

## Rennes Falls; Reds Push To Prussia

### Casualties Fall Heavily Here

Casualties fell heavy on Big Spring Thursday as word came through from battlefields.

Four were reported dead. They were:

1st Lieut. Bernie L. Scudday, son of Mrs. Pearl Scudday, Forsan.

Pvt. David Lamun, son of Mr. and Mrs. Bernard Lamun.

Pfc. Henry Painter, son of Mrs. L. S. Proctor, Luther.

Maj. W. R. Allen, son of Mrs. H. Allen, Ira

Presumably missing and perhaps a prisoner of war was Capt. Oley C. Hart, son of Mr. and Mrs. A. C. Hart.

Word also was received that Lt. Roy Bruce, a former Texas Electric Service employe, had been wounded in France.

Mr. and Mrs. Lamun received a telegram from the war department early Wednesday evening informing that "your son, Pvt. David Lamun, was killed in action in France on July 6."

There were no further details available. It had been more than a month since his parents had heard from David a 1941 graduate of Big Spring high school and a class favorite.

Leaving John Tarleton College in 1942, David had enlisted as a foot soldier and was a rifleman in the infantry. He last visited here around Easter before reporting to Camp Mead, Md. and was shipped to England about mid-June. In high school he was a member of the football squad and active in student affairs as he had been in young people's work at the First Methodist church. Besides his parents, he leaves one sister, Sara Lamun, Howard county librarian.

Mr. Proctor received word that her son, Henry Painter, died of wounds suffered in the South Pacific. He was in the US Marines and had served since January of 1942. Before enlisting he worked with the Sewell Wholesale Meat Co. here. Further details concerning his wounds and death were not immediately available.

Word of Maj. Allen's death came from his wife at Groesbeck, who was enroute here today. Until recently when he assumed command of a battalion he headed a company in the 90th Infantry in France. Graduating from Texas A. & M. with a second lieutenant's commission, he got his early training at Camp Berkeley and had been overseas since December.

He had attended school at Vincent in northeastern Howard county and farmed in Scurry and Mitchell counties. Besides his mother, he leaves two brothers, Travis Allen, Vincent and Earl Allen, Rising Star; and three sisters, Mrs. W. E. Mann and Mrs. Jeanette Holliday, Vincent, and Mrs. Sadie Brisendine, Rising Star.

Previously Lt. Scudday had been reported missing since June 27. News of his death, as of the same date, was released by the German government through the International Red Cross.

Lt. Scudday was on his 27th mission over France when he was shot down. He was a bomber pilot, having graduated from a B-24 school Sept. 4, 1943 following his commissioning at Altus, Okla. He had previous training at Pine Bluff, Ark. and Winfield, Kans. Lt. Scudday was a 1937 graduate of Forsan high school and had starred in basketball for John Tarleton college.

Mr. and Mrs. A. C. Hart had an unofficial word that their son, Capt. O. C. Hart, was a prisoner even before they had any word that he was missing. From the provost marshal general they received a telegram saying an unofficial short wave broadcast from Germany had picked up this message: "Am well and safe. Oley C. Hart." Authorities cautioned, however, that "pending further confirmation this report does not establish

**AFTER LOOTERS LEFT BUTCHER SHOP**—Here is the wreckage of a grocery store and butcher shop in the Ridge avenue negro section of Philadelphia after looters broke in. The store is owned by a white man and has negro employes. (AP Wirephoto).

### Army Moves To Take Over Philadelphia's Transport

PHILADELPHIA, Aug. 3 (AP)—The thousands walked or hunched to their jobs in a drizzling rain today as the city looked to the White House to end a three-day-old transportation tieup that slashed war production and caused clashes between whites and negroes.

In a letter dated July 25, Lt. Bruce wrote from a hospital in France that he would soon be up and about. He mentioned having received the Purple Heart. Lt. Bruce, the son of Mr. and Mrs. Andrew Bruce of Ranger, has been overseas five months with the signal corps.

The rain kept racial disorders at a low ebb last night, and no fighting had been reported since midnight. Extra police details, however, were on duty.

Upgrading of eight negro employes under a directive of President Roosevelt's Fair Employment Practices Committee (FEPC) precipitated the walkout, which culminated in government seizure of the Philadelphia Transportation company with possible use of troops.

Police reported a new wave of window smashings, which they attributed to negro youths, as a two-hour move by a small group of PTC employes to restore service on Philadelphia's two subway lines ended in failure.

An official of the Transport Workers Union (CIO), who declined to be quoted by name, said back-to-work appeals to the 6,000 employes had "only a ghost of a chance" to succeed "barring a big break in Washington."

Interracial clashes stemming from the works stoppage caused hospitalization of at least 13 persons before yesterday's steady rain—called "providential" by one police official—drove wandering bands indoors.

But the downturn also contributed to a transport snarl that kept 140,000 of the area's 800,000 war workers from their jobs, the War Manpower Commission reported, and caused a central city business decline estimated by a retail trade spokesman at \$1,000,000 a day. In Montreal, Que., most of the trams disappeared from the streets.

A population total of more than 3,000,000 was affected in Philadelphia and Montreal. Some 4,000 tramway workers were affected in Montreal.

Detroit continued as a center of labor trouble. The War Labor Board agreed with CIO-United Auto Workers spokesmen that a stoppage of 4,000 at the Kelsey-Hayes Wheel Co., was a "lockout," which the company denied.

### Policies Of Home Front Are Rapped

ST. LOUIS, Aug. 3 (AP)—The 26 republican governors charged today that the New Deal's handling of war-related problems on the home front invites "national disaster," asserting in a policy statement that "the great problem of peacetime jobs can be adequately met only by private business under an enterprise system."

Continuing work on a 14-point program which Presidential Nominee Gov. Thomas E. Dewey has indicated will be used as a major campaign document, the gov-

### Counterattacks By Nazis Are Beaten Back

ROME, Aug. 3 (AP)—The Fifth army has broken German efforts to send counterattacking forces across the Arno river on both sides of besieged Pisa near Italy's west coast, Allied headquarters announced today.

The enemy appeared attempting to take the initiative also near the inland wing of the American forces by sending 200 troops to the south bank of the Arno river northeast of Pontedera, but mortar fire dispersed this force.

Eighth army units were making fresh dents in the Nazi defense ring around Florence.

Attacking north from San Michele and La Romola, Eighth army units captured the commanding heights of La Foggiola, five and one-half miles southwest of the historic art city. New Zealand troops previously had been reported within five miles of the city's outskirts in that area.

West of Florence British and Indian troops crossed the Pesa river on a two-mile bridgehead and advanced one mile, capturing the village of Cinestra, three miles southeast of Monellupo, and threatening the entire west flank of the German line south of the Arno river in that area.

The Germans meanwhile were having their troubles with Italian patriots.

A proclamation by the Nazi command found posted in the San Ubaldo monastery at Gubbio said that "in the past days criminal elements of the civil population have repeatedly ambushed and shot at German soldiers" and that "by way of punishment for such acts certain villages have been burned down and a number of male inhabitants, summarily shot according to law."

### Bollworms Infesting Most Grain Fields

Cabbage or green worms have appeared in fields throughout Howard county, although not believed numerous enough to cause considerable damage, and boll worms are infesting corn and grain sorghum in every community except Vincent, O. P. Griffin, county agent, said Thursday.

The agent said he did not expect another generation of green worms. They are "out of their element," usually infesting cabbage.

Boll worms are infesting late maturing ear crops, but are insufficient on grain sorghums to cause much damage. They are not yet on cotton, and any damage to cotton likely would not occur until about Aug. 10.

### Warsaw Defense Crumbling Shells Hit German Soil

STOCKHOLM, Aug. 3 (AP)—Russian trucks loaded with speedboats, torpedoes and mines were speeding up the Soviet corridor to the Baltic Sea west of Riga today in an effort to bottle up any waterway escape of 20 to 30 trapped German divisions, advices from the Baltic countries said.

MOSCOW, Aug. 3 (AP)—Fighting raged within three miles of the East Prussian border today as Gen. Ivan Cherniakhovsky's Third White Russian army surged forward in a determined drive from captured Dydzizhe which promised momentarily to carry the war to German soil.

Russian armor charged savagely upon German defenses before the East Prussian border cities of Schirwindt, Edytukhnen and Wehrkirchen.

Russian cannon shelled German soil.

Cherniakhovsky's forces swirled to within 28 miles of Tilsit and 44 of Osterburg, important East Prussian rail cities. Königsberg, East Prussian capital and 18th largest German city of 368,433, was 93 miles away. Five railroads meet at Osterburg, site of iron, machine tool and tile factories.

Outside of Warsaw, Marshal Konstantin K. Rokossovsky's forces hammered at slowly crumbling Nazi defenses in a narrow strip on the east bank of the Vistula. He appeared to be waiting for other Russian forces advancing from positions 30 miles west of Siedlce to join him for the main push across the river.

In the northern sector, where the Russians were pushing against Nazi troops isolated in Estonia and Latvia major advances were scored between Lake Peipus and the lake country north of Dau-gavpils.

The Germans originally were estimated to have two armies totaling 200,000 to 300,000 men in this area, but the number actually trapped was uncertain.

In the south, Marshal Ivan S. Konev's troops advanced west of Jaroslaw to positions only 75 miles from Krawok and 123 miles from German Silesia, front dispatches said, capturing 150 towns and villages.

(The Germans admitted the Russians had thrown two strong bridgeheads across the Vistula 120 miles southeast of Warsaw and had driven 17 miles west of the river at one place).

**LEADS IN MISSOURI**—Missouri Attorney General Roy McKeltrick (above) held a nearly 20,000 vote lead over Sen. Bennett C. Clark in the Missouri primary race for nomination as democratic candidate for U. S. Senator. Clark, a veteran of 12 years in the Senate, was seeking a third term nomination. (AP Wirephoto).

### Police Chief And Assistant Resign

Police Chief J. B. Bruton and Assistant Police Chief Alfred W. Moody resigned their posts effective Wednesday evening, B. J. McDaniel, city manager, announced today.

He said that Capt. A. D. Bryan, veteran member of the force had been placed temporarily in charge of the force with Capt. K. L. Manuel assisting on the day side.

Also leaving the force were Officers Louie Merworth and J. W. Smith.

McDaniel said that the resignations were submitted to be effective at his convenience. While no reasons were cited in the letters, he said they stemmed from a disagreement over policies.

"I extremely regret losing these men," he said. "We have had the best police department in the state." There have been several conferences in recent weeks concerning policy matters and an honest difference of convictions regarding these matters became irreconcilable, said the manager.

Bruton resigned and the others followed.

Bruton, too, said his resignation was the result of disagreement on department policies which he did not think were most effective. He expressed regret at leaving the department he had headed since April 1942. He had been acting chief in Nov. 1941 when J. T. Thornton resigned as chief. Bruton had been in law enforcement work for 13 years, most of it with federal agencies prior to joining the force here in 1940.

Moody had been with the force here for nearly 12 years, joining it late in 1932. For most of 10 years he patrolled on the night side and was made assistant chief two years ago. He indicated he was quitting police work and might go into farming.

The retiring chief said that the police radio transmitter, KACM was silent, Roy Ayres, former dispatcher, having pulled his first class license Wednesday afternoon. Without the license, the station cannot legally operate. When Ayres went to work with an oil company at Seminole, he left his license here and made periodic checks on the station, which he had designed and installed originally.

McDaniel said that remaining members of the staff were temporarily serving over longer hours until the department could be organized. He expressed confidence that it could be set up on an efficient basis.

### Little Prospect Of Break In Heat

Little prospect of a drop in temperature were held Thursday as the noon recording showed the highest temperature of any day at that hour during the current heat wave.

Temperature had reached 98 degrees at the weather station by 12:30 o'clock, two degrees higher than at the same time Wednesday and five higher than that time Tuesday.

Wednesday's maximum soared to 108 degrees, equalling the year's highest recorded last week and exceeding by one degree the highest recorded during all of 1943. Wednesday was the ninth consecutive day of 100-plus temperature.

No encouragement for a drop was offered by the weather forecast of "fair this afternoon, at night and Friday, with little change in temperature."

### PLANS FOR RODEO TAKE FORM AS COMMITTEE APPOINTMENTS, PROGRAM DETAILS MAPPED

Plans for Big Spring's ninth annual rodeo took a big step forward with the announcement Thursday of appointment of committees and the avowed intention of rodeo officials to offer the best rodeo ever presented here.

The rodeo will be conducted Aug. 24, 25, 26 and 27 at the rodeo grounds east of Big Spring.

Four out-of-town sponsors had accepted, plans were shaping for mammoth daily parades, several rodeo performers and entertainers had been arranged for and machinery of rodeo personnel set in motion for the arrangement of all events, preparation of grounds and other phases of the show.

Charlie Creighton and M. M. Edwards will be general chairmen of the rodeo, arranging the program, supervising all contests and residents of this area who have horses ride in the parades. Those who don't have horses are invited to join the parades on foot or in cars. Efforts will be made to have 250 riders in each parade. The 33 fairs of the United Nations will be in the parade.

Tools Mansfield, world champion roper, is arranging roping exhibitions.

John Lindsey of Wichita Falls has been engaged as clown and will present a mule and bull in educated acts.

Sponsors who have accepted thus far are Mrs. Judy Hays of 24 ranch, representing Snyder; Mrs. Wynne McCabe, Colorado City, representing Big Lake, and Mary Harris of Odessa, in addition to the Big Spring sponsor - hostess.

Request has been made that all

### Americans Moving Toward Old Base Of St. Nazaire

SUPREME HEADQUARTERS, Allied Expeditionary Forces, Aug. 3 (AP)—Lt. Gen. Omar N. Bradley's armored columns, pressing at burning speed into the heart of Brittany, have captured Rennes after a two-day advance which carried them 45 miles from Avranches.

The Americans were pushing swiftly toward their old world war base of St. Nazaire, 80 miles beyond Rennes, which is almost in the center of the Breton peninsula. Other westbound columns were reported in the outskirts of Dinan, after an advance of 35 miles from Avranches.

St. Malo, a highly important port across the bay from Avranches apparently was being bypassed.

Dinan is 13 miles south of St. Malo and 100 miles east of the great port of Brest at Brittany's tip.

Rennes, central communications point of Brittany, is but 80 miles north of Brittany's second port, St. Nazaire, at the mouth of the Loire river, and near the center of the peninsula.

British troops burst forth in a new attack pointed toward Paris on the Allied east flank below Caen today, intensifying the threat of forcing a major German retreat as American armored columns struck deep into Brittany.

A great 60-mile pincer started closing on the Germans' battered forces as the Canadians east of the Orne river lashed out a second time in three days against Tilly - La - Campagne, key to the Nazi "anti-tank wall" which stopped Gen. Sir Bernard L. Montgomery a week ago. This attack came after a big air and ground bombardment.

American forces near the other end of the Allied line tightened a trap threatening at least two of the Germans' best armor divisions near the old Norman capital of Vire.

Vire itself, one of the Normandy's prime communications centers fell under Allied control, with British troops in its streets front dispatches reported. An American column driving up from the southwest reached St. Fois, 10 miles away.

The invasion of France now has rolled into its 59th day with at least 85,000 prisoners among the casualties inflicted on the Germans.

On the Allies' eastern sector British troops attacking by moonlight captured five towns before dawn and are beating at the gates of the German's keystone city of Villers - Bocage, which now is believed to be in no man's land.

The Germans were fighting savage in the area between Villers - Bocage and Aunay - Sur - Odon. Although it was not yet apparent whether they would continue to stand and fight or attempt a mass retreat, a front dispatch said there were signs Nazi reinforcements were beginning to arrive in an effort to plug the breach torn in the center of the German line.

The American drive into Brittany was proceeding so fast and on such a wide front that it had gotten completely ahead of reports.

### Noose Tightened On Japanese On Northern Guam

By J. B. KRUEGER Associated Press War Editor

American tightening the noose on some 10,000 Japanese pressed into the northern third of Guam has seized another airfield, bringing to seven the nest of Marianas bombers from which U. S. aerial might may soon strike into Japan's vitals from the Pacific.

Army and Marine troops, killing seven enemy soldiers for every one they lost, pushed tirelessly forward against rising resistance. But the end of the enemy seemed as sure as an equinoctial Tintin, where all but a handful of Japanese, hiding in caves, were accounted for.

Adm. Chester W. Nimitz announced his forces had killed about 33,000 of the enemy on Guam Tinian and Saipan, against a loss of 3,589 American dead, 17,548 wounded and 1,550 missing.

Gen. MacArthur's forces on New Guinea far to the south turned back two more frenzied Japanese attempts to break free of the Allied trap near Aitape. Enemy losses were heavy.

The big Japanese offensive in China rose in fury over a wide area, but Tengyang still held out. The Chinese, besieged for five weeks, threw back ten enemy attempts to crack into the inner parts of the city. To the northeast, Chungking reported, the enemy made sharp gains.

British troops quickened pursuit of the Japanese fleeing India via the Tiddim road into Burma, Chinese and Americans, fighting bitterly in the mud and rain of North Burma, dug out more Nipponese defending Myitkya.

### Truman Resigns Committee Post

WASHINGTON, Aug. 3 (AP)—Over the protest of committee colleagues, Chairman Truman (D-Mo) resigned today from the senate investigating committee.

Simultaneously with Truman's action, Hugh Fulton turned in his resignation as chief counsel of the group.

Truman said both republicans and democrats on the committee urged him to remain as chairman at a 40-minute closed meeting this morning but that he told them "it would not be fair to the committee, because everything I would say might be construed as political, in view of my candidacy for the vice presidency."

The democratic vice-presidential nominee made public a letter to Vice-President Wallace, as president of the senate, asserting "I do not want even the shadow of suspicion that the committee's activities in any way are determined or influenced by political considerations."

Truman said the committee would meet again tomorrow to choose a new chairman.

Senator Hatch (D-NM) and Mead (D-NY) have been most frequently mentioned as possible successors to the chairmanship.

Prior to today's session, republican members of the committee said they favored Truman's continuance as head of the group.

### Other GIs Had Better Burn His Lucky Card

If Lady Luck holds out for Sgt. Phil Salvatore of the Big Spring Bombardier School, he can expect to make regular long distance calls home to Salem, Mass., "for free."

At a USO bingo party last week, Sgt. Salvatore won a long distance call home. In addition he won six other of the nine prizes offered.

Last night he went to the USO with his wife, Patricia. Sgt. Salvatore won the long distance call home again, using the same card, he said, with which he won last week.

# Age And Weather Stress Tire Check Importance

One of the major things tire dealers are trying to stress to automobile owners all over the country today is to keep a close check on the condition of the automobile tires and at the least sign of wear and tear, make certain that they are repaired. This summer (as automobile owners are already beginning to realize) tires will begin to pop and blow-outs will become one of the major handicaps car owners will face for hot pavement in soon ruin a thin tire or a weak tube. With temperatures still climbing and no sign of a let-up in sweltering days ahead for awhile, Charlie Creighton, owner and operator of the Creighton Tire company at 203 West Third, suggests that you drop by his completely equipped tire and service station for regular tire check-ups. In case a tire does need attention, the trained attendants employed by Creighton are experienced in recapping and vulcanizing services. For those who are eligible for new tires, Creighton offers Seiberling tires. "There isn't much we have to say about Seiberling, for the trade name speaks for itself. I have handled Seiberlings for many years and have learned to rely on products made by this company," Creighton pointed out. New batteries handled by Creighton are made by Seiberling. Recharging service for old batteries is also maintained at the station.

Having been in the tire business for the past 15 years, Creighton has operated in his present location for the past seven years, and has won for himself... and his employes, recognition as courteous, and experienced attendants who can better tend to the needs of car owners and their automobiles.

Harry Lester Auto Supply Co. still maintains the most complete stock of standard brand replacement parts in west Texas. Its equipment includes such parts as Delco Remy and Auto-Lite Ignition, Carter Carburetors, New Departure, Hyatt and Timken Bearings, Fram and Puralator oil filters and A. C. fuel pumps. In the machine shop, the Auto Supply has equipment to take care of any need for your motor. Skilled mechanics do complete motor rebuilding, crankshaft grinding, cylinder reboring, bearing resizing, line reaming blocks, and pin fitting. They handle the installation of valve seats in cylinder blocks and cylinder heads, pressure plate rebuilding, brake shoe exchange, brake drum turning and connecting rod babbiting. All types of shop equipment may now be purchased from Lester's by special order. They have in stock quick battery chargers, air compressors, Lincoln Portable high pressure grease guns and shop and pipe vices. Lester's will be glad to place your order for any type of shop equipment. The company is located at 404 Johnson St. and employes there specialize in courteous, prompt, and capable service.

## Plumbing Supplies More Plenteous, Declares Burns

Floor furnaces, shower stalls and a large amount of hot water heaters are all included in the complete stock of Burns Plumbing and Heating company at 807 E. Third street. In fact, everything is available with the exception of bathtubs and then those can be obtained with the proper rating. "We are able to take care of our calls promptly now," said a company spokesman, "and strive to give a one day service for all." D. E. Burns, a veteran in the plumbing business and active in the trade here for a number of years, is owner and manager of the concern. His experience, plus the fact that he has the assistance of G. H. Gross and S. P. Northum, who are trained and skilled men enables them to give consistent service even at a time when people normally expect to wait several days. Mrs. D. E. Burns is in charge of the office and is long experienced in this type of work. A steady increase in volume of business has been taken by the company as an evidence of public trust in its workmanship and quality of materials. Both employer and employes have found this a point for pride.

**Promotion of 1st Lt. William N. Hollis, son of Mr. and Mrs. John R. Hollis of Sterling City road near Big Spring, to rank of captain has been announced by Ninth Air force headquarters. He is a flight commander in the "Black Death" Marauder group commanded by Col. Gerald E. Williams, Presque Isle, Maine. He was a Texas A. & M. college student before entering service. His wife lives at Dallas.**

Adrian A. Porter of Big Spring has been promoted from private to private first class, according to official announcement from "somewhere in England." Porter's wife and a son and his parents, Mr. and Mrs. J. J. Porter, live in Big Spring. Andrew A. Flower of Big Spring, technical supply clerk at an Eighth Air Force Liberator station in England, has been cited for distinguished and outstanding service in 100 combat missions over Europe. The group made its 100th mission in support of the initial landings by Allied forces in France. Ensign Connally P. Lockhart, son of S. L. Lockhart of Big Spring, will go to sea soon aboard a landing ship, medium, latest addition to the navy's powerful fleet of invasion vessels, according to naval announcement. Now training at the Amphibious Training base at Little Creek, Va., Ensign Lockhart will be an executive officer on one of the craft. Lockhart formerly attended West Texas State Teachers college and was operating a ranch before being commissioned in the navy. He served on a landing craft, infantry, before reporting to Little Creek. Fuel gas is the most common danger in and about damaged or demolished buildings.

Today On Home Front—

Rousing Battle Looms Over Higher Unemployment Pay

(Editor's Note: This is the last of three stories on this country's still unfinished job of preparing for civilian demobilization when peace comes).

By JAMES MARLOW

WASHINGTON, Aug. 3 (AP)—You can look for a rousing battle in congress in the weeks ahead over better unemployment pay for war workers who lose their jobs when the war ends.

All states now give unemployment compensation and most war workers probably will have lived long enough in the various states to qualify for payments.

But the rates are not uniform and the social security board estimates that for the country as a whole the average weekly unemployment compensation is \$13.

But the states do the paying without federal help. Now the big fighting question before congress is: Should the federal government, after the war, help boost unemployment pay by chipping in with government money?

Democratic and republican leaders both talk of the need of boosting the unemployment pay for discharged war workers but there are two bills in congress which show the division in thinking: Senator Kilgore (D-W Va) has

one providing for federal aid with unemployment pay reaching as high as \$35 a week, based on previous earnings.

Senator Murray (D-Mont) has one, also reaching \$35 according to number of dependents, but this would be paid by the states under uniform rates set by the federal government which would help the states if they went into the red by making the payments.

Here's the thinking behind the proposal to broaden unemployment pay: Wartime workers have had to save much of their earnings because the things upon which they would have spunged, like automobiles, weren't being made any more.

But the hope for a postwar prosperity wave, full employment and production, is based upon that pent-up money that will be spent when peacetime goods come back.

Well, you ask, suppose those people with all that saved-up money lose their jobs after the war and have to wait six months for another, won't they be able to live all right without increased unemployment compensation?

Sure. And by the time they get a job again their savings will be gone and they won't be able to buy the things they had hoped to buy. What's wrong with that? Just this:

The less money people have to spend for peacetime goods, the less demand there will be for peacetime goods. As the demand sinks, employment in the factories falls off. That means more jobless people spending their savings

Ration Free Aug. 13 Steaks And Roasts

WASHINGTON, Aug. 3 (AP)—War Food Administrator Marvin Jones announced Wednesday that utility grade beef steaks and roasts will become ration-free effective August 13. Under the beef grading system, Utility is next to the lowest grade which

is utility and canner grade. Commercial, good and choice grade of steaks and roasts will continue to be rationed. All other cuts of beef will remain ration free. Jones amended an order issued a couple of weeks ago directing the office of price administration to remove utility and commercial grade steaks and roasts from the ration list, effective August 1.

Lakes and rivers are more numerous in Finland than in any other European country.

Perhaps Jerry Wasn't As Drunk As He Looked

By HAL BOYLE
WITH THE AEF IN FRANCE, July 21 (delayed) (AP)—The most indignant prisoner taken in France was the drunken German sniper who became weary in an isolated hedge-row post and wandered into an American infantry contingent—waving a bottle.

In broken English he invited the surprised Doughboys to have a drink with him. When they refused, and promptly tossed him into a prisoner of war enclosure, he became very angry.

He had just wanted a few moments of sociable truce before he went back to earning his army pay sniping.

Pvt. John H. Howard, 22, of Bradford, Ill., was so startled when his unarmed jeep turned a corner and met an enemy Mark IV tank that he promptly went overboard. He intended to slide into a ditch but landed instead in the middle of the road right in front of the Nazi tank's frowning gun.

After a quick glance at the muzzle, Howard decided to play dead. He lay still for half an hour. Then he raised his hand slightly to move and the tank crew immediately opened up on him with a machine gun. He was so close to the vehicle, however, that the bullets slipped over his head into the ground as he spun over to a ditch and escaped into a hedge-row.

He started to run and came face to face with another armored vehicle—he gasped—and then saw it was an American tank destroyer. It knocked out the Nazi tank with the first shot.

It usually takes at least a rifle or pistol to capture Nazis, but some boys in France have done it with trucks and mess kits, or even with no weapons at all.

George S. Oakes, 27, Ninth division barber from Hampton, N. J., was walking along a hedgerow near the front lines, swinging his mess kit, when warning yells from several comrades stopped him.

He wheeled around and saw three Nazis, hands in the air, who had been following him to surrender. Brandishing the messkit menacingly, Oakes took them prisoner.

Some frontline Medics had bedded down for the night in an eerie French farm house when one of them inquired: "Did you fellows hear anything?" "No, it was just one of our men moving around upstairs," said Capt. Edmund H. Torkleson, Seattle, Wash.—And the group fell

Try this Easy Way to... CLEAN FALSE TEETH
At least, a sensible way to clean false teeth and bridge-work REALLY clean. Just put your plate in a glass of water to which a little quick-setting Kleenite has been added. With regular use, discoloration and stains vanish—the original clean brightness returns! It's easy, economical. Ask your druggist for Kleenite today.

KLEENITE needs no brush
Get KLEENITE today at Collins Bros., Cunningham and Phillips, or any good druggist. (adv.)

# Water Situation Looking Up, But It's Chiefly On A "Futures" Basis

Although it was pitched on a "futures" basis, the Big Spring water situation assumed a somewhat more favorable trend Saturday.

Of current importance was the fact that the city now is drawing about a million gallons daily from its lake supply and getting the balance out of section 17, a sheet water area. Wells in section 33, the ramp area which has been the backbone of supply for the past year and which has been heavily overproduced, were completely off pump. They will be reworked until it is absolutely necessary to resume pumping, said B. J. McDaniel.

On the future side, there was some comfort in the amount of trouble encountered in drilling of the No. 3 well in the north central Glascock county on the O'Barry ranch. Saturday drilling had been stalled because inclement water flow was too heavy for rotary equipment to handle. Presumably crews in the No. 4 well halted drilling on that hole pending arrival of special pumping equipment. The No. 1 well a 10-inch shaft instead of the 30-inch hole as in the other cases has been completed but not tested.

Some equipment is arriving here for Dalton & Cullum, contractors for the 21-mile pipeline project from Big Spring to Glascock county fields and first pipe is due to arrive here Aug. 10.

# Baker Urges Use Of Child Choral Units By Clubs

AUSTIN, TEX., July 29. —Your service club members: How'd you like to make some homeless kid momentarily happy — give him a glimpse of life as it's lived outside institutional walls — perhaps contribute materially to his chances of becoming a self-respecting citizen some day, of some Texas community?

Members of the State Board of Control have an idea—but they can't carry it out. That's up to the service club members over the state (and particularly the always-harassed program directors who have to think up club entertainments). It's this:

Why not consult with other service clubs in your area, in four, five or six towns, and jointly pay the bare expenses to your vicinity of one of the choral clubs or bands of one of the state institutions for children? And then, when these children stay in your town overnight, take one of them into your own home for that brief period?

"I'll guarantee the entertainment," Chairman Weaver Baker said today. "And if the state had an appropriation for that purpose, we would send out these children at our own expense."

Choral clubs are available at the Corsicana and Waco state homes. Corsicana also has a band.

# Rotarians Hear Alaska Lecture

Rotarians and their wives and guests saw slides and listened to an entertaining account of the glaucous of Alaska by Edgar C. Rainie, one of the leading authorities on Alaska, at a meeting Wednesday noon in Settles hotel.

**MISSING IN ACTION**—Mrs. D. M. Johnson received word that her husband, 1st Lieut. D. M. Johnson has been missing in action over France since July 8. He has been overseas four months and was on his 19th mission at the time he was shot down. Mrs. Johnson recently received the Air Medal awarded her husband. He is the son of Mrs. Dwight Stephens of Albuquerque, N. M., and graduated in Class 42-13 at the Midland Bombarrier school. Lt. Johnson was stationed at the local field a year before being transferred to San Angelo and then to combat. Mrs. Johnson is the former Sara Reidy. (Kelsey Photo).

**RECENT BRIDE**—Pictured above is Mrs. Ralph P. Rayermann, who before her marriage Thursday evening to S-Sgt. Rayermann at the East Fourth Baptist church was Clarabel Wood. Rev. W. H. Colson read the formal double ring ceremony. Mrs. Rayermann is the daughter of Mr. and Mrs. A. S. Wood and S-Sgt. Rayermann is the son of Mrs. John Rayermann of St. Petersburg, Fla.

# HD Women Swing Into Program

AUSTIN, Aug. 2 (AP)—Delegates to the annual convention of the Texas Home Demonstration association will hear reports today from the executive officers and the resolutions committee, and a talk on juvenile delinquency by Dr. Daniel Grieder of Austin.

# Negress Fined For Illegal Beer Sale

A negro woman paid a fine of \$100 and costs in county court on a charge of possession of beer for sale without a permit and seven charges of speeding and one felony charge were filed in justice of peace court Monday.

# Rites Held For Long Time Resident Of Knott Community

Services were held Monday at the East Fourth Baptist church for Samuel Thomas Johnson, 48, resident of Knott for the past 35 years.

# Promotions Of Officers Given

The following officer promotions have been announced by Col. John P. Kenny: First lieutenant to captain: Homer H. Fields of Oneida, Ill., ground school instructor; Arthur L. Beringer, San Francisco, Calif., personal equipment officer; Homer L. Cheshire, Lakeland, Fla., bombardier instructor; Thomas R. McBrien, Detroit, Mich., sales officer; Elvin W. Klein, Miles, Tex., adjutant section E; Clarence H. Laymon, Indianapolis, Ind., director of physical training; Robert L. Lent, Mt. Vernon, N. Y., bombardier instructor; Robert V. Orjenski, Bayonne, N. J., pilot; Orlyan E. Schueller, Fairbury, Neb., assistant military personnel officer; Delbert F. Rey, Cedarville, Calif., medical officer general surgery.

Second lieutenant to first: Albert H. Swanson, Omaha, Neb., pilot; Fred J. Schmidt, Chicago, Ill., pilot; George M. Bollean, Jr., Pittsburgh, Pa., armament officer; David Zubrin, Detroit, Mich., bombardier instructor; and Thomas O. Moser, Pittsburgh, Pa., bombardier instructor.

Lt. Jesse M. Peck of Baltimore, Md., recently arrived here and has been assigned to duty as a bombardier instructor with the department of training.

First Lt. Charles R. Ireland of Kansas City, Kas., has been assigned to duty as a ground school instructor with the department of training.

Lt. William T. Randall, Jr., of Shelby, N. C., has been assigned to duty as a pilot with the department of training.

Capt. R. F. Hatfield of St. Paul, Minn., has succeeded Lt. A. C. Andre as post adjutant. Lt. Andre has been transferred.

First Lt. Claude C. Clark of Alamo, Tex., has been assigned to duty as a ground school instructor at the Bombarrier school.

# Winkler Ellenburger Extended, Devonian Test Picks New Lime

SAN ANGELO, July 29 — Extending of the Keystone Ellenburger field in north-central Winkler county 1 1/2 miles southwest of Gulf No. 46-E Keystone and production from a lower zone by the Texas Co. No. 1-A Chas. W. Hobbs estate, southeastern Crane county discovery and Texas' first producer from the Devonian lime, highlighted West Texas oil developments this week.

**LT. WAYNE HARDWICK** formerly reported missing in action over Berlin May 19, according to information received by his sister, Mrs. Pete Banks of Big Spring.

The Texas Co. No. 1-A Hobbs in Crane county, C N N 46-35-H & TC, swabbed and flowed 134 barrels of oil the first 24 hours of natural testing through gun perforations in 7 inch casing from 5,365-90 feet. First production, in mid-May, amounted to 204 barrels of oil in 24 hours was from a perforated section at 5,360-60 feet.

The Texas-New Mexico Pipeline Co. will lay three miles of 4-inch line from its McCamey station to the new pool for which the name Crosssett has been recommended by the West Texas Geological Society.

White Humble No. 1 O. W. Williams, Yates sand strike in northwestern Pecos county in section 3-14-GC&SF, flowed to 15 barrels of oil daily from Yates sand through perforations at 2,840-80 feet. Humble No. 1-B Williams, half mile northwest, offered production prospects from the Yates in drilling to 3,022 feet. It cemented 77-inch casing at 2,841 feet for testing.

Phillips Petroleum prepared to start a slated 11,000-foot wildcat in northwestern Pecos county nine miles northwest of Ft. Stockton. The test will be No. 1 Powell estate, 660 from the north, 4,414 feet from the west line of the north half of section 3 FMRR.

Robt. B. Richter of St. Louis spotted No. 1 George Daniel, scheduled 3,500-foot wildcat in Clobber county, 2,079 from the section 12-50-T & P. He is now drilling No. 1 M. A. Grisham, a wildcat, four miles to the north. Standlind staked No. 1-N University C SE SW 13-13-U, diagonal northwest offset to Frankel Bros. east extension to the Fullerton field in Andrews county. Gulf staked No. 1-T-BB University C NW NE 10-13-U, half mile south of the Frankel well. Sinclair Prairie located No. 1-149 University C NW SW 2-13-U, half mile east, and Magmolia staked No. 1-11 University S NW SW 11-13-U, 2 1/2 miles southeast.

First litigation involving the Fullerton field loomed in the filing of applications with Bascom Giles, state land commissioner, to lease two claimed vacancies. P D Daniels seeks to lease a claimed strip along the south side of the pool and G. W. Theisen seeks to lease a claimed strip along the west side. Both reside in Abilene.

Montana Rancher To Be Buried At Gall

Jim Cinciad, 67, died Sunday, July 30, at 10 a. m. in Wyoila, Montana, where he has been a rancher for 40 years.

He is survived by three sisters, Mrs. Stella Gray of King, Mrs. Lucy Rogers, Big Spring, and Mrs. J. W. Clark of Gall; Will D. Cinciad of Gall, a brother; and five nephews, Tillman and Aubrey Rogers of Big Spring, R. Clive Gray, Gatesville, Alvin Cinciad of Hope, N. M. and Paul Cinciad, also of New Mexico.

The body will be brought overland to Gall, where services will be held at the First Methodist church. Eberley-Curry funeral home is in charge of arrangements.

# Crawford-Longbine Marriage Solemnized Here Saturday Night

The wedding of Joe P. Crawford of Amarillo and Ollie-Anna Longbine of Claude was solemnized at 8 p. m. Saturday in the study of the First Baptist church.

# Brother Of Local Wowan Killed In Berlin Bombing

LT. WAYNE HARDWICK, formerly reported missing in action over Berlin May 19, according to information received by his sister, Mrs. Pete Banks of Big Spring.

The officer, who formerly attended school in Big Spring, had been in the army air force five years. He was a staff sergeant in the ground crew before he entered bombardier-navigator school in Monroe, La., where he received his wings Oct. 16, 1943. He was married the same day to Juanita Peacock.

He was stationed at Pyote, Ardmore, Okla., and Grand Island, Neb., before he was sent to England in February. He completed 22 missions over Germany, France and Belgium and was awarded the Air Medal and three Oak Leaf clusters.

Survivors include his wife, of Monroe, La.; his mother, Mrs. K. T. Mitchell of Sipe Springs; three sisters, Mrs. Jim Milligan of Sipe Springs, Mrs. Blain Hughes of Odessa and Mrs. Banks, and two brothers, Edd Hardwick of Odessa and Leon Hardwick of Richmond, Calif.

Mrs. Banks is visiting his widow in Monroe.

# W. D. Busby Dies Here Sunday

W. D. Busby, 64, died Sunday at 8 p. m. in a local hospital.

A resident of Big Spring, he came here from Lubbock with his wife about a year ago.

He is survived by his wife, Elsie, two sons, Durward of California, and Carl of Monahan; two daughters, Lena of Henderson, and Wilma, of Louisiana; brothers, Roy, Hale Center, Ed Tahoka, and Miller, Seymour; and a sister, Mrs. Mamie Ogle of Hobbs, N. M.

The body will lie in state at the Nalley Funeral home until services are held, which are pending the arrival of the children.

# Questionnaires Sent To Local Landlords

Thirty-seven questionnaires to determine whether proper rent charges is being made have been mailed to tenants, Wallace Daw, examiner-inspector of the Big Spring area rent office reported Tuesday in announcing a monthly summary.

During July, the office checked 13 eviction notices given to tenants by landlords wanting their property for various reasons, and granted two certificates relating to eviction in cases where new owners of property wanted possession.

# Donation Of Books Assist Library

Several donations of books have been received by Howard County Free library since the library opened July 1, Sara Lamun, summer librarian, said Monday morning.

# Colorado Rodeo Opens Aug. 17

COLORADO CITY, July 29.—Dates for the ninth annual Frontier Roundup and Rodeo at Colorado City were announced Friday by John R. Base, program manager and member of the rodeo committee appointed this week by the Roundup Association.

Three night shows are scheduled for Thursday, Friday, and Saturday, August 17, 18, and 19 at the rodeo grounds east of town. No matinee performances will be held but the customary cowboy parade to the rodeo grounds will be staged late on the afternoon of the opening date.

Events set for competition will include calf-roping with \$175 daily in prizes. Prizes in that event will range from \$75 for first place to \$20 for fourth. Identical prizes will be offered in calf-bellering contests, a new division which is being substituted for the usual teaming.

Jack-pot contests for the traditional Mitchell county calf-roping event will be held nightly as will jack-pot cutting-horse competitions. Steer riding and bronc riding exhibitions with prizes of from \$25 to \$75.00, a wild horse race, and the contests for cowgirl sponsors will complete the rodeo program.

Mrs. Wayne McCabe has been chosen sponsor hostess for Colorado City and will set the patterns as cowgirl representative of the roundup association.

Marine Tech. Sgt. Carl S. Johnson, nephew of Mrs. J. W. Marchbanks of Big Spring, is back in the United States after serving 20 months in the South Pacific.

He has served at Guadalcanal, Bougainville, Munda and New Caledonia. During his stay in the Pacific he was assigned to various jobs. For ten months he was a guard for Adm. William H. Halsey, Jr., and for some time worked in the mail department carrying mail into the front lines. His most recent job was acting as gunnery instructor.

Johnson has been in the marines nine years, and at one time served aboard the USS Lexington.

# W. D. Busby Dies Here Sunday

W. D. Busby, 64, died Sunday at 8 p. m. in a local hospital. A resident of Big Spring, he came here from Lubbock with his wife about a year ago.

He is survived by his wife, Elsie, two sons, Durward of California, and Carl of Monahan; two daughters, Lena of Henderson, and Wilma, of Louisiana; brothers, Roy, Hale Center, Ed Tahoka, and Miller, Seymour; and a sister, Mrs. Mamie Ogle of Hobbs, N. M.

The body will lie in state at the Nalley Funeral home until services are held, which are pending the arrival of the children.

# Purple Heart Badge For Pfc. Hernandez

COLORADO CITY, July 28 —The Purple Heart has been awarded to Pfc. A. M. Hernandez, son of Mrs. Ellen Hernandez of Colorado City. The medal was awarded in a base hospital somewhere in England for wounds the soldier received in action in the invasion of France on June 12.

A letter to his mother here describes his wounds as "steel in the chest" and back. The Purple Heart presented Pfc. Hernandez is being sent home to his mother.

# Colorado Lions Club Delegates At Parley

COLORADO CITY, Aug. 1 —Among the delegates to the Lions International convention being held at Chicago this week are two members of the Colorado City Lions club. They are Roy Davis Coles, first vice-president of the local club, and J. D. Norman. The two left Colorado City last week-end and will return late this week.

The Tatga of Siberia, one of the world's greatest forests, is 4,000 miles long and 1,000 to 2,000 miles wide.

# Army Cook Shoots Seventeen Nazis

WITH THE AMERICAN BATTALION ON THE ARNO RIVER, Italy, Aug. 1 (AP) — As its choice for the "Sergeant York" of this war, this battalion suggests Sgt. William Montooth, a lean, rangy Tennesseean who not only is the same bad news to the Germans that the famous sergeant was in 1918, but has known the original for several years and lives near Sergeant York.

Sgt. Montooth used to meet Sgt. York quite often when he went to chicken fights back home, since he had to pass the York house to get there.

Montooth didn't like his assignment, as cook and barber in the army, so when his battalion was preparing to assault Hill 634 known as Monte Vaso, in one of the bloodiest chapters of the Italian offensive, he finally got himself out of the pot and pan department and into the infantry.

When the shooting was over, Montooth's score was: 17 Germans shot, at least eight being dead; two machine-gun nests destroyed; a number of American wounded carried out of shellfire; two Germans captured; a group of 18 wounded Americans reformatted into a column and shepherded back to safety.

As a result, Montooth has been promoted to sergeant and has never returned to the pots, pans and clippers.

# Nephew Of Local Woman Once Served As Halsey's Guard

Marine Tech. Sgt. Carl S. Johnson, nephew of Mrs. J. W. Marchbanks of Big Spring, is back in the United States after serving 20 months in the South Pacific.

He has served at Guadalcanal, Bougainville, Munda and New Caledonia. During his stay in the Pacific he was assigned to various jobs. For ten months he was a guard for Adm. William H. Halsey, Jr., and for some time worked in the mail department carrying mail into the front lines. His most recent job was acting as gunnery instructor.

Johnson has been in the marines nine years, and at one time served aboard the USS Lexington.

# Sgt. Jetty Cook Reported Missing

Another Big Spring man was reported missing in action Tuesday.

He is S. Sgt. Jetty R. Cook, son of Mr. and Mrs. Roy Cook, 306 W. 3rd street. He was reported missing from a mission on July 20 over enemy occupied territory in Europe.

A former student in Big Spring high school, Sgt. Cook had been in the army little more than a year and overseas for only a few months. He was assigned as a gunner on a heavy bomber. His wife, Virginia Cook, resides in Florida.

# Car Stamp Sales Now Up To 5,000-Mark

Exactly 5,000 federal tax stamps for motor vehicles had been sold Tuesday by Big Spring postoffice, bringing revenue of \$25,000, Nat Shick, postmaster, announced.

Additional stamps have been received and will remain on sale at \$5 each until May 31, 1945 at the postoffice here. Motor vehicle owners may order stamps at a discount from the internal revenue collector at Dallas. The amount will decrease monthly.

The stamps were required on all motor vehicles in use by July 1. Shipyard earnings have increased 64 per cent since January, 1941.

# STEPS SUGGESTED FOR LESSENING DYSENTERY AND WHOOPING COUGH

Without injury to the food or danger to those eating it, if directions are followed, fruits and vegetables may be washed in solutions containing chlorox or other household bleach. The solution should be prepared according to directions on the boxes. Also, chlorinated lime may be obtained from drugstores for such solutions.

Immunization is the principal safeguard against whooping cough, and in some cases may lighten its ailment if it has already started.

### Limes Help Make The Delicious Dishes Of Milk Sherbet And Cool Avocado Ice

LINE SHERBET: Try it with berries, peaches or melons.

By CHARLOTTE ADAMS, AF Food Editor. The coolest fruit there is, just to look at by itself, even before you put it into a long cool drink or dessert, is a Florida lime. They're big, and a deep, shiny green, unlike the little yellow ones we used to import from the West Indies.

In our illustration, with its heap of cool green limes in the center, are four suggested ways of using lime sherbet. Reading clockwise, they are in a parfait with berries, topped with fresh peach slices, topped a slice of watermelon, and last, filling a half cantaloupe.

Lime Milk Sherbet: 1 tablespoon gelatin, 1 quart milk, 1 cup sugar, 1 cup corn syrup, 3-4 cup lime juice, 1-4 teaspoon salt.

## Eudaly Outlines How To Make Silage From Variety Of Crops

By E. R. EUDALY. Any crop that cattle will eat can be put in a silo and will make good silage provided it is put in correctly. There are still some who think that only a few crops can be used to make silage. It is true that some crops make better silage than others. However, any crop is worth saving. The silo provides the safest, surest and cheapest way of saving feed.

There are some who are not putting up silage at the present time because of the labor shortage. You only have to put down a two foot layer in the silo each day. In the case of a trench silo, you can fill a section at the time. For example, you might have a trench silo one hundred feet long and six feet deep. You could fill a twenty foot section at a time.

## Methods Of Dealing With Insects Given By County Agent

By O. P. Griffin, County Agent. We are approaching the time when cotton boll worms may become serious pests in the cotton fields. They are increasing rapidly in corn and grain sorghums.

Cotton boll worms start in the spring as bud worms in corn, hedges, maize and other sorghums. There is a new generation each month and increase in numbers as the season progresses. Corn is the first choice of these insects and any of the grain sorghums are preferred to cotton.

Control Measures. There is but one way to be sure about the boll worms. That is to walk across your cotton field each afternoon late and look for the moths. They are a little larger than leaf worm moths, but nearly the same color. The wing spread is about 1 inch or more. They fly out of the cotton ahead of you, take an irregular course and dart back into the cotton nearly always lighting on the upper side of a leaf.

## Mrs. Severance To Can Supply Of Butter For Year's Needs

Mrs. I. H. Severance of Coahoma is going to be sure of a year around supply of butter, she is canning her extra supply.

Canning butter is practical only under certain conditions. Unlike "Army spread," which is said to withstand melting at high temperatures, canned butter is not mixed with defatted vegetable oils. The most important step is to begin with a pure, good quality butter made from sweet or slightly sour cream.

It is important to wash the milk out of the butter, but it should not be "worked" too much. Addition of three-fourths tablespoon of salt to each pound helps both the flavor and keeping quality.

KILLED IN CRASH. AUSTIN, Aug. 3 (AP) - Will Allen, Davis, 54, of Elgin, was killed here last night in a three-car traffic collision.

KILLED BY LIGHTNING. FARWELL, Aug. 3 (AP) - A bolt of lightning yesterday struck and killed C. L. Galaway, Jr., 13, as he operated a tractor on a farm near his home 25 miles northeast of here.

## Paper Concedes That Pro-Roosevelt Force Has Decided Edge

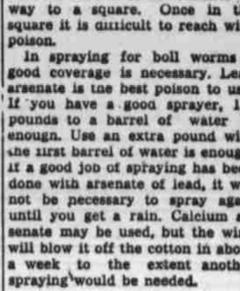

HOUSTON, Aug. 3 (AP) - The Houston Chronicle in a special article said Wednesday that delegates favorable to Roosevelt and Truman will have a substantial majority of votes in the September 12 democratic state convention at Dallas.

Based on returns from 172 of the state's 204 counties, with nearly all the populous counties listed, the vote according to the Chronicle's survey will be as follows: For Roosevelt and Truman, 653.

Uninstructed, 143. Twenty-five counties were definitely pro-Roosevelt, 38 against and 39 uninstructed, the Chronicle said.

Uruguay's constitution of 1919 incorporated church and state.

## COMPACT, NEW PERFECTION Oil Range

Here's a new kind of oil range—with the fuel reservoir mounted below the burners, cutting down the length six inches without reducing cooking capacity, for use where kitchen space is limited. Can also be had WITHOUT a fuel reservoir, but with constant level valve for connection to large outside tank.

Big Spring Hardware Co. 117 Main. Uruguayan's constitution of 1919 incorporated church and state.

## Reserve Bank Report Reflects Heavy Gas Demands By Military

DALLAS, Aug. 3 (AP) - Heavy military demand for gasoline and other petroleum products and the operation of additional refineries were reflected in a June increase of crude petroleum production, reports the federal reserve bank of Dallas in its monthly business review.

The Review said crude production was expected to rise to new peaks in July and August. Other business, finance and agriculture data covering the 11th federal reserve district as carried in the Review, include:

Dollar volume of sales at reporting department stores decreased less than the usual seasonal amount from May to June and was 11 per cent larger than in June, 1943. Total dollar volume of stocks, which usually declines from May to June, increased, 7 per cent over May. No business failures in the district were reported by Dun and Bradstreet, Inc., the first six months of the year.

ADM. CECIL KILLED. WASHINGTON, Aug. 3 (AP) - The navy announced the death of Rear Admiral Charles P. Cecil, onetime skipper of the Cruiser Helana, in an airplane crash in the Pacific, Monday. Lt. Col Robert S. Brown, 44, assistant to the war department's director of public relations also was killed in the crash.

YOUR GUARANTEE C and H ON THE BAG! PURE CANE sugar. In 6 and 12 BERRY-PACKED Bags.

## Nearly Nine Millions Asked For State Road Maintenance Fund

AUSTIN, Aug. 3 (AP) - An appropriation of \$8,786,363 will be necessary to maintain Texas highways during the fiscal year 1944-45, the highway commission says.

55 per mile over present maintenance costs, which are going up because the state has not constructed many new highways since the start of the war. The commission, meeting Monday and yesterday, completed one of its heaviest dockets in recent months, including tabulation on low bids for new construction totaling \$2,028,619.50.

The largest at a single letting since the nation went to war. The commission also took under consideration preliminary plans for construction of a modern hurricane-proof tunnel to connect G-Iveston with Point Bolivar.

# Confidence And Pressure

Many people listen to the news of America and the world, broadcast by radio for five minutes or 15 minutes, at intervals throughout the day and night. I wonder if many of the listeners ever stop to consider where this news comes from. A recent survey in a large city reveals some astonishing results. It indicates that a large percentage of people are of the opinion that radio gets more direct news than newspapers and that radio broadcasters investigate news carefully.

The fact is there are few radio reporters. The broadcast you hear is merely being read by a man with a good voice from the dispatches taken from one or more of the three large news gathering agencies, the Associated Press, the United Press and the International News Service. x x x

Radio has a mere handful of reporters of its own, none of whom could possibly cover more than a very small news sector. x x x So what you hear in the way of news, over the radio, with very small exception, is taken from the hard-earned reports of newspaper reporters and official combat correspondents who are usually reporters enlisted in the armed forces. x x x

As to commentators or so-called interpreters, a few have private sources of information which can hardly be better and certainly less extensive than the sources available to newspaper correspondents. A few commentators or interpreters, particularly schooled in the background of history, can make and do make deductions which may prove interesting if not always accurate. They are only rendering the service, usually in a more hasty and superficial manner, that is rendered by the writers of newspaper editorials. x x x

War news changes rapidly and requires much editing to keep facts clear and straight. This news has been well combed for errors before it appears in print. Radio, attempting to beat the newspapers in time, blurs out news bulletins as they arrive, whereas, many bulletins, sent to newspapers, are withdrawn by the wire services as inaccurate before they are printed.

The sense of hearing, of course, is unreliable. Newspaper offices have the frequent experience of having scores of people telephone in an effort to verify something they think they have heard over the radio. Many people listen while doing something else . . . or do as they listen.

The radio has a proper and a firm place in the home. It will increase and not decrease in acceptance and use as the years go by. Its news casts give a service that people enjoy. But let's be clear about the facts. Its news service is a skeletonized report based upon the three great news-gathering agencies and upon the ceaseless work of a trained army of newspaper reporters. To say that its coverage is of more range and accurate than that of the newspaper is only to reveal an astonishing ignorance of the simple facts.—Grove Patterson, Toledo Blade.

## Source Of "Inside" Information

Mr. Winston Churchill spoke with firm confidence if not warm optimism when he addressed commons Wednesday. The whole tone of his report was that of a man who was driven to new assurances of victory despite experienced conservatism which warned against false optimism.

He revealed many interesting facts in his message, such as impending reinforcement of the US navy (already double the Jap navy) in the Pacific, that our tanks are performing well, that the triple blows of invasion, march on Rome and the Russian drive were results of agreements at Terehan.

This latter item should be proof that the great powers of the United Nations are fully capable of fighting together as good soldiers. Mr. Churchill's reference to Polish negotiations with Russia was a

## The War Today

by Dewitt Mackenzie  
Associated Press War Analyst

The Anglo-American Allies continue to tear into the badly mauled and disorganized Nazi ranks of the invasion front of France, and a late dispatch from British headquarters in Normandy says this is the beginning of "the great retreat."

That may well be so. The cold fact is the Germans are up against an overwhelming strength in both men and materiel which have been poured through the bloody beachheads of Normandy.

Hitler's fighting machine in France is beginning to break up, just as it is doing on the eastern front.

British Prime Minister Churchill yesterday said truly that "it is the Russian army that has done the main work of tearing the guts out of the German army." But while the fighting in France never will reach the monumental scale of the Russo-Nazi war, the western Allies also are about to give a fearsome exhibition of ripping out what Mr. Churchill said.

If the Americans succeed in cutting off the Brest peninsula and capturing the great port of Brest—and today's reports indicate smashing progress—it will provide harbor and rail facilities which will add much to the Allied striking power. However, Cherbourg can fill the bill for the time being without Brest, and we may expect that there will be no delay in pressing the drive on Paris, for the Canadians and British are destroying the Nazi right wing and the center in the Vire sector while the Yanks race into Brittany on the other flank.

Truly Hitler's pagan gods have deserted him. At last he's feeling the mighty weight of the Allied vise. With the Red armies slashing his entire line to ribbons, and today at the very border of the "sacred soil" of East Prussia, he can't spare troops from the eastern theatre to bolster his hard-pressed forces in France. And he has nothing like enough troops or equipment in the west to protect himself for long.

At latest reports the Germans had on the Normandy front a total of 28 divisions of various categories, including four panzer units and some infantry divisions which are partly armored. Thirteen of these divisions have been on the British sector and fifteen on the American. It's impossible to estimate accurately the number of troops involved, because many divisions are under normal quota. Perhaps there has been a minimum of a quarter million men.

The Hitlerites claim that the Allies have fifty divisions in Normandy. If that's so it might mean close to 700,000 men. When you consider that the Germans have only about 65 divisions in western Europe, Hitler's problem becomes doubly clear, for he has many points to protect against further Allied invasions.

The American drive into Brittany is eased greatly by the fact that the Germans had to withdraw forces from there to meet the Allied onslaught in Normandy. This withdrawal also lessens the danger of a heavy German counter-attack from Brittany against the Allies right wing now emerging from Normandy.

shrewd and timely bid for conciliation. It also placed just the proper amount of pressure upon warring Polish factions by observing that it would be an opportune time for fusion "when Warsaw is being liberated by the bravery of the Russian armies." The implication is plain.

## How To Torture Your Wife

## Capitol Comment: Family On Public Payroll; Plow Under Keynote Talk

By GEORGE STIMPSON

Perhaps it would be well if the Dies Committee would investigate the Truman Committee.

Nepotism is a disease epidemic in the capital. So many public officials have had their fingers burned playing with the sort of fire that I wonder why anybody would fool with it.

Twenty cases of polio have already been reported in the Washington area already this year and our public health officer has called a conference to see what steps can be taken to prevent its further spread.

That handsome lieutenant commander having lunch in the National Press Club is Harold Stassen, who resigned as governor of Minnesota to enter the Navy.

The Duke of Windsor, who is spending a few days in the city, braved the Washington heat to make a visit to the Pentagon Building.

J. G. Detweiler, who joined the Texas Co. as a work chemist at Port Arthur in 1911, has been named assistant director of foreign refining by Deputy Petroleum Administrator for War Ralph Davies.

Robert L. Owens, former United States senator from Oklahoma, convinced that the best guarantee of world peace is an international language, is promoting a "global alphabet."

Montrose Gordon, new chief of ODT's research and permit section in the waterways transport department, graduated from Burleson College at Greenville and worked for 12 years in the local office of the Missouri, Kansas and Texas Railroad. After leaving "Katy" he served with the United States Army Engineers office in connection with traffic on the rivers of Southern Texas and on the Gulf Intracoastal Canal.

While I was sitting in my office in the National Press Building this morning tapping off this piece for the public prints, in came

## Washington—One Pre-War Custom Disappears

By JACK STINETT  
WASHINGTON — Your Capital in Wartime: One pre-war custom that seems to have disappeared here is that of dismissing employes in midafternoon when the mercury goes into the stratosphere.

The Capital has just had success from a three-week heat wave that had everyone gasping. Down in those temporary frame buildings that line the Mall, employes worked in oven-like heat, that was held in from day-to-day by nightly locked doors and windows.

On those days when the thermometer registered in the 90's, supervisors held conferences on what to do; decided the war effort wouldn't permit dismissal even for a few afternoon hours A medical and nursing staff was put on the alert and the sweat-soaked, weary workers worked on. No collapses were reported.

Most of the government buildings are air-conditioned but not all and none of the temporary war workers. In most cases, buildings which house so many of top executives have individual cooling units in their offices.

Chester Bowles, director of OPA, is taking a leaf from the morale-builder book used by war industries in trying to show workers how little bit they do contribute to the job of winning the war.

Under the direction of a progress information committee, the big picture of OPA's accomplishments is given weekly or oftener to everybody from supervisor to file clerk and messenger. Movies on rationing, price controls and black markets are shown the employes and in all instances, the

Clarence DeBusk, general manager of the Beaumont Chamber of Commerce. From him I learned that L. B. Copping, president of the Pennsylvania Shipyards at Beaumont, was also in town.

Among the things that ought to be abolished are keynote speeches at conventions. Candidates are nominated as the result of keyhole whisperings rather than keynote speeches. The CIO is making rapid progress in the political field. While it cannot yet dictate the candidates on national tickets, it can exercise a successful veto power and prevent the nomination of anybody it does not want.

One by one the members of the Texas delegation in Congress are drifting back to Washington. A few of them look as if they had been in a fight or something.

A lot is being said about the influence of big city bosses at the Democratic convention in Chicago. My observation has been that most big city bosses are tolerably honest.

Can you beat it? A few years ago Will Clayton came here from Houston as an assistant to Jesse Jones. The other day Will, now Surplus War Property Administrator, announced that he had assigned to Jesse's RFC for disposal all surplus Army and Navy real estate.

"Texas Faces Serious Drought Threat," says new letter of Allied Liquor Industries, Inc., with headquarters in New York. "McLellan County, Texas, which includes the city of Waco, voted to prohibit the sale of alcoholic beverages" on July 15 by a vote of 8,766 to 8,069. It has been reliably learned. Now, with Groom precinct of Carson County holding an election on July 22 and with Dallas and Tarrant Counties, in which are located the cities of Dallas and Fort Worth, due to vote on August 5, the industry in Texas is facing a fight almost for its very existence.

The board of directors of the Mountain Creek post of the American Legion, both in Dallas County, have issued resolutions opposing the calling of any local option elections at this time, while so many Texas citizens are away in the armed forces.

# Today And Tomorrow Legitimacy And Polish Unity

By WALTER LIPPMANN

Public comment in America and Britain on Polish-Soviet relations has thus far done much more harm than good. It has created a false impression of the extent to which the Western governments could and would support the present Polish government; this apparent support has strengthened the hand of the Polish factions which are irreconcilably anti-Soviet and has weakened the hand of those who like the late General Sikorski and the present Premier, Mr. Mikolajczyk, were not anti-Russian and have realized that the liberation and the security of Poland demand an understanding with the Soviet Union.

In Moscow the effect has been to arouse suspicion and distrust to which there was no easy answer; why, it was asked, do London and Washington continue to befriend a government which contains such conspicuous enemies of its ally, and why do they tolerate a Polish propaganda which has verged on incitement to war between the English-speaking nations and the Soviets?

Nevertheless, the situation today is radically different than it was in the winter and spring when all attempts to reach an understanding failed. The Red Army is now liberating Poland. This has brought the members of the Polish government in London to a sharp realization that they can return to Warsaw only with the consent of the Soviet government; as a result the Prime Minister, who has always wanted an understanding, has now for the first time been given full power to take whatever measures are necessary to reach an understanding.

On the other hand, the relations between the Soviet Union and the British-Americans have improved decidedly since the Polish question was an important cause of difference between them. The Tehran military agreements have been fulfilled to the letter and have been executed brilliantly; there can be no doubt in Marshal Stalin's mind that the alliance against Germany is faithful and without reservations. Moreover, agreement has been reached on the terms of the armistice to be imposed on Germany, and this agreement disposes of the idea that Britain and America have any intention of trying to use Germany to create a balance of power against the Soviet Union.

The fact that there is a genuine "second front" in Normandy and that the terms for Germany are satisfactory to the Soviets puts the whole Polish question in a more favorable perspective. It means that liberated Poland cannot possibly become the spearpoint of an anti-Soviet combination, that liberated Poland must take its place in a United Nations combination directed to enforcing the German settlement. Uncer-

tainty on this crucial point has been at the bottom of the whole affair between Moscow and the Polish government in London.

If the Polish Prime Minister is able with conviction to confirm the new fact that Poland knows it must collaborate with the Soviets in enforcing the German settlement, then he has much to contribute which Marshal Stalin must desire.

The Polish authorities with which the Red Army is working in liberated Poland do not profess to be a Polish government, and are not recognized as such in Moscow. Undoubtedly, they represent elements of the Polish nation which must participate in any government that is capable of uniting the country. But they do not represent all the elements. No government will represent all of them unless it can command the allegiance of all the Poles because it is the legitimate successor of the government which first took up arms against Germany.

Mr. Mikolajczyk holds in his hands this power of legitimate succession. He can dismiss the personnel of the London government; he can form a new government representing a coalition of elements of that government with the committee now exercising authority in Poland. Only through him can this new government obtain a clear title to govern.

The legitimacy of the Polish government is a very important consideration to the Soviet Union. For this government will have to cede territory which was formerly Polish; it will have to annex territory which is now German; it will have to form alliances with the Soviet Union and Czechoslovakia; and it will

have to become an enforcing power to the German settlement.

To perform these great acts of sovereignty, it needs an unchallenged title. Without such a title, the government cannot successfully reunite the Poles. Failing that, the territorial and political settlement in eastern Europe will lack stability because of the internal disunion of the Polish nation.

## Hollywood—Rugged Boy Meets Barbary Coast Flame

By ROBBIN COONS  
HOLLYWOOD — The Barbary Coast music hall was crowded and the girl in white-satin gown, singing, had the crowd with her. She was a beauty, and she sang in that throaty Marlene Dietrich style, only with more soul in the voice, and she had John Wayne with her too. That was in the plot — rugged boy meets "Flame of the Barbary Coast."

"Flame?" laughed Ann Dvorak after the scene. "I was away from Hollywood not quite four years, and when I came back I discovered that I was a hag, at least 99 years old and ready for characters."

The svelte and pretty Miss Dvorak, who began a starring career with Paul Muni in "Scarface," left it with husband Leslie Fenton when England went to war.

While Fenton covered himself with glory, decorations, and finally a nasty wound as commander of an MTB boat at St. Nazaire, Ann engaged in all manner of war work in England; reporter and feature writer on the staff of London Illustrated; worker in the "lard army" raising foodstuffs; ambulance driver during the blitz; entertainer at camp and Red Cross shows, actress in British films.

Then, Fenton was discharged from service and Ann came back to Hollywood where both had had careers. Fenton began

directing "The Story of GI Joe" and "Tomorrow the World" and Ann began looking for parts.

It wasn't as if she had dropped out of sight. Now and again there had been stories about the Fen-tones, praise for their war work and — during the blitz — much worry for their safety.

"I came back tired, naturally," said Ann, "but I wasn't prepared to be greeted like a rather well-preserved survivor from another generation. I'd meet people at parties and they'd fairly gasp as they exclaimed over how well I looked, just as they might if they'd seen Whistler's Mother with a face-lift."

The producers apparently re-

acted the same way when her agent called on them. There were parts, yes, but not the kind of pictures Ann wanted—not in "A" pictures.

"I began looking into my mirror, wondering," said Ann, who is in her early 30's, younger than most of the glamour girls. "It wasn't good for me and I had to snap out of it."

Bouncing herself and raising vegetables on the Fenton ranch in Encino lifted her spirits, and the final cure came when she made a tour of Army hospitals. The men there remembered her, obviously liked her looks and told her so. "That made me happy as a school-girl," she said.

The next time she tried for a part she went along with the agent. That's how she became "Flame," with a contact to glow in two pictures a year in "A" pictures.

## Looking Backward

FIVE YEARS AGO TODAY  
Big Spring and area share in rains covering west Texas; provision made for 1,475 pounds of potatoes, 14 1-2 lugs of tomatoes, 1,011 pounds of bananas, 87 heads of lettuce, 66 gallons of ice cream, 1,881 pint bottles of milk, and other supplies for infantrymen staying overnight in city.

TEN YEARS AGO TODAY  
Burney R. Cline turns in first Howard county bale of cotton for record; sharp cut in county tax rate recommended by county judge; Raymond Fischer to head aviation committee of Big Spring chamber of commerce.

**KEEP IT CLEAN!**

Don't Mix Garbage with WASTE PAPER

Waste paper that's been stained by garbage and ashes can't be reprocessed for war use. There isn't the manpower available to separate waste paper wrappings from garbage.

So don't waste your waste paper—don't wrap garbage! Keep your waste paper clean. Bundle it and put it out for regular collection.

### Walmsley Leads Rice Whites To Victory

HOUSTON, Aug. 3 (AP) — George Walmsley, fleet freshman, sparked the Rice Institute Whites to a 27-20 grid victory over the Rice Blues last night with three touchdowns, although his longest gain was but nine yards.

Vying with Walmsley in the practice game was Bill Scruggs, 150-pound holdover from last season, who started the night as a fourth stringer and on the last play of the game intercepted a pass to race 70 yards through the entire White team for a touchdown.

It was also Scruggs who pitched a 25-yard scoring pass to Milton Carter as the Blues surged back from a two-touchdown deficit to tie the score.

There are about 250 islands in the Fiji group, about 80 of which are inhabited.

**Superforts Did Excellent Job**

WASHINGTON, Aug. 3 (AP)—The B-29 superfortresses which struck the Japanese steel works at Anshan in Manchuria scored direct hits on coke ovens and other factory buildings in an important blow at the enemy's war-making capacity, War Secretary Stimson reported today.

Stimson told a news conference the attack was carried out by a "substantial" force of the army's new super bombers, which hit Anshan and Tangku, the port of Tientsin in occupied China, on July 29.

"Japan's new industry in stolen Manchuria," the secretary said, "is no safer than Japan's war industry and war machine elsewhere."

The report on the super fortresses attack was made in the course of Stimson's review of the past week's operations on all combat fronts, in which he made these observations:

The rapid advance in Normandy the last nine days "is the most satisfying accomplishment since the successful Allied landings on French beaches" and "overshadows even the swift envelopment and liberation of Cherbourg."

**Ordnance Catches Everything From Plugged Guns To Scooped Out Armor**

Ernie Pyle—  
By ERNIE PYLE  
SOMEWHERE IN NORMANDY—(by wireless)—An ordnance tank repair company gets some freakish jobs, indeed.

The other day the company I was with had a tank destroyer roll in. There was nothing wrong whatever with it except—the end of the gun barrel was corked tight with 2 1/2 feet of wood.

What happened was they had been running along a hedgerow and as the turret operator swung his gun in a forward arc, they ran the end of the barrel smack into a big tree.

You would think the vehicle had

EXALTED RULER—New head of the Benevolent and Protective Order of Elks is Dr. Robert S. Barrett, Alexandria, Va., philanthropist. He has a distinguished career in journalism, international trade, American diplomacy, social welfare, and fraternal activities and is president of the National Florence Crittenton mission and has long been active in the Episcopal church.

**Rodeo**  
(Continued from Page 1)

Louise Ann Bennett, Mrs. M. H. Bennett will be hostess chairman. All contestants will take fees to the chamber of commerce. The rodeo is approved by the Turtle association.

One of the features daily will be a Howard county roping contest.

Steer wrestling, bronc riding, calf roping and brahma bull riding will be included in events.

Night shows will be held Aug. 24-26 and an afternoon show at 2:30 p. m. Aug. 27. That arrangement was made so that all persons, whether able to attend in daytime or night, will have opportunity to see the show, said J. H. Green, chamber of commerce manager and rodeo secretary. Also, four shows are being offered in order to assure everyone chance of seeing the show even if rain should hamper one or more performances.

County and city peace officers, the highway patrol, military police, city traffic department and fire boys will assist in directing the crowd.

The rodeo executive committee is comprised of Creighton, chairman, Green, secretary, Tom Good, Edwards, Mrs. Bennett, Douglas, Harry Hurt, Nell, Darrell Douglas, Cecil Westerman and Pat Patterson.

**Lippert Bros. Given Contract**

Lippert Bros. the concern which recently completed the city's new disposal plant, Wednesday was awarded contract to build two pump houses and a collecting reservoir to complete the lettings for units of the \$820,000 waterworks development program.

The bid, lowest of five, was for \$30,750 and \$1,300 under engineer's estimates, said City Manager, B. J. McDaniel. Next bidder was R. H. Folmer, Austin, for \$57,000 and the highest was for \$48,981.95.

Work will start immediately, McDaniel indicated. The reservoir is to be located in North-central Glasscock county where a well supply is being developed.

Drilling is progressing on a third well in the area after the second had to be abandoned temporarily for loss of circulation.

Representatives of Dalton and Cullum, who hold the pipeline contract, were reported in town, indicating an early start on this phase of the work. Work order has been issued for Monday on this unit.

**Man Posts Bond On Charge Of Neglect**

One man had posted bond of \$500 on charge of neglect of family and another had been arrested by the sheriff's department on a charge of wife and child desertion Thursday.

W. E. Tuttle, charged with neglect of family, posted bond. Vicente Maldonado had not been arraigned on the desertion charge.

**Heat Victim Dies Of Stroke**

By The Associated Press  
One death from sun stroke and a half dozen persons hospitalized for heat prostration were reported in Texas today (Thursday) as the state went through its tenth successive day with temperatures 100 degrees or better.

Pvt. Archie R. Wallace, 26, of Saginaw, Mich., died in the Camp Fannin, station hospital of a sun stroke suffered July 29. The six persons were in hospitals at Houston.

Sizzling under a scorching North Texas sun yesterday (Wednesday), Quanah rated the dubious distinction of hottest spot in the state when the thermometer boiled up to 114 degrees. Dallas' weather bureau said it was believed Quanah's high set a record for maximum temperatures in Texas this year.

In contrast was Beaumont, where thundershowers brought relief, and a drop in the mercury to 71.

Elsewhere it was the same old story with these readings: Nocona, in north Texas, 111 and Wichita Falls, 110; Poyte, 108; Big Spring, 108; Wink 107; Midland, 106; Clarendon, 108; Pampa, 108; Amarillo, 103.

Fort Worth, Cokesville, and San Angelo, 104; Dallas and Laredo, 103; Del Rio and Dalhart, 102; El Paso, and Lubbock 101.

**Dr. J. T. O'Barr Dies Wednesday**

Dr. John Thomas O'Barr, 92, pioneer Texas physician and veteran Glasscock county rancher, died at his home in northern Glasscock county Wednesday evening following a prolonged illness.

The body will lie in state at Nalley Chapel until Friday morning when it will be taken overland to Ledbetter, Texas for interment beside the grave of his wife, who was killed in a car mishap near Eden in 1942. Rites were set for 5 p. m. Friday in Ledbetter.

Born in a wagon while his parents were enroute from Arkansas to Texas on Nov. 9, 1851, Dr. O'Barr grew to young manhood at Brenham. In 1870 he had come to Sweetwater to get a job as cowboy with Nunn Bros. ranch but kept ambitions to be a doctor until he entered a medical school at Louisville, Ky. Returning to Texas he set up a practice at Ledbetter which lasted for 35 years. In broken health, he retired and bought his ranch in northern Glasscock county and lived on it since 1907. Soon after he established his ranch home, Dr. O'Barr undertook to promote a town, Konehasett, named by Bill Cushing, Sr. but the village died after a few years. On its site Big Spring today is seeking its new water supply. Although he owned land in 10 oil counties, he never had an oil well.

Dr. O'Barr was a life-long member of the Presbyterian Church, USA, a member of the WOW, and had been a heavy contributor to his church and to benevolences. He had been a heavy contributor to 1887 to Miss Willie Alexander Blackwelder. Surviving the union are four sons: T. P. O'Barr, Ledbetter, J. C. O'Barr, San Angelo, George O'Barr, Glasscock county, and J. D. O'Barr, Big Spring; one daughter, Miss Lois O'Barr Smith of Glasscock county. He also leaves one half brother, W. E. Dinwiddie, Oklahoma City, and five grandchildren.

**Beaumont Faces Ice Shortage**

SHERMAN, Aug. 3 (AP)—Judge Randolph Bryant in U.S. district court here today issued a temporary order against the Morgan Ice Co. of Beaumont restraining the sale of ice in excess of ceiling prices. Hearing was set for Aug. 12 in Sherman.

The shortage was caused by the closing to public consumption of five Morgan Ice company plants following charges filed by the Office of Price Administration alleging Morgan plants were selling ice above ceiling prices.

**Livestock**

FORT WORTH, Aug. 3 (AP)—Cattle 4,100; calves 1,600; slow and weak; medium to good steers and yearlings 6.00 - 11.00; beef cows 7.00 - 10.00; canner and cutter cows 4.00 - 6.75; bulls 5.50 - 9.00; fat calves 7.25 - 12.50; cull calves 5.50 - 7.00.

Hogs, 1,300; hogs and pigs unchanged; sows steady to 50c higher; good and choice 180-240 lb. buyers hogs 14.55; good to choice 240 lbs. 13.80; good and choice 155 - 175 lb. 12.75 - 14.00; packing sows 13.00 - 80; stocker pigs 6.00 - 11.00.

Sheep 13,000; steady; common to medium spring lambs 10.50 - 12.00; choice spring lambs 14.00; medium to good short lambs and yearlings 9.00 - 10.00; ewes 2.00 - 4.50; good aged wethers 5.00 down. Spring feeder lambs 9.00 down.

The use of veneers dates back to the earliest days of civilization.

**Heat Victim Dies Of Stroke**

Headaches frequently occur from eye strain or glasses that are not properly fitted. Your eyes should be examined at least once each year so that any visual disorder may be the more easily corrected.

**Mrs. Gallemore Rites Friday**

Services will be held Friday morning at 10 o'clock in the Eberley - Curry funeral chapel by Rev. P. D. O'Brien for Mrs. Virginia Gallemore, who died in her home today at 2:45 a. m.

Mrs. Gallemore was born October 20, 1877 in Tom Green county. She has been ill since 1941. Burial will be in the city cemetery beside her husband, John Heid Gallemore, who died March 31, 1942.

She is survived by three daughters, Mrs. Ruby Smith and Mrs. Winnie Jones of Big Spring, and Mrs. Sibly Matlock, San Diego, Calif.; a sister, Mrs. Pearl Atkins of Christoval; and two grandchildren.

Pill bearers will be C. C. Brown, Albert Long, J. E. Brown, H. H. Carlile, Roy Cook, Melvin Marsh and J. S. Nabors.

**4-H Boys Register For Encampment**

Twenty-six Howard county 4-H club boys have registered for a trip to the district encampment to be held at Tankersley west of San Angelo Monday through Wednesday.

Two men, O. D. O'Daniel of Coahoma and W. A. Jackson of Vealmoor, also have registered. O. P. Griffin, county agent, will accompany the group, which will leave at 2 p. m. Monday.

**Four Years Ago Today**

By The Associated Press  
Aug. 3, 1940 - Japan protests to United States on ban of export of aviation gasoline; Mayor Camille Houde arrested in Montreal, Canada, after announcing he would refuse to comply with recently passed registration bill.

**Hospital Job Is Started**

Work was started Thursday on an addition to the Malone & Hoxan Clinic Hospital with Lippert Bros. as the builders.

No amount was specified for the project, although it was a sizeable job. Hospital authorities said it was not determined yet how much the job would run.

Authority has been granted by the WPB for construction of the addition, which will extend 99 feet north of the present hospital. It will be of identical brick construction and will have a wing extending to the east as is the case on the south end of the present building.

The new construction is calculated to provide 28 additional patient beds as well as other facilities. It will be two stories and a basement floor.

**Dr. Walker Joins Hall & Bennett**

Dr. J. L. Walker of Galveston joined the staff of the Hall and Bennett Clinic, arriving here August 1st.

He is on inactive duty with the navy and has served the past two years in the United States and the South Pacific area.

Dr. Walker entered the navy as a lieutenant (jg) and interned in Naval hospitals following his completion of school at the University of Texas medical branch at Galveston.

He will engage in general practice here with the Hall and Bennett Clinic.

His wife and son, Bill, will make their home here with him.
