

FIRST IN LINE when the new vehicle registration plates went on sale in Parmer County Wednesday was L. D. Dorsey of Bovina. He is shown buying a set of commercial tags from Mrs. Bill Moss. The new plates, which are white with black numerals, must be on all vehicles in the state by April 1. Prefix for commercial plates this year is 1K and for passenger cars it will be BX.

# Banquet Plans Taking Shape

## Humorist-Philosopher Booked As Speaker

Eight members of the Farwell Chamber of Commerce were on hand at the City Hall Tuesday night to map out final plans for the annual Chamber banquet, slated for Monday night, February 13.

The group decided to seek local entertainment for the feed instead of hiring out-of-town professionals, and plans were discussed for advance ticket sales.

Tickets have been distributed to all Chamber directors and several other members in an effort to assure a good turnout for the feed. All of the members who received the tickets have been asked to make an attempt to sell all of them.

Speaker for the banquet will be Delbert Downing, humorist-philosopher who is a much sought-after

speaker.

Downing has been manager of the Midland Chamber of Commerce since 1946, and is a past president of the Chamber of Commerce Manager's Association of West Texas.

He is a noted speaker throughout West Texas, having addressed hundreds of audiences each year.

About the man the Farwell Chamber has chosen as its speaker this year, Bill Collins, editor of the Midland Reporter Telegram, says, "You will enjoy this humorist-philosopher—not because he is a humorist nor because he is a philosopher; but because his unselfish courage flows out to his audience."

Downing, who teaches one of the largest Sunday School classes in Midland, "is one of the most modest, most unassuming and most likable persons one could hope to meet," Collins says. "He is constantly alert to the needs of others and actually

fills the bill of father-confessor to scores of people who bring their problems and dreams to him."

In addition to the speaker, the agenda for the evening includes a 15 or 20 minute musical program, a report on the year's activities by the Chamber, and introduction of new directors and officers.

A nominating committee, comprised of Sam Aldridge, Elmer Hargrove, and C. C. Christian, was scheduled to meet sometime this week and recommend a slate of new directors. After they are recommended, a special meeting of the chamber will be called to vote on the nominations.

The men who are nominated will then get together and elect the president and other officers.

Tickets for the feed are selling for \$2. The meal will be prepared and served by the Farwell Band Mothers.

## Dimes Coffee Set Again for Sunday

Show interfered with two March of Dimes activities last week, but both have been rescheduled for this week.

Members of ESA Sorority had to call off their Mothers' March last Friday due to the storm, but have been conducting it this week. They plan to wind up the door-to-door canvass Friday.

The March of Dimes benefit coffee, which had been planned for last Sunday by the Farwell Study Club, was also postponed and has been scheduled again for this Sunday.

Site for the coffee has been changed to the Farwell Home Ec Cottage, and it is scheduled from 2 to 6 p.m.

Coffee and tea, cookies and an assortment of fruit breads will be served by members of the study club. The public is invited to attend and make their contributions to the March of Dimes.

The ESA Sorority has about completed the Mothers' March, but any one who has not been contacted by the women in the canvass, and would like to contribute, is asked to contact Mrs. John Getz, ESA president. A member of the organization will come by and pick up the contribution.

## License Tags Now On Sale

Vehicle registration plates for 1961 went on sale in Parmer County Wednesday morning in the county tax assessor-collector's office in Farwell.

The new plates must be on all vehicles operated over public roads and highways by midnight April 1. The 1961 plates will be black letters and numerals on a white background, the opposite of the 1960 plates.

Farm trucks will have the prefix 8E and will begin with number 8575. Passenger cars will have a two-letter prefix, BX, and will begin with the number 2650. Commercial trucks will have the prefix 1K, with the beginning number 850.

## Yeggs Loot Store At Bovina Tuesday

Burglars made another of their periodic strikes in Bovina Monday night.

Victim was Williams Mercantile Co. Merchandise worth more than \$2000 was stolen by the burglars, estimates W. E. Williams, owner of the business.

Also taken were pennies, nickels, and dimes which were in cash register and some \$25 in silver dollars which were in an unlocked safe in Williams' office.

Entrance to the building was made by breaking the lock on back door of the building.

Several dollars worth of merchandise which wasn't stolen

was damaged by being thrown on floor and then walked on.

Included in the stolen merchandise were men's and women's coats, dresses, skirts, ties, underwear, boots and hats. The ties and hats had Williams Mercantile Co.'s name in them.

The break-in was discovered by Bill Denney, rural mail carrier, as he went to back door of the post office, which is next door, early Tuesday morning.

Parmer County Sheriff Chas. Lovelace of Farwell and Deputy Henry Minter of Bovina investigated the burglary.

In other activity for the sheriff's department, four persons were arrested and convicted last week on charges of misdemeanor thefts.

Walter Washington, 46-year-old Negro, was arrested and

INVESTIGATING --- Deputy Henry Minter, left foreground, and Sheriff Chas. Lovelace investigated the burglary of Williams Mercantile Co. after it was discovered early Tuesday morning. They are shown in office of the business.

## Steers Blast Kress, 62-40

Farwell avenged its only loss in District 3-A action, by romping past the Kress Kangaroos Tuesday night, 62-40.

By winning, the Steers remained in the pace-setters role along with Sudan, both teams having lost only one game.

Tuesday night's action was the exact reversal of games played at Farwell earlier in the season, as the Farwell girls team took a drubbing, 81-52. When the two teams met in the first round of action, Farwell won over the Kress girls and the Steers bowed to the Kangaroos in an overtime.

The Steers didn't waste any time getting even with the Kangaroos, taking an 18-9 lead in the first quarter and adding to it the remainder of the way. They were outfront 31-19 at the half and 46-32 at the three-quarter mark.

Farwell outshot the Kress team 23-9 on field goals, but the host team dropped in 22 free throws to 16 for the Steers. There were 47 fouls called in the game, 23 against Farwell and 24 against Kress.

Leading the Steers to victory were Benjy Dial, who canned 27 points, and Tommy Williams who scored 18.

In the girls game, Farwell just couldn't match the Kress offensive machine which took a 23-17 first quarter lead and increased it to 43-31 at the half and 62-46 after three quarters.

Three Farwell girls did score in the double figures, but they were no match for Kay Campbell who accounted for 40 of the host team's points. Emalee Tucker scored 19, Christine Paine had 18, and Iris Goldsmith had 13.

Only three games remain on the regular season schedule for Farwell before the district tournament which is slated for February 14-16-17 at Kress. The local teams go to Hale Center Friday night, then return home for games against Springlake Tuesday and Sudan Friday.

If the Steers get by Hale Center and Springlake, the stage will be set for the showdown with Sudan next Friday night. Overall record for the Steers this season is 16-5.

## Trib Gets Plug From Missouri

The Tribune received a new subscriber last week, thanks to the efforts of a woman who lives in Missouri.

The Bill Bourlons, who live on a farm north of Farwell, came by and subscribed to the paper, and said they were doing so on the advice of Mrs. Hugo Schubert.

Mrs. Schubert lives in Jefferson City, Missouri, and owns the land on which the Bourlons farm. While out here visiting last fall, she convinced them that they definitely should subscribe to the Tribune.

Mrs. Schubert has been a subscriber for a good many years, and while visiting here, came by the Tribune office to renew her own subscription. She said she looked forward to getting the paper each week and did not want to miss a single issue.

## Wade Mill's Work Included In Show

Paintings by Wade Mills, Farwell, are included in those now hanging in the Student Union Building at Eastern New Mexico University. "Experiments With Color" is the theme of the current art show which is the works of the students in Color and Design class at ENMU. All are students of Peter Wetzler, associate professor in arts and crafts.

## Texico Election Set For Tuesday

Five names will appear on the ballot Tuesday, as residents of Texico go to the polls to elect two members to the Texico School board, each for a six-year term.

The election will be held in the town hall, with polls opening at 8 a. m. and remaining open until 7 p. m.

C. C. Curry and T. T. Doolittle, whose terms are expiring, are both long time members of the board. Curry is seeking re-election.

Other candidates whose names will appear on the ballot are J. M. White, Melvin Burns, F. S. Thigpen and Edward Combs.

## Steers Edge Wolverines, 40-39

Opportunity knocked for all concerned in the closing minutes --Farwell answered the call, Texico couldn't, and the Steers walked off with a 40-39 overtime victory over their cross-town foe Saturday night.

Leading 35-31 with only 2:10 remaining on the clock, Texico went into a stall, but couldn't control the ball and the Texans got the two chances they needed.

Leon Lovelace dropped in a layup to narrow the margin to two points and Benjy Dial hit a jump shot with 50 seconds remaining to knot the score.

The Wolverines still had a chance to pull it out of the fire when their tall pivot man, Leon Kelley, was fouled while attempting a layup. Both charity attempts went astray and the Steers took the ball down court, stalled and waited for the last-second shot which was short of its mark.

In the overtime period, Dial put the Steers out front with two driving layups. With only 35 seconds remaining, a deliberate foul was charged against the Wolverines, giving Tommy Williams two free attempts at the basket.

He missed the first one, but the second was good and this turned out to be the winning basket, as a last-ditch effort by the Wolverines narrowed the margin to one point.

Texico's Kelley was fouled again with 20 seconds remaining and he dropped in both shots to narrow the count to 40-37. Then, just as the clock ran out, the Wolverines' sharp-shooting junior guard, Bill Reid, connected on a long set shot for the final two points.

Both teams played spasmodically, but it looked like a torrid shooting spree by Reid in the third quarter might be enough to bring the New Mexico lads through.

The classy reserve guard, filling in for regular Kenneth Murdick who was away on a choir trip, hit five of seven field goal attempts from 25 feet out. Three of those came in succession early in the third quarter.

In what was a low-scoring, foul-marred first half, Farwell came out with a 17-14 lead, before Texico went ahead 28-25 in the third quarter.

With Williams and Leon Lovelace leading the way, the Steers tied the score at 31-31 midway in the fourth period, before two free throws by Kelley and a set shot by Bill Reid gave Texico a four-point margin.

The Wolverines couldn't maintain possession of the ball, and this set the stage for Farwell's come-from-behind win.

Scoring honors in the game went to Williams, who accounted for 15 points. Dial hit 13 and Leon Lovelace scored 9 for the winners.

For Texico, Don Reid and Kelley tied for the honors with 10 points each, and Bill Reid and James Halsell each had 7.

Neither team fared very well from the free-throw lane, Texico connecting on only 9 of 22 attempts and the Steers hitting 10 of 20 shots.

From the field, both teams were about even, Farwell hitting 15 of 43 attempts and Texico meshing 15 of 41 shots.

Farwell made it a clean sweep for the evening, also winning the B game 36-29.

## Conference Formed For Juniors

As the season enters the home stretch in Parmer County's newly-organized junior high basketball conference, Friona's boys and girls teams both are undefeated in three games.

The Farwell boys team, coached by Dan Truelove, is in second place with a 3-2 record, Bovina is third at 2-2, and Lazbuddie is fourth with an 0-4 mark.

In the girls division, Bovina

## Tourney Winners Named

Ted Magness and Jerry Meeks compiled the high pin totals in the two-week March of Dimes bowling tournament which was completed Friday at AA Bowl, and Raymond Jesko and Jean Prince were winners in the single series competition.

Magness, who rolled series of 709 and 658 for a pin total of 1367, walked off with the men's championship, and Mrs. Meeks bowled a 668 and 657 for a total of 1325, to win first place in the women's division.

Trophies will be presented to only the first place winners in the total pins competition, and to first, second and third places in the single series action.

Jesko rolled a 722 series to win the men's division, and he was followed by Magness, the only double trophy winner, with a 709, and W. H. Woods, who rolled a 690 series.

Mrs. Prince's winning score in the women's division was 708. In second place was LaMoin Williams, who rolled a 699, and third place went to Bobbie Jones, who had a 689.

Second to Magness in total pins was Claude Dyer with a 1326, and runnerup to Mrs. Meeks was LaMoin Williams with a 1320.

Trophies have not yet arrived, but they should be here within the next few days, says Elmer Teel, secretary of the Lions Club, the organization that sponsored the tournament. The trophies will be presented to the winners as soon as they arrive.

More than 150 bowlers participated in the tournament and \$232 was grossed from the activity. After the cost of the trophies is deducted, the net will be around \$160, all of which will go to the March of Dimes.

(Continued on page 8.)

**Texico-Farwell MYF Represented At Sub-District**

Three members of the Hamlin Memorial Methodist Church senior MYF group attended a sub-district meeting at the First Methodist Church in Clovis Sunday.

Theme for the event was "Christianity and World Affairs." Several speakers spoke during the afternoon and business matters were discussed.

Games were played and re-

freshments served after the meeting.

Those attending from Texico-Farwell were Barbara Bieler, Bobby Thomlinson and Joe Teel. Sponsors for the group were Mrs. James Craig, and Rev. and Mrs. Robert Thomlinson.

**Lutheran Church**

In spite of bad weather, Rev. A. R. Sanders attended the Pastors and Teachers Conference in Lubbock Thursday and Friday.

The entire Walther League group attended a league rally at Wilson Sunday.

Members of the choir met Tuesday at 2:30.

The church growth chairman, Mrs. Walter Kaltwasser, called a meeting of the committee on church growth Tuesday at 4 p.m.

The LMUL 1961 topic programs were set up. Members of the committee are Mrs. Adolph Haseloff and Rev. and Mrs. A. R. Sander.

Sunday School training classes met Wednesday evening.

Members of the LWML met today at 2:30 for a regular monthly meeting.

Mid-week Lenten services begin at the church February 15.

Sermon topic for Sunday, February 5, will be "Grace Sufficient."

**Life Is Worth Your Living**

By Robert O. Tomlinson

A pastor by the name of Paul wrote letters to Churches telling the members how they were to live as Christians. He says, "I appeal to you therefore... Love one another... Be aglow with the spirit... contribute to the needs of the saints... Live in harmony with one another... and if your enemy is hungry, feed him."

The preacher was saying that if you are in Christ, a Christian, live the life of the Christian experience.

The Christian life is not something that we live just on Sundays, but the life that God gives in Christ is to be lived in every area of life, individually and socially. Those Christians to whom the preacher, Paul, wrote were never in doubt as to the ultimate outcome of the good life over the evil life.

In spite of the powerful forces of materialism and enthroned paganism that confronted them, they held to the conviction that God would win in the conquest. Ordinary human reasoning cannot account for this assurance, for it comes from fellowship with God that the ultimate triumph of righteousness is assured.

The Lord God omnipotent is in control and His kingdom will ultimately prevail. This is the truth that makes life worth your living.

**Two Local Men Commissioned**

Two local men, Jessie and Irby Range, twin sons of Mr. and Mrs. John Range of Texico, received their commission as second lieutenants in the United States Army Reserve at special ceremonies held at Lubbock on January 24.

Both men were designated as Distinguished Military Graduates and have had their applications for regular army commissions accepted.

Jessie has completed his work for a bachelor of science degree in civil engineering, ranking in the top 7 1/2 per cent

of his class. He was on the dean's honor roll five times and was honored in the annual college recognition service twice.

He belongs to Scabbard and Blade, Tau Beta Pi, Pi Kappa Phi and American Society of Civil Engineers honor fraternities. He was also a member of the Sam Houston drill team for two years.

Irby has completed his work for a bachelor of science degree in industrial engineering, ranking in the top 16 per cent of his class. He was honored in the annual recognition service once and belongs to Tau Beta Pi, Alpha Pi Mu and Scabbard and Blade honor societies.

He was a member of the ROTC rifle team which won the western conference championship in El Paso and later took sixth in the National Intercollegiate meet at which Army, Navy and Air Force teams from 73 colleges and universities competed.

Both men will be assigned to an artillery branch of the United States Army. They will begin six months of active duty at Fort Sill, Okla., February 19.

Mr. and Mrs. John Range from Texico and Mrs. Jesse Range, the former Betty Hubbell of Farwell, attended the ceremonies.

**JOTTIN'S**  
By Jeanne

Since our newest Graham son in now consuming every ounce of food that is offered him as often as is allowed, we particularly noticed some information released by the International Cologne Baby Fair about the cost of raising babies. They say the cost is going up the world over.

Most any parent could have told us that, but it's still interesting to note that they say it takes \$460 to clothe, feed and care for an infant its first year, and the cost will go up in 1961.

They also say babies are destructive and average breaking seven bottles the first year. Ours are always above average in this respect, it seems.

Also, the average child needs an average of 16 pairs of shoes and 45 pairs of socks from infancy to age 16. That also seems like a low estimate. Any one of our boys can wear a hole in the bottom and a hole in the toe of any good shoe in three months time, if they don't outgrow them first. We've already mended more than 45 pairs of socks for our five-year-old, we'd say and he has 11 years to go before he reaches the average.

Either we're way off on family needs or they are off on their

**Texico School Paper Receives Superior Rating**

The Texico Journalism department has received a rating of "superior" on their school newspaper which was judged in a critical scoring in connection with the West Texas High School Press Association. The score was on the first semester's newspaper. They received 418 points out of a possible 490.

The paper received an excellent rating on all of the subdivisional points which included content, style, organization, leads, coverage, features, makeup, typography, headlines, printing, content, writing, coverage and display.

estimates, but it's interesting nevertheless.

Another surprise is that members of the fair believe it's slightly cheaper to rear girls than boys. That we wouldn't know.

Scoring was done by Ralph Sellmeyer, instructor in journalism at Texas Tech. He stated that judging was on a careful consideration of major elements rather than trying to consider each item in the newspaper.

The department plans to submit second semester papers and the school year book for judging this spring.

**Ladies Auxiliary Render Service**

In the short time the Ladies Auxiliary of the Texico Fire Department has been functioning, they have undertaken several worth while projects. Their most recent service was to render emergency help to a family in the community.

"We wish to thank the many people who heeded our appeal for cash donations for this emergency," states the president, Mrs. Perry Winkles. The auxiliary also gathered clothing for the family.

"The primary purpose of the organization is community service and we try to render immediate help in whatever way is required," Mrs. Winkles points out.

In the four months since the auxiliary was organized, the ladies have provided a number of meals in homes having illness or death, acquired clothing and prepared food baskets for needy families, paid a families utility bills for one month, and purchased new toys for some children for Christmas.

The organization wishes to express their appreciation to Roth Grocery, Stones Variety and Holidays for discounts and contributions for our Christmas basket and toys," the president adds, "and also to Mmes. Elward Combs, LeRoy Spears, Ken Stone and Juanita Autrey and members of the Texico Fire Department who helped with gifts and cash for the needy family adopted by us."

A clothing bank has now been established by the group and at present clothing is available for women and children. The organization asks any one knowing of a family in need to contact the auxiliary so they might assist.

Mrs. Winkles summed up the sentiments of the other members of the auxiliary by saying, "When misfortune strikes a home and we are among the first to give assistance, it gives us a wonderful feeling."

The Citizens Public Expenditure Survey, Inc. maintains, "A balanced budget, far from being merely a glib phrase or a standard accounting procedure, is the very basis of a responsible and well-functioning government. Government spending must be kept down and the U.S. must live within its income. To follow any other course is to invite not only financial, but national destruction."

**HOW TO REDUCE YOUR INCOME TAX**

Your Checking Account Can Save You Money

★

Many people overpay their Federal Income Tax because they keep no record of allowed deductions.

★

With a checking account you can easily keep such a record that can be worth many dollars to you. The record is actually kept in your check-book. Everytime you write a check that is deductible from your income, mark it so it will be easily identified when it is returned to you in your bank statement. Then you have a quick, easy reference.

★

Start now--early in 1960--to keeping an accurate record of your income tax reductions with your checking account at Security State Bank.

★

## Texico Women's Club Team Defeats NCO Wives' Club

Texico Women's Club bloomer girls basketball team defeated the Cannonettes, NCO Wives' Club, in a laugh-filled tussle at Cannon Air Force Base Gym Monday night. Score of the fray was 22-49.

The game was a return match

for the two teams as the NCO Wives' had played Texico earlier in the year at Texico.

Forty per cent of the profits from the game will go to the local club for use in purchasing new tables for their club building.

Members of the Texico team are Glynis Foster, Sandra Rucker, Jim Pierce, Ruby Stone, Judy Roubison, Gerald Wilkinson, Margery Fought, Patsy Blair, Avis Patterson, Bob Servatius and Buddy Pearce.

## Whites Host Buffet Dinner

Mr. and Mrs. J. M. White entertained a group of their daughter's friends with a buffet dinner in their home north of Texico Sunday evening.

Hamburgers, pops, potato chips, pickles and German chocolate cake were served from a table covered with a red and white checked cloth.

Following the dinner, the group attended church. Those present were Dianne Baldrige, Glendon Moss, Judy Sharp, Don Reid, Leon Kelley, Latitia Harrison, Dwight Turner and the hostess, Carol White.

## Oklahoma Lane HD Club Meets

Eleven members of the Oklahoma Lane Home Demonstration Club answered roll call with a Bible verse, when the club met on January 26. Mrs. Velma Magness, club president, presided at the meeting, and extended an invitation to any interested homemakers in the community to join the club.

During the business meeting, four programs, "Hat Making," "Pillow Tops," "Candle Making," and "Leathercraft," were accepted for open dates.

Mrs. Velma Magness gave a demonstration during the afternoon using "Dresden Molding and Painting" as her topic. Hostesses for the meeting were Mesdames Louetta Kitten and Doris Johnson. One new member, Mrs. Doris Martin, was present at the meeting.

## Son Born To Former Residents

Bart Mills is the name Mr. and Mrs. Frank Coffman, Amarillo, have given their new son, born January 23. The baby weighed 7 pounds 10 1/2 ounces.

Grandparents are Mr. and Mrs. E. R. Coffman, Farwell, and Mr. and Mrs. E. R. Phillips, Denver.

Great grandparents are Mr. and Mrs. Fred Barker, Texico, and Mrs. Arma Coffman, Friona.

## Joneses Have Second Son

Welcoming the birth of a second son in the Clovis Memorial Hospital Monday were Mr. and Mrs. Dean Jones. The baby weighed 7 pounds 3 1/2 ounces and was named Kyle Don. The Joneses' other child, Brent, is two.

Maternal grandparents are Mr. and Mrs. Partin Austin and paternal grandfather is Curtis Jones.

## Mrs. Foerster Hosts Garden Club Members

West Plains Garden Club members met in the home of Mrs. R.L. Foerster on January 27 for a study on "The Culture of African Violets."

Refreshments of coffee and spiced tea were served to members after the program was concluded.

Next meeting for the club will be in the home of Mrs. Roy Lee Farley on February 10. A secret pal Valentine exchange is being planned as well as a demonstration on "Making Log Planters from Plastic."

## Baptist GA's Meet Monday

Refreshments of cookies and punch were served by the hostesses, Marlene Bell and Marilyn Doshier, when members of the junior and intermediate GA's of the Texico Baptist Church met Monday afternoon.

During the program, inspirational songs including "Love Lifted Me" and "Standing on the Promises" were sung.

Plans for a Valentine skating party, to be held on February 13, were made during the short business meeting.

Those attending were Misses Marilyn Doshier, Marquitta Walls, Wanda Burris, Zadene Burris, Susan White, Linda Hudson, Nancy Brantley, Sandy Tipton, Marlene Bell, Darlene Bell, and the sponsor Mrs. T. J. Kittrell. One visitor, Lynn Kittrell, attended the meeting.

MR. AND MRS. BRUCE SCOTT STEWART

## Stuart-Berry Vows Repeated In Candlelight Ceremony

LaQuetta Joy Berry, daughter of Mr. and Mrs. Alton Berry of Colorado Springs, Colo., became the bride of Bruce Scott Stewart, son of Mr. and Mrs. J. Scott Stewart of Hillsboro, Oregon, in a Saturday evening ceremony on January 7 in the home of the bridegroom's brother-in-law and sister, Dr. and Mrs. Roger L. Johansen, in Hillsboro.

The Rev. Cyril Dorsett of the First Methodist Church read the five o'clock candlelight ceremony.

Presented in marriage by a family friend, John W. Adams, the bride wore a sheath frock of winter white wool, designed with glove length sleeves and carried a bouquet of white carnations centered on a white Bible. Her headdress was a white feather capulet.

To carry out the bridal tradition, she wore an amethyst necklace owned by the bridegroom's grandmother, a penny minted in the year of her birth on a blue ribbon in her shoe, and her dress for something new.

The bridegroom's sister, Mrs. Carl Kennedy of Portland, Oregon, served as the bride's attendant and Eric Stechmest of Portland was best man.

The ensuing reception was hosted by Dr. and Mrs. Johansen, following which, the couple left for a honeymoon at an ocean side hotel.

The bride finished her junior year at Farwell High School and graduated at Colorado Springs.

The bridegroom left Jan. 21 for a tour of duty with the Eighth Army in Germany. Mrs. Stuart will live temporarily in Colorado Springs where she will work as a beauty operator, later joining her husband in Europe.

## Dean Wilsons Are Parents Of Son

A son was born to Mr. and Mrs. Dean Wilson of Wynoka, Okla.; Saturday, January 28. The boy, named Robert Gene, is the first child for the couple. He weighed 8 pounds 10 ounces at birth. Mrs. Wilson is the former Sharon Coffman of Farwell.

Maternal grandparents are Mr. and Mrs. E. R. Coffman of Farwell. Mrs. Alta Detweiler of Amarillo is the little boy's paternal grandmother.

## Miss Potts Is Hostess For Slumber Party

Following a movie Friday night, Jo Potts entertained a group of girls with a slumber party in her home in Farwell. Various games were played during the evening and refreshments of sandwiches, potato chips, pretzels and pops were served.

Girls attending the party were Misses Diane Fullerton, Carolyn Watts, Karen Schell, Carolyn Routon, Zell Billingsley, Joan Potts, Carolyn Birchfield and the hostess, Miss Potts.

Visiting in the J. R. Thornton home over the weekend were their daughter and son-in-law, Mr. and Mrs. Rondal Price of Amarillo.

## Heltons Host Dinner For J. E. Whatley

Mr. and Mrs. Joe Helton of Texico were host and hostess for a luncheon in their home Sunday, honoring her father, J. E. Whatley, on his birthday. After lunch was served, guests played "42" during the afternoon.

Attending besides the honoree and his wife were Mr. and Mrs. Fred Crow, Dianne and David, and Mrs. Bess Gill all from Amarillo. Also there were Mr. and Mrs. Troy Whatley and Jerry from Tucumcari.

## Boy Born To Bob Bartons

Robert Brent is the name given to the infant son of Mr. and Mrs. Bob Barton of Lubbock. The little boy was born Saturday, January 28 in a Lubbock hospital and weighed 6 pounds 1 1/2 ounces at birth. Mrs. Barton is the former Laverna Christian of this city.

Grandparents of the boy are Mr. and Mrs. Everett Christian of Santa Monica, Calif.; and Mr. and Mrs. Jack Barton of Abernathy.

## Missionary Group Meets At Church

A Women's Missionary Auxiliary has been organized at the Texico Baptist Mission, and is meeting weekly in the old Methodist Church building in Texico.

Mrs. T. R. Shannon, interstate missionary's wife, is Bible teacher for the circle. Meetings are held on Thursday from 2:00 to 3:00 p.m. Attending last week were Mesdames G. T. Watkins, Irvin Martin, R. C. Lemons, T. R. Shannon and Rev. T. R. Shannon.

CELEBRATING her first birthday was Sabrina Sue, daughter of Mr. and Mrs. Truman Kittrell. Several friends and relatives were in the Kittrell home Saturday night to join in on the occasion.

Visiting with the Bob Crumes this week are her parents. They plan to stay until Saturday.

## Church Women Attend Sub-District Meet

Eight women from the Women's Society of Christian Service of the Hamlin Memorial Methodist Church attended a sub-district meeting Tuesday in Portales.

Morning speaker for the all-day meeting was Mrs. E. T. Tiltard from Anson who spoke on "Thy Purpose for the World we Serve." Floyd Golden, Amarillo, was guest speaker during the afternoon session and used "Religion in the Soviet Union" as his topic.

Mrs. W. N. Foster, sub-district president from Farwell, was in charge of the

business meeting. Attending from the local church were Mesdames W. N. Foster, E. G. Blair, B. N. Graham, Willie Williams, W. T. Magness, James Craig, Elmer Teel and Robert Tomlinson. Also attending were Rev. Robert Tomlinson, Gary Green and Elizabeth Pierce.

## Variety Club Has Meeting

Members of the Oklahoma Lane Variety Club met January 25 in the home of Mrs. Dexter Watkins for a regular meeting. Each member brought material and patterns were drawn for making round smoked pillows.

A short business session was held during the afternoon. Refreshments of chicken salad sandwiches, angel food ribbon cake and coffee were served by the hostess, Mrs. Watkins.

Those attending were Mesdames Bessie Caldwell, Pearl Grissom, Lola Jean Grissom, Dexter Watkins, Jewel Barry, Carrie Christian, In. West and Gertie Foster.

Members will hold their next monthly meeting in the home of Mrs. Jewel Barry in Bovina on February 15.

## The Don Geries Are New Parents

Proud parents of a son, born Wednesday morning in Clovis Memorial Hospital are Mr. and Mrs. Don Geries of Farwell. The little boy, first child for the Geries, has been named Randy Scott. He weighed 7 pounds 7 1/2 ounces at birth. Grandparents are Mr. and Mrs. Modrel Williams of Clovis and Mr. and Mrs. Dick Geries of Farwell.

## Jerry Trowers Have Baby Boy

Mr. and Mrs. Jerry Trower, former residents of Texico, welcomed the birth of a son in an Albuquerque hospital January 25. The little boy is the first child for the Trowers, and has been named Timothy Lee. He weighed 7 pounds at birth.

Trower is a student at the University of New Mexico; his wife is the former Jerry Thigpen.

Grandparents are Mr. and Mrs. F.S. Thigpen of Texico, and Mr. and Mrs. B. J. Trower of Bellview.

## HD Agent's Gossip

BY MISS ETTIE MUSIL

## Snow Is Another Boost To Wheat

Moisture content in last week's snow measured only about one-half inch, but it did serve as another boost to the 1961 wheat crop which was already off to a good start.

The snow, which came following several weeks of spring-like weather, first hit last Tuesday in the form of blizzard. There was considerably blowing and drifting, but this spell was followed Thursday by sleet and then a slow-falling snow on Friday.

The third snow of the season, it was not as heavy as the first two, but very definitely was looked upon as being beneficial to the farmers. It is this moisture that will start the wheat to growing when warm weather returns.

Farming activities, which mostly consisted of irrigating the wheat, were temporarily

halted, but the wells will be turning again in a few days, adding to what Mother Nature has already provided.

The snow, which measured from three to four inches, was

by no means adequate, but it is this type of precipitation that is the best natural moisture. It doesn't run off and it does give needed water to the shallow root system.

## Brucellosis Meeting Thursday Night, 7:45

All cattlemen of Parmer County are urged to be on hand Thursday night at 7:45 in the Friona State Bank building to discuss a brucellosis program for the area.

Several interested cattle feeders have arranged for the meeting in an effort to get Parmer County certified as a brucellosis-free area.

Before this can be done, 75 per cent of the cattlemen must sign petitions requesting state and federal representatives to come in and test the cattle for the disease. Signers of the petition must also own at least 51 percent of the cattle in the

county. The purpose of trying to get Parmer County declared free of the disease, is to make it easier to move cattle from this area into areas that are brucellosis-free. Without being declared free of the disease, all cattle from this area must be checked for brucellosis before they can be shipped into a free area.

An effort to get the required 75 per cent of the cattlemen to sign the petition was first undertaken last year, but it was unsuccessful. Thursday's meeting will be a continuation of those efforts.

## Soil Testing For Available Nitrogen

The new Soil Testing Laboratory being operated by the Extension Service in Lubbock is now chemically processing soil samples to determine the plant nutrients that the soil can supply the crops to be grown in 1961 and 1962. Each sample is analyzed for reaction (pH), organic matter, available phosphate, available potash, available calcium, and soluble salts.

It should be kept in mind that nitrogen as such cannot be practically determined by a soil test. Nitrogen fertilizer recommendations are based primarily on the amount of organic matter the soil contains, the crop to be grown along with anticipated yields, and the amount and kind of nitrogen carrying fertilizers previously applied.

As stated on the Information Sheet that must be sent in with soil samples it is extremely important to avoid sampling in the fertilized bands where phosphate and potash were previously applied. However there is no particular hazard involved in sampling areas where nitrogen fertilizers alone have been applied. The soil test does not detect these nitrogen materials. The nitrogen recommendation given on the Lab Report is the total amount needed for the particular crop. This makes it very important for the farmer to

show on the Information Sheet the amount of nitrogen already applied to the area concerned.

Soil testing affords the quickest and most reliable method available to Plains farmers for estimating the kind and amount of fertilizer needed for a particular crop. The fee of \$2 per sample could well be one of the most profitable investments in a farm operation.

For further information on soil testing contact County Agent Joe Jones.

## District Delegates Named At HD Council Meeting

Seven clubs were represented at the Parmer County Home Demonstration council meeting held Jan. 23 in the County Court-house at Farwell.

Delegates elected for the district meeting which will be held the first week in April are: Mrs. W. M. Massey, North Side club; Mrs. Cordie Potts, Rhea; and Mrs. W. T. Magness, Oklahoma Lane. Alternates are Mrs. Dick Rocky, Black, and Mrs. Weldon Stringer, Hub.

Mrs. Dick Rocky is the new THDA chairman for the county and will take office in September.

Recommendations by the finance, citizenship, education, recreation and yearbook committees were made and accepted by the council.

### LAZBUDDIE 4-H CLUB GARY COKER Secretary

The Lazbuddie 4-H Club met January 9, 1961, 11:00 a. m. Meeting was called to order by president, D. H. Foster, minutes were read by Lloyd Bradshaw and approved. James Koelzer and Craig Schumann gave a report on "How to Set-Up an Electric Fence." Buddy Embry and Gary Eubanks gave a report on "How to set an Air Cooler."

There were sixteen present and two visitors.

(EDITOR'S NOTE: All of the statistics contained in the following story were released by the U.S. Bureau of Census in a special report on Parmer County. It is not known just how all of the information was arrived at, but local agricultural leaders point out that many of the figures released in the report are considerably lower than they actually are. The story will, however, help to reveal certain changes which have occurred since 1954.)

A preliminary report on agriculture in Parmer County, recently issued by the Bureau of the Census, U. S. Department of Commerce, reveals a tremendous increase in the production of grain sorghum and wheat over the five-year period from 1954 to 1959.

The same census, conducted in Parmer County last fall, shows a sharp decline in cotton production and a sizable increase in vegetable production.

While all of this information is common knowledge to the farmers in the area, the census does give the detailed statistics on every phase of the farming operation.

The statistics are on crops, livestock, equipment, etc., on the year 1959 and they are presented in a preliminary report with comparable statistics for 1954. Figures for 1959 are preliminary report with comparable statistics for 1954. Figures for 1959 are preliminary and subject to revision, the report points out.

Final data for each county and state in the nation will be contained in a state report to be published in a few months.

According to the census, Parmer County last fall had 863 farms and total land in farms was 482,461 acres. Average size of the farm was 559.1 acres and the average value (land and buildings) in the county was \$129,054.

One of the largest increases of production listed in the report was that of wheat. There were 672 farms reporting in 1959 as compared to 446 in 1954 and the number of acres in small grain had increased from 67,403 in 1954 to 78,827 acres in 1959.

The number of bushels of wheat harvested in 1959 was 2,427,346, more than triple the 718,857 bushels grown in 1954.

While on a much smaller scale, the production of barley increased considerably over the five-year period. Production was up from 26,510 bushels in 1954 to 267,573 in 1959. The big reason for this was increased acreage, which was up from 1,441 to 9,918.

Parmer County farmers produced 867,978,351 pounds of grain sorghums for grain or seed in 1959, almost doubling the 495,024,600 pounds produced five years previously. Acreage in grain sorghum was up from 187,936 to 208,695 and the number of farms producing the grain increased slightly, from 772 to 789.

Cotton, the other basic crop for Parmer County farmers, took a dip in every respect with the following figures being released in the census: Acres in 1959, 36,869; acres in 1954, 43,065. Bales produced in 1959 were 31,446 as com-

pared to 43,707 in 1954. The number of farmers growing cotton in 1959 was up, however, with 660 reporting in comparison to 489 five years ago.

The chief reason for increased production of wheat and grain sorghum is probably best explained by the use of commercial fertilizers in 1959 as compared to 1954. Farmers using fertilizer in 1959 totaled 739 while in 1954 the number was only 235.

Acreage on which fertilizers were applied increased from 38,292 to 270,468.

Vegetables harvested for sale in Parmer County was up from 119 acres in 1954 to 729 acres in 1959. There were only six farms producing vegetables for sale five years ago and in 1959 the number was 39 farms.

The sale of vegetables grossed \$102,487 in 1959 while 1954 the total was \$25,820.

Soybean acreage in the county during 1959 was 2,258, a sizable increase over the 144 acres devoted to this legume crop in 1954.

The census report also had statistics on every other cash crop in Parmer County.

Corn acreage increased from 528 acres to 2,642 and the number of farms growing this crop was up from 37 in 1954 to 99 in 1959.

The census report also had statistics on every other crop grown in Parmer County, including fruits, peanuts and various other crops which were grown on a small scale.

Under the heading, "Farms, Acreage and Value," the report had a detailed listing of the various size farms in the county.

Only a few farms in the county have less than 100 acres and the largest number, 421 of them, range in size from 200 acres to 499 acres. There are 251 farms in the county with 500 acres or more and 122 farms with acreage from 100 to 199 acres.

Farms with sales in 1959 exceeding \$40,000 totaled 183. Farms with sales of \$20,000 to \$39,000 numbered 328 and farms with sales of \$10,000 to \$19,000 numbered 186. Farms with sales of less than \$10,000 totaled 148.

Farms located on hard-surface roads totaled 254 and this figure was compared with 141 in 1950.

Telephone owners on the farm numbered 672 as compared to 484 in 1954 and farm families possessing home freezers jumped from 547 in 1954 to 660 in 1959.

The number of tractors on the farms increased from 2,004 five years ago to 2,127 in 1959. The number of farms on which tractors were owned decreased from 820 to 798.

Field forage harvesters on the farm increased from 55 to 69 and the number of trucks increased from 1,424 to 1,762. The number of automobiles de-

creased, however, from 1,108 in 1954 to 937 in 1959.

Farm expenditures went up in almost every phase of operation with the following comparisons noted between the years 1954 and 1959:

Feed for livestock and poultry—Up from \$422,794 to \$844,036.

Machine hire -- Up from \$973,464 to \$1,460,695.

Hired labor--From \$1,528,895 to \$1,898,014.

Gasoline and petroleum for farm business--Up from \$1,924,807 to \$2,648,354.

The number of farmers in the cattle business declined sharply, from 631 in 1954 to 381 in 1959. However, the number of cattle and calves on the farming decreased from only 23,502 to 21,224.

Cows, including heifers that had calved decreased in number from 9,993 to 4,493. The number of milk cows was down from 1,487 to 484.

The report revealed a considerable increase in the hog and sheep business. Hogs and pigs on the 289 farms in the county totaled 7,358 in 1959, while in 1954 the number was 2,999 on 269 farms.

The county had 51 sheepraisers in 1959 compared to 17 in 1954. The number of sheep and lambs increased from 1,578 to 11,828 head.

It was pointed out in the report that the definition of a farm was changed between 1954 and 1959. For 1959, each place operated as a unit of 10 or more acres from which the sale of agricultural products totaled \$50 or more, as well as each place operated as a unit of less than 10 acres from which the sale of agricultural products totaled \$250 or more, was counted as a farm.

For 1954, each place operated as a unit of 3 or more acres on which the value of farm products produced totaled \$150 or more, as well as each place of less than 3 acres from which the value of all agricultural products sold totaled \$150 or more, was counted as a farm.

The change in definition of a farm affects the comparability of the data for 1959 and 1954, particularly in respect to the number of farms and the number of farms reporting each item.

In addition to all the figures listed above, the report also listed many other statistics which pertain to agriculture in Parmer County.

Oh, what a headache! Now don't tell me you are trying to do it all yourself? What on earth could we be talking about? It's income tax time, of course.

Get all the extra help you need. We have several copies of the "Farmer's Tax Guide" in the office that will offer you much help with your tax problems. Write us, call us, or come by the office in the Court-house in Farwell and we shall be happy to send or give you a free copy.

Be sure to pick the right form. The 1040 is the simplest tax form but it has no place for itemizing personal deductions. It also does not give you a listing of travel or other business expenses, sick pay or credit for retirement income credit. Check the different forms to see which one will best suit your reporting. "Farmer's Tax Guide" should be a great help.

Last week Mrs. G. A. Whiteside of Farwell called that a few ladies in and around Farwell were interested in organizing a home demonstration club. If any of you are interested in a club do contact Mrs. Whiteside for more details. Okay?

Wives who work away from home spend more for clothing and for clothing care. The great secret to clothing selection and care is what to expect from new fabrics. During the month of February I shall be presenting programs in each of the county home demonstration clubs about fabrics, finishes, and care.

If any other organization would like to learn more about the new spring fabrics, the combinations of fibers in a fabric, launder care of each kind of fabric, what fabric labels mean, and what to expect from each fabric, do let me know and we shall try to schedule a program with you.

This program on "Fabrics and Finishes" is in preparation for an adult basic clothing workshop to be conducted in the county in March. Anyone interested in the workshop should contact me for enrollment. More details will be mentioned later.

Did you know there is a difference in the kind of laundry bleaches you use? They should be selected to suit specific cottons, linens, wools, or silks. Always read the label on the container on which fabrics it is

safe to use. For instance, the most common bleach is a liquid solution of chlorine. It is important in laundering white and colorfast cottons and linens to remove stains and stubborn dirt. Too much of the chlorine liquid bleach will injure even sturdy fibers. We can remember, too, that bleach is not needed for every laundering.

We often get calls from homemakers who have used chlorine bleach on drip dry garments. The fabrics have a yellowish color that has ruined the appearance. We are asked "What should I do to restore the garment back as it was?" This is one time the homemaker can do nothing. We recommend that you keep the label from each garment and follow the instructions accurately. To remember which label is for which garment, you may want to write the color of the dress and a brief description of it on the label.

Please do not pour chlorine bleach directly into your washer from the container. This is a quick way to wear out your clothes and beddings. Always measure accurately and pour the bleach into cold water before pouring into the washer. All bleaches act more quickly in hot than cool water.

### 4-H NEWS

#### FARWELL SR. 4-H CLUB

The Farwell Sr. 4-H Club met Tuesday, January 17, at the grade school building. Meeting was called to order by president, Mike Camp led the 4-H motto. Then the minutes were read and approved. We are working on the March of Dimes.

We are going to have our calf tour Saturday, January 21. We are to meet at the Court-house at 9:30 a. m. Mr. Gregory, Mr. Flowers, and Mr. Seales are going to help out.

Michael Watkins and Doyle Johnson gave a demonstration on "Procedures for taking a Soil Sample." Mr. Jones talked about and explained a "Soil Test Report," he also talked to us about planting trees and taking it for a project.

Mr. Dykes talked to us about beef steers. Then about the meats. He told us some important things about judging a steer, here are some of them, a calf should not have long legs, a calf should have a short neck, and etc.

Larry Flowers and Larry Gregory will give a method demonstration on "Beef Cattle" at our February meeting.

#### FARWELL 4-H REPORT

CHARLES MORTON Reporter

Farwell Jr. 4-H Club boys met Thursday January 12, in the Grade School Library at 3:30 p. m.

Joe W. Jones called the meeting to order until the following officers were elected: Johnny Schell, president; Bradley Billingsley, vice - president; Bruce McCuan, secretary; Charles Morton, reporter; Richard Tranham, council delegate, and Al Phillips, pledge leader. Al Phillips led us in our motto and pledge. Twenty-five boys attended the meeting.

After the meeting was adjourned Mr. Jones met with the officers to plan the year's work. Richard Tranham and Charles Morton will give a demonstration on "Swimming Safety" at the next meeting, February 9, in the Grade School Library at 3:30 p. m. Boys between the ages of 9 and 12 are encouraged to attend.

Why do Shoes Smell? (Cont.)

Last week we suggested checking on the fit of odoriferous shoes. If that is not the answer there are three other possible remedies.

This writer is not opposed to composition or rubber soles. They do last longer and thus save money for parents of young families at a time when saving money is more necessary than convenient. It has been my experience, however, that some children cause composition soled shoes to smell but not leather soled shoes.

Secondly, some mothers have mentioned improvement when they used cotton socks and, finally, unlined shoes may be the answer.

Whatever the solution, the problem is well worth solving because schoolmates are merciless in their comments.

## Why buy a higher-priced car when you can enjoy Galaxie glamour for less?

Despite its low price, you'll see the '61 Ford Galaxie parked in front of the most impressive homes in town. That's simply because smart buyers in every income bracket have come to realize that Galaxie is the equal or better of cars costing far, far more. For example, where else can you find the distinctive styling of Galaxie's Thunderbird roofline—the elegance of interiors that vie with the Thunderbird's own? Where else will you discover the red-blooded thrill of commanding the Thunderbird's own V-8 powerplant? Where will you see this built-for-people

spaciousness . . . these king-size brakes . . . this magnificent glass area . . . all at Galaxie's low price, made possible by Ford's volume production? And above all, where else will you get Ford's brilliant engineering that saves you upwards of \$100 a year on operating costs? Come see and drive the 1961 Ford Galaxie that's beautifully built to take care of itself while it takes care of your pride. Now at your Ford Dealer's.

# Grain Sorghum Performance Test

Fifty-two grain sorghum hybrids and varieties were evaluated under dryland and irrigated conditions at the High Plains Research Foundation during 1960. Grain yields under dryland ranged from 1734.59 to 3211.10 pounds per acre. Yields under irrigation varied from 6344.87 to 8047.01 pounds per acre. Average yields under

dryland and irrigation were 2556.04 and 7239.72 pounds per acre, respectively.  
**METHODS AND PROCEDURE**  
The fifty-two hybrids and varieties in the dryland test were planted on June 16 in two-row plots 50 feet long. Each entry was planted at the rate of five pounds of viable seed per acre. There was a spacing of 40 inches between rows. The experimental design consisted of a randomized block with four replications. The experimental area was planted to grain sorghum in 1959.  
The same fifty-two hybrids and varieties were planted in the irrigated test on June 18. Each plot consisted of four rows 100 feet long. All plots were planted at the rate of 10 pounds of viable seed per acre. There was a spacing of 40 inches between rows. The experimental design consisted of a randomized block with four replications. The experimental area was planted to cotton in 1959.  
A preplant irrigation of approximately four inches was applied to the irrigated test area on April 12. During the growing season, all plots received four additional irrigations of approximately 3 1/2 inches each on July 29, August 11, August 30, and September 8. Rainfall received from June 1 to October 1 amounted to 20.94 inches. During July, 12.46 inches of this amount was received over a four-day period.  
All plots in both tests were rotary-hoed once and cultivated twice during the growing season. The irrigated test was flame-cultivated twice. All plots in the irrigated test were fertilized with 120 pounds of nitrogen per acre from Uran on July 28.  
Agronomic data on plant characteristics and performance were taken for all plots in both tests at various times from planting to harvest. The dryland test was harvested on October 26 and 27, and the irrigated test was harvested during the period of November 8 through November 11. The dryland test was harvested with an Allis Chalmers combine, and the irrigated test was harvested with an International Harvester combine.  
Grain yields determined by harvesting the two middle rows of each four-row plot in the irrigated test, and both rows of

each two-row plot in the dryland experiment. Grain from each plot in both tests was weighed immediately after harvest, and a moisture sample was placed in metal cans and sealed. Moisture determinations were made in the laboratory of the Pioneer Hi-Bred Corn Company at York, Nebraska.  
A composite five-pound grain sample was also taken from each entry in both tests for feed analysis. The chemical analysis was conducted by Harvest Queen Mills, Plainview, Texas, and by Producers Grain Corporation, Amarillo, Texas.  
There was considerable variation among the entries with respect to early vigor, bloom date, lodging, head length, exsertion, head compactness, and moisture percentage. Percent moisture in the grain at harvest gave an indication of maturity classification of the various hybrids and varieties.  
Agronomic and performance data for the same fifty-two hybrids and varieties evaluated under irrigation are presented in Table 2. In this test, the first fifteen hybrids were equal in yielding ability, since the Least Significant Difference was 539.84 pounds per acre.  
Lindsey 788 produced the highest yield of 8047.01 pounds per acre; however, it was not significantly superior to the other top fourteen hybrids from the standpoint of yield. The very low coefficient of variation indicates that this experiment provided a good measurement of the yielding ability of the various entries.  
Several of the hybrids that were among the top yielders in the dryland test also placed in the top group in the irrigated experiment. Lindsey 788, Texas 601, P.A.G. 515-S, Frontier 410 B, Frontier 400 F, Frontier 410 C, Texas 660, and Steckley R-103 were among the top yielders in both tests. There was considerable variation among the entries with regard to the other agronomic and plant characteristics.  
The chemical data will be distributed as a supplementary report at a later date.  
These performance tests were conducted as a part of the Foundation's continued efforts to determine the best adapted grain sorghum hybrids and varieties for the High Plains.

# Ginners Group Favors Sales Tax, One-Price System

The Texas Cotton Ginners' Association endorsed a state general sales tax and rejected Governor Price Daniel's proposed payroll tax in a board of directors meeting last week.  
The 46-member board represents the cotton ginning industry in all areas of the state. Adoption of Association policies climaxed a three-day meeting with representatives of industries allied with the ginning business.  
In other resolutions, directors approved a legislative program favoring a competitive one-price system for cotton, the continuation of the present federal laws governing price supports and acreage; opposing any reduction in the present national minimum allotment of 16 million acres; and requesting an enlarged cotton research and educational program.  
Directors also asked the Dallas staff to develop a series of educational meetings on air pollution problems in cotton ginning; and asked the Department of Agriculture for a study and revision of pink bollworm control regulations affecting cotton gins.  
The Association repeated its stand opposing the Department of Labor's "area of production" definition which gives one ginner an unfair wage advantage over another although the two may be in competition with one another. Directors also pledged continued effort to improve the bracero labor program.  
The proposal for the general sales tax as the means for obtaining state government revenue met unanimous approval from two Association committees plus the entire board of directors.  
The Association also adopted an accident prevention program for the coming year as a major activity.  
The national legislative program follows:

tain a minimum of 16 million acres, plus 310,000 acres for adjustment for the small growers, and provides for an increase upward to any amount as determined by the Secretary of Agriculture.  
"We feel that any effort to change the existing law will most likely result in worse legislation instead of betterment, and until a better program is offered and seems to have a reasonable chance of enactment, we believe it to be in the interest of the cotton industry for the present law to be continued."  
"We favor an enlarged and ever-expanding cotton research and educational program in the fields of production, marketing and utilization, both in private institutions and with public funds."  
"We favor cotton being handled in the normal channels of trade, and we believe in the principle of less government control instead of more government control."  
Benny Goodman, a Nacogoches county 4-H Club boy who lives near Douglass, topped all competitors in the 1960 statewide Texas Hybrid Corn Program. His yield, according to Ben Spears, extension agronomist, was 139.5 bushels an acre. His state winning yield was made under irrigation.  
Young Goodman planted Texas 30 in late March in 42-inch rows with a 10-inch plant spacing in the row. He irrigated the corn four times; fertilized before planting with 15-30-15 per acre; side-dressed with a similar application plus an additional 79 pounds of nitrogen.  
In addition to the area award of \$50, Benny will receive a plaque as state winner (irrigation) and another \$50 as the overall state champion. The program is sponsored by the Texas Certified Seed Producers, Inc., in cooperation with the Texas Agricultural Extension Service.  
Victor Degner, Route 1, Bynum, Hill county, was the state dryland winner. He produced 129.2 bushels from his acre of Texas 28. He used no fertilizer; planted his crop on March 1 in 38-inch rows with a 9-inch plant spacing in the row. He was also the area winner and will receive a \$50 award and plaque.

# The HAPPY HOMEMAKER

BY JUNE FLOYD

Do you as a mother demand that your husband and children cultivate a taste for a wide variety of foods? Most homemakers do not. Hearing a college freshman express her views on this subject last week caused me to do some serious thinking.

Being a good homemaker and mother isn't an easy task and there are so many angles to the job that most of us fail to consider a large number of them. Preparing the special dishes that family members prefer is good up to a certain point. However, if you go all out for pleasing the taste of those for whom you are cooking and fail to help them develop good eating habits, you aren't really doing a good job.

Our college freshman listed a number of foods which she had learned to enjoy during the past few months. It seems that most of these foods were vegetables which are generally disliked.

Any time you hear a person start making a list of disliked foods, it generally begins like this--carrots, beets, cabbage, broccoli, etc. If that person is a member of your family, do some self-examining and see if you can't do something to improve the situation.

There are so many different ways to prepare these vegetables that you can surely hit on one that will be pleasing to those for whom you are cooking.

If carrots are on the list, you might try serving Glazed Spiced Carrots.

1 lb. carrots  
4 tablespoons butter or margarine  
1/3 cup sugar  
1 teaspoon salt  
1/4 teaspoon each ginger and mace  
1/8 teaspoon dry mustard  
1/4 cup carrot liquor or water  
Scrape carrots; cut into thirds and cook in small amount of water until tender. Drain. Quarter lengthwise. Layer strips in a 9 inch square pan. Combine remaining ingredients, heat to boiling.

Pour over carrots. Bake in 350 degree oven about 30 minutes. Baste several times to give the carrots a glaze. Serves 6.

Other suggestions for making some of the most disliked vegetables tastier are the following:

To make quick but delicious sauteed sweet potatoes, melt 3 tablespoons orange marmalade in skillet over medium heat. Slice 4 medium-sized boiled sweet potatoes into skillet; saute gently until glazed and brown. Serve immediately.

Here is a modern recipe for the old-time favorite red cabbage. Sauté 2 tablespoons chopped onion in 3 tablespoons vinegar and 6 cups finely shredded red cabbage. Saute covered for 18 minutes over slow heat. Serves 6.

Do add a teaspoon of sugar to the cooking water when preparing all vegetables. Vegetables lose some of their natural sugar from garden to table--restoring it makes them taste much fresher.

To baked acorn squash sprinkle a tablespoon of brown sugar and orange juice and add a lump of butter in the center of each half a few minutes before removing from oven.

Add a few sliced water chestnuts to heated and seasoned frozen lima beans or green peas just before serving for an interesting flavor and texture variation.

Thinly sliced cauliflower cooks faster and tastes wonderful. Sauté it in butter with 2 teaspoons grated onion until done. Season with salt and pepper.

For a quick orange sauce for cooked beets, blend 1/2 cup sugar and 2 tablespoons flour together. Add 1/2 teaspoon salt, 1/2 cup orange juice and 1 tablespoon grated orange peel. Cook, stirring constantly for 5 minutes. Enough sauce for 4 servings of cooked beets.

If your food budget is about to "get you down" and you are tired of serving hot dogs, try

## 88 Wells Drilled In County In 1960

In 1960, commercial water-well drilling in the High Plains Underground Water Conservation District decreased by about 25 per cent from 1959. There were 1133 wells drilled in the thirteen-county District as compared with 1518 wells drilled during 1959.

The decline in drilling is probably a result of adequate moisture conditions last winter and spring. We experienced a damp, cold winter with above average precipitation. Even though most farmers irrigated their land prior to planting time last spring, only a limited amount of water was required. Some did not irrigate at all before planting.

In June and July, most of

1 tablespoon prepared mustard  
margarine pats  
Cook washed, peeled potatoes with salt in 1 cup boiling water until they can be pierced easily with a fork. Drain and mash. Add margarine, hot milk and pepper. Beat until smooth and fluffy.

Split frankfurters lengthwise, cutting almost but not quite through, so they can be flattened. Spread cut surfaces lightly with prepared mustard. Pile mashed potatoes into each frankfurter, leaving tops rough.

Place filled frankfurters on baking sheet or shallow pan. Set under broiler or into moderately hot oven until potatoes are lightly browned and frankfurters heated through, about 12 to 15 minutes. When brown, press one or two margarine pats into top of potato on each serving.

the southern High Plains received heavy rains. The rains delayed the need for summer irrigation until the latter part of August.

You will note from the table below that marked declines were experienced in the number of drilling permits issued by the District and in the number of new wells drilled; however, this did not hold true in comparing the number of replacement wells drilled in 1960 with those drilled in 1959. The figures are about equal. The number of replacement wells drilled each year is progressively increasing in comparison to the total number of wells drilled.

The table below shows the drilling statistics for the years 1959 and 1960 for each county within the High Plains Water District.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Cotton farmers take note! Release and reapportionment of cotton allotments are important to each of you this year, and you should make sure you have a full understanding of the procedure required of you to protect your interests now and later. We can't give the full information here, but the deadline dates for the above two actions on your part are as follows for Parmer County growers: Release--February 24 . . . Reapportionment--March 8. Check with your ASC Office for further more complete information on the importance of these two items.

Our office secretary, Nell Davis, will be in Waco most of next week attending Farm Bureau Secretary's School. She expects to come back better prepared to serve you on all matters pertaining to Farm Bureau. While she's gone, she says she hopes you whose memberships are due will pay them. And don't forget gas exemptions if you haven't filed recently.

We just have room for very abbreviated references to legislative matters in Austin. We urge you to write your Senator or Representative giving your opinions on any that interest you: FARM TRAILERS SB53 by Senator Rogers - Would exempt farm trailers up to a gross weight of 12,000 pounds from registration provided they are not used for hire. It also includes trailers owned by gins and loaned free to farmers. FARM BUREAU SUPPORTS, SB 21, by Senator Moffett-Would provide closer regulation of quality, content etc. of all commercial fertilizers. FARM BUREAU SUPPORTS, SB 76 by Hazlewood and SB 65 by Senators Hazlewood, Herring and Willis would limit power of Insurance Board regarding increased premiums because of certain demerits in Automobile Insurance. FARM BUREAU FAVORS ABOLISHING THE MERIT RATING SYSTEM, BUT FAVORS THESE BILLS IN LIEU OF ABOLISHMENT. SB 7 by Senators Krueger, Herring, Crump, Rogers, Patman, et al, and HB 2 by Representative Jamison, et al would provide 1, equal rights for REA in rural areas, 2, the right to continue service in an area that has been annexed, if the area was rural when service began, and 3, the right to serve customers in an annexed area not receiving central station service, provided a franchise to serve such customers is granted the REA by the city. FARM BUREAU SUPPORTS, BUT WOULD ALSO PERMIT THE

SB 10, by Hazlewood and Roberts would place a tax on aircraft by prohibiting a refund to aircraft users for non highway-use fuels. These monies to be used as follows: 25% to available school fund--35% to credit of Texas Aeronautics Commission Fund, and 40% to credit of Texas Airport Fund for construction and improvement of airports. FARM BUREAU VIGOROUSLY OPPOSES.

If you wish to write your Legislators on any of these or other bills, address them as follows: Senator, Capitol Station, Austin, Texas, or Representative, Capitol Station, Austin, Texas, or Representative, Capitol Station, Austin, Texas. Details on these and other bills are in the office for your inspection at any time. Come in and read them and discuss them with your fellow members and farmers.

CONSIDER THIS: But whose hearkeneth unto me shall dwell safely, and shall be quiet from fear of evil. Proverbs 1:33

### SOIL CONSERVATION DISTRICT NEWS

Farmers and ranchers in Parmer County hold the key to successful wildlife production in future years. This is true because nearly 100 per cent of our potential wildlife habitat is in private ownership or control. It is also true because all of our hunting is provided by rabbits and quails that are produced on farms and ranches.

Thus, our wildlife crop is produced and harvested on lands that are used for cultivation and livestock. Since wildlife is produced on lands used primarily for other purposes, the success of wildlife production in the future depends on how farmers and ranchers use and treat their land.

In the past 25 years, farmers and ranchers have made great progress in a nationwide soil and water conservation program. These farmers and ranchers follow well rounded conservation plans which often include specific wildlife improvement measures.

Fortunately, almost every practice that helps protect and improve soil and conserve water also improves food and cover for wildlife. Improved grass on rangeland and in pastures, crop stubble, grass waterways, windbreaks or shelterbelts and other vegetative practices which aid wildlife directly, are the foundation measures for soil and water conservation.

And, when land use and vegetative measures alone are not adequate to control erosion, small dams and other supplementary structures may have

## WITH THE COUNTY AGENT

JOE JONES

Want to beautify your Farmstead? Of course, you do, but never get around to starting. Why don't you make 1961 the year you get this plan under way. Evergreen seedling trees are available through the Texas Forest Service for \$1.50 per hundred.

Get your order off and get ready to set these trees in a tree bed to grow a year. Spend the next 12 months planning how you want the Home Place to look. When you get that done you already have your basic evergreens growing and ready to set out. Orders must be received at College Station by February 10th.

Some say it takes too long this way, but if you will stop and think Christmases are not so far apart anymore.

How many years does a farmer farm? That depends on the farmer, but if he misses a crop or part of a crop he can not make it up. Better plan now to top dress your wheat with nitrogen between now and March 1st. Unless you are sure you have plenty of nitrogen available. A good program to follow on wheat is to apply two-thirds of the needed nitrogen and all the needed phosphate (where phosphate is needed) in the fall and top dress with one-third nitrogen in February of the following spring. Do not top dress with phosphate. Phosphate should be placed in the soil mechanically.

What about your 1961 Grain to be built. These, in turn, usually provide water and cover for wildlife. An important fact, often overlooked or discredited, is that the production of game is something which the private land owners or operators can accept or reject.

Because the farmer or rancher must first of all look to his land for a livelihood, his land use decision may, in fact, be adverse to wildlife increase. And, because sportsmen and other wildlife enthusiasts are primarily interested in maximum wildlife crops, these two interests may clash unless effective cooperation and understanding is obtained.

Sorghum Crop? Are you making plans to increase those yields over 1960? If so you are having your soil analyzed and fertilizer recommendations made. You will also be considering the proper placement of the plant food. Many of you should also be looking into narrow row seeding. Several farmers are going to use 26 inch to 30 inch rows in 1961. Some plan to stay with the two row to the lister ridge. The better plant spacing offered by narrow rows or double row seeding is paying off. Remember to keep the seeding rate at or very near what you used when seeding your standard 38 or 40 in rows. Where increased seeding rates have been used the benefit from better use of water and plant food through better plant spacing has been lost.

To date I have received soil analysis returns on 144 samples. If any of you would like to discuss your recommendations with me I have a copy of your report in my file if your land is in Parmer County.

Don't let the wet weather stop you from taking and sending in your samples. Mr. Jim Valentine who runs the Laboratory has provisions for drying them. Come by or see your fertilizer dealer for information on taking and sending off samples.

Interested cattle owners are invited to a meeting at the Friona State Bank Thursday night, February 2, at 7:45 p. m. This program is being held to discuss the possibility of asking the state of Texas to test cattle in Parmer County in order that the county can be declared a modified certified Brucellosis free area.

A. R. Watson was elected president and general manager of Southwestern Public Service Company at the organizational meeting of the Company's Board of Directors held on January 18, 1961.

J. E. Cunningham, who has been president of Southwestern Public Service Company since 1945, was elected vice chairman of the board.

Mr. Watson, the newly elected president and general manager,

A. R. WATSON

was elected a vice president of Southwestern Public Service Company in 1947 and elevated to executive vice president and general manager in 1953. Mr. Watson is also a member of the Southwestern Public Service Company's Board of Directors.

Mr. Cunningham has held various positions with Southwestern Public Service Company over a period of thirty-four years. He has been a Director of the company since 1942.

The complete list of officers elected by the Board is as follows:

H. L. Nichols, chairman of the Board; J. E. Cunningham, vice chairman of the board; A. R. Watson, president and general manager; Don D. Loden, vice

president and secretary; H. O. Hodson, vice president; Roy Tolk, vice president; W. L. Pearson, vice president; J. T. Bradley, treasurer and assistant secretary.

### News From LAZBUDDIE

BY MRS. C. A. WATSON

Funeral services were conducted Saturday in the Primitive Baptist Church in Anton for Mrs. H. L. Bass, 83. Mrs. Bass was the mother of Mrs. C. A. Watson, Lazbuddie; Harvey Bass, Muleshoe; and Jimmie Bass, Sudan. Other children surviving were M. G. Bass, Midland; Johnnie Bass, Lubbock; Mrs. C. L. Weldon of Graham; Mrs. A. E. Richards, Jayton; Mrs. John Beck, May; and Jesse Bass, Austin.

Mrs. Bass was also survived by her husband, 49 grandchildren and 62 great grandchildren.

Services were conducted by Elder G. H. Grain of Altus, Okla.; and Elder W. R. Dale of Lubbock.

#### SON BORN TO J. W. GAMMONS

A son was born to Mr. and Mrs. J. W. Gammon on January 25. The baby weighed 6 pounds 12 ounces and was named James Mark.

Mr. and Mrs. G. M. Ramage and children recently moved to the community from Levelland.

Birthday greetings this week go to Dean Watkins and Scott Windham, January 21; George and Lyda Salinas, February 2; Gayla Seaton, February 3; and Thomas Ketchum, February 4.

Guests in the Leon Smith Sr. home over the weekend were Elder V. J. Lorange and Sonny Parker from Lubbock, Belva Lorange from Bovina and Donald Day from Canyon.

Mr. and Mrs. Clyde Henry and Sherley were Sunday visitors in the Raymond Houston home.

Harold Wilson has been named as a member of the American Angus Association at St. Joseph, Mo. He was one of the 21 breeders of Aberdeen Angus in Texas elected to membership during the year.

The Arthur Ryans are visiting in California with relatives.

Friends of the Clayton Nolan family honored them with a miscellaneous shower Friday afternoon. The Nolan's home north of Muleshoe burned recently.

The Lazbuddie P-TA will meet for a regular meeting Monday evening at 7:30. The home economics girls will put on a style show. Mr. and Mrs. Frank Hinkson and family visited Sunday with Mr. and Mrs. James Hanes and children at their home in Dumas.

Mr. and Mrs. Eulan Parham, Sharon and Terry attended the funeral of Mrs. H. L. Bass in Anton Saturday.

The young married men and the Amegios of the First Baptist Church were hosts for a social honoring the Allen Grusendorf family Thursday evening. The Grusendorfs are planning to move.

The home demonstration club will meet on February 7 in the home of Mrs. Grace Young. An

all-day quilting party is planned.

The Lazbuddie 4-H girls will meet in the Oklahoma Lane Community Center on February 4 for a meeting on "Keeping Accurate Records."

Mr. and Mrs. H. H. Briggs and Mr. and Mrs. Ronnie Briggs were in Oklahoma City Sunday.

A robust matron dressed in a gaudy purple dress asked a fashion expert, "What colors do you think I should wear?"

The expert looked at her. Then he diplomatically looked away.

"Madam," he said "when God created butterflies, He made them with brilliant colors. But when He made the elephant, in His wisdom, He made it gray."

BY MRS. BUCK TAYLOR

#### WMU MEETING

A book review, "Across the Bridge," was given by Mrs. Dorothy Pierce, when members of the WMU met recently. Mrs. Pierce was also hostess for the meeting.

Following a covered dish luncheon, a short business session was conducted by the president. The meeting closed with a prayer by Mrs. Audine Walker.

Those attending were Mesdames Posey Clark, Corda Taylor, Grace Lane, Elizabeth Range, Noma McCollough, Audine Walker and one visitor, Lois Sparks.

Jackie Dane, son of Mr. and Mrs. Weldon Dane, was among the twenty-five FFA boys from Bovina to attend the fat stock show at Ft. Worth last week.

Mr. and Mrs. Marion Walker were in Portales Monday. They visited with her parents, Mr. and Mrs. J. V. Lemon, and a son, Donald Wayne, and his family.

Mrs. Bert Reimer and daughter, Jim Berta, from Clinton, Okla.; arrived Monday to spend a week with her parents, Mr. and Mrs. Jim McCullough.

Mike and Clarence Brown were in Tucumcari last week on business and to visit with their brother and family, Mr. and Mrs. Jim Brown.

Mrs. Bobbie Myers and children from Carlsbad are here to visit with her parents, Mr. and Mrs. E. J. Hodges.

Mr. and Mrs. Robert Servatius and Pauline spent the weekend in Fritch with their son, Eugene, and an uncle and aunt, Mr. and Mrs. Earl Servatius.

Mrs. Janie Anderson from Anton has been visiting with her daughters, Mrs. Buck Taylor and Mrs. Robert Servatius. She was accompanied home Tuesday by a son, Lynn Anderson.

A Navy recruit lost his rifle on the firing range. When told that he'd have to pay for it, he protested, "Suppose I was driving a Navy car and somebody stole it. Would I have to pay for that too?"

He was informed that he would have to pay for all government property he lost.

"Now I know," the recruit said, "why the captain always goes down with his ship."

During maneuvers in Kansas one soldier came floating down into camp during gusty high winds. Somewhat battered and bruised, he was brought before his commanding officer, who said to him: "It took a lot of nerve to come parachuting down in this wind, but you ought to know better than to do anything so dangerous."

"But I didn't come down in a parachute," protested the soldier. "I went up in a tent."

"What do you think of the candidates?"  
"Only one, thank goodness, can get elected."

"I'm beginning to suspect," said the bridegroom, "that your mother has a low opinion of me."

"Whatever makes you think that?" asked the bride.

"Those towels she gave us are marked 'hers' and 'its.'"

# PUT WATER WHERE THE CROP IS...

## ...with gated irrigation and Alcoa Aluminum Tube!

Make the most of tighter soils—those with a higher clay content—by using gated Alcoa Aluminum Irrigation Tube. For looser soils, where water soaks right in, a sprinkler system should be used. In either case, Alcoa Aluminum Irrigation Tube provides the lightweight, portable means to put water where the crop is!

### Gated or Sprinkler— Pick the Alcoa Aluminum Tube You Need!

Uniformity, strength and a full line of sizes! Alcoa Standard Class 150 is heavy-duty, seamless tube . . . takes rough handling and high pressures. Comes in diameters from 2 in. to 10 in. Alcoa Lite-Line, extruded and welded, is the low-cost, lightweight tube applicable for most normal uses. Complete range of sizes . . . 20-, 30- and 40-ft lengths.

### Ask your Irrigation Supply Dealer about Alcoa's 48-Month Irrigation System Finance Plan!

Provisions of this finance plan allow your new irrigation system to serve as collateral against your loan. There's no red tape . . . you get immediate action on application for a loan. Irrigate while you pay for your system out of increased profits.

Your Irrigation Dealer has quality Alcoa Irrigation Tube available for immediate delivery from local stocks. He is an expert on irrigation engineering and can provide local service on a complete irrigation system tailored to your needs.

# 38 Pupils On Honor Rolls At Texico

Paul Frederick, high school principal at Texico, released the honor roll for the first semester this week. Thirty-eight names are on the list.

Seven seniors, Jeannene Campbell, Koleta Doshier, Trudie Lambert, Glendon Moss, Pat Patterson, Gary Singleterry and Iwana Taylor, were named to the list. Georgina Lambert, Linda Palmateer and James Watts were named from the sophomore class, while Jackie Hughes, Terry Niece and Kathleen Smith were named from the freshman class.

Eight students made the list from the junior and eighth grade classes. Juniors were Kit Doran, Carmelita Doshier, Betty Lockhart, Judy Lovett, Vicki Lovett, Donna Kay Osborn, Beth Ellen Peyton and Dwight Turner. Eighth graders were Emmitt Autrey, Linda Hadley, Gwinette

Lovett, Floyd Morris, Mike Spearman, Cynthia Spence, Sarah Beth Walker and Kathy White.

The seventh grade had the most students making the honor roll, with nine being listed. They were Vickie Byas, Marilyn Doshier, David Duncan, Linda Hudson, Peggy Hughes, Terry Lovett, Teresa Luce, Ronnie Spence and Veda Wilson.

Frederick also released the honor roll for the fourth six weeks period. Thirty-eight students were also listed on the six weeks roll.

Freshmen named were Terry Niece and Kathleen Smith, while three students were named from the sophomore class. They were Linda Palmateer, Peggy Taylor and James Watts.

Eight students, Kit Doran, Carmelita Doshier, Betty Lockhart, Judy Lovett, Vicki Lovett, Donna Kay Osborn, Beth Ellen Peyton and Dwight Turner, were named from the junior class; while Jeannene Campbell, Koleta Doshier, Trudie Lambert, Glendon Moss, Pauline Servatius, Iwana Taylor and Leslie Winsper were listed from the senior class.

The seventh and eighth grade classes each had nine students on the honor roll. Seventh graders were Marilyn Doshier, David Duncan, Linda Hudson, Terry Lovett, Teresa Luce, Gary Meier, Ronnie Spence, David Taylor and Veda Wilson. Eighth graders were Emmitt Autrey, Vivian Duncan, Linda Hadley, Gwinette Lovett, Floyd Morris, Mike Spearman, Cynthia Spence, Sarah Beth Walker and Kathy White.

Letter to a Boston paper: "Dear Sir: When I subscribed a year ago you stated that if I was not satisfied at the end of the year I could have my money back. Well, I would like to have it back. "On second thought, to save you trouble, you may apply it to my next year's subscription."

Girl answering telephone: "Marie isn't in just now. This is her 111 pound, five-foot-three, blonde, blue-eyed sister."

Conference -- schedule is as follows: February 6--Frona at Farwell and Bovina at Lazbuddie February 13--Bovina at Frona February 20--Frona at Lazbuddie

THE STATE OF TEXAS COUNTY OF PARMER SHERIFF'S SALE

WHEREAS, on the 28th day of December, 1960, in Cause No. 2138 in the District Court of Parmer County, Texas, wherein Farwell Consolidated Independent School District, State of Texas, Parmer County and High Plains Underground Water Conservation District Number One were Plaintiff and Impleaded Party Defendants recovered Judgment against Ophella Dotson, a single woman, Mrs. B. F. Buna Hutchins, a single woman, Leota Moore and her husband John Moore, Ruby Cowan, deceased and her husband W. T. Cowan, deceased, Linnie Hancher, deceased and her husband Clarence Hancher, Minnie Hancher Mizar, Minnie Mizar Hancher, Linnie Hancher Mizar, Linnie Mizar Hancher, M. E. Hutchins, all of the unknown wife or wives, and husband or husbands of said Defendants, and if deceased their unknown heirs, assigns and legal representatives, and all unknown claimants, Defendants, for taxes, penalty, interest and cost against the hereinafter described property;

WHEREAS, on the 19th day of January, 1961, by virtue of said judgment and the mandates thereof of the Clerk of the above mentioned District Court of said county did cause to be issued an Order of Sale commanding me as Sheriff of said county to seize, levy upon, and sell in the manner and form as required by law the hereinafter described property;

WHEREAS, by virtue of said judgment and said Order of Sale and the mandates thereof I did on the 19th day of January, 1961, seize and levy upon as the property of the above defendants the following described property, situated in Parmer County, Texas, to-wit: (Said description showing the number of acres, original survey, locality in county, and name by which said property is most generally known.)

FIRST TRACT: All of Lots 10, 11, 12, 13, 14, 15, 16, 17, 18, Block 2; and, Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, Block 3, Lanford and Nutt Addition to the Town of Farwell, Parmer County, Texas, as fully shown by Plat of said Subdivision recorded in Volume 24, Page 412 of the Deed Records of Parmer County, Texas.

And I will on the first Tuesday in the month of March, 1961, the same being the 7th day of said month, proceed to sell all the right title, and interest of the Defendants in and to said property at the Court House door of said county in the city or town of Farwell between the hours of 10:00 a. m. and 4:00 p. m. to the highest bidder for cash, provided, however, that none of said property shall be sold to the owner of said property directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate amount of judgments against said property in said suit, which ever is lower, subject also to the right of the Defendants to redeem same in the time and manner provided by law and subject also to the right of the Defendants to have said property divided and sold in less divisions than the whole. DATED at Farwell, Texas, this the 19th day of January, 1961.

Chas. Lovelace, Sheriff Parmer County, Texas 17-3tc

## Pleasant Hill Pastor Resigns

Rev. Charles F. Jones, who has served as pastor of the Pleasant Hill Baptist Church for the past 3 1/2 years, has resigned to accept a position as pastor of the First Baptist Church in Floyd, New Mexico. He concluded his work at Pleasant Hill Sunday, and began his duties at Floyd Wednesday by delivering a message at the evening worship service.

Rev. Jones and his family were honored by members of the Pleasant Hill Church Sunday, when a basket-dinner was served in the dining room of the church after the morning services. Members of the congregation presented the couple with a gift during the luncheon. About 70 persons attended.

The Joneses have two children, Mike, age five; and Vicki, age eight, who attends school at Texico.

No immediate plans have been made to secure another pastor for the Pleasant Hill church, but pastors from the surrounding communities will fill the vacancy left by Rev. Jones until other plans can be made.

## Bus Contractors Host Business Dinner Thursday

Curry County bus contractors were guests at a fried chicken supper Thursday night in the Texico school lunchroom. Local bus contractors, N. W. Peyton, Taft Turner, B. J. Trower and Russell Harrington, were hosts.

The meeting was held in order to organize a Curry County Bus Drivers Association. Taft Turner was elected president with N. W. Peyton to serve as secretary-treasurer.

The newly formed group made plans to meet several times a year for social functions and for discussion of problems pertaining to school bus transportation.

Speakers for the supper were Bill Lemon and Jim Warren from the office of the director of transportation in Santa Fe. Seventeen men and women attended the meeting.

## Andy Rogers Gets Appointments

When Texas Senate Committee appointments were passed out last week the present 30th Senate District which includes Parmer County received the most recognition ever.

State Senator Andy Rogers of the 30th District received the following appointments: Chair-

**DDDs Cause Boost In Gas Consumption**  
  
If your gas bill has been higher this winter than last, the DDDs may be responsible, says Elmer Teel, local manager for Southern Union Gas Company.  
  
To most people, DDDs mean nothing. But to the gas company they represent a measure of cold weather, for when the DDDs go up, so does gas consumption.  
  
The term DDD stands for "degree day deficiency," a formula used by the United States Weather Bureau to measure the average number of degrees below 65 degrees Fahrenheit during any 24-hour period. For example, on a day when the average temperature for a 24-hour period is 40 degrees, there would be 25 degree day deficiencies.

charged with a theft which occurred several months ago. He allegedly stole tools and gasoline from a tractor, truck and combine at the H. H. Briggs farm near Lazbuddie.  
  
Washington pled guilty in county court Friday, was fined \$75 and court costs, and sentenced to five days in jail by Judge Loyde Brewer.  
  
Also arrested and convicted of stealing batteries were three brothers from Texico. The three men were Juan Dominguez 25, Gibino Dominguez 18, and Victor Dominguez 17.  
  
The batteries were taken from the farms of Ronny Howard and Gilbert Watkins southeast of Farwell. Howard discovered a battery missing from his irrigation well Friday afternoon after helping the three fellows pull the automobile in which they were riding out of a mud-hole on his farm.  
  
He reported the incident to Sheriff Lovelace, who made the arrests a short time later. The three entered pleas of guilty and were tried by Judge Brewer Saturday morning.
