THE COUNTY SEAT NEWSPAPER

Damage Results From Sunday Night Storm

Hail in the Sweetwater, Okla., area late Sunday night did considerable damage to buildings, live stock and crops with reports that hail stones as big as baseballs fell in the vicinity two miles south of town. Cars, even those with all-steel tops, that were in the open at the time were dented and damaged consider-

A heavy rain, wind and electrical storm over the entire county sent many residents hurrying to storm cellars and several of those who had no such refuge wished they had.

While no severe wind damage has been learned of, heavy downpours caused newly planted fields to wash, requiring farmers to again plant their crops in several instances.

Heaviest rain was reported from the northeastern and southwestern sections of the county while approximately one and three-fourths inches fell in Wheeler.

During the electrical storm early the radio aerial leading into the Roe the 31st Judicial District of Texas ment to this new position. investigation found nothing ignited.

Only provisions are they must have their legal residence in this county and must possess a poll tax receipt. Most practical method for men in the service to vote will be through absentee ballot. Absentee voting begins July 5 and ends July 21.

PACKAGES TO MEN OUTSIDE

Packages can no longer be mailed to men in the military service who are outside the United States, or who are addressed as "care of the postmaster" either of New York, Seattle or San Francisco.

This order has been issued because of the urgent need of shipping space for military necessities, and packages to men are therefore barred from the mails.

RUSS STORE IS NEWLY LIGHTED AND PAINTED

The addition of fluorescent lighting to the show windows of the Russ Dry Goods store last week has caused the store front to take on a brilliant uptown appearance, improving materially the appearance of displayed merchandise. The interior of the store has had fluorescent fixtures installed for several months.

Painting of the interior ceiling of the store was also started this week and will add greatly to well-lighted neat appearance of the modern store.

GROUP LEAVE SATURDAY NIGHT FOR VACATION TRIP

Mr. and Mrs. Buck Britt and son, Sam; Mr. and Mrs. Ansel McDowell and son, Ansel, and Mr. and Mrs. Glenn Render left Saturday night for a week's fishing trip at Red River, N. Mex.

Mr. and Mrs. Frank O. Wofford, who have been at Boise City, Okla., the past few weeks, plan to join the party at Red River,

Goes in Operation First of July

Plans for beginning operation of the Wheeler County Rural Health Service on July 1 are practically complete, according to an announcement issued today by the board of

This Rural Health Service program is designed to provide all participating farm families in Wheeler county with necessary medical care at a cost based upon their net income. The program also provides for hospitalization and dental care necessary to protect the health of the individual.

All farm families receiving a portion of their income from agriculture are eligible to participate in the plan by paying six per cent of their annual net cash income into the corporation. The maximum cost for a year's service for any one family is \$54.00. The minimum cost is \$6.00 per year.

Payment of six per cent of its annual net cash income, up to \$54 .-

WHEELER COUNTY RURAL HEALTH SERVICE Real life dramas often are staged in odd theatres, and often

their audiences obtain but fleeting glimpses of the actors, their emotions and sometimes their history-making actions across the footlights of existence. Wheeler county citizens, for example, soon will begin sharing

the national spotlight with the citizenry of a small number of selected counties throughout the United States in a life and death drama which, to the more skeptical, might appear as an experi-Reference is made to the Wheeler County Rural Health Service. The public in general, and the medical pro-

ticular, will study the record of this rural health service plan and the ultimate decision may well affect the health, welfare, security and happiness of human beings for centuries to come. The Wheeler County Rural Health Service simply means that

farm families, physicians and dentists in this county have arranged to operate a plan which will provide rural people with medical care and some degree of hospitalization and dental service at a cost based upon the family's income, and at the same time insure physicians, dentists and hospitals a favorable return for their ser-

The inability of millions of farm families to pay for adequate medical care, hospitalization and dental service is a fact pretty well recognized. The inability of physicians, hospitals and dentists to provide more adequate service to a group unable to finance these services is a well established fact, also.

The pre-payment plan for health service is nothing new except as applied to agriculture. It has been operated successfully in industry for several decades. It's first successful application to agriculture was made in recent years by the Farm Security Administration of the United States Department of Agriculture.

This federal agency, which assist low-income and often impoverished farm families with financing and guidance, conducted an investigation to determine why so many low-income farm people had failed. The investigation revealed that 70 per cent of the "failure" cases were traceable to ill health.

The Farm Security Administration believed the only feasible approach to the problem was the grouping of families paying a flat fee per year for medical care, under a plan to include physicians agreeing to treat them at a uniform fee schedule which would take into account the families' low income.

This plan now is operated in only a few agricultural counties throughout this country. It has been successful because the Farm Security borrower-families realize they had desperate need for such a service and wanted one. Physicians, especially rural physicians, were anxious to readjust a system of compensation which left them after a period of years with thousands of dollars worth of unpaid bills.

Following closely upon the success of the FSA group medical care plan, which is restricted to those families who are borrowers from the federal government, the idea developed that perhaps there were yet millions of rural people who had a real need for services beyond their economic reach. Thus came into being the experimental plan which will begin operating in Wheeler county on July 1. These experimental rural health programs are sponsored by the Department of Agriculture's Interbureau Coordinating Committee on Post-War Programs.

It seems apparent that only through some approach, such as this, can millions of farmers overcome the inability to pay for services affecting their lives. Moreover, it seems certain that physicians, dentists, nurses and hospitals cannot extend more service than now without a larger return.

war efforts make for a scarcity of medical services in rural areas; created at a time when national health is so vital to the war effort, the Rural Health Service program may easily be the beginning of a new era for human kind. The physicians, dentists, hospitals and the several hundred farm families who are in-

augurating this plan in Wheeler county are to be commended for their spirit of joining in an experiment which may easily become as far reaching as the experiments conducted by Pasteur

POST WAR LEADERS

Some high government officials such as vice-president Wallace and undersecretary of state Welles, have made interesting speeches of late, which cast a light on this nation's world destiny.

It is said that we will be the leaders in stabilizing the world after the war, and in maintaining order. But it is also said that our program will not be imperialistic in the traditional sense. Past imperialism has been based on subject peoples and nations. The new kind of imperialism, as Mr. Wallace puts it, is to be based on equal peoples, working together toward a common goal of peace and

If, as seems likely, this nation escapes wholesale bombing and invasion, we will have the only effective production plant on earth when the last shot is fired. Destitute nations will look to us to help them to their feet. It is a challenging prospect -and a gigantic opportunity.

WHEELER

Concerning Wheeler County Rural Health Service As Represented By Local Officials

June 11, 1942 issue of The Shamrock Texan carried an article which stated, "All doctors of the county are cooperating in the program which is being sponsored and financed by the Farm Security Administration."

Correction of this statement was made in last week's issue of The Shamrock Texan

This Statement Is Not True

Of my certain knowledge there are four (4) doctors in Wheeler County who either choose not to participate or against whom certain commercial or legal discrimination is being pressed by a selfish group who is determined to rule or ruin doctors of every school except their own. This will result in restraint of trade, the precise intent of this group-in some particulars.

Conviction of Medical Groups Is Upheld

Monday, June 15, 1942, according to an Associated Press dispatch, "The United States Court of Appeals Monday upheld the conviction of the American Medical Association and the Medical Society of the District of Columbia on charges of illegal restraint of trade in violation of the anti-trust laws. The two organizations were convicted in district court last year."

IT CERTAINLY IS THE INTENT OF THE F. S. A. to render a much needed service to low income groups and it is our sincere hope that plans can be perfected so that this service can be a reality in accordance with democratic principles.

It Certainly Is Not the Intent or Purpose of the F. S. A. that any representatives of the program mislead the possible contributors to this program or the public on the matter that "ALL" doctors were co-operating—ONLY TO FIND THAT IN TIME OF NEED the doctor of their choice was excluded intentionally from the beginning or that certain service could not be obtained in Wheeler County—that is included on the F. S. A. papers and service, which the head of the family has paid for, and has the right to expect.

MY CREDENTIALS are on file on the medical register No. 1 page 43 in the District Clerk's office, Wheeler,

THIS IS AMERICA. No special privilege group has the right in war time or peace time to wrest from you the privilege of choosing the doctor of your choice-UNLESS YOU GIVE THIS GROUP THAT RIGHT. Investigate, compare, reflect and KNOW before you act or talk loosely about this matter.

THIS INFORMATION-THE ABOVE FACTS are respectfully submitted for the enlightment of the citizens of Wheeler County who desire to see right prevail.

Signed-DR. R. M. CRATON

Santa Fe WINTER WHEAT and your WINTER WHEAT For example, in April, 1941, Santa Fe freight Once more the miracle of the winter wheat

harvest is with us. Nature has been kind, in Santa Fe territory, and another bumper crop is indicated. Prices, too, are good:

That is a happy prospect, but it brings serious problems with it—both for you who raise the grain, and for us who move it. You face a shortage of harvest labor, and

a serious lack of storage space, at terminals and in rural bins, because of the unprecedented carry-over of old wheat. We face the job of moving a vast grain tonnage, in a short time, on top of the greatest railroad traffic load in history.

cars moved 108,131,891 miles. In April, 1942, that mileage had leaped to 142,823,878. A great part of that 32% jump represented war freight, that must move first.

Santa Fe pledges every possible help in moving 1942 wheat to points where it can be accepted and placed for use. Of you we ask prompt loading and unloading, and that no car be used for storage, even temporarily. Let's pull together and whip this war-born transportation problem, as we have so many others in the long years we've worked together.

AT YOUR SERVICE-Talk over your transportation problems with your Santa Fe representative. He'll be glad to help with practical suggestions.

EFFECTIVE WEDNESDAY, JULY 1 Order No. 6-Office of Defense Transportation

Effective July 1, 1942, we are not permitted to make any special deliveries except to the armed forces of the United States. This means that if a customer calls, asking for delivery of merchandise we cannot make a special trip but can make the delivery on the next scheduled delivery. In addition to this a further regulation is imposed. Effective July 1, 1942, we can make but one delivery a way to any one person except in a case where the order given is more than one load. Example: The terms of the order prohibit our delivering a customer a part of a truck load of gasoline and returning later with two barrels of oil.

Also effective July 1, 1942, and by order of the Office of Defense Transportation, we are prohibited from making any "call backs" with automotive equipment for any purpose in connection with the delivery of merchandise. That is to say that we cannot in any case call back for such purpose as collecting, picking up drums, or for any other reasons.

The foregoing regulations form just a part of the order officially known as "General Order Number 6, Office of Defense Transportation, Part 501, Conservation of Motor Equipment." This balance of the order defines our own responsibility to its prosecution. It is summed up in these few words under the heading of "Reduction of Mileage" . . . Effective July 1, we must effect a reduction in mileage of 25 per cent over and above the saving resulting from eliminating "Special Deliveries," "Call Backs," and "More than one Delivery a Day," therefore, it is obvious that we must have your closest co-operation for this means in many instances that we must reduce our truck travel by 50 per cent or more.

MAY WE HAVE YOUR CO-OPERATION?

WHEELER WHOLESALE

There Is Plenty of Proof that

SHORTEST DISTANCE BETWEEN TWO

POINTS

Did you ever think of advertising as a short cut, a time saver?

As a matter of fact, that's all it is.

It enables a store or factory with a lot of merchandise to sell to find a lot of people who want it.

The people who use advertising find it the cheapest way of doing this job.

Which helps to keep prices down.

Phone 35

Women Read the Times

... because they find in The Times so many things they want to know. Women like news, just as do the men, but first of their clubs and organizations, special articles for women, home-making hints, reports of social events, local items and news from the several communities published in the paper. Next they, too, want to keep informed on subjects of general interest pertaining to county, town and community-and hundreds of them have learned this can be done quicker and easier by reading The Times. In addition, women like to plan their shopping through the advertisements in this paper, because they know them to be accurate and helpful as well as a dependable guide to economical buying of supplies. Records show that by far the larger part of all shopping for the home is done by women, therefore advertisers find it profitable to present their messages through the columns of The Times.

management of world police, our international law, our regulation of eral times afterward if it is strained population movements, all these and each time before being put away. many other aspects of our complex For this purpose several thicknesses modern living must go under plan- of cheesecloth or other clean white

> "Every bit of surplus fat, unless ing friends. it is too strong in flavor or has been easily may be clarified at home. To do this, melt the fat with an equal volume of water, heating at a moderate temperature for a short time, stirring occasionally, and then cooling until congealed. The fat then can be lifted from the water surface.

All fats should be stored in closely covered containers in a dark place and away from strong-flavored foods. Table fats should be kept very cool, in a refrigerator if possible.

a federal tax on church-supported and church-aided colleges. It is pointed out that these institutions even now are facing curtailment in revenue and in students because of the demand for youth in the war and in industry, and that added taxes will ruin the colleges.

"For more than 150 years," says the Methodist educators, "the United States government, even in periods of extreme poverty, has held sacred her colleges, charities and churches, has regarded them as essential moral-creating agencies and has never imposed any form of taxes upon

The American Friends Service committee, through which a number of the larger Protestant communions in the United States are feeding children in France, reports that it is still carrying on despite the growing shortage of food in that country. The committee's representatives have been able lately to purchase some foodstuffs so as to continue the program of feeding 84,000 school children daily. Approximately 650 children are fully cared for in the Friends' children colonies; 5,000 babies are receiving milk through milk clinics; 300 children receive supplementary food through a "home colony" plan; 100,000 children are receiving a seven-week's treatment of Vitamin D; and in the internment camps about 2,000 children and 5,-000 aged and ill people are receiving food and clothing.

Despite the disorganization of French life and activities, the Paris Evangelical Missionary Society has resumed the support of its missions in Madagascar, Togoland, and Senegal, according to Dr. A. L. Warnshuis of the International Missionary Council.

During 1940 and 1941, the work of this society was saved from extinction by American and British "orphan mission funds" provided by American and British churches through the International Missionary Council. This fund continues to aid the Paris Missions in Basutoland, Barotseland, the Camerouns, the Gabon in Africa; and also the missions in Nek Caledonia, and Tahiti, in Oceania.

Dr. Lynn Harold Hough, dean of Drew Theological Seminary, Madison, N. J., will leave shortly by plane for London, England, where for six weeks he will be the guest preacher to the congregation of the City Temple, one of England's most famous churches.

Because its own edifice was badly damaged by bombing in the early days of the war, the City Temple congregation is now worshipping in the Church of the Holy Sepulchre. Dr. Hough has been an annual preacher in London for many years.

Dr. H. H. Kung, China's noted Christian financial minister, some years ago organized the National Child Welfare Association of China, and is now its president. During the present war period, the association has 18 camps and homes for the care of children. Six thousand four hundred forty-seven children are cared for in these centers. The Chinese government provides funds for the care of some of them; and the Church Committee for China Relief (American) assists in the support of others. A kindred organiza-tion is the Wartime Children's Protective Association, founded by Madame Chiang Kai-shek. It has gathered thousands of refugee children off the streets and roads. In eleven provinces it conducts 46 nursery schools for 7,104 childrenpartially supported from America.

Mrs. Glenn Porter and children have returned home after visiting several days in Dallas.

In the days of Caesar it cost approximately 75c to kill a man. During the Civil War it cost approximately \$5,000 to kill a man. During World War No. 1 it cost approximately \$50,000 to kill a man. In this current Mechanized War it costs approximately \$125,000 for every

A 35,000 ton battle ship costs \$70,000,000...takes 3,362,000 manhours, or approximately 4 and 1-2 years to build . . . requires 62,000,000 pounds of steel ... 2,000,000 pounds of copper .. 1,000,-000 pounds of zinc...1,000,000 pounds of aluminum... and 750,-000 pounds of nickle.

This war is costing a tremendous sum, isn't it? But at any monetary cost it is a cheap price to pay for victory, isn't it?... A cheap price, indeed, to guarantee the perpetuation of our Democratic way of life. A cheap price to guarantee that our privilege of doing whatever we please whenever we please will not be lost. Freedom, our freedom, cannot be measured in dollars and cents. It has more, much more, than monetary value. But it takes money, huge sums of money, to make our nation secure against our attackers.

Last year total income in the United States exceeded \$90,000,000,000. How much of this sum do you think the individuals earning it would be permitted to keep, and to enjoy, if we lost this war and we were

ruled by our conquerors? In the countries defeated by the Axis powers, and now occupied by them, the subjects have been stripped of everything. Even food sufficient to sustain healthful living has been denied these unfortunate people. The wealth that they had spent their lives in accumulating has gone to the victors.

Draw your own conclusions of the fate of this nation should our armed forces fail to repel our enemies.

You and You and You . . . Every loyal American is needed now to buy Defense Stamps and Bonds with all the resources at his command...to work more diligently than ever before to produce all the things required-food, clothing, guns, ships, tanks, planes, ammunition-to keep our fighting forces fed better, clothed better, and armed better than the enemy. for the key to victory is held by the nation or group of nations with the ability to equip, supply and sustain its fighting forces best on the battle field. Your clear-cut duty is to help to accomplish that end.

Uncle Sam desires that the retail merchants, the service institutions, and the professional men of our nation carry on as normally as possible, considering that we are at war. Locally, the people who man and manage the firms and institutions which serve you are doing all they can to serve you the best they can. If war has forced certain restrictions or made limitation of certain services mandatory, accept the changes with gracious understanding and remember one fact ... It is their wish and their responsibility to adopt those business practices designed to lend greatest help in the battle to insure victory and the survival of our American way of life.

(By a Rogue)

Wild Bill Hickok Rides Well, folks, you have seen the life of Jesse James on the screen. You

have also seen the Youngers and the Daltons. And now comes the story is no blanket draft deferment for of another famous character of the men in any industry. That, they early west; that of Wild Bill Hickok. said, is neither expected nor desired. This picture is much more than just The drafting of men from farms and another western. It depicts another ranches will continue, just as it will chapter in pioneer American history. continue from shipyards, airplane and as such we heartily recommend factories, munitions plants and the it to you. It ranks right along with other epic stories such as those mentioned above. The stars are Bruce Cabot, Constance Bennett and William Farnum. So put it on your must see list and be there when the curtain rises Friday and Saturday,

Abbott and Costello

Here they come again, those most ture will readily admit that they are the tops in entertainment. You will Miss Helen Green is in Fort Worth recall seeing them in Buck Privates, Ride 'Em Cowboy, so when we tell you that they will be with us again Preview, Sunday and Monday, June on the lookout for it. In the meantime we will try to hold you a seat Mrs. Rose Lyde of Hobart, Okla., for Hold That Ghost, which is a

The changing times-take your choice. Choose one.

If the soon coming form of government is a socialistic one, and you have two cows and I have none, you give me one.

If a Nazi form and you have two cows, the government takes both, you milk both, government gives you little milk.

If a Jap Monarchy, you have two cows, government takes both, you milk both, government sell you little.

If a New Deal form, you have two cows, government shoots one, you milk the other and pour the milk down the sink.
