'42' Tournament Saturday

Free prizes appropriate to National Fire Prevention Week will be given to guests attending the "42" tournament Saturday evening at the Texico School Auditorium at 8 p.m. says Mrs. Perry Winkles, president of the Texico Fireman's Ladies Auxiliary.

In observing Fire Prevention Week October 7-14, the Auxiliary will sponsor the tournament which is open to anyone in the area. It will be highlighted with the coronation of "Miss Flame" of 1961, and the awarding of a quilt which has been pieced by members.

"We are indebted to Olan Schleuter who will direct the tournament," says Mrs. Winkles.

Mrs. C. H. Webb and Mrs. Don Fought will be in charge of a concession stand and free movies will be shown for the children.

Three local high school girls have entered the contest and the winner will be crowned and presented with a gift. Those entering are Carol Bell, Sandra Pendergrass and Barbara Chandler.

Mrs. Winkles extended a personal "thank you" to the girls for doing their part in making the program a success.

All proceeds from the tournament, concession stand and the "Miss Flame" contest will be used to provide food for local needy families at Christmas.

Texico Holds 6 - 0 Record

With only one game remaining on their schedule, the Texico senior high softball team holds a perfect 6-0 record, after defeating Grady Friday by a 17-5 score.

Grady got off to a good start by scoring two runs in the first inning while the Wolverines could only manage one. However the locals broke loose for seven big scores in the second inning and Grady was never within threatening distance again.

The Wolves got nine more runs in the sixth to leave the final score 17-5.

Tuesday Texico will face House for their final game of the season before playing in the tournament on October 20-21 at Portales. Their first tournament game will be against Floyd.

The senior girls came across the plate with nine runs in their game, but fell to a strong Grady team 23-9.

They will enter the softball tournament today, playing Logan in their first game. Texico junior high girls are also entered in the tournament which is being played at Grady.

CITY MEETINGS HELD

The Texico town council and Farwell city commission met for monthly meetings over the weekend, with no special business conducted at either meet.

Routine business was completed and bills for the month of September were approved for payment.

Lions Talk About Coming Shoot

Plans were made for a ham or turkey shoot before Thanksgiving, when members of Lions Club met Monday night for a regular meeting. A final report was made on the broom sale which was completed two weeks ago.

Robert "Prof" Morton was in charge of the program. "What 20,000 Russians Told Me" was the title of a tape recorded speech given by Leon Tichinin of the agriculture department of California. He had visited Russia when he was a member of a team that set up the United States fair exhibit in that country.

Tichinin spoke at the state FFA convention, where the talk was taped, according to Morton.

Kittrell Misses None To Win

T. J. Kittrell called all the games right to win last week's football contest in The Tribune. His wife, Ysleta, and Rene Ussery each missed only two to tie for second place, since both missed the tie-breaker score by 12.

With a 44-0 Farwell victory prediction, Kittrell had an error of 28 points from the actual Farwell 30, Plains 14, score. The second place winners both thought Borger would take Tascosa and West Texas would win over University of Wichita. Actually, the top teams were reversed.

Henry Haseloff moved into the running for the top prize with Albert Johnson, who was leading contender last week. The men have scores of 37. Neither have placed in the top three in any given week, but both men have kept steady high scores each week.

Close behind with 36 points each are Mrs. Albert Johnson and Ysleta Kittrell. Seven participants have 35 points and six have 34 points. The contest is half over, with five weeks remaining.

BEFORE AND AFTER could easily be the title for these pictures made last Thursday at the pre-homecoming bonfire and pep rally. Pep talks were made by Dempsey Alexander, football coach; W. M. Roberts, school superintendent; and

Glenn Phillips, a representative of the quarterback club. The high school band and pep club also participated in activities.

Plains Easy Victim Farwell

With almost half-try ease, the Farwell Steers came back to paste Plains this year, after a shellacking last year by the Cowboys. The Steers outdistanced the visitors 34-14 before a capacity crowd of cheering fans.

Able to score with almost any opportunity for an open field, the five touchdowns were made on 25 to 80 yard plays. The victory was the fifth for the Steers.

Only loss has been to the Morton Indians in a close contest three weeks ago. Thus the stage is set with a 5-1 record for the Steers when they begin district play against the mighty Kress Kangaroos next week.

The Steers scored three touchdowns before the half last week, while holding the Cowboys scoreless. The bulk of the yardage came from runs by Jerry Lovelace.

A trap over left guard resulted in a 39-yard run by Lovelace who was taken out-of-bounds on the one. He took the ball over right guard for the first Steer touchdown on the next play. There was no extra point and the Steers led by 6-0.

Playing in the early minutes of the second period, Jim Clements intercepted a Plains pass and elusively side-stepped the bevy of tacklers time and again, then crossed the goal line with an 80-yard run behind him. The kick was blocked.

With seconds ticking away in the last minutes of the half, Max Fields hit David Lindop with a short pass and Lindop lat-

eralled to Lovelace who outran everybody for 34 yards for a touchdown.

After a scoreless third quarter, things began to happen in the last chapter of the game when a pass interception by Plains gave them the opening they needed to drive through for a touchdown. Butch Hawkins made the 11-yard counter and a pass from Mike Fields to Ernie Anderson tallied two more points.

But the Steers weren't through. With the count standing at 18-8, Max Fields threw a 25-yard pass to Lovelace in the end zone, which upped the reading to 24-8.

Both clubs were playing hard in those final minutes and after a Steer penalty, the Cowboys found themselves on the Steer 45. Mike Fields spotted Milt Watson open on the 20 and hit him with a running pass with Watson going across the goal from there.

Again it was Farwell's turn to show their offensive spirit. The last plunge of the game began with an intercepted pass by William Dannhelm who was stopped on his own 45. An aerial from Fields to Lindop covered 55 yards and gave the Steers another TD in the last seconds of the game. Point try was no good.

Coach Dempsey Alexander lists four men as defensive standouts against the Cowboys: Dickie Gerles, Scotty Turner, David Lindop and Danny Lindop. Jerry Lovelace ran 159 yards to easily be the top ground gainer.

Final Score For Yearlings Is 16 - 14

The final score read 16-14, with Friona ahead when the junior high football team from Farwell played the other Parmer County club on their field Thursday of last week.

"It was a debated decision on the score," says Dan Truelove, coach, "at least for the local fans." He explains that the last points by the opponents were debatable since they were made as time ran out.

Joe Costello scored on a pass play that was good for 40 yards and Charles Dannhelm made the other count. Friona ran both of their extra points and Farwell ran one.

The game gives the Yearlings two wins and three losses, with both wins against Bovina. The team has lost to Clovis Marshall, Friona and Springlake. The first district game was slated last night (Thursday) against Kress and was junior high homecoming for Farwell.

Texico Boys, Girls Staters Among Banquet Honorees

Texico's 1961 delegates to New Mexico boys and girls state were among the 24 area delegates honored at a banquet Monday evening by the Clovis American Legion post.

Delegates reported on their experiences at the events, which were held just after the 1960-61 school year. Girls were at the University of New Mexico in Albuquerque and the boys were at New Mexico Military Institute in Roswell.

Norma Jackson gave a detailed description of the week's activities at the University in her report for the girls, and Rita Patterson gave a complete report on a series of talks given by Dr. C. L. Kay on the subject of "Communism." Billy Robinson and Jeff Skarda reported on the boys state session.

Attending from Texico were Betty Lockhart, Donna Kay Osborn, Dwight Turner, and Kit Doran.

Phillips Appears In County Court

Mrs. Zelma Phillips, Texico, was apprehended and charged with check law violation last week in Parmer County. She appeared before Judge Loyde Brewer and received a sentence of \$1 and costs. She also redeemed the check given to Buck's Super Market in Farwell, according to Charlie Lovelace, sheriff.

In other action, Donald Rule, Friona, was bound over for the next session of the Parmer County Grand Jury following the filing of a suit by his wife for non-support. Rule posted a bond of \$500.

Farwell PTA Program Set

A round table discussion by parents and teachers and a film on "Cystic Fibrosis" to educate parents on the disease, will be on the program agenda when Farwell PTA meets Oct. 17 at the school. Melborn Jones is president of the group.

Hospital Notes

Mrs. Ruth Routon who was burned at the Plains-Sundown football game while working in the concession stand, was released from Clovis Memorial Hospital Friday and is reported to be in good condition.

Mrs. J. E. Stone of Texico was released from Clovis Memorial Hospital Friday, after being admitted Wednesday for medical attention.

Mrs. C. B. Stockton was a medical admission to Clovis Memorial Hospital Saturday. She was dismissed Monday.

Mrs. B. N. Graham was dismissed from the hospital on Saturday.

Frank Doshier of Texico who has been in serious condition in the Clovis Memorial Hospital suffering from an infection in his leg, was dismissed Sunday.

Mrs. Lucile Britain was a guest in the U. L. Lesley home Tuesday evening for a birthday supper honoring Mrs. Lesley.

FOOTBALL QUEEN, Zell Billingsley, smiles proudly after being crowned during half-time activities at the homecoming game Friday. Jim Cain and Jerry Lovelace, co-captains, crowned Miss Billingsley and presented her with a bouquet of roses and a gift. Jim Cain was crowned pep club beau during half-time.

Local Carriers Attend RLCA Meet In Roswell

The New Mexico Rural Letter Carriers' Association and its Ladies' Auxiliary met for annual fall State and Board meetings in Roswell on October 7.

Various aspects of the National RLCA Convention were reported to members including the NRLCA hospitalization plan and auto insurance; the tour of Stone Mountain, convention entertainment highlights, legislation of interest to rural carriers, high points of the various dignitaries' talks, and a summary of the entire convention.

During the joint business meeting, a report was given that the New Mexico State Association now has a 1961 membership of 100% regular carriers—the only state RLCA in the Nation to achieve the goal this year.

During the Auxiliary meeting, program for the coming year was outlined by Mrs. Loren Wilson, president. Three phases of special interest to members were on Americanism, membership, and the Auxiliary project, Cancer Research.

June 1, 2 and 3 were set as dates for the 1962 state convention which will be held in Clovis.

Mr. and Mrs. Melvin Burns and Mr. and Mrs. Loren Wilson from Texico were present for the meeting at which five of New Mexico's eight districts were presented.

Sales Slated

Rummage sales which have been held for the past three weeks as a fund raising project of Theta Rho chapter of ESA, are scheduled for two more weeks, Mrs. Pike Jordan, president, says.

The sales are held in the Muckleroy building in downtown Farwell.

Special

Any farmer who is interested in increasing his cotton acreage by 25 per cent should appear at the Oklahoma Lane Community House Tuesday night at 8 p. m.

Mental Health Workshop Is Termed Successful

"Successful" was the word used by members of the school planning committee in describing the Mental Health-Education workshop held at Texico School Thursday.

Mrs. Buck Doran gave the welcome address and introduced special guests, George Gliva, director of the mental health and education fields was explained by Mrs. Thelma Mallory.

Case presentations were given by Dr. John Cochran with audience-participation discussions held on each of the cases. Special guests taking part in the discussions included Dr. Mary D. Bubliss, Neuropsychiatrist, Plainview; Dr. John Cochran, director speech and hearing clinic, Eastern New Mexico University; Mrs. Winnifred Conner, director department of public welfare; Mr. Ralph Drake, assistant superintendent of Portales Schools; George Gliva, community mental health consultant, Curry County Health Department; Mrs. Thelma Mallory, instructor education department, ENMU; and Mrs. Edyth Pierson, Eastern New Mexico Mental Health Association.

Common emotional problems in the school were reviewed by Dr. Mary D. Bubliss.

Members of the school planning committee for the workshop were Buck Doran, superintendent; Paul Frederick, high school principal; Mrs. Buck Doran, guidance counselor; Mrs. Margie Taylor, school nurse and Mrs. H. D. Younger, elementary principal.

Kress Tough Assignment

The toughest assignment of the season faces the Farwell Steers Friday night as they go against the potent Kress Kangaroos, definitely a contender for the district title, on the Kress field, at 7:30.

The Farwell boys will be out to even the score, remembering the 20-18 loss suffered by the Steers the last time they played in Kangaroo Stadium two years ago. They also want to show the Kress fans what Farwell can do under the direction of a Kress home-town boy, Dempsey Alexander, who coaches the Steers.

Kress is not only the top offensive team in the Panhandle with 171 points to their credit, but also the top defensive team with only 19 points scored against them.

They have a team made up largely of juniors and seniors with four senior backs and two senior linemen. The rest are juniors, says Alexander.

Coupled with experience, they also have weight. The back-

field average is 170 lbs. and the line averages 172. Alexander comments. To make the picture a little worse, they have a lofty 6-0 record.

The two teams haven't had a common opponent, but their past two games against one another, could easily fire the competitive spirit. Two years ago at Kress, the Kangaroos topped the Steers 20-18; last year in Steer Stadium, the local team romped over the visitors, 36-6.

Bennett, who is the second place Class A scorer in the Panhandle, will be a big obstacle in the path of the Steers along with Chuck Saul. Lovelace of the Steers is first place touchdown man in Class A.

The Steers were in good shape at the middle of the week, with no injuries in the past three games.

Game time is 7:30, which is 30 minutes earlier than previous encounters. School will turn out at 2:30, Alexander adds.

SMILING PROUDLY are the four finalists in the Miss Teenage Amarillo contest. From left to right are third runner up, second runner up, Miss Teenage Amarillo, Judy Jay; and first runner up, Beth Ellen Peyton of Texico. Each of the girls received gifts from radio station KIXZ, sponsor of the contest.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

Auxiliary Hosts Dinner Monday

Members of the Texico Fireman's Ladies Auxiliary hosted a dinner at the Perry Winkles home Monday evening. The family had just returned from California where they attended the funeral of a relative. Members of the Auxiliary prepared a complete meal, and the table was centered with a fall arrangement from the organization.

News From LAZBUDDIE

BY MRS. C. A. WATSON

Mrs. Robert Bledsoe, a former Lazbuddie resident, passed away near Rogers, New Mexico Saturday evening. Services were conducted Monday at 2:30 in the Dora First Baptist Church, with H. H. Allen officiating. Burial was in Mount Zion Cemetery under the direction of Wheeler's Funeral Home.

Mrs. Bledsoe is survived by her husband, a daughter, six grandchildren, one brother and three sisters.

Members of the WMU of the Lazbuddie Baptist Church met for a regular session Monday afternoon, with Mrs. L. B. Hambright giving the devotional. Mrs. R. E. Mason gave the chapter prayer and the opening prayer was led by Carrie Withroe. During the program the Mission Study Book was completed, after Mesdames Wesley Barnes, Raymond Houston and Ira Wimberly reviewed three chapters of the book. Special music was a solo by Mrs. John Agee. Attending were Mesdames Eugene Redwine, D. Johnson, Jimmy Ivy, Bill Curry, Thomas Carroll, John Agee, Ira Wimberly, L. B. Hambright, Earl Peterson, Jim Burges, Joe Prater, Raymond Houston, R. E. Mason, Wesley Barnes and Carrie Withroe. Mr. and Mrs. Joe Prater visited Thursday through Saturday with their daughter and family, the Bayne McCurrys of Edmondson.

Birthday greetings this week go to Garry Elliot, October 10; Robert Sallinas, Gail Morris and Debra Ann Bullock, October

11; Judy Parker, J. G. Ward and Mrs. Jack Smith, October 14.

R. L. Porter, Odis Bradshaw and Judy Brown, students at Texas Tech, visited with their parents over the weekend.

The Lazbuddie Longhorns won their homecoming game Friday as they beat New Home 30-14. During half time activities Kay Burrison was crowned homecoming queen and Dick Chitwood was named homecoming king.

Five students recently enrolled in the fifth grade including Johnnie Delgado, Lupe Pena, Pablo Echavarrea, and Marie and Rosa Rodriguez.

Members of the senior class are selling magazines to aid their senior class fund. Orchid and white were recently chosen by the group to serve as class colors.

Formal initiation for freshman home economics girls was held September 19 in the school auditorium. Following the activity, FHA parents were elected. Officers of the organization are Eva Dean Ivy, president; Wanda Bean, vice-president; Pat Peterson, second vice-president; Kay Burreson, secretary; Sharon Parham, treasurer; Twila Gallman, historian; Brenda Mason, parliamentarian; Wynell Barnes, sergeant at arms; Sandra Brown, song leader; Gayle Seaton, pianist; Carol Motes, social chairman; and Linda Lesley and Linda Gleason, freshmen reporters. Mrs. Charlie Watson is chapter advisor.

A HALF DOLLAR and a half hour is all you need to assemble a new sports buggy for two. The small car goes 20 miles an hour, and can be taken down for storage in an auto trunk, boat, or airplane.

Texico Band To Homecoming

The Texico high school band will be among the sixteen bands representing high schools and junior high schools of Eastern New Mexico and West Texas who will be guests of Eastern New Mexico University at Homecoming Saturday.

The band will join Eastern's Greyhound marching band in the parade at 10:30 a.m., when they will compete for awards, and will also participate in activities preceding the Eastern-Tarleton State football game at 1:30.

Church Will Broadcast Services

Beginning Sunday, October 15, morning worship service of the Farwell First Baptist Church will be broadcast over radio station KZOL from 11:00-12:00, according to Bro. J. L. Bass, church pastor.

Services will be broadcast direct from the church each Sunday throughout the fall and winter.

LEGAL
Statement required by the Act of August 24, 1912, as amended by the Acts of March 3, 1933, July 2, 1946 and June 11, 1960 (74 STAT. 208) showing the ownership, management, and circulation of State Line Tribune published weekly at Farwell, Texas for Oct. 13, 1961.

NOW! A NEW WORLD OF WORTH!

'62 CHEVROLET JOBMASTER TRUCKS WITH NEW High Torque Power!

Here's new High Torque power for every weight class—light, medium and heavy... the most powerful engines in Chevrolet history... sure saving power and dependability for every job!

There are plenty of powerful reasons for Chevy superiority. High torque reasons. Reasons that range all the way from a mighty new High Torque 409 V8* for heavies, right down to the thrifty Sixes... including the High Torque 261 Six* that's available for the first time in light-duties.

Loads of other reasons, too. Like the new work styling with downward-sloping hoods that let drivers see up to 10 1/2 feet more of the road directly ahead. Like Chevrolet's proved Independent Front Suspension for even smoother riding, easier working trucks. Like the heavier duty hypoid rear axles for middleweights and the rugged new I-beam front axles* (9,000- or 11,000-lb. capacity) available for extra-tough jobs on Series 80 heavyweights. Like the longer lived mufflers. Like work-proved Corvair 95's (2 pickups and a panel) that haul up to 1,900 lbs. of payload with low-cost dependability and sure rear-engine traction. Like to know more? See your Chevrolet dealer.

*Optional at extra cost

4-53 Diesel
130 hp.
271 lbs-ft torque

409 V8
252 hp.
390 lbs-ft torque

NEW CHEVROLET-GM DIESEL DURABILITY Here's new earning power for middleweights... rock-bottom maintenance costs, compact size, low weight, top torque and top power.

NEW HIGH TORQUE V8 With 16 1/2 per cent more torque than ever before available from Chevrolet.

Fall Colors Highlights Of Woman's Club Style Show

Autumn fashion colors of magenta, blues, greens, oranges, and golds highlighted the Texico Woman's Club style show held Tuesday evening in the Texico school auditorium.

The stage was decorated with large potted plants for the occasion, and intermission entertainment was a tap dance by Miss Diane Lovelace. Narrator for the show was Mrs. Harold Carpenter.

Door prizes of a sweater and jewelry set were won by Mrs. Letha Morris and Mrs. Ed Combs.

Among models showing fall fashions from sleepwear to evening clothes were Ruby Doran, Jana Beth Crooks, Roxie Crooks, Callalya Roberts, Jean Hicks, Bea Spearman, Jean Hadley, Sharon Tompkins, Betty Lockhart, Marry Ella Dobbs, Linda Campbell, Sandra Pendergrass, Sharon Blackwell, Alta Hughes, Dardanella Helton, Jo Pearce, Kim Pearce, Wanda Eshleman, Jana St. Clair, Judy Stover, Pat Webb, Kathleen Smith, Lynell Ingram and Judy Tharp.

Also Beth Ellen Peyton, Charlotte Pierce, Beverly

Quilting Done At Club Meet

Quilting was done for the hostess Mrs. Eric Pierce, when members of the Pleasant Hill Extension club met at the community building Thursday.

A covered dish luncheon was served at noon, and members worked on aluminum trays during the meeting.

Mrs. Lillie Daughtrey, county home demonstration agent, presented the program on "sewing tips", giving the women various short cuts and ideas which could be used in sewing.

Two visitors, Mrs. Jesse Range, and Mrs. Daughtrey attended the meeting along with Mesdames Martha Heinz, Clarence Smith, Pearl Singleterry, Leonard Kimbrough, Barney Kelley, Euel Hart, Byron Buford, Mason Neeley, Eric Pierce, Elmer Langford, Lowry Winkles, Maurice Clark, John Range, Tom Burnett, Donald Clark, Floyd Bocox, Alvis Clark, Juan Eskew and Frank Hemke.

The club will meet again on October 19 at the community center, with Mrs. Elmer Langford bringing the demonstration on making pictures from dried flowers. Mrs. Frank Hemke will be hostess for the all-day meet.

First Child Born To The Bowers

Mr. and Mrs. Jerry Bowers of Clovis are proud parents of a son born Saturday afternoon at Clovis Memorial Hospital. Weighing in at 8 pounds 8 ounces, the little boy, who is their first child, was named Curtis Lea.

Grandparents are Mr. and Mrs. Frank Horner of Clovis and Mr. and Mrs. Anson Bowers, who live south of Clovis.

Beth Peyton Runner Up For Miss Teenage Amarillo Title

Miss Beth Ellen Peyton, 16 year old daughter of the N. W. Peytons and a senior at Texico High School, was named first runner up in the Miss Teenage Amarillo contest conducted last week.

The contest was one of the 110 city contests held across the nation to select finalists for the Miss Teenage America is a \$6000 college scholarship.

The Amarillo contest, under the sponsorship of radio station KIXZ, received 43 applicants from August 28 to September 30. Twenty semi-finalists were chosen by a panel of teenage judges representing the Amarillo High Schools.

Finalists were judged on poist, personality, scholastic ability and leadership qualities by a group of adult judges and a teenage panel.

Miss Peyton is active in various school functions at Texico, being drum major for the band, a varsity cheerleader, member of the National Honor Society and future homemakers. She also plays the piano and has modeled on TV for the past two years.

In being named first runner-up, she was presented with a gold bracelet watch.

Friornans Invited To Tour New Homes

Mrs. Ray Cowser, reporter of the Garden Beautiful Club of Hereford, invites all Friornans interested in touring some of the outstanding homes in Hereford to participate in a club sponsored tour Friday.

Tickets for the tour, which will be conducted from 2 to 5:30 p.m., may be purchased at any of the homes. Homes to be visited are those belonging to Paul Stevens, 300 Sunset Drive, Bruce Burney, 202 Texas Ave., James W. Witherspoon, 410 Lawton, Dr. Weslie Owen, 109 Douglas, and J. B. Noland, 6 1/2 miles west on Highway 60.

Study Club Meet Set For Monday

"International Affairs" will be the program when members of the Farwell Study Club meet in the home of Mrs. Sal Vincent on October 16 at 8 p. m. Three sub-topics relating to the program--China's Leaders, Turmoil in Africa, and Peace is up to You--will be given by Mesdames Lois Smith, Joann Sander and Nina Glasscock.

Mrs. Claude Coffey will preside at the business meeting.

Family Has Reunion

Mr. and Mrs. Muggs Magness from Delores, Colorado, were honored guests at a family reunion held in Oklahoma Lane Community Building Sunday.

Attending were Mr. and Mrs. Dale Staggs and Patsy, Mr. and Mrs. Randol Staggs and Lana Beth, Plainview; Buck and Scott Magness, Flagstaff, Ariz.; Mr. and Mrs. Frank Staggs and Sharon, San Antonio; Mr. and Mrs. Cyrus Humphry, Bill, James and Carl; Mr. and Mrs. Obie Staggs, Mary Clem and family, and Mr. and Mrs. R. T. Stephens, Levelland.

Also attending were Mr. and Mrs. Walter Crocker, Pleasant Hill; Mr. and Mrs. Fred Fahs-holtz and Mrs. W. C. Hapke, Clovis; Mr. and Mrs. R. A. Cassady, Bruce, Carrie and Teresa, Bovina; Mr. and Mrs. Jed Mills, Jal; Mr. and Mrs. Henry Fowler, Denver City; and Mr. and Mrs. W. T. Magness, Mr. and Mrs. Joe White, Lynn, Joyce and Peggy and O. B. Staggs from Farwell.

Functions Set By ESA Monday

October functions were planned for members of Theta Rho chapter of ESA when the group met Monday evening in the home of Mrs. Doyle Brooks in Clovis.

A breakfast to honor special guests was planned in the home of Mrs. Bert Williams, beginning at 8 o'clock in the morning. Mrs. Joe Helton will be hostess to a business session and program at the regular meeting time October 23.

A coffee will be held in the home of Mrs. W. H. Graham the afternoon of October 27 and an annual formal dinner is slated on regular meeting night, Nov. 13.

Committees for the functions were named by Mrs. Ted Magness, vice president, who is in charge of the planning.

Mrs. Joe Helton began distribution of candy which members will sell as a part of their money-making projects. Mrs. Helton also volunteered to check on prices for candy to be given by Santa Claus this year. Theta Rho sponsors the visit of the bearded gentlemen to the Twin Cities.

District meeting was announced for Nov. 5 in Portales. Mrs. Frank Pritchett also asked members to be her guests for a meal on Dec. 11.

Son Born To Roy Woodards

Welcoming the birth of a son in the Roosevelt General Hospital in Portales on October 3, were Mr. and Mrs. Roy Woodard. The new arrival, weighing 7 pounds 8 ounces at birth, was named Darrell Brent. Mrs. Woodard taught in the Farwell school system.

Grandparents are Mr. and Mrs. Henry Walker of Rogers and Mr. and Mrs. O. M. Woodard of Lovington.

Jerry Hills Are Parents

A boy, weighing 7 pounds 13 ounces, was born to Rev. and Mrs. Jerry Hill in a Tulsa hospital on September 22. The new arrival has been named Todd.

Grandparents are Mr. and Mrs. Elmer Teel of Texico and Rev. and Mrs. John Hill of Littlefield.

Engagement revealed At Sunday Luncheon

The engagement of their daughter, Mary Anne, to John M. Alexander Jr., son of Mrs. J.M. Alexander and the late John Max Alexander of Crane, was announced by Rev. and Mrs. W. H. Hardwick at a luncheon at their home in Crane Sunday. The Hardwicks are former residents of Farwell.

Guest for the social included Mrs. J. M. Alexander, Anne and Charlie; Mr. and Mrs. Don L. Chaney, Larry and Mike; Mr. and Mrs. G. H. Wilmoth, Mr. and Mrs. M. C. Brunette, Mrs. Lady Faye Galloway, Henry and David Hardwick, Joe Scott Alexander, Susie Hudson and Dr. and Mrs. M. Buren Stewart and Joe of Carlsbad.

The wedding will take place in the early spring at the First Methodist Church in Crane.

Illustrated Lecture Given 4-H Girls

An illustrated lecture on the accomplishments of the District 4-H camp held at Ceta Canyon in September was given by Ettie Musil when members of the Farwell girls' 4-H club met recently.

Miss Musil pointed out that mental, social, physical and spiritual development were all included in the camp program.

Reba Lesly, president of the club, brought the meeting to order, with the pledge and motto led by Viane Lesly.

Janis Billingsley called the roll, with members answering by giving suggestions for future programs. During the business meeting a planning committee was appointed to complete details for the club's Halloween party.

Following the meeting, indoor football was played by Janis Billingsley, Peggy Lesly, Susan Patrick, Kandy Meeks, Martha Coffey, Viane Lesly, Connie Dennis, Becky Terrell, Vicky Kaltwasser, Reba Lesly and Mary Coffey.

THE INDIANS ARE HERE!

from **Paymaster SEED FARMS**

- UTE A New Short Type
- COMANCHE Early Maturing
- APACHE Full Season
- KIOWA Medium-Early
- CHEYENNE Medium Maturing

The Plains are abuzz with the prospect of next season's plantings of Paymaster's newly announced hybrid sorghums—*The Indians*.

Seedmen were introduced recently to this complete line of closed-pedigree seeds developed by Paymaster Seed Farms at Plainview; these seeds are now released for sale on the Plains and elsewhere throughout the sorghum belt.

Farmers are expressing keen interest in them.

- **Five New Combine-Type Sorghum Hybrids.** These five Indians—Ute, Comanche, Apache, Kiowa and Cheyenne—have been bred, tested, developed and processed to give farmers a wide variety of performance choice. Each is adapted to special needs, soils, climates and maturity rates.
- **3 Little Indians.** This is a new kind of forage sorghum that is a blend of strains and varieties adapted to many soils and climates.
- **Sweet Sioux.** This is a sorgo x Sudangrass hybrid that provides an innovation in performance; increases in forage yields and grazing value up to 70% have been recorded in field tests.
- **Crop Guard.** This is the "workhorse" of the new line—a sterile seed that grows tall to protect young, tender vegetation from winds, and grows a useful forage crop as an added benefit.
- **And Cotton Planting Seeds, Too!** Paymaster's long-time research program in the development of cotton seeds has produced outstanding varieties—Paymaster "88-90" and Paymaster "101-A" and "54-B." Ask about them.

YOUR PAYMASTER SEED DEALER NOW HAS FULL DETAILS ON ALL THESE NEW SEEDS. SEE HIM TODAY—GET THE STORY—BOOK YOUR REQUIREMENTS.

LEGAL
THE STATE OF TEXAS

TO: C. B. Cushman and his wife, Mary Cushman; Fred W. Browne and his wife, Mary E. Browne; Thurston E. Walters and his unknown wife or wives; J. H. Drager and his unknown wife or wives; and should any of the above named parties be deceased, then of their unknown heirs, assigns, devisees and legal representatives; and all unknown claimants, and the unknown husband or husbands and unknown wife or wives of all of the above named parties defendants, Greeting:

appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A. M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 20th day of November 1961, at or before ten o'clock A. M. before the Honorable District Court of Parmer County, Texas, at the Court House of said County in Farwell, Texas.

Said Plaintiff's Petition was filed in said court, on the 2nd day of October A. D. 1961, in this cause, numbered 2235 on the docket of said court, and styled, CLARA E. DE JEAN, ET AL Plaintiffs, vs C. B. CUSHMAN, ET AL, Defendants.

The names of the parties to the cause are as follows: Clara E. De Jean, a single woman, Evelyn De Jean Dalton and her husband, Leroy C. Dalton, are Plaintiffs and C. B. Cushman and his wife, Mary Cushman, whose place of residence is unknown, and if deceased, then their unknown heirs, assigns, devisees, and legal representatives, all of whom are unknown and whose residences are unknown; Fred W. Browne and his wife, Mary E. Browne, whose place of residence is unknown, and if deceased, then their unknown heirs, assigns, devisees, and legal representatives, all of whom are unknown and whose residences are unknown; Thurston E. Walters, whose residence is unknown, and his unknown wife or wives, all of whom are unknown and whose residences are unknown and, if deceased, then his unknown heirs, assigns, devisees or legal representatives, all of whom are unknown and all of whose residences are unknown; J. H. Drager, whose place of residence is unknown, and his unknown wife or wives, all of whom are unknown and all of whose residences are unknown; and all of the unknown heirs, assigns, devisees and legal representatives of any and all of the aforesaid named parties who are deceased, the residences and addresses and whereabouts of each and all of the aforesaid named defendants being unknown; are Defendants.

(NE1/4) of Section 16, and all of the North half of the Northwest quarter (N1/2NW1/4) of Section 15, all in Block "C," Rhea Brothers Subdivision of Parmer County, Texas, as shown by plat of said subdivision of record in the Deed Record of Parmer Co., Texas, and that Defendants unlawfully entered thereon and ejected them therefrom and withheld possession thereof from them; and praying for judgment or title to and possession of said real property, and for writ of possession, and further claiming title by virtue of the five- and ten-year statutes of limitations, as is more fully shown

A brief statement of the nature of this suit is as follows, to wit:

Suit in trespass-to-try-title, Plaintiffs alleging that on or about the 1st day of August, A. D. 1961, they owned in fee simple and were in possession of

All of the Northeast quarter

"Pa," said the farmer's boy, "I want to go to college and learn to be a doctor. Think I'll study obstetrics."

"Likely you'll be wastin' your time, son. Soon as you can learn all about this obstetrics, somebody'll find a cure for it."

There is no fun in medicine but lots of medicine in fun.

JOTTIN'S
By Jeanne

Did you hear about the wife who complains that her husband drinks so much coffee during the day that at night he no longer snores -- he just lays there and perks.

And speaking of coffee drinking, it reminds me of a little essay that has been going the rounds lately. First, I might say that I like my coffee and if the husband ever sees fit to give me a salary for the little jobs I do around The Tribune, I hope he doesn't deduct my coffee expense. Incidentally, he does pay for my coffee.

Anyway, here's what one editor friend says about the national habit--the coffee break. Suppose you take 30 minutes for coffee. Of course, you start out with 15 minutes, but by the time you wash your hands, get to the door, wait for your friends, walk to the cafe, get served, drink the brew, finish

the conversation, stop at the cashier's desk, saunter back to work you have gone through 30 minutes at least.

Say you are paid \$1.50 per hour, a conservative figure. If you take off a half hour in the morning and another in the afternoon, you have used up \$7.40 for a five day week. If you work Saturdays, add another \$1.50 to make it \$9.00. This is wages for which you are not working.

Now, to carry on -- you do this 20 times a month at \$1.50 per throw and you come with \$30 that you get as a bonus from the payroll department. This times 12 months equals a yearly stipend of \$360 which represents the cost of coffee time for one person.

But that's not all. You spend 10 cents for a cup of coffee, or 20 cents a day. That makes \$4.00 for the month guzzling. At the end of the year, this amounts to \$48.00 that you can add to the \$360 in lost time.

Suppose you work for 20 years and retire. Holy Moses -- \$7,200.00 is what the boss paid you for drinking coffee and you plunked down \$960 to buy the juice of the bean.

Menu--

gravy, buttered peas, stuffed celery, biscuits, butter, chocolate chip cookies, milk.

FARWELL SCHOOL:
MONDAY--barbecue beef on bun, pork and beans, pickle and tomato slices, apricot cobbler, milk.
TUESDAY -- vegetable - beef soup, crackers, peanut butter sandwiches, date filled

cookies, milk.
WEDNESDAY -- hamburger bean casserole, spinach, tomato and lettuce salad, peaches, corn bread with butter, milk.
THURSDAY--hamburgers, potato chips, cheese slices, fruit salad, milk.
FRIDAY -- breaded veal cutlets, buttered potatoes, English pea salad, rolls, butter, honey, milk.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

This is the best bubble he has ever blown, big and shiny and full of rainbow lights that shimmer gaily as he blows . . . and blows . . . and blows . . .

Inevitably, there will come the moment, when he will blow too hard and the bubble will burst. And then what was a thing of bewitching beauty will have vanished into air.

Some of the brightest-appearing things in life are no more stable than bubbles. They can shatter in an instant. But there are values that endure . . . the kind of values we learn in Church. The Church can help us achieve something solid and real, and the faith it teaches us is in no danger of disappearing today . . . tomorrow . . . or ever.

THE HIGH PLAINS FARM AND HOME

Sedimentation Tests Confront Area Farmers

Parmer County wheat farmers may have to change their practices in order to maintain wheat income.

Starting with the 1962 wheat crop, premiums for quality, based on sedimentation tests, will be included as part of the

price support operation. The sedimentation scale will replace the protein scale used in the past.

The premiums, which will reflect the baking quality of wheat better than the current premiums do, are being included because of the need to encourage production of more high quality wheat, both for domestic use and for export.

The previous price support program provided premiums based on the quantity of protein in wheat offered by producers. However, protein content is not a reliable and conclusive gauge for identifying wheats capable of producing desirable bread flour.

The protein or gluten strength of wheat is the characteristic of wheat that when milled into flour and baked as bread results in a light loaf demanded by the retail trade.

Baking quality is related to wheat strength. And the strength of bread flour is measured by its ability to develop into a strong dough as the water and other constituents are mixed with the flour. The best bread flours can absorb a high percentage of water in making a dough.

The sedimentation test is a simple and rapid way to estimate the strength and quantity of wheat protein. It does not require elaborate milling equipment needed for bread-baking or mechanical dough testing. This test can be made at elevators and other points of delivery.

In making the sedimentation test, a crude white flour is first made by grinding and sieving about 200 grams of wheat, using prescribed equipment and procedures.

A small weighed portion of the flour is mixed with water and a lactic acid reagent in a glass cylinder. The cylinder is then allowed to stand for exactly five minutes.

The volume of the sediment in the cylinder is read in milliliters. The volume of the sediment depends largely on the quantity of gluten in the wheat and the extent to which the gluten is swollen (gluten quality). The test is thus a measure both of quantity and quality of gluten which are the principal factors involved in wheat strength.

Sedimentation values range from about 3 for very weak

wheat, up to about 70 for the strongest wheat. Wheats with a sedimentation value of 40 or more are preferred for flour for use in commercial bread baking.

Wheat with sedimentation values of 60 and over usually contains a protein content above 14 percent, is of superior gluten quality, has superior baking strength, and is suitable for mixing with weaker wheat for production of commercial bread flour.

Wheat varieties recommended for use in this area are Tascosa, Concho, Crockett, Bison, and Kaw. Tascosa has proved to be the most acceptable with irrigation, according to Prentice Mills, ASC office manager.

Other acceptable varieties are Comanche, Ponca, Aztec, Westar, Improved Triumph, Triumph, and Wichita.

School Lunch Program To Expand

More than 14 million of the expected record enrollment of 46 million children in the nation's schools will participate in the National School Lunch Program this year, reports the U. S. Department of Agriculture.

Last year, well over \$1 billion worth of foods, equipment and services were required to provide the 2.3 billion lunches consumed by the 13.5 million participating school children. Payment of this billion dollar lunch check comes from three basic sources -- roughly 60 per cent is paid by the children with the remaining cost about equally divided between state and local sources and the Federal Government.

The program, in its present form, began in 1945 when Congress passed the National School Lunch Act "to safeguard the health and well-being of the nation's children, and to encourage the domestic consumption of nutritious agricultural products."

When the new program got underway in the fall of 1946, less than one school child out of six was able to buy lunch at school. This year one out of three will eat lunch at school. Of the total lunches served, about one in 10 is served free to children who cannot afford to pay.

4-H Members Show Steers At State Fair

Parmer County will have four 4-H Club representatives at the State Fair in Dallas next week. Bobby Tomlinson, Farwell; Eddie Wood, Friona; Miss Darla Howell, Friona; and Kim Buske, Friona; will show their steers in the stock show.

They will leave Sunday to participate in events of Oct. 10-20. The three Herefords and one Angus will be shown Thursday at 8:30. Buske will show the Angus.

The steers will be released or auctioned off Oct. 20, at 9:30. Steers for this division must weigh between 800 and 1100 pounds.

They will be rated on the basis of the judges' estimation of the steers' cut-out value (the number and quality of lean cuts which the steer would produce).

NEWS FROM THE

FARM BUREAU

BY RAYMOND EULER

County Farm Bureau Officials are disappointed in the apparent complacency of the county organization. As much complaint as is heard on the street, at the elevators, barber shops and in government offices, it would seem that when an opportunity is given for farmers to voice their opinions so that they would have the strength of over 82 thousand other farmers united in Texas Farm Bureau and over a million and a half farmers in American Farm Bureau, they would take advantage of it. Such is not the case, and as everyone knows, the voices on the street corners do not change or accomplish anything. Confusion might be an exception.

However, Farm Bureau has successfully fought some of the shackling legislation and will continue to fight with some success. Actual participation would multiply the strength of the organization. Membership helps immensely, of course, but inactive members cannot be aware of problems when they arise, and individual support or opposition cannot be activated without knowledge.

Disregarding the poor attendance, the convention was good. Discussion of the subjects presented was good, and voting was apparently enthusiastic. One thing very evident throughout the meeting was that all those present believed that LESS and not more government control and intervention was needed in agriculture. This was, in fact, one of the resolutions unanimously approved. We are sure that this is one resolution that will have state and national approval in Farm Bureau. We have heard that some other organizations that have been taking the opposite view are finding much change of opinion among their membership.

Harry Hamilton, who has served as director and chairman of the legislative committee for several years was elected president for the coming year. He should be able to do a good job of directing the county organization from every angle. The new directors, James Norton, Dee Chitwood and Grady Nelson are all old members who are expected to serve well and intelligently. Vernon Symcox, who was re-elected has already proven his ability as a leader.

The Plains Irrigation Gas Users Association presented a resolution that received unanimous approval. If you are an irrigation farmer, we believe this organization merits your full support. You can give your support by contacting the banks or the county judge or any of the members. Bruce Parr is president, and Carl Schlenker is vice president in this county.

CONSIDER THIS: The wicked shall be a ransom for the righteous, and the transgressor for the upright. Proverbs 21:18

AND WE PUT AN EYE HERE . . . John Ensor, 1 1/2-year-old son of Mr. and Mrs. James Ensor, Oklahoma Lane, shows Stephanie Kelso, 1 1/2-year-old daughter of N. D. Kelso, the art of making a Jack-O-Lantern out of one of the thousands

of pumpkins in his father's field. Ensor planted 22 acres of pumpkins this year and has four varieties. They range in weight from an average of four pounds for the Sugar Pie to an average of 20 pounds for the Connecticut Field varieties.

Stripper Operation Affects Cotton Quality

The 1961 cotton harvest is now underway. Cotton harvesting in this area normally reaches its full peak around 10 days to 2 weeks after a killing frost.

County Agent Daryl Coker, estimates that as much as 70 to 85% of the county's cotton crop will be harvested this year with mechanical strippers. Coker further states that, with this much of the cotton crop being harvested with strippers, it is of the utmost importance that farmers keep in mind that it pays to operate the strippers in a good workmanlike manner to preserve the quality of the cotton.

The agent further stated that this will require good planning on the part of the farmers because, due to the bumper crop prospects, gin yards can be expected to be crowded and the round trip time on cotton trailers will at times be long and drawn out. The agent made the following statements as key points to keep in mind throughout the harvesting season:

1. Do not operate strippers too soon after frost or the use of desiccants. Allow ample time for all the leaves and leaf stalks (leaf petioles) to dry out completely before starting the strippers. Green leaves and leaf petioles will stain the cotton as it goes through the stripper and is loaded onto the trailer. Cotton stained in this manner can easily cost the farmer \$10 per bale in grade.

Proper timing of the harvesting operation is important. A drying period of 2 to 3 weeks after frost is needed to condition properly the cotton plants for stripper harvest. But with further delay plants deteriorate and broken stems and branches are gathered with the stripped cotton, which with weathering lowers fiber quality.

2. Don't start strippers too early in the morning following heavy dews or showers. Research has shown that harvesting cotton with too high a moisture content can cost the farmers \$10 to \$15 a bale in quality. Cotton gins best at a lint moisture content of about 7 1/2%. A good rule of thumb is to squeeze a few holes and if the cotton bounces back after

being squeezed it is, normally, dry enough to harvest. If the cotton stays in a ball after being squeezed in the hand, it will be too moist for good harvesting and ginning.

3. Provide ample trailer space for each bale of cotton. The USDA estimates that it takes up to 450 cubic feet of space for one bale of machine stripped cotton. To tramp and crush cotton into too small a space results in lower grade cotton. Evengins with the most elaborate and expensive systems cannot remove all of the small "pin and pepper" trash that is ground into seed cotton when it is tramped into the trailer.

4. Use separation devices on strippers such as blowers and green boll boxes. Throw the green bolls out on the turnrow and allow them to dry out and open before carrying them to the gin. Too many green bolls indicate that you are attempting to strip too soon after frost or desiccation. Use wood slatted or wire sided trailers. This will allow leaf and other trash to blow out of the trailer.

5. Keep strippers and trailers

clean. Do not over lubricate. Wipe off excess grease and keep the trailer beds free of dirt.

6. Keeping the strippers centered on the row and operating at the proper speed will help eliminate barmy cotton.

7. Keep a few tarpaulins on hand in case of rain or dust storms.

World's Greatest Nickel Source

The world's greatest source of nickel is the Sudbury District of Ontario. From this area, which is about 200 miles north of Toronto, comes more than 60 per cent of all the nickel produced by the free world.

Milo Is Fare At Luncheon

Bruce Parr, Friona, and more than 40 officers and guests of the Grain Sorghum Producers Assn. dined on grain sorghum muffins and steaks marbled with grain sorghum oil recently in a meeting hosted by Texas Tech. The noon luncheon, held at the Hickory Inn, was the scene of reports by Tech agricultural researchers on projects related to expansion of grain sorghum production and markets. Grain sorghums hold great promise for better nutrition in underdeveloped areas of South Asia and South America, Dr. Mina Lamb, nutritionist in the Home Economics School, reported. New markets for the sorghums will open if ways can be found to adapt sorghums to the eating habits of the peoples in underdeveloped lands, she said. Marbling of meats with sorghum oil is attracting attention of persons who are studying the possible relation between diet and heart disease, said Dr. Ralph Durham, animal husbandry department head who has led in development of the technique. Possible value of such marbling is in the substituting of oils for fats in diets of heart patients, he explained. Durham predicted that if artificial marbling of meats is widely accepted, consumer demands will cause animal production and market shifts that eventually will benefit grain sorghum producers. Officers and directors of the Grain Sorghum Producers Assn. toured the Tech Meats Laboratory building and new facilities on the Tech Farm before attending the luncheon. Tech Agriculture Dean Gerald Thomas received a large color photo of sorghum harvesting on the High Plains. The gift from the association was presented by President Frank Moore, Plainview.

Larger Quantities of Feed Grains Going Under Price Support

Farmers placed a total of 476 million bushels of corn under price support through February 28, nearly 100 million more than a year earlier and the largest on record for that period. This would indicate that the total for the loan period, which extends through May, will be above the previous record of 551 million bushels in 1948-49. In addition to new-crop corn under loan, farmers are holding about 220 million bushels of corn under the resale program from the 1956 to 1959 crops. On March 3, CCC available stocks totaled 1,416 million bushels of corn making a total of 2,112 million bushels under Government ownership or price support. Substantially larger quantities of oats, barley and sorghum grain were placed under price support in 1960-61 than a year earlier. The period when loans were available for these grains ended January 31. The 20.3 million bushels of oats placed under price support was more than double the 8.3 million a year earlier. Barley increased from 40.8 million last year to 49.6 million in 1960-61 and sorghum grain from 115 million to 203 million bushels. A total of 20.5 million tons of all feed grains had been placed under price support through February this year, 5.6 million tons more than in the same period of 1959-60. — The Feed Situation, U.S.D.A.

Grains: Price Support Activities as of February 28, 1960 and 1959 (All data in 1,000 bushels except grain sorghums in 1,000 cwt.)

Grain	1960 Crop		1959-crop resale	1960 Program		1956-crop re-extended resale
	Total put under support	Loans repaid		1958-crop extended resale	1957-crop re-extended resale

Guard Against Grain Insects

A large portion of Texas' 1961 grain crop is now in storage throughout the state. This represents a large investment on the part of many people, but in some instances this could turn into large losses if the storer is careless about insect damage, say C. F. Garner and R. L. Ridgway, extension entomologists. Proper care on the part of the storer can prevent such damage, however. Periodic inspections at about two-week intervals should be made to determine whether or not injurious insect infestations are present. By taking probe samples at various areas and depths, and then sifting the grain through 10 to 12 mesh screens, the owner can determine if insects are present. If one granary weevil, rice weevil or lesser grain borer, or as many as five insects of other species such as flour and grain beetles, cadelle or grain moths, are found per quart sample of grain, the storage bin should be fumigated, say the entomologists. Before fumigating the bin, the owner should remove any wasted grain that may have accumulated outside the structure. A recommended residual spray should then be applied to the outside walls and any other areas around the structure that may harbor insects. There are several precautions that should be taken before and during the fumigation process. All electrical equipment should be checked and any defective wiring repaired. No one should be allowed to smoke near the building or equipment during fumigation. Any hose used should be long enough to allow the equipment to be placed a safe distance away from the structure, and all hoses and connections should be checked for leaks. In most cases, especially if they are working inside the storage structure, the persons applying the fumigant should be equipped with proper gas masks. A mask with a full faceplate and a United States Bureau of Mines approved canister should be used. No canister should be used if it has had 30 minutes continuous exposure to the fumigant. Any fumigant that comes in contact with the user should be washed off immediately.

HD Agent's Notes

BY MISS ETTIE MUSIL

October 12 to 21 is National Apple Week. Can you think of any fruit that is so tasty and versatile as the apple. America's number one dessert is apple pie, plain with cheese, or a la mode. Fall shipments of apples will reach their peak in October, so we should be seeing a drop in price of apples. And this year's crop is estimated at 15 per cent more than last year. If you haven't come by for copies of our popular bulletins, you'll have to do so for the many recipes using apples. These bulletins are free, too. In the "Quick Meals" bulletin you'll have recipes for apple fluff, baked apples, cinnamon apples, and pineapple and apple crisp. Then to add sparkle and zest to a meal try tomato-apple chutney that you may can by directions in the "Pickles and Relishes" bulletin. Call or write and we'll be glad to send you these bulletins. Have you always admired your friends who could bake such delicious apple pies? Yes, and so many times you tried your luck with not so good apple pie. How about trying this pastry mix for never fail pie crust. This is the simplest of the mixes and one of the most popular. Sift flour once before measuring. Then measure and sift 8 cups flour and 2 teaspoons salt together. Blend in 2 1/2 cups shortening into the flour and salt until pieces are the size of small peas. This recipe makes eleven cups of mix. Store this mix in a covered container in a cool place. Use one cup of mix for each crust. Two cups should be used for a two crust pie, as apple pie. Add just enough iced water to hold dough together, about 2 tablespoons to each cup of mix. If lard is used, reduce fat to two cups. For good results pie dough should be handled as little and as lightly as possible. Use heavy cloth over board and a cloth covered rolling pin to prevent dough from sticking. Or roll dough between two sheets of wax paper. The main rule is not to get extra flour that will toughen the dough or streak it with flour. For apple pie filling pare 5 to 7 tart apples, slice thin. Mix 3/4 to 1 cup sugar, 2 tablespoons flour, 1/16 teaspoon or pinch of salt, and 1 teaspoon cinnamon, add over arranged apples. Dot with 2 tablespoons butter or margarine. Adjust top crust over bottom crust, seal, flute. Bake in hot oven, 450 degree F., for 10 minutes then in moderate oven 350 degrees about 40 minutes. This is, also, chow chow cooking time. With threats of frost all around us it's time to gather the green and ripe tomatoes. Last week I used my ripe tomatoes for a favorite chili sauce. This recipe is in the "Pickles and Relishes" bulletins. Several chow chow and relish recipes are in this bulletin for green tomatoes.

Farmers Can Register Trailers For \$5.00

The last regular session of the Texas Legislature amended the Texas Motor Vehicle Registration Law to allow farmers to register their farm trailers and farm semi-trailers for a \$5.00 fee providing the gross weight is not less than 4,000 or more than 10,000 pounds. Farm trailers weighing less than 4,000 pounds, gross weight, are still exempt from registration by statute. Those exceeding 10,000 pounds, gross weight, must register as a regular commercial trailer. Captain J. L. Miller, License and Weight Service of the Department of Public Safety, advised however that any vehicle bearing the \$5.00 plate must not: (1) exceed 30 MPH, (2) be operated for hire, (3) have steel or metal wheels in contact with the pavement and it must be equipped with an adequate hitch to remain secured to the towing vehicle and be operated and equipped in conformity with all other provisions of the law. Violation of any of the above sections of the law nullifies the \$5.00 registration fee and the trailer will be subject to the registration fees and penalties as prescribed by law. This does not change the existing law which requires that all trailers or semi-trailers having a registered or gross weight in excess of 3,000 pounds be equipped with clearance lamps, side marker lamps, and reflectors as well as a tail light and stop light, if the stop light on the towing vehicle is obscured. Captain Miller further stated that all machinery type vehicles, other than machinery used solely for the purpose of drilling water wells and road construction machinery, must now be registered with regular license plates and title applied for. This includes oil field drilling and servicing machinery, regardless of whether such machinery is a unit within itself or is mounted on a conventional vehicle or chassis. Water well drilling units and road construction maintenance equipment are required to have either the \$5.00 registration plate or a regular registration plate, depending upon how the equipment is used. Captain Miller suggested that anyone needing further information should contact their county tax assessor and collector.

WITH THE COUNTY AGENT

DERYL COKER

If you have barley and wheat on your farm and plan to graze both, plan to graze the barley first, for barley is not as vigorous in cold weather as wheat. Also, barley will freeze back if hit by real low temperature worse than wheat. Some farmers have put in demonstrations on wheat, and are planning to keep the results for next year. If you have a rate of fertilizer demonstration, or irrigations level's effect on fertilizer rates on wheat, I sure would like to work with you in obtaining the results. I would, also, like to congratulate Richard Chitwood in his winning the Santa Fe Award which is a scholarship and trip to the National 4-H Club Congress in Chicago. The Santa Fe Award is a very difficult award to win, it requires work in nearly all phases of 4-H Club Work. The competition in this awards program is one of the hardest in the State. We hope Richard has set an example to other 4-H members and prove that anything can be won if enough effort is applied. Proper management of the residues from the sorghum crop now being harvested can prove of great benefit to farmers of Farmer County, if managed in the right way. These sorghum residues if properly maintained on the surface throughout the critical part of the year will provide humus for the soil when plowed under next spring. This humus in the soil will keep the soil opened and allow moisture to penetrate faster. This will help to prevent a mud seal from being formed by hard rains, and, also, reduces washing problems. Sweeps or blade type implements are the best to work the soil with as they cut underneath and do not disturb the surface material so much. By no means should these stalks be burned.

Urge Kids To Stay In School

A "Back-to-Stay-in-School" campaign directed at high school and college students has been initiated by the U.S. Office of Education under the leadership of Dr. Sterling M. McMurrin, Commissioner of Education, it was announced today by J. H. Bond, Regional Director, Department of Health, Education, and Welfare, Region VII, of Dallas. The campaign will be a year-round effort. George D. Hann, recently appointed Office of Education Regional Representative in Dallas, will head the campaign in Region VII, Bond stated. Over 900,000 students dropped out of the Nation's schools last year, although 70 per cent had the ability to finish high school and probably go on to college. Since the drop-out rate will vary from one community to the next, the problem must be approached from that level. Dropping out of school has a number of implications for the student and the community. The student is restricting earning power substantially by dropping out of school. The community suffers when a student drops out of school, because this reduces the supply of trained manpower available to expanding business and industry. Hann suggests that officials of schools, local governments, employment agencies, business and industry can help by individually and collectively conducting a "Back-to-School" campaign. Did you know the bathtub was invented in 1850 and did you also know the telephone was invented in 1875? This probably doesn't mean much to you, but just think, if you were living in 1850, you could have sat in the bathtub for 25 years without the darn phone ringing.

Prices Steady As Numbers On Feed Up

Prices for both slaughter cattle and feeder cattle remained generally steady during September. The number of Fed Cattle marketed from the twenty-six feedlots reporting information to the "Texas Feedlot Report" declined during the month while the number of cattle placed on feed in these feedlots increased by 26 per cent. In the monthly summary for September, Lloyd Bergsma, Director of the Texas and Southwestern Cattle Raisers Association Cattle Feeders Division points out that although placements in Texas feedlots during September increased from the previous month, indications are that number on feed in Texas are below last year at this time. "The uncertainty of feed grain prices resulting from the government Feed Grain Program coupled with a narrow and sometimes negative margin between slaughter and feeder cattle prices has caused hesitation on the part of many feeders to purchase feeder cattle at this time," Bergsma said. There has been a significant increase in the percentage of calves being placed on feed in Texas feedlots. Feeders are attempting to improve their profit prospects through the feeding of calves which offer better feed conversion and result in a lighter weight finished carcass which have been in better demand in Texas Markets. Bergsma stated that he expects the available supply of feed beef from Texas feedlots to decline during the next 30 days. If the demand continues strong some increase in the price of fed cattle is expected. SHARKS had a busy season this last year. Thirty unprovoked attacks on humans were recorded, and there were 11 instances in which a shark was provoked and attacked. Most of the victims were fishermen; one was a skin diver who was bitten by a shark he had speared, and one lifeguard was knocked off a surf ski.

Farm Bureau Elects Officers At 13th County Convention

New officers were elected and appointed delegates to the state convention at the Farm Bureau County Convention in the Friona PCA office Thursday night.

Resolutions expressing the county bureau's stand concerning upcoming state and national legislation were acted upon following officers' and committees' reports. The resolutions will be presented by the delegates at the state convention.

The bureau last year supported five legislative bills which passed, six that failed to pass and opposed two bills, or parts of the bills that passed. Eight bills were opposed which did not pass.

Weed Committee Chairman J. T. Jones expressed his appre-

ciation to the "over 100 men" who helped the eight-man committee in its fight against blindweed in the county.

Over 5,000 pounds of weed poison was reported distributed along county roads and 132 sacks along state highways. Approximately 34 acres received weed sterilant applications, Jones reported.

Additional amounts of poison purchased through local stores and applied were not known but were estimated at an appreciable amount.

"When the weed committee was first formed (1954), we couldn't buy it (blindweed sterilant) anywhere in the county," Bruce Parr commented from the floor. "We had to get it from Hereford or some other such town." Parr was chairman of the committee when it was formed.

Following several nominations and rejection speeches from the floor, ballots were cast for 1962 chairman and directors.

Harry Hamilton was elected county president. Directors were: Dee Chitwood, Lazbuddie; James Norton, Bovina; Grady Nelson, south Friona; Vernon Symcox, Oklahoma Lane.

Symcox was the only member re-elected.

Resolutions which were passed by the 22 men and 10 women present at the convention are as follows:

NATIONAL BLOC VOTING. Be it resolved that Farmer County Farm Bureau opposes "bloc voting". That is, the casting of a vote on matters of concern to each member of a cooperative when the membership has not registered a consensus on the subject at hand. Bloc voting too often allows an organization to cast an influential vote, supposedly representing the desire of many members, when it is possible that the membership would have voted a majority in the opposite direction.

FARM LABOR-BRACEROS. Be it resolved that Farmer County Farm Bureau favors continuation of the Bracero program, but opposes regulations that tend to eliminate the advantage of using braceros.

DOMESTIC LABOR. We op-

pose regulations that would require registration of crew leaders.

WAGE AND HOUR. We oppose the application of Wage and Hour law for agricultural labor.

Be it resolved that Farmer County Farm Bureau opposes legislation proposed for providing Federal financed medical aid for the aged.

Be it resolved that Farmer County Farm Bureau favors less government intervention and control in agriculture.

The resolutions will be presented at the state convention in Galveston Nov. 12-15 as representing the wishes of the 510 members of the Farmer County bureau. The 1962 officers were also chosen to serve as state delegates.

New officers installed at the Farm Bureau county convention Thursday talk over plans for future activities with Herman Gerles, outgoing county chairman. Shown here are: James Norton, (left), Herman Gerles, Harry Hamilton, new county chairman, and Vernon Symcox.

Our Farms Beat Russ By 60%

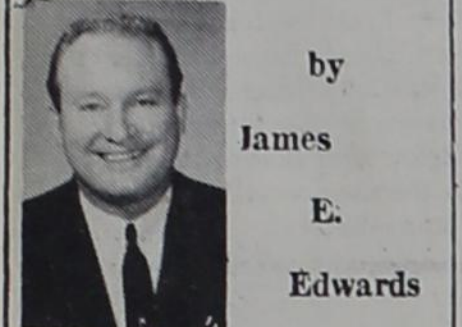

American farmers annually produce some 60 per cent more food and fiber than the Russians, even though the U.S.S.R. has three times as much land and eight times as many agricultural workers.

Secretary of Agriculture Orville L. Freeman, in an article in IMC WORLD, employee publication of International Minerals and Chemical Corporation, points to these figures as evidence of "unparalleled success story . . . which will attract hungry people even before the story of man in space."

Freeman writes that this is a "remarkable demonstration of the superiority of private, versus State agriculture" within Russia itself.

He reveals that although less than five per cent of Russia's tilled acreage is privately owned, this private agriculture produced 65 per cent of Russia's potatoes, 82 per cent of its eggs, and 50 per cent of its green vegetables.

FOOTSAVING EDUCATION

by James E. Edwards

Why do we cling to the idea of supporting babies' feet and ankles?

It is a natural error. A home economist told me that more than half of the housewives who use electric dishwashers wipe the dishes before they put them away. The dishes are clean and sterile but, after years of wiping dishes, it is natural to assume that a little work on our part will make them cleaner. Actually, the dish towel is less likely to germ-free than the washed dishes.

The extra work of lacing up high shoes gives the performer of the task a "virtuous" feeling but the exercise will benefit the wrist and the finger muscles of the lacer rather than the foot and ankle muscles of the infant.

The foregoing applies to normal feet and does not apply to the Orthopedic cases which require braces or other corrective devices.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Homemakers who enjoy working with flowers and flower arrangements will probably be interested in a new product which is now on the market. This product is known as "Flower-Dri."

One of the ingredients is silica gel, an industrial chemical used in baby powders and for the preservation of dry freshness in foods and pharmaceutical preparations.

This product is available at department stores, florists, garden supply and chain stores including supermarkets. Although it isn't very expensive Flower-Dri retains its usefulness indefinitely. It is a special blend of silica gel and is an admixture of blue and white particles. When it becomes saturated with moisture from the flowers, it turns entirely white and is then reactivated by baking in an oven, until the blue returns.

The method developed for drying flowers takes advantage of the affinity of the silica gel for moisture. In about a week of contact with the chemical, moisture is almost completely removed from the flowers, leaving their appearance unchanged and preserving them for months.

This unique way of drying flowers, is simple to follow and keeps flowers as fresh looking and colorful as when first picked.

Step one--Cover the bottom of any sealable container with "Flower-Dri" to a depth of two inches. Insert short-stemmed fresh flowers. Cover with "Flower-Dri."

Step two--Cover container and seal with tape. Put away for one week in a place where the containers will not be disturbed.

Step three--after flowers have dried, remove from "Flower-Dri" carefully. Make stems from florist wire, wrapped with green floral tape.

Step four--Your dry flowers retain the color and fresh appearance of new flowers in bloom and can be arranged the same way. They will last this way for months and months.

Looking for something easy yet different to serve for refreshments on the porch or patio? Try these Walnut Drop Cookies, made with sweet cooking chocolate, and dress up with a glaze that's made simple, by melting another package of the sweet chocolate and spreading it over the cookies while they are still warm. To go with the cookies served cool refreshing iced tea or coffee.

- WALNUT DROP COOKIES**
2 packages (1/4 pound each) Baker's German Chocolate
2 cups sifted flour
1/2 teaspoon soda
1/2 teaspoon salt
3/4 cup butter or other shortening
3/4 cup sugar
2 eggs, unbeaten
1/2 teaspoon vanilla
1/2 cup chopped walnuts

Place 1 package chocolate in small bowl and set over hot water until melted; cool. Measure sifted flour, add soda and salt, and sift together. Cream shortening, add sugar gradually, and cream together until light and fluffy.

Add eggs and beat well. Add melted chocolate; blend. Then add flour and mix well. Add vanilla and nuts. Drop from teaspoon on greased baking sheet. Bake in moderate oven 10 to 12 minutes. Meanwhile, melt remaining package of chocolate. Spread on warm cookies. Makes about 4 dozen cookies.

Since this is National Fire Prevention Week, it is a good time to remind homemakers that a lot of fires around the home can be prevented if proper precautions are taken.

Do you replace frayed cords on electric appliances? Do you keep your attic and other storage places free from articles which can become fire hazards? Do you always keep sharp and breakable objects out of reach of small children? These are just a few of the things that all of us should do to make our homes fire proof and accident proof. Fires and accidents are two things that we should be constantly on the alert for.

If you find your breakfast menus hard to vary, try including the following recipe in your collection. Whether you prefer ham, sausage or crisp bacon, you will always enjoy

- APPLE PANCAKES**
1 1/2 cups pancake mix
1 tablespoon granulated sugar
1/2 teaspoon cinnamon
1 egg, well beaten
1 cup milk (at room temperature)
1/4 cup butter or margarine, melted
1 cup finely chopped apple
To pancake mix, add sugar and cinnamon; mix lightly. Combine egg, milk, shortening and apples. Add to pancake mixture, beating until smooth. Bake on hot greased griddle, turning only once.
- Serve hot with butter and your favorite pancake syrup. Makes about 16 four-inch pancakes.

STRENGTH FOR THESE DAYS
from The Bible

For Thou art my hope, O Lord God; Thou art my trust from my youth.

—(Psalm 71:5)

In the vigor of youth, one inclines to assume that his strength will overcome all obstacles and insure success, without any other help. But how joyous and useful life will become when youth realizes the need of the love of God, and His guidance and His help, which are so freely given.

HD Agent Demonstrates Cake Making, Decorating

"Can you tell the difference between a home cake and a cake made from a mix?" This is a question trained leaders will be asking in all home demonstration clubs in the county during October club meetings.

Sixteen volunteer leaders were trained in the program "Cake Making and Decorating" in a meeting conducted Tuesday morning, September 26 in the home of the county home demonstration agent, Miss Ette Musil.

The secret of successful cake baking varies in different altitudes of 3000, 5000, and 7000 feet. There is a difference in proportions of baking powder, sugar, and milk for these altitudes. For all altitudes the right pans are very important. If homemakers do not have pans of the size given in the

recipe, they should choose one of the same depth, and as nearly as possible of the same area.

Cost and time comparisons of the two cakes were made during the training. A difference of one penny was made between the cost of the commercial mix and home kitchen ingredients. However, the commercial frosting mix cost twelve cents more than home mix.

Leaders who will present more information in club demonstrations are: Mrs. Roy Miller, Mrs. J. B. Williams, Mrs. Walter Cunningham, Mrs. Buck Fallwell, Mrs. Ralph Broyles, Mrs. Luella White, Mrs. R. L. Foerster, Mrs. Elmo Dean, Mrs. A. L. Reznik, Mrs. John Hand, Mrs. Walter Schueler, Mrs. Cecil Dykes, Mrs. Harold Travis, Mrs. Keith Brook, Mrs. Bill Carthel, and Mrs. Beryl Fish, Visitor was Mrs. C. C. Christian.

Still At Work On Depletion

One more step was taken this month toward a long-sought goal—the goal is a federal income-tax deduction for the depletion of underground water within the High Plains Under-ground Water Conservation District.

A pre-trial hearing was held in the U. S. District Court in Amarillo, September 25, before Judge Joseph B. Dooley as a prelude to the full-fledged trial which has been scheduled by the Court for January 3 in Lubbock.

The purpose of the pre-trial hearing was to establish agreement between the attorneys and the Court concerning procedures to be followed in the trial and to agree upon certain stipulated facts pertinent to the case.

Marvin and Mildred Shurbet, a farm couple who reside in southwest Floyd County, filed this most-important legal suit against the Internal Revenue Service. Mr. Shurbet is a former member of the Board of Directors of the High Plains Water District.

The Shurbets contend that property owners who can establish an actual cost in the underground water beneath their land and who are using the water to produce income should be entitled to deduct this cost on their tax returns as

the water is exhausted.

The trial of this case will culminate seven years of diligent work by the High Plains Water District.

In 1954, the first of two requests was submitted to the Internal Revenue Service. These requests asked the IRS to consider underground water in the High Plains Water District as a depletable natural resource under existing federal tax laws, thereby making landowners in this area eligible for a tax deduction as depletion takes place.

These requests were submitted to the Internal Revenue Service, but were disallowed. It was determined that the only other feasible means of gaining the tax-deduction was through the courts.

Dear Mr. Farm Owner:

Here are a few good reasons for borrowing money. Do you want to build a new home? Perhaps you need underground irrigation tile to conserve water and increase your yield. Or maybe you would like to buy more property.

These are major projects and few of us have the capital to finance them without borrowing money.

We would like the opportunity to discuss a long term low interest rate farm loan with you. We will loan the maximum on your farm, you pay no brokerage or appraisal fees.

If I may be of help to you on arranging a loan or assisting you on your real estate to buy or to sell, please do not hesitate to call me.

Very truly yours,

BOB SUDDERTH REAL ESTATE

Uncle Ray's "Hot Air"

Some men would look more spick if they didn't have so much span.

The average man's idea of a good sermon is one that goes over his head and hits a neighbor.

Women are like pin-wheels; you don't have to understand them to enjoy watching them.

Always ready - always open - always the best busy, at the little store with the big desire.

"SERVING
PARMER COUNTY FARMERS
THE YEAR 'ROUND"

Introducing the style of the year is getting to be a habit with Pontiac!

One right after another, the Wide-Tracks have introduced the style that's been the year's most looked at and longed for. And along comes the '62 with the kind of freshness and fineness that only Pontiac comes up with. New length. New twin-scoop grille. A crisp, low silhouette. Cleanly curving taillights. You don't have to look twice to tell a '62 Pontiac! And you only have to drive it once to know that nothing else will do for you. Why not take the wheel and go Wide-Tracking soon!

The '62 Wide-Tracks are here!
