Deadline for registration this year is Friday, Jan. 31. The 4,000 figure is somewhat short of the 1968 total of 8,623 for Lamb County.

Some of this difference is expected to be made up by people signing up as the month goes on. However, registration is normally expected to be light in an off-election year.

Persons not already registered are urged by Dunn to complete voter registration forms and turn them in to the Tax Assessor-Collector, or to any of the substations in the

READY FOR THE BIG SHOW-Bruce and Mark Nicholson of Amherst are all

ready with their entries in the Lamb County Junior Livestock Show which opens

here Friday. Bruce, of the Amherst FFA, will show the two Angus steers, Homer

and Jethro and Mark, Amherst 4-H Club, will show his Hereford steer Big John.

Annual Chamber Banquer

The boys are sons of E. L. Nicholson, a county show board director.

Tickets to the event are priced at \$3 per person. They may be obtained from any one of the above mentioned committeemen or from the Chamber office on the second floor of City Hall.

Deadline for all members selling tickets to have the unsold tickets back to the Chamber office is Jan. 27.

"We have a real good group here and I expect them to set fire to this ticket sale," Cutshall said as he set his sights on the all-time record for banquet attendance.

Complimentary tickets were mailed out Monday to a large number of Chamber officers, city and government officials, news media personnel and others throughout the Plains area, Jim Kelly, Chamber

manager, stated. "We had approximately 350 persons at last year's banquet and I fully expect we will exceed that figure this year," Kelly added.

Springlake Boy Dies In Fire

A tragic barn fire took the life of a four-year-old Springlake boy Sunday.

According to information received by the Leader-News, Alonzo Monreal, son of Mr. and Mrs. Salomon Monreal, was playing together with his brother in a barn on the Veo Busby farm near Springlake

when the accident happened. The older brother, Salomon Jr., five, reportedly managed to escape through a window of the barn and alert his parents to the fire. They were too late, however, and were unable to bring him to safety.

A complete obituary can be found inside.

HARPOONED AGAIN!!-Kip Cutshall, ticket chairman for the annual Littlefield Chamber of Commerce banquet, receives the newly printed tickets that he is expected to sell to the last one. Jim Kelly, Chamber manager, left, and Charles Duval, banquet general chairman, make the presentation. The banquet is scheduled for Jan. 30 in the LHS cafeteria.

Dear Farmer's Wife,

Didn't you go too far when you used the term 'subversive' in reference to the governor's committee on public school education report?

Afraid For You Dear AFY,

My dictionary gives subversive as the adjective form of subvert, which is 1, to overturn, overthrow, ruin utterly 2, to undermine the morals, allegiance, or faith of; corrupt.

If all suggestions of said report are carried out, that is exactly what would finish happening to our whole school system, as well as to thousands of small communities and their influence. I meant subversive.

DEAR FARMER'S WIFE. Can't you think of anything

good in that report? Wondering About You Dear WAY.

Yes. There were lots of good suggestions in that report. It's just that we would be giving up far more than we would gain. Remember the old fable about the Arab and his camel. The camel ended up with the whole tent and guess who was left out in the cold, which is what will happen to us if we give up local control of our

Without knowing who you are, I can tell that you are either 1. unacquainted with the report. 2. not a taxpayer or 3, due for one of those innumerable raises and benefits or newly created positions (educated word for job).

DEAR FARMER'S WIFE. Don't you know that many mothers are anxious to get their kids out from under their feet and want four year olds to start to school?

It's okay to be against that report, but why so strongly? Cool Cucumber

DEAR COOL CUKIE,

There's more to it than meets the eye. For instance, if a child lives more than I mile from his assigned school and his father makes \$3,000 per annum or less, that child can ride the school bus. Beginning to get the picture? And what about the kid next door whose dad makes \$3,001?

DEAR FARMER'S WIFE,

I'm with you. Can you suggest a slogan for us?

Down With Centralization DEAR DWC.

Tell me not that in mournful numbers lies the only way to a good education.

DEAR FARMER'S WIFE.

You're prejudiced. **Open Minded Progressive**

You bet your sweet life I am! I still think the best place to raise a child is in his own community, the best place to educate him is in his own community.

And I just hope when you go

up to that 2600 pupiled progressive school to see why your little Johnny is failing, the superintendent will greet you with

"who's Johnny Progressive?"
And just think, there'll be no local school board to yell at about

We Can Believe

TOO MANY PEOPLE are saying that we can no longer believe-that we have nothing in which to believe.

These people talk about indifference, about lethargy and about the neglect which are so much in evidence all about us.

THERE IS TOO MUCH of the spirit of defeatism. There is too much talk about the crumbling of our internal elements of a once strong social structure.

We seem to be unmindful of the fact that we can think and talk ourselves into the throes of despondency. We must stop this.

We do see some evidence that the collective sense of responsibility is weak, but can you give any good reason why it should be so? I can't. Why not reverse the trend? Of course, it can be done. Just do it.

LET US BEGIN TO TALK SUCCESS, talk progress, encourage each other, build up one another; because this is the spirit we need.

The spirit of a community is the spirit of the people who live in the community.

WHY CONTINUE TO SIT AROUND waiting for someone to do for us that which we can do for ourselves? We can spread good cheer, we can support optimism and we can generate community strength.

We can do all of these things if we will just be careful with our words and our deeds. A good spirit, like a bad spirit, is contagious.

Let us make it good, and watch everybody become a winner.

IT IS BEING SAID by some observers that we live in an "age of ease". Of course, there is luxury, pleasure and comfort. These may seem to be dominant goals in the lives of many.

This is not new. It is frightening, but not new.

History does reveal repeated instances of the loss and tragedy that such human dereliction can precipitate, and we should be warned.

These elements do cause personal and collective loss; however, we must remember that these elements have no life in themselves and they are not overwhelming. We have not reached the point of no return.

MOST OF OUR TROUBLES are caused by a weak and run-down faith. We are not a people fresh out of worthy things in which to believe, but too many of us act as if we were.

We have let too many of the wrong things become important to us; we have let the weak replace the strong. Now, we are waiting for someone to do for us much that we can be doing for ourselves. Let us get busy.

ALL OF THE GOOD THINGS that people have ever had to believe in are still realities. Let us accept the fact that we can still be strong, energetic and productive citizens.

This is possible for us to the extent that we never stop believing in right things. Why should this ever cease?

WEAK FAITH PRODUCES weak, luxury-loving, pleasure-seeking, cowardly, defeated people.

Communities made up of such people eventually collapse, and become the sad-commentary of what was once worthwhile and could be again.

WE CAN BELIEVE in the dignity of honorable work, the desirability of the good life, the intrinsic worth of the individual, your neighbor and my neighbor.

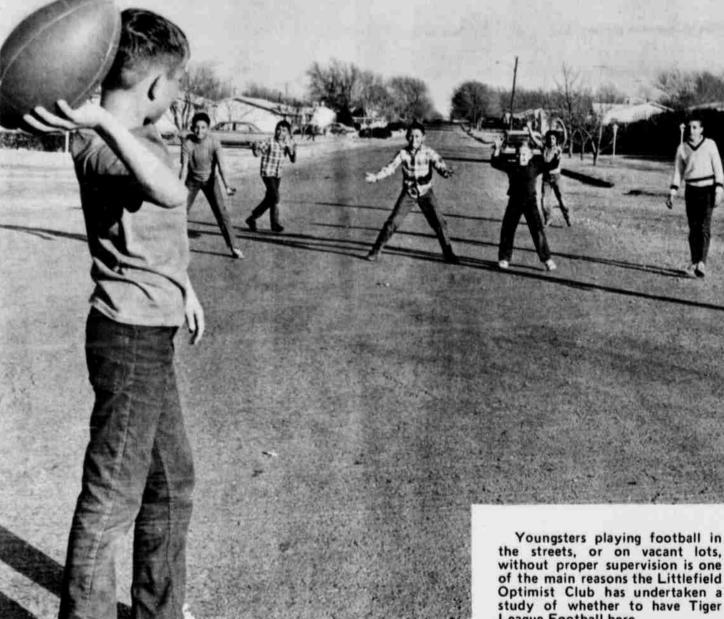

We can believe in the dignity of man, and the potential value of the self.

WE CAN BELIEVE IN GOD. the strength and working value of Christian principles and the value of the soul, the soul of a man and the soul of a community.

WE CAN BELIEVE in the triumph of right over wrong, and all other related concepts and principles. More than this, we can help give living reality to all of these life elements of our community life.

THIS IS OUR WAY to strength, to living confidence, to the high road that we wish to travel and were created to travel. All we are and have are valuable because of what we believe.

Legislative Session Opens Next Tuesday

BY VERN SANFORD Our Austin Correspondent

AUSTIN-Another legislative session is just around the corner.

Lawmakers are due back in town Tuesday (Jan. 14) for their 61st biennial meeting, and most observers predict it will be a lively session.

Senators and representatives soon will be bickering mightily over the following, and probably hundreds of other less spectacular matters:

Spending and taxation. Nearly everybody is convinced there will be a big tax bill. But one of those who isn't it none other than Gov.-elect Preston Smith. He is hopeful that he won't have to be concerned with a tax program this year. However, there are demands for appropriations increases and school teachers want a \$200 million pay raise.

Recommendations of the Governor's Committee on Public School Education, particularly those of consolidation and tax burden equalization.

Liquor-by-the-drink legislation. What again? This time, apparently, proponents will try the constitutional amendment (let-everybody-vote-on-it) route. Minimum wage legislation.

Constitutional revision.

Increasing workmen's compensation from \$35 to \$49 a week maximum and broadening coverage to public employees.

Air and water pollution control measures.

Implementing the statewide water

Raising the public welfare spending

Incoming governorshas indicated he will attach personal priority tags to these major program areas; education (with emphasis on vocational and technical training), law enforcement, finance, pollution measures and water

Legislative Budget Board has recommended \$1.1 billion in general revenue spending for 1970-71-about \$77 million more than the bare bones minimum level estimated by Gov. John Connally.

LBB calculated its own modest version of appropriations needs would leave \$60.7 million in unearmarked general revenue, but that takes into account no new major programs such as implementation of the governor's public school study or teacher pay boosts.

Board decided to order a stop to salary supplements for major college officials from private funds and to recommend the state pay whatever is needed to get top men. This would cost about \$308,500 a year.

Under LBB proposals the governor would get a pay raise, too, from \$40,000 to \$55,000 a year. That would keep him ahead of lesser appointed officials, some of whom actually have been paid more than the chief executive considering their incomes from private sources.

Budget proposal also includes \$8.2 million in state office building (to cut down on \$1.5 million annual rentals paid by the state to house agencies in Austin) and an \$850,000 state records storage center.

League Football here. One meeting has already been

held for the public, to get opinions on the program's need here, and another is in the plans for the very near future.

No decision has yet been reached by the civic organization on the sponsorship of the football program. But it is expected by

Mystery In Mirror

THE MOON is just a moon, but a man is a man!

Intrigued by eons of lunar light, men imagined that on the moon's backside we would surely one day find heaven- at least.

So we went back there, found the backside is like the front side, gray plaster of Paris, pockmarked and pimpled, "like dirty beach sand with a lot of footprints in

THE MAGNIFICENCE and magic qualities which generations had attributed to the moon, earthmen might have found, instead, in themselves.

Yet today man sits surrounded by the trophies he has won, the frontiers he has conquered, the mountain of textbooks he has written and rewritten-and remains yet utterly confounded by what he sees in the mirror. We now know much about the

mysterious forces about us, but little about the mysterious forces within us. IT IS WITHIN HIMSELF that

man must next turn on the light. This inner space is the neglected frontier. Brilliant and courageous though

our performance may be 200,000 miles from home, back home we are a failure. The divorce rate is now almost

50%. Crime is increasing nine times faster than our population. The enlightened generation with everything to live for hastens its own death with alcohol, drugs and assorted excesses.

CHEMISTRY AND BIOLOGY are not enough. You cannot bombard a generation with the idea that men are animals without getting animal behavior.

Man is infinitely more wonderful than he knows. A computer would fill the Empire State Building and yet be unable to duplicate the function of a single lobe of a human brain.

MAN HAS BEEN FALLING to his knees in wonder before the Milky Way. There is more wonder in the orb of salt and water and albumen called the "human eye" than in anything it looks upon.

The late Dr. J. Wallace Hamilton said, "The next great field of research will have to be in the realm of personality, the study of human nature. Man has

explored almost everything it universe-except the explorer."

SO HE SITS there among I trophies and his books miseral and unhappy. Man is mud-but with

grandeur written into him white will never let him rest until becomes that for which he w created. The mirror has frightened ma In it he sees himself wearing bol

I do not know what science may find when it dares to look behind the mirror. Will Durant seeking to trace why the optimism of the 19th century had given way to the pessimism of the 20th, said "The great question of our time not communism versu America nor East versus West; it is whether man can bear to live without God.'

Woodworking Teaches Students Skills And Insights Of Trade

STEVE DINGES learns by experience as he sands on a bowl which began as a project for wood shop. Like Steve's bowl, many other projects of the students in woodshop show master workmanship and outstanding quality.

BY JUNNIE GRAY

Woodshop is one of the electives the students of LHS have the privilege of taking. It is taught by Mr. Byron Ford. He has a total of 36 students in his three classes of woodshop.

Woodshop is designed for the purpose of teaching the students a skill in woodworking as well as giving them an insight on the wood industry such as furniture and house building. Woodworkers known as finishers are hired in order to add the final touches to the insides and also the outsides of houses. Such work as building stair cases, paneling and fancy partitions call for the help of an interior worker. Woodworkers are employed by factories, metal working industries. The automobile industry also hires woodworkers.

In ancient Egypt the royal axman held a very high position because he was in charge of all the builders. It is said that the king would pay ordinary workers in barley while the woodworkers were paid in silver.

As man began to improve the tools which he used their work became much more

beautiful. The churches of Europe had much of their interior made of wood, so the woodworker had a chance to prove how good a craftsman he was by designing things by using this wood.

The value of wood is shown by the fact that thousands of years ago men built furniture and carved interiors of buildings so magnificently that this type of work is still used

In the woodshop classes of LHS the students study basic hand tool procedures. Mr. Ford teaches the students the usage and safety of the tools. Later, they are taught the procedure and safety of power tools. All of the students have a

project in which they work on. They take their pick of the many projects of from which they may choose. Some of Mr. Ford's pupils are making footstools, coffee tables, endtables, bedside tables, bowls, lamps, and salt and pepper mills. Woodshop is not a course which tends to raise money. If there is any money made on projects, the boy selling the project receives all the profit.

ATHLETICS IN ACTION

During the Christmas holidays while most of us were lying around taking it easy, the Wildcat basketball team was busy taking third place at the Post tournament. The 'Cats downed Tahoka 59-49 to take Friday night the 'Cats lost

to Muleshoe in a real squeaker 55-54. Leading scorers for the Wildcats were Max Hutchins with 15, Gary Nace, 12, and Charlie Holt, 10. The B-team also lost to the

Mules. Leading scorers for Littlefield were L. D. Holt with 11; Kim Hill, 10; and Albert Sanchez, 8.

The Wildcats traveled to Muleshoe Tuesday for a rematch with the Mules. Friday they journey to Morton to take on the Indians, and Tuesday the Wildcats open district play here against the Dunbar Panthers.

During the Christmas holidays it was announced that five Wildcats made the District 3-AAA Honorable-Mention football team. This was indeed an honor, as eleven teams made up the district.

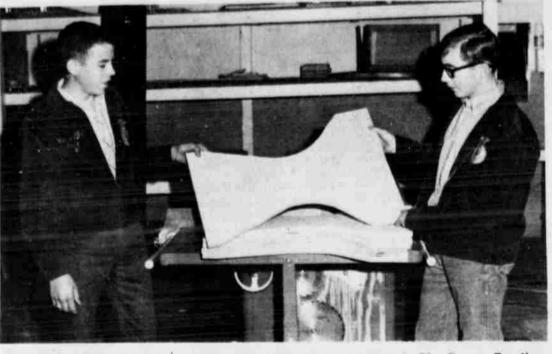

Four Wildcats made the Honorable-Mention offensive team, and one made the Honorable-Mention defensive team. Those players making it on offense were backs Kenneth Twitty and Travis Danford, quarterback Roy Burk, and tackle Jerry Fudge. Guard Wendell Ashley made the defensive team. All are seniors. These boys should be congratulated for their efforts and this honor.

All of these seemingly minor faults, a few of them possessed by everyone of us, are at the heart of America's problems today. We have been told these facts innumerable times before-we will repeatedly hear them again. They are the truth, and the truth can never die.

The year 1968 is now a closed chapter in the book of our lives. However, we, the peoples of the world, are still entangled in the intricate sub-plots. Will the theme of this book prove to be one of gloom and despair or one of hope and courage? Will the characters eventually achieve success? Most important of all, will the book be worth reading?

Semester Test Will Be Given Next Week

It looks like another fully charged week ahead of everyone here at LHS with semester tests scheduled for next Wednesday and Thursday. The two test days will be split into seven periods with each period lasting one and a half hours. Since some students may finish their test before the period is over school policy permits these students to leave after the first hour. It is also a school rule that those students having no test at certain periods should not be on campus although the study hall will be open for those who desire to study prior to their

We would like everyone to get to know the secretary of the LHS principal's office, Mrs. Edna Mae Mangum. Her job consists of receptionist, "general flunkie," secretarial work, putting up of the mail, making deposits, and being a housemother for 350 youths. Mrs. Mangum stated, "I enjoy working in the office more than any job I've ever had. I enjoy youth and their activities, and there is never a dull moment in the office."

Mrs. Mangum worked at Rowe Abstract prior to coming to work here at LHS. "I changed because I feel that to deal with people is more rewarding," stated Mrs. Mangum.
