Thanksgiving In War
Is there one in Wheeler county to ask why we should give thanks this year in a sorry world? The list is long indeed, this matter of blessings, whether in time of war or peace, of danger or safety. In the days of the Pilgrims, when the first Thanksgiving was observed in 1621, the festival did not find them surrounded by privileges and opportunities without peril and privation to accompany them. They were refugees, had had their faith tried on every hand, suffered and toiled to make a living in this new land. Their devotion to a cause, their courage to surmount obstacles, their energy to overcome their enemies, all lead to our present Thanksgiving. We too have had lessons in privations, suffered death in our midst at the hands of enemies, found purses touched by heavy demands, been upset by criticism and known injustice. But should we pass by this Thanksgiving and wait until peace and harmony is established before we continue our prayers of thankfulness for blessings?

Our stomachs have not suffered from hunger, we have not lost our rights in education and worship. We have had less in luxuries and certain privileges and opportunities. We still have the basic idea of the Pilgrim Fathers as our guide and our right. This was carved out for us never to be destroyed. We will not concede one inch in thankfulness, be not one whit less grateful for democracy, tolerance, church worship, educational advantages, will not cease struggling to overcome prejudice and bigotry. The Thanksgivings of past years have found us pretty self-satisfied with ourselves and our nation, might even be called smug in our attitude. We are better able now to give reverent praise and deep thanks for our wonderful beneficence and pray to be worthy of the happiness and joy to be had in a great country built by brave men and watched over by a just God.

Doing It Earlier

There is nothing new in the yearly suggestion to "do your Christmas shopping early." When isn't it advised in order to facilitate delivery, wear not too thin the clerks and to offer a better selection of merchandise? This year they ask us to do it even earlier than usual. Some local shoppers have already heeded the advice to mail gifts in November and the plea will be answered by many others before the month is past. The postoffice must get the cards and gifts at least three weeks before Christmas and then can't assure us of prompt service. Due to the experience they had in handling the overseas gift boxes, they feel it is necessary to do our heavy mailing in November if we want to play safe and sure. No matter how important are gifts and cards to keep up morale, even at Christmas time the movement of war materials, war personnel and the usual military mail, will go first. We only have just so much transportation. So let's hurry and be about our gift wrapping.

Drafted fathers not being permitted to be officers might be a very good idea, for after all, they are more used to TAKING orders!

There is really an art to appear prosperous though broke, believes a local reader, and many foreign countries have mastered the art.

Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on the Times' exchange list.

Peanuts are not turning out so hot. A number of farmers have plowed up, raked and sacked what they thought was a pretty good yield. But when they threshed them about half of them proved to be empty hulls. The guess is that very few peanuts will be planted in Collingsworth County next fall.

Cattlemen on the plains are beginning to discover that there is an interdependence between the cotton farmers and the cattle raisers. The reason is cake and meal. The farmer who raises the cottonseed has first claim on buying cake and meal. With the wheat fields dried up, the cattlemen are desperate to get some cake and meal. As a result there are a lot of peculiar things going on. In short a black market of the first rank is in the making in every cotton producing section that borders a cattle raising section.

—The Wellington Leader

Willkie is shown by the Gallup Poll to be trailing Dewey in popularity with the Republicans. Dewey has not antagonized the political bosses. He has disclaimed any interest in the nomination for President in 1944. He may figure that the Republicans have no chance for next year, but will be in line for 1948. At any rate, Willkie is mighty blunt in telling the Republicans what they must do if he is to accept the 1944 leadership. He is not acceptable to the big bosses of the party, but if Dewey does reject the nomination, Willkie will be the nominee.

The loafer and the spendthrift have nothing but ridicule and contempt for the thrifty and the industrious person until want knocks at his door. The worker whom he scorned then becomes the first person to whom he turns.

—Tulia Herald

Courtesy is not rationed, but some clerks seem to think it is. In a seller's market, clerks may forget that courtesy is needed, but this will not last always, and they are sure to find that they will be left out of the picture under a buyer's market, unless they maintain a courteous attitude toward prospective customers.

McLean News

Is your car giving you some starting trouble now, and does it seem not to have the life and pep which it once had? Possibility, even probability, is that the type of gasoline you are getting is having something to do with this. The War Production Board is telling the people they can expect the demand for the higher octane gas to get more insistent from the war-making machine and that the kind of gasoline left for home consumption will be lower and lower in octane. Keeping your car in condition thus will become not only desirable but a practical necessity. The poorer the gas you have available the better your car will have to be to use it.

—Honier Steen in The Floyd County Hesperian.

That terrible fear we have seen registered by many grown ups when an unusual cloud appeared on the horizon; the mad dash to storm cellars and the apprehension and suspense suffered, while waiting for the storm to strike or abate, must be amplified a thousand times during an air raid. The damage and death left in the wake of the tornado is only a fraction of the total destruction of the bombers. We have missed this in America, but thinking of it and many other trials and sacrifices made by others, should make us all realize in what a small way we have been touched by war.

—Quanah Tribune-Chief

Well the turkey raisers just as well go hire a lawyer and then make up their minds that whatever they do, it's going to be wrong. The headache now is the OPA price ceiling on turkey sales.

This newspaper has received three turkey letters from the "smart boys" in the Lubbock OPA office during the past week on turkey prices. We set the first, but before it was published, the second letter arrived making a bunch of changes. Well the first set type was dumped and the second batch of copy hit our waste basket. We have set the third and will run it if we have the space.

But again we say that nine chances out of ten, whatever you do is going to be wrong with the smart young government men.

—Ochiltree County Herald

An appetizing dish that lingers long in my memory from childhood and which I've been enjoying since rationing is cold bread and cold mashed potatoes. Sprinkled liberally with salt and pepper and sliced from huge bowl of leftover mash potatoes, this is a dish fit for any good Southerner. Of course, before I married we had this dish with cold biscuits, but since it's been nigh onto forty years since I've seen a biscuit. Since I married I've paid enough for store bought bread to feed the U. S. Army in Ireland.

—Ed Bishop in The Dalhart Texan

Mark Twain, in the judgment of your columnist, was the greatest of American writers. While of course he was not a Texan, there is the spirit of the Southwest sweeping through his pages, and his humor is of the gusty, hyperbolic quality of our section.

There was the time that he was employed to dig a railroad tunnel through a mountain and he enjoyed the work so much that, after he had dug through the mountain, he just kept on and dug two miles of tunnel through the air!

And he told about a steamboat, of very light draft, that was sailing up the river in the darkness and when dawn came, it was three miles inland, having sailed through the dew — which naturally evaporated when the sun came up and the boat was left stranded on the prairie!

I've always liked his description of a voyage on which the weather was so cold that the captain's shadow froze to the deck and members of the crew had to chop the shadow

loose with axes!

Mark Twain not only wrote humorously — he talked the same way. When a member of a hotel lobby group told a particularly incredible yarn, Mark turned to a friend and said, "You believe half of that and I will believe the other half."

He lived next door to Mrs. Harriet Beecher Stowe, author of "Uncle Tom's Cabin" and liked to look over the novelist's fine library. One day, the doorbell rang and when Mrs. Stowe went to the door, a servant from the Twain home handed her a note and a package. The note read:

"Dear Mrs. Stowe: This morning I visited your library and my wife is shocked at my rudeness in failing to wear a necktie. Therefore I am sending you a necktie. Please keep it an hour — which was about the length of my visit — and then return it to me."

RUPTURED?

Experimenting with questionable trusses at the expense of your health will prove costly. See your Physician at once for the proper diagnosis and we will fill his prescription to his entire satisfaction. If your condition has already been determined and you are not securing the proper comfort or relief, pay us a visit: at once and be convinced that under competent hands, truss fitting has been reduced to a science eliminating all guess work.

We feature the famous line of Non-Skid Spot Pad Trusses which hold the rupture with a fraction of the pressure required by other appliances. We also have a complete assortment of Abdominal Supporters, Elastic Sashery, Shoulder Braces, etc.

Scorn Overweight Motor Oil this Winter of War

"The Lighter the oil the better"... Discover how very light, by changing to Winter OIL-PLATING

Have you ever been a new papa? Have you ever had to enlarge the hole in the nipple of baby's bottle? The hot milk, just about as fluid as anything, barely comes through. Far "skinnier" than small holes in nipples are many of the oil spaces in your car's engine. That's still true after it is middle-aged or beyond. Any oil...any oil...has a hard enough time coming through and spreading all around. Overweight oil — easily thickened by cold — is far worse. The lightest oil your engine can use this season is rightest. You can know that light oil will stand the gaff when it includes the ability to give your engine internal OIL-PLATING.

Because a Winter change to Conoco Nth motor oil adds OIL-PLATING to engine parts, you can go your car's limit on lightness. Any good plating is a protective surface, and so is OIL-PLATING — attached all over your engine's insides, as if strongly "magnetized" there by a synthetic that's part of patented Conoco Nth. Now every moving part enveloped in its close-fastened OIL-PLATING must slide upon the rupture-resistant fluid film of Conoco Nth. Safety is multiplied! — though your economical Conoco Nth is so light that your battery, too, has every chance to outlive the Winter, and the War. OIL-PLATE today at Your Mileage Merchant's Conoco station. Continental Oil Company

Dread Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops.

Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids.

But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

Returning from the South Pacific with a captured Japanese sword, the husky Marine gets a hearty greeting. It seems hard for everyone to get back to work since school has opened again. Maybe they worked too hard, anyway most of the pocket-books are full.

Mrs. John Albert Kennedy visited school Monday.

Can You Imagine?

Harold J. going hunting Sunday? Tootsy being quite? Faye wearing a new watch? Margie having a different "hair do"? So many not pulling holes? Laura Lee working at Briscoe during vacation? Bobbie Donaldson pulling holes? What a shock! R. C. giving Mr. Begert trouble over his bus? J. R. Childress and R. C. being seen in Wheeler Saturday night?

Home Ec News

We welcome three new girls to our group: Geton, Marie and Gail Sanders from Sweetwater, Okla. Laura Lee Snyder spent the vacation at Briscoe where she was employed by Mrs. Roy Waters. Patsy Huff was housekeeper at her home for several days while her mother visited her sister, Francis, at Denton, Texas. Francis is in school there. Our new Home Ec teacher is Mrs. Edith Levitt, taking the place of Mrs. David Kiker who has a sick baby.

Bonita and Charlene Parker's uncle Z. C. Parker, received bruises Saturday night while he was going home on a tractor. None of the occupants of the car colliding with him were seriously injured.

Mrs. Blanch Begert, who taught the first month of school, has accepted the school at Cataline and began her work there Monday.

Miss Odessa Craig from Sayre, Okla., spent a week with Fae Campbell and visited school three days.

Maximum Turkey Price Listed

The maximum price for live young turkeys affecting consumers was listed today by J. B. Mooney, district price executive of the Office of Price Administration. Prices were listed to avoid confusion in the minds of people reading previously quoted prices which dealt with the maximum prices to be paid by wholesalers for the live young turkeys.

Producers selling to the consumer have a maximum retail price of .4394c per pound for a live young turkey, Grade A, weighing 18 pounds or less. If sold by Group one or two stores, the maximum price for the turkey would be .4461c per pound, and by Group three or four stores, .4424c per pound.

Turkeys in the drawn (oven dressed) Grade A classifications, drawn weight under 13 pounds have a maximum retail price to the ultimate consumer of .6215c per pound if sold by the producer. If sold by retail stores in Groups one, two or three, the price is .6275c per pound, and those sold by Group four stores are priced at .6166c per pound. Prices for old turkeys and all lower grades are priced lower, Mooney said.

These prices apply to Wheeler county.

New B And C Coupons Effective December 1

The Office of Price Administration has announced a simplification rationing program, effective December 1, under which all "B" and "C" books issued by local War Price and Rationing Boards will contain fewer coupons than in the past, but each coupon will be good for more gallons than heretofore. No increase in the amount of gasoline allowed is involved, however.

All "B" and "C" coupons issued throughout the country on and after December 1 will be worth five gallons each, as compared with the present value of two gallons for coupons of those types in the east and mid-west and three gallons in the far west.

The new supplemental gasoline ration coupons of five gallons value will be issued the designation, "B-2," and "C-2," on their face. As present "B" and "C" and "B-1" and "C-1" coupons run out, they will be replaced by the new higher-unit-value coupons. Meanwhile, outstanding coupons issued before December 1 will continue to be worth only two gallons in the east and midwest and three gallons in the far west.

OPA explained that "B-1" coupons are a reprint of the earlier "B" coupons, they are used in the same way and have the same value. The same thing is true of "C" and "C-1" coupons.

While the change does not mean more gasoline for holders of supplemental ration books, it does mean that they will receive their rations in more convenient form. It is expected that many car owners, for example, will now buy five-gallon units as they customarily did before rationing began. Consumers will have fewer coupons to endorse.

Next Year Will Be Different

NEXT year will be different. Not only the weather, and markets, and the needs of the country. Our jobs will be different, too. Because next year we're going to do those jobs differently—and we hope better!

We, whose job is producing goods and services, have been making resolutions like this for years. And we've been keeping them! For in our kind of business, you either keep on finding better ways of doing things, or—you go backward! And if enough people do that, the thing we call progress bogs down.

That's why farmers keep on trying new seed, and fertilizers, and machines, and strains of stock. That's the reason industry carries on research—another name for a constant search for new knowledge and better ways to do things. Because most of us have been doing this for years. America has had the highest standard of living in the world. And it's the reason, too, that American production is doing so much today to bring victory.

After the war, America is going to need more than ever men with the courage and enterprise to invest time, money, and hard work in the search for better things. And if America's producers understand each other, and each other's problems, we'll be able to do these all-important jobs better. General Electric Co., Schenectady, N. Y.

Welcome, SOLDIER!

Every day armies of servicemen move in a never-ending line throughout the Gulf South. At nearly every stop, at railroad stations and bus terminals, these men in uniform are met by friendly volunteer workers who are ready to serve coffee and doughnuts, to answer questions, mail letters, and to help in the thousand and one other ways that mean so much to a soldier away from home.

In the small hours of morning or after a hard day of house work these volunteers give unselfishly of their time. They feel that any sacrifice of theirs is small if it makes life a little easier for thousands of sons, husbands and friends who are giving up the comforts of home to fight for Victory.

We recognize the valuable service rendered to our fighting men by the Red Cross and other organizations... appreciate the helping hand that America's volunteer workers daily extend to the more than 800 United men in uniform.

MOBEETIE HI-LIFE
Items of interest pertaining to the Mobeetie Schools

Pep Squad Organized
Enthusiasm is running high in Mobeetie High School of late. The reason you could soon find out. The girls of the high school met and organized a pep squad. Juanita Walker, Maurita Laman, and Mignon Colwell were elected as yell leaders. Mrs. Marchbanks and Miss Burton sponsor the squad. All the girls of the eighth grade and almost all the high school girls are behind the Hornets as shown by their participation in the pep rallies each afternoon. The first performance will be Wednesday at the game between the Miami "Warriors" and the Mobeetie "Hornets."

Nicknames
"Frog" is Dorothy Nell Goodnight's nickname. Is Benny Barton the only one who knows why? We call Stacy Arnold "Jelly" now. I don't know its origin but it's some improvement over his former nickname of "Slick" which he picked up on a rainy day with Betty Jean Baird on a muddy road. He had various nicknames such as "Two-Gun," "Chance," and "Speedy." Once in a while some one will call him Stacy (that's his original name.) Leroy Patton has a very favorable nickname, "Blondie." I can't understand it; Leroy has brown hair. Carl Carter is known as "Dimples." He has dimples just like Mrs. Scribner. Glorice Haynes has also been called "Dimples." Carl's little sister will have a nickname pretty soon if he goes ahead with her "Ten Easy Lessons

on How to Milk." She has an instructor. Guess who? Wallace Corse. Then there is the honorable "Salty" Byrne, I don't know what mistake he made. They call Maurita Lamon "Dickie." She doesn't know why. Continued next week.

F. H. T. News
The F. H. T. met and organized their club Wednesday. Glorice Haynes was elected president, Clea Fae Davis, vice president; Juanita Walker, secretary; and Maurita Laman reporter.

Girls Start Basketball
An explanation of why a certain group of girls have been crippling around for the past week is not horseback riding, although it has the same effect. It is the beginning of basketball practice which always results in sore muscles.

Those reporting who have had previous experience are Maurita Laman, Arlene Red, Marion Ell Owens, Virginia Futch, and Madalene Burress. New recruits are: Mignon Colwell, Joan Colwell, Nancy Ware, Peggy Ware, Charlotte Smith, Dealia Key, Joyce McCauley, Marie McCauley, Bonnie Prock, Darlene Carter, Helen Trout, Betty Ruth Brewer, and Jimmy Shelton.

The Eye
It seems that Betty Ruth Brewer couldn't find a seat in the show Saturday night. Jack Roberts thinks that one seat is big enough for two. Clea Fae, you are supposed to go home after church on Sunday nights even though Le Roy Patton does like to ride around. Bobby Wagner was doing pretty good Saturday night. Don't you think so Madaline?

NEWS FROM THE BOYS IN SERVICE

Pfc. Ben Griffin now in the middle east, writes his mother, Mrs. A. B. Griffin, the following:

Oct. 26, 1943

Dear Mother:

I'll drop a line or two as I just caught up with my work. How is everything at home now? Sometimes I get so home sick I can't hardly stand it. Seems like I've been gone a long time. Well, I have. I've been overseas for over a year now, but it seems like five years.

The weather is getting cooler here now; that makes it a little better. Mom I hope I never have to spend another summer here in this country, which I don't think I will, for I believe this winter will take care of the Jerries and maybe the Japs too. Then we can all come home and to live in peace again. Mom, it will be so wonderful to go to bed at night (in a bed) and know there's no bombs

going to fall near you, or no German planes to strafe you. So let's just come and pray that the time will come soon when every American can do just that, and let's pray that those five stars in our big front window keeps burning until all of us get home safely.

Mom, you know you are one of the greatest mothers in America, of course you are the greatest to me, but I mean to all America. You have five sons fighting this war in five different parts of the world, and one grandson. We couldn't leave little old Doyle out; he's probably some-where in the Pacific now fighting day and night.

Well, Mom, it's getting so dark I can't see how to write so I will cut this letter short and write more next time. Take care of yourself and keep the home fires burning, for I think 1944 will bring all of us home.

With love,
Your son, Ben

P. S.—I had a letter from Tony the other day, he is still somewhere in England.

The Southeast $\frac{1}{4}$ of Section B, Block 34, H&GN R. R. Company Survey, Wheeler County, Texas.

Amount of Judgment.....\$3,363.46

7. 1810 feet of 8 $\frac{1}{4}$ " casing, which personal property is located in the Johnson No. 1 well on the following described lease:

The Southeast $\frac{1}{4}$ of the Northwest $\frac{1}{4}$ of Section 34, Block 24, H&GN R. R. Company Survey, Wheeler Co., Texas.

How many miles older is your car this week?

"Every mile you drive makes it more important than ever to Care for your Car for your Country"

IF TIRE AND GASOLINE RATIONING were removed tomorrow, no victory-minded American would permit himself one single mile of unnecessary automobile driving!

Let the truth of this fact sink in. Even if gasolene and tires were plentiful, cars are not. There will be no new cars for the duration. And every mile you drive, today and tomorrow and the day after, is an irreplaceable withdrawal from the Nation's bank of total transportation miles.

That is why your Uncle Sam is talking like a Dutch uncle when he tells you to care for your car for your country. You must protect and even pamper your car to coax every last bit of mileage from its aging engine and chassis.

Phillips 66 Service Wardens are pledged to do their utmost to perform all services which will improve the efficiency of your car and lengthen its life. Remember, the car which is driven this winter with tires unchecked... with battery uninspected... with friction points unlubricated... may literally be running at the expense of the Nation's war effort.

The Phillips 66 Service Warden is waiting at every Phillips 66 Service Station, ready and anxious to do his part to help you "Guard America's Mileage." Drive in soon for complete Service-Warden Service at the Orange and Black 66 Shield... sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil.

FOR VICTORY... Buy U. S. War Bonds and Stamps

Amount of Judgment.....\$2,260.76

2200 feet of 5-3/16" casing, which said personal property was originally placed in the Johnson No. 1 well on the last above described property, and is now located in the Lee Major No. 3 well on the following described property, to-wit: The Northeast $\frac{1}{4}$ of Section 38, Block 24, H&GN R. R. Company Survey (except 10 acres in the Northeast corner, being school property), Wheeler County, Texas.

Amount of Judgment.....\$1,358.22

(THE ABOVE DESCRIBED PERSONAL PROPERTY IS NOT SUSCEPTIBLE OF BEING EXHIBITED AT THE TIME OF MAKING THE SALE, AND IT IS THEREFORE SUGGESTED TO PROSPECTIVE PURCHASERS THAT INDEPENDENT INVESTIGATION OF THE PROPERTY BE

MADE BEFORE THE SALE, AT THE LOCATIONS INDICATED ABOVE.)

AND, I will, on the 7th day of December, A. D. 1943, the same being the first Tuesday in December, A. D. 1943, between the hours of 10 o'clock in the forenoon and 4 o'clock in the afternoon offer the said property for sale at public vendue for cash at and in front of the Court House door of WHEELER COUNTY, Texas, in the City of WHEELER, and the proceeds derived from the sale of the said property will be applied to the satisfaction of said Judgment.

JESS SWINK,
Sheriff of Wheeler County, Texas.

KEEPING YOUR WASHER "ON THE JOB"

Don't let your laundry problem get out of hand. If you are the fortunate owner of an electric washer in good condition, keep it that way. You can't buy a new one these days and repair parts are so scarce that a major repair may require weeks of waiting.

CHECK YOURSELF ON THESE POINTS

- 1 Don't overload the washer. Fill the tub only to the water line and add clothes to the washer's capacity, and no more.
- 2 When you finish washing, fill tub with clear water, remove the agitator, then drain tub and wipe inside clean with a soft cloth. Don't let dirty water stand in tub overnight.
- 3 Don't overload the wringer. The rolls are rubber, and doubled-up blankets, buckles, and heavy buttons may damage the rolls.
- 4 Clean and dry wringer after use and leave in neutral position so pressure is off the rolls.
- 5 Empty drain hose thoroughly after each use. Avoid sharp bends.
- 6 A noisy washer may be a washer in need of expert attention. Call a qualified service man if washer does not operate properly.

Doubling up on lamps conserves light!

By arranging furniture, one lamp can often serve two or more people effectively. But be sure that the lamp isn't too far away from either person.

OTHER WAYS TO CONSERVE EYESIGHT AND LIGHT

- 1 Clean lamp bowls and lamp bulbs regularly. Dry thoroughly before using.
- 2 Keep shade linings light. Clean or brush regularly. Repaint or reline dark-colored paper or parchment shades.
- 3 Sit close enough to the lamp to get all the help it can give your eyes.
- 4 Avoid direct glare from lamp bulbs or bowl by using shades deep enough and big enough.
- 5 Have eyes examined regularly by a competent eyesight specialist.
- 6 Turn off lamps not in use. Lamp bulbs use critical materials. Make them last longer.

RATION REMINDER

Ration Reminder
SUGAR — Stamp No. 29 of War Ration Book IV became good November 1 for five lbs. and will be valid through January 15, 1944. Nos. 15 and 16 in Book I, for canning, which expired on October 31, if still unused by consumer may be taken to local War Price and Rationing Board and used in making application for sugar certificates.

MEATS AND FATS — Brown Stamps G, H, J and K are all valid and are good through December 4. L became valid Nov. 21. M will become valid November 28 and N will become valid on December 5. L, M, and N all will expire on January 1, 1944.

PROCESSED FOODS — All blue stamps in Book II have expired. Green stamps A, B and C in Book IV are valid and will be good through December 20.

SHOES — In addition to Stamp No. 18 in Book I valid indefinitely for one pair of shoes, Stamp No. 1 on airplane sheet of Book III is also valid indefinitely. Consumers will be notified 30 days in advance of the expiration date of either the No. 18 Stamp or the No. 1 airplane stamp.

GASOLINE — (Gasoline coupons must be endorsed on front immediately upon receipt.) No. 9 "A" coupons became valid for 3 gals. each on November 22 and will expire on January 15, 1944. "B" and "C" (2 gals. each), "E" (1 gal. each), "R" and "T" (5 gals. each, all issued for three months with any coupons left over valid for further use. "D" coupons are good for one and one-half gals. each for motorcycles.

TIRES AND INNER TUBES — All new tires, used car and truck tires, all new inner tubes and truck recaps REQUIRE certificates. Passenger car tire recaps, used tractor and implement tires, and all used inner tubes require NO certificate.

TIRE INSPECTION — "A" book

holders must have third official inspection by March 31, 1944; "B" book holders, fourth inspection by February 29, 1944; "C" book holders, fourth inspection by November 30; and "T" book holders, inspection every six months or every 5,000 miles, whichever comes first. Speedometer reading should be written in on record.

USED COMMERCIAL VEHICLES — A certificate of transfer is required and must be signed by both seller and buyer and presented by buyer when he applies for gasoline at his local War Price and Rationing board.

OTHER RATIONING — Certificates from local board required for new cars, domestic cooking and heating stoves, bicycles, typewriters, rubber footwear and from USDA War Board for farm machinery and pressure cookers.

Shop and Mail Early

The public is urged to complete its Christmas shopping this month and to send all packages destined to other cities, whether by parcel post or express, before December 10. Early Christmas shopping and shipping are necessary this year to enable satisfactory handling of the extra Christmas load, Joseph B. Eastman, director of the Office of Defense Transportation, said. "Remember," Mr. Eastman added, "that the best gifts for this wartime Christmas are War Bonds or Stamps."

Canned Luncheon Meat

Consumers will be able to buy more canned luncheon meat during the coming year, according to the War Food Administration. Canning of this product is encouraged because it prevents waste of good bits and trimmings of meat at packing plants.

Reduce Christmas Lighting

The American people have been asked by the Office of War Utilities to confine Christmas lighting decorations to Christmas trees inside private homes. Saving of electricity will mean direct savings of fuel, manpower, transportation, and materials.

Scrap Drive to Continue

The "Victory Scrap Bank" drive, scheduled to end November 15, has been continued indefinitely. H. M. Fault, Director of the Salvage Division of WPB, said "As long as the war lasts, there will be a continuing need for iron and steel scrap to keep the mills well supplied. The collection of iron and steel scrap from all sources must be a continuing operation."

Manpower Head Praises Farmers

Assurance that farm men and women are occupying key positions in the war effort has been given by Paul V. McNutt, Chairman, War Manpower Commission. "When the history of this war is written," he said, "I am certain that much of the credit for victory will go to the men and women of our rural districts. Certainly in no war has the production of food played so vital a part and certainly no group has rallied behind the war effort with more eagerness and devotion. We of the War Manpower Commission have done everything in our power to maintain the nation's agricultural labor force at top capacity. Every acre of land that can be planted brings victory so much nearer."

Farmers to Get Batteries

Approximately 20 per cent of the fourth quarter production of flashlight batteries will be distributed to farmers, according to WPB. This makes enough batteries for about normal rural consumption available through farm outlets.

More Hosiery For Children

Production of infants' and children's hosiery will be stepped up shortly as a result of priority assistance given to manufacturers for procurement of necessary yarn. The WPB action resulted from a falling supply of infants' and children's stockings.
