THE COUNTY SEAT NEWSPAPER

County Democrats Name Delegates

In the county presidential convention held here Tuesday morning, A. B. Crump, Thurman Adkins, R. D. Holt, J. A. Caperton, Bill Walker, and Gene Worley were named delegates and Harry Wofford, H. P. Mundy, Jack Miller, J. D. Johnson, T. A. Treadwell and Tom Montgomery were named alternates to be sent to the State Democratic Presidential Convention to be held in Austin May 23.

The delegates will go to Austin uninstruced regarding the campaign platform and the fourth term question.

News reports, so far, indicate that most Panhandle counties are anti-fourth term.

Such is indicated by incomplete and unofficial returns received from 16 counties in the Panhandle and South Plains by C. C. Gibson, district Democratic chairman.

County conventions in three of these counties Tuesday night instructed their delegations to vote for the renomination of President Roosevelt.

Thirteen of the 16 counties will send their delegations to vote for an uninstruced Texas delegation to the national convention at Chicago, and one of these 13 counties adopted a resolution stating in effect that no one should hold the office of President more than two terms.

It was Collingsworth County that took the stand against more than two terms.

The three Roosevelt counties are Hartley, Randall and Floyd.

Counties sending uninstruced delegations are Dallam, Ochiltree, Parmer, Carson, Gray, Hall, Sherman, Castro, Hutchinson, Potter, Childress and Hale.

In-migrant Workers Must Have Statement Of Availability

In-migrant workers MUST present a Statement of Availability before they are eligible for referral to employment in this Area, according to a statement made by F. A. Wells, Area Director of the War Manpower Commission on Saturday, May 6, 1944.

Mr. Wells explained that, in keeping with the state policy, under no circumstances will an in-migrant worker be given a limited or temporary Statement of Availability or referral to a job pending clearance with the local United States Employment Service having most recent jurisdiction over the worker's place of employment.

An in-migrant worker is defined as one who comes farther than a reasonable commuting distance and, to be eligible for employment, must be cleared through the United States Employment Service serving the Area where he has most recently been employed.

This action has been taken in keeping with the policy of the War Manpower Commission in order to more effectively—

1. Effect rigid adherence to Employment Stabilization regulations.
2. Effect stringent control of migration of essential workers.

It is desirable that workers either leaving or entering the Area secure a Statement of Availability or clearance from the United States Employment Service in order that no time will be lost. If this is not done, a period of waiting will be necessary in order to check on the eligibility of the workers, Mr. Wells explained.

The local area consists of Wheeler, Gray, Hemphill and Roberts counties, with the area office located in Pampa.

It has been announced by Col. Orin J. Bushey, commanding officer. The new pilot, a former resident of San Diego, Calif., completed a course in training in twin-engine aircraft. He was assigned to Pecos from Minter Field, Calif. Young Oldham was a member of the first class of aviation cadets to win their wings since the adoption of the AAF Training Command's longer and more exacting training program for future pilots.

The graduating cadets who receive their wings and commissions and appointments as lieutenants and flight officers in the Army Air Forces, passed in review before Colonel Orin J. Bushey, commanding officer of the air field — the world's largest advanced flying school, in an early morning parade.

During the review, Colonel Bushey presented the Pecos Army Air Field medal to the outstanding cadets of the graduating class. At graduation exercises following the parade and review, Colonel Bushey presented wings and commissions to the new pilots and officers. "You are to be congratulated on your successful completion of this strenuous training course," said the Colonel as he addressed the graduates. "By coming this far in your work you have shown that you are fit for bigger jobs ahead of you. As fellow officers and pilots in the Army Air Forces, I wish you many happy landings."

Public Warned Against Tree "Vaccination"

County Agent Jake Tarter said this week that a person or persons are going over the country soliciting work in orchards, vaccinating fruit and other varieties of trees. Tarter warned against any such treatment and said that any probe in a tree just constitutes another wound to be healed by nature. Besides this, a tree has circulation only in an upward manner so far as plant food is concerned, and downward so far as balance of plant foods are concerned after the leaves have gathered food from the air and sunshine, making vaccination a detriment to any tree, Tarter said.

"This work and accepting money for the service is a fraud and any person meeting up with these fellows hereafter is urged to detain them and call the county agent collect, and proper charges will be filed," the county agent said.

It will take quite a while for me to get use to the money here. They have shillings and pounds, etc. I know most of it now. You can tell Mary Etta and Wilma that I am fine if they do not hear from me before you do. That's all this time.

Legion To Sponsor Waste Paper Drive

The local post of the American Legion is sponsoring a drive for waste paper in answer to the call the government has issued for magazines, newspapers and any other kind of scrap paper on hand, Post Adjutant Jim Risner announced this week.

Since the nation-wide scrap drive has gotten under way many inquiries have been made locally as to what steps should be taken to get the paper to the proper authorities. Until recently there has been no provision for hauling the paper to Amarillo, the nearest market. A paper buyer of Amarillo has agreed to call at Wheeler if truck loads of at least 3,000 pounds can be made up. Efforts will be made to gather at least one or two truck loads.

Since there is no provision for the town to be canvassed for the waste paper, residents are asked to tie their old magazines, books, newspapers or other waste paper in bundles of about 50 pounds each and bring them to the front of the Legion Hall at any convenient time. These bundles

"Beginning now, I deliver my paper to-day and salvage it to-morrow!"

will then be picked up by members of the local post and made ready for transportation. Those in charge request that the paper be packed flat and bundles tied securely. No loose paper can be accepted.

The waste paper is needed by the government in the war effort and Legion members are hoping that the local public will respond whole heartedly in clearing their premises of all waste paper and send it off to war.

Dubious Honor

Union leaders are vying for the "honor" of being the first to break the government's wage and price stabilization program wide open and start another inflationary spiral. They have compiled statistics professing to show why the "soldiers of production" must have more money. They call strikes at the drop of a hat. Disrupting war production is their club. They get what they want, or else. The government's stabilization laws are currently the subject of their wrath and every attempt will be made to smash those laws.

Millions of Americans watch these union abuses in helpless fury. Those in the armed forces do not expect wage increases every time the going gets harder. They are at war and know it. Many more in civilian life do not expect providence or a labor union to hand them more money to make up for rising taxes and bond purchases and high prices.

Labor leaders should consider well and long before they decide to smash by force the laws designed to protect the nation from runaway inflation. If the unions pit themselves against the government as ruthlessly as they have against industries, public opinion may destroy the unions.

Correct Abuses Now

The Price Control Act expires June 30. Before it is renewed, it should be amended to correct faults that weaken price and rationing control, by creating public opposition. Under the act as it now stands, OPA lawyers have managed to deny private citizens the right of appeal to the courts of the nation for relief from OPA rulings no matter how unjust they may be. OPA officials, in effect, claim that inflation control is more important than personal liberty, apparently assuming that both cannot exist together.

Congress should immediately correct this dangerous drift toward oppression. As the Smith Committee charged with investigating executive agencies, warns: "The Office of Price Administration has assumed unauthorized powers to legislate by regulation and has, by misinterpretation of acts of Congress, set up a nationwide system of judicial tribunals through which this executive agency judges the actions of American citizens . . ."

"The Office of Price Administration has consistently displayed a tendency, wherever conceivably possible, to avoid recourse to courts of law, even to the extent of stretching the statutes in some cases beyond all reasonable understanding.

"This situation inevitably tends to bring the law into contempt and ridicule and creates widespread indignation and resentment among our citizens. Such an unfortunate situation will ultimately lead to a complete breakdown of the price control law and necessarily retard the effective prosecution of the war."

The New Order?

"The percentage of our adult population on the Federal payroll is the greatest in history. Notwithstanding the widespread benefits resulting from free enterprise, there are now persons, some in high government positions, clamoring for a new order; but they refrain from stating exactly what this new order is to be. Their acts, however, speak louder than words. Their acts show that as a substitute for free enterprise, they propose to establish a plan, directed

Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on the Times' exchange list.

Don't tell Old Man OPA about it but I went out Doc Jones was last week on urgent business. Since I was out that-a-way and got the business underway, I accidentally thought about leaving a couple of fish lines and poles in the car back before gas rationing . . . sure nuf . . . they were still behind the back seat . . . and I fished a while. Caught enough for a mess. But, what I wanted to tell was about Ole Doc. He cusses me and berates me before the public, but I never yet went to see him but what he wanted to give me a present. Last week when I got thru talking business Doc said when you finish fishing, come around to the house and I will give you a couple of dozen fresh eggs. He did . . . but he wrote everything in the book on the eggs. Here are a few of the pertinent paragraphs he wrote. "BAD EGG," "This egg has been under an old hen 3 months" "Pre Pearl Harbor Egg. Approved by OPA, rejected by Roosevelt." —"Honest" Bill Miller in The Spearman Reporter

Regarding the Montgomery Ward recent eviction, Ed Bishop who runs "EdAches" in the Dalhart Texan, says: "The reason for no comment: it's too late. Our people have been warned that we are fast approaching a dictator form of government and because most of us were benefitting financially we laughed it off. The case in mind is no better demonstration of dictatorship than has taken place in Italy or Germany. It is a case of being forced to employ union labor and be dictated to by labor leaders or having your business

and controlled by government officials."—John D. Miller, Susquehanna, Pa., President Emeritus of National Council of Farmer Cooperatives.

confiscated . . . Those who continue to stick with the president and the New Deal are going to continue to get a free ride while those who oppose the New Deal will be "taken for a ride." But a lot of boys are fighting and some are dying to preserve what is being taken from them . . . Roosevelt and the New Deal have given this country some of the greatest reforms in all history, some of the greatest leaders and most beneficial changes. Those who can see no good in the Roosevelt administration are just as near sighted as those who can see no evil. We need to detain the good things and do away with the evils. This can be done by the voice of the people and not by political parties.

An interesting though none too pleasant sidelight of the war is the attitude of neutral and satellite countries toward our effort to swing them within our sphere of influence.

With practically no success, we have sought to have Turkey become a belligerent, Finland to abandon the war; Sweden to cease export aid to Germany and Spain to sever its ties with the Axis.

Our failure apparently, is due solely to fear of Germany. Of course there has been always the cold realistic truth in the minds of these people, that so long as Germany is strong, her anger was swift and powerful once aroused, while the forgiveness of the democracies is proverbial.

As near as can be figured at this time, however, these countries apparently believe these things.

On April 20 The Brand published an advertisement about its classified ad section, pointing out that it is the biggest classified section of any weekly newspaper in West Texas. We are proud of this for several reasons. I have always felt that a large classified section was the best possible index to a newspaper; it shows that the people are reading the paper, and us-

ing it as well. When you have lots of classifieds, you have lots of readers. In addition, these little ads are actually some of the most interesting material in the whole paper. Lots of people read them just to see what is happening; they give you a good trend of conditions over the whole community. Did you ever notice that the "Long Time Ago" column frequently quotes ads along with news items?

There is a definite trend toward eliminating the roadside signboard type of soldier memorial, as a waste of money. Those who remember the mistakes of the first world war, are concerned that a more permanent type of memorial is secured for the money this time. It is no reflection upon a man's patriotism that he fails to endorse, or even support a type of memorial that he considers ineffective, or too expensive. A memorial can be a permanent source of pride to the community, or it can become an eyesore within a few years, depending entirely upon the type finally decided upon.

In the death of Secretary of the Navy Frank Knox, the United States has lost an official whose brilliant mind and tireless effort has done much to put the American Navy out in front as the dominant armed force of the seas since the sneak attack on Pearl Harbor. Secretary Knox, a Republican, has been since his appointment to the post, one of the great outstanding figures of the Roosevelt cabinet, possibly second only to Secretary of State Cordell Hull.

I'm going to write a blanket letter one of these days to every man I know who's in the service. I'll really give you some stuff. I just haven't wound it up yet in my mind. Chief among the things I'll say though will be a special, personal request, demand, or what have you for letters. If you guys in there, could see how every letter is read and discussed here at home you'd shoot the works.

Can you remember old Virginia cheroots — three for a nickel? Brother you are old!

The railroads and bus lines tell us to "travel light" and then when I take their advice, the hotel clerk looks suspiciously at my very small piece of baggage.

Col. Dick McCarty, now inactive because of his advanced years, is one of Texas' most colorful editors. As an example of his picturesque and vigorous style of writing, here is an article written many years ago:

"With this issue, the Albany News completes its 19th volume. Whether hot or cold, wet or dry; whether fortune frowned or prosperity smiled, each week for 19 long years, she has greeted you with a smiling face and

a cheerful heart.

"People have come and gone, and when the drouth or the grasshoppers devastated this fair land of ours, the News has stayed at her post, looked pleasant and sung the song of prosperity and plenty.

"When the Albany News was born, Fort Worth was only a hamlet and Western Texas was a dark spot on the map of creation — the buffalo and the antelope roamed at will and the red man was the boss of the situation in this vast domain.

"Through all these years, she has never wavered in her duty nor forsaken her colors; she has lived to see Western Texas converted into happy homes and fine ranches. If her editorials and the good things she has said about people were stretched out in a row, they would reach from Texarkana to El Paso.

"She has recorded your births, wrote long obituaries of commendation for your dead and when your sons and daughters were joined in wedlock, she has told of the beauty of the bride and praised the sterling qualities of the groom. She has taken men from the dark valleys of obscurity and boosted them to the top round of fame and didn't get a red cent for it.

"She has lived to see the fertile valleys of Western Texas (which only a few years ago was a howling wilderness) transformed into beautiful farms and blossom with golden grain. The Indian's wigwam has given way to elegant residences, fine churches and school houses."

Little did a group of slant-eyed war lords think 29 months ago that their successful Pearl Harbor attack would turn out to be an "honorable mistake."

Little did they dream that American ingenuity and industry would produce more implements of war in a couple of years than the "sons of heaven" had been able to accumulate in a quarter century. They didn't realize they were attacking a people who prize their American heritage and freedoms more dearly than life itself.

Our organization, together with every business enterprise and individual throughout the land, is dedicated to stamping out these ruthless aggressors . . . to speed the day when peace will again reign supreme.

Eligibility No Tire Guarantee, Says OPA

All B and C gasoline ration holders became eligible for Grade I tires last week, but that doesn't mean that they will all be able to get new tires—at least, not for the present.

Though eligible, many motorists will not get the tires simply because there aren't enough tires allocated to the boards to meet the applications that are coming in as a result of the increase in the number of eligibles.

Tire quotas allowed for each county are set at only a small increase for the month of May and the quotas will continue to be set month by month to distribute the available tires over the period before more tires can be expected on the market.

To prevent over-optimism, the Rationing Division of the District Office of Price Administration has announced this clarification, in addition to definite figures to indicate the situation.

There are more than 89,000 motorists in the Lubbock District who hold B or C rations. The quota of new passenger tires for the District for May is slightly more than 9000. Ration boards have been instructed to screen the applications and issue certificates only to the more essential eligibles.

The applications are expected to exceed available quotas during May and June, at least.

Temporary removal of most meats from rationing has relieved farmers of the necessity of collecting red points from consumers except when selling butter, cheese, or portions of beef which contain some of the prime cuts still rationed, the District Office of Price Administration has announced.

Although points no longer are required to buy pork, veal, lamb, or mutton, a number of red points will continue to be validated in advance so that consumers who wish to buy beef in quantity may include some rationed cuts in the purchase. The revised trade meat chart, which may be obtained from the District OPA in Lubbock, states exactly how many points the farmer is to collect when he sells a "quarter" or "side" of beef.

Mummy must've forgot to OIL IT

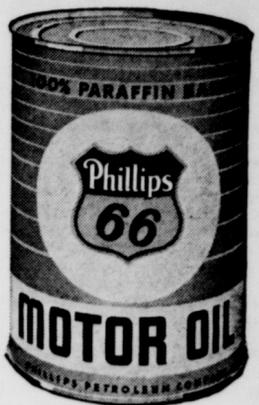

American mechanical genius shows itself at an early age. Youngsters are hardly out of their diapers before they know that today's world moves on a film of oil.

A few years more, and they have learned that the life of any mechanical device depends, in large part, on the quality of the lubricant. But even grown-up car owners are sometimes late in finding out a simple clue to choosing a quality motor oil.

It is contained in this plain, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality...the highest grade and greatest value...among all the oils we offer to average motorists.

Regular oil change has never before been so important, now that you must "Care For Your Car For Your Country." Authorities state that, with today's reduced driving, every two months is the safest change period. So get rid of winter-worn, contaminated lubricant... get quality, by asking for Phillips 66 Motor Oil.

The Times War Time Reporter Says

I never will forget the sudden blizzard that Grandpa used to tell about that came up one time. He said he was settin' in his chair fanning himself one day and a playing with his dog—when the blizzard hit. He rushed to shut the door but the first puff froze the dog into a solid block of ice, all but his tail, and that was a wagging.

He used the dog all winter for a door prop and that wagging tail kept the snow brushed off the welcome mat. He said when that dog thawed out in the spring and seen how useful he'd been all winter he caught him trying to get in the ice box so he could do it again.

My little poem today is:

Advice
 "I'd like to have a little advice,"
 A soldier son wrote to his dad,
 When I shoot me a couple of Japs,
 Shall I stop and scalp em, he said.

Or should I wait until I got a big pile
 And do it the American way,
 Run a lawn mower over their heads
 And give it back to them for hay.

And Daddy wrote to his fighting son—
 Box me up a couple, and rush;
 Things are getting pretty tight,
 And I need a new shaving brush.

A Soldier's Thoughts

By Pvt. J. B. Rogers
 (Dedicated to his wife who resides near Wheeler.)

There's a dark cloud hanging over us,
 That blots out the bright shining sun.
 It's been there for three years now
 Since first the war began.

A little guy named Tojo
 And a jerk named Hitler too,
 Decided they wanted more power,
 So the world they would overthrow.

The Japs then bombed Pearl Harbor,
 Killing many of our poor boys,
 Ending their days forever.
 Never more will they know life's joys.

The path they have left has been bloody
 Since first the war was begun;
 And every drop will be paid for,
 We'll not rest until it's done.

There's many a home left cheerless;
 No sound of a carefree laugh,
 And it's all because we were careless;
 We had too much faith in the Japs.

Some day this will all be paid for,

For it's our will that it shall be done.
 We'll never rest until
 We see the set of the rising sun.

Some day in the near future
 The sun will once more shine,
 And again we'll be carefree and happy,
 No cares, no worried mind.

It will be a happy day for all
 When they welcome the soldiers home;
 For they'll know the war is over,
 No more will they have to roam.

I have a sweet wife who's waiting
 As sweet and true as can be,
 And the love I have for her
 Will last until eternity.

We'll build a little cottage somewhere,
 On the crest of a wind swept hill,
 And there we'll make our home for life
 With love our byword still.

When I close my eyes I can see her,
 How lovely, how faithful, and kind;
 And before I go to bed each night,
 I thank God that she is mine.

PHONE 101 WHEELER TIRE REPAIRING

To Our Friends and Customers

An adequate supply of reliable electric power is necessary to the growth and prosperity of every city and community. One of the first questions asked by industrial managers, seeking new locations, relates to the power supply. In the post-war period, the type of electric service available will become increasingly important, since the location of processing plants will depend largely upon the availability of adequate and reliable electric power.

Our facilities in Wheeler are connected to and are a part of an electric system consisting of generating plants furnishing power to a network of transmission lines. These facilities are operated as a unit and constitute a pool from which power from the combined resources of the system is available to every city and community in the territory served by this Company.

This arrangement makes ample quantities of electric power available to each city and community and, because of economies in operating costs, makes possible industrial electric rates which will attract additional businesses.

The Southwestern Public Service Company operates an integrated power system. Its power resources are available to the people of Wheeler and to all industrial users, large or small, now located here or which may be attracted here in the future through the efforts of all of us who are interested in the progress and development of Wheeler.

In 1942, the Company emerged from the administration of the Public Utility Holding Company Act with flying colors. It now does not have any holding company over it whatsoever. Its securities are widely held by thousands of people without dominating investment control centered anywhere. Its management is in position to cooperate in all matters for the betterment and development of Wheeler and the surrounding territory. Our program is to be helpful and aggressively active in the development of Wheeler in future years.

YOU PAY

for Growing Feed whether you buy it or not

IT'S SIMPLE ARITHMETIC to figure you're money ahead when you push pullets to quick maturity. You may save a little this summer by stinting on growing feed. But your pullets will use their laying mash next fall to grow on—and you'll be out both eggs and feed.

So, since you pay for growing feed whether you buy it or not, help yourself to big pullets laying lots of early fall eggs by feeding GROWENA (complete) or GROWING CHOW (with you grain). It takes only about 16 pounds of Growena (or 7 pounds of GROWING CHOW and 11 pounds of grain) to carry a pullet to maturity.

Come in and see us about your growing feed needs today.

WATER BATH CANNER NOT HARD TO MAKE

Any homemaker with fruits and tomatoes for canning this year should find little trouble lining up right equipment. Fruits and tomatoes have enough natural acid to be safely canned in water at boiling point, and a simple water bath canner is right for the job.

Half a million enamel-iron water bath canners will be manufactured this year. Many more canners will be improvised from materials at hand. Here are pointers for making:

Get out a big kettle, metal pail, wash boiler, ham boiler, or lard can. Any clean vessel in which water can be boiled will do, provided it has a good lid, is big enough to hold several jars without touching, and deep enough for water to boil up actively over jar tops. Since jars must stand on a rack, and canning starts with an inch or two of water over the jar tops, the vessel must be at least 3 or 4 inches taller than jars used.

The rack for canning may be wire or wood. Its duty is to keep jars from touching hot metal on the bottom, and to let water circulate freely under jars. A wire basket or rack can sometimes be bought. Or a rack for cooling bread or cake may serve. Or, strips of wood may be fastened to make a lattice rack — but don't use pine for this, since the resin would boil out and get on jars.

Steam pressure—the only method recommended for home canning of beans, peas, and all the other food with little or no acid — is not best for fruits and tomatoes. But it a steam pressure canner is deep

enough, it may be used as a water bath canner. To do this, set the lid on loosely, don't fasten. And leave the pet cock wide open, so that steam can escape all the time the water is boiling.

Recipe Of The Week
½ cup butter ½ tsp. soda
1 c. sugar, brown ½ tsp. salt
½ tsp. vanilla ½ c. nut meats
1 egg ½ tsp. cream of tartar
2 c. flour

Cream butter, add sugar and mix well. Add beaten egg and vanilla. Mix and sift flour, soda, salt and cream of tartar and add to first mixture with nuts. Put out on slightly floured board and make into a roll. Wrap in waxed paper, put in refrigerator for at least twelve hours. Then slice in thin slices and bake in a moderate oven until a delicate brown. This recipe makes about sixty thin cookies.

The roll of cookie dough can be kept in the refrigerator and cookies baked from it a few at a time when wanted.

HELPING EARLY GARDEN GROWTH AND PRODUCTION

By Amy Sue Beckett
Assistant County Agent

A gardener's responsibility doesn't end with preparing the soil and planting the seeds. If this work is to be rewarded with good yields he must give nature a hand in nursing the tender plants, says J. F. Rosborough, horticulturist for the A. and M. College Extension Service. He should fight weeds, which rob vegetables of plant food, moisture and sunlight, with frequent shallow

cultivations, and prune, water and replant when necessary.

Tomatoes should be watered every other day for the next ten days. A pint to a quart around each plant will counteract retarded growth caused by high winds and dry soil. Cucumbers and English peas also respond to moisture. If the bottom leaves of the pea plants are yellowing they need plenty of water to maintain production through the next few weeks. At the same time, watch for sign of mildew — a powdery appearance of the leaves, which later look rusty and drying. Control it by dusting once weekly with sulphur.

Rosborough suggests thinning squash and cucumbers by cutting off the smaller plants at the ground line with a sharp knife after they have begun to make vine. One plant every three feet in suitable spacing. He urges a second planting of green bush beans before the end of May and advises gardeners that it also is time for planting a second crop of lettuce. Mustard greens is another vegetable which should be planted again. Mixing some radish seed with the tendergreen mustard saves space and hedges against too many radishes.

Warmer soil in most parts of the state points to okra planting time. And if green pepper plants aren't to be had, sow the seed in the open garden. Sprinkling the soil after seeding and keeping it thoroughly moist for five or six days will get the plants up quickly.

WHAT SAY YOU?

But when the Jesus saw the multitudes they were filled with envy and spake against those things which were spoken by Paul contradicting and blaspheming, then Paul and Barnabas waxed bold and said it was necessary that the word of God should first have been spoken to you but seeing ye put it from you and judge yourselves unworthy of everlasting life. Lo, we turn to the Gentiles for so hath the Lord commanded us saying I have set thee to be a light of the Gentiles that thou shouldst be for salvation unto the ends of the earth.

I'm bugs on cars.

I'd hardly think I'm a real American if I didn't always hanker after the latest thing in automobiles. Most everyone feels the same—wanting a new car. So even with Peace, is some new car with my number on it coming right off the assembly line? Who knows? I'm well off, though—still riding handsome—because I kept thinking of all the different oils to help a car. And I noticed ad after ad agreeing that your engine always forms acids inside. . . Risky. . . Bad danger of corrosion. But a station man showed me a can of Conoco Nth motor oil, and it said that a modern synthetic in Conoco Nth furnishes the working parts with OIL-PLATING—like a special surfacing to resist the acids; not letting them easily eat metal away. So you needn't fret too much for a new car, when a switch to Conoco Nth oil will safely OIL-PLATE your engine right now. Let the future car improvements try beating that!

Junior and Senior Banquet

The Seniors of '44 were honored by the Juniors Friday, May 5, with a banquet in the basement of the Baptist Church. John A. Noah acted as Master of Ceremonies. The invocation was given by George Weems, Mary Lee Reid, Junior class president, gave the welcome address and Carroll Pettit, Senior class president, gave the response. A sketch of the Senior personalities was given by Junior Pendleton. Louise Tillman entertained with a song entitled, "When They Ask About You." The main speaker for the evening was Rev. John A. English, high school principal and coach, whose subject was "This Changing World." Comments on the Seniors and their achievements was given by Mr. Dyer. Benediction was by Rev. English.

The menu was as follows: tomato cocktail, peas in a nest, creamed potatoes, iced tea, cherry pie, chicken and dressing, giblet gravy, waldorf salad, pickles and nuts.

Senior Picnic

Chills and spills, sunburns and thrills, yes, and poor aching backs—these things were just a part of the Senior picnic at Lake Marvin, Saturday, May 6. The Senior class, their sponsor, Mrs. R. Wm. Brown, and their guest, Mr. Jack Spence, left early Saturday morning for a day of fun and frolic. After reaching Lake Marvin, the time was spent enjoying baseball, boating, swimming, eating, and exploring. If you want to hear about exploring, ask Louise, Harvey, Neva Jane, and Lloyd about their excursion down the spillway.

In the late afternoon, the group went into Canadian and spent about an hour exploring again. From there they went to the R. Wm. Brown ranch on the Gageby Creek and enjoyed a weiner roast.

Many strange things have been reported as happening. For instance: Karo claims that Gene has a beautiful voice and he ought to know as he had to listen to it all the way to Wheeler; Donald loves goose-liver; Naomi and Bobby don't like ripe olives; we didn't have any fruit; Mr. Spence and Charles Ray seem to be competing for honors at rowing a boat; Sidney and Mable don't like the "grand ole opry"; Joe was sporting a new bathing suit—Donald seemed to like it too; Gwynn doesn't know a red light from a green one; Lloyd doesn't mind flirting with soda jerks when he can get some film; Red likes Pekingese dogs; Dorothy, Louis, and Marie were unable to go; Mrs. Brown promises not to suggest that Louise push Harvey in the lake after seeing the results.

Everyone reported a grand time and hope this will not be the last picnic.

Snubbing Post

It would so seem that the Seniors did not appreciate the comparison Brother English made of them with the old sow and 16 pigs.

Terms that apply to many of the students that go to Wheeler High school: "I'll Get By," Seniors (hopefully); "That Old Black Magic," Mr. English's Biology class; "I Couldn't Sleep a Wink Last Night," before exams; "Hail, Hail The Gangs All Here," at least for another three weeks; "Cover Girl," La Rue Cole; "Murder," teachers' theme song; "No Love, No Nothing," Louise Tillman; "Long Ago," Mrs. Brown; "You Care Too Little, Too Late," Gwyn Crossland; "Paper Doll," Neva Jane Weatherly; "Three Bad Wolves," Gene, Joe and Donald; "Marizy Doats," Mr. Weems; "Gobs Of Love,"

The banquet hall was artistically decorated with green willows, pink, yellow and green crepe paper streamers and festoons, Hawaiian lanterns, colored lights and branches of bridal wreath.

The following program was enjoyed: Hawaiian Welcome, Toastmaster Cecil Francis; Response, Roy Harold Johnson; Toast to Briscoe High, Iva Marie Finsterwald; Opening Song, "Blue Hawaii," class; Invocation, Mr. Evans; To Waikiki, (Ceremony of the Lei), Mary Ruth Evans; Acceptance of the Lei, Clara Helen Seeding; Serenading in Hawaii, Lottie Marie Zybach; "Mauka" and "Mauka," Bessie Davis; "Mauka" and "Mauka," Doyle Ramsey; "The Honolulu Singers," Rozena Helton, Coleen Wood, Nelda Bess Barry, and Armell Sorensen; "American Sea Breezes," Alva Lee; "Waikiki Flash Lights," Lottie Marie Zybach; "Hawaii Calls," Hula maid, Maidell Sorensen; "Hawaiian Revue," W.
