

### The War Today— Joseph Stalin Plans Some New Course Of Action

By DEWITT MacKENZIE  
Herald Special News Service

Joseph Stalin's surprising emergence from the privacy of the office where he has quietly but firmly pulled the strings of government, to assume the premiership of Russia, is far from self-explanatory, but it strikes me there is one assumption we can make safely—that he foresees some imminent crisis and has put himself in the slot to deal with it.

When we go further, however, and try to put a finger on the exact crisis he has in view we should move cautiously, for the mind of the Muscovite sphinx is a closed book excepting as he resorts to action. Still, there are several logical possibilities.

Among these I should put well to the fore the growing tension between the axis and the United States. Stalin sees Washington's stiffened attitude, as evidence by such developments as Secretary of War Stimson's plan for use of our navy to guarantee the success of the aid-to-Britain program. The communist leader notes the Nazi announcement that it is preparing to increase munitions production on the assumption that there is a possibility America may enter the war.

Maybe he too believes that the United States may get into the con-

flict. I don't know that. He wouldn't be the chief of all the Russias, however, if he didn't have the foresight to prepare for such a contingency. That event would completely alter the complexion of the war, and would be bound to have a profound effect on the Soviet Union.

There is another matter which is of vast concern to Stalin. That is Germany's thrust into what Russia considers her preserves in the lower Balkans and on the Danube, and the indications that Hitler may strike into the Near East, thereby further menacing Soviet interests.

Then there have been signs that Hitler is again looking with speculative eyes on Russia's Ukraine. Possessions of that productive state would give the Nazi vital supplies which they lack. Hitler's first move in that direction would mean war with the bolsheviks.

And there is still another possibility. Hitler is reported to be applying the heat to Japan to force her to make war on Britain and the United States in the Far East, to create a diversion for the benefit of the European conflict. Stalin can't overlook that situation which is full of dynamite for him.

Is the bolshevik chief thinking of sending his great army into action? It would be rash to take that for granted, as I see the position. It is fair to assume, however, that he envisages that possibility and is getting set to meet the crisis if and when it develops. I believe Stalin's taking over of his new office was to place accent on his leadership—to bring him into active command in the field so to speak. Such a move isn't strange, for he can see that the world war is on the verge of momentous developments. Russia might easily be drawn into the melee, and in any event he wants to be prepared to take advantage of any opening which will benefit Russia and the communist world revolution.

Although tobacco is America's oldest industry, the wholesale tobacco trade reached an all-time high in 1929, 28.6 per cent above 1928, according to the census.

**IN VENEZUELA**—Gen. Inas Medias Angarita, who has been minister of war and navy of Venezuela, was elected president of that country by the congress for a five-year term. He will take office soon, has visited the United States.

### Texas Towns May Receive Arms Plants

WASHINGTON, May 8. (AP) — Brig. Gen. H. K. Rutherford of the munitions board said a number of Texas towns were under consideration as sites for a munitions plant or plants.

He said it would be decidedly premature to presume that Eastland or Marshall or any other town was in a particularly favorable position to be selected.

Other sources said the Marshall chamber of commerce had recently submitted a strong case to the board on behalf of Marshall. Several months ago a group of West Texans filed application for locating a plant in the Cisco-Eastland area.

Used car dealers—6,980 reported in the last census—sold \$193,790,000 worth of second-hand automobiles in 1929.

### Temporary Trestles Wrecked By Flood On Red River

DENISON, May 8. (AP) — Both temporary trestles across the Red

river at Denison dam site lost Tuesday as the stream climbed above 18 feet, the highest since 1935. The upper bridge was lost completely and a 600-foot slice was swept from the other.

The trestles were owned by Guy F. Atkinson company, contractor

for the eastern embankment and spillway excavation at the \$24,000,000 dam project.

The company said the loss was heavy but that reconstruction would start as soon as possible. The project otherwise was not damaged by the rise, caused by

excessive rains the past two weeks. The rise is expected to reach its peak today.

Defendant Guesses Sentence

ST. JOSEPH, Mo.—Phillip B. Hunt, 31, has been in difficulties with police so frequently that he

knows just about what to expect when he goes to court. "I'll take five years for this rap," he said when he came before Judge Maurice Hoffman on a robbery charge. The judge agreed that was a suitable sentence and the case was closed.

### Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 million of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent or erratic passages with stinging and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging headaches, rheumatic pains, leg pains, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

### Dive Fatal to Eagle

AVONDALE, Colo.—Fred Klina, rancher, was driving at a 90-mile-per-hour clip when a 7-foot American Eagle swooped at his car and crashed through the windshield.

### Virginia Downfalls Defenses

RICHMOND, Va.—Gov. James H. Price has appointed eight regional defense councils to work with the state council in coordinating Virginia's efforts to cooperate with the national defense program.

### Motor Vehicle Sales Taxes Combined With Motor Vehicle and Drivers' Licenses Yielded All States \$1,232,000,000, or 30 per cent of gross state collections in 1940, according to the census. This was more than total tax collections of all the states 15 years ago.

No more buffalo nickels are being minted.

### Lions Buck For Buckner

Let 'er buck for Buckner! Like a pre-game pep rally, Lions club members Wednesday noon were making the walkin ring with cheers for their candidate for governor of Lions district 3-T—Pascal Buckner.

That was the program—just an old-fashioned pep rally for the former president of the local club and a current district deputy governor.

J. H. Green, chairman of the campaign steering committee, sounded the keynote for Buckner and B. J. McDaniel, Dan Conley and Boone Horn took it up from there.

Burke Sumners, president, voiced a strong appeal for membership support and gained pledges of convention attendance in Amarillo in June from 29. Horn, formerly of Lubbock, was confident that Buckner could be elected, but added that the club might expect strong competition from the Lubbock unit which is pushing for H. C. Ford.

Joe Ford, past district governor, capped off the rally with a shaking yell rehearsal on "Let 'er Buck for Buckner."

### Food Stamp

Continued from Page 1. pose of surpluses produced by farmers. The SMA seeks to distribute these surpluses to families who are in need of more food.

Formerly this was done through a system of warehouses, the government buying the farmers' surpluses and passing them out to needy. The stamp plan will put the government out of the food distribution and let this be done by regular channels of business.

Relief clients will be given blue stamps which they will trade for food of which there is a surplus. They will also be asked to buy orange stamps, which may be traded for any sort of human food.

Good cautioned the grocers to take blue stamps only for surplus foods, a list of which will be supplied each month. He told them that stamps must be taken only from the person to whom they are issued, or a member of his family.

Money or other items than food for human consumption must in no case be traded for stamps, and stamps may not be used for payment of old bills. Stamps must be detached from the book in the presence of the grocer, so that he will know they have not been traded around among the relief clients.

Full details of the plan are explained in a folder being distributed to all grocers, all relief clients, and to any other persons interested.

Lawrence Rollins, stamp program organizer, urged all grocers to return to him immediately the "Retailers Statement Form" which he should have received in the mail about a week ago. If this form was not received, the food merchant should get in touch with Rollins, whose office is in the county courtroom.

The retailer must fill out this form—three copies of it—and return it to the stamp office before he can be certified to receive stamps. If he is not certified, his stamps will not be cashed. In order that as many grocers as possible may take part in the program from the very beginning next Friday, it is being urged that these forms be filled in and returned.

### Woman's Society Of Assembly Of God Has Meeting At Church

Devotional from John 19 was given by the Rev. Homer M. Sheats for the Assembly of God Women's Missionary Council Tuesday when the group met at the church.

### Ford Workers To Vote On Agency For Bargaining

DETROIT, May 8 (AP)—The national labor relations board announced today that it would conduct an employe-election to determine the collective bargaining agency for Ford Motor Co. workers on May 21.

Approximately 80,000 workers of the Ford Lincoln and Rouge plants will vote in what will be the largest election of its kind ever held by the NLRB.

### Reserve Corps Wants Physicians

As questionnaires to registrants continued to be mailed out at the rate of 80 a day from the Howard county selective service headquarters, Bruce Frazier, chief clerk, Thursday relayed an appeal for licensed physicians and surgeons who are registrants to apply for commissions in the medical reserve corps.

Gen. J. Watt Page, state director for selective service, originally urged such physicians to take this step due to a "shortage of physicians and surgeons in the medical corps." He added that "such registrants can serve their country better as medical officers than as inductees for military training."

Names of two other local doctors has been added to the list of medical examiners, it was announced. They are Dr. G. T. Hall and Dr. C. E. Thomas.

The census bureau lists gout as the cause of three deaths in the U. S. in 1939.

### Will Rogers' Cousin, Ferry Pilot, Makes Stop In City

Enroute to the east coast with a combat craft destined for the British air forces, Penny Rogers, cousin of the renowned Will Rogers, stopped overnight in Big Spring, leaving here early Thursday morning.

Rogers, second captain of the transatlantic service ferrying American planes to Britain, has been in England serving with non-combatant units of that nation's flying force. He returned to the United States recently and since then has been connected with the ferrying program.

The census reports 2,284 antique shops in the U. S. with yearly sales totaling \$17,743,000.

### I Could Not Sleep; Was Tired, Run Down

Mr. Henry H. Pharris of 2716 West Sixth Street, a fireman at station No. 3, Amarillo, Texas, says "For years I had constipation and nervous indigestion. I could not rest, was tired and run down. I had terrible pains in my shoulders. I was unable to eat properly. Hoyt's Compound is recommended and sold by the Collins Bros. Drug Store and by all leading druggists in this section.—adv.

### Local Teachers Will Cooperate In Thrift Event

Teachers of the Big Spring public school system have pledged themselves to participate 100 per cent in the defense savings program through purchase of bonds or stamps, it was announced following a meeting of the group Wednesday afternoon.

Furthermore, they are going to stimulate children's interest in the government-finances program which also is a thrift affair, in the hope of getting full cooperation on the part of school pupils.

The defense bond campaign was taken before the school group by Dr. P. W. Malone, who has been named chairman in charge of sales for the local professional groups. He said that teachers responded enthusiastically, and that he was confident several classes of pupils would be able to report 100 per cent participation and win a place on the "honor roll" by the first of the week.

School children of the entire county already are familiar with the bond and stamp purchase program, through participation in an essay contest now in progress. They are writing essays on "Why Everyone Should Buy Defense Bonds and Stamps," and three winners will be selected in each school in the county—local high school, all city elementary schools, all rural schools and other independent schools in the county.

To these will go a \$1 saving stamp for first place, 50 cent stamp for second and 25 cent stamp for third. The contest closes Friday, and winners will be announced as soon as the essays can be judged.

### Pension Checks To Be Smaller

AUSTIN, May 8. (AP)—Old age pension checks for May will be short.

The pension administration will mail checks averaging \$11.46 to 123,069 recipients as compared to April payments of \$14.35 to 128,588.

Efforts to forestall the cut by emergency appropriations apparently came too late but pensioners had the consolation that revenues from the omnibus tax bill probably will start boosting payments in June.

Property taxes, once the main source of revenue for state governments, now represents only six per cent of state collections, according to the census.

**Coming Back**—Counted as a contender for honors in Big Spring's chaffy horse show May 16-17-18, is Astral Marillo, mare pictured above and owned by the Diamond M ranch of Scurry county. Astral Marillo took hon ors for three-year-old five gaited mares at last year's show, being owned then by the Mackey Breeding Farms of Colorado City and shown by Frank Kelley of the same place. Scores of the state's top show horses, plus Falkonins and quarter horses which will be shown on halter, are expected to compete for ribbons and cash at the event here, which is for benefit of the Rotary club's crippled children's fund. Shows will be on Friday and Saturday nights, and on Sunday afternoon.

### Scouts Hear First-Hand Account Of War Conditions In Germany

A voice from Europe gave Boy Scouts and friends, who turned out in record numbers for a court of honor Tuesday evening at the district courtroom, a real picture of what Americanism means. Frank Henrich, a Coodan chemical engineer who is only 10 months from Europe and who spent two months in a German concentration camp, answered a flood of questions concerning war-time conditions.

A native of Austria, he was placed in a concentration camp for two months because of an attempt to enter Switzerland without a visa. On release he got to Italy and waited 10 months to get a visa to the United States. In response to questions raised by boys and their leaders, he told of the small value placed on human life, how those who walked beyond a given line in the camp were shot although guards sometimes beckoned them across, how possession of a weapon liable one to imprisonment or death. "No, I did not see Hitler," he said. "I was not inquisitive about that." What did he predict would be the war's outcome? "I am for Britain. I have a wish, not a prediction." He spoke haltingly due to his lack of familiarity with his new language, but he said "my only desire now is that I can make a good citizen of the United States."

Attendance award at the meeting was won overwhelmingly by

mond Stallings, Earl Bryant, Edward Burchell. W. C. Blankenship, chairman, presided, and others who assisted were Dr. W. B. Hardy, district chairman, George Melser and W. S. Morrison, commissioners; Stanley Mate, Dr. C. W. Deats and Roy Cornelson. The crowd was the largest on record for an affair of that type.

### Flashes Of Life-

**Penn Yan, N. Y.**—Want to quiet that puppy when he starts yowling in the small hours of the morning? Dr. Lyndon Potter, veterinarian, says it's simple: Just place a "good loud" alarm clock in the puppy's box. The pup will cuddle up to the clock and sleep soundly, Dr. Potter says, because the loud ticking makes the lonesome dog think he's not alone.

**Juarez, Mexico.**—A funeral procession moved down this border city's main street. Thousands set up a clamor thinking it was the head of the Cincos de Mayo patriotic parade.

It was anything but a joke to Mayor T. R. Borunda. He fined the secretary-general of the Juarez Chauffeurs' Union 30 pesos for preceding the parade with funeral cortege.

**Charles City, Iowa.**—National defense has cut into plans for Charles City's annual soap box derby. Orders for eight sets of wheels and axles for the competing vehicles were cancelled by a manufacturing concern because materials used in their construction were needed for national defense orders.

**Omaha, Neb.**—Maybe curiosity killed the cat, but stubbornness killed Charles Patrick's two mules. Being led down the street, they balked and ran away, colliding with a truck. Result: Two stubborn mules, dead.

### French May Get Easier Armistice

**VICHY, France, May 8. (AP)**—A semi-official source indicated today that the French-German armistice convention would be modified as a result of negotiations in Paris from which Vice Premier Admiral Jean Darlan returned this morning.

A prediction to this effect, made to French newspapermen at a conference, followed disclosure only yesterday that Darlan and German authorities in Paris had reached

an agreement "envisaging" a 100,000,000-franc reduction in the 400,000,000 francs charged France daily for support of the German army of occupation. A statement in the French press said only "that in view of the dragging out of the war in certain parts, the armistice convention must be modified in a spirit of mutual understanding."

Nearly 12,000 mechanical corn pickers were manufactured in the U. S. in 1940, according to the census.

**THE RECORD**... Facts That Concern You No. 28 of a Series

**A couple of bad eggs... but why blame the hen?**

A bad egg does turn up once in a while... but that's not a sensible reason for destroying all the good eggs... or for taking it out on the hen.

Beer retailing in America is something like that. The vast majority of beer retail establishments are clean, law-abiding, wholesome places. And still there may be a few "bad egg" retailers who violate the law or permit anti-social conditions.

The brewing industry wants these undesirables eliminated entirely... to protect your right to drink good beer... and our right to make it.

And also to protect the many benefits brought by the beer industry to Texas... such as the 31,165 jobs created... and beer's \$22,076,182 annual payroll. Beer contributed \$2,273,968.64 last year in taxes to help pay the cost of government in this state.

You can help us in our program of law enforcement, if you will, by (1) patronizing only the legal and reputable places that sell beer and (2) by reporting any abuses to the proper law enforcement authorities.

**Nickels, Pennies Used To Pay For U. S. Defense Bonds**

Among their first acts, May 8 (AP)—Dick Hopper swapped it for some of those United States defense bonds.

The reason: it was all in pennies—\$4,200 of them.

Postmaster T. W. Russell had to do the counting.

Hopper had been saving pennies for two years.

**QUITMAN, May 8 (AP)**—Mrs. Lucy Terrell, a widow who lives near here came to town and purchased a \$50 defense bond, paying \$37.50 with 750 nickels which she had saved during the past six years.

She had enough nickels left over to buy six 10-cent defense stamps.

Mrs. Terrell said she would have had 300 more nickels to loan to the government except that four years ago she was bitten by a snake and was forced to spend \$15 of her nickels for medical treatment.

**Judge Defines "Skylarking"**

OAKLAND, Calif.—In upholding a five-year-old \$1,750 judgment in an auto accident suit, Judge Homer Spence wrote into the law a legal definition of "skylarking."

He defined it "as indulging in antics or cutting capers when driving at a high rate of speed for the sake of the thrill produced with indifference to the consequences."

**Give Mother A Break Sunday And Do The Cooking On Her Day**

Observance of Mother's Day has become an annual custom in nearly all American homes. Sons and daughters—in fact, all members of the family—pay their respects to the mothers of the land on the second Sunday in May.

While the modern celebration dates only to 1914, when President Wilson gave the event official standing by asking for the display of the national flag "as an expression of love and reverence for the mothers of the country," the custom really goes back many centuries in the western world.

In ancient times there was an annual Festival of Motherhood, a celebration that was introduced into Rome by the Grecians about 250 years before Christ. The festival was in honor of Cybele, mother of the gods in Greek mythology, and the rites were attended by all the superstitious of those early days. Celebrations were held mainly in deep woods and caves for three days at a time, and the festivals were followed by feasting and general rejoicing.

We have outgrown the superstitions of the past, but our modern equivalent, Mother's Day, is a day for rejoicing and feasting.

You may be planning to give mother some gift—flowers, candy or other appropriate token. Why not give her a really unusual present? Let some other members of the family take over the cooking duties for the day!

Here are several tried-and-true recipes that should make mother—and her offspring—enjoy some dainty morsels not only on "Her Day" but before and after as well.

To start Mother's Day with a smile all around, try these delicious waffles served with honey or syrup, or your favorite jam.

**DATE YEAST WAFFLES** (About 12 to 15 waffles)

1-3 package fast granular yeast  
1-4 cup lukewarm water  
1-4 teaspoon sugar  
2-4 cups milk  
2 tablespoons butter  
1 quart flour (sifted)  
1 teaspoon salt  
3 eggs  
2 ounces chopped dates

Pour the yeast into the 1-4 cup lukewarm water and add the 1-4 teaspoon sugar. Scald the milk and allow to cool. Rub the butter into the sifted flour and add salt, the milk which has been cooled, and the softened yeast. Beat for several minutes until smooth. Cover and set to rise in warm place until light.

Beat egg whites and yolks separately. Add yolks to the batter, mixing well. Then stir in the beaten egg whites and beat vigorously. Set to rise again until you are ready for breakfast. Just before cooking, mix in the finely chopped dates.

**Permian Basin Assn. Adds A Tax Worker**

MIDLAND, May 8—J. E. Erwin, formerly of Dallas, has joined the staff of the Permian Basin association, it was announced today by Wilburn Page, executive secretary.

Erwin will do contact work in member cities and will work and confer with local tax committees in carrying out the association's tax program.

The new staff member has been in organization work for a number of years, having recently been with the Texas Mid-Continent Oil and Gas association with headquarters at Dallas. Prior to this, he was set the sponge in Dallas as executive secretary of the North Texas Oil and Gas association in Wichita Falls.

Erwin is a graduate of the University of Texas where he majored in journalism. For some time following graduation, he was in the editorial department of the Wichita Falls Record-News.

"We feel extremely fortunate in securing the services of Erwin," Paul C. Teas, Lubbock, Permian Basin association president, said. "His long experience and numerous friends in this work will be invaluable to us in carrying out the strong program which we have outlined for this year."

Mrs. Erwin and two daughters will remain in Dallas until the end of the school year, when they will join Mr. Erwin and establish their home in Midland.

**Sanford Edwards, 10, Gets Honors In Piano Playing**

Piano lessons begun when he was four years old and living in Big Spring have brought rewards for young Sanford Edwards, ten year old son of W. K. Edwards of Big Spring and Mrs. Dorothy Edwards of Tulsa, Okla. Recently the young pianist was presented in recital at the University of Tulsa by the College of Fine Arts. Sanford is the grandson of W. P. Edwards of Big Spring.

Sanford, who was the pupil of Mrs. Anne Gibson Houser, resided here until 1940 when he moved to Tulsa. Outstanding record as a pianist was accorded him when he won the highest possible rating for four successive years in the National Piano playing tournament held here and in Abilene.

His ability, remarkable for a ten year old, was testified to at the recital when he appeared with a 13-year-old girl, Elizabeth Ann Goldsmith. Sanford played a difficult repertoire considered comparable to requirements for high school graduating students.

The selections included a "Duet—'Knight Rupert'" by Schumann and Mozart's "Sonata" C Major, Allegro, Rondo. His second group included a duet "Sylvie and Span" by Gehring, "Romance" by Schumann, and "Inventions" D. Minor and F. Major by Bach were the third group.

His last group was "Fire Dance," by Eckstein and "Desert Star" by Eckstein; "The Bee" by Schubert, and "Juggler in Normandy" by Lehman.

The program closed with another duet by Sanford and Elizabeth

**Ann, "Prelude" by Gurliitt and "Shepard's Hay" by Grainger. Sanford and Elizabeth Ann are the only two child pupils of Helen Ringo, head of the College of Fine Arts at Tulsa university.**

The pianist also appears on a weekly radio program in Tulsa.

**Just finish this sentence in 50 words or less: "My happiest moment was . . ."**

**HERE'S ALL YOU DO:**

Just write your happiest moment (in fifty words or less) to the Admiration Happiness Club. Your happiness story doesn't have to be fancy or dramatic—just a few lines in your own words will do. For example, your happiest moment may have been in: your romance, your wedding, the baby's first word, an achievement . . . just any of a thousand happy memories. It's easy . . . just think of your happy moments—jet one down—attach a coupon (or facsimile) from Admiration Coffee and mail it to the Admiration Happiness Club, Box 3079, Houston, Texas, today. It may win the equivalent of \$1,100.00 for you!

**HINTS THAT WILL HELP YOU WIN**

Don't try to be dramatic or fancy . . . just write your story in your own words. In this easiest of contests—sincerity, not letter-writing ability, is the basis for prize awards. Remember, just a very commonplace incident may have been your "happiest moment" and may win as much as \$1,100.00 in trade certificates for you. Everybody has "happy moments"—you have many—so, write one down now and enter this simple easy contest.
