**Texico City Council Has Meeting**

A request for a sewer line to be laid at the city's expense was denied during the regular meeting of Texico City Council Tuesday night.

The request was made by Ralph Autrey and Orlando Ortiz and involved land owned by Ortiz in the Marshall Addition of Texico. Reason for the denial was the city's policy of laying sewer lines for city usage only and not for individual land owners.

In further action the councilmen were informed that Texico Mayor John Hadley has been appointed to the MX Missile System committee and will be attending a banquet in Santa Rosa in September as part of his duties on that committee.

Butch Billingsley was hired by the city as a maintainer operator for Saturdays and holidays, and Truman McKillip will pack pits at the

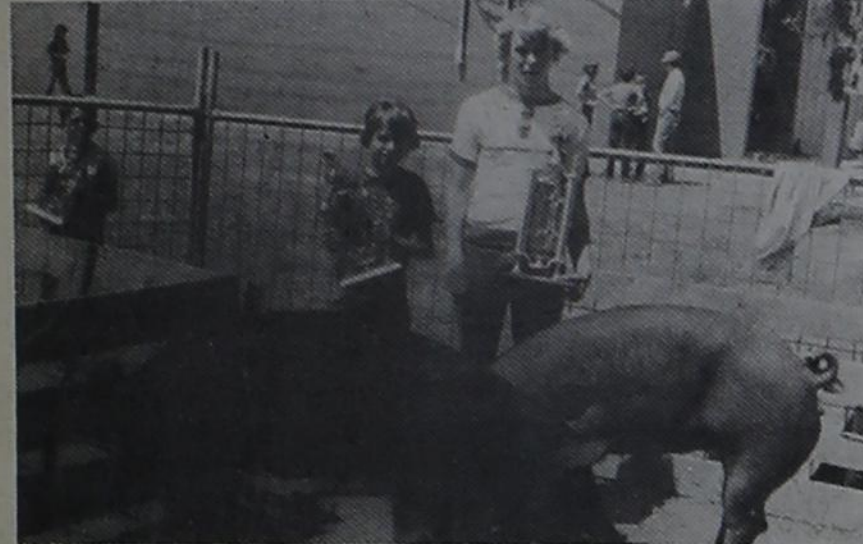

landfill twice a month. In a town clean-up campaign the owners of abandoned cars will be receiving notices to move the vehicles. Should the owners fail to move them they will receive citations for violation of the city ordinance and will be subject to fine.

Before routine business of reviewing and paying the bills, the council gave its approval for city secretary Marie Christian to attend a governmental accounting school in Albuquerque in

September. The school will be held at University of New Mexico and will be instructed by accountants and finance officers.

Present at the Tuesday night meeting were John Hadley, Lewis Cooper, Donnie Morris, Vane Doshier, Truman Kittrell, Marie Christian, Billy Hammit, Mickey Fenn, Orlando Ortiz and Ralph Autrey.

A request will be made to city attorney Harry Patton of Clovis to attend the next regular meeting of the council.

**Bureaucratic bomb and dud**

You know that Bureau of Management and Budget is called "OMB" because the bureau folk didn't want to use the full acronym "BOMB." But were you aware that they refer to the Department of Housing and Urban Development as "HUD" because they didn't want to use the full acronym "DHUD" pronounced "DUD"?

I guess doctors have been well paid about as long as they've been in practice. Still, the English physician, Thomas Dimsdale, really cleaned up. Just for vaccinating the children of Catherine the Great, he got \$50,000 in cash, an annual pension of \$10,000 and the title of Baron. Some house call.

Do you realize that more than 100 entertainers now are making a living by impersonating Elvis Presley?

One Tokyo hotel awakens its guests with taped bird-songs.

**NO BLOOD TRANSFUSIONS**

Q. Jehovan's Witnesses must refuse blood transfusions for their religion's sake. So how can doctors perform surgery on them?

A. By using an electro-cautery knife which seals the blood vessels as it cuts. One such medical specialist, Dr. Ronald Lapin of Santa Ana, Calif., reportedly operates only on members of that faith. In more than 3,500 cases from c heart surgery to neurosurgery, he's only lost five patients, two of whom wouldn't have been saved with transfusions, either, he has said.

Q. That man who made the first coast-to-coast airplane flight, how many times did he crash?

A. Nineteen, on that trip. It took 69 stops, 23 of them in Texas alone.

Q. What was the longest-running song on the old "Your Hit Parade" show?

A. What, you don't remember "Shrimp Boats"? That was it.

**BRIDE'S FORTUNE**

In the England of 250 years ago, the published announcement of a couple's matrimonial engagement was customary, too. But there was a difference then. Size of the bride's fortune, if any, was listed in the item. Not his. Hers. Her worth was identified publicly like the weight of a prize fish.

If asked to name the largest user of mushrooms in the United States, say Campbell's Soups.

**Showmanship Winners**

Chad Barnes, left, won the first place trophy in the Booster Swine Showmanship category at the second annual Texico Achievement Day and livestock show Saturday. Winning second place honors in this event was Terry Whiten-er. This is a new division in which youngsters eight years of age and younger compete for showmanship honors.

# 1981 Wheat Program Announced

Secretary of Agriculture Bob Bergland announces that for the second year in a row U.S. wheat producers would not need to set aside acreage to be eligible for the farmer-owned reserve, commodity loans and target price protection. "Wheat producers need only to be sure they plant within their normal crop acreage to be eligible for all program benefits in 1981," Bergland said.

The farmer-owned reserve release and call prices will be increased from the current \$4.20 and \$5.25 to keep them consistent with the cost of producing wheat, he said. The exact amount of the increase will be decided when more precise cost information becomes available.

Bergland said he expects the Congress to authorize a

special reserve loan that will provide an additional incentive to wheat producers to make more effective use of the farmer-owned grain reserve. The measure under consideration by Congress would set the special reserve loan to wheat at not less than \$3.30 a bushel for the 1981 crop. It may be increased to provide adequate incentive for producers to use the reserve program, Bergland said.

"The 1981 crop target price will be increased from \$3.63 for the 1980 crop to at least \$3.81, with the final amount dependent upon the magnitude of the increase in short-run production costs," Bergland said.

"The loan price will be at least \$3.00 a bushel. After

Congress completes action on the measure that provides for a special reserve loan, and supply prospects are clearer, we will make that determination," Bergland said.

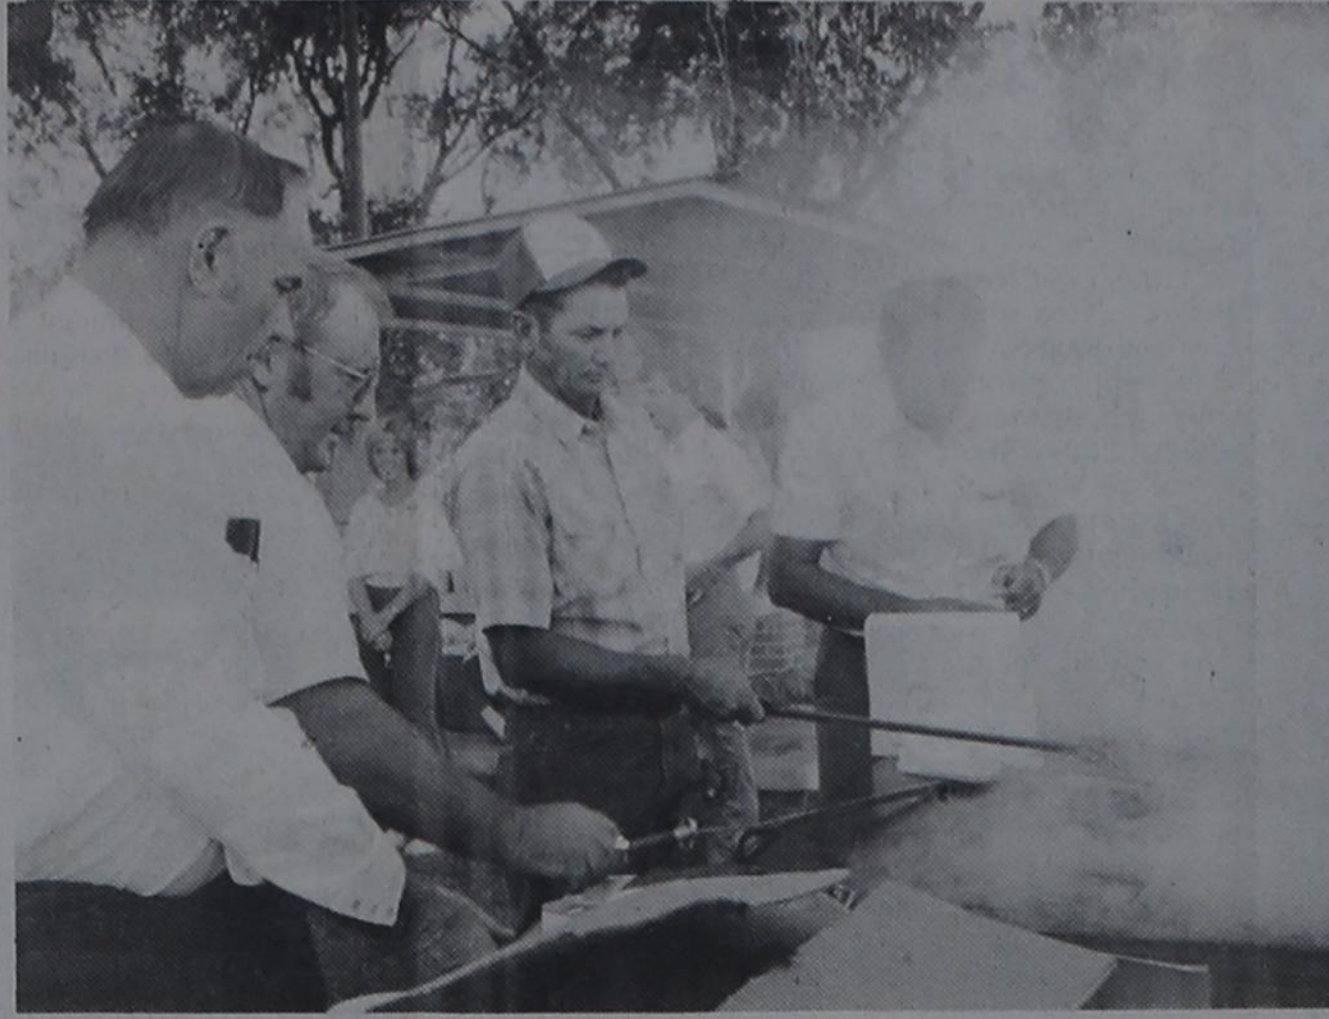

Bergland said wheat supplies are expected to be adequate, but not excessive in 1981 and major uncertainties remain over grain and oilseed production this year. Even greater uncertainties exist over production prospects for the 1981 season, he said.

"If conditions change by spring and it becomes evident by next spring that our wheat supplies will be excessive in 1981, a paid diversion program will be offered to wheat producers," Bergland said.

The final decision on a having and grazing program will also be made before the spring grazing period begins.

The preliminary national program acreage for the 1981 wheat crop has been determined to be 71 million acres, but is subject to change depending upon subsequent developments. A harvested acreage of 71 million acres, according to current estimates and assuming average weather patterns, would produce enough to satisfy the expected wheat demand during the 1981/82 season and bring wheat stocks to a level that would provide the assurance that the U.S. can be a reliable supplier of wheat in national and international markets.

"Those who want to be guaranteed target price protection on the normal production from their entire 1981 crop will need to hold plantings to no more than was planted for harvest in 1980," Bergland said.

Booster Club Chefs

Farwell Booster Club sounded the dinner bell at Farwell City Park for the Steer football team last Wednesday and served up a delicious meal of

hamburgers and all the trimmings. Dessert was a special cake made for the occasion and entertainment was by the Farwell varsity

cheerleaders. Among those helping cook the vittles were, from left, Joel White, Leon Langford, Doyle Ford and Troy Christian.

## Three Plead Guilty In District Court

Prospective jurors who had been summoned to report for possible jury duty for the District Court of Judge Pat Boone, Jr., were not required to carry out those duties in this week's criminal court session.

Three pleas of guilty were given to the court, in which all three subjects were sentenced without need for a jury, and one case was dismissed. The nine remaining

cases were continued until next criminal court session.

The three guilty pleas were entered by William Jaquess on two counts of burglary, Fidel Morales for possession of a prohibited weapon, and Arthur Garcia for burglary.

Jaquess was given a five-year probated sentence by Judge Boone and the other two defendants were each given three-year probated sentences.

The case against Ralph Garner for theft was dismissed from court action by the judge.

## Dora Nittler Rites Conducted Wednesday

Funeral services were conducted Wednesday afternoon from the Sixth St. Church of Christ in Friona for Dora Louise Nittler, 59, of Friona. Mrs. Nittler was dead on arrival at Parmer County Community Hospital about 2:15 p.m. Sunday after suffering an apparent heart attack.

D.L. Hargess, minister of the church, officiated at final rites and burial was in the Friona Cemetery under the direction of Parsons-Ellis Funeral Home.

Mrs. Nittler, a native of Dierks, Ark., was administrator of Prairie Acres Nursing Home in Friona and was the first administrator of

Farwell Convalescent Center when it opened. She was a licensed nursing home administrator, an LVN and member of the Texas Nursing Home Association. She had been associated with nursing homes for over 25 years.

Mrs. Nittler and her husband, A.C. "Tay" Nittler, who preceded her in death in April of this year, moved to Friona in 1973 from Hargill, Tex.

Survivors include two daughters, Louise Lundy of Friona and Nancy Gernentz of Edinburg; a brother, R.B. Kolb of Little Rock, Ark., eight grandchildren and one great-grandchild.

## Named To Committee

Kenneth R. McGehee of Lazbuddie has been named to serve on the Farmers Home Administration County Committee according to Billy R. Boling, the Agency's County Supervisor. The appointment is for three years.

Purpose of the County Committee is to review applications for Farmers Home Administration loans

and to certify their eligibility. Composed of three members, the Committee is set up on a rotation basis with one new member appointed each year.

McGehee succeeds W. G. (Dub) Harlin whose term has expired. Other members of the Committee are Lorraine Welch of Friona and Don Murphy of Bovina.

## Sheriff's Report

Parmer County Sheriff Chas. Lovelace reports that a calf weighing between 450-500 pounds had been butchered on the Bobby Drake farm last week. There were no holes in the hide, Lovelace said, and it is assumed that the work was

done by "someone with experience skinning cows."

In other law enforcement activities, Sheriff Lovelace reported that two batteries had been stolen from local irrigation wells. Lovelace Oil Company in Farwell was broken into last Friday evening, and an oil hose on an irrigation well belonging to Bruce Billingsley had been cut last weekend.

## Fire Calls

Texico Volunteer Fire Department enjoyed a quiet week during which they received no ambulance or fire calls.

Farwell Volunteer Fire Department received a call for an ambulance on August 21 and was dispatched to the Oklahoma Lane crossroads to the site of a two-truck wreck. However, no one involved in the wreck required transportation by the ambulance to a hospital.

On August 22 the Farwell fire trucks responded to a call two miles west of Wilsey's Switch on the Bovina Highway where weeds on the railroad right-of-way were burning.

## China Missionary Visits In Farwell

by Juanita Hadley  
 Jaxie Short is one of those vivacious persons who has the ability to fill a subject with the excitement of faraway places and exotic scents and sounds.

A recent visitor to the homes of several Farwell residents, Miss Short, who will not be returning to the Far East to live, shared memories of her 34 years of adventure as a Chinese missionary.

The lady in question is in actuality a doctor, having earned a Ph.D. during her first three furloughs back in the States, but prefers the title "miss" in most instances. Her surname is completely appropriate for she is diminutive in stature although far from it in enthusiasm.

Miss Short's interest in China was sparked as a child and she noted that as she grew to adulthood she always knew she would pursue some phase of missionary work there. With that in mind, she became an English teacher, providing herself with a skill that she felt would be helpful to those with whom she came in contact. Later she studied Chinese full time for two years before leaving the United States.

The first three years of Miss Short's work were done in Canton, China, where she taught English in Chinese schools. She then became a resident of Hong Kong, a British Crown Colony which is 98 percent Chinese. For the next 31 years she taught in high schools and in seminary.

In her early years in Hong Kong, Miss Short explained, there were not enough schools for everyone to attend, but she added that the situation has changed in the last six years or so. The educational system has been enlarged to the point that now there is a place for all students on the elementary, junior high and high school levels in Hong Kong. However, the average class is composed of 45 students.

She further said that students are taught English beginning in the first grade and that by junior high age they can read simple novels such as "Little Women." On the tenth grade level, all students are required to take a typing class conducted in English.

That same year, the students choose one of three streams they will follow through the remainder of their school careers: science, the arts, or secretarial training. Miss Short commented that if a student's math and science grades are not good enough, he cannot go the science route.

Although many Western practices and attitudes are becoming more prevalent in Hong Kong, education is approached with a more traditional attitude. For example, students rise and give a unified greeting when the teacher enters the room. Also, much learning is still done through rote memory with little creative teaching. However, Miss Short said, now

students are more open and will ask questions, whereas in the past they were too shy.

One of the main points that the educator stressed time and again was that both young people and their parents see education as a privilege. And they realize that job opportunities are much better for those who speak English.

Jaxie Short's last four years in Hong Kong were spent teaching strictly in a seminary, where each student had a standing of two or more years of college work. She said that at this level the students were highly motivated and were a real pleasure to work with.

In other areas, Miss Short reported that Hong Kong, with a population of 5 million people in the 400 square mile area, faces an understandable housing problem.

Her own home was in a

small Western style house which had been divided into 12 apartments. Earlier the dwelling had consisted of only six apartments, but because of the limited living space, the extra divisions had occurred.

JAXIE SHORT

She said that approximately one-third of the city's residents live in government resettlement housing which was built after the 1953 fire in which 53,000 people died. Entire families live in one small 15' X 20' room. However, all the government homes now have individual bathrooms. Until recently, communal baths were located on each floor of the multi-story structures. What were formerly porches have been transformed, with approximately one-third of the area having been turned into bathrooms and the other two-thirds becoming kitchen facilities.

Because most Westerners lump the people of the Far East into one group, Miss Short was sure to point out that most Chinese do not worship Buddha, but that most are ancestor worshippers. In fact, she said that there is really very little known about Buddhism in Hong Kong. Most students on the high school level have no religious preference.

Concerning foods, Miss Short again stressed that although the Chinese consume a great deal of fish, it is not served raw, but is usually steamed. Occasionally fish is fried. Rice, vegetables, pork, fruit and mushrooms are also favorite dishes, as is chicken prepared with ginger. She added that soy sauce is used almost universally in cooking.

Recently Western trends have invaded almost every aspect of Chinese life and, Miss Short noted, many of the young people of Hong Kong prefer McDonald's hamburgers to the more traditional foods. She also added that the increased number of supermarkets has introduced the Chinese to Western style, and particularly convenience foods.

One other tradition still followed by most residents of Hong Kong is the use of chopsticks, literally "fast fellows." Miss Short commented that most Chinese food does not taste right unless eaten with those utensils.

She also explained the art of Chinese-style eating. She said that the bowl is held with two fingers and thumb a few inches from the mouth, and that, of course, chopsticks are used. Any tidbits which are dropped fall back into the dish. At the end of the meal, the bowl is brought quite close to the mouth and the remaining food is scooped into it.

Miss Short, who has officially retired from missionary work and will be teaching on the college level here in the States, adds that there are numerous other misconceptions about the Chinese. Undoubtedly, she will attempt to set them straight. And although she will not return to Hong Kong on a permanent basis, her plans for the future definitely include visits to the place which is so dear to her.

How are your shopping skills?

If they're not so good, you could be losing lots of money at the grocery market.

Test your skills with the easy checklist below (answer "yes" or "no"):

---I plan weekly menus.  
 ---I plan meals to include weekly newspaper specials.  
 ---I compare brands for the best buys.

---I compile a grocery list based on my menus.  
 ---I am flexible and include unadvertised specials.  
 ---I read food labels.  
 ---I check expiration dates on food products.  
 ---I go shopping alone if possible.

---I organize my shopping list to go with the order of the store aisles.  
 ---I buy only what I can store and use before spoilage.

---I occasionally buy in quantity for the freezer when I find specials.  
 ---I store food properly as soon as I return from the market.

---I watch the check-out cashier to see actual amounts charged.  
 ---I examine produce carefully for damage.  
 ---I do not go to the grocery store with an empty stomach.

There are many more shopping tips than the 15 listed above, but each statement should have received a "yes" answer.

If you have less than 12 "yes" answers, you can be sure you are not using your time, energy or money efficiently.

Study the statements and map out a different and better strategy for your trips to the market.

## Eighty-Six Attend

### Webb Family Reunion

Eighty-six descendants of the four Webb brothers: Hugh, Paul, Frank, and Earl, gathered for a first-time-ever family reunion Saturday and Sunday, August 23 and 24. Taking advantage of the beautiful outdoors, the group stayed two days and one night at Wichita Falls Boys Camp in Holiday, Tex. During the day the children swam while the adults visited and began work on a family project: a scrapbook filled with pictures and newspaper clippings of family members to be shared again next year at the Second Annual Webb family reunion. At night they bunked out in the rustic campground cabins.

On Saturday afternoon they all attended the wedding of family member Brenda Webb, daughter of Bob and Tempey Webb of Burkburnett, Tex., to Billy Banks. They were wed in Burkburnett.

The group celebrated the 71st birthday of Bessie Webb of Bovina on Sunday with a gala birthday party at 12 noon at the park.

The weekend activities were attended by Bessie Webb, Bovina; Wayne and Juanita Webb, Kenneth Webb, Eddie Webb and Keith, Jim Webb, Azle, Tex.; Wayne and Carolyn Karr, Shawna and Sonya, Gary and Tommy Karr, Hendrix, Okla.; Floyd and Anna Lee Engant, Mike and Mary Rose and Tony, Bovina; Also, Polly Mills, Karla and

**TWO MINUTES WITH THE BIBLE**  
BY CORNELIUS R. STAM PRES. BEREAN BIBLE SOCIETY CHICAGO, ILLINOIS 60635

**ARE YOU SURE?**

Would you like to have the knowledge, the assurance and the joy of sins forgiven? Would you like to be sure of heaven? Well, the first step to heaven is to realize that you cannot get there by trying. You can't walk there. You can't climb there. You can't fly there. Only God can take you there. Many try to earn heaven. They try to climb there on a ladder of "good works." They talk about "adding another rung." But look out for that "good works" ladder! It is not anchored at the top and the higher you climb the farther you will fall.

God's Word says that salvation is "the gift of God, not of works, lest any man should boast" (Eph. 2:8,9). He is not going to have boasters in heaven - there are enough of them on earth and nobody likes them.

All of us should realize that even the best of us are not good enough for heaven, for "all have sinned and come short of the glory of God" (Rom. 3:23), but in this same statement the Apostle Paul declares that believers in Christ, who died for our sins, are "justified freely by His grace, through the redemption that is in Christ Jesus" (Rom. 3:24).

"Therefore being justified by faith, we have peace with God through our Lord Jesus Christ" (Rom. 5:1).

So, friend, it is not by trying, or crying, or praying, or paying, or doing anything that you will reach heaven—it is only by believing. God says He loves sinners, and that Christ died for our sins. Will you believe this and trust Christ as your own Saviour?

"For the Father loveth the Son and hath given all things into His hands. He that believeth on the Son hath everlasting life, and he that believeth not the Son shall not see life, but the wrath of God abideth on him" (John 3:35,36). It's as simple as that.
