FDR Tells Of Allied Unity In Pacific

ABDA Powers Have Organization To Decide Procedures

WASHINGTON, Feb. (AP) - President Reosevelt asserted today that a Pacific council had been in operation here and in London for a month and that there was very close cooperation in its activities.

The chief executive, replying to press conference questions, said the council was handling questions of both a military and political nature and that it had offices here and in London.

Questions of a purely military nature, he said, are referred to army and navy chiefs of staff while those of a governmental or political character are laid before the appropriate governmental bodies in Washington and in the British capital.

He pointed out that the Dutch government in exile has its headquarters in London and that the British dominions also are reprosented there.

In an address before the house of commons shortly after his re turn to England from conferences here with the president, Prime Minister Churchill had referred to a Pacific council, but Mr. Roose velt's mention of it today produced the first definite announcement that it was actually in existence and functioning.

In the ABDA-American-British-Dutch-Australian-area, Mr. Roose velt noted, the military command is under the supreme direction of General Archibald P. Wavell.

The president went on to say, although he conceded it was a slipshod way of putting it be-cause it was difficult to differentiate, that operations on which Wavell would make the decision might be termed tactical whereas certain long-range strategical questions must be referred to Washington and London.

These strategical problems are those which may be divided into strictly military and naval este-gories or into political or governmental questions.

Where they have an element of both the military and political, the president said, they will be refer-

Reinforceents For Allied Forces Hard To Deliver

WASHINGTON, Feb. 6 (AP) — Japanese gun emplacements on the southeastern shore of Manila Bay, apparently designed for an at- ay tack on the fortress of Corregidor, have been destroyed by artillery fire from American fortifications.

The war department, announce ing this today, also reported in a communique that nine Japanese transports were debarking troops at ports in Lingayen Gulf, approximately 125 miles north of Manila Bay, to reinforce the large enemy concentrations already in Batan Peninsula and others parts of the island of Luzon.

The Batan front, the department said, was relatively quiet in the past twenty-four hours, with decreasing enemy bombing attacks, which resulted in no

Youth Taken In Second Robbery

LONGVIEW, Feb. 6 (AP)-A fugitive from the Gatesville reform robbed Renne Allred, Jr., nephew of Federal Judge James V. Allred but he slipped up in a second rob last night.

That was the deduction officers made in tentatively identifying Allred's abductor as a 17-year-old re-form school inmate captured when he tried to hold up a Van Zandt county grocery a few hours later District Attorney's Investigato Louis Grigsby said the youth was held in Canton, Van Zandt county seat, in connection with the second holdup attempt. Young Allred told officers he and

companion, William Moore of Dallas, were forced at pistol point by a hitchhiker to drive over county roads and then were stripped and robbed of \$26. The robber put them in a room of a house under construction and barred the door. He rode away in Allred's car. A few hours later the suspect Grigsby said, was caught in Van

a faint echo. "Don't talk." Sharon crossed to the bedside. "You're supposed to be very quiet."

"I won't rest till I get out of here," Tom muttered, releasing her hand reluctantly. The nurse straightened his pil-

Sharon carried the picture of Tom's smile all the way down the hall to the big, deserted waiting room. Mr. Goodwin nust be all wrong about him. No one would his life, injure himself no one knew how badly just to save the life of his enemy. What was Goodwin's employees. No one motivated by a desire to destroy stopped at a mere human life! Tom was no enemy to the steel industry-or anyone else.
