

CHILDREN'S AGES MUST BE DISTRIBUTED SOON

Kavanaugh, Wheeler school superintendent, reminds the parents of children that March 31 is the day for enumerating stu-

children should be enumerated will be six and under as of September 1. All children of school age enumerated in the district where they are now residing, though they do not plan to attend school in that district.

Student who has not enrolled can be transferred to any district.

Number of instructors in school will be determined by number of scholars enumerated in the district.

The census trustee has not enumerated your children. You should notify your local school superintendent or the county superintendent at Wheeler by March 31. If you fail to do so, your school district may receive credit or money from the state.

It is impossible or the district to receive money from the state if children are not enumerated at this time.

ELECTIONS COMING UP

Though no contests appear on the fact there are no candidates in one of them—the election of Wheeler have two im-

portant elections coming up next week. The first is the election of city council and city judge. The second election will be held on Saturday, April 5, for the purpose of naming two trustees for Wheeler Independent district. The terms of Fred and Cecil Johnson are extended to Wednesday of this month.

March 31, is the final day for filing in the school trustees. Wofford will be in charge of the elections.

Widow First Pastor Dies

Funeral services were held at the Shamrock Methodist church Tuesday afternoon for Mrs. Mary Florence Hilburn, widow of Rev. T. B. Hilburn, former Methodist pastor at Wheeler, Mobettie and Shamrock.

Mrs. Hilburn, 82 years old, died Sunday night at the home of her daughter, Mrs. T. R. Bones of Amarillo.

Rev. and Mrs. Hilburn came to Texas over 50 years ago. He was the first Methodist pastor of the Wheeler Methodist church, serving from 1907 to 1911.

Rev. and Mrs. Hilburn for many years made their home at the Ceta Glenn Camp, encampment grounds on the Palo Duro Canyon southeast of Canyon, owned by the Methodist Church. Rev. Hilburn was superintendent of the camp for seven years after retirement from active ministry.

Mrs. Hilburn, a native of Arkansas, was a life-long member of the Methodist Church and was formerly an active member of the Order of the Eastern Star.

Besides her daughter, Mrs. Bones, she is survived by another daughter, Mrs. J. E. Seale, Goose Creek, and three sons, A. M. Hilburn, Amarillo, John Hilburn, Dallas, and Dr. Sam R. Hilburn, Mitchell, S. D.

Annual Egg Shower Starts For Orphans

The Baptist WMU of Wheeler is gathering a shipment of eggs for the annual egg shower for the children of Buckner Orphan Home at Dallas, and all persons wishing to help are asked to bring their eggs to the Wheeler County Produce next Saturday or Monday.

Hal F. Buckner, president of the home, wrote, "the friends who have made the shower a success in other years have our profound gratitude, and we hope they will repeat this most helpful method of building up a stock in our cold storage for the supply of our tables throughout the year."

Farmer Heffley Says Byrd Expedition Be Routine For His Cow

The Times has no documentary proof but Farmer Heffley swears he has a whiteface cow that stayed covered up in snow for 7 days and nights, came out of the drift, took her calf back and is living happily.

An ordinarily truthful man, Mr. Heffley has many of his friends (including The Times staff) shaking their heads and wondering.

R. H. DOUGLAS DIES MONDAY

Last rites were held at the Hunt Funeral Chapel Tuesday afternoon for Robert Harmon Douglas, 86 year old, who passed away at the home of his daughter, Mrs. L. C. Austin, last Monday.

Mr. Douglas had resided in Wheeler since 1920, having moved here from Oklahoma. He was born June 22, 1860, in Greenwood county, Arkansas, where he lived until he was 21 years old.

Many local people had come to know and love Mr. Douglas during his 26 year residence in Wheeler. He is survived by his widow, Mrs. Zannie Douglas, and six children: J. A. Douglas of Portales, N. M., R. H. Douglas of Shamrock, R. D. Douglas of Carrizozo, N. M., A. L. Douglas of Boise, Idaho, Mrs. J. J. Emler of Shamrock, and Mrs. L. C. Austin of Wheeler. Ten grandchildren survive.

The funeral service was conducted by Rev. A. C. Wood, assisted by B. M. Litton, minister of the Wheeler Church of Christ. Burial was made in the Wheeler cemetery with Hunt Funeral Home in charge.

Colleges Station - Texas Poultry Raisers Who Delay 'Til Last Minute' Ordering Their 1947 Poults Are Likely To Find Hatcherymen Unable To Fill Their Orders.

That warning is given by Ted Martin, Extension poultry husbandman of Texas A. and M. College. Martin says Texas hatcherymen are reporting that early poults are moving very slowly, and that when the late rush to buy poults comes along, the hatcheries may not have enough birds on hand to supply all the needs. Even though growers do not want poults until April, Martin advises them to get the poults on order now to give hatcherymen a chance to know what their needs will be, so that orders can be filled when the time comes.

Growers have found it pays to be prepared for the poults before they arrive, Martin says. Cleaning the brooders, putting heating and watering equipment in order are a few of the jobs that will help the grower be prepared for his poults when they arrive.

The need also exists for producers to get their baby chick orders in now if they have not made arrangements already. Unlike poults, chicks are moving fast and some hatcheries are already reported sold out. Commenting on the quality of Texas baby chicks, Martin says that hatcheries in this state are now producing as good quality baby chicks as can be found anywhere.

BAPTISTS PLAN JOINT REVIVAL OVER TERRITORY

The Baptist simultaneous revival movement in Texas is gaining momentum as it goes along. Rev. Oliver D. Riley of Lela, chairman of a committee on publicity for the North Fork Baptist association, said this week.

"Report coming in from the various associations where revivals have already been held state there have been almost as many additions to the churches during the two weeks simultaneous revival as there were all last year," Reverend Riley stated. "Some of the individual churches are reporting more additions than they had all last year. Thus we see that there is advantage in the concerted and simultaneous revival efforts."

Plans are being rushed to completion for the simultaneous campaign in the North Fork Association, April 6 to 20. Approximately 20 of the 25 churches in the association are going to participate, and three other associations in the Panhandle are going to conduct their simultaneous campaign at the same time.

"Churches are composed of individual members," said Reverend Riley, and the extent of the revival in each church will depend on the individual members. For that reason, it is hoped that every member of each church will attend the revival services in his or her church throughout the entire meeting."

"Numerous national leaders including President Truman have stated there is a need for a revival. Let each of us who call ourselves Christians strive to cause this revival to come, by seeking to have it in our own heart."

RALPH JONES IS ASSISTANT

Ralph Jones who is completing his first month as assistant Wheeler county agent, has been meeting with some of the 4-H clubs and plans to meet with all clubs in the near future.

Jones assumed his duties February 24 following graduation from the school of agriculture at Texas A. and M. last January. He was reared at Rochester in Haskell county, Texas, where he graduated from high school. He is a former 4-H club member who made an outstanding record in this work.

Ralph comes to Wheeler county with high recommendations both from his home town and from A. and M. college. County Agent J. H. Martin said.

The new assistant county agent is anxious to meet all 4-H club members and prospective members.

Poultry Raisers Are Advised To Order Now

COLLEGE STATION — Texas poultry raisers who delay "until the last minute" ordering their 1947 poults are likely to find hatcherymen unable to fill their orders.

That warning is given by Ted Martin, Extension poultry husbandman of Texas A. and M. College. GAIN SHOWN IN GINNINGS HERE

There were 6,285 bales of cotton from the 1946 crop ginned in Wheeler county as compared with 5,959 bales from the 1945 crop, according to a report received this week from the Department of Commerce, Washington, D. C.

Although the ginnings were 326 bales greater than in the previous year, the total was only about one-fourth of what was considered a "normal" crop 10 years ago.

The figure reveals the fact that the average yield over the county was approximately one-fifth of a bale per acre. About 30,000 acres were planted to cotton during the 1946 season.

In spite of the light 1946 increase, the Traders Compress failed to handle as many bales as in the previous year. This, said John Woolly, compress manager, was due to the fact that in 1945, cotton stored during the 1942-43-44 was not compressed until the 1945 season. The compress handled 8,000 bales during the 1946 season, while the figure was near 9,000 the previous season.

3 COUNTY VETS ON HONOR ROLL

War veterans at Texas Tech college made up the majority of students who made the honor roll for the past semester and several Wheeler county students were included, according to W. P. Clement, registrar. Of the 211 men whose names appear on the honor roll, 174 or 82 per cent are veterans.

Olaf Sivage, son of Mr. and Mrs. L. V. Sivage of Mobettie, is one of the honor students. He is an engineering student.

James A. Clepper, son of Mr. and Mrs. P. A. Clepper of Briscoe, is another. James is an agriculture major.

Horace Gordon, son of Mr. and Mrs. A. J. Gordon of Mobettie, a pre-medical student at Tech is a third Wheeler county boy to rate the honor list.

All three county young men are ex-service men.

Mrs. J. Dunn Reviews Book For Study Club

Mrs. H. L. Flanagan, Austin Caldwell, Jim Hathaway and Tracy Willis were co-hostess to the Blue Bonnet Study Club and their guests last Thursday, March 20, in the Masonic Hall.

Mrs. John Dunn complimented members and guests with a very interesting review of the book, "Heartwood", and Mrs. Art Carmichael gave the biography of the author, Ann Miller Downes. Club members presented Mrs. Dunn with a gift for the many good book reviews she has given the club.

Guests present were: Mesdames Charley Chandler, R. L. Dunn, Holt Dunn, R. L. Cooksey, Charlie Seitz, John Allen Neece, Norman Dysart, Bob Galmor, T. A. Greenhouse, Kenneth Walker and Mrs. Crowder o Wheeler.

Members present were: Mesdames E. E. Johnston, J. H. Scribner, Dick Brown, J. M. Boswell, Art Carmichael, Jim Hathaway, Austin Caldwell, H. L. Flanagan, Tracy Willis, Willard Godwin, John Dunn, R. C. Martin, Doc Trimble and Mayne Patterson.

Mr. and Mrs. Edward Beck and children visited his parents in Wellington over the weekend.

E. J. Cooper of Shamrock was a business visitor in Wheeler Wednesday.

VETERANS' AID NOW AVAILABLE

A veterans Administration representative from the Amarillo office will be in Wheeler on two days a month for the purpose of interviewing veterans, according to announcement this week.

The VA representative will come to Wheeler every other Friday morning, starting April 4, and will be at the courthouse from 9 until 11 o'clock to take up matters with both disabled and non-disabled veterans.

He will assist veterans in claims and benefits relative to education, on-the-job training, compensation, pensions, insurance, loans and any problems or questions pertaining to the GI Bill of Rights.

Jersey Cow Is 1946 Texas Butterfat Champ

COLLEGE STATION — Texas has a new butterfat champion—Welcome Volunteer Sable, five-year old Jersey cow owned by J. Chester Elliff of Tulla.

J. W. Davis, Extension dairyman of Texas A. and M. College, has been informed by the American Jersey Cattle Club that the Jersey set a new state record in butterfat production when she produced 18,998 pounds of milk and 1,144 pounds of butterfat in 365 days on a three-time-per-day milking basis.

Welcome Volunteer Sable's performance topped the 1,077 pound butterfat record made in 1945 by her half sister, Welcome Volunteer Tiff, also owned by Elliff, a former FFA boy. Both Sable and Tiff were sired by the champion bull Welcome Volunteer, then owned by Elliff, who sold the sire last year to a Massachusetts dairy farm.

Sable is now third all time highest butterfat producer of the Jersey breed, according to Dairyman Davis.

Mrs. Elizabeth Ashley of Pampa visited in Wheeler Saturday.

MIRROR OF HOME TOWN LIFE
A reflection of the life of a community is given by its people when they entertain friends from elsewhere, or when they travel and sojourn away from home. If they speak disparagingly of their home town, they spread abroad

an unfavorable impression of that community. If they say it is slow to take up new ideas and there are not many things going on there, they do not make the place seem attractive.

If they are warm in praise of their home town life, if they say it is a place where there are excellent advantages and many things to enjoy, if they tell how it is a live and wide awake place, they spread abroad the reputation of the home town. Such a reputation helps a town to grow in prosperity, and attract new residents.

THE ROAD TO HEALTH
A leading authority on public health urged in a recent address that communities develop health education programs for the benefit of adults. He felt that there is widespread ignorance on the part of the public on the question of how to stay healthy. This is an excellent idea, and many people are impairing their physical well being by failure to comply with the laws of health. Their health is the capital on which they have to build their life work, and many impair that capital by doing injudicious things, or failing to take necessary precautions. It is well to read the warning signs on the road to health, that tell us what to do and what not to do.

In most forests of Texas, pines are growing too thickly to develop strong stems and good crowns, which are necessary for healthy timber growth. Timberland owners who thin the saplings by groups and small patches are promoting better farm forests.

LEGAL NOTICE

COUNTY ORDINANCE

AN ORDINANCE TO REGULATE THE PRODUCTION, TRANSPORTATION, PROCESSING, HANDLING, SAMPLING, EXAMINATION, GRADING, LABELING, REGRADING, AND SALE OF MILK AND MILK PRODUCTS; THE INSPECTION OF DAIRY HERDS, DAIRIES, AND MILK PLANTS; THE ISSUING AND REVOCATION OF PERMITS TO MILK PRODUCERS AND DISTRIBUTORS; THE PLACARDING OF RESTAURANTS AND OTHER ESTABLISHMENTS SERVING MILK OR MILK PRODUCTS; AND THE FIXING OF PENALTIES.

The County of Wheeler ordains: Section 1. The production, transportation, processing, handling, sampling, examination, grading, labeling, regrading, and sale of all milk and milk products sold for ultimate consumption within the County of Wheeler, or its police jurisdiction, the inspection of dairy herds, dairies, and milk plants, the issuing and revocation of permits to milk producers and distributors, the placarding of restaurants and other establishments serving milk or milk products, and the fixing of penalties shall be regulated in accordance with the terms of the unbridged form of the 1939 edition of the United States Public Health Service milk ordinance, a certified copy of which shall be on file in the office of the county clerk. Provided, That the blank spaces following the words "County of" in said unbridged form shall be understood to refer to the county of Wheeler; Provided further, That in section 7, item 1r, of said unbridged form the abortion-testing requirement shall be effective within two (2) weeks after the adoption of this ordinance; Provided further, That section 8, 16, and 17 of said unbridged form shall be replaced, respectively, by sections 2, 3, and 4 below.

Section 2. From and after the first day of April, 1947 the date on which this ordinance takes effect no milk or milk products shall be sold to the final consumer, or to restaurants, soda fountains, grocery stores, or similar establishments except grade "A" raw milk or grade "A" pasteurized milk; Provided, That when any milk distributor fails to qualify for one of the above grades the health officer is authorized to revoke his permit, or in lieu thereof to degrade his product and permit its sale during a temporary period not exceeding 30 days or in emergencies such longer period as he may deem necessary.

Section 4. All dairies and milk plants from which milk or milk products are supplied to the county of Wheeler which are hereafter constructed, reconstructed, or extensively altered shall conform in their construction to the requirements of this Ordinance for grade "A" dairy farm producing milk for consumption in the raw state, or for grade "A" pasteurization plants, respectively. Properly prepared plans for all dairies and milk plants which are hereafter constructed, reconstructed or extensively altered shall be submitted to the county health officer or county sanitarian for approval before work is begun. In the case of milk plants signed approval shall be obtained from the health officer and/or the county health department. (Floor plans showing dimensions of each room, arrangement of equipment, light, ventilation, floor and wall construction, doors, drains, location of toilet, etc., of proposed pasteurization plants should be submitted to the State Department of Health at Austin, Texas for approval before construction or reconstruction begins.)

Section 5. Any person, firm, or corporation violating any provision of this ordinance shall upon conviction be punished by fine in any amount not to exceed one hundred (\$100.00) dollars.

Section 6. All ordinances and parts of ordinances in conflict with this ordinance are hereby repealed; and this ordinance shall take effect the first day of April, 1947.

Passed this the 10th day of March, 1947.

(AN EDITORIAL)

Don't you agree with us that Wheeler Public discipline is very bad? It isn't just our school children but some of our Wheeler graduates. We believe our teachers have done their best so it is now up to us to improve our manners. Would you appreciate the kicking, hissing and booing, and the swooning if you were in some other gym trying to entertain?

Has everyone noticed how Joy and Floy are limping after riding horseback, Sunday?
Pat and Clyde were enjoying the Spring weather by riding bicycles, Sunday afternoon.
Melba you weren't by any chance trying to kill Glenn in that dump truck, were you?
Do you think you'd make a good doctor, Wayne?
Anna V. you should be ashamed of having your little sis clean house while you run around. How do you manage?
The fashion in boy's shoes are moccasins and boots. Clyde, Glenn, Corky, and Doyle are wearing moccasins, and all the other boys are sporting boots.

We see Duane is wearing an identification bracelet and it looks like it could belong to a girl.
June why were you worried about crime being inherited?
We see the football boys got their jackets. Congratulations, boys.
Georgie Gaye, we hear you got that sun tan from fishing, Sunday. But I guess it was worth it.
Ruby, we hear you have got it where you don't care very much anymore, or care a lot, one. Been arguing again, huh?
We hear Happy, Mac, Robert, Cecil, Johnny, James, and Bill are wolves especially James.
Dolores did you and Carroll enjoy your walk out to the lake Sunday? It was a beautiful day, but you'd better watch running across the spillway.
Bill Erwin what in the world

No, I don't think you would. That couldn't have been lipstick on your shirt, could it?
What was that awful odor in Study Hall, Monday morning. Could have been Jody's foot. Now that isn't a very nice way to flirt, James.
Joyce Brown, do you suppose all those people will recover? We hear you cooked Saturday night. Who was Jr. looking for Saturday night. That's ok, Jr. but don't be calling married women.
Joyce Bowman, what did you do Saturday night? We couldn't find you.

STABLE GOSSIP

Mr. Osborn would you like to live in Corn Valley?
Has anyone missed two cows, lately? James was wearing some good looking boots this week.
Just what are "cow-catchers", Peggy?

What's this we hear about Corky killing a coon, of all things, Saturday night? Don't tell us you were coon-hunting, Corky.
Vondell thinks maybe hose and high heels are out of place in an army wagon. Ask Ida for further information, concerning torn hose and feet.

FLASH

If two certain senior girls don't quit riding in a blue Oldsmobile something is going to happen. (Says Dinah)

Billy Harold is really getting streamlined in his 1947 model "A". Ask Mary Alice, Winnie and Imogene how they like pushing cars.

Miss Wischkaemper's General Science class is sorry that she was ill and are glad that she is back. The freshman are going to have a party pretty soon. (I heard.)

The freshman are glad to welcome a new freshman, Charlotte Weatherly. How about that Corky?

Most of the freshman went horseback riding Sunday and reported a very nice but sore time.

ASSEMBLY NEWS

The eighth grade class under the sponsorship of Mrs. Wilkes

gave the program Monday morning, March 24th. The program consisted of a one-act play. Everyone enjoyed it.

Coach surprised the football boys by presenting them with their football jackets. The jackets are black with gold lettering. Those receiving jackets were Clyde Revious, Wayne Jolly, Bob Lowrie, Johnny Barr, Nathan Barr, Loyde Goad, Corky Robertson, Bill Robertson, Harold Hardcastle, James McCormick, and Doyle Waters.

The boys are very proud of them but afraid to take them off because the girls all want to wear them. What about that, girls? They are awfully pretty, aren't they?

OTHER SPORTS NEWS

Coach said today that Spring training begins soon. He promises a strong line-up, much the same that was last year.

And by the way, if you see anyone going around with a goal basketball pinned on them you can take it for granted that they were winners in the tournament that has been going on for some time in the Wheeler gym among students, teachers, and outsiders.

Commercial fertilizer—4-12-4 or 5-10-5—will improve growth of home lawns when applied at the rate of two or three pounds for each 100 square feet of space.

Cotton Ed ... Says

GOOD SEED IS LIKE A GOOD FRIEND—IT GROWS ON YOU

Been thinkin' that my COTTON CROP ain't a goin' to be no better than the SEED I PLANT. Cindy ... (My Woman) declares that a Cotton Farmer that knowin'ly plants a poor seed ought to have to live on a CRACKER A DAY.

She's a kiddin' course ... but IT IS somethin' to pause on ... plantin' POOR SEED ... and ... eatin' them crackers. It makes sense ... don't it?

Like I done told ya ... seems to be plenty of all farm crops 'ceptin' COTTON and with them new Machine Gadgets for Choopin' and Pickin' about ready. Cotton is Gonna Be My Crop

Went down to see about gettin' pure planting seed. You know a good seed is like a good friend ... it just grows on ya. Shore was surprised in the price. Last year, seed I had for sale, doubled in price ... but pure Planting Seed air up only about one-fourth ... that ain't had ... makes our seed about as cheap as them crackers of Cindy's.

Say ... go visit them Elk Cottonoil boys ... they air shore plumb Friendly and Helpful ... might pay ya ... That's where I got my good seed.

Sincerely,
Cotton Ed.

BIDS ASKED TO WIDEN HIGHWAY ON WEST STRIP

The converting of U. S. Highway 66 into a four-lane route advanced another step last week when the Texas State Highway Department advertised for sealed bids for constructing 15.399 miles of grading and structures from the Fort Worth & Denver Railroad at Shamrock, west of the Gray County line.

Bids will be accepted at the office of the Highway Department, Austin, until 9 a. m. on Wednesday, March 29, and then publicly opened and read, the contractors' notice states. Plans and specifications are available at the office of Clyde Drake, resident engineer, Wellington; or the Texas Highway Department, Austin. Right-of-way for the 15.399-

mile strip has been obtained by the Wheeler County Commissioners Court. Moving of all fences, buildings and other obstacles will be completed within a short time.

Most of the additional right-of-way was obtained north of the present strip of paving where a new pavement 24 feet in width will be constructed. A strip 40 feet wide will divide the old and new paving.

The road west of Shamrock will be widened first in an effort to decrease the large number of accidents which occur on the route between Shamrock and McLean. Following completion of that strip, similar steps will be taken on the route east to the Oklahoma state line.

Complete cost of the 29 miles of new pavement will cost in the neighborhood of one million dollars, it is estimated.

PUBLIC ASKED RAISE GARDENS

The Texas A. M. College Extension Service is urging everyone who can to plant a vegetable garden in 1947.

Horticulturists of the Extension Service say that a goal of 800,000 gardens has been set for Texas, and that today is the day Texas gardeners should start their preparations if they haven't already done so.

It's an old story how the Victory Garden helped supply food during the war years, the horticulturists say, and home gardening is just as important this year, with food prices soaring, as it was then. Probably the greatest value of a garden this year will be the dollars it will take off the grocery bill. One-half acre of vegetables, cared for in the right way, can produce \$100 worth of food for the family.

Over the state, county agricultural agents and home demonstration agents are joining in the drive to promote gardens this year. Gardeners can go to these county Extension agents for help on garden sites, preparation, fertilization, planting advice, adapted varieties, insect and disease control and any other gardening problems.

The Extension horticulturists say the essentials of a good garden are these: a well-drained location, thoroughly pulverized soil.

QUESTIONS & ANSWERS

Q—Does the name "United States Government Life (converted) Insurance" include "National Service Life Insurance?"

A—No. "United States Government Life Insurance" is insurance issued to World War I veterans or to persons who applied for same while in active service before October 8, 1940. "National Service Life Insurance" is insurance provided for World War II veterans. Each is something referred to as "Government Insurance" and each is administered by Veterans Administration under authority granted by Acts of Congress.

Q—How many offices does Veterans Administration have and where are they located?

A—The Veterans Administration has a central office in Washington, D. C., and 13 branch offices located in strategic centers of population. In addition it has one or more regional office field stations or sub-regional offices in each state. Some of these are larger and have wider activities than others but all are charged with the duty of assisting veterans and their dependents.

Q—What identification data should I give in writing about my claim for benefits administered by the Veterans Administration?

A—If you are making application you should give your full name, grade, organization, serial number, date of entrance into service, date of discharge, and date and place of birth. After the claim is filed it will be assigned a claim number which should be mentioned in all, subsequent communications.

A total of 28,548 war veterans were admitted to Veterans Administration hospitals in Texas, Louisiana and Mississippi during the calendar year 1946, VA reported this week.

Although comparable statistics for the preceding year are not available for the Southwest, the area's increase in veteran hospitalization probably parallels the national figure of 61.3 per cent.

During the same period, beds available for treatment of veterans in VA hospitals in the tri-state area increased 44 per cent to 7,745 beds at the end of 1946.

The number of VA hospitals increased 38 per cent from eight to eleven. Dallas Branch Area hospitals are at Dallas, McKinney, Temple, Amarillo, Legion and Waco; New Orleans and Alexandria, Louisiana; and Jackson, Gulfport and Biloxi, Mississippi.

Sandy Parsons and family of Wellington spent the first part of the week in the parental Claud McMillan home.

The attendance at school last week was small due to the sickness of so many of the pupils.

Boyd Huff, Jane Donaldson and Clifton Taylor, students at West Texas State College at Canyon, spent from Friday until Sunday with home folks.

Mr. and Mrs. J. E. McKatherine and daughter returned from Pampa Friday where they had been with their daughter, Jenny Lind, who is in the hospital with the flu. She is reported to be recovering nicely.

Mr. and Mrs. Walter Scott of Miami were dinner guests Sunday in the Lester Levitt home.

Funeral services were conducted Friday for the infant daughter of Mr. and Mrs. Joe Dukes and burial was in the Zybach Cemetery. The baby was born at the Shamrock hospital Thursday and lived only a few hours. Out-of-town relatives attending the funeral were Mr. and Mrs. David Dukes of Ft. Worth, Mr. and Mrs. Jim Dukes, Mr. and Mrs. Clyde Vinson and Mrs. Joe Duke's parents all of Abilene.

Mr. and Mrs. Donald McMillan and Glen Markham and family of Pantex spent the weekend here with relatives.

Mr. and Mrs. Bob Markham are the parents of a baby boy born at the Wheeler hospital Thursday. His name is George Columbus.

L. S. Aderholt and family, Mrs. Ray Brown and daughters and Leo Peterman and family attended the singing convention at Briscoe Sunday.

Mrs. David Kiker and Mrs. Carl Levitt motored to Wheeler Monday.

Mrs. Ralph Markham and children spent the last of the week in Briscoe with her parents, Mr. and Mrs. Lester Johnson.

Each year in Texas, about 250 people lose their lives in fires on farms or in rural communities. One-third of these people are children under 10 years of age.

Mrs. Ruben May returned from Clovis, N. M., Sunday where she had been visiting with her mother.

Getting Spring Snow Tan

A bottle of sun tan lotion is a Sun Valley "must" for spring vacations at the mile-high Idaho resort that remains snow covered for weeks longer than almost anywhere else. Bobbe Bennett applies her lotion on a sun deck at the Lodge before sun bathing at one of the outdoor warm-water swim pools.

The admission is 50c for adults and 25c for school children.

Helen, did you and Charles have a nice weekend?
Marie, you better watch those cowboys, you never know what to expect.

Mary Louise, how do you like Eddie George. O. K. huh?

Betty B., how do you like Bill's new car? We don't blame you.

Imogene, what kind of notes were you reading on the bus last Wednesday?

Has everyone heard about the juniors being chicken hearted?

Bonnie and Mary Louise seem to like the Wheeler boys.

Charles, why don't you drive more carefully? Poor cows.

Louise, Sidney, and Betty Jean, did you enjoy your walk Sunday night?

Vernie never does anything to get his name in the paper.

All moron's throw erasers; is that right Billy?

Jack Pitcock Writes The Times From Japan

Jack Pitcock who is with the U. S. army in Japan has written The Times to send him "\$2.00 worth of Wheeler Times." Jack wrote: "I have already travelled through most of Japan before I was permanently assigned to this station which is located in Osaka, the second largest city of Japan. I am quartered in a Japanese hotel which isn't so bad but I can't say much for Japan as yet. One thing I have noticed about this country is that there are more Japs than you could ever imagine seeing in one spot in the world."

(Intended for Last Week)

We are glad so many of the pupils are back that have been absent with the flu.

Wonder why Johnny D. doesn't want to be a certain boy in the sophomore play?

Mary Lee sure looks lonesome could it be because James is absent?

Katy, we're sorry you didn't get to tell Jap good-bye.

Wonder why Roy was going so slow home from the party the other Friday night?

Jackie, where did you get those pretty new boots?

Wonder why Bessie Joe is fixing up so lately? Jackie hasn't been looking at someone else has he?

Wonder why Billy Ray wants to be a certain boy in the play, is it because of a certain girl he gets to kiss?

We are sorry Jap quit school, we sure do miss him.

We have our six weeks test this week. Here's hoping everyone makes good grades.

Wonder why Armenda wants to go to the Briscoe junior play, is it because of who she'll get to go with?

Wonder where Myrt and Evelyn were Sunday?

WHAT IF

Janell didn't get a letter nearly every day?

Peggy liked boys?

Armenda had to stay home Saturday night?

Billy Ray didn't get his daddy's car?

Shirley didn't like Roy?

Charlene and Bonita's boy-

Home Ec. room. A discussion on dress making was the topic of Saturday nights?
Bob Inman didn't joke all the time?

INTERNATIONAL HARVESTER says:
"Any price is too high if it can be reduced."

We second the motion We'll do our part!

International Harvester has reduced prices to save users of its products \$20,000,000 a year. The reductions apply to a selected list of various products made by the Company.

In making its announcement to the general public last week, International Harvester said:

"We believe there is nothing more important to this country than to lower the prices of goods people buy.

"The American people have insisted that the government withdraw from its attempts to control prices in peacetime. That places the responsibility where it belongs—in the hands of business and industry.

"Because we believe price reduction is vital, we are willing to assume the risks involved."

As International Dealers we will do our part. We will pass International Harvester's price reductions to our customers.

And now a word of gratitude to our friends who have patiently waited for the new machines they need. As most of our customers are aware, International Harvester has done everything possible—and some things that seemed impossible—to maintain and increase production.

The outlook is somewhat better. Soon we hope to supply equipment to all of those who have cooperated so faithfully with us.

Meanwhile, the same top-quality International Service and Parts that have kept equipment operating for our customers during the difficult years are available from us. We urge our friends to continue to use these facilities to obtain maximum operating economy.

International Harvester is doing its part with quality, increased production and reduced prices.

We will do our part in this territory

Grease stains in the oven will be much easier to clean if a shallow pan of ammonia is placed in the oven for a few hours or overnight for the fumes to help soften the grease.

Nylon "wool," which is nylon fibre cut and crimped to resemble wool, leubuts soon. Men's socks, sweaters, and blankets are among articles to be made from it. It will be scarce for a while and quite expensive.

Junior can now be tempted to brush his teeth with a new tablet dentifrice that tastes like candy. All you do is take the tablet, a sip of water, then chew and brush.

Shoes are expensive now, but shoe men say prices will go even higher if hide exports are permitted. Foreign countries are willing to about double the price the domestic market is paying—which indicates that it's good economy to give all your shoes the ol' rhinola to make them wear longer.

Either the full or slim silhouette is stylish this year. But, ladies, they're both fitted closely to the figure, accenting a small waistline and the natural curves.

Enjoy the expensive first strawberries to the last one. Strawberry mayonnaise is a delicious way to use the slightly imperfect ones. Combine real mayonnaise, whipped cream, a bit of sugar and crushed berries. Serve over fruit salads.

their heirs and legal representatives whose names and places of residence are unknown, and all other persons owning, having or claiming any interest or lien in the property hereinafter described.

YOU ARE HEREBY NOTIFIED AND COMMANDED to appear and defend at the first day of the next regular term of the District Court of Wheeler County, Texas, to be held at the Court House thereof in the City of Wheeler, Wheeler County, Texas, at or before ten o'clock A. M., on the 2nd Monday in April, A. D.

1947, the same being the 14 day of April, A. D. 1947, then and there to answer a petition in a delinquent tax suit filed in said court on the 19 day of March, A. D. 1947, in a suit numbered 3787, styled The State of Texas vs the unknown heirs of J. W. Mayfield, Deceased, on the docket of said court in which The State of Texas in behalf of itself and Wheeler County, Texas are plaintiffs and Mobeetie Independent School District is impleaded defendant and the unknown heirs of J. W. Mayfield, Deceased are defendants, and show cause why judgment shall not be rendered condemning said hereinafter described property and ordering sale and foreclosure thereof for said taxes, penalties, interests, and costs of suit.

Said suit is a suit to collect taxes, interest, penalties, and cost on the following described property: All of Lot No. 10, Block No. 110 in the new town of Mobeetie, Texas in Wheeler County, Texas, according to the recorded plat of such town in the office of the County Clerk said county and state.

The amount of taxes alleged to be delinquent, due, owing, and unpaid for the respective years and in the respective amounts for each of said plaintiffs, taxing units, on the above described property is as follows:

Plaintiffs, Impleaded Party Defendants, and Intervenor That Are Taxing Units. Taxes due State \$50.09, taxes due County \$74.78, year delinquent 1930, assessed to J. W. Mayfield, taxes due State \$28.12, taxes due County \$62.32, year delinquent 1931, assessed to J. W. Mayfield, taxes due State \$6.90, taxes due County \$11.90, year delinquent 1932, assessed to J. Q. Is there a remedy for Newcastle disease in poultry?

A. There is no specific medicinal treatment of value which can be recommended at the present time. Any birds suspected of having Newcastle disease should be isolated and quarantined until definite and accurate laboratory diagnosis can be made. The best thing is to practice proper sanitation measures to prevent the disease.

Q. How many litters does it take for a sow to reach her maximum production?

A. Results from the Research Farm of the Balston Purina Company indicate that the average sow reaches her peak production from about the third to the sixth litter. Some sows remain very prolific until they have farrowed even up to 125 pigs, but these are the exceptions. A large number of pigs weaned per litter is one of the most important factors contributing to the reduction of overhead costs of maintenance of the breeding herd.

Q. Some of my cows have warts on their udders. Should these cows be separated from the rest of the herd?

A. Yes. Cattle warts are infectious, and dairy cows with warty growths on udder or teats should be segregated from the rest of the herd and milked last. Small warts may be clipped or tied off and the stump treated with iodine. If warts are numerous, a veterinarian should supervise the removal or the use of vaccine therapeutics.

Q. I plan to sell some of my chickens as broilers. What age or weight should they be to come under this classification?

A. The U. S. Department of Agriculture has given standards for both dressed and live poultry, although the poultry trade does not adhere to these very rigidly. U. S. D. A. standards for broilers are:

Dressed: Young chickens, approximately eight to twelve weeks old, of either sex, of marketable age, but not weighing over 2½ lbs. and sufficiently soft meat to be cooked tender by broiling.

Live: Young, soft-meat chickens of either sex with tender skin, smooth bright shanks, and flexible breast-bones. No age or weights are indicated.

Send your questions about livestock or poultry problems to FARM FACTS, 811 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

Warning! Car Owners

Manufacturers tell us that it is still going to be very hard to secure permanent anti-freeze or perhaps anti-freeze of any sort again next winter; so, we advise you to let us drain the anti-freeze which you now have in your car into a container of some sort and save it until next winter.

By draining your anti-freeze now, you will not only save yourself some money, but you may also save going without anti-freeze NEXT WINTER.

Spring Check-Up

Bring your car in now for that SPRING TONIC. Let us give it a thorough going over and change those winter grade lubricants to something suitable for the WARMER WEATHER which is just ahead.

**NOTICE OF SCHOOL
TRUSTEE ELECTION**
THE STATE OF TEXAS
COUNTY OF WHEELER

Notice is hereby given that an
election will be held at the usual
voting place in the city of Wheel-
er, Wheeler County, Texas on the
5th day of April, 1947, same being
the first Saturday in said month,
for the purpose of electing TWO
TRUSTEES for the Wheeler In-
dependent School District.

W. B. Wofford has been ap-
pointed by act of the Wheeler
Independent School District
Board of Trustees to hold said
election, and he shall select a
clerk to assist in holding same,
and said election shall be held in
the manner prescribed for hold-
ing elections by general law.

Witness my hand, as Secretary
of the Board of Trustees of the

playing a ground ball.

SEEN AND HEARD
Jeanne having home both Satur-
day night and Sunday. Oh, what
trouble this influenza won't
cause.

A few juniors catching up on
their work.

Reporters falling down on their
work.

The editor falling down on her
work. What about the news last
week, Editor?

Jeanne having lots of help typ-
ing the news Monday and Tues-
day. Thanks to Bill, Bob and
Richard.

LaVerne and Eddie were not
seen together Saturday night.

Bill, did you enjoy the Prevue
Saturday night? Where was
Faye?

Illene sure looked happy Mon-
day. We hope you felt fine.

Iris and Juanita, what is so in-
teresting at Cecil's drug store?

Why did all the girls rush to
the study hall Monday? The
boys were just having a 4-H Club
meeting (with the agent).

Dorthea and Helen, what did
you find in the bookroom behind
the office? We are sure it wasn't
the book on healthy teeth.

Richard, do you and R. J. really
think it is fair to read Helen's
letters out loud before the study
hall?

Illene and Helen shooting dag-
gers at each other, with their
eyes, of course.

SENIOR HEADLIGHT

The seniors have been racking
their brains and searching every
where for information about in-
teresting places to go. As yet we
are undecided.

We have noticed the juniors
ears open up when the word
"trip" is mentioned. They seem to
be dying of curiosity. Be patient
kids.

We are going to sell candy and
pop Friday night at the junior
play. Everyone come and bring
your nickels and dimes, because
there will be Snickers, Milky
Ways, Hersheys and Gum. The
profit will go to help sponsor the
Junior-Senior trip.

FRESHMAN WAIL

Most of the freshman class has
been out of school on account of
the flu.

Illene, we often wonder why
you never get to school.

The girls have started playing
baseball this year. Here's hoping
they keep it up.

JUNIOR FOGHORN

We, juniors, have been working
hard on our play. We were ready
to give it when a snowstorm
came up and forced us to post-
pone the play until March 21. We
are having to work harder to get
our lessons now because we mis-
sed some classes.

The most serious problem fac-

**Apple Tree Versus
Wheat Field**

If you ever visit Job Crowell's
farm, he'll take you right out on
that back porch of his and show
you his apple tree.

"There," says Job, "is nature's
noblest creation—fifty years, and
heavens! still the finest cider apple
in the country!"

But last fall, when a group of
us was there, Led Denny points
across the river to his grain fields
and says: "There's an even finer
apple! A corn and acres of golden
grain you can make dozens of
appetizing things with—including
wholesome, sparkling beer."

Both of them got so eloquent on
the subject, that the rest of us
worked up quite a thirst; so Job
took us to the icebox for beer and
cider. And when the refreshments
came, Led chooses cider, and Job
takes the beer!

From where I sit, that's the
answer to most disputes. You can
talk all you want, but when it
comes to tastes and preferences,
there's just no argument.

SANITARIAN OF COUNTY WRITES ON SAFE FOOD

(EDITOR'S NOTE: This is the first of a series of articles on sanitation submitted by W. E. Ritter, Wheeler County Sanitarian. Ritter's first column deals with "Safe Food." Similar articles will be printed from week to week.)

W. E. RITTER
Wheeler County Sanitarian

It is not uncommon to read in the paper news items reporting from 10 to 100 persons suffering from food poisoning after attending some social function when it has been impossible to properly refrigerated food until serving. Usually the item concludes by stating that "The City Health Department is investigating the outbreak of poisoning and the initial survey points the finger of suspicion at the custard dessert, or cream pie, or some such food, which it seems had set for several hours without refrigeration."

Usually such accidents are associated with banquets and large gatherings due to the fact that foods must be prepared in advance, often in places where there is a lack of proper storage, inadequate refrigeration, and where extra people are employed who have not had satisfactory health examinations. Naturally, when a about half of the people who attend these "gatherings" become sick, it is not surprising that the news makes headlines. But the same thing happens in many smaller establishments for similar reasons without the attendant publicity.

Of course, food poisoning results from insanitary conditions in public eating places. No doubt many of you have at some time or other in your lives eaten a late

Poultry Raisers Are

(Continued From Page 1) —
"There is absolutely no need for farmers to order chicks from out of state hatcheries," he says, "when they can get just as good birds close to home."

A lot of producers are now asking themselves a lot of questions on the poultry situation, Martin says. Many of them have become cautious about whether or not they should expand or reduce operations. Cooperating with representatives of the poultry industry, Martin has prepared what he terms "some basic facts for poultry producers", and these statistics are now available to any producer who will write to the Texas A. and M. College Extension Service, College Station, Texas, and ask for them. The statistics given information such as how much feed is required to produce a broiler, a dozen eggs, or a 20-pound turkey; how many eggs and how much poultry meat are in storage in the state; and other information that should help producers figure how many chickens and turkeys they want to raise this year.

These statistics on poultry were gathered for the purpose of helping the grower size up the chicken and turkey situation. Martin says, and can be of help to him in casting an eye to the future in the poultry industry.

Evening meal at your favorite cafe, and after having retired for the night have been awakened by a terrible pain in the abdomen. You tend these "gatherings" become sick, it is not surprising that the news makes headlines. But the same thing happens in many smaller establishments for similar reasons without the attendant publicity.

Recognizing the importance of controlling the spread of communicable diseases and suppressing these outbreaks of food poisoning through proper food-handling, the Texas Department of Health has been for some time conducting training schools for foodhandlers in all sections of the state. These schools have proved immensely popular and very successful wherever held throughout the state. Nearly 5,000 foodhandlers each year have completed this course of training.

With a limited personnel it has been impossible to carry on as broad a training program as is desirable, however much good has been accomplished. Instructors are sent from the State Health Department to the city or town requesting the school, and classes are held afternoon and night so that waiters, waitresses, chefs, and other foodhandlers may attend regardless of what shift they may be working.

This training course as offered by the state deals primarily with the fundamentals of sanitary food-handling procedures. The complete 10-hour course covers bacteriology, communicable disease infection, sterilization, personal hygiene and sanitation. No tuition or registration fee is charged and upon the completion of the course the individual foodhandler is awarded a certificate signed by

Women Drivers Set New Auto Styles

The hand that rocks the cradle has a great deal of influence on the design of American automobiles. A typical example is the jeep station wagon. Although designed by men, this new descendant of the war-famed jeep contains many features that appeal especially to women drivers. These include:

1. **APPOINTMENTS.** Dual dome lights give bright interior lighting for loading and map reading. Light above the wind-shield and the rear-view mirror double as makeup facilities for midday.
2. **SAFETY.** Children are safe in back seats because there are no doors for them to open accidentally. Even the sliding windows can be securely locked in any position to keep little arms inside.
3. **CONVENIENCE.** Push-button door latches are easily operated even when arms are laden with bundles. Wide door sills in the all-steel body make it easy to get in or out of the jeep station wagon.

Women Best at Precision Task

Testing the potency of penicillin is an exacting task, best done by women. Measured drops of the life-saving drug are placed in the little cylinders and its effect on the solution in the glass dish is measured microscopically. Women, because of their swift, sure fingers, do this work in laboratories of Heyden Chemical Corporation's penicillin plant at Princeton, N.J.

the State Health Officer.

It is quite common for the general public and the press to speak of food poisoning as "ptomaine poisoning," but health authorities are agreed that the ptomaines are not true poisonings. Ptomaines, scientifically speaking, are a group of chemical substances found in food that produce little or no harm when taken into the human body. It is an established fact that certain cheeses in decomposed states contain these substances and are quite harmless when eaten. Thus, the term "Ptomaine poisoning" is incorrect and should not be used with reference to food poisoning.

Many of you no doubt are acquainted with certain individuals who cannot eat particular foods such as eggs, fish, tomatoes, strawberries, bananas, chocolate candy, and many other foods without becoming ill. The medical profession terms such people "allergic" individuals and are in each instance allergic to some particular foods. For some mysterious reason allergic individuals have bodies that are extremely sensitive to some of the chemicals in these foods, and they may react

Announcing... The Opening of A New Welding Shop In Wheeler

I am pleased to announce that I have secured a location in Wheeler to open up an up to date welding shop and take this means to invite the general public to visit this new place of business.

I have about 10 years experience in the welding business and believe I am thoroughly qualified to handle all of your welding jobs.

I have both ELECTRIC and ACETYLENE welding equipment and know how and when to use them.

In addition to ordinary repair and shop work, I am equipped to build steel windmill towers, overhead tanks and towers for these tanks to rest on.

The next time you have a welding job no matter how small or how large I certainly would appreciate it if you would give me a chance to show you just what kind of work I can do.
