THURSDAY, AUGUST 5, 1943

Hibiscus flaunts its big, crimson blossoms down in the Lower Rio Grande Valley and bougainvillea's light purple is all around. Thousands and thousands of orange and grapefruit trees line the highway and, in season, are radiant in blossoms and fruit. Then there are olive trees and lemon trees as well as palm trees of contrasting kinds—one a chunky "explosion" of dense green leaves, the other a slim and graceful trunk crowned with foliage.

Then there are mocking-birds, and butterflies, the Gulf of Mexico and the Rio Grande with "a foreign land only a step away." With this tropical wonderland of beauty, perfume and song in Texas, nevertheless it is estimated that only a million out of our 6,500,000 inhabitants have ever visited the region. It is probable that more of the inhabitants of the upper half of the State have viewed much more distant but less charming Southern California.

This should not be. Texans should see their own Magic Valley at their first opportunity.

Jim Grisham, Dallas attorney who used to practice law in West Texas, has a droll sort of wit. One day, a young lawyer of the oil boom town who had very little learning or experience, met Grisham and exclaimed, "I've just been paid a thousand-dollar fee to represent a man accused of murder. If you were me, what would you do?" Grisham solemnly answered, "I would use part of the fee to hire me a good lawyer." Afterward, he related, "You know that fellow walked away, downright mad. I never could figure out why."

There once was a man from Nantucket Who kept all his cash in a bucket; But his daughter, named Nan, Eloped with a man And, as for the bucket, Nantucket.

Father followed the pair to Pawtucket— The groom and the bride and the bucket; And he said to the man He was welcome to Nan But as for the bucket, Pawtucket.

A favorite bit of philosophy: "No gentleman will offend me; no other can."

"There is a man in this congregation," said the preacher, "who is flirting with another man's wife. Unless he puts \$5 in the collection box, his name will be read from the pulpit."

When the box came back it contained 19 \$5 bills and \$2 with a note pinned to them which read: "This is all the cash I have with me. Will send the balance tomorrow."

Jane— If a sailor was hurt and went into business, why would he have to be a retailer?
Joe— Because he wouldn't be a whole sailor!

Frank Oliver: "Name five things that contain milk."
Jim Robinson: "Butter'n' cheese 'n' ice cream—n' two cows."

Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on the Times' exchange list.

When we hear stories about how rapidly the incomes of the people of this country are rising, many of us, who have not benefited by this war-made prosperity, wonder why we have been passed by.

But an analysis of present incomes in all sections of the country, made by Dr. George Gallup, shows that there are 61 percent of us who are making no more money than we did six years ago. The other 39 percent have increased their income considerably, but even with the greatest total prosperity this country has ever had, about half of the nation's families have an income of under \$35 a week and only 20 percent of the families get \$60 or more a week.

So if your income hasn't risen there may be some comfort in the fact that there are still plenty of others in the same boat. And 15 percent of the people are earning less than they did six years ago.

We are inclined to look with anything but suspicion on any move on the part of the Axis, be it Italy, Germany or Japan. Now comes Musso stepping down as dictator in Italy.

It is a sincere move by the Italians to oust Musso and Fascism from their midst? Or is it a carefully planned political action by a defeated nation with the hope of negotiating a better peace with the "big noise" and Fascism out of the picture? —Ochiltree County Herald

When Italy collapses, we shall have 40 million more people to feed. But the feeding of these hordes will be less expensive than the loss of American lives which would be necessary to take the nation by force of arms. Besides this, when Italy does collapse, we shall be just so much nearer Berlin, and a lot of those Italian soldiers will welcome a chance to take revenge on Hitler.

Perhaps Canadian needs an FBI investigation. Some person or persons stole two flags, Old Glory and the State Flag of Texas from the flag staff at the Canadian High School building. A note found under the door at the school would indicate the thief was either a nut or an Axis sympathizer. According to the superintendent of schools the note stated that when a white flag is flown from the flag pole the flags will be returned.

According to a statement made by the commander of the Canadian American Legion Post, flag rules have been changed to permit flying of the Flag night and day during wartime from public buildings.

"I'm from Texas" is one of the proudest boasts that human beings make today. Whether on the home front or on the far-flung battle lines, the pride still holds, and a still more proudful thing is that all hearers concede that Texans have a

"Opinion, Mr. President, is divided as to whether the use of air power could by itself bring about the collapse in Germany or Italy. The experiment is well worth trying..."

Prime Minister Winston Churchill, addressing the joint session of Congress, Washington, May 19, 1943

WHAT SAVED BRITAIN in the blitz of 1940? Some authorities say that the defeat of the Luftwaffe can be credited chiefly to a difference of only 13 points in octane number!

While the Germans had only 87 octane aviation gasoline, the good planes and gallant pilots of the R.A.F. had 100 octane. This gave the Royal Air Force reduced fuel consumption, and greater horsepower for faster climbing... greater altitude... extra maneuverability.

Phillips and the American petroleum industry are today supplying great quantities of 100-plus octane gasoline. This super-fuel increases enormously the fighting effectiveness of U.S. and all United Nations war planes.

No wonder the British Prime Minister is never more confident than

when predicting great air offensives to devastate Germany and Italy, to lay "the cities and other munitions centers of Japan in ashes."

Thanks to its long-range program of peacetime research, Phillips Petroleum Company was one of the first to take 100 octane aviation gasoline out of the laboratory and into mass production. The making of these American super-fuels is not merely a refining process; it is actually the synthetic production of chemicals!

That is why we say: Every time you see the Phillips 66 Shield, let it remind you that Phillips refineries, in addition to producing gasolines, lubricants, and fuel oils, are also gigantic chemical plants pouring out weapons for victory.

FOR VICTORY... Buy U.S. War Bonds and Stamps

right to be proud of their heritage. —McLean News.

The new withholding tax has had more interpretations than any other tax law and it has been called more names, mostly bad, by the taxpayer. A tax expert of the city was approached last week by a man who asked, "What do you know about this darn hold up tax?" The experts are unable to put a clear explanation of the tax to their clients but it remains that twenty percent must be paid now or later and if there is a rebate from the government, it will be slow in coming. —Quanah Tribune-Chief.

That old skunk of the Mediterranean, Benito Mussolini, dictator of Italy for more than 20 years, abdicated Sunday.

"Saw Dust Caesar," by which he has been known for some time, passed into oblivion. The end was fitting for the founder of Fascism

and the cause of so much unhappiness in the world.

Parading on the false hopes of Italians, he was to bring back Rome to the allegedly glorious days of the Caesars.

His attack on the defenseless Ethiopians paved the way for the war in Europe. France and Great Britain by not stopping that rape of a small nation gave Adolf Hitler courage to take up where Mussolini left off.

The Allies will not do the job in cleaning up Italy until the House of Savoy is taken from the throne of Italy. The king did not have the courage to stand up against Mussolini—and the Allies should not put out their blood and money to save that type of leadership.

Any way, let's keep the attack up. The Allies have been merciful to Italy, a nation which rejoiced in the stabbing of prostrate France in the back. Unless unconditional surrender is given immediately, the

ceaseless attacks should continue upon Italy. —Panhandle Herald.

Have a "Coke" = Come, be blessed and be happy

... or how to break the ice in Iceland

"Come, be blessed and be happy", says the hospitable Icelander when he meets a stranger. That's a warm way of putting it, but no more friendly than the way American soldiers say it. Have a "Coke", says the Doughboy, and it works in Reykjavic as it does in Rochester. The pause that refreshes is the friendly way to say "Hi, pal" in any language. All over the globe Coca-Cola has become the gracious ice-breaker between kindly-minded strangers.

"Coke" = Coca-Cola
It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".

MRS. LEO HUBBLE IS HONORED WITH SHOWER

Mrs. Leo Hubble, bride of Seaman First Class Leo Hubble, was given a bridal shower, Thursday evening, on the lawn at the home of Mrs. Clarence Robison, with Mrs. Roy Esslinger presiding at the punch bowl.

Those present were Mesdames Max Wiley, C. C. Crowder, J. C. Crofford, Tommy Hyatt, J. A. English, Dorsie Hutchison, J. D. Herd, H. H. Herd, S. A. Maxwell, J. M. Porter, Gordon Roper, J. B. Roper, Leo Gaines, J. H. Richards, C. J. Meek, V. B. Hardcastle, E. H. Herd, Jess Crowder, W. E. Collins, Roy Esslinger, J. E. Willard and Misses Clara Finsterwald, Ruth Barr, Ina Fay Robison, Mary Eunice Noah, Helen Green, Beulah Hubbard, Imogene Crowder, Leona Crossland, the honoree, Mrs. Leo Hubble, and the hostess, Mrs. Clarence Robison.

Those sending gifts were Mesdames Harold Nash, Lindsey McCasland, Ben Helton, H. M. Wiley, C. M. Hampton, Albert Hayter, John Lewis, H. E. Nicholson, Ernest Lee, Buck Britt, J. D. Johnson, Alvin Hampton, D. E. Holt, Ernest Dyer, Buddy Errington, L. T. Crowder, Virgil Tolliver, John Green, L. A. Parks, Loyd Lee, Hobby Hodges, H. M. Lesser, Albert Chapman, C. E. Roper, Herman Roper, Ralph Freeman, Jeff Cole, T. J. Cole, Roy Herd, Joe Hyatt, Herd, and Misses Bessie Herd, Dorothy Greenhouse, Lucille Hutchison, and Evonne Hubbard.

BRISCOE GIRLS TO HAVE ENCAMPMENT

Wednesday evening at 7 o'clock the Briscoe Homemaking girls will go down on the Finsterwald ranch for an overnight encampment.

Each year the girls look forward to this outing after they have finished their projects in the summer. This year the girls will be divided into different groups and the games will be in the form of a tournament. Games and entertainment have been planned for the entire time. The group will cook supper and breakfast.

Those girls who are taking projects are: Alva Lee, Lottie Marie Zybach, Bessie Davis, Estelle Adersholt, Nelda Bess Barry, Mary Ruth Evans, Inez McCraw, Mabel Alice Smith, Sammie Daughtry, Hazel Harvey and Alice Cowan.

As corn is one of the chief canned products and so many people have trouble in keeping it, Tuesday afternoon at 2:30 in the Homemaking laboratory, Faye Wilson will demonstrate the correct way to can corn and give a lecture on it. If you have trouble in keeping corn or canning corn so that it has a natural fresh taste, you will be able to get some suggestions that may help you.

At the end of the lesson the Homemaking girls are going to give a brief review of the work they have done this summer, after which they will serve refreshments in the dining room.

Each homemaker in the Briscoe community is invited to attend this meeting. If you have other problems in canning, bring them.

NO ARMISTICE!

Farmers will never declare an armistice in the war on insect pests and flies that pester cows and keep them from giving full milk flow. You can't afford to let production drop now.

Use Watkins Fly Spray to protect your cows from flies—to make sure that milk flow will not be held up. Watkins Fly Spray is rated AA—the highest rating given to any fly spray. It really kills the flies and offers full protection. It goes further, too, because it has a light oil base and less is needed. Doesn't gum up the hair or hide of the cows either. You can use it in the house as well as the barn or milkhouse because it's clean and stainless—will not taint milk. Protect yourself by ordering now.

THIRD WAR LOAN DRIVE

Fifteen billion dollars is the goal for the Third War Loan which President Roosevelt has proclaimed will be launched September 9. In his proclamation the President said, "Our need for money now is greater than ever, and will continue to grow until the very day that Victory is won; so we must ask for more sacrifice, far more cooperation than ever before."

SUPPLY OF FATS, OILS

Despite heavy wartime demands on the supply of edible fats and oils (principally lard, butter, shortening, and margarine), 44 pounds per capita—about 5 pounds less than in 1942—will be made available to American civilians during the 12 months ending June 30, 1944, the War Food Administration has announced. Of the total civilian allocation, approximately 9 ounces per week per capita will be available for direct purchases, and an additional 4 1-2 ounces for indirect consumption in such items as restaurant meals, bakery products, mayonnaise, etc.

COST OF LIVING DROPS

With other living costs relatively stable, a drop in fresh vegetables and butter prices cut the cost of living for city workers by 0.2 percent in the month ending June 15—the first month to show a reduction since a year before Pearl Harbor, the U. S. Department of Labor reported recently. Food prices as a whole, making up over 40 percent of the cost of living index, declined 0.8 percent. The cost of living index now stands at 124.8 percent of the 1935-39 average. Food prices are 45 percent above January 1941 and more than 16 percent above May 1942.

HOME CANNERS WARNED

Home canners have been warned by the U. S. Department of Agriculture against the use of "canning powders" and other chemical preservatives. W. G. Campbell, Commissioner of the Federal Food and Drug Administration, said that use of some of the "canning powders" constitutes a definite health hazard. The term "canning powders," includes boric acid and its compounds and substances like metabisulfite which yield sulfur dioxide when brought in contact with an acid-reacting food product. The safe way for the home canner is to process foods adequately with heat and not to use chemical preservatives. For safety's sake, rely on thorough heat sterilization.

GAS COUPONS CHANGED FOR TRIPS

Motorists can use their "A" ra-

tion books for trips into, or out of, the Eastern gasoline shortage area, according to rules recently announced by OPA. Since July 21, Eastern motorists have been using "A-6" coupons, while those outside the East have been using "A-7's." To overcome these difficulties in travel "across the border" a new amendment to the Gasoline Rationing Regulations permit "A" ration holders to exchange any of their valid "A" coupons for other coupons that may be used in the area in which they expect to travel. Exchanges may be made and further information secured at the War Price and Rationing Board.

POINT REDUCTION CONTINUED

The provision permitting retailers to make emergency reductions in the point values of rationed meats, fats, and dairy products in imminent danger of spoiling, which was to expire July 31, has been extended indefinitely, OPA has announced.

MASS MAILING FINISHED

Approximately 122,000,000 copies War Ration Book Three had been mailed by the first of last week. OPA announced that: (1) anyone who does not receive his War Ration Book Three should apply at his local board between August 1 and 10. (2) a plan is now being set up to distribute War Ration Book Three to members of the armed services who are eligible for ration books; (3) persons receiving War Ration Book Three should sign their names and addresses in the spaces reserved for that purpose on the cover.

STORAGE FOR POTATOES

Arrangements have been completed to provide additional storage facilities for handling the late crop of 1943 Irish potatoes, the War Food Administration has announced. WPB has approved the allocation of materials for the construction of storage facilities sufficient to take care of 15 million bushels of potatoes. Farmers should apply to their County War Boards for approval to begin construction.

BINDER TWINE SUPPLY

An adequate supply of binder twine is available for this year's harvest of grain crops, the WPB Binder Twine Sub-Committee has reported. This ample supply has been made possible through the blending of cotton with hnequen to produce a new twine which has proved satisfactory.

INCREASE SHOE SUPPLY

To increase the supply of children's and infant's shoes, and men's work shoes, WPB recently amended order M-217 (Footwear) to per-

LOCAL NEWS ITEMS

Mrs. Garland Key and daughter of Mobeetie shopped in Wheeler Thursday.

mit a 25 percent increase in the output of shoes for boys, misses, children and infants. Production of men's work shoes may be increased by 15 percent and men's safety shoes by 25 percent. The order also will permit increased production of shoes at price levels where there is greater consumer demand.

FEWER NEW TIRES

Smaller quotas of new passenger car tires for August and larger quotas of used and recapped tires have been announced by OPA, based on rationing allotments assigned for the month by the Office of Rubber Director. The August quota of Grade I tires is the lowest since last April. OPA officials warned that drivers who are eligible for new tires may have to accept used or recapped types as long as the quota of new tires is low.

The Gorilla Man
Friday - Saturday, August 6-7, brings a picture to the screen that will be both thrilling and entertaining. "Gorilla Man" with John Loder, promises to give you just what you are looking for. So be there when the curtain goes up and we believe you will be satisfied.

Dr. Gillespie's New Assistant
For Prevue-Sunday-Monday, August 7, 8, 9, we bring you another of the now famous Dr. Gillespie's stories, starring Lionel Barrymore, Van Johnson, and Susan Peters. This time it is "Dr. Gillespie's New Assistant" in which Van Johnson takes the place of Lew Ayres who is in the armed forces of the United States. Those who have seen the picture claim that it is equally as good as its predecessors. So come out and get acquainted with Van Johnson.

The Immortal Sergeant
For Wednesday-Thursday, August 11-12, the Rogue Theatre proudly presents "The Immortal Sergeant" starring Henry Fonda and Maureen O'Hara. This is another picture that the management personally recommends and endorses to the public. You must be satisfied, or we lose our reputation as a forecaster of a good picture.

There's A Reason

MR. POULTRYMAN: THERE'S A REASON IF YOUR HENS DON'T LAY.

First are they free of worms? If you have not given them a good worming within the past 90 days, they are probably wormy. Wormy hens don't lay. A good wormer is Purina Check-R-Ton—a flock treatment.

The hen is a factory. She will lay if she is healthy, and has the necessary ingredients out of which she can make an egg. These ingredients include Protein, Carbohydrates, Calcium, Phosphorus, and Fats. All these vital ingredients are furnished in ample quantities in Purina Lay Chow.

A good way to get your hens to eat enough is to look and see whether they are loafing and put plenty of Lay Chow and fresh water handy for them.

How to Prevent Spread of Germs

1. Keep everything out of your mouth except clean food and drink. Other things may have germs on them.
2. Wash the hands thoroughly before eating. Soap and water along with plenty of scrubbing effectively remove the great majority of organisms.
3. Care for and disinfect any cuts or wounds on the surface of the skin. The unbroken skin envelope is a great protection against infection but once broken the germs can easily enter and gain a foothold.
4. Keep away from people who cough and sneeze. Avoid breathing dusty air.
5. Human waste must be effectually destroyed or disinfected. All materials that come from the body of a sick person must be so handled that others cannot be contaminated from it.
6. Every one should be vaccinated. No other procedure is safe.
7. Destroy as many flies as possible by "swatting" them, by use of fly traps, sticky paper, and poison sprays. Start this when they first begin to appear.
8. Remove all waste heaps, manure piles and other breeding places.
9. Keep garbage and refuse covered to prevent breeding of flies and to prevent those already there from escaping.
10. Keep the house well screened.
11. Keep children from playing in dusty streets or lots.
12. Keep children away from congested places.
13. Keep children away from stagnant pools of water.
14. Report any case of illness that looks suspicious to your family physician.
15. Clean your place up so that when the inspector comes around your premises will meet with the approval of the Board of Health. If it is not cleaned up a report will go to the City Council.
16. Remember the common house fly spreads Infantile Paralysis, Typhoid Fever and Dysentery and that the mosquito causes Malaria Fever.
