FAMILY TREASURES
Many people who have lived in the same house for many years, collect many things that remind them of the past. They may have the old family Bible that was given Grandpa by his Sunday school class. Or there is the nice old chair in which Grandma used to sit in her latter days. There may be photograph albums in which are kept the pictures of many relatives and friends of years gone by.

Perhaps there are pictures treasured for many years as a wedding gift. Or there may be silver or china that dates back many years. Many of these things have value as antiques, and people cling to them and perhaps decline considerable sums offered them by dealers.

Old books are among these treasures. They often seem quaint compared with modern style, and the books are interesting as a reflection of the ideas and prin-

iples of former days, which differ widely from those now prevailing.

So many old houses become a sort of treasure place, in which these cherished mementoes of a former day are kept, and viewed with interest by the young people of today. The attics of some of these old homes are full of these relics, sometimes with furniture which people they think they will have refinished some day, but perhaps will never get around to it.

Many people move from town to town with some frequency, and if they do it may be a difficult thing to retain these relics of the past. The dwelling to which they are moving may not have room to store these old belongings. If one can live on in the same house for many years, the presence of these souvenirs of former years is a very pleasant possession. The home is enriched by these reminders of former days.

Dishwashing Can Be A Simple, Fast Operation Home Specialist Says

COLLEGE STATION — That ever-present task of washing dishes can be a simple, fast operation, according to Mrs. Florence W. Low, home management specialist of the Texas A. and M. College Extension Service. She offers a few short cuts along this line. She says that while dishes are drying, wipe the glasses and silverware that have been rinsed in hot water, preferably boiling. A spray attached to the faucet is an easy method of rinsing, or if a pan of boiling water is used, vegetable tongs can be used to take the dishes out to drain. A cupboard placed just above the drain board is handy to put the dishes away after they have drained.

Baking dishes, Mrs. Low says, cut down on the amount of dirty utensils; in these containers, food can be cooked, served, and put away in the refrigerator without the use of other dishes.

"This will probably shock most grandmothers," Mrs. Low says, "but there might be just one dishwashing period a day. Of course the supply of dishes, size of the kitchen, and the kind of draining surface used will determine this."

Mrs. Low believes that a great amount of fatigue from dishwashing is due to improper heights of sinks. A sink too high makes it necessary for the housewife to stretch her muscles to the point of tiring and a sink placed too low, causes her to stoop. A wooden rack can be placed under the dishpan if a sink is too low. If the sink is too high, a platform to stand upon should be handy.

It was said 23 hundred years ago the Greek, Xenophon, that "When agriculture flourishes, all other pursuits are in full vigor; but when the ground is forced to lie barren, other occupations are almost stopped, as well by land as by sea."

Heel Flies Are Not Bothering Cattle Now

COLLEGE STATION—A big percentage of West Texas beef cattle that usually run off many pounds of flesh, trying to get away from heel flies, are grazing peacefully this summer. The reason: DDT fly spray.

In Roberts County, during the month of May, ranchmen sprayed about 24,000 head of cattle with DDT to control flies. County Agricultural Agent L. E. Breeding reports now that, unlike the old days, the animals are not seen running across pastures and kicking at heel flies. The DDT is getting horn flies, too, says the county agent, which is still another big money-saving feature of DDT spraying.

Although most of the month of May was rainy, the cattle that were sprayed before the rains still seem to be protected from the flies, says County Agent Breeding.

CLOSED SHOP OUTLAWED IN 16 STATES

Houston, Texas.—The shaded states in the above map have either
adopted or submitted constitutional amendments or enacted statutes
prohibiting the closed shop. Sixteen, or one-third of all the states, have
taken such action. They are Arizona, Arkansas, Florida, Georgia, Iowa,
Maine, Nebraska, Nevada, New Mexico, North Carolina, North Dakota,
Ohio, South Dakota, Tennessee, Texas and Virginia. The Taft-Hartley
Bill recently passed by Congress contained a provision outlawing the
closed shop.

The Right to Work, regardless of union or non-union affiliation, as a
principle of government, originated in this fast growing industrial city.
Vance Muse, Secretary-Treasurer of the Christian American, Inc., with
national headquarters here, directed the campaign that resulted in its
adoption as an amendment to the Constitution of Arkansas and enlisted
the support of the Attorney General of Florida in its enactment there.
Five hundred million papers of the nation recently voted Mr. Muse to be
"Public Enemy No. 1" of the movement to organize the unorganized; he
has been investigated by two State Legislatures and castigated by
several others and a bill has been introduced in the Texas Legislature to
revoke the charter of the Christian American which was granted in
November 1936. The Chairman of the Communist Party in Texas
recently filed suit against Mr. Muse for \$15,000.00, claiming that her
reputation was damaged when Muse printed her picture along with 37
members of the Texas House of Representatives who voted against the
Right to Work measure. The suit was withdrawn when Muse's attorney,
Bernard A. Golding, announced he was ready to go to trial. Ultimate
objective of the Christian American group is an Amendment to the
Constitution of the United States guaranteeing every person the right
to work regardless of union status. A recent nation-wide survey shows
that Texas has the most complete and effective set of labor regulatory
measures of any state in the Union. . . . Directory of State Legislatures.

**FARM FACTS
WORTH
KNOWING**

**Q. How effective is 2-4-D in con-
trolling weeds in wheat fields?**

A. Through use of 2-4-D during the
war years, the yield of wheat was
increased 25%. An outstanding ex-
ample of the effectiveness of 2-4-D
against wild mustard in the Red
River Valley of North Dakota was
shown by the fact that properly
treated fields yielded 10 to 15 bush-
els more wheat than adjoining fields
where weeds were allowed to grow
unchecked.

**Q. Will an air space under a poul-
try house that is open all around
help to keep the floor dry?**

A. We doubt that an air space
will keep the floor dry, since it would
actually result in a cold floor, caus-
ing moisture to condense and mak-
ing the litter wetter than ever un-
less the floor is properly insulated.
Where it is necessary to raise the
floor in poultry houses, deep litter
should be used as well as a layer
of insulation board under the floor.

**Q. Can you tell me the record
number of eggs produced in one year
by a turkey hen?**

A. The World's Record is held by
a hen at the Ralston Purina Com-
pany's Research Farm. This hen
produced 251 eggs in 365 days.

**Q. Does the birth weight of beef
calves have any effect on their rate
of growth?**

A. Yes, according to findings of
the U. S. D. A. based on a study of
402 beef Shorthorn calves born over
a period of 14 years. The birth
weight of the calves ranged from 46
to 109 lbs., and the heavier calves
tended to reach a weaning weight
of 500 lbs. sooner than calves that
were lighter at birth. The same was
true for those calves fed to a slaugh-
ter weight of 900 lbs.

**Q. How many eggs must a hen lay
in a year in order to qualify for R.
O. P. under the National Poultry
Improvement Plan?**

A. To qualify for this, a hen must
lay a minimum of 200 eggs in a year,
averaging 24 ounces to the dozen.

Send your questions about livestock
or poultry problems to FARM FACTS,
835 South Eighth Street, St. Louis 2,
Missouri. Questions will be answered
without charge, either by mail or in this
column, as a service of this newspaper.

ificate of eligibility at the nearest
VA office. This certificate will be
required of them before they can
enter their school.

Since most schools have a quota
for veterans, it is wise for veter-
ans to make arrangements with

schools now so that they may be
assured of a place in classes start-
ing next September.

Veterans already in training,
who plan to attend a different
school this fall, must obtain a
supplementary certificate of eli-
gibility.

These can be furnished by the
nearest VA office or by the VA
training officer at school or col-
lege. This certificate is the basis
for payment of tuition, fees, sup-
plies and the subsistence allow-
ance to the veteran.

The foresighted veteran also
will make an effort to line up
housing and other personal ar-
rangements at the school of his
choice, VA said.

**Summertime is Hard
On Women's Hosiery**

COLLEGE STATION — Sum-
mer time is always a straining
season upon hosiery, because of
increased contact with perspira-
tion and dust which weaken the
fibers. Mrs. Dora R. Barnes, Ex-
tension clothing specialist, gives
a few tips on giving hosiery long-
er wear through wise purchasing

and good care.

A wise buy in hosiery means
stockings that are sturdy enough
to suit the purpose and that fit
properly. Mrs. Barnes says that a
stocking that is a half an inch
longer than the foot wears better
than one that fits snugly.

Rayon and nylon hose should be
washed in luke warm water, with
a mild soap or flake suds. Mrs.
Barnes warns that hose should
never be rubbed or wrung out.
Hose should be rinsed well, rolled
in a turkish towel for a few min-
utes, and then dried in the shade.

Here's another tip on hose buy-
ing. Mrs. Barnes says that when
a sheer rayon hose is preferred,
the buyer should look for a high
gauge and a low denier. A denier
means the weight in grams of a
specified length of rayon yarn.
Gauge means the fineness of the
knitting. When the gauge is high,
the mesh or wales are more close-
ly knit than when the gauge is
low.

The growth and development of
plants is influenced by climate,
diseases, insects, soil structure,
soil texture, fertility and the acidi-
ty or alkalinity of the soil.

Veterans' News
QUESTIONS AND ANSWERS
Q.—Can I go to school under the G. I. Bill while I am taking on-the-job training under the Act?
A.—Yes, you can go to school under the Servicemen's Readjustment Act (G. I. Bill) while you are taking on-the-job courses. The government will pay your tuition.

Q.—Will the government pay for tools and other equipment while I am taking on-the-job training under the G. I. Bill?
A.—Yes, if the tools and other equipment are necessary for successful pursuit and completion of the course of training and is required by all trainees.
Q.—I have been told that my pen-
sion will be reduced in 60 days. What can I do to prevent this reduction?
A.—You may submit additional evidence to show that the reduction is not warranted.
Q.—Must I show that I have had experience in business to get a guaranty of loan for business purposes?
A.—The law provides "that ability and experience of the veteran, and the conditions under which he proposes to pursue such business or occupation are such that there is a reasonable likelihood he will be successful."

Nearly 879,000 dependents of 557,000 deceased veterans of all wars and peacetime service are receiving compensation and pension checks from the Veterans Administration at the rate of over \$32,000,000 a month, VA reported this week.
More than 45 per cent, or 396,000, are dependents of deceased World War I veterans. Only 96,000 of these received benefits resulting from service-connected deaths. The rest are being compensated in cases of veteran deaths which did not result from service in the armed forces.
The rolls also include 78,000 dependents of deceased Spanish-American War veterans, 19,000 from the Civil War, 2,345 from the Indian Wars, 47 from the Mexican War, and nearly 20,000 dependents of veterans who died in peacetime service.
The Veterans Administration, forecasting a record school enrollment this fall, is urging veterans to get busy right now and line up their school plans for next fall.
This is especially important for those veterans who may be going to school for the first time under the provision of the G. I. Bill. They should apply for a certi-

Methodist WSCS Hold Meet Mon. Afternoon.

The WSCS met at the church Monday afternoon with the president in charge. The meeting was opened by singing of "Break Thou The Bread of Life".

Mrs. Nash was leader for the program which was on the subject of "Church Literature". Mrs. Meek gave the devotional and a discussion of the topic, "The Bible Follows Us". Other discussions were led by Mrs. Porter and Mrs. Wiley. Mrs. Allgood dismissed the group with a prayer.

Those present included: Mesdames Meek, Porter, Wren, Holt, Hutchison, Davidson, Nash, Mayfield, Glover, Barr, Hampton, Wiley and Allgood, Miss Delpha Flanagan and Little Misses Marilyn Nash and Annette Hutchison.

Third Chapter of James Studied by Bible Class

The ladies Bible class of the Church of Christ met Monday at 3 p. m. for the third in a series of lessons in the book of James.

Mrs. McQueen, teacher, briefly reviewed the previous chapters after which the group entered into a study of the third chapter.

Those present included one guest, Mrs. Van McAda of Borger, and Mesdames J. J. Ayres, J. C. Bradstreet, T. J. Daughtry, B. M. Litton, J. C. McQueen, Olin Pendleton, C. O. Sandifer, Annie Savage, P. H. Scott, and W. L. Williams.

Mrs. Newman Hostess Good Neighbors Club

The Good Neighbors Home Demonstration Club met in the home of Mrs. Albert Newman, June 12, for a regular meeting.

After a business meeting and a short program refreshments were served to one visitor, Mrs. Milt Wilson, and to the following members: Mesdames Herbert Finsterwald, Bill Finsterwald, C. H. Candler, Weaver Barnett, Bob Ramsey, R. B. McCleskey, O. H. Upchurch, R. W. Oldham, Gloria Dell Upchurch, Lucy Barnett, Patsy Ramsey, Mona Finsterwald, and the hostess, Mrs. Albert Newman and Helen.

The next meeting will be in the home of Mrs. Bob Ramsey, June 26, for a demonstration on "House Plans" by Mrs. Emma Hastings.

Mrs. Wofford Leader WMS Program Monday

Members of the WMS met at the Baptist Church Monday afternoon, June 16. Mrs. Frank Wofford, leader of the program, presented Mrs. A. C. Wood whose experience as a home missionary were related to the group.

Those present were: Mesdames Frank Wofford, P. D. Fullingim, Harry Wofford, Sherman Smith, Gordon Whitener, Jack Guynes, Lillian Wright, A. C. Wood, Chas.

Roots of Culture Good Taste THEN and NOW

FATHER'S DAY
EARLIEST FATHER'S DAY WAS IN ANCIENT GREECE, THEN ZEUS, FATHER OF THE GODS, AND ALSO HUMAN FATHERS RECEIVED HONORS AND GIFTS.

VENERATED COLONIAL FATHERS OFTEN HAD 20 CHILDREN AND 100 OR MORE GRANDCHILDREN. TOO BAD THEY HAD NO FATHER'S DAY!

CHINA HAS TWO FATHER'S DAYS, IN SPRING AND AUTUMN RESPECTIVELY. SONS VISIT THE TOMBS OF THEIR FOREFATHERS THEN FEAST THEIR OWN FATHERS AND BRING THEM GIFTS.

Word has been received here that Rev. and Mrs. L. W. Davidson have been transferred to Jacksonville, Florida where he has been appointed to a church.

Mrs. Ollie Elliott honored her daughter, Noreta, with a birthday party Sunday afternoon.

Delicious refreshments were served to the following guests: Sandra Richardson, Charlene Harris, Doyle Pond, Carroll Pitcock, Caryl Clemmens, J. W. Elliott, Donald Whiteley, Ronald D.

COTTON QUIZ

WHAT PART DOES COTTON PLAY IN THE WORLD SERIES?

ANS— DURING THE WORLD SERIES THE "DIAMOND" IS COVERED WITH WATERPROOF COTTON CANVAS UP UNTIL PLAYING TIME TO PROTECT IT FROM RAIN.

FAST-MOVING MECHANICAL HOE

Because he always thought there was an easier way to chop cotton than by hand with a hoe, Riley Dabbs, Monroe County, Miss., farmer and sawmill operator, began work four years ago on this mechanical cotton chopper. Getting its first test on Cotton Belt farms this season, the chopper reportedly can thin 30 acres of young cotton at a cost of \$7 for the day's operation.

FIXING UP the HOME
By Diane Greater

How to Store Dry Foods
COFFEE or jam jars with screw tops and pint or quart mason jars make handy receptacles in which to store rice, cereals, spaghetti and other dry foods in cupboard and pantry space which could not otherwise be used. Fasten the jar tops, with nails or screws, to a permanent position on the bottom of a wooden shelf. Then, when the jar has been filled, it can be screwed into place, hanging from the bottom of the shelf. Large jars

can be placed at the back and a row of small jars for spices and condiments can make up a front row. You will find the foods stored in this way handy to get at and easy to keep in order.

The space under the jars can be used for dishes or for other packaged foods. This arrangement stretches the space in cupboards and pantries and puts everything in place so that it is unnecessary to lift one package from another when removing items from the shelves. If you have trouble identifying some of the items, such as salt and sugar, flour and baking powder, scissor off a part of the package label and put it along the glass at the bottom of the jar before filling.

This same arrangement can be employed under a shelf over your gas range for spices and condiments that are used often. The jars can be decorated if you wish with decalcomanias or stripes of colorful paint to match your kitchen decoration scheme.

Mr. and Mrs. Elmer Harolson and sons of Plainview spent the weekend with her parents, Mr. and Mrs. G. Cowan and family.

Sunday dinner guests in the home of Mr. and Mrs. Perry Riley were Miss Jennie Riley, Mr. and Mrs. M. C. Crabb of Amarillo, Mr. and Mrs. Allen I. Smith and children of Shamrock, Miss Joy Riley, Wellington, and James Riley, Baton Rouge, La.

Whooping Cough Very High Now

A statement released today by Dr. Geo. W. Cox, State Health Officer, indicates that the incidence of whooping cough in Texas is at present almost three times as high as the seven year median.

"Prevention and control of whooping cough, especially among infants and small children, may be accomplished through use of approved vaccine and convalescent serum," Dr. Cox asserted, "and it is important that such measures be taken to protect them. Neglecting to do so, and allowing the young child to suffer an attack of this disease, may seriously impair his future health."

"The infectious agent or germ of whooping cough, is transmitted by droplets expelled in coughing, sneezing, or speaking," Dr. Cox said. "The discharges from the nose and throat are dangerous to susceptible persons; the need for early recognition and careful isolation of whooping cough is obvious."

The first sign of this disease is usually a dry cough, which persists day and night and tends to become increasingly severe. The disease is fully developed when vomiting of food and whooping accompany the paroxysm of cough. Dr. Cox stressed the fact that children who have whooping cough should not attend school and should be isolated so that they will not come in contact with other children until three weeks after the appearance of typical signs of the disease.

NOTE OF APPRECIATION

To the people of Wheeler, Texas: For your countless kindly acts and steadfast support during our time of trial. For all the beautiful flowers and gifts. To everyone of you, our humble "Thank You".

By Louise St. John

Mr. and Mrs. Fred Sims and children of Dimmit spent the weekend in the Al Sims home.

Mary Bell Heare who has been away to school is visiting her mother.

Frances Ford and Louise St. John visited in the Joe McCain home at Pampa Saturday afternoon.

Joyce Spencer of Guthrie, Okla. spent a few days last week with Peggy Williams, Peggy Williams returned home with her.

Mrs. Jet Williams' three grandchildren from Oklahoma City returned home Saturday after visiting here several days.

Elwayne Dysart of Channing spent the weekend with his parents, Mr. and Mrs. C. A. Dysart.

Rev. and Mrs. R. L. Cooksey and children left for Lamesa Sunday night to visit their parents. They plan to return Thursday.

Mr. and Mrs. Jiggs Leonard and Billy spent Saturday night in Pampa.

Mr. and Mrs. Roy Williams and children of Sunray spent Sunday in the Loss Williams home.

Chevrolet To Soon Present New Trucks

Chevrolet will soon present a new line of commercial cars and trucks, Jack Montgomery, owner of Montgomery Chevrolet, said this week upon his return from Oklahoma City, where he witnessed a pre-showing for Chevrolet dealers in this area.

"Without doubt, the new line of Chevrolet trucks is the finest ever offered to the American public," Montgomery said. "In style, comfort and hauling efficiency, the vehicles set new standards which are certain to secure the endorsement of all truck owners and drivers."

The new line of trucks will be shown in Shamrock in the near future, the exact date to be announced later. Truck owners and operators and all others interested in truck transportation will be welcome, Montgomery said.

Mr. and Mrs. Dock Snow and sons have returned home from California. Mrs. Snow is the daughter of Mr. and Mrs. J. R. Reed.

Mrs. Tom Crossland's sister, whose home is in San Antonio, has been visiting her recently.

From where I sit ... by Joe Marsh

Can't Break His Good Habits!

Bert Childers was saying, it's funny how so many of our wartime habits stick with us.

Bert likes plenty of butter on his bread, but even now he can't get over spreading it like it was scarce as hen's teeth. And as a war worker, Bert used to stick to a temperate glass of beer on time off; and he still holds fast to beer and moderation.

Same way with Bert's wife. She not only has no trouble saving used fats, and waste paper. She learned from wartime necessity to

save every single thing that might possibly be used again.

From where I sit, it's mighty good that so many of these common-sense habits like thrift and moderation have stayed with us. Because they belong in America—along with tolerance, and mutual respect for one another's rights. They're habits that have helped to make this country strong and neighborly and free.

Joe Marsh

Men Like This Dress

A magic beach dress in plaid Dan River gingham with white pique trim designed by Helen Parker is shown above as featured at the June Cosmopolitan magazine male-tested fashion party at the Stork Club. It's magic because it need not be confined to the beach. Dressed up, it's wonderful for informal evenings. In sizes 10 to 16 in red, green or royal plaid with white pique bolero. Notables who served as judges included Kenny Delmar, Vinnie Richards, Sid Caesar, Charles Revson, Mark Stevens, Richard Ney, Brian Aherne, and Jan Peerce.

Four Tons Fertilizer For Only Ten Cents

COLLEGE STATION—Is there a farmer in the house who would like to buy four tons of green fertilizer for a dime?

Dale Freiberger, county agricultural agent of Atascosa County, says that Joe Bomba, Pleasanton farmer in that county, figures he buys that much fertilizer for a dime when he inoculates enough seed to plant one acre of Hubam clover.

When Bomba planted his Hubam clover last fall, he put in twelve rows without inoculating. The remainder of the field was planted with inoculated seed.

From the time the clover came up, says County Agent Freiberger, the inoculated clover was easy to detect. It was full blooms and covered with dark green leaves, while the uninoculated plants were much smaller and yellow covered. Making a recent check on the amount of green material produced, Freiberger found 12,000 pounds per acre on the inoculated clover, and only 4,000 pounds per acre on the checkplot, a difference of 8,000 pounds of green fertilizer on each acre.

The cost of inoculating seed for one acre was ten cents, and that is how Bomba figures he bought four tons of green fertilizer for a dime.

Plant lice on plums may be controlled with a three per cent nicotine spray or dust, applied when weather is warm.

A little burning can be a dangerous thing. The National Safety Council says sunburn not only is uncomfortable, but it can be downright hazardous.

The world's 1946-47 cotton production is estimated at 21,500,000 bales.

'Growing Pains' May Be Warning Of Rheumatic Fever Specialist Says

COLLEGE STATION—The "growing pains" suffered by many children may not amount to much, and at the same time they may be the first warning of the childhood disease, rheumatic fever, says Mrs. Eloise T. Johnson, family life education specialist of the Texas A. and M. College Extension Service.

Statistics show, says Mrs. Johnson, that rheumatic fever causes more deaths among school-age children than any other disease in the United States.

Apart from "growing pains", other symptoms of rheumatic fever are loss of appetite and failure to gain weight; pain and swelling first one joint and then another, usually accompanied by fever, jerky movements of the face, arms, and legs, especially when the child tries to dress or feed himself; and unexplained crying spells.

Mrs. Johnson urges parents to guard against rheumatic fever. Although the "growing pains" may not mean anything serious, it is a good idea to take the child to a doctor and find out.

FARM INCOME UP IN TEXAS

Farm cash income in Texas almost reached the \$300,000,000 mark in the first four months of 1947 in spite of the fact that April income was 6 per cent below the 1946 April total. The seasonally-adjusted index computed by The University of Texas Bureau of Business Research dipped to 295, since the March-to-April gain failed to come up to expectations. (Based: 1935-39-100).
 April's income reached \$81,469,000 bringing the total for the year to date up to \$277,277,000, or 11 per cent above the figure for the same months last year.
 The 5 per cent March-to-April hike in farm cash income was a result of increases throughout the state, with the exception of declines in the Northern High Plains and in the Lower Rio Grande Valley. The monthly reduction in the Northern High Plains was due to the sharp upswing in farm cash income in March, naturally followed by a decline. Greatest monthly per cent gains were in the Trans-Pecos District (156 per cent), South Texas Plains (153 per cent), and Edmonds Plateau (86 per cent).
 Cumulated totals for the period ending April 30 reflect different trends. Only declines were in the Trans-Pecos (44 per cent), Southern Texas Prairies (9 per cent), and the Lower Rio Grande Valley (27 per cent). Gains ranged upward to the 91 per cent hike turned in by the Northern High Plains as a result of the heavy

flow of livestock during March. Other significant increases were recorded in the Western Cross Timbered district, the East Texas Timbered Plains and the Coastal Prairies.
 The Northern High Plains logged up the greatest monthly total for April despite the per cent drop below the March level and came

1/2 cup Pet Milk
 2 teaspoons unflavored gelatin
 3 tablespoons cold water
 1/4 cup cocoa
 1/2 cup sugar
 1/2 teaspoon salt
 1/2 cup water
 1 slightly beaten egg
 1 teaspoon vanilla
 12 strips angel cake*

Chill 1/2 cup milk until icy cold. Soften gelatin in cold water. Mix together cocoa, sugar and salt. Stir in gradually mixture of remaining 1/2 cup milk and water. Put over boiling water. Cook and stir 5 min. after water again boils. Stir slowly into beaten egg. Return to heat; cook 2 min. longer, or until mixture thickens slightly. Stir in softened gelatin and vanilla. Chill until syrupy. Line a quart pan with waxed paper. Arrange cake on bottom and sides. Whip chilled milk until stiff. Fold into gelatin mixture. Put into pan. Chill until firm. Unmold. Makes 4 servings.
 *Plain or sponge cake or 2-inch vanilla wafers can be used.

You Will Need:

TALL CAN PET MILK	Each 12 1/2c
1/2-POUND PKG. COCOA	Each 11c
UNFLAVORED GELATIN	Pkg. 13c

SOCIETY

Riley-Crabb Vows Are Exchanged At Amarillo

Nuptial vows were solemnized for Valaree Riley, daughter of Mr. and Mrs. Perry Riley of near Wheeler, and M. C. Crabb, son of Mrs. Conley Crabb, Amarillo, Saturday, June 7.

Rev. M. C. Cutbertson, pastor of the Amarillo Central Church of Christ, read the single ring services at the church.

Miss Madge Crabb, sister of the groom, attended the bride as maid of honor. Marion Goodson, Childress, was bestman.

For her wedding, the bride chose a brown and white summer suit with matching accessories. She carried a white Bible and her corsage was of white carnations.

Attending the ceremony were

Mrs. Perry Riley, Miss Joy Riley, Mrs. Harry Gilbert of Wellington, Mrs. Conley Crabb, Miss Jennie Riley, Mrs. Letha Carter and Miss Holly Altendorf of Fritch.

Mrs. Crabb was a student at West Texas State College, Canyon. Mr. Crabb is employed by the Ace Paint and Body Works.

The couple is at home in Amarillo after a trip to various points in Colorado.

James Riley left Monday for Baton Rouge, La. where he is employed for the summer. He spent last week in the home of his parents, Mr. and Mrs. Perry Riley, after finishing a year's work at Louisiana State University. He plans to resume his studies at the University in September where he will be classified as a senior.

MRS. CORNELIA SULLIVAN GARRISON

SULLIVAN-GARRISON VOWS SPOKEN IN KERRVILLE

The marriage of Miss Cornelia Sullivan, daughter of Mr. and Mrs. William A. Sullivan of Kerrville, to Harry Garrison, son of Mrs. E. H. Kennedy of Muleshoe, was solemnized Sunday, June 1, in the First Presbyterian Church of Kerrville, with Rev. William Logan, pastor of the church, officiating in the double ring service.

Sprays of gladioluses against a background of palms were used to decorate the altar of the church. Mrs. Arthur Lochte, organist, played "I Love Thee", "Believe Me If All Those Endearing Young Charms", "Traumerl", and "Call Me Thine, Own", as the nuptial music. Miss Carolyn Lachte was the soloist, and her songs were "O Promise Me", and "Until".

Miss Betty Jo Beitel, the maid of honor, was the bride's only attendant. She wore a dress of yellow chambray, with white accessories, and her flowers were daisies.

The bride wore a dress of white embroidered pique, with matching mittens and hat. Her flowers were pink carnations.

Harry Wofford served as best man for the groom.

After the ceremony an informal reception was held in the Sullivan home on Earl Garrett Street where the immediate families and out of town guests were present. Snapdragons and gladioluses were used to decorate the home for the occasion. The bride's cake, which was decorated with white and pink roses, was served by Mrs. Peyton Wofford of Victoria, and the punch was served by Mrs. Harry Wofford.

After the wedding trip to San Antonio the young couple will reside in Alpine, where they will attend Sul Ross College.

Harry Garrison received his high school education in Wheeler

DAIRY CHECK POINTS GIVEN

COLLEGE STATION — Five check points that are important to Texas dairy farmers right now are listed by the Extension dairy husbandmen of Texas A. and M. College.

The dairy husbandmen believe a check-up on the following items will help boost production:

1. Water supply cows need more water this time of year. They will drink more if the water is clean, cool and conveniently located.

2. Sour milk—always a problem in the late spring and summer months. Souring can be stopped by producing clean milk and cooling it to 55 degrees Fahrenheit within two hours after milking.

3. Horn flies—pests that occupy a cow's time when she should be producing milk. Horn flies can be controlled by spraying back, sides, legs and bellies with one pound of 50 per cent wettable DDT powder in 25 gallons of water.

4. Good, green grass—a cheap feed that always brings a rise in milk production and cuts out many herd health problems. Dairy-men can make green feed last longer by mowing weeds and alternating grazing.

5. Kind treatment—a necessity in management of dairy cows, now and throughout the year. Rough treatment and high production are seldom found together on a dairy farm.

About a year ago, the United States planned to export 400 million bushels of grain to the needy people of foreign countries. By July of this year, 525 million bushels will have been shipped. The famine overseas still exists.

The safe way to handle fireworks is—don't! The National Safety Council recommends that you take your children to a supervised public display.

"COTTON ED" Says . . .

There's a'gonna be some NEW DOIN'S . . . 'round here

Man alive . . . been Cotton Farmin' nigh on to 40 year . . . Seen a right smart too . . . in my day . . . but as "Cindy" would say . . . "I ain't seen nuthin' yet."

Yep . . . in them 40 year o' Cotton Farmin' . . . I heerd some tall tails . . . but this NEW DOIN'S that DOES AWAY WITH HAND CHOPPIN' . . . by mountin' blow torch . . . on yore tractor . . . a burning butane and a gain' in yore field a burnin' out the weeds and NOT A HURTIN' THE COTTON . . . sounds purty fer fetched . . . Course now . . . them Elk Cotton-oil Boys sezs it'll work . . . and they usually know what they ar a talkin' about . . . ain't never been led a stray by listin' to 'em yet.

Well sir . . . This Contraption I MUST SEE . . . The Elk Cotton-oil air a'gonna have a dem-un-strate . . . Guess they figure what helps us helps them . . . and that's right and proper . . . ain't it? Anyway they call this Critter a FLAME CULTIVATOR . . . does away with hand choppin' . . . and is a heap cheaper . . . cost only 'bout 50 cents a acre . . . that's a savin' from \$5.00 to \$10.00 a acre . . . Now I ain't one to get sold very quick . . . But with that savin' I would shore make money . . . First time I reck lect an airplane or 'lectric lights I didn't think they would work neither . . . SO I'M A SEENIN' THIS CONTRAPTION.

When they 'nounce the day and place of showin' off this NEW DOIN'S . . . if you don't think you kin make it to this dem-un-strate . . . Just take 50 cents times yore cotton acres and figure that agin what you have been a payin' for cleanin' out yore cotton by hand . . . That'll show you what I mean.

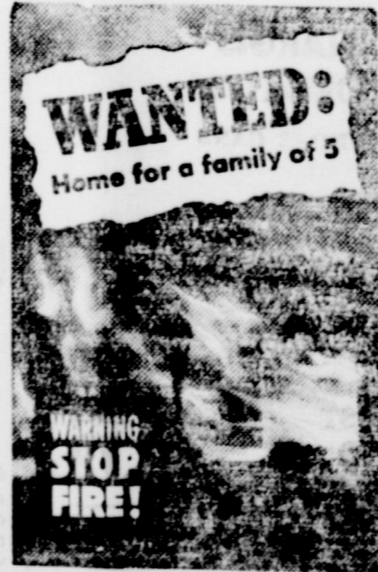

Sincerely,

"Cotton Ed"

Little Time Is

(Continued from Page One)
 ers and by the time enough money was set aside to guarantee a \$200 minimum salary for teachers, then there wasn't any money left for new projects like soil conservation.
 "Another reason why there was not enough money to go around is because the people elected Governor Jester on a platform of 'no new taxes'. Without levying new taxes it was impossible for the legislature to inaugurate an improved farm to market road program. The House of Representatives passed H. B. 44 designed to levy a tax on natural gas, with the proceeds of the tax set aside for farm to market roads. But the Senate refused to pass it because the Governor was opposed to na-

tural resource taxes. So my improvement in the farm to market road program will have to wait until the next session.
 "However, a Constitutional Amendment was passed which holds some hope for improving rural roads. H. J. R. 24, which will be voted on by the people in the coming election should make a great improvement in the county roads and bridges. This constitutional amendment abolishes the State ad valorem tax and authorizes the counties to levy this tax and use the proceeds for county roads. At the present time most counties are in such bad financial condition that they badly need this new source of revenue in order to properly take care of county roads and bridges."

Canning Suggestions Given By Specialist

COLLEGE STATION—Here's news for housewives who plan to can vegetables this year.
 Food Preservation Specialist Gwendolyn Jones of the Texas A. and M. College Extension Service, states that U. S. Department of Agriculture research has caused some changes in general recommendations for processing low-acid vegetables when canned in a pressure canner.

Low-acid vegetables include as-

BEAUTY FROM THE BAG

It's easy to brighten up your home for summer by using cotton bags for drapes and covers, as this attractive corner in the home of Mrs. Ray Bollinger of near Memphis, Tenn., proves. Using 175 bags to provide fabric which otherwise would have cost almost \$225, Mrs. Bollinger decorated her home from front to back.

paragus, beets, carrots, corn, greens, okra, pumpkin, summer squash, sweet potatoes, beans and peas. The USDA research has shown that processing time for these vegetables can be generally lowered, which will give the housewife better-textured, and still render the vegetables safe from bacteria that causes food spoilage.
 Quoting an example, Miss Jones says that a pint of greens was formerly processed 95 minutes. She now tells housewives to process the pint of greens only 45 minutes, to conform with the new USDA recommendations. Another big change is on sweet potatoes. Processing time for a pint of yams has been cut down from 95 to 55 minutes.

Extension Circular 223, "Can Vegetables in a Pressure Canner", has been revised to give the new processing times. Miss Jones advises homemakers to ask their local county home demonstration agent for a copy of the folder.
 The housewife may wonder, on checking the new time tables, why quart jars of some vegetables are processed longer instead of shorter. This appears to be a contradiction in the general run of the new recommendations but Miss Jones explains that quart jars of food are usually less hot at the beginning of the process than pints, and the research showed that this extra time on some quarts of vegetables is advisable in producing sterile canned food.

TOO LATE TO CLASSIFY

WANTED—Ironing to do. \$1.00 a dozen. Also plain sewing. See Mrs. George Topper. 27-1tp.

FOR SALE—1934 Master Chevrolet Sedan. Priced \$125. See Mrs. George Topper. 27-1tp.

STRAYED—Big White Face Bull branded Rafter E on left side from John Dunn place South of Mobeetie. Reward for information as to his whereabouts. John Dunn. 27-3tp.

FOR SALE—12-ft. boat and outboard motor. Also 2-room house and lot. See Albert Chapman. 27-1tc.

A Child May Dare So Drive With Care

Texas Editors Eat Turkey Steaks

AMARILLO, TEXAS, June 19.—Texas Editors in annual convention in this Panhandle City lunched here today on turkey steaks, a new taste treat, which is in the process of development in order to make turkey a year round instead of a seasonal delicacy. The editors, members of the Texas Press Association and the Texas Newspaper Publishers Association were guests at a luncheon at the Amarillo hotel.

Arrangements for the turkey steak luncheon were made by Ralph E. Jones, president of the National Turkey Federation, and C. S. Pryor, manager of the Amarillo Hotel. Shown above is Mrs. Oswald Wolf of the Alvin East Produce Co., of Austin, who processed the steaks.

Turkey steaks are boneless and there is no waste. The steak was developed by Texas A. & M. College, the Luling Foundation, and officers of the National and Texas turkey federations.

LOW PRODUCERS COST MONEY

COLLEGE STATION—"Why milk a large number of low producing cows when the job can be done much easier and more profitably with a fewer number of good cows?"

Dairy husbandmen of the Texas A. and M. College Extension Service ask dairy farmers that

question year after year. They keep asking it because the records of Dairy Herd Improvement Association members have proved over and over again that high producing cows always return the most profit.

In any county in the state, the Extension dairymen point out, the following situation might exist: One farmer, call him Dairyman "A" has a herd of 20 cows, each of which averages 200 pounds of butterfat each year. At a feed cost of \$83 a head, the income above feed cost on the low pro-

ducing herd is \$1,600 for the year. Then Dairyman "B" comes the picture, with a herd of 11 good cows which produce feed for his cows cost him \$12 a head, and his annual income above feed cost is \$1,694. A comparison of the annual incomes shows Dairyman "B" with the 11 cows, got \$34 more profit than Dairyman "A". That does not appear to be a great deal of difference, the Extension dairymen explain, but the profits are just of the story.

Picnics Are Fun

Summer is the time for picnics and outings, remember the good times you had with living snapshots... get your KODAK FILM at our store we have all sizes. We can also send off your film and have it developed for you.

Stop in at our FOUNTAIN often for REFRESHMENT. It's always COOL.
