A look back at 1995 in photos

We have a very important event coming up that needs maximum exposure. The Farwell Chamber of Commerce has undertaken a major project at the suggestion of its president, Ralph Franse.

As should be obvious, the Farwell Chamber has been much more active in recent years under Franse's leadership than it had been. To be blunt, the Chamber was pretty moribund for several years. I vividly recall the months when only three members showed up on a consistent basis. Today, a large amount of local businesses is represented at each session.

And the list of what the Chamber has been achieving is lengthy, starting with the Parmer County Veterans Memorial in Farwell City Park.

The Chamber also puts on "Christmas on Parade" in November, been active in promoting local businesses, gives scholarships to Farwell High graduates, etc. The list is impressive.

Now, here's what's happening:

The Chamber is sponsoring its first annual equipment consignment auction. This is a fundraiser for the non-profit Chamber.

If you have any types of equipment, farm or otherwise, you need to sign up NOW so your equipment can be listed on the auction sales brochures.

To sign up is simple: just call Franse at 481-3316, or any other Chamber member.

But it's all-important that the equipment be listed before mid-January because that's when the brochures will be put together.

The sale is tentatively set for mid-February in the area adjacent to the Farwell Community Center.

Folks, if you own large machinery or equipment and been thinking of selling it — or just get rid of it — this is your opportunity.

Don't know how to get the equipment to the sale? Here's a free ad for Mike London, of Bovina: he has the equipment large enough to transport what you have — check out his classified ad in today's Tribune.

This is open to everyone in the area. It doesn't matter where you live or farm. Here's a super chance to sell items you've been thinking of selling.

And it also will be a good opportunity for you to buy items at the auction.

I hope all our readers had a very nice Christmas. It's such a wonderful time for families to be together.

Judy and I had our son, Rob, home. Our daughter, Patty, couldn't make it as she awaited the return of her husband from Nigeria, where he is chief engineer on an oil refinery project there. He's due back any day.

We had our Christmas dinner, opening of presents and playing of games on Sunday night since our son had to leave Monday for his new work co-op job near Philadelphia.

Grain prices hammered cattle feeder prices this year

says Jim Gill, market director for the Texas Cattle Feeders Association. High grain prices, pressure will continue on feeder cattle of beef bargains at the meat counter. "The overall price of retail beef is the lowest it's been in five years. With record beef and poultry production predicted for 1996 and near record pork production, it's likely that retail prices will continue trending downward in 1996," he said.

Grain prices, in particular, though have hammered feeder cattle prices this year. Due to a 1995 corn crop that was 27 percent less than last year, corn in the Texas Panhandle area started the year at $4.76 per cwt, and ended the year at $7.15 -- a 52 percent jump, said Gill. What's more, cattlemen can expect to see high corn prices through at least the first six months of 1996. That translates to higher feedyard costs of grain and continued price pressure for feeder cattle. "A 650-lb. feeder steer in 1995 averaged near $68.50 per cwt, 15 percent below the 1994 average of $80.05," said Gill. "In 1996, prices will likely average in the low to mid $60 range."

With feeder cattle supplies still rising, overall beef production will continue to rise, putting continued pressure on the fed cattle market. Gill predicted. "Pork production in 1996 will be near 28.8 billion pounds, 2.5 percent above the record production of 28.1 billion pounds in 1995."

Add the effect of competitive meats, and fed cattle prices will remain under pressure. "Pork production for 1996 is expected to be near 17.9 billion pounds, 1 percent below 1995. Meanwhile, total poultry production in 1996 will be near 22.2 billion pounds on a ready-to-cook basis, 3 percent above 1995 and yet another record." For 1996, Gill predicts fed cattle prices will range from $67 to $75 cwt, in the first quarter, $63 to $67 in the second quarter, $62 to $65 in the third quarter, and $66 to $68 in the fourth quarter.
