

# The Big Spring Herald

NO. 41

Big Spring, Texas, Friday, June 26, 1925

By T. E. Jordan

## Development This Section

### New Test on McDowell Humble Co. Investing in This Territory

McDowell New Test  
Work started on a new test on the McDowell ranch, this test is located about quarter miles northwest No. 1.

Drilling in the Northrup well has been suspended for several days on account of engine trouble. Drilling in the Cogdell & Ford well will be resumed as soon as a new sand line arrives from Houston. It was shipped several days ago, and it is expected to arrive at any time.

Paul S. Odward, who is operating the Durham wells, reports that while drilling at Durham No. 1 is suspended for the present, No. 2 will be pumped when fuel is needed for making steam. There is prospects for some real news in the Durham field later on.

C. A. Bigelow, brother of R. J. Bigelow, is here visiting his brother and looking over the oil situation. He and his brother plan to drill a well near town, if acreage can be secured. C. A. Bigelow has been operating in the oil fields of Europe and Asia for the past several years.

The Bill Scott-well No. 1, on Section No. 32, Block 17, T. & P. Ry Co., 1 3/4 miles over the Mitchell county line near Hyman, is to be spudded in soon.—Sterling City News-Record.

### Reagan County Oil News

World well No. 1 recently purchased by the Humble Oil & Refining Company, is still shut down awaiting titles. This well has been flowing oil over the casing with a swab hung in the hole and a disc also in the bottom of the hole.

O'Reilly, Slack, et al, six miles north of Big Lake on University land is drilling in hard gray lime at 2843 feet and have encountered a good and oil showing. Formations of this well are checking good with other producers.

McGuire well, Sec. 12, Blk. A, north of Big Lake, drilling below 3400 feet.

Wm. H. Dunning well, T. & P. lands, is drilling at 300 feet.

Cogdell, Sec. 28, Blk. 8, set 6-inch casing at 4,030.

Gulf Production Company Sec. 1, Blk. 1, is rigging up to drill a deep test one mile south of their No. 1 well.

Armstrong-Stover still shut down pending deal.

Crockett county is full of geologists and oil men looking for drilling contracts.

Shannon No. 2 spudded Wednesday.

The Massie well in Crockett county will resume operations within the next few days. A good showing of oil was encountered in this well at 1600 feet.

One big operator and successful geologist predicted 20 rigs in Crockett county within the next 90 days in the vicinity of the World well.

25 rigs running in Texon field and several rigging up.

Big Mesa Oil Company in Upton county, Blk. 17, Sec. 3, is shut down.

Bell-Regan Flatrock well is finishing 3500 foot test in Upton county.

Several locations in Upton county will be given out later.

The following is the drilling report of the Texon Oil & Land Company:

No. 12 is fishing for tools at 2490;

No. 13 is drilling in hard gray lime;

No. 14 down 2485 fishing for tools;

15, has a hole full of water at 2475;

16, fishing for tools at 2550; 17, underrunning;

18, drilling in shale and is down 2110; 19, in red mud at 1820;

20, drilling in lime at 230; 21, red rock at 475; 22 is building rig so is 23; rig completed for No. 24 and 25 is building rig; 26 and 27 are building rigs; 28 and 29 locations made and rig material is being hauled. No. 4, group No. 2, is building rig.—Big Lake News.

### FISHERMEN HAVE GOOD LUCK

Harry Lester, Ben Carpenter, Jay Johnson, Leslie Thomas and A. B. Edwards returned Monday night from a two-day fishing trip 200 miles southwest of here on the Pecos river.

They report that no better place could be sought for an outing, than where they went—picturesque country, ideal camping grounds, good drinking water, and a splendid place to fish. They caught lots of big ones—and they were all easy biters.

The good old summer time was supposed to have been ushered in about June 21st, but seems to us it had several weeks start before that date.

## Geo. Sparenberg Dies of Paralysis

### Postmaster at Austin, Texas, and Former Postmaster of This City Died of Paralysis Monday

The announcement of the death of George H. Sparenberg at Austin, Texas, on Monday afternoon, June 22nd, came as a great shock to relatives and friends in this city. His death came most unexpectedly. He suffered a stroke of paralysis as he sat at his desk in the postoffice at Austin, shortly after noon, and he was dead before a physician could reach his side.

George Sparenberg came to Big Spring more than forty years ago to make his home; and resided here until he moved with his family to Austin where he has served as postmaster the past three years. He served as postmaster of the Big Spring office for fourteen years.

No man was more loyal to his community than Geo. H. Sparenberg and no man would work more unselfishly in its behalf. Big Spring never had a better friend. Even after moving to Austin he never overlooked an opportunity to aid our town. A big-hearted, wholesome gentleman was he, and no one is held in higher esteem by our entire citizenship. He never overlooked an opportunity to encourage and aid young men, and his kindly helpfulness has made the pathway of many an easier one. He was an earnest worker in church, lodge, civic and social affairs and always carried his part in every movement for the betterment of mankind.

He won a high place in the affairs of the Republican party of Texas; was their nominee for State Treasurer in 1920, and has always taken an active part in his party's activities in our state.

Funeral services were conducted at Austin Wednesday.

He is survived by his wife and two sons, Charles and Russell, of Austin, his mother, Mrs. H. Sparenberg of this city, and a sister, Mrs. P. J. Shelb of Fort Worth, and to these who mourn for one dearly beloved is extended the heartfelt sympathy of our entire citizenship.

### JOHN QUINN STARS IN U. S. NAVAL ACADEMY

John Quinn, although a plebe, was one of the twenty-three men who made the highest average for the year's work in the U. S. Naval Academy. This is an honor rarely won by a first year man.

Next year these men will wear a gold star on the collar of their full dress uniform.

Now perhaps wearing a star means little to us, but to the boys of the naval world it means more than words can explain. For wearing a star points you out and signifies that you are among the few who made this high academic average.

John is now with the Scouting Fleet on their three months practice cruise—52 days at sea and 39 days in port.

They sailed from Annapolis, Md. June 6th, passed thru Panama Canal June 17th and on up the western coast, making stops at San Pedro, San Francisco, California, Astoria, Oregon, Seattle, Washington. On return trip will stop at San Diego, Calif. and Panama, reaching Annapolis by September 1st.

Then the boys will be given a short vacation before the fall term begins. John will have about two weeks in the old home town.

### RAISES FINE POTATOES IN GLASSCOCK COUNTY

Claud Edmondson was in from his ranch Monday and brought the Herald force a big mess of Irish potatoes to show what the black land of Glasscock county could do. The potatoes were the Irish Cobbler variety and were as big and fine as any potatoes raised anywhere. From four rows about twenty-eight feet long, Mr. Edmondson secured bushels of potatoes. He stated that he fertilized the soil and plowed it deep and this helped make it possible to raise such fine potatoes.

The good old summer time was supposed to have been ushered in about June 21st, but seems to us it had several weeks start before that date.

### OLD SETTLERS PICNIC

All the old settlers of Howard county are invited and expected to be present at the big two-day celebration that is to be held at the City Federation Park today (Friday) and tomorrow. All people who have lived here more than twenty-three years are considered old settlers, and are charter members of the Old Settlers Association.

A big barbecue will be held both days—and a jolly time is assured those attending.

The features of the program will be speeches made by prominent men of Texas. C. B. Thompson of El Paso who was candidate for governor several years ago, will speak, and he is judged by many to be a fine orator. Congressman Claud B. Hudspeth, Jno. B. Littler and James T. Brooks, and many of the old time settlers will speak on this occasion.

On Saturday evening a platform dance will be held for the young folks. Carroll Barnett and J. F. Hair have the plans in charge, and they assure good music and a good time.

The Old Fiddlers will entertain at 8 o'clock Saturday evening with a concert. I. B. Cauble has been getting the fiddlers in readiness to perform.

This picnic is to be an annual affair, to be held on the fourth Saturday of June each year.

The first celebration was held last year on the McKinney place. J. S. McKinney is president of the association, J. W. Shive vice president, and Frank Logan secretary.

This picnic is only for old-timers, so unless you have lived here twenty-three years, do not come, for no provision has been made to take care of you.

### BASEBALL GAMES SCHEDULED

The Big Spring T. & P. baseball team has the following games scheduled:

Fort Worth, Saturday and Sunday, June 27 and 28.

Lamesa, Friday, Saturday, and Sunday, July 3rd, 4th and 5th.

Sweetwater Saturday and Sunday, July 11th and 12th.

Dallas Sunday, July 19th.

The Fort Worth T. & P. Sunshine Special team is to return for two games, and Tahoka is seeking two games.

The way challenges are rolling in the T. & P. team will be able to remain at home, and secure all the games needed to fulfill a two-game a week program.

### MRS. O. B. CRAWFORD DEAD

Mrs. O. B. Crawford passed away at the home of her daughter, Mrs. Rose Phillips at Muskogee, Okla., on Friday, June 19. She was laid to rest at Muskogee, beside her husband, who died about three years ago. Mr. and Mrs. Crawford were old time residents of Big Spring, having made their home here for about twelve years.

To the following children who survive, John M. Crawford of Big Spring, Harry Crawford of Portland, Oregon, Mrs. Rose Phillips of Muskogee, Okla., Mrs. Anna Pope, Houston, Texas, and Mrs. Margaret Boswell of El Paso; is extended deepest sympathy in their hour of sorrow.

### ADVERTISING GLACIER TO GULF

Z. W. Cannon will be in charge of division headquarters to be opened in Denver, Colo., to boost the Glacier to Gulf Highway.

He will start the publication of a Glacier to Gulf Magazine on January first.

Mr. Cannon is an old newspaper man, at one time advertising agent for the Cotton Belt Ry., and has been connected with a number of high class magazines. He is well qualified to make a good publicity man and will be responsible for many folks traveling over the Glacier to Gulf Highway.

### "A FAMILY AFFAIR"

"A Family Affair," under the direction of E. D. Merrill, will be presented at the R. & R. Lyric theatre this evening (Thursday) beginning at 8:15 o'clock.

This entertainment is a benefit for the Big Spring Booster Band and a large crowd is expected to attend. You'll be sure to get your money's worth, and help a good cause as well as be furnished some good entertainment. Specialties between acts will be furnished by Hrdlicka and Moss, two blackface artists.

## Swimming Pool and Gymnasium

### Y. M. C. A. to Launch Campaign to Secure These Needed Institutions for Big Spring

At an enthusiastic meeting of the board of directors of the Y. M. C. A. Tuesday night it was unanimously decided to add a gymnasium and swimming pool. A committee of five was named to formulate plans for a campaign to raise the funds necessary to carry out this big improvement. They will also decide as to the size and character of building needed, and get an estimate of the probable cost.

For years Big Spring folks have been looking forward to the time when we would have a real swimming pool and gymnasium and the directors of the "Y" believe the time is now ripe to secure these.

They have decided to take this step because they recognize the great need of these for the young people, and are going to ask for the cooperation of all the forward-looking people in our city and county who believe in a character-building program for all the people, and especially our young people.

It is unnecessary to point out the need of providing these, and if you believe in doing something to help the young folks your cooperation and good will are desired. You are wanted to help boost the proposition, and to knock the fellow who knocks the proposition. But don't get the idea that the swimming pool and gymnasium is for the young people only, for they are for the benefit and enjoyment of young and old.

Talk up the Swimming Pool and Gymnasium, get your friends enthused over the proposition so the campaign to secure them can be put over in quick time.

More about this proposition next week.

### NEW DEPARTMENT HEADS

New heads for the prescription and jewelry departments of the Clyde E. Fox Jewelry & Drug Co., are now on the job and are going to make their departments meet the highest standards all along the line.

Roger Gallemore took charge of the prescription department Monday and he immediately ordered some drastic changes. A complete stock of fresh medicines was his first demand and next entirely new equipment for his department and his orders are to be complied with. The prescription department is to be overhauled from top to bottom and made a real prescription department. Roger is a registered pharmacist, and is a dependable young man in every respect. He was not satisfied in merely passing the examination before the State Board of Examiners, but continued the course at the State Medical College at Galveston for several months thereafter that he might be more efficient in his chosen vocation.

Omar Pittman is now in charge of the jewelry department of this store and is right on the job. As our folks have every confidence in him he is going to make a valuable man for this department. He is an expert watch and jewelry repair man, and when he completes his work on a watch or piece of jewelry you can depend upon it that the work is done right. Another point is that he is an untiring worker and he puts in his entire time so the patrons of this department are assured of better service than they are usually accustomed to. Service and satisfaction is to be the motto of the department over which he presides.

Clyde Fox, owner of the Clyde Fox Jewelry & Drug Co., is indeed fortunate to secure these two progressive young men for these responsible positions and an added patronage is sure to result.

### STORES CLOSED JULY FOURTH

Stores will be closed throughout the day on Saturday, July 4th, so be sure to secure enough supplies to run you thru Saturday and Sunday. Keep this in mind and avoid any inconvenience or disappointment.

The old settlers of Howard county meet in annual reunion today and tomorrow. The second reunion is being held at the City Federation Park, just east of Big Spring and a fine time should be in order.

### OLD TIME GOSPEL MEETING AT CHURCH OF CHRIST

An old time gospel meeting will be held at the Church of Christ, at the Tabernacle on West Fourth street for three weeks beginning Monday, June 29th, continuing thru Sunday, July 12.

W. D. Black, evangelist, and V. T. Smith, song leader, will conduct these meetings. Services will be held twice every day, 10 a. m. and 8:15 p. m.

These men have for their purpose the salvation of souls and the glorification of God.

Everyone is invited to come, and hear the gospel in sermon, song and prayer.

### CROP CONDITIONS GOOD

While we are all inclined to wish for rain, the men who have had experience in growing cotton declare this warm, dry weather is just the thing needed to benefit cotton. A strong tap-root that will carry cotton thru a protracted dry spell is being formed at present. If showers had been falling thru the past weeks, top roots would have formed at the expense of a tap-root and cotton would have suffered during a dry July and August. Cotton men say that cotton on well prepared soil is doing just as fine as it is possible for a crop to and will be able to go until August without rain. A rain the last of the month would help a great deal but rains in July are feared because they usually bring insect pests to damage crops.

There is complaint of damage to crops due to the hot weather where the ground was not properly prepared. Many took a chance on merely scratching the soil and planting crops. They might have made reasonably good crops had rains fallen regularly, but crops on such land cannot survive a long dry spell as do crops on well prepared land.

Deep plowed land that has been cultivated and knifed several times, shows to contain ample moisture to carry crops for an extended period.

Over the county crops are in much better shape than at this time last year, and unless hail storms or insect pests appear there is no reason why we should not harvest bigger crops than we did last year. This also carries the provision that we get some rains, during the month of August.

### IMA GLENN MAXWELL DEAD

Ima Glenn Maxwell, aged seven-teen years, passed away at the home of her mother, Mrs. M. A. Maxwell, Friday morning, June 19th. Funeral services were held at the family residence at three o'clock Sunday afternoon and the remains were laid to rest in Mt. Olive cemetery.

The deceased is survived by her mother and six sisters, and to these and other relatives is extended heartfelt sympathy.

Those out of town here to attend the funeral services were: Mrs. J. H. Baker of Dallas, Mr. and Mrs. Guy Stovall of Waco, Miss Effie Maxwell of Waco, Mrs. V. A. Taylor and daughter of Seminole, Mrs. M. Hornsby of Lubbock, Mrs. G. W. Long of Ranger and Earl Maxwell of Roswell, N. Mex.

### PLANT MORE FEED

There is such a vast area of Texas that will not make any crops this year that feed crops are bound to bring a high price next fall and winter and up until another feed crop can be produced. Feed and more feed should be planted if rains come during the next two or three weeks.

Mr. and Mrs. A. W. Flaniken of Lamesa were visitors here Friday.

**"HER NIGHT OF ROMANCE" A HIT**

English wit, or lack of it, always comes into high relief when matched against American humor, and this contrast is the basis of the mirth-making machinery in Constance Talmadge's latest comedy, "Her Night of Romance," which will be shown at the R. and R. Lyric theatre Monday and Tuesday, June 29-30.

The situation is that of an impetuous young British lord being hounded into a proposal of matrimony to an American heiress he has never met by a London money-lender.

Constance, as the heiress, touring England in search of a curative for her shredded nerves, has anticipated fortune hunters and so disguised herself to look like an outlandish backwoods schoolma'am.

But through a series of laughable, yet wholly possible, circumstances, she meets the nobleman, and, in fact, their positions become so closely allied that they are compelled to pose as newly-weds in order to avoid a scandal.

As yet neither knows the other's true identity. The sharp-brained money-lender, however, scents the truth and hurries into the scene. Regardless of the delicacy of the situation, he sees a chance to collect his long-standing accounts with the lord, if he can clinch the marriage.

His crude manner in achieving his objective almost blights out all hope of the marriage, but meantime Dan Cupid has entered the play also, and his well directed arrows write the finale of happiness to the picture.

Constance's dual role gives her a wide field for fun-making, and she makes the best of it. Alternately the flippant flapper and the bleak schoolma'am, her acting is at all times refreshing.

Roland Colman, a young English actor, plays the part of the lord and brings out the high lights of the role with an intimacy an American actor could hardly achieve. Jean Hersholt, as the money-lender, Albert Gran, Sidney Bracy, Joseph Dowling and Templar Saxe also are in the cast.

"Her Night of Romance" was produced by Joseph M. Schenck for First National, under direction of Sidney Franklin. The story was written for Constance by Hans Kraly.

**FARM AND RANCH LOANS**

8 per cent on Farm and Ranch Loans in amounts of two thousand dollars and up. 3 1-2 per cent payable every six months cancels the debt in 33 years. See B. REAGAN, at West Texas National Bank, Big Spring, Texas. 40-2tpd

Both the wise man and the fool like to be praised: the difference is that the wise man knows when he is being flattered and the fool does not.—Exchange.

**LADIES MINSTREL A SUCCESS**

The Ladies Minstrel given by the East Side Circle of the Methodist church at the R. and R. Lyric last Thursday evening, was a splendid entertainment, and those attending got their money back in that hour or two of good, wholesome entertainment.

The interlocuter, Mrs. Hob Everett, assisted by the ends, Mrs. Edgar Martin, Wanda True, Ruby Miller, Mrs. Mitchell Stoner, Bernice Johnson and Essie Bradley, and the chorus, composed of Mrs. Roy Carter, Mrs. Grover Cunningham, Mrs. Olle Cordill, Hazel Hathcock, Leeta Cochran, Lillian Shive, Louise Shive, Lena Richardson, Frances Sullivan, and Mary Wade, furnished amusement the first part of the program; and the second part was "The Colored Ladies Political Club." Every type of negro woman—from the "fancy dude" to the wash lady was represented by the different women, Mesdames Bell, Pickle, L. Thomas, C. Thomas, Stripling, Croft, Herring, Addison, Misses Pickle, W. True, V. True, B. Johnson, E. Bradley and Ruby Miller.

The orchestra, composed of Mrs. Chas. Morris, piano; Ladd Cauble, saxophone; Kin Barnett, Violin, and Milburn and Carroll Barnett, banjos, furnished the melody throughout the program.

Pep and spice were there a plenty in the specialties put on between the first and second parts by C. O. Berry, J. B. Hrdleka, and by the Barnett family. All of these called for encores.

A large and appreciative audience attended the delightful entertainment.

**FOOD SALE SATURDAY, JUNE 27.**

The South Circle Methodist Women will hold a food sale in Purser's store Saturday morning, June 27. Cakes, pies, chickens and other good eats can be purchased there. Your patronage will be appreciated.

2 four-room houses; 3 five-room houses. Small cash payment, balance like rent. C. E. TALBOT, Phone 235. 36tf

With cars crashing together quite frequently, and many close shaves for pedestrians at street intersections as warnings, it does seem that drivers of automobiles would try to keep their cars under control to avoid accidents. You don't want to injure anyone, so why take chances. You never know what the other fellow is going to do. Play safe by being extra careful at all times.

Mr. and Mrs. W. B. Potton and daughter, Willie Belle, arrived Wednesday from Santa Rita, N. M. for a visit here with relatives.

Jack Watt of San Angelo, scout for the Roxanna Oil Company, was a business visitor here Wednesday.

**M. K. & T. HAS EYE ON WEST TEXAS**

The M. K. & T. Ry. has made application to the Interstate Commerce Commission for permission to extend their line from Roswell, N. M. thru Snyder, Gail, Lamesa and Seminole.

A news item in the Fort Worth Record commenting on the extension added, that it was rumored that the Katy would also request permission to build a branch line from Snyder thru Big Spring to the Reagan county oil field.

Here's hoping the Katy is granted permission to build, and also holds to the plan to build the branch line to the oil field.

**WATCH REPAIRING**

For the very best watch repairing and jewelry work see Geo L. Wilke of phone 497, we will call for and deliver your work. A better job for less money. No longer connected with Clyde Fox.

GEO. L. WILKE  
Jeweler and Optician

**CHURCH OF CHRIST NOTES**

Bible study 9:45 a. m.  
Communion services 11 a. m.

Ladies Bible class won't meet until after the meeting. Notice for later date of next meeting.

Prayer meeting every Wednesday evening at 8 o'clock.

Our meeting will begin Monday, June 29th. Bro. T. V. Smith, our song leader, will arrive Saturday. There will be song practice at the Tabernacle 8 o'clock, Saturday evening. Everybody invited. Rev. W. D. Black of Sweetwater, Texas, will arrive Monday morning. Our first services of the meeting Monday night. The whole town and county have a hearty welcome. Come visit us.

**FINE CHICKENS FOR SALE**

35 or 40 thoroughbred silver laced wyandotte cockrell at \$1.50 each. Call at my place 8 miles northwest of the city. W. R. Thomas. 412p

**CUT FLOWERS for all occasions:** wedding bouquets, funeral designs a specialty. COLORADO FLORAL CO., Colorado, Texas. Phone us your order. 29-tf

H. K. McCollum of Fort Worth was a business visitor here Wednesday. Mr. McCollum is head of the construction company that is now placing an asphalt topping on the State Highway thru Howard and the three counties to the west of us.

We can obtain loans on Patented Farm and Ranch Lands at 5 1-2 or 6 per cent on long time. If you desire to borrow money on your land. See STATE NATIONAL BANK. 41-tf.

**HERE'S YOUR CHANCE**

All Gents Underwear at Cost. Clyde Fox.

**Dress Well and Succeed**

**FINE RAIN BENEFITS CROPS.**

One of the finest rains you ever saw, falling slowly so that every drop soaked into the ground, visited our county Wednesday evening and night. It came just at the right time to do worlds of good as young cotton and some feed were needing rain.

At this point the shower continued steadily for four or five hours, the total rainfall amounting to .58 inches. In the northwestern, western and southern portions of the county reported a much heavier precipitation. From two to three inches was reported west and south of Big Spring. Good rains were reported at Lamesa, Stanton, Midland and Garden City, where rain began falling early in the afternoon. In the eastern part of the county the rainfall was about the same as here but in the northeastern portion of the county there were only light showers.

There is no estimating what this rain is worth to our section. A big improvement in the condition of crops will follow and especially so where the crops are well advanced. It is also true that crops in well prepared land can now make it thru to August.

Coming without damage due to hail or washing rains, this rain was doubly appreciated by our folks.

**WATCH REPAIRING**

For the very best watch repairing and jewelry work see Geo L. Wilke or phone 497, we will call for and deliver your work. A better job for less money. No longer connected with Clyde Fox.

GEO. L. WILKE  
Jeweler and Optician

Harry Wheelon of Electra is here spending his vacation with home folks.

Homer Cook Jr. of Boonville, Mo., arrived Tuesday for a visit with relatives.

**POULTRY EXPERT TO LECTURE**

"How to distinguish the good layer from the poor layer"—will be the subject discussed by Professor F. W. Kazmeier, a poultry expert, at the court house in Big Spring tonight (Friday), June 26th. This demonstration and lecture will be absolutely free and everyone is invited to attend.

Mr. Kazmeier is truly a poultry expert—for eight years he was poultry husbandman at A. & M. College, he was formerly an assistant in the poultry department at Cornell University, general manager of Bryan Hatchery, Bryan, Texas, and was the founder of the Texas National Egg-laying contest. Mr. Kazmeier has raised over 100,000 chickens in his lifetime—and can tell you most anything you want to know about chickens.

**CHANGE IN ELKS CAFE**

L. L. Gulley is now in temporary charge of the Elks Cafe, pending a reorganization of the business.

It looks kind of natural to see L. L. in harness at the old stand once more.

Just a word or two "Lest Ye Forget" where many good bargains can be had here yet. Not telling you these are the best buys in town. But this is an invitation for you to come around. Think it over. If there's anything you need along in my line. We'll appreciate your trade at any time. HAGUE'S VARIETY.

Mrs. James Everitt and daughter after a visit in south Texas, and a visit here with her uncle R. H. Mann, and Mrs. W. C. Bird and Mrs. Zack Mullins, returned to her home at Seminole Wednesday.

Mr. and Mrs. Tom Gooch and two daughters returned Wednesday from an auto trip to Corpus Christi and other points in south Texas.

**HIGHWAY IMPROVEMENT**

The H. K. McCollum is completing the highway work on the highway between Big Spring and as soon as completed will move their plant and other equipment to work both at that point on State Highway.

The asphalt topping placed on the state highway a distance of five miles between Big Spring and Big Spring looks mighty good and these highways would maintenance cost should be very light in years at least.

It seems that we are having secured three State Highways as they are by the state has lifted off our county and the kept in a better way than the county could do the work.

**PRESBYTERIANS**

Every Presbyterian member of the church is specially urged to be present Sunday morning services will preach on "Christ's while." All the regulars will be held Sunday and an invitation is extended to attend all those services and visitors especially "Remember the Sabbath day it Holy."

**RESIDENCE**

Brand new residence lots for sale cheap. See GEO. L. FISHER

County Judge H. H. Thursday, June 11, ceremony which was held at the home of Louis E. Rice and his wood.

### THE VALUE OF OLD ROADS.

Report on the salvage of old roads, prepared from the New York State Department, shows the average per mile of reconstruction contracts—1919 to 1924, inclusive, to be \$36,000 for asphalt macadam concrete and asphalt macadam for same. This reconstruction from now on will be the most important work in New York. The rebuilding, to what is necessary, of the older roads worn out or become other- than fit as to make their repair a job large enough to be profitable. It is expected that a finished reconstruction will leave a road in first condition to sustain the traffic. The \$20,600 difference in reconstruction cost measures the salvage possibilities of previous work in connection with asphalt macadam types. The savings show about \$21,000 difference in such work. The reports \$15,000 and \$20,900 difference in the macadam. These figures of interest to all states, for maintenance and reconstruction becomes constantly more important to taxpayers as the mileage of surfaced highways increases.

### BUSINESS PRINCIPLES APPLIED TO FARMING

A group of farmers at Owatonna, Minnesota, operating under a cost keeping system put out five years ago by the University of Minnesota experts, have disproved the traditions that farming never pays.

They have found where the farm leaks are, in labor, in buying, in selling; and they have tried to plug every leak. They have paid themselves \$60 a month wages, and 5 per cent on their investment. They have increased butter production 20 per cent per cow, and reduced production costs; they have found shorter cuts to profits in almost every branch of farming. Their farm income last year averaged \$2,471., or better than \$200 a month, which is far above the average tradesman or mechanical income.

Last year brought exceptional prices for wheat, corn and a few other products; but much of this Minnesota income was from miscellaneous farming—alfalfa, poultry, dairy products. They had no magic sesame to success; they merely cut out the waste and stuck to the things that paid.

"Naw," grumbled the side-show manager, "I don't so much mind the bearded lady smokin' cigarettes in public, but I don't like the way she scratches matches. It gets the crowd suspicious."

### TEXAS INDUSTRIAL REVIEW

Dallas — Cornerstone laid for Hyer Hall of Physics at Southern Methodist University.

Port Arthur — Several local streets to be improved at once.

Stamford — Bond issue in amount of \$25,000 voted for improvement work on West Side school building.

Lamesa — Five new gins under construction.

Panhandle — Two million dollars being expended here for oil development projects.

Giddings — Work started on sewer disposal plant south of here.

Vernon — Local Masons planning erection of \$60,000 Temple.

Vernon — Contracts awarded at \$100,000 for city projects.

Orange — Plans progressing for construction of highway between here and Port Arthur.

Cisco — Route for highway No. 13 being surveyed.

Houston — This season's movement of baled cotton from here to Philadelphia greater than in any previous year.

Port Arthur — Oil shipments for May totaled 1,953,383 barrels, according to report.

Brownfield — Road bond issue in amount of \$200,000, to be voted upon by county June 20.

Decatur — Local milk shipping stations report a maximum of shipments.

Texas ranks first in state exports during 1924, with \$737,218,927 valuation.

Bluffs — Tentative plans under way for erection of \$28,000 addition to present school building.

Brownwood — Crop conditions throughout county considered good.

Port Arthur — New traffic lights to be installed during year.

Houston — Humble Oil Refining Company's No. 5 Schade in South Liberty field, completed, flowing at rate of 1,000 barrels pipe line oil.

Dallas — Local contractor awarded contract for double incinerator to be built here at cost of \$40,500.

Giddings — Work on new sewer line progressing.

Ranger — Second Pritchard No. 1 well, on northeast forty-acre tract of Pritchard farm, about seven miles northwest of here, brought in at depth of 3,541 feet for 2,000-barrel producer.

Denton — Frank M. Bralley Memorial Library to be built at College of Industrial Arts at cost of \$150,000.

Decatur — Million-dollar bond issue to be voted on June 27 for construction of system of highways throughout county.

Dallas — Plans have been drawn for extension of Turtle Creek Boulevard from present terminus in Highland Park through University Heights.

Lubbock — Texas Technological College under construction at cost of \$1,000,000 expected to be finished for opening classes in September.

### SUMMERTIME RADIO RECEPTION

While excellent radio reception is frequently possible during summer months, yet best long distance records come in winter. Signals are not quite as loud in the summer and electrical disturbances, such as lightning storms, naturally interfere with concerts, particularly those from distant points. A reasonable attitude will help the listener who should remember that he cannot expect every act in even the best vaudeville to be just what he wants, nor can he expect the weather every day to be clear and pleasant.

Now and then a summer storm may interfere with both radio and picnics. The listener should become acquainted with his local stations and enjoy them during the summer, and be satisfied with the long distance records he has made or will make in the winter. He should get the best there is in radio during all seasons, and above all he should be reasonable.

If the listener is distant from the stations he wants to hear he can lengthen his aerial wires and increase their height from the ground. Both of these measures make signals louder as a general rule. He can add an audio amplifier. He can increase voltage of his "B" battery or plate up to 90, 112 or even 135 volts (that is, to four, five or six of the usual 22 1-2-volt units or blocks.) He can use a more sensitive loudspeaker and tune more carefully to get the very loudest signal his set is capable of giving. If there is a tickler adjustment on his set, he should learn how to use it so as to get full volume of signals. The good results he will then get are going to be even better in the winter. —Dr. Alfred N. Goldsmith.

Too hot to eat much. Carry home a couple of our Chocolate Malted milks for lunch (dinner)..... Cunningham & Phillips.

## The Summer Season

has hardly begun—but we are offering some real bargains in summer wearing apparel, in a special selling event at greatly reduced prices

These are the newest and best of the mid-summer styles, and we have grouped them in six lots for quick selling. They are printed crepes, tub silks, voiles and linens.

### CARD OF THANKS

We wish to express our sincerest gratitude to our friends for their many kindnesses during the recent illness and death of our beloved daughter and sister, Ima Glenn. May God's richest blessings abide with each and every one.

Mrs. M. A. Maxwell and family.

Kranke lemon and vanilla creams... Cunningham & Phillips.

# One for All AND All for One

EVERYWHERE PEOPLE ARE COMING TO REALIZE MORE AND MORE HOW INTER-DEPEND-ent we are upon each other. The only individual who is self-sufficient is a hermit.

THE KEYNOTE — THE FOUNDATION OF CIVILIZATION — IS THE FAMILY. WE ALL CON-ecde that. And we're rapidly coming to realize that our own home town — is a home town fam-ily—simply the family unit a little bit extended through neighborly cordiality, friendship and pleas-ant social intercourse.

COMMON GOOD WILL AND RECOGNITION OF OUR HUMAN OBLIGATION IS A DEEPER currency than any money system ever invented. But it is also to our advantage on the material side of life—it redounds in better practices, living conditions, more generous impulses. It makes BIG SPRING a better place to live.

LET'S MAKE OUR HOME TOWN UNIT CLOSER KNIT. LET'S BE GENEROUS WITH OUR good will—realizing that the prosperity of the individual is directly reflected in an added prosper-ity to our community. Your home industries and merchants have adopted this creed. Will you co-operate?

**NATIONAL DEFENSE DAY OBSERVANCE**

What is Defense Day, and why? It is an annual observance this year only July 4th for the following purposes:

(1) To emphasize the responsibility of the individual citizen for his share of the National defense under the American idea of democracy.

(2) To acquaint the citizenship with the defense policy of the republic and with the part it would be called to play if the nations were attacked.

(3) To permit the trained leaders of the Regular Army, National Guard and Organized Reserves, once a year to check up on the plans for national defense and to muster into the skeleton organizations of the various components of the Army one-day volunteers "so as to test the mobilization plans. In this regard it is much like a "fire drill."

(4) To deepen, by patriotic exercises, loyalty to country. In short, Defense Day is an annual conference of the citizenship on national defense and an annual stock taking of our resources.

It is the direct descendent of the annual "muster day" of our Colonial and early National days when the Organized and Unorganized Militia met one day a year for the same purpose.

It is not a military gesture, it is not militaristic propaganda, it is not a threat. Practically all other nations have great military maneuvers simulating warfare every year and no one takes them as special threats against anyone. Defense Day is not even a maneuver or military exercise.

**FOR SALE**

A residence in the city limits on Scurry street, for sale. A real bargain and can make good terms. Also have east front lots in College Heights addition at reasonable prices and on easy terms. Phone 325 or 30. J. F. HAIR. 34tf

**MRS. ADELE VOLIVA PASSED AWAY SUNDAY**

Mrs. Adele Voliva, one of Midland's early settlers, died at her home here Sunday night, after a brief illness.

The Volivas came to Midland in its early days and have been associated with its development since that time.

T. J. Voliva, husband of the deceased woman, died a few years ago and was well known throughout this section of west Texas.

Mrs. Voliva was 83 years old. She was born in New Orleans, living there until her marriage, after which she and her husband moved to Texas. They lived later at Big Spring for a while, coming on to Midland, where they reared their children.

Two daughters and two sons remain, Misses Georgia and Mary Voliva, and Messrs Elmer and Byron Voliva.

The funeral services were held at the Voliva home Monday afternoon Rev. L. U. Spellman officiating. — Midland Reporter.

**FINE LOTS FOR SALE**

East front lots on the highway in beautiful College Heights addition, for sale at reasonable prices. Phone 325 or 30. J. F. HAIR.

Any additional expense for paving is made up in the increased valuation of your property, for any man will willingly pay more for property fronting on a paved street. Once paving is started it will continue as property owners are eager to pay the extra cost for paving in order to receive the benefit of this big improvement. Even Roscoe, Lorraine and smaller places are now having streets paved so we might as well join the procession of progressive cities.

**TWO UNITS GRANTED IN STENOGRAPHY**

The Big Spring High School this week was granted two additional units in stenography, making the total number of credits in High School reach thirty-three. This is the maximum number of units given in this work to any high school. The Department of Education at Austin commended the excellent quality of work given them for exhibit, and it was upon this work that the two units was given.

The Commercial department in our high school, which is supervised by A. B. Edwards, has made a record in the short time it has existed.

One hundred forty-seven students were enrolled in the entire department last year. Our high school is the only one in the state that offers a course in telegraphy, and seventeen pupils were enrolled in this class last year.

The credits, toward graduation, given in this department are as follows:

Commercial arithmetic, 1-2 credit; Commercial geography, 1-2 credit; typewriting, 1-2 credit; bookkeeping, 1 credit; stenography (includes both shorthand and typewriting, 2 credits.

**REMOVAL SALE AT CATHERINE HAT SHOPPE**

50 hats at \$1.50 each Saturday and Monday.

**HERE'S YOUR CHANCE**

All Gents Underwear at Cost. Clyde Fox.

**SOME FOLKS ENJOY KNOCKING**

We have plenty of good sportsmen in Big Spring but we regret to know we have a few poor sports here. You can note this at the ball games. When a fellow is doing his dead level best it is not right to razz him unmercifully when he makes an error. Even ball players who make their living by playing make errors occasionally. Then too the critics are not experts else they might be playing in some of the big leagues.

You must remember that the members of the Big Spring team work six days out of the week while some of the teams they have been up against have nothing else to do but play ball. It is but natural that they should play a faster game than players who play once or twice a week. If you want big league players on the local team you will have to dig up as there is not a town in West Texas that will support a team by admissions to games.

There are a few fans in Big Spring who desire to kick in and employ players but their number is far too few to maintain a team. The team as composed at present is about as good a team as we ever had and it is not costing the folks a penny over and above their admission to the park. The good attendance at the games proves that the real fans appreciate the games our boys are putting up. Those who are not satisfied can remain away if they don't like the way the team is managed.

There is no another town in West Texas which fails to boost their home team but this, and that is one reason we never have and never will have a world beater. It is not the ball club alone that is knocked, for most everything else that is started has a bunch of knockers to contend with so the best plan is to let them have their fun and pay as much attention to them as you would to a braying burro.

OF ABILENE  
WILL BE IN BIG SPRING NEXT SATURDAY  
TO DO ANY EYE, EAR, NOSE AND THROAT WORK AND FIT GLASSES  
WILL BE ABSENT DURING JULY

If every home in Howard county would kill their pet flies. It wouldn't be any time until we would be entirely rid of them. . . . We have the poison. . . . Cunningham & Phillips.

Mr. and Mrs. Lynn Hatcher of Sweetwater arrived Monday for a visit with their parents, Mr. and Mrs. D. Price and Mr. and Mrs. W. W. Hatcher.

Mr. and Mrs. J. R. Thomas and son, Mose, returned last Friday from a visit with relatives at Dallas, Winsboro and Honeygrove.

**KILL YOUR FLIES. . . WE HAVE THE POISON AND NON-POISONOUS SPRAYS. . . CUNNINGHAM & PHILIPS.**

We have ordered a big general rain for this section, to be delivered on or before July first.

Rev. and Mrs. M. Phelan returned Saturday from Dallas.

**RETURN FROM FOUR WEEKS AUTO TOUR**

Mr. and Mrs. T. H. Johnson and Mrs. Eva Smith and son, Howard, returned last Friday from a four weeks auto trip. They visited Del Rio, Corpus Christi and points in the Rio Grande Valley. With the exception of three days they say they encountered rain or showers every day they were gone. While camped in a flat near Del Rio they had only twenty minutes to get out before a fifteen-foot rise swept over their camp site.

Mr. Johnson states that from San Angelo south you see no crops until you reach the Rio Grande Valley. In much of this territory even grass and weeds have succumbed to the drouth and the entire country is barren, except for the trees. He said he would not trade Howard county for any of that vast section in South Central Texas where land is valued at \$100 an acre and more.

He did however purchase a fine twelve-acre irrigated farm on the outskirts of McAllen which he expects to have for a winter home.

**Storage — Storage**

FIRE-PROOF BUILDING — OPEN DAY AND NIGHT. BANKHEAD GARAGE. 33-4f

Dental preparations of all kinds. Ask your Dentist. . . . Cunningham & Phillips.

**CARNIVAL NOTES**

The 1925 Carnival has passed into history, and it is another record of success for the City Federation—financial success and get to gether success. It means worlds of work for a small number of women to put on this annual affair, but it brings the people of Big Spring together for a common purpose, as nothing else seems to do.

All of the attractions brought in good money. The cold drink stand carried off the banner for the largest proceeds. The cafeteria and hamburger stands were popular, while the tea garden was beautiful and always crowded. The fortune-teller was thronged with seekers of knowledge; the post office and grab-bags sold out entirely. The confetti and carnival goods booth began business early and kept up at a lively rate until the end.

The Majestic program was a delight. The "Wonder Show" lived up to its name and attracted crowds. The mechanical dolls were the talk of the hour.

The Queen Contest was full of interest. Miss Louise Davis, the Rainbow Girls candidate was crowned queen. Her coronation was most picturesque and a beautiful feature.

The baby show was one of the most beautiful ever held here. The babies in all four classes were beyond compare. The prize winning babies were: 3 years, Nettie Gene Carter, 2 years Mattie Nell Eddins, 1 year Elizabeth Frances Moody, 6 months Yvonne Goodpaster.

It would take up too much space to thank everyone, individually, who assisted in making the Carnival a success, but the ladies wish to say that they are deeply grateful to all of the generous and patriotic merchants, and lumbermen and carpenters, and all who so kindly helped. They would especially thank the Boy Scouts whose aid was invaluable, and the Band whose fine music was inspiring. Maybe the Federation can prove its appreciation by helping you some day.

The Brown Cracker and Candy Co. of Dallas deserve mention for sending express prepaid six dozen boxes of crackers and wafers, to be used at the eating stands and auctioned off. The Federation is grateful for this big out of town concern for its generosity.

The Federation expects to clear about \$300.00 from this carnival.

**WEDNESDAY LUNCHEON CLUB**

The regular meeting of the Wednesday Luncheon Club this week was one of the most interesting ever held. T. S. Currie acted as toastmaster and had selected able lieutenants to make interesting talks.

Rev. R. L. Owen made a talk on optimism that was indeed appreciated. Making the most out of life and our opportunities was the big thing in life. As someone remarked "the man who reads only the front pages of the big daily papers would become a pessimist." But within, the paper has other than crime news and that is why we must go deeper to get the real gold. He said we should follow the example of the little boy who did not sit down and whine because he did not have two skates but proceeded to get all the fun possible out of the one skate he possessed. Look on the bright side of life is the right plan, he said. The world loves the man who can smile as he fights to overcome his difficulties.

M. H. Morrison made a fine talk on "Seeing the Good in our fellow-man." Mr. Morrison also told of the proposed branch of the M. K. & T. Ry building a branch line thru West Texas which might come from Snyder thru our city and on to the Reagan county oil field. He also stated a meeting was to be held at Seminole Friday, June 26th to boost for the M. K. & T. Ry. extension thru West Texas and suggested it might be well for Big Spring to send a delegation.

J. F. Wolcott made a short talk in reference to the bond issue for paving.

Other short talks were made by Edwin A. Kelley and B. Reagan. Sam Hall was appointed toastmaster of the next meeting.

"The levy of an income tax, at proper rates, is a fair and economically sound means of raising the immense revenues required for operation of the government," says Secretary of the Treasury Mellon, "but the tax must not be levied at rates so high as to hamper business, slacken initiative, distort investment and encourage avoidance of the tax."

Paint your own car. . . We have everything you need. . . Cunningham & Phillips.

Come early Saturday morning for your fruits and vegetables. P. & F. COMPANY.

The Glacier to Guif Highway means everything to Sterling and surrounding country. Without it this town would look like thirty cents. Every now and then, this town is called on to show why the highway should not be detoured around by some other town, or to show why it should be designated as being of first importance of all highways in the United States. Sterling City News-Record.

"To learn what is true in order to do what is right is the summing up of the whole duty of man."

**SWAT THE ROOSTER OR PEN HIM**

The rooster plays havoc with the summer egg market here in Texas. He is responsible for the fertile egg, which in turn is responsible for the suspicion and downright distrust with which the egg dealer and the egg consumer regard the average Texas egg. He is distrustful, because a fertile egg is a bad egg. It contains a live animal. When the egg is put on ice, the animal dies, and with its death, the egg becomes unfit for human consumption. Too many of our Texas eggs are of this sort; hence, they are looked upon with suspicion and sold at a low price. The rooster should be removed from the flock at the end of the breeding season. Contrary to the belief of many people, he plays no direct part in egg production. Eugene Butler, in The Progressive Farmer.

**SPECTACLES AND EYEGLASSES**

## QUIET CEREMONY

**ON LATE JUNE DAY**  
Mr. and Mrs. Paul Mockert, of 601 West Front street, announce the engagement and approaching marriage of their sister, Mrs. Grace Wilson, of 709 East Monroe street, to Mr. Boyd Evans, of Hammond, Indiana, son of Mrs. Grace Evans, of Big Spring, Texas. The marriage will be solemnized on Sunday, June twenty-eighth, at the home of Mr. and Mrs. Mockert.

Mrs. Wilson is the daughter of the late Mr. and Mrs. Isaac Skinner, well known residents of this city in their life-time. In view of the recent passing of Mr. Isaac Skinner, the ceremony of his daughter's marriage will be of the quietest description. But all plans for the event, with its appointed day had been made in the life-time of Mr. Skinner, with his interest and approval, and it was felt best that the ceremony should be carried out as planned. Mrs. Wilson is the center of a large circle of loving friends in this city, who surround her with a multitude of good wishes.

Mr. Evans was formerly in the employ of the Chicago & Alton. He is a young man of fine character and ability. At this time he is connected with the New York Central road, at Hammond, Ind., where the new home will be made. The Sunday Bulletin, (Bloomington, Ill.)

## MATTHEWS-DELONG

Sunday morning, May 24, 1925, at the Methodist church in El Dorado, and at the close of the Sunday school, Mr. J. G. Matthews of Big Spring, Texas, led to the marriage altar, one of our most accomplished young ladies, Miss Ruby DeLong, daughter of Mr. and Mrs. D. E. DeLong, who ranch 16 miles northwest of El Dorado, in the presence of many friends. The wedding at the church came as a surprise to most of the people in attendance, as no previous announcement had been sent out by the family, some few friends were notified Saturday afternoon.

Miss Ruby is the oldest daughter of Mr. and Mrs. D. E. DeLong, and for the past several years has been teaching, she is a graduate from the College of Industrial Arts and has many accomplishments to make a happy home of her own, she has spent her entire life in this county except for the past few years since she has been teaching, she has been away most of the time, only spending her vacations at home.

The groom is a stranger here but we understand is a worthy farmer of the Big Spring country, and is held in the highest esteem by his people, we congratulate him on the choice he has made for his companion. They left immediately after the ceremony for the Hooker Hotel where dinner was prepared for them, and in the afternoon left for their home at Big Spring. El Dorado Success.

Miss DeLong was a teacher at the Junior High School this past year, and won many friends while here.

Mr. Matthews is a nephew of H. H. Padgett of our city. His home is in Cuthbert, Georgia, but he has moved to Big Spring and is engaged in farming.

Their many friends wish them much success and happiness.

## HAINES-HARDING

The wedding ceremony of Miss Nora Harding to Roger Haines was performed Monday, June 10th, at Shelby, Montana.

Miss Harding is the eldest daughter of Mr. and Mrs. J. B. Harding of our city. She is a charming young lady and has a host of admiring friends here. Miss Harding grew to young womanhood in this county but has not been a resident of Big Spring since about 1916, but has been back to spend all of her vacations with homefolks. She is a registered nurse, having taken her training at the Baptist Hospital in Dallas. She served as a nurse in the Navy during the World War, and since that time she has served as head matron of a hospital in San Angelo, Texas.

Mr. Haines, although a stranger to us, is said to be an estimable young business man. Mr. and Mrs. Haines are at home

## LUDEMAN-HALLER

The marriage of Miss Essie Haller to Lawrence Lewis Ludeman was solemnized at the home of the bride's parents, Mr. and Mrs. J. H. Haller at six o'clock Wednesday morning, June 24th, in the presence of relatives. Rev. R. L. Owen, pastor of the Presbyterian church, officiated.

Miss Haller has grown to young womanhood in this city, and has a wide circle of warm friends. For the past six years she has held a responsible position with the State National Bank and has proved herself capable in every respect.

Mr. Ludeman is a promising young merchant in business at Plainview, Texas.

Immediately following the ceremony Mr. and Mrs. Ludeman left for an auto tour to Carlsbad and other points in New Mexico. They will be at home in Plainview, Texas, after July 10th.

Best wishes and happiness are extended by many friends in this city.

## DEATS-MUELLER

Relatives and friends in the city are in receipt of the following announcement:

Mr. and Mrs. Louis Mueller announce the marriage of their daughter  
Helen Marie

to  
Dr. Chas. W. Deats  
Wednesday, June 17, 1925  
San Antonio, Texas

at home, July 1st.  
552 W. Elmira St.  
San Antonio, Texas.

A reception was held in their honor Thursday evening, June 25th at the Japanese Roof Garden, Gunter Hotel, San Antonio.

## CHICKEN BARBECUE ENJOYED

A delightful outing was enjoyed at the City Federation Park last Friday evening, when chicken barbecue and all of its accessories was prepared and served.

Those enjoying this outing were: Mr. and Mrs. W. W. Rix, Mr. and Mrs. J. D. Biles, Mr. and Mrs. R. H. McNew, Mr. and Mrs. Lilburn Coffee, Mrs. H. B. Robb of Dallas, Misses Lillian Frances Gary, Nell Hatch, Mary Holmes, Gertrude McIntyre, and Messrs Carroll Barnett and W. G. Hayden.

## ENTERTAINS AT BRIDGE

The spacious home of Mrs. L. S. McDowell on Scurry street was the scene of a delightful affair last Thursday afternoon, when Mesdames J. R. Copeland and L. S. McDowell, co-hostesses, entertained at bridge. A series of interesting games were played, at the close of which the tables were daintily spread and a delicious salad course was served.

Forty-eight guests enjoyed Mrs. Copeland's and Mrs. McDowell's hospitality.

## HONORING LUCILE BUCHANAN

Misses Dorothy and Louise Jordan entertained with a slumber party on Monday evening, in honor of Miss Lucile Buchanan of Ranger, who is the guest of Miss Margaret Happel. Bananas nut ice cream and cakes were served at bed time.

Those present were: Misses Margaret and Mary Happel, Lucile Buchanan, Mildred Creath, Anna Mae Freeman, Donna Carter and Dorothy and Louise Jordan.

## MRS. J. C. HURT HOSTESS.

Mrs. J. C. Hurt was hostess on Friday afternoon at her lovely home on Scurry street, at which time she entertained at bridge. Nine tables of players were engaged in the series of games.

A color scheme of pink and white was carried out in the refreshments, which consisted of brick ice cream, cake and almond candy.

## BIRTHDAY PARTY

Twenty-four little friends of Hazel Reagan were invited to celebrate her eleventh birthday with her Monday afternoon.

The little folks were engaged in childish games, in which they found much merriment. Refreshments of ice cream and cake were served to her guests. Each one received a

## PIONEER BRIDGE CLUB

A party of pretty note was the one given by Mrs. Harry H. Hurt on Wednesday afternoon, when she entertained members of the Pioneer Bridge club. Three tables of players contested in the games. Mrs. W. W. Inkman making club high score, and Mrs. J. Clifford Hurt winning visitor's score.

A delectable two-course luncheon was served. Out of town guests were Mrs. Emmett Hall of Abilene and Mrs. Lee Hanson of Lamesa.

## ROOK CLUB NOTES

The Rook Club was delightfully entertained Thursday of last week by Mrs. E. M. LaBef, assisted by her sister, Mrs. Johnson of Midland. Club high score was won by Mrs. Joe B. Neel, while visitor's high score was awarded to Mrs. J. M. Manuel. The delicious refreshments served added to the pleasures of the occasion. Reporter Proteum.

## BRIDGE PARTY FOR VISITOR

Miss Mary Johnson entertained at bridge last Wednesday afternoon in honor of her guest, Miss Lois Earnest of Haskell and Mrs. H. B. Robb of Dallas.

Mrs. Chas. Dublin was awarded high score. Delicious refreshments were served.

## SOCIAL DANCE

Misses Mary and Rose Morgan gave a dance to the young social set

Splendid dance music was furnished and the large crowd in attendance report a delightful time.

## ENTERTAIN WITH A BIRTHDAY PARTY

On last Wednesday afternoon, June 24 from four until seven Lillian Crawford and Una Dortha Campbell entertained their friends with a birthday party, all of them meeting at Mrs. Campbell's at 3:30 p. m. They were conveyed out to the park for the entertainment. Lots of games were enjoyed but on account of inclement weather the party was broken up very early. The little girls were showered with a number of dainty gifts by their friends, making their hearts rejoice over such beautiful gifts.

Refreshments were served to the following guests: Mildred Patterson, Hazel Reagan, Anita Davis, Marcella King, Juanita Cook, Sudie M. Haley, Anna Lee Haley, Lillian Crawford, Walter Bunker, W. J. Crawford Jr., Woodrow Campbell, George Neel, Ralph Walling, Claudene Miller, Charline Davis, Eddie Ray Lees, Jemia Johnson, Charline Stovall, Una Dortha Campbell, Julius Neel, Harold Neel, E. L. Haag, Jr., Sonny Talbot, Murry Patterson, Leon Pearce, Edward Johnson, Glynn Rupert Pearce, Mrs. Jas. Campbell and Mrs. Roy Pearce were assisted in serving the little guests by Misses Mary Dallas Collins, Francis Crawford, Effie Crawford and Jimmie Bebe.

## HOME GATHERING AT S. P. ECHOLS HOME

The home gathering at Mr. and Mrs. S. P. Echols on last Thursday was a jolly occasion and many guests were entertained throughout the day. Readings, songs and talks furnished amusement, and delicious refreshments were served to the guests.

All of Mr. and Mrs. Echols children were present, except J. E. Echols of Barstow. The family and relatives present are as follows:

Mr. and Mrs. Harry Echols, Mr. and Mrs. Sterling Echols, Mr. and Mrs. Houston Crocker, Mr. and Mrs. Ray Wilson, Mr. and Mrs. George Gregory, Mr. and Mrs. Holice Nell, Mr. and Mrs. Virgil Gregory, Mrs. George Moore, Lubbock; Mrs. C. B. Musgrove, Lubbock; Chas. B. Musgrove, Lubbock; Miss Ida Mae Echols.

Following invited guests were present from Big Spring: Mr. and Mrs. T. S. Currie and son T. S. Jr., Mr. and Mrs. S. H. Morrison, Mr. and Mrs. A. G. Hall, Mr. and Mrs. B. Reagan, Miss Lucile Reagan, Mr. and Mrs. J. I. Prichard, Mr. and Mrs. S. A. Hathcock, From R-Bar, Mr. and Mrs. S. D. Buchanan, Mr. and Mrs. D. W. Christian, Miss Mattie Buchanan; From Coahoma: Earl Henderson, Vernon McCright, Carl McCright, George Hale, Miss Myrtle McCright, Miss Ruby Brown, Ray Jones, Miss Jessie Coffman, Miss Irene Mullikin, Dick Cramer, Philip Spears, Miss Ruby Elliott.

### DEATH OF L. B. WESTERMANN

A pall of gloom was cast over our little city Friday morning, June 12, when it was learned that Lawrence Berwick Westermann, formerly a citizen of Fort Stockton, had died very suddenly the evening before, from apoplexy, at his country home near Balmorhea.

Death came to L. B., as he was familiarly known, without a moment's notice, but he went to meet his Maker at peace with the world and his fellowman. For several days he had not been feeling especially well, but had kept on at work in his alfalfa hay field. At the time of his death he had just finished a very light evening meal and was returning to his hay baler. His wife, through a window, saw him apparently trip and fall, thinking he might have injured himself, she rushed to him, as did employes on the baler, but when they reached his side they found little trace of life, and within a few moments the spirit of this strong, vigorous, energetic man had passed into the Great Beyond.

In the passing of L. B. Westermann the community and West Texas loses a prominent, progressive and upright citizen; the grief-stricken wife, a devoted husband; the sorrowing children, a loving and self-sacrificing father; and the Methodist church, a loyal and faithful worker. Being of a genial disposition and endowed with much personal magnetism, he had made for himself a wide circle of friends not only in his home community but throughout West Texas, where he was well known as

a reliable contractor and concrete engineer.

Lawrence Berwick Westermann was born April 24, 1874, in Newport, Ky. In early manhood he was happily married to Miss Nell Bingham, of Princeton, Ky., and together they moved, in 1900, to Galveston, to help rebuild the flood torn city, later they moved to Dallas, where Mr. Westermann engaged in the contracting business for himself. In Dallas he responded to the call of the West, coming to Big Spring, where he constructed the court house and several other large buildings. From Big Spring Mr. Westermann drifted to Pecos, where he planned and carried to completion the Baptist church, Pecos Mercantile Company building and the Cowan block. After this Mr. Westermann and family moved to our city, and here he built the court house, National bank, Stockton building, Rooney Mercantile Company building and the Fort Stockton Irrigated Lands Company high line canal and diversion dam.—Fort Stockton Pioneer.

Berwick Westermann of the firm of J. M. Morgan & Co., of this city, is a son of deceased.

### WANTED

Reliable person to write Life Insurance. Does not require a big producer, but an opportunity to grow big. K. L. RIGGS, Mgr. West Texas, Texas Life Insurance Co., Lubbock, Texas. 4121

### ADDRESS BY FORMER LIEUT. GOVERNOR LYNCH DAVIDSON

Delivered before Houston Salesmanship Club, Houston, Texas.

Show me the man who is a good home provider and, with few exceptions, I will show you a good citizen. It was said by Napoleon, one of the greatest military geniuses of his age, that "An army travels on its stomach," meaning of course, that it must be fed and provided for or else it would not travel.

So it is in all walks of life, and that calls for individual economic independence. It calls for man to first provide for his own security, but not selfishly. Individual economic independence creates good citizens, and upon good citizenship government depends for its existence.

If typical of its title, this organization's membership relies upon salesmanship as a means of maintenance. There are many kinds of salesmen: hardware, grocery, dry goods, lumber, steel, oil stock, cigars and cigarettes, pen and paper, peanut and pop vendors, but how frequent do we see or hear of a real "farmer salesman." And so I have chosen Farm Marketing Salesmanship as a theme kindred to this organization and occasion.

No class of people throughout this broad land enjoy less economic independence than the farmer — the biggest business of all businesses — producing annually more new wealth than any other single business. It provides, generally speaking, poorer standards of living, less opportunity to enjoy the luxuries of life than any other single industry, and yet is the very heart, soul and backbone of the nation's prosperity.

The farmers' method of production may be unscientific and wasteful, but cost is variable — up or down, by efficient methods on the one hand, or inefficient on the other — to only a small degree. One single item of Texas farm products — cotton — within a period of less than five years, has ranged up and down in price more than 300 per cent. I distinctly recall in one swift fluctuation it dropped from 36c per pound at high point down to 11 cents per pound at low point. Make the cost of production what you will, no business on earth can withstand such violent fluctuations and downward deprecations on its income. The law of supply and demand is ever present and active. Its influence may be minimized by co-ordinated efficient salesmanship. By the same token, speculative raids upon the farmers' income can be averted.

So long as the individual farmer, with sample in his hands, peddles his crops from door to door, his individual economic independence will be destructively violated and ruination wrought to his business — the greatest business of all — the business of farming.

Salesmanship has become a science. In its most modern and advanced form it is a science of co-operation through corporations. The stockholder buys stock in a corporation — banking, manufacturing or otherwise — and immediately becomes a co-operative unit dealing in some particular product and represented by scientific salesmanship. The agricultural producer is the fundamental basis upon which the success of all such enterprise depends and upon whom your success likewise depends. We are so much concerned with establishing our own economic independence that we are apt at some point to exchange success for selfishness and forget the very basis of our prosperity — the farmer.

But economic laws work unerringly, and will destroy the basis of all prosperity — the farmer — if we continue to forget. In his own mad fight for a footing in life, the business man neglects to shower the farmer's thirsty field with drops of his business experience. Farm marketing salesmanship is the silver lining to the cloud. Farm co-operative marketing organizations are fighting their feeble way to the front. They are a nucleus around which efficient scientific salesmanship may be established for the farmer. He is fundamental to our success and we should contribute to his.

He can succeed by controlling 50 per cent of the flow of his production, and by the same means control the sale of his output. Financing is the first essential to such control. Create control through cooperation in financing and production. Control farm production and sales control of output will follow. Legislation can aid, but not cure the farmers' ills.

Co-operation of the farmer and the business man, whose interests are one and indivisible, will make the farmer salesman a familiar figure in the marts and markets of the world, and bring to the farmer much needed economic independence. The world's welfare lies in being your brother's keeper in this needed evolution in the marketing of the nation's agricultural products.

### YOUNG MEN WANTED

Oklahoma City, Okla. — 2,000 young men from 17 to 24 years of age, including the farmer's boy, the banker's boy, merchant's boy, the millionaire's boy and the widow's helpful son, and young men in all walks of life, wanted by the United States Government for training at Fort Sill, Oklahoma and Fort Sam Houston, Texas, July 28th to August 26th, 1925. The government pays all necessary expenses of those attending, including transportation, food, shelter, uniforms, equipment and medical and dental attention while in camp.

Presidents Roosevelt, Wilson, Harding and Coolidge approved of these camps, and President Coolidge is sending his only son to camp this year.

Parents, relatives and friends cordially welcome and particularly invited to visit them on week ends. For application blanks and information, address Major William Noble, Oklahoma City, Oklahoma.

### BILL BOOSTER SAYS

### HAPPINESS IN ONE'S JOB

A popular theater in Dallas recently had on the week's program a young woman psychologist with marked power to tell correctly incidents of one's past, and to answer questions propounded impromptu from the audience. The questions ran the gamut of human experience, and while the replies were keenly interesting, the questions were more so in that such a similarity of questions came from people in various walks of life.

It was strikingly noticeable that a great number of the audience asked, "Will I succeed in my job?" or "Am I doing the kind of work for which I am best fitted?" Admitting the various influences that might make for success or failure in one's job, it seems that it would be necessary for any person of seriously thoughtful mind to have to inquire of another, "Will I succeed in my job?" or "What do you think I should choose for my vocation?" There should be in the breast of every person of mature age, at least, that "still small voice" that tells one whether or not the kind of work required by the job is the work that one likes better than any other and in which the greatest happiness of success may be obtained.

There are far too many people holding jobs for which they are unfitted. Too many mediocre people in good jobs, and too many mediocre jobs held by latent-efficient people. They are merely getting by, neither developing in the job, nor developing the job itself. They are barnacles stuck on the ship of life with no courage and determination to make the sacrifices necessary to become fitted to hold and enjoy a desired job that would provide happiness in doing the kind of work liked best, together with remunerative consideration.

It is just as foolish to expect every farm boy or girl to be a farmer as it would be to expect the children of the preacher, merchant or lawyer to follow exactly in father's footsteps. Opportunity is not lacking for the girl or boy who has the grit and initiative to strive and sacrifice in order to attain success in a chosen vocation that provides the assurance of being the work one likes best. A paramount need of our schools is to provide a medium of education that will enable girls and boys to get an insight and understanding of self which will result in their being able to determine definitely the kind of vocation to choose, and to find in school the means to that end. Fired with an ambition to succeed along a definite line, and finding in school the opportunities for necessary study

and training, girls and boys leaving school, would be about on the tide of a change of jobs from until forced to wonder "What am I best fitted for and Ranch.

**TEXANS WILL AID LEGION FUND IF NEED REALIZED**

The State Legion Commander of Texas, Mark McGee, says that Texas will respond whole-heartedly to the appeal for support of the Legion endowment fund for disabled veterans and orphans of former service men, and that everyone will do his part if he understands the needs and purposes of the fund.

"There are 35,000 war orphans, and many times that number of sick and disabled ex-service men whose lives have been blighted by the war," Commander McGee said.

"We cannot do too much for them. Our debt can never be fully repaid. The American Legion has assumed the obligations of seeing that these two consequences of the war receive a full measure of justice, but we need the public's assistance to the limit."

On a farm near San Antonio, Texas, amidst the onions and spinach, a cow and a young flock of chickens, is a living example of the justice and wisdom of aiding any man who lost his health in the service of his flag, and needed but a helping hand in the period of his illness to place him once more among the self-supporting, valuable citizens of any community.

This living example is Bura J. Evans, who, but a short time ago, lay in a government hospital fighting tuberculosis contracted in the service. He is one of the 687,158 disabled men who requested the government to aid him, and is one of the 83,818 men who actually have been rehabilitated. There has been 379,515 men whose requests could not be granted by the government, and thousands of other disabled veterans who, through ignorance of their rights, or discouragement, have not asked aid.

It is for these unfortunate men that The American Legion, with a record of already having helped thousands when that organization did not know from time to time where the finances would be obtained, now is raising a national endowment fund to carry on such work permanently. The fund also will provide homes and education for the helpless babies of former service men.

The success of Evans is a fair example of what will be done by any disabled man who, by very reason of his trying days of service when he carried on bravely, giving his all for his country, today is a loyal citizen with a serious mind.

Evans won his battle with the dreaded white plague and is making come true a dream he nursed as he lay helpless in a government hospital. He was given training in scientific agriculture and proceeded to acquire a farm of his own.

This year the disabled man counted \$2,000 worth of onions and nearly that much spinach among his sales. He has a tractor, a cow and chickens. Since going to the farm he has purchased an additional 120 acres.

And today, while Evans is happily on the road to health and prosperity, Texas communities are going over the top in raising their share of the endowment fund for the others who have not been so fortunate. Every Texan, when the needs and purposes of the endowment fund have been understood, is doing his part.

**SUGGESTIONS FOR EXPERIMENT**

There has been much ado of late about the effect of newspaper publicity on crime. We doubt if the policy, as announced by some newspapers, of segregating news of this character on one page will be any more a satisfactory answer to the problem than the policy, as advocated by some extremists, of suppressing all crime news.

But we should like to see some metropolitan newspaper make this experiment: cease making heroes of criminals by publishing long interviews with them in their cells, pass up the chance to print pictures of the costly funerals of slain gangsters and give less prominence to the sickening details of the crime itself and more to the rigors of the punishment, when the punishment is meted out. This may not be an answer to the problem but it, at least, would be an interesting experiment.—Publishers Auxiliary.

**FINE HOME FOR SALE**

# An Improved Gasoline at the Same Low Price

No need to pay several cents extra a gallon for any gasoline now --- because you can get MOTOPOWER --- The Gasoline that Lubricates --- at the same price as ordinary gas. Thousands who have been paying a premium for "high test" and other "special" gasoline, have now turned to MOTOPOWER. In addition to actually saving several cents per gallon, they are getting more power, greater mileage per gallon and have reduced their repair bills to a minimum. These results come from the fact that MOTOPOWER lubricates !

## MOTOPOWER The Gasoline That Lubricates

**SAME PRICE AS ORDINARY GASOLINE**

Concentrated MOTOPOWER is a combination of high grade heat resisting oils that enter the combustion chamber with the gasoline vapor and lubricate the upper cylinder, valve seats and stems. It softens and reduces the carbon deposit and with the constant film of lubrication, keeps the valves properly seated, thereby assuring good compression. And good compression is the seat of power.

Our claim of more miles to the gallon of MOTOPOWER Gasoline is based on the fact that this new motor fuel keeps your engine in good condition --- properly lubricated and free from foreign deposits and friction. The natural result is that a smaller quantity of gasoline does the work. It's common, every day "horse sense" --- not magic.

**POTASH A PLENTY IN TEXAS IF ECONOMICALLY DEVELOPED**

Potash is one of the three elements of plant food in which soils are often deficient and which must be supplied in fertilizers to increase crop yields. In Texas, potash is less often needed by our soils and crops than either nitrogen or phosphoric acid, but as time goes on the demand for potash will increase, and it is interesting to learn that West Texas very likely has rich beds of potash, which may be mined at a profit. Mining engineers and geologists say that West Texas has the same sort of potash beds that is found in Germany, except that the Texas formation is much deeper.

It is from the German and Alsotian potash beds that most of the potash used in commercial fertilizers is obtained. The Texas beds are located at the South end of the Staked Plains, between the Marathon and Wichita Mountains. If these beds can be mined profitably without the protection of a very high tariff, Texas farmers are fortunate in having a supply of potash close at hand. On the other hand, if it is necessary to exclude German potash by a high tariff to develop these mines, then Texas farmers will be forced to pay high prices for potash, and they will pay dearly for the development of a local potash supply.—The Progressive Farmer.

**DESIRABLE LOTS FOR SALE**

Tangee: The dollar lip stick that lasts a season. . . . Cunningham & Philips.

**FAIR SHOW FOR FARM BUSINESS**

Good bookkeeping goes with good farming. And it is because modern agriculture is manned by intelligent business men that we hear so much about the producer's precarious economic position. Many a proprietor of a general merchandise store has been grubbing along for years on a starvation basis. Lesser business men than the successful farmer — from bootblack to banker — are content barely to "get by."

Not so the upstanding soils scientist of the Southwest. The competent farmer of today is not content with rope harness for his work stock and rags for his children. He is not willing to be a living liability on the books of progress.

Is it any wonder that intelligent agrarians, reviewing the indisputable records of costs and sales, considering the gradual deterioration of their land and their buildings and their equipment as a result of economic hardships over which they have no control—is it any wonder that some of them should buy out an easier business in town, and let someone else assume the worries?

The spectacle at Washington — and at nearly every State capital — is one to chill the very soul of rural ambition: Politicians gambling for the garments of the stricken farming industry, as the worm-eaten sinners of old gambled for the garments of the Crucified One. Where is there hope when the people's representatives play as at cards with the palpitating heart of human life itself—the meats and cereals and fibers? Where is there encouragement, in the face of sham legislation intended to attract votes rather than rural prosperity?

Necessity being the mother of ingenuity and the answer to many a baffling question, some day politics will be exiled from agricultural production. In self-defense the ballot-casters will one day "turn the rascals out," whether they be standpats or self-labeled progressives. Some day—and the time is not distant—urban business and rural business will meet and shake hands on a common basis of economic equality. And that is all that agriculture and the friends of agriculture are asking. — Farm and Ranch.

**HEMSTITCHING 7 1/2c PER YARD.**

Am prepared to do hemstitching for 7 1/2 cents per yard and guarantee work to be satisfactory in every way. Workroom opposite postoffice — open from 8 a. m. to 6 p. m.

Mr. and Mrs. Ed Wolcott were here last Friday afternoon from their ranch in Martin county. They were motoring to Oklahoma where they will visit relatives.

**TEXAS**

By Phebe K. Warner

**Divisions.**

All Texas is divided into five parts. These parts are men, women, boys, girls and babies. Numerically these parts are nearly equal. They vary more in size and age than anything else. And really they are all one and the same thing in different stages of development. That is BABIES. Every one of us has been a baby at some time or other and many of us are yet. A few of us never will be anything else no matter how long we live. There is nothing quite so hopeless and helpless in all this world as adult babies.

Next in point of size and years and development come the boys and girls. This is the first branching out of the family tree. As long as children stay babies they are treated very much the same. But after a few years we begin to dress them differently, we begin to talk to them differently and we begin to manage them differently. As a rule at this dividing stage most of us turn the boy loose to browse for himself, while we keep the little girl close in and try to make a "little lady" of her.

**Path of Life.**

The path of life is very straight and narrow for most babies. This path is about five years long and then the cute period begins to wane. The boy babies begin to act like boys and the girl babies begin to act like girls. Some times our most devoted mothers try to force those little feet to travel the same path until they are ten or fifteen years old. Nothing is quite so tragic as trying to make a boy live the life of a girl after he is fully conscious that he really is a Boy. Mamma seldom ever makes the mistake of forcing her little girl to live a boy's life although of the two mistakes the latter might prove the least stifling and the most healthful. Up until the legal school age children live mostly at home with their mother and some times they meet their father for a few minutes around the meal hour. Unless they live on the farm. The farm father lives closer to his children than any other man could if he would.

**School Time.**

Around the age of six years our little folks are started to school. Right there the very first day of their school life their training should take a new turn. Right there the very first day of school the boys should be started up the road of industry that would some day help them climb to the very tip top of the hill of life and the little girls should be started toward their greatest of all missions in life, the work of the home. But they are not. In most of our schools even to this enlightened day those little boys and little girls are kept in school until they 18 years old, if they want to stay, studying, reciting and learning the same lessons and neither of them being tied onto the duties of life or fitted to perform them. There are schools in this Nation and in almost every town where the boys and girls are forced to study the same things, learn the same things, recite the same things and solve exactly the same problems for years except when the play hour comes and then they are herded into isolated groups. Segregated just when it would be the greatest inspiration and the most fun to be together.

During the earlier years, say up to twelve, our boys and girls in Texas and America all have the same teachers and most of these teachers are women, the same as their mother who was their teacher the first six years. And until just a few years ago our boys seldom ever had a teacher or a friend or companion among MEN until they reached the closing years of their high school. And most of them, the very great majority of them, never reached the high school at all.

**New Day for Boys.**

But a new day has dawned in America for boys. It is the greatest day in the history of the American Boy. It is the day when Father and Son are beginning to get acquainted with each other. And it is going to be a happy day. Because Son is going to grow more manly as he associates more with the right kind of men and father is going to keep more youthful and human by associating with all the boys of the community. The coming of the Boy Scout movement will do more to reduce our taxes and eliminate our juvenile courts, close our jails, reduce the appropriations for our reform schools and reform our penitentiary system than all the new laws that could be invented. Keep the boys busy. Keep them growing every day in the right direction. Keep every brain cell

**And Our Girls.**

They are just the other half of the whole human race in its most formative period. If this world, if this present generation could only be made to realize the importance NOW of the lives and the training for life of our GIRLS. It is the girls of today who will be the mothers of the whole world fifty years from today and even before that period. Nearly every mother living this morning will be in her grave fifty years from now. How many mothers are living now who were mothers fifty years ago? What are we doing to prepare our girls for the greatest work in the world, the management of the home and the rearing of the next generation of children? Why, every wheel of industry, every plow, every business house will be stopped and closed fifty years from now but for the girls of today. They must not only reproduce themselves and a new generation of women to take their places but they must likewise reproduce and rear the next generation of MEN. The whole world of men are dependent almost entirely on the women for the first fifteen years of their lives. Father is supposed to furnish something to eat and wear and a place to sleep. Some times he does and some times he doesn't. Some times he can and some times he can't. Some times he will and some times he won't and some times he is dead and gone just when he is needed most. Then who carries on? Mothers, it is our duty to provide a better training for the girls of this Nation. What are we doing to bring such a condition to pass?

Hear Prof. F. W. Kazmeyer, Poultry expert at the court house at 3:00 p. m. tonight (Friday), June 26th. If you are interested in poultry you will find this one of the most interesting and instructive talks you ever listened to. This lecture is free.

Morris H. Jones Jr., who has been attending the University of Chicago, is here for a visit with his parents, Mr. and Mrs. M. H. Jones. Morris was a graduate from the university this year, having completed the medical course there.

**GENTS WRIST WATCHES**  
The latest designs, at reasonable prices. Clyde Fox.

**All Gents Furnishings at Cost.**

Clyde Fox.  
Room and board for 2 men \$35.00. Phone 255. 40-1f

Mrs. Zack Mullins and children visited friends in Pecos Saturday.

Miss Mabel Moss of Dallas spent last week end here with her mother.

Miss Mary Johnson left Tuesday night for a visit with friends in Fort Worth.

P. F. Cantrell and children, Ray and Gladys, returned Sunday from a visit in Stamford.

No matter how hot the day we can count on cool nights. And that's worth a whole lot.

Mrs. Roger White and son, Roger Jr., of Amarillo, are here visiting relatives and friends.

Hiram Anderson left Monday for Phoenix, Ariz., where he has accepted a position as electrician.

Bob Helms returned the first of the week from a visit to the Reagan and Crockett county oil fields.

A construction crew have been busy here this week stringing copper wires on the coast to coast circuit of the American Telegraph and Telephone Co.

O. O. Chasteen and family arrived last week from Mansfield, Texas, to make their home in this city. Mr. Chasteen will be a member of the T. & P. baseball team.

What do you think of the plan of "kicking in" on a United Charities Fund? Let's do this and help discourage the professional grafters who beg gasoline, a feed or a bit of loose change from store to store, or door to door. The beggars have easy picking at present.

**REMOVAL SALE AT CATHERINE HAT SHOPPE**

50 hats at \$1.50 each Saturday and Monday. — advertisement.

Ray Jones of Littlefield, Texas, arrived Friday for a visit with G. L. Brown and family.

We want a chance to buy your chickens, butter and eggs. P. & F. CO. 1-3 lb. can good cocoa. 5c. P. & F. COMPANY.

Misses Mary Bell and Era Saunders and Mrs. Odessa Tuckness of Big Spring have entered Draughon's Business College, at Abilene, for courses in Shorthand and Typewriting.

Mrs. J. N. Rosenwasser and daughter of Lockhart returned with Mr. and Mrs. Vic Mellinger and will visit them for some time. This is their first visit to West Texas and they are delighted with our climate, especially our cool nights.

J. D. Biles, Uncle Walt Smith, Will Olsen, A. B. Edwards, Louis Biles, and Jim Bob Hatch returned last Thursday from a fishing trip on the Llano river. They report mosquitoes and chiggers mighty plentiful but the fish were mighty scarce.

We must not forget that we need a fine agricultural exhibit at the Dallas Fair this fall. Such an exhibit will do much toward attracting homeseekers to our county, and many new homeseekers will be headed toward West Texas about cotton picking time.

The sentiment in favor of paying twenty blocks in the business section of the city seems to be growing. It would certainly add to the attractiveness of our city to have this portion of Big Spring fitted up with permanent streets. July 17th is the date our folks will vote on the proposition.

**A BROAD CREED**

Deploing the present tendency to antagonism over morals and beliefs, an able writer and publicist has attempted to set out a common creed to which all right thinking persons might subscribe, leaving out those questions on which there are honest differences of opinion.

Included in the set of principles enjoined are these:

Seek the truth and defend it; execute justice, tempered with mercy; be humble and benevolent; work and do not prevent others from working; protect life and health; develop body and mind; strive for pure thoughts and feelings; honor parents and teachers and be civil to all; be loyal, liberal and tolerant; seek peace; aid in achieving the brotherhood of man.

If everyone would make an honest effort to illustrate these fundamental virtues, it would not be long until the world would be a much better place in which to live.—Ex.

**LOTS FOR SALE**  
48 fine residence lots in Cole & Strayhorn addition at \$100 to \$175 each; and 33 lots in Jones Valley addition at from \$20 to \$40. See or address M. W. HARWELL, Big Spring, Texas. 261f

**COTTON SEED FOR SALE**  
Mebane or Acala, \$1.00 per bu., while they last. Address L. E. ARMLEY, Ackerly, Texas. 33-1f

#### ABILENE TAKES TWO GAMES

The Big Spring T. & P. team surely had an off-day last Saturday when the Abilene All-Stars played rings around them. The heavy hitting of the Abilene sluggers and the many costly errors of the Big Spring boys enabled the All-Stars to pile up 14 scores while the T. & P. just did escape going into the poultry business with a goose egg.

The box score given below tells the whole story:

Big Spring		Saturday game		Abilene		Saturday game						
AB	R	H	PO	A	E	AB	R	H	PO	A	E	
Romano, rf	4	0	1	0	0	1	Foster, lf	6	2	3	5	0
Andrews, D, lf	4	1	2	0	0	0	Clark, 2nd	6	1	2	4	2
White, 3rd	3	0	0	1	2	1	Lororn, 3rd	5	1	1	0	4
Adams, lf, c, p	4	0	1	5	0	0	Morris, ss	6	1	3	1	3
Anderson, 1st	4	0	0	12	0	1	Wolf, 1st	6	1	1	10	0
Chastain, c	2	0	0	3	3	2	Eates, rf	6	2	1	0	0
Williamson, ss	4	0	0	1	6	2	Stevens, cf	6	1	0	0	0
Andrews, P, 2d	3	0	1	3	4	0	Washburn, c	6	3	3	7	2
Baber, p	2	0	0	1	1	1	Wicker, p	5	2	4	0	0
Moore, p	0	0	0	0	0	0						
Ratliff, lf	2	0	0	0	0	0						
Payne, c	1	0	0	0	0	0						
Total	33	1	5	27	16	8						

Innings pitched—Baber, 6; Moore, 1-3; Adams, 1-2-3; losing pitcher, Baber; bases on balls, Baber, 1; passed ball, Chastain, 3; Washburn, 1; strikeouts, Baber, 4; Moore, 4; Wicker, 7.

More than six hundred fans turned out for Sunday's game between the Abilene and Big Spring team and it was as fine a game as you would witness in the Texas or other leagues, up to the ninth inning, with the score 2 to 3 in favor of the Abilene team. An error or two by the home team and some heavy hitting by the Abilene batters resulted in four scores being marked up for Abilene in the ninth. The Big Spring boys made a desperate attempt to even things up in their part of the ninth but couldn't make the grade, although they succeeded in getting three men on bases.

#### RESIDENCE FOR SALE

Brand new residence with two lots for sale cheap. Cash or installments.

GEO. L. WILKE

Mr. and Mrs. F. C. Hopkins returned Tuesday morning from a visit with relatives at Kaufman. Mrs. Hopkins spent two weeks there, while Mr. Hopkins spent the week end. Their neices Misses Polly Miles and Jene Hoffman accompanied them to this city for a visit. F. C. said the trip convinced him that old West Texas has the edge on most sections as to crop conditions.

Bernard Grant, sentenced to die August 14th for the murder of a Chicago policeman refused to permit doctors to attempt to save his life when he was stabbed five times by his accomplice in the jail at Chicago. Might as well die now as on August 14th was the way he sized it up.

Cotton weather has been in force the past several weeks. Experienced cotton men say this dry hot weather is just the kind of weather cotton needs as it forces cotton to grow a strong tap root, and cotton with a healthy tap root can go a long time without rain.

Mr. and Mrs. Val Forrester and daughter Miss Theresa and Mrs. Frances Watts of Roscoe who had been visiting Mrs. M. Richardson and family left for their home the latter part of last week.

Miss Corinne Flaniken of Lamesa arrived Monday for a few days visit in this city, the guest of Miss Gertrude McIntyre. She left Wednesday for California where she will spend the summer.

Born to Mr. and Mrs. E. A. Ingram at Memphis, Texas, on Tuesday, June 16th, a bouncing boy. Mother and babe are getting along nicely.

When you feel inclined to grumble at our warm days just remember that winter isn't but six months distant.

Mrs. B. F. Wills who has been looking after property interests in this city left Tuesday morning for her home.

### SHE IS READY FOR THE HOLIDAY

Mary has an idea about all holidays. She feels that epic-span new clothes do most to make them glorious days. For the Fourth of July she has ordered, through her Mother, a pair of fine slippers. We have them for girls all ages.

\$ .85 to \$5.25

### SINCE SCHOOL HAS BEEN OUT

Little girls have lots of time to play. A nice cool Khaki Play Suit, in sizes from 4 to 14.

\$1.95

### A PAIR OF SOCKS FOR STYLE

In fancy plaids, solid colors, and fancy tops. For all ages that wear socks.

25c to \$1.25

### NICE AND COOL

Girls gingham dresses for the Eight to Fourteen age.

\$1.69

Need a pair of socks, Mistress Sarah, perky Belt or band?

We've every thing you need to make your frocks grand.

## AWAY

Away to vacation land! Hurrah for vacation time when almost every clock tick means something new to do. Let's go away with brand new clothes and enjoy the fun that's always bobbing up!

### BOYS ARE REAL SPORTS

Why not wear a real sport belt with the "LONGS." A very pretty belt for "Real American" boys.

75c

A sport oxford for the little man, just like Dad's. We have them in smoked elk trimmed in tan, solid tan, and mahogany and smoked elk.

Neckties made for boys, in bright colors, plaids and stripes.

#### NOTICE OF ELECTION

WHEREAS, the City Council of the City of Big Spring, Texas, deems it advisable to issue Bonds of the said City for the purpose hereinafter mentioned:

THEREFORE BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF BIG SPRING, TEXAS, THAT an election be held on the 17th day of July, A. D. 1925, at which election the following proposition shall be submitted:

Shall the City Council of the City of Big Spring, Texas, be authorized to issue the Bonds of the City of Big Spring, Texas, in the sum of \$60,000.00, payable \$1500.00, January 1st, each year, with interest at the rate of 5 per cent per annum, payable semi-annually Jan. 1st, and July 1st, each year, such Bonds to be known as serial Bonds, the last annual payment on the principal not to exceed forty years, for the purpose of improving and paving Streets of the City of Big Spring, and also to levy a tax sufficient to pay the said Bonds maturing annually, and to pay the semi-annual interest, as the same becomes due, as authorized by Chapter No. 1, Title 18 Revised Statutes 1911, and Article 882 Revised Statutes 1911 and House Bill No. 42 of the Regular Session of the 37th Legislature of Texas, Amendments thereto and the Constitution and Laws of the State of Texas.

The said election shall be held at the City Hall in the City of Big Spring, Howard County, Texas, and J. A. Stephens Presiding Officer, and S. R. Thompson, D. C. Maupin, Judges, and Mrs. E. R. Watts and Mrs. Mary Gilluly, Clerks, are hereby appointed election Officers and Managers, with full authority and power under the law as such.

The said election shall be held under the provisions of Chapter 1, Title 18, Revised Statutes 1911, and Article 882 Revised Statutes 1911 and House Bill No. 42, of the Regular Session of the 37th Legislature of Texas, Amendments thereto and the Constitution and Laws of the State of Texas; and only qualified voters who are property tax payers of the said city shall be allowed to vote.

All voters who favor the proposition to issue the Bonds shall draw a line through the phrase "Against the issuance of Bonds," leaving the phrase "For the issuance of Bonds," unscratched, and deposit the same with the Presiding Judge of the said election as a vote in favor of the proposition.

All voters who desire to vote against the proposition to issue the Bonds shall draw a line through the phrase "For the issuance of Bonds," leaving the phrase "Against the issuance of Bonds," unscratched, and deposit the same with the Presiding

Judge of the said election as a vote against the proposition.

The manner of holding the said election shall be governed by the laws of the State of Texas regulating general elections.

The Mayor is authorized and directed to cause a copy of this order, certified by himself and attested by the City Secretary under seal of the City, to be posted on the door of the City Hall and at three other Public places, within the City limits of Big Spring, for at least 21 full days prior to the date of said election, and cause the same to be published weekly in the Big Spring Herald, the five consecutive weeks, or issues, namely the issue of June 19th, 26th, and July 3rd, July 10th, and July 17th, 1925; such copy so posted and so published shall serve as a proper notice of said election.

Approved and signed this the 4th day of June A. D. 1925.

 Department of Journalism  
 University of Texas

### Texas Leading Other States.

Some time ago it was announced that Texas was leading all the States in exports; now we learn that it is ahead of the others in crop production; and it will soon be first in manufacturing. When it turns its attention to making finished products of what it grows, Texas will be the richest state in the Union. Texas has been slow to take up manufacturing, because quicker returns have been obtainable from farming and stock-raising and merchandising, and because there has not been sufficient money available for factories. Now that there is idle money in all the banks it will be seeking investment in manufacturing industries.

### Guardians of the Public Morals.

Some half dozen Travis county men are in trouble. They objected to young couples parking their cars along the highways because they suspected that they were engaged in the naughty practice of "spooning." The charge against them now in the courts is that they undertook to punish several parties parked along the roads in cars even to the extent of whipping and beating them. Officers of the law say that "spooning" may be naughty, but that it is not against the law, and that even if it were unlawful the place for punishment is in the courts and not at night along the roadsides by self-assumed enforcers of law. The first love-making, now dubbed "spooning," of which there is any record, was in the Garden of Eden, and it has been going on ever since.

### Money in Egg Production.

Some citizens at Rising Star, Texas, in January, 1924, invested in a 10,000-egg incubator. In eighteen months the incubator has paid the stockholders 100 per cent on the original investment, and the farmers who are engaged in the chicken and egg business agree that 100 hens will pay the grocery bill of an average family, with a neat sum left over for other expenses. The farmers around Rising Star have been keeping books on their chicken pens and have found that with eggs selling at average prices there is a net profit in the egg business of 20 cents a month for each hen. What is being done there can be done almost anywhere, and the original investment is small.

### Talking About East Texas.

The Texas Press Association has been in session at Tyler, and the result is going to be that East Texas will be getting praise from all the country papers of the State. Occasionally the papers of one part of Texas say ugly little things about other parts of the State, but that is because Texas is so big that editors can not know the good things about all of it. With the editors filled with East Texas peaches, watermelons, berries and fried chicken, there will be a satisfactory knowledge of that part of the State that will destroy carping criticism for a time at least.

### Courting Northwest Texas

The race of the railroads to reach parts of Northwest Texas not heretofore sufficiently served by the roads is an indication of the general prosperity of that part of Texas. There was a time not long ago when huge bonuses had to be paid railroads to build into that part of Texas, but now there is much spirited rivalry as to which shall occupy the territory. It seems that the automobiles are not altogether killing railroad traffic.

### Tomato Growers Getting Rich.

Over around Jacksonville the tomato growers are getting rich with the year's tomato crop. Jacksonville looks like an oil boom town. Electric lights are strung the streets and tomato sales continue all through the night. At the height of the

ped in one day and one of the three banks received \$211,000 in deposits that day. It was not stated how much the other two banks received. There seems to be money in other things than cotton in Texas.

### Texas Mountain Resorts Attract

Kerrville and Alpine and other resort towns in the mountain section of Southwest Texas are drawing larger crowds of Texans this summer than ever before and all report that they are delighted with the Texas climate. When once Texas resorts prepare to care for the crowds and let people know the inducements Texas has to offer for health and pleasure seekers, we will wonder why we ever thought it necessary to go to California or Colorado to spend a pleasant summer.

### The Rio Grande Valley Country.

The Rio Grande Valley is beginning to rival California and Florida in growing citrus fruits and vegetables. As soon as transportation facilities are what they should be, there will be a development in that section of Texas such as has scarcely been seen in the United States. It will be the winter garden and orchard of America.

### SOUND DOCTRINE, MEN

Here's balm for us oppressed and down-trodden men; and it comes from a woman who is also a wife:

"America needs more militarism in the home, with Dad acting as Commander-in-Chief. Every man should be the boss of his house or he should not have a house."

That from no less an authority than Mrs. Walter Ferguson, whose wisdom has made us men sit up and take notice, as well as consolation, on previous occasions.

And I rise to remark that while I can't call Mrs. Ferguson a gentleman and a scholar, I can speak for the hosts of husbands in this great country when I say that she is wise in her day and generation.

Mrs. Ferguson is right, of course. We husbands have known it all along. If there is one thing a husband and father ought to be it is Commander-in-Chief of the great American home.

If all wives were as wise as Mrs. Ferguson is, home would be an ideal place for husbands to live in, or at. Our word would be law. Wives and children would find keenest delight in obeying our every whim and caprice. Every darned one of us would be a king.

We could dictate the fashions, tell Mother what she could wear and daughter whether she could bob her hair or wear it long.

We could wear our old clothes, go without collars in hot weather, throw cigar ashes on the parlor carpet and have spittoons all over the place.

We could sit back in an easy chair, have Mother bring us our slippers, clean our pipe, load it up with fresh tobacco, light a match and hold it until the old dudeen got going good.

Yes, and Daughter would tell us all about her beaux, ask us how long they could stay and whether they could sit in the parlor or on the porch.

And Son wouldn't think of going out without consulting us and would be tickled stiff to come in any time he thought it would please Dad.

All of us husbands will agree with the wise Mrs. Ferguson when she says that "there is no getting around the fact that the general run of women must be bossed a bit in order to be thoroughly good and happy."

And we're so anxious to keep them good and happy that we're willing to boss 'em. Every one of us is willing to be Commander-in-Chief of the home. Every one of us knows that he ought to be boss, and is willing to be boss.

The only trouble with it is that our wives won't let us, darn 'em.—N. D. Cochran in Fort Worth Press.

### REGISTERS 84 HEREFORDS

Sterling City, June 15. — J. L. Glass, Sterling County ranchman, has registered 84 Hereford calves with the Hereford Cattle Breeders' Association at Kansas City, Mo., it was announced here this week. The cattle were raised on the Glass ranch near Lacy Valley. They are said to be of a high type, passing high tests in the registration with the association.

Bring your shoes to the Model Sweet Shop to be SHINED by an EXPERT. We use the very best in polishes. We specialize in dyeing shoes. Our prices are reasonable. COURTNEY DAVIES, 32-

BUY A HOME OR FARM  
 Now is the best time in the world to invest in a home or in a good

## IF YOU WOULD LIKE TO KNOW

how much rent MOTHER NATURE charges you on implements and machinery which are left out in the open, just figure up how much you would save if you could make your equipment last twice as long as it has been lasting.

## You'll Find That She Is a Pretty Greedy Landlord

After you have figured out how much rent you are paying for space out in the open, let us give you an estimate on the cost of a good implement shed, then judge for yourself whether or not it would pay to make a small investment that will double the life of your implements.

We have a number of plans for modern implement sheds which you are at liberty to inspect at any time. These plans are furnished FREE to you.

## How Often Do You Take a Bath?

WHY NOT GIVE YOUR CLOTHES THE SAME CHANCE

—suppose you only bathed once every month!

We may be getting a bit personal inquiring how often you bathe—but just suppose you only indulged once every month! Gives you a rather disagreeable picture, doesn't it?—a picture of unhealthfulness and insanitary conditions.

—but what of your clothes? Think how many people let their suits or their dresses go one, two or sometimes three months without ever paying a visit to the cleaner.

—and your clothes get just as dirty as your skin! Germs and disease lurk in unclean clothing. The only sure way to eliminate these is to have your garments cleaned regularly by a reputable cleaner.

—and clean clothes give you so much more service that the cleaning soon pays for itself in the added wear that you get from your garments.

## Mr. Farmer! Mr. Ranchman!

This Association includes a big portion of the most prosperous, and the most efficient farmers and ranchers in Howard and adjoining counties.

Their credit is good anywhere, as a rule, for they are good financiers.

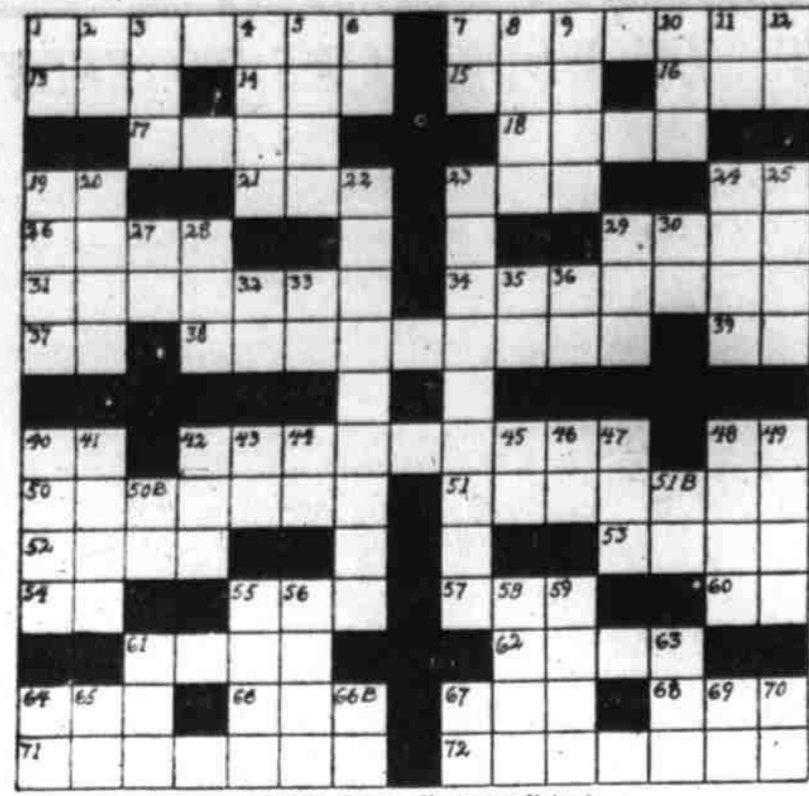

Many of them some few years ago were struggling hard to get a start. Many have, since obtaining their first loan, purchased more land, and built better homes.

This is proof, through actual experience, that the Farm Loan System is the most satisfactory Loaning Agency available to farmers and ranchers.

**SULPHUR AS AN INSECTICIDE AND FUNGICIDE**

Some readers of my previous article concerning sulphur seem to have secured wrong impressions as to its use as an insecticide and fungicide. If the idea has been gained that sulphur has no value for dusting and spraying, it is an incorrect as exaggerated statements referred to in my previous article, chiefly dealing with sulphur as a fertilizer. My article did not refer to lime-sulphur solution, and was not intended to discourage the use of spraying or dusting sulphur for the control of red spider or rust mites of citrus trees, cotton flea or red spider on cotton, powdery mildew of roses or grapes, or any other insects or plant diseases for whose control it is recommended by a competent authority. As stated in the article referred to: "Those who want to use sulphur for insects or plant diseases should first find out from some competent authority when and how it is effective and use it accordingly". Anyone who follows the advise in the last sentence can hardly go astray, and unbiased information can be easily secured free from the Texas Experiment Station, the A. & M. College, the United States Department of Agriculture, or the County Agent.

It is only fair to say that the exaggerated statements regarding sulphur as a fertilizer, insecticide or fungicide referred to in my previous articles, did not originate with the Stauffer Chemical Company, the Freeport Sulphur Company, or the Texas Gulf Sulphur Company. These concerns fully recognize the fact that unwise recommendations or exaggerated statements leading to failure in the use of sulphur, would have the effect of arousing prejudice against it. They are cooperating with agricultural agencies to find out, how, when, and where sulphur can be successfully used, and basing their recommendations for the use of sulphur as an insecticide and fungicide upon the work of the Experiment Stations and the United States Department of Agriculture.

In using flowers of sulphur as a dust, it is important to get light, finely divided flowers of sulphur.

The control of insects and plant diseases is studied by the Entomologist and Plant Pathologist, not by the Chemist. It is to them we must look for expert advise and information. The proper use of sulphur to destroy or control plant diseases is briefly stated as follows by Dr. J. J. Taubenhans, Chief of the Division of Plant Pathology and Physiology of the Texas Experiment Station: "Flowers of sulphur used as a dust is very effective for the control of powdery mildew on certain plants, such as grapes and roses. It cannot be advised for use on powdery mildew of cantaloupes or cucumbers because it burns the plants seriously. Serious damage was caused in the Valley last year by the use of sulphur dust on cantaloupes. This Division is studying powder mildew of cantaloupes and we hope to be able to advise methods for its control. Flowers of sulphur have also been effective to control scab of Irish potatoes and pox of sweet potatoes, on certain soils. It is not effective on soils containing much lime, such as some of those on which potatoes are grown around Wharton. Lime-sulphur spray is used in controlling many plant diseases such as peach leaf curl, peach scab and brown rot of peaches."

Dr. F. L. Thomas, Chief of the Division of Entomology of the Texas Experiment Station, makes the following statement in regard to sulphur as an insecticide: "Sulphur applied as a dust has long been recommended and used to control red spider, and also rust mite of citrus trees. It has recently been recommended by Dr. W. D. Hunter, of the U. S. Department of Agriculture, as valuable in controlling the cotton flea or hopper. It is not at present recommended for any other insects found in Texas. The use of sulphur in all insecticides, especially dusts, is recommended by good authorities, not for the purpose of killing the insects but to increase the adherence. Lime-sulphur solution is used for the control of rust mite and red spider of citrus trees, and other insects. It is a very extensively used compound. However, lime-sulphur and sulphur are entirely distinct articles, and should not be confused."

A cordial welcome to every one.

We are doing mighty little toward encouraging the raising of grain sorghums as a part of the money crop. With a grain elevator here, one large enough to provide adequate storage, a market would be established and more of our farmers would depend on row crops for ready cash. With less trouble and expense to plant, cultivate and harvest, the grain sorghums will almost equal cotton in value when you consider how many more acres one man can look after.

**Old Curiosity Repair Shop**  
China, glassware, furniture, sewing machines, typewriters, guns, bicycles, electric flat irons, electric washing machines, vacuum sweepers, fans, phonographs, automobiles, repaired. Hydrant bibe and cut-outs, renewed. Inner tubes vulcanized. In fact, we are prepared to do all kinds of repair work. Give us a trial. Shop at 564 Jack street. J. R. CRAVEN.

**WE BELIEVE**

That business goes where it is invited and where it is appreciated.

On this basis we request a visit from you, want you to see the special offerings in Dress Goods, and Shoes for summer.

Many find the very things they have been looking for—and at most reasonable prices, can be satisfied.

In the line of FINE GROCERIES we can give you the most exacting—make us prove it.

IF IT'S NOT GOOD, WE'LL MAKE IT GOOD

What is considered one of the most important moves ever made in Texas toward the perfection of a state wide highway maintenance campaign, and the first step ever taken in this state toward an organized and active program of maintaining improved highways in Texas, will be made in Sweetwater on Aug. 6 and 7 when Joe Burkett, State Highway Commissioner, officials of the Highway Department, county judges, commissioners, engineers and state maintenance engineers from throughout the state will meet here for the two-day session in which it is believed there will be formed an organization to be known as the Highway Maintenance Association of Texas. Sweetwater Reporter.
