Forty-Seventh Year

Number 48

### ON THE LINE

by Dolph Moten

Appearance of this newspaper has been different than it "usta be" for the past two weeks.

Witty comments which mostly make fun at newspapers are pretty easily come by at best and this change in appearance hasn't made the situation any easier for newspaper people here. But the comment, which up to the minute is my favorite, wasn't made by a man who was trying to be smart or make fun. He was dead serious.

Last week, because of Farwell's Appreciation Day, copies of The Tribune were mailed to all boxholders in the trade territory. Friday morning—after the paper was out—a man called the office and offered the information that "I didn't get my Tribune."

Joann Getz, who answered the phone, explained that he should have gotten one since they were mailed to all boxholders. To this, the man, and I don't know who he was, replied "Aw, I got some kind of boxholder deal out of the post-office, but I didn't get my Tribune."

His phone call was probably justified.

Elsewhere in this issue an explanation concerning changes which have been made with the newspaper is made.

Car insurance rates went up in Texas about a month ago. You're aware of this if you've had a policy come up for renewal since the first of August, we feel sure. In talking about the situation with our friend, Deputy Tom Atkins, the other day, he told about a fellow he knew who bought a car—not a new one certainly—and the insurance cost more than the car. Which, Tom says, puts us right back in the same shape we were in when we were riding a \$40 saddle on a \$10 horse. No other cycle has been completed, according to the deputy.

What, if anything, is going to be done about a quarter-back club in Farwell this year? Is there one functioning, or do we just don't know about it?

A club was, we understand, in operation last year. Seems a shame to let it die though we don't know any details concerning the organization. Have heard, though, that members made films of the games, among other things.

It's not that we don't have plenty of organizations, clubs and other activities to occupy our time. We just thought it might be worth mentioning.

We've never been a member of a Quarterback Club, but we've tried to get in our share of Saturday and Monday morning quarterbacking. So, we can't say whether it's good to have a club or not. However, one's worth having, we are sure, and the Steers, or whoever, should have the benefit of it. How about it?

Understand that the Texico-Farwell feud which we've heard so much about, and seen so little of, was brought up again over the weekend. Nothing serious. Just some wondering about Farwell having an appreciation day without mentioning same to Texico.

Anyway, the story I get is that Texico merchants got the benefit of a large number of people being in Twin Cities the same as many Farwell merchants did.

Therefore, the whole thing had a happy ending. Which is good. We probably shouldn't have mentioned it?

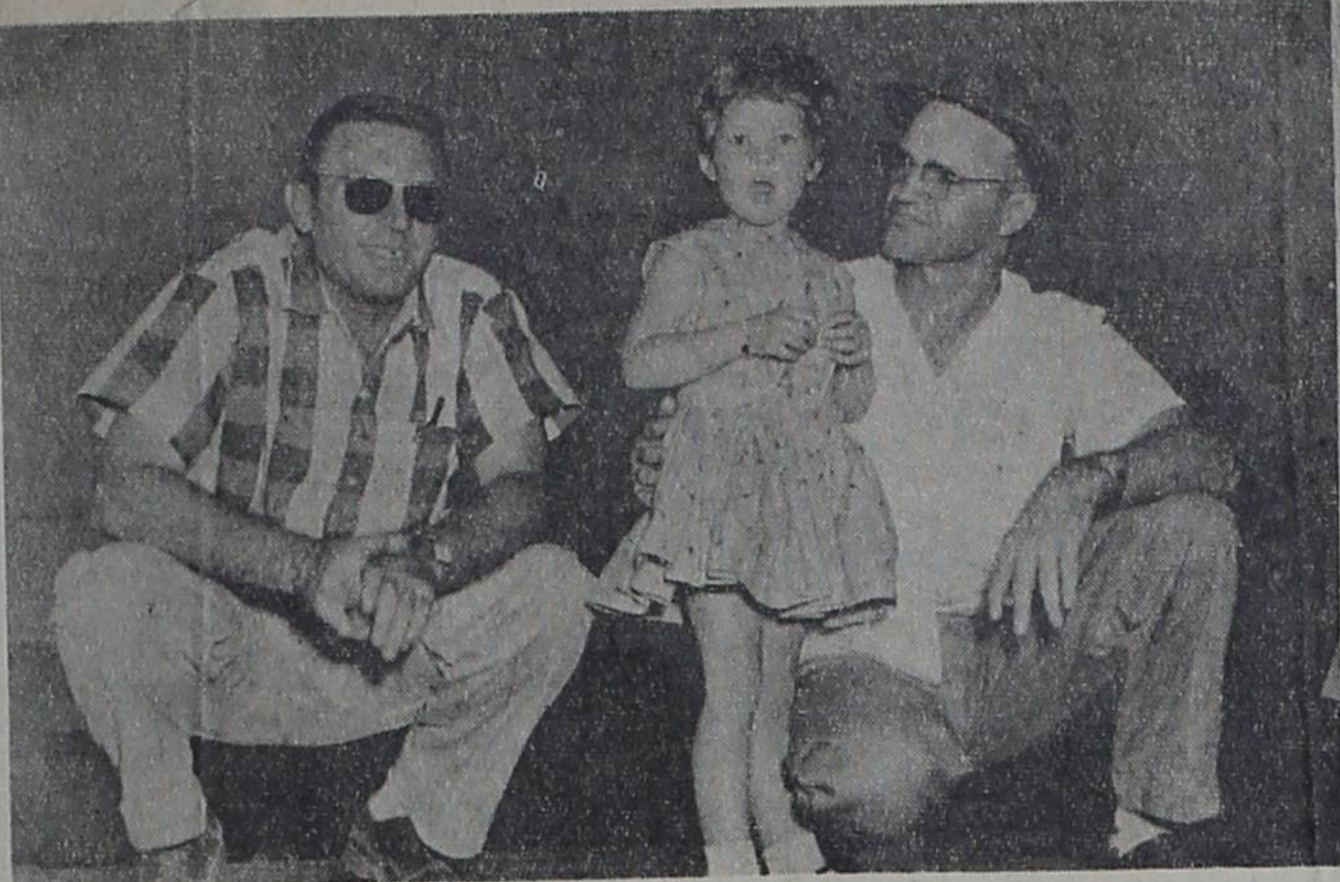

According to rumors, idle talk, gossip and other useless ways of obtaining information, a couple of industries (?) are considering coming to Farwell. As far as we know, confirmation of the rumors is impossible.

The talk sounds good . . . if you didn't have to slip around to hear it. Everything seems to be going on under the table. Pardon us if we sound a mite bitter. It's just that we're in the newspaper business and when people start doing things that the public isn't supposed to know about, it's hard on our business.

At the same time we're trying to be patient. We're hoping to get the signal on an announcement soon . . . concerning one, or both, of the ideas which are supposedly in the mill.

Except for a couple of minor incidents, Appreciation Day went off without a hitch. One of those minor incidents was the losing of \$100 in script by chamber members. As far as we know, it's still lost.

After the second drawing, (Continued on Last Page)

**BIG WINNER**—Jack Watts, right, was winner of the largest amount given away during Appreciation Day—\$50. This drawing was held at the end of the day following entertainment and refreshment parts of the program. Lynn White, daughter of Mr. and Mrs. Joel White, drew the winning ticket bearing Watts' name. Chamber Manager Quickel is at left.

## Big Crowd Attends A-Day in Farwell

"More people were in town at one time than had been since the last time we gave a car away." That's the way one fellow described the crowd at Farwell's Customer Appreciation Day Saturday. Five people were awarded \$150 in trade certificates at drawings which were held throughout the day. These drawings proved to be the backbone of the promotion—they held the crowd's interest. Also drawing its share of attention was the entertainment program. It featured Charlie Phillips and the Sugartimers. The Sugartimers put on a 30-minute show beginning at 6 p.m. The Silhouettes, high

school girls vocal sextet, appeared on the program, too. Free soft drinks and ice cream were dished out by chamber of commerce members for an hour and a half beginning at 6. No estimate was made of the number of people who attended the entertainment and refreshment portions of the day, but chamber officials considered it "good." Jack Watts was winner of \$50 drawing which climaxed the day. This drawing concluded the day and was held immediately after the entertainment. Other winners—of \$25 each—were Wade Mills, Don Johnson, Mrs. Felix Monroe, and W. E. Martin.

To be eligible for the drawings, it was necessary to sign tickets at one of the 14 businesses which offered them. There was no limit to the number of times an individual could register. Also, an individual had to be present at a drawing to win. At the 5 o'clock drawing, six names were called before the winner was named. Weather during the day, was uncomfortably hot and there was little breeze. However, the heat was possibly giving warning that a weather change was on the way. Shortly after the entertainment program began, a mild, but cooler, wind whipped in from the north. It stirred up dust to some extent and tended to dampen the spir-

its of the people who had gathered for refreshments and entertainment. Some 50 Farwell businesses were responsible for the day. The idea was originated to give businesspeople an opportunity to express appreciation to their customers. The entire day carried that theme. Wilfred Quickel, secretary-treasurer of Farwell Chamber of Commerce, spearheaded the promotion. He visited with each merchant several days before the event getting ideas on it, and did the bulk of the work during the day. Chamber was assisted by Corypen Gas Stops and Worley Grain Co.—they each furnished a truck with a public address system; Campbell's Milk and Ice Cream Co. had their "train" available during the afternoon for children to ride; and Dr. Pepper Bottling Co. furnished facilities for soft drinks. Five businesses, and possibly more, had sales during the day which were designed to save their customers money. Most of the merchants who had sales declared that they were successful. Complaints from merchants, and from customers and visitors, in regard to the day, were few. Quickel says the promotion was "every bit as good as we had hoped for. We were extra well pleased with the size of the crowd." The day began at 9 a.m. with free coffee and donuts being served at City Cafe. Businesspeople have been discussing the idea of having such a promotion regularly—weekly, monthly, or annually. This idea will probably be discussed, and possibly acted on, at next chamber of commerce meeting.

**LARGE CROWD**—No estimate was made as to the number of people who were present for Appreciation Day. Attendance was considered "good," however. This shot shows part of the crowd which was present to hear Charlie Phillips and the Sugartimers (on truck). Ice cream and soft drinks were being served by members of Chamber of Commerce. Corypen Gas Stops' sound truck is in left foreground.

## School Budget Set For Coming Year

Cost of operating Farwell Schools during 1958-59 will be \$430,617. This is the amount of the school budget for the year. A budget hearing for the public was conducted at the school Thursday night of last week. Only members of the school board were in attendance. Superintendent Jack Williams says. Largest item of expense is building program. It totals \$201,745. Also, this is one thing that makes this year's budget larger than that of last, Williams says. Another increase is in the form of debt service. This totals \$46,355. It includes retirement of serial bonds, retirement of short term loans, interest on serial bonds, interest on short term loans, and bank charges. Administration expense is estimated at \$14,502. It includes superintendent salary, tax collector-assessor salary, secretary salary, audit, election of board members, census, office supplies, and other expense. A total of \$123,063 will be used for "instruction." Included

in this heading are salaries for principals, elementary instructors, secondary instructors; sick leave, text books, library and audio-visual materials, teaching supplies and other expense. Transportation will cost \$16,000. This includes salaries for seven bus drivers, including bus foreman, vehicle replacement, transportation insurance and other expense. Plant operation will use up a total of \$16,422. Subheadings here are salaries, heat, utilities, supplies, and other. Plant maintenance is scheduled to cost \$8,000. Salaries and materials are the two categories in which this is broken down. Insurance will cost \$5,000. Capital outlay for furniture and equipment will be \$1,500.

### Funeral Monday for C. L. Smith

Funeral services for Charles Levanee Smith of Childress were Monday afternoon in First Methodist Church, Childress. Mr. Smith, who died Sunday morning, was the father of Mrs. L. R. Vincent and a brother of Edie Smith of Farwell. Rev. J. O. Haymes of Lubbock and Rev. Rollo Davidson of the church officiated. Burial was in Childress Cemetery under the direction of Newberry Funeral Home. Born June 29, 1885, in Lawrenceburg, Tenn., Mr. Smith

moved to Childress County in 1914 from Midlothian. He farmed in the Tell Community during most of his adult life. Survivors include his wife, Ethel of Tell; two sons, E. F. of Clovis, and E. L. of Midland; five daughters, Mrs. Lee Rothwell of Tell, Mrs. Vincent, Mrs. Paul Havens of Childress, Mrs. R. B. Summers of Clovis, and Mrs. Bill Anderson of Ontario, Calif.; one stepson, Dean Johnson of Clovis; and three brothers, four sisters, 16 grandchildren, 25 great-grandchildren, and two great-great-grandchildren.

Saddest news to come from Farwell Steers football camp to date: two lettermen tackles have been lost to the squad. Mike McManigal and Cyrus

Dale, both senior lettermen tackles will not see action for the Steers this season. McManigal suffered a brain concussion in practice last Thursday evening. The injury will keep him out for the remainder of the season. Dale quit the squad as did his younger brother, Don, a freshman end. McManigal is a 170 pounder while Dale weighs 155. Coach J. D. Atwell commented, "When your line is weak anyway and then you lose two lettermen tackles, you're hurting." He explains that there will be a shifting of personnel to fill the gaps left by these two players who were scheduled to see plenty of action. With the first game still a week in the future, 38 boys now make up the squad. The off-again, on-again game between Steers and Exes has been cancelled. It was sched-

uled to be played tonight (Thursday). Instead of the Exes game, Steers scrimmaged Clovis B team Tuesday night. Last week, the local team had scrimmage sessions with Muleshoe and Dimmitt—both higher classification teams. "We looked awful rusty against Muleshoe," Atwell says, "but against Dimmitt we began to show some improvement." Quality of competition wasn't as good in Tuesday night's session. But the coaches were pleased with the team's performance against Dimmitt and Clovis. "Our defense looks better than our offense," the coach explains, "but we're expecting the offense to improve. Johnny Lovelace, regular quarterback for past two seasons, will play that position again this year. Coaches had experimented with Lovelace at

fullback. However, he has been shifted back to the field general post. Players who are on the "first unit" now and their weights and positions are Owen Huffaker, 145, and Morris Reed, 160, ends; James Burleson, 150, a converted guard, and Robert Carthel, 180, tackles; Joe Hughes, 153, and Doug Roberts, 150, guards; Dickie Williams, 140, center; Lovelace, 190, quarterback; Larry McDorman, 150, fullback; Gerald Christian, 140, left half; and Phillip Berry, 160, right half. There's a good possibility some changes will be made in this lineup before the first game, Atwell says. That first game is against an improved Bovina team on the local field Friday night, September 12. The Mustangs are reported to have more weight and experience than they've had in years. Friday night, they play Fort Sumner, another team that the Steers meet later in the season. Most area schools will begin their schedule this Friday night. For the Steers, this is an open date on their schedule. Atwell figures this will be an advantage, especially since the loss of the two linemen. "It will give us an extra week to find replacements for them," he says. Team managers are Bobby Lesly, Larry Smith and Van Crume. For fans who are already thinking about the season after this one, here's how the 38 squadmen stack up according to classes: eight seniors, eight juniors, nine sophomores, and 15 freshmen.

## Road Resolutions Passed By CC

Farwell city commission passed two resolutions in regard to improved roads in a special session Wednesday evening in city hall. First resolution passed allows state highway department to widen Highway 60 in Farwell from state line to north city limits. This is a part of the program of improving Highway 60 from here to Amarillo. Work on the project is scheduled to begin within the next few months. The road has already been made four lanes—same as it will be here—from Hereford southwest to Parmer County line. The other resolution passed Wednesday places the city in agreement with state highway department to build the long-discussed loop around Farwell—from state line road south of town to Highway 70-84. This will be a farm-to-market road. Work on this project is scheduled to begin in December, Wilfred Quickel, city clerk, quoted Rhea Bradley, resident engineer from Littlefield, as saying. Announcements that the improvements would be made were released some time ago. The Wednesday meeting was to clear up the city's part of the formalities. Both commissioners, Smokey Gast and L. E. McKillip, Mayor Sam Aldridge and Quickel were present at the called meeting. Next regular meeting is scheduled for tomorrow (Friday) at 5.

Alcoholic beverages, as usual, caused Parmer County sheriff's department more trouble than anything else over the weekend. Charged with driving while intoxicated was Louis Weathers. He was picked up in Farwell Sunday night. Tried in county court Tuesday, he was convicted and fined \$100 and costs. A DWI conviction carries with it a six-months suspension of driver's license. J. T. Askew was apprehended north of Bovina Saturday night. Charged with possession of alcoholic beverages with purpose of sale, he pled guilty in County Judge A. D. Smith's court Tuesday and was fined \$200 and costs. Both Weathers and Askew

were still in jail at mid-week. Ben Cotton, charged with forgery, was taken into custody at Clovis Friday night. Cotton is charged with passing a forged check for \$44 at Ware's Department Store in Friona. He is awaiting action of grand jury. Aaron Hamilton was returned here last week from Dallas County by Deputy Sheriff Ben Moorman. He is charged with theft and his bond has been set at \$500. He is also still in jail and waiting for grand jury action. Hamilton allegedly stole a trailer from Jim Mears, Friona. Two truck tires and wheels were reported stolen from Farwell Fertilizer in Farwell over the weekend. Sheriff Chas. Lovelace believes the theft was made Saturday night though discovery of the loss wasn't made until Monday morning.

## Two Men Fined In County Court

Charged with driving while intoxicated was Louis Weathers. He was picked up in Farwell Sunday night. Tried in county court Tuesday, he was convicted and fined \$100 and costs. A DWI conviction carries with it a six-months suspension of driver's license. J. T. Askew was apprehended north of Bovina Saturday night. Charged with possession of alcoholic beverages with purpose of sale, he pled guilty in County Judge A. D. Smith's court Tuesday and was fined \$200 and costs. Both Weathers and Askew

were still in jail at mid-week. Ben Cotton, charged with forgery, was taken into custody at Clovis Friday night. Cotton is charged with passing a forged check for \$44 at Ware's Department Store in Friona. He is awaiting action of grand jury. Aaron Hamilton was returned here last week from Dallas County by Deputy Sheriff Ben Moorman. He is charged with theft and his bond has been set at \$500. He is also still in jail and waiting for grand jury action. Hamilton allegedly stole a trailer from Jim Mears, Friona. Two truck tires and wheels were reported stolen from Farwell Fertilizer in Farwell over the weekend. Sheriff Chas. Lovelace believes the theft was made Saturday night though discovery of the loss wasn't made until Monday morning.

### Farwell Motor In New Building

Friona Motors, formerly McKillip Motor Co., Ford automobile agency in Parmer County, moved over the weekend from Farwell to Friona. Announcement that the business would move to Friona was made several months ago (Note the name). Farwell Motor Co., which has been in building east of State Line Grocery, has moved into the building formerly occupied by Friona Motors—across street from post office. There's a possibility that the Ford agency will have an associate dealer in Farwell, members of the firm say. Such a set-up has not been worked out yet, but it is hoped for, they say. If the branch here becomes a reality, it will offer sales, service, and a complete stock of parts. Friona Motors is owned by Oscar Baxter, C. V. Potts, Roy Coffman, and Kater Crume. Owners of Farwell Motor Co. are Leroy Williams and Kenneth Stone. Announcements concerning changes in locations by the businesses are made in advertisements in this issue.

### Mrs. Kaiser Rites Read On Tuesday

Mass for Mrs. Teresa Kaiser who died Friday was said Tuesday at 9:30 a.m. at Sacred Heart Church in Clovis. Father Bernard Gerbus also conducted rosary service Monday night at Charles V. Steed Memorial Chapel. Interment was in Mission Garden of Memories. Mrs. Kaiser, 92, had been ill for some time and died in a Pueblo, Colo., hospital. She had made her home in Farwell with a daughter, Mrs. Susie Jesko, before going to Colorado. Survivors include four daughters, Mrs. Gus Prebost of Muleshoe, Mrs. Arthur Arbough of Pueblo, Mrs. Marie Turner of Wichita, Kan., and Mrs. Jesko and two sons, Fred Kaiser of Terrace Park, Ohio, and Theodore Kaiser of Kansas City, Mo.

**\$25 WINNER**—Wilfred Quickel, left, Farwell Chamber of Commerce secretary-manager, is shown presenting Don Johnson \$25 in trade certificates during Appreciation Day Saturday. Johnson was the second winner of the day. This drawing was held on east side of town near 8-D Drive-In.

Two Men Fined In County Court

Alcoholic beverages, as usual, caused Farmer County sheriff's department more trouble than anything else over the weekend. Charged with driving while intoxicated was Louis Weathers. He was picked up in Farwell Sunday night. Tried in

county court Tuesday, he was convicted and fined \$100 and costs. A DWI conviction carries with it a six-months suspension of driver's license.

J. T. Askew was apprehended north of Bovina Saturday night. Charged with possession of alcoholic beverages with purpose of sale, he pled guilty in County Judge A. D. Smith's court Tuesday and was fined \$200 and costs.

Both Weathers and Askew were still in jail at mid-week. Ben Cotton, charged with forgery, was taken into custody at Clovis Friday night. Cotton is charged with passing

a forged check for \$44 at Ware's Department Store in Friona. He is awaiting action of grand jury.

Aaron Hamilton was returned here last week from Dallas County by Deputy Sheriff Ben Moorman. He is charged with theft and his bond has been set at \$500. He is also still in jail and waiting for grand jury action.

Hamilton allegedly stole a trailer from Jim Mears, Friona. Two truck tires and wheels were reported stolen from Farwell Fertilizer in Farwell over the weekend. Sheriff Chas. Lovelace believes the theft was made Saturday night though discovery of the loss wasn't made until Monday morning.

Admitted to Clovis Memorial Hospital Monday was Ray Mears. He is a medical patient and is doing well.

JOTTIN'S

By Jeanne

We love salads at our house, but it does become a problem at times, when we want something a little different. Probably most of you have a good slaw recipe, but if not, you might like cabbage and carrot slaw with a sour cream dressing. It's a sure-fire way to get the Graham boys, big and little, to eat their carrots and like it.

CABBAGE AND CARROT SLAW

- 4 cups shredded cabbage
2 raw carrots
1 teaspoon salt
1/4 tsp. pepper
1 tablespoon sugar
1 tablespoon celery seed
1 tablespoon cider vinegar
1/2 cup cooked salad dressing
1/4 cup sour cream
Mix all ingredients and chill.

China and table accompaniments have been promoted in the past few years, until most households have a "company" set of dishes, or the beginnings of a set. But it is beyond our understanding why the major manufacturers treat us like they do. They cater to, pamper and sell us—then when we've picked our patterns for our "lifetime dinnerware"—what do they do? They discontinue the pattern.

So far, it hasn't happened to us. But it has happened to three of our friends—and on different patterns—just recently. Very few young couples can afford to splurge all at once for a luxury item like fancy pottery or china. They buy what they need and add pieces as the pocketbook permits. So it is a little discouraging, to say the least, when said couple gets about four or five place settings and a few odd pieces and learns that any efforts to match the set in the future will be futile.

The pattern has been discontinued!

First ESA Meeting Monday Night

Initial fall meeting of Theta Rho Chapter of Epsilon Sigma Alpha will be at 8 p.m. Monday. Hostess will be the president, Mrs. Wilma Limer. On the agenda of the business session will be reports from committees which functioned during the summer.

TO OUR READERS

For the past two weeks, The State Line Tribune has been printed by a different process. Likely, all of our readers have noticed the difference in appearance of the paper, although few have understood what has been the reason for this change.

This newspaper is a party to a joint effort to determine if it is feasible to produce newspapers by the new "offset" means.

So far, the new system has left much to be desired from both the appearance standpoint and also the time required to get the newspaper out. We have twice been late in the mails, which is very unusual for The Tribune. We regret very much these deficiencies, and feel that within a few weeks most of the trouble will be smoothed out. The change in methods of producing the paper has been a drastic one, and cannot be made without difficulties.

When W. H. Graham Jr. of The Tribune bought an interest in The Star at Friona two and one-half years ago, he disposed of a dilapidated plant and transferred the printing of that newspaper to Farwell. The Bovina Blade and the Cannon Air Base paper have also been printed here. This substantial increase in publishing activity has outgrown the capacity of the Farwell plant to produce it. A new plant has been built in Friona, and the business of printing in the county has been divided. The newspapers are printed in Friona, the commercial or "job" printing is done here at Farwell.

There has been some anxiety among local business people and community leaders that The Tribune as a local industry is being "killed." This is anything but the case. The Tribune's activities will be increasing, not decreasing. One obsolescent machine has been sold from the Tribune's back shop. Rather than curtailing business, this sale will make it possible to add a new and more productive piece of equipment in the future—within the coming year.

Commercial printing, which has always been a "step-child" at The Tribune, will now be intensely cultivated. It has every bit as great a possibility in terms of business volume as does printing our own newspapers. A full-time printer-manager is in charge of our shop now, and printing is being done regularly from Friona, Bovina, Texico-Farwell and Clovis—something never before possible. When two other locally well-known printers and newsmen return from their army service (one will be out in January), activity at The Tribune will be greatly stimulated. We have definite plans for expansion—not curtailment—of business here at Farwell.

In the meantime, there are four full-time employees on the payroll here, plus part-time help that varies with the season. This number will increase as the growth in our business justifies it. The bookkeeping and accounting for ALL newspapers and ALL printing is still here. Farwell is still the "nerve center" and will continue to be indefinitely.

These, then, are some of the reasons why the changes taking place need not be viewed with alarm by those interested in community growth and development. The Tribune is still very much locally-owned, locally-run. It has every intention of continuing to boost and build this community. It is taking definite steps to develop its commercial printing and related activities, and to remain a vigorous local industry.

The word is growth, not stagnation.

CARD OF THANKS

Words cannot express our gratitude to our friends for their thoughtfulness. The lovely flowers, kind words, cards, and letters that were given out during the sickness and death of our father and brother were all sincerely appreciated. We wish especially to thank our neighbors. We pray God's richest blessing for each of you.

### School Planned By Fire Dept.

Farwell Volunteer firemen will begin a school on all phases of fire fighting next Thursday night. Three hour sessions will be held each Thursday night for five weeks, Otis Huggins,

chief, says. Ray Henderson of Texas A&M Fireman's Training School will be instructor. He served as chief of fire department at Galveston for 17 years. The school was requested by the local department. "It's very important that all members and prospective members of the fire depart-

ment get in on this schooling," Huggins says. "We feel we can learn more in these five weeks than we could in a much longer time of less formal training. Starting time for the meetings will be 7 p.m. Tribune want ads get results. Call 3681.

#### P-TA POSTPONED

Because new lights in the auditorium have not arrived, President Claude Coffey announces, initial meeting of the Farwell P-TA has been postponed from Tuesday, September 9, to Tuesday, September 16. Program will be introduction of the faculty.

# Social Events of Interest

MR. AND MRS. LARRY PIKE

daughter's wedding. Mrs. Pike, mother of the bridegroom, chose a dusty rose lace dress with white accessories and a white carnation corsage.

Home of the bride's parents was the scene of a reception. An arrangement of pink gladioli and roses flanked by crystal candelabra holding white tapers formed the centerpiece. The table was covered with a white crocheted cloth over pink.

Upon their return from a wedding trip to Ruidoso, the couple will move to College Station where the bridegroom will enroll as a freshman at Texas A&M. The bride's going away costume was a sapphire blue crepe sheath dress with black accessories and the orchid from her bouquet.

The bride attended Farwell High School and Hedrick's School of Beauty in Clovis. She was a majorette and played with the band at FHS.

Her husband, a 1958 graduate of FHS, was valedictorian of his class and received the outstanding senior award as well as several athletic honors. He was a member of the all-district football team, and will attend A&M on an athletic scholarship.

Out-of-town guests at the wedding included Mr. and Mrs. Garland Potts, Mr. and Mrs. R. A. Kennedy, Donald Kennedy, Cynthia Potts, and Mary Potts of Amarillo, and Mr. and Mrs. Dick Worley of Clovis.

## Miss Potts Marries Larry Pike Saturday

Larry Pike and his bride, the former Miss Gwenlyne Potts, left on a wedding trip to Ruidoso following their marriage Saturday afternoon in First Baptist Church.

Mr. and Mrs. Herbert C. Potts are the parents of the bride, and the bridegroom is the son of Mr. and Mrs. C. S. Pike of West Camn.

Arrangements of pink shaded gladioli and asters flanked by palms and candelabra holding soft pink tapers formed the setting for the double ring ceremony performed by Rev. Sidney Cox, pastor of the church. A kneeling bench was covered with white satin. Miss Katherine Billington provided wedding music and accompanied Miss Wilma Norton who sang "Indian Love Call" and "The Wedding Prayer."

Maid of honor was Miss Jo Potts, cousin of the bride and Johnny Gulley attended the bridegroom. Candelighters were Misses Glenda Billingsley, cousin of the bride, and Joan Potts, sister of the bride. Derrell Garner and Leon Jamison ushered.

The maid of honor wore a pink brocade taffeta ballerina-length princess style dress with a scoop neckline. She carried a bouquet of feathered carnations. The candelighters were also gowned in pink taffeta and wore white carnation wristlets.

Given in marriage by her father, the bride wore a waltz-length dress of French imported lace over satin with a fitted bodice, stand up collar and bouffant skirt. Long sleeves ended in petal points. A shoulder-length veil fell from a Queen Anne's cap of illusion and seed pearls, and she carried a cascade arrangement of stephanotis centered with a white orchid on a satin and lace covered white Bible.

For something old she wore a pearl necklace; something new was her wedding gown. Pearl earrings borrowed from her mother and a blue garter completed the wedding tradition. She wore a penny minted in the year of her birth in her shoe for luck.

Mrs. Potts wore a brown crepe two-piece dress with beige accessories and a pink carnation corsage for her

MRS. LEONARD WILLIAMS

## Miss Lavoyda Billington Weds Leonard Williams

First Baptist Church, Farwell, was the scene of the August 31 wedding of Miss Lavoyda Billington of Farwell, and Leonard Williams of Lovington.

Parents of the couple are Mr. and Mrs. Sterlyn Billington of Farwell and Mrs. Lena Williams of Lovington.

Dr. H. E. Bergstrom of Portales performed the double ring ceremony before an altar decorated with palms, white mums, glads, and fern. Wedding music was by Miss Joanne Atkinson of Corona, pianist, and Lt. John Pickering of Fort Hood, soloist.

Honor attendants were Miss Katherine Billington, sister of the bride, and Bill Tarry of Lovington. Bridesmaids were Mrs. Bill Cregar of Tatum and Mrs. Gene Hardage. Ushers were Jerry Griffin of Lovington and Bill Cregar of Tatum.

The bridesmaids also lighted the candles. They and the maid of honor wore light blue velveteen street-length sheath dresses styled with a V-neckline in the back. Light blue tulle hats featured velveteen bows and their bouquets of small white mums were backed with light blue tulle fans.

Her father gave the bride in marriage. She was attired in a sheath of white lace over satin designed with long petal point sleeves and a bateau neckline accented with pearl embroidery. A white pill box hat held her short veil in place.

For something old she carried her baby necklace and ring in her white Bible at her favorite passage and her wedding ensemble was something new. She borrowed a pearl ring from her cousin, Miss Becky Foster, and wore a blue garter given her by Mrs. Ed Hardage. She wore a coin in her shoe for luck and her flowers were white gardenias.

Mrs. Billington, mother of the bride, wore fawn tan with a blue carnation corsage. The mother of the bridegroom chose navy blue with a white corsage.

Mrs. John Pickering of Fort Hood and Mrs. Jerry Griffin of Lovington presided at the bride's table during a reception at the Billington home. The three-tiered cake centered

the table which was covered with a hand-crocheted cloth. Miss Robbie Wieland of Corona registered guests.

Following a wedding trip to the Gulf of Mexico, the newly-

weds will live at 300 S. Ave. G in Portales where both are students at Eastern New Mexico University. For traveling the bride changed to a light blue wool suit with black accessories. Her gardenia corsage was taken from her bridal bouquet.

Mrs. Williams was graduated from Farwell High School in 1955 and attended Wayland College in Plainview. Her husband was graduated from Lovington High School in 1950 and served with the army until 1954. Both will complete their work at ENMU in January.

Among out-of-town guests were Mr. and Mrs. Victor Billington and Marilyn and Sherilyn, Mr. and Mrs. Austin Turner, and Mrs. John Pickering, all of Lubbock; Mrs. J. W. Hulseley and Mike of Downing, Calif.; Mrs. Inez Montgomery, Kay and Wilburn of Norwalk, Calif.; Jim Billington of La Mirada, Calif.; Mrs. Loucille Foster, Robbie and Becky of Abilene, Mr. and Mrs. Duane Herington of Albuquerque, Mr. and Mrs. S. L. Meeks of Earth, Miss Carolyn Parrish of Springlake, and Mr. and Mrs. Calvin Sanders, Mrs. E. M. Bocox, and Mrs. W. T. Jackman, all of Clovis.

## Mrs. Morgan Has Class Devotion

Mrs. C. C. Morgan presented the devotion for the business and social meeting of Ruth Sunday School Class of Texico Baptist Church last Tuesday night.

Plans for a project were discussed and a committee appointed to select new teachers.

Mrs. Olan Schlueter, hostess, served refreshments to Mesdames Morgan, Anson Bowers, D. J. Brown, Nora Day, and M. H. Poteet.

Tribune want ads get results. Call 3681.

## Bride-Elect Complimented With Shower

Feted with a pre-nuptial shower last Thursday afternoon was Miss Betty Hubbell who became the bride of Jesse Range Sunday.

Hostesses in the home of Mrs. Ted Magness were Mesdames Clair Lackey, Joe Magness, John Wieman, R. D. Dale, Yaunda Martin, Raymond Jesko, Dean Jones, Betty Ramage, Ruthie Routon, Ernest Kube and Misses Linda Kube and Glenna Davis.

Covered with lace over green, the table was centered with an arrangement of bronze mums and green asters and green candles. White napkins were engraved with "Betty and Jesse" in gold. White mums corsages were presented the honoree, her mother, Mrs. Oscar Hubbell, and Mrs. John Range, mother of the future bridegroom.

Special guests included Mrs. Rilda Henson of Texico, grandmother of the honoree, and Mrs. J. W. Hart of Dallas, grandmother of the future bridegroom.

Others present were Mesdames Joe White, W. T. Magness, E. W. McGuire, Leon Billingsley, Albert Smith, Partin Austin, Paul Crooks, Merrill Turner and Misses Joan and Naomi Hubbell, Juanita Range, and Ima Jean McKilip.

## Mrs. Ethel Thomas Leaves for Lubbock

Leaving the first of the week for Lubbock was Mrs. Ethel Thomas. She will assume duties as hostess in a girls' dormitory at Lubbock Christian College.

She has spent the summer at home and vacationing in various points in the state with her son. Mr. and Mrs. Warlick Thomas and son of Amarillo. They visited relatives in Baytown, Dallas, Galveston and Fort Worth.

Guest in the Byron Fort home in Tatum over the weekend was Mrs. Clytie Dial.

# The County Agent

By Joe Jones

Cotton bollworms are showing up in cotton over the entire county. Farmers should keep a close check on this pest and be ready with one of the many recommended insecticides. Weekly checks for eggs and small worms should keep ahead of this insect provided you know how to examine the terminals (4 to 6 inches) for eggs and small worms.

When four to five young worms and eggs are found after examining 100 terminals, it is time to begin poisoning. To check a field for this insect be sure to examine terminals in several different locations over the cotton field. Worms found in only one location will not necessarily reflect the infestation. Young or succulent cotton is more susceptible to worm damage than older, more mature cotton.

Keep in mind it takes a bollworm egg about 5 days to hatch so poison should be applied every five days when more than one application is required to give control. It is not practical to apply excessive amounts of insecticides and try to extend the effect past five days because the small worms will hatch out on new young tender growth that does not have

poison on it. The guide for controlling cotton insects is available from your county agent and will give you necessary details for control of all major cotton pests.

\*\*\*\*

The false chinch bug continues to give some trouble and farmers are reminded to keep a continuous watch for this pest. It will require a day to day check to catch them when they move in. In many instances, they move into a grain field overnight and begin feeding so you cannot check for this pest at weekly intervals. Keep in mind the only insecticides approved for application to feed grains are malathion, toxaphene and parathion.

The sorghum head worm is also doing damage in spots and should be controlled when he shows up in damaging numbers. This is the same worm as the cotton bollworm, tomato fruitworm, corn earworm, and can be killed with many different insecticides, but you should keep in mind the pure food and drug law and use one of the above listed whenever poisoning insects on grain sorghum. Toxaphene should do a good job on the sorghum head worm, and the army worm which is already around and can be expected to give trouble.

explains.

"If this is done, and the same differential were to exist in 1959 the light spotted loan would be 362 points above the spotted loan.

"If this is done, and the same differential were to exist in 1959 between white and spotted cotton as exists in 1958 the light spotted loan would be 362 points above the spotted loan rice. This would guarantee the West Texas farmer a premium of 362 points over the spotted loan for his light spotted cotton. Since white cotton is still another 362 points higher than this, it is not believed this loan level will adversely affect the sale of light spotted cotton," Pfeifferberger adds.

"This is another example of what can be done through organized effort through an association such as the Plains Cotton Growers," Pfeifferberger says. "The passage of this act alone will repay high plains farmers many times for the 15 cents a bale dues to this organization."

## Parr, Osborn, Jones On Labor Committee

Three Parmer County citizens, Bruce Parr, Sloan Osborn, and County Agent Joe Jones, will serve as a county farm labor committee with Ed Vaughn, manager of the Texas Employment Commission office, Littlefield.

TEC estimates that Parmer County will be short 1887 cotton pullers during the peak period of the cotton harvest. This shortage will be met by importing nationals to harvest the crop.

Under Public Law 78 TEC must supply this information to the secretary of labor who must limit the number of nationals to be used in this county by granting a "ceiling." The committee consults with the local office manager

to assist him in estimating the number of workers who will be needed, based on current local conditions affecting the cotton crop.

"Ceilings" granted by the secretary limiting the importation of Mexican nationals into this area will be posted.

Shaggy Dog Dept.: A leopard visited an optometrist, complaining that he saw spots in front of his eyes every time he looked at his wife. The optometrist tried to explain that anyone looking at a leopard would see spots. "But doctor, you don't understand, growled the leopard. 'I'm married to a tiger.'"

## New Rates Set For Light Spots

Attainment of one of the major goals of the Plains Cotton Growers has been reached with passage of new farm legislation by congress, W. O. Fortenberry, president, said last week as he disclosed that separate price support rates for split grades are a feature of this new legislation.

Section III of the House Farm Bill says "Beginning with the 1959 crop, in adjusting the support price for cotton on the basis of grade, the secretary shall establish separate price support rates for split grades and for full grades substantially reflecting relative values."

"While the legislation covers all the split grades the primary interest in the Plains is that of light spotted cotton," George Pfeifferberger, executive vice-president points out. Pfeifferberger began the campaign to get light spotted cotton recognized in the loan as one of the first major goals of the PCG when he took over direction more than two years ago.

Records show that the Plains crop will average about 50 per cent light spotted cotton. Previously Commodity Credit Corporation has not recognized light spots as a separate grade. A producer putting light spotted cotton into the loan received only the value for full or heavy spotted bales. The cotton trade has at times given substantial premiums for light spots over

## Water District To Open Office At Hereford

The High Plains Water District will establish a field office in Hereford soon. The office will serve the north part of the district.

The new office will be opened about September 1. Wayne Wyatt, district field representative, will be transferred from the office in Lubbock.

Due to the increased work load of the district field operations, and the vast size of the district, directors voted to establish this office and put it near the north boundary so that the area might be better served.

The District plans to run several new experiments on water use in the Hereford-Dimmitt-Friona area. The experiments will require close supervision and should supply valuable information to irrigators as to proper amounts of water that should be applied to various crops.

When an unusual number of abortions and weak lambs occur in a flock of sheep, vibriosis should be suspected, the American Veterinary Medical Association says.

## DEPENDABILITY of ELECTRIC home freezers proven by Texas Panhandle's first upright model—still giving faithful everyday service after 12 years!

OWNED BY **Mrs. John Detton, ROUTE 3 AMARILLO, TEXAS**

Ever look into the bright, expectant faces of hungry children eagerly awaiting a freshly-baked cookie? Or see the downcast, disappointed look that only kids can show when the cookie supply is "all out?" Mrs. Detton knows that look—that's one reason she's so pleased with her electric home freezer. She bakes large supplies of cookies, in advance—then freezes 'em. The happy faces of her grandchildren stay happy because Grandmother Detton just never runs out. She's always good for a fresh cookie, thanks to her electric home freezer—the first upright model in the Panhandle of Texas.

**Mrs. Detton's Recipe for APPLE STRUDEL**

Beat one egg in cup. Fill cup with lukewarm water. Add 2 cups of flour (a good pint). Add a pinch of salt and mix well. Beat and knead (by picking up dough and throwing or hitting it on table) until white blisters appear. Divide into 4 parts and cover each. Let stand 2 hours. Roll and pull tissue-paper thin. Spread with sliced apples, sugar, cinnamon, butter and sour cream. Roll up—place in greased pan. Bake in moderate oven for one hour, basting with hot milk. Apple strudel may be frozen unbaked. After removing from freezer, bake, basting with hot milk. Bake slightly longer than one hour. from an old Austrian Recipe

UPRIGHT OR CHEST TYPE—YOUR ELECTRIC FREEZER IS DEPENDABLE! SEE YOUR REDDY KILOWATT APPLIANCE DEALER

## James Mabry Conservation Farmer of the Year

James Mabry of the Hub community is Farmer County's 1958 "Soil Conservation Farmer of the Year." He was selected this week by the Farmer County Soil Conservation District, and will be honored at the annual SCD banquet in Lazbuddie Monday night.

Last year's winner was Ernest Anthony, who farms north of Friona.

Mabry received the citation not only for the programs he carries on in cooperation with the District and the government, but also because he "goes the second mile" in the matter of soil and water conservation, and performs many practices not strictly in the book.

For instance, he makes excellent use of his irrigation water. He has \$12,000 worth of concrete pipe on his 320-acre farm to help accomplish this, but just having pipe does not necessarily mean that a man conserves water.

Mabry doesn't stop at just having pipe—he makes it a tool of his better irrigation practices.

James, a friendly, talkative Farmer Countian, lives just west of the Hub corner. His place is a choice farm, having mixed, mellow land that not only has high enough natural fertility to make big grain yields possible, but also possesses the sandy texture that pays off in bigger cotton yields.

Mabry takes these natural advantages and puts them to good use. His farm is always a showplace to passers-by and year after year, top-quality crops of grain sorghum, cotton can be found growing under his watchful eye.

He has a definite rotation program to preserve the con-

dition of his soil, and works in legumes (vetch and rye) to attain these ends. He fertilizes stubble to break down the residue and add organic matter to his soil.

Besides all the good work that Mabry does on his own place, he is a leader in community affairs. Hub is an energetic farm community and James is always found at work helping to make his community a better place in which to live.

He and his wife and family live in an attractive brick home that faces Highway 86. The Mabrys have taken pains to landscape and beautify their home, and its appearance is characteristic of the thoroughness that Mabry puts into any enterprise.

In addition to his soil conservation work, James is a leader in developing progressive farming methods. He was an early experimenter of hybrid grain sorghums. This year he is testing two top-yielding varieties of hybrids in special plots that are being farmed as intensely as possible.

On 3 1/2 acre plots of his best land, he has sown with a wheat drill 18 pounds of seed to the acre. The milo was planted just like irrigated wheat on lister furrows. These tiny rows and heavy seeding rates have resulted in a tremendously thick growth of grain.

Mabry is shooting for 10,000 pounds from the fields, which are of Texas 660 and DeKalb F-62A. Whether he makes it won't be known until harvest time, but right now prospects appear excellent.

With this type of grain sorghum farming, there is no cultivating once the crop is up. Fertilizer has been applied

with irrigation water. The milo is virtually weed-free because it was planted late on clean ground, and the stand was so heavy that it shaded out late-starting weeds.

That experiment is typical of Mabry's willingness to try out something that looks promising, and helps explain why year after year he makes top yields. (He frankly thinks that the real trend in grain sorghum farming will be double rows on 40-inch beds—and he has a lot of that, too.)

Mabry got into farming through the back door. He was a baker by trade, having learned the craft with his brother, Walter, in Oklahoma. He also operated a restaurant for a time in Los Angeles, but decided to leave these city-fied fields behind and get into farming.

He looked over the Plains country and picked the Hub, buying his place in 1948. He immediately drilled wells and converted the farm to irrigation.

Mabry confines his activities to his home place now, although in the 10 years he has resided in Farmer County he has rented land "all the way from here to Black."

His attitude about farming and his work help explain why so many people notice the progressive farmers of Farmer County, and why Mabry's own friends have picked him as the outstanding Soil Conservation Farmer of the Year.

CONTROLLED IRRIGATION is made possible by an extensive system of underground pipe. Here Mabry opens a valve to release water to his thirsty grain sorghum.

REALLY THICK is this hybrid grain sorghum being grown under experimental conditions by James Mabry. It was planted like irrigated wheat on lister beds. In fact, a wheat drill was used to sow the 18 pounds of seed per acre.

## Annual SCD Feed Set at Lazbuddie

The Farmer County Soil Conservation District's annual banquet will be Monday night, September 8, at the Lazbuddie school. To be honored at the affair will be James Mabry of the Hub, who is Soil Conservation Farmer of the Year.

Special guest for the banquet will be Garland "Cotton John" Smith of KGNC-TV, Amarillo. He will speak about his recent European tour, in addition to other topics.

Also to be recognized will be Ramey Brandon of Bovina, who was the winner of this year's youth essay award. He submitted the prize-winning essay on soil conservation.

The banquet, which will start at 8, is hoped to be "the biggest yet," according to the supervisors. They include A. L. Black, chairman;

Bruce Parr, secretary; and Carl Schlenker, George Crain, and Joe Blair.

Tickets can be obtained from the supervisors or the county SCS office in Friona.

### H. D. AGENT'S CORNER

Jimmie Lou Wainscott

Eleven women came to the basic dressmaking workshop meeting last Tuesday. Plans were made to have the first work meeting in the H. D. Agent's office September 9. Each person will have patterns, material and equipment ready to sew at this time. Meetings will alternate between Farwell and Friona.

Enrolled are Rita Dollar, Pauline McDonald, Jeanne Graham, and Hazel Lesly of Farwell and Jessie Douglas, Waneta Taylor, Mary Gibson, Shirley Brown, Stella Varner, Jonell Sims and Mrs. James Mabry of Friona.

A training meeting on salad making was in my office

last Wednesday. Leaders who attended will take the demonstration back to their HD Clubs.

The two salads made were a tossed green salad and an olive slaw. I really enjoy making salads and feel that they are an excellent place to use imaginative creativity to add variety, color, texture, and nutrition to your family's diet.

As a basic green salad the following recipe is a good beginning:

**TOSSED SALAD**  
Greens: any one, two or more  
Clove garlic  
Salt  
Whole black pepper (peppercorns)  
Tarragon-wine or malt vinegar or lemon juice  
Salad oil  
Sometime in the morning, wash greens. After draining,

break leaves (no tough centers) into fork size pieces until you have about 2 quarts, then dry well; wrap in towel; tuck in crisper to chill.

### Fall Planting Seed

Certified Seed Wheat of the Favorite Varieties  
Selected Seed of Oats, Barley, Wheat, Vetch  
A Good Binder Twine -- Belgium Twine

Let us clean and treat your fall planting seed. Our cleaners are so arranged that we do not mix grain crops when cleaning. Karmex for killing bindweed, downy mildew and salt for killing Johnson grass.

— Purina Feeds —

## THE PARMER COUNTY IMPLEMENT CO. NEWS

"The Place Where Most People Trade" Friona, Texas Wednesday, September 3, 1958

Our neighborhood is almost back to normal now. John Bill is home from Florida, the Frank Springs from Boston, and Dale Houlette from two weeks at Fort Polk, La. We will be glad when Mrs. Paul Spring gets home from the hospital and Susan, her daughter, returns from the Johnnie Bengers.

PCICN Drop by our store. Take a good close look at the new McCormick #36 field harvester. Make a date to try it in your field, chopping any crop you choose. Chop a 5-ton load in only seven minutes.

PCICN Sunday fisherman: "I feel guilty. We should be in church."

Pal: "I couldn't have gone anyway, my wife is sick in bed."

PCICN One out of every 67 Americans was killed or injured in an automobile crash last year. Total casualties for the year was 2,563,700.

PCICN You'll like the fast, clean, 23-acre a day stripping you get with the new 2-row McCormick cotton stripper. Extra long rolls "flip" bolls off stalks. You get more cotton and less trash.

PCICN Mr. and Mrs. Ernest Anthony and Mr. and Mrs. Gene Anthony spent the weekend at Hobart, Okla., where Mrs. Gene Anthony's father had surgery, but is better now.

PCICN Boss: "Okay, I'll give you a job. Sweep out the store."

Applicant: "But I'm a college graduate."

Boss: "Then, I'll show you how."

PCICN Since the Revolutionary War, 604,753 Americans have been killed on battle fields, while traffic deaths in the past 50 years have accounted for 1,200,000 lives.

PCICN See the greatest tractor ever built for large row crop farms--the Farmall 450. Offering more horsepower than ever before--with more features to put this greater power to better use--with unmatched comfort and convenience to save time and effort--unequaled economy and dependability to shrink costs. The Farmall 450 well rates the title, "The Country's Greatest."

PCICN John Bill made good on his promise to bring David an alligator. Sure enough, Friday night when he came in he was carrying the biggest shoe box we'd ever seen and in the box was an alligator. "I could have bought him one that was only six months old, but this one is two years old and will live much longer."

PCICN Saturday at noon the 'gator got warm and frisky, and crawled out of his box. We hunted and hunted, but couldn't find him. Sunday afternoon the boys' daddy found him under the deep freeze and near the motor where he'd stay warm, so he's back in a bigger box and the boys are happy. His name is Floy and David can't remember whether he's Floy from Florida or Florida from Floy. The only good thing about him is that he requires food only twice a week.

PCICN Our shop is always busy but we will make time to keep your farm equipment in

When you are starting dinner, get out roomy salad bowl. Cut tiny checkerboard pattern across top of garlic (this gives you lots of tiny garlic bits.) Next, add about 1/2 teaspoon salt and generous grinding (1/4 teaspoon) whole black pepper from pepper mill. For sharper flavor, you may add a bit of dry mustard. Now, with back of spoon mash seasonings together (a that remains in delicate garlic flavor). Into this, stir 1/2 tablesp. vinegar, then 1/4 cup salad oil, mixing well with fork. Next remove those crisp greens from refrigerator; heap on top of dressing but don't toss. Then set salad plates; put all in refrigerator.

At salad time, not before remove salad bowl and plate from refrigerator. Whisk 1 table and toss greens lightly (Or toss in kitchen.) Every leaf should be coated, but not dripping. With dressing. Serve at once. Makes 4 to 6 servings.

Next week we'll have some suggestions for those ingredients and dressings that make your basic salad just a little bit extra.

Mashed avocado seasoned with salt, instant minced onion and fresh lime juice is one of the most popular of all dips. Give a little different "flavor twist" by adding small can of deviled ham.

A sack dress is like Prohibition—the joints are still there; they're harder to find.

**HENDERSON**  
GRAIN & SEED COMPANY, INC.  
Farwell, Texas

PCICN The best condition. Call 2091 and ask for Ben Woody if you have some shop work.

PCICN We had company at our house Sunday--our uncle and aunt from Lamesa, Mr. and Mrs. Tracy Campbell and their daughter, Betty, who is a Methodist missionary in Baguanos, Cuba.

PCICN 40,000 pounds of pressure could not break Goodyear's triple tough 3-T nylon cord. This nylon cord is triple tempered under precise tension at closely controlled temperature, for an exact period of time. Result: a stronger, safer tire for more worry-free miles. Let us show you one of these tires. More people ride on Goodyear tires than any other kind.

PCICN Policeman: (To drunk trying to unlock the door of his house) "May I hold the key?"  
Drunk: "Naw, I got a good grip on it, you hold the door."

PCICN Our parts department is the most complete on the Golden Spread. Just call for any part you need.

PCICN Our daddy left Amarillo by plane Wednesday for Kansas City where he will attend the showing of the 1959 Oldsmobile.

PCICN One Friona resident plans to enroll at Amarillo Centre for Monday evening classes. Anyone else who would be interested in enrolling is asked to call 2482.

### Extension Service Releases Irrigation Survey

D. W. Sherrill, Irrigation Agent with the Texas Agricultural Extension Service in Lubbock, has recently released an annual irrigation survey. The survey shows irrigation data for a 42-county area in the High Plains of Texas.

According to the survey, there are 4,582,570 acres under irrigation in the High Plains Area (Oklahoma panhandle to Midland and New Mexico to eastern escarpment). This constitutes an increase of 183,690 acres over the number of acres irrigated in 1957.

The survey further reveals that there are 18,605 irrigated farms in the area, 3,106 miles of underground irrigation pipe installed, 3,804 sprinkler systems and 45,522 irrigation wells. Of the total number of irrigation wells 33,768 of them have pumping lifts in excess of 125 feet.

The survey also shows that there are 95 recharge wells in the High Plains.

The survey presents the following data for Water District Counties:

County	Farms Irrigated	Total Acres Irrigated	Irrigation Wells	Sprinkler Systems	Recharge Wells
Armstrong	94	25,550	150	4	
Bailey	830	162,000	1800	200	
Castro	900	405,000	3800		2
Cochran	340	70,000	925	400	
Deaf Smith	700	320,000	2300		
Floyd	1300	300,000	2500	5	13
Hockley	1350	275,000	4350	115	3
Lamb	1787	325,000	5045	60	8
Lubbock	1800	350,000	4936	5	13
Lynn	550	65,000	1375	14	6
Parmer	1100	370,000	2350	3	5
Potter	21	14,500	34	1	
Randall	430	90,000	710	3	
<b>TOTAL</b>	<b>11,202</b>	<b>2,772,050</b>	<b>30,075</b>	<b>810</b>	<b>50</b>

## Grain Sorghum Growers Meet Next Tuesday

Grain sorghum producers throughout Parmer County will take a closer look at their production, marketing and related problems and opportunities at a county-wide meeting next week.

Wes Long, Parmer County chairman of the Grain Sorghum Producers Association, says the annual pre-harvest meeting will be Tuesday, September 9, at 8 p. m. at the Hub Community Center.

It is expected that government programs, production and marketing practices and reports on the organized activities of the Grain Sorghum Producers Association will be the chief topics of discussion.

Jack King, grain sorghum agronomist with the Texas Extension Service, and Bill Nelson, executive vice-president of GSPA, will participate in the discussion along with local farm leaders.

Long points out that the grain sorghum economy of the area is rapidly changing. He mentioned particularly changes in government programs, expected release of new and different hybrids, expansion of livestock feed in the sorghum area, increased slaughtering facilities, and stepped up interest in industrial use of sorghums.

"Our individual welfare under such rapidly changing conditions may well be determined by how well we plan together, and on our organized efforts in the interest of grain sorghum," he said as he urged wide attendance at the meeting on the 9th.

Farmers, businessmen, and farm organizations are urged to be present," says Long.

naturally!

We congratulate a fine farmer and a fine man, James Mabry of Hub, for being chosen Parmer County Soil Conservation Farmer of the Year.

### NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Thursday afternoon, Mary Ann Stacy, the new Parmer County Farm Bureau queen, and Celia Berry, alternate, went to KCBD-TV in Lubbock to rehearse for the District II contest.

Saturday afternoon, September 6, at 5:30, the contest will be telecast from that station (Channel 11). Following the contest there will be a reception in the Lubbock Hotel, where Farm Bureau officials, newspapermen and others will be in attendance. We are hoping very much that our candidate will come out number one in this contest this year.

Tuesday afternoon, Parmer County Farm Bureau directors and guests attended the District II policy development meeting in Lubbock. There, farm and rural problems were discussed with a view to presenting them to the membership back home in county conventions for their action. Continuation of the present rural road program is one of the subjects due to be given quite a bit of time.

In the evening, a banquet, featuring Frank Woolley, American Farm Bureau's assistant director of legislation in Washington, was held.

Your resolutions committee will be meeting in the near future, and if you have subjects you would like discussed and considered in the county convention in October, contact Harry Hamilton, Ernest Anthony, Franklin Bauer, Lloyd Prewett, Vernon Symcox, Donald Christian, or Joe Jesko. Or, if it is more convenient, you can bring your ideas to the office in Friona, or meet with the committee when they meet. In any case, do not hesitate to make your ideas known.

State gas tax exemptions will be handled a little different in the future than heretofore. Within a few days, each gasoline user on file in the office will receive a notice to file for refund, regardless of when he has filed last. Then, six months later, each one will be notified again. This procedure will eliminate some errors that occur when individual dates are kept and eliminate much of the time previously consumed in going through the files. We think you will like this method better. We are also asking that the dealers bring their invoices to the office at least once each week, like they are supposed to do.

Consider this: "Let another man praise thee, and not thine own mouth; a stranger and not thine own lips." Proverbs 27:2

## Seed Growers To Have Tour

The Parmer County Certified Seed Growers will hold their annual tour Friday, September 5. The tour will begin at the Hub Community Center at 9 a.m. and end with a luncheon there at 1 p.m.

The Hub Community Center is 8 1/2 miles south of Friona on the highway to Muleshoe, or 1 1/2 miles south of the Hub.

Those who attend will see many crops being grown for seed. Included will be open pollinated and hybrid grain sorghums, Austin cotton, soybeans, corn and sorgrass, and others.

Also to attract interest will be a grain sorghum variety demonstration block, narrow row seeding of grain sorghum, bindweed and Johnson grass control, vegetable production, narrow row sesame, and fields of hybrid sorghums from local seed production in 1957.

Several stops will be made, announces Doyle Vaughan, chairman of the tour for the association. Crops and other items of interest will be well marked with signs. "Everyone interested is invited to make the tour," he says.

Special out-of-town guests are expected. "Cotton John" Smith of KGNC-TV is due to be on hand, and either Dr. N. K. Kramer or Jack King of the Lubbock Experiment Station. One of the men will give a talk on production of certified seed at the noon

### SOIL CONSERVATION DISTRICT NEWS

Next Monday night the annual banquet of the Parmer County Soil Conservation District will be held in the Lazbuddie School cafeteria at 8. This is a special invitation to everyone in the area interested in soil and water conservation to attend. Dinner will be served and a short conservation program will be presented. "Cotton John" Smith of KGNC in Amarillo will be the speaker and awards to the outstanding conservationist and winners in the essay contest will be presented.

Tickets may be obtained from various businessmen in Farwell, Bovina and Friona as well as the district supervisors: A. L. Black, Carl Schlenker, Bruce Parr, Joe

Blair and George Crain.

Now is the time to make preparation to plant wheat. Some farmers have already begun their land preparation. When fertilizing wheat it is usually better to fertilize before planting. This enables the nitrogen to speed up the decomposition of old stubble and thus releases plant foods much quicker than they would otherwise.

Dirt work as far as improving water application is definitely on the increase. Farmers are finding that by filling lakes they are able to improve their irrigation at a nominal cost. Cooperators who are now doing dirt work are A. L. Black, Fern Barnett, and Claude Miller. The SCS technicians can assist you in figuring the cuts and fills on the amount of dirt to be moved on your farm.

Something to think about: Soil is the farmer's bank. It won't stand too many promissary notes.

## CONGRATULATIONS—JAMES

When this cotton is ready to gin, James Mabry will have done everything he can do to produce good cotton. From there on it is up to the gin.

### WEST HUB GIN

Is equipped and staffed to make the difference between just ginning and getting the most for every farmer's money. We congratulate James on being selected Parmer County Soil Conservation Farmer of the Year.

## BOVINA FARM CHEMICAL FARMERS TAKE NOTICE

At These Prices, You Can't Afford to Wait

It's Time to Fertilize. Wheat or what Have You! Anhydrous Ammonia is so Cheap, You Can Put It On!

Prices Listed are for the time being only

**CASH PRICES**

Your Tank 100 lbs. \$5.25

Our Tank 100 lbs. \$5.75

Our Tank And Rig 100 lbs. \$6.25

Prices On 30 Day Accounts

Your Tank 100 lbs. \$5.75 Our Tank 100 lbs. \$6.25

# District Takes Steps To Stop "Tail Water"

In a meeting at Lubbock on August 20, the board of directors of the High Plains Underground Water Conservation District discussed at great length one of the High Plains' major problems---waste of agricultural "tail-water."

"Tail-water" is a term which describes unused irrigation water which is allowed to run from the end of the crop rows. Most of this "tail-water" is uncontrolled by the irrigator, and usually it enters a road-ditch from the crop rows and from there meanders toward a low place, depression or lake.

Included in the rules of the district is a regulation which forbids the habitual and willful waste of agricultural irrigation water. The district's staff, under the board's leadership, has attempted to enforce this rule in the past by employing educational methods. The district has attempted to show that from an economical standpoint the practice of allowing "tail-water" to escape the land from which it is produced is very unwise.

It does not take a highly educated man to determine that money is being thrown away when it is used to produce irrigation water that is allowed to run into a lake and there evaporate without serving a beneficial purpose for anyone.

The district has pointed out that agricultural "tail-water" is also a detriment to our society from a health and safety standpoint. The road-ditches, depressions and lakes when filled with water represent excellent breeding environments for disease-carrying mosquitos.

Also, "tail-water" represents a public safety hazard when allowed to run across or stand on public roads. Many accidents have occurred when an unaware motorist comes upon a large gully washed across the road by water.

The district has also approached the problem from the standpoint of this present generation leaving a useful heritage of an adequate water supply to future generations who will attempt to earn a living from the farm land we now call "ours." When water is produced and is not put to beneficial use, some-one down the line of succession is deprived of his rightful heritage.

The district has attempted to stress these reasons for conserving "tail-water" and has in the majority of instances, with such logic, been able to solve acute waste problems.

However, there remains a minority element within the water district that persists in allowing "tail-water" to escape their land. "To this group we would like to point out that under a democratic-type government such as the one we enjoy, each individual is responsible to see that the use of his property does not do damage to others of the community, and that he is morally and spiritually obligated to use resources entrusted to his care as wisely as is possible," the directors say.

The district is now taking additional steps to enforce the rules against waste. These steps represent a more positive approach to the problems of conserving our precious resource, protecting community life and health and facilitating a greater economic return from irrigation water pumped.

## THE PARMER FARMER

by W. H. Graham Jr.

We didn't get that anticipated August bale of cotton. However, we still think that a bale of cotton CAN be grown in Parmer County, and some day we will do it.

If it hadn't been for that cool spell two weeks ago, we probably would have made it, but the cotton bolls didn't really get to opening up until the middle of last week or last weekend.

The weather for the past 10 days has certainly been ideal for maturing crops. The cotton bolls are really beginning to pop and the grain sorghum is maturing and drying more rapidly than might be expected.

There was a load of milo in Bovina last week, which just goes to show you that some fields are a lot closer to being ready for the combines than might generally be thought.

Harvest of sorghums is already complete in many areas downstate, and will be spreading northward into the South Plains area right away. The big rush of harvest is right on us and we scarcely can realize it.

Do you believe in farmers holding part time jobs to help make ends meet? Frankly, we don't.

We will explain by saying that of course if a farmer has the time and wants to be gainfully employed off the farm, then that should be his privilege if he wants to supplement his income with such work.

But it is foolish for some

legislators to talk in terms of farmers having to take on part-time work if they want to stay on the farm. A farmer, we think, should find (or be allowed to find, if that's the way you look at it) enough opportunities to keep himself busy with the business of farming.

If, after doing a good job of farming, he still has a lot of time left over, it either means that he isn't really doing a good job, or he hasn't availed himself of all the opportunities he could have, or something else. We just can't view farming as a part-time occupation.

Since many of the city-dwellers have been able to cut down their work weeks to 35 to 37 1/2 hours in length, a surprising number are actually holding down two "full-time" jobs. More frequently, though, they either work part-time for some concern or attempt to earn money "on the side" with creative hobbies, money-making ideas, and the like.

The farmer finds it not so easy to take on such extra work, and, in fact, we hate to see him thinking he ought to. At harvest, during heavy irrigation seasons and at other times he must think of nothing but farming or get out of the farming business.

We think that there is still enough opportunity left to go around, and that there is just as much on the farm as there is in town. The problem is locating and exploiting those extra agricultural opportunities without upsetting the regular work pattern.

ties without upsetting the regular work pattern.

Instead of an "extra job" a farmer ought to think instead of an "extra opportunity" for himself. It might be very modest, or it might be on an ambitious scale. It might take the form of swine, or beef, or poultry, or specialty crops. There are still things that can be done on the farm, and all the money-making ideas haven't migrated to the cities.

Interesting statistics on feed grain production: This fall Texas farmers are expected to produce 238,095,000 bushels of grain sorghum. Up in the Midwest, where Iowa proudly calls itself "the corn state," Iowans will grow about 615,164,000 bushels of corn. As much grain as we think of ourselves as producing, we still must realize that grain

sorghum doesn't begin to compare with corn from the standpoint of total tonnage.

Texas cotton growers will raise well over one-third of the nation's crop this year. The USDA expects Texans to harvest 4,150,000 bales during 1958. The total crop for the country is expected to be about 11,500,000.

Did you hear about the fellow who spent his entire enlistment throwing stones at gull-like birds? He didn't leave a tern unstoned.

# Tellyer Pipe Recognizes JAMES MABRY of the Hub Community

Parmer County Soil Conservation Farmer of the Year!

James Mabry makes intelligent use of his precious irrigation water by saving valuable tail-water. He does this by running TELLYER'S PORTABLE IRRIGATION PIPE across roads and turnrows and guides this otherwise wasted water onto other crops in his fields. In this manner life-giving water is utilized again to make more economical yields for Mabry.
