During the hot summer season, the Texas Highway Department is nearing completion of a $100 million, two-year construction program to improve Highway 100 north of Big Spring as far as Askew. The biggest job is replacing Highway 80 at Big Spring and extending it to Carlsbad, New Mexico. Bill Bradley was hired as band director.

Bill Bradley, a Jazz prodigy of Texas Tech, has been employed as band director for the new school year. The employment contract was signed by the school board at a meeting called Monday evening by Superintendent Mrs. Carl Coffey, who was previously band director, must not have been so tiresome.

The board, meeting on July 2, had a number of other items on its agenda, among them, the election of a band director, which was finally settled.

The band director, a graduate of Texas Tech, has a bachelor's of music education degree, at age 20. He was the first to receive a band director's position in the history of the band at Texas Tech. The band director, a graduate of Texas Tech, has a bachelor's of music education degree, at age 20. He was the first to receive a band director's position in the history of the band at Texas Tech.

A Lesson in the Funnies

Mamma Yoakum, as you might see, has a way of saying things. She isn't so direct as some people, but her meaning is clear, even if it takes a while to catch on. She's been known to say things like, "You know what, Mornthie? I'm going to be a preacher?"

That's fine," said Mommie, after her return from church services Sunday. "I love hearing about the Bible and what it means to the world."

After his return from church services Sunday, the boy said, "Well, I don't know. I don't see how they can do it."

"That's beside the point, except to help point out that good television programs can't always come out of the same mold," he said. "Philosopher, you and I are the only ones who have to keep the family record."

"I've seen that," Mommie said. "But what about the family?"

"The family will cherish and keep the family record."

When we take a look at the entertainment world, we see that it may be a while before the family is going to go to church anyway. "You don't want to be a preacher?"

"I grow up," the boy said.

As usual, Mommie made the best of the situation. Dogpatch, the Yoalcums' home town, has been found to be in the middle of the United States. It's not always easy to keep the family record, but we don't have to worry about that."

"I've seen that," Mommie said.

"But what about the family?"

"The family will cherish and keep the family record."

When we take a look at the entertainment world, we see that it may be a while before the family is going to go to church anyway. "You don't want to be a preacher?"

"I grow up," the boy said.

Johnny Lovelace has been named All-Star coach for the South Plains Area's smaller schools to participate in the second annual Panhandle Grid Classic to be held August 12 at Texas Tech. Jack Barry, the former Midwestern University and New York Giant football coach, will coach the all-star team from Class AA, A, and B schools. Last year Barry served as assistant coach for the South Plains area. Barry will go into battle August 17 at Texas Tech where the players will be challenged and tested while working out for the game which will be played August 19 at Tech.

The South Plains All-Star team will be composed of the City Schools, Weatherford, Abilene, Brownwood, San Angelo, Lubbock, Amarillo, Odessa, Midland, Carlsbad, Carlsbad-Division, Arnett, San Angelo, Levelland, Iraan, and West. The starting lineup will be composed of the City Schools, Weatherford, Abilene, Lubbock, and Amarillo.

McDaniel, Hubbell Return
From Girls State Session

Mary McDaniel and Jean
McDaniel, Girls State Delegates from Texico and Farwell re-
cently returned from the State with almost the same impres-
sion of the forensics program at Girls State that was most
noteworthy to me was how much I learned by doing and that
each girl was a unique and different person,

Miss McDaniel left from Clarendon with a group of area
girls June 14 for Albuquerque, New Mexico, where Girls State began
the first day of the session. The group was welcomed by the
State University of New Mexico. Al-
Finally arriving in the
for the announcement of the
final election return. Thursday was one of the
highlighted as a national event and
in every home. Special plans for the occa-
sion included the governor of State
and the 1960 Governor of Girls State.
McDaniel, the 200 delegates traveled to Santa Fe and
made their way to the capital where the
A Pinch supper was served
the last day of the 150 girls who attended the 1960
session. Miss McDaniel left from Amarillo with
about 25 other girls from Texico and
Farwell for the Girls State program. She was a member of the Girls
State organization and was selected as the
most outstanding forensics student. She was the delegate from
Farwell to the Girls State organization and was selected to the Ft.
Worth Girls State organization.

**Of Interest To THE WOMEN**

**McDonalds Attend Reunion**
Mr. and Mrs. J. H. McDonald of Clovis attended a dinner at the Clovis Country Club for the Kemp family, Mrs. McDevitt’s relatives, at the Miller home in Mayhew on Fathers Day, accompanied by their children. Mrs. McDonald and Mrs. Doris McDevitt had a dinner party for the more than 100 persons in the back yard of the house.

Of Mrs. McDonald’s brothers and sisters were there, including Mr. and Mrs. John Randolph, Clovis; Mr. and Mrs. J. M. Moseley, Albuquerque; Mr. and Mrs. W. N. Kemp, and Mr. and Mrs. W. A. Kemp, New Mexico; Mr. and Mrs. H. H. Towns, Lubbock; Mr. and Mrs. Don Williams, Clovis, and Mr. and Mrs. Bob Moseley; Clovis.

Mrs. McDonald’s brother and sisters were there. They were Mr. and Mrs. J. Kemp; Moseley; Mr. and Mrs. Harry Engle; Foster; Mr. and Mrs. Joe Moseley; Mr. and Mrs. Sydney McDevitt (Mrs. Jack Richardson); Lubbock; Mr. and Mrs. D. W. Moseley; Clovis, and Mr. and Mrs. Charles Kemp, Jr., Pecos; Mrs. W. H. McDevitt; Lubbock; Mr. and Mrs. Edward McDevitt; Clovis; and Mrs. Eugene R. McDevitt, Dallas; and Mr. and Mrs. William Stone, Clovis.

The home of Mr. and Mrs. Kemp, near Lubbock, was a popular spot for the couples and their families.

**ESA Members**

Miss Wilma Norton Weds Leon Jamison

Miss Wilma Norton became the bride of Leon Jamison on Sunday, June 13, at the Methodist Church in Clovis. The daughter of Mr. and Mrs. C. W. Norton of Pekin, Ill., she was married by Rev. Archie Mobley of the New Mexico Wesleyan Church.

Mr. Jamison is the son of Mr. and Mrs. Vernon Jamison of Clovis.

The ceremony was followed by a wedding dinner at the home of Mr. and Mrs. Jamison. The newlyweds left for an extended honeymoon trip.

HD Council Holds Regular Meeting

The Thirty-one ladies of the Bovina chapter held a regular meeting June 22 in the Lakeview club, which was attended by all the members of the club and several members of the former Lakeview club.

The meeting was called to order at 9:30 A.M. by President Mrs. Calvin Didier, assisted by Mrs. John Boling as recording secretary. Mrs. J. W. King, a former member, and Mrs. W. W. Gresham, a former member, were present.

After the business of the meeting was taken care of, the ladies enjoyed a delicious lunch, which was served by the hostess, Mrs. C. E. Williams. The meeting adjourned at 11:30 A.M.

Second Meeting

A special meeting was held at 1 P.M. in the Lakeview club by the President, Mrs. C. E. Williams, assisted by Mrs. W. W. Gresham as recording secretary.

Mrs. J. W. King, a former member, and Mrs. W. W. Gresham, a former member, were present.

After the business of the meeting was taken care of, the ladies enjoyed a delicious lunch, which was served by the hostess, Mrs. C. E. Williams. The meeting adjourned at 3 P.M.

POOL

Of all the sweating, grunting and groaning, the most impressive feat was that of the three or four who were really at the limit of their capabilities. The most common statement was, "It's hard to believe; in fact, it's a wonder we're not down for the count.""
Lions Get Perfect Attendance Pins

Top of the 30 members of the Texico-Farwell Lions Club who attended their annual banquet last Tuesday night had 15 pins. They were Rev. and Mrs. J. W. Caldwell, Paul Guest, Jerry Winkle, Wanda Forrester, Lucinda Dean, and Shirley Teel, Otis Huggins, Cary Joe Magness, Wurster, and Shirley Keeney.

Haggard created special moment as the only member perfect attendance member of the club. He has been a member of the club since the age of 12, as he was a charter member. During the last five years, he has been a perfect only in regular meetings, and this time with "check up" with special work to keep his record at 100. Any member that has been in the club for five years is given a special pin. The club meeting was attended by director as assistant, J. D. Allard, and the Haggard gave a report on the club's convention held at Alamogordo two weeks ago.

PUBLIC NOTICE

The Board of Equalization of the Farwell Consolidated School District will meet Monday, July 13, at 9 o’clock a.m., at the City Hall in Farwell, Texas.

Cotton So-So, Sorghum Swell

The condition of growing crops in the Panhandle County area this week was rather poor. Heavy rains and humidity were too much for some weeds, which resulted in a reduction of cotton boll set. For example, rains in the past two weeks have resulted in a retardation of cotton growth.

Grasshoppers tend to be a problem in the dryland areas of the county. The threat of extensive crop damage may be possible only if cooperation on the part of the farmers is forthcoming. Farmers should be aware that the cost of control of hoppers will be increased if control is not started soon.

There is a possibility of some damage to cotton crops from grasshoppers. Farmers should be on the lookout for any signs of damage.

Grasshoppers have been around for quite some time in the county. Farmers should be on the alert for any signs of damage to their crops.

Grasshoppers have been around for quite some time in the county. Farmers should be on the alert for any signs of damage to their crops.

Cotton So-So, Sorghum Swell

The condition of growing crops in the Panhandle County area this week was rather poor. Heavy rains and humidity were too much for some weeds, which resulted in a reduction of cotton boll set. For example, rains in the past two weeks have resulted in a retardation of cotton growth.

Grasshoppers tend to be a problem in the dryland areas of the county. The threat of extensive crop damage may be possible only if cooperation on the part of the farmers is forthcoming. Farmers should be aware that the cost of control of hoppers will be increased if control is not started soon.

There is a possibility of some damage to cotton crops from grasshoppers. Farmers should be on the lookout for any signs of damage.

Jimmie Lou Wollam

The young folks can eat together a
nice, homey, family meal in the kitchen
and if they wish, use the living room
as a play room. But the adults, as a
group, can have a longer, more
elaborate meal in the dining room.
And afterwards, there can be a
further meat of fun and activity.

Dwain, 11 years old.

Daily Showers Fall on Farms

Shrubs have fallen with all the daily regularity in the dry season effects. Parmer County agent, W. R. Mathieson, reported cotton fields of 12 to 13 inches of rainfall during the past week. In general, the moisture has been considered ideal. Almost 70 percent of the North Texas fields are reported wet. The moisture that has fallen has made the shrubs dry out some, but shrubs that have been frozen earlier in the season have not returned to normal condition. In general, the shrub growth has been maintained, but condition will vary with the soil and location.

The PARMER FARMER
by W. B. Grantham

One of the most significant topics ever made at the research station in Hardeman County is the subject of grasshopper control recently. These, and the number of farmers, have been increased. The Texas Farmers' Association, through its research stations, has made the grasshopper control study. The result has been to control the grasshopper control problem. There have been several reports of grasshoppers being found in the area. These reports have been made by farmers and residents of the community. As a result of the grasshopper control study, farmers have become more aware of the problems and have taken steps to control the grasshoppers. The moisture that has fallen has made the shrubs dry out some, but shrubs that have been frozen earlier in the season have not returned to normal condition. In general, the shrub growth has been maintained, but condition will vary with the soil and location.
