Mobeetie Softball Game Sunday Decides Who Will Wear What

There will be a softball game
at Mobeetie at 3 o'clock next
Sunday afternoon between the
Mobeetie Lions club and the Mo-
beetie American Legion.

There will be another softball
game at Mobeetie the following
Sunday between the same
teams. The difference is both
of the teams will be wearing
men's clothing on Sunday, June
1, whereas only one team will
be suited in masculine attire on
Sunday, June 8.

You guessed it. The team that
loses on June 1 will wear dress-
es and bonnets in the return
exhibition.

Tom Beck, in charge of the
Legion team, says it won't be
the war veterans who will wear
house dresses. Jack Miller, head
of the Lions club team, denies
any business men are planning
to appear in public in frocks.

And so, Sunday afternoon's
game is expected to be hotly
contested. Admission will be
15c and 25c. Proceeds go to the
Mobeetie Legion fund. Be on
hand for the fireworks.

HOME MAKERS OUTLINE PLANS

The girls who are taking sum-
mer homemaking, being taught by
Mrs. Harmon, met at the Home-
making cottage Monday afternoon
for the purpose of making plans
for the course.

The group decided to redecor-
ate the living room and the bed-
room and to improve the yard at
the cottage. The group meetings
will last for one month, five days
a week.

Girls taking the summer course
and their home projects which
will be carried through the sum-
mer are:

Peggy Rodgers will prepare
chickens for the frozen food lock-
er, do canning, gardening, yard
work, sewing and ironing.

Frances Porter will care for
a flower garden and plans to
care for children.

Pat Noah will do sewing and
house cleaning. Her plans also in-
cludes yard work, canning and
working in the vacation Bible
school.

Mary Alice Close plans to make
soap, garden, keep house, can and
do cooking.

Doris Marie Ragan will do some
sewing, house cleaning, cooking
and canning.

Joyce Brown plans to sew and
iron.

Dorothy Esslinger will do some
sewing, gardening, canning, cook-
ing, house cleaning and ironing.

Margaret Holt plans to do some
embroidery work, remodeling,
yard work, make some furniture,
paint, care for children and work

County AAA Program Is Suspended Abruptly As Republicans Wield Scythe

The Agriculture Conservation Practice program was sus-
pended in Wheeler county Monday by V. B. Hardcastle, ad-
ministrative officer of AAA, upon receipt of instructions
from B. F. Vance of College Station, state director.

Until further notice, Hardcastle was instructed to issue
no purchase orders for conservation materials and services
and to cancel purchase orders in the hands of farmers on
which construction has not been started. He was also advis-
ed to notify all material contractors to discontinue delivery
of material which has not been loaded, and to suspend all
contracts.

COUNTY TO PAY HONOR TO DEAD MEMORIAL DAY

Decoration of the graves of all
war veterans buried in the cem-
eteries of Wheeler county will be
in charge of the American Legion
Posts in Wheeler, Shamrock and
Mobeetie, on Memorial Day which
is Friday, May 30.

Residents of Kelton, Zybach
and communities having cemeteries
where there are no Legion
posts will decorate the graves in
their own cemeteries.

County residents are asked to
take time from their usual duties
to consider the significance of
Memorial Day, and to pause and
pay silent tribute to the memory
of our war dead, if no public ob-
servance is planned.

The Wheeler American Legion
has not planned a public memorial
service but will put on a brief
decoration service at the cem-
eteries.

Shamrock plans a community-
wide Memorial Day service with
the DeShazo-George Legion post
in charge. There will be a pro-
gram at Clark auditorium from
10:30 to 11:30 o'clock Friday and
all business firms have been asked
to close. Graves of all veterans
will be decorated with new flags
and fresh sprays of flowers.

The Zybach community plans
decoration day services at the
cemetery in honor of five of the
Civil War and three veterans of
World War I. The dead are: Civil
War, Perry Helton, Wiley Thomp-
son, Ganey Pennington, J. W.
Hill and C. V. Blair; World War
I, Bill Calhoun, W. R. McCaw and
Garrett P. Helton.

MOBEETIE USES CLUB ON QUAIL

Mobeetie continued to dominate
the Red River Valley Baseball
League after a terrific 21-1 win
over second-place Quail last Sun-
day in what had been expected to
be a nip-and-tuck game.

Childress coasted to an easy 11-
1 win over Clarendon. Wellington
beat Kirkland 11-6 and Memphis
won at Quanah 4-2. The last game
has been protested by manager
Adrain Johnson.

Metz Lafollette held the Quail
boys under control while he and
his teammates gathered 23 hits in
another slugfest.

Fulenwider led the Mobeetie at-
tack with 4 hits in 6 attempts
while Dorman slapped out a homer
with two on in the third. La-
follette, the league's leading hit-
ter, batted 3 for 6.

Patchell of Quail was the only
one of his team to solve Lafol-
lette's pitching. He secured 4
hits in 4 attempts.

Court House To Close Most Stores Remain Open On Memorial Day

County clerk, Harry Wofford,
announced the first of the week
that the court house would be
closed all day Friday, May 30
in observance of Memorial Day.

Although it appeared, after a
quick survey Wednesday after-
noon, that the majority of the
business houses in Wheeler
would be open for business as
usual Friday, it is the opinion
of The Times that Memorial
Day is one holiday everyone
should observe because it is set
aside in memory of all our dead,
not just the war dead.

Methodist Church To Hold Bible School

WANTED—every boy and girl
from ages 4 to 14 within the
Wheeler area to attend Daily
Vacation Bible School at the
Wheeler Methodist church.

That is a notice given The
Times this week by Rev. S. Y. Al-
good, pastor. The school starts
next Monday and continues thur-
ough Sunday, June 15, from 3 to 5
p. m. It includes Bible study, re-
creation, handicraft, and worship
suited to each age. There will be
good teachers and a good time
is assured, Rev. Allgood stated.

JODY REID IS LAKE HEROINE

An act of heroism by a Wheel-
er high school girl, Jody Reid,
who is acting as lifeguard at the
Miller Lake, north of town,
probably saved the life of Miss
Coene Carter, employee of the
Wheeler County Clerk's office,
Sunday.

Miss Carter who had been
wading in shallow water was
tossed into deep water as a
prank by two young men friends.
She became so frightened she
lost consciousness.

After she had gone down twice,
Miss Reid went to her rescue,
pulling her out and administer-
ing first aid.

Miss Carter could not swim.

Celeste Jean Wiley Graduates At TSCW

Among the 323 candidates for
bachelor's degrees from Texas
State College for Women at Den-
ton is Miss Celeste Jean Wiley,
daughter of Mr. and Mrs. H. M.
Wiley, Wheeler. Degrees will be
awarded June 2, 9 a. m. in the
college auditorium.

In collaboration with Commem-
oration activities at the college
the annual Ex-Student Reunion
will be held May 31 with exes ex-
pected from Texas, surrounding
states, California and Illinois. Miss
Beatrice Field, Tulane University,
will be principal speaker at the
reunion luncheon.

Speaker at baccalaureate ser-
vices June 1 will be Dr. J. T.
Carlyon, professor of Christian
Doctrine, Southern Methodist Uni-
versity. Pres. L. H. Hubbard, TS-
CW, will deliver the commence-
ment address. Miss Wiley majored
in sociology at TSCW.

Mr. and Mrs. A. F. Smith, Mrs.
J. F. Witt, Jimmy King, Bobby
Arnett and Lita Joyce Arnett all
of Amarillo are spending the re-
minder of the week here visiting
Mr. and Mrs. Shirley Braxton.

SWEETWATER IN LEAGUE LEAD

The Sweetwater club continued
to set the pace in the Texas-Okl-
lahoma league Sunday as they
trimmed the Kelton nine by a
14 to 8 count in a loosely played
contest on the Sweetwater dia-
mond. This was the third league
contest for the winners while it
was only the second for the losers.

Wheeler and Eriscoe hooked up
in one of the tightest pitcher's
duels of the season Sunday and
the Wheeler outfit finally came
out on the long end of a 5 to 1
score. Billy J. Darnell of the
Wheeler club and Prater of the
Eriscoe outfit both had plenty of
stuff on the ball as they struck
out 18 and 19 batsmen respective-
ly.

Darnell allowed 7 hits and Prater
allowed 8. All the hits off Dar-
nell were singles while 2 of the
hits off Prater went for extra
bases.

No report was turned in on the
Miami-Erick contest but it was
understood that the Erick crew
took the contest by a score of
around 24 to 4.

Sunday's Schedule includes:
Erick at Wheeler
Sweetwater at Miami
Eriscoe at Kelton

Mr. and Mrs. James Alexander
and sons of Perryton, Mr. and
Mrs. S. M. Sullivan and P. L.
Ramsey, Maggie and Bessie visit-
ed Sunday afternoon in the home
of Mr. and Mrs. C. C. Hallman.

and children visited in Childress
Sunday.

Mr. and Mrs. R. H. Forrester
are vacationing in south Texas
this week.

Rev. and Mrs. O. C. Evans were
Sunday dinner guests in the home
of Mr. and Mrs. C. T. Brittan.

Personal

Mr. and Mrs. Harry Wofford,
Miss Coene Carter and Betty
Brewster attended a district meet-
ing for county clerks in Amarillo
Saturday. They were accompan-
ied to Amarillo by Mrs. Frank Noah,
who is visiting in the home of her
son, Bob Noah, this week.

Pfc Robert C. Blackwell of the
Marine Corps, who is stationed
at Indian Head, Maryland arrived
Wednesday for a weeks visit with
his wife, Mrs. Naomi Blackwell.

Mr. and Mrs. Aubrey Downs and
son were Sunday dinner guests of
Mr. and Mrs. Willard Ingram.

Mr. and Mrs. Willard Downs
were visitors in the home of Mr.
and Mrs. J. W. Brumley and
children Tuesday.

Miss Margie Mullins left Tues-
day for Stratford where she will
visit with relatives a few days en-
route to Boulder City, Nev.

Mrs. L. A. Stewart of Dallas ar-
rived Tuesday for a few days
visit in the home of her sister,
Mrs. Amy Craig, and brother,
Chester Lewis.

Duane Bradford spent the week-
end with his mother, Mrs. Ieyl
Littrell in Amarillo and is now
visiting with an aunt, Mrs. Percy
Rowe, at Pampa.

Lloyd Johnson, who is attending
West Texas State College at Can-
yon, spent last weekend visiting his
grandmother, Mrs. Ollie V. Hub-
bard and family.

Mr. and Mrs. Jimmy Swink
spent the weekend in the home of

her parents, Mr. and Mrs. George
Porter and were accompanied
home by Jo Ann Porter, who will
visit with relatives there this
week.

Mrs. Jim Goodwin and son,
Doyle Gene, of Meridian, Okla.,
spent the weekend in the home of
her brother and family, Mr. and
Mrs. Buster Callan.

Mr. and Mrs. Vernon Brown
and children were visitors in Pam-
pa Monday.

Mrs. J. C. Howell and daughter,
Cheryl Kay, spent the latter part
of last week with relatives in
Chillicothe. They returned home
Monday morning with Mr. Howell
who spent the weekend there.

Mr. and Mrs. Bain Alexander
of Cedar Edge, Colo. visited his
mother, Mrs. Ada Alexander, and
other relatives here Thursday and
Friday.

Mrs. Jack Garrison and small
son attended the wedding of her
sister in Oklahoma City Sunday.

Mr. and Mrs. Loyd Lee and Dol-
ores Ahler were visitors in Am-
arillo Tuesday.

Archie Hibler transacted busi-
ness in Amarillo Monday.

Miss Evonne Hubbard attended
the concert given by Amparo and
Jose Iturbi in the Municipal Au-
ditorium in Amarillo last Thursday
evening, May 22.

Mr. and Mrs. Allen Kavanaugh

APPLE BLOSSOM TIME
There is a famous song which tells about "Apple Blossom time in Normandy". It has been sung by many choruses, and highly applauded as a beautiful expression of the happiness that is given by the beauty of nature. In many regions in our country where there are many apple trees, there is a

beautiful time when these trees come into bloom. The locality looks very white and pink, as they show their lovely color.

The Sunday when most of the apple trees are in blossom has been called "White Sunday", and many people drive out to see these trees. The world seems to shine as this brilliant display of white and color is given. Artists make lovely pictures by depicting the blossoming apple trees on their canvasses.

Farmers Should Poison For Grasshoppers Now

COLLEGE STATION—Farmers of the state are being urged by the Texas A. and M. College Extension Service to start control measures against millions of grasshoppers that are now hatching. Entomologists of the Extension Service say that poison bait put out now to kill the young hoppers can prevent a lot of damage to the state's row crops. Grasshopper infestations were large last season and the hatch this spring points to another big year for the insects.

An early start on grasshopper control is being encouraged now because the insects, at present, are young and easy to kill; they are bunched together now after the hatch and therefore very little bait will kill them; and they are still on the edges of fields and have not, as yet, done any damage to row crops.

According to information received by the Extension Service from the USDA Bureau of Entomology and Plant Quarantine office at Waco, grasshopper surveys show that the insects have shown up in large numbers in the following counties: Erath, Jack, Archer, Wichita, Clay, Wise, Denton, Dallas, Collin, Hunt, Kaufman, Ellis, McLennan, Falls, Robertson, Brazos, Burleson, Washington, Austin, Bastrop, Gonzales, Karnes, Guadalupe, Caldwell, Hays, Travis and Williamson.

Need Fertilizing As Cotton or Corn

EDGE STATION—Texas have grown cotton by the acre, beef by the acre, and now it's the acre.

More than 100,000 farms and ranches in Texas are kept for stock every year, more farmers are putting more of their land into fish production and fertilizing.

life conservation of the Texas A. and M. College Extension Service is telling "fishermen" and landowners now that the time has rolled around when the spring application of fertilizer goes into the fish pond. The fertility of the water means just as much to healthy growth of fish as a fertile pasture means to the weight of a beef animal, Callender says.

Various mixtures of fertilizers may be used to promote growth of plants that make fish food. Probably the most common is a mixture of 400 pounds of cottonseed meal and 200 pounds of superphosphate, which makes enough

fertilizer to take care of one acre of water for one year. The first application—300 pounds of the mixture early in the spring, applied broadcast. Second and third applications—100 pounds each—can be made at four to six weeks intervals.

Barnyard manure makes good pond fertilizer, too, says Callender. About 500 pounds per application is the amount to use, up to three tons for an entire season.

If properly managed, lespedeza seeded on Texas pasture land will thrive and produce forage for many years.

During the second half of this year, farmers will have six to nine per cent fewer laying chickens. According to the U. S. Department of Agriculture, the same drop in egg production can be expected.

Press Association In Many States Sponsor Big Safety Campaigns

Tackling the grave problem which brought death to over 33,000 persons on the nation's streets and highways last year, state press and publisher associations are showing increasing interest in the sponsorship of highway safety campaigns during 1947. One newspaper-sponsored campaign has already opened in Florida, a second is under way in Louisiana now, and the press associations of Missouri, Oklahoma, Utah and Pennsylvania will launch safety campaigns June 1.

The Pennsylvania program will be a return engagement of a highway safety campaign conducted during October, November and December of last year by the Pennsylvania Newspaper Publishers Association with the assistance of the National Conservation Bureau. A similar campaign was conducted at the same time by the New Jersey Press Association.

The spring safety campaigns are planned to coincide with the opening of the summer vacation season and its corresponding increase in highway traffic. In all, approximately 1,500 daily and weekly newspapers will participate.

Hope to Save 2,000
The Florida safety drive, which opened February 1 and closed the last week of April, was sponsored jointly by the Florida Press Association and the Associated Dailies of Florida with the assistance of the Bureau. Goal of the Everglades State newspapers is to cut their accident rate in half and save well over 2,000 persons from death and injury in 1947.

Pattern for the highway campaigns is a 13-week program designed by safety experts of the National Conservation Bureau, ac-

dent prevention division of the Association of Casualty and Surety Executives. The Bureau supplies educational and advertising material for all newspapers participating. A special kit, containing safety editorials, feature stories, human interest stories, safety cartoons, pictures and advertising mats is distributed. The kit is redesigned for each state so that fatality and injury data of a local nature may be included. Local pictures show fatal accidents, each demonstrating the tragic result of a violated safety rule. By-line feature articles by state and national safety experts are also included.

Results of the New Jersey campaign, where accident fatalities were cut 40 per cent during the second month of the drive, led Gov. Walter E. Edge to declare newspapers to be "a most effective medium" in reducing accident deaths. New Jersey's Commissioner of Motor Vehicles A. W. Magee said the people of the state had a greater awareness of the seriousness and importance of the traffic accident problem than at any time in history because of the intensive campaign by the newspapers.

\$500,000 in Space
In Pennsylvania, the newspaper campaign succeeded in stemming a rising accident rate which had taken an almost unprecedented toll of lives earlier last year. Eleven newspapers of the Keystone state were honored by Gov. John D. Bell, Jr. for winning honors in a contest based on contributions to the highway safety campaign. Governor Bell thanked the state press for contributing over \$500,000 worth of space to highway safety.

Julien H. Harvey, managing director of the National Conservation Bureau, congratulated the news-

men of New Jersey and Pennsylvania and said, "The splendid response of the newspapers is a true indication of their desire to serve their readers."

Meanwhile other state and national press organizations have indicated interest in highway safety campaigns. According to Harold K. Phillips, director of the Information and Publications Division of the Association of Casualty and Surety Executives, inquiries about the 13-week program and the Bureau's safety kit have been received from the press association managers of Arkansas, Georgia, Tennessee, Washington, Wisconsin and South Dakota, as well as from the Bureau of Advertising of the American Newspaper Publishers Association and the Canadian Weekly Newspaper Association.

 That's a'gonna be some NEW DOIN'S . . . 'round here
 Man alive . . . been Cotton Farmin' nigh on to 40 year . . . Seen a right smart too . . . in my day . . . but as "Cindy" would say . . . "I ain't seen nuthin' yet."
 Yep . . . in them 40 year o' Cotton Farmin' . . . I heerd some tall tails . . . but this NEW DOIN'S that DOES AWAY WITH HAND CHOPPIN' . . . by mountin' blow torch . . . on yore tractor . . . a burnin' butane and a goin' in your field a burnin' out the weeds and NOT A HURTIN' THE COTTON . . . sounds purty fer fetched . . . Course now . . . them Elk Cotton-oil Boys sezs it'll work . . . and they usually know what they air a talkin' about . . . ain't never been led a stray by listin' to 'em yet.
 Well sir . . . This Contraption I MUST SEE . . . The Elk Cotton-oil air a'gonna have a dem-un-strate . . . Guess they figure what helps us helps them . . . and that's right and proper . . . ain't it? Anyway they call this Critter a FLAME CULTIVATOR . . . does away with hand choppin' . . . and is a heap cheaper . . . cost only about 50 cents a acre . . . that's a savin' from \$5.00 to \$10.00 a acre . . . Now I ain't one to get sold very quick . . . But with that savin' I would shore make money . . . First time I rock'lect an airplane an' 'lectric lights I didn't think they would work nuther . . . SO I'M A SEENIN' THIS CONTRAPTION.
 When they 'nounce the day and place of showin' off this NEW DOIN'S . . . if you don't think you kin make it to the dem-un-strate . . . Just take 50 cents times your cotton acres and figure that agin what you have been a payin' for cleanin' out yore cotton by hand . . . That'll show you what I mean.

'Train of Tomorrow' Takes the Rails

A "TRAIN OF TOMORROW" that is packed full of mechanical marvels, new-as-tomorrow interior decoration and many postwar features for the comfort and safety of passengers, has just been launched by General Motors, its designer, for a six-month exhibition tour of the country. Powered by a GM Electro-Motive Diesel locomotive, the cars are of an entirely new design, permitting an Astra Dome atop each (see above) for unrivaled view of landscape, and a depressed car floor beneath, resulting in four floor levels in every car. (Below) Among the first to enjoy a meal in the luxurious Astra Dome-Diner were Alice Faye and Phil Harris of movie and radio fame.

CANNIBALISM IS BIG WORRY TO POULTRY MEN

COLLEGE STATION — Cannibalism in chickens and turkeys, a big item on the Texas poultryman's list of worries, will start taking its toll from poultry flocks soon.
Ted Martin, Extension poultry husbandman of Texas A. and M. College, believes that poultry raisers can cut down losses from cannibalism by taking steps to stop it before it starts—by prevention. Cannibalism, poultry's vicious habit of picking toes, combs, vents, feathers and other parts of the body, spreads rapidly in a poultry flock due to two peculiarities of chickens and turkeys. One—they are attracted to the red color of freshly picked sections of the body, and two—

they are born with the desire to imitate one another.
Poultry husbandmen and veterinarians can list many factors that result in cannibalism. Martin points out ten conditions that often lead to the trouble: Among these are crowding; inadequate eating and drinking space; too much heat, not enough air; idleness; close confinement; floor laying; blow outs; injured birds; insufficient and improperly constructed nests; and malnutrition.
From these factors, says Martin, the poultry raiser can pick probably four that are most likely to cause trouble, and work toward preventing those conditions. Crowding is considered the most common cause of cannibalism. In batteries, a baby chick needs 10 square inches of floor space during his first two weeks, 20 inches the third and fourth weeks, 40 inches from four to six weeks, 60 inches from six to eight weeks; and 75 inches from eight weeks on. In colony houses, each chick needs half a square foot. Turkeys need just twice the amount of space as chicks.
To stop "too-much-heat" troubles, the producer can start chicks in a well-ventilated brooder, registering 90 to 100 degrees at the edge of the hover, and keep brooder temperature around 85 to 70 degrees. By regulating and admitting fresh air, the brooder can be cooled down about five degrees each week as the chicks get older.
Chicks that have less than eight feet of eating space and two feet of drinking space are likely to start some form of cannibalism, Martin says. They need twice that much eating and drinking space by the end of their first eight weeks, and three times the amount when they are three months old.
Rations that are unbalanced, too low in fiber content, or lacking in vitamins, and minerals are another cause leading to cannibalism.
These are steps to take in prevention, says Martin. If cannibalism breaks out in the flock, experienced poultry raisers will:

arrangements immediately.
These arrangements include applying to VA for a certificate of eligibility and making application for entrance to the school selected.
An increase over the current enrollment of 1,200,000 ex GIs is anticipated and veterans who wait until the last minute to apply may not be able to get into the schools of their choice.

Burial in Veterans Administration cemeteries will be restricted to veterans who die in VA hospitals and homes and whose relatives do not desire burial elsewhere.
VA has announced this policy in response to many inquiries arising from plans of the War Department to return upon request bodies of World War II veterans who died overseas.
This policy is necessary because of inadequacy of VA cemetery space to take care of even a small part of such requests, VA said.

Sharp increases in the number of veterans applying for GI home loans were noted by the Veterans Administration during April.
The rise in home loan applications followed a steady decline since last fall, VA said.
VA's figures for April show around 51,000 home loan applications received, compared with 41,000 in March and 58,000 during the peak month of last September. The steep rise in numbers of applications received in April was attributed to seasonal factors.

1. Trim the beak, the upper mandible—with a debeaking machine or a knife. Electric debeaking can be bought now. The machines are easy to operate, and full instructions come with the purchase.
2. Paint the picked chicks, as well as those not picked yet, with bone oil, pine tar oil, or commercial "anti-pick" compounds.
3. Remove the picked birds from the flock if possible.
4. Check all factors that lead to cannibalism and correct them at once.

Veterans' News
QUESTIONS & ANSWERS
Q—I was discharged from the U. S. Army in May, 1945. Are readjustment allowances still available to me?
A—Yes, Readjustment allowances are available to any eligible veteran until 2 years after the date of his discharge or release, or until 2 years after the official termination of the war, whichever is later.
Q—I am a World War II veteran and have been ill for five months. At the end of my sixth month of total disability, will I have to continue paying my national Service Life Insurance premiums or is a waiver granted automatically?
A—No automatic waiver of premiums is ever granted. A veteran must be disabled for six months before he may apply for a waiver of premiums. You are entitled to file a claim for refund of those premiums you paid from the date on which the waiver becomes effective.
Q—I receive a portion of my husband's compensation because we are separated. Am I entitled to a widow's pension at his death?
A—At the death of your husband you may be entitled to a widow's pension notwithstanding the separation, provided you are otherwise eligible.

Q—Under what conditions is a veteran entitled to out-patient treatment from the veterans Administration?
A—A veteran whose disabilities are service-connected may receive out-patient medical, surgical and dental service for service-connected diseases or injuries. Treatment may be given at a Veterans Administration field station, or VA may authorize it to be given by a physician or dentist in the applicant's place of residence.
Seven out of nine living veterans of the nation's last five wars served in World War II, according to Veterans Administration.
The latest report shows an estimated total of 18,188,000 living veterans. Of this number, 14,267,000 served in World War II. The remaining 3,912,000 participated in World War I or the Spanish American War, or they still receive VA compensation or pension benefits for service in the peacetime forces, the Civil War or the Indian Wars.
Veterans who plan to attend school under the GI Bill for the first time next fall are urged by Veterans Administration to make

First Meeting Bible Class Held Monday

The first meeting of a ladies Bible class was held Monday evening at the Church of Christ, at 3 o'clock. Thirteen were present for this meeting.

Mrs. J. C. McQueen, formerly of Borger, will be the teacher. She is highly recommended by the Borger Church, as a teacher and a Christian worker. The book of James was selected for the first series of lessons.

At the next meeting Monday, June 2nd, clothing will be packed for one Greek family consisting of a husband and wife and two sons, seven and one year of age respectively. Members are requested to bring any clothing suitable for this family.

Women in this community are cordially invited to attend these meetings.

Mrs. B. Owen Hostess Wheeler H. D. Club

The Wheeler H. D. Club met Wednesday, May 21, with Mrs. Bill Owen, for a program on "Home Made Furniture Polish and

Wax and Refinishing Furniture." Mrs. V. B. Hubbard demonstrated a wax, the formula of which was 1 pint turpentine and 5 ounces of beeswax. Mrs. Owen gave several useful hints on refinishing furniture, a very timely one being that a small piece of cloth placed on the end of a rung before gluing will help to hold it in place more securely.

Refreshments were served to one new member, Mrs. F. C. Peace of Mobeetie, and Mesdames V. B. Hubbard, Cecil Clark, Allie Minor, J. M. Porter, Bill Owen, and B. M. Litton.

The next meeting will be June 4th in the Club room. The program for this meeting is to be "House Plans."

CAUSES CHILD ACCIDENTS IN HOME GIVEN

COLLEGE STATION — Each year, almost 20,000 boys and girls under 20 years of age die in the United States as a result of accidents.

That sad fact is brought to light by Mrs. Eloise T. Johnson, family life education specialist of the Texas A. and M. College Extension Service, in an effort to make Texas parents that something must be done about it.

Over half of these 20,000 fatal accidents take place in the home, Mrs. Johnson says, and most of them could be avoided.

Here are the principal causes of child accidents in the home: Burns, most of which are kitchen accidents; falls, due mostly to infants left unattended; poisoning from eating household poisons or overdoses of medicines, wounds, often from knives, scissors and other dangerous articles left within reach of children; internal injuries, caused to great extent from swallowing toy parts or lollipop sticks; injuries from foreign bodies, such as pins that the child swallows or sticks into his eyes or ears; electric shock, from playing around electric outlets and fixtures; suffocation, particularly among infants that become entangled in loose bed clothing; drowning, in the old swimming hole; and even in the bathtub; and gunshot wounds, due to firearms left within reach of the child.

Mrs. Johnson offers the following points as good methods of preventing these accidents. Protect the child, she says, by making his environment free of accident hazards. And of course, he must be restrained in many cases; there are certain dangerous activities in which he simply should not engage. Also, provide the child with a chance to develop himself, to learn things by doing. And condition him by training; teach him

FARM FACTS WORTH KNOWING

Q. Which is more important for increasing milk production—breeding or feeding?

A. Both are important. A cow's top production level, of course, is set by inheritance. Relatively few cows are fed well enough, though, to produce up to capacity. Thus more immediate results in increased production can be obtained through better feeding. Feed cows for better production now and breed for better production in the years ahead.

Q. In feeding the brood sow during gestation, which is the better practice—hand-feeding or self-feeding?

A. Each has its advantages, but hand-feeding is recommended at the Research Farm of the Ralston Purina Company, in order to keep the brood sow in ideal condition. Hand-feeding offers a degree of control seldom attained with self-feeding. This accurate control of condition influences:

1. Ease of farrowing.
2. Lactation and nursing the litter.
3. Vigor of pigs.
4. Livability of the litter.
5. Final returns and profit.

Q. Last year I had trouble with my baby chicks eating the litter. What can I do to prevent this?

A. The most important factor is to provide plenty of feeder space—at least one inch per chick for the first three weeks. Also, cover the litter with three or four layers of newspaper to keep the chicks from eating the litter. Roll off a layer of paper each day. Remove all papers after the third day.

Q. Do hogs become infected with Brucellosis? Are the symptoms the same as in cattle?

A. Hogs do become infected with this disease, although the symptom of abortion is not nearly as prevalent in hogs. A sow may have the disease and not abort. The prevalence of swollen joints and lameness is an important symptom in infected swine herds. The herd boar, unlike the bull, is an important carrier and spreader of Brucellosis, and one infected boar may cause the entire sow herd to become infected. Another contrast is that cattle do not usually become infected until at least six months of age, while swine may become infected shortly after birth.

How would you like bed sheets that need no tuckin'? There are some on the market now that have "pockets" which slip around the mattress ends.

Trim off the tops or leaves of root vegetables before storing. The reason? During growth the leaves manufacture sugar, protein and other nutrients, passing them down to the roots for storage. After vegetables are pulled from the ground the leaves begin to withdraw nourishment. They should be stored in the refrigerator, too, for warm air dries them out in a short time.

Gaily colored place mats make pretty settings for summer luncheons. So make your own from odd pieces of fabric about the house and then dye in brilliant colors with all purpose dye.

Here's an ounce of prevention! A little luminous paint beside basement or porch steps will keep one from stumbling in the dark. And don't forget, luminous paint for house numbers.

When preparing mashed potatoes, heat the vitaminized margarine and milk to keep potatoes from cooling. And for a delicious, distinctive flavor add a bit of onion juice.

Sterilized, collapsible baby bottles will be available soon, selling for about \$1 a 100. Manufacturers say they're more sterile than glass, eliminate breakage, also the vacuum that forms in ordinary nursing bottles. And, of course, there's no washing.

the correct method of doing things while his habits are being formed. Finally, teach him to recognize danger and meet it, since all hazards are not avoidable.

SENATE JOINT RESOLUTION NO. 4

PROPOSING AN AMENDMENT to Article VII of the Constitution of the State of Texas by the addition of two new sections to be known as Sections 17 and 18 providing a special fund for the payment of Confederate pensions and providing a method of payment for the construction and equipment of buildings and other permanent improvements at state institutions of higher learning; providing for a five-cent reduction in the maximum allowable state tax on property; providing for the election and the issuance of a proclamation thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto Sections 17 and 18 which shall read as follows:

"SECTION 17. In lieu of the state ad valorem tax on property of Seven (7c) Cents on the One Hundred (\$100.00) Dollars valuation heretofore permitted to be levied by Section 51 of Article 3, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a state ad valorem tax on property of Two (2c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the payment of pensions for services in the Confederate army and navy,

frontier organizations, and the militia of the State of Texas, and for the widows of such soldiers serving in said armies, navies, organizations or militia; provided that the Legislature may reduce the tax rate hereinabove levied.

"ALSO THERE IS HEREBY levied, in addition to all other taxes permitted by the constitution of Texas, a state ad valorem tax on property of Five (5c) Cents on the One Hundred (\$100.00) Dollars valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings, or other permanent improvements at the designated institutions of higher learning; and the governing board of each of such institutions of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed three (3%) per cent per annum and shall mature serially or otherwise not to exceed ten (10) years from the first (1st) day of January of each year in which such funds are allocated or re-allocated to said respective institutions; provided, the power to issue bonds or notes hereunder is expressly limited to a period of thirty (30) years from the date of the adoption of this amendment; and provided further, that the Five (5c) Cent tax hereby levied shall expire finally upon payment of all bonds hereby authorized; provided further, that the state tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestable; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

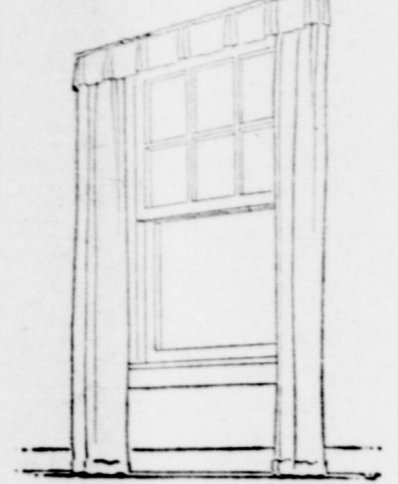

"FUNDS RAISED FROM said Five (5c) Cents tax levy for the ten (10) year period beginning January 1, 1948, are hereby allocated to the following institutions of higher learning, and in the following proportions, to wit:

FIXING UP the HOME
By Diane Greeter

How to Make Simple Drapes
If you, like many other homemakers, have replaced the double beds in your household with twin beds, you may have on hand a few of the double-size bed sheets. Don't discard them; they can solve your window drapery problems in bedrooms or dining nooks. Torn sheets can also be used.

Bed sheets can be converted into extremely effective window draperies—with little effort and almost no expense. Simply cut the sheets in two, lengthwise. Hem the raw

edges, then tint them whatever color you have chosen for your decorative scheme. Soft pastel colors are best. The deep hem at the top and bottom of every sheet makes a perfectly satisfactory sleeve for the drapery crane or rod, and good wash tints are obtainable for a few cents.

Thus, in a few minutes you can transform an unwanted article into draperies of the type modern decorators most often suggest for bedroom window treatment.

"NOT LATER THAN JUNE 1st of the beginning year of each succeeding ten (10) year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session full-time student enrollment for the preceding five (5) year period of time, shall re-allocate, to the above designated institutions of higher learning then in existence, all funds to be derived from said Five (5c) Cent ad valorem tax for said ten (10) year period; and all such designated institutions of higher learning which participate in the allocation or re-allocation of such funds shall not thereafter receive any other state funds for the acquiring or constructing of buildings or other permanent improvements for which said Five (5c) Cents ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the loss so incurred may be made by the Legislature out of other state funds. This amendment shall be self-enacting. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasurer in order to carry out the purpose of this amendment; and the State Treasurer shall pay warrants so issued out of the special

fund hereby created for said purpose."

"SECTION 18. For the purpose of constructing, equipping or acquiring buildings or other permanent improvements, the Board of Directors of the Agricultural and Mechanical College of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Five Million (\$5,000,000.00) Dollars, and the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of Ten Million (\$10,000,000.00) Dollars. Any bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund Bonds or notes so issued shall mature serially or otherwise not more than twenty (20) years from their respective dates, and in no event later than twenty-five (25) years after the date of the adoption of this amendment. This amendment shall be self-enacting.

"SAID BOARDS ARE severally authorized to pledge the whole or any part of the respective interests of the Agricultural and Mechanical College of Texas and of The University of Texas in the income from the Permanent University Fund, as such interests are now appropriated by Chapter 42 of the Acts of the Regular Session of the 42nd Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"ALL BONDS OR NOTES issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable."

SEC. 2. The foregoing Constitution Amendment shall be submitted to a vote of the qualified electors of this state at a special election to be held throughout the state on the fourth Saturday in August, A. D. 1947, at which election all ballots shall have printed thereon:

"FOR THE AMENDMENT to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning, in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

"Against the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning, in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas."

From where I sit... by Joe Martin

Want to Run a "Collective" Farm?

Was reading the other day about the "collective" farms they have in certain countries. It seems the folks who run them have plenty of help... good hours... and the best equipment.

Sounds pretty nice—till you learn that the "farmer" doesn't own his land, or even farm it, in our sense. He takes orders from the state; produces whatever they want him to produce, at prices they set. Even his off-hours are spent according to state regulations.

No, that would never go here.

We're willing to work hard, like to farm the land our own put our own value on the and relax as we like—if only a temperate, companionable of beer.

From where I sit, collective farming may produce results the American way—fresh work and relax as we see what makes this country a place to live. So let's not change.

News In World of Religion

By W. W. Reid

Day in making the treaty for Germany means that the German mission now cut off their sources and the resumption of work overseas by German boards, will be furnished, according to Sec. S. Albright of the Inter-Denominational Council. These churches and their work in Asia are being generated on and supported from missionary funds, the I. M. C. "German are literally at stake," Albright. "They are vital some spiritual life in the churches, and sound life is essential to a democratic Germany."

present generation of men by this gospel of Christ world's needs," says Dr. Quimby, of the Methodist of Missions. "You and so it. It cannot wait for men and their children. It is a matter of life and death to men in churches, in government, in schools, in farms—to each one of men and women living together who form the body of Christ—must put redemptive healing and influences to work on a world where there will be no to. Otherwise the sheer worldwide despair and and cross-purposes will civilization into the nihilism and conflict. The mission and action is that

Borough, the youngest of Greater New York's governmental units, is generated as the "new city of taking the place of vacated some decades ago, another borough according to Executive William C. Bennett, of the Federation of Churches—actually a "borough of Christians."

With Heartfelt Thanks

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake; (2) For his children's sake; (3) For the sake of his community and nation; (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

His Master's Return! Most of us know the joy in this pup's heart. Months have passed since war's end, and with our boys and girls back home, life has taken on a new meaning.

It doesn't take a war to make us appreciate our loved ones. But today, more than ever, we yearn to express our thankfulness.

For the return of those who are unscathed, we shall be eternally grateful. For the wounded, the handicapped, we are preparing a place in industry and society worthy of their sacrifice. And for those who did not return, our hearts will always treasure the sacred memory of the young lives and noble hopes they laid upon the altar of Freedom.

There is a way each of us can show his appreciation most effectively. Our churches are the world's hope for peace! In worship we can express our heartfelt thanks to God; by living the truths our churches teach, we can build the spiritual foundation for lasting peace.
