 18, 1933, at the postoffice at Wheeler,
 Texas, under Act of March 3, 1879.

LONE STAR CIVILIZATION

Texas is again civilized. Pari-mutuel betting has again been made illegal, and the morals, theoretical at least, of the state are upheld.

Betting, an evil like drinking, will not cease entirely in the state, but the practice does not have the sanction of the government.

Just as there were cries against prohibition before repeal, because drinking went on though the law supposedly prohibited it, there will be cries against the law making betting illegal. Smooth men will try to show that the state is losing valuable money it might as well share in a legal way. The same men will try to show that gambling is a perfectly harmless sport.

Those who have fought for repeal of the gambling law will have to be vigilant against quick moves to run over the present repeal. After all, there have been rapid changes within very few years on this same law. In 1909 pari-mutuel betting was made illegal, but it came back in 1933. Now, four years later, it vanishes again. Constant watch must insure its banishment.

WHEELER ON THE MAP

The Lions club of Wheeler is to be commended for the work done in the Great Plains Highway association, and for the foresightedness shown by the club in working on improvement for highway 4 and federal highway 83.

With the increasing use of the highway, it is obvious that Wheeler will be able to gain more tourist trade. Mexico is quickly becoming one of the favorite vacation spots of the North American countries, because of its historical interest and for its scenery.

Wheeler may be made to stand out on the map by following such worthy projects to definite goals.

Beautification along Shamrock street, the highway street, may now be in order, and the aid of individuals and organizations will be needed in doing constructive work that will mean business and praise for Wheeler—the hub of Wheeler county.

BOOST THE BAND

It has been pointed out to The Times that the Wheeler band has been in existence for only a year, and that astonishing progress made by the organization was displayed at the Pampa fiesta last week.

Unusual ability has been shown by Wheeler school students, and by others in the Municipal band. The enthusiasm of the group has been shown by its whole-hearted efforts to follow direction, and its regularity in attending practice and lessons.

Too much praise cannot be given such an energetic and willing organization, and too much help cannot be offered the band in all its future undertakings.

Representation by the band at state and national contests, special celebrations and local performances will indicate the progress of the community, and the pride of the town for itself and for its youth.

CROPS WILL COME

In spite of recent hailstorms and severe rains during the past seven days, prospects for good crops still look encouraging. No farmer The Times has interviewed appears discouraged, and all farmers seem to remember that they were handicapped not so long ago by drouths more harmful than all rains.

Although it is too late for replanting many acres of some crops, there is a chance to dig into the soil again and hope for better, more agreeable weather.

The spirit of resolving to make crops has been revived from the drouth period, now it is to be hoped that untimely wet weather will not discourage farmers or merchants.

PRIDE AND WPA PAY

Criticism of governmental efforts toward rehabilitating has been leveled at President Roosevelt's administration on the grounds that the problem has been handled wrongly.

Although it is true that results of attempts to aid some citizens have been to create an unhealthy attitude on the part of these people being relieved, a more satisfactory solution is being sought.

It is not entirely the fault of "relievers" if they decline to work at jobs for wages no one else would work at. Because men are badly in

Laughing Around the World

All Around the Mulberry Bush

By IRVIN S. COBB

LITTLE Harold, aged seven, enters the house of his parents, wearing upon his face an expression betokening uneasiness. He has been properly reared, and despite his tender years he uses correct and careful language. This is his first summer in the country.

"Mother," he says, "I want to ask you a question."

"What about, my son?"

"About mulberries."

"Well, what about mulberries? Have you been eating mulberries?"

"Yes ma'am; at least I think so."

"You think so? Don't you know?"

"That brings up the question I wanted to ask you, Mother are mulberries little round black things that have six legs apiece and crawl around on the ground under the mulberry trees?"

"Why, no indeed!"

"Then mother," says Harold, "I feel that I have made a great mistake!"

(American News Features, Inc.)

Laying Hens Will Be Scarce This Fall, Winter

COLLEGE STATION.—A heavy shortage of laying hens, with a corresponding increase in egg and poultry prices, is in prospect for the fall of 1937 and the early part of 1938, according to George P. McCarthy, assistant poultry husbandman of the Texas A. and M. extension service.

McCarthy said that high feed costs and low prices for poultry products had resulted in the heaviest culling program in recent years. The unfavorable price picture has also resulted in a decline in the purchase of baby chicks. McCarthy pointed out that commercial hatcheries have reported a 35 percent decline in the sale of baby chicks.

With better egg supplies in prospect, McCarthy urged that poultrymen give their pullets every chance to come into early production and to maintain production. "Poultrymen who feed their pullets properly during the summer and give them every opportunity to develop will be well repaid during the fall and winter," he said.

Not much chance exists for any unforeseen increase in the number of laying hens before well into 1938, according to McCarthy. June and July chicks have never proved profitable, and commercial hatcheries have suspended operations for the summer.

Texas chickens can be deloused by simply hanging a banana stem in the chicken house, it is said. The theory is that lice leave the chickens and congregate on the banana stem.

need of work, it does not follow that they have forfeited all their rights to decency and self-pride. For those who would condemn all relievers for their "high and mighty" attitude it would be well for them to ask themselves if they would care to have the "jobs" they offer, at the "wages" they wish to pay.

Not an excuse for laziness, but an angle on a timely problem. To be sure, there are sayings that predict, "The poor we will always have with us," but there are expressions, too, that imply we might "Do to as we wish to be done by."

Uncle Jim Says

"Locust trees help stop gullies and are a cheap source of fence posts."

The use of trees to stop the growth of gullies is becoming popular over the state, according to C. W. Simmons, farm forester of the Texas A. and M. extension service. The trees not only retard erosion, but offer an additional source of farm income.

In humid sections of the state, Simmons finds that the black locust makes a quick growth, holds the soil together, and provides fairly good fence posts within a reasonable time. About 10 years is needed to produce serviceable posts from this tree on average soil.

In general, it is always best to plant trees which are known to be locally adapted. There are three species of pine and some 27 varieties of hardwood which are of commercial value in Texas, Simmons says. In sections where none of these are adapted Simmons recommends planting such post yielding trees as cedar, mesquite, bois'd'arc and black locust.

County agricultural agents have available detailed information regarding the planting of trees under the agricultural conservation program, which carries provision for payment for this type of agricultural conservation.

Fifty-nine percent of Texas population lives on farms and most of the other 41 percent depend to some extent on farmer buying power for a livelihood.

Mines College Grads Find Jobs Plentiful

EL PASO.—Denying that there are too many college graduates going on the labor market, Prof. T. E. Morris, head of the department of economics and business administration at the College of Mines and Metallurgy, a branch of the University of Texas, asserted that job possibilities are more than double the number of graduates in the economics and business administration department at

the College of Mines this year.

"Every one of our June and August graduates in these courses has been offered at least one position, and one senior is being sought after by five business firms," Morris, said.

Whoa! Whoa! Alas! Alas!

Joe saw the train, but couldn't stop; So they dragged his flivver to a shop. To make his Lizzie good as new. But, though they hunted high and low They found no extra parts for Joe.

Giving the Admiral a Break

The fond mother was saying goodby to her only son who was joining the navy.

She said: "Now, son, remember what I've told you. Always be punctual. Get up on time every morning, too, and don't keep the admiral waiting for his breakfast."

During the year 1936 home accidents claimed the lives of 39,000 people, 500 more than were killed in highway accidents.

WHEN TIRE SAFETY IS VALUED MOST!

BY DIRECT WIRE FROM WESTERN UNION

MR HARVEY S FIRESTONE CHAIRMAN— FIRESTONE TIRE & RUBBER COMPANY— AKRON OHIO—

HAVE TODAY WON THE SILVER ANNIVERSARY 500-MILE INDIANAPOLIS RACE ON FIRESTONE GUM-DIPPED TIRES AT 113.58 MILES PER HOUR— BREAKING ALL RECORDS STOP I KNEW I COULD WIN IF MY TIRES COULD STAND THE TERRIFIC HEAT GENERATED AT THESE NEW SPEEDS STOP WORDS CANNOT EXPRESS MY GRATEFUL APPRECIATION FOR THE MARVELOUS STRENGTH BUILT INTO YOUR TIRES AND THEIR OUTSTANDING PERFORMANCE

WILBUR SHAW.

Gum dipped cords
PROVIDE THE EXTRA MARGIN OF SAFETY ON THE SPEEDWAY OR THE HIGHWAY

THOUSANDS said that tires could not stand the terrific grind. They said cars had been built with much greater speed, turns in the track had been repaved with granite-like surface, yet Wilbur Shaw drove to victory on Firestone Gum-Dipped Tires setting a new record of 113.58 miles per hour on one of the hottest days in the history of the Indianapolis track.

Think of the terrific impact on these tires as the cars roared into the treacherous turns and out again. Tons of force straining, pulling, and twisting inside the tire, yet not one cord loosened, not one tread separated from the cord body—all because Gum-Dipping, the Firestone patented process, successfully counteracted the internal friction and heat that ordinarily destroy tire life.

You will never drive your car at these record-breaking speeds, but for the safety of yourself and family you need the safest, strongest and most dependable tires. Come in today. Join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Gum-Dipped Tires—the safest tires that money can buy.

DON'T RISK YOUR LIFE ON THIN WORN TIRES

No car owner is going to risk his life and the lives of his family knowingly on thin worn tires.

DO YOU KNOW
 THAT last year highway accidents cost the lives of more than 38,000 men, women and children?
 THAT a million more were injured?
 THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?

Section of smooth worn tire which is more susceptible to punctures, blowouts and skidding.
 Section of new Firestone Tire. Note protection against skidding, punctures and blowouts.

OIL BURNING ★ ★ ★
SUPERFEX REFRIGERATOR
Saves Miles of Steps

Makes ice, keeps foods cold—right in your kitchen!
 Sold on easy terms

MODERN refrigeration with kerosene—at an operating cost of only ten dollars a year! Perishable foods kept safe and appetizing, all through the hottest weather, without electricity, without connections of any kind, without those miles of steps to cellar, cave or well.

The remarkable economy of this oil burning refrigerator is due to the exclusive Super-Condenser top and the specially designed burners which go out automatically after doing their day's work in only two hours. There is no constant flame.

The SUPERFEX Oil Burning Refrigerator is made by Perfection Stove Company, scientifically designed for permanent satisfaction. The refrigerating unit is both air- and water-cooled, yet needs no running water. It has been proved by nine years of satisfactory service in thousands of farm homes. We offer you a free demonstration in your own kitchen.

Giving the Admiral a Break
The fond mother was saying goodbye to her only son who was joining the navy.
She said: "Now, son, remember what I've told you. Always be punctual. Get up on time every morning, too, and don't keep the admiral waiting for his breakfast."
During the year 1936 home accidents claimed the lives of 39,000 people, 500 more than were killed in highway accidents.

Methodist Church
(Rev. E. C. Raney, Pastor)
All human beings have a social nature. No real human being ever becomes so unsocial that he does not desire fellowship at some time. But it is said the other extreme is reached when some people wish to get away by themselves and be free, instead of becoming lonely and then seeking association of the multitudes and throngs.
This desire for solitude is not monastic or monkery, but it is due to the constant meeting and mingling with all kinds of folk under all sorts of conditions. The work some people undertake causes them to acquire this state of mind—they wish to get clearly and entirely away from ev-

eryone, where they can be alone and rest.
The non-churchman and the un-churchman many times accuse church people of not being as sociable as they should be. Whether this accusation is justified or without foundation, the program at 11 o'clock next Sunday is our annual lay program, and it is given by the laity of the church. The subject for consideration is "A Fellowship Church" and it deals with many matters mentioned above. We hope that since this program deals with many phases of the subject, we may have a full attendance of all members.
The pastor is rather modest and is reluctant to drum up attendance for his preaching, but he is long for the other fellow's getting a full and free hearing.
Our leagues meet at 7:15. A good program is prepared, on which there may be some reports from the recent assembly. We started the evening song service last Sunday at nearly 8 o'clock and we hope to be able to begin this early again, since the days are longer now and the earlier darkness period is approaching. Let us keep up with a good start. Thanks.
Women meet at 4 o'clock Monday evening, instead of 2:30. The mid-week meeting will be at 8 o'clock on Wednesday night.
The vacation Bible school is a booming success. Report on the school will be found elsewhere in The Times.

We Apologize for a Misleading Statement
Last week, through an error in The Times advertising department, our advertisement stated that a modern air-conditioned refrigerator could be purchased at one-third the cost of a box using any ice substitute.
• This statement is true enough, but the advertisement went on to say that with the two-thirds saving in purchase price the air-conditioned refrigerator could be iced for a whole year.
Which does not even begin to tell the truth. We apologize. We would not have you think that air-conditioned refrigeration is half—or even one-fourth—that expensive.
The modern air-conditioned refrigerator can be iced for one year WITH THE INTEREST ON YOUR EXTRA INVESTMENT IN ANY ICE SUBSTITUTE. For less than \$20 the modern ice refrigerator can be maintained for a whole year.
If you don't believe what we say about this superior form of refrigeration, you are invited to give it a ten-day trial in your home, without cost or obligation.

BUDGET BALANCER Organ music... nervous "I do's"... a sedan decorated with old shoes... honeymoon... Then the June bride faces the July budget, interested in stretching every family dollar.

Lady, the gasoline for you is Phillips 66 Poly Gas. It is thrifty. It is your Best Buy in motor fuel, because it piles up the miles at rock-bottom cost. This is why: Every gallon is enriched with extra energy units by the patented POLYMERIZATION process. So less gas does more. This not only helps mileage, but increases the power-output of your engine. And your engine keeps running at top

efficiency, no matter what the thermometer reads, because Phillips 66 Poly Gas is 100% custom-tailored. Is more accurately matched to your weather than any other gasoline. Even if you are not a June bride, you may discover today's greatest gasoline value by trying just one tankful of the new Phillips 66 Poly Gas. You will actually feel the difference and you will save money, too, because Phillips 66 costs no more than ordinary gasoline.

Phill-up with Phillips for Greater Mileage

Mrs. J. A. Wharton and Mr. and Mrs. E. G. Pettit of Corn Valley were attending to business in Wheeler Tuesday.

Doctor Gives Advice On 'Summer Complaint'

AUSTIN.—The season of the year when the most complaints are received on account of diarrhea and dysentery or "summer complaint" is here and Dr. George W. Cox of the Texas state department of health has issued a warning to parents in regard to this, and offers the following suggestions to prevent its occurrence among babies. The chief causes of diarrhea include impure milk, water and contaminated foods, overheating, fever from any cause, too much sugar or cream in the diet, overfeeding and underfeeding. Mother's milk is the safest food. However, if other milk must be used, the supply should be clean and pure. The water should be clean, pure and boiled. Any other articles of food should be fresh and clean and no unsuitable articles of food such as cake and candy should be given. If a feeding formula is used, it should be prescribed by a physician and it must be prepared with extreme attention to cleanliness and kept cold until used. The baby should be fed at regular intervals and should be kept cool and comfortable in hot weather, should not be overclothed and should be given plenty of clean water to drink. Any infections which develop in the nose, throat, ears or other organs should receive prompt attention from a physician. If diarrhea develops, feedings should be stopped or greatly diminished and an abundance of water should be given. Cathartics should not be given except on the advice of a physician. If the diarrhea does not improve within a short time, a physician should be called and a complete examination should be made. The three F's—flies, fingers and food, are the three sources of danger to the baby. Flies carry disease germs to the baby and to its food. Fingers and hands that are not thoroughly washed before preparing the baby's food are likely to be germ carriers also. All milk and water that is intended for the baby should be boiled for five minutes, then carefully covered and kept in a cool place until used. When a man buys a new car he wants to be able to go over every hill on high except the one to the poorhouse. (Printed in The Wheeler Times May 20-27, June 3-10, 1937.) H. J. R. No. 26-A.

HOUSE JOINT RESOLUTION

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new Section to be known as Section 51d, which shall provide that the Legislature shall have the power to provide, under such limitations and restrictions as may be deemed by the Legislature expedient for assistance to destitute children and for the payment of same not to exceed Eight Dollars (\$8) for one child or Twelve Dollars (\$12) for the children of any one family per month; further providing that the Legislature may impose such restrictions and regulations as to it may seem expedient; providing that the amount to be expended out of State funds in any one year for such assistance shall never exceed the sum of One Million, Five Hundred Thousand Dollars (\$1,500,000); and providing that the Legislature shall have the authority to accept from the Government of the United States financial aid for assistance to destitute children; providing for an election on the question of adoption or rejection of such amendment and making an appropriation therefor; providing for the proclamation and publication thereof, and prescribing the form of ballot. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto a Section to be known as Section 51d, which shall read as follows: "Section 51d. Subject to the limitations and restrictions herein contained, and such other limitations, restrictions, and regulations as may be provided by law, the Legislature shall have the power to provide for assistance to destitute children under the age of fourteen (14) years; such assistance shall not exceed Eight Dollars (\$8) per month for one child nor more than Twelve Dollars (\$12) per month for such children of any one family; provided that the amount to be expended for such assistance out of State funds shall never exceed the sum of One Million, Five Hundred Thousand Dollars (\$1,500,000) per year. The Legislature may impose residential restrictions and such other restrictions, limitations, and regulations as to it may seem expedient. "The Legislature shall have the authority to accept from the Government of the United States such financial assistance to destitute children as that Government may offer not inconsistent with the restrictions herein above provided. Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of this State at an election to be held throughout the State on the fourth Monday in August, 1937, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words: "FOR the Amendment to the State Constitution providing for assistance to destitute children under the age of fourteen (14) years not to exceed Eight Dollars (\$8) per month for one child nor more than Twelve Dollars (\$12) per month for such children of any one family, and providing for acceptance from the Government of the United States of America financial assistance for such payment." Those voters opposing said proposed Amendment shall write or have printed on their ballots the words: "AGAINST the Amendment to the State Constitution providing for assistance to destitute children under the age of fourteen (14) years not to exceed Eight Dollars (\$8) per month for one child nor more than Twelve Dollars (\$12) per month for such children of any one family, and providing for acceptance from the Government of the United States of America financial assistance for such payment." If it appears from the returns of said election that majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution. Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution for Amendments thereto. Sec. 4. The sum of Five Thousand Dollars (\$5,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of such publication and election. The above is a true and correct copy. Edward Clark Secretary of State.

Poison Must Protect Garden From Insects

With garden vegetables just beginning to show their heads this month, Miss Martin, home management supervisor for the resettlement administration, is warning all gardeners to poison insects which annually infest gardens and which, unless destroyed, damage or completely destroy garden truck. There are two distinct types of insects which attack plant life. They are commonly classified as the biting and the sucking insects. Biting insects are combated by the application of poisonous chemicals to parts of the plants attacked so that each insect will take some of the poison into its stomach when it swallows plant particles. The sucking insect is destroyed by physical contact with the poisonous chemicals, ordinarily applied to plants in dust or spray form. The most commonly used control mixtures are paris green, Bordeaux mixture and nicotine sulphate. These chemicals are among the most inexpensive and can be purchased with instructions for mixing at any drug store or seed store. Miss Martin warns gardeners about the use of paris green. She says it should not come in contact with anything which cannot be thoroughly washed or peeled before being eaten. Miss Martin says the resettlement administration is encouraging all gardeners to raise bigger and better gardens as a very definite step in rehabilitation and health. She also suggests that persons desiring to obtain complete information about methods of control for all plant insects and plant diseases write for bulletins now available from their state extension service, through their county agents or state agricultural college.

Crude Brooder Success

The use of a home made brooder is credited by Mrs. Bob Cantwell of the Washita community in Hemphill county as the major reason for her recent feat of raising to five weeks of age 52 out of 53 baby chicks. Built of 12-inch boards, the brooder is equipped with a floor made of carbide cans and covered with sand, the amount of which is varied according to the weather. A brooder lamp is placed under the floor, and a cover was made by wool strips cut from an old suit. (Published in The Wheeler Times June 10, 17, 24 and July 1, 1937.)

THE STATE OF TEXAS

WHEREAS, by virtue of a certain order of sale issued out of the District Court of Wheeler County, Texas, on the 20th day of May, A. D. 1937, wherein J. A. Hall is plaintiff, and H. O. Breeden, T. A. Owens, Sam Odum, and Rhea Odum are defendants, on a judgment rendered in said court against said defendants, and in favor of the said plaintiff for the sum of Five Hundred and Ten Dollars (\$510), with interest thereon from the 26th day of April, A. D. 1934 at the rate of eight percent per annum; and for the sum of Fifty-one Dollars (\$51) with interest thereon from the 26th day of April, A. D. 1934 at the rate of 6 percent per annum together with all costs of suit. I have this day levied upon and will on the 6th day of July A. D. 1937, between the hours of ten o'clock a. m. and four o'clock p. m. at the Court House door of Wheeler County, Texas, proceed to sell for cash to the highest bidder, all the rights, title and interest of H. O. Breeden, T. A. Owens, Sam Odum and Rhea Odum in and to the following described property, levied upon, to-wit: Part of Out-Lot No. 4, in the original town of Shamrock, in Wheeler County, Texas, and being described as follows: Beginning at a point 100 feet east of the northwest corner of said out-lot No. 4, thence east 50 feet; thence south 150 feet; thence west 50 feet; thence north 150 feet; to place of beginning. The above sale to be made by me to satisfy the above described judgment for the above named amounts in favor of the plaintiff, together with all costs of suit and sale, and the proceeds to be applied to the satisfaction thereof. Witness my hand this the 3rd day of June, A. D. 1937. RAYMOND WATERS, Sheriff, Wheeler County, Texas.

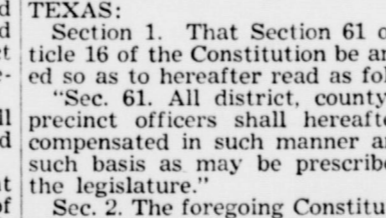

NOTICE TO CREDITORS OF ESTATE

NOTICE to creditors of the Estate of Belle Lott, deceased: Notice is hereby given that original letters testamentary, upon the estate of Belle Lott, deceased, were granted to me, the undersigned, on the 31st day of May, 1937, by the County Court of Wheeler County, Texas. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. My residence and post office address are Sylvester, County of Fisher, State of Texas. W. D. SCOTT, Executor of the Estate of Belle Lott, deceased. (Printed in The Wheeler Times May 20-27, June 3-10, 1937.) H. J. R. No. 24

A JOINT RESOLUTION

Proposing an amendment to the constitution of the State of Texas, amending Article 16, Section 61, providing for the abolishing of the salary method of compensating all district, county, and precinct officers of this State, and further providing that such officers shall be paid in such manner and on such basis as may be prescribed by the Legislature; providing for the submission of this amendment to the voters of this State; providing for proclamation of said election by the Governor; and providing for the necessary appropriation to defray necessary expenses for the submission of this amendment. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Section 61 of Article 16 of the Constitution be amended, so as to hereafter read as follows: "Sec. 61. All district, county, and precinct officers shall hereafter be compensated in such manner and on such basis as may be prescribed by the legislature." Sec. 2. The foregoing Constitutional Amendment shall be submitted to the qualified voters of the State of Texas as at a special election to be held on the fourth Monday in August, 1937, at which election all voters favoring such proposed amendment shall write or have printed on their ballots these words: "For the amendment to the Constitution of the State of Texas so as to authorize the legislature to fix the manner and basis of compensation for all district, county, and precinct officers." And those opposed shall write or have printed on their ballots these words: "Against the amendment to the Constitution of the State of Texas so as to authorize the legislature to fix the manner and basis of compensation for all district, county, and precinct officers." Sec. 3. The Governor of the State is hereby directed to issue necessary proclamation for said election and have the same published as required by the Constitution and existing laws of the State. Sec. 4. The sum of Five Thousand Dollars (\$5,000) or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State not otherwise appropriated to pay the expenses of said publication and election. The above is a true and correct copy. Edward Clark Secretary of State.
