Farwell Juniors Take District Title, Enter Golden Spread Relays

Farwell junior high school track and field team won the district title at Kress Saturday defeating their nearest opponent, Kress, by some 46 points. Farwell garnered 179 points with Kress having 133 and Springlake 96.

The Farwell team won first in all events with the exception

of the 50 yard dash and the 660 run. They will finish the season by participating in the Golden Spread track meet at Plainview this weekend. Earlier in the season the Farwell boys had been winner of first place at the Kitten Relays, in Clovis, garnering 55 1/2 points to that of their nearest foe who had

42 points.

Lewie Bradshaw with 50 points was high man at the dis-

Reminder Of Enrollment

Mrs. Zelfa Younger, elementary principal in the Texico school system, is reminding parents of beginning students of the pre-enrollment scheduled for today (Friday), with parents to register their children in the office at the elementary building between the hours of 1:30-3:30 p.m.

Parents must present the child's birth certificate and a record of his immunizations at time of registration. All children who will be six years of age on or before January 1, 1965, should be registered, stressed Mrs. Younger.

Mrs. Margie Taylor, school nurse, will be on hand to assist parents with the child's health program and Mrs. Younger will have a booklet of helpful information available for the parents.

Children should be registered now and not when school starts says Mrs. Younger. "With the registration now it makes planning for the school year much easier," she reiterated.

trict meeting. He had a first in broad jump, pole vault, (setting a new record), high jump, high and low hurdles.

Places won by Farwell were: shot put-41 feet, 1st, Larry Lee; 100 yard dash-1st, Larry Lee, time 10.6; 220 yard dash-1st, Alfredo Flores, time 25.1; discus-1st, Alfredo Flores; 220-3rd, Tim Crume, time 25.7; broad jump-1st Lewie Bradshaw; pole vault-1st, Lewie Bradshaw, (9 ft. 10 in. new record), high jump-1st Lewie Bradshaw (5 ft. 5 in.), high and low hurdles-1st, Lewie Bradshaw, 2nd, Bobby Chadwick; 75 yard dash-2nd, Warlick Dollar; 440 relay-1st, (Alfredo Flores, Warlick Dollar, Tim Crume, and Larry Lee) time 49.4; 880 yard dash-1st (Flores, Dollar, Crume and L. Lee), time 144.3; chinning-1st, Alfredo Flores, 2nd, Robin Mahaney. The team also placed in several other events.

Boys who will participate in the Golden Spread meet are: Lewie Bradshaw, Tim Crume, Larry Lee, Ricky Lee, Al Phillips, Warlick Dollar, Lawrence Bryant, Robin Mahaney, Bobby Chadwick and Alfredo Flores.

"The boys are a fine group," commented Coach Jerry Dee Owen, adding that they do their best in each endeavor.

Farwell Second In District 3-A Track Action

Farwell Steers with 115 3/4 points was winner of second place in the district track and field meet action held in Kress Saturday. Hale Center with 144 3/4 points easily took the championship.

In placing second Farwell was able to garner only two victories, both by Roy Donaldson. He won the 100 yard dash and the 220 yard dash and was also second high individual at the meet.

Farwell qualified five boys, in eight events for the regional meeting to be held in Lubbock April 24-25, following closely

behind Hale Center who qualified in nine events. Springlake qualified in seven events while Kress and Sudan each qualified in two.

Places won by Farwell include: 880 run, Warren Gossett, 3rd; 100 yard dash, Roy Donaldson, 1st, time 10.0; 220 yard dash, Roy Donaldson, 1st, time 22.8; 180 low hurdles, Butch Ford, 3rd; shot put, Leon Lovelace, 2nd; mile run, Robert Pruitt, 2nd; pole vault, Charles Norton, 2nd; Doyle Johnson, 3rd; broad jump, Roy Donaldson, 2nd; discus, Leon Lovelace, 2nd.

The team was disqualified in the sprint relay when they dropped the baton.

Coach Dempsey Alexander said, "Our boys have worked hard all season and their greatest disappointment was when they dropped the baton in the sprint relay Saturday, thus causing the team to be disqualified."

Boys who will represent Farwell at the regional meeting in Lubbock are: Roy Donaldson, Leon Lovelace, Warren Gossett, Charles Norton and Robert Pruitt.

At the present time Farwell is leading for the all sports trophy which will be presented to the school leading in the sports field at the end of school. Points are based on placings in football, girls' and boys' basketball, girls' volleyball and track. The trophy is now on display at the school.

Bookmobile Is Coming

The Library Bookmobile is coming! It will make its first official visit to Farwell on April 25, stopping at the Holiday Store parking lot from 8:45 a.m. - 11:45 a.m. for the convenience of local library patrons.

The bookmobile will return to Farwell each three weeks following its initial visit. The traveling library will endeavor to strengthen library service to this area and is meant to be a service to each and every person who enjoys reading.

Mrs. Georgia Pena has been employed as librarian on the

bookmobile which will make a total of 44 stops in a four county area which includes, Parmer, Bailey, Lamb and Cochran.

The traveling library made its initial run in the area on April 15 stopping at several towns in Bailey county. Headquarters with shelf space for the books is located in Muleshoe.

The Bookmobile was recently approved by county commissioners, after several county civic groups had asked for it to be approved for service in Parmer County.

Day Time Tops Club To Be Organized Locally

Tentative plans for organizing a day time TOPS (Take off pounds sensibly club) in the Twin cities are underway with a meeting to be held in the home of Mrs. Aileen Teel at 720 Anderson St., Texico, Thursday, April 23, 9:30 a.m. All women interested in becoming members of this club are urged to get in touch with Mrs. Teel, phone 482-9151 or Mrs. Ysleta Kittrell, phone 481-3415, before the meeting. Members of the Twin Cities TOPS will be in attendance to assist with the organization.

The club will be organized will not be a part of the Twin Cities TOPS, but both will be

sister affiliates in the national TOPS Organization. The new club will have its own rules and will write its own set of by-laws.

School Census In Progress At Texico

School officials in Texico are taking the annual census, with parents who have received the blanks asked to return them to the office of Supt. A. D. McDonald before the April 20 deadline.

All children who will be five (Continued on Page 2)

Texico Invitational Track and Field Meet Saturday

For the fourth consecutive year Texico High school will be host for the Invitational track and field meet this Saturday, April 18. Ten schools have accepted invitations to attend the meeting and several others are expected to reply before the deadline.

Schools sending teams to the meet are Ft. Sumner, Carlsbad-(Mid-High), Tatum, Grady, Dexter, Elida, Floyd, Melrose, House and Dora.

Trophies will be presented to first, second and third place teams and to the high point man in the meet as well as the high point man for Texico. Ribbons will be presented to the first five place winners in each event.

Local businesses contributing trophies and money with which to buy ribbons for the winners are: State Line Grain, Helton Oil Co., Citizen's Bank of Clovis, Asgrow Seed Co., Rip's Western Wear, Tom Finley's Texaco Station, Transport Truck Stop, Wheeler Ave 66, Lebow Hotel and Cafe, C. L. Cathey, Roth Grocery, Rose Drug, City Cleaners, Piggy Wiggly, Farwell Hardware, Cover Shop, Tom Baul's Beauty Salon, Mll and Mary's, Billington Barber and Beauty Shop and Truitt's Barber Shop.

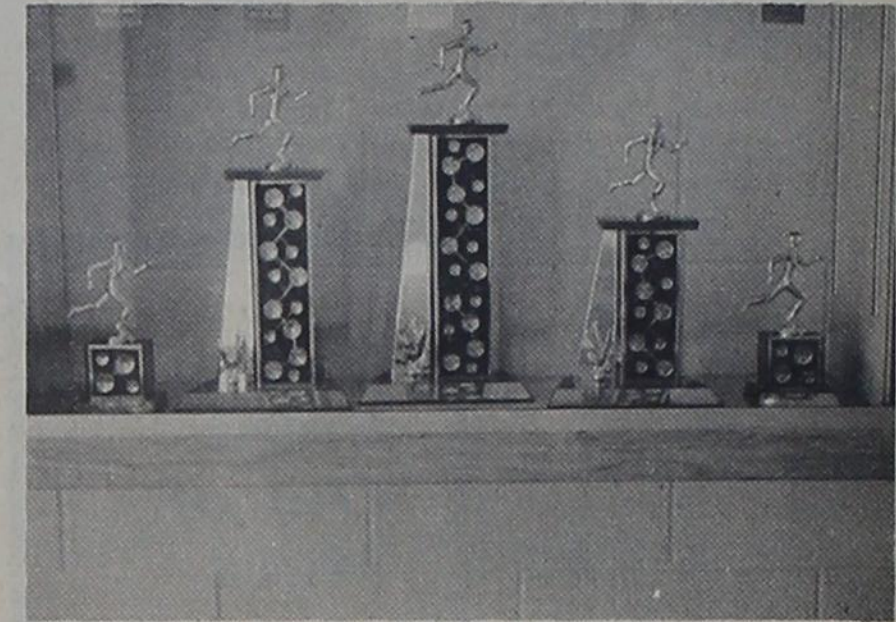

Preliminaries will begin at 10:45 a. m. (CST) and the meet

will continue through the day with events scheduled to be completed by 5 p. m. (CST). Lunch will be served in the school cafeteria at the noon hour by members of the Texico PTA.

Several of the Texico track team members were unable to attend the Menual relays in Albuquerque over the past week-

end, due to injuries. Mike Spearman was the only Texico man to win a ribbon at the meet. He placed fifth in the mile run, running it in 4:59.8.

Wayne Hudnall will be unable to participate in the invitational meeting this Saturday due to an injury, which will greatly hamper the Texico efforts.

These beautiful trophies will be presented to winners at the Texico Invitational Track meet Saturday, with the large trophy in the center going to winner of first place, the smaller trophies in the center going to winners of second and third place and the smallest trophies going to high point man in the meet and high point man from Texico. Ribbons will be presented to the first five places in each event, courtesy of local businesses.

Farwell FFA Second In Land Judging At Area Contest

Farwell FFA land judging team, which placed first in a meeting held at Littlefield recently was winner of second in the area judging meet held in Canyon Saturday. In winning second they are now qualified to participate in the state judging contest to be held April 22-24 in Stephenville.

Approximately 50 teams representing 10 areas will participate in the state contest.

Teams from this area will include, Farwell, Slaton, Cooper, Spur and Monterey. Slaton was first place winner in the area contest; however Farwell was district winner.

Members of the land team are Gilbert Dale, Delton Wilhite, Gary Blain and Richard Haseloff. Dale was second high individual in the area contest and winner of first place at the Littlefield contest. Delton Wilhite was third high individ-

ual at the Littlefield meeting and 7th at the area contest.

The dairy cattle judging team was seventh place winner at the area meeting. No report was available on the other teams entered in the judging contest. Members of the dairy team are Charles Kitten, Joe White and Randy Robertson.

The land judging team will be accompanied to Stephenville by Prof. Robert Morton, FFA Advisor.

LAND JUDGING TEAM: Members of the Farwell FFA Land judging team Delton Wilhite, Gilbert Dale, Richard Haseloff and Gary Blain, who will be in Stephenville next week to participate in the state land judging contests, sample some of the soil near the agriculture building at the Farwell school, in preparation for the contests. The boys have turned in good reports in several judging meets recently placing first at Littlefield and second in the area contests, held in Canyon the past Saturday.

Texico Band Receives Superior Rating In Sight Reading

Texico high school band, directed by Gary Stelling was in Portales Saturday, where they participated in the Eastern New Mexico University band clinic in the class D division. They were recipients of a I rating (superior) in sight reading and a rating of III (good) in concert work.

In rating the band, Greg Randall, band director at Las Cruces commented, "The band has good training and discipline, fine instruction and listens attentively to instructions."

Other judges, Gary T. Garner, WTSU band instructor, G. T. Gilligan, Kermit Instructor and J. R. McEntyr, Odessa

band instructor commented that the band is a young band, which

shows good grasp of fundamentals, but needs work on sup-

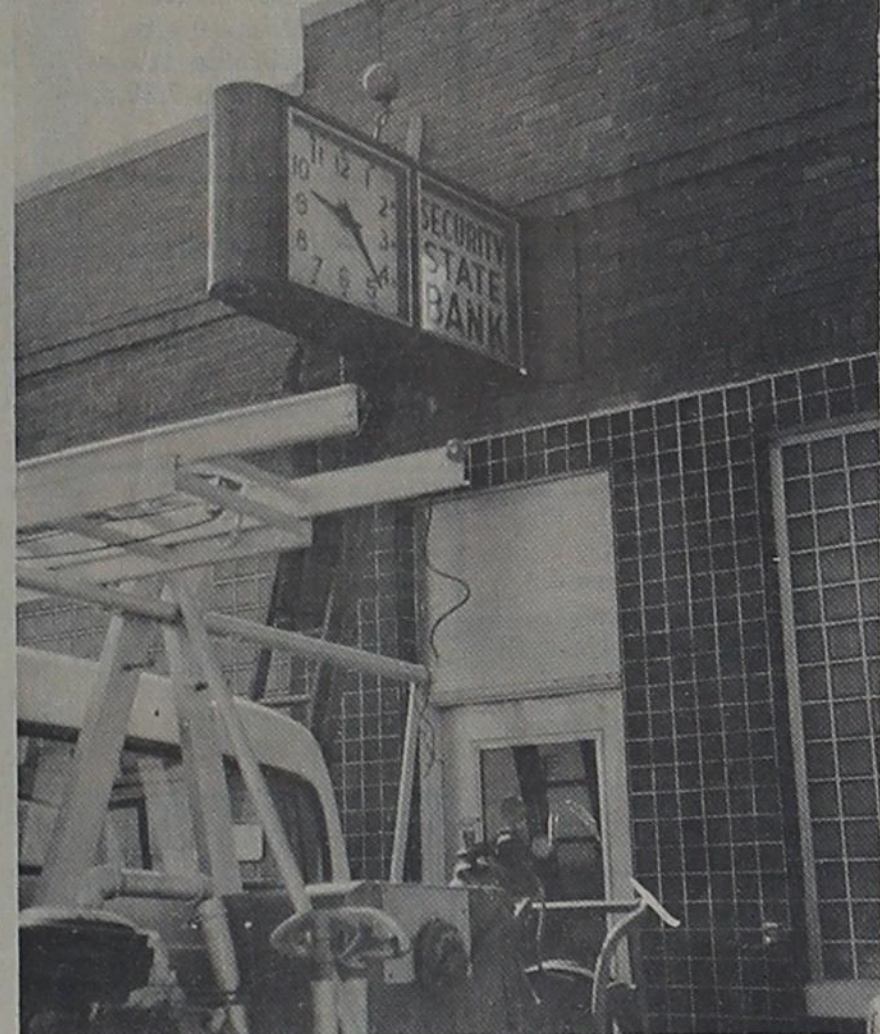

Gary Stelling, band director at the Texico school and James Pierce, high school principal seem quite pleased with the plaque won by the school band in contests at ENMU Saturday. The band was given a rating of I (superior) on sight reading and a rating of III (good) on concert work.

port, control and beauty of sound. The judges went on to say that the Texico group might be able to work with easier numbers since they are such a young band; however they advised that the group keep up the fine work they are doing.

Numbers used by the band in sight reading were: a march and a suite not yet released for publication. For the concert work they played: "Burnished Brass", "Romeo and Juliet" and "Little Scotch Suite."

They were presented with a plaque for their performance and their superior rating.

Melrose received a rating of III in concert work and II in sight reading and Captain received a IV in concert work and III in sight reading. Stelling commented "We are proud of our progress this year and believe that this is the first time Texico has received this superior rating in Class D sight reading."

Saturday was moving day for Security State Bank, when the contents were transferred to the new building in east Farwell. Not moved until Monday, however, was the chime-clock shown here being taken down by workmen.

Bank Moves--Open House Next Weekend

Security State Bank officers and employees, after a patient wait of many months during which their new building which was being constructed in East Farwell, made the move Saturday, and were open for business Monday morning.

"On Friday they told us we could have it," says G. D. Anderson, bank president, "so the next day we took it."

Everything from bulky records to a 3500-pound steel safe (which had to be dug out of

concrete) was moved from the old location at First and Main. The new building will attract widespread notice as it features circular construction and a large dome on the top--some of the most unusual architecture in the area.

Open house for the new quarters will be Sunday, April 26. Everything went smoothly in the transition, except for some minor worries. "We can't find a blame thing," reports Anderson.

Pre-Enrollment For Farwell Beginners

Parents of Farwell children who will be beginning school in the fall are reminded of the pre-enrollment program to be held at the Farwell elementary library April 17 (today) 1:30-3:30 p.m.

Children should be left at the Home Economics building where a baby sitting service

will be available. Parents are to bring with them to the meeting the child's birth certificate and a record of his immunizations.

All children who will be six years of age by September 1, 1964 should be enrolled says Mrs. Frances Clarke, school counselor.

Entered as second class matter at Farwell, Texas, under the act of March 3rd, 1879. Published every Thursday.

SUBSCRIPTION RATES -- Farmer and adjoining counties, \$3.00 per year; elsewhere, \$4.00 per year. Payable in advance.

Dr. Tipps Discusses Dating, Marriage For Farwell FHA

Twenty six members of Farwell FHA (Future Homemakers Association) and their sponsor heard an address by Dr. Garland Tipps at their Monday night meeting. Dr. Tipps discussed, dating practices and marriage.

He presented the idea that going steady should be taboo unless the boy and girl are planning marriage in the near future. He also told of the difference in high school marriages, college marriages and those where the wife works and the husband attends school, pointing out the pitfalls in each.

During the business meeting chapter members voted to take money from the treasury of the organization to send the two delegates to the state convention, to be held in Austin later this month. Delegates are Mikala Austin and Sherry Billingsley. Mrs. Balestri will accompany the girls to Austin. At the close of the evening refreshments were served.

School--

years of age before January 1, 1965, and will not have attained their 18th birthday by the same date should be listed on the census blank.

Any person knowing of a family with children who have not been in school, should notify school authorities.

Out of Sight, Out of Mind

Not so with Long Distance. it keeps you in touch, lets those you call know you're thinking about them. After all, Long Distance is the next best thing to being there. Pick up your phone and go visiting tonight.

Scout Leaders Meet Thursday

Scout and Cub Scout leaders of the area were in Farwell Thursday evening for the monthly round table, planning session for work scheduled by Scouts in May. The group met at the school cafeteria.

Scoutorama was discussed with Farwell to participate in the event with Clovis April 18, at the fair grounds in Clovis. Displays of the work done by the local boys will be planned. Cubs and Scouts are selling tickets for the event now. Leaders studied possible projects for Indian Lore, subject of study for May. Next meeting of leaders will be a potluck picnic at Oasis Park near Portales May 14.

A banquet is also planned later in the month. Farwell den mothers served homemade cookies and coffee to about 50 attendants at the close of the meeting.

Marriage Licenses Issued

Two marriage licenses have been issued in Parmer County in recent days with the first going to Larry Wayne Vaughn and Mary Gayle McCauley, both of Bovina on April 4, and the second issued to Darrell Ray Read and Patricia Kay Patton also of Bovina on April 14.

JIM LANGDON--A WINNER!

Railroad Commissioner Jim Langdon is a 49-year-old native Texan with a winning record in public office. When John Connally appointed him to the Railroad Commission, the Governor said:

"I have for several weeks been attempting to find a man I consider to have outstanding ability, integrity and honor... I am happy we have found that man -- Judge Jim C. Langdon."

Jim Langdon has fully lived up to Governor Connally's expectations. He has conducted his office in the spirit of Governor Jim Hogg, who had the Commission set up in 1891 to look after the public interest in railroad and freight rates. It now regulates also truck and bus rates and the production of oil and gas. Judge Langdon will continue to keep transportation rates in line and see to it that our oil reserves are protected against waste and greed. This will help keep down Texas gasoline prices, already among the lowest in the nation.

Jim Langdon was elected District Judge twice and re-elected Chief Justice of the El Paso Court of Civil Appeals.

ON THE OTHER HAND--

Jim Langdon's Opponent Is a 10-Time Loser!

Jesse Owens, 69-year-old attorney, is still running for office after 38 years and TEN DEFEATS. He has lost the following races:

- 1926--Defeated for Sheriff of Foard County by L. D. Campbell.
- 1930--Defeated for District Attorney by John Meyers.
- 1932--Defeated for District Attorney by Ed Gossett.
- 1940--Defeated for District Attorney by T. Gene Rogers.
- 1946--Defeated for Court of Criminal Appeals by Tom L. Beauchamp.
- 1952--Defeated for Court of Criminal Appeals by K. K. Woodley.
- 1956--Defeated for Court of Criminal Appeals by W. A. Morrison.
- 1958--Defeated for District Judge by Tom Davis.
- 1960--Defeated for Court of Civil Appeals by James Denton.
- 1962--Defeated for Texas Supreme Court by Meade F. Griffin.

A Winner All the Way--

Jim C. Langdon

for Railroad Commissioner

(Pol. Adv.--Paid for by Jim Langdon Campaign Committee, Charles C. Langdon, Chairman)

First Child For Bo Betty

Lazbuddie Is Winner In Soil Judging Contest

Lazbuddie High School's entry won the annual soil judging contest sponsored by the Farmer County Soil Conservation District last Friday at Hub. The Lazbuddie team rolled up 603 points of a possible 720, to nose out Farwell, whose

team scored 593 points. Bovina scored 588 points for third. Friona's team was forced to withdraw due to members on the falling list, so there were just three teams in the judging. Ronnie Melton of Lazbuddie, who entered the contest as an

alternate from Lazbuddie, undoubtedly won a place on his school's regular team, by claiming individual honors in the contest.

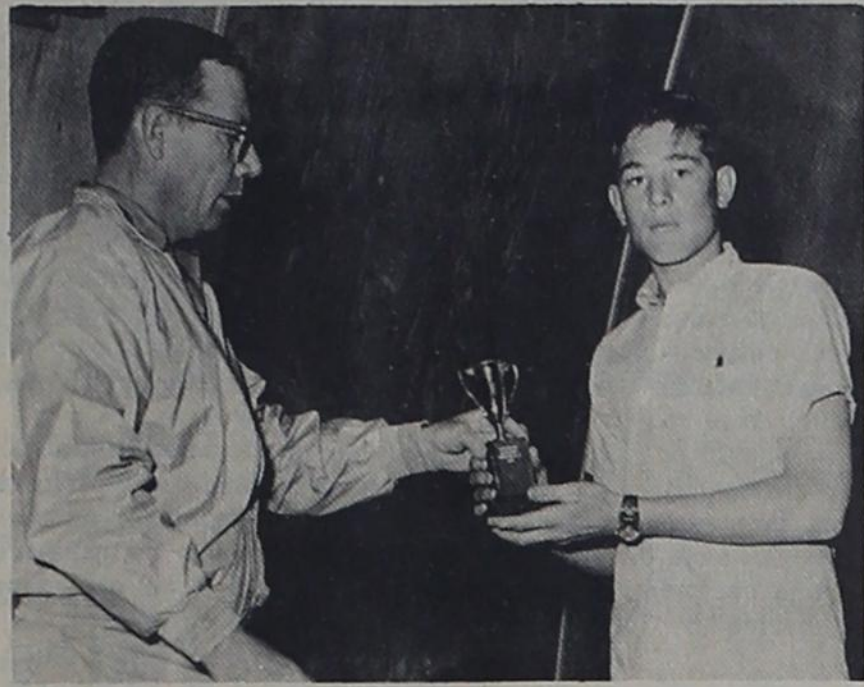

Melton scored 217 of a possible 240 points, Richard Haseloff of Farwell was second with 208 points. Farwell's Gilbert

Dale took third with 207, and Bovina's Billy Marshall was fourth at 205.

Members of Lazbuddie's winning team included Ronnie Melton, Bobby Morris, Sammy Harlan, Charles Ramage, Mack Holt and Hoppy Jennings. Scotty Windham is team coach.

Farwell's team members were Roger Dowdy, Richard Haseloff, Delton Wilhite and Gilbert Dale. Robert (Prof.) Morton is coach.

Team members on Bovina's entry included Scotty Rundell, Richard Carson and Billy Marshall. John Paul Jones is the coach.

TOP INDIVIDUAL. . . Winning top honors in the soil judging contest with a score of 217 of a possible 240 points was Ronnie Melton, right, of Lazbuddie. Bill Lyles, left, representing the Soil Conservation Service, sponsor of the contest, makes the presentation. (SCS photo)

"Hit Parade" Style Show Theme For HD Club

The general public is invited to attend the style show "Hit Parade" to be presented by Farmer County Home Demonstration Club women at the Hub community building (tonight) Friday, 8 p.m.

Clothing modeled will be

fashions created by ladies in the recent basic and advance clothing workshops, directed by Cricket Taylor, Farmer County HD Agent.

Ten original designs will be modeled among which will be a cocktail dress, a tea gown and fantasy of fur. Narrating the

show will be Mrs. Davis Guiley of the Midway Club.

No admission will be charged.

4-H Contests Set

The County 4-H Awards contests will be held Saturday afternoon, April 18 in the Oklahoma Lane Community Center, according to Cricket Taylor, HD Agent.

The favorite food show awards program includes 4-H members enrolled and participating in Food and Nutrition projects during the current year. Judging of the Favorite Food Show will start promptly at 1:30 p.m.

Other contests will be held at the same place from 2-4 p.m. Contestants include three competing teams in Electric

Awards contest, Public Speaking, Food and Nutrition Educational Activity, Dairy Demonstration and Soil Testing Contests. Max Bush and Franklin Bauer, 4-H adult leaders will be in charge of these contests.

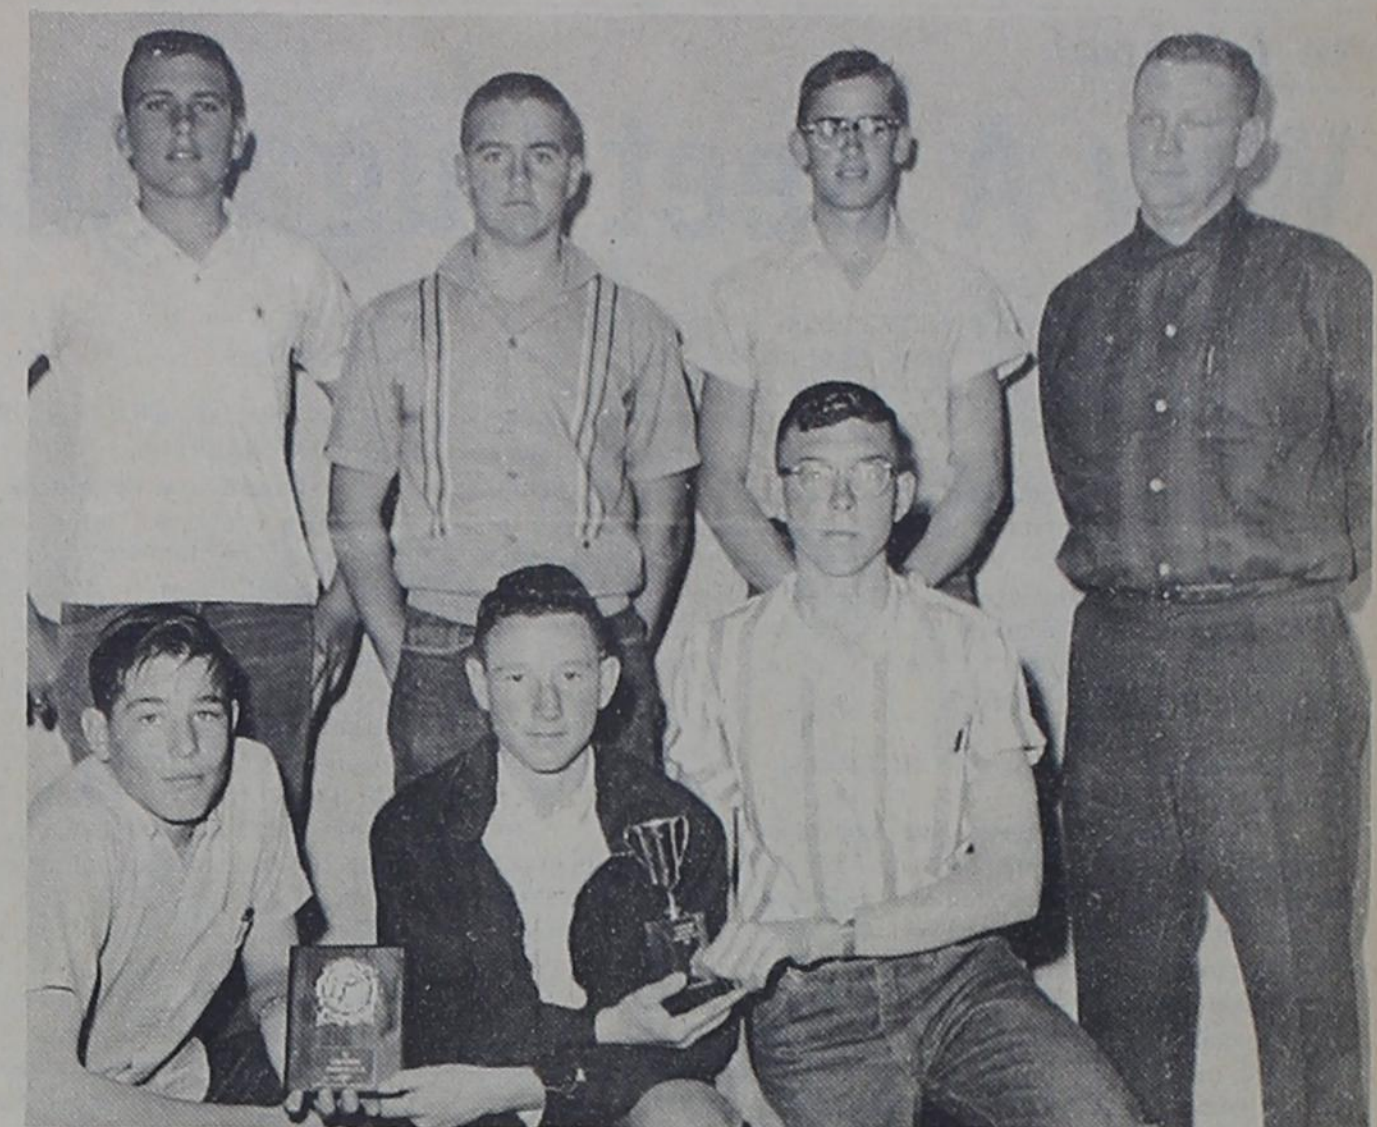

The two highest scoring participants in the Favorite Food Contest will represent Farmer County at the district contest to be held in Canyon, April 25. Highest scoring contestant or team in all other events will also go to Canyon for the district contest.

Parents and all 4-H members are urged to attend these contests.

Beef Stocks Abundant In Stores

Most newsworthy item on the food front this week is that beef supplies continue to be abundant. Generally, this means the appearance of frequent "specials" at meat counters. Beef short ribs, stew meat and liver make for economical and nutritious dishes, says Mrs. Gwendolyn Clyatt, Extension consumer marketing specialist. Consider the various cuts for pot roasting, and check price tags on round steak as well as T-bone, porterhouse and sirloin steaks.

Poultry counters also offer a wide selection at low cost.

WINNING TEAM. . . The champion soil judging team, from Lazbuddie High School, are pictured above. In the front are Ronnie Melton, who also won the high individual award, Bobby Morris, and Sammy Harlan. Standing are Charles Ramage, Mack Holt, Hoppy Jennings and Scotty Windham, coach. (SCS photo)

Farm Programs Explained At Bovina Meeting

All Farmer County farmers are urged to attend a meeting at the Bovina School Auditorium. Thursday night, April 23, 7:30 p.m. at which time Prentice Mills manager of the Farmer County ASC Office will explain the new wheat and cotton farm programs which have just been released.

Members of the county committee, Archie Tarter, Lazbuddie, Louis Welch, Friona

and Tom Beauchamp, Oklahoma Lane are also expected to be in attendance.

Think twice before you air your clothes in the sun, advises the National Institute of Drycleaning. If they are green, blue or white, they could change color. White garments may contain fluorescent whitening dye which is destroyed by sunlight causing the garment to yellow, and many green and blue dyes in silk and wool are susceptible to sunlight and will fade.

An Editorial

Why A Beet Sugar Quota Of 750,000 Tons Is Necessary

1. PRESENT BEET SUGAR QUOTA IS GROSSLY INADEQUATE
 The basic beet sugar quota (Section 202 (a) (1) of the Sugar Act) should be increased by 750,000 tons -- from the present 2,650,000 tons to 3,400,000. The higher levels of production requested by the government for 1963, 1964, and 1965 make an increase of this amount necessary. This increase is in the interest of U. S. sugar consumers, and is vital to American farmers who need sugarbeets as a cash crop and as an alternate or replacement for crops now in surplus production. Also it is important to the welfare of factory and field labor in the 25 states in which the Beet Sugar Industry is now located.

2. WHY BEET SUGAR PRODUCTION IS ABOVE EXISTING QUOTA
 To encourage "growth and expansion of the beet sugar industry" in new areas (Section 302 (b) (3), the Congress in 1962 provided for erection of six new beet sugar processing plants in the 1963-1966 period. And early in 1963, when the critical foreign sugar supply situation became alarming, the Executive Branch of Government turned to the Domestic Beet Sugar Industry as the quickest dependable source of greater production in the period ahead, and announced that there would be no acreage restrictions on sugarbeet planting in 1964 and 1965 as well as in 1963. The industry responded with immediate and substantial increases in production far above existing quota levels.

3. DRASTIC ACREAGE CUTS INEVITABLE UNLESS BEET SUGAR QUOTA INCREASED
 Unless the basic beet sugar quota is increased, established sugarbeet growers will be faced with a 40 per cent cut in acreage. Moreover, authorization of additional new beet sugar factories would be out of the question. It would be grossly unfair thus to penalize present growers who have contributed so importantly to the national sugar supply, and to prohibit

sugarbeet production in new areas where the crop is so urgently needed.

4. BEET SUGAR INDUSTRY SAVED MILLIONS OF DOLLARS FOR CONSUMERS IN 1963
 Consumers are benefiting materially from the Beet Sugar Industry's response to the Congressional intent and Executive requests. The Industry produced a half million tons more sugar in 1963 than in 1962, and is in the process of producing an additional quarter million tons of sugar this year -- thus contributing substantially to relieving the supply problem. Moreover, the Beet Sugar Industry has significantly recognized its obligations to consumers under the Sugar Act. In 1963 beet sugar sold from \$1 to \$3 a hundred pounds less than cane sugar in the same markets. Both the volume and price of beet sugar helped keep U. S. prices of imported raw cane sugar lower than many other countries had to pay for the same sugar.

By saving millions of dollars for U. S. consumers in 1963, the Beet Sugar Industry was continuing its tradition of serving consumers; beet sugar never sells for more than cane sugar, and usually sells for less. It is significant that in the one section of the country where only cane sugar is normally available -- the Northeast states -- the basis price for sugar has been the highest in the United States for many years. Recognition of the importance of domestic sugar production for American consumers was given by President Johnson on January 31, 1964, when he urged Congress to authorize unlimited 1964 marketing of domestically-produced sugar.

5. INCREASE IN BEET SUGAR QUOTA WOULD COME FROM UNALLOCATED "GLOBAL" QUOTA
 The 750,000-ton increase in the basic beet sugar quota could be made without disturbing any of the present individual country quotas. The increase would come from the so-called global quota. Under changed world sugar supply-demand con-

ditions it would appear undesirable to continue a system wherein a large quantity of United States supplies is not specifically allocated.

At Home In Farmer County

 County HD Agent

It pays to know about special Fabric and Garment Features -- for complete satisfaction.

The National Retail Merchants Association sponsors a set of symbols which indicate the care a garment should receive. Look for them attached to labels of garments you buy or printed on the selvage of fabric.

With a vast multitude of finishes -- wash and wear, crease resistance, stain resistance, shrinkage control, water proofing and etc. -- add to the complexity of the problems of selecting clothing. Some finishes are permanent, others are not. The only way to know is read labels carefully to determine special qualities and care requirements.

Buying Guides--since styles, fabrics, and even sizing and methods of construction and finishes vary and change so rapidly it is not possible to set up general rules for buying clothing. However if you carefully check fundamentals you will have little difficulty.

Foam-back Fabrics -- are new on the market that are light in weight. These are not completely proven yet but are comfortable to wear because of

light weight and warmth. Instructions state they may be laundered or dry cleaned successfully. If you expect to launder them, be sure all linings and trims are washable.

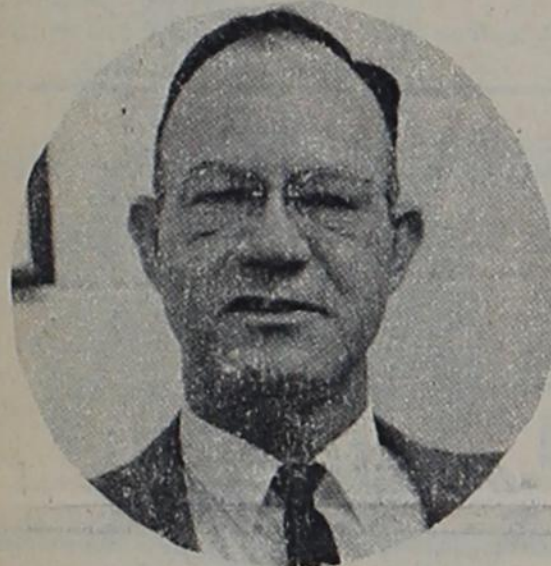

Blends -- some of the crease resistant fibers are blended with natural fibers of rayons to give more wash-wear qualities. A certain proportion of the proper man-made fibers must be present in every blend to insure the desired qualities.

Here are some recommended blends:

- 65% Dacron Polyester - 35% cotton
- 50% Dacron Polyester - 50% cotton
- 70% Orlon Acrylic-30% rayon
- 80% Acrilan Acrylic-20% cotton
- 70% Acrilan Acrylic-30% wool
- 55% Dacron Polyester-45% rayon
- 80% Orlon Acrylic-20% cotton
- 70% Orlon Acrylic-30% wool
- 70% Acrilan Acrylic-30% rayon
- 65% Dacron Polyester - 35% linen
- 55% Kodel Polyester-45% rayon

It really does pay to read labels whether its a ready-made or fabric you are buying. A bulletin called "Sewing Today's Fabrics" is available in my office that is helpful too.

When we gave our 15 year's accumulation of business to our successor, to become independent, we did so in the interest of our family's security. With your help, and the help of God (in whom we trust), we will build again. We are thankful for the volume of patronage we are already receiving.

6. OTHER DOMESTIC PRODUCER QUOTAS NOT AFFECTED BY INCREASED BEET QUOTA
 The transfer of 750,000 tons from the global quota to the beet area quota would not adversely affect the quotas of the other domestic producing areas -- Mainland Cane, Hawaii, Puerto Rico, and the Virgin Islands.

7. SUGAR ACT BENEFITS TO CANE SUGAR REFINERS
 Cane sugar refiners had their position materially improved by 1962 amendments to the Sugar Act. These added 450,000 tons to the cane refiners' volume by prohibiting future importation of that amount of foreign refined sugar authorized by the previous law. This brought total volume of cane refiners to nearly 7 million tons, and left only 75,000 tons of foreign sugar which may be imported as refined sugar. The slight increase in the beet quota in 1962 was offset, in the cane refiners' favor, by the transfer of Hawaiian and Puerto Rican deficits from domestic areas to foreign countries, which were required to ship the sugar in raw form.

It should be noted that 100,000 tons of protected beet sugar expansion have already been awarded to cane sugar refiners and that cane refiners' interests have applied for another 100,000 tons of the reserve. Thus cane sugar refiners are prime recipients of the benefits of the beet sugar expansion authorized by Congress.

8. WORLD SUGAR SITUATION CONTINUES TO BE UNCERTAIN

Many changes have taken place in the sugar world since Congress wrote the 2,650,000-ton basic beet sugar quota into the law in 1962. No longer is there a world surplus. World reserve stocks of sugar, large in mid-1962, are now almost non-existent. Even if talked-of increases in foreign production are eventually realized it will take time and a vastly improved investment climate.

Nearly a third of world sugar production is under Communist control. Instability and political turmoil plague many of the other sugar-producing nations of the world. Therefore, in this uncertain atmosphere, it is in the public interest to rely on the Domestic Beet Sugar Industry for an additional 7 1/2 to 8 per cent of our total sugar supplies -- which a 750,000-ton increase in the basic beet sugar quota, to 3,400,000 tons, would achieve. Even after adding 750,000 tons to the beet area quota, foreign countries would still be guaranteed a third of the total United States market of about 10 million tons.

The trend in tractors is not entirely toward the big machines. Some of the equipment companies are making small units of seven to ten horsepower for chore jobs around the farm and home. They are handy for garden work as well as for cleaning jobs and handle well in tight places.

United States Biggest Beef Importing Country In The World

The United States is the biggest beef importing country in the world, cattlemen attending the annual convention of the Texas and Southwestern Cattle Raisers Association were told recently.

Dr. G. Alvin Carpenter, extension economist, University of California, said 55 percent of all beef and veal moving in international trade last year was received in the United States, and he pointed out that beef and veal imports have increased from 1.5 percent of domestic production in 1956 to about 11 percent last year.

Carpenter explained that if beef imports had been rolled back to 1957 levels that cow prices last year would have been about five dollars per hundred higher.

He stated that in the past, beef imports had fluctuated up-

ward and downward with cow slaughter and the price of beef in the United States, but that there is reason to believe that this would not necessarily be true to the same extent in the future. This has come about because production costs abroad are much lower than can be achieved in the United States, and world trade patterns have changed so that Australia is more dependent on the United States market.

As an example, he singled out land costs. In the United States a cattleman has an average land investment of \$25 for each cow. In Australia, the cost of land for one cow is 15 cents in many areas.

Another factor contributing toward higher beef imports in the United States is the fact that it has lower tariffs and fewer non-tariff trade barriers than any major importing country of the world.

Levies on beef entering Great Britain, other than from Commonwealth countries, are 20 percent ad valorem, and in France they are 31 percent. The United States tariff is three cents per pound or about 10 percent ad valorem. Tariffs on imported beef in Canada is eight cents per pound.

Carpenter pointed out that in early 1963, Choice steers in Chicago were selling for \$27 per hundred but they had dropped down to \$22 per hundred by December 1963.

Among the reasons for the lower prices were the rising trend in beef imports, an expansion in cattle feeding, competition from other meats such

as pork and broilers, and feeding to excessive weights.

Carpenter said that in 1963, 84 percent of the beef and veal exported by Australia, approxi-

mately 90 percent exported by New Zealand and 35 percent of the beef and veal exported by Ireland was received in the United States.

CONTESTANTS AT WORK. . . Contestants in the soil judging contest last Friday are shown in action during the contest. It was held at Hub, with Lazbuddie taking team honors. (SCS photo)

Maybe it's just the spring weather making the sap run a little more freely in our veins, but we've recently been remembering some childhood advice to the effect that it's often wise to "look on the brighter side of things."

And, while the sunny side of the cotton industry street may seem pretty narrow and rocky at the moment, a little searching through the mass of cotton information that comes across our desk has revealed that a sunny side does, in fact, exist.

For instance, a nationally

known manufacturer of children's clothing, using anklets as an example, says his company is getting back into the all-cotton anklet market as fast as possible after the synthetic stretch-sock craze pushed foot disease up 5,000 percent over just a few years. He says all-cotton socks let your feet "breathe" and cut down on foot disorders, and that mothers in particular are finding this out.

"Man-made fibers" he says, "have a long way to go in matching the natural qualities of cotton, and a high quality product will always find a market."

Researchers of North Carolina State's School of Textiles have started a new project that they expect will lead to socks, T-shirts and underwear knitted from stretchable cotton yarns, enabling cotton to compete more

successfully in stretch fabrics. Director of the project says he hopes to develop all-cotton yarns that will retain all of the favorable properties of cotton and at the same time have the additional advantage of being stretchable. If you don't know what he's talking about when he speaks of "the favorable properties" of all-cotton, compare an all-cotton T-shirt with one from synthetics on a hot summer day. The difference will be obvious to you, especially if you are engaged in a strenuous sport.

A host of other new and improved uses for the king of fibers are being investigated, many of which show high promise.

On the production side of the industry, research is underway to lick some of the long-standing obstacles to lower cost and higher quality cottons. The boll weevil and other insects, verticillium wilt, weeds, seedling and other diseases, -- all are coming under the big guns of expanded efforts in this direction.

Right here in our own back yard research is making strides toward adapting the cotton plant to our low night-time temperatures during the growing season, and success in this undertaking can mean improved quality and yields for High Plains cotton through faster and fuller maturity. Irrigation, fertilizer, breeding, different cropping systems and other production elements are also under scrutiny to better the conditions for growing our cotton.

Again, maybe it's just the spring weather, but it appears to us that more and more of these bright spots are showing up on cotton's horizon, and we don't think it's accidental. We believe it is the direct result of the increased interest shown by producers and others in the industry in research and promotion of their product. And as this interest increases the bright spots will increase, too.

While this was being written the news came in that the cotton bill was passed by the House on the close vote of 211 to 203, climaxing over two years of painstaking legislative work by almost the entire cotton industry. Here too is an indication that our optimism may not be entirely misplaced. All pros and cons aside, the bill does make cotton available to U. S. mills at a price competitive with foreign mills. . . . a big step in the direction of increased cotton consumption.

The natural gas industry of Texas began in 1870 after a farmer in Washington County accidentally ignited gas in his water well.

FOOTSAVING EDUCATION

by James E. Edwards

Why is it that my neighbors' children get along very well with ill-fitting shoes?

In a survey of shoes conducted in the public elementary schools of Lorain, Ohio, it was found that 3,000 of the 4,000 children were wearing shoes that were one half to three and a half sizes too short. Each child was asked, "How do your shoes feel?" Every child but one said, "Swell - Fine - Good" etc.

Medical textbooks confirm the conclusion that children's feet do not hurt internally. The same "high pain threshold" that allows a baby to sleep blissfully in cold wet diapers also allows his feet to be deformed by ill-fitting shoes without pain at the time. Chinese babies whose toes were turned under and bound until deformed must not have screamed as they ought. At the age of sixteen when the bunions and hammer-toes begin to hurt, it is too late for anything except surgery to straighten the deformed feet. Your neighbors' children will probably become footsore parents who will take good care of their children's feet.

FORD MUSTANG HARDTOP

New Ford Mustang \$2368*

F.O.B. Detroit
Mfrs. suggested price.

*Manufacturer's suggested retail price. Destination charges and state and local taxes, and fees, if any, not included. Options such as whitewall tires are extra cost. See your Ford Dealer for his selling price.

This is the car you never expected from Detroit. Mustang is so beautiful, it has received the Tiffany Award for Excellence in American Design. Mustang brings you the look, fire and flavor of the great European road cars. Yet Mustang is as practical as its price.

Here's what the price includes: Deep foam bucket seats • Padded instrument panel • Full wheel covers • All-vinyl interior • Wall-to-wall carpeting • Sports steering wheel • Cigarette lighter • Glove box light • 2 automatic courtesy lights • Floor-mounted 3-speed shift.

Also: Twice-a-year (or 6000-mile) service schedule • Wrap-around front bumper • Curved side glass • Heater (unless ordered without) • Front arm rests • Parallel-Action windshield wipers • Safety-Yoke door latches • Front seat belts (unless ordered without) • Self-adjusting brakes • 170-cu. in. 6-cylinder engine.

Mustang was designed to be designed by you!

Convenience Options: 260-cu. in. V-8 • 3-speed Cruise-O-Matic transmission • Power steering • Power brakes • White sidewall tires • Push-button radio • Backup lights • Deluxe seat belts front and rear • Outside rearview mirror • 2-speed electric wipers and washers.

Luxury Options: Full-length console • Padded sun visors • Deluxe wheel covers • Air conditioner • Tinted glass • Vinyl-covered hardtop roof • Power-operated Convertible top.

Sports Options: 289-cu. in. V-8 • 4-speed manual transmission • Rally Pac (tachometer and clock) • 14-inch wheels and tires • Heavy-duty battery.

See your Ford Dealer

Irrigation Timing Very Important

As far as the High Plains Research Foundation at Halfway is concerned, in irrigation the question is not how much water to apply, but when to apply it.

The Foundation's irrigation research has extended into most of the principal money crops of the High Plains such as cotton, grain sorghum, castorbeans, soybeans, and wheat. Timing of the applications of

water has proved of the essence in all cases.

"Our tests have revealed very definite trends in each crop," Jim Valliant says, "The tests indicate irrigation timing and not necessarily the total amount of water applied is the major contributing factor in determining net return."

The Foundation tests have been aimed at finding the critical balance of water and fertilizer where the proper amount of water, applied at the right time, coupled with the right amount of fertilizer will produce the most return for the amount invested. "We believe there is a balance between irrigation and fertilizer," Valliant says, "and our goal is finding the method of getting the biggest return for dollar spent."

The studies, dating back almost to the birth of the Foundation research program in

1957, have changed the researchers' thinking about some of the crops.

"For instance," Valliant says, "we've been told to irrigate soybeans at first bloom. Our tests have proved to us that the water should be applied earlier."

Similar results have been gleaned from tests on other crops, and in all cases the timing of the irrigation has been found to be most important. The researchers still hold true to the theory of watering until the crop is wet, but at the right time.

The irrigation research program will be greatly expanded in the coming growing season. The wheat program is a prime example with five methods on 12 fertilizer levels planned for 1964 where three methods on four fertilizer levels were followed in 1963. Other crop research will be expanded.

AMMO NOTES

By Bill Bennett, Agronomist

FACTS AND FIGURES

West Texas farmers used 366,300 tons of fertilizer last year. The biggest percentage of this was anhydrous ammonia at 159,264 tons. This is over 3/4 of the anhydrous used in the entire state. Tonnage figures, by county, are as follows: Castro 17,410; Deaf Smith 24,931; Lamb 20,569; Hale 45,886; Parmer 29,207 and Curry Co., N.M. 7,173.

Farm income figures compiled by The Progressive Farmer show that the top counties in the state are in this area. Gross farm income per county and per capita farm income is given for several counties: Castro \$28,642,718 and \$38,038; Deaf Smith \$31,389,280 and \$42,707; Hale \$63,955,658 and \$41,664; Lamb \$56,921,168 and \$34,793; Parmer \$35,705,306 and \$41,373. Highest total farm income per county was Lubbock with \$83,707,600. Highest income per farm was in Kenedy County in South Texas with \$200,742 per farm. Kenedy County is the home of the King Ranch.

If you fertilized at the same rate some people salt a steak, you would apply 1,000 pounds per acre.

Research and education are vital to the progress of agriculture. Let's support our local experiment stations and encourage off-station fertility research work.

It takes approximately 250# of nitrogen, 75 pounds of P2O5 and 150# K2O to grow a 25 ton silage. The soil will supply a portion of this need. The rest has to be supplied.

A chrysanthemum by another name would be easier to spell.

Land Management For Lakebed Acres?

With 37,000 playa lakes dotting the High Plains and sloping land leading into every one of them, the need for land management in the area is evident.

Jim Valliant, water engineer at the High Plains Research Foundation at Halfway is concerned with the problem. He estimates that at least 50 percent of this sloping land, especially in Hale, Floyd, Swisher, Castro and Lamb counties, needs some form of land management.

At the Foundation farm at Halfway, Valliant has taken the land around one of the playa lakes on the 310-acre tract and subjected it to an extensive program on bench leveling to determine the value of land management in terms of dollars in the farmer's pocket.

Portions of the land around the lake have been cut to 8, 12, and 16 row benches and the remainder left in its natural, unshaped state.

Cotton and grain sorghum were planted in both areas and tests conducted to compare water use and yield, the factors which control net income. Since no facilities for measuring erosion were available, no studies were conducted on the amount of topsoil displaced.

Results of the tests have been significant. Based on a four-year average, the net income from cotton and grain sorghum produced on the benches was

\$20 per acre per year higher than that from the unshaped areas.

In addition to the increased yield realized on the benches, Valliant found that 30-40 percent less water was required for grain sorghum and required 10 percent less for cotton.

He also cites such things as less erosion, better utilization of rainfall, better utilization of supplemental water and a build-up of organic matter and fertility of the soil as hidden benefits realized in the bench leveling program.

"I'm getting a definite, stabilized yield on the benches and a declining yield on the unshaped ground," Valliant says, "this bears out the fact that crops grown on the slope require more nutrients, indicating a breakdown in the soil."

Valliant has experimented with 8, 12 and 16 row benches at the farm and has settled on a maximum length of 800 feet. The current experiments will be extended another year to arrive at a solid, 5-year average, and soybean benches will be added to the program.

The addition of 504 more acres to the research program may enable further research in bench leveling and terracing. Two lakes are on the new farm 10 miles southwest of Halfway, providing ample sloping land to be incorporated in the program.

Cotton Insect War Launched

A three-way attack that combines use of beneficial insects, cultural controls, and chemicals within the plant is being launched in the war against harmful cotton insects.

A \$29,000 research grant to uncover facts necessary for such an attack has been made to the University of California at Riverside by the Cotton Producers Institute. It was announced by Roy B. Davis, Lubbock; Leroy Durham, Plainview; Roy Forkner, Lubbock; and Jack Funk, Harlingen, Texas trustees for the producer organization.

Scientists will place special emphasis on problems related to cotton bollworms, lygus bugs, and spider mites.

Project aim is to develop a broad control program for use by growers. With it growers could combine cultural methods and selective insecticides for more effective use of natural pest control. In this type control insect parasites and predators are encouraged to attack and destroy harmful cotton pests.

To develop the broad control program scientists are probing the basic biological interrelationships of pests, chemicals and beneficial insect life in cotton fields.

Effective systemic insecticides would be almost perfect to control pests and gain maximum benefit from beneficial insects. Production practices to reduce or prevent migration of

pests into cotton fields would reduce the need for insecticides, enhance effectiveness of beneficial insects, and lower the cost of producing cotton. It is recognized insecticides have proved highly beneficial in curbing insect damage and that they are essential for profitable cotton production.

However, it has become increasingly apparent reliance upon insecticides has created problems such as the: (1) reduction of parasites and predators which results in still heavier dependence upon repeat applications to control certain pests; (2) outbreaks of pests other than those for which the treatment was originally intended; and (3) increasing number of pests which have developed resistance to insecticides.

The typical American family spent \$1,500 on groceries last year, says the U. S. Department of Agriculture. But, say home economists, this grocery bill can be cut as much as 10 percent with smart shopping practices such as supermarket "specials."

Bacon is the most popular meat with all age groups, according to the Market Research Corporation's National Menu Study. Hot dogs and hamburgers turn up on the tables of the wealthy more often than the poorer families; and 25 percent of all chicken is eaten on Sunday.

Treasurer's Report

A Son For Mark Leithens

Captain and Mrs. Mark N. Leithen of Denver, former Farwell residents, announce the arrival of a son in their home on April 9. The little boy who weighed 6 lb. 11 oz. and is 19 inches tall has been named Mark Nicholas Leithen II.

Local grandparents are Mr. and Mrs. Johnnie Williams. Paternal grandparents are Mr. and Mrs. Henry Leithen, Appleton, Wis. Mrs. Maggie Stone, Farwell, is maternal great-grandmother.

Mrs. Williams is planning a trip to Denver later this week to make the acquaintance of her new grandson.

Visiting in the home of Mr. and Mrs. M. T. (Mose) Glasscock over the weekend were Mrs. Orville Cunningham and Gene.

ENGAGED: Mr. and Mrs. H. J. Valentine, 720 Torreon, Clovis, take pleasure in announcing the engagement of their daughter, Jan, to Jackie Dyer, son of Irene Dyer, Texico and Claude Dyer, Farwell. Friends and relatives are invited to attend the June 13, 7:30 p. m. (MST) wedding at First Assembly of God Church, 517 W. 21st, Clovis and the ensuing reception.

Impressive Ceremony Unites Sherri Austin-Glenn Dell Phipps

In an impressive ceremony read by Rev. J. L. Bass at Farwell First Baptist Church Sunday afternoon, Sherri Austin and Glenn Dell Phipps were united in marriage.

The double ring ceremony was read at the church altar where a pyramid arrangement of several seven branched candelabras holding tall pink tapers culminated in a central tree candelabra holding many tapers. In front of the candelabra tree was a spreading bouquet of pink mallow gladioli and sweet pink stock. Background for the altar setting were lush palms of woodwardia interspersed with emerald ferns.

Focal point of the altar setting was a white pre-dieu decorated with pink satin bows set on a white velvet aisle carpet which also marked the bridal aisle. Bows of pink satin also marked family pews.

Muted background music was provided on the organ by Ferrell Roberts, Clovis, who also accompanied Mr. and Mrs. Dean Jones, sister and brother-in-law of the bride, as they sang "Wither Thou Goest," and "Twelfth of Never" preceding the ceremony. Mrs. Jones sang the "Wedding Prayer" as the couple knelt on the pre-dieu to seal their wedding vows.

Attending the bride as matron of honor was Mrs. Butch Woltman, Okmulgee, Okla., close friend of the bride. Bridesmaids were Mikala Austin, cousin of the bride, Phyllis Christian and Donna Rundell. They wore identical dresses of persian rose satin peau, designed with a fitted bodice, scoop neckline and elbow length sleeves. They were also styled with a midriff and wateau train in back. Their shoes and circlet hats of persian rose satin and tulle, designed and made by the bride's mother, were in matching hue. They carried fans of white lace caught with a cluster of soft pink carnations and cascading picot edge streamers.

The bride escorted to the altar and given in marriage by her father, Partin Austin, chose a gown of white silk linen featuring a fitted bodice, scoop neckline and elbow sleeves. The fitted midriff was enhanced by a band of Chny lace embroidered with seed pearls and frosted cut beads. The bell skirt styled with unpressed front and back pleats ended in a chapel train.

Her finger tip veil of white silk illusion was attached to a pill box of re-embroidered lace and seed pearls. She carried a phalenopsis orchid surrounded by cascades of stephanotis atop a white lace and satin covered Bible. A white lace handkerchief belonging to her late grandmother, Mrs. Susie Smith, was caught up in the cascade of stephanotis.

Following tradition the bride wore in her shoes for luck pen-

Photo By Thornton Studio Lubbock

nies minted in the year of her birth, and that of the groom. New was her dress and veil, old the handkerchief in the bouquet, borrowed was the white Bible from her matron of honor, Mrs. Butch Woltman, and blue was the traditional garter, gift from Mrs. C. C. Christian.

Candlelighters were Tommy Ratliff, Muleshoe and Stanley Austin, Farwell, cousin of the bride, Ringbearer was Master Brent Jones, nephew of the bride. Serving as ushers were Derrell Nowell, Muleshoe and Dawson Vaughn, Burkburnett, cousins of the groom. Grooms-men were Jerry Don Coulter, Gary Don Ratliff and Jackie Redwine, all from Muleshoe, friends of the groom. Serving his brother as bestman was Kenneth Phipps, Clovis.

Mrs. Austin, mother of the bride, chose a three piece Perri blue costume of Raffia and Irish Linen with which she wore black patent accessories. Her corsage was a white cymbidium orchid.

Mother of the groom, Mrs. Phipps, wore a beige jacket dress of raw silk with accessories in matching tones. Her corsage was a pastel colored coral cymbidium orchid.

Approximately 200 guests were registered by Carolyn Lindop at a table covered with white, centered by a bud vase holding carnations in the chosen colors of the bride.

A reception was held in the fellowship hall at the church immediately following the ceremony. Serving table was covered with a white lace cloth over Persian rose satin. Centering the table was a large white wedding candle focused on a bride and groom emerging from the chapel, arranged on a silver footed epergne with sweet pink stock and persian colored

carnations. The three tiered wedding cake was iced in pastel pink and decorated with appleblossoms and doves. Topping the cake were three pastel pink wedding bells and at the base of the cake wedding rings were caught in pink hearts and silver wed-

(Continued on page 4)

ANNOUNCE ENGAGEMENT: Mr. and Mrs. W. D. (Bill) Prince announce the engagement and approaching marriage of their daughter, Janice Lynn to Thomas Nihl (Tommy) Williams, son of Mr. and Mrs. Jack Williams. Friends and relatives are invited to attend the Sunday, June 28, 3 p. m. wedding at Hamlin Memorial Methodist church, Farwell, and the ensuing reception. No invitations are being sent locally.

That tired sluggish feeling

If your car's battery seems unwilling or unable to get your car off to a fast start on cold mornings, it may need a re-charge . . . or need replacing.

In either case your Phillips 66 Dealer is prepared to help you. He'll help you get the most out of your present battery by servicing it carefully. But if you need a new one he can supply a powerful new Phillips 66 Trop-Artic* Battery.

In a battery it's performance that counts! You can depend on the performance of a Phillips 66 Trop-Artic Battery.

Edith Walling Marks 16th Birthday

Edith Ann Walling was honored with a surprise birthday party in the home of her parents, Mr. and Mrs. Mitz Walling, Saturday morning when friends arrived to share a breakfast of orange juice, sweet rolls, ham and egg rolls, sausage rolls, fruits, milk and hot tea with the honoree.

The meal was served from a table centered with an arrangement of green cymbidium orchids surrounding a cupid holding the letters 16. Plate favors were artificial orchids.

Attending and sending gifts were: Donna Mills, Sherri Bass, Teresa Quickel, Joyce Bass, Sherry Billingsley, Diane Lovelace, Susan Blair, Joyce Kay Watts, Mary Coffey, Deana Williams, Martha Coffey and Mrs. A. T. Watts.

A recent visitor in the home of Mr. and Mrs. Claude Porter and children, Jolene and Richard has been Porter's mother, Mrs. L. M. Porter from Clarendon. Also visiting in the Porter home has been Mrs. Billy Porter of Wellington.

don't let the weather April Fool you again!

It happens every spring.

A couple of weeks of warm weather, and we figure summer is here. Off goes the heating equipment—pilot light and all.

Then, surprise. A cold snap hits, and we're miserable. No heat. Chilly house. Another round of sniffles and sore throats.

Unseasonably cold weather could hit again this spring and chilly mornings may surprise you early next fall.

This year, don't get caught with a dead furnace . . .

keep your furnace pilot on this summer!*

Go ahead and turn your thermostat as low as it will go. This shuts off heat.

As long as your pilot is on, your furnace is "alive" . . . ready to provide heat in a hurry when you need it. And you'll avoid any delay in having your furnace lighted next fall.

It's smart, it's safe and it costs practically nothing to LEAVE YOUR FURNACE PILOT ON ALL SUMMER!

*Where a central heating system's ductwork is used in conjunction with a separate air conditioning unit, the pilot should not be left in operation.

NOTICE

The SECURITY STATE BANK Has Moved To Its New Quarters - - Located On The Corner Of AVE A And 5th St. In FARWELL. Watch This Paper Next Week For Our Grand Opening Announcement. You Will Be Invited - - - !

Mr. and Mrs. E. L. Sparks, Pampa visited in the home of Mrs. Sparks' brother, Fred Barker over the weekend and

also with other local relatives. They visited in Friona with Mr. and Mrs. Fred Barker Jr. and sons, Eddie and Johnnie.

Austin - Phipps--ding bells. After the bride and groom had

cut the first piece of cake it was served with frosted pink punch. Crystal table appointments were used, Mrs. Kenneth Phipps, Clovis, and Mrs. Jimmy Cain, presided at the serving table.

The gift table was laid with a white cloth and centered by the floral arrangement from the rehearsal dinner.

When the newlyweds left for a trip to points of interest in New Mexico, Mrs. Phipps was wearing an ensemble in shades of sweet pink and persian rose. Her accessories were of iridescent white and her corsage was the white orchid from her bridal bouquet.

Mrs. Phipps is a senior at Farwell High School, where she has been active in all phases of school life. She will continue her studies.

The groom is a graduate of Muleshoe High School and attended West Texas State University. He is presently employed at the ASC office in Farwell, where the young couple are making their home at 412-8th St.

Rehearsal Dinner Honors Sherri Austin-Glenn Dell Phipps

Sherri Austin and Glenn Dell Phipps who were married Sunday, were honored with a rehearsal dinner at Silver Grill in Clovis Saturday night preceding the wedding rehearsal with Mr. and Mrs. Dean Jones as host and hostess.

The chosen colors of the bride-to-be were used in decorations. Centering the table was an arrangement of pink gladioli, petal pink stock and Persian Rose carnations, centered by white mesh wedding bells, watched over by a cupid holding a bow and arrow. Pale pink candles flanked the centerpiece.

Billy Fields played appropriate nuptial selections on the organ throughout the evening. Menu consisted of chicken fried steak with all the trimmings.

Following the meal Sherri presented her attendants with white gloves and Glenn Dell presented male attendants with

black ties, which were later used in the wedding.

Attending the dinner were: the honorees, Sherri Austin and Glenn Dell Phipps, their parents, Mr. and Mrs. Partin Austin and Mr. and Mrs. Glenn Phipps, Mr. and Mrs. Conley (Butch) Woltman, Mr. and Mrs. Kenneth Phipps, Mikala Austin, Phyllis Christian, Donna Rundell, Mr. and Mrs. Gary Don Ratliff, Mr. and Mrs. Jackie Redwine, Jerry Don Coulter, Derrell Nowell, Dawson Vaughn, Tommie Ratliff, Stanley Austin, Larry Ratliff, Brent Jones, Kyle Jones, Mr. and Mrs. Guy Austin and the host and hostess, Mr. and Mrs. Dean Jones.

Guests of the W. H. Gramams over the weekend were Mrs. Carol Davis and Alex, and Misses Connie Dudley, Rita Brown and Kathy Hughes of Silverton, Mrs. Davis and Miss Dudley are sisters of Mrs. Graham.
