

BIG WIGS AT PARLIAMENT . . . Garbed in the traditional robes and wigs of their office and encrusted with many medals, British judges leave the parliament building in London after the colorful opening session during which the king wore his crown and parliamentary robes for the first time in ten years. Representatives from distant parts of the empire also are shown leaving the famed halls.

Lay Plans for County Fat Stock Show

FROM THE HOPPER

By HOP

Sitting himself down to a meal of left-overs, Willis Magness was reproved by his wife for his failure to offer thanks before partaking of the food. "Well," said Willis, "I have thanked the Lord three times for this same food, and I thought that ought to be enough."

Eph Young says he is a man that never worries. "Why should I?" argues Eph. "I've got all I want to eat and plenty more where that came from; all the clothes I want; and a good warm house to live in."

Went over to see the new 'oull dog style Chevrolet last Saturday. While most of the observers were admiring the 1949 job, I couldn't help being somewhat disappointed in the new models. To my way of thinking, the new models are not as attractive as the 1946 jobs. They just don't have that trim, well balanced appearance as the older jobs. Mechanically, they may be far ahead of anything Chevrolet has ever produced, but as for looks, they do not rate with me with the old ones. My most serious objection was the way the back fenders are tied together in one solid sheet of metal, which means that the first time you happen to get a rear fender smashed it will cost you a tidy sum to get it replaced. Sure, the insurance company will pay for it, but the cost is reflected in your premium. But I'd still trade my '46 for one of the new ones!

Anna Lee, 22 months old daughter of Mr. and Mrs. Charley Thompson, had her parents standing on their ears the other day. They had bought the little lady a pair of gold fish and placed them in her bedroom. The mother, on entering the room, noticed that the fish were missing. In quiring as to their whereabouts, the innocent little miss reasoned that she had just served a tea party, and drank the water. "But where are the fish?" the exasperated mother demanded. "Why, mother, I ate them, too." Search of the premises finally uncovered the finny tribe members on the floor . . . dead.

Aldridge Named As County Director

John Aldridge, of this city, was named and approved by the Parmer County Commissioners Court on Monday as the Parmer county director to the board of the Bindweed Control Association, which is composed of some 36 counties in this area.

Aldridge succeeds Bernard Roberson, of Black, who recently offered his resignation as the county director, it was reported by County Agent Ollie Liner.

Both Liner and Aldridge plan to be in Amarillo next Wednesday, February 2nd, for a district meeting of the association directors.

BOVINA DEPUTY

Frank Smith has been named deputy sheriff at Bovina it was learned here today through Sheriff Charley Lovelace, who added that the appointment was made "about three weeks ago."

Initial plans for the 1949 Parmer County Fat Stock Show, for 4H and 4-FA clubbers, have been under discussion during the past week by County Agent Ollie Liner and vocational agriculture teachers Robert Morton of Farwell, J. T. Gee of Friona, and Elmer Berryhill of Bovina.

This spring show will include exhibits of fat calves and swine, and in addition, a special class is planned this year to show breeding gilts belonging to the county boys, Agent Liner said on Monday.

The tentative date for the show has been announced as March 19th, although a change—to put the exhibit immediately preceding the Lubbock junior show—may be made when the Lubbock dates are given.

It was hoped to hold the show in Farwell, Agent Liner said on Monday, but due to the fact that no inside facilities could be secured to display the stock, officials decided to use the county show barns in Friona.

"We are aware of the help extended by all merchants of the county in promoting these yearly exhibits," the agent said, "and wish that the show could be alternated with various towns as hosts. However, since we do have county barns at Friona which are available, and cannot secure inside space otherwise, the show will be held there."

Last year, the exhibit was held in the N. L. Tharp building in Farwell, but neither this building nor other rooms could be offered the boys for their display this spring, and weather conditions in March have failed to prove favorable to outside showings.

ROGERS WILL SUPERVISE TEXICO POLIO DRIVE

B. A. Rogers, superintendent of the Texico schools, said Monday that he had been asked by Mack Ingle of Clovis to sponsor the Polio Drive in Texico. In connection with the school, Rogers said that contribution containers had been received and distributed, and school children would assist in soliciting funds for the campaign.

Rogers was uncertain of possibilities, owing to weather and school schedules, but he said that a benefit basketball game might be arranged. This will be announced later.

Registered Hog Sale Slated At Clovis On Monday, Feb. 7

Seventy-five head of registered hogs, including bred gilts, open gilts and boars from seven leading breeders, will be sold at public auction at the Clovis Fair Grounds on Monday, Feb. 7.

The sale is the second semi-annual sale sponsored by the Southwestern Swine Breeders Association, whose membership numbers 27 registered breeders from Ft. Sumner, N. M., to Friona, Tex.

Hogs from six breeds, including Durocs, Herefords, Hampshires, Poland Chinas, Chester Whites and Spotted Poland Chinas, will be offered at the sale, with the Duroc breed offering the largest collection.

Knapp & Otten, Clovis auctioneers, have been engaged to conduct the sale. In addition to the sale, judging of the champion of each breed will take place, which will be held prior to the sale at 9:30 a. m.

Cold Weather Continues Over Plains

Official Salaries Set by Commissioners

The salary scale for all county officials for the year of 1949 were set by the Commissioners Court, in session here Monday. The new system, required by law, abolishes the old fee system, and places all officials on a straight salary schedule.

Under the new schedule, the combined office of sheriff-assessor-collector, will be the highest paid official in the county, drawing a yearly salary of \$4,000.00, payable in 12 monthly payments. The county and district clerk is next in line with a yearly salary of \$3,800.00.

Officials stated that the actual "take-home" pay from the various offices would amount to approximately the same as they received under the fee system, most of the salary figures being arrived at by computing the fees collected during the past two years through the various offices and setting the salaries at "about the same figure."

All salaries are effective on Jan. 1 1949.

No decision was reached with reference to the pay schedules for the two justices of the peace now serving at Friona and Farwell, and no explanation was forthcoming as to the manner of their pay.

Following is the salary scale as set by the Court:

County Judge	\$2,600
County & Dist. Clerk	3,800
Sheriff-Assessor-Collector	4,000
Treasurer	2,280
County Attorney	1,500
County Agent	1,992
Deputy Clerk	2,100
1st Deputy Sheriff	2,400
2nd Deputy Sheriff	2,100
Outside Deputy Sheriffs	480
County Commissioners	1,800
(Plus \$25 per month traveling expenses.)	

Other Business
The Court transacted other business matters during the session, including the naming of the Friona State Bank as the depository for county and school funds for the years of 1949 and 1950, and setting the valuation for irrigation wells for taxable purposes at \$500.00 for each well.

Loans Near Two Million Mark

Wheat and grain sorghum loans have soared to a peak of nearly two million dollars on 1948 wheat and grain sorghum crops. The grain sorghums are leading by a wide margin. As of December 31, 1948, 60,614,420 pounds of grain sorghum had been placed in the loan on 1,032 loans totaling \$1,449,750.29 compared to 262,664.64 bushels of wheat on 179 loans totaling \$515,875.69 with wheat and grain sorghum loans combined totaling \$1,965,625.98. To date there has been only 4 purchase agreements signed on grain sorghums, but lots of inquiries have been made concerning this program. Anyone wishing to sign the purchase agreement or secure a loan on grain sorghums may do so between now and February 28, 1949.

As the loans have slacked off we will try to get out some information on the 1949 farm program in a few days. However anyone interested is welcome to come to the ACA office for information concerning either the loan or conservation program.

New Electrical Lines For Texico-Farwell

Odus Huggins, local representative of the Southwestern Public Service Company, stated today that materials were already on hand and work was scheduled to begin Tuesday on three new distribution lines in Texico-Farwell. But late Tuesday afternoon the work was being delayed on account of weather conditions.

Huggins said that two new alley lines were to be built in Texico, a distance of six blocks, and one alley line of joint construction was to be run in Farwell. He gave the location of the Texico lines as between Garwood and Anderson streets and Lamar and Anderson streets. In Farwell, the new lines will run up the alley between First and Second streets.

The old lines that are serving these areas will be taken out completely, with new wire and new polls being installed, Huggins said, adding that the old lines had served their usefulness.

Materials for Texico Street Lights Arrive

NO FREEZE IN VALLEY

Jim Wortham, brother of Mrs. Joe Magness, was here last week visiting in the Magness home. Wortham said at the time he left his home in Edenburg, in the Rio Grande Valley, the first of last week there had been no damage to crops and fruit from the extremely cold weather that has engulfed most of the rest of the nation. He said there was a light frost in the valley shortly before Christmas, but no damage of any consequence resulted.

Local Projects Face Weekly Men's Club

A number of important local projects will come before the regular monthly meeting of the Men's Club when it holds its first meeting of the new year, C. M. Henderson, chairman, stated today.

The meeting will be held in the basement of the Methodist Church, starting at 7 p. m., Henderson added. Recalling that no meetings were held in November and December, due to conflicts with Thanksgiving and Christmas festivities, the club chairman said that a number of local projects had accumulated that we must work out, and he expressed the hope that a full attendance on the part of all of the men of the community would be present.

This will be the first meeting of the year, and there are a number of local projects of extreme importance that need attention," Henderson said in urging a good attendance of the men of the Twin Cities, as well as the surrounding community, to be on hand.

Attendants are reminded to bring sandwiches, beans and pie for the lunch. Coffee will be prepared in the church kitchen.

Benefit Ball Games To Be Played On Monday

"If your child had polio, and sufficient funds were not available to give him—or her—the best medical treatment available, that child might never again be able to enjoy participation in athletics."

Pointing out this blunt fact, Supt. Jack Williams, of the Farwell school, today urged that all residents of the Twin Cities take advantage of the opportunity to contribute to the current March of Dimes fund for relief of polio victims by patronizing a benefit duet of cage matches, which will be played in the Farwell gymnasium next Monday night, January 31st.

Special tickets will be issued by the school this week and offered over town, each being inscribed "I Donated To The March of Dimes." By this means alone can fans see the games Monday night, which put the Sudan boys and girls opposite the Farwell cagers.

"We hope you will make your contributions as large as you can afford," Williams said, in speaking of the worthy project. He stressed the fact that tickets must be shown at the door of the gym on game night, but no actual "admission" charges will be assessed.

"Whether you can give a dime, a dollar or five dollars, make your donation down town or at the school and pick up the ticket which admits you to the games," he added.

In a benefit game at Sudan Monday night, the Steers were handed a 31-24 defeat at the hands of the hosts. Supt. Williams said he had no figures available on gate receipts, but supposed them to be small, due to weather extremity.

CARS COLLIDE

Cars driven by Bob Sudderth and Jimmie Bateman collided on Main Street in Farwell Saturday afternoon, resulting in fender damages to both machines. The Bateman lad was driving Sam Aldridge's car at the time of the accident. Sudderth estimated his damage at \$75, but the Aldridge machine escaped with less loss.

The first shipment of materials to be used in Texico's street lighting project arrived here the first of the week, and Odus Huggins, local manager of the Southwestern Public Service Co., stated today that additional shipments were expected during the next few weeks.

Steel standards, supporting twenty-one street lights, to be distributed through the business and residential sections are to be installed just as soon as all the materials are on hand, Huggins said. The project calls for the use of 400-loom lights along the Main Street, 2500-loom bulbs in the traffic zones, and lights of 1000-loom illumination in the residential sections. The street lights, he said, will be along the same pattern installed in Farwell some months ago.

Under contract between the Utilities Company and the Town of Texico, the Utilities company will make the installations at their own expense and the lights will be maintained by the Town of Texico.

Huggins said it would likely be a few months yet before the street lights could be installed and ready for operation, but added that they would be installed just as soon as possible. "We have been waiting two years for the materials, but it begins to look like we will have everything going before too long," Huggins added.

Survey Work Delayed On Road Extension

County Commissioner Frank Phillips said early this week that he was in conference with officials of the District Highway Engineer's office in Lubbock office, it would likely be "three or four months" before the right of way for the extension could be surveyed.

Phillips says he was informed that due to lack of sufficient surveying crews to carry on the work of the Lubbock, it would likely be "three or four months" before the right of way for the extension could be surveyed.

Commissioner Phillips said the Commissioners Court had agreed to provide the right-of-way for the extension, and they were anxious to get started on the task of obtaining easements and setting back high lines in preparation for the work, and he added that nothing could be done until a complete survey had been made and the stakes set.

The new 10-mile extension, which the State Highway Department has agreed to pave, will run from the end of the present route at the Oklahoma Lane school house to the intersection of the Friona-Muleshoe road to a point commonly known as the twin houses, 4 miles west of Lazbuddy. Officials here were hopeful that the grade and drainage structures would be built this winter and the topping would follow during the summer months. However, with the surveying detail being delayed, hopes for a completion of the project during the summer are not as hopeful. Officials here pointed out that the project was included in the two-year program, and it may be several months before the extension will actually be built.

Community Auction Billed For Feb. 8

The community auction that was originally scheduled for Tuesday and Wednesday of next week, has been postponed until Tuesday, Feb. 8, Col. Dick Doshier, local auctioneer, announced today.

Doshier said that due to weather conditions it had been impossible for him to compile a list of offerings for the sale. He said today that persons having items to list in the forthcoming sale should leave them with Walter Hardage or with the auctioneer. Listings will also be accepted at The Tribune office. Doshier said today that he already had a good start on the list, and he predicted a good sale of worth-while articles.

Listings must be in hand by noon Saturday, January 29, Doshier said.

Need letterheads? Dial 2131.

For the third consecutive week Old Man Winter continues to hold this region in his icy grip as thermometer readings have remained at sub-freezing readings during most of the extended period.

Last Saturday saw the highest readings during the three-week period when the mercury climbed into the high 40's only to skid again Sunday night to near zero readings when a fresh blizzard rode in from the north on wings of moderately strong winds. During all the cold weather, the combined precipitation of rain, snow and sleet have brought only a limited amount of moisture to this region of the Plains country. A light drizzling rain during Saturday night brought an estimated quarter of an inch of moisture, followed by light snows and sleet during the period from Sunday night to Wednesday morning.

Sleet and freezing rain throughout most of the day on Tuesday accounted for another estimated quarter of an inch of moisture. Rain gauges remained frozen over, rendering accurate readings impossible, and only estimates of the moisture could be made.

An icy covering of snow and sleet covered the ground to an approximate depth of two inches Wednesday morning as The Tribune prepared to go to press, with the forecast calling for additional moisture during the day.

The extreme cold and icy conditions of the roads and highways have been responsible for closing practically all of the schools throughout this region, and the cancellation of numerous scheduled social and church functions. All highways remained open and traffic was proceeding under caution and reduced speeds. Buses continued to operate, but were all running behind schedules. All communication lines remained in operation, and there has been no interruption of electric service, which has plagued a great part of the country during the past three weeks. Gas pressures have remained satisfactory and no suffering has been reported due to insufficient gas for heating.

Stockmen contacted this week said that the cold weather had forced them to resort to heavy feeding of cake and hay, but stock was withstanding the elements in good condition. Pastures and fields, where stock has been ranging, continue to remain accessible to trucks for hauling in feed, stockmen said. Local feed dealers report sufficient feed on hand to take care of the rush demands and no shortage appears in sight unless the cold continues for an extended period.

Although four school trustees are to be elected in the Texico school district on Tuesday, Feb. 1, no candidates had been filed for any of the vacancies up to late Tuesday afternoon, it was learned through Town Clerk W. F. Freeman, with whom filings must be made.

Freeman said that the deadline for filing had been set at 6 p. m., January 28. The ballots will be turned to the printer on January 29, he said.

No Candidates Filed In Texico Election

T. T. Doolittle, Perry Crawley, Claud Curry and John Hadley, Jr., are the four members of the present board whose terms expire at this time, and it was considered likely that some of them would allow their names to be presented for re-election.

Voting booths will be open at the Texico Town Hall from 9 a. m. to 6 p. m. The terms of office begin on March 1st.

Friona Girl Scouts Conduct Drive For March of Dimes

The two Girl Scout Troops of Friona conducted a one day whirlwind buttonhole campaign last Saturday with Troop No. 2 coming out on top with a total of \$57.55. Troop No. 1 was hot on their heels with \$50.72.

This total of \$108.27 just shows what can be done when a few girl scouts take over.

Troop No. 1 leaders are Mrs. Ralph Wilson and Mrs. Ralph Miller. Troop No. 2 leaders are Mrs. Sloan H. Osborn, Mrs. Frank A. Spring and Mrs. W. M. (Bill) Stewart.

Health Notes

By Texas Department of Health

AUSTIN.—Commenting on the necessity for individual cooperation in effecting the control of mumps, now widespread throughout the State Dr. Geo. W. Cox, State Health Officer, emphasizes the fact that the contagion factor is present before any symptoms appear, and strict isolation of all patients is the surest means of controlling the spread of this disease.

Mumps is transmitted by direct contact with an infected person or articles freshly contaminated by the secretions of the mouth or nose of persons having the disease. It takes from 12 to 26 days for mumps to manifest itself after the infection occurs. The disease can be easily transmitted, but one attack usually establishes permanent immunity and second attacks very rarely occur.

The most easily recognizable characteristic symptom of mumps is a painful swelling of the salivary glands. Sometimes there is an involvement of other portions of the body, causing disturbances in the digestive, nervous, circulatory, and genitourinary system. The disease is usually accompanied by a temperature rise which more often than not is mild.

"Patients suffering from this disease should be isolated from other members of the family immediately upon the suspicion that mumps exist, and the family physician should be called in promptly," Dr. Cox said. "In the meantime, complete rest in bed is indicated. The doctor's orders should be followed strictly. Violating his instructions can lead to serious injury, which may permanently affect the patient's health."

Most shrubs like sunshine. There are some that will grow only in the evening specialist says to be careful types of soil. So the landscape gardening specialist says to be careful when choosing shrubs for the yard.

Ice Cream Fills Twin Role In Meeting Health Standard

CHICAGO—The test tube scores again. Now it comes up with evidence to prove that ice cream fills a twin role in meeting the demands of good health.

Dr. Pearl Swanson, of Iowa State College, Ames, set out several years ago to study the riboflavin in ice cream under controlled conditions. Riboflavin is a vitamin required for growth in the young and for good health at all ages. Dr. Swanson in studying the dietary needs of college women found that nutrients in foods are not alone sufficient for proper nourishment. Nutrients also must be absorbed readily and used by the body. The riboflavin in ice cream ranked high on both counts.

This, in the opinion of Milton Hult, President of the National Dairy Council, Chicago, is important information for all persons planning nutritious diets for normal appetites or the often difficult appetites of the convalescent and the aged.

Further research discloses that ice cream is much higher in its riboflavin content and vitamin A than reported in earlier studies. This is because most ice cream, manufactured the year round, is made with fresh or frozen cream produced in summer months when the vitamin A content is above average levels. The studies add tangible evidence to the importance of ice cream in the daily diet.

Livestock Men Find Potatoes Good Feed

New Mexico livestock feeders have fed more than 400 carloads of surplus low-grade potatoes to their livestock, according to A. D. Woofler, member of the State PMA committee.

According to the USDA, the comparative food value of potatoes may be computed as follows: 100 lbs. of shelled corn equals 450 lbs. fresh potatoes; 100 lbs. alfalfa hay equals 300 lbs. fresh potatoes; 100 lbs. corn silage equals 100 lbs. fresh potatoes; 100 lbs. mixed grain equals 350 lbs. cooked potatoes when fed 2 to 1 with the grain, to swine; 28 lbs. alfalfa and 12 lbs. barley equal 100 lbs. fresh potatoes for lamb feeding.

HEN USES CALCIUM

A hen that lays 200 eggs a year puts about 14 times as much calcium into the eggs as she does her body.

Appearance Is Sales Assurance For Beans

LUBBOCK—General appearance of packaged pinto beans is the very best market sales assurance, anxious Hereford pinto producers learned after a series of laboratory tests were completed at Texas Tech.

Disappointed at the results of their 1948 sales compared to the 1947 market movement, pinto growers of the Hereford area brought samples of

1947 and '48 crops for analysis. They had been told their beans lacked desirable cooking qualities.

Six different cooking tests conducted in the foods department under the supervision of Dr. Mina Lamb prove the beans have equal cooking qualities of other pintos, and are equally palatable.

"Further laboratory investigations together with consultation with the plant industry department, we find the producers need only dress up the general appearance of their market product," Dr. Lamb said.

Improving our Service

The Farmers Supply Co. wishes to take this means to announce the pleasing in the service of our customers a new delivery truck. With this truck we can deliver your feeds on a moments notice. We deliver from one sack to as many as 300 at one time.

Since last fall we have added a syrup mixer to increase the range of our mill facilities. We have added a large semi-trailer to reduce our hauling costs for a further saving to you.

We believe in service and economy of price as the keystone of business. We look forward to the forthcoming year in adding yet other means to serve our customers.

Come in and talk over the advantages of our weekly quantity truck delivery service. It will be a substantial saving to you in any line of feeds. We will welcome the opportunity to test your milk and point out the advantages of the Purina milking program. See our feeds and figures.

It will pay you to investigate our prices and policies.

The GRAHAM-HOEME PLOW

Self Sharpening Points • No Side Draft
Extra Light Draft • Nothing to Grease
Plows All Types of Land Without Adjustments
Prevents Erosion by Wind and Water
Cuts Plowing Cost in Half
Doubles Sub-Soil Moisture
BUILT TO LAST A LIFETIME
KEEP VEGETATION ON TOP

Nature's own method is to keep vegetation on top. That cuts down evaporation, keeps the soil in place in spite of heavy winds. The Graham-Hoeme Plowing Method with the two-inch chisel, as shown in illustration, permits water to by-pass the top soil into the sub-soil. It's a moisture storage center.

WE HAVE 'EM ON HAND

Manufactured by GRAHAM-HOEME PLOW CO, Inc. AMARILLO, TEXAS

PROVEN FACTS

On the average, enough rain falls on your farm every year to make fine crops. But, after the first few minutes of rain a smooth surface seals itself, causing run-off. It has been scientifically proven that the same field will NOT seal itself when plowed with the Graham-Hoeme All Purpose Plow with a 2-inch chisel furrow every 12 inches. This method by-passes the rainfall through the top soil and keeps a straw mulch on TOP. Upwards of three times the moisture enters the ground.

If the next day is fair and hot, the bare soil would soon be steaming and losing its moisture rapidly. BUT NOT IF THAT GROUND IS COVERED. The Graham-

Hoeme Plow leaves vegetation on top to shade and protect, and moisture stays in the soil longer to bridge between rains.

These are not just opinions, but proven facts. A covered corrugated field in a good, brisk rain, will absorb 200 per cent more moisture than a bare field and 60 per cent more than a field with vegetable matter plowed into the surface. To supply this covering for the soil without the expense of artificial cover, and to place the soil in a condition to by-pass the moisture through the top soil is the purpose and achievement of the Graham-Hoeme Plow.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: J. L. Smith, First National Bank of Canyon, Texas, a defunct Corporation, and its unknown stockholders, officers, directors and creditors, successors or assigns; National Bank of Commerce of Amarillo, Texas, a defunct corporation, and its unknown stockholders, officers, directors and creditors, successors or assigns; D. A. Linthicum, Robert Martin, J. M. Neely, Joseph M. Neely First National Bank at Texico, New Mexico, a defunct corporation, and its unknown stockholders, officers, directors and creditors, successors or assigns; M. T. Anderson, W. W. Taylor, Ethel Mansfield, and the unknown heirs of W. L. Mansfield, and if any of said defendants be deceased, then the unknown heirs, assigns and legal representatives of such deceased defendant or defendants, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 14th day of March, A. D. 1949, at or before 10 o'clock A. M., before the Honorable District Court of Parmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 25th day of January, 1949. The file number of said suit being No. 1463.

The names of the parties in said suit are: Gene Lovelace, as Plaintiff, and J. L. Smith, First National Bank of Canyon, Texas, a defunct Corporation, and its unknown stockholders, officers, directors, and creditors, successors or assigns; National Bank of Commerce of Amarillo, Texas, a defunct corporation, and its unknown stockholders, officers, directors and creditors, successors or assigns; D. A. Linthicum, Robert Martin, J. M. Neely, Joseph M. Neely, First National Bank at Texico, New Mexico, a defunct corporation, and its unknown stockholders, officers, directors and creditors, successors or assigns; M. T. Anderson, W. W. Taylor, Ethel Mansfield, and the unknown heirs of W. L. Mansfield, and if any of said defendants be deceased, then the unknown heirs, assigns, and legal representatives of such deceased defendant or defendants, as defendants.

The nature of said suit being substantially as follows, to-wit: Plaintiff alleges that on January 25th, 1949, he was and still is the owner in fee simple of lots 21, 22, 23, 24, and 25, of Block 27, of the original town of Farwell, Parmer County, Texas, and on such day was also in possession thereof, and afterwards, on the same day, the defendants unlawfully entered thereon and ejected him therefrom, and withhold possession thereof from him.

Plaintiff alleges the reasonable rental of said premises during such unlawful possession to be \$5.00, and that demand has been made for the payment thereof and that same has not been paid.
In the alternative plaintiff says that he and his predecessors in title have had peaceable, continuous and adverse possession of said land and tenements, cultivating, using and enjoying the same for more than ten years continually, next preceding the filing of this petition, and that such possession has been continuous, open, notorious, hostile and uninterrupted, and plaintiff pleads and invokes the provisions of the ten year statute of limitation as same applies to land titles in the State of Texas; And further in the alternative, plaintiff invokes the 5 year statute of limitation as same applies to land titles in the State of Texas, and says that for more than 5 years prior to the filing of this suit he and his predecessors in title have been in

The electrical connections on this board may seem complicated, but they're all explained in "the story of the short circuited house," a feature of the General Electric House of Magic show to be presented here soon. Operating the panel at the left is Dan J. Castles of the Southwestern Public Service Company office in Plainview, MC of the show. He is assisted by H. E. Laird of the same office, at right.

possession of said premises as above alleged, duly rendering same for taxation, and paying such taxes before same became delinquent.

Plaintiff prays that defendants be cited to answer and appear, and that on final hearing he have judgement for title to and possession of said lands, for costs of suit, for damages, and for such other and further relief to which he may be entitled either at law or in equity.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved. Issued this the 25th day of January, A. D., 1949.

Given under my hand and seal of said Court, at office in Farwell, Texas, this the 25th day of January, A. D., 1949.
Loyde A. Brewer, Clerk District Court, Parmer County, Tex.

SCHOOL CALLED OFF

County Agent Ollie Limer, who was due to attend a special irrigation school in Lubbock, beginning this week, said Monday that the school had been called off, due to inclement weather prevalent over the area.

'GHOST CARS' DRAIN U. S. FUEL SUPPLY

CINCINNATI—"Ghost cars" that operate at only half their maximum efficiency are the biggest single threat to America's fuel supply, Powel Crosley, Jr., pioneer producer of lightweight automobiles, said here today.

"There are 14,000,000 such cars—750,000 of them in Texas alone—and all more than ten years old, on our highways today," Crosley said. "They are averaging little better than nine miles per gallon, though built to yield 18. These gas burners represent some 37 percent of all the motor cars now in active service in the country and will be responsible for wasting nearly eight billion gallons of gasoline in the last 12 months."

The Crosley Motors head estimated that in the past year cars of pre-1938 vintage have consumed nearly 16 billion gallons of gasoline. That, he said, is 53 percent of all the fuel used by the nation's 37,000,000 motor vehicles.

The problem of relegating over-age cars to the scrap heap admittedly has been hard to solve, he said. Most of these vehicles, he pointed out, are owned by people who until recently have been shut out of the new-car market by high prices.

"Since last year, however, thousands of families have turned to the lightweight car as a solution not only to the problem of initial cost and financing but also of upkeep," he added.

Referring to a petroleum industry estimate that 1948 fuel consumption totalled 30 billion gallons, for an average of 800 gallons per car, Crosley said:

"This general average doesn't tell the whole story. The fact is that a heavy ten-year-old running 10,000 miles will eat up 1,100 gallons of gas, as contracted to 550 gallons for a new heavyweight car, 450 for a medium-weight and only 260 for a new lightweight. Age and weight also are tremendous factors in oil consumption.

Crosley predicted that at the present rate of production, it would be "another five years before the automobile industry will have caught up with the majority of junk-yard fugitives which now drain our fuel resources."

Apply dormant sprays to control European red mite, San Jose scale, apple red bug, peach leaf curl and rosy aphid when buds are green tipped and the temperature is above 40 degrees.

SUDDERTH IMPROVES

Family members said this week that Billy Sudderth, who underwent a spinal operation in Albuquerque recently, is showing satisfactory improvement. Visiting him Sunday in an Albuquerque hospital, relatives came back and reported that Sudderth was being permitted to sit up in bed, and said he was feeling fine.

Car Registrations To Begin Feb. 1

Although the 1949 automobile and truck plates are not required to be attached until April 1st, the issuance of the new plates will start at the Tax Collector's office on February 1st, motorists were reminded again this week by attaches at the Collector's office.

In applying for the new license tags, car owners were advised that it will be necessary to present their 1948 registration receipts and their certificates of title. "We cannot issue new license plates without these papers," Mrs. Guy Cox, deputy collector, insisted.

Contrary to previous information, the 1949 plates will be yellow with black numerals, just the reverse of the 1948 tags.

Poll Tax Payments Showing Increase

Poll tax payments have shown some increase during the past week at the Tax Collectors office, it was revealed here today when a check showed 1025 receipts issued to date, as compared with 849 a week ago.

Attaches at the Collector's office were expecting a rush business during the remaining days of January, with the last day of the present month being deadline. They expressed the belief that many well-intentioned persons had been kept away from the office by bad weather conditions.

Failure to pay poll taxes before Feb. 1 will mean that otherwise qualified voters will be disfranchised from voting in any elections to be held during 1949.

Local Happenings

Farwell PTA Meeting Held Thursday Night

The Parent-Teachers Association of the Farwell school held its regular monthly meeting on Thursday night, January 20. Mrs. Dickie Magness, vice-president, presided over the meeting in the absence of the president, Mrs. Ethel Thomas.

Mr. Jack Caves, faculty member, and guest speaker, gave a very interesting talk on "The Home, A Unit For Development of Emotional Ties". Mrs. Erma Jobs presented several musical numbers during the program.

The sixth grade won the floating prize, a picture, for the month of January, making the fourth win for them this year.

Delicious refreshments of tea and coffee with cookies and doughnuts were served by the hostesses, Mrs. Harry Whitley, Mrs. Willie Hardage, and Mrs. Harold Hillock, at the conclusion of the program.

Officials of the Association urged every member and prospective members to plan to attend the next meeting which will be held on the second Thursday night in February, the date being February 10.

Birthday Celebration In Magness Home

A birthday celebration was held in the home of Mr. and Mrs. George Magness the past Sunday, honoring Mr. Magness on his 71st birthday.

A lovely dinner was spread at the noon hour, with a decorated birthday cake, baked by Mrs. S. O. Billington, centering the table.

Those present for the celebration were: Mr. and Mrs. C. L. Magness and family; Mr. and Mrs. Tom Foster and family; Mr. and Mrs. S. O. Billington and family; Mr. and Mrs. Raymond Magness and son; Minister and Mrs. Sol Morgan; and A. V. Warren.

Following the dinner an evening of visitation was enjoyed by all.

Visitors In Rose Home Sunday

Visitors in the home of Mr. and Mrs. Claude Rose the past Sunday included, Mr. and Mrs. Weldon Gibbs and family of Lubbock; Mrs. L. T. Bledslow of Ralls and a niece, Miss Mary Louise Bledslow and a friend Herman, both who are students at Hardin-Simmons College in Abilene. The local lady is a sister to Mrs. Bledslow and Mr. Gibbs.

Attends Concert And Reception

Mrs. Florence Millwee Vinyard, local piano instructor, attended a concert in the high school auditorium in Amarillo, the past Saturday. The concert featured a great French pianist, Maurice Domefnil. Immediately following the concert a reception was held at the high school.

Returned Home

Little Barry James Potter was returned to the home of his parents, Mr. and Mrs. H. H. Potter, in Muleshoe, Sunday after having spent the past three days with his grand parents, Mr. and Mrs. Jess Newton, while his parents were moving.

Visits Children

Mr. and Mrs. B. N. Graham motored to Lubbock Friday where they visited their son and family, Mr. and Mrs. John Graham. They went to Morton Sunday morning where they visited until the following day in the home of their daughter and family, Mr. and Mrs. Raymond Ross, returning to their home here Monday.

Triple Birthday Party Held In Pruitt Home

Mrs. J. M. Pruitt, of the Oklahoma Lane community, entertained with a triple birthday surprise party in her home last Thursday night. Honorees at the party were Mr. J. M. Pruitt, Mrs. Truman Kent and Mr. Harold Pruitt.

Several games were enjoyed followed by a group singing. A late supper was served to the following: Mrs. Truman Kent, Doris and grandson; Mr. and Mrs. Otis Thompson and Betty Lou; Mr. and Mrs. Harold Pruitt; Mr. and Mrs. Elmer Pruitt and children; Mr. and Mrs. Alton Pruitt and son; Mrs. W. P. Shelley and grandson; Mr. and Mrs. Doyn Merriam and sons; and Wanda Joy Pruitt.

Boy Scouts Hold Meeting Monday Night

The Texico Boy Scouts, Troop No. 34, held their first meeting Monday night at the Texico school, with their Scoutmaster Bobby Williams in charge.

Scoutmaster Williams reported Tuesday that an attendance of thirteen were on hand for the meeting, with much interest being shown.

The different officers of the organization were elected, after which the entire group participated in various games.

Williams said meetings would be held every Monday night at the school, and all boys interested were urged to attend these meetings.

Public Installation For Rainbow Girls To Be Held Sunday

Public Installation of the Bovina Rainbow Assembly will be held in the Justice-Williams, American Legion Hall in Farwell, at 2:30 Sunday afternoon, January 30, according to Mrs. Mae Porter.

All Rainbow girls are urged to be present and the public is cordially invited.

Visit In Tucumcari

Mr. and Mrs. Morgan Billington and son spent the past Sunday in Tucumcari, visiting in the home of Morgan's parents, Mr. and Mrs. S. G. Billington. Mr. and Mrs. S. O. Billington drove up during the afternoon for a brief visit. They reported that Mr. Billington's condition was somewhat improved, while Mrs. Billington is not doing so well.

Marriage Recorded

Records at the office of County Clerk Loyde A. Brewer reveal the marriage of Miss Jean Louise Horner to George William Reed, both of Friona on Tuesday, January 18th. Rev. T. B. Allen, Friona Baptist minister, performed the ceremony.

To Graduate Friday

E. J. Sloan, Jr., former local resident, will receive his degree from Oklahoma A. & M., at Stillwater, on Friday of this week, January 28th, it has been revealed by announcements received here. E. J. is the son of Rev. and Mrs. E. J. Sloan formerly of this city and now of San Antonio. He was graduated from the Farwell high school.

Were Sunday Visitors

Visitors in the home of Mr. and Mrs. Guy Cox the past Sunday included Mr. and Mrs. Billie B. Sinclair and daughter, Paulette; Mr. and Mrs. Walter Cox and daughter, Mary Ann; of Dimmitt, and Mr. and Mrs. Bunk Phillips and daughter of Farwell.

Brr-r-r-r!

Challenging January northers and freezing temperature, model Betty Jones forecasts what girls will be wearing when the Texas sun runs the thermometer up to 100 degrees again. Summertime playsuit and dress styles will be paraded at the American Fashion Association meeting in Dallas, Jan. 23 to 27. Visitors will come from throughout the country to see Dame Fashion's predictions for 1949.

Back To College

Cecil Dykes, son of Mr. and Mrs. H. L. Dykes of Texico, left Wednesday for San Marcos, Texas, to resume his college work, after having spent a between-semester holiday with his parents.

Here From Kansas

Mr. and Mrs. Roscoe Thompson and family of Elkhart, Kan., were weekend guests in the home of Mr. and Mrs. Dewey Bagley in Texico. Mr. Thompson is a brother of Mrs. Bagley, and were enroute to California for a month visit.

Subscribe to The Tribune!

Surprise Birthday Party Honors Guy Cox

A surprise birthday party honoring Mr. Guy Cox, was held in the Cox home the past Friday night when a number of friends gathered in to celebrate the occasion.

Several games of "42" and dominoes were played and refreshments of hot chocolate, coffee and cake were enjoyed by all.

Those present were Mr. and Mrs. Bunk Phillips and daughter; Mr. and Mrs. Frank Phillips, Sr., and Charles; Mr. and Mrs. Olan Schleuter; Mr. and Mrs. Carl Deaton; the honoree Mr. Cox, and Mrs. Cox.

Business Meeting Is Held By Texico PTA

A business meeting for officers of the Texico Parent Teacher Association was held in the homemaking department of the school, last Thursday afternoon.

At this time details concerning a food sale, to be held Saturday at the Furniture Mart, were worked out and the group also made plans to sponsor a bridge and 42 party, some time in March, the date to be announced later.

Visitors In Seale Home

Visitors in the home of Mr. and Mrs. Frank Seale the past weekend were Mrs. Seale's parents, Mr. and Mrs. J. R. Sheriff of Lubbock. Also Charles Seale, a brother to the local man, from Lubbock is here visiting for the next several days.

Mr. and Mrs. A. J. Jackson and children of Clovis, were dinner guests in the home of their daughter and son-in-law, Mr. and Mrs. Bobby Williams, of Texico, Sunday.

Mr. and Mrs. Ben O. Smart and children, and Mr. and Mrs. Jim Bob Smart spent Sunday afternoon visiting with friends and relatives in Portales.

Mr. and Mrs. Kirt Crume and son, Van, of Portales, were weekend visitors with relatives in Farwell.

Mrs. Fred Cornelious visited the past weekend in Olton, Texas, with her parents, Mr. and Mrs. J. W. Dennis.

Mr. and Mrs. Ralph Humble spent Sunday in Lubbock with Mr. and Mrs. Lee McDaniel and family.

Mr. and Mrs. C. E. Pendergrass returned to their home here Saturday from Anton, where they had been visiting relatives.

Mrs. H. N. Aldrich from Cleveland, Ohio, arrived here the past Thursday to spend several days visiting in the home of Mr. and Mrs. A. D. Smith.

Food Sale Saturday At Furniture Mart

A food sale will be held in the Furniture Mart in Texico, on Saturday of this week, January 29th, sponsored by the Texico Parent Teacher Association, officials said today.

Baking hens, home-made pies, cakes and cookies will be offered to local residents at nominal prices, and a generous patronage is urged.

The sale will get underway at 10 a. m., Texas time.

GRADUATION DATES SET

Graduation dates for the 1949 Farwell seniors have been set, Supt. Jack Williams announced today. Baccalaureate services will be at 11 a. m., Sunday, May 15th, with the commencement exercises slated for Tuesday night, on May 17th. Speakers have been chosen by the group but no definite announcement can be made along this line to date, Williams added.

Mr. and Mrs. H. Y. Overstreet returned home Sunday night from a business trip to Denver. They left Denver in a light snow Sunday morning, but were able to keep ahead of the storm that hit this region late Sunday night.

Mr. and Mrs. Frank Batchelor and Mr. and Mrs. Jordonson of Bellville, Ohio, visited one day the past week in the home of Mr. and Mrs. A. D. Smith. They were enroute to Douglas, Arizona, for a visit with relatives.

J. H. BLAIR DIES

Information was received here Tuesday afternoon of the death of J. H. Blair, who is understood to have died in a Muleshoe hospital. Mr. and Mrs. Blair formerly operated a laundry in Farwell, but recently they have been on a farm east of this city.

Mable and Ottie Ellison surprised their husbands with a birthday dinner Tuesday evening, at 7 o'clock. Those present were Mr. and Mrs. Frank Ayres and Wesley; Mr. and

Mrs. Jim Ellison; Mr. and Mrs. Howard Ellison; J. R., Fred and Sue Ellison; and Patsy and Janean Ellison.

Mr. and Mrs. Lester Kelley of Earth, Texas, visited Saturday with Mr. and Mrs. Bob Kelley.

Maxine Wade of Amarillo is visiting Mr. and Mrs. W. J. Wade.

Mrs. T. G. Hudson Jr., and Mrs. E. Tabor shopped in Clovis Saturday.

VETERAN'S QUESTION BOX

Q. I am a World War I veteran and have been suffering from a stomach ailment for some time. May I go to a private hospital in my home town and have VA pay the bill?

A. You may provided only if your stomach ailment is service-connected and you receive prior approval from VA to do so.

Q. My child was born five months after the death of my husband, a World War II veteran. Is the child considered a full beneficiary insofar as death pension or compensation are concerned?

A. The posthumous child of a vet-

is entitled to allowance of death pension or compensation at the same rate as a child born during the lifetime of such veteran.

Q. May benefits be paid for a vet's child not residing with the widow?

A. Yes. Payments may be made to the person who has custody of the child.

Q. I am going to college under the G. Bill. Will I have to refund the tuition if I leave school before the end of the school year?

A. If you drop out of college before the end of the period for which tuition has been paid by VA, you will have to pay VA for the time you did not attend school or you will lose eligibility for the training time covered by the payments.

Q. My husband enlisted in the Army Dec. 31, 1946. Is he eligible to receive war service compensation in event of disability incurred in or aggravated by service?

A. Yes. President Truman proclaimed the cessation of hostilities effective 12 noon, December 31, 1946. However, it has been ascertained that records of the Department of the Army, do not show the hour of enlistment. Accordingly, it is presumed that an enlistment on Dec. 31, 1946, was entered into prior to noon on that date. However, the disability must have incurred in active service before July 25, 1947.

Q. I did not select an optional settlement of my NSLL. In event of my death, is my widow entitled to settlement in a lump sum if she wants it?

A. No. Payment in one sum may be made only if designated by the insured.

Q. Does VA give flags to the next of kin of a deceased veteran?

A. Yes. Flags are issued to drape the casket of a deceased veteran and are given afterwards to the next of kin.

Q. What income provision is attached to compensation payable to the widow of an American soldier killed in line of duty?

A. There is no income restriction to compensation paid for service-connected disability or death.

Urged To Care For Water Rights

AUSTIN—Every municipality in West Texas has been urged to take steps to perpetuate domestic water rights. This follows a meeting at Amarillo of the West Texas Chamber of Commerce water rights committee, which is opposed to the passage of the proposed water code of the Texas Water Conservation Assn., which seeks to repeal recovery provisions of the WTCC-Wagstaff-Woodward bill.

Citing lack of rainfall and running streams in West Texas, a letter authorized by the Amarillo committee meeting gives notice that every effort will be made to defeat any measure without protection of the recovery right of water for domestic uses, over inferior uses, principal of which would be the generation of hydro-electricity.

"... West Texas cannot subscribe to and must forever oppose parts of Sec. 13, as outlined in your revision of the surface water code," the letter said. "We refer to the following clause in Sec. 13: 'utilization of such channels and reclaiming of such waters turned into it must not diminish the waters already flowing therein, to which others have acquired rights,' the letter said.

"Under this clause, as we see it, our West Texas municipalities can wholly be prohibited from obtaining additional water supply. ..."

"Another point of omission we are concerned about in the proposed code is the failure anywhere in the bill to extend the rights to a city to recover water heretofore appropriated for inferior use. This right definitely exists in our present law."

The letter, signed by John D. Mitchell, president, and D. A. Bandeen, general manager of WTCC, was authorized by the water rights committee meeting and was addressed to J. E. Sturrock, general manager of the Texas Water Conservation Assn.

Tech To Improve Summer School

LUBBOCK — General improvement of summer school and greater emphasis on the importance of "good summer terms" will be inaugurated at Texas Tech during 1949.

Dr. E. N. Jones, vice president, said full courses will be offered in the summer providing the same advantages of a regular long term, and courses will be handled by the regular staff.

The administrative staff will supervise the summer terms, with each division and department directed for the full advantage of students.

The first term begins June 6 and the second term July 18. Dormitory facilities open to summer students will not be ready before noon June 5. Graduation for summer students will be held at 8 p. m. August 25.

Dr. Jones said the summer schedule was moved forward one week this year to allow students who have teaching positions in public school adequate time to attend summer school and be back for the opening of public school also.

Wash handkerchiefs before they are badly soiled so that they need little or no rubbing to become clean. An hour's soak in cool water will loosen much of the dirt and save strenuous washing.

THEY TAKE THE BLUE OUT OF MONDAY

A COMPLETE, modern electric home laundry not only takes the "blue" out of Monday, it's apt to take most of the work out of the proverbial "wash day."

With an electric home laundry in your home, you'll find yourself putting clothes to wash and dry, or ironing them whenever it's convenient... you won't be tied down any more by "wash day" or by a pile of ironing.

Washing's done automatically while you go about your other house work. Put the damp clothes in your dryer, and forget about them until you take them out, as dry and clean smelling as if they'd been on a "line" for hours. Then, you'll find it just a few minutes' work to go through an ironing with an efficient electric ironer.

See your appliance dealer soon about the advantages of an electric home laundry of your own.

CARDINAL HELD ON TREASON CHARGE . . . Accused in an official government communique of "espionage, treason, black market currency deals" and of "seeking to overthrow the democratic government of Hungary," Josef Cardinal Mindszenty, Roman Catholic primate of Hungary, has been arrested by the Communist-dominated government. Ironically, the 56-year-old cardinal also was arrested by the Nazis in 1944 for seeking to promote democracy.

sink; pint measuring cup—near sink or mixing center and it may be wise, she concludes, to have more than one of some of the smaller pieces which can be stored near the working centers where they are used.

Drouth Cycle Can Be Expected To Return

AUSTIN—The recent Texas drouth was part of a climate cycle which can be expected to recur about every 11 or 12 years, says a University of Texas archaeologist who is interested in the relation between climate change and human history in North America.

Alex D. Kriegler, participant in a program on weather cycles at the recent Plains Archaeological conference in Lincoln, Neb., says drouths have recurred repeatedly for many centuries in the Great Plains states, and this information should be a signpost to farmers to anticipate these changes in their crop planning.

He points to modern drouth periods in 1934-36, 1923-24, 1910-12, 1899-1901 and the 1880's as examples of climatic cycles which have had profound effects on American economy.

Establishment of the exact dates on climatic periods in North America during the past 25,000 years is one of the problems facing climatologists.

The archaeologist can date his finds through geological and other means, thus helping the climatologist to determine the date of climatic periods which changed life on this continent during the past 25,000 years, Kriegler says.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending January 22, 1949 were 21,347 compared with 25,129 for the same week in 1948. Cars received from connections totaled 10,407 compared with 10,755 for same week in 1948. Total cars moved were 31,754 compared with 35,884 for same week in 1948. Santa Fe handled a total of 30,698 cars in preceding week of this year.

FASHIONABLE . . . Mrs. Alfred Gwynne Vanderbilt was selected as one of the 10 best-dressed women of 1948 in a poll conducted among fashion designers by the New York Dress Institute.

Clothing Course Set For Grad. Students

LUBBOCK—A new clothing course arranged particularly for graduate students who will teach or are teaching clothing in junior colleges and colleges is to be offered at Texas Tech for the first time during the second term of the summer session.

Miss Mabel D. Erwin head of the clothing department, will teach the course which takes up particular mechanical problems in sewing as well as stressing modern examination methods, classroom instruction and a comparison of "short cuts" in modern sewing with accepted methods.

Miss Erwin, author of an adopted text "Practical Dress Design", and of "Clothing for Moderns", off the press the last week in January, said recent trends in clothing education directed toward "good looking" clothes will be evaluated with comparison of factory products and "home made clothes."

Save Steps With Convenient Storage

COLLEGE STATION.—The old rule for convenient storage of kitchen utensils—"keep it where you use it"—has been improved. Household equipment specialists of the U. S. Department of Agriculture and various state experiment stations have conducted kitchen work studies which led to a newer and better rule, "Keep it where you use it first".

Mrs. Bernice Claytor, extension home management specialist of Texas A. and M. College, says that if this rule is followed, some utensils obviously will be most convenient near the stove, while others may be stored near the mixing center, the sink or the serving center. The storage place for some equipment, such as the coffee making utensils, may depend on the type—for instance, a coldwater

coffeemaker is first used at the sink, a hot water coffeemaker may be first used at the stove.

Here are convenient locations for some of the most frequently used utensils, Mrs. Claytor says: Near the stove, frying pans, pancake turner, 2-tine long fork, potato of food masher, and cooling rack.

Near sink: Dishpan, dish draining rack, pan for the rack, vegetable brush, colander and a six- to eight-inch wire strainer.

Near mixing center: Rotary egg beater, mixing bowls, can opener, measuring cups and measuring spoons, custard cups and casseroles.

Near serving center: Orange and fruit squeezer, and bread or slicing knife.
Some utensils may be conveniently stored in one of several places: coffeemaker and teapot, near stove, sink or serving center; saucepans, large kettle and doubleboiler, near stove or

Split Games Friday With Friona Squads

A twin cage bill run off in the Farwell gymnasium the past Saturday night gave one win each to the competing squads from Farwell and Friona, with the girls' match going to the Squaws and the boys' honors being taken by the local Steers.

Final count in the girls' game stood 21-28 in favor of the visitors, and although the Squaws apparently had the edge throughout, the contest had its exciting moments.

Inability of the Farwell basketballers to hit the goal on their numerous attempts could be directly credited with the loss, while the Squaws, on the other hand, made most of their tries count. Robason led the scoring, as usual, racking in 21 points, while Petree, who saw only partial service during the game for Farwell, led the losers with eight.

Showing an improved brand of ball from recent contests, the Steers took a lead in the early part of the game and held it to win their match over Friona, 39-22, although the first several minutes of the contest went scoreless for both sides.

Friona was handicapped by the absence of their captain, Lacewell, and never threatened the Farwell lead. Thomas, of Farwell, led the scoring with a total of 13, while Bandy paced Friona with six.

Twin Bills Are Slated For Texico Cagesters

Doubleheaders are slated for both Friday and Saturday night of this week, on the Texico school cage program, with the boys and girls going to Pleasant Hill on Friday night, the 28th, while on Saturday night the Wolverines play hosts to two groups of boys from Floyd.

In a previous meeting, the Wolverines dumped the Pleasant Hill boys, but the Hill girls, who have yet to be defeated in this section this year, patted the locals, and unless the Texico-ites play above-par ball, they are given little chance to upset their hostesses.

Seasonally, the games with the Floyd aggregations are fast and furious, with Floyd customarily turning out a team which does strong competing for district honors. Little is known here of the 1949 team calibre but expectations are that the fans will "get their money's worth" at the Saturday night games.

The "B" string game will get underway at 7:30, followed by the "A" tangle.

Jason, of Greek mythology, led the Argonauts in search of the Golden Fleece.

Nip And Tuck Battles Give Texico Teams One Win, One Loss

Two strongly contested cage games played on the Texico court last Friday night resulted in wins for the local girls and the visiting Ranchvale boys, as the doubleheader unwound before a crowd of screaming fans.

Trailing one point at the end of the third period, 31-30, the Texico girls hit the home stretch with a fast attack that left Ranchvale completely snowed under, and won their contest, 45-38.

Jones, of Ranchvale and McDaniel of Texico fought it out for individual scoring honors, with Jones taking 24 and McDaniel edging her by one point, with a count of 25 for the game.

Lead in the boys game tilted back and forth between the two teams until the last few minutes, when Ranchvale finally pushed out ahead, 25-21, to nail down the victory. In the first period the visitors grabbed a majority, but dropped behind in the second canto to see Texico leading 12-6 at half time.

Not to be out-done, the Trojans bounced back in the third canto and forced their way ahead sufficiently that the Wolverines were unable to close in on them. Bailey, of Ranchvale, led the scorers with 13, while Stewart, of Texico, had seven for his team.

Lose To Eunice Quintet
On Saturday night, the Wolverines were ousted 29-51 by a strong Eunice team, which has taken 11 consecutive wins this season. Coach C. E. Sanders reported today.

The game was fairly even through the first periods, but during the last round the locals apparently gave up the ghost and their hosts snared a long lead. Hicks led the scoring with 23 for Eunice, while York had 14. Stewart was high for Texico with 6.

Junior boys and girls teams coached by Supt. B. A. Rogers won two games. Friday night the girls defeated Ranchvale by a score of 8-4. Saturday night the junior boys won from the Eunice juniors 11-10.

KEEP AWAY FROM STOVE

Lazbuddy And Dimmitt Teams To Come Here

Basketeers from Lazbuddy will be on hand Friday night, January 28th, to contest the Farwell cagesters in the local gym, while on Tuesday evening, February 1st, the two teams from Dimmitt are slated to make appearances here.

The Steers are rated tops over Lazbuddy in the coming match, while the local girls and the Lazbuddians are expected to be fairly closely matched, with honors liable to go to either team which is hitting that night.

So far as Dimmitt is concerned, neither of the two local squads is rated a chance to come out ahead by the dopesters. In previous meeting, the Bobcats pounded the Steers mercilessly, winning by about 20 points, while the girls were out-pointed by a ten majority.

First games on both nights will begin at 7:30, with regular admission charges being made at the door.

Blue Panic Grass Seems Promising For West Texas

By Roger B. Letz
Fort Worth Star-Telegram
Farm Writer

PADUCAH—Blue Panic, a grass that has possibilities of feeding a cow per acre, is becoming established in the semi-arid region of Cottle county.

The grass, which has not been considered suitable in West Texas, has proved itself adaptable to sandy as well as tight land.

Jimmie Wilcox, of the Soil Conservation Service assisting the Upper Peace district, said that Blue Panic has also done remarkably well on poor soils.

Wilcox claims the grass will last from frost to frost, but added that it is difficult to get started in dry regions.

Farmers must plant the grass in rows and cultivate it for the first year to keep the weeds from taking over. After that, the grass will become established and will spread between the rows.

Blue Panic was started in Cottle county in May 1947. The seed was obtained from San Antonio.

R. M. Marshall of the Ceevee community had 8 acres of the grass this year and ran 23 cattle during the summer without feeding.

The Turner Brothers of Roaring Springs have more than 100 acres of the grass on poor sandy land. It is up to a good stand and is doing fairly well.

Blue Panic acreage is expected to increase rapidly in Cottle County because of its ability to do well on poor soil and furnish grazing over a longer period than grasses and cultivated crops now being used.

Blue Panic was brought into the region by Soil Conservation personnel at Childress. Farmers in that area now have more than 700 acres of the grass.

A vendetta is a feud.

Draft Being Used As Enlistment Lever

All those young men of the nation who have stopped worrying about being drafted had better start worrying again.

That was the word of Lt. Col. Morris S. Schwartz, deputy director for Selective Service in Texas. He was in Dallas last week to talk with draft officials of eight Northeast Texas counties.

It is true, the colonel conceded, that draft activities are not at this time very active. This is because the President asked for only enough money to take care of 677,000 soldiers instead of the 837,000 the army would like to have. Since the army already has as many men as it can feed and clothe and train, no more will be drafted for the time being.

Here's The Catch
So far, the number of men who leave the army (about 30,000 per month) have been replaced by a combination of draftees and voluntary enlistments. Voluntary enlistments have been gratifying in recent months.

But, said Colonel Schwartz, the army suspects that a good many young men have "voluntarily" enlisted only because they avoided being drafted. A voluntary enlistment means that you can choose your service and that you don't have to worry about reserve service after your regular tour of duty.

Draft As Lever
"The draft has been a lever to pry men into the army," said the colonel. If a good many young men get the idea that the draft is being discontinued, the colonel has an idea they'll not be so ready to join up. Army strength will sag again.

"It is for just such an emergency that the selective service act will remain in force," said Col. Schwartz, smiling happily.

When it will be necessary to start drafting again, the colonel wasn't prepared to say. For February and March, no new men will be taken.

Clinic For Spastics To Be Held In Lubbock

A clinic for the examination of children with cerebral palsy (sometimes called spastic paralysis or birth injury) will be held Monday, February 7th, at The Cerebral Palsy Treatment Center, 1317 Tenth Street, Lubbock. Orthopedists from Amarillo and Plainview will be present to examine patients.

Parents planning to bring children to the Clinic are requested to register the children at The Center prior to the date of the clinic.

Information regarding the clinic may be obtained by writing Miss Esther Snell, director, or calling Lubbock 6541.

VEGETABLES PLENTIFUL

Vegetables on the February plentiful list include cabbage, carrots, spinach, Irish potatoes, onions, dried peas and beans, and canned corn.

WHO'S YOUR VALENTINE?

FOX DRUG STORE

To Attend Farm Bureau Clinic In Lubbock, 1st

Directors and officers of the Parmer County Farm Bureau Chapter will be in Lubbock on Tuesday of next week, February 1st, attending a district Farm Bureau clinic, it has been announced.

Various details of Farm Bureau work will be discussed by state and district representatives, and general outlines given for newly-formed

chapters. Planning to attend as representatives from Parmer County are Charley Thompson, Ed Meeks, Fred Bolton, Howard Denney, Joe Brummitt, R. H. McFarland, Ollie Liner and Elmer Euler.

TIME TO WEATHERPROOF

It's time to weatherproof the farm shop and equip it with a heating stove. Winter is the time for construction and repair jobs around the farm.
