

BY HOP JR.

# Teachers Get Raise, Budget Hiked

With the passage of a teacher pay raise bill by the state legislature last week, the proposed school budget for Farwell this year has been increased by \$28,000.

The original budget, \$250,000, had never been approved by the school board, pending action by the legislature on the pay raise, and the new budget \$278,980, will probably be approved at the September meeting, says W. M. Roberts, school superintendent.

The pay raises which will be in effect this year are \$810 for all classroom teachers, and increases ranging from 8 to 25 per cent for vocational teachers and administrators.

The school superintendent will receive a \$1,700 increase and the high school principal will receive a \$2,000 increase. The vocational ag teachers pay raise will be \$900 and the home economics teacher's salary will be hiked \$1,080.

Pay increases for administrators and vocational teachers were based on years of service and degrees held by the individuals, Roberts says.

Under the new pay raise bill, the state will pay 80 per cent of the cost and the local district will pay 20 per cent. On this basis, cost of the increased expenditures from local revenue will be \$7,700, Roberts says.

The pay raises will not necessitate an increase in the tax rate this year, the superintendent points out, but the school may have to operate a little in the red.

Roberts estimates that the deficit this year will be about \$6,000, depending on whether or

not the school has to hire any additional teachers after school starts. "We're figuring on at least one additional teacher, and maybe two," Roberts says.

Because of an increase in average daily attendance last year, the school will be receiving state support on two more teachers than last year. However, as school opens, there will be two less teachers in the school system than there were last year.

Whether or not the 30 teachers now on the faculty will be adequate or not will depend on the enrollment. "We may have to hire an extra teacher for both the first and second grades," Roberts says.

One thing that could alter the local financial picture some is the property valuation for this year. The exact valuation won't be known until the tax rolls are completed in September.

Last year's valuation in the school district was \$7,128,000. Roberts, on estimating the proposed income for this year, figures the valuation at \$7,200,000. "That was a conservative estimate, and I'm sure it will be higher than that," Roberts says.

Based on the \$7,200,000 valuation estimate, the \$2.01 tax rate will produce revenue totaling about \$144,720. Total estimated revenue, from state, county, and other sources is \$277,751--about \$1,000 under the proposed budget.

Following is a complete list of the proposed expenditures for the coming year:

ADMINISTRATION--superintendent's salary, \$10,905; secretary's salary, \$2,400; tax office

salary, \$1,681; contracted services, \$600; and other expense, \$1,800. Total--\$17,386.

INSTRUCTION--salaries, \$156,600; textbooks, \$100; library and audio-visual supplies, \$1,500; teaching supplies, \$2,400; other expense, \$7,000. Total \$167,600.

HEALTH SERVICES--school nurse salary, \$4,662; other expense, \$100. Total--\$4,762.

TRANSPORTATION--salaries, \$7,260; insurance, \$450; maintenance and operation, \$6,400. Total--\$14,110.

PLANT OPERATION--salaries, \$8,622; heat, \$2,400; other utilities, \$5,000; supplies, \$3,000; other expense, \$1,500. Total--\$20,522.

PLANT MAINTENANCE--supplies and other expense, \$4,000. Total--\$4,000.

FIXED CHARGES--insurance, \$8,500.

CAPITAL OUTLAY--furniture and equipment, \$2,000.

DEBT SERVICE--retirement of serial bonds, \$21,106; retirement of short term loans, \$7,700; interest on bonds, \$17,565; interest on short term loans, \$414; other debt service, \$500. Total--\$47,285.

Estimated revenue is as follows:

LOCAL SOURCES--local maintenance taxes, \$108,000; debt service taxes, \$36,720; rent, \$960. Total, \$145,680.

COUNTY SOURCES--county available fund, \$2,400.

STATE SOURCES--per capita, \$43,860; salary and operation allotment, \$64,494; transportation allotment, \$18,667; vocational education, \$1,300; NDEA, \$600. Total--\$128,921.

NEW STREET SIGNS were installed at every intersection in Farwell this week by volunteer workers of the Chamber of Commerce. The street signs were purchased jointly by the Chamber and the City of Farwell. These larger signs should make it easier for out-of-towners as well as local residents to find their way to any given place in the city.

Through the years, I have become increasingly convinced that people (and that includes the author) are unnecessarily --and also unwisely--giving too much attention to who we are . . . instead of WHAT we are.

We are stationer status seekers, and our aim is to rise in the esteem of our fellow human beings. To achieve this, we resort to an interesting array of ways and means, not all of which are honest. We often attempt to build character and reputation and authority on half-truths, because the unvarnished truths about ourselves would not stand alone.

One of the interesting by-products of this psychological war that we constantly wage in our own interests is snobbery. The social snob is the standard example, but it is certainly not the only one.

Snobbery at church, snobbery in business, and even snobbery in politics and education all seem to have their distinct and separate characteristics. All have a common root in the basic self-serving drives that inhabit all of us. If we do not subdue or control these drives we can become very ugly persons.

I frequently have my sights lifted by others. Surprisingly, I get about as much help from the people I consider to be "under" me as "over" me. The shy, teen-age boy who plods ahead in his school studies and works at a low-paying job 44 hours a week to help support a family bereft of mother and father is just as big a lift to me as the humble corporation president who presides over the affairs of a multi-million dollar business in the office, but on the street or in his back yard is an every-day Joe, considering himself on the same plane as anybody else.

I believe that as a group, the nastiest people I know are the up-and-comers. In this category are the folks who have had a smattering of success and it has gone to their heads. They attach a tremendous amount of importance to themselves, and in their rush to climb higher they don't mind stepping on a few necks to get there if it suits convenience.

From this group you will be able to pick out the back-biters, the apple polishers, the brag-garts, the loud talkers, and the nose looker-downers.

They aren't all grown ups, either. You find the same types among teen-agers. Who is there who hasn't been disgusted at the sight of a high school athlete, heady with compliments from the fans, whose face wears the smug look of a boy who thinks he really is somebody? No, the curse of the Big I respects neither sex nor age. Anyone can be afflicted.

Through a mixup, I became acquainted with a woman clerk in a Muleshoe business recently. I had called the firm on the phone and she had taken the message. I had made a request that she arrange to leave an item from the store at an all-night location where I could pick it up, since it would be impossible for me to get there before store closing hours.

In fact, I didn't get there at all that night, but very early the next morning called at the lobby of a small hotel where the package was to have been left. It was not there. I hated to do it, but there seemed no choice as it was necessary for me to get the item, so I called the lady's home (the hotel clerk knew her) to ask what had happened.

When the woman realized who it was, she began to apologize over and over. The store had an extra-heavy run of business the previous evening and in the press of activity she had forgotten to do me the favor. She was terribly embarrassed.

She lived seven miles in the country, but was in town to help me within about fifteen minutes. It was apparent she was a sincere and conscientious person. It developed that we had some common acquaintances and in the conversation she told me she was a widow and has just completed seeing her two grown children through college.

To make a long story short, I was very impressed with her character and her genuine desire to serve and serve cheerfully. The determination that she showed in her personal life against heavy odds did not manifest itself in her everyday life. You would not know, unless

RECEIVING DISTINGUISHED SERVICE AWARD of the Vocational Agriculture Teachers Association of Texas is Robert "Prof" Morton of Farwell. The award is being presented by Wilbert H. Meischen of Raymondville, president of Association. Morton was recognized for having completed 20 years of service as a vocational ag teacher. The presentation was made last week during the four-day conference of the association held in Austin.

## More Timely Moisture Boosts Crop Prospects

Timely rains throughout the Texico-Farwell area this week was another boost to what was already one of the brightest crop outlooks in history.

The heaviest amounts of moisture were received in showers Tuesday night and Wednesday afternoon, and in almost all of the Twin City region received from two to better than three inches of rain.

More than three inches of rain was reported six miles north of Texico-Farwell, with most of it coming during a steady down-

pour which swept through the heart of Curry and Parmer counties late Wednesday afternoon. About a half an inch had been recorded the night before.

The Twin Cities received 1.3 inches of rain Tuesday night and another inch Wednesday. The West Camp area reportedly received about three inches since last Friday, and about 3 1/2 inches was reported at Lariat.

Up until the rain hit, irrigation wells were running around the clock as farmers were

## Dial Named Top Back, Plays With Sodbusters

Benjy Dial, who was named the outstanding back in last Saturday's Greenbelt Bowl football game at Childress, this week has joined the Sodbusters in preparation for the annual Panhandle Grid Classic Saturday night in Amarillo.

The talented Farwell quarterback, who guided the Steers to two successful football seasons while in high school, has been named a captain and is a probable starter for the Sod-

busters who will play the City Slickers at 8 p.m. in Price College stadium.

The Sodbusters are made up of players from Classes AA, A and B throughout the Panhandle, and the City Slickers are made up of players from Classes AAAA and AAA.

Dial was nursing a leg injury during the first workout of the Sodbusters Monday, but by Tuesday he was in action and should be in tip-top shape

by kickoff time Saturday.

In Saturday night's Greenbelt Bowl game, Dial quarterbacked

ACTION A-PLENTY is what one will find at Farwell Steer stadium each morning and evening. Workouts got underway Monday and these pictures help to illustrate part of what's going on. In

the picture at left, Quarterback Leon Lovelace heaves a long downfield pass, and in the picture at far right, End David Londop gets ready to attempt a catch as a defender tries to give him a hard time. The picture in the center shows

some leather poppin' as offensive linemen try to open a hole in a defensive line for a hard-driving back. The footballers were working out barefooted to protect the turf, which had received a good soaking from a rain the night before.

## It's That Time Again!

### Farwell Registers Thursday

Registration for classes in the Farwell high school will get underway Thursday, August 24, with seniors registering at 9:00, juniors at 10:30, sophomores at 1:00 and freshmen at 3:00.

Junior high students will enroll on the same day, with eighth graders reporting to the junior high school building at 9:00 and seventh grade pupils registering at 1:00.

All students from grades one through six will be enrolled on the first day of school, August 28.

Principal A. E. Tatum asks that all students be sure and have a pencil. A general faculty meeting will be held on August 23 at 10 a.m., with faculty members meeting with the high school, junior high and elementary principals in charge.

School lunches for grade 1 through 5 will be 30 cents this year, or \$1.50 a week and \$6.00 per month.

The school superintendent says that there will be an en-

DONNA KAY OSBORN

### Miss Osborn In Contest

Miss Donna Kay Osborn of Texico has been entered in the annual Wheatheart of the Nation beauty contest at Perryton, and will compete with 32 other beauties for the coveted title and crown.

The contest will be staged in Perryton on Saturday, August 19, as a highlight of the annual Perryton Celebration.

The 1961 Wheatheart of the Nation receives an all expense paid trip to Eastern Canada and the Canadian National Exhibition in Toronto, Canada from the sponsoring Perryton Chamber of Commerce as first prize. She will be chaperoned on her trip to the CNE and other points of interest.

Special recognition, including nation television appearances and public appearances at the Canadian National Exhibition is

(Continued on Page 8)

### School Opens Wednesday

With the hiring of a band director and first grade teacher last week, the Texico faculty is complete, and ready for the opening of school on August 23.

Registration for all classes in the Texico school will take place on August 22 beginning at 9 a.m. according to J. Buck Doran, superintendent.

A teachers conference will take place on the same day, with school beginning on Wednesday, August 23.

Harold R. Barnett, an experienced director with a BS degree in music education from the University of Missouri and an MA degree in education from West Texas State College in Canyon, has been hired to replace Fred Danforth, former director who resigned recently.

Barnett is married and is the father of six children, John, who is in the Navy and stationed in Cuba; a married daughter, Kathy, who lives in Sulphur Springs, Ark.; Janice, who will be in college this fall; David, a high school freshman; Ginny, a fifth grader; and Matt, age 4.

He is a member of the Christian Church, a Mason, and a member of the State and National Educational and musical organizations, including Phi Mu Alpha Sinfonia and Kappa Kappa Psi.

Mr. Barnett had done graduate work at the University of

### Football Meet Tonight

Another meeting of persons interested in organizing a Pee Wee football team is scheduled for tonight at 7:30 in the fire-boys building.

Already 17 boys have signed up to play with the team, and others interested are asked to be at the meeting tonight, with their parents.

The Texico-Farwell Lions Club Monday night helped to get the program under way by donating \$100 to finance the team. In all, about \$500 will be needed to buy the necessary equipment and get the program underway.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

## Miss Ann Hale Shower Honoree

Miss Ann Hale, bride-elect of Johnny Hammitt was feted with a get-acquainted bridal shower Tuesday evening at the Texico Baptist Church.

Hostesses were Mesdames Tena Roth, F. S. Thigpen, J. O. Morris, Jesse Hicks, Harry Sheets, E. W. Sheets and J. T. Lockhart.

A blue cloth overlaid with white lace was used on the serving table. Two miniature hands holding blue flowers and surrounded by flowers were placed in a low white bowl to form the centerpiece. Blue tapers in white holders flanked the arrangement, and blue and white

napkins helped to carry out the bride-elect's chosen colors.

Individual squares of white cake iced in blue were served along with punch and nuts to guests.

A bride doll was used for the centerpiece on the gift table which was also laid with white lace cloth over blue.

Betty Lockhart played soft background music during the evening, and accompanied Misses Jean Hicks and Judy Sharp as they sang "Whither Thou Goest." Mrs. Tena Roth directed games.

Attending the social event were Mesdames F. S. Thigpen, Tena Roth, J. O. Morris, Jess Hicks, Ted Sheets, Harry Sheets, J. T. Lockhart, G. B. Taylor, Russell Johnson, Pat Webb, Ruth Reid, Jack Watts, Frank Doshier and the bride-elect's mother, Mrs. Guy Ralston.

Also attending were Misses Carmalita Doshier, Pauline Taylor, Jean Hicks, Judy Sharp and Betty Lockhart.

Auxiliary Host

"Back To School"

Coffee Thursday

A "back to school" coffee honoring women teachers of the Texico faculty was held Thursday morning in the home of Mrs. F. S. Thigpen in Texico. Women of the Texico Fire Department Auxiliary were hostesses for the social.

Pink, white and orchid dahlias arranged in a white milk glass bowl were used as a centerpiece on the lace covered serving table. The cloth, belonging to Mrs. John Adams, was brought to her from Puerto Rico by her husband who has been attending a summer institute there. Coffee, cookies and sweet rolls were served, and white napkins with the words "Texico

## "Ma" Snodgrass Visits 13 Countries

After visiting 13 countries in the past weeks, and viewing places that she had often read about, Mrs. Alice Snodgrass views her first plane trip as the most exciting portion of her adventure. Not only did she travel by plane, she traveled by super jet. Asked if she didn't have "cold feet" at the prospect of flying after 78 years on the ground, she says "It was too late to get scared."

"Ma" as Mrs. Snodgrass is affectionately known in the Oklahoma Lane community and among her friends, was a member of a summer odyssey to the lands of the Bible from June 8 to July 16. Her travels took her to Spain, Italy, Greece, Egypt, Mt. Sinai, Lebanon, Syria, Jerusalem and Israel, also Switzerland, Germany, Holland, France and England. She returned to Bovina and Farmer County August 6.

As for jet travel, the 78-year-old woman, remembers that it was just like being in the living room.

Museums and art galleries were on the agenda for four members in Spain, with the Palace-Monastery of King Phillip II on the itinerary. Mrs. Snodgrass missed the bull fights, purposely.

From Spain, the group traveled to Rome, Italy where a full day was spent seeing the Coliseum, the Forums, House

### Spurlins To Observe 50th Anniversary

Friends and relatives of Mr. and Mrs. Jerry Spurlin of Texico are invited to attend a golden wedding anniversary celebration at the couple's home in Texico on September 2, from 2 to 5 p.m. (MST).

Children of the couple, Mrs. Val Baumgart and Mrs. Jack Chambliss of Clovis and the Rev. J. J. Spurlin of El Paso, will be hosts.

Fire Department" embossed in red were used.

Bouquets of purple, yellow, red and white dahlias were placed throughout the room.

Attending besides the hostesses were Mesdames B. A. Rogers, N. W. Peyton, Avis Patterson, Lil Allman, Johnny Green, Leroy Faville and C. B. Stockton.

of Nero, Mamertine Prison, Applan Way, Catacombs, the Pantheon, Hadrian's Tomb, Trevi Fountain and other tourist attractions. The 34 members of the tour flew to Athens, to visit the monuments of ancient Greece and the National Archaeological Museum which is filled with treasures from past centuries.

With Mrs. Snodgrass was her son and family, Rev. and Mrs. Gene Snodgrass and three children of West Irvine, Kentucky and Mrs. Lily Trostle of Shamrock. Mrs. Trostle is the mother of Mrs. Gene Snodgrass. "We got lots of attention," laughs Mrs. Snodgrass, as she notes that their group was the largest family group on the tour.

Not missing any of the fun, Mrs. Snodgrass tried her luck at camel riding while in Cairo, Egypt, but she adds that she only rode a short distance. The travelers stayed at a place on the banks of the Nile. Mrs. Snodgrass was amazed at the noise. With the mingling of car honking horns and the tinkle of the donkey bells, it was "really noisy," she adds. People sleep along the edge of the Nile, she says, and carts bring in vegetables early in the morning. To the observer, it seems that there are no regulations for automobiles, "cars just go everywhere." "I didn't see anyone get run over though," she adds, as she ponders that problem.

Seeing the pyramids was the highlight of this part of the trip, but Mrs. Snodgrass doesn't feel that they are as pretty as the pictures she has seen. The largest pyramid which the group visited, covered 13 acres.

A four-day trip took the visitors into the desert and mountains to Mt. Sinai. They drove over the desert highway to the Suez Canal and crossed the canal to Abou Zeneima on the shores of the Red Sea. They visited the Mount of Moses where Moses received the laws to govern the wandering tribes of Israel. The tour followed the path that Moses took to lead the children of Israel.

They stayed at the foot of Mt. Sinai in a monastery. Mrs. Snodgrass describes the land as "not what I expected." She explains that it was much more desolate than she would have thought--a land of sand and rocks and high mountains.

"I could see why one would need the cloud by day and the fire by night," she continues. She adds that she can also see

why the children of Israel "grumbled" while in the wilderness.

At Beirut, Lebanon, some of the members went swimming in the Mediterranean. After an afternoon of leisure, next stop was Damascus, where they saw the Roman Ruins and the Temple of Jupiter Baal. While in Syria, they saw places of Biblical fame and visited the bazaars and shops.

After leaving Italy, travelers noticed the terrific heat. Asked about air conditioning, Mrs. Snodgrass says "I don't think they know what it is." But she says they got used to the climate. Too, they learned that iced tea and ice water are not served in most other countries.

Exploring old ruins was planned at Amman, the capital of Jordan, and they drove across the River Jordan and along the shores of the Dead Sea. They visited the House of Mary and Martha and the Tomb of Lazarus and stayed at a hotel in Arab Jerusalem. After a morning worship, the group went to Mount of Olives and the Garden of Gethsemane. They followed the path of Jesus on the night of his betrayal, according to the tour program.

They drove to Samaria to Jacob's Well and other Biblical spots, and spent an afternoon in Bethlehem.

Leaving Jordan, they traveled through No Man's Land. The Jordan side is hilly and rather bare and the Israel side is more attractive and productive, Mrs. Snodgrass says. It was here that she could see the blending of the old and the new. It was also here that there were many beggars and people who were in need.

After leaving Israel, the travelers went to Switzerland, the most beautiful spot, with the most beautiful flowers and the most attractive parks. Highlight in Frankfurt, Germany was a trip down the Rhine by steamer. Germany reminded the local woman of home. In Amsterdam, Holland, she didn't see many wooden shoes, but she saw many beautiful roses. In fact, most of the gardens were designed in patterns which were not only beautiful, but artistic.

Paris wasn't as impressive for the slightly weary traveler, who saw so many churches that were so much alike, that she couldn't tell one from the other. They visited many of the places and of course, saw the Eiffel Tower, Arc de Triomphe and

other well advertised places. In London, it was raining. But they saw the Changing of the Guard at Buckingham Palace, and visited Westminster Abbey and Tower of London. They spent one day in the country and Mrs. Snodgrass describes it as "peaceful English countryside" as one would picture it.

Visiting 13 countries was fun, but Mrs. Snodgrass enjoyed the touch with home. She received 50 wonderful letters, and has learned of two that were written which she didn't receive.

She enjoyed the chance to try foreign foods, and admits that some of the foods were too oily for her taste, especially in Italy and Spain. The service was excellent, in fact, she comments, "people seem to care more for the service than the food." But she enjoyed the attention.

Asked if she is tired of traveling after such a busy summer, the energetic "Ma" exclaims, "No, I plan to go to a family reunion in Childress Sept. 10."

MRS. ANNE OVERSTREET

## Party Surprises Mrs. Overstreet

Mrs. Anne Overstreet, pioneer Farwell woman, was surprised with an informal party Thursday afternoon when a group of her friends met in the home of Mrs. W. H. Graham Jr. to note the birthday of the honoree. Assisting Mrs. Graham were Mrs. Ruby Dixon and Mrs. F. J. Park.

The lace-covered serving table was centered with a

figurine of a madonna and child standing amid an arrangement of giant orchid floating dahlias. White tapers in pink colonial holders flanked the floral design.

Crystal and silver appointments were used with pink, orchid and white as a color motif. The birthday cake was designed to resemble an open book and was inscribed with the words "Memory Book - Mrs. Overstreet" in pink script. Fresh cut roses edged the cake. Pink fruit punch, coffee and mints were also served.

Attending the party were Mesdames Anna L. Westbrook, Robert Tomlinson, E. E. Booth, G. W. Atchley, Florence Goladay, J. R. Thornton, John Armstrong, and Miss Laura Temple, also Mesdames Park, Dixon, Overstreet and Graham. The honoree was presented a corsage of pink carnations by the Graham sons, Ronny and Hal.

## Moss Family Has Reunion

Guests Sunday in the Bill Moss home for a reunion of the Moss family were Mr. and Mrs. Walter Williams and Mr. and Mrs. Vernon Bohannon from Checotah, Okla.; Mr. and Mrs. Ollous Killingsworth, Jerry, Jean and Kay from Muleshoe; Mrs. Mary Ann Harris and boys from Andrews; Mr. and Mrs. Jerry Darby, Mr. and Mrs. Ed Rolland and Troy Lee and Mr. and Mrs. Nathan Harding from Lubbock; Mr. and Mrs. Frank Pesch from Bovina; Mr. and Mrs. George Haskins and daughter, Muleshoe; and A. D. Hallford, Morton.

Also Mr. and Mrs. Donald Rolland and Pete, Mr. and Mrs. Jimmy Don Moss and Mike, and Mr. and Mrs. Bill Moss and Vicki, Farwell; and Mr. and Mrs. Jim Moss and Glendon, and Mr. and Mrs. Jerry Henson from Texico.

## Daughter Born To Leon Wares

A daughter was born to Mr. and Mrs. Leon Wares of Bovina on Friday, August 11, in the Clovis Memorial Hospital. The little girl weighed 7 pounds 7 ounces and was named Anita Carol.

Grandparents are Mr. and Mrs. Asa Smith of Lariat and Mr. and Mrs. Earl Ware of Bovina.

MR. AND MRS. LEE GOLAWAY

## Couple Feted On Anniversary

Mr. and Mrs. Lee Golaway of Lakeside, Calif., were honored with a supper at the Farwell Park on their 51st wedding anniversary, August 14.

The Golaways are parents of Mrs. Douglas Landrum, and made their home in Farwell for several years. He farmed east of Farwell at that time.

Attending the social were Mr. and Mrs. Cossie Stanley and boys, Richmond, Calif.; Bernard Lee Goloway of San Diego; Mr. and Mrs. O. E. Coe, Mr. and Mrs. Wilbur Coe and children and Mrs. Virgil Ralston of Clovis; Mr. and Mrs. Noble Goldsmith and family, Mr. and Mrs. Charles Steele and boys, and Mr. and Mrs. Douglas Landrum and family of Farwell.

Mrs. Alice "Ma" Snodgrass holds the attractive dress which Patricia Patton made from the hand-woven material which Mrs. Snodgrass brought from Athens, Greece. The intricate gold border is woven into the material. Mrs. Snodgrass also brought material to Judy Roach. The 78-year-old Farmer Countian recently returned from a visit to 13 countries.

See story on page 2.

## Fall Colors Keynote Decor At Hillock Bridal Shower

A fall color scheme was used in decorations when Miss Ruby Hillock was feted with a bridal shower on August 5th at the Oklahoma Lane Methodist Church.

Centering the serving table, which was covered with a brown linen cloth, was a large bouquet of orange carnations arranged in a copper container. A miniature bride doll was at one end of the table.

Mesdames Dot Roach and Louise Christian served refreshments of punch and cake, which also carried out the fall color scheme. The chocolate cake was iced in burnt orange frosting, and was served with golden punch.

A bouquet of orange carnations was also used on the gift table which was covered with a white crocheted cloth. Miss Judy Roach registered guests.

Hostesses for the courtesy included Mesdames James Roach, W. N. Foster, Wendol Christian, G. R. White, C. C. Christian, Oscar Hubbell, Charlie Hromas, Clarence Harriman, Grady Herington, Lee Jones and Misses Joan Hubbell and Judy Roach.

Attending and sending gifts were Mesdames John Range, Marcy Hillock, Larence Cooper, Lenton Pool, Betty Stewart, Jenny Blankenship, Arthur Milstead, John West, Nora Billingsley, Lillie Christian, Georgia Rundell, Vernon Symcox, Avis Carpenter, Sterling Donaldson, H. H. Henson, Naomi Walls, Betty Range, Nadine Paine, E. W. McGuire, Lois Billingsley, Herb Potts, Claude Coffey and girls, Benna Felts, Irene Henson, Dickie Magness, Elsie Cain, Lois Smith, Conda Jones, Claude Primrose, Sam Billingsley, Lester Norton, Joe Crume, Robert Rundell Jr., Claud Watkins and Coretta, Francis Birchfield, Carolyn McDorman, Bea Kent, Lillie Hughes and Carol Dean Huggins.

Also Clari Billingsley, Louise Douglas, Lura Rundell, Dot Christian, Alvin Kreigel, Ray Mears, Katherine Traxon, S. O. Billington, Ann Lovelace, Tom Paul McCuan, Darlene McManigal, Willie Billingsley, Dorothy Eason, Jack Roach, Anson Bowers, C. J. Huffaker, Avis Hall, Noble Goldsmith, Ruby Stone, Ruby Meeks, Ann Smith, Zula Rundell, Johnnie Rundell, Louise Foster, Fred Kepley, Turner Paine and girls, Cecil Rundell, Sandra Rundell, Linda Gerles, Dick Gerles and Edwina Owen.

Also Mesdames Ruth Routon, Willie Doshier, Jack Williams, R. T. Jenkins, Cecil Atchley, Clyde Perkins, Clytie Dial, Lee Meeks, W. P. Shelly and Claude Rose.

Also Misses Carolyn Routon, Juanita Range, Iris Goldsmith, Christy Bowers, Peggy Eason, Toni and Sherry Billingsley, Linda Birchfield, Joan and Karen Schell, Sibyl Williams, Lynn and Ruth Ann Blankenship, Leslie Cooper, Zell Billingsley, Tammy Christian, Gwen Rundell, Susan Symcox, Zeldia Donaldson, Judy Billingsley and Janice Billingsley.

Also the Parmer County ASC office and Vic Christian.

## Rebecca Class Meets In Johnson Home

The Rebecca Sunday School Class of the Farwell First Baptist Church met in the home of Mrs. Dora Johnson on August 7.

Clytie Dial gave the opening prayer, and the devotional "Sharing Blessings" was given by each member joining in with a portion of the program.

During the business meeting, which was conducted with Mrs. Ed Hardage, vice-president, presiding, members decided to let the acting class officers serve as a nominating committee for new officers.

Following the meeting, refreshments were served to Mesdames, Clytie Dial, Hattie Boling, Dickie Magness, Elsie Hardage, Carrie Hardage and Jewel Scott.

## Weese-Carpenter To Exchange Vows On September 2

Friends are invited to attend the wedding of Harold Don (Donnie) Carpenter to Miss Kay Weese on September 2 at 3:00 in the Higgins First Methodist Church.

Miss Weese is the daughter of Mr. and Mrs. W. J. Weese of White Deer, and Carpenter's parents are Mr. and Mrs. Harold Carpenter of Oklahoma Lane.

## Boy Born To Don Stones

Mr. and Mrs. Don Stone of Hub welcomed the birth of a son in the Parmer County Community Hospital in Friona on Saturday. Steven Lee was chosen as the name for the 6 pound 15 ounce boy. Mrs. Stone is the former Dorothy Roberts of Farwell.

Maternal grandparents are Mr. and Mrs. Buster Roberts of Farwell.

## Daughter Born To Larry Roubisons

Proud parents of a daughter born Sunday at Clovis Memorial Hospital are Mr. and Mrs. Larry Roubison of 1612 Sheldon in Clovis. The little girl weighed 6 pounds 14 ounces on arrival and was named Karen Sue. Mrs. Roubison is the former Judy Adams. The couple have one other child, a boy, Larry Wayne.

Grandparents are Mr. and Mrs. John Adams of Texico and Mr. and Mrs. Fred Northcutt of Clovis.

Mrs. Bill Banister from Gallup is visiting with her parents the A. T. Watts this week. Mr. and Mrs. Milton Henson and Mrs. Paul Crooks and Jana visited in Seymour over the weekend with the Jimmy Hensons.

Mr. and Mrs. Jimmy Martin visited in the home of his parents the Raymond Martins Sunday.

## Flowers, Antiques Displayed At West Plains Flower Show

Flowers and antique treasures were shown at the second annual West Plains Garden Club flower show held in the Oklahoma Lane Community Center Friday afternoon from 4:00 to 9:00.

Club colors of green and white were used throughout in decorations, with a basket of ice green gladioli and bells of Ireland--arranged by Mrs. J. M. Pruitt used on the refreshment table. Refreshments of punch, coffee and thins were served by Mrs. Alton Wily.

Eight banquet tables of floral arrangements were judged by Mrs. Henry Ivy of Lazbuddie and Mrs. Davis Gulley of Muleshoe.

Blue ribbon winners included Mrs. Edmond Kitten with a Hogarth arrangement of Charlott Armstrong Roses in a milk glass compote; Mrs. Windbourn Hardage an arrangement of tansy and trumpet vine in an antique lamp entitled -- early days on the prairie--; and Mrs. Thomas Young an arrangement of driftwood and plastic roses.

Second place winners were Mrs. Thomas Young, driftwood with ivy and red flowers; Mrs. Edmond Kitten, white gladioli with bells of Ireland; Mrs. Windborne Hardage, Peace roses in an antique cut glass bowl; and Mrs. R. L. Foerster, an arrangement of rose colored zinnias in a brown earthenware container. Her arrangement was accented by an antique churn and buttermold placed near the bouquet.

Third place arrangements were by Mrs. Thomas Young and Mrs. Windbourn Hardage. Mrs. Young's arrangement was driftwood with plastic roses and sweetpeas; and Mrs. Hardage had an arrangement of red roses in an antique cut glass water jug.

Individual flower species shown were Mrs. Windbourn Hardage, first place with Nickie K. Dahlias; Mrs. Edmond Kitten, second place with a rose gladioli; and Mrs. R. L. Foerster, third place for a black Narcissus Dahlia.

Mesdames J. M. Pruitt, Alton Wily, Carrie Young and Henry Bass also entered arrangements in the show.

About the only thing that will now give you more for your money than ten years ago--is the penny scale at the drug store.

## Vote On Wheat Quotas Set For August 24

Parmer County wheat farmers will go to the polls next Thursday, August 24, along with other wheat growers throughout the nation, to vote on whether or not marketing quotas will be in effect for another year.

If the marketing quotas are approved by at least two-thirds of the voters, a new wheat stabilization program, recently passed by congress, will be in effect for the 1962 crop.

The new program calls for a mandatory 10 per cent reduction in acreage, below that of 1961, and a higher price support.

Farmers will have the option of laying idle an additional 30 per cent of their acreage, on which they will receive payment in cash or kind, equal to 60 per cent of their average yield over the past three years.

If marketing quotas are not approved, there will be no wheat stabilization program for 1962.

depending upon the relationship of the supply of wheat to the normal supply.

Secretary Freeman, is submitting his legislative proposals to the Congress, advised the House Committee on Agriculture that "under such a program it would be our judgment that the support price for wheat should be fixed at a national average of \$2 a bushel." This would be 83 1/2 percent of parity. The 1961 support price is \$1.79 or 75 percent of parity.

If farmers should vote "no" on wheat marketing quotas for the 1962 crop, there will be no limit on marketings. Price support would be at the rate of 50 percent of parity, and would be available to those producers in commercial wheat states planting within acreage allotments. In addition, production would exceed market outlets and supplies would continue to accumulate in Government inventory.

**WHO CAN VOTE**

All farmers who have produced more than 13.5 acres of wheat in at least one of the last three years are eligible to vote in the wheat marketing quota

referendum on August 24, 1961, except those who have a feed wheat exemption for the 1961 crop.

On May 12, Secretary Freeman proclaimed marketing quotas and a national acreage allotment of 55 million acres for the 1962 wheat crop on the basis of estimated supplies and utilization of wheat. At that time he referred setting the date for the referendum pending action to provide an improved wheat program for next year's crop.

"Though action has not been completed on a new program," the Secretary explained, "it seems desirable to now set a date for the referendum on 1962 marketing quotas in order that all producers may be appraised of the voting time. Under legislation now being considered, stocks of wheat would probably be reduced by 100 million bushels rather than increased by that amount if changes are not made. This would result in savings to the Government on this one crop of \$50 million in the first crop year, and in the period before new stocks could be disposed of at present rates the savings on this one crop would amount to \$258 million."

and load them on a truck. The melons are then hauled to Gateway Produce Company for grading, packing and shipping.

and through the early part of this week shed operations were moving slowly.

This situation is expected to change shortly, however, and by the middle of next week the 350 workers on hand for this year's harvest will quite likely be hard-pressed to handle all of the golden melons, which this year have been described as the "best ever."

CANTALOUPE HARVEST is beginning to pick up momentum in the Bovina area this week. Here, a group of pickers on the Bob Wilson farm west of Bovina pick the ripe melons

and load them on a truck. The melons are then hauled to Gateway Produce Company for grading, packing and shipping.

## Cantaloupe Harvest Begins In Earnest

After a slow start, cantaloupe harvest in the Bovina area is beginning to move along at an increased tempo.

If the weather, which has been responsible for the harvest getting off to a late start, continues favorable, by next week the packing shed at Bovina should be moving cantaloupes at a faster pace than ever before.

Cool nights have been the reason for the slow start, according to Mario Trevino, office manager for Gateway Produce Company, and the melons just haven't ripened as soon as it was thought they would.

The first melons were picked about the middle of last week,

and through the early part of this week shed operations were moving slowly.

This situation is expected to change shortly, however, and by the middle of next week the 350 workers on hand for this year's harvest will quite likely be hard-pressed to handle all of the golden melons, which this year have been described as the "best ever."

"All the weather has done is delay us," Trevino says. "The cantaloupes are averaging about 14 per cent in sugar content and are the best we've ever had."

The market has been holding its own, ranging from \$4.00 to \$4.50 per crate, and if it remains this good, farmers

who have produced the 800-plus acres of cantaloupes will have a good year.

The acreage this year is considerably more than it has been in past years, and despite the fact that the facilities have been doubled at the Gateway shed, when the harvest reaches its peak there may be more cantaloupes than the workers know what to do with.

Because of the slow start, all of the melons will probably hit at about the same time.

Six of the 25 fields in the area were being picked this week, three more were scheduled to be "broken" by the middle of this week, and by late next week it is quite likely that all of the fields will be ready for the first picking.

The harvest will probably continue for five or six weeks.

Cucumbers are also being packed daily at the shed, and about 250 bushels are being moved each day. Market price is about \$2.50 per bushel.

Even though there are only 60 acres of cucumbers, picking will continue until the first freeze.

Harvest of other mixed vegetables will begin in the near future. Other vegetable acreage is tomatoes, 130; peppers, 60; and cabbage, 60.

If you need phosphate put it down in bands before or at seeding time and don't plan on top-dressing-phosphate. Top dressing with nitrogen is fine, but not phosphate as it does not dissolve and go in the soil like nitrogen. A good fertilizer program to follow on wheat is two thirds of the nitrogen and all the phosphate (where phosphate is needed) in the fall and top dress with the other one-third in February. If you allow this program you will not be far from the ideal as far as timing of application and placement goes.

Yes, legumes can be fitted into your farming system and made to pay. Sweet clover-like madrid or Huban will do you a good job. Alfalfa would also do a good job. Now don't run backwards at the thought of alfalfa because it will not be for hay and the land preparation, mowing, baling, and most of the water will be eliminated from this type operation. The seed bed should be firm for these crops. The legumes should be seeded by the middle of September.

August 15 has just passed and irrigation of cotton should soon be out of the way. Research shows you will be ahead most years if water is taken off cotton August 15 to August 20.

I see a lot of wheat land being prepared for wheat. If you want to have a soil test run on the land before applying fertilizer come by and pick up your cartons and instructions or see your fertilizer dealers. Don't

## Hay Quality Influenced By Time Of Harvest

The haying season is in full swing in Texas. The quality of the crop harvested may well depend, says Geo. McBee, extension pasture specialist, on the stage of growth of the plants when cut and the length of the drying period.

McBee suggests early cutting when nutrients in the plants are near the peak but with adjustment for management practices to maintain stands and fast drying to conserve the feeding value of the crop.

From the standpoint of total digestible nutrients, plants accumulate most nutrients during vegetative stages of growth, points out the specialist. Some plants may lose up to 60 per cent or more of their crude protein when harvest is delayed until they reach maturity.

Generally, McBee likes to time the harvest to catch the plant in the boot stage or in early bloom. Quality is best in the Sudan group at the boot stage. Coastal Bermuda should be harvested when it reaches 16-18 inches in height; native grasses in the boot to early bloom stage; alfalfa when a tenth to a fourth of the plants are blooming and lespedeza at the first bloom. As plants get older, continues McBee, the quality declines and the undigestible fibers increase.

After the hay is cut, the moisture content should be reduced to safe storage level as soon as possible. Protein and other nutrients lost after the hay is cut often mount to 30 percent or more in some plants depending upon the length of the drying period. And finally, points out McBee, poor quality hay makes poor livestock feed. He suggests a visit with the local county agent for more information on improving the quality of your hay crop.

Office Boy: "Boss, sometimes I think I'm wandering in my mind."

Boss: "Don't worry, you can't get lost in such a small place."

## WITH THE COUNTY AGENT

JOE JONES

Every now and then you hear the old saying alcohol and gasoline don't mix. I'm sure that must be right and just as sure a soil building legume and the retired acreage will mix well to some extent on most every farm in Parmer County.

In 1962 we will in all likelihood have around seventy to one hundred thousand acres of diverted land of which some could be planted to legumes this fall and made to pay in years ahead. Sweet clovers or alfalfa would seem to offer the best soil building and soil improving potential. Where one of these legumes grow well the roots penetrate the soil opening it up so it will take water at a more rapid rate, the soil has a better tilth, nitrogen is taken from the air and stored in the roots to be used by growing crops when the roots decay.

Yes, legumes can be fitted into your farming system and made to pay. Sweet clover-like madrid or Huban will do you a good job. Alfalfa would also do a good job. Now don't run backwards at the thought of alfalfa because it will not be for hay and the land preparation, mowing, baling, and most of the water will be eliminated from this type operation. ### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Next Wednesday, August 23, at ten o'clock in the morning, the District II Farm Bureau leaders will meet in the new Swisher County Farm Bureau Office for policy development discussions. The office is located in Tulla. Those expected to attend from Parmer County are: Roy V. Miller, Chmn., Commodities Committee, and Carl Schlenker and T. L. Kent, members; H. P. Hamilton, Chmn. Legislative Committee and M. T. Glasscock, Charles Howell and Clarence Johnson, members; Gilbert Kaltwasser, Chmn. Resolutions Committee and Edmond Kitten and Claude Osborn, members. Also attending will be Herman Gerjes, County President and Vernon Symcox, County Secretary. The purpose of the meeting is to assist these leaders in getting membership participation in the development of Farm Bureau Policies.

The Agricultural Act of 1961 takes up eight pages of fine print on standard size paper. For most of us, the reading of this act results in confusion, but it can be summed up by those familiar with legal writings in many fewer words. We are thankful for those with the ability to sum it up briefly. At the next directors meeting, the time and place for the Annual County Farm Bureau Convention will be set. We are hopeful that a good, interested attendance will be had. The time will be sometime in October. All members are urged to be giving thought to promote ideas they may have to improve Farm Bureau's service to farmers. Your officers and directors will appreciate any suggestions you may have at any time.

If you have not filed for state gas tax refund recently, you should do so now. It will not be necessary to file again for a year if you file now or have filed within the last few weeks. CONSIDER THIS: When the scorners is punished, the simple is made wise; and when the wise is instructed, he receiveth knowledge. Proverbs 21:11

# Soil Conservation Tours Scheduled

At a meeting of the Farmer County Soil Conservation District last Thursday afternoon, plans were made for four September tours.

Conservation practices in the county will be viewed on each of the tours.

In the past, the SCD has sponsored one annual tour, but committeemen this year decided to have one in each of the four county districts.

Different conservation practices will be observed on each of the four tours, and the committee is in hopes that this year's plan will be more beneficial and of interest to more farmers.

The schedule of the four tours is as follows:

September 5--T. O. Lesly district, 2 p.m.

September 7--Robert Calaway district, 2 p.m.

September 19--Dean McCallum district, 2 p.m.

September 21--Bruce Parr district, 2 p.m.

Conservation practices to be observed on the tours are now being planned, and they will be announced later.

In addition to planning the tours, the county SCD men also made plans for the annual banquet, which this year will be on September 23 at Bovina.

Four men have been nominated for the honor of being conservation farmer of the year, and the winner will be named at the banquet.

Present for the meeting last Thursday were A. L. Black, T. O. Lesly, Dean McCallum, and Bruce Parr, SCD com-

mitteemen; Steve Messenger, SCD clerk; Bill Liston and J. Sanders, of the Farmer County Soil Conservation Service; A. W. Dalrymple and Carl Spencer, of the state SCD board; and Joe Jones, Farmer County Agent.

# HD Agent's Notes

BY MISS ETTIE MUSIL

Money, Money! Want to make some easy money? Here's how. You homemakers can get you some extra spending money if you remind your farm husbands that they are eligible for a refund of a 4-cent per gallon

Federal gasoline tax. That is if the gasoline was used for farming purposes. The claim should include all eligible gasoline gallonage purchased between July 1, 1960 and June 30, 1961.

The claim for refund should be filled on Form 2240 and not later than September 30. We have these forms and instructions in our office. Write us or call us if you did not receive the form from the Internal Revenue office.

The gasoline on which a refund may be claimed covers that used for farming purposes and includes most normal production operations. Three exceptions, however, should be noted. They are gasoline used on the highway, even though for transporting farm products. Another exception is that used for processing, packaging, freezing or canning operations. And of course, that gasoline used for non-farming or personal purposes.

We are reminded that records of fuel purchases should be kept to verify the refund request and care should be used to avoid inaccurate or excessive claims. Form 2240 does not apply to diesel and special motor fuels. If you have any special questions regarding taxes on these fuels, you can contact an Internal Revenue Service director. We just have the forms and instructions for you.

This thought just occurred to me. So many homemakers come by the office for help in kitchen plans or extra storage space, after they have the carpenter at the house finishing up the job. We have several bulletins that may help you include all the storage space you will need if you come by before the plans are complete.

Such bulletins that are free for your asking are "Planning The Kitchen And Workroom," "The Beltsville Kitchen-Workroom with Energy-Saving Features," Kitchen Storage Devices You Can Make," "Arrange Your Kitchen For Convenience and Comfort," "Easy Steps to Farmhouse Planning," "Farm and Ranch Homes In Texas," and even "Using Consumer Credit -- A Tool or A Trap."

Careful, thoughtful planning often avoids mistakes which are costly from the standpoint of money as well as convenience. The "Farm and Ranch Homes In Texas" gives pointers in planning for present and future needs. It lists building material suitable for Texas farm and ranch homes, and gives suggestions for planning wiring and other utility outlets.

Plans for two, three and four-bedroom homes are given in the bulletin. Also included are plans for expandable houses -- with living, dining, kitchen and bath areas incorporated in basic houses from 600 to 862 square feet. These can be expanded to completed houses from 1,032 to 1,628 square feet as the family and income grows.

Now for your present home. Does your shower and bathroom tile have a grimy look after hard summer wear? That dirty grey color may come from soap scum. You can remove it by rubbing a paste of baking soda and water over the dirty areas. Some types of water softeners work well, too. After cleaning, rinse the walls thoroughly and wipe dry. Never use harsh abrasives or strong acid solutions on bathroom tiles, for you may scratch the surface.

One nervous second grader, making a brief speech at the dedication of the grammar school, introduced the "artichoke" who designed it.

# More Non-Quota Sugar Authorized

Washington, D.C.—The Department of Agriculture on June 1 authorized the purchase and importation of 1,009,120 tons of non-quota sugar, bringing to 9,800,000 tons the total of quota and non-quota sugar authorized so far this year.

With total sugar requirements for 1961 determined at 10 million tons last December all but 200,000 have been allocated or authorized. The remainder represents that portion of the Dominican Republic proration of non-quota purchase sugar which has not been reallocated to other foreign countries.

The beet sugar industry's allocation of 2,177,773 remained unchanged by the latest action.

The following table details the current quotas and authorizations for non-quota purchases:

Area and Country,	Basic Calendar Year Quotas	Non-Quota Purchase Allocations		Total
		Authorized Previously	Authorized by June 1 Action	
(Short tons, raw value)				
Domestic Beet Sugar	2,177,773			2,177,773
Mainland Cane Sugar	670,122			670,122
Hawaii	1,215,410			1,215,410
Puerto Rico	1,270,865			1,270,865
Virgin Islands	17,330			17,330
Republic of the Philippines	980,000	340,731		1,320,731
Peru	121,507	544,870		666,377
Dominican Republic	111,157	222,723		333,880
Mexico	95,409	530,943	58,648	685,000
Nicaragua	17,471	25,897		43,368
Haiti	8,268	27,005	10,000	45,273
Netherlands	4,149	1,463		5,612
China (Formosa)	3,980	91,270	4,388	100,028
Panama	3,980	6,020		10,000
Costa Rica	3,968	16,282	10,000	30,250
Canada	631	1,266		1,897
United Kingdom	516	1,034		1,550
Belgium	182	361	1,092	1,635
Hong Kong	3	19	8	30
Federation of the West Indies & British Guiana	84	75,717	190,206	266,007
El Salvador		12,000		12,000
Guatemala		12,000	5,000	17,000
Brazil		111,474	225,000	336,474
Ecuador		21,000	15,000	36,000
Colombia		21,000	25,000	46,000
French West Indies		25,000	50,000	75,000
Australia			90,000	90,000

NOT AUTHORIZED FOR PURCHASE AT THIS TIME				200,000
TOTAL				10,000,000

# Nematodes Serious Cotton Pest

Nematodes damage cotton, more or less, in all areas of Texas. The small microscopic worms are more damaging in sandy or loam type soils where water is a limiting factor.

Nematode injury is often overlooked or mistakenly diagnosed as drought damage and poor soil. Damage may vary from slight to as much as 30 percent of the crop.

The root knot nematodes are the most damaging and most easily recognized. Damage by these nematodes result in knots or galls being formed on the roots. Young cotton seedlings can be attacked by the parasites causing them to die or be weakened.

In some areas nematodes

damage the roots and provide a gateway for the fusarium wilt fungus to enter. The fusarium wilt disease once thought of as only an East Texas disease has been moving west in recent years. Specimens have been received at College Station from Wichita Falls, O'Brien and Muleshoe areas.

Other nematodes that cause damage are the dagger, stubby root and stilet nematodes. The root lesion, lance and true spiral nematodes are suspected as causing damage. Special soil and root samples can be checked in the Plant Disease Diagnostic Laboratory at College Station in order to determine kind and number of nematodes.

# FOOTSAVING EDUCATION

by James E. Edwards

**Will Exercise Help The Feet Of Adults?** Yes; an astounding demonstration of the effectiveness of exercise was made during World War II.

Reporting in THE MILITARY SURGEON in May 1943, a doctor discusses the feet of flatfooted soldiers who volunteered for an experiment which consisted of marching barefooted on the hot sand of a California desert. The "before and after" pictures showed incredible results.

In the "before" pictures the subjects were literally standing on their ankles. After the exercises the feet appeared perfectly normal. Lacking a desert of the desired temperature we could use a button sewed under the arch of an old pair of sox. The game is to walk without stepping on the button.

It really works but one must be careful not to continue the exercise too long because it is quite easy to overcorrect a weak foot.

According to Fred Gardner of the Poultry Science Department at Texas A&M College, the egg is becoming modernized. Research workers, with the housewife in mind, have and are developing new packaging ideas and uses for eggs. Scrambled eggs for the family in 30 seconds and Instant French toast for the heating should be on grocery shelves in the near future. Pressurized cans of egg yolk, egg white or whole egg may be available soon.

In 1960, the farmer received only 39 cents out of each dollar consumers spent for good food in the United States. The remaining 61 cents went for marketing charges.

# The HAPPY HOMEMAKER

BY JUNE FLOYD

Breakfast, which has long been the neglected meal of the day, is one of the most important meals. The best beginning for any day is a good wholesome breakfast for grown-ups as well as children.

With the beginning of school just around the corner, much thought should be given to the preparation of this meal. Leading nutritionists and medical authorities agree that a basic breakfast should include fruit, cereal, milk, bread and butter.

Persons who require higher energy needs may supplement this menu with meat, eggs and other foods. Since a good breakfast should provide one fourth of the daily nutrition quota, needs of the day should be taken into consideration when breakfast is planned.

Properly cooked bacon brightens meals and is especially good for breakfast. Sausage links or cakes make any breakfast tempting and is available in the seasoning which suits your family.

The following recipes are suggestions for varying your breakfast menu.

**Fluffy Scrambled Eggs:**  
Beat 12 eggs slightly with 3/4 cup milk or light cream, 3/4 teaspoon salt, a dash of pepper and add to greased skillet. Cook at low heat until eggs are light and fluffy, lifting mixture from bottom of pan with spatula as eggs cook. Makes 6 servings.

**Breakfast Hash Browns:**  
3 cups diced potatoes, browned  
4 slightly beaten eggs  
1/4 cup milk  
Add eggs and milk to browned potatoes. Stir over low heat to scramble. Serve at once with Canadian bacon or sausage.

**Peachy Maple-Nut Waffles:**  
1 cup milk  
1 egg  
3 tablespoons liquid or melted shortening  
1 cup pancake mix  
1/3 cup chopped nuts  
Place milk, egg and shortening in a shaker or glass jar. (If melted shortening is used, add after pancake mix.) Add pancake mix and nuts; shake vigorously 10 times or until batter is fairly smooth. Bake in hot waffle iron until steaming stops. Makes 4 to 6 servings.

**Topping:**  
3/4 cup sugar  
2 tablespoons cornstarch  
2 cups sliced fresh peaches  
2 cups water  
Combine sugar and cornstarch. Place sugar mixture, peaches and water in saucepan. Cook over low heat, stirring constantly until thickened.  
Maple Butter  
1/4 cup butter, soft  
1/4 teaspoon maple flavoring  
Serve each waffle section with peach topping and maple butter.

**Pineapple Glazed Breakfast Ring:**  
1/4 cup butter or margarine  
1/2 cup sugar

# Rural Areas Development Program Underway In Texas

In line with Secretary of Agriculture Orville L. Freeman's recent announcement that the Rural Areas Development program had reached the operational stage, the Texas Agricultural Extension Service has held orientation meetings on the program in east and northeast districts of the state.

It is in this section of Texas,

said Frank Sheppard, extension resource development specialist, that most of the announced eligible counties are located. He pointed out that some 40 of these counties were listed because they had either been participating since 1956 in the rural development program or had indicated a desire to do so. Other counties were added to that state list on the basis of farm income figures. He said other counties may be added to the eligible list and some of those now on the list may not be able to qualify for federal grants and loans under the program.

Sheppard said the new program as outlined under Public Law 87-27 is not a giveaway deal and that it was hoped that local and private funds would be used extensively to supplement

any loans or grants.

He emphasized that the program is strictly volunteer and that participation is up to local leaders and interest. It is, he said, the responsibility of the State Agricultural Extension Services to provide the organizational and educational leadership in setting up development committees to handle the program from the local to the state level. Also to provide educational assistance to local leaders and private groups with regards to total economic development programs within counties or areas.

Much progress, he concluded, has been made under the rural development program and projects now ready for operation may be able to qualify for loans or grants.

# VIP's At PCG-PGA Meeting In Lubbock

Two nationally prominent speakers representing the American cotton textile industry and the USDA have accepted invitations to address the joint annual meeting of the Plains Cotton Growers and the Plains Ginners' Association.

The two big cotton organizations this year will hold a combined meeting rather than the two separate meetings which have been held in the past. The joint meeting will begin at 9:30 a.m., August 26, in Fair Park Coliseum, Lubbock.

Main speakers for this year's

program will be S.R. Fifield, of Fieldcrest Mills, Inc., Spray, North Carolina, and Robert C. Sherman, of the Foreign Agricultural Service, Washington, D.C.

Fifield will discuss domestic market potentials and problems, and Sherman will talk on the cotton export market situation. "We are indeed fortunate to have such highly qualified men to discuss these subjects which are of vital interest to our area," says W.O. Fortenberry, president of the Plains Cotton Growers.

City and Suburban  
Sophisticated sheath in Black Rayon Acetate strides glamorously through fall... day or night... in city lights or suburban soirees. Sheds wrinkles like a dream. The lines are graceful with a softly tied belt of same fabric. Sizes 10-20.

# Check Grain Storage Before Harvest

Texans have always said there's nothing lower than a cattle thief, and Texas cattle raisers have always led the nation in their fight against these parasitic criminals who brutally steal and butcher from another man's herds.

But cattle theft is still a big problem in Texas and elsewhere. Modern transportation methods, tranquilizer pellets thrust into the victimized animals, and shade tree butchering places have updated rustlers' techniques and often make them more difficult to apprehend.

The Texas and Southwestern Cattle Raisers Association, one of the finest industry-sponsored self-policing organizations in

the world, works against these modern odds to throw fear into would-be thieves and to catch and convict a high percentage of actual offenders.

The TSCRA has 31 well-trained and coordinated field inspectors located in Texas and Oklahoma who have not only a thorough knowledge of cattle but also a working knowledge of modern crime detecting techniques.

The association offers a high level of protection for the individual cattleman. Not only do they have men to help local law enforcement agencies to catch thieves but also they have a legal department and an attorney who is available at all times to help local prosecutors in working up cattle theft cases.

This makes cattle theft— which might otherwise be appealing to the criminal mind —one of the least defensible crimes in our state.

Cattle branding, as always, is crucially important for owner protection against thievery. This offers positive identification of ownership which will stand up in court.

Even with modern detection methods and updated ranching techniques, the age-old menace of pioneer days is still with us, however. And it's good to know that the cattle thief is being watched for, sought after, and, if caught, prosecuted to the fullest for his unsavory crime.

# Sheep Industry Important To Texas

Sheep and lamb slaughter is becoming a more important item in Texas each year. In 1950, only 4 per cent of the U. S. commercial slaughter could be accounted for by Texas, but by 1960 this figure had increased to 8 per cent of the total, says Ed Uvacek, extension livestock marketing specialist.

Continuing this trend, federally inspected slaughter of sheep and lamb during the first half of 1961 has far exceeded slaughter for the same period of 1960. The principal gain occurred in the South Central region, which includes Texas.

During the first quarter of 1961 the South Central region showed a 33 per cent increase over the first quarter of 1960, while the U. S. as a whole showed only a 10 per cent increase. Heavy slaughter during these months was also evident in the Mountain and West North Central areas of the country, continues Uvacek. Forecasts indicate slaughter will continue close to last year's levels for the rest of the year, South Central slaughter, however,

will probably drop lower during the July-September quarter. Since 1957, January 1 inventories of sheep and lambs on Texas farms have increased 37 per cent and now total 6.2 million head. This increase represents a reversal of the trend started in the mid 1940's when there was a nationwide shift out of the sheep business.

This year, Texas sheep received the highest condition rating ever for a July 1. The Western Range states showed sheep conditions averaging the same as last year's level, and slightly better than last month.

With a reasonably strong slaughter yet to come and an already depressed market, the outlook is for seasonally lower prices into the fall with some possible improvement late in the year, says Uvacek. Live lamb prices will probably be slightly below the corresponding year's levels in the fall and feeder prices are also expected to be forced down by these low slaughter lamb prices.

# Cattle Theft Is Still A Problem

Advanced planning in checking "on-farm" grain storage may save valuable time during harvest, says W.S. Allen, extension agricultural engineer. Leaky, run down, and unclean storage buildings will increase hazards from insect and rodent damage, the two factors usually responsible for the loss of quality in farm storage.

A good storage unit should meet certain standards. The roof should be weather tight, the walls should be strong, sound, and rain proof. Any potential water leaks should be patched and caulked to prevent the entry of moisture from the outside. Cover the openings in

the walls and gable ends of the buildings with screen wire to keep rats from gnawing holes at the corners. Check the foundations of wooden buildings to be sure they are not decayed, and repair any foundation deterioration, Allen says.

Be sure all trash, weeds, and grass are clear from around the bins to help reduce rat population and insect infestation. A poisoning program to control rats and a fumigation program to control insects can be recommended by your county agricultural agent.

Store dry grain or provide equipment for drying the grain in storage. The maximum mois-

ture content for safe storage in Texas is 12 percent in most areas. Establish a checking program and check the grain periodically to insure that it is dry, free of insects and that quality is being maintained. A little advanced planning and proper supervision will insure a quality stored product for later sale or feeding, concludes Allen.

## The Old Timer

"All men may be born equal, but it's what they are equal to later on that counts."

Three out of every four dollars of tax revenues raised by the Federal government are paid or collected by business firms,—in the form of excises, old-age pension, other employment taxes, and withholding taxes. . . . Gondoliers in Venice, Italy, belong to a guild: only sons of gondoliers are eligible. . . . Some people think it's odd that Peculiar is in Missouri and Strang is in Oklahoma. . . .

# Mushroom Root Rot Kills Trees And Shrubs

Mushroom root rot is one of the most common root rot diseases of shade trees and shrubs. Peach and plum orchards are frequently destroyed by the disease which occurs in all areas of Texas. Infected trees or shrubs usually die from April through July. The disease is very often confused with cotton root rot.

Wilted leaves are the first symptom. Next, one or two limbs may die. In a few days or weeks the entire tree or shrub dies. Dead areas are produced in the bark on the main trunk and larger roots just beneath the soil surface. When the dead bark is peeled back, the white mold growth of the fungus over the wood surface is seen.

The fungus occurs most frequently in wooded areas or in recently cleared oak land. Arbutus, chlnaberry, cultivated junipers, rose and yucca appear to be very susceptible. Fruiting bodies of the fungus consist of honey-colored or light-brown "toadstools" or mushrooms. These mushrooms cluster near the base of infected trees or shrubs, generally in the fall. Whether they develop depends on the weather and the extent of decay.

All tree stumps and large roots should be removed as thoroughly as possible before orchards are set in infested soil. Planting of newly-cleared land to an annual crop for several years helps to kill the fungus.

Native yucca and cedar are resistant. Photinia, gardenia, wax-leaf ligustrum, Japanese privet and crape myrtle have been known to escape the disease in infested areas. Lawn grass sod growing too close to a tree or shrub may encourage attack by the mushroom root rot fungus.

For additional information ask county agents for a copy of the publication MP-283, "Peach and Plum Diseases."

Quality milk concerns the entire dairy industry, says A. M. Meekma, extension dairy specialist. It cannot be overlooked at any point as the milk moves from the producer to the consumer. That, he says, is a primary reason that sanitary standards for the production of Grade A are so high.

# Effects Of St. Lawrence Seaway On Grain Exports Reviewed

Texans associated directly or indirectly with grain storage, inland transportation or exports are advised to keep a close watch on changes which the improved Great Lakes - St. Lawrence Seaway could have on the flow of grain to ports.

John G. McHaney, economist for the Texas Agricultural Extension Service, said the Seaway in its first year of operation, 1959, carried 87 million bushels of U.S. grain in direct overseas trade as contrasted with only 4 million bushels in 1958. Too, an additional 27 million bushels of U.S. grain were handled by Canadian Seaway ports for export.

This increase, McHaney said, came at the expense of Atlantic ports and not those on the Gulf Coast. Western Europe increased their imports of six grains from the U.S. in 1959

by 43 percent over the year before. Atlantic ports showed a decline in exports of 31 percent while Gulf and Pacific ports increased their shipments by some 40 percent.

The economist added that the seaway has some very formidable limitations. The season of navigation is limited to about 8 months; the Welland Canal is a bottleneck for the entire system; other cargoes such as iron ore and coal may offer stiff competition to grain for the limited capacity of the Welland Canal and many harbors on the lakes do not have facilities and water depth to handle large ocean-going vessels. Further improvements, he continued, may change the situation.

McHaney concluded that further increases in grain exports through the Seaway can be expected but the favorable position of the Gulf Coast as contrasted to most Atlantic ports in grain export trade appears to be secure. The Seaway so far has had little effect on grain exports from Gulf ports. In fact, he said, export shipments of grain from these ports in 1959 were nearly double their 1955-57 annual averages.

Favorable inland transportation rates to the Gulf plus the fact that many Gulf facilities have been modernized and others constructed during recent years makes their position favorable.

# Expand Soybean Research At Halfway Station

The soybean breeding program at the High Plains Research Foundation has been expanded by the receipt of 51 varieties from 13 countries, Dr. Earl H. Collister, chief agronomist, announced this week that these varieties came from the following countries: Afghanistan 1, Argentina 2, Brazil 1, Burma 2, China 5, Formosa 2, Hawaii 1, Indonesia 2, India 1, Japan 20, Korea 2, Pakistan 1, and South Africa 2. Seven-hundred and forty-six soybean plants were selected from a plant population of 226,000 in the 1960 breeding program for further evaluation. Hand pollinations will be made between selected plant types in the plant breeding this year.

Another feature of the soybean program is the use of atomic energy to produce improved types through genetic mutations. They were irradiated with three different applications of cobalt 60. These plants will be closely observed during the growing season for possible high yielding plant types that can be used in developing new varieties for the High Plains.

# Plastics On Market For Paint And Patch Jobs

Epoxies are a fairly new group of plastics with a wide range of farm uses. A report from the fall Farm Quarterly magazine sums them up as excellent but expensive.

A pure epoxy resin is very brittle and for normal use compounds are added to make it more pliable. Sometimes a substance like limestone or mica may also be added as a cheap filler, so an epoxy should be bought from a reputable dealer and for a specific purpose in order to insure desired results.

As adhesives they are unexcelled. They will bond metals, wood, Masonite, stone, ceramics, or any combinations of these. The only things they won't cement are some plastics. Of-

ten the repaired crack or a new joint is stronger than the original material.

A word of warning -- beware of epoxies sold under labels which claim they will glue anything to anything. They may do a good job; on the other hand, they may be weaker than an epoxy designed especially for the material being glued.

As protective coats, epoxies make durable coatings or paints for roofs, floors, walls and liners for containers -- metal, concrete or wood. They have a high resistance to chemical attack.

Epoxies can be used on dairy walls, or perhaps farrowing pens, and other places where sanitation is important. Though there is considerable controversy as to the economy and practicality of their use in silos, it is being done. Epoxy lining makes the walls of a silo practically gas-tight. Epoxies have been used to repair cracks in trees.

# Extension Releases Publication On Insects

Are insects eating up your farm profits? If they are, or if they are only nibbling at them, you should read two recent publications of the Texas

Agriculture Extension Service. One, B-975, deals with insects that attack forage crops, and the other, L-217, tells how to prevent insect damage to farm-stored grain.

For many years cultural practices were the main methods used to prevent infestations of forage crops. Insecticides were impractical for many years because the low market value of forage crops did not warrant a cash outlay for them. Price changes and improved production methods, however, have changed all this. Unfortunately, this increased use of insecticides has brought about some problems. Too many people see some insects on their forage crops and grab the nearest "bug killer." Sometimes this practice gets rid of undesirable insects, but in many cases it either fails to kill the unwanted insects or does kill beneficial ones. If the farmer would take time to identify the insects on his crops, this would not happen. True, he does know many of the more common ones, but there are usually some he is not familiar with. This is where B-975 "Insects Attacking Forage Crops" comes in. The farmer can use this bulletin to properly identify the insects and he can then look in Extension Service publication MP-339 for the proper control measures.

Even after the farmer has harvested his crops and has his grain stored, he is not safe from insect-caused losses. There are many insects that can reduce farm stored grain to so much useless trash. These losses can be prevented, however. Leaflet L-217 "Control of Insects in Farm-Stored Grain" outlines the proper methods for preventing these unnecessary losses.

Both of these publications can be obtained from your local county agent or from the Agricultural Information Office, College Station, Texas. Ask for them by name and number.

# Potatoes Moving, But Price Is Low

After being at a standstill for 10 days, potato packing operations at Friona Growers and Shippers were started again on Monday of this week.

The potatoes were being moved to areas south and east of here, but the price remained less than \$2.00 per sack.

Unlike the situation with the cantaloupe harvest, which appears to be off to a good start, potato growers have had one of the roughest years yet.

There has been an ample supply of good quality potatoes, and, ironically, that is probably what has been wrong with the harvest this year. There has been too many of them in too many areas.

Neither of Farmer County's two sheds have moved at a very fast pace at any time during the harvest.

Buck Gregory, of Gregory Produce, says that he will probably complete harvest and

packing of all of his potatoes sometime next week.

He has been packing potatoes for the past two weeks, but no, it's have been bringing only about \$1.75 to \$1.85 per sack, while No. 2's have been bringing about 35 cents less.

"It's not that we're making any money on them, but we've got potatoes, so we may as well move them for what we can get," Gregory says.

A well known Texas livestock producer, Kleber Trigg, Jr., Bastrop, is one of 17 livestock producers from over the nation invited to meet with U.S. Department of Agriculture officials on July 27 and 28 in Washington, D. C. to discuss problems and policies connected with the administration of the Packers and Stockyards Act.

Crop restrictions are forcing some farmers to consider alternatives as sources of income. One possibility is the farm production of beef, says U. D. Thompson, extension animal husbandman. For those interested in this possible source of income, he suggests they pick up a copy of L-507, "A System of Farm Steer Production."

The names of all taxing units which assess and collect taxes on said property not made party to this suit are NONE.

Plaintiff and all other taxing units who may set up their tax claims herein seek recovery of delinquent ad valorem taxes on

the property hereinabove described, and in addition to the taxes all interest, penalties, and costs allowed by law thereon up to and including the day of judgment herein, and the establishment and foreclosure of liens, if any, securing the payment of same, as provided by law.

All parties to this suit, including plaintiff, defendants, and intervenors, shall take notice that claims not only for any taxes which were delinquent on said property at the time this suit was filed but all taxes becoming delinquent thereon at any time thereafter up to the day of judgment, including all interest, penalties, and costs allowed by law thereon, may, upon request therefor, be recovered herein without further citation or notice to any parties herein, and all said parties shall take notice of and plead and answer to all claims and pleadings now on file and which may hereafter be filed in said cause by all other parties herein, and all of those taxing units above named whom may intervene herein and set up their res-

spective tax claims against said property.

You are hereby commanded to appear by filing a written answer and defend such suit on the first Monday after the expiration of forty-two(42) days from and after the date of issuance hereof, the same being the 18th day of September, A.D. 1961 (which is the return day of such citation), before the honorable District Court of PARMER County, Texas, to be held at the courthouse thereof, then and there to show cause why judgment shall not be rendered for such taxes, penalties, interest and costs, and condemning said property and ordering foreclosure of the constitutional and statutory tax liens thereon for taxes due the plaintiff and the taxing units parties hereto, and those who may intervene herein, together with all interest, penalties, and costs allowed by law up to and including the day of judgment herein, and all costs of this suit.

Issued and given under my hand and seal of said court in the City of FARWELL, County,

Texas, this 4th day of August, A. D. 1961.

Hugh Moseley  
Clerk of the District Court  
PARMER County, Texas,

**Schell Completes Military Training**

Army Pvt. James C. Schell, son of Mr. and Mrs. Virgil F. Schell, Farwell, completed the final phase of six months active military training under the Reserve Forces Act program at the Air Defense School, Fort Bliss, July 29.

During this final phase, Schell was trained in the duties of a radar operator.

He is scheduled to spend the remainder of his military service with the 5th Artillery's Battery B, a National Guard unit in Clovis.

Pvt. Schell is a 1956 graduate of Farwell high school and attended Eastern New Mexico University in Portales.

**Bert Williams Is Summer Employee At Esso Research**

LINDEN, N. J.--Bert Williams of Farwell is among the 80 college students working this summer at Esso Research and Engineering Company. Above, with his colleagues during recent tour of the research laboratories, Mr. Williams, second from right, watches as Esso Research chemical engineer describes operation of equipment used to study the processing of experimental plastics derived from petroleum. Tour held to acquaint students with scope of company's research and engineering activities, was part of the special summer program designed to give students an opportunity to gain technical experience in a specific area of research and to help them determine the course of their future careers. Mr. Williams, who is doing graduate work in chemical engineering at Princeton University, is assigned to a project in the firm's process research division.

Green, deceased, whose name and residence are unknown, and the respective unknown heirs and legal representatives of all the above named parties, the unknown owner or owners of the hereinafter described property and their heirs and legal representatives, whose names and places of residence are unknown, and any and all other persons, including adverse claimants, owning, or having, or claiming any legal or equitable interest in or lien upon the hereinafter described property delinquent to plaintiff--herein for taxes.

**It's the savingest time of the year on the trucks with the workingest ways**

**SAVE!** You just can't beat August buys for saving. It's the time of year when Chevrolet dealers traditionally pull all the stops. You'll find sweeter-than-ever savings waiting for you on every '61 Chevy truck—from the nimble Corvair 95's, right up to the mighty medium- and heavy-duty jobs. Come in and save a bundle!

**SAVE!** You just can't beat Chevy trucks for working. With Chevy's easier riding Independent Front Suspension, loads ride easier, drivers stay fresher, the truck lasts longer. You get more work, more hauls, for your truck dollars!

**SAVE!** And for the frosting on the cake—you just can't beat Chevy trucks at trade-in time, either. Latest official industry reports prove that Chevrolet trucks lead in trade-in value, week after week, over every major competitor in Chevy's price range.\*

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Proverbs	22	6
Monday	Psalms	103	13
Tuesday	Psalms	121	5-8
Wednesday	I Samuel	2	18-20
Thursday	I Samuel	3	2-9
Friday	I Samuel	16	6-13
Saturday	I Samuel	17	41-49

Buddy was going to the circus today, but he woke up with the sniffles this morning and the whole thing had to be called off!

While grown-ups learn to shrug off disappointments like that, it isn't easy for a child. Buddy's mother will soon come to the rescue with a special taffy pull or a favorite story-reading session, and that will help cushion the blow.

But there will be times when Buddy will have to stand up to far greater tests than this, and when he will have to take far greater disappointments in stride. That's one of the reasons his mother has started taking him to Church and Church School. It isn't that the Church serves as a cushion in times of stress... rather, it stands as a pillar of strength, lending support to all who come within it.

Hopper--  
Someone told you, that she was carrying such responsibilities. Occasionally, a slice of life such as this seems to put things back in balance and I realize that what a person is is infinitely more important than who he is.

Jerry Don Utsman, son of Mr. and Mrs. L. T. Utsman of Farwell, recently completed 6 months of military training at Ft. Ord, Calif. Utsman is a graduate of Farwell High School, and attended college at West Texas State in Canyon. He will be home in mid-August.

### Scouts Win Third At Meet

Farwell boy scout troop 201, sponsored by the Farwell Fire Department took third place in the young scout division at the El Llano Grande district swimming meet at Cannon Air Force Base Monday.  
Tim Crume, son of Mr. and Mrs. Kirt Ceume won two ribbons in the meet, taking a second place in the backstroke and third in the breaststroke.  
Other boys entered in the meet from Farwell were Lewie Bradshaw, Bruce McCuan and Mike and Dale Camp.  
The troop received a large ribbon for their efforts.  
Sixty-five boys and leaders attended the meet, which was held at the Officers' Club pool following a short tour of the base and an inspection of a helicopter.

**Farwell Registrars--**  
rollment fee of \$2.00 for all elementary students. The fee will be for workbooks and other supplies.

Grades 7-12--\$5.00  
24-Hr. Policy--\$12.00  
Football Policy--\$12.00

## Lazbuddie School Begins August 28

Lazbuddie School will begin classes Monday, August 28th, with 350 students expected to enroll. Parents with beginning 1st graders, are reminded to get their smallpox vaccination before school starts.

At the present time, three teachers are needed to complete the faculty before school starts. Superintendent J. G. Ward has a few applications but no one has been hired to fill one section of the first grade, public school music, and fourth grade.

Contracts approved at the special board meeting August 4 were: Mr. Carol Stepp, high school social studies; J. F. Lands, Jr., high school math and science; Charles Walton, junior high social studies; Mrs. Frances Walton, home economics; Mrs. Dorothy Morgan, third grade; and William Morgan, high school principal and science.

### Hospital Notes

Warlick Dollar, son of Mr. and Mrs. Bill Dollar, was admitted to the Parmer County Community Hospital Tuesday evening where he received treatment for a broken collar bone. He is home now and resting well.

Mrs. Willie Lovelace of Farwell is reported to be in serious condition at the Clovis Memorial Hospital. She was admitted to the hospital Thursday evening following a heart attack and stroke. She has suffered several strokes during her confinement. Her children are at her bedside.

### Quarterback Club Meets Monday Night

First meeting of the Farwell Quarterback Club is scheduled for Monday night at 7:30 in the City Hall.

Purpose of the meeting will be to get the new officers elected and make plans for the upcoming football season.  
All old members and interested new members are asked to be on hand.

A MARRIED MAN ALWAYS KNOWS EXACTLY WHERE HIS MONEY GOES-- HIS WIFE SPENT IT.

### Bands Have Pre-Season Activity

Jerry Banks, newly hired band director at Farwell, has announced plans for pre-season rehearsals for the Farwell marching band, and has scheduled a special meeting for persons interested in a beginning band program.

Banks, a June graduate of Texas Tech, stated that he hoped to utilize marching techniques that originated in the Big Ten Conference and are now being introduced in many Southwest Conference schools including Texas Tech. He has had many courses in how to best modify and apply these styles for use by high school bands.

Styles include rhythm routines, precision drills, change of pace, and many other movement based on the psychology of surprise and contrast which should prove interesting and entertaining to both the spectators and band members.

Pre-season rehearsals for the marching band began Monday, August 14, and will continue until school starts. The classes are in the band hall at 4:00 and are over by 6:00.

A meeting has been set for August 24 at 7:30 for students and parents interested in a beginning band program for the school. The meeting was originally set for August 15, but was postponed due to rain.

### School Opens--

Missouri, University of Kansas and University of Texas, and has played trumpet with the University of Missouri orchestra, the Bural Symphony orchestra and Amarillo Symphony orchestra.

He has taught public school music for 34 years and has won many state and district firsts with musical groups.

Since 1956 awards won by his students include: girls glee club, five district firsts, a state second and a state first; another of his pupils won three district firsts and a state first on the piano; the girls chorus, four district firsts; clarinet trio, first in district; woodwind quintet, a district first; brass quartet, first in district; band, second in district on concert music; girls vocal sextet, four district firsts and a state second; and the girls vocal trip has won three district firsts.

His daughter with his tutoring won nine district firsts and two state firsts on the baritone.

Newly hired first grade teacher is Mrs. Beulah Trammell who received her education at Eastern New Mexico University. She has a BA degree and an MA degree from the school where she majored in secretarial science and elementary education.

She taught commercial subjects at Ranchvale High School; sixth grade at the Will Rogers Elementary School in Hobbs and was third grade teacher at Melrose.

Mrs. Trammell listed her extra curricular activity interests as physical education and drama.

### Moisture Boosts--

now and harvest time, this moisture was just about enough to assure us of a bumper crop," said one farmer this week, and most everyone else was in agreement.

A few isolated areas in Parmer County hadn't received much moisture yet, but the county as a whole did get some good moisture.

### Dial Named--

given the Wheatheart winner. Last year's winner, Miss Jill Russell of Liberal, Kansas, will crown the 1961 Wheatheart.

The Wheatheart contest has attracted national publicity since its inception in 1947. Winners have been sent to Cuba, Florida, Canada and on other tours as "The Number One Wheat Salesman in the Wheat Industry."

Miss Osborn is sponsored in the Wheatheart contest by the Theta Rho Chapter of Epsilon Sigma Alpha of Farwell. Her parents are Mr. and Mrs. O. E. Osborn of Texico.

### 35 Boys Report--

morning, and many of them reported in good shape, the coach says.

By Thursday afternoon, after twice-a-day sessions throughout the week, most of the boys had the soreness worked out and were in good condition.

Most of the sessions this week have been devoted to conditioning and fundamentals.

The Steer hopefuls will start mixing it up a little more next week and the first scrimmage session is scheduled with Olton next Thursday evening at 5 o'clock. The scrimmage will be at Steer stadium and the public will be able to get their first look at the 1961 aggregation.

The first game this year will be with Friona on September 1.

### Miss Osborn--

the east team to a 20-0 win over the West.

He was the signal caller throughout most of the game and put on a fine show for the 3,800 fans on hand for the all-star clash.

Following the game, Dial was presented a trophy for being named the outstanding back.

Carroll Huggins, Farwell halfback, played for the west team, which was never able to muster much of an offense against a rugged east defense.

Also representing Farwell at the game was Jo Potts, who was a cheerleader, and Carolyn Routh, who was a candidate for Greenbelt Bowl Queen.

Miss Elaine Yarborough of Wellington was the queen and Susan Dillon, of Clovis, who also represented Farwell in the contest, was a runner-up.
