**CLASS
TUESDAY**

Junior class play at the school, always looking as an outstanding production, will be produced by the Wheeler gymnasium on Tuesday night, April 22. The play is a bombastic and mysterious tale of entertainment between a girl and a boy. Admission will be 25c and 50c for adults. Includes: Bridget Mulcahy, Yvonne Clark, Miss Marilla Dalquist, Miss Georgia R. Kiddy, Miss Ida P. LaVerne, Miss LaVerne Watts, and the ghost man, in whose tongue, James Mc-

At 7:30 there will be a play by Walter Johnson and his troupe from Hedley. The play is "The Play" and it will be on at 8 o'clock. Then there will be a play between acts.

Ignorance of Times Staff Causes Women Seek Strange Cloth

Through ignorance of the part of the Wheeler Times editor it was incorrectly stated in last week's advertisement of the Russ Variety that the popular store had on hand a good supply of "Quadrangle cloth."

The advertisement should have stated that Mr. Russ had "QUADRIGA cloth," in all colors.

The Times apologizes for this mistake and hopes that Mr. Russ won't have any more women wondering what kind of material "quadrangle" cloth is. And we might say for the benefit of the women who have been trying to locate "Quadrangle Cloth" that it and when it is placed on the market, Mr. Russ will have it in stock! At the present time there simply "ain't any such animal."

IMPORTANCE OF SAFE FOOD IS RITTER'S TOPIC

(EDITOR'S NOTE—This is the second of a series of articles on "safe food" prepared by W. E. Ritter, Wheeler County Sanitarian. Readers of the Times will find the articles instructive and educational.)

The most common type of food poisoning affecting the general public today is due to harmful bacteria in our foods. The induction of these harmful bacteria which cause food infections and food intoxications may occur in many ways. One of the most dangerous types of food intoxication, but one we, fortunately, seldom hear of today, is called "botulism."

Botulism was formerly known as sausage poisoning because it had largely been associated with meat products. However, during the days of canning industry, a great deal of trouble was experienced due to improper processing. The Canners' Institute did a tremendous amount of work and research to overcome these operations conducive to food spoilage, and today as a result of this work our commercially canned foods may be accepted by the public with confidence. Any canned goods, however, which are sealed by hand or processed under questionable supervision should be regarded with suspicion.

Home canned foods have been responsible for botulism more often than commercial products, and foods which show evidence of spoilage should not be consumed by man or animal. If the food has a mushy, soft appearance and gives off a bad odor or gas or shows any acid formation, it should be destroyed. Do not make the mistake that one lady made. She opened a jar of home-canned corn, tasted it, and found it spoiled, and threw the rest out into the yard to be devoured by the chickens. Ten chickens died the same day, and five chickens died the next day, all having symptoms of what is commonly called "limber neck." Within 30 hours after having tasted the corn this lady became violently ill and died within seven days.

Foods which have been allowed to stand for some time after cooking, particularly if they are not cooled and kept properly refrigerated, are likely to cause food infections. Such foods should be re-cooked thoroughly before eaten, especially canned and fresh vegetables.

Briefly I want to bring to your attention some of the more common methods by which bacteria enter our foods, and although many of them may be harmless, the chances are those causing illness may also enter at the same time. Unless all vegetables are scrubbed separately, bits of filth (Continued on Page 7)

Briscoe Piano Class Will Present Concert

Mrs. Lee Barry will present her Briscoe piano pupils in a recital at the high school auditorium in Briscoe Friday night, April 25. The public is invited to the program when the following pupils will be presented: Carol Gene Wilhelm, Monett Treadwell, Patsy Tipps, Nancy Walker, June Ann Zybach, Martha Lou Barnett, Sylvia Sonntag, Buddy Wilson, Jeanette Dixon and Patsy Waters.

TOWN GROWTH IS DISCUSSED BY DR. MERRITT

There has been more growth in Wheeler's population and the addition of many more residential and business units during the past years than the average citizen imagines.

Dr. C. C. Merritt gave a summary of the town's growth at the semi-monthly luncheon of the Wheeler Chamber of Commerce Tuesday.

He listed the following facts:

- 20 new dwellings have been erected and foundations laid for two more.
- 37 residences have been remodeled.
- 24 residences have been moved to Wheeler without being remodeled.
- 17 residences have been moved to town and remodeled.
- 7 new business structures have been erected.
- There are eight new business and professional firms that have located here.
- One church building has been completely remodeled.
- A new locker plant has been installed.
- A new food locker system added by a grocery store.
- Two filling stations have been opened for business.
- A large modern dairy barn has been built.
- At least 6 or 8 new dwellings are at the planning stage.

(EDITORS NOTE—And we might add The Wheeler Times has doubled its floor space, added an office supply department and installed a larger newspaper press.)

Dr. Merritt personally conducted survey opened the eyes of many business men present at the chamber of commerce luncheon.

Dr. H. E. Nicholson, chairman of the Wheeler Red Cross chapter, and Harry Wofford, home service chairman, told the group of their trip to Higgins and the tornado-swept area. They said they carried a \$400 check from the Wheeler chapter's home service funds to Higgins Thursday morning after the tornado had struck the night before.

Persons wishing to contribute to the cancer campaign now under way in Wheeler county are asked to mail their checks to Allen Kavanaugh at Wheeler, Jack Miller at Mobettie, or Harris Zeigler or B. F. Risinger at Shamrock.

Contributions may be mailed to Kavanaugh, Miller or Zeigler who are chairmen in their respective communities, Risinger who is county treasurer of the fund, or money may be deposited in any Wheeler county bank to the credit of the Wheeler County Cancer Society.

No personal solicitation will be made. Sixty per cent of the funds raised locally will be used in establishing a cancer clinic in Texas and the remainder will be sent to the American Cancer Society to be used in education and research work to combat the disease that takes an American life every three minutes.

Cancer can be cured. That is the conclusion of the American Cancer Society providing enough funds can be secured to carry on its present extensive fight against the disease. The spare work done by the national cancer organization in the past ten years shows eminently promising results because with an amount in excess of \$10,000,000 given by the people of America in the 1946 campaign the many local units of the cancer society have funds which they are using to help provide better facilities for treatment of cancer for

(Continued on Last Page)

COUNTY MAN'S MOTHER DIES

Funeral services were conducted from the First Methodist Church in Childress at 2 o'clock Monday afternoon for Mrs. Mary Frances Bell, mother of Gideon Bell, pioneer resident of Wheeler County.

Mrs. Bell, 95 years old, passed away in Childress at 8:30 o'clock Friday night, in the house in which she had made her home for the past 47 years.

The pioneer resident of Childress County was the grandmother of Mrs. Milt Williams, Mrs. C. C. Collinsworth and Glynn Bell, all local residents.

Besides Mr. Bell of Shamrock, survivors include four other sons, A. T. Bell of Chillicothe, Rev. C. F. Bell of Hillsboro, Walter Bell of Los Angeles, Calif., and Wesley Bell of Seattle, Washington. The latter was the only one unable to attend the funeral services.

Among other survivors are 20 grandchildren, 37 great-grandchildren and six great-great-grandchildren.

4 Wheeler Men Searching For Dollar-Tailed Fish

The Possum Kingdom rodeo—with \$35,000 in prizes riding on the tails of 400 tagged crappie and bass—will officially opened down Mineral Wells way Tuesday when the 400 officials don't keep a close eye on a group of Wheeler fishermen who are sojourning in those parts.

Six Wheeler men are known to have planned to enter the competition but two of them, Amos May and Bob Rodgers, returned the first of the week on account of the rainy weather encountered.

The group went down to Possum Kingdom last Saturday and at least four of them were fishing when they had never fished before in the hopes they could entice one of the prize fish on the day of the rodeo.

No. 13 remained top fish as the opening hour neared. It's possible that this fish will be worth \$1,000.

Wheeler Red Cross Reports Donations

The Wheeler Red Cross Chapter this week reported receipt of the following contributions: Mrs. S. P. Britt \$25, White Auto Stores \$10, E. J. Cooper \$5, and W. B. Wilman \$5. The latter contribution was earmarked for the Higgins tornado fund and the others will go into the Wheeler Chapter home service fund to help replenish \$400 taken from that fund to provide emergency relief to storm victims of the Higgins area.

FUNDS NEEDED IN COUNTY TO FIGHT CANCER

Persons wishing to contribute to the cancer campaign now under way in Wheeler county are asked to mail their checks to Allen Kavanaugh at Wheeler, Jack Miller at Mobettie, or Harris Zeigler or B. F. Risinger at Shamrock.

Contributions may be mailed to Kavanaugh, Miller or Zeigler who are chairmen in their respective communities, Risinger who is county treasurer of the fund, or money may be deposited in any Wheeler county bank to the credit of the Wheeler County Cancer Society.

No personal solicitation will be made. Sixty per cent of the funds raised locally will be used in establishing a cancer clinic in Texas and the remainder will be sent to the American Cancer Society to be used in education and research work to combat the disease that takes an American life every three minutes.

Cancer can be cured. That is the conclusion of the American Cancer Society providing enough funds can be secured to carry on its present extensive fight against the disease. The spare work done by the national cancer organization in the past ten years shows eminently promising results because with an amount in excess of \$10,000,000 given by the people of America in the 1946 campaign the many local units of the cancer society have funds which they are using to help provide better facilities for treatment of cancer for

(Continued on Last Page)

BAPTISTS HAVE BUILDING PLAN

A quiet campaign is under way among the members of the Wheeler Baptist church to raise \$15,000 to build an auditorium to hold church services.

The church plans to start construction plans as soon as \$10,000 of this sum has been raised, and it is understood that between \$8,000 and \$9,000 has been paid and promised.

The men of the Wheeler Baptist church held a fish supper on April 3 at which time the campaign was actively put in motion to build the auditorium. Those present pledged \$3,500 to be paid within 60 days. This sum together with a building fund which has been created over a period of time brings the total promised to past the \$8,000 mark.

The tentative plan, according to Rev. P. D. Fullington, pastor, is to spend the building fund in erecting an auditorium on the present site by improving and enlarging the present structure.

EARLY JUDGE THIS COUNTY DIES IN OKLA.

J. B. Harrison, judge of Wheeler County back in the '80's, died Saturday morning at his home in Oklahoma City. He was 86 years old.

Mr. Harrison was formerly chief of the Oklahoma Supreme Court and members of that group served as honorary pall bearers when services were held at 2 p. m. Monday in the Street and Draper Chapel. Rev. William H. Alexander officiated at the last rites and burial was in Memorial Park cemetery.

Mr. Harrison was one of the first judges of Wheeler County serving sometime between the year the county government was set up in 1879 and 1892 when he settled in Cheyenne and served as county attorney of Roger Mills county.

He moved to Oklahoma City in 1911 at the time of his first appointment to the supreme court commission.

His election to the state supreme court came first in 1918. He served three terms in all, and prior to ascending the bench, he served for a time as state attorney general.

In later years he practiced law in Oklahoma City.

Survivors include the widow of 133 NE 14, Oklahoma City; three daughters, Mrs. Stanley Paine of New York City; Mrs. A. O. Workman and Miss Vroy Harrison, both of Oklahoma City; and two sons, L. D. Harrison, St. Louis and J. B. Harrison, Oklahoma City.

TERMINAL PAY ADVICE GIVEN

Harris B. Zeigler, Wheeler County Service Officer, stated this week that terminal leave disbursing officers are unable to process and pay thousands of claims for payment for unused leave due to the failure of claimants to supply correct information.

In urging veterans to fill out correctly and completely their claims for terminal leave pay, Zeigler pointed out that the errors fall into the following categories: Claim not signed; claim not notarized; claim does not indicate in block II amount of time AWOL, AOL, or in confinement; claim does not indicate in block 13 amount of leave taken; incorrect service number shown on claim; lack of supporting documents such as honorable discharge certificate and notice of separation for Naval service; forms submitted do not show date reported for active duty. Form show date enlisted but not necessarily the active duty date. Active duty date should be shown on claim itself when not on forms.

Zeigler stated that approximately 100 bonds and checks are returned to the Terminal Leave Disbursing Office each day by the Post Office Department as being undeliverable. There is now a backlog of 2,000 bonds and checks which cannot be delivered due to lack of correct addresses. Also, approximately 700 honorable discharge certificates and notices of separation from Naval service which were mailed to claimants have been returned by the post office department as undeliverable to lack of correct address.

Veterans should notify the Terminal Leave Disbursing Office immediately when they change their addresses. The Terminal Leave Disbursing Office is holding 1,100 claims which bear no address.

All veterans who submitted their claims prior to March 1, and who have not yet received bonds and checks in payment should immediately communicate with the Terminal Leave Disbursing Office, Zeigler said. All communications should indicate service number, as claims are filed by service number and cannot be located any other way.

Mr. and Mrs. Donald Carman, who were home visiting during the Easter holidays from Hardin College at Wichita Falls, were Easter Sunday dinner guests of Mr. and Mrs. E. F. Armstrong and son, Weldon, who was home for the holidays from Oklahoma University.

James Burgess of Pampa was a visitor in Wheeler Monday.

Election Is Called On Sale Whiskey, Wine And Beer This County

A special election has been called for Saturday, May 10, when voters will go to the polls to decide whether the sale of beer, wine and whiskey shall be legalized in Wheeler county.

The County Commissioners court ordered the election Monday when a petition carrying the names of 269 persons was presented, asking that an election be called on the sale of all alcoholic beverages.

The law requires that such an election be called when a petition is presented the court carrying the signatures of at least 10 per cent of the number of electors who voted in the governor's race in the last presidential election. It is understood the petition presented Monday carried 269 signers, which is the minimum number required by law.

The names are being checked by two Shamrock ministers to determine if all signers are qualified voters. If one or more are found not to be qualified, there is a possibility the May 10 election may be called off in which case it is expected that persons sponsoring the election will circulate additional petitions until the required number of signers is secured. In that event, the Commissioners Court would set the election date for a later date.

W. H. Hiron and Wesley Sims of Shamrock were instrumental in having the election called. Hiron made application for the petition calling the election and Sims presented the signed petitions to the county clerk's office.

Wheeler county ministers indicated Wednesday they would vigorously oppose the voting of alcoholic beverages.

PUBLIC RUSHES AID TO VICTIMS IN STORM AREA

Wheeler county residents opened their hearts to their weary, saddened neighbors of the Higgins tornado area. News of the disaster which claimed the lives of 42 and ravaged the entire Higgins area had hardly reached here when county residents got busy aiding the unfortunates.

Dr. H. E. Nicholson, chairman of the Wheeler Red Cross chapter embracing the north half of the county, and Harry Wofford, home service Red Cross chairman, rushed to the scene with local relief funds while scores of citizens volunteered food and clothing to relieve the suffering.

A truckload of food and clothing was sent to the tornado area Thursday while Friday a large crew of Wheeler county residents went to the scene and went to work helping clear the debris. The response was spontaneous, everybody wanted to help.

The Wheeler Red Cross Chapter alone contributed \$400 in cash for emergency relief.

The Higgins death list stood at 42 yesterday and was expected to grow—some of the injured are in critical condition.

At Woodward, where 84 were killed in the tornado, funerals were scheduled for the remainder of the week. Forty-two were buried in services held during the weekend.

With the exception of shelter, nearly every need in the Higgins area has been met. The Red Cross in Amarillo dispatched boots, galoshes and other all-weather footwear to Higgins, where survivors are moving around in ankle-deep slush left by weekend snow and rain storms.

Food, medical supplies and clothing were plentiful.

MObETTIE HIGH SENIORS READY

The Mobettie high school senior class will present its annual play, "The Daffy Dills," a rollicking comedy on Friday night, April 25, at 8:15 o'clock in the Mobettie Gymnasium.

The public of the Mobettie area is assured some good clean fun in this production on which the cast has been working hard. Admission will be 25c for children and 50c for adults.

The story is about a family by name of Dill and a new stepmother who has stepped in, so to speak.

The cast includes: Richard Dill, "Papa", a handsome widower, Charles Waters; Carol Dill, his 17-year-old daughter, Roberta Leonard; Rodney Dill, his 16-year-old son, Richard Hefley; Doris and Dudley Dill, his 13-year-old twins, Marie McCauley and C. E. Trimble.

Grandmother Dill, Richard's neurotic mother, Ola Mae Scribner; Cousin Maude Maddow who comes to visit, Helen Trout; Elaine Escott, "Papa's" bride, Mary Alice Ackley; Almee Lovewell, sweet 16 and "thimply cwazy" over Rod, Betty Brewer; Pete Norton, a high school athlete and Carol's heart-throb, (a sophomore) Jimmy Walker; the widow Woggles, a nosy neighbor, Peggy Ware; Arhica Jukes, a negro cook afraid of daffy folks, Claudia Patton.

Church of Christ Is Helping Tornado Area

The Wheeler Church of Christ is cooperating with other churches of Christ in the Panhandle for relief and reconstruction in Higgins and other places affected by the recent wind disaster. This work is under the supervision of the Francis Avenue Church of Christ in Pampa. The Church of Christ here is notifying its members that a special collection will be taken Sunday for this work.

Kelton Methodists Will Open Revival

The Kelton Methodist church will open a revival next Sunday, April 20, with Rev. P. E. Yarborough, conference evangelist of Methodist church, as helper, according to announcement this week by Rev. O. C. Evans, pastor of the Shamrock circuit.

The public is cordially invited to attend the Kelton meeting.

Mrs. Roy Bailey was a visitor in Pampa Monday.

County Singers To Meet Here Sunday

The Wheeler County Singing convention meets at the Wheeler Methodist church next Sunday afternoon and the public is extended a cordial invitation to come out and enjoy some good singing.

President Hester Dodson said indications are there will be several good singers, duets and special numbers on the program, including some out-of-town singers.

THURSDAY, APRIL 17, 1947

LIFE IS A MEMORABLE

A good many people become
somewhat disgruntled at times with
the ways things go in a democra-
tic country like ours, and they
complain of many conditions they
maintain are unfair and trouble-
some. They feel that the people
deserve many more conditions,
and that it is very difficult to

Typographical Errors Cause
Of Nation's Greatest Griefs

The nation roared when Mrs. Roosevelt's syndicated
column carried the line:

"After supper with the men, we went back to dress."
Ever since the invention of the printing press, typographi-
cal errors and printer statements susceptible of different in-
terpretations have been the cause of universal merriment,
to say nothing of a great amount of personal distress.

A compilation of ludicrous typo-
graphic errors and embarrassing
printer statements is contained in
an article by Morton Bentheimer in
the April issue of Good House-
keeping magazine. A lot of the more
striking ones, culled from the press
of the country, follow:

"Only one of the old die will be
missing—pretty Wendell Barlow
of Dallas. He was disappeared in
the New York re-districting."

"The members of St. John Epis-
talian Church met with the pastor
last night and had a lovely meeting;
reports were good amount \$7.88."

"Dear stockings assigned to
dress wear but a serviceable pair
of women wear nothing else."

"Attractive coat—Everything
burnished, Venetian bond."
"Drops on freshly down
case."

many cases to get attention and
wrong corrected.

A democratic country is good
at correcting great evils, but it
is often slow and tardy about re-
moving the less serious defects.
People grumble and complain
about things that trouble them,
but in the majority of cases it ap-
pears to be so difficult to change
these conditions that they just
live with them and do not
become active about them.

In a country where democratic
institutions have been established,
it may be possible to correct some-
times less effectively. It was said,
for instance, of the Soviet gov-
ernment of Italy before World
War II that it corrected many
evils in Italian life. That was
good as far as it went, but the
people seem to have perfect and
small compared with the terrible
through they were the govern-
ment of Italy got the country
into a World War.

So in the United States when
conditions appear grossly wrong,
the people are slow to become
active and do something unless
driven about it. Their actions
may be right or they may be wrong,
but at least it is a sign that they

"She had just evidenced a
bit of common sense."

"The station was not that."

"He has not seen yet to be
looking at the coast."

"Congress' grossly high cost of
living."

"The piece was good by his
no-noise on."

"The rain seemed with the force
of water from a fire hose."

"I was then able to the masses
advised on."

"Then here too the local min-
ister who received an order
over the telephone ordering a tri-
ple to a lunch break."

"It was a bit red 'Dad in Peace'
on both sides," the customer di-
rected.

"I was that just what he got
When the ribbon was delivered it
read."

"Yes, it goes on both sides."

people will act if they become too
dissatisfied.

What is needed is a more per-
fect working of democracy,
greater interest by the people in
the ordinary affairs of state and
nation, and a more determined
effort to see that justice is done
and that all elements get their
treatment.

LEGAL NOTICE

COMMISSION BY PUBLICATION

THE STATE OF TEXAS,
COUNTY OF POTTER,
I, E. E. Perry, John T. Har-
lan, H. C. Lawson, L. Bon-
hart, Darius Butler, A. W.
Bullock, C. Low, Walter T. W.
Dane, J. E. F. Berry, C. E.
Keller, Simon P. Allen, W. A.
Bills, Frank Dumas, Jesse W.
Hobbs and the rest, their heirs
and legal representatives, of the
above named persons, defend-
ants, GUARANTEE.

You are hereby commanded to
appear before the Honorable J. H.
Bullock, County Clerk of Potter
County at the Court House thereof,
at Amarillo, Texas at or before 10

o'clock A. M. of the first Monday
next after the expiration of forty-
two days from the date of the
issuance of this citation, to be
the 11th day of May, A. D.
1947, then and there to answer
Plaintiff's Petition filed in said
Court on the 26th day of March,
A. D. 1947, in the cause number-
ed 2-229-46 in the office of said
court and styled Debra Carroll
and Mildred Lee Carroll, Plai-
ntiffs, vs. E. E. Perry et al, being
all the persons first named and
referred to in this writ and to
whom it is directed, defendants.

A brief statement of the nature
of this suit is as follows, to-wit:
Plaintiff alleges that they are
the owners of the South One-half
of Section 34 in Block 24, E & G
Sts., in Wheeler County, Texas,
which claim title and possession by
a regular chain of conveyances
show filed in records, also by
virtue of their fee and to years
limitations, that defendants are
claiming of record some in-
terest in said tract of land by
virtue of some claim deeds, un-
released liens and affidavits
thereby making to title and
plaintiffs ask judgment removing
any and all claims from their
title and cancelling all claims of
the defendants as a more fully
shown by Plaintiff's Petition on
file in this suit.

The after serving the pro-

ceedings shall promptly execute the
same according to law, and make
due return as the law directs. If
this citation is not served within
ten days after the date of its
issuance, it shall be returned un-
served.

Issued and given under my
hand and the Seal of said Court,
in office at Amarillo, Texas, this
26th day of March, A. D. 1947.

W. H. SMITH, Clerk, 47th Dis-
trict Court, Potter County, Tex-
as.

By ELEANOR BLOHM, Deputy
Clerk.

Work War II compensation
and pension cases, account for
75 per cent of the work done
by the Veterans Administration.

Its annual settlements under
National Service Life Insurance
amount to \$100 million, more than
any other insurance company.

Veterans are re-evaluating unpaid
National Service Life Insurance at
a faster rate now than at any

Mrs. Lester Levitt

(Written for Last Week)
Dudley McMillian and family of Oklahoma City, Chic Cox and family of Amarillo and Mr. and Mrs. Donald McMillian of Pantex visited in the J. R. Hall, Claude McMillian and H. R. Warren homes over the weekend.

Mr. and Mrs. R. C. Pugh, Jr. of Pantex spent the Easter holidays here in the Ralph Pugh home.

Mr. and Mrs. Lester Levitt spent Wednesday of last week at Wheeler where Mrs. Levitt's sister, Mrs. Leslie Waters of Mobeetie, underwent a major operation at the Wheeler hospital.

Mrs. Dub Matthews and infant son returned to their home here Monday from the Wheeler hospital. Both mother and baby are doing fine.

Boyd Huff, Clifton Taylor and David Grayson who are attending college at Canyon, Bobby Joe, Erskin and Ode Grayson, who are employed at Dumas, Lewis Wayne Grayson, Francis Huff, who is attending college at Denton and Patsy Huff, who is attending high school at Canadian, spent the weekend here with their parents.

Mrs. J. H. England and son of Erick, Okla., Sterlin Parrish and family of Shamrock and J. E. McKatherine and family were dinner guests Sunday in the M. Ball home.

Ernest Wallace and family motored to Sentinel, Oklahoma, and spent the weekend with his parents.

Ray Brown and family were called to Waxahachie, Texas Saturday due to the serious illness of

his grandfather Knowles. They returned home Sunday afternoon and were accompanied by his mother, Mrs. Will Brown, who will spend this week in Allison before returning to her home in Calif.

Mr. and Mrs. Vernon Hall and children spent Easter in Cordell, Okla. with her parents.

Ben Parks and family of Shamrock spent Easter Sunday here in the Bob Taylor home.

Jack Baxter and family have returned home after having spent several months with her parents near Ft. Worth.

Exra Foster and family and Loyd Penrod and family of Berger visited in the O. S. Melson home over the weekend.

Tom Trosper and family of Dumas visited in the J. C. Spruill home over the weekend.

Mr. and Mrs. Rayburn Hall and two daughters spent Sunday at Rocky, Okla. with relatives.

Carl Levitt and family spent Sunday in Wheeler in the Tom Bradstreet home.

Those visiting in the L. S. Aderholt home Sunday were: Jack Hayes and family, Jerald Aderholt and family of Briscoe, Ray Aderholt and family of Texola, Jess Williams and family, Mr. and Mrs. Herman Topper of Wheeler and Bill Allen and family of Berger.

Ira Fish and family were dinner guests Sunday in the Willie Boydston home.

A group of children enjoyed an egg hunt Sunday afternoon at the Methodist Church grounds. A Easter program was given Sunday night at the Methodist Church.

The community party sponsored by the Home Culture Club held at the school house Friday night was well attended and everyone reported a good time.

Loyd Jones and family, Mr. and

Mrs. Walt Holbrook and Glen Markham and family spent Sunday at Cheyenne in the Aeron Eddings home.

Mr. and Mrs. David Dukes, who have been living at Ft. Worth, have moved here with their son, Joe Dukes and small son to make their home.

Mrs. Tony Wheeler and children and Mrs. Carl Snyder of Canadian spent Sunday here in the Dick Dickerson home.

Bill Begert and family spent Sunday in Wellington with relatives.

Jess Bessire and family attended the funeral of Mrs. Bessire's father at Reydon, Okla. Tuesday.

Allison School News

(Written for Last Week)
Everyone reported they had a happy Easter.

Myrt where did you and Chink go for your evening walk yesterday?

Katy, did you catch a handsome boyfriend at Fort Worth?

Reta, what was the matter with Clifton Saturday night? Didn't he have enough money to take you to the show?

WONDER WHY

Janell had so much strength Sunday?

Bessie Jo was sad (for awhile) Saturday night?

Peggy carries a certain picture in her speller?

Shirley Jo wore her levis today?

Parilee is so happy today?

Robbie and Johnny have gone to church so much recently?

Armenda, Janell, Parilee and Reta were honking at a red pickup Saturday night?

Billy Ray went squirrel hunting at Reydon Sunday? Was it squirrel hunting or girl hunting?

Laura Mae had on such a pretty dress today?

Beulah thinks too much of a certain boy?

Virginia can't eat?

AROUND THE CAMPUS

Why are all the boys wearing red and blue caps? And the girls just can't seem to find time to fix their hair.

Parilee where did you get that billfold?

Johnnie you sure are romantic lately.

Evelyn sure has on a pretty dress today.

Helen, your hair sure looks nice. Charlene got four letters today. Pete got some new sandals.

Mrs. Begert, why do you give us such hard history tests?

Virginia, you didn't eat supper at Taylors Sunday night did you?

Ray and Evelyn, how do you like those dates you have been having together?

Bill, where did you get that hat?

Jonell, that sure was a pretty birthday present you got.

Lynn and Gerald sure have a good time in class with all those girls.

Myrtis, you had better quit telling off on yourself in your sleep. Mrs. Levitt, the sophomores just can't learn how to work Algebra.

Everyone had a good time at the party Friday night.

Yes, we girls agree that Hugh J. of Mobeetie is very cute.

Lou Anna seems to always wave at the volley ball when playing volley ball.

Over 6,000 veterans declared eligible for hospitalization by Veterans Administration during February were emergency cases.

Veterans Administration disposed of nearly 73,000 applications for hospitalization or domiciliary care during February.

NEXT TIME YOU'RE IN TOWN!

Come in and get the accessories you need for safe, convenient operation—filter elements, grease gun, chains... everything to keep your farm equipment running smoothly.

Don't wait until you have to make an extra trip for these things. Play safe by getting them next time you're in town.

SOCIETY

Good Neighbors Club In Regular Meeting

The Good Neighbors Club met in the home of Mrs. Bill Finsterwald, April 10, for a regular business meeting.

Refreshments were served to Mesdames Bob Ramsey, O. H. Upchurch, Ralph Oldham, Weaver Barnett, Herbert Finsterwald, Cash Walker, Milton Finsterwald, Albert Newman, Vernon Sivace and the hostess, Bill Finsterwald.

All members are urged to be present at the next meeting in the home of Mrs. Bud McCarrroll, April 24, when Mrs. Hastings will be present for a demonstration.

China Flat H. Demo Club Enjoys Meeting

The China Flat Home Demonstration Club met Wednesday, April 9, in the home of Mrs. A. B. Simms. Mrs. Elma Hastings gave a demonstration on the making of foundation patterns, after which the club members gave a miscellaneous shower for Mrs. C. E. Westbrook, whose home was destroyed by fire three weeks ago. Guests present were Mrs. C. E. Westbrook and Miss Mildred Westbrook.

Members present were: Mesdames H. I. Williams, T. H. Morgan, Grover Copeland, J. A. Humphrey, Delbert Smith, Miliss Sullivan, F. E. Sheegee, Marvin Davis, Guy Valentine, W. L. Morrison, E. A. Turnbow, C. D. Evans, Fred Tugwell, Loyd Evans, Bert Boland, J. F. Hall, Roy Burcham, Knox Walraven and the hostess, Mrs. A. B. Simms. The next meeting will be April 23 with Mrs. C. D. Evans.

Mrs. Kirkpatrick Is Bridal Shower Honoree

Mrs. Weldon Kirkpatrick, the former Voncille George, was honored with a bridal shower in the home of Mrs. Roy Meadows, Monday, April 7. Mrs. Edward Meek was assistant hostess.

Those present and sending gifts were: Mesdames John Francis, Forrest Vise, Carnes Meek, Claudie Brotherton, T. G. Fillingim, Allen Meadows, William Fillingim, Joe Hefley, Joe Dodd, G. A. Resmex, LaFoy Vise, Jack Riley, Doc Wilhelm, Harry Fields, Sr., Harry Fields, Jr., Maude Grant, Loyd Hefley, T. E. Wyant, Glenn George, Murry Vise, Leon Fillingim, Tom Riley, Elmer Simpson, Clyde Meek, Claude Barker, C. V.

McCraw, Ray Welch, Cecil Meadows, Edward Meek, and Roy Meadows.

Misses Lola Meek, Charlene George, Sue Meek, Violet, Estell and Mozell Fillingim.

Mildred Watts Marries Amos Isaacs Of Dumas

Mr. and Mrs. J. H. Watts, of this city announce the marriage of their daughter, Mildred Laverne, Dumas, to Amos Isaacs, Dumas. Rev. Blaine pastor, read the single ring service at the Baptist Church in Muloshoe, Friday evening, April 8, at 8 o'clock. They were attended by Bert Kennedy, formerly of Wheeler.

Mrs. Isaac was graduated from Wheeler High School and attended Hill's Business College, Amarillo. For the last three years she has been employed at the Cactus Ordinance Works at Dumas.

Mr. Isaac served two and a half years overseas with General Patton's Army in France and Germany. He is employed at the Cactus Ordinance Works, Dumas. After a short wedding trip to Ruidoso, N. M., the couple are making their home in Dumas.

Pampa Couple Marry Church of Christ Mon.

In an impressive single ring ceremony, Miss Lulia Fleming, daughter of Mrs. J. H. Fleming of Pampa, became the bride of Paul A. Porter, son of Mrs. Sara J. Porter of Pampa, at the Wheeler Church of Christ April 14 with B. M. Litton, minister, officiating. They were attended by Miss Joyce Bowman of Wheeler. For her wedding, the bride wore a street length dress of light blue crepe with accessories of brown and a corsage of white carnations.

Mr. and Mrs. Porter received their education in the Pampa schools. They will continue to make their home in Pampa.

Mrs. Glen Porter Is Hostess To Study Club

Mrs. Glen Porter was hostess to members of the Wednesday Study Club at her home near Wheeler, April 9, for a regular business meeting and a quiz program led by Mrs. C. J. Meek, with Mrs. R. D. Holt and Mrs. Frank Wofford as assistants.

Special entertainment for the afternoon was the singing of sev-

Backlog for a trousseau is the Pauline Beach cloth rayon and wool suit shown above as pictured in the April issue of Good Housekeeping magazine. Available in navy, black, gray, with "pearl" buttons.

eral selections by Misses Billie V. Brown, Frances Porter and Patsy Noah.

Lovely refreshments were served to two guests, Mrs. Harrison Hall and Mrs. Henderson Coffman, and to the following members: Mesdames R. Wm. Brown, J. W. Barr, Lee Guthrie, R. D. Holt, R. J. Holt, D. A. Hunt, Cora Hyatt, C. J. Meek, Jimmie Mitchell, J. M. Porter, H. M. Wiley, W. L. Williams, H. E. Nicholson, Frank Wofford, Max Wiley, Harry Wofford and the hostess, Mrs. Glen Porter.

Wheeler 4-H Clubbers Hold Meeting Tuesday

The Wheeler 4-H Club girls met Tuesday, April 15, with their sponsor, Mrs. Weeks.

Roll call was answered by each telling of the vegetable they had learned to like. Mrs. Weeks gave a short talk on what vegetable should be included on the daily diet. Afterwards games were played and songs were sung after which the meeting adjourned.

Outstanding club girl this week is:

Name—Claudell Cox
Position in club—Reporter
Age—14
Years in 4-H club—4
Color of hair—Brown
Color of eyes—blue grey
Likes—Cowboys
Dislikes—Nosey people
Favorite actress—June Haver
Favorite actor—John Payne
Favorite Song—"Guilty"
Ambition—To live on a ranch.

Dr. and Mrs. Glen R. Walker, Mr. and Mrs. Chester Lewis, Mr. and Mrs. Virgil Jamison and Mr. and Mrs. Vernon Brown attended the American Legion Convention at Childress Saturday and Sunday.

Lewis Craig, son of Mrs. Amy Craig, returned home Wednesday after having been in Japan the past year with the U. S. Army.

From where I sit... by Joe Marsh

A Great Bunch—Those Ex-G.I.'s

The Wells and a bunch of the from our town went to Pound Saturday to a reunion of old regiment. There were about two hundred fifty boys who came from around to a good old feast at Farmer Collins' barn. I expect seemed a lot different to each one of us. They were in great time, spinning yarns, telling beer, and talking over the time in South Africa and Italy in the Aleutians. Next step to cover the meeting for the Clarion, and one thing the sure impressed me was the good behavior of those boys—their preference for a moderate beverage like beer—their friendly spirit. From where I sit, our ex-G.I.'s are making as good a showing in peacetime as they made during the war. And they're setting a mighty good example to the rest of us in tolerance, and moderation, and good fellowship.

Joe Marsh

Cotton Ed... Says

GOOD SEED IS LIKE A GOOD FRIEND—IT GROWS ON YOU

Been thinkin' that my COTTON CROP ain't a'goin' to be no better than the SEED I PLANT. Cindy... (My Woman) declares that a Cotton Farmer that knowin'ly plants a poor seed ought to have to live on A CRACKER A DAY.

She's skiddin' o'course... but it IS somethin' to pause on... plantin' POOR SEED... and... eatin' them crackers. It makes sense... don't it?

Like I done told ya'... seems to be plenty of all farm crops 'ceptin' COTTON and with them new Machine Gadgets for 'Choppin' and 'Pickin' about ready... Cotton is Gonna Be My Crop ready...

Went down to see about gettin' pure planting seed. You know a good seed is like a good friend... it just grows on ya. Shore was surprised in the price. Last year, seed I had for sale, doubled in price... but pure Planting Seed air up only about one-fourth... that ain't bad... makes our seed about as cheap as them crackers of Cindy's.

Say... go visit them Elk Cottonoil boys... they air shore plumb Friendly and Helpful... might pay ya'... That's where I got my good seed.

Sincerely, Cotton Ed.

"Friendly As Cotton"

ELK COTTON OIL CO.
 YOUR PROTECTION THRU THE YEARS

Three-bedroom house, shown above as pictured in the April issue of House Beautiful magazine, is being mass-produced by Henry Kaiser, whose industrial know-how contributed so much to our recent victory. Using partial prefabrication and a standardized floor plan, Kaiser produces dwellings such as these for \$8,650. They are located on a 60 x 100 plot. By varying the exteriors, Kaiser has eliminated the dread "rubber-stamp" look of mass-produced dwellings. Housing experts believe the Kaiser technique marks a brand-new development in the housing field, and may solve our national housing shortage.

FOR SALE—Good Ford tractor and equipment. See R. B. Mann. 17-2tp.

FOR SALE—good 47-barrel redwood storage tank. Also baled prairie hay. Mrs. W. A. Scribner, Mobeetie. 17-2tc.

ADVANTAGES OF TREATING SEED ARE LISTED

COLLEGE STATION—What are the advantages of treating cottonseed?

That's a question that E. A. Miller, Extension agronomist of Texas A. and M. College, believes cotton producers may be asking now.

Miller states that cottonseed treatment can be looked upon as an inexpensive form of crop insurance, which costs only a few cents per bushel of seed, kills disease germs on seed, and protects seed and seedlings from diseases that may be in the soil.

The two worst cotton seedling diseases in Texas are angular leaf spot and soreshin, the agronomist says. In the Blacklands, angular leaf spot ranks next to root rot as the No. 1 hazard in growing cotton. It is found to some extent in nearly all the state.

Angular leaf spot usually shows up first on the seed leaves, and if damp weather prevails after the seedlings break through, the disease may kill many of the plants and injure others, unless the seed is chemically treated before planting. Angular leaf spot can also destroy buds on young cotton plants, and stunt the growth of early fruiting branches. Result: reduced yield, says Miller. The disease also carries through to the older cotton plants, where it appears as angular spots on the leaves and as bacterial rot on the bolls.

Soreshin is the disease that causes brown spots on the plants either below or above the soil surface. While many plants may recover from soreshin, they are often delayed in developing, which again can mean less cotton per acre.

Cotton producers have found

seed treatment prevents much of the trouble resulting from these two diseases, says the agronomist. Furthermore, chemical treatment also helps produce a sturdy, vigorous seedling, which gives producers a chance for earlier and better cultivation.

At the Texas A. and M. College Agricultural Experiment Station at Temple, fuzzy cottonseed treatment with either two per cent or five per cent ceresan, had 25 to 30 per cent better stands than untreated seed. The plants had one-third to one-tenth less angular leaf spot infection and made anywhere from 30 to 130 pounds more lint per acre than non-treated seed. Some of the chemicals used satisfactorily in cottonseed treatment are ceresan, yellow cuprocide, spergon, arasan, cyanamid 154-6-B.

Over long periods, Experiment Station tests have shown that chemically treated seed gives four year average yield increases of 25 per cent at College Station, 15

per cent at Temple, 10 per cent in the Brazos Bottom near College Station and four per cent at Lubbock.

Judging for results like these, says Miller, cottonseed treatment is definitely a part of cotton production. He invites producers to write the Texas A. and M. College Extension Service, College Station, Texas, and ask for USDA Leaflet 198, "Cottonseed Treatment". The leaflet contains full directions for treatment.

It is claimed that the people of some towns are asleep, but they usually wake up three times a day for breakfast, luncheon, and dinner.

Health advisers tell people to stand up straight. At least the hair of many stand up fairly straight at things going on now.

Many girls are seeking business and shop jobs, in spite of the danger that they may get married to someone they meet in those employments.

Moonlight is said to induce some people to sing, which may be safer in some cases than sitting out under the moon and asking some girl to marry them.

Some people, it is said, shut up their mouths like clams. But we never heard of any clam that quarreled with his wife because of indignant remarks.

Air Won't Cool Milk

Yet you must cool it down to 60° or lower quickly... to save yourself losses on spoilage... to keep fresh for drinking or for use in quality dairy products. Here's what to do. COOL MILK IMMEDIATELY after milking and cool it as rapidly as possible.

You'll avoid losses of income if you do and this is why: Milk, when it comes from the cow, has a temperature above 90°. Bacteria multiply rapidly in milk that warm or near that warm. And it is the increase of bacteria—not thunderstorms or anything else—that causes milk to sour.

IT TAKES MORE THAN AIR

Get the body heat out of milk—down to 60°—as quickly as you can. You can't rely on air-cooling. Air with temperature as chilly as 44° circulating around milk cans, won't reduce the milk temperature below 80° in three hours. Tests at state colleges have proved that.

But tests also show that when you put milk cans in running water under 60° you bring the milk temperature down to the 60° level in less than two hours.

VICTOR WET STORAGE MILK COOLERS WILL DO THE JOB.

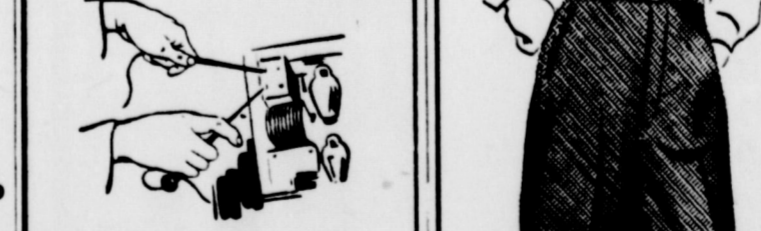

We have VICTOR WET STORAGE MILK COOLERS with deck-mounted General Electric Refrigerating Units in stock for immediate delivery.

As the weather gets warmer and warmer you will need one of these more than ever... come in and talk to us we can arrange CONVENIENT CREDIT TERMS if you desire.

Veterans' News

QUESTIONS AND ANSWERS

Q—I was discharged from the U. S. Army because my mother was dependent on me. Am I eligible to enter a course of education or training?

A—Yes. The fact that you were discharged from the service because of dependency of your mother would not be material if you are otherwise qualified.

Q—What benefits, other than subsistence, is a veteran entitled to while pursuing a course of education under the G. I. Bill?

A—Veterans Administration will pay the veteran's tuition, books, supplies, fees and other authorized expenses within certain limitations.

Q—I have a service connected disability and am to be rehabilitated under the Vocational Rehabilitation Act. Will my compensation payments be increased while I am pursuing a course of vocational rehabilitation?

A—No, your compensation will not be increased but during the time you are being rehabilitated, you will receive your disability compensation plus subsistence allowance to bring you up to \$225 a month if you do not have a dependent. Additional amounts will be added for each dependent or dependents.

Q—I am being rehabilitated under the Vocational Rehabilitation Act (Public Law 38). Am I entitled to a vacation during the summer, and will I continue to receive subsistence allowance during the vacation?

A—Yes. You will be entitled to leave of absence not to exceed 30 days in any consecutive 12 months, and you will receive compensation and subsistence allowance during vacation periods.

Q—The Veterans Administration has reviewed more than a third of its disability compensation cases in Texas, Louisiana and Mississippi in the Congressionally-authorized program to establish more accurate ratings for disabled veterans. VA reported this week:

Of the 207,000 compensation and pension cases in VA's Dallas Branch Area subject to review under the new disability rating schedule approved by the last Congress, VA has reviewed 71,353 cases, slightly more than 35 per cent.

VA said virtually all veterans drawing compensation for service-connected disabilities will have their cases reviewed under the new schedule. Reviews are automatic therefore, VA requests disabled veterans not to make inquiries about their cases, while they are pending.

Although the new schedule provides increased ratings for certain types of disabilities and decreases for other types, it does not make any blanket change in rating. However, the increases far outnumber the decreases.

World War II employees eligible for free automobiles, who intend to apply for them, should file their claims immediately because funds for purchase of the cars will not be available after June 30, 1947.

More Fun Than The Circus!

By WILHELM MARTIN

When spring comes, out the little ones to far away? Not for youngsters who have found some wonderful new circus toys. Why not make a little from the children and make their spring party a Circus should, with "Big Top" refreshments?

For decorating the table with a paper-covered cloth for the occasion, and as a souvenir at each place, use one of the portable circus toys which can be found in a well-known toy store, and use several packages this month. There are two, the "Big Top" and "Circus" and the "Circus" is the best. The "Big Top" is a simple to make and digest, and just the thing for a child's sweet tooth. Serve with Grape-Nuts Ice Cream.

Big Top—1 cup sugar
1/2 cup milk
1/2 cup grape nuts
1/2 cup vanilla
1/2 cup butter or margarine
1/2 cup salt

Place speed-up pellets in bowl, add 1/2 cup milk and mix well. Remaining 1/2 cup milk add to speed-up pellets and mix. Stir until pellets are dissolved. Dissolve sugar and salt in hot water. Add cream and vanilla. Turn into freezing tray of automatic refrigerator, setting control for coldest freezing temperature. When partially frozen, remove from tray and beat with rotary egg beater until fluffy and smooth. Pour in Grape-Nuts. Return to tray and freeze 30 minutes longer. Stir then freeze until firm. Freezing time: 2 to 4 hours. Makes 1 quart.

Green Pastures Are Good For Poultry, Too

COLLEGE STATION — Green pastures for poultry? Yes, says Ted Martin, poultry husbandman of the Texas A and M College Extension Service. While chickens and turkeys are not ordinarily put in a class with grazing animals, explains Martin, tests have shown that when they get the chance, poultry will get as much as 20 per cent of their feed requirement from green feed. Since feed cost generally is produced most economically in the form of a pasture than in any other way, cutting down feed costs is reason enough to provide pasture for poultry. But Martin says there are other advantages to be had from growing green poultry feed.

All poultrymen agree that there is no question about the value of Vitamin A in the feed of all classes of poultry. Martin says, and fresh green feed is probably the most dependable and economical source of Vitamin A. Barley, oats, sorghum grass and similar crops can be grown for year-round grazing in nearly all parts of Texas. These pastures will need mowing often, however, to keep the plants from becoming hard and woody.

There is a precaution to take in grazing poultry, too. Martin explains that too much green feed in the ration of laying hens may cause discolored yolks and watery whites in eggs. But if the birds are started gradually on the green feed, and offered more each day, no harm will result. Martin says poultrymen may begin by turning birds on pasture for 30 minutes to an hour before roosting time, and lengthen the period each day until they stay on pasture all afternoon.

People no longer blow out the gas, but some turn on a good deal of it in their speaking or writing.

IT'S PLANTING TIME

Mermon E. Parsons, Mayville, Mo., who suffered a hearing impairment as a result of his war service, overhauled his corn planter for a busy season. Parsons purchased his farm through the aid of a Veterans Administration approved loan and has been attending a federally sponsored vocational agriculture class.

Veterans Administration processed over 800,000 applications for all types of benefits during February.

National Service Life Insurance provides a type of policy to fit almost every insurance need, Veterans Administration said.

Shamrock Steam Laundry & Dry Cleaners

"The Sanitary-Way Laundry"

Shamrock, Texas

Importance Of
 (Continued from Page One)
 Many bacteria may remain, if they are served only partially cooked or uncooked, they cause severe food poisoning. In some instances vegetables irrigated with sewage or contaminated water, and danger of transmitting infection is minimized. Proper cooking offsets the effect of bacteria when eaten raw in salad. There is no protection unless vegetables are thoroughly washed. It is common knowledge that foods may be contaminated from flies, and food should be stored at night to prevent contamination by rats and should these pests be a

problem about the home or food establishment.
 The public should bear in mind that the quality of food purchased should measure up to standard in order to obtain the very best from a nutritional standpoint, with the least risk of poisoning. Milk is a wonderful food and yet may cause serious illness if it has been mishandled before or after coming into your hands. The safest policy is to use only Grade A pasteurized or raw milk for drinking, whereas lower grades could be used in cooking if the process of cooking is thorough. Occasionally individuals will attempt to sell surplus milk from uninspected sources. The use of such milk is a distant health hazard, and its sale is a violation of the law. One of the worst effects from the use of such milk may be undulant fever, a disease which is virtually incurable,

although it is seldom fatal.
 Caution should be exercised by purchaser in the selection of oysters. The United States Public Health Service and the Texas State Department of Health carry on a cooperative program of shellfish inspection so that safe oysters from sanitary sources can be obtained by the purchasing public. Oysters grown and shucked under this sanitary inspection program are "certified oysters." The can in which these oysters are shipped bear certification numbers so that health authorities can check shipments and by referring to current lists tell from what states and plants the oysters originated. Only oysters packed in cans bearing certification numbers should be purchased. You should be very careful to avoid the purchase of so-called "bootleg" oysters.

Caution should be exercised in the purchase of meats. No meat should be used which has been slaughtered under a shady tree in somebody's backyard or pasture and peddled out in an open truck. A high percentage of all animals are diseased in some portion of their body and only the trained veterinarian is in a position to determine how much of the meat can be used and how much should be discarded. Most of our cities maintain regular trained meat inspectors who certify to the purity of the meat slaughtered within the city limits, and thus a certain standard of safety is maintained in the meat industry. The public should be very cautious about buying sausage meat from peddlers unless they have a permit from the city health department. Using discretion about purchasing food for your family, will pay

dividends in nutrition and resulting good health.
 Fresh, crisp, clean vegetables are not only safest, but the most appetizing.
 Meats, whether choice or utility cuts, should be chosen from known inspected and reliable sources. Milk too, should be purchased only from dependable sources, and this applies to all other dairy products such as cheese, cottage cheese, butter, and so forth.
 After careful selection of such safe foods, it is up to the housewife, the cook or chef, to exert every effort to keep it free from contamination or spoilage.
 In conclusion permit me to emphasize again the fact that food, although an essential of life, may be a very dangerous enemy to mankind if it is not used in such a manner to assure its safety from disease-producing organisms.

How Many Eggs Will They Lay By Sept. 30?

A "Battle of Pullets" is being launched at the Purina Research Farm, Gray Summit, Mo. Chicks, hatched Feb. 29, are being started under identical conditions and feeding. About April 1st, they will be divided into two lots equal in every possible way. For 3 1/2 months one group will be fed Purina growing feeds. The other will be fed straight grain. Then they will all receive the same laying mash. The test is to see the difference in the number of eggs laid before Sept. 30. A nationwide contest based on this difference will be conducted this summer.

Tornado Fund

(Continued From Page 1)
 which it was applied, and as a result with these agencies since their motive is one of mercy. However, I do feel that the money could have been channelled through men of a job for which they have very little time, and no experience in handling.
 Because of the liberality of the citizens of the North part of Wheeler County who make their annual contribution to their local Chapter, the local Chapter had the money on hand, it was given for purposes of the nature to the National American Red Cross, thus eliminating multitudinous organizations and relieving busy suit our funds were depleted. We may not have another occasion to contribute as we did in the Higgins-Glazier case, and we pray that no other people will suffer the hardships that those people have had to endure, but we should keep our local funds at a normal balance. Therefore, we request you people who are contemplating contributing to the relief of the storm stricken people of Higgins and Glazier consider that you have made a contribution, in that you are members of your local Red Cross Chapter, and that you made your contribution to your local Chapter. We acted as your representative in making the contribution and did not request that publicity be given in any newspaper. The people of Higgins and Glazier needed our help and we answered their needs with our mite.
 Jimmie Close, son of Mr. and Mrs. Harvey Close, returned home Wednesday night after having spent the past year in Corra with the U. S. Army.

FARM FACTS
WORTH KNOWING

Q. What causes Coryza, or common cold, among poultry? Can it cause heavy losses?

A. A germ, Hemophilus gallinarum, which gains entrance into the nasal chambers is considered the primary cause of this disease. In the milder form the disease may be unnoticed. In more severe cases, accompanied by sneezing and gasping, there may be numerous deaths, and affected birds may go off feed and gradually "waste away."

Q. How much should a cow produce a year to be a money maker?

A. According to the Program for Dairy Cattle published by the Painesville Purina Company, in general any mature cow which can't give 300 lbs. of butterfat a year will never make much money. Many cows giving less than this, though, could reach this money-making point if fed properly balanced rations in the right amounts. Here is what 300 lbs. of butterfat a year equals in milk:

	lbs. a day	lbs. a year
Jerseys	20	6,000
Guernseys	22	6,500
Ayrshires	25	7,500
Brown Swisses	25	7,500
Mixed Herds	27	8,000
Holsteins	30	9,000

Q. What is the advantage of raising broilers on the floor rather than in batteries?

A. Broilers raised on the floor are of high quality because of:
1. Good feathering
2. Low shrinkage when transported to market.
3. Few breast blisters and deformities.
4. Good fleshing quality.

Q. How can the cattle feeder get the most out of fodder?

A. First use all suitable fodder for feed. After the cattle have used all the fodder they will eat for feed, use the remainder for bedding, and in this way make fertilizer for the fields.

Send your questions about livestock or poultry problems to FARM FACTS, 815 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, at a service of this newspaper.

alright we like to have Biology in the library.

Mrs. Wilkes, you don't know Glenn very well, saying he wouldn't talk.

Coach you shouldn't drive so careless. The Insurance Co. might not like it you know.

Glenn is sporting a new satin football jacket. Hubba Hubba.

Jody, we hear you and Yreva Sue have been having lots of fun after working hours, lately. How about that girls?

Ruby, we wish you the best of luck winning back "The Guy".

Dolores, it shouldn't be long until Carroll has his car fixed. Then you won't have to buy so many pairs of shoes.

Junior Play practice is getting along fine. We would like very much to see as many as possible at the junior play, Tuesday night, April 22, in the High School Gym. We assure everyone that they will have the time of their lives, just watching "You'll Die Laughing".

Lois, what in the world has gotten into you. Everytime anyone teases you about a certain guy from Shamrock your face sure gets red. Is it that serious?

La Verne, we see you have got that old habit of giggling again, and we thought no one but 16 year old girls did that.

Joyce Brown, we see you and Vaneta are having those boxing matches again. Careful girls.

It seems that the English III class has got an awful habit of laughing, well we can't help it if Mrs. Wilkes makes us laugh so much.

James has got such strong arms from lifting milk cans that he could make a wonderful Gary Cooper. He's regular swoon stuff nowadays.

Joyce Bowman where have you been keeping yourself lately? Oh, just around, huh.

Yvonne, do you always have as many troubles as you are having now?

Things are sure getting the best of the imagination, huh. Jody, Anita and Yreva Sue?

A letter that Ralph Waldo Emerson wrote to a young girl away at school:

Finish every day and be done with it. For manners and for wise living it's a vice to remember. You have done what you could; some blunders and absurdities no doubt crept in; forget them as soon as possible. Tomorrow is a new day; you shall begin it well and serenely, and with too high a spirit to be cumbered with your old nonsense. This day for all that is good and fair. It is too dear, with its hopes and invitations, to waste a moment on the rotten yesterdays.

Portrait of a Soul

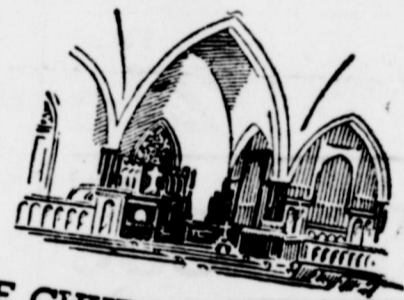

Did you think a soul was invisible? Did you even suspect that it was a theological concept that only ministers could understand?

Well, look into this boy's eyes! Do you see happiness . . . the certainty that life is full of beauty and truth? Do you see hope . . . the assurance that every tomorrow will be better than every today? Do you see courage . . . the fortitude that will look through defeat to victory? Do you see faith . . . the confidence that God hears, and **knows**, and cares, and helps?

You're looking into a soul! You're seeing the spark of Himself which God has put into every one of us. And you're seeing it still unblemished by the cares and disappointments of life.

You can see a soul through your own child's eyes. But unless you give that soul a chance to grow up with the body and mind that possess it . . . soon you'll no longer see it in your child's eyes . . . and perhaps, someday, you'll no longer see it in his life.

The Church, through careful religious education, develops that spiritual inner-being which we call the *soul*. Your child deserves the advantage of the Church's instruction. And, in church worship, you will rediscover the beauty and strength of your own soul.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the Church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to Church on Sunday.

Funds Needed

(Continued from Page One)
the American people—notably cancer detection and treatment clinics.

Today from 30 to 50 per cent of those who developed cancer can be completely cured if they receive treatment for the disease. And, the society points out, we know because of the organization behind the attack and the concern that prevails that some day a cure will be found. Dr. Geo. W. Cox, State Health Officer, is asking each citizen to consider the danger signals and secure medical ad-

vice at the first appearance of any suspicious symptom. There are many causes of cancer; the most common form of which is chronic or prolonged irritation.

One of the questions asked is whether or not cancer is hereditary in human beings. Tendencies to form cancer may possibly be inherited; however, since the method of inheriting such tendencies is obscure, the presence of cancer in one or both parents should be merely a cause of greater alertness in looking for and recognizing symptoms on the part of family members. There is no need of a fatalistic attitude. The fact concerning heredity do not justify them.

At the first warning signs recognized, consult your physician. The early symptoms are any sore that does not heal, particularly about the tongue, mouth or lips; a painless lump or thickening, especially in the breast, lip, or tongue; irregular bleeding or discharge from any natural body opening; progressive change in the size or color of a wart, mole, or birthmark; persistent hoarseness or difficulty in swallowing; and any change in normal bowel habits. See your doctor about any of these signals.

Early recognition of cancer symptoms will lead to early diagnosis and treatment, and in many cases the victim can be entirely cured and live out a normal life span.

The current campaign to raise funds for study and treatment of cancer will continue through the month of April. Mail your contribution to the Wheeler County Cancer Society today.

Mr. J. C. Howell, Editor
Wheeler Times
Wheeler, Texas

Dear Mr. Howell:

One of my duties as an agricultural employee is to encourage farmers and landowners to protect their land by carrying out practices that will control erosion and build up the land. One of the best ways that I know to contact and interest every one is through the columns of your newspaper. The problem of taking care of the soil is the business of every man, woman, child in America.

Did you know that according to an editorial in the Houston Chronicle erosion has already eaten away one-third of America's top soil since the white man came here? At that time there was an average top soil of nine inches. Now it is six inches on the average and is being whittled down daily. Nearly 200,000,000 acres has been destroyed or seriously damaged; enough to support 60,000,000 people. It is said that a 100 acre farm is lost every five minutes.

Through the assistance of the Federal Government we have accomplished a lot of work on erosion but, as to taking care of the actual needs we have only scratched the surface. Our records show that we have only 14,500 acres of terraced land and agricultural authorities of the county estimate that 114,200 acres of land need terracing; 119,000 cubic yards of dirt moved in constructing water and erosion dams and we need 741,700 cubic yards water wells for rangeland 200, needs 670; strip-cropping 6,500 acres needed to be stripped 102,800; reseeding pasture grasses 400 acres, needs 22,500 acres. These are only a few of the many practices that need to be carried out.

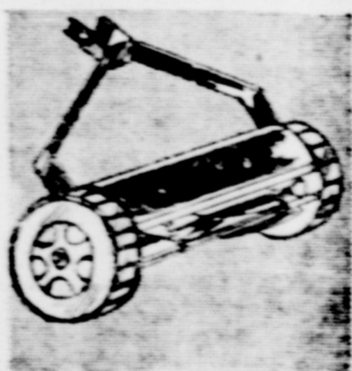

We come to you as Editor of our paper and ask your assistance in helping promote this needed program. We know that the business men and citizens of our towns and communities stand by to help you when called upon to see that no wheel is left unturned to take care of the soil that is taking care of us. Thanking you for all you have done and will continue to do in promoting the soil conservation program, I am

Very truly yours,
V. B. Hardcastle, Secretary
Wheeler County ACA

Election Is Called on

(Continued From Page 1)
Moss told The Wheeler Times Wednesday that in his opinion the two north county precincts would remain dry even if the county voted in favor of the proposal. Moss said he had checked into the status of such precincts and that it was considered judgment that the sale of alcohol would be legal only in the two precincts in the south half of the county.

Justice of the peace precincts and not commissioners precincts, are the political subdivisions as regards the sale of alcoholic beverages at the present time. South Precincts 3 and 4 extend north to a line running east and west across the county at a point about two miles south of Wheeler. Precincts 1 and 2 begin at that point and embrace the north half of the county. They are what are known as the Wheeler and Mobeetie precincts and would continue dry regardless of the outcome of the election, according to the county attorney's interpretation of the law.

County Attorney Moss said he had been informed that at least one attorney in Wheeler county was of the opinion the entire county would be wet if the county voted for the sale of all alcoholic beverages on May 10. Moss, however, said he had been informed by attorneys for the liquor interests that such was not the case.

If the election proceeds as scheduled the ballot will read: "For Legalization of all alcoholic beverages" and "Against Legalization of all alcoholic beverages."

All persons qualified to vote in any regular election will be entitled to vote in the liquor election. It is not necessary that a person be a property owner, the county attorney explained.

At The Churches

THE METHODIST CHURCH

The subject of the morning sermon will be "The Supreme Court in Religion"; that of the evening service, "God Is Known By What He Does."

In changing Vespers to the evening hour, we call upon the membership, and the public to help us make it all that an evening service ought to be; good singing, good fellowship, faithful preaching, prayer, and joyous testimony. All cordially invited.
S. Y. ALLGOOD, Minister.

Excellent advice is given on how to cure a cold. Canvassers for good causes have been heard to say that some people needed to be cured of cold feet.
