THURSDAY, APRIL 13, 1944

### Sharpen Your Hooks

There are in Wheeler certain fishermen who have already hauled out their tackle and varied equipment, dusting off the rods and reels and started to do a bit of tying, oiling, winding, sorting and adjusting. There is a ritual to this that is savored by the fisherman of any country. This piscatorial art is one thing commonly enjoyed by each race and color in every clime, making men brothers and sympathetic conversationalists whenever two of them meet. Cleaning out his tackle box brings a glow of pleasure to the man who counts the days until weather and law permits him to cast his lot with the finny fellows. Life can be beautiful to a fisherman in the spring of the year.

### The Seabees

We don't talk much about them but we are all aware of the responsibility entrusted to the Seabees. This organization is taken much for granted as they steadily go about building roads, airfields, docks, bridges, barracks. They load and unload ships and have fought on every front where we have met the enemy. Technically, the Naval Construction Battalion, a force of only 99 members in October, 1941 and 262,000 up to last Christmas, these men work in the Aleutians and build on South Pacific Islands. They have been praised by every branch of the armed service and why not, with a motto of "Can Do" as their incentive?

### Cancer Control

Cancer Control Month, since its inauguration in April of 1938, has found the wise of us listening to its warning and co-operating in the attempt to control the disease. Last month there was held the first national conference of cancer prevention clinics, in the United States and this brought reports of specialists in cancer who have devoted their energy to protecting and educating the American people. In spite of this April campaign of education the deaths due to cancer among women, are large in number. In spite of pleas by scientists, too many lives are lost each year because people will not take advantage of the physical examinations offered by cancer clinics. X-ray and surgery has been successful in removing cancer in its early stages. Although they do not know what causes cancer they do know how to cure it in its early stages. Periodic examinations once or twice a year will give real meaning to Cancer Control Month.

### Leap Year

Long ago there started a custom that women have supposedly followed and yet, as years pass, seems to have lost some of its old-time zest. We speak of the Leap Year tradition that gave the ladies the advantage of proposing marriage with proper decorum to the gentlemen of their choosing, not boldly or crudely but in keeping with the tradition of Leap Year. From all indications of marriage announcements in our nation's press it looks as though orange blossoms are in demand, whoever is doing the suggesting. Centuries ago when the calendar was worked out, the astronomers figured the solar year at 365 1/4 days. Every four years the four extra 1/4's add up to a whole day and then this day is added to February, which brings us back to the subject—are girls informed as to the rules?

### Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on the Times' exchange list.

Yes, it's terrible, the way prices are going up now. The last day of March showed what this nation, burdened as it is with taxes and domestic burdens, can do in the way of extravagant splurging. So great was the rush for spending in many cities that men with a sense of humor, caught in the jam, began wishing each other "Merry Christmas."

This rush was caused by the imminence of rising taxes. People seemed to think that if they bought blindly before the jump came, whether they needed things or not, they were saving money. And that, to say the least, was a rash and foolish assumption.

Most people in these times can really get along without expensive furs and wines, rugs and furniture, long distance telephone calls and lodge initiation fees, luxurious railroad and airplane trips, jewelry and nifty toilet articles, and so on.

But, thousands of people will say, what are they going to do then with all the money they're earning? The answer is the same old truth that so many still ignore. Buy war bonds, pay debts, make payments on homes and get set for whatever economic troubles fate may have in store for us all. —Amarillo Times

Another farmer from the rural districts came in this week and ordered his papers to be delivered in the city. He had sold his farm implements and other interests on the farm and moved to town. He, like a number of others, told us he was unable to get competent help to run his tractor machines and that he was unable to get the job done.

Since what we eat and wear comes from the farm and ranch, their maintenance is very important if we are to win this war. The dry goodsman, the groceryman, the druggist and various other lines are all being forced along to give up competent young men for the Armed Forces. But in many instances, if there are any help available their places can be filled. This is not altogether true when the vacancies on the farm occur. Modern machinery in this country including tractors, combines and other farm implements have displaced largely the mule and horse power on the farm and it takes skilled labor to manipulate them.

—Charles P. Ross in The Vernon Times

"I accuse the present (Hoover) administration of being the greatest spending administration . . . in all our history. One which has piled Bureau on Bureau, Commission on Commission, Bureaus and Bureaucrats have been retained at the expense of the taxpayers."—Franklin D. Roosevelt, Sioux City, September, 1932.

"The people in America demand a reduction of Federal expenditure. It can be accomplished by reducing the expenditures of existing departments by abolishing many useless Commissions, Bureaus and functions, and by consolidating many activities of Government."—Franklin D. Roosevelt, Brooklyn, November, 1932.

"But remember well, that attitude . . . the way we do things . . . is nearly always the measure of our sincerity."—Franklin D. Roosevelt, Butte, Montana, September, 1932.

And then came 1933 when Roosevelt became president. One June 11, 1943, it is estimated there were 2,241 Federal Agencies, Bureaus and Commissions, hundreds more than when he took office. Yes, we say the record is a true measure of the sincerity of the pre-campaign speeches of the Roosevelt administration.

—Ochiltree County Herald

# I can TASTE it ain't real

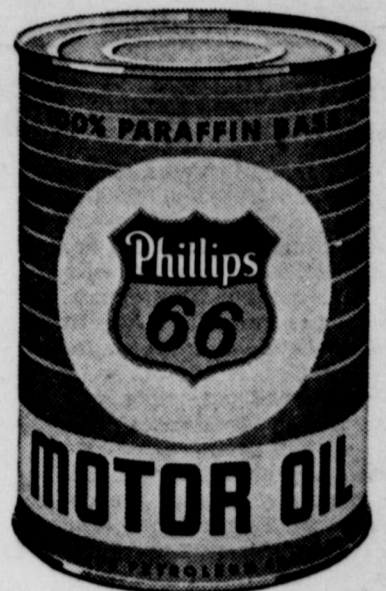

IT'S NEWS, said a famous editor, when boy bites dog but commonplace when dog bites boy.

It is not quite clear why our young inquiring reporter had to sink his teeth into the subject to discover that it isn't the genuine article. But many a motorist would like some similar way of quickly discovering the real thing when he wants high quality motor oil.

The difficulty is that he can't detect quality in a lubricant by taste, smell, sight, or feel. Yet there is an easy solution to the problem. Just remember that to end confusion and doubt, Phillips makes this simple, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality . . . the highest grade and greatest value . . . among all the oils we offer to average motorists.

The recommended oil change period used to be every 1,000 miles. With today's reduced driving, experts say motor life is lengthened by changing oil every two months. And now is the time for seasonal change to replace winter-worn lubricant. So be sure to get quality by asking for Phillips 66 Motor Oil.

CARE FOR YOUR CAR—FOR YOUR COUNTRY

It's Phillips  
Finest Quality

**PROVED IN 50 BILLION MILES OF SERVICE**

By BOYCE HOUSE

A passenger on the famous "slow train through Arkansas" said to the conductor, "You ought to put the cow-catcher on the back end of the train because there is absolutely no chance that we will overtake a cow but a cow might overtake us and wander in."

Around over Texas: In the southeast corner of Montague County are the ruins of a cabin, near a stream in a heavily-wooded area, which was a hideout for Sam Bass, the famous outlaw, according to Joe Benton of Nocona, who has made a life study of the history of that section.

Dr. N. W. Crain, who has been practicing medicine since 1886, recalls that, when he went to Spanish Fort (on Red River) in 1880 that there were no ruins remaining of the old fort (of Spanish, French and Indian days) but that there were large pits, which apparently had been dug to enable some 20 men to lie in them, their feet in the center and facing outward in a circle, making it possible to oppose enemies attacking from any or all directions.

Candidates are proverbially optimistic. It is related that an aspirant for office approached a voter who grew red in the face and bellowed: "I think you are a contemptible reprobate and I wouldn't vote for you if you were the only man in the race; do I make myself clear?" The candidate replied, "You surely

do—and I'll put you on my doubtful list."

An English reviewer many years ago wrote a rhymed review of a book that had mainly been plagiarized from another book:

"The part you stole I liked the best; Take courage, man, and steal the rest."

### WHAT FIRE POWER IS TO FIGHTER PLANES

GREATER OILINESS IS TO MOTOR OIL

In Sealed Containers  
One quality in your motor oil fights off wear in your engine. That's oiliness. Because Amalie Motor Oil is refined from pure 100% Pennsylvania crude and because the exclusive Amalie straight run process gives this stable lubricant an exceedingly high factor of oiliness you'll find Amalie Motor Oil your best ally in making your engines outlast the emergency. Protect every piece of automotive equipment you have through the exclusive use of Amalie Pennsylvania Motor Oil.

## COTTON FIGHTS FOR FREEDOM...

### FOR FREEDOM'S SAKE - GROW MORE COTTON!

Cotton serves on every front: it protects our fighters in the arctic, the tropics and on the desert . . . on land, sea and in the air. Our soldiers, sailors and marines wear it, eat it and fight with it. Over 11,000 articles used by the armed forces contain cotton in some form or another.

**COTTON IS A WAR CROP!**  
From cottonseed we get essential fats and oils for food. Cottonseed meal and cake are an essential protein concentrate feed for producing more meat and milk; cottonseed hulls are roughage, and cotton linters make munitions.

**COTTONSEED IS A FOOD AND FEED CROP!**  
There has not been enough cotton grown in the past few years to supply needed protein and oil. More COTTON grown in 1944 would balance farm programs in the South. More COTTON production will strengthen the war effort and help shorten the war.

**PLANT MORE COTTON IN '44. IT'S THE VICTORY CROP.**

Items of interest pertaining to the Wheeler Schools

Is Patriotism Enough? "Is Patriotism Enough?" Will just the love of our country, just the will to win the war, bring about the downfall of our enemies? Will the patriotism that we are inspired by when we read war stories, gain us peace?

Does patriotism alone settle world wide disputes? Does patriotism produce food or manufacture mighty weapons of war?

Patriotism is essential to our democracy. It is hard work and sacrifice that will win. Certainly patriotism is no assurance of victory.

Students in Wheeler schools are essentially patriotic. Each one is stirred at the sight of the flag or at the sound of the national anthem. Each in his own heart desires victory and peace for his country. It is well, however, that we remind ourselves that it is not by our emotions that we can have peace again, but by willingness to work and sacrifice. Students must be willing to give up a few cokes, candy bars, and shows to buy more War Bonds and Stamps. The most important thing to be remembered is that we must accept every advantage and responsibility and prepare ourselves to take our places in the world of tomorrow. Yes, we must ask ourselves, "Is Patriotism Enough?"

Spring Is Here!

There comes a time in every person's life that he gets a disease known as spring fever. The little birds chirp; the lawns show the first trace of green; and a young man's fancy lightly turns to love. The symptoms of this disease are as follows: The person seems to go around with his head in the clouds with apparently nothing on his mind except how pretty "Susy" looked today and how he would like to go to the old swimming hole for a nice spring swim.

By these symptoms we can see that some of our students are gradually becoming afflicted with this "Slap Happy" feeling. Here and there we see a bright spring dress slightly out of fashion and students going around with their minds off their studies a million miles. They push the gruesome thought of that near-by fatal Friday for book reports out of their minds. Everyone wants to swim and picnic. These are the telltale signs that spring is really here and has a rousing good start.

Evidences of Cupid's Work In Spring

Now that spring is really here, should you walk into the study hall most any hour you would probably find Cupid at work. Most likely Carroll Pendleton will be holding Peggy Weatherly's hand; or Donald will be looking at magazines with Bobbye Ashley; Dorothy Pond can probably be seen telling Donald that dream she had last night; Carroll Pettit and Virginia may be seen studying together, Charles Ray thinks it quite a pleasure to sit with Ida Mae; R. J. takes great delight in making eyes at La Rue, and Charles enjoys watching Barbara draw. After thinking the matter over, I think Cupid is really a rushed man. Don't you agree?

F. F. A. News

The FFA boys are still working in the shop building chicken and hog feeders, making knives and doing some gate repairing.

The hog self-feeder the FFA boys are building will be used to raise money for them to buy gilts and go on a trip. The money raising will end Saturday, April 22 when the feeder is given to some lucky person. The feeder will take care of about 40 hogs.

The FFA boys are still working hard to win points so the winner can get a gilt. The contest closes May 26.

TO VISIT BRITISH ARMY

Cpl. Daniel R. Cox, son of Mr. and Mrs. S. P. Cox of Duncan, Oklahoma, formerly of Mobeetie, has written home that he was one of a group of American soldiers chosen to visit the British army to further the Anglo-American relationship. Cpl. Cox spent two weeks with the British Engineers and reports it was a very interesting stay and he gained a lot by it. He is in the Engineers Corps stationed somewhere in England.

AT KEESLER FIELD

Kessler Field, Biloxi, Miss., Apr. 12 — Pfc. Lowell Fred Farmer, son of Mr. and Mrs. P. L. Farmer, Wheeler, has reported at this station of the Army Air Forces Training Command for medical and psychological processing, classification and training to determine his qualifications as a pre-aviation cadet.

Upon successful completion of this phase of his processing, he will be sent to a college or university for five months further study or directly to a pre-flight center for cadet training, depending upon his previous academic background.

Mrs. Mattie Goad and daughter, Berge, of Pampa spent the week end in Wheeler with relatives.

Mr. and Mrs. Fred D. Walker and son, Frankie, of Canadian visited Mrs. D. O. Beene Monday.

Mr. and Mrs. L. J. Laffin and daughter, Mrs. Clarence Ferguson, and son, Mack, of Miami, spent the Easter holidays with Mr. and Mrs. Carl Laffin.

ankle?

Donnie was absent from school most of last week due to her uncle's death.

The Juniors, if you haven't noticed, have something new added. Could it be their pins and necklaces?

Answer for last week's guess who is Charles Hubbard.

Junior guess who: This boy has blond hair, blue eyes, about 5 feet 7 inches tall, and likes a certain freshman girl. (Answer next week.) The Juniors are having a hard time learning their verbals in English grammar.

Freshman News

The English I class has just completed the drama of "Julius Caesar" by Shakespeare. Some of the students were sure that they would not like such a "dry" historical play, but after dramatizing some of it in class they became more interested. The girls seemed to enjoy playing the men's parts.

J. C. Tipton had a cleaning bill after playing the part of Caesar when he was stabbed. He found that the floor was a little dirty for a clean jacket.

The class has now begun a study of the metrical romance "The Lady of the Lake" by Sir Walter Scott.

Things we'd like to hear and see in Homemaking II:

Patsy hanging up her coat without being told. Iris saying, "I know what to do next." Dollie having something to work on. Margie bragging on her sewing. Josephine ever finishing a garment. Mary Alice not working buttonholes. Edna without anything to rip. Betty coming to class. Bettie Hix modeling her midriff short suit and not blushing. Coene doing a little complaining. Madalene not advertising Mobeetie. Hazel Lee being happy. Mrs. Wiley saying: "Don't worry. I'll do it for you."

**MOVIE CHATTER**

(By a Rogue)

**The Lone Star Trail**  
Johnny Mack Brown and Tex Ritter come galloping out of the wide open spaces on to the screen at the Rogue Theatre Friday - Saturday, April 14-15, in The Lone Star Trail. This is, as the title suggests, another western picture about the cattle country of Texas back in the days when lawlessness flourished. It promises a good story with two popular cowboy stars, and this should be the go-ahead signal for those who like western pictures.

**Wintertime**  
The champion figure skater of the world, Sonja Henie, comes to the Rogue Prevue-Sunday-Monday, April 15-16-17, in a vehicle that carries her further into the glory of stardom. You will note in Wintertime that Miss Henie has learned to act as well as skate, and this, of course, enhances the picture for all. Then, too, there will be Woody Herman and his orchestra to add to the gala occasion. So it looks like you are in for a good time at the Rogue when Wintertime comes—and if winter comes, can Spring be far behind? We will be seeing you.

**Blondie and the Bumsteads**  
Yes, folks, there is a chance that the title of the picture for Wednesday-Thursday, April 19-20, might mislead you and cause you to miss the very picture you are wanting to see. Footlight Glamour is the title of the picture, but let's look a little further and see just what it is all about. You guessed it. It is Blondie, Dagwood, and all the Bumsteads. And that is what we were afraid you would overlook. So now that you know that you can expect to see all of your favorite comic strip characters in Footlight Glamour, we will put on the sideboards and try to take care of you.

**Sow the seeds of VICTORY in your own back yard!**

Help relieve the shortages of foods "that have gone to war" by planting the seeds of VICTORY in your own back yard...the vacant lot next door...the public park.

**HENDERSON-WALKER VOWS READ LAST SUNDAY**

Mrs. Dora Lee Henderson and Bus Walker were married last Sunday evening at 5:30 o'clock at Shamrock by Rev. Bob Matthews, U. S. Army Chaplain in a single ring ceremony. The bride wore a blue suit with brown accessories. They were attended by Mrs. S. E. Walker, mother of the groom, and Miss Stacey Walker, sister of the groom. The couple will make their home near Wheeler.

**LOCAL HOME DEMONSTRATION CLUB TO MEET APRIL 19**

Members of the Wheeler Home Demonstration Club are requested to be present at a meeting in the club room in the court house at 2:30 p. m. Wednesday, April 19.

**YREVA SUE CARTER IS HONORED EASTER SUNDAY**

Mrs. Charlie Carter gave a dinner for her daughter, Yreva Sue, Sunday, April 9. After a delicious meal the group went on an Easter egg hunt. Those present for the occasion were Imogene Flynt, Georgie Gaye Porter, Peggy Jo Rodgers, Billie V. Brown, Margaret Ann Holt, Frances Porter, Patsy June Williams, Dreka Rowe of Pampa and the honoree, Yreva Sue Carter.

**BLUE BONNET GROUP HAS STUDY OF GARDENS**

The Blue Bonnet Study Club of Mobeetie met in the home of Esther Key, Wednesday, April 5, with a program on "Some Garden Tricks I Have Learned." Esther Key gave a very humorous paper on "Gypsy Gardeners." "Let Your Rock Garden Go Native" was presented by Alta Daughtry and Imogene Miller gave "How To Attract Butterflies to Your Garden." Delicious refreshments were served to Carey Willis, Ruth Ewing, Fleda Godwin, Imogene Miller, Juanita Matthews, Alta Daughtry and the hostess Esther Key.

The next meeting will be "Guest Night" at the home of Alta Daughtry, Wednesday night, April 19 at 8:30 p. m. "Burma Surgeon" will be reviewed by Fleda Godwin.

**STITCH AND CHATTER GROUP MET TUESDAY**

The Stitch and Chatter Club met Tuesday in the home of Mrs. Henry Walser, with Mrs. S. T. Hodnett, Mrs. J. J. Ayers and Mrs. Bill Black present.

The next meeting will be in the home of Mrs. Annie Sivage, with Mrs. J. J. Ayers as hostess.

**MRS. R. B. LEONARD HONORS MOTHER ON BIRTHDAY**

A birthday dinner was given Easter Sunday in honor of "Mother" Patterson, who was seventy-seven years old. The affair took place in the home of her daughter, Mrs. R. B. Leonard in Mobeetie. Those enjoying the occasion were: Cpl. Beal and wife, Cpl. Aubrey Leonard, Camp Berkeley; Mr. and Mrs. H. B. Patterson and daughters of Pampa; Mr. and Mrs. A. T. Newman, Jowett; Mr. and Mrs. Lester Leonard, Mr. and Mrs. R. B. Leonard and children, Ray, Roberta, and Joe Fred. Mother Patterson had four children, ten grandchildren and one great grandchild present for the occasion.

**MRS. A. C. WOOD IS LEADER OF PROGRAM**

The Baptist W. M. U. met at the Church Monday afternoon at 2:30 for a Bible Study led by Mrs. A. C. Wood. Those present were Mrs. C. N. Wofford, Mrs. Jimmie Mitchener, Mrs. Lee Guthrie, Mrs. Curtis Pond, Mrs. George Porter, Mrs. Raymond Sayre and Mrs. A. C. Wood.

**KAPPA BETAS HEAR "THE ROBE" REVIEWED**

The Kappa Betas met Tuesday evening, April 11, in the home of Miss Leona Crossland. Ruth Wiley reviewed the book "The Robe." Those present were Irene Norman, Ruth Barr, Virdie P. Wheeler, Mary Eunice Noah, Amy Sue Beckett, Lela Ruth Watt, Betty Sue Bownds, Evonne Hubbard, Kathryn Carmichael, Margaret Dyer, Ruth Wiley, Helen Green, Mrs. H. E. Nicholson, Nellie Jo Lowry and Mrs. Mary Sims of Shamrock.

The next meeting will be in the home of Helen Green, April 25, at 8 p. m.

**ROBINSON-FULTON MARRIAGE ANNOUNCED**

Mr. and Mrs. Edwin B. Robinson have announced the marriage of their daughter, Norma Dee Robinson, to Ralph Fulton of Amarillo. The vows were read in the Pierce St. Baptist church January 1 by Rev. Horton. The bride's sister, Mrs. Ford Newkirk, was maid of honor.

Mrs. Fulton graduated from the Kelton High school with the class of '41. Mr. Fulton is a salesman for the White Auto Store in Borger. He entered the Navy in January, 1942 and was discharged in November with the rank of AMM3c. The couple live at 316 Deahl Street in Borger.

**MRS. R. WM. BROWN IS BRIDGE CLUB HOSTESS**

Mrs. R. Wm. Brown was hostess to members and guests of the Contract Bridge Club at her home Friday evening. An attractive arrangement of cut flowers and spring blossoms was used throughout the entertaining rooms.

Dinner was served from a lace covered table, which was centered with a large Easter rabbit surrounded by gaily colored eggs and flanked by tall pink and green tulip candles. Place cards atop a tiny Easter bunny in pastel colors marked the places at individual tables. The Easter motif was furthered in the game appointments. Score awards were made to Mrs. Bert Kennedy and Raymond Holt, high, Mrs. McDowell and Harry Wofford, second high. Those present were Mr. and Mrs. Joe Hyatt, Mr. and Mrs. Glen Porter, Mr. and Mrs. Bert Kennedy, Mr. and Mrs. Raymond Holt, Mr. and Mrs. Ansel McDowell, Mr. and Mrs. Nelson Porter, Mr. and Mrs. Lee George of Allison, Mrs. Bronson Green, Mrs. Ed Watson and Harry Wofford.

**SANDRA SUE STILES HONORED ON 7TH BIRTHDAY**

Mr. and Mrs. Gordon Stiles honored their daughter, Sandra Sue, on her seventh birthday anniversary with a birthday dinner and Easter egg hunt at the home of her aunt, Miss Beth Stiles, Sunday, April 9. Easter colors were carried out in the table decorations and party favors. Dainty pink

candles decorated the pink and white birthday cake. Those present were Lonnel and Shari Gale Lee, Tony Gene and Phillis Kay Puckett, Jerry and Amy Beth Lewis, Paula Green, Bonnie Moore, Mr. and Mrs. Chester Lewis the host and hostess and the honoree.

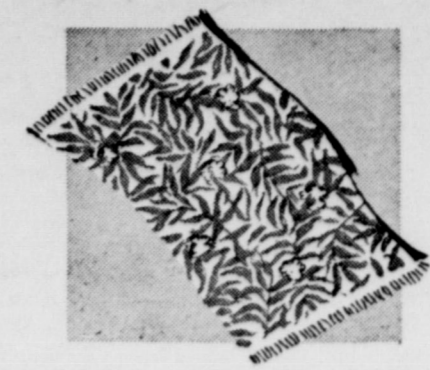

**SURPRISE BIRTHDAY DINNER HONORS GEORGE HIGGINS**

Visitors in the home of Mr. and Mrs. George Higgins Sunday were Mr. and Mrs. J. A. Higgins of Mountain View, Okla.; Mr. and Mrs. Francis Jarnagin and daughter, Wanda, Mayfield, Okla.; Mr. and Mrs. Bill Mandrell and children of Mayfield; Mr. and Mrs. Claud Taggart and children and Dickie Strickland of Dalhart, Texas. The occasion was that of a birthday dinner given in honor of Mr. Higgins.

**PATSY NOAH ENTERTAINS WITH EASTER EGG HUNT**

Patsy Noah and Patsy Williams entertained a group of children with an Easter egg hunt at the Noah home Saturday afternoon. Those enjoying the occasion were Robert and Mary Bob Denson, Tony and Phillis Puckett, Donnie and Jerry Dison, Glenda and Jim Porter, Jim McDowell, Joe Richard Hyatt, Herman Ray and Kenneth Van Sycle of Pampa.

Mr. and Mrs. Gerald Robinson of Oakland, California are visiting relatives here prior to his entering the Navy in a few days.

**Shoes** — Stamp 18 in Book One, good through April 30. Airplane stamp No. 1 in Book Three, good indefinitely.

**Income Tax** — Declarations of estimated 1944 tax and first quarterly payments are due by April 15.

### Need For Manpower Continues

Although the United States Army has reached its planned peak strength of 7,700,000 persons, it will need 75,000 to 100,000 men monthly to maintain that strength, according to the War Department, and the Navy Department said it would need 400,000 additional personnel by September 1 to get the Navy, Marine Corps and Coast Guard up to peak strength of 3,500,000. Meanwhile, the National Selective Service System has abandoned the War Unit Plan for determining agricultural deferments. Provisions concerning a registrant's agricultural occupation or endeavor that will govern are whether he is necessary, whether he is regularly engaged in it, whether that occupation or endeavor is necessary to the war effort and whether a replacement can be obtained.

### Jobs For Discharged Veterans

For men discharged from any of the United States Armed Services, a summary of job opportunities in

## RUPTURED?

Experimenting with questionable trusses at the expense of your health will prove costly. See your physician at once for the proper diagnosis and we will fill his prescription to his entire satisfaction. If your condition has already been determined and you are not securing the proper comfort or relief, pay us a visit at once and be convinced that under competent hands, truss fitting has been reduced to a science eliminating all guess work.

We feature the famous line of Non-Skid Spot Pad Trusses which hold the rupture with a traction of the pressure required by other appliances. We also have a complete assortment of Abdominal Supporters, Elastic Suspenders, Shoulder Braces, etc.

McDOWELL DRUG CO.

114 major industrial centers will be placed in nearly every local U. S. Employment Service office, the War Manpower Commission announces. These job summaries give information on types of jobs, scheduled hours of work, hourly wage rates, availability of housing, cost of living, and the adequacy of community facilities such as schools, hospitals, and transportation. The summary will be revised bi-monthly and will indicate the expected labor demand six months in advance.

### Special Gasoline Rations

Full-time paid employees of farm organizations operating to increase food production are eligible for preferred mileage under gasoline rationing, the OPA announced. Their organizations must be chartered by the United States, or by a State, and have a membership of at least 100 persons, the majority of whom are farmers. Also, qualified victory gardeners again will be granted special gasoline rations for up to 300 miles of travel to and from their plots this summer.

### Test Motor Fuel "Dopes"

Shortage of gasoline, says the Department of Commerce, has led motorists to use fuel "dopes," reputed to increase mileage and otherwise improve the automobile operation. The Bureau of Standards has tested hundreds of them without finding beneficial results in any case.

### Merchant Marine Calls Radiomen

At least 500 first and second class commercial radio telegraphers, licensed by the Federal Communications Commission, are needed for Merchant Marine service within the next three months, the War Shipping Administration announces. Qualified men should telegraph collect, at once to U. S. Merchant Marine, Washington, D. C. Registrants will be placed on active pay status as soon as accepted and must attend a Navy school on wartime procedure for one to three weeks.

### Maritime Commission Reports

Maritime Commission shipyards delivered 410 ships of 4,115,951 dead-weight tons during the first quarter of 1944, the Commission announced. Liberty ships continued to dominate production, but there was a growing tonnage of military and other fast type vessels, including the new victory ship. In March, 152 merchant ships were built.

### Round-Up

The War Food Administration says the public should consume more

eggs, at least through mid-May, to take care of an anticipated record production amounting to at least 350 eggs for each civilian during 1944. . . . About 70 per cent of the 1944-45 supply of dehydrated vegetables will be allocated to U. S. war uses, 23 per cent to Great Britain and Russia, 5 per cent to U. S. civilians, 1 per cent to liberated areas and 1 per cent for other exports.

WPB says that — a "farm" is a property used primarily for the raising of crops, livestock, dairy products, poultry, etc., for market, and on such property \$1,000 or less may be spent for construction, including the farm house, without approval. . . . In view of the continued critical shortage of pulpwood for paper and paperboard, farmers, as well as every full-time woodcutter, should continue to cut as much pulpwood as possible. . . . Some electric alarm clocks and 1,200,000 war alarm clocks (many for military needs) will be produced and distributed during the second quarter of 1944. . . . A cut of 10 per cent in civilian leather for shoe repairs and 13 per cent for new shoes has been made for 1944. . . . Production of cutlery made of stainless steel has been permitted and products should be available at retail counters in three to four months.

OPA says that — consumers buying meat directly from farmers may continue to use the Red Stamps, AS through M8, plus the next 18 stamps in Book Four. . . . The over-all 1944 retail prices of early onions will be somewhat above those of 1943, but below the current "going" prices. . . . The retail ceiling price for book matches with non-commercial designs on the cover is 14 cents per box of 50 at independent stores, and 13 cents, or 2 boxes for 25 cents, at chain stores and super-markets. . . . Retail prices of fresh dressed halibut were recently reduced for consumers in Eastern States, and for the first time in almost a year adequate supplies of this fish will be available for consumers living west of the Rocky Mountains. . . . Prices for used automotive parts usable without rebuilding must not exceed 75 per cent of list price for the parts when new, and for parts which must be rebuilt before being usable, must not exceed 30 per cent of the original list price.

The War Shipping Administration says — arrangements are being made to enable America's 125,000 merchant seamen to vote in wartime elections. . . . Manufacturers have been granted licenses to produce authorized service flags and lapel buttons which soon will be on sale to accredited families of American merchant marine officers and men.

Marcielle Farmer, who is attending college in Canyon, visited her parents, Mr. and Mrs. Fred Farmer, during the Easter holidays.

Mr. and Mrs. Bruce Gressett of Canyon visited with their parents and other relatives over the week end.

## LEGAL NOTICE

(First published in the Wheeler Times, March 30, 1944.) 3t

### CITATION BY PUBLICATION THE STATE OF TEXAS

To: Pearl Vermillion, Mrs. Hattie Raney, and husband, J. O. Raney; Earl Vermillion, Minnie Sap, Mrs. Edith Rollins, Mrs. Dessie Vermillion, Magdalene Vermillion, Alva Vermillion Jr., Dale Rollins and Garvis Rollins, Jeff Vermillion and Mrs. Jeff Vermillion, John R. Vermillion, Irene Ray Vermillion and Orwin Vermillion, if living and if not living their unknown heirs and legal representatives.

### GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 8th day of May, A. D., 1944, at or before 10 o'clock A. M., before the Honorable District Court of Wheeler County, at the Court House in Wheeler, Texas.

Said plaintiff's petition was filed on the 24th day of March, 1944. The file number of said suit being No. 3505.

The names of the parties in said suit are: Isabel Huselby and Mabel Arrington, individually and as executrices of the Estate of M. L. Huselby, Deceased, and under her will and John Arrington, as plaintiff, and Pearl Vermillion, Mrs. Anna Blair and husband, W. D. Blair; Mrs. Hattie Raney and husband, J. O. Raney; Earl Vermillion, Minnie Sap, Mrs. Edith Rollins, Mrs. Dessie Vermillion, Magdalene Vermillion and Alva Vermillion, Jr., Dale Rollins and Garvis Rollins; Jeff Vermillion and Mrs. Jeff Vermillion; John R. Vermillion and Irene Ray Vermillion and Orwin Vermillion; if living and if not living, their unknown heirs and legal representatives, as Defendants.

The nature of said suit being substantially as follows, to wit:

Trespass to Try Title with counts in limitation.

A brief statement of the nature of this suit is as follows, to-wit:

**FIRST COUNT:**  
Plaintiffs sue in trespass to try title claiming that on the 1st day of January, 1944, plaintiffs Isabel Huselby and Mabel Arrington were and are the owners in fee simple of the following described premises situated in Wheeler County, Texas:

All of the North-East Quarter (NE $\frac{1}{4}$ ) of Section Four (4), Blk. A-5, Certificate No. 14/2896, H&GN RR CO. Surveys, and

All of the South-East Quarter (SE $\frac{1}{4}$ ) Section Seventeen, Blk. A-5, H&GN RR CO. Surveys, Certificate No. 14/2903.

That on the day and year last aforesaid, plaintiffs were in possession of such premises and afterwards on the 3rd day of January, 1944, the defendants unlawfully entered upon and dispossessed them of such premises and withholds from them the possession thereof.

**SECOND COUNT:**  
Plaintiffs further sue for title and possession of the lands above described upon the ten, five, and three year statutes of limitation, claiming as follows:

A. That they and their grantors have had and held continuous peaceable and adverse possession of said land, cultivating, using and enjoying the same for a period of more than ten years after defendants' cause of action, if any they had, accrued.

B. That claiming said land under deeds duly registered, they and their grantors have had and held peaceable, continuous, and adverse possession of such land, cultivating, using and enjoying the same and paying all taxes due thereon, for a period of more than five years after defendants' cause of action, if any they had, accrued.

C. That they and their grantors have had and held continuous, peaceable and adverse possession, under title and color of title by transfer from and under the State of Texas, of such land, claiming, cultivating, using and enjoying the same for more than three years after defendants' cause of action, if any they had, accrued.

Plaintiffs pray that they have judgment for title and possession of such lands, upon each and all counts and sub counts alleged, for general and special, legal and equitable re-

Presley Guynes spent the week end in Pampa with her sister, Mrs. J. D. Beatty.

Mrs. D. E. Holt and Mr. and Mrs. R. D. Holt made a business trip to Amarillo Tuesday.

Issued this the 24th day of March, 1944.

Given under my hand and seal of said Court, at office in Wheeler, Texas, this the 24th day of March A. D., 1944.

OLLIE W. BEENE,  
Clerk, District Court,  
Wheeler County, Texas

# TRADE AT HOME and SAVE MONEY

Local merchants who patronize these columns frequently report surprising response to their money-saving offerings. . . . yes, money-saving—when the expense of the trip is added to the "supposed" saving in purchase price of merchandise from a store in some other town that pays no taxes and contributes nothing to the maintenance of public institutions in Wheeler which people of the town and community accept as a matter of course, often losing sight of the fact that it costs money and effort to provide and keep these things up.

Yes, money-saving—when the annoyance, delay and frequent inferior quality of purchases from mail order houses are taken into consideration.

Yes, money-saving—to the wise and thoughtful citizen who realizes the injury done the community as a whole and himself, individually, when money is constantly sent off to build up some distant town and provide employment for its people when men and women right here at home need and want work.

Yes, money-saving—when residents of Wheeler and its trade territory take advantage of the fair and reasonable prices on good merchandise offered through The Wheeler Times by local merchants.

# NEWS from FOOD FOR VICTORY

**YOUR COUNTY HOME DEMONSTRATION AGENT**  
TEXAS EXTENSION SERVICE  
BETTY SUE BOWNS, County Home Demonstration Agent

**Be Patriotic: Eat More Eggs**  
Texas families can demonstrate their patriotism this week by eating an extra dozen eggs.

The reasons for the present temporary surplus of eggs are simple and easy to understand. We have a record number of layers on farms of the nation—over 500 millions of them. They got off to an earlier start than usual this spring, and they are laying a record of eggs—around 200 million a day. Add to this high production, a shortage of cold storage space, the strain on transportation, the lack of enough egg containers. It all adds up to the fact that egg prices are at a low level just now, and large quantities of eggs must be consumed by the public at once. Otherwise farmers will not be able to continue to produce them economically.

Any one who joins in the eat-more-eggs program will be doing himself a nutritional favor. Eggs provide protein of a quality that is easily and quickly digested and absorbed. In addition, they are blood and bone builders. Eggs are one of the few foods rich in vitamin D, and they contain at least four other vitamin constituents and several minerals. This is a word to the cooks: The secret of tender eggs is to cook them at low temperature. This rule applies whether eggs are preferred scrambled, over easy, sunnyside up or in omelet.

Farm people unable to dispose of surplus eggs may be interested in preserving some for use later by freezing or by the "water glass method." Directions for these storage procedures and recipes on egg cookery

are available from your county home demonstration agent.

By Amy Sue Beckett  
Ass't. Co. Home Dem. Agent  
Insects which damage growing garden plants carry on their life's work in different ways. Some live openly on the leaves and shoots while others puncture the plant and siphon off the juice. Either approach is bad for the plant, but taken in time the bugs can be curbed and the garden crop saved. Production can be increased 20 per cent if insects are controlled.

Insecticides properly applied will do the job, says Paul Gregg, assistant entomologist for the Texas A. and M. College Extension Service. But to halt the juice-sucking species, they must be hit directly by the poison since there is none which can be absorbed into the plant juice without injury to the vegetable or making it unsafe for human food.

The group of sap-sucking bugs include plant lice, or aphids, tomato suck fly, cabbage bug, stink bug and squash bug. A maximum of five pounds of five-tenths per cent roterone dust will be available to every Victory gardener this year for control of these pests. Except for the plant lice the five-tenths per cent roterone dust is not very effective control for adult bugs but will kill the young ones. Notwithstanding, it is doubtful whether any other poison is more effective on mature bugs, Gregg says.

Sap-sucking insects feed mainly on the lower surface of the leaves and also are found on the under side of the foliage when not feeding. Remember that only the bugs which are hit by the poison are killed. So shoot at these pests by dusting or spraying the under side of the leaves thoroughly. Start early because of few bugs are easier to control than a large number.

For effective control application of poison should be repeated at seven day intervals as long as damage is observed. The poison does not kill the insects' eggs.

## Cues-News-Views For Wartime Housewives

"Grow more in '44" is this year's theme song. Everyone who experimented with a Victory garden last year should expand his efforts this year. Everyone who didn't raise a Victory garden last year should plan one. It is the one sure way to obtain fresh vegetables for use this summer — and canned food for use next winter. The gardening information set forth below will come in handy. More information may be obtained on the display floor of this Company.

### ◆ TOOLS

- |              |            |
|--------------|------------|
| Digging Fork | Hoe        |
| Spade        | Cultivator |
| Rake         | Trowel     |

The tools listed above are considered essential for a small garden. By keeping them clean and sharp, you will prolong their life over a period of years. Be sure to polish metal parts with emery cloth or steel wool each time after using. Sharpen cutting edges by filing. Repair broken tools by having metal parts welded and purchasing new handles.

### ◆ HINTS FOR GOOD GARDENING

1. Plan your garden early, and use the plan at planting time.
2. Select good seed of dependable varieties, and treat the seed.
3. Rotate the different vegetables within the garden area each year—if possible, plant the garden in a new location each year.
4. See that garden soil is well drained.
5. Pulverize the seedbed well by thorough raking.
6. Plant the garden where vegetables will receive at least 6 hours of sunshine during the day—away from trees and shrubs.
7. Thin seedlings to proper spacing while they are small.
8. Destroy weeds by frequent shallow cultivations.
9. Make several small plantings of quick-maturing vegetables rather than large single plantings.
10. Plant a summer garden.
11. Give heavy applications of water, if available, once or twice a week during hot dry periods.
12. Control garden pests.

### ◆ HOW TO PLANT

Straight rows make cultivations easier and can be assured by stretching a cord tightly between two stakes. For fine seed, make shallow furrows with the end of the hoe handle. For large seed, deeper furrows can be made by drawing the corner of the hoe blade along the ground. Cover the seed with soil and firm it with rake or foot. With heavy soil, cover seed with a small amount of soil and firm it; then cover to proper depth with loose soil without firming it.

### ◆ FOR A SMALL GARDEN

Small garden plots should be devoted to growing only the most productive crops and those that take up the least room. Examples of such crops are lima and snap beans, beets, cabbage, carrots, onions, parsnips, peas, radishes, Swiss chard, tomatoes and turnips. To increase production further, plant two kinds of seeds in the same row—one quick-maturing, the other slower.

### LOCAL NEWS ITEMS

Mr. and Mrs. Norman Dysart of Fort Worth visited relatives in Wheeler county last week.

Lewis Craig of Dallas spent the week end in Wheeler with his father, F. B. Craig.

Mr. and Mrs. Bill Perrin and daughters visited in Pampa over the week end.

#### Four Negroes Featured In Senior Play

Pete, the negro chauffer, in the Mobeetie Senior class play, is played by Thomas W. Walker. He is the typical negro in a spooky house; although, in his opinion, he's the only brave man in the house.

Lily Violet, a flashy negress, is played by Jaunell Shelton. She's interested enough in Pete to come all the way out to "The Valley of Ghosts" to see him.

Billy Bailey acts the part of Amos Hill, who has a terrible problem in his love affairs. For some reason he's afraid to ask Sally Ann to marry him.

Miss Wayne's maid, Sally Ann, has more ghost troubles than anyone else. It seems that everything happens to her. Imogene Herd fills the role of Sally Ann.

The play will be presented April 27 at the Mobeetie gym.

### WHAT SAY YOU?

Now go write it before them in a table, and note it in a book, that it may be for the time to come for ever and ever: That this is a rebellious people, lying children, children that will not hear the law of the Lord; Which say to the seers, See not; and to the prophets, prophesy not unto us right things speak unto us smooth things, prophesy deceits.

—Isaiah 30:8-10  
—W. J. Brumley

#### CARD OF THANKS

Words cannot express our heartfelt appreciation for the kindness shown by our many friends during our days of sadness because of the loss of our beloved wife and mother. Especially do we appreciate the many beautiful floral offerings and other thoughtful considerations.

### Treat Seed For Greater Yield

Chemical treatment of seed is an inexpensive insurance against certain seed-borne diseases which cause poor stands and lower yields. According to E. A. Miller, agronomist for the A. and M. College Extension Service, the treatment also protects seed against molds and fungi in the soil and makes for better germination, especially with early planting in cold or wet soil which is not in condition for quick germination.

Experiments and demonstrations show that seed treatment will increase cotton yield considerably at an additional cost of only 10 to 15 cents an acre. The treatment method is the use of two or three ounces of two per cent cerasan per bushel, or one to one and one-half ounces of five per cent cerasan per bushel. The seed should be treated in a steel drum or similar container having a tight fitting lid and arranged to revolve on an axis. The container should not be filled to more than one-half capacity so that the seed will fall continually as it revolves and receive a uniform covering of the chemical dust.

Miller says that the treatment usually has the further effect of causing a certain amount of seedling vigor. The resulting quicker growth allows earlier chopping.

Grain sorghums and sweet sorghums often are affected by a disease called kernel smut. Evidence of the disease is kernels filled with smut spores instead of sound seed. Planting seed not treated to destroy the spores will transmit the smut

to the next crop. The treatment consists of either two ounces of 50 per cent copper carbonate, or one-half of an ounce of five per cent cerasan per bushel.

Miller says the cerasan must be used strictly according to directions as an overdose, or poor distribution of the chemical may injure the seed. Finely ground dusting sulphur at the rate of three ounces per bushel also has been found effective against smut. Any tight container may be used for the treating process, the important thing being to get a good covering of dust on all of the seed.

### PEANUTS ARE VITALLY NEEDED

By V. B. HARDCASTLE  
Adm. Officer Wheeler County  
A. C. A.

This year and next are crucial years. You don't need anyone to tell you that, when talking about battlefronts overseas. But maybe you've wondered how growing a war crop here at home will back up our boys in their fight toward victory. Well, here's how peanuts, for instance, fit into the war programs.

The War Food Administration is asking farmers to grow 18 per cent more acres of peanuts this year than in 1943. That goal is spread among a dozen or so states. If one of the counties or farms in these states falls short in planting peanuts it means that there won't be enough for some important need.

Peanuts are needed mainly for food — peanut butter, cooking oil, peanut candy, just plain peanuts. They're good sources of food energy — high in protein, fats, and the B complex vitamins that guard against pellagra, shaky nerves, stunted growth.

Peanut oil is counted on for 480 million pounds of the 7.4 billion pounds of fats and oils required in 1944. This oil goes into such foods as cooking oils, releasing other oils for lubricants, soap, paints, explosives, and other military uses; a small quantity of peanut oil is used directly in the textile and drying industries.

The war can't be won without food, especially fats and oils. And the best way to get more fats and oils is to grow more oil crops.

One acre more or less does matter. One extra acre of peanuts will provide cooking oil for a company of 250 soldiers for nine days. One extra acre will release enough other oil to make 250 anti-tank shells. Add enough of those extra acres together and you get thousands of additional pounds of food weapons.

So you see, every acre of peanuts you grow on your farm will actually help win the war. If you'll need more workers to grow extra peanut acreage, your county agent stands ready to help you get them. If you lack the machinery for growing more peanuts, tell the AAA men about it. They may be able to help you.

While the government will give all the help it can, the actual growing of peanuts is up to you.

**MYRTLE CLUB REPORTS \$200.75 RAISED FOR RED CROSS DRIVE**

The Myrtle Home Demonstration Club met in the home of Mrs. G. B. Anderson Thursday, April 6, with a program "Food For The Sick." After a regular business session the club filled out their year books. Those present were Mesdames Albert Anderson, Elmer Miller, Edward Erington, Olan Smith, Walter Sorenson, Leonard Hagerman, Miss Ruby Lee Sorenson, Miss Dorothy Sorenson and the hostess, Mrs. Anderson.

The members of the club wish to thank all those who helped to make the Home Demonstration Club Red Cross drive a success. We especially thank the candidates and Harry Wofford, Tom Britt, Dick Guynes, C. W. Whiteley, Leonard Hagerman, and Elmer Miller, who paid \$13.50 for the bed spread. The total sum received was \$200.75.

Mrs. R. L. McClain and daughter, Lillie, moved to their new home on South Main Street last week. They have purchased the property from Mrs. Madge Page.

Mrs. Lucy Sanders and Mrs. Dee Patterson of Pampa spent the week end with their sister, Mrs. D. A. Hunt.

McClain or inquire at Times office. 18-1tp
