STORM REPORT

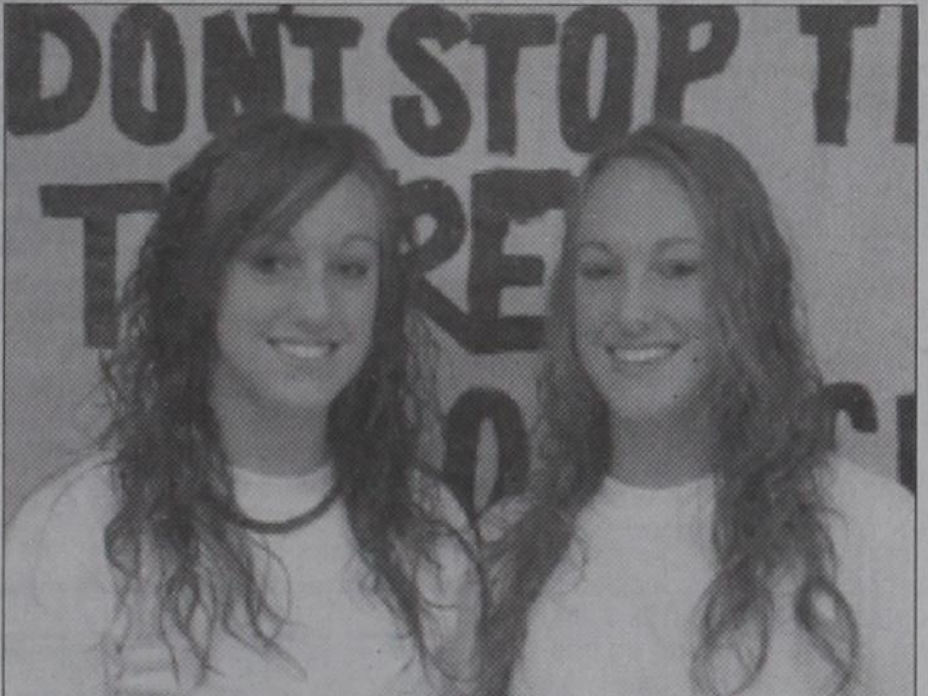

As Reported by Stormie Merlwether, First Grade Student

Dear Friends, I did it! My loose tooth just got looser and looser. Now it's out! Nobody helped me pull it. I just kept pushing and turning and pulling. I looked in the mirror to see my wiggly tooth. It took ten or thirty minutes. I got a paper towel so my tooth was not so slippery. My tooth looked funny hanging down. I could turn it like a crazy jack-o-lantern tooth. It was a little blood then my tooth just popped out in my paper! Now I have a big hole in my teeth! I tried to wiggle my other tooth. It wiggled just a little, but it's not ready to come out. Maybe I can pull it out then I can sing "All I want for Christmas is my two front teeth!"

I went to school and the kids all called me "Toothless Girl". The teacher said, "Stormie, you are so cute with your tooth gone!"

I am growing up. The next time I pull that tooth I will be very old and it won't come back! That's it.

OLD TIMES NOT FORGOTTEN

By Roland Miles

FIRST TRACTOR DRIVE

Starting our second year of living on "Old Double Tuff," Dad bought a used Ford tractor. It was a small, two-row tractor and it had a 3-point hitch on the rear which was a hydraulic power lift. Boy, that was really the berries! All Dad had to do when he came to the turn-row, was pull up a lever. The plows would be lifted out of the ground, then if you stepped on the brake on one side, it would slow down or lock that rear wheel and you could make a really tight turn-around. Then you just

pushed the power-lift lever down and the plows would be let down again. Power, it could be to your head, huh? That little tractor looked so easy to drive; I was sure I could do it! Maybe as good as my dad, pretty soon, I kept on working on him, trying to convince him to let me drive it around

the area behind our house. After all, the benefits of having an expert "kid tractor driver" around were enormous! After only a few weeks of pestering him to show me how to drive, he finally gave in. He explained how everything worked. He told me, "Now, Roland, this pedal here on the right, is the right brake. If you step on it, the tractor will pull toward the right. This outside pedal, here on the left, is the left brake. If you step on it, the tractor will pull toward the left. Now, this pedal here on the left inside, is the clutch. If you step on it, the tractor will stop. So, if you get scared, just jump on the clutch and it'll stop the tractor." I was quite confident that I had it all down pat in my tractor driving brain. That was all so simple... I wondered, "Why it had taken him so long to give in and let me do this?" Well, I took off and was doing pretty good, I was telling myself, but all of a sudden, I noticed that the left front wheel was sort-of headed toward the chicken house! I remembered what Dad said, but in my panic, I jumped on the wrong one! The left front wheel tore out the corner of the chicken house with surprisingly little noise. Partly, because there weren't any chickens inside.... Dad used a phrase I was to hear pretty often over the years, "Dad-burn-it, Roland, you flubbed up again!"

ALLISON NEWS

By Juanita Boydston

WHOSOEVER believeth that Jesus is the Christ is born of God: and every one that loveth him that begotten loveth him also that is begotten of him. By this we know that we love the children of God, when we love God, and keep his commandments. For this is the love of God, that we keep his commandments: and his commandments are not grievous. For whatsoever is born of God overcometh the world: and this is the victory that overcometh the world, even our faith. Who is he that overcometh the world, but he that believeth that Jesus is the Son of God? This is he that came by water and blood, even Jesus Christ; not by water only, but by water and blood. And it is the Spirit that beareth witness, because the Spirit is truth. For there are three that bear record in heaven, the Father, the Word, and the Holy Ghost; and these three are one. And there are three that bear witness in earth, the Spirit, and the water, and the blood: and these three agree in one. If we receive the witness of men, the witness of God is greater: for this is the witness of God which he hath testified of his Son. He that believeth on the Son of God hath the witness in himself: he that believeth not God hath made him a liar; because he believeth not the record that God gave of his Son. And this is the record, that God hath given to us eternal life, and this life is in his Son. He that hath the Son hath life; and he that hath not the Son of God hath not life. These things have I written unto you that believe on the name of the Son of God; that ye may know that ye have eternal life, and that ye may believe on the name of the Son of God. And this is the confidence that we have in him, that, if we ask any thing according to his will, he heareth us: And if we know that he hear us, whatsoever we ask, we know that we have the petitions that we desired of him. 1 John 5:1-14

The Lord is gracious, and full of compassion; slow to anger, and of great mercy. The Lord is good to all: and his tender mercies are over all his works. All thy works shall praise thee, O Lord; and thy saints shall bless thee. They shall speak of the glory of thy kingdom, and talk of thy power; To make known to the sons of men his mighty acts, and the glorious majesty of his kingdom. Thy kingdom is an everlasting kingdom, and thy dominion endureth throughout all generations. The Lord upholdeth all that fall, and raiseth up all those that be bowed down. The eyes of all wait upon thee; and thou givest them their meat in due season. Thou openest thine hand, and satisfiest the desire of every living thing. The Lord is righteous in all his ways, and holy in all his works. The Lord is nigh unto all them that call upon him, to all that call upon him in truth. He will fulfil the desire of them that fear him: he also will hear their cry, and will save them. Psalms 145:8-19

The weather in Allison on this Monday night is very very COLD and clear out. Allison is to receive a hard freeze tonight. So everything will look different then. The leaves are falling off the trees and things are beginning to look like winter around. But it was beautiful for awhile. Allison received 0.25 inches of rain Sunday evening and into the night and early morning hours of Monday. And Allison also received a snow flurry. Big beautiful flakes fell but didn't stick. Praise God for the seasons!! Winter is just colder for sure.

Parkview Hospital A Day to "Butt Out"

Could This Be the First Day of a Life Without Tobacco?

Are you thinking about quitting smoking but not sure you're ready to take the plunge?

Maybe the Great American Smokeout is for you. It's an opportunity to join with literally millions of other smokers in saying "no thanks" to cigarettes for 24 hours.

The Great American Smokeout traditionally takes place on the third Thursday in November. (November 19th, this year). The concept dates from the early '70s when Lynn Smith, publisher of the Monticello Times of Minnesota, announced the first observance and called it "D Day." The idea caught on in state after state until in 1977, it went nationwide under the sponsorship of the American Cancer Society. If past Smokeouts are any indication, as many as one-third of the nation's 46 million smokers could be taking the day off from smoking.

The rules are simple: You just quit smoking for the 24 hours of the Smokeout. The wonderful thing is that you won't be alone; you can swap advice, jokes and groans with the other "quitters". Even if you don't go on to quit permanently, you will have learned that you can quit for a day and that many others around you are taking the step, too. Contact the American Cancer Society for information on how you can participate, either as a "quitter" or as a volunteer.

Within 20 minutes after you smoke that last cigarette, your body begins a series of changes that continue for years...

20 Minutes After Quitting—Your heart rate drops.

12 Hours After Quitting—The amount of carbon monoxide in your blood drops to normal.

2 Weeks to 3 Months After Quitting—Your heart attack risk begins to drop. Your lungs begin to work better.

1 to 9 Months After Quitting—Your coughing and shortness of breath decrease.

1 Year After Quitting—Your risk of heart disease is half that of a smoker's.

5 Years After Quitting—Your stroke risk is reduced to that of a nonsmoker's 5-15 years after quitting.

10 Years After Quitting—Your lung cancer death rate is half that of a smoker's. Your risk of cancers of the mouth, throat, esophagus, bladder, kidney, and pancreas decreases.

15 Years After Quitting—Your risk of heart disease is like you never smoked.

Gorms (from Page 5) and colds spread when you have contact with a droplet from someone's sneeze or cough. It is transmitted because humans can't seem to keep their hands away from their faces," says Conway. Viruses last several hours on surfaces while bacteria can last for weeks.

Myth #2: Immune-boosting products will protect you from

holiday illnesses.

Conway says there is no reliable evidence that shows products marketed as "bolstering the immune system" work. While the products contain heavy doses of vitamins, Conway says it's not ever been demonstrated in any clinical studies that a few chewables or tablets will instantly make the immune system stronger.

Myth #3: Surgical masks pro-

vide more protection against contagious viruses.

Conway says this is a myth with a shred of truth in it. Surgical masks won't stop colds and other viruses because these viruses are not airborne like the pathogens causing tuberculosis, smallpox and measles.

"Since it would be rare to come in contact with a contagious disease that's airborne, the only reason to wear a mask on a com-

mercial airplane is that you don't trust yourself not to touch your mouth, eyes and nose, not to prevent someone from breathing in contaminated air OR if you are coughing and sneezing yourself, and want to protect other people by minimizing spread of your own secretions," he says. "To protect yourself, though, you're much better off spending 89 cents for a bottle of hand sanitizer and keeping your hands below your neck."

Conway says people may be tired of hearing it, but the prescription for staying healthy during the holidays is frequent handwashing, the use of hand sanitizer and keeping your hands away from your face. In addition, make sure everyone in the family has received their influenza vaccine, and that sick people try to avoid close contact with others.

We were in OKC for the weekend and enjoyed an early Thanksgiving with the Meriwether family at the Fishers. Lots of good food, fellowship and cards.
- cwe -
Prior to the Thanksgiving dinner, Jennifer, Seth and I traveled to Choctaw for Jaden Jackson's last football game of the season. His team did not win that game, but they placed fourth.
- cwe -
Liz, Phoebe and Jaden then came to the Meriwether Thanksgiving.
- cwe -
Seth had lots of fun at the Fishers. He finished the evening off with a spill. He climbed up in one of the chairs to get a better view of the activities and tipped the chair over backwards. The fall scared him, but I am sure it will not slow him down any.
- cwe -
Cards were played Monday evening. Mike and I started off really good and almost used up all of our luck on the first two hands. Patsy and Dwight won the first two games and Mike and I came back with a win the last game.

Spread Joy, Not Germs During Holidays

(Continued Page 7)

Before you go over the river and through the woods to grandmother's house this holiday season, consider what a University of Wisconsin-Madison infectious-disease specialist calls key myths about travel and illness.

"Many people have misconceptions about how viruses and bacterial infections are transmitted from person to person, especially on airplanes," says Dr. Jim Conway, an associate professor of medicine at the UW School of Medicine and Public Health (SMPH) and pediatric infectious-disease physician at the American Family Children's Hospital.

"If you combine common sense with accurate information, you'll have a much better chance of staying healthy during the holidays."

Conway says the myths fall into three general categories.

Myth #1: Stale airplane air is a major source of contagious disease.

"There are very few things that fly through the air and magically infect other people," says Conway. "Viral infections like flu

MOBEETIE NEWS

By Sue Mayfield

Brrrr! These colder mornings certainly do get our attention! That cold wind on Monday sure brought out the coats! We were in Amarillo for the induction of our grandson, Michael, into the Navy. He was so proud of himself. We are very proud of him. He is very independent and wants to do things his way, in his time. He will be delayed entry to enable him to graduate May 29 with his class in Pampa. He has a job assignment of electrician on the gas turbines on the Navy ships. He is very anxious to get through basic so he can start his electronics classes. He will report to the naval station outside of Chicago, IL after July 14. This is better than any present we could ever give him. We celebrated after the swearing-in ceremony with dinner at the Plaza restaurant in Amarillo. I was so surprised to have Cathy Hooper come to our table and reintroduce herself. Our older boys, Todd and Jeff, went to school with her sons, Chad and Brad Harrison. Chad is an engineer in Yukon, OK and Brad is in Amarillo. She looks wonderful and they all stay busy. It was so good to see her. But, I felt so stupid having to go through her family to try and find her name.

Recently we got to visit a little with Joe Montgomery in Pampa. For many years he was the "telephone man" in Wheeler. He is working for the Gray County Sheriff's department and Cathy is working for Dr. Albracht, the or-

thopedic surgeon in Amarillo. They are all doing well. Their three girls and Michael have made them grandparents of seven in a short time. Michael was the last to help with his twins that celebrated their first birthday on Oct. 29. His wife had two children that she brought to the marriage. Cathy's parents, Marshall and Mary Andis, are doing okay. We sure miss all of them being in Wheeler. Our visit was just to short. Joe helps out in the courtroom when necessary, so gets to see our daughter-in-law quite often. Danielle is an adult probation officer for Gray County.

Our condolences to the family and friends of Welson Chaffin, 95, of Lubbock, TX. He passed from this life Nov. 6, 2009, in Lubbock. Memorial services were held Nov. 9 at the Oakwood Methodist Church, of which he was a long-time, active member while his health permitted. He was a chemical engineer for the Texas State Highway department for many years, until his retirement in 1981. He and his wife, Lola (Sherrod) made their home in the Austin area most of their married life. They moved to Lubbock in 1993. Lola preceded him in death in 2003. He is survived by a daughter, LaJean Chaffin, PhD, of Lubbock and a son, Dr. Lowell Chaffin, MD, and wife, Jana, of Amarillo, along with three grandchildren, three great-grandchildren and numerous relatives and family. He will be greatly missed. Dr. Lowell Chaffin is one of the "founding fathers" of the Cardiology Center of Amarillo.

Word was received on Monday of the passing of Clyde Patton, 74, of Amarillo. He passed away Sat., Nov. 14, 2009. Memorial

services were held Tues. morning at the Tascosa Road Fellowship Church with Jay Robertson officiating. Burial was in the Mobeetie Cemetery on Tues. afternoon with Clyde's nephew, Ernie Patton, officiating. Clyde was born in Mobeetie in July 1935, to Elbie and Virgie Patton. He grew up in Mobeetie and graduated from Mobeetie High School in 1954. He was a great athlete and spent many happy hours in Mobeetie. He was preceded in death by both of his parents, a sister, Glenna, and two brothers, E.H. and Nep. He is survived by two daughters, Leann Potter and husband, David, of Arlington, and Darlene Patton of Springfield, MO.; two sons, Ronnie Patton and wife, Julie, of Marshall, and Eugene Patton of Carthage; four sisters, two brothers, several grandchildren, extended family and friends each of whom had a special place in his heart.

It's good to hear that Barbara Richardson is doing quite well with her recovery at home. She is going to have several scars, but as long as she can walk, she doesn't care. Sorry to hear that her daughter, Krista, had to have surgery last week. She is an RN at the Elk City hospital and had her surgery done there. We wish her a speedy recovery.

Leola Stuart had a good visit with Ronnie and Tanya Stuart and family in Lawton, OK. Then Tues., she had an appointment to get an injection in her back. It has really helped, even with her legs, some. Certainly hope this is just a preview of days to come. She came by Dale and Barbara Richardson's on her way home on Wed. to check on everyone. Friday Cheryl Richardson and Leola Stuart went to Amarillo for an eye appointment. Leola got fairly good news. They just like to keep her coming back for tests. But, at least, she can glide through the holidays. Randy and Julie Stuart of Kyle, TX., are looking forward to the holidays. Son, Zach Rhodes, will be home on leave from the army for Thanksgiving. May even get to be there for Christmas. Don't know for sure yet. But then, will have to be ready to deploy to Afghanistan. Please keep Zach and his family in your prayers.

Cheryl and Leola got to go by and visit with Leola's Aunt Ermil at the Bivins Nursing Home. She was very happy to see Leola and Cheryl and get in on some family news. We hope this finds you feeling much better and stronger, Aunt Ermil. Praise the Lord!!

The information I got on the accident that Jeff Fraley had in the dense fog was very wrong. I

thought that three sources would surely know more than me. Sorry the news wasn't better for Ronnie Ledbetter's family of Pampa. Our prayers are with you. Jeff Fraley had his share of bruises, bumps and abrasions, but after being in the hospital for observation, he was released to come home. Thank you for protecting Jeff, Lord. Welcome home. Our prayers are with you.

We have a message on our answering machine to come pick up the pecans we ordered from the 4-H at their new offices in the new Wheeler County Ag building on the north end of Wheeler. Thanks, Joanie.

I got to spend the night in

Pampa with granddaughter, Harley, and grandson, Michael. Jeff was in Amarillo for at least a week doing a turnaround for the gas plant. Sky had Veterans Day off, so took advantage of the opportunity to do some birthday shopping and some Christmas shopping. Too bad that Michael had to work at United. Harley and I thought of him while we had supper at the Plaza in Pampa. We brought him a plate home for his 10:30 supper. Harley has rehab workout at 7:00 A.M. It has really helped her knee and leg.

Hope ya'll have a great week. Keep our friends and neighbors in your prayers.

Economic Injury Loans for Small Businesses

Disaster Assistance Available for Small Businesses

Sacramento, CA - Small, non-farm businesses in 192 Texas counties and neighboring counties in New Mexico and Oklahoma are now eligible to apply for low-interest disaster loans from the U. S. Small Business Administration (SBA). "These loans offset economic losses because of reduced revenues caused by drought, above-normal temperatures and associated wildfires that occurred in the following 69 primary Texas counties beginning January 1, 2009," announced Alfred E. Judd, Director of SBA Disaster Field Operations Center West.

Primary Texas counties: Angelina, Atascosa, Bailey, Bandera, Bexar, Brazoria, Brazos, Briscoe, Brooks, Burleson, Cameron, Castro, Clay, Colorado, Crockett, Crosby, Deaf Smith, Denton, Dimmit, Duval, Edwards, Fort Bend, Frio, Gaines, Galveston, Goliad, Grayson, Grimes, Guadalupe, Hale, Hall, Hardeman, Harris, Haskell, Hidalgo, Hood, Houston, Jack, Jackson, Jeff Davis, Jim Hogg, Jim Wells, Kerr, Kimble, Lamb, Lavaca, Leon, Lynn, Madison, Milam, Mitchell, Montgomery, Palo Pinto, Parker, Parmer, Refugio, Robertson, Somervell, Starr, Swisher, Trinity, Walker, Ward, Webb, Wheeler, Willacy, Williamson, Zapata and Zavala; Neighboring Texas counties:

Anderson, Andrews, Aransas, Archer, Armstrong, Austin, Bastrop, Baylor, Bee, Bell, Borden, Bosque, Brewster, Burnett, Caldwell, Calhoun, Chambers, Cherokee, Childress, Cochran, Coke, Collin, Collingsworth, Comal, Cooke, Cottle, Crane, Culberson, Dallas, Dawson, Dewitt, Dickens, Donley, Eastland, Ector, Erath, Falls, Fannin, Fayette, Fisher, Floyd, Foard, Freestone, Garza, Gillespie, Gonzales, Gray, Hays, Hemphill, Hockley, Howard, Hudspeth, Irion, Jasper, Johnson, Jones, Karnes, Kendall, Kenedy, Kent, King, Kinney, Kleberg, Knox, La Salle, Lee, Liberty, Limestone, Live Oak, Loving, Lubbock, Martin, Mason, Matagorda, Maverick, McMullen, Medina, Menard, Montague, Motley, Nacogdoches, Nolan, Nueces, Oldham, Pecos, Polk, Potter, Presidio, Randall, Reagan, Real, Reeves, Roberts, San Augustine, San Jacinto, San Patricio, Schleicher, Scurry, Shackelford, Stephens, Sterling, Stonewall, Sutton, Tarrant, Terrell, Terry, Throckmorton, Travis, Tyler, Upton, Uvalde, Val Verde, Victoria, Waller, Washington, Wharton, Wichita, Wilbarger, Wilson, Winkler, Wise, Yoakum and Young;

Neighboring New Mexico counties: Curry, Lea, Quay and Roosevelt; Neighboring Oklahoma counties: Beckham, Bryan, Cotton, Harmon, Jackson, Jefferson, Love, Marshall and Roger Mills. *SBA eligibility covers both the economic impacts on businesses

dependent on farmers and ranchers that have suffered agricultural production losses caused by the disaster and businesses directly impacted by the disaster," Judd said.

Small, non-farm businesses, small agricultural cooperatives and most private, non-profit organizations of any size may qualify for Economic Injury Disaster Loans (EIDLs) of up to \$2 million to help meet financial obligations and operating expenses which could have been met had the disaster not occurred.

"Eligibility for these working capital loans is based on the financial impact of the disaster only and not on any actual property damage. These loans have an interest rate of 4%, a maximum term of 30 years, and are restricted to small businesses without the financial ability to offset the adverse impact without hardship," Judd added.

By law SBA makes EIDLs available when the U. S. Secretary of Agriculture designates an agricultural disaster. Secretary Tom Vilsack declared this disaster at the request of Governor Rick Perry.

Businesses primarily engaged in farming or ranching are not eligible for SBA disaster assistance. Agricultural enterprises should contact the Farm Services Agency (FSA) about the U. S. Department of Agriculture (USDA) assistance made available by the Secretary's declaration.

Information and application forms are available from SBA's

Customer Service Center by calling (800) 659 2955, emailing disastercustomerservice@sba.gov, or visiting SBA's Web site at www.sba.gov/services/disasterassistance. Hearing impaired individuals may call (800) 877 8339.

Applicants may also apply online using the Electronic Loan Application (ELA) via SBA's secure Web site at https://disasterloan.sba.gov/ela.

The deadline to apply for these loans is **July 2, 2010**.

For more information, visit SBA's Web site at www.sba.gov/services/disasterassistance.
