday. Kirsti has been impressed by the hospitality of the United States. "I don't think you will find that in any other country,"

she smiles, "People are very friendly and more informal." Her poise, ability to discuss anything from farming to education to popular music, the merry twinkle in her blue eyes, and her ready smile make Kirsti an able ambassador for her country. Upon her return she will share her experiences with Norwegian youth groups, rural organizations and civic clubs in an effort to further the IFYE objective of promoting world peace through understanding people. Through giving farm youth an opportunity to learn another way of life by living it, the project helps rural young people to understand the problems and attitudes of rural young people in other countries.

have Elmer Euler construct a 25x60 building a block north of the present location, and lease one-half of it to the Farm Bureau. About 180 square feet of the Galloway Building is being used by the farm organization now. Space will be increased to about 300 square feet in the new location. One expanded service that Farm Bureau is contemplating when moving into more adequate quarters is developing their participation in the Plains "cotton pool" which often enables farmers to sell certain grades at better prices. Rodeo Is New Experience

by Laurie Cooper "We have horse races and sulky races but nothing like a rodeo," smiled Kirsti Gunther of Norway when asked for her impressions of the annual July 4 rodeo at Elida. Kirsti (her name is pronounced Shisti) attended the rodeo with the John Hadley family whom she is visiting under the auspices of the International Farm Youth Exchange program sponsored by the National 4-H Foundation. Her two weeks with the Had-

leys will be up Friday and she will go to Colfax County in northwestern New Mexico before going to Illinois. New Mexico is very different from the southern part of Norway where Kirsti lives. "We have mountains and trees. But I like it here," she hastened to add. Kirsti's family lives on a farm of about 100 acres near Halden.

The 19-year-old has been a member of 4-H clubs for five years. She is a junior leader and vegetable growing has been her major project. Norwegian clubs offer projects in the same areas as in the United States, but not so many are available. She was astounded at the wheat yields that were considered good in this area. Average is 90 bushels per acre in her fertile home land. Methods and machinery used on Norwegian farms are comparable to many are the same brands—those used here and their costs are about the same. Kirsti was graduated from what they call high school just before coming to the U. S. It is equivalent to three years of college in our school system. She has studied English for seven years. It is a required course and so are French and German. Only a slight hesitation before words of several syllables can be noted in her speech. Mrs. Hadley says, "She

A SAFE DRIVER HAS SAFE TIRES

Safe tires are important to your driving. Safe tires can mean the difference between an accident or an uneventful trip.

You can be certain of the above facts. But the majority of today's drivers are not aware that they can have the safety of new tires without having to pay out a hunk of cash every 25,000 or 30,000 miles.

The facts are that you can have safe tires for half the price and still drive about the same amount of mileage. Retreaded carcasses is the way to have safe tires without excessive cost.

H&R Tire Service of Clovis, N. M., puts new treads on sound carcasses with about the same method used to build new tires. All details of retreading are carefully checked. You can have your own sound tire carcasses re-capped, save money, and at the same time have perfectly safe tires.

You are invited to get further details by calling at their tire service store, at 300 E. 1st St., Clovis, N. M.

H. D. AGENT'S CORNER

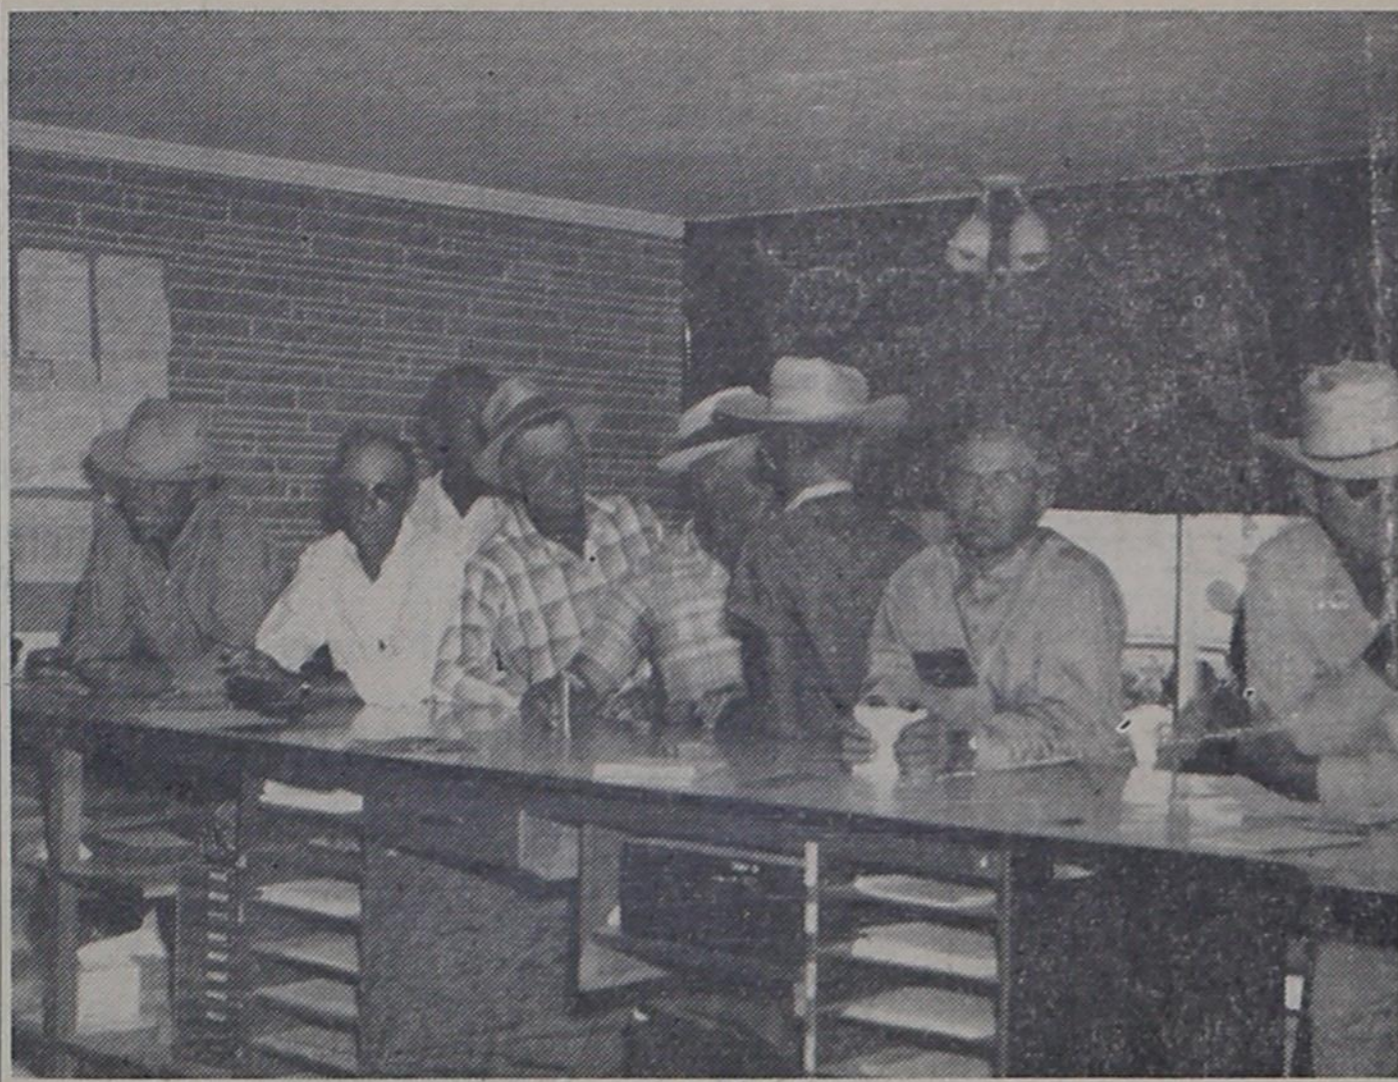

Jimmie Lou Waincott

(Editor's Note: This is the last in a series of columns written by Miss Jimmie Lou Waincott from Ft. Collins, Colo., where she took two extension courses.)

By the time this comes out in the paper, I'll be back in Parmer County. Everything is over except one class at 11. Since we have the 4th of July for a holiday, Mrs. Janie Fletcher and I are coming home the long way. We plan to go through the Rocky Mountain National Park and spend the night at Grand Lake. Then we plan to go to Leadville and on home.

In the family financial management class we have been giving committee reports. The whole class was divided into eight groups and each group went through the process of making a family spending plan for a specific family. These families had incomes from \$900 a year to \$8700.

Each family situation was a little different and each committee represented 6 to 8 states, so we really had some stormy sessions in the committee meetings. It was hard for a Kentucky agent to realize how a large irrigation farm operates. I was lucky enough to work on a committee whose family was from the irrigated section in Washington. Their situation was much the same as Parmer County's except that their irrigation water does not cost quite as much as it does here. This

WHEAT FARMERS lined up three-deep the length of the counter at the ASC office Monday morning to apply for wheat loans. Shown above are a few of the applicants waiting for a clerk—and for the fields to dry out enough to allow them to go back to work.

has been really informative and enjoyable.

In rural recreation class we have had a field day. On Tuesday we toured the Colorado State 4-H Camp on Cameron Pass. They have converted an old CCC camp into a very nice 4-H camp. There are 20 counties in northern Colorado who use the camp during June and July.

Do you realize how important recreation is to your community? That is what we have

been learning.

1. Recreation contributes to human happiness.
2. Recreation is vital to physical health.
3. Recreation is mental health insurance. (One half of our hospital beds are filled with mental patients.)
4. Recreation counteracts delinquency and crime.
5. Recreation areas are safety zones.
6. Recreation facilities enhance property values.
7. Municipal recreation attracts desirable industries.

All of these are the responsibility of the community. Did you know that each community needs one acre of playground or parks for each 100 persons? Parmer County falls short on this item, doesn't it?

I could keep writing but will stop and go to class.

THE HAPPY HOMEMAKER

BY JUNE FLOYD

A lot of garden produce is beginning to reach the proper stage for serving fresh and for canning and freezing. Anyone who is using instructions more than one year old should check with the home demonstration agent for the latest information on these two subjects.

Several new methods have been proven and are being recommended by authorities on the subject of proper food preservation. Another item which homemakers should not overlook at this time of year is the preservation of fruit. Fresh fruit will be available in large quantities at a reduced price at different times during the coming months.

If you are a new homemaker and have never tried making jellies, jams, and preserves, you have a wonderful opportunity awaiting you. It is not necessary to trust to luck when you begin the job. By adding prepared pectin you not only get a better turn out but you can easily make the desired product simply by following the instructions on the label.

Next time you want to make cookies for a party or picnic, try the following recipe. The cookies are very delicious and can be served plain or iced to suit the occasion. The recipe yields about fifty two inch cookies but if more are desired it is better to make two recipes than to double the in-

gredients.

CINNAMON SNAPS

- 1/2 cup brown sugar
- 3 tablespoons boiling water
- 1/2 teaspoon soda dissolved in 1 tablespoon cold water
- 1/2 cup shortening
- 1/2 cup granulated sugar
- 1 cup flour
- 1 1/2 teaspoons cinnamon
- 1 1/2 teaspoons ginger
- 1/4 teaspoon salt
- 1 cup flour

Mix brown sugar and boiling water. Place over low flame and bring slowly to a boil, stirring until sugar is dissolved. Cool to lukewarm. Cream granulated sugar and shortening, add brown sugar syrup and dissolved soda, and beat well.

Mix cinnamon, ginger and salt with 1 cup of flour and sift twice. Add to creamed mixture and blend thoroughly. Then work in 1 cup additional flour to make a stiff dough. Chill, roll thin, cut into shapes and place on buttered cookie sheet. Bake in moderate oven. If desired, these may be iced.

If you want a seven-minute icing that is different, try this recipe made with powdered sugar. Stir together 3 tablespoons hot water and 1 cup powdered sugar, then boil in a covered pan until the sugar is dissolved. Place in a small mixing bowl 1 unbeaten egg white, 1/4 teaspoon cream of tartar, and 1/8 teaspoon salt. Add the hot syrup. Beat these ingredients at high speed until the icing is the right consistency to spread (from 3 to 4 minutes). Add 1 teaspoon vanilla while beating. Sufficient for the tops of two 9-inch layers.

Among Those Who Know the Candidates Best

It's JOE GREENHILL

by more than **3 to 1** FOR THE TEXAS SUPREME COURT

A statewide poll of the legal profession, conducted by the State Bar of Texas, shows the vote to be:
 JOE GREENHILL 5,844 votes
 His Opponent 1,727
 This is the overwhelming verdict of members of the candidates' own profession after carefully weighing their qualifications and experience, studying their record and considering their judicial temperament and personal integrity.
 The lawyers of Texas have thus joined farmers, ranchers, merchants, laborers, businessmen and other professional people in supporting the candidacy of Judge JOE GREENHILL because all of them want to keep a fair, honest and sincere judge on the Texas Supreme Court.

Judge Greenhill is a former attorney for High Plains Underground Water District No. 1. He has done much to procure a tax reduction for irrigation farmers (see Cross Section).

SOIL CONSERVATION DISTRICT NEWS

The Parmer County Soil Conservation District Board of Supervisors held their regular business meeting Tuesday morning. During the meeting several important subjects were discussed.

One piece of surplus equipment that was granted to the District has not yet been received. It will be sent in the near future. The board hoped to get the other equipment in operation as soon as possible.

Several new conservation plans on new cooperators in the Soil Conservation District were approved and signed by the board.

The supervisors made plans for the District banquet which will be the first part of September. The details will be worked

out in the next meeting as to time, location, and who the speaker will be.

Have you received your news letter yet? They are out and if you would like to have more let us know. We would like to know how you liked it and any suggestions or comments would be appreciated.

Something to think about: At least three billion tons of solid soil materials are washed out of the fields and pastures of the United States each year by

water erosion alone. It has been figured that to move such a bulk of American soil on rails would take a train of freight cars 475,000 miles long—long enough to gird the earth 18 times at the equator.

NEWS FROM THE FARM BUREAU
By RAYMOND EULER

Rhea Farm Bureau had one of the best 4th of July get-together meetings they have ever had. One political candidate walked through a mile or two of mud to get there, they say.

Several Parmer County men are checking location of bindweed plots on State Highway rights-of-way the first part of this week. The accumulated information will be turned over to Lloyd Killough, of the department, who will see that these lots are treated, provided the farmer adjoining has treated his. Have you?

American Farm Bureau is opposing efforts being promoted to increase farmers social security benefits and taxes. The proposal being offered would require payment of 7½ percent on up to \$6,000 in 1975, or a payment, in addition to Federal Income Tax, of \$427.50. As usual, there is also a provision for federal health "benefits" included in the proposal. Farm Bureau is continuing its opposition to proposals leading to socialized medicine, too.

We think the following subject is of vital interest to agricultural people: If anyone who reads this column has any leaning toward, or any sympathy whatever for Walter Reuther or the things he stands for regarding labor, agriculture or otherwise, we hope they will consider the last line of a letter he wrote to his brother while he (Walter) was attending a training school in Russia: "Carry on the fight for a Soviet America." He has never denied he wrote it. Yet he poses as a friend to American labor, agriculture and all other groups outside the big industrialists. Compare the plight of Russian labor and ag-

riculture with the American brand, if you haven't.

If any of you members happen to be in Waco on Tuesday, July 15, you are cordially invited to attend Open House in Texas Farm Bureau's new Headquarters, 401 Franklin Avenue. That's just across the street from where it has been. (There will be a move of Par-

mer County Farm Bureau's Headquarters within the next few months, too.)

Membership in PCFB, as of June 30, was 622. Have you paid your dues? Don't overlook filing for the three cents per gallon Federal Road Use Tax refund on Farm Used Fuels. Farm Bureau made this possible.

Tests indicate that laying hens perform best when the temperature ranges from 45 to 85 degrees F. Ben Wormeli, extension poultry husbandman, says poultrymen should make sure their laying houses are properly ventilated and that the supply of drinking water is adequate to meet hot weather needs. Too, when temperatures are around the 100 degree mark a fogging or sprinkler system installed in the laying house will pay dividends.

Big Question Mark by Spuds

Parmer County area potato growers, after a so-so year in 1957, are holding their breath this week, as first diggings get underway.

The biggest concentration of spuds is around Friona, where 600 acres are reaching maturity. John O'Haugherty, salesman at Friona Growers and Shippers, who keeps an eye on the all-important markets, is playing a cautious role.

"It looks like there's going to be lots of potatoes this year," he says, "and we just can't tell what it will do to the market."

He says his attitude can be summed up this way: "If I was guessing, I'd be afraid to guess."

About the only thing that O'Haugherty can be coaxed to say is that he feels that this year will be some better than last year.

Last season, High Plains potatoes sold for about \$2.25 a hundred. That was a price far less than disaster standards, but it is usually felt to be too low from the producers' standpoint.

"\$2.50 is a pretty good price," the salesman says, "and anything above that is a good price."

On the production side of the potato deal this year, Kenneth Neill of the shed says that it looks as if tonnage may be

down, although it won't be easy to tell until digging actually gets started.

He is basing this idea on the relatively unfavorable season that growers have had. A slightly later start, a cold, wet spring, and some rough weather on mature vines in the late part of the season, have all had an adverse effect on pro-

duction.

The big storm, filled with hail, that visited the eastern part of the county four weeks ago landed astraddle of the potato growing section. "About half of our 600 acres was damaged by hail," says Neill.

Digging was scheduled to begin this week. Some last-minute changes are being made at

the shed, where handling procedure and equipment is being changed because of a large expansion program.

Potatoes and carrots were handled out of one shed last year. This year, the carrot equipment has been moved to a new building and the spud processing will be in a building by itself also.
