CAR INSURANCE RATES HERE TO JUMP ON MAY 1

Wheeler county auto insurance agencies recently explained why the Texas Board of Insurance Commissioners has authorized an increase from 20 to 50 per cent in rates.

The rates, which become effective May 1, have been raised by the impartial board, it was stated, due to the fact that the accident loss on autos has risen sharply since gasoline rationing was discontinued last fall.

In Texas 1945 collision losses totaled \$3,560,000, it was stated, while 1945 collision premiums totaled \$3,569,000, representing a 100 per cent loss ratio.

In September, 1945, the first month after gas rationing was lifted, the loss ratio increased 304 per cent over September, 1944, losses.

PAMPA PLANS TO ESTABLISH VET'S SCHOOL

A vocational school for veterans which is under consideration in Wheeler county, will be established in Gray county if there is a demand for the school on the part of enough veterans. The Pampa News said Wednesday.

Members of the Gray county board are to inspect the veterans school recently organized in Lamb county for information on how to launch the project.

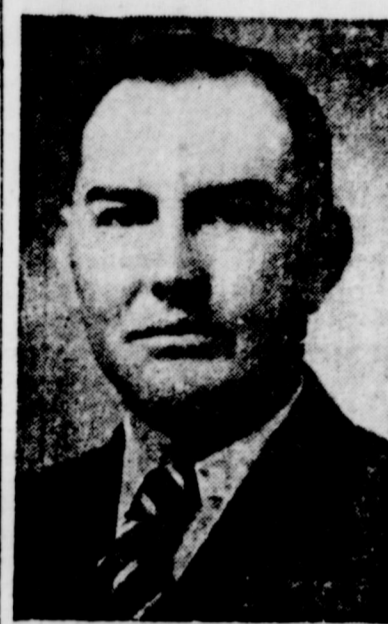

A committee from the Pampa Chamber of Commerce, headed by W. B. Weathered, president, became interested in the vocational school after attending a 4-county meeting held in Wheeler on April 16 when Ray Chapelle, head of the department of agricultural education at Texas Tech explained details of the school.

The Gray county school board discussed the school at a meeting held at Pampa Tuesday.

The Wheeler County School Board has the matter under advisement, while Allen Kavanaugh, county superintendent, and other school officials and heads of various county organizations, check into it further.

Courses offered would include agriculture, distributive education (wholesale and retail businesses), trade, industry and home-making. The Veterans Administration defrays costs of the school up to \$50 per month per student, and pays veterans enrolled \$65 or \$90 per month, depending on whether they are married. The school is similar to on-the-job training as far as subsistence to veterans is concerned.

Fifty-six counties in Texas have similar schools at this time, most of them having been put in operation in the past few weeks.

SHRINERS WILL AID CRIPPLED

Crippled children throughout North America will dramatically receive assurance of all possible aid for resuscitation on National Observance of Shriner's Hospitals for Crippled Children Day, Sunday, April 28, it was announced last night by A. B. Crump, potentate aide of Khiva Temple.

General Douglas McArthur has been named honorary chairman of this year's celebration by William H. Woodfield, Jr., Imperial Potentate, and serving with General McArthur will be General Henry H. Arnold, Edgar Guest, General James H. Doolittle, J. Edgar Hoover, Admiral Chester W. Nimitz, and Jack Warner, of Warner Brothers Studio in Hollywood, and all officers of the Imperial Divan and the Hospital Trustees.

Throughout the United States, Canada, and Honolulu, Potentate Aide Crump said, the 159 Shrine Temples, with a membership of 500,000, will stage on April 28 special activities in behalf of all crippled children, to assure them, especially those whose families cannot afford top medical attention, that there is a chance for many of them to walk again.

Colorful exercises are being planned for the 15 cities in North America in which Shriners' Hospitals for Crippled Children are located. These cities are: San Francisco; Minneapolis-St. Paul; Honolulu; Greenville, S. C.; Lexington, Ky.; Portland, Ore.; Philadelphia; Springfield, Mass.; Montreal and Winnipeg in Canada; Salt Lake City; Spokane, Wash.; Chicago; Shreveport, La.; and St. Louis.

The St. Louis Shriner's Hospital for Crippled Children will be remembered as the unit to which Minnie Rose Webb, 14-year-old daughter of a Kentucky tenant farmer, was taken recently by crewmen of an Illinois-Central freight train. The railroad men were attracted to the little girl by her friendly waving from a rocking chair on her front porch each time the train passed.

"In each of the 15 hospital cities is a Shrine Temple with colorful marching units and bands and, on April 28, they will parade to the hospitals and the kiddies will be royally entertained," Crump said.

In most of the 144 communities with Shrine Temples but no Shrine Hospitals, every crippled child in town will be invited to a gala outing and will be driven there in style. There will also be a Shrine parade, band concert, entertainment and refreshments galore.

MERLE LANG IS WAR CASUALTY

After the expiration of one year Mr. and Mrs. Otis Lang of Denver, Colo., have been notified that their son, Pvt. Merle L. Lang, has been pronounced officially dead.

The Langs are former Wheeler county residents, and Pvt. Lang was a member of Co I, 395th Infantry Regiment and the 99th Division, which was known as the Checker Board Division.

The regiment was in an attack against the enemy in the vicinity of Wuchied, Germany the night of March 18, 1945. He was reported missing following a heavy artillery barrage on his organization, which met continuous strong opposition, so that immediate search for lost personnel was not permitted.

Pvt. Lang left the States and landed in England the first of March 1945. He then went to France, Belgium and Germany.

The youth attended school at Shamrock and Samnorwood. He went to Denver with his parents in 1942, and enlisted in the U. S. Army October 9, 1944, at Fort Logan, Denver, Colo.

Lang received his basic training at Camp Wolters, Texas, after which he went to Fort Meade, Maryland and was assigned to overseas duty.

He is survived by his parents who reside at 11530 East 17th Ave., Denver; one sister; Mrs. Hubert E. Jones of Denver; two brothers, David Lang of Atlanta, Ga., and Reuben Lang of Denver.

Wellington Votes \$100,000.00 Bond Issue For School

The city of Wellington voted a \$100,000 bond issue to erect a new grade school building by a margin of 7 to 1.

"Plans are to dispose of both east and west ward school buildings and replace them with the new brick structure for which bonds were voted," said Supt. Logan Cummings.

"The West Ward school building was condemned several years ago and state school authorities have threatened to condemn the East Ward school building and did not only because we had no other building available," he said.

"The program will be accomplished without raising the tax rate," he continued. "The school board will call in from the state bond of education old bonds which carry 4 1/2 per cent interest and issue new bonds, including the old bonds and the new \$100,000 issue and all will draw interest at the rate of 3 1/2. The difference in the rate will save between \$50,000 and \$75,000 by the period of maturity."

Boys' 4-H Clubs Are Organizing In County

Now that the war is over and the labor shortage has been relieved to a certain extent, the Extension Service has been able to place a full staff in the county agent's office of Wheeler county. A full staff will mean that more time will be spent with boy's 4-H club work.

Fourteen clubs have been organized in the various communities throughout the county. So far the total membership is 275. County Agent J. H. Martin, and Assistant County Agent C. E. Harrison are pleased at the interest and enthusiasm being shown by the boys and their parents.

Records show that before the war, Wheeler county was one of the outstanding counties in 4-H club work in Texas. With the interest shown now by the boys and a little "boosting" from parents and friends Wheeler county can again become an outstanding county.

Membership is open to boys between the ages of 10 and 21. Although Mr. Garrison is pleased with the enrollment at present, he feels that there are more boys throughout the county who have not enrolled yet who would make good club members.

Following is a list of officers which the boys have elected: Kelton Grade: Frank Vines, pres.; Wilburn McCurley, secretary; Leola Grade: J. C. Darrow, pres.; Kenneth Whitely, secretary; Kellerville: David Hamlin, pres.; Dickey Sligar, secretary; Mobettie Grade: L. B. Coleman, pres.; Buell Crafton, secretary; Wheeler High: Benny Westmoreland, pres.; Wayne Jolly, secretary; Wheeler Grade: Maurice Pettit, pres.; James Gaines, secretary; Shamrock High: Tom Landrum, pres.; John Christner, secretary; Shamrock Grade: Jimmy Pennington, pres.; Hugh Cantrell, secretary; Kelton High: David Britt, pres.; Kenneth Killingsworth, secretary; Briscoe: Truman Zybach, pres.; Bob Zybach, secretary; Allison: Billy Jones, pres.; Jackie Taylor, secretary; Bethel: Donnie Ray, pres.; James Pike, secretary.

Certainly "all work and no play makes Jack a dull boy" so in the summer months there will be an encampment for the boys who have really worked to "make the best better."

W. Z. BAKER, prominent farmer and resident of Wheeler County 30 years, recently announced his candidacy for Sheriff. Mr. Baker has opened an active campaign and hopes to talk with most of the voters personally and solicit their support. This is his first political race.

MONUMENT WILL BE ERECTED OLD J. A. RANCH SITE

CANYON—A stone monument and bronze tablet have been placed at the original headquarters of the big J. A. Ranch established by Col. Chas. Goodnight in November 1876.

The markers placed in the ceremony were given by Newton Harrell of Claude, on whose ranch the site is located. The Harrell family also served a barbecue dinner for the 25 persons who made their way down the trails of the Palo Duro canyon to the historic spot on April 13.

A short program memorialized the occasion.

"We feel that this tribute to Col. Goodnight is one that he deserves, and in behalf of the many men who worked for him on the J. A. I wish to say that I know they would feel honored to know this site is marked with an appropriate monument," said Mrs. Inez Doshier of Claude whose father, Jim Christian, was one of Goodnight's top hands for several years.

Mr. Harrell, president, and a number of directors of the Panhandle-Plains Historical Society were present.

"There are a number of historic spots in the Panhandle which should be marked while they can be located," said Mr. Harrell. "These include the original headquarters of the first ranches established in this section. The Historical Society will be glad to sponsor the marking of any of these historic spots."

HEALTH OFFICER SOUNDS WARNING MALTA FEVER

AUSTIN — Undulant (Malta) Fever is a disease which is transmitted to human beings by infected animals. Individuals may acquire the disease (1) as the result of direct contact with infested animals or (2) following the use of raw dairy products obtained from infected dairy cows. If the disease is due to contact with infected animals or their waste products, the germ gains entrance to the human body through the skin, stated Dr. Geo. W. Cox, State Health Officer.

Persons who live on farms are more subject to undulant fever than those who live in cities. On farms, the disease is more apt to affect men due to the fact that men come in contact with hogs and cows to a much greater extent than do farm women. Farmers have direct contact with animals during loading and unloading for market. The handling of infected cows or sows and of the young at time of birth represent hazardous types of contact.

The danger of undulant fever may be reduced greatly by avoiding as much as possible all forms of direct contact with animals which may be infected. The wearing of heavy gloves if contact is unavoidable should aid in protecting the skin against exposure.

Urban residents have little or no occasion to come in direct contact with infected animals. Undulant fever acquired in city or town is due, as a rule, to the use of milk, cream, and butter which lack certain safeguards. Prevention of undulant fever, whether due to contact with infected animals or to ingestion of contaminated dairy products, is dependent to a further extent upon the eradication of contagious abortion from farm animals and careful pasteurization of dairy products.

GREATER GRAIN PLANTING URGED

Texas farmers are being urged to increase their planting of grains, especially corn and sorghums, in order to help alleviate the critical feed shortage. Prospective acreage reports, based on intentions to plant as of March 1, indicate that Texas farmers are falling far short of reaching the acreage goals set for corn and grain sorghums, according to B. F. Vance, State PMA Director.

The corn planting goal for 1946 is 4,950,000 acres, while prospective acreage is only 3,921,000 acres, 79 per cent of the goal. For sorghums the goal is 7,800,000, and indicated acreage is 7,045,000 acres, 90 per cent of the goal.

The Texas record for wheat and oats planting is much better. Vance declared, with 5,994,000 acres of wheat planted, 115 per cent of the 5,200,000 acre goal. The oats acreage is 1,849,000, slightly more than the 1,830,000 acre goal.

With feed supplies short and with great amounts of wheat being exported to starvation areas, the demand for all grains will continue, Vance said. He called upon Texas farmers to go over their plans and to increase production of grain this year if at all possible.

"We Deliver"

BUILDING AHEAD

of a fast growing TERRITORY

Mile on mile of new transmission lines, begun even before the war's end, are now bringing low cost electric power to more homes, more farms, more industries, more businesses.

Our active expansion program includes many more miles of transmission lines, under construction right now. We've always had faith in the future and prosperity of the Panhandle, Plains and Pecos Valley area...and we're continuing to build ahead of this fast growing territory.

Take a look at this schedule of projects, already under way, or awaiting more materials:

Additions to power plants at Berger's Riverview Station, Carlsbad, Denver City, Clovis and Guymon to produce 100,000 additional horsepower, at a cost of \$6,000,000. New transmission lines, power plant and substation facilities costing \$2,500,000. Another \$3,500,000 will be spent on improvements throughout our entire service area to build miles and miles of additional new power lines which will open new vistas to better living, better farming, new industries, and more profitable business.

Yes, the Panhandle, Plains and Pecos Valley area is growing fast...and we're BUILDING AHEAD to the tune of \$12,000,000 to help develop a better, more prosperous territory by bringing more electric power to more people...at lower cost than ever before.

No. 15 in a series of advertisements designed to help build this fast growing territory in which we serve.
