

Rotary Club Organized Here Wednesday

FROM THE HOPPER

BY HOP JR.

It should come as no surprise to most readers that I sometimes feel ridiculous after having written something. However, I feel more ridiculous than usual right now, after just having completed the authorship of a 10-word ditty on the "Goodness of Frosty-O's."

Frosty-O's, if you haven't heard, is one of those fast-selling cereals with great kid appeal that has appeared on the scene in recent years. What ever happened to Wheaties and Jack Armstrong, the All-American boy I'll never know, but he lost out somewhere in the shuffle to Frosty-O's TV punch at the Graham household.

The reason I got sucked into this is a jingle contest General Mills is throwing to help promote their boxes of Frosty-O's. They're giving away Falcons and bicycles and such other stuff as interests boys, and you can guess the rest of the story. I got drafted.

This jingle kick, complete with a boxtop for every entry, isn't exactly a new twist in food merchandising. In fact, I guess that the food business, like so many others, is pretty volatile and dynamic.

Look at how things have changed. In just one generation we have gone from a nation of people who were seriously concerned about getting enough to eat, to a nation of people whose number one pastime is trying not to eat too much.

Today we have vitamin pills, tonics, and that wonder of the ages, Metrecal, to keep us on the beam. I believe it is fair comment to say that we Americans have a tremendous preoccupation with our digestive system.

Even when I was growing up, the idea of tailoring your bodily needs to the contents of a bottle was catching on. The example that sticks in my mind is when Harry Sheets, the 120-pound center on our Farwell Steer football team, decided he'd be worth more to the team if he weighed 170.

He spied an advertisement by a Clovis drug store that offered a tonic that would guarantee to put meat on anybody's ribs or their money back. That looked like the deal to Harry, so he gave it a try.

As I recall, the course was pretty complete and a good bit of expense. He stayed with it for the prescribed two weeks, and religiously drank the dark-brown fluid at the appointed hours, just like it said on the bottles.

After the two weeks was up, he hopped on the scales and, you guessed it--120 pounds on the nose. Now Harry is a reasonable sort of guy, but not one to be duped, so he gathered up all his brown bottles, put them in a box, and went back to the drug store.

He got his money back, just like the guarantee promised, and the clerk even smiled a little. But after all that fancy medicine taking, which was for naught, Harry was in no mood to be cheered up, and I think he considered himself as coming out on the short end.

This experience in strange eating habits also reminds me of my wife and how she got the craving for black strap molasses a short time after we were married.

One day she announced as casually as though it had just occurred to her, "I sure would

(Continued on page 6.)

Steps for the organization of a Rotary Club were taken May 31 by a group of 25 local business and professional men who are planning to establish a unit of Rotary International, world-wide service club organization, in Texico-Farwell. Meeting with Bob Brooks, special Rotary representative in Lebow Cafe, the men voted to apply for a charter in Rotary International, thus adding Texico-Farwell to the list of more than 10,700 communities in 116 countries where Rotary plays a leading part in the progress of the community.

Those present at the Rotary organization meeting were: Smokey Gast, Buck Doran, F. O. Burk, Bud Peyton, Rip Snodgrass, Bob Crume, Harry Sheets, Scotty Levins, James Patrick, Ed Combs, R. O. Tomlinson, Prentice Mills, Herb Potts.

John Spearman, Sam Aldridge, Joe Crume, Ernest Cain, Bob Anderson, John Aldridge, Johnny McDonald, Jerry Bradshaw, Dudley Hughes, Joe Jones, Ray

Mears, Bill Boling.

The new clubs being sponsored by the Clovis Rotary Club, whose members have brought Rotary to Texico-Farwell through their friendship with the business and professional men of this city. Rotary International employs no field men to organize Rotary clubs so all new clubs are sponsored by Rotary clubs in nearby communities.

One of the distinctive features of Rotary is that Rotarians are welcome visitors at meetings of all Rotary clubs throughout the world. There are Rotary clubs in Clovis, Portales, Muleshoe, Hereford, Melrose, Sudan and elsewhere throughout the states of N. Mexico and Texas, so it is expected that the new Rotary Club of Texico-Farwell will have numerous visiting Rotarians at its meetings.

Rotary was defined by Bob Brooks, special representative, as "a fellowship of some 500,000 business and professional executives throughout the world

who are united in the Rotary 'ideal of service, which is thoughtfulness and helpfulness to others.

"Members of Rotary clubs," he continued, "endeavor to exemplify their motto, 'Service above Self,' in all of their daily business, social and civic contacts by placing the obligation to serve others before the desire for profit for themselves. A Rotary club selects its membership on the basis of one active member from each recognized business and profession in the community, so that it is a representative cross-section of the business and professional interest and activities in the community."

The new Rotary Club of Texico-Farwell has the same general objectives as all other Rotary clubs throughout the world -- to encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:

The development of acquaintance as an opportunity for service;

High ethical standards in business and professions; the recognition of the worthiness of all useful occupations; and the dignifying by each Rotarian of his occupation as an opportunity to serve society;

The application of the ideal of service by every Rotarian to his personal, business and community life;

The advancement of international understanding, good will and peace through a world fellowship of business and professional men united in the ideal of service.

The Rotary Club of Texico-Farwell will hold its regular weekly meetings in Lebow at 12 noon Wednesday. When it has been formally admitted to membership in Rotary International, its official Rotary charter will be presented by Travis Stovall, District Gov., District 552 at a special meeting which will be attended by Rotarians from many of the Rotary clubs in this district.

Directors of the newly-organized Rotary Club in Texico-Farwell are shown here preparing application for their charter from Rotary International. In the front row, from left to right, are President R. O. Tomlinson, Rip Snodgrass, Smokey Gast, and Prentice Mills. Back row, left to right, are Buck Doran, treasurer; Bob Crume, secretary; Bob Brooks, special Rotary representative from Clovis; Scotty Levins, vice president; Johnny McDonald and Harry Sheets, Herb Potts (not shown) was elected sergeant-at-arms.

Pleasant Hill Contestant Is Curry County Dairy Princess

Valeria Meier, 19 year old daughter of the Frank Meiers who reside in the Pleasant Hill Community, was named Curry County Dairy Princess over nine other contestants during judging Saturday morning at the Southwestern Public Service Building in Clovis.

Miss Meier, who was sponsored by the Pleasant Hill Extension Club, will represent Curry County at the State contest to be held in Albuquerque Saturday, June 3.

The contestants were judged on three basic points before appearing before an audience.

Sincerity--in the ability of a contestant to speak for milk and other dairy products effectively, attractiveness and personality and the ability to act natural were judging points.

Runner-up for the honor was Agatha Sartain from Clovis who was sponsored by the Clovis Business and Professional Women's Club.

Miss Meier attended high school at Texico, being active in many school functions and graduating as valedictorian of the class of 1960. She will be a sophomore at Eastern New Mexico University this fall, where she is studying pre-law.

Other contestants in Saturday's contest were D'Rene Danforth, Texico; Nancy Huddnall, Clovis; Lee Ann Leslie, Clovis; Carolyn Stanfield, Grady; Carolyn Tate, Clovis; Alta Joyce Osborn, Clovis; Clara Jones, Melrose; and Linda Murphy, Clovis.

VALERIA MEIER

Methodist VBS Begins Monday

Vacation Bible School will begin June 5 and continue through June 9 at the Hamlin Memorial Methodist Church. Classes for children from ages 4 to 12 will be provided each morning from 9 to 11.

A tea and open house will be held on June 9 from 4:30 to 5:30 to close the school, according to Mrs. Joe White, Bible School superintendent.

Street Numbers In New Phone Book

Citizens of Texico-Farwell who are telephone subscribers will have their street address and town listed in the new Mountain States Telephone Directory to be published in August.

In making the announcement, R. W. Brittain, manager of the Clovis office, stated that they will probably have to call some of their customers to confirm the correct street numbers.

FARWELL, TEXAS

THURSDAY, JUNE 1, 1961

NUMBER 35

THE STATE LINE TRIBUNE

"OFFICIAL PUBLICATION OF FARMER COUNTY"

10 PAGES

FIFTIETH YEAR

SECTION 1

Tower Carries County

Parmer County voters saw eye-to-eye with the majority of the ballot-markers throughout the state in Saturday's special U. S. Senate election, giving Republican John Tower a slight edge over his Democratic opponent, Bill Blakley.

Tower received 573 votes to Blakley's 487 in the election to fill the vacated senate seat of Lyndon Johnson. Tower's statewide margin of victory was a narrow 8,000 votes.

All but one of the eight precincts in the county favored the Republican, whose election to office made Texas history.

It was the first time that Texas voters had ever elected a Republican to serve in the senate, and in Parmer County, it was the first time, other than in presidential elections, that voters favored a Republican.

Lazbuddie was the only precinct to give Blakley an edge, and that was by a one vote

margin, 75-74.

Tower got his widest margin in Farwell, traditionally the county's most conservative precinct, where he polled 130 votes to his opponent's 90.

Friona favored Tower, 195 to 183, and Bovina, normally the Democratic stronghold in the county, gave the Republican a narrow edge, 80-78.

The voting of other precincts was as follows (Tower's votes listed first):

Lakeview, 14-9; Black, 26-17; Oklahoma Lane, 31-28; and Rhea, 16-2. Absentee voting Tower a 7-5 edge.

The turnout in Saturday's election was a little better than had first been anticipated, but voters numbered about 250 fewer than those who voted in the first election. Saturday's vote total was 1,060, compared

to 1,318 in the first election.

Tower's margin in Parmer County was somewhat of a mild surprise, even though the Republican did receive more votes than any other candidate in the first election.

In the first go-around, when 70 candidates were in the race, Tower received 417 compared to 257 for Blakley. Total vote received by all the democratic candidates in the first election, however, was 899;

Liethen Receives Degree Tonight

Mark Liethen, former Farwell resident, has been named to the dean's honor roll at Eastern New Mexico University in Portales and was honored at the honors convocation at the college. He will receive a BA degree in math with a minor in chemistry at the graduation tonight (Thursday), at 9 p. m. (Texas time) at the university stadium.

Liethen, who is married to the former Jo Ann Williams of this city, has been appointed to the Air Force Academy in Colorado Springs. He will work toward his Masters degree at Albuquerque for two years, then will be instructor at the Academy for four years. The Liethens will leave for Albuquerque in August.

Preparing to cast their ballot in the senatorial runoff election last Saturday are Mr. and Mrs. Ray Mears (right), looking on are election officials, from left A. H. Smith, Mrs. A. H. Smith, Mrs. O. B. Pipkin and Miss Joan Branscum. John Tower, Republican from Wichita Falls, received 130 votes in the local box and Democrat William Blakley received 90 votes.

Texico Seniors Back From Trip

A bus load of Texico seniors finally arrived about 4:30 a.m. Wednesday morning, after bus trouble delayed their arrival several hours. The group spent the time in Capitan while waiting for a bus.

While on the trip, which began Friday morning, the group visited Carlsbad Caverns, Cloudcroft, Ruidoso and other points of interest in New Mexico.

Sponsors were A. D. McDonald, Fred Danforth and Mrs. Robert Servatius.

Seniors making the trip were Patricia Patterson, Glendon Moss, Gary Singleterry, Jeanene Campbell, Donald Callouet, Lee Spears, Kenneth Murrick, Bill Reid, Bill Roth, Michael Trower, Leslie Winsper, Pauline Servatius, Trudie Lambert, Betty Westberry, James Halsell, Darwin McLeod, Terry Miller, Koleta Doshier and Alfred Stover.

Scouts Receive Awards

"Lighting the Way For Scouts" was the theme of a ceremony presented by the Scouts of Troop 201 at the Farwell City Hall Tuesday night during a regular meeting of the troop which was attended by the parents of the boys in the troop.

Each Scout lit a candle as scoutmaster Russell Grimes explained to the parents the 12 points of the Scout Law.

Following the ceremony the Scoutmaster and the assistant scoutmaster, J. T. Ford, presented Tenderfoot badges to the following scout; Jerry Ford, Johnny Shell, Vernon Bland, Walter Gene Branch, Randy Roberson, Bruce Dollar, Charles Morton, Mike Watkins, Mike Camp, Jimmy Mace, Dale Camp, Jerry

Moore, Tim Crume, Lewey Bradshaw, G. A. Grimes, Lawrence Bryant, Warlick Dollar, Tom McAlister and Bruce McCuan.

It was also announced at the meeting that the troop committee has ordered 50-star American flags, which the troop will have for sale to local businesses and individuals.

The money from the sale of the flags will be used by the local troop to purchase permanent equipment for the use of the troop. Anyone who would like to purchase a flag can do so by contacting Kirt Crume at the City Cleaners or Russell Grimes at the Tribune. Price of the 3-foot by 5-foot flags will be \$3.00.

TOWER'S ELECTION--

"Slap At Liberalism," Political Leaders Say

BY DICK HAPKE

Parmer County political leaders, both Republican and Democrat, considered John Tower's victory in Saturday's U. S. Senate race as a "slap at liberalism."

There were varied opinions among those political leaders polled on the outcome of the election, but surprisingly, from both the Conservative Democrat element and the Republicans was the belief that voters were expressing their opposition to the present administration's "free-spending," "dictatorial," "socialistic" tendencies.

Some were of the opinion that "had the Democrats not gone fishing on election day," Blakley would have won easily. While others admitted that had the election turnout been larger, Blakley would have won, they thought the real reason for Texas electing its first Republican to the Senate went deeper than that. "There just aren't that many Republicans in Texas, so it had to be 'rebellious Democrats,'" seemed to be the consensus of opinion.

On the question of what effect Tower's election might have on future politics, and whether or not it would help to create a stronger two-party system, there was more disagreement.

Nelson Welch, Parmer County Democratic chairman, said, "More than anything else, I think the people voted Republican to strike back at the thing that happened last fall, and the thing that has been going on for a good while."

He was referring to the liberal philosophy which many Democrats have adopted, and he said, "Many Democrats have gotten as far away as they can be from a few things the Democratic party used to stand for."

"I was naturally disappointed," Welch said about the election outcome, and he added, "Democrats would have been better off had they elected a man who could strike back from within the party, rather than from outside."

Welch thought that the people wanted to get as far away from the liberal view as possible, and so voted for Tower.

The county democratic chairman didn't see Tower's victory as the beginning of a strong Republican party in Texas. "I think that most of the people in Parmer County are Democrats, and have been all their life," he said.

"They will continue to be," Welch added, "but I think we need to try to bring our party back to where it ought to be." His definition of what the party "ought to be" was one which believed in states rights and self government, and one which

was made up of individuals "whodn't want to be told what to do and don't want things crammed down their throats."

"We want to operate our own affairs at home," Welch said.

Mrs. Les Bruns, vice-chairman of the Parmer County Republicans, attributed Tower's victory, both in the county and in the state, largely to an all-out effort on the part of volunteer workers, and to the fact that the country is "getting too socialistic."

"I was very excited and very glad that Tower won," Mrs. Bruns said, and she gave credit to all of the volunteer workers in each community of the county who "conducted a telephone campaign in support of Tower."

The telephone campaign was started prior to the April 4 election, and expanded on in the runoff, she said.

It was unlike the campaign in 1956, "when Thad Hucheson ran for senator," she said. At that time, no one was interested, but in this campaign there was widespread support, Mrs. Bruns explains.

"Many people we called were really happy that we were conducting the campaign, and they thought it was something that needed to be done," she said. "They were behind Tower and wanted to help."

Mrs. Bruns didn't think many people stayed home because there wasn't any choice between the two conservative candidates, "but a lot of them didn't like Blakley and voted for Tower," she said.

Another reason for the success of Tower, according to Mrs. Bruns, was because "many people didn't like the way the election was carried on before." She was referring to the general election, the narrow victory of the Kennedy-Johnson team, and what she termed, "the turning away of some people from the polls."

"Many people thought that Nixon would have carried Texas, had the election been carried on right," she said.

Bob Anderson of Farwell, who is a director of the Panhandle Citizens for Constitutional Government, attributed Tower's victory to the failure of liberal Democrats to vote.

"I think the liberals stayed home," Anderson said, and he cited voting statistics to back up his belief. Statewide, the number of voters who went to the polls in the general election numbered two million, while in the senate runoff there were only 900,000 voters.

HONOR GRADUATE--Jerry Clay Henson, left, of Farwell was one of the honor graduates of Hardin-Simmons University Monday. He received his bachelor of arts degree magna cum laude during H-SU's 69th annual commencement exercises. Henson chats here with Stanley Blevens of Eastland, another graduate, just prior to the commencement program.

Henson Graduates Magna Cum Laude

Jerry Clay Henson, son of Mr. and Mrs. Clay Henson of Farwell, received his bachelor of arts degree magna cum laude at Hardin-Simmons University during the school's 69th annual commencement exercise Monday.

Henson majored in Bible and will enter the ministry. He along with other graduates

heard Dr. James M. Godard deliver the commencement address. Dr. Godard, executive director of the council of Protestant Colleges and Universities, told students that Hardin-Simmons University's 1961 graduates were better equipped to cope with the problems of the world because they attended a church related university.

JOTTIN'S By Jeanne

Probably nothing has stirred up as much interest and discussion lately as last of school festivities. It's all over at Farwell and this week concludes the last go-round at Texico. A new group of young people will be embarking on careers--many of them beginning jobs, college or marriage. It will be interesting to note where their paths will lead them for the next five years. If you looked over last week's Tribune thoroughly, you will see what a handsome group of young people they are. Incidentally, our appreciation goes to the business people who annually make it possible to publish this

Life Is Worth Your Living

By Robert O. Tomlinson

It does make a difference what one believes, and with what intensity he believes it. Beliefs effect conduct. What one believes with all his heart determines how one lives with all his life. A great belief gives great living. Can you say this with me: We believe in God the Father of all men; the source of all goodness and beauty, all truth and love.

We believe in Jesus Christ, God manifest in the flesh; and in eternal life through Him. We believe in the Holy Spirit, God is present with us for guidance, for comfort and for strength.

We believe in the forgiveness of sins, in the life of love and prayer, and grace equal for every need.

We believe in the Church as the fellowship for worship and for service to all who are united to the Living Lord.

We believe that the world passeth away, but the one that does the will of God abideth forever. Say this each morning and each evening and notice the difference in a few weeks. You will be living life that is more worth living. Try it.

If you believe that you were created to be happy and to be useful, and that trials are but tests of character; that the soul, spirit, is too grand to be crushed by defeat, then you can be master of any circumstances and of yourself. Do not waste yourself with worry, turn obstacles into opportunity. Face the world bravely and not be a coward, for you are immortal and nothing can overcome you. Love and protect those dependent upon you; fight the good fight of life and you can be sure of the help of God.

You will need a Strength to keep you true and straight in everything you do. You will need a Power to keep you strong when tempted to do wrong. You will need Grace to keep you pure when passion tries it's deadly lure. You will need a Love to keep you sweet when hardness and mistrust you meet, and you will need an Arm to be your stay when dark and troubled days come your way. All this is found in Christ the Lord, with Him life is worth living.

Richard Williams Gets Scholarship

Richard D. Williams, son of Mr. and Mrs. Jack Williams Farwell, has been awarded a cabot scholarship in chemical engineering, according to Texas Tech's Engineering Dean, John R. Bradford. Williams was one of Texas Tech's top engineering students and received a scholarship along with sixteen other engineering students. The scholarship is for the 1961-62 term. He was valedictorian of the graduating class of 1959 at Farwell high school.

The most popular spot in the Twin Cities this week was the New-Tex swimming pool in Texico. The pool is open each day from 1 to 8 p.m. Mr. and Mrs. Dan Truelove are managing the pool this

Texico Man Fined For Hit-And-Run

Clyde McDonald, 27, was fined \$214 and sentenced to five days in jail this week by Farmer County Judge Loyde Brewer for a hit-and-run accident and driving while intoxicated.

The accident occurred Saturday night about 10 p. m. when McDonald, driving a 1957 Ford, pulled on to Highway 84 east of town and collided with a Plymouth driven by a Mexican boy from Clovis.

McDonald left the scene of the accident, but was later picked up by the sheriff's department.

In another county court case Monday, Ben Finch, Farwell, was fined \$38 by Judge Brewer for assaulting his wife.

The sheriff's department also reported that three men had been returned from outside of the county to face charges here. James Franklin Green, 34, was returned from North Carolina recently to face charges of stealing a car belonging to O. B. Short of Bovina, and for passing a worthless check. His bond was set at \$1500 and he will be tried June 7.

Roy Armstrong, 33, whose home is in Pampa, was brought to Farwell from Lubbock to stand trial for forgery. He had previously been indicted by the grand jury and will be tried June 7 for forging and passing a check at Holiday Store in Farwell.

Johnny Lewis was returned to Farwell from Clovis to face charges of forgery. He allegedly forged checks at Hurst's Department Store in Friona and Williams Mercantile in Friona. Lewis' bond was set at \$1,000 and he was bound over for grand jury action.

The way singers are paid, looks like prosperity must be around the crooner.

Bridal Shower Fetes Miss Darlene Hromas

Miss Darlene Hromas, bride-elect of Mike McManigal, was honored Friday afternoon with a miscellaneous bridal shower at the Farwell Baptist Church. The bride-elect was presented with a corsage of white wedding bells resting on white net, as were her mother, Mrs. Charlie Hromas, and the bridegroom-elect's mother, Mrs. Jack McManigal. The women assisted Miss Hromas in opening her gifts.

Pink lemonade, pinwheel sandwiches with peacock blue and pink filling, pink and white mints and nuts were served by Misses Jean Reed and Jolene Donaldson.

A white cloth was draped on the serving table which was centered with a bouquet of white roses in a footed milk glass vase. Pink streamers extended from the central bouquet to two footed milk glass vases holding large roses which were at either side of the arrangement. Milk glass serving dishes were used, and napkins were white with the words "Darlene and Mike" inscribed in peacock blue inside an arrow pierced heart.

A large bouquet of spring flowers in a milk glass container was used on the piano. Hostesses for the occasion were Mesdames Clay Henson, Dick Gerles, Don Gerles, Bruce Blair, Fred Curtis, Lenton Pool, Loyd Cain, Clyde Magness, Clarence Johnson and Lester Norton.

Signing the guest register were Mesdames Calvin Blain, Ollie Utsman, Frank Edwards, Otis Huggins, Leroy McDonald, Joe Reed, Earnest Kube, Ray Mears, Arnold Freeman and Jai, Hobart McManigal, Myron Hillock, Otto Lingnau, Mildred Erwin, Joe McWilliams, Ernest White, J. H. Birchfield, Earnest Shuman, O. C. Petree, J. T. Hulsey, Sterling Donaldson, R. C. Martin and Neil Stewart.

Also Mesdames M. F. Sprowls, Ralph Franse, Mitchell Walls, Cecil Rundell, John J. Bolling, Weldon Rundell, N. H. Goldsmith, Jack Williams, Melvin Terry, Leon Billingsley, Jesse Terry, John Range, Claude Coffey, E. A. Hromas, Arnold Hromas, Harold Carpenter, Wendol Christian, Joe Crume, W. N. Foster, Riley Boss and E. G. Williams.

Also Misses Jean Reed, Zella Donaldson, Dorris Donaldson, Jolene Donaldson, Ann Atkins, Evelyn Lingnau, Peggy White, Pat Sprowls, Joan Hubbell, Sandra Rundell, Maude Hicks, Iris Goldsmith, Christine Paine, Martha Blair, Mary Coffey, Martha Coffey, La Nell Christian, Tammy Christian, Tina Gerles, Allison Terry and Malcolm Terry.

One dish casseroles, which had been demonstrated to club members, were served at noon, when members of the Oklahoma Lane Home Demonstration club met for all-day meeting recently.

A one-dish meat casserole was served along with a drink and salad, and the meal was topped off with a skillet dessert, which had been prepared in an electric skillet.

Program for the all-day session was the beginning of a basic dress sewing workshop. Five women started dresses during the program.

Attending were Mesdames Bill Dollar, Cecil Dykes, Henry Haseloff, Clarence Johnson, Edmund Klitten, W. T. Magness, Preston Martin, Vernon Symcox, Joe White and Harold Travis.

Mesdames Symcox and Martin were hostesses for the meeting.

Mr. and Mrs. Paul Crooks and Jana and Mr. and Mrs. R. E. Crooks and Keith from Texico were visitors in CeeVee over the weekend.

Homeowning Can Be Hazardous Too!

No matter how long the bronco-buster has been riding, he can never be sure the next horse won't throw him.

Such is the case with the homeowner. No matter how careful he tries to be, an unnoticed frayed electric cord, overloaded circuit, or smoldering cigarette can leave his home in cinders.

It's too late then to realize his insurance is "too little—and the wrong kind."

Be sure when you insure. Call on your local independent agent for a thorough appraisal of your needs.

ANNOUNCEMENT is being made of the engagement of Miss Carolyn Watts to Bill Banister of Clovis. Miss Watts is the daughter of Mr. and Mrs. A. T. Watts of Farwell, and his parents are Mr. and Mrs. E. L. Banister of Grants. Wedding vows will be exchanged June 24 at 3:30 p. m. in the Farwell First Baptist Church. Friends and relatives of the couple are invited to attend.

Daughter For Bill Martins

Welcoming the birth of a daughter in the West Plains Hospital in Muleshoe on May 16 were Mr. and Mrs. Bill Martin of the Oklahoma Lane Community. The little girl, who is their first child, was named Yalonda Gail. She weighed 7 pounds one ounce at birth.

Grandparents are Mr. and Mrs. R. D. Dale of Oklahoma Lane and Mr. and Mrs. Ernest Martin of Muleshoe.

Mrs. Langford Demonstrates "Flower Arranging" To Club

Flower arrangements of various sizes and shapes were shown to women of the Texico Modern Homemakers Club recently, as Mrs. Elmer Langford from the Pleasant Hill Extension Club gave a demonstration on arranging flowers.

"A flower arrangement is determined by the shape and size of the container," stated Mrs. Langford, as she showed the club members various containers which could be used in making a variety of flower arrangements.

Mrs. Bill Dudley of Clovis was hostess for the morning meeting, which was attended by

Awards Given By ESA Monday Night

Several members of Theta Rho chapter of ESA were honored Monday night when awards were given to those outstanding in various phases of ESA work.

Mrs. M. C. Roberts, educational director, revealed that "the outstanding member" was actually two ESA'ers, Mrs. Mitz Walling and Mrs. W. H. Graham Jr. Members had voted on the girl to receive the honor by secret ballot and a tie resulted.

Ten-year pins were given to Mesdames Walling and Graham and to Mrs. Joe Helton and Mrs. Don Williams. Mrs. Wilfred Quickel, member at large, will also receive this award. The five members were charter members of the organization.

Mrs. John Getz, outgoing president, presented the sorority a book, Roberts Rules of Order. Wilma Liner, jonquil girl, then recognized Mesdames Walling and Helton for perfect attendance to meetings during the year. Mrs. Ted Magness received pins for her work as treasurer and chapter correspondent, and Mrs. Helton was awarded a miniature cross for her work as chaplain of New Mexico. Mrs. Bert Williams was honored with awards as past secretary and parliamentarian.

As Mrs. Getz presented the gavel to Mrs. Pike Jordan, new president, Mrs. Jordan in turn gave her a past president's pin and a gift of appreciation from the members. Mrs. Roberts also received a gift for her work as educational director.

In the business meeting, Mrs. Jordan and Mrs. Walling reported on a recent meeting of the cystic fibrosis organization in Amarillo, and Sept. 10-18 was announced as cystic fibrosis week. Members decided to give \$25 to the organization.

Parents of the members will be honored June 11 with a breakfast with Mrs. Helton in charge of arrangements. Mrs. Jordan then appointed committees for the coming year and the summer social was set for July 15 at the home of Mrs. Roberts.

Rummage sales were planned with details to be scheduled by the ways and means committee. Following the business session, refreshments were served to the twelve members present.

Spudnuts and pops were served to the approximately 50 guests, who were later conducted through the Pearce's new home.

Misses Jo Potts and Carolyn Routon returned Friday evening from a visit in Lawton, Okla.

Delta Kappa Gamma Birthday Observed

Delta Xi Chapter of Delta Kappa Gamma observed the birthday of the organization with a coffee held Saturday morning at the Homemaking cottage.

Members joined together in singing "The Birthday Song" and "The Founders Torch." Mrs. Betty Jean Mercer of Hereford gave an interesting account of the five year growth of Delta Xi Chapter. Mrs. Luella Durham of Hereford paid tribute to the twelve founders of the new International organization.

President, Mrs. Fleeta Terry of Bovina, brought highlights of the State Convention which was held in Houston on April 28-29. Two points stressed at the convention were that all members must be in attendance at all chapter meetings unless there is a valid reason and that more discretion should be used so as not to overload chapters with honorary members.

The business meeting closed with Fleeta Terry announcing

her resignation as president, since she will move to Amarillo soon. Mrs. Helen Richardson, first vice-president, will assume the guiding of Delta Xi. She is a long time member of the organization who has served in almost every capacity. Mrs. Hazel Merritt of Dimmitt was elected to serve as first vice-president.

Farwell members who were hostesses for the meeting included Mesdames Mary Whitely, Alice Jay Tucker, Hattie Boling, Margaret Kennedy, Lenora Williams, Hattie Coffey, Alice Williams and Jo Ann Zahn.

IN HOSPITAL

Gene Lovelace is seriously ill in an Albuquerque hospital, according to reports from his family. His wife is at his bedside. Visiting with him Tuesday were two brothers, Charlie and Woodrow of Farwell.

A FAREWELL PARTY honoring Mr. and Mrs. Cary Joe Magness was given Thursday evening by members of the Farwell Volunteer Fire Department. Some of the group are shown above.

Farewell Party Fetes Magnesses

A surprise farewell party Thursday evening feted Mr. and Mrs. Cary Joe Magness, who are leaving June 8 for Gunnison, Colorado, where he will

attend college this summer. Members of the Farwell Volunteer Fire Department were hosts for the party which highlighted a regular meeting of the group.

Ice cream and cake was served and the Magnesses were presented with a gift from the department.

The climate couldn't be better
for buying a new

JET-SMOOTH CHEVROLET

(and that's the car more people are buying!)
Take those June skies and breezes. Add a spankin' new Jet-smooth Chevy. Presto, you've got all the makings of a roamin' holiday. That low-loading deep-well trunk swallows up most everything you'd want to pack along. The carefully crafted Body by Fisher has you livin' in luxury (and in comfort-high seats where the sight-seein' comes easy). That Jet-smooth Chevy ride, with a sinewy Full Coil spring at each wheel, gentles you past all the wrinkles and ruts in the roads (there's even a team of over 700 behind-the-scenes "shock absorbers" to hush up road surface mumbblings and grumbblings). All in all, Chevy's light-steerin', easy-goin' ways just don't leave much for you to do but feel good. And that's exactly the way your Chevrolet dealer wants you to feel — as you can plainly see in those beautiful June buys he's got bustin' out all over.

Air conditioning — an extra-cost option that gives you fingertip temperature control. Try it.

Impala Convertible — just as saucy as you please and wide open for fun.

See the new Chevrolets at your local authorized Chevrolet dealer's One-Stop Shopping Center

Methodist News

Junior campers from the church left this week for Sacramento Methodist camp. Accompanying the group were Mr. and Mrs. James Craig.

Vacation Bible School will begin at the church on June 5. The carol choir of the church will not meet for the next three weeks, according to Mrs. James Craig, director.

NEW FARWELL BAPTIST PASTOR, Rev. J. L. Bass and his family are pictured above after moving to their new home in Farwell. Standing with Rev. Bass is his wife, Flaura Lee. Seated from left to right are their daughters, Jana, Sherry and Joyce.

Rev. J.L. Bass Baptist Pastor

Beginning duties as pastor of the Farwell First Baptist Church June 21, was Rev. J. L. Bass.

Rev. Bass and his wife moved to Farwell from Littlefield, where he had served as pastor of the Parkview Baptist Church for the past three years, two weeks ago. They were joined by their daughters after the girls had completed the school term last week.

Rev. Bass grew up at Brownwood and received his education at Howard Payne College.

Their daughters are Sherry, 13 who will be in the eighth grade; Joyce, 11, who will be a seventh grader; and Jane, 6, a second grader next year.

District Manager Gives Advise On Social Security

Hal Geldon, Manager of the Amarillo Social Security Office, noted today that "vacation time for some students may mean 'work' time for others." With the end of the school term, young people all over the Panhandle will begin the exciting adventure of looking for their first job.

Geldon said that the student can get started in the right way by having his social security account number card with him when he applies for that job. The employer needs the number from the card to properly report the wages paid. Failure to show the card to the employer may mean the student will lose some future social security protection.

Youngsters who have worked before, even part time, probably had a social security card. If they have lost their card, they should get a duplicate with the identical number that was on your original card. Having more than one number causes confusion and delay. "Remember--one social security number lasts a lifetime," Geldon said.

If the student never had a card, or if he needs a duplicate card, he should visit his local Post Office to obtain the necessary application blank for one.

When a psychologist does find a normal person he's gotta job curin' him.

Dear Farmer,

Most of you are familiar with all phases of cotton production, but we think this is a good time of year to re-view the things we know and possibly learn something new about early-season insect control.

We have a program outlined on cotton production, which will feature Raymond King, entomologist, from Lubbock. He will be assisted by local county agents in the program which will consist of slides, movies and talks on cotton insects, harvesting, irrigation, and diseases.

The coffee, donuts, and visiting will begin at 8:30 p. m., June 9, at Farwell School Cafeteria. You and anyone you care to bring are especially welcome.

Pleasant Hill

BY MRS. BUCK TAYLOR

Visiting recently in the homes of Mr. and Mrs. Robert Servatius and Mr. and Mrs. L. D. Taylor was their mother, Mrs. Janie Anderson and a sister, Mrs. A. L. Hargrove, from Anton.

Mrs. Amos Shockley and daughter, Myrtice, spent Sunday in Anton visiting her parents, Rev. and Mrs. C. C. Morgan and Wanda. They also visited a sister-in-law and family, Mr. and Mrs. Jack Grace and another sister and brother-in-law, Mr. and Mrs. Dorman Shockley from Corpus Christi.

Mrs. E. J. Hodges and Mrs. Mary Johnke were in Dimmitt Friday on business.

Boyce Brown spent last week in Bovina with his cousins, Freddie and Dorris McLean.

Mr. and Mrs. Henry Johnke were in Lubbock Sunday visiting friends and relatives.

Spending Monday in the home

Farwell Oil Company's new Fina Station is now open. The Station is located on Highway 60, and will feature all Fina products and Goodyear tires. Construction of a bulk plant is underway, a wash and grease room will be added to the station in the near future.

of Mr. and Mrs. Henry Johnke were Mr. and Mrs. Louis Jonek from West Texas, and Mr. and Mrs. Louis Broch from Lubbock.

Mr. and Mrs. Artie Taylor, Freddie and Johnny Mack were in Sikesprings last week to attend funeral services for their uncle. On their way home they visited with her mother, Mrs. Eula Cagle.

Spending a few days in the home of Mr. and Mrs. Gordon

Smith are their cousins, Jackie and Marion Smith from Atlanta, Ga.

Visiting Sunday evening in home of Bro. and Mrs. Hugh Fraizer were Bro. and Mrs. Wade from Roswell.

Lynell Lovett is home from Wayland college to spend a few days with her parents, Mr. and Mrs. Troy Lovett.

Visiting in the home of Mr. and Mrs. Roy Lovett this week (Continued on page 5)

Phillips To Release Two New Records

Charlie Phillips, Farwell's song writing disc jockey who made the big time in 1958 by writing "Sugartime" the song which soared to the number 1 spot in the nation on the hit parade, will release two new recordings, "Welcome to

My Wedding" and "No More Sugartime," on June 2.

Phillips who works at radio station KZIP in Amarillo will tour with the Grand Ole Opry show to advertise the new releases.

"I'm sorry to be so late, Mom," said a third grader as he rushed home from school. "We were making a science display--and I had to stay and finish the universe."

Twenty-One Grads At Texico

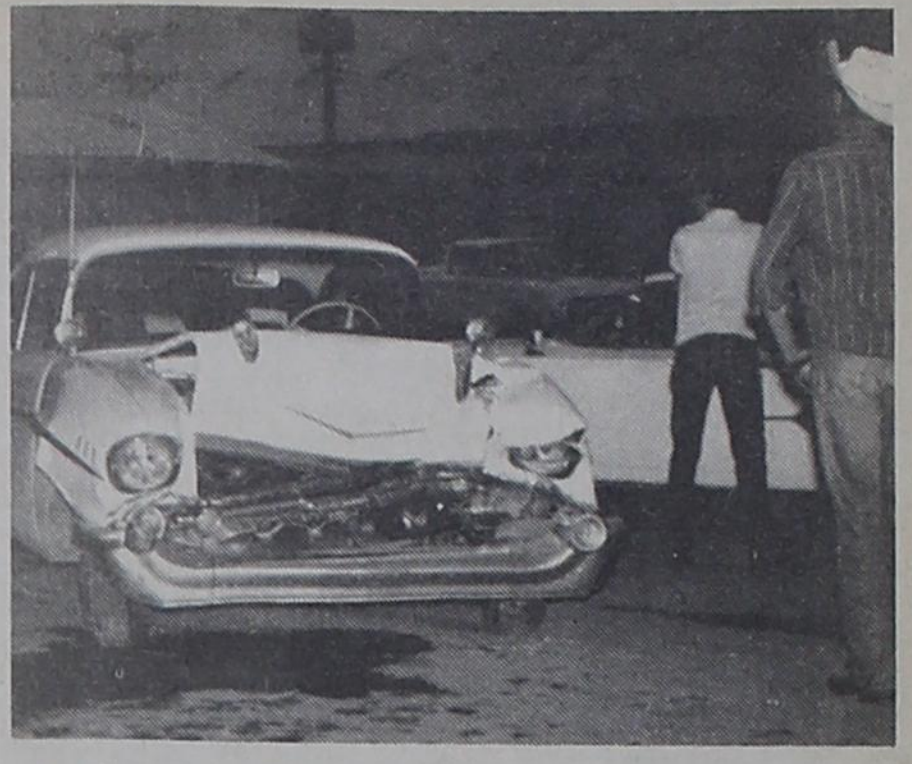

Twenty-one Texico seniors received their diplomas Wednesday evening at commencement exercises in the school auditorium.

Dr. Donald Roush, Dean of the College of Education from New Mexico State University, was guest speaker for the occasion. He told the seniors he believed that the space age was just as challenging as pioneer days, and that perhaps it took even

more courage for the American Astronaut, Alan Shepard, to go into space as it took for the first pioneers in America.

He also predicted that one day schools would be built on other planets. In closing, Dr. Roush stated that co-operation was important, and that with everyone joining hands and working together, a better world could result.

Diplomas were awarded to the seniors by John Hadley, president of the Texico School Board.

A three car accident resulted in several hundred dollars damage, but no injuries, last Thursday night. A 1956 Plymouth, driven by Mrs. Jim Hughes, was making a left turn into Watts Service Station on Highway 84 and was struck from behind by a 1957 Chevrolet, shown above, which was being driven by Billy D. Reed. The Hughes car was forced into a 1957 Ford station wagon, belonging to Lloyd Routon and being driven by Jimmy Redwine. Reed was cited by the Highway Patrol for failure to keep his automobile under control.

News From LAZBUDDIE

BY MRS. C. A. WATSON

The Lazbuddie Home Demonstration Club met Thursday afternoon of last week in the home of Mrs. Raymond McGehee. After minutes were read and approved, Mrs. Adrain Weir gave the council report.

A demonstration on making a one dish meal, deviled tuna fish casserole, was given by Mesdames Ben Foster Jr., and Mrs. Adrain Weir.

Members plan to have a sewing class in the Lazbuddie Home Economics room beginning June 5. Each woman will make a garment. The class is open to the

public, with Mrs. Evertt McBroom, Mrs. Andrew Brown and Mrs. Harvey Blackstone as teachers.

Refreshments of cake and punch were served along with the casserole dish.

Next meeting will be Thursday afternoon in the home of Mrs. Ben Foster.

Attending ordination services at the Primitive Baptist Church in Anton Sunday were Mr. and Mrs. Harvey Bass, Carolia and Vina of Muleshoe; Mr. and Mrs. J. L. Phipps, Sue Kay and Galeta, Progress; Mrs. Charlie Watson of Lazbuddie, and Mr. and Mrs. Morris Nowlin and Carolyn, and R. C. Cline all of Muleshoe.

Y. B. Mayfield of Lazbuddie is in poor condition at the Parmer County Community Hospital.

We Are Always Happy to be of Service to You

RALPH HUMBLE

Farwell, Texas

Boys on Lazbuddie's track team who went to the state meet, received their state patches last week. The patches are in the shape of Texas with the inscription "State Champs, class B, 61."

Morris Bruns of Smyley Wilson school in Lubbock was home over the weekend visiting his parents, the Less Bruns. Mr. Bruns will remain in Lubbock this summer to teach a summer school English class.

Members of the Lazbuddie freshmen class had a picnic Wednesday of last week at McKinsey Park in Lubbock. Accompanying the group were Mesdames John McGehee, Dalton Mimms, and J. B. Young. The sophomore class held

their picnic Thursday at McKinsey Park in Lubbock. Sponsoring the group were Mesdames Earl Peterson, Raymond Houston and Dorothy Mason.

Junior class members returned Thursday from a tour through Carlsbad Caverns. Mr. and Mrs. Scott Windham and Grace Young accompanied the class.

Members of the 1961 graduating class returned Saturday afternoon from a week's trip to Corpus Christi. They went by way of Austin and returned by San Antonio. Mr. and Mrs. Bobby Crooks were sponsors for the trip.

Cathy Wilson, reporter for the Lazbuddie junior 4-H club reports that the club will meet the first Tuesday of each month during the summer. Meetings will be in the home of Glen Anear. All members are urged to be present at the meetings since several important matters will be discussed during the summer.

Wednesday evening Mrs. Grover Dennison from Denton was a guest in the Joe Prayter home. She is Mrs. Prayter's aunt. Sunday Mr. and Mrs. Prayter and Mrs. Dennison visited the Bayne McCurrys in Edmondson. Mrs. McCurry is the Prayter's daughter.

Donnie Smith had several stitches taken in his foot Sunday after an accident at the Muleshoe pool.

left Monday for a trip to Carlsbad. They will tour the caverns and other points of interest in New Mexico. They were accompanied by Scott Windham.

Visiting Mrs. Raymond Houston this week is her father, J. T. Bostic from New Deal.

Birthday greetings this week go to Terry Templeton, May 22; Mrs. Fred Wilbanks, May 23; Harold and Carrol Redwine, May 24; Calvin Mason and Mary Ellen Garza, May 25; and Venetta Lesly and Gary Brown, May 28.

Nora Simmons from Hereford and Selma Haskins from Gotebo, Okla., were Sunday visitors in the George Haskins Sr. home.

Vacation Bible School for the Lazbuddie Methodist Church began Monday afternoon at 2:30, and will continue through this week.

The Lazbuddie First Baptist Church will have their vacation Bible school beginning June 5 through the 9th.

Mrs. Alex Steinbock won an electric ice cream freezer at Muleshoe Saturday.

Mr. and Mrs. Evertt Maxwell and Maxene plan to leave next week for several days in California. Their destination is Pittsburg, California. They also plan to visit several other points of interest on their trip.

Mr. and Mrs. Purl Tipple, teachers in the Lazbuddie school system, are leaving in a few days for Wyoming where

they plan to visit most of the summer.

The R. E. Williams family plan to vacation in the Rio Grande valley this summer.

Mrs. Katie Smith is visiting with her mother, Mrs. R. A. Ingraham in Tulsa, Okla., this week.

Mr. and Mrs. Fred Wilbanks and Paul plan to leave soon for a visit in Marshel, Okla. They also plan to visit in Arkansas and Texas.

Mrs. L. B. Hambright honored her parents, Mr. and Mrs. E. E. Mason, with a reception on their 60th wedding anniversary. Other hostesses were Shirley Tremble, Lona Embry, Carrie Withroe, Mrs. Ira Wimberley and Mrs. J. E. Williams.

Visiting the James Harveys Thursday was James' parents, the H. A. Harveys from Plainview. Sunday guests in the Harvey home were the B. A. Deeringers from Muleshoe.

Mr. and Mrs. Ray Lovejoy

Birthday greetings this week go to Mrs. T. O. Lesly, May 28; Johnnie Lee Pruitt, May 29; Elaine Embry, May 31; Mrs. John Agee, June 1; Mrs. Alford Steinbock, Gail Ivy and Edwin Masters, June 5.

Visiting the Dan Cargiles last week were Mr. and Mrs. Dalley Bishop of Beaumont, Mrs. Lily Freeman of Wichita Falls and Mr. and Mrs. Don Bishop of Lake Charles, La.

Mrs. Jess Pendergrass received word Friday that her mother, Mrs. L. C. Hester, had fallen and broken both wrists.

Leon Smith Jr., and Howard Watson did some sky diving near Portales Sunday morning.

The Goodwin Family reunion was held Saturday, May 27 at McKinsey Park in Lubbock. Attending from near Lazbuddie were the Dan Cargiles, Don McDonalds and Dwain Menefees.

A social was held in the Robert Murray home in Bovina Friday evening. Attending were Mr. and Mrs. Buck Creamer of Muleshoe, the Roy Murrays, Muleshoe; and the Charlie Watsons, Lazbuddie.

Mr. and Mrs. Bob Pendergrass from Lubbock spent Tuesday night in the Jess Pendergrass home.

Mr. and Mrs. Lovington visited her mother and father, the J. B. Wrights Wednesday.

Attending a social at the Clyde Monk home Sunday evening were the J. B. Wrights, Jess Pendergrasses, W. H. Harmans and B. C. Scotts.

The Midway Home Demonstration Club met in the home of Effie Splawn Tuesday afternoon. During the business meeting the council report was given by Louella White. Mrs. White was elected council delegate. A one-dish meal was demonstrated by Dorothy Mason.

Next meeting will be in the home of Mrs. Claude Watkins on June 6.

JUST ARRIVED !!

The NEW JOHN DEERE MODEL 105

Model 105 Hi-Lo Self Propelled Combine

The new acre-eating 105 rounds out the complete line of John Deere Self-Propelleds. This giant grain-saver is perfect for the large-acreage grain grower or custom operator. You can buy it with a 16-, 18-, 20-, or 22-foot platform . . . won't take you long to figure out what this capacity can do for you.

And to match the tremendous cutting capacity, the 105 boasts a 50-inch cylinder and 50-inch separator. These units can handle any amount of grain and straw the platform and feeder deliver. There are five 5-step steel straw walkers that are nearly 12 feet long (140 inches). There are 6,930 square inches of separating area—plenty for highest yields, toughest conditions.

When it comes to cleaning the grain, this new John Deere takes a back seat to nobody. Sieve and chaffer are 48 inches

wide . . . they're fully adjustable . . . takes but a minute to make a fine-line setting to do a near-perfect job. Total cleaning area is 5,066 square inches. Compare this with the others!

Regular equipment includes hydraulic power steering. You'll handle this 7-ton self-propelled slick as a whistle. You also get selective ground-speed control, which enables you to adapt forward speed to match the crop and field condition exactly . . . speed up in heavy crops, slow down in lighter areas—all without stopping to shift gears. All operating controls are right at your finger tips for quick response to changing conditions.

Make sure you get acquainted with the new John Deere 105 before you buy any self-propelled—any size at any price. It's one you'll be seeing and hearing a lot about.

Slap At Liberalism--

In the county, only 1,000 persons voted Saturday, compared to about 2,500 in the general election.

Dean McCallum, a Bovina Democrat, took the same view, saying, "The Democrats didn't vote." He didn't believe that Tower's success would be much of a boost to the Republican party in Texas, and was of the opinion that "a good democrat" could beat Tower in the next election.

McCallum thought that, had Blakley won, he would have been hard to beat next time, even by a "good Democrat."

Eddie Ross, a Bovina farmer, thought that "squabbling among Democrats allowed a Republican to get in." Had the Democratic party been more united, Ross thought that Blakley would have won.

Leo McLellan, Friona Republican, said he thought the big reason for Tower's success was that the people got fed up with what he called "Johnson's sell-out" earlier. He was referring to the democratic convention and Johnson's acceptance of the vice-presidential nomination.

"A lot of folks say that many voters stayed home because they only had a choice between two Republicans," McLellan said, "but I think they say that, only because Tower won."

"Blakley had the endorsement of all the democratic leaders from Austin to Washington," McLellan pointed out.

"I'd like to think," McLellan further stated, "that the people are getting wise to the fact that the government is going to spend us into hard times, and that this was there way of expressing their opposition to it."

Floyd Reeve, another Friona Republican, said, "I've thought for a long time that Parmer County, at heart, belonged to the conservative line of thinking, and this was their opportunity of expressing it."

"A lot of oldtimers have always leaned to the Republicans, but in recent years there's been no opportunity to vote anything but democratic," Reeve said, adding that, "This gives us a good chance for a two-party system."

"I personally am rather optimistic (about a two-party system), since the ice has been broken, Reeve said.

Dolph Moten, democratic precinct chairman of Bovina, thought there were several reasons for the success of the Republican. He thought that Tower was a "good personal campaigner," whereas Blakley didn't have much voter appeal.

Also, Moten thought the publicity Tower received last fall in his campaign against Lyndon Johnson was a big factor.

"These things, coupled with the fact that the Democrats didn't vote," Moten said, were the reasons for Tower's success. "Too, the Democrats were overconfident," he added.

As to whether or not Tower's success would help to create a strong Republican party, Moten doubted whether it would, but said, "I hope it will."

"Then maybe some of the people who vote Republican all the time will get out of the Democratic party," Moten said.

Jack Patterson, Republican from the Rhea community, shared the views of most of his party colleagues, and added that the integration trouble in the south, and "Fidel Castro's scheme of blackmail, which the Kennedy administration is going along with," had a great deal to do with Tower's win.

Patterson also cited the "General Walker incident" in Europe, and pointed out that "it's getting to where a person can't speak up for Americanism anymore."

"The people are waking up to these things," Patterson said, and "They want to get back to constitutional government, and get away from socialism."

Patterson feels that Tower's win will strengthen the Republican party and also "wake up the Democratic party in Texas and the south," which he said, "was taken for granted at the Los Angeles Democratic convention."

The Rhea farmer added that it may mark an end to belief by the liberal Democrats "that they could cram anything down their (the Southern Democrats) throats."

Hoppers--

and she plunged a table knife keep into the murky, vicious liquid. Drawing it out, she twirled the knife handle until the strings had all been caught up, then dobed the sticky mass on the bread.

Then came the first bite, but that was as far as the project went. She chewed on it a little, got a far-away look in her eyes, then turned toward the sink.

The black strap molasses lasted a long time.

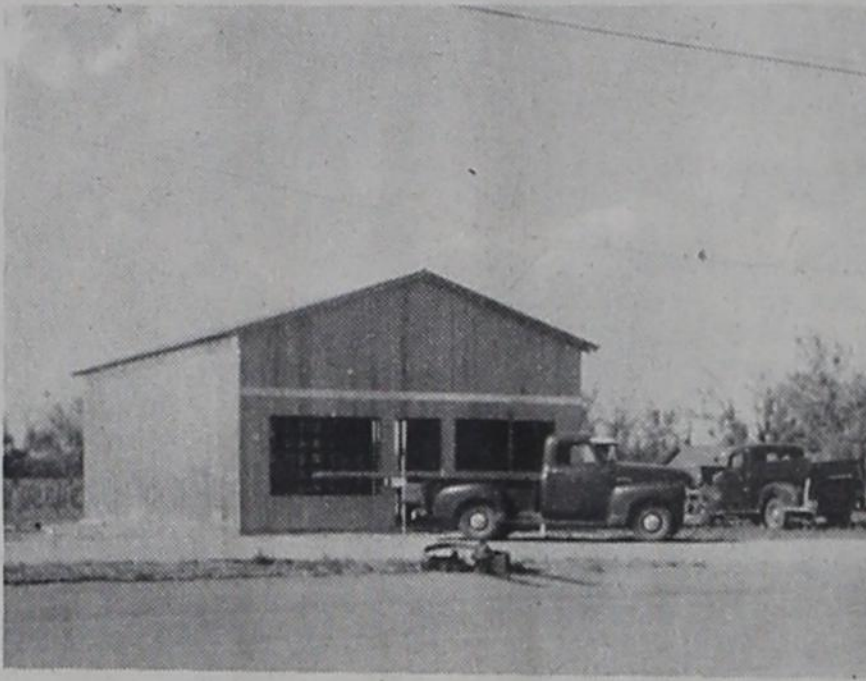

Like some black strap molasses, I believe I'll go buy some."

Now she had told me she had a common upbringing over in Briscoe County with the Great Depression and all of that, and so I figured this was just a part of coming up the hard way that was cropping out in her usually genteel disposition.

Evenso, I couldn't help but have mental flashes of stockmen pouring black strap molasses over cane butts to make the cattle eat them, and the association of the cowlot with a commodity fit for human consumption left me a little green around the gills. I decided if she wanted it she could have it.

Well, not long afterward, she trooped in from John Porter's with a gallon jug of sure-nuff black strap molasses. I watched with wonder as she put a plate on the table, laid a full slice of bread in the middle of it, and opened the ominous-looking jar.

A kind of sulphuric aroma wafted upward as she pried the lid off. But that didn't stop her,

Nearing completion is this new business building on the highway in Texico. The building is being built by J. C. Howard, Sr. and will be headquarters for his well drilling rig, Howard plans to have irrigation pumps and repair service at his new location.

Lutheran Church

The Lutheran Women's Missionary League met Thursday with Mrs. Clarence Kube and Mrs. Otto Lingnau as hostesses. Topic was "Fruit Bearers" by Mrs. Adolph Haseloff.

The League is sponsoring a clothing drive for world relief.

Sunday afternoon, June 4, the Walthier League will sponsor a hay ride.

Vacation Bible School will begin at the church on Monday, June 5, with the following persons as teachers: nursery, Misses Evelyn Lingnau and Margaret Haseloff; kindergarten, Mrs. W. Kalbas; primary, Mrs. Gilbert Kaltwasser; junior, Mrs. Fred Ramm; and junior high, Mrs. A.R. Sander. Pastor Sander will conduct the opening service each morning and also assist with the school.

Sunday school training classes will meet on June 7.

The Lutheran Laymen's League will conduct a meeting on June 13. Details will be announced later.

Village constable (to motorists in head-on collision): "Now gentlemen, what I want to know is, which of your two cars hit the other first?"

THE HIGH PLAINS FARM AND HOME

Bindweed Is Topic At Monday Meeting

Bindweed, long a menace to most every High Plains farmer, was the main topic of discussion Monday night when about 35 farmers attended a meeting on weed control at Friona State Bank.

Reports on what had been done in the past to control the weed in Parmer and Hale Counties, and discussions were heard on what is currently being done, and what can be done in the future, to control the twining herb.

Archie G. Martin, supervisor of the Hale County Weed Control District, Plainview, was the featured speaker for the program. He discussed how the weed control district was formed and what had been accomplished by its program in Hale County.

The weed control district has two main functions, Martin said. One is to educate the farmer on the need for weed control and the other is to conduct field work on the actual control of noxious weeds.

Hale County farmers voted on, and approved, the formation of the weed control district in 1957, following the passage of a House Bill in 1955 which permitted 36 counties in Texas to vote on the measure which would "put teeth" in a weed control program.

When the farmers okayed formation of the weed district, a three-cent per acre tax was levied for the purpose of carrying on the program.

The weed control district hired personnel and purchased equipment for the purpose of carrying on the program to eliminate noxious weeds, which in Hale County is mostly bindweed, Martin explained.

The Hale County supervisor showed movies on some of the work of the weed control district and pointed out what could be accomplished by such a program.

He said that the actual field-work being done by the district

on weed control was of importance, but of even more importance was the educational program which made farmers aware of the need to control the weed and what steps they could take to rid their farms of it.

The district assists farmers with carrying out their own individual weed control programs, and also conducts weed eradication measures in badly-infested areas. All of the work of the district is financed by the three-tax per acre tax levy.

In Parmer County, no attempt has ever been made to call an election for a weed control district, but a volunteer weed program has been carried on for the past seven years.

J. T. Jones, chairman of the Parmer County Weed Control Committee, was moderator for Monday's meeting, and Joe Jones, Parmer County agent, gave a report on the history and accomplishments of the program.

During the seven years the weed control committee has functioned, Jones explained, "we have tried to incorporate the same things that Hale County has done in our program."

He pointed out that farmers, local governmental agencies, the Santa Fe Railroad, the Highway department, and other groups have in the past assisted with the program, and are presently doing so.

"Much has been done, but there is still a lot left," Jones said. The weed committee has tried to carry on an educational program to inform the people on what should be done, the county agent added.

Several farmers gave testimonials on the accomplishments in Parmer County, pointing out how much better shape this county was in than adjacent counties.

It was pointed out, however that there was still a lot of bindweed infestation and more measures needed to be taken.

Ronald E. Mock, Santa Fe

representative from Amarillo, explained how the railroad was helping to control the weed. Whenever bindweed is located on Santa Fe right-of-way, the railroad undertakes the eradication of the weed.

The railroad buys the herbicides and also applies it to the infested areas. Mock is the railroad representative who has been treating the bindweed in Parmer County as well as other counties in this area.

Parmer County Judge Loyde Brewer explained how the commissioners court would pay for the herbicides on county road right-of-ways, providing the farmer would put it on.

Prentice Mills, Parmer County ASC office manager, explained the ASC cost-sharing program. Under the program, the government pays half of the cost of treating bindweed on farms, provided it isn't over \$75 per acre, Mills said.

A report was also heard on work which had been carried on by the city commissions of Farwell and Friona where bindweed was found in town, and Roy Crawford, vocational ag teacher at Bovina, explained a weed control program which was carried on in his vocational ag department.

Through the vocational ag program, the students are informed as to what bindweed is, what it will do to farmland, and what can be done to control it, Crawford said.

A. L. Black, chairman of the Parmer Soil Conservation District, explained the function of the SCS in regard to weed control, and pointed out that there were five machines available in the county for weed control measures.

Jack Patterson told of a community program which is planned in the near future for bindweed eradication in the Rhea community.

The purpose of the meeting was to bring farmers and other county residents up to date on what had been done on weed control and to stimulate more interest in control measures.

There was no discussion at the meeting on whether the calling of an election for forming a weed control district would be desirable in Parmer County, and as one weed committee member said after the meeting, "A three-cent tax levy isn't much, but we'd like to avoid it if possible."

The main function of the

PARMER COUNTY'S REPRESENTATIVES to the Texas 4-H Roundup, scheduled next week at Texas A&M College, are Miss Judy Billingsley, Bruce Billingsley, and Gary Foster. The three 4-H Club members won the right to attend the roundup by winning county and district 4-H contests. Their expenses to the roundup are being paid by the Parmer County Farm Bureau.

WITH THE COUNTY AGENT

JOE JONES

The 1961 cotton crop is off to a good start. This does not mean that we don't have THRIP and seedling disease present, in every field. In checking young plants last week, I found a lot of THRIP in the terminal buds of the small plants. You need to take your pocket knife and open up the small terminal and check for THRIP in the young rolled up leaf.

Too many of you don't check close enough to find THRIP. Cotton that looks good at 20 miles per hour doesn't look so good when you walk out in it and start counting the true leaves (not the cotyledon leaves), and checking their condition. Most all true leaves show some THRIP damage and some have been damaged severely. These will never develop into a leaf that can manufacture much plant food for the young plant to use in making further growth.

Seedling diseases are present in all fields I have looked at, county weed committee has been to enlist voluntary efforts on the part farmers, as well as city residents, and local government.

It was evident from the reports of the various individuals at the meeting that the weed control program had been successful to a great extent, but that more effort was needed from all concerned.

but nothing to compare with last year. We always have seedling disease in our young cotton and, of course, aeration of the soil and hot weather usually bring it right out, but a few days to a few weeks is lost depending on the severity of the disease. Let me caution you about laying all your trouble on seedling disease, THRIP, or sand. It can be a combination of all or either one. It is just good business to get out in your field and look for THRIP and dig up a few young plants and take a look at the root system. You must remember, time lost now cuts the growing season, just the same as does the frost date.

You will be interested to know that in Texas 45,274 farmers have signed up 41.5% of their base acreage in the Feed Grains Program. This will result in a substantial feed grains reduction should most of these farmers carry out their intention to divert. The extra one and a half percent above forty comes in from the small farmers who are diverting more than forty percent of their acreage.

The paper has shown interest in running a series of informational stories on civil defense. You will be interested in these I know, so get ready, for Richard will shoot the works when he gets in full swing.

Plan Now To Attend

Three To Attend 4-H Roundup

Three Parmer County 4-H Club members plan to leave Monday for Texas A&M College at College Station where they will attend the annual Texas 4-H Roundup.

Attending from here will be Judy Billingsley and Bruce Billingsley, from Oklahoma Lane, and Gary Foster, of Lazbuddie.

During the three day roundup, Tuesday, Wednesday, and Thursday, they will attend various programs and meetings and participate in state contests.

Both Judy and Bruce, children of Mr. and Mrs. Leon Billingsley, will compete in poultry marketing contests. Gary, the son of Mr. and Mrs. Nelson

Foster, will participate in tractor driving.

All three of Parmer County delegates are members of the Junior Leadership Club. They won the right to enter the state contests by winning county and district contests earlier in the year.

The annual 4-H Roundup is the highlight of a year's work for 4-H club members under the leadership and guidance of volunteer adult leaders and county extension agents.

State contest eliminations serve as further development of girls and boys in achieving the objectives of their particular demonstration.

Gas Users' Ball Rolling

The newly-formed Parmer County Irrigation Gas Users Association continues to gain steam.

In a county-wide election, four directors have been named. They are Vernon Symcox, Farwell; Marion Carson, Bovina; Hap Fairchild, Friona; and Fred Burch, Lazbuddie.

These men represent the four commissioners' precincts in the county. They will serve with association officers, who are Bruce Parr, president; Gilbert Kaltwasser, vice-president; and Carl Schlenker, secretary-treasurer.

Parr reports over 700 wells now in the organization, and expressed satisfaction with the growth and progress of the group in the county. A mem-

bership drive is still underway.

The local group is affiliated with the Plains Gas Users Association, a region-wide organization of similar description. The groups are working together to obtain the "lowest price possible for fuel to power irrigation wells." This includes natural gas and all other power sources, officers point out.

Parr says that for the first time irrigation farmers now have a voice that can be effective in working toward cheaper fuel to run irrigation engines.

"We have already been put on notice that another increase in the price of natural gas may be in store in about three years," he says.

Basic Clothing Workshops Now Being Held In County

Having trouble with setting in sleeves, bound button holes, matching stripes, or plaids, or getting clothes to fit right. These are a few of the popular problems homemakers have in sewing clothes for themselves or others.

Three basic clothing workshops are being conducted in the county by trained leaders of the Oklahoma Lane, Lazbuddie and Hub Communities. Leaders teaching these special workshops sessions in the Oklahoma Lane Community are Mrs. Harold Travis, Mrs. Vernon Symcox, and Mrs. Edmund Kitten. Leaders in the Hub Community are Mrs. A. L. Black, Mrs. T. I. Burleson, Mrs. W. E. Stringer, Mrs. John Renner, and Mrs. Flake Thurman. Leaders of the Lazbuddie Community are Mrs. Everett McBroom, Mrs. Harvey Blackstone, and Mrs. Andrew Brown.

Miss Billingsley Competing For Bureau Scholarship

Judy Billingsley, County 4-H Jr. Leadership Club member, placed first in the District I judging of her record book in the Texas Farm Bureau scholarship. Two scholarships of \$250 are presented each year by the Texas Farm Bureau Federation to one boy and one girl in the state.

Each 4-H member must submit a 4-H Record Book of his or her many club program accomplishments. Judy's record book will be judged with winners of the other eleven districts by a State Judging Committee to select the boy and girl who is to receive the scholarships.

To be eligible a 4-H club member must have completed three years of 4-H Club work including the current year. He or she must be enrolled in the Texas 4-H Junior Leadership Demonstration. Plans must be made to enter college the year of the judging or must be enrolled in college as a freshman.

Judy is the daughter of Mr and Mrs. Leon Billingsley of the Oklahoma Lane Community. She is a 1961 graduate of Farwell High School completing her studies as valedictorian.

The five day Basic Clothing Workshop under the instruction of Miss Ettie Musil, County Home Demonstration Agent, were Mrs. Ralph Shirley, Mrs. L. D. Taylor and Mrs. Lee Campbell of Friona. Leaders of Black HD Club are Mrs. Helen Fangman and Mrs. Johnny Marrs, leader of Northside is Mrs. Floyd Brookfield. Mrs. R. L. Foerster and Mrs. A. E. Redwine are leaders of Midway HD Club.

Taught in the workshops held in the Hub Community Center and American Legion Hall in Friona were several shortcuts in clothing construction. These included choosing the right pattern design for the individual, choosing the correct size pattern, fabric design to fit the pattern design, and decorations for the pattern.

Before cutting out the patterns, necessary alterations were made. Patterns were pinned on the fabric to match stripes, plaids and designs. Shortcuts were practiced in reinforced faced corners, set in sleeves, bound buttonholes, pleating and gathering skirts, two piece collars and interfacing collars and bodice facings.

Sewing in bodice and skirt stays was demonstrated, along with putting in hems, finishing seams, covering belts and buckles, and pressing the finished garment.

Miss Musil Conducts Training

"Do you live to eat or eat to live? Do you plan for salads as just a combination of foods to serve your family when they are hungry or do you serve the salad for their bodily needs?" This was the question asked by the home demonstration agent, Miss Ettie Musil, in a leader training conducted Friday afternoon, May 26 at 2:00 in the Friona State Bank Community Room.

Salads do play a very important part in our daily food needs to keep our body factory operating smoothly. They also add interest to a meal. And what's more salads are delicious.

Thirteen volunteer leaders of the eight home demonstration clubs were trained to present the same program in their respective clubs in June. These trained leaders are Mrs. Dick

FOOTSAVING EDUCATION

by
James E. Edwards

Do Children's Feet Grow Faster In Summer Than In Winter?

Yes, at Easter time it is common to find that the feet of a child have grown only a half size since September but at back-to-school time the same child may need a size or a size and a half larger shoe than was fitted five months before.

It is customary to blame the rapid growth on going bare-foot but the fact is that children who go barefoot most of the time (eg Hawaii) have very short broad feet.

The important thing to remember is that, after infancy, foot growth is quite unpredictable so it is a very bad practice to buy shoes without bringing the child to the store to be fitted.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

As most of you in Farmer County know, we have a drainage problem. This problem is aggravated both by tall water and rainfall. We have two partial solutions to the problem which supplement each other. One is to provide ground cover to slow down the runoff water and the other is to develop a drainage system for moving the runoff water from the nearly level high plains country to the playa lakes or draws so that it does not cause erosion.

The usual procedure to move runoff water from a higher to lower elevation of farm land is through a system of diversion terraces, regular terraces and grassed waterways.

After a suitable location has been established and the waterway constructed, it should then be established to a permanent vegetative cover.

Experience indicates that normally the surest procedure for establishing grass is to first plant the waterway to a drilled cover crop such as sudan or sorghum. This crop should not be allowed to produce seed. It is ideal to run a stubble mulch plow and leave the plants on the surface. The grass can then be planted or sprigged in the stubble. This stubble provides protection for the new grass.

Government cost share can be obtained on grassed waterways by contacting your local ASC or Soil Conservation Service office.

Two waterways have been constructed in Farmer County recently. One of these is on Nelson Coon's farm and the other is on Roy V. Miller's farm.

Cattlemen Fight Subsidies, Supports And Controls

At a meeting in Graham, Texas, May 24, commemorating the founding of the Texas and Southwestern Cattle Raisers Association 84 years ago, Dolph Briscoe, Jr., president of that Association said, "We cattlemen will continue to fight any type of government subsidy, price supports or production controls of the cattle industry."

He also told his audience, composed mainly of beef cattle producers in that area, "It has been a real fight through the years to stay out of these government programs and it will be a continual fight; but I pledge to you the full resources of this Association to continue and to win this fight."

His remarks met with approval from all of those present and there was no question but what these grass root cattlemen were in perfect accord with the TSCRA.

How To Install And Operate A Recharge Well

There are 37,000 playa lakes on the High Plains but only 170 recharge wells are reported to be in operation. Many of these recharge wells have been reported as failures.

Cave-ins, air locking of the pump and reduced pumping of the well due to clogging of the underground sands are the most common reasons for recharge failure. All three can be prevented by the proper installation and operation of a recharge well.

carried down with the recharge water and cannot escape. The falling water prevents this air from escaping back up the casing. Since the casing perforations are usually at the same level or below the pump, the air is held inside the casing.

When the pump is started this trapped air enters the pump bowls and causes an "air-lock" which prevents or reduces pumping of water. Excessive wear results, if the pump is operated under such conditions.

To prevent this "air-lock" the casing should be perforated beginning at the static water level so the air which is carried down can escape outside the casing above the pump pipe. A vent pipe must then be provided to permit the air to come to the ground surface and out into the atmosphere.

This vent pipe should be two to three inches in diameter and placed in the concrete packer when it is poured. It should extend at least one foot below the packer and a few inches above the top.

The vent pipe should be placed so it will not interfere with the pump base and be provided with a cover to keep out dirt and trash.

The greatest hazard in recharging is clogging the underground formation so that the well will neither pump nor recharge water.

Pumping the well one to two hours during each 24 hours recharge period has prevented clogging. This pumping removes a large percent of the sediment which is carried into the well.

Surging (stopping the pump to permit the column of water in the pump to drop back into the well) every 15 minutes stirs the sediment and keeps it in suspension. This results in more sediment being removed during pumping. Where this pumping and surging procedure has been followed, there has been no reduction in pumping or recharging rates over a three-year period.

Controlling the recharge rate will also help to prevent clogging of the underground formation. If the recharge rate is lower than the pumping rate, the sediment will remain closer to the casing. As a result, more sediment will be recovered during the daily pumping procedure.

A valve should be installed

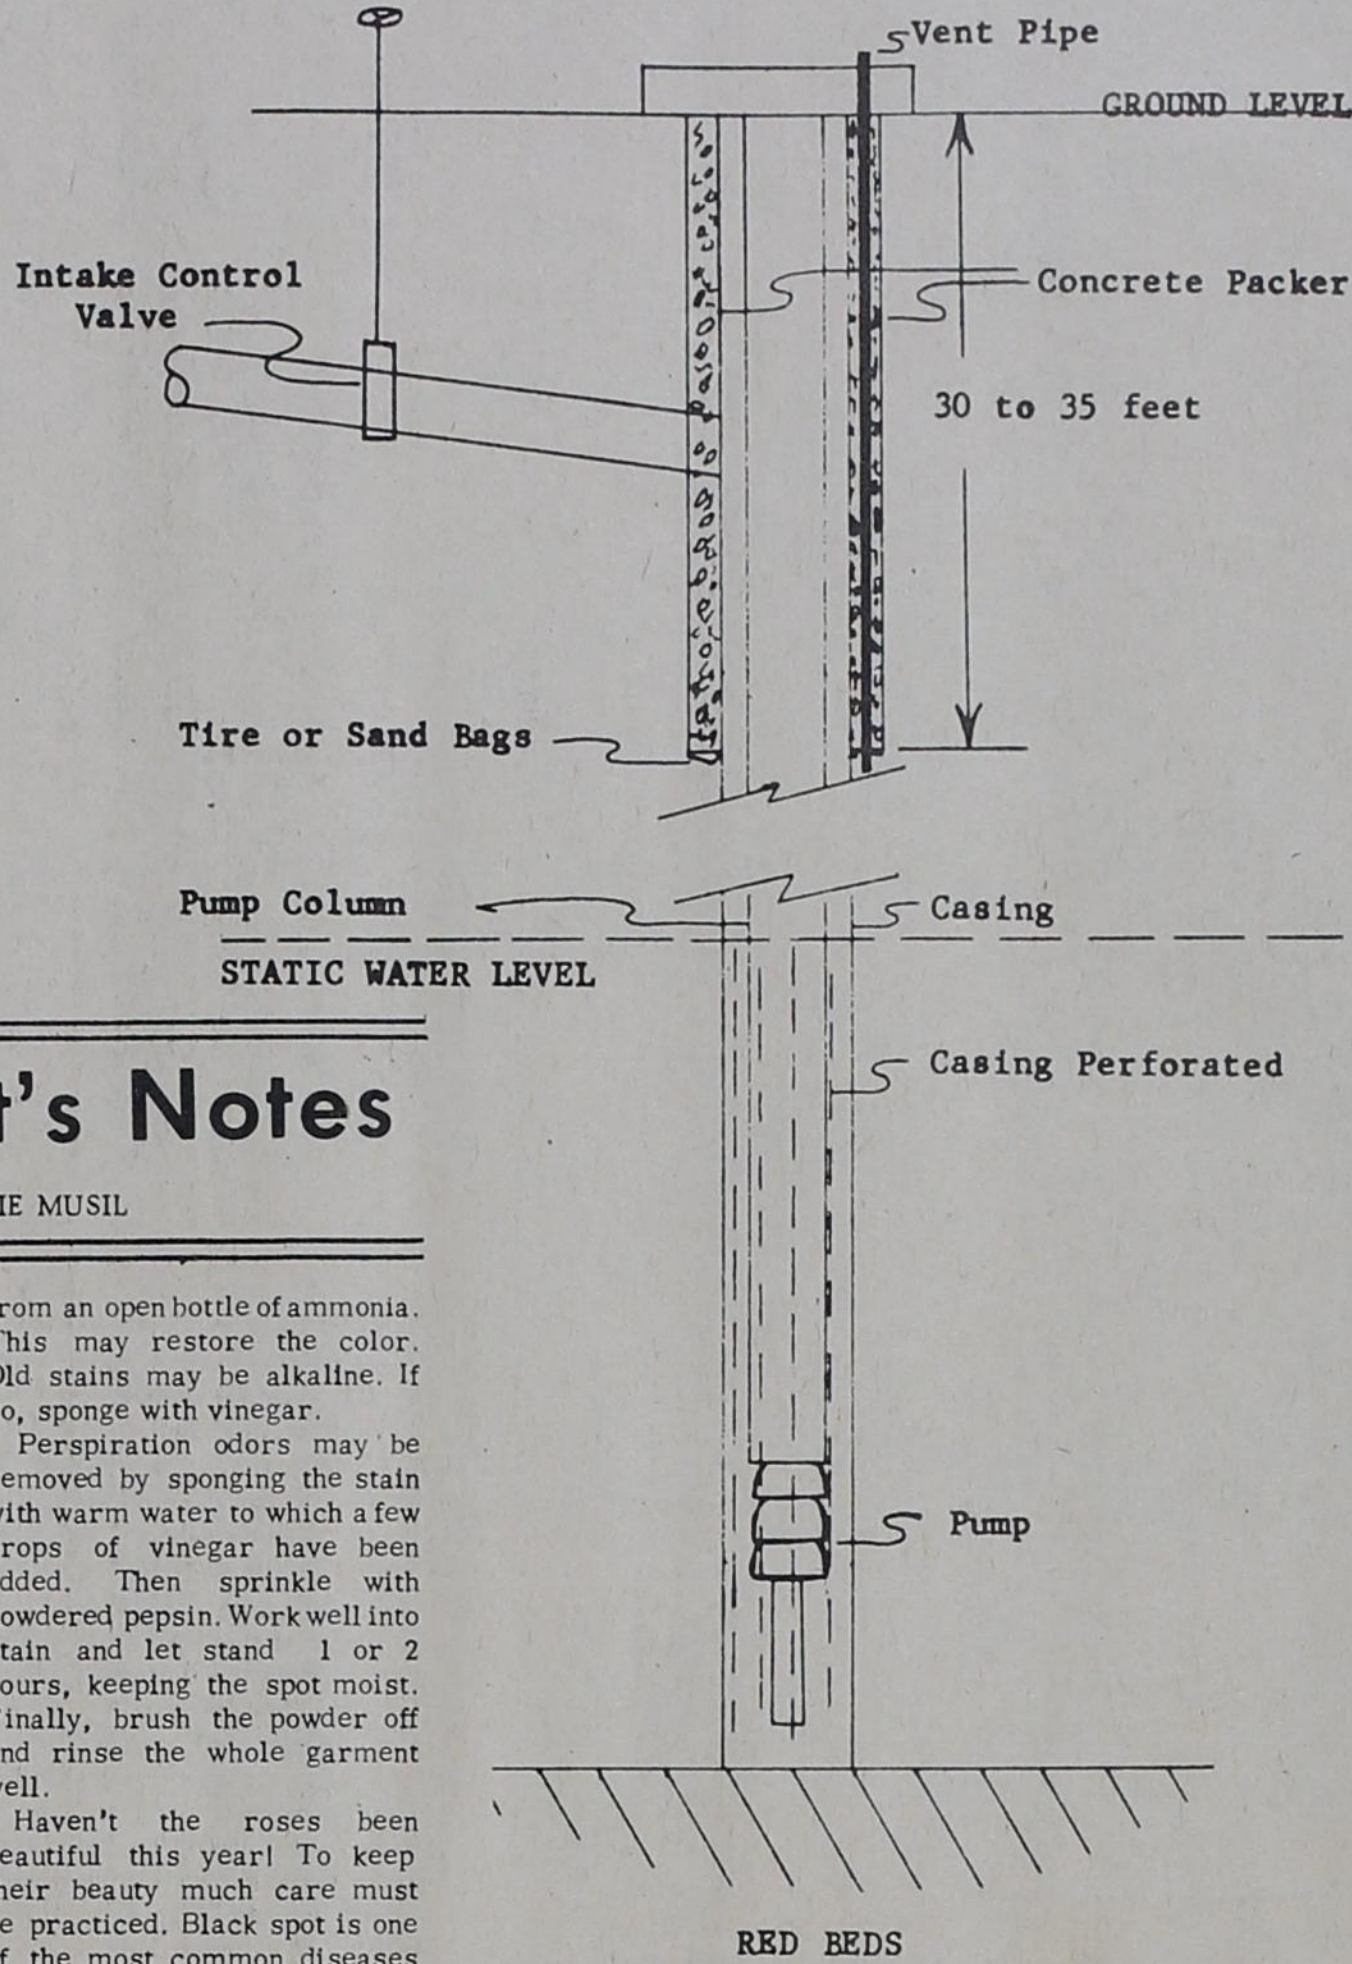

in the intake line between the well and the lake so that the rate of recharge can be controlled at all times.

Developing the well to remove mud and drillings will insure the formation is free of this material and prevent the sediment in the recharge water from stacking up against any such material in the immediate vicinity of the casing. This will also speed up water movement in the formation and make the sediment in the recharge water easier to reclaim.

Chlorinating or sanitizing the well is recommended. This will prevent bacterial growths and control contamination. Pure chlorine or chlorine producing substances can be used for this purpose.

Figure 1 shows a diagram of a properly installed recharge well. If the above instruction for installation and operation of a recharge well are followed, recharging of surplus surface water can be carried on successfully and can add greatly to our supply of underground water.

DIAGRAM OF A PROPERLY INSTALLED RECHARGE WELL

INSTALLATION

Four things are very necessary in the installation of a recharge well if it is to function properly. These are: (1) a concrete packer around the top 30 feet of casing, (2) perforate the casing beginning at the static water level, (3) install a vent pipe through the concrete packer and (4) the installation of an intake control valve.

Some recharge wells are ruined by surface cave-ins. These are caused by water seeping in around the base of the pump and recharging outside the casing.

If this recharging outside the casing continues, the seepage channel enlarges and finally causes the well to cave-in. Recharging faster than the sands can absorb water results in water rising too close to the surface and this can contribute to cave-ins.

A concrete packer 30 to 35 feet deep and approximately six to eight inches thick around the top of the casing will prevent surface seepage and washing from beneath and reduce the danger of cave-ins. The well should be drilled with the top 30 to 35 feet approximately 12 inches greater in diameter than the casing.

This spacing is to allow for six inches of concrete outside the casing.

Many recharge wells will not pump and recharge at the same time. This is caused by an "air-lock" in the pump. Air is

carried down with the recharge water and cannot escape. The falling water prevents this air from escaping back up the casing. Since the casing perforations are usually at the same level or below the pump, the air is held inside the casing.

When the pump is started this trapped air enters the pump bowls and causes an "air-lock" which prevents or reduces pumping of water. Excessive wear results, if the pump is operated under such conditions.

To prevent this "air-lock" the casing should be perforated beginning at the static water level so the air which is carried down can escape outside the casing above the pump pipe. A vent pipe must then be provided to permit the air to come to the ground surface and out into the atmosphere.

This vent pipe should be two to three inches in diameter and placed in the concrete packer when it is poured. It should extend at least one foot below the packer and a few inches above the top.

The vent pipe should be placed so it will not interfere with the pump base and be provided with a cover to keep out dirt and trash.

HD Agent's Notes

BY MISS ETTIE MUSIL

With school out and summer activities in store you may have problems in trying to remove stain from clothing. Such stains as perspiration, grass, machine oil, grease, and fruits or berries are the most common during the summer months.

We have a very good bulletin available in the office on "Removing Stains From Clothing." If you would like to have a free copy of this bulletin do call or write me. Better get a copy now before you get the stains on your clothing.

One secret in removing stain is to take care of it immediately. First make certain you know what the stain is. Then classify your fabric whether it can be laundered. Then finally choose the proper stain remover. Wrong treatment of application can add to the damage of ruining valuable clothing.

Perspiration stains can be hard to remove. Normally this stain is acid and usually will wash out of washable fabric. But sometimes the color of the fabric is changed. If this happens dampen the stain with water and hold it over the fumes

from an open bottle of ammonia. This may restore the color. Old stains may be alkaline. If so, sponge with vinegar.

Perspiration odors may be removed by sponging the stain with warm water to which a few drops of vinegar have been added. Then sprinkle with powdered pepsin. Work well into stain and let stand 1 or 2 hours, keeping the spot moist. Finally, brush the powder off and rinse the whole garment well.

Haven't the roses been beautiful this year! To keep their beauty much care must be practiced. Black spot is one of the most common diseases of roses. In checking several rose bushes I have noticed that this disease is beginning to take over the roses.

The spots may occur on either side of the leaves. Usually the spots occur on the top surface of the leaves as large, roundish black spots with irregular or frayed margins of the design. Do not sprinkle water on leaves of roses when watering the bushes. Roses can be watered too often and cause root rot. Water the bushes well once each week.

Frequently the disease develops unnoticed on the soft twigs and branches of the bush. When severely infected, the leaves may turn yellow and drop off. This weakens the plants and makes them more susceptible to the dieback or canker disease, drouth, or winter injury. Too, it also results in smaller flowers which are weak in color and fragrance.

Black spot can be controlled by spraying once a week with Dithane M-22, Manzate, or Phaltan. Time between sprays may be longer during periods of little rainfall. The addition of a spreader-sticker to the spray will insure better coverage. Both lower and upper sides of the leaves should be sprayed.

Captan, maneb, or zineb fungicides have been used effectively in the past, but the above mentioned fungicides are the latest research findings. You may combine insecticides and fungicides for one spraying in control of diseases and insects.

Sprays are recommended over dusting. Dusts generally give very poor control of black spot. Hose on sprayers or compressed air sprayers are generally good for applying the fungicides if only a few rose plants are involved.

For additional information on rose care, do ask us for a free copy of a publication "Roses for Texas."

Don't forget to vote for the man of your choice in the May 27 election.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

It appears that the bill extending time for claiming refunds on non-highway-used gasoline will become law. The extension will be from six months to one year and will simplify the forms necessary for claims. This way, you will be able to take care of this chore in the privacy of your home if you wish.

The bill providing penalties up to \$200 per day per animal running at large on public or private property was killed last week with the aid of Farm Bureau.

Farm Bureau leaders, including your president, Herman Gerles and others, sent telegrams to Austin opposing rumored possibility of taxation including farm machinery, feed, seed, etc., under HB 334 (2% general sales tax) last week. As a result, this possibility has apparently been nipped in the bud.

The Farm Bureau Weed Committee held a meeting in the community room of the Friona State Bank in Friona Monday night. This is written before a report could be had on the meeting, but representatives of the highway department, railroads, along with city mayors and county commissioners and others were expected to be in attendance for the purpose of expanding the bindweed eradication program. J.T. Jones is chairman of the committee.

The regular meeting of Farm Bureau Directors will be held in the Friona Office Monday night at eight thirty. You, as usual, are cordially invited to attend.

CONSIDER THIS: The getting of treasures by a lying tongue is a vanity tossed to and fro of them that seek death. Proverbs 21:6

There are only two kinds of parking nowadays -- illegal and no.

Plainview Production Credit Association Nation's Largest

The Plainview Production Credit Association held its position as the nation's largest agricultural credit organization in 1960, among more than 500 PCAs serving all areas of the United States.

Olan Alexander, general manager of the Plainview PCA, announced that figures recently released by the Farm Credit Administration in Washington show that the Plainview association ranked first in total loan volume, first in member-owned capital stock, first in total net worth and third in loan outstanding on Dec. 31, 1960.

Owned and operated by its more than 1,700 stockholders, the association had a total loan volume of \$32,604,000 in 1960, nearly eight million higher than the next largest association, Garden City, Kansas.

The Plainview association had capital stock totalling \$2,400,055, a net worth of \$2,994,358 and \$11,927,000 in loans outstanding at the close of business for 1960.

"We are extremely pleased at the high national ranking held by our association," Alexander commented. "However, size is only a reflection of the solid growth and progress our association has experienced in its 27-year history. We will always strive to provide complete agricultural credit services for our area's farmers and ranchers."

The Plainview Production Credit Association serves Farmer, Castro, Swisher, western Briscoe, Bailey, Lamb, Hale and Floyd counties. The central office is in Plainview with field offices in Dimmitt, Muleshoe, Littlefield, Floydada and Silverton, Friona and Tulla.

THIS SEED OFFER

BACKED UP BY

CASH REFUND Plant-and-Compare GOLDEN ACRES

READ DETAILS HERE AND SIGN UP NOW AT YOUR GOLDEN ACRES DEALER

Golden Acres TE 77 is the latest development in hybrid grain sorghum for planting on irrigated land. It promises remarkable yields where adequate irrigation water and fertilizer are available.

The producers of TE 77 and dealers who sell it are backing their confidence in it with this special plant-and-compare offer:

If you have adequate irrigation water, plant TE 77.

It must compare with or out-yield any other variety of hybrid milo you plant or ONE-HALF of the purchase price of the TE 77 seed will be refunded IN CASH. No questions asked.

Sign up now at your Golden Acres dealer.

You know TE 77 has big potential because its parent stock is from a selection from both Redion and Caprock. Maturity is about the same as Texas 440 and R. S. 450.

When To Irrigate Cotton

The below illustration should serve as a guide to farmers in planning the irrigation of their cotton. As indicated by the chart, the period of peak water use begins with the first white bloom and continues through the bell development period. The chart shows the rate of water used from plant emergence to the opening of the first bell. According to the Texas Agricultural Extension Service, cotton should be irrigated just before the root zone of the soil no longer contains sufficient moisture to supply the needs of the plant for proper development. From a practical standpoint, the irrigator cannot wait until the soil moisture content reaches this point on the entire field. Irrigation should begin when about half the moisture in the root zone has been depleted. This will provide sufficient time to cover a large acreage before the available soil moisture on the last portion of the field has been depleted.

Texas Ginners Oppose Farm Bill

A nine-point exception opposing the Omnibus Farm Bill was issued Monday by the Texas Cotton Ginners' Association.

The state-wide organization's board of directors detailed their opposition to the Kennedy administration proposal at a meeting in Dallas. Association president R. L. Massey of Pilot Point forwarded copies of the statement to Secretary of Agriculture Orville Freeman and members of the Texas Congressional delegation.

He explained that directors felt the bill as originally written was not in the best interest of cotton farmers.

The 1,200 member ginners organization—biggest in the nation—took these exceptions to the Omnibus Farm Bill which is currently pending before Congress:

1. The traditional method of law making must be protected through open hearings by Congress. Ginners opposed specifically the concept of the Secretary of Agriculture drawing up farm programs with "politically appointed" committees.
2. Any legislation which removes the minimum of 16,310,000 acres for cotton is unacceptable.
3. Any limitation on payments or supports is discriminatory and has no basis for fair and equitable participation by all farmers.
4. Any farm program should recognize the necessity for competitive prices and markets.
5. Farm programs should provide some protection for farmers in the form of supports.
6. Marketing orders are not workable for cotton. These federally operated orders are one of the key proposals in the Omnibus Farm Bill.
7. Cross-compliance in farm programs which would require cotton farmers to comply with regulations on all crops in order to participate in various other government programs is unfair.
8. Any program which does not take into consideration all segments of the cotton industry is unfair and unworkable.
9. Any quotas established in farm legislation should be in acres and not pounds or bales.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Our apologies this week go to everyone who wanted to try the recipe for the Chocolate Oatmeal Cake printed in this column last week. It seems that somewhere between the typewriter and the printed page one teaspoon of soda got lost. Thanks to everyone who called for this information.

If you clipped the recipe for future use and haven't yet discovered the error, just add 1 teaspoon soda to the list of ingredients. Not too many years

ago it was considered "old fashioned" for anyone to use soda in cakes. Not so any more. It seems that we've gone to the other extreme now and use soda in many cake recipes.

Another cake recipe that calls for soda is

- BANANA NUT CAKE**
- 3 cups sugar
 - 1 cup shortening
 - 2 teaspoons vanilla
 - 1 1/2 teaspoon banana flavoring
 - 4 eggs

- 3 1/2 cups flour
- 2 teaspoons soda
- 1/2 teaspoon salt
- 1/2 cup buttermilk
- 6 ripe bananas
- 1 cup pecans
- Cream shortening, sugar, and flavorings. Add eggs, one at a time. Add sifted dry ingredients alternately with milk.

Mash bananas and add to batter. Add nuts, bake in large pan at 325 degrees for 60 minutes. Ice with 8 ounces cream cheese, 1 box powdered sugar, 1 teaspoon vanilla, 4 tablespoons milk and 1/2 cup pecans.

Another idea that is rapidly taking a back seat is that to make any kind of casserole dish you need ground beef to start with. Within the past few years we've learned to use chicken, tuna, sausage, chipped beef steak and a few other kinds of meat.

This week's casserole dish calls for frozen English peas, but if you have fresh green peas, they should fit in very nicely. Whether planning a company or family meal, try

- PEA-PORK CASSEROLE**
- 1 pound pork cutlets or tenderloin cut in 1/2 inch cubes
 - 1 tablespoon cooking oil
 - 1 teaspoon salt
 - 1/2 cup water
 - 4 ounces dry noodles

- 2 tablespoons butter
- 1 tablespoon flour
- 1/2 teaspoon salt
- 1 1/2 cups milk including meat liquid
- 1 ten ounce package frozen green peas
- 1 cup celery, sliced thin
- 1 cup buttered bread crumbs
- Brown pork in oil over high heat, stirring to brown evenly. Add salt and water, cover, reduce heat and simmer ten minutes. Cook noodles according to directions on package. Make a white sauce of the butter, flour, salt and milk, cooking it only until it starts to thicken and is smooth.

Butter a 2-quart casserole. In it, arrange a layer of half of the cooked noodles, peas, meat, celery and white sauce. Repeat, saving a few peas for a circle on center top. Ring with buttered bread crumbs. (Use 2 tablespoons melted butter to 1 cup soft bread crumbs.) Bake 45 minutes at 350 degrees. Peas do not need cooking before being put into casserole. If they are frozen in a block, defrost at room temperature just enough to separate. Or put in a covered saucepan with 1/4 cup water over high heat for 2 or 3 minutes, separating them with a fork, if necessary.

Many home demonstration

club women are learning to cover shoes with fabric to match dresses. If you plan to include a checked gingham dress in your summer wardrobe, by all means use cross stitch embroidery for decoration.

Then cover a pair of shoes with the material and repeat part of your motif as decoration on the toes or sides of the shoes.

"Types of Farming in Texas" is the title of a new publication released by the Texas Agricultural Experiment Station. It is chuck-full of useful information on what is happening in the 17 major type areas, agricultural wise. Copies are available from the Agricultural Information Office, College Station, Texas. Ask for B-964.

The USDA reports that food donations in the United States and overseas totaled 1.7 billion pounds for the first half of this fiscal year, July-December. This is an increase of some 20 percent over the same period a year earlier.

Applying fertilizer to farm fish ponds not only increases the amount of food in the water, it also is one of the best practices for controlling submerged mosses, says Ed Cooper, extension wildlife specialist. The first application should be made in early spring. Cooper suggests a visit with the local county agent for details on a good program.
