Texico's Best...

This year everything came together and they won the State Championship, and a lot of the credit for this accomplishment lies with the team's coach.

In 1982, the Wolverine basketball team won third place in the state tournament, but this year, along with the state championship, they also won the state tournament, and a lot of the credit for this accomplishment lies with the team's coach.

This year's honorees were presented plaques from the Texico Chamber of Commerce and we take great pleasure in recognizing their accomplishments.

Wally's business is in the public eye and he wants to keep it that way.

When Wally's milk shake business expands or contracts more than he likes, he earns a profit. If a store's sales go up or down, it affects the demand for ice cream, milk, syrup, coffee, and his investment. His income from sales, he earns money. Compounded interest.

When you pay Southwestern Public Service's bill, it is for the service you receive. Each month, you pay the expenses of making and delivering electricity. Two-thirds of this money is spent on the last mile of service, which is to the electric meter. WPS earns money from this. The other one-third is spent on the generation of electricity, which is also paid for by you.
