YOUR COUNTY SEAT NEWSPAPER

County To Receive More Hopper Poison

With the shipment of 40,000 pounds of bran and the same amount of cottonseed hulls, to be used in mixing poison for distribution in the grasshopper killing campaign, the county will lack only 20,000 pounds of the mixture which is needed immediately according to Jake Tarter, county agent.

"We should have 1000,000 pounds to give out as soon as possible so that the pests can be kept under control," said Tarter, "and this shipment will help out a lot." The shipment will arrive Monday, unless there are complications, and will be distributed until it is completely given out.

Only about 10 percent of Wheeler farmers need "all they can get," Tarter stated, and those are the ones who failed to get in on the poisoning toward the beginning of the campaign.

This shipment of bran will come from Anson, in Jones county. Tarter said, and the hulls will come through the West Texas cotton oil mill from Quanah. The eight barrels of sodium arsenite will be sent from Benjamin, in Knox county.

R. R. Reppert, state entomologist who has been instrumental in the grasshopper program, was in Wheeler to get reports Thursday, and lauded the county for its co-operative work in the campaign. Reppert spoke to county farmers at an open discussion meeting in June, just before the first poison was shipped to Wheeler.

Reports from farmers show that the mixture has been working on the hoppers, according to Tarter, and only 10 percent of the county agriculturalists will be seriously damaged.

County Girl Noted In Clothing Work

Home demonstration club members and 4-H club girls of the Panhandle are showing a great deal of interest in clothing work, county home demonstration agents of the section report.

Varied articles of clothing have been completed by Frandie Beatty, member of the Center 4-H girls' club in Wheeler county. Frandie has hemmed a cup towel, made an apron and three undergarments, remodeled a dress, made two children's garments, and completed a smock.

A red print cotton material which cost 57 cents was used by Inez Britten, of the Rivercamp 4-H club in Childress county, to make a school dress of the sport type.

Posters illustrating the becomingness of round, square, and V-shaped necklines were shown at nine Lynn county 4-H girls' club meetings which attracted a total of 154 girls. Girls with different shaped faces were wearing girls' clothes appropriate necklines for them.

"I bought ten cents worth of cellophane in town and made a bag to keep dust from my blouse," Mrs. J. R. Hale of Hardeman county told club recently. Mrs. Hale stuck the edges of the material together with paper and taped one side. The garments are hung on a hanger, the bag is put over them and the taped side is pinned. Two packages of the cellophane will make three bags, Mrs. Hale said.

Dr. Hall Returns From New Mexico

Dr. V. N. Hall, who has been district dental surgeon for the Albuquerque, New Mexico, district of the Civilian Conservation Corps for the past six months, and his wife, have returned to Wheeler.

Dr. Hall will resume his dental practice in the same office of the City Drug building that he occupied when he left.

Doris Churchill who has been a guest in the E. C. Raney home the past two weeks returned to her home in Muleshoe Saturday.

Rev. and Mrs. E. C. Raney and Ethel Claire and Mrs. W. O. Puett were visitors in Clarendon last week.

Mr. and Mrs. W. S. Barnes and family visited Mr. Barnes' parents in Childress last week.

Mr. and Mrs. Dick Sharp and son of Pampa were visitors in the E. T. Cosper home Sunday.

Melba Barnes who has been visiting in Childress returned home last week.

Gets Credit For Clean Sweep

When Rudolph Hiltbrunner goes out to do a job, he really does it thoroughly, and in some instances, as just the other day, he is so interested in doing his job correctly that he takes a couple of warmups to get the feel of his operations.

Jake Tarter sent Hiltbrunner to sweep out the house, where Jake wished to move into, later this week, but apparently the location of the house was not well-known to Hiltbrunner, and two residents of that part of town were not exactly sorry about it.

Hiltbrunner first went to the house of A. Finsterwald, where he had to climb in the window, and did a job of removing all dust from the floor. Someone had seen him go into the house though, and came over to warn Hiltbrunner that he had been in the wrong house.

Taking a hitch in his trousers, Hiltbrunner proceeded to another house, where he again crawled thru the window. And again he swept vigorously until Constable E. McBee and Cap Clay, who owns the house, came down to stop him, after they had received telephone calls telling them of some "intruder" in the Clay house.

On his third attempt, Hiltbrunner found out the sure location of the house he was supposed to clean, and bore down on it, with the observation that he was "certainly making a clean sweep of it."

Softball Starts To Organize League

Softball season was officially begun in Wheeler Tuesday and Wednesday evenings, when the first games of the year were played. In preparation for organizing a city league the first two were merely practice games for the group.

Plans for organization are being worked out, and it is hoped by organizers Bill Perrin, Louis Cain, and Chester Lewis, that some method of team selection may be found by next week. The chief aim this year, Perrin said, will be to organize the league so that it will be most interesting and well-balanced.

Tentative plans were being made for finding outside competition, with the FFA team being organized by W. C. Zirkle.

High interest is being shown by many townspeople including those who decline to play because of "age." All who would like to play are invited to participate in the practice games, and to sign up later to play on a regular team.

The practice games have been played on the high school grounds, south of the stadium, and plans will be made for a permanent summer field. Perrin said that considerable interest has been shown, concerning competition with outside towns that have "salty clubs." Although the Wheeler clubs are getting a late start it is thought that they might develop enough to give some stiff fights.

Roving the Field

Softball short stops: Stina Cain holds down one of the most airtight third bases seen hereabouts, and he looks like all-star material; Chester Lewis' arm held up well during the first two games of the week, since he has had no practice pitching this summer, except that of throwing letters into mail box holes; La Veau talks the best game of the season, and plays the worst; Theodore Conner gave evidence of his breaking training rules, when he stumbled through the last three innings in his catching position Wednesday; Gravy Burgess handles a softball bat about as well as a croquet mallet; Lonnie Lee and C. J. Meek claim they have graduated to the "umpire" class, and called the first games of the season; R. G. Russ plays softball with his straw sailor hat on, and it wasn't knocked off in a whole game.

Croquet Rivalry Evoked With Match

Coming out of temporary retirement, Bob Rodgers and Bob Holt vindicated themselves Wednesday night in trouncing their best rivals, Gravy and Troy Burgess, in a two-game croquet match.

Holt and Rodgers had smooching sailing in trimming the opposing team and proving that after all they deserve better competition than some that has been offered them.

Burgess and Burgess failed to get steamed up in the whole match, while Holt and Rodgers found the wickets with ease. One game was a "skunkout" for the winning twosome, while the other was not quite so easily won.

Pampa Group Hears Plans Of PWCA

Stressing the importance of co-operation in working on the Panhandle Water Conservation project, and asserting that there was no local greed in any section in the attempt to get projects approved for water handle, John McCarty, president of the Water Conservation association, and a publisher of the Amarillo Globe News, spoke to a joint luncheon meeting of the Pampa Chamber of Commerce, Wednesday and to delegates from Panhandle and neighboring cities.

McCarty outlined the brief history of the conservation group, and brought out the special differences and removed setups of the group from the established projects of water conservation on rangelands and on cultivated lands. He pointed out some misunderstandings held by some farmers and others who believed that the water conservation plan was to replace the conservation plan which is now being carried out through various government agencies. "This project is completely new, and everything about it is new," said McCarty, "and no method of conservation which is now under way will be affected by the new setup. \$10,000,000 has been allotted to the five-state area in the 'Dust Bowl', and tentative plans have been made for beginning the work."

McCarty explained that the Panhandle Water Conservation Association is especially designed by the government to deal as a unit with any and all agencies concerned with its programs, and state laws to that effect have been passed. Thirty-two counties are included in that unit.

The conservation plans are made so that there will be a major dam site in each county, and especially large regional dams will be built in some places.

"The Association wishes to express its appreciation of the work done by said Congressman Marvin Jones," McCarty said, "since Jones was largely responsible for the appropriation which was made."

Attending the meeting from Wheeler county were Judge W. O. Puett, Wheeler; John Dunn, Mobeetie; A. I. Baird, Mobeetie community; and Calvin Mannen, Wheeler.

County Judge Is In Favor Of PWCA Plans

"If Wheeler county is going to take part in the Panhandle Water Conservation program, and it certainly should," said W. O. Puett, county judge, in an interview following the Pampa Chamber of Commerce luncheon, Wednesday. "There must be some immediate action taken in planning tentative dam sites, as John McCarty suggested at Pampa Wednesday." McCarty had reported that the government engineers will be making an intensive survey within the next 30 days, and tentative plans should be ready to be submitted.

The Farmer's Agricultural Council has turned in the names of men who will represent that group, and the Commissioners Court has appointed a location committee, which will submit the tentative dam site plan. In the group were A. J. Baird, precinct one; Tom Britt, precinct two; Paul Macina, precinct three; C. A. Morgan, precinct four; and Judge Puett. Judge Puett has not accepted the appointment yet, since work on the Equalization Board will require much of his time within the next two weeks.

"This new project could be a great benefit to Wheeler county," Judge Puett said, "since there are several sites favorable for dams and lakes, which could be easily made into beautiful parks and recreation grounds. Lakes could be fed by living springs, too. This is a really worthwhile program, and this county should do some real work in order to deserve a part of the appropriation."

Beauty Shop Gets New Wave Machine

Mrs. J. C. Perryman, manager of Perryman's Beauty Shop, has received a modern permanent wave machine this week, she announced, with which she will be able to give better and more efficient service than ever before.

The new machine is a Sanders, and is equipped with 24 heating units. Modern attachments include an automatic timing device and a voltage indicator, which makes the machine do constant faultless work.

Mobeetie Has Amateur Program

With the development of an ordinary night of entertainment, which was begun as a project to aid the Girl Scouts of Mobeetie, Mobeetie business men have begun to sponsor a regular Saturday night program, and are offering prizes to local amateur contestants.

Charley Fultz and Doyle Gudgeon won first prize at the program last Saturday night, and a prize of \$9 is being offered on the coming Saturday night program, which begins at 8 o'clock.

Leonard Green announces on the program, and an amplifying system, owned by Nathan Hunt and Ralph "Shotgun" Martin, has been installed, with the microphone situated in the window of the Cicero Smith Lumber company.

Success of the program does not need to be declared, since the attendance within a very few weeks has jumped from 20 or 30 to nearly 450. One hundred and twenty-five cars were counted by Bill Eisenmenger, local constable, at the last program.

County Schools In Need of Recent Increased Funds

The raised school fund apportionment, made by the State Board of Education at a recent meeting, will be a great help to Wheeler county schools, according to B. T. Rucker, county superintendent of schools.

The balance of Rural Aid for 1936-37 was also approved by the board, Rucker said, and will bring payment up to 90 percent of the original grant. These funds cannot be released, however, until a joint legislative committee passes on them.

"Wheeler county is badly in need of the school funds," Rucker stated, "since the various districts are paying 8 to 10 percent interest on approximately \$12,000.00 borrowed funds."

125 Attend Workers Conference

Approximately 125 delegates attended the North Fork Baptist Workers conference held at the Wheeler Baptist church Tuesday, according to Mrs. Raymond Waters.

Principal speakers at the meeting were Rev. W. O. Cooley, Rev. J. E. Burkham, Mobeetie; Rev. Robert Lawrence, Lefors, and Rev. Lonnie Webb. Mrs. J. E. Burkham, J. W. Lummus and Mit Bullard were in charge of the music during the conference.

The morning program was concerned with sermons and music, and ended with a lunch in the church basement at noon. Business sessions and board meetings were conducted during the afternoon, and the meeting closed at 3:30.

Churches Will Hold United Revival

Three Wheeler churches and three pastors will take part in the annual Wheeler co-operative revival, which will be held for two weeks, beginning Sunday, July 25.

The Baptist, Church of Christ and Methodist churches, with the three pastors, Rev. Taft Holloway, Rev. C. C. Merritt, and Rev. E. C. Raney, will participate in the unified type of revival, and services will be held in all churches every night, with day services to be held in the Rogue theater.

Cottage Prayer Services Are Announced

A number of cottage prayer meetings have been arranged for next Wednesday and Thursday evenings, at 8:30. These are at convenient places throughout the town so that everyone may, if they will, attend one or more of these meetings. The following places have been selected. If for any reason it is not convenient for any of you to have these meetings, please report to your pastor as soon as possible.

Mr. R. H. Forrester, Mrs. Morton, Mrs. J. M. Porter, Judge W. O. Puett, Superintendent J. L. Gilmore, Mr. Bob Rodgers, Mrs. John Ficke, Mr. Bill Perrin, Mr. Ernest Lee, Mr. Jim Risner, Mr. Roy Badley.

There will be a special meeting Monday night at 8:30 for the workers and the heads of the families where the prayer meetings are to be held. At this meeting instructions will be given about all the work. Plan to be at the Baptist church next Monday evening.

There will be no regular prayer services at the churches next week.

Two Are Caught After Escaping County Jail

New City Park Bandstand to Be Dedicated

Dedication ceremonies will be held in the city park Friday night at 8 o'clock when the Wheeler Municipal band will play in the newly constructed bandstand, which was built by the city council.

Featured on the program will be a dedicatory speech by Dr. H. E. Nicholson, special numbers directed by Theo Nichols who is a former student of Hardin-Simmons university, and numbers in which four musicians from Shamrock will accompany the band, according to J. W. Lummus, director.

The Band Mothers organization will have a stand at the concert, and will sell box lunches. There will be an unlimited supply of the boxes according to Mrs. Inez Garrison, president of the organization.

Concerts will be conducted regularly on Friday nights until the end of the summer, Lummus said.

All numbers on this program will be new, according to Lummus, and several were included in a large shipment of music which was recently received by the band. Included on the program will be "Eyes of Texas," "Grand Old Grads," "Style," "Fancy Free," trombone solo by Lummus, "Take Your Choice," "Salutation," dedicatory speech by Doctor Nicholson, "Zenith Overture," "Bones Trombone," "Joy Riders" directed by Theo Nichols, "Normal" directed by Nichols, "Washington and Lee Swing," "Stein Song," "Washington Post," "On Wisconsin," "Norma's Dream" and "The Star Spangled Banner."

Wheeler Student On Tech Honor Roll

Wayland Merriman, son of J. D. Merriman, county surveyor, who was a student at Texas Technological college at Lubbock during the spring semester, made the honor roll with an average of "A" according to a report from school records.

Merriman graduated from Wheeler high school in 1934 and entered Tech in the spring semester of 1935. He is a student in civil engineering.

During the summer, Merriman is employed in Lubbock, and is doing drafting and general engineering work.

Panhandle Farmers Improve Pastures

Pasture improvement work has engaged the attention of Panhandle farmers and ranchmen and is proving of great value, according to the reports of county agricultural agents in that territory under whose supervision the work is being done.

One hundred acres of pasture land has been contour-listed by Lynn Pace Haskell county farmer and stockman. Pace said that after recent rains the 100 acres held rainfall, whereas before the land was treated the water had been running off. The lister furrows on this grass land were 42 inches apart.

A good example of the value of contour furrowing in increasing the grazing capacity of pasture land can be seen on the land leased by V. M. Gladish of Dallam county, according to Joseph M. Hatton, county agricultural agent. Several years ago it was decided to put this land into cultivation but the plans were changed after a narrow strip had been plowed through the pasture. At this time the plowed strip is much heavier sodded than any other land in the pasture and Gladish estimates that it affords two or three times as much grazing as any other equal area in the pasture.

Fifteen Moore county farmers carried pasture furrowing demonstrations in 1936 and each one was pleased with the results and plans to do more this year. R. A. Weiss did an unusually good job on his 120 acre pasture, reports A. P. Bralley, county agricultural agent. Weiss cut some old lister points from 14 to 9 inches in width; by using these with the out mold-boards of his three row lister from which he had removed the center lister, he was able to make good furrows at intervals of seven feet for retaining extra rainfall.

Sheriff Raymond Waters brought in the two escaped prisoners, Tom Barnes and Everett Stroud, at midnight Thursday night, after a five-day search, when the men were tracked from their home at house near Granite, Okla.

The capture was made at about 8 o'clock Thursday night by Waters. Local Oklahoma officers and the county sheriff had been assisting in the search. Dale Pengetot, state highway patrolman, accompanied Waters to Granite.

Trail of the two men was traced to Magic City, where it was lost, and picked up again at Reed, Texas, on Elm creek. The next trace of the fugitives was found at Granite, where the men were found soon after an intensive two-day search over the two states.

Although there has been no definite information concerning the whereabouts of the two burglary suspects who broke their way out of the Wheeler county jail Saturday night, Sheriff Raymond Waters had traced the trail of the men, Everett Stroud and Tom Barnes, as far as their former home, Magic City, and was working on the case late this week.

The break occurred at about 9:15 Saturday night, according to Cecil Waters, jail custodian, while Waters was in town, and he learned about the escape when he returned to the jail at about 10 o'clock.

Stroud, who had been sent to jail, along with Barnes and John Emler to wait for trial in several burglary cases, had been the only trusty, and had been in confinement since June 20. None of the other prisoners had as good records or backgrounds as Stroud, Cecil Waters said.

The two escaped when Stroud rigged up a hook-like contrivance on the end of an old mop handle and reached over a 12-foot space, while in the dark, to get the jail keys. The mop handle was used to clean out the prisoners' quarters, and the short wire hook was used by the prisoners to reach fire with which to light their cigarettes. Prisoners are not allowed to have matches, and a stove is the only means by which they can get "lights."

The only other three prisoners in the jail at the time, Emler, and two men serving out fines, declined to leave when Stroud unlocked the doors and invited all to escape, Waters said.

The three men implicated in the burglary charges were to come up before the grand jury November 8, according to Sheriff Waters, and were to remain in the county jail, unless bond was made. Emler would likely have received the least sentence, since he was implicated in only one of the robberies, Waters said, while Stroud and Barnes were each charged in four cases.

Walter Davis, deputy from Shamrock, and Bob Boswell, state highway patrolman, wrecked the car in which they were coming to Wheeler at about 10:30 Saturday night, after they had received word of the escape. The automobile was overturned when the driver attempted to avoid hitting cattle which were crossing the road about eight miles south of Wheeler.

Jaco Buys Cafe; New Place Opening

M. C. Jaco announced this week the purchase of Nora's cafe, operated by Mr. and Mrs. Sam Watson until the sale. Jaco had formerly owned a cafe in Wheeler, and had later run a laundry, when he sold out last winter.

Mr. and Mrs. Watson are equipping a new restaurant in the Ernest Lee building, next to Ernest Lee Hardware, and will announce their opening within the next few days, according to Mrs. Watson.

FILE FOR TRANSFERS NOW

Announcement has been made, from the office of B. T. Rucker, county superintendent of schools, that all patrons who wish to make application for transfer of their children from one school district to another from the ensuing school term, should file at once.

August 1 is the deadline for applications to come in, Rucker said, and warned that usually there are some who wait until too late to file.

Mr. and Mrs. H. E. Young and son have returned from a visit with their daughter and sister, Mrs. Richard Carter at Woodville, Texas.

The Wheeler Times
 BOWINS & MOODY
 Owners and Publishers
 E. R. Bowins M. L. Moody

Published Every Thursday at
 Wheeler, Wheeler County, Texas

SUBSCRIPTION RATES
 In Wheeler County \$1.00 a Year
 Outside Wheeler County \$1.50 a Year
 (\$1.50 and \$2 After July 31)

Entered as second-class matter Dec. 18, 1933, at the postoffice at Wheeler, Texas, under Act of March 3, 1879.

SUBSCRIPTION PRICE UP

A merchant of the town has been selling overalls for \$1.50 a pair. They cost him \$1.00, plus the freight.

He buys a new stock and because of the increased wages of the manufacturer and the increased taxes, the new ones cost him \$1.25. On top of that the merchant is paying increased wages to his help and is also paying increased taxes. To cover the increased price his increased wages and taxes, he promptly prices the new overalls at \$2.00, with the possible concession to \$1.98 to make it look like a bargain.

He does not make any apologies for the increase. He does not hesitate and try to maintain the old price just because his customers are in the habit of paying only the \$1.50 price. He knows that if he does not pass the increase along he will be broke and out of business. If any customer questions the price, and very few of them will, his reply is that they cost more because his materials, wages, and taxes are all up and everything costs more.

Sometimes newspaper subscribers are not aware of the position of the publisher when he announces a raise in the price of subscriptions. They do not look at him in the same light that they would look at other merchants.

Nevertheless, the economic status of publishers often is very similar to that of the merchant. Rising costs make it necessary for subscription prices to be increased, and if there is no increase then there is not a justification for doing business.

Since the deadline has been extended two weeks, you have until July 31 to renew your subscription to The Wheeler Times at the old price.

THE PAUL REVERES OF 1937

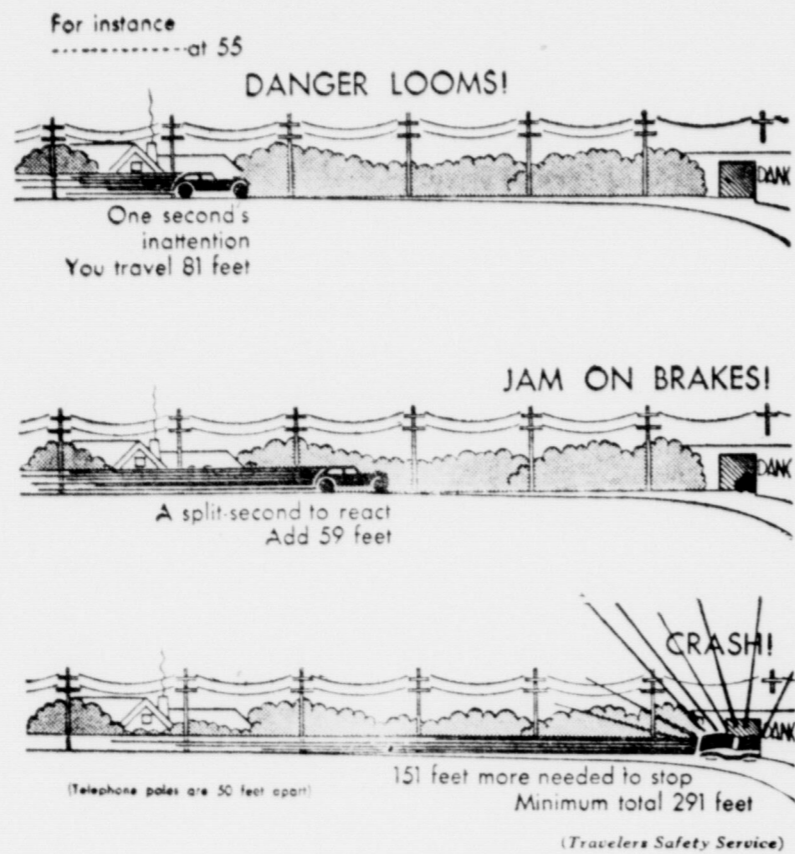

That veteran commentator on American politics, Mark Sullivan, can't figure out what is the matter with the American people. Instead of rising from their beds and reaching for flintlocks when Paul Revere gallops down the road shouting "The British are coming!" they merely turn over, muttering "Goodness gracious, is that fellow out again?" and go back to sleep.

Sullivan makes it plain in one of his recent syndicated articles, that the Reveres are riding and shouting the alarm. Not just one Revere, but a whole passel of 'em. He mentions himself, Walter Lippman, General Johnson and Dorothy Thompson by name, and suggests that there are quiet a number of others. Yet nobody rises and fares forth to battle, and Sullivan just can't understand it.

Paul Revere's name has become historic, not so much because he rode and spread the alarm to every Middlesex village and farm, but because the British really were coming. Just suppose that there had been a change in the British plans and that they had postponed the attack for 48 hours, or called it off altogether. Would anybody remember Paul Revere today if the alarm he gave hadn't proved genuine? If the British hadn't come the next day, and the embattled farmers had turned out to find no redcoat at which to shoot, Paul could have ridden his route every night for two weeks, to no good purpose.

The Paul Revere whom Sullivan

**"YOU BET YOUR LIFE"
 WHEN YOU DRIVE
 AT HIGH SPEEDS**

Put this question to ten of your friends who drive:
 "When you are going 40 miles an hour on a dry, level road, what is the shortest distance in which you can bring your car to a full stop?"
 If they are average, seven will say they can stop in 40 feet or less; two will guess somewhere between 40 and 80 feet; and one will be so uncertain that he won't hazard a guess.
 It is surprising to discover how little the average man knows about the first principle of good driving.
 You can assure your friends that if they do stop their cars in less than 40 feet from a speed of 40 miles an hour, it will be because they have rammed into a brick wall or a telephone pole! Only an automobile with very good brakes can stop in less than 80 feet from this speed, and it is impossible for any car to stop in 50 feet on an ordinary road because it will skid farther than that with all four wheels locked.
 The pictorial chart above shows the danger of driving at high speeds. At 55 miles per hour a car travels 81 feet in the single second during which the driver's eyes might leave the road to glance at a road sign or to look at an instrument on the dashboard. Once he sees a dangerous situation ahead, the car travels 59 feet during the time it takes him to get his foot from the accelerator to the brake. And then, even with good brakes, he cannot bring the vehicle to a stop in less than 151 feet.
 Many drivers pride themselves on how fast they can make their cars go; it is much more important for them to know how fast they can stop.

**Laughing Around the World
 With IRVIN S. COBB**

A Swiss Bell Ringer
 By IRVIN S. COBB

AT ONE period of his early journalistic life Bill Jones lived on the Pacific Coast. Mostly he made his headquarters in San Francisco. But business took him to San Jose and he liked the surroundings and stayed on her for quite a spell.

Then he made the acquaintance of a dissipated, middle-aged freelance journalist. Having more or less congenial tastes, the budding humorist and the newspaper man became fast friends. The latter had no fixed habitation. His residence address was the number in his hat and he was at home wherever he sat down—or fell down.
 Jones had occasion to go away on a special assignment for a syndicate to which he was furnishing articles. In his absence he invited the veteran to occupy his chamber at the local hotel. Upon his return at the end of four weeks the management handed him a bar-bill for eighty dollars. The entries showed the account had been run up in his absence.
 He went to his friend for an explanation.
 "How about this?" he asked, spreading out the statement before the beneficiary who sat on the side of the bed in a pleasant alcoholic daze.
 "Bill," said the other, between gentle hiccoughs, "it's like this: 'You remember when you went away you told me I was to use anything in this room?'"
 "Yes."
 "Well, I used the push button."
 (American News Features, Inc.)

mentions aren't getting much attention because they have ridden through Middlesex too many times before, when the British weren't coming. Just now as they ride shouting that Mr. Roosevelt is about to make our government into a Fascist state, with himself as Hitler, their wild cries are ignored by a public that remembers too well the alarms that have been given so regularly since 1932, and that didn't materialize. The answer to Sullivan's worries is that the public has come to understand that today's Reveres go riding and shouting chiefly because it has become a habit with them.—Wichita Daily Times.

8 EXTRA POUNDS OF RUBBER

TAPPING RUBBER TREES ON FIRESTONE PLANTATIONS IN LIBERIA
 From these plantations come an ever-increasing supply of rubber. Firestone saves in producing raw materials, manufacturing and distribution to give you more for your money.

Another Reason Why FIRESTONE GIVES YOU SO MUCH Extra Value at No Extra Cost

- YOU GET EXTRA PROTECTION AGAINST BLOWOUTS**—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process.
- YOU GET EXTRA PROTECTION AGAINST PUNCTURES**—because under the tread are two extra layers of Gum-Dipped cords.
- YOU GET EXTRA PROTECTION AGAINST SKIDDING**—because the tread is scientifically designed.
- YOU GET LONGER NON-SKID MILEAGE** because of the extra tough, long-wearing tread.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire value.

Marcelle Farmer left Friday for a visit with her grandparents, Mr. and Mrs. J. P. Meek in Childress.

Senator Urges Farm Tenant Assistance

Washington, D. C. Senator Tom Connally was active in aiding in the passage of the Farm Tenant Bill in the Senate last week, and sought to amend the bill to provide additional money for land purchasing, which would have meant land and homes for a larger number of tenants. The bill was passed, but without the Connally amendment.

The bill calls for the placing of deserving tenants upon their own land; the land to be amortized over a period not to exceed 60 years at a three percent rate of interest. Senator Connally expressed himself as strongly favoring the bill, but felt the sum of money authorized insufficient to substantially reduce the tenant problem.

As passed, the bill, authorizes the appropriation of \$10,000,000 the first year, \$25,000,000 the second year, and \$50,000,000 the third year.

The Connally amendment would have permitted the spending of \$50,000,000 the first and second year as well as the third year.

Senator Connally, in his plea for additional funds to place worthy tenants on their own land, stated the purpose of the bill in the following manner:

"This bill provides for the selection of industrious, successful farmers and for putting them on the land and letting them work out their own salvation. We appropriated \$300,000,000 for a substantial, sound program looking to the future. We need \$50,000,000 worse in the beginning of the program to take some of these people now on WPA and relief rolls and put them on these farms and give them some opportunity and some ambition and some hope.

The Farm Tenant Bill which passed the Senate had previously passed the House of Representatives in a slight different form. The differences will have to be ironed out in conference before the bill is sent to the President for his signature.

New manufacturing industry is coming into Texas at the rate of more than \$2,000,000.00 per month.

Methodist Church
(Rev. E. C. Raney, Pastor)

It may be hot, dry, cold, wet, and many phases of human nature actively may wax and wane, and there may be some factors that are definitely dropped out of human life, thought, and activity. There are financial depressions and the finances of the country be apparently dead but there is one institution which is like the brook, about which is said, "Men may come, and men may go, but I go on forever." That is the church, that body of redeemed people who know they have a definite hope here and hereafter.

They may be stronger in zeal and in number at some times than at others, but through the direct sacrifices of maybe a few members and nearly all the pastors the church forges along, sometimes ahead and at other times just marking time in many respects.

There was a term I heard in the army, "goose-stepping," a process of standing still and lifting the feet up and setting them down but making no advance nor retreating. This may have been called marking time and this is true with the church sometimes.

But who is the cause of "time marking"? Why just mark time or retreat? Let us get the full significance of the Generalissimo's command, "Go." The church should be a going institution at any time and at all times.

Church School will be held at the usual time—9:45. At 11 the pastor will use the theme, "The Work of the Holy Spirit in Conviction of Sin" League begins at 7:15, and song service at 8, using "He Findeth It Empty" as a subject, for the evening sermon. Let's go and cease to be time markers.

The trouble with some men is that they work too hard trying to get things they don't need and never ought to want.

Legion Members To Go to Miami Picnic

A number of members of the West post, Wheeler American Legion, will attend a picnic at Miami Sunday at 4 o'clock, according to Jim Risner, Legionnaire.

The picnic is being given for all posts in the eighteenth district, and all members have been invited to attend, Risner said. F. B. Craig was the only local member to definitely state he was going, but several have made tentative plans.

MISS BURLESON ATTENDS BRISCOE 4-H CLUB MEETING

"The container in which one is to can food should be smooth and unburnt, free from rust, and clean, stated Miss Dalton Burleson, county home demonstration agent, to the Briscoe 4-H club July 6.

A few other things which contribute to quality products are: smooth label, packed correctly, correct color, and natural flavor with a good texture. The food should be evenly graded and tender.

Joy Bill Riley won the canning contest in the club, and will represent the club in the county contest.

Those present were: Nellie B. Chandler, Mabel Alice Smith, Joyce Sarsenson, Laverne and Lavana Treadwell, Dollie Joe Greenhouse, Joy Bill and Betty Riley, Clifferene Swage, and Miss Burleson.

Pan-American Expo To Have Special Celebration

Dallas, July 1.—Swinging into action to give Texas and the Southwest its biggest and most spectacular Fourth of July celebration Pan American officials have centered all their activities toward assembling sensational attractions for the three days program. Pan America's celebration starts Sunday, July 3, and continues until midnight, July 5.

Three days of sham warfare will wage along the Exposition front when the great guns of the 69th Coast Artillery will defend the Exposition from bombing airplanes. The defense opens Saturday night and continues Sunday and Monday nights. Searchlights with 5,000,000 candlepower each and sound detectors will locate "enemy" planes at an altitude of 20,000 feet.

Jack Benny and Mary Livingston, the nation's most popular radio team, with a complete set of Texas stars, are free attractions in the Cotton Bowl. A free circus, elephants and all, is another three day attraction. At noon July Fourth the 11th Infantry, stationed at the Exposition, will fire a 45-gun salute over the lagoon in celebration of the Declaration of Independence.

Free attractions for the three days include the Major Bowes Amateurs at the Magnolia Lounge Theatre; Don Ramon and his Mexican orchestra featuring Belencita Ortega at the Texaco Gardens; Guatemala's National Marimba Band in the Pan American Palace and dozens of other entertainment features.

The Casino, Cavaleade of the Americas, Black Forest, Road to Rio are shows unsurpassed anywhere. The Pan American Palace presents the exhibits of many Latin countries. All exhibits are free.

EXAMINATIONS ANNOUNCED FOR CIVIL SERVICE JOBS

The United States Civil Service Commission has announced open competitive examinations for the following positions:

Senior motion picture director, \$3,800 a year; motion picture specialist, \$3,200 a year; and junior motion picture specialist, \$2,600 a year; Forest Service, Department of Agriculture, and Social Security Board, 620 a year (for the blind, experienced in the use of Braille and Braille machines); Office of Education, Department of the Interior.

All states except Iowa, Maryland, North Dakota, South Dakota, Utah, Vermont, Virginia, and Washington, and the District of Columbia, have received less than their quota of appointments in the apportioned departmental service at Washington D. C.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office of customhouse in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington D. C.

THIS AND THAT

Praise loudly; blame softly.—Catherine II.

Wit is the salt of conversation, not the food.—Hazlitt.

A generous heart repairs a slanderous tongue.—Homer.

We are growing serious, and let me tell you that's the very next step to being dull.—Addison.

It requires as much reflection and wisdom to know what is not to be put in a sermon as what is.—Cecil

No soul is desolate as long as there is a human being to whom it can feel trust and reverence.—Geo. Elliot.

The greatest affair of life is the creation of character, and this can be accomplished as well in a cottage as in a palace.—Ian McLaren.

To prepare joys for those surrounding us, that especially makes us love life. Everyone has not the calling of a scholar, a deep thinker; but every one knows how to love.—Mme. Edgar Quinet.

The reflections of a woman are often as satisfactory as those of her mirror.

It is a mean bachelor who advises a girl to marry and then fails to propose.

The average man considers other men wise only when they come to him for advice.

A man is prouder of things he thinks he can accomplish than of those he really can.

A man admires a woman who talks of his future and makes no inquiries as to his past.

An area within a radius of seven miles of Terlinga, Texas, is the second largest producer of quick-silver in the nation. California is first.

Short Course General Assembly Program Announced

The program of the general assembly meetings of the Farmer's Short Course, which will be held at Texas A. and M. College on August 16 to 19, will feature several nationally known personages, according to and chairman of the joint program division.

The general assembly meetings for men and women, which will be held at Guion Hall each day between 10:50 and 11:50, will again be interspersed with group singing lead by Walter Jenkins, song leader of Rotary International.

The principal speakers of the four sessions will be Dr. T. O. Walton, president of Texas A. and M. college, Monday; Honorable Hattin W. Sumners, member of congress, Tuesday; C. A. Cobb, director, Southern Div-Barbara Van Heulen, Associate Extension Specialist of the Farm Credit administration, on Thursday.

The chairmanship of the general assembly meetings will be held by H. H. Williamson, Director of the Extension Service, on Monday; by Dr. T. O. Walton, Tuesday; Miss Mildred Horton, State Agent and Vice Director of the Extension Service, Wednesday; and Jack Shelton, State Agent and Vice Director of the Extension Service, on Thursday.

Preliminary estimates place the number of men and women who will attend each general assembly meetings at between 2,000 and 2,500 Eudly said.

Boy Actor Works As Own Double

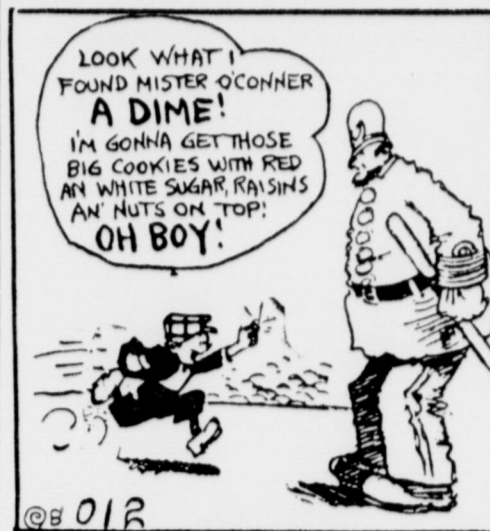

For acting as his own stunt man Freddie Bartholomew was paid double.

Unfortunately he gained nothing by it for in the process he lost a day's allowance at the bottom of Santa Monica Bay.

It was the scene from Metro-Goldwyn-Mayer's "Captains Courageous" in which Freddie and Spencer Tracy have just reached the side of the Gloucester schooner "We're Here" in their dory and are scrambling aboard as the race with the rival schooner starts. Freddie overbalances and falls between dory and schooner.

Mrs. J. T. Wiley of Houston who has spent the past two weeks visiting her son H. M. Wiley and family accompanied her daughter Mrs. Katto to her home in Plainview for a visit there.

REG'LAR FELLERS

Uncle Jim Says

Winter cover crops hold rainfall, check soil losses through erosion and leaching, and provide early spring pasture several weeks before permanent pastures are ready for grazing.

Dairymen who have planted winter crops of oats, barley, Italian rye grass, and similar small grains or grasses, have long noticed that the fields devoted to this purpose are more fertile than other fields which remain bare during the winter.

Over a large portion of the State, erosion does its worst during the winter, when heavy rainfall on unprotected fields allows big loss of soil.

In addition to offering protection against loss of rainfall and of soil, winter cover crops offer green roughage at a time when needed most.

FAVORITE RECIPES
By Bernice Moody

Miss Blanche Grainger gave me this salad recipe and even though it has been published elsewhere, it is so good and easy to prepare it is worth repeating. It is one that can be prepared hours or even days ahead.

No. 2 can sliced pineapple, diced 1 lb. marshmallows diced (dip scissors in hot water to prevent sticking)

1 cup diced orange
1 pint whipped cream.

Beat the yolks of 4 eggs, add 1/2 cup sweet milk and cook in double boiler until it thickens. When cool mix with the above ingredients and let stand in a mold or shallow pan 24 hours. Cut in squares or slices to serve.

Panhandle Farmers Find Profits In Poultry Flocks

Despite high feed costs and low prices for poultry products, many agricultural agents of the Panhandle and northwest Texas are reporting that farm poultry flocks, when efficiently managed, are returning profits to their owners.

A flock of 300 white Leghorn hens owned by Mrs. J. E. Venable of Hemphill county is averaging around 20 eggs per hen per month and is returning 50 percent above feed costs. The complete record that Mrs. Venable keeps on her flock shows that good quality birds, seasonal culling, adequate housing and a balanced ration are responsible for the excellent return.

The Garza county agricultural agent, in the period since January 1, has culled out some 200 birds from flocks totaling approximately 1,000 hens. At a recent culling demonstration, 15 poultrymen were present to learn the method used.

The 234 white Leghorn hens in the flock of Mrs. C. L. Thurman of the Corinth community of Jones county have returned \$180.49 above feed costs during the seven months on which records have been kept.

The starter ration recommended by the extension service was used by Marvin Miller of Taylor county to raise 330 chicks to eight weeks of age, when they averaged 1 1/2 pounds in weight. Miller will use cockerels which come from traped hens which made production records of better than 250 eggs a year.

Pleasant Hill
By Mrs. Jeter Smith

Paul Shumate of Amarillo visited his parents, Mr. and Mrs. J. L. Shumate Thursday and Friday of last week.

Mr. and Mrs. M. D. House of Hall county visited at the home of their daughter, Mrs. Weldon Weatherly last Sunday.

Mr. and Mrs. Claude Lamb of Lela visited with Mr. and Mrs. Clarence Anglin last Sunday.

Mrs. Roy Weatherly had as her guests over the week-end her aunt Mrs. M. H. Morton and family of Matador, Eldine Weatherly, niece of Mr. and Mrs. Roy Weatherly, who accompanied the Mortons here is remaining for a visit.

THURSDAY
10c and 15c
Grant Withers in "PARADISE EXPRESS;" two-reel Comedy; Short Subjects.

More RA Loans Encourage Canning

Every Resettlement homemaker in the county now owns or has available complete equipment with which to fill her canning budget, as a result of supplemental loans totaling \$785 which were recently made by the Resettlement Administration, according to Miss Vera Martin, county home management supervisor. This money was used to buy 33 cookers and a sufficient supply of cans and jars. It was a part of a special appropriation made when original allocations proved insufficient to cover canning equipment for all Resettlement families.

All Resettlement standard loans are based on a live-at-home budget. Unless families are equipped to consume a minimum of 35 quarts of vegetables, 25 quarts of fruits and 100 pounds of meat per person, they have to buy these items with funds which should go to repay their loans or purchase necessities which cannot be produced on the farm.

The home supervisor states that it will take an equivalent of 24,120 quart containers for the 85 Resettlement families in this county to fill their annual food budgets. If weather conditions make for good gardens, more than this will be stored.

Infantile Paralysis Is Summer Disease

Austin, Texas, July 15. Dr. Geo. W. Cox, State Health Officer, states that infantile paralysis, like typhoid fever, is largely a summer disease. Although cases may occur during any month of the year, over half the total number come in July, August, September, and October. To date, 69 cases of poliomyelitis have been reported to the State Health Department in 1937.

Direct contact between persons is regarded as being the chief factor in the spread of infantile paralysis. Because of the seasonal prevalence of the disease, flies and other insects have been suspected of conveying the virus or germ. Insect transmission has not however, been demonstrated. Although animals are subject to paralysis, they are seemingly not susceptible to the human type of this paralytic disease. Carriers are difficult to determine; this fact makes advisable the reduction to a minimum, of human contact during the outbreak.

Early symptoms of infantile paralysis comprise headache, a fever, vomiting, bowel disorder, drowsiness and irritability, followed by neck and back stiffness. Prompt medical care, early recognition and reporting cases make possible the use of valuable preventive and control measures.

After the acute stage of the disease is passed and walking is finally permitted the patient, under no circumstances must the affected part be fatigued. It is thus observed that the secret of successful rehabilitation lies in continuance of professional guidance and large doses of patience.

Children under five are more susceptible to the disease and all children under ten should be watched for suspicious symptoms. There are important things to do when a child shows symptoms. Your family physician should be called at once and physicians should report all cases to the health authorities immediately. When the disease occurs all cases should be isolated for 21 days. All milk should be boiled unless it is pasteurized.

Children should not visit homes where the disease exists or there are symptoms of it. Flies should be killed and their breeding places destroyed. Promptness in diagnosis of poliomyelitis is important in preventing spread of the disease.

An NYA work project on which 12 San Antonio youths may learn finger printing is being organized with the co-operation of the San Antonio police department.

The way of the world is to praise dead saints and to persecute living ones.—H. Howe.
