The World's Richest Baby
Little Cordelia Mellon Scaife, believed to be the richest baby in the world, is shown as she was taking an airing the other day near her home in Pittsburgh. She is the daughter of Mr. and Mrs. Allen Magee Scaife, and is a granddaughter of H. B. Mellon and grandniece of Andrew W. Mellon, secretary of the treasury. Some day she may be heiress to the Mellon millions, of which there are many.

SWEETWATER GREETINGS BIG SPRING BY PLANE

Mayor Bryant and Party Of Officials Travel Here On First T-A-T Plane To Make Regular Stop In That City

TRAINMEN NEGOTIATE

Conferences To Determine Losses In Homes Opened

DALLAS, May 2.—The Texas and Pacific railway and trainmen brotherhood officials, have begun conferences to settle the matter of the amount of compensation to be paid trainmen for losses incurred on homes at Longview and Marshall when terminals were moved.

This issue was the chief one before President Hoover's special fact-finding board which held its hearings in Dallas.

Air Mail Changes Not To Affect City

The air mail service from the Big Spring postoffice will not be affected by the change of schedule in the transcontinental air mail service, according to E. E. Fahrkamp, postmaster.

City School Tax Office Opened

A tax office has been created in this city to handle assessments and collections for the Big Spring Independent school district with Mrs. F. M. Purser in charge.

The Weather

West Texas: Fair, warmer except in extreme southeast portion tonight; Friday, fair, warmer.

Chautauqua Sale Opens 2,200-FOOT TEST GETS SOFT LIME

MANY SOLD BY WORKERS

Season's Program Will Be In Auditorium Of High School

Tickets for the Big Spring Chautauqua season went on sale Thursday morning at the Cunningham and Phillips Drug Company No. 1, at the Clyde Fox Drug company and at the chambers of commerce headquarters in the Crawford hotel.

Rites Said For J. S. McCright, 58

Funeral services for James Sheppard McCright, 58, who died in a Big Spring hospital Tuesday morning, were held at 5 o'clock Wednesday afternoon from the Robinson chapel in Midway with Rev. Reid, traveling minister, in charge.

Chili King Will Feed Ball Players

The Chili King on Runnels street will host this evening after the Big Spring Midland game to members of the local club at a chicken dinner, Manager Payne announced.

Uncle Sam's New And Smaller Currency Due In City July 1st

Big Spring banks will receive their first issue of the smaller new currency soon to be set in circulation on July 1, according to local bankers.

The smaller currency will have little effect in saving vault space due to the small amount of currency kept in their vaults, bankers say.

Why Airmail Pilots Get Gray

If motorists had all these instruments and controls to watch and operate, our streets would be as free as the air. Yet this is just what the modern airmail pilot has to worry over while he's in the air—instruments of all descriptions and controls enough for a four-armed man. This cockpit happens to be one of a new type Boeing transcontinental mail plane.

Prof. Duncan Talks Of Giving Primacy To Human And Spiritual Values; Tech Business Manager Heard; Attendance Excellent

TANKS SENT TO WILDCAT

McDowell I-C Stands Full Of Oil; Acreage Is High

Arrangements to test the World Oil Company's No. 1 McDowell, the discovery well in northern Glasscock county seven miles from former production continued Thursday as tanks and well connection work was completed.

The hole was still standing, full of oil from the second and new pay topped at 2,385 feet and drilled to a total depth of 2,398 feet. Tubing and rods were to run in the hole today for the test late Friday or Saturday morning.

It was rumored today that several strips of acreage ranging from three-quarters of a mile to one and one-half miles from the discovery well were selling for a top price of \$1,000 per acre and that prospectors were giving drilling contracts. However, this information was unconfirmed.

County Women Will Convene

A meeting of the county women's club council will be held Saturday afternoon in the home demonstration agent's office in the Howard county courthouse, according to Miss Loucille Allgood, county demonstrator.

BASEBALL

NEW YORK, May 2.—Rain broke up today's game between the Yankees and the Senators after two and one-half innings had been played. The Senators were leading 1 to 0, due to an error by Lou Gehrig in the first.

SCHOOL HIT BY CYCLONE

Number Killed, Report To Richmond, Virginia Says

RICHMOND, Va., May 2.—J. B. Richmond, a resident of Gate City, advised the Associated Press here today that every available ambulance and doctor had been sent from Gate City to Iyze Cove school, 15 miles northwest of there, where a number of persons were reported to have been killed and injured in a tornado which destroyed the school house.

COLUMBUS, O., May 2.—One man was reported killed and two others buried when the high wind blew down two walls of the city prison here today. A check was made of prisoners to see how many were injured while police formed a guard around the jail to prevent inmates from escaping.

JOHNSTON CITY, Tenn., May 2.—Two persons were killed at least five others were injured and four houses demolished by a tornado that struck near Embreeville, ten miles southwest of here, at noon today. Those killed were Mrs. Matilda Storey and Benjamin Springer, two and a half years old.

Laymen Will Hear San Angelo Men

Rev. B. O. Wood, pastor of the First Presbyterian church of San Angelo, and Houston Harke, publisher of the San Angelo Standard and San Angelo Times, will be principal speakers at the laymen's banquet to be given at 7:30 o'clock Thursday evening at the Presbyterian manse, 911 Scurry street.

SEEK DELAY IN HEARING OF PILOT

Postponement for not more than ten days of preliminary hearing for W. Loy Mitchell and Pete Stanley, local pilots, under charges of conspiracy to violate the neutrality laws has been asked at Tucson, Arizona, by J. Gingie, United States attorney, according to dispatches of Thursday.

Brother Of Local Merchant Improved

The condition of R. E. O'Rear of Abilene, veteran West Texas shoe salesman known to all shoe merchants in this territory, and brother of Osborn O'Rear of the O'Rear Bootery here, was reported somewhat improved Thursday morning following an emergency operation for an abdominal complaint.

Entre Nous To Meet With Mrs. J. J. Hair

Mrs. J. J. Hair will be hostess to members of the Entre Nous Bridge club at her home, 603 Runnels street, at 3 o'clock Friday afternoon for the regular session of games and social hour.

2,200-FOOT TEST GETS SOFT LIME

Total Depth Reported 2,225 Feet; Crude Rises 600 Feet Very Quickly

Although definite information on Thursday's operations was lacking in Big Spring, the Plymouth Oil Company's No. 2 Kloh, Rumsey, and Abrams, an offset to the Howard County Oil Corporation's producer in the Henshaw extension area, was reported to have topped the pay and to have filled 600 feet with oil shortly afterwards.

The last total depth reported by drillers to the company's office in Big Spring was 2,225 feet, but it was believed drilling had continued below that depth before it was encountered in commercial quantities. The lime evidently was fairly porous.

The first showing of oil in the Plymouth No. 2 Kloh, Rumsey and Abrams was around 2,206 feet.

No. 2 Kloh is 990 feet south and 1,650 feet west of the northwest corner of section 5, block 32, township 2 south, T & P. Ry. Co. survey.

Mitchell has been at freedom on \$2,500 bond, since last Saturday, while advices received here were that Stanley did not furnish bond.

Frank R. King, local laundry proprietor, and part owner of the Big Spring Aviation Company, who left here for Tucson with Mitchell early last week, said arranged bond for the pilot, has remained in that city to attend the hearing.

The formal charge against Mitchell and Stanley is that they transported an airplane across the international boundary, to be used as a weapon of war.

The United States attorney was quoted as saying the hearing probably would be postponed but would be held not later than May 6, next Monday, when the spring term of Federal court will convene in Tucson.

King, employer of Mitchell, tended in a statement last week to the Herald that Mitchell had attempted to cross the border with the Air King biplane which Mitchell flew from here to Tucson. The plane, King said, was flown there following receipt of a message from Stanley, formerly a mechanic at the local flying field, stating that he wished to purchase it. Stanley learned to fly in the ship. King went from here to Pecos in the plane with Mitchell and proceeded from there to Tucson by train. It is stated here.

SPEECHLESS BANQUETS

You can never tell by looking at a man just how much of a genius he may be. Edison doesn't look it. Byron was club-footed. Obregon had an arm missing. Milton was blind.

You take Spain, now. You wouldn't think Spain would start something that may abolish the art of after-dinner speaking. But she has. She has decreed the speechless banquet, on the theory that after-dinner speeches may be steeped in political intrigue.

Hurray, Spain! We didn't think you had it in you, and we are glad old George Dewey didn't sink the fleet. After-dinner speeches are a peculiar form of refined torture. Nothing but the force of habit keeps them in vogue.

Some of these days some genius is going to become the head of a luncheon club and institute a great reform, by forbidding speeches. Subsequent generations will rise up and call him blessed. He will be a greater benefactor to his race than Edison, Henry Ford and John D. Rockefeller combined.

TENDER-HEARTED SOLONS

No sooner had Governor Moody submitted taxation as a proper subject for legislation than the boys from the forks of the creek put their heads together and began to figure out ways and means of putting the comethier on the tax payers.

Among the methods suggested for getting the coin are these:

- A state income tax.
A four-cent gasoline tax.
A one-cent tax on each 1,000 cubic feet of gas.
A one dollar tax per ton on sulphur.

The state income tax would follow the federal statute as to exemptions and credits. There are a few lines of endeavor and kinds of property on which the legislators have not yet thought up a special tax, but we can't recall just what they are at this writing.

It takes money to run a state, but we sometimes wonder if it wouldn't be better for all concerned if the legislators put more thought into cutting down expenses than into cooking up new ways of raising the money. Anybody with half a brain cell working knows there are a good many useless and expensive bureaus, boards, commissions and sinecures down at Austin that could be amputated from the payroll without any deleterious effects on the body politics.

A GREAT GAME

From St. Andrews, Scotland, comes the information that the Royal and Ancient Golf Club, ruler of the British golf world, has handed down a decision that the size and weight of golf balls must remain unchanged.

A dozen years ago an item like that would not have interested more than a few hundred American citizens. Today, it appeals to tens of thousands as an item of surpassing importance.

Golf has practically taken this country by storm. Poor indeed is that town or hamlet which has no golf course while most small cities have from three to six.

It is a great game, good for the physical, mental and spiritual man. It also improves the vocabulary, and teaches the futility of impatience.

A young man who was born in 1899 and whose education was interrupted by service in the world war has just been made president of the University of Chicago, at the age of thirty. He is Dr. Robert Maynard Hutchins, formerly dean of the law school of Yale University. Pictures of Dr. Hutchins show him to look even younger than he is.

OPINIONS OF OTHERS

IS MITCHELL A DEMOCRAT?

Waco News-Tribune: Many of the political writers of daily newspapers as well as magazines constantly refer to Attorney General Wm. D. Mitchell as a democrat.

Is he a democrat? Is so, what brand of a democrat?

He voted for Charles Evans Hughes against Woodrow Wilson; he voted for Warren G. Harding against James M. Cox; he voted for Calvin Coolidge against John W. Davis; he voted for Herbert Hoover against Alfred E. Smith.

Woodrow Wilson was the war president of the United States; Woodrow Wilson gave to the people the federal reserve act; Woodrow Wilson gave to the world the League of Nations.

Now why should Wm. D. Mitchell be classed as a democrat or why should the political writers for daily newspapers and magazines, writers who are not democrats, be permitted to grade the attorney general as a simon pure democrat who deserted the Democratic party to vote for Herbert Hoover for president of the United States?

A very able and brilliant lawyer is Wm. D. Mitchell, but he is a Republican and should be classed as a Republican.

BARBS

Some of the new autobiographies remind us that Arthur Schmitzer once said "writing one's reminiscences is easy when one has a poor memory."

"QUAKE AGAIN HITS BOLOGNA," says a newspaper headline, but as your old friend Al Smith might say, "no matter how many quakes hit it, it's still Bologna."

Comment in the Atchison Globe to the effect that the man who talks a lot is usually untruthful must be wrong in one respect at least. We're thinking of the man who can work up an interesting monologue about most anything while the waiter is trying to give someone the check.

The Hoover disarmament proposal raised a lot of false hopes. Nothing was said in it about the coast guard.

Consolation is offered to Senator Heflin by Senator Gillett, as follows: "I am sure the man who threw the missile, and whose aim was so bad he missed the senator and hit a policeman, is sorry." Does Senator Gillett mean "sorry he hadn't practiced?"

WASHINGTON LETTER

By Rodney Dutcher

WASHINGTON - Before long, there will doubtless spring up a Husband's Defense Association composed of men whose wives loom considerably larger on the horizon of publicity than they do themselves.

The president of such a club might as well be Mr. Edward Everett Gann, but he can console himself with the fact that he is far from the first to become an item of public curiosity merely because of his wife's exploits.

Up in Jersey there is a man who is often called "Mr. Mary Norton," but not to his face. He is the husband of Congresswoman Norton. His real name is Robert Francis Norton and he is a Jersey City coal dealer. Mr. Norton has no desire to bask in reflected glory.

Talks To Parents

By Alice Judson Peale

When Marion's mother was informed that she again had been blessed with a daughter, she cried: "What, another girl! Throw her out of the window; I haven't any use for girls!"

Whereat, the story went on, her grandmother came to her rescue, saying that she liked all babies, and that she was perfectly willing to adopt this one. This tale was told Marion as the truth and she was expected to get a hearty laugh out of it.

During her growing years she understood from her mother that to be born a woman was to be born defeated. She was told again and again that she should have been a boy. And she did her best to be one.

She strode about in heavy shoes and wore hideous athletic sweaters. She took solitary 30 mile hikes during the week ends, played violent games, and in every possible way scorned the physical limitations of her sex.

When friends reproached her mother would say laughingly: "Oh, let her go. It will make a man of her!"

Although few parents are so open in their preference for boys, most of them, whether they admit it or not, feel a keen disappointment when a daughter is born because they have acquired a son.

The little girl-child is fully aware of this.

When parental disappointment is strong, she feels that merely not to have been born a boy constitutes failure and essential inferiority. Such an attitude forms the basis of profound maladjustment in later life.

The woman who cannot accept her womanhood with serenity is slated for a hard and losing struggle.

LITCHFIELD, Conn. - Farming Lucy Young, twins with alliterative names, are the wives of twins with rhyming names, Byrl and Earl. Now the twin wives are seeking divorces. They lay the troubles to life under the same roof with their husband's parents.

NEW YORK - Boys are to run the New York Stock Exchange tomorrow. James N. Gilchrist, 20, who has never been late for work and has distinguished himself in his studies, is to serve as president. Other boys will act in other executive capacities. It will be the exchange's annual observance of boys' day.

Rosenberg - Modern edifice for Church of Moravian Brethren practically completed.

Hollywood's Sights and Sounds

By Robbin Coons

HOLLYWOOD - "Bad words" of the movies are not necessarily profane nor obscene, not in these talkie days.

Simple, innocent, polite expressions frequently are the bane of dialog writers - words that record with hisses, lisp or stutters in the microphones. "See the sizzling sunset" is a fair example; it might come from the screen as "See the 'RIZLING thun-thet' un-less the speaker is mighty careful.

No part of every dialog writer's working equipment in the future may be a "book of microphone synonyms" such as Robert Hill, Universal director, is compiling.

In pre-filming conferences on the script of "Harmony Lane," his next picture, Hill has been taking notes on words that probably would offend the microphones. For each verbal outcast a synonym has had to be substituted, and Hill is noting them all for future reference. When he expands his notes through other story conferences, he expects to have a complete anti-hiss, anti-lisp, t-t-t-tterer reference work.

Wife of Holmes, Supreme Justice, Will Be Buried

WASHINGTON, May 2 (AP)—As-
sociate Justice Oliver Wendell
Holmes, oldest member of the
United States supreme court in age
and service, today mourned the
wife who had shared his life for 57
years.
Mrs. Holmes died Tuesday night.
Her health had been failing for
some time, and her death, follow-
ing a relapse, was not unexpected.
The daughter of Epes S. Dixwell
of Cambridge, Mass., she became
the daughter-in-law of the "auto-
crat of the breakfast table" in 1872.
For a number of years after com-
ing to Washington with her hus-
band in 1902, when he was elevat-
ed to the supreme bench, she was
active in social life of the capitol.

Another Record!

over
500,000
New Six Cylinder
CHEVROLETS
since Jan. 1st

Sweeping constantly ahead to greater and great-
er heights of popularity... making and breaking
new records of success with impressive regu-
larity... the new Chevrolet Six has established
one of the most remarkable records in automo-
tive history—more than 500,000 on the road
since January 1st!

Not only does this brilliant accomplishment
surpass the greatest record that Chevrolet has
ever achieved in the past—but it brings to Chev-
rolet the significant honor of having built in
only four months a greater number of six-cyl-
inder cars than any other manufacturer has
ever produced in an entire year!

Even with such a record to focus attention upon
the outstanding value of the Chevrolet Six—
many people still do not appreciate what "a Six
in the price range of the four" actually means!

To such persons, consideration of the features
responsible for this tremendous popularity will
prove a revelation. So read the adjoining column
carefully—and then come in and ask for a ride
in this sensational six-cylinder car.

All prices f. o. b. factory
Flt. Michigan

COMPARE the delivered price as well as the list price in
considering automobile values. Chevrolet's delivered prices
include only reasonable charges for delivery and financing.

Outstanding Features of the New Chevrolet Six that have created this Tremendous Popularity—

6-Cylinder Smoothness

Due to the finer inherent balance of its six-cylinder
motor—the new Chevrolet Six provides that smooth,
quiet, flexible performance which is characteristic of
the truly fine automobile. At every speed, the power is
delivered easily, freely and without annoying vibration.

6-Cylinder Getaway

In sheer brilliance of performance, as well as in smooth-
ness and quietness of operation, the new Chevrolet Six
is a revelation. Acceleration is remarkably fast. And a
new non-detonating cylinder head eliminates every
trace of "lugging."

6-Cylinder Speed

The new Chevrolet Six has speed in abundance—but
even more important than its speed is the smooth, quiet,
restful comfort you experience at every point on the
speedometer. You can open the throttle wide with a
feeling of complete security.

Better Than 20 Miles Per Gallon

The marvelous performance of the Chevrolet Six would
be exceptional in any car. But in the new Chevrolet Six
it is actually sensational—for here it is combined with
an economy of better than 20 miles to the gallon of
gasoline!

Exceptional Riding Comfort

Another vital factor that has influenced over a half-
million people in their selection of the new Chevrolet
Six is its marvelous riding comfort. It travels smoothly
over rough roads—and its balance on turns and corners
is exceptional.

Beautiful Fisher Bodies

Longer, lower and roomier—finished in attractive, long-
lasting colors—and upholstered in rich, deep-tufted
fabrics—the new Fisher bodies on the Chevrolet Six
introduce into the low-price field an entirely new
measure of style and distinction.

Proved Dependability

Tested for more than a million miles on the roads of
the General Motors Proving Ground—the new Chev-
rolet Six went into the hands of its owners thoroughly
proved in every detail. And now reports of its perfor-
mance on the highways of the nation pay glowing tribute
to its endurance and dependability.

Amazing Low Prices

An achievement that surpasses even the brilliant per-
formance qualities of this sensational six-cylinder car
are the prices at which it is offered. Study these prices,
and compare them with any other car and you will
recognize the remarkable value represented in this Six
in the price range of the four!

A SIX IN THE PRICE RANGE OF THE FOUR

2,000 FEET OF CRUDE IN HOLE AT 2398 FEET, TO TEST SHOW IN FEW DAYS

One Of Most Important Discoveries In West Texas Oil Country This Year Attracts Field Men To Rig During Week-End

Probably the most important oil discovery in this territory since opening the Roberts and Settles pools was apparent Monday when the World Oil Company's No. 1 McDowell was standing with 2,000 feet of oil in the hole from a total depth of 2,398 feet, where a second producing stratum had been penetrated.

No test of the well is to be made until Fred Postelle, general production superintendent arrives, H. E. Granville, vice-president of the World Oil Company said Monday. Tools had not been run in No. 1 McDowell since 11 o'clock Sunday night when measurement of the crude oil column was made. It is possible that more oil may be found when operations are resumed Tuesday morning.

See New Pool.

Either a swabbing test will be made Tuesday or Wednesday or the well completed as it stands and pumping equipment installed. That decision will be left in the hands of Mr. Postelle, it was said. However, there is no doubt among company officials or other oil men that a new pool fully seven miles from nearest production has been opened.

Storage tanks are now moving from the World's warehouse in Pecos to the Glascock county well and will be installed sometime either late tonight or early Tuesday.

First oil in No. 1 McDowell was encountered early Saturday morning at 2349 feet and the upper pay was drilled to a total depth of 2,380 feet. A break appeared below the first pay and the second pay was encountered at 2,385 feet. In drilling to 2,394 feet fluid standing in the hole increased to 1,100 feet. After standing three hours another test was made and 1,400 feet of oil was found standing in the hole. At that rate, it would indicate the fluid rose at an average rate of 100 feet per hour. Later tools were again run in the hole and the well deepened four feet to its present total depth of 2,398 feet. While making the four feet of hole oil rose to 1,540 feet and after standing a few hours oil measured 2,000 feet. The well is 1,650 feet south and 2,310 feet west of the northeast corner of section 2, block 34, township 2 south, T&P survey.

The importance of the second pay is practically doubled by the fact that it is a greenish color, and higher gravity than the darker, heavier fluid from the upper stratum. No gravity test has been made of the second pay fluid due to the fact that it is mixed with the heavy oil in the hole, but some have ventured the opinion that it will probably reach 30 gravity.

Trading brisk. Trading had been fairly brisk about the test well since spudding doubled and redoubled when the second pay was encountered. It is reported. Nearly every major oil company represented in West Texas has acreage in the vicinity, but acreage on the outer edge of the play is the basis of considerable leasing.

The World Oil Company owns 150 acres under the well and has 640 acres scattered over the structure. Among the companies holding choice acreage in the area are: Murray Oil Company of Abilene, Houston Oil Company, Westide Investment Company, Sterling Oil

Insect killers of all kinds. Cunningham and Phillips. (Adv.)

Badly Run-Down

Six years ago, I was very much run-down," says Mrs. Olympe Knight of Lovett, Ga. "I did not sleep well, and was weak and restless. I dragged around the house with not enough strength to do my daily tasks. I worried a lot, and this disturbed state of mind reacted on my health. I had often read of Cardui, so I thought I would try it. I soon began to improve after I had taken Cardui for a while. "It was astonishing how much I picked up. I slept better, my appetite improved, and that awful dragging-down feeling left me. I was so much better that I continued taking Cardui until I felt perfectly well." Cardui has been used by women for over 50 years. For sale by all druggists.

CARDUI Helps Women To Health

Take Theiford's Black-Draught for Constipation, Indigestion and Headaches.

C OF C MEET ATTRACTS MANY

With several hundred citizens from every walk of life in attendance the quarterly open meeting of the Chamber of Commerce of Big Spring held Tuesday evening in high school auditorium proved to be a profitable occasion for the community.

Following an informal reception a program of musical entertainment and speaking was held with Walter D. Clime, Wichita Falls oil man and prominent as a speaker on community progress and welfare, filling the leading role among the orators.

Other speakers were W. F. Strang, Judge J. T. Brooks, E. Reagan, and W. C. Blankenship. Rev. Dow S. Heard of the First Baptist church was chairman of the evening.

Eight pretty girls of the high school junior class, attired as Spanish señoritas and seniors, sang, "The Gay Caballero," "Ramona," and "Chiquita." Mrs. Lee Weathers, always a favorite of local auditors, gave a humorous monologue, "Buying a Bed." The Jackson Sisters, violinists, with Mrs. Wade at the piano, played several popular tunes.

One of the evening's splendid features was a concert during the reception by an orchestra of 14 pieces under direction of Prof. Riggs, director of the high school band. This organization, only very recently formed, has shown remarkable progress and on two or three public occasions has been enthusiastically acclaimed a distinct asset to the city.

The shortest speech of the evening was by E. Reagan, pioneer civic worker and president of the West Texas National Bank. By what the audience took to be a pre-arranged plan Mr. Reagan arose and said, "I believe in Big Spring." Then the traffic signal light system got to working.

On the stage two electric lights had been mounted side by side. One flashed green, the other red. The former shone until Chairman Heard decided it was time for the speech to end. He flashed "red" before Mr. Reagan after that one significant sentence had been uttered. Then Eiland Ribble, florist, presented the speaker with a basket of flowers, token of the evening's speaking honors.

In the receiving line at the auditorium entrance were Misses Nell Hatch and Verberna Barnes and Mrs. J. D. Biles and Ed Hatch. Mrs. Shine Phillips, Mrs. C. T. Watson, Miss Clara Cowan and Mrs. A. M. Ripps presided over the punch bowl, assisted by high school girls, Misses Margaret Bettie, Lucile Haley, Mildred Patterson, Nellie Mae Sullivan, Melba Caudle, Lucile Rix.

"We Big Spring folks have become more interested in anticlines and synclines than in Walter Clime. But tonight we may change our minds," said W. T. (Tanak) Strange, architect, master jester and accomplished speaker at the outset of his talk, and first of the evening.

"I was told tonight to be a big gun and make a report. After this blank explosion I'll be fired. But if its a good report it'll be strange," he continued.

Then Strange launched a brief review of the past three months' accomplishments of the chamber of commerce. Agriculture has received considerable attention, he showed, listing \$150 for subscriptions to poultry magazines awarded prize winners in the winter poultry show here, a trip to the Panhandle-South Plains Dairy Show at Pishaview for 20 farmers, distribution of Jersey cows to Howard county farmers and registered calves to 4-H boys.

The industrial committee has been in communication with 23 oil refining companies and oil companies, several of them having shown some indication of considering the location of plants here, said Strange. A \$60,000 airport corporation finances locally has been formed, and a contract closed with Texas Air Transport, Inc., whereby the city is made division point for the Dallas-El Paso and Amarillo-San Antonio lines, he pointed out. Contracts have just been let, he reminded the audience, for construction of modern hangars, administration building, shops and other necessary equipment which will include complete facilities for night flying. These projects, when completed will form an "ALA" airport, so rated by the United States department of commerce.

Beatification of the city has been fostered successfully, Strange continued. Publicity, whereby the entire state has been kept in touch with development here has been carried on intensively, he declared. During the past three months 722 new stories under Big Spring date lines

Negro Attacker of Girl Admits Guilt as He Starts Death March

HUNTSVILLE, Texas, April 29.—The fear of going to his maker with a life on his soul drove Matthews Sanders, Brazos county negro, in a complete confession of his attack on a white woman near Bryan shortly before he went to the electric chair in state prison here Saturday.

During the early hours of the evening as the clock ominously ticked off his last moments on earth, Sanders called prison officials to his death cell and told them he was innocent. "I'm not guilty, captain," he cried. "I wasn't even near there. I was six miles away when that happened."

He clung to his story until a prison chaplain came to his cell. He stayed with the negro a few minutes, quoting scripture to him, and a few minutes later Sanders jumped to his feet and began pacing the cell.

Finally he stopped and leaned against the wall. Suddenly he said: "Men, I'm going to tell you the truth. I'm guilty. I committed the crime, and I am ready to pay for it."

Sanders was brought out of his cell and went down the row and told all the condemned men goodbye.

Then he turned about, with con-

CUBS CAUSE TROUBLE REVENUE AND UTILITIES SUBMITTED BY MOODY SUGGESTS COMM.

Seem to Have Same Complex as In Past Season

BY WILLIAM J. CHIPMAN. Associated Press Sports Writer

The Cubs are on a great adventure—a quest through the east in an effort to prove they can win a ball game away from home. The Bruins of 1928 lost the pennant for two reasons: Their failure when away from Wrigley Field and their inability to win from the Phillies late in the season, at home or abroad. In opening their eastern invasion at Baker Bowl today, the men of McCarthy have an opportunity to pile up revenge.

The last few days of the Cubs in intra-sectional warfare in the west were anything but pleasant for McCarthy. After taking two beatings in three days in Cincinnati, his charges closed their stay there yesterday by fiddling through thirteen innings of baseball in a game eventually called with the score tied at 4 to 4 to permit the Cubs to start their trek eastward on schedule. The defense perked up, but the hitting was not there.

The Cardinals and the Pirates also engaged in a 4 to 4 tie game over the thirteen-inning route as rain swept out all National League competition in the east. Wee Willie Sherdel went the distance against Carmen Hill, Steve Swanton and Irvin Brame. The Cardinal southpaw permitted the Pirates to tie the score with a two-run rally in the ninth, and there the teams remained until darkness fell over Sportsman's Park.

The Athletics featured an abbreviated campaign in the American League by stamping the Boston Red Sox by 24 to 6 at Fenway Park in a game which netted the A's twenty-nine hits, good for forty-four bases. The Mackmen seem to be clutching earnestly indeed for the batting mantle shed by the Yankees. It was not a record, but was so close to one that fanatics were sent scurrying into the books.

While all of this commotion was churning up the fenway, the Browns were quietly opening their invasion of Cleveland by shading the Indians, 4 to 3, behind the smart pitching of Alvin Crowder. That one counts for just as much in the standing of the clubs as the athletic orgy at Boston, and serves to keep the Browns in front by a margin of one and one-half games.

AUSTIN, April 29 (AP)—Governor Dan Moody today submitted five nominees for confirmation by the Senate.

They included W. M. Odell, of Fort Worth, acting chairman of the prison commission; to succeed El Howard as a member of the board of regents of the University of Texas; Dr. Edward Randall of Galveston, former faculty member of the University of Texas College of Medicine at Galveston, to succeed R. G. Storey on the University board of regents.

Robert Grim of Hicks was appointed a member of the state mining board. Roy L. Biggs of Pecos was named district attorney of the 100th Judicial District and Oliver C. Aldrich of San Juan, was chosen district attorney of the 79th District.

AUSTIN, April 29 (AP)—With the submission today by Governor Moody of taxation, proponents of

More Calves To Be Distributed

A second drawing for Jersey calves imported to Howard county for 4-H Club work will be held next Saturday afternoon at 3 o'clock, at Dr. Wolf's animal hospital, advised J. V. Bush, county agent.

Mr. Bush said that seven calves were left out of the original shipment of 23 and that they will be disposed of in another drawing held Saturday.

"Several people from Mitchell county and Slaton were here last Saturday anxious to get the stock, but we wanted to keep the best blood in Howard county and so we held them." We bought the calves for Howard county boys and feel sure that there are others here who will want the remaining seven. That is the reason for making the second drawing," said Mr. Bush.

Those interested in getting calves may notify either Mr. Bush (in the county courthouse) or C. T. Watson, manager of the chamber of commerce. Boys expressing their desires to either of the two men will get first consideration in case more than seven boys want to buy the stock.

Fashion Hint

AGNES applies beige tweed secked with red on a bright felt hat in an interesting way. A red leather and tweed belt around the crown buckles in front.

Fishing Season Opens Wednesday

West Texas addicts of the rod and reel swing back into action this week, for the lid is off on the two game fish, Mr. Bass and Mr. Crappie, Tuesday at midnight.

That is, the angling season, closed the past couple of months, is open Wednesday, May 1, the same day the West Texas League begins firing.

Sportmen who keep jab on such report that the Tom Green County sector abounds with bass and crappie this year and a great season is looked forward to. The season is open till next March.

Fish and game officials ask that attention again be called to the rules of the game, especially in Tom Green County. By state law, any crappie under seven inches caught must be thrown back immediately and any bass under 11 inches must be returned to the water. The bag limit for one day is 25 of any kind of fish, whether bass, crappie, perch or catfish separately or combined, interprets Charley Gray, local ninted and authority on such matters.

The fish are to be caught with only hook and line. Traps and seines are barred. Simultaneously with the opening of the bass and crappie season, the gates are ajar on squirrel. Marksmen are allowed to peck away at the famous red fox squirrel through May, June and July, then the lid is on again.

Lamesa Couple Married Here

Miss Irma Skippier of Big Spring and F. A. Stanley of Lamesa were married Sunday morning in the parsonage of the First Methodist church with Rev. W. G. Bailey officiating. A group of the friends of the young couple attended the wedding.

Mr. and Mrs. Stanley plan to make their home in Lamesa.

15 Years Without Church Ceremony Pastor's Record

Rev. W. G. Bailey, pastor of the Methodist church here, waits a nice frilly church wedding ceremony to perform. In his 15 years in the ministry he has yet his first church wedding to execute. He claims that as a distinction which no other minister in the state can equal.

Being asked to perform a wedding at 7 a. m. and also being invited to participate in the wedding breakfast isn't so much of a novelty to the Reverend Bailey as a nice, be-ruffled, be-tapered and be-ribboned church wedding would be.

A free tube of Dr. West's tooth-paste with each tooth brush. Cunningham and Phillips. (Adv.)

Right or Wrong?

Mother Convicted for Publishing Sex Information

MRS. MARY WARE DENNETT

BROOKLYN, N. Y., May 1.—"An Alice-in-Wonderland dream—too incredible to be true," nearly said a middle-aged woman, convicted in federal court of sending an "obscene" book through the mails.

The book is "The Sex Side of Life." It is said to be recommended and used by the Y. M. C. A. and Y. W. C. A., the Federated Council of Churches, and Columbia university. It first was issued in pamphlet form on request of the Medical Review of Reviews magazine.

The woman is Mrs. Mary Ware Dennett. She wrote the material originally, 14 years ago, for her two sons, when she thought it was time for them to learn "honest and complete facts about sex."

What Each Side Says

Termed a "polluter of morals" by Assistant United States Attorney James E. Wilkinson, Mrs. Dennett is defended by her attorney, Morris L. Ernst as saving young folks from getting their information "from whatever improper sources they can."

Federal Judge Warren E. Burrows barred the testimony of educators, welfare workers, physicians and clergymen as having no bearing on whether the material in the pamphlet was obscene or not.

"I am not ashamed," says Mrs. Dennett, a grandmother, in a hot voice. "But the verdict is hard."

Hundreds have offered in messages and by word of mouth to aid Mrs. Dennett in carrying her case to the U. S. supreme court, if necessary.

Wallace Matched With Ray Miller In Detroit Ring

DETROIT, May 2 (AP)—Billy Wallace, Cleveland lightweight, will be the next foe tossed into the ring with Ray Miller, savage left hooker from Chicago.

Wallace today was matched to meet Miller, challenger for the world's light weight title, in another title elimination contest, as a result of the verdict which gave Miller a decidedly unpopular decision over Billy Petrolle, Fargo Express, in their ten round battle here last night.

The Wallace-Miller bout will be staged in Navin Field, June 6. It will be the first outdoor show of major importance of the season. The winner has been assured a match with Sammy Mandell, lightweight titleholder.
