Service Flag For Hoboes

Now Bears 30,000 Stars.

New York—A service flag for American hoboes will be raised in the Bowers near Manhattan bridge with "appropriate ceremonies" next Monday, according to Jeff Davis, known as the "king of hoboes."

Davis claims that out of a membership of 507,546 in the itinerant workers' union, 30,000 hoboes are with the American army and navy. A single gold star will appear in the center of the flag, Davis announced.

—On to Berlin—

'Doug' There In Selling Bonds.

New York,—Douglas Fairbanks is a Liberty Bond seller. He came from Washington in an airplane as "first-class mail" to sell \$1,000,000 worth of bonds and did it. He sold the amount to the firm of Harvey Fiske & Sons. Fairbanks carried a 16-cent aerial postage on his stamped forehead.

—On to Berlin—

Lindsay-Thompson.

Miss Georgie Thompson and Floyd Lindsay of this place were quietly married last Saturday afternoon at the home of Rev. L. L. Thurston, pastor of the Methodist Church.

Miss Thompson has a host of young friends here and Mr. Lindsay, who is the mechanic at the Texico Garage, has made many friends since he came here a short time ago, who wish them much happiness in their new life.

Mr. and Mrs. Lindsay will be at home to their friends after November 1st., at the home of Mrs. Bob Williams, in Texico.

MORTUARY.

Mrs. Susan Francis Cranfill passed away on last Friday afternoon at the Clovis hospital.

She had been in poor health for some time and it was hoped that an operation would prove helpful, but an unfavorable turn in her condition terminated fatally.

She was the wife of Mr. E. Cranfill of this place, and the mother of Misses Cora, Eva, and Doshia Ann, and of Daniel, Martin, and General Cranfill.

Mrs. Cranfill was born in St. Louis, Mo., fifty-two years ago. The family moved here from Sweetwater, Texas, about three years ago.

The funeral was held at the family residence in Texico, Sunday afternoon. Rev. L. L. Thurston, pastor of the Methodist Church conducted the exercises. A large congregation assembled, testifying the high esteem in which she was held by all. An unusually large floral offering was contributed by relatives and friends, and spoke their eloquent message of love.

All the children were present at the funeral, Misses Cora and Eva having returned from Topeka, Kansas, for the occasion. God bless the sorrowing ones.

Submarine Chasers Built

By Henry Ford Successful.

Chicago, Ill.—Official announcement that the new Eagle submarine chasers now being constructed in the Ford plant in Detroit are a complete success, was made by Lieutenant Commander Ogden T. McClurg, after permission had been granted from Washington.

BUILD A BRIDGE OF SHIPS TO PERSHING.

Build a bridge of ships to Pershing o'er the sea,
Stand behind our boys in France for liberty.
Hold the line; close the ranks;
Move like a million tanks;
Build a bridge of ships to Pershing o'er the sea.

Buy a bond to help our boys who fight for you,
Send the loaded ships across the ocean blue.
With the stamps, come across;
With the bonds, come across;
Send the ships across to Pershing o'er the sea.

Do you hear the bugles calling you and me,
Send more men, and guns, and airships o'er the sea?"

The hand that buys the bond
Moves the ship to cross the pond,
Builds a bridge of ships to Pershing o'er the sea.
—Charlotte Sayre Boorman in The Outlook.

Make It Unanimous.

The Fourth Liberty Loan has gone over the top with a bound. This nation has demonstrated, once more, that it is going to make the world a decent place in which to live. The Hun is going to have the stuffing licked out of him. Prussian Autocracy is going to be wiped off the map. Militarism is going to be forever buried. The world is to know war no more.

I think, perhaps, there is just one more real big financial drive, ahead of us. I may be mistaken. There may be many more. But let there be one or a dozen, this nation will respond readily and whole heartedly. We are going to make a complete job of this thing. The one great task before the Nation today, to win the war. If our armies are to be successful, every citizen must give his all, whether this be time, or money, or life, or all three. The battles of this war will be won, in a large part, behind the lines. With this Nation behind our army, we are literally mobilizing a force of a hundred million for victory.

The next big financial drive to which I referred, is the raising of \$170,500,000 in the United War Work Campaign, November 11-18. This fund is to be used by the seven officially recognized agencies engaged in welfare work among our land and naval forces. Viz: The Young Men's Christian Association, The Young Women's Christian Association, The National Catholic War Council, (Knights of Columbus,) the Jewish Welfare Board, the War Camp Community Service, the American Library Association, and the Salvation Army.

In this big drive the boys and girls of America are going to be permitted to have a definite part. This is a rare privilege that the youth of this Nation will appreciate. This is but a just recognition on the part of our government of the value and power of one of its chief assets. It is allowing the boys and girls of our country to have a vital and practical part in the winning of the war; to share in the joy of bringing comfort and cheer to our millions of soldiers; to identify themselves with the purpose of our Nation and the Allies.

The boys and girls of Texico and Curry county will be asked to have a definite and vital part in the coming campaign to raise \$170,500,000 for the comfort and welfare of our soldiers who are fighting for us. We want to make this unanimous. We want every boy and girl in Curry county to join the "Earn and Give" Division and have a direct personal part in the Great World War. In this way every boy and girl in this county can help fight and help win. "Victory Boys" is the name of the Boy's "Earn and Give" Division. "A million boys behind a million fighters" is the slogan. "Victory Girls" is the name of the girl's division. It's slogan is "Every girl pulling for Victory."

There are no finer boys and girls anywhere than Curry county boys and girls. Nothing less than 100 percent will do. Every boy and girl in this county must become a "Victory" boy or girl.

The committee directly in charge of this work for Curry county is: C. W. Harrison, Chairman; Rufus Jones, J. H. Shepard, and Miss Ira Cochran, of Clovis and Mrs. M. M. Craig, Miss Lillian Williams and Prof. J. H. Kays, of Texico.

Any of these parties will be glad to answer any questions or help any boy or girl who is interested and wants to become a "Victory" boy or girl.

J. H. SHEPARD,
Adult Leader of the Boy's Department.

—On to Berlin—

Forty-five Dollars Sent For Relief Fund.

The committee representing the National Patriotic League, wishes to thank the people of Texico-Farwell for their cheerful response. We also wish to report that we have received and sent in to headquarters, Forty-five Dollars for the relief of the Belgian, French and Armenian children, who have been left fatherless and homeless during this war.

—On to Berlin—

The recent rains have made some of the roads almost impassable. The one leading east from Farwell, on the Lubbock road will have to have immediate attention, as the land on both sides of the road has been fenced thus forcing travel through the small lake which is deepest where the travel is done mostly. It hardly seems right that one's pasture must be over run, and that at the worst time, when proper attention to the road would eliminate that objection. The roads running in any and all directions are becoming a thing of the past, and thus making more work on the roads necessary. —A CITIZEN.

Mrs. M. M. Craig of Texico, answered the call for help, Saturday and went over to help nurse the influenza patients in Clovis. She reports the conditions very serious and pitiful over there.

The Business men and women including the teachers, who have organized themselves into a "Board of Health" Committee, need a great deal of praise for what they are doing to help stamp out the disease. This organization would do credit to any city.

Mrs. Craig returned home Monday to get a little rest, and had intended returning to Clovis but conditions have gotten worse here at home and she is doing all she can to help nurse the sick.

Rev. J. F. Nix and family, who have been ill for some time with Spanish influenza, are slowly improving.

—On to Berlin—

Dr. J. Q. Burton, Texico

Settler, Died in Slaton.

Dr. J. Q. Burton died at his home in Slaton, Monday morning about eight o'clock, Oct. 14th.

Dr. Burton was born in Georgia nearly fifty-six years ago. He moved to Texas to locate for the practice of his profession, that of physician and surgeon. He located at Texico, N. M., in the early days of that town and enjoyed a large and lucrative practice. He was also interested in different business institutions of the town, and was a leader in the Church of Christ congregation.

He leaves a wife, three sons, and four daughters. During his long period of illness a large part of his property was used in caring for himself and family. He carried some insurance.

To those who knew him intimately as a very active man with a large heart and a big brain, his afflictions were indeed a sorrow. Only a remarkably strong constitution could have sustained his body thru such a long and devastating illness of over two years.

—On to Berlin—

Although we have no personal grudge against the Turk, we think his possessions in Europe, should be limited to about forty acres and a mule.

WITHERS COAL & GRAIN CO

Uncle Sam's Advice On Flu.

Washington, D. C. (Special.)—Although King Alphonso of Spain was one of the victims of the influenza epidemic in 1893 and again this summer, Spanish authorities repudiate any claim to influenza as a "Spanish" disease. If the people of this country do not take care the epidemic will become so widespread throughout the United States that soon we shall hear the disease called "American" influenza.

"Epidemics of influenza have visited this country since 1647. It is interesting to know that this first epidemic was brought here from Valencia, Spain. Since that time there have been numerous epidemics of the disease. In 1889 and 1890 an epidemic of influenza, starting somewhere in the Orient, spread first to Russia and thence over practically the entire civilized world. Three years later there was another flare-up of the disease. Both times the epidemic spread widely over the United States.

"Although the present epidemic is called "Spanish influenza," there is no reason to believe that it originated in Spain. Some writers who have studied the question believe that the epidemic came from the Orient and they call attention to the fact that the Germans mention the disease as occurring along the eastern front in the summer and fall of 1917."

Friday, October 25, 1918.

Sugar is available for immediate use by the body in fifteen minutes after eating; it is therefore a quick source of energy and heat. Starch will produce both energy and heat, but is available by the body only after three hours. We can afford to wait a short time for rebuilding our strength; but the boys over there, who come in exhausted, require the quick stimulant of sweets; let us send them more than their allotment.

DAYBREAK OF DEMOCRACY

War time brings with it bitter exigencies, travail and the sorrow of partings distressingly indefinite.

Homes are shattered, families scattered and life each day is a dull slate gray, for many despair or are near it in spirit.

Those who were fireside fellows, to whom affection's ties were sacred, who felt the responsibility of moral if not financial dependents, leave the deepest grief in wake of their departure—and carry it with them, too.

But always the hour is darkest before dawn. The world is at daybreak of democracy. Already the Bulgarian cloud has passed and the solar rays seem dispelling the Turkish one as they progress toward complete sunrise over Austria and Hunland.

From the lowest depth a path leads to loftiest heights, someone

said. The pit of despair is the home of bats, spiders and other denizens of the dark, dank, dour and deep. It has been abandoned for the peak of happiness for the end is in sight.

One last, long strong pull and one final, fierce forward push through the winter with its dread of the Prussian hence added

strength for the Allies—then the Hohenzollern will fall, peace will rise transcendent and joy will reign supreme, the materialized dream of a world safe for democracy! —Amarillo News.

THE MISSING "S"**

"We are thorry to thay," explained the editor of the Skedunk Weekly News, "that our compomping room wath entered lath night by thome unknown thcoundrel, who thole every "eth" in the ethabishment, and thucceded in making hith ethcape undetected.

"The motive of the mithcreant doubtleth wath revenge for thome thupphothed inthult.

"It never thall be thaid that the petty thpите of any thmall thoulded villian hath dithabled the Newth, and if thith meet the eye of the detethtable rathcal, we beg to athure him that he underethimated the rethourceeth of a firth-clath newthpaper when he thinketh he can cripple it hopelethly by breaking into the alphabet. We take oecathion to thay to him, furthermore, that before next Thurthday we thall have three timeth ath many etheth ath he thole.

"We have reathon to thuthpect that we know the cowardly thunk who committed thith act of vandalthim, and if he ith ever thheen prowling about thith ethabishment again by day or by night, nothing will give uth more thathithfaction than to thooth hith hide full of holeth."

**On to Berlin—
AS IT APPEARS.**

Most people think the Bible was first written as it appears today. But such is not the case. It was originally one continuous piece of text, with no divisions of any kind, no sections, no chapters, no verses, no divisions of words, even, or punctuation. Its division into lines to suit the sense was done by Euthalius, of Alexandria, in the last half of the fifth century. Its division into chapters is ascribed to two archbishops, Lanfranc in the eleventh century and Langton in the thirteenth, and a cardinal, Hugo de Sancto Caro, about 1220. Rabbi Nathan began the

division of the Bible about 1170, and Athras, completed the work in 1661. An English printer, Robert Stephens, introduced the present division into verses in 1551. —Ladies Home Journal.

BOVINA ITEMS.

Geo. W. Lambert has returned from Kansas City, where he went with a shipment of cattle.

Several Bovina citizens have been attending court, the past few days, at Farwell.

Frank Hasting was in Farwell Tuesday afternoon.

Mrs. Davis left Sunday for Amarillo, in response to a message stating that her daughter was sick with influenza.

Bovina school was suspended last week on account of the influenza epidemic, but the regular work was resumed Monday. Also no church services have been held recently, but both Sunday schools will meet in regular sessions next Sunday, and preaching at the Methodist Church by the pastor both morning and evening. This will close out the Conference year for the Methodist Church.

Misses Gertrude Lambert and Irene Tidenberg have returned home for a few days, their school being suspended on account of Spanish influenza.

H. T. Hastings has been on the sick list for a few days, but is able to be about his duties again at the Bovina Mercantile.

Mesdames Hecox and Martin and Miss Murl Sanders were in Farwell last Friday and Saturday on business in connection with the teacher's examinations.

Mesdames Donna Gardner and Jeanette Hartwell of Oklahoma are here looking after their sheep interests.

Two of the Bullock children suffered an attack of influenza last week.

Virgil Cunning of Hereford spent a few days recently with home folks.

Jake McLean spent several days last week looking after his farm interests several miles north west of Bovina.

Bovina citizens were awake to their duty in the Fourth Liberty Loan Drive, which resulted in over \$11,000 being secured.

I KNOW a Man
Who thinks Printers are Crazy;
And Just to prove they are crazy
Whenever he needs Any Printing
He writes Half a Dozen Printers
And asks them to Quote.

The other day he had a job
And as usual he wrote for Bids.
The lowest bid was
One Hundred Sixty-five Cents;
And the highest bid was
One dollar and Ninety cents.
He spent Twelve cents for postage

In getting his Bids and
He spent 3 cents for Envelopes
And he spent Four Cents for his
Writing Paper
And he paid Eighteen Dollars a
Week to the
Clerk who wrote the letters and
licked the Stamps.

And so
He sent the job to lowest Bidder,
Who bid One sixty-five;
But it cost him Two-fourteen
I thank you.

A NEW INDUSTRIAL IN A NEW FIELD.

CANNON BALL MOTOR COMPANY

THE LARGEST ORGANIZATION OF ITS KIND IN THE WEST.

MAP SHOWS LOCATION OF CANNON BALL MOTOR COMPANY

A Stateline location with advantages of freight rates over two large states viz: Texas and New Mexico and being centrally located in the Southwest, far removed from the Eastern Automobile Center, near the base of the largest field of supply makes **TEXICO** the most favored location to establish an Industrial Center.

On the right is shown a picture of the administration building of the Cannon Ball Motor Company, with a group of visitors who visited its home office on April 12th 1918. This is beyond question one of the most modern three story brick buildings in the middle southwest, comprising 23 office rooms and clerical apartments including cafe, barber shop, demonstration rooms, company garage, etc., with all modern conveniences and facilities. This building and its equipment represents a cost of more than \$60,000 and is fully paid.

That the Cannon Ball Motor Company is making wonderful progress is evidenced by the illustration shown on this page. Our Six-Sixty, "Star of the Highway" models are now finished and will be on our demonstration floors in a few days. Designs are complete and truck models as illustrated below are being rushed to completion. Contract has been let for the construction of the first unit of the factory building at Texico and actual work will soon be under way.

With administration building complete! With factory building now going under construction; with three distinct designed and modeled cars actually manufactured and on our floor; with truck model almost complete; with more than 2,000 stockholders; with enough Bills Receivable to erect, equip and operate a large plant and with one of the most efficient working organizations that any company has ever acquired, and all of this has been done within a period of ten months. It is conservative to state that such wonderful progress has never been equalled in the industrial field.

SOLDIERS NEED SUGAR

TO THE FIGHTING MAN SUGAR IS NOT A LUXURY BUT A NECESSITY. WARFARE IS THE HARDEST WORK THERE IS. WHEN THE CALL FOR ACTION COMES THE MEN MUST RESPOND AT ONCE, AND OFTEN THEY MUST KEEP UP FOR LONG PERIODS THE MOST EXHAUSTING EFFORTS WITH THE BRIEFEST RESPITES. IT IS A FOOD WHICH IS QUICKLY CONVERTED INTO HEAT AND ENERGY. IT ALSO PROVIDES THE NECESSARY FLAVOR TO MAKE THE SOLDIER'S RATION IN THE FIELD PALATABLE.

SUGAR MAKES QUICK ENERGY

Mr. Baton who has been operator as well as ticket seller and expressman at the local depot for the past several months, has been forced to leave here on account of his health. He left here last week for Sweetwater, Texas, where he is expecting to locate. The altitude being too high here, on account of heart trouble. He will be missed by his many friends here, and especially the Band, of which organization he was president, and an ardent booster. Mr. Williams of Fort Worth, brother of the section foreman, Ben Williams, has taken his position here as ticket seller and expressman.

Carelessness Results In Failure. That is why we say "Feed B. A. Thomas' Hog Powder according to directions." DO NOT FEED IT SLOPPY but mix it with ground feed and moisten with just enough water to make a crumbly mass. Then each hog gets a beneficial dose. See full directions on package. Your money back if you are not satisfied. For Sale By J. H. Nabors.

Flag Etiquette.

(By William Mather Lewis.)

The United States military regulations and other rulings give well defined statements as to the respect to be shown the flag. The most important of these follow:

When the colors are passing, the spectator, if a man, should halt if walking, arise and uncover if sitting, holding the head-dress opposite the left shoulder with the right hand; if bareheaded, he should salute with the right hand. A woman should stand at attention as the flag passes by.

When the flag flies from a stationary flag-staff it is not ordinarily saluted with the hand.

Used in decoration, the flag should not be festooned or draped but hung flat. If the flag is hung with the stripes horizontal the Union should be in the upper left corner. If hung perpendicularly, the Union should be in the upper right corner.

When the flag is carried in parade, or when crossed with other flags, the Stars and Stripes should always be at the right.

The law specifically forbids the use of the flag in any manner in connection with merchandise for sale.

The flag should be raised at sunrise and lowered at sunset. It should not be displayed on stormy days or, except when under fire of the enemy, left out over night. Although there is no authoritative ruling which compels civilians to lower the flag at sundown, good taste should impel them to follow the traditions of the Army and Navy in this sundown ceremonial. Primarily the flag is raised to be seen, and secondarily, the flag is something to be guarded, treasured; and so tradition holds that it shall not be menaced by the darkness. To leave the flag out at night, unattended, is regarded by some as proof of shiftlessness, or at least of carelessness.

On Memorial Day, the flag should be displayed at half-mast from sunrise until noon, and at the peak from noon until sunset. It should, on being retired, never be allowed to touch the ground. When "The Star Spangled Banner" is played or sung, all present should stand, uncover, face toward the music, and remain standing, in silence, until the music ceases.

Applause at the conclusion of

Huns See Ore Fields Going.

London, England.—The Germans are already preparing for the loss of the iron ore fields of Lorraine!

With the American army within striking distance of these rich deposits, news reaches London of German approaches already made to Sweden for iron ore. It would be legitimate for Sweden as a neutral to sell to Germany, but whether she will or not is another question.

For it would be equally legitimate for the allies to say to Sweden: "Sell iron ore to Germany and you buy no food or raw materials from us."

German Helmet Received.

Tuesday of this week, Rev. S. G. Battenfield received a souvenir from his son, Paul, who is on the battlefield in France, in the form of a "German helmet," which he says he picked up on the battlefield, Toul Sector.

A note pinned to the padding of the helmet says he doesn't need it any longer.

Paul also writes in high terms of the American Red Cross and of the wonderful amount of good they are doing over there.

Spanish Rice.

2 cups rice; 1/4 lb. salt pork; 1 medium onion; salt to taste; 1 small red pepper; 1 small green pepper; 1 pint strained tomato or part stock.

Wash rice in cold water, rubbing grains between the hands until water is clear. Add rice slowly to two quarts boiling water, parboil ten minutes, drain, chop salt pork, cook in oven in frying pan until fat is fried out, but do not brown. Add chopped onion and peppers (seeded), fry for a few minutes till slightly yellowed. Put all ingredients in double boiler, add strained tomato, and cook 30 minutes till rice is soft, but not mushy.

"The Star Spangled Banner" is out of place.

Worn out and useless flags should be destroyed, preferably by burning.

A flag torn or frayed by the wind should not again be hoisted until it has been repaired. This is a regulation of both Army and the Navy and should be followed by all civilians.

Great Oven Improvement

Saves Time—Saves Food—Saves Fuel

Note that heat travels completely around our high oven on 4 sides, while with common type ranges heat travels on 3 sides only. Anyone can quickly see that this big improvement in oven construction gives a much quicker and more even baking oven and that it would prove a source of big fuel economy. There is no need to turn baking—biscuits steaming on the table in half the time of the ordinary range—Pastry—Roasts—Baking—all browned perfectly with a big saving in time, food and fuel with—

Cole's High Oven Range

(Patented)

Oven flues connect firebox with oven—flues triple walled.

Polished top—note the fuel saving Hot Blast Draft.

Heavy boiler iron body. Heavy inside castings.

Large handy ash pan.

Heat Rises

This simple fact has been taken advantage of in Cole's High Oven Range.

It Saves the "waste or chimney heat" of the ordinary range.

Don't Delay

Come in and let us show you this great range.

THE COZY CAFE

You get value received in GOOD food at the COZY.

Regular dinner 11:30 — 2:00
Short orders 6:30 A. M.—11 P. M.

Your patronage appreciated.

GOOD SERVICE.

PHONE 103.

IF IT'S ANYTHING ELECTRICAL

We have it and can supply the demands.
