MUSTANGS PLAY SHAMROCK HERE IN FIRST GAME

Seventeen boys show promise of seeing considerable action this football season as probable team members get down to fundamentals after two weeks of practice. The Wheeler Mustangs will play probably their keenest rivals, The Shamrock Irishmen, in their first game of the season Friday evening, Sept. 14. The game is to be played here and will start at 8 o'clock.

While most of this year's material is considered green and inexperienced the squad shows promise of having considerable powerhouse tactics for stopping their opponents together with a fast moving backfield for offensive play. Greatest worry of Supt. Kammerdiener, who is also acting as coach, is the lack of reserves.

Showing promise of seeing considerable action before the season is over are: Donald Reeves, f.b.; Bob Lowrie, l.h.; Ray Ford, q.b.; Gene Hubbard, r.h.; Benny Westmoreland, r.h.; R. B. Mann, r.e.; Wayne Jolly, r.e.; Lloyd Goad, r.t.; Bill Robertson, r.t.; Clyde Revious, r.g.; Johnnie Barr, center; Bill Sides, center; Furman Maxwell, l.g.; Corky Guthrie, l.t.; Delbert McWhorter, l.e.; Carrol Weatherly, r.g.; and Leon Weatherly, l.e.

The schedule for the local squad as announced by Kammerdiener shows games on the following dates: September 14—Shamrock, here. September 21—McLean, there. September 28—Memphis, here. October 5—Lakeview, here. October 19—Clarendon, there. October 29—Lefors, here. November 2—Canadian, there. November 16—Wellington, here.

Two Sons Of Mr. And Mrs. R. O. Lister Are Presented Purple Heart

Pic Vaughn Lister, son of Mr. and Mrs. R. O. Lister, Sr., of Kelton, has been presented the Purple Heart for a wound received in action in Germany on February 24.

Vaughn, who has been in service three and one-half years, and who has been overseas one year with an infantry division, has recently been placed in the 30th Division, Army of Occupation.

His wife, Mrs. Odessa Lister, resides in Wheeler.

The Lister brothers seem to have been unlucky about getting in the way of German bullets. Vaughn's brother, S.Sgt. R. O. Lister, who was recently home on furlough, was wounded three times while fighting the Nazis, and received the Purple Heart with two Oak Leaf Clusters.

R. O. also wears the Good Conduct Medal and has four battle stars on his ETO ribbon which he won while fighting 13 months with the 87th (Golden Acorn) Infantry Division in France and Germany. He returned to Fort Sam Houston following his furlough and was shipped last week to Fort Benning, Ga.

A third son of Mr. and Mrs. Lister, Pvt. Kenneth Lister, has been in service since July 1 of this year and is attached to a tank corps at Camp Hood, Texas.

Clyde Magee Resigns As County Agent

Clyde Magee, Wheeler County Agricultural Agent since April 1 of this year, has tendered his resignation effective September 1. In a brief statement received from Magee he states: "I am resigning my job as county agent upon the advice of doctors at the Mayo Clinic. After returning from the clinic August 17 I find it impossible to continue my work because of my health. I have enjoyed my work very much and regret that it is necessary for me to retire from the agent's duties."

Knox Pharr, District Extension Service Agent, has informed Judge G. W. Hefley that it may be from 30 to 60 days before an appointment of an agent is made. Pharr said that the Extension Service would endeavor to obtain a discharged service man with county agent's experience if such were available since several such men have gone into the armed forces within the past few years.

Hefley said that the agent's secretary, Mrs. Zelda McClellan, would remain in the office from 8:00 to 5:00 each week day.

LT. C. FILLMORE IS LIBERATED

First Lt. Clyde C. Fillmore, former Wheeler county attorney and member of the "Lost Battalion" of Java, has been liberated after spending more than three years in Japanese prison camps.

Lt. Fillmore, who was assistant district attorney in Wichita Falls when the national guard unit was mobilized, was "in good condition," according to the report received by Mrs. Fillmore, who lives with her two daughters in Wichita Falls. She is a sister to Mrs. Roe Green of Wheeler.

Mrs. Fillmore said the message from the war department said Lt. Fillmore had been under American military control since August 31 and was now in the hospital.

Fillmore was a native of Wichita county, was graduated from the Iwoa Park High School and received his training in law at the University of Texas, Austin. He was appointed Wheeler county attorney in May of 1930 to fill the unexpired term of Raymond Allred who resigned. That same year he announced as a candidate for the attorney's office and served for three consecutive terms or until January 1, 1937. During his last year as county attorney and for about a year after leaving the office he was associated with H. B. Hill in law business at Shamrock and later became assistant district attorney at Wichita Falls.

He was a member of the national guard and an officer in the unit for many months before the group was called into federal service.

His father, Dr. H. D. Fillmore, and a brother, Judge H. W. Fillmore, also reside in Wichita Falls.

KELTON TO STAGE COMMUNITY FAIR OCTOBER FIFTH

Farmers of the Kelton community will meet at the Kelton school house Tuesday evening, Sept. 11, to make arrangements for their community fair to be held Friday, October 5, according to an announcement by Cully Watson who is acting as chairman. Every one is encouraged to be present at the meeting as considerable business is to be attended to.

Until two years ago the fair had been an annual event for seven years and was discontinued in 1943 and 1944 because of war time conditions.

The fair is for the eastern part of Wheeler county and attracts favorable attention all over this area. It has always been encouragement for better crop and food production.

According to crop and livestock conditions which are probably better in that section than anywhere else in the county this year, the fair promises to be one of the best ever held at Kelton. All business men in communities served by the Kelton community will be urged to attend and learn of conditions of the community and meet with the people of the community on the date set. If final arrangements are worked out similar to those of past fairs the ladies will have an important department and exhibits from throughout the territory will be on hand to be judged.

SGT. ADRIAN RISNER

Mr. and Mrs. Jim Risner received the following letters from their three sons, Scotty, Adrian and Henry, after the surrender of Japan. S.Sgt. Scotty Risner graduated from the local high school in '39 and attended Sul Ross College one year before entering the service in September 1942. He served in the C. B. I. theatre of war from April to December '44, was awarded the Air Medal and Citation and is now at Roswell, New Mexico.

Sgt. Adrian Risner graduated here in '41 and attended business school in Oklahoma City one year before entering service in January '43. He is with the Medical Corps and received his training at Fitzsimmons General Hospital in Denver. Since March '44 he has served in New Guinea, Dutch East Indies and is now on Luzon.

Henry Risner is with the Merchant Marines and is stationed at Sheepshead Bay, Brooklyn, N. Y. He entered service in July after graduating with the local class in May of this year.

August 15 Dear Folks, Today is a great day of thanksgiving to God. What we have all been looking forward to with great anxiety has come to pass. This great war has reached an end. I wish I could have been with you when it was announced. I hope you heard it. Mon. I know how bad you wanted to hear it.

I was working when it happened but was near a radio and we knew it just a couple of seconds after it was announced.

Well, anyway it's all over, Cobby will be coming home soon. I expect

HENRY RISNER, Merchant Marine

to be in the army another two or three months and then expect to get out. Anyway I hope so. I think they will start letting us out soon.

Love, Scotty.

Hi Mom and Pop: Boy, isn't it grand? It came over the radio about seven o'clock and of all the celebrating in this camp! Everyone turned out for colors. There were around 8,000 boys on parade. It was really grand.

Tomorrow we get special liberty for V-J Day. The whole camp gets out. Boy, will we have a time in New York.

Mom, I'm not even thinking of getting out like some of the boys are going to do. But I do want you to send me a telegram when Adrian and Scotty get notice of their coming home or discharge. I will be able to get a 15 or 20 day leave.

I'll bet you are really happy. I know I am. Tell every one hello and I wish I were there with them but my job is just now beginning. I imagine I will be shipping out sooner because of this but that's my job and I am happy to do it for our God and our Country. With lots of love, Henry.

Somewhere on Luzon August 15

Dear Folks: "San Francisco, here I come, Right back where I started from." That is what all the boys are singing around here now. I am so happy, we heard the news of Japan's sur-

S.SGT. SCOTTY RISNER

render at 8:00 this morning. It didn't come as a surprise because we had been sweating it out for the last 48 hours. Now that it's over we are all very jubilant about it.

Now don't get the idea that I will be home soon because one can never tell when the army will discharge you. I expect to be in at least 6 or 7 months longer and it may be even longer than I think.

Maybe they won't censor our mail in a week or so and I can tell you all the dope, everything I've seen and done.

Due to the war ending we have a 36 hour holiday.

I have been in the army 31 months and overseas 17 months. That is almost enough time to have 3 overseas stripes. I think we will get the Philippines Liberation Ribbon with one star. Doesn't look as if we'll get anything for the time we dragged bombs in the Netherland East Indies.

It's still very hot but looks as if we'll get some rain soon. We are still getting plenty of good food, fresh meat, potatoes, eggs, etc.

Thanks for Bill Hampton's address. I think he is about 30 or 40 miles from here. Maybe I'll go down tomorrow and see him. Have no idea where Chris McClain is but will keep an eye out for him and Buddy Vanpool. Would like to see some fellows from Wheeler.

Gotta close now. Tell all hello and thank God for the end of the war. I am very thankful and I prayed to God telling Him how happy I was. All my love, Adrian.

Payment for Winter Cover Crop Requires Prior Approval of County Committee

Payment rates have been announced for carrying out winter cover crops at the rate of \$1.50 per acre on small grains, except wheat, seeded in the fall of 1945 and the growth not harvested for grain or hay and a satisfactory cover is established. A satisfactory cover will be deemed to have been established when the land is uniformly covered with a growth from which a reasonable tonnage of forage could be harvested.

In the past prior approval of the County Committee has not been required for this practice, but if payment is made under the 1946 program approval of the committee as to the number of acres will need be secured before the practice is carried out as special funds will be set up for making payment.

Last year farmers devoted a larger acreage to winter cover crops than ever before which boosted their yields and protected their fields against erosion. The experiment test shows that the systematic return of organic matter to the soil is vital to good soil management. Besides protecting and building up your soil, these crops will be needed for winter pasture due to the shortage of feed production.

Government Insurance

Insurance for men in service was sold to them by the government with-out much need of salesmanship, for the danger to come made insurance a necessity. Normally, one has to be 'sold' on it. A late figure states that 80% of the men leaving the service are letting their policies lapse. Perhaps the government should 'sell' their product, too. Aware of the unusually low rate for the type of policy, its coverage, the man invested in a private company can attest to its merits at low cost. If at all possible to hold on, the veteran should keep up his payments on this insurance, as one of the few assets of service. Ask any oldtime policy holder of government insurance his opinion and his advice will be that the discharged soldier will be glad he has it, some day.

County Fairs

September and October brings the annual big event for the enjoyment, relaxation and education of its followers. The effect of the lifting of gas rationing will undoubtedly have a marked difference in the crowds attending. Always anxious to attend, more will plan to keep their yearly date at the fairs. The programs staged for entertainment, the expositions of skill, ingenuity, industry and labor, will continue to captivate our interest. Counties take pride in livestock, poultry farm and home produce. The 4-H Club projects are always worth the trip. With horse racing and the usual side shows, Fair Week appeals to all as a time for reunions and of generally appreciating the American way of life.

Reaching Beyond

College campuses begin to return to normal, men and women continuing education in well-rounded college programs, especially considered to induce discharged war veterans to take advantage of their GI Bill of Right's opportunity for education at government expense. Changes have been made in some universities to take care of an increased demand for foreign subjects. Not only stressing courses for peace-time occupations, the colleges find studies of other countries and languages of student interest. Our growing responsibility in participating in settlement of foreign affairs, makes a demand for history, government, customs and languages of the nations, felt in the classroom. It is a good sign, for promoting understanding between friendly peoples, and we want to take all steps forward to insure a peaceful cooperation with brother nations.

Taking the 35-mile limit off auto speeds will make little difference, as there was not one motorist in a hundred that paid any attention to it. But the freeing of gasoline will mean many more highway wrecks. In the opinion of experts, we may expect a 25% increase in accidents right away. Old cars and old tires are not meant for speeding, but as long as the driver wants to take the chance, he will not only endanger his own life, but the life of every other person on the road.

It is going to be mighty hard for the woman who is discharged from service to go back and take orders from her husband.

Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on the Times' exchange list.

Times are tightening up. We saw the first evidence of this today when we observed a strange young woman soliciting ads for a folder to be furnished, we presume, free to school children. If you bit on this you made a contribution to a solicitor and to some far-away printing concern that won't even do a good job of printing. There will be more of these advertising schemes presented now that great numbers may be out of work for a while. This sort of advertising has little if any value and the racketeers presenting such always steer clear of the local newspaper.

The atomic bomb is easily the greatest wonder of the age but equally as remarkable as the bomb is the fact that during the several years employed in its production and the fact that 65,000 persons were employed in the making of it not a single word of it appeared in any American newspaper, or was heard over any American radio. The vital secret was perfectly kept.

Farmers of the Dozier community gathered on Friday of last week to convert the Dozier school building into the Dozier Labor Center for migratory workers.

The farmers met early in the morning with their tools and lunches and spent the entire day working on the project.

The labor reception center has been worked out in cooperation with the Extension Service and its object is to attract workers from South Texas and Old Mexico here for the cotton harvest.

The center will provide a place where the laborers can stay while they are looking for work. A representative of the Extension Service will be on hand to direct them to farmers needing help and to assist cotton growers in securing the needed workers.

A booklet entitled "Reception Centers for Migratory Farm Workers" has been prepared by the Extension Service, to be distributed among the potential workers. Descriptions of each center are given in both English and Spanish.

The Dozier center, after work has been completed, will include a recreation hall and seven apartments of two rooms each, equipped with tables, chairs and gas stoves.

This is the first center to be prepared in this section of the country.

It looks like "Old Tack" is in a jam.

Just to help sell Hereford potatoes, Old Tack made the boast that he would eat a Hereford Potato a day for 30 days — just as he did some quail several years ago. Everything was swell until Joe and Wayne Evans started digging this week and ran into gigantic Reds. Assisted by the Chamber of Commerce, they gathered around 1,500 pounds of potatoes which they sacked and carried to Amarillo as presents to the staff of the Amarillo News and radio station KGNC.

The catch is that they carefully picked a sack for "Old Tack" and labeled it with his name; each of the potatoes weighed around three pounds. If Tack eats one of these spuds every day, we guarantee he will be a bigger man than we think — by at least 150 pounds.

While the matter is only in the rumor stage it is said that Highway 66 may be a two-lane highway in the not too distant future.

The roadway is reported to be planned with two slabs with parkway in the center, carrying one-way traffic on each slab.

By-passing schools and avoiding curves are standard highway practices, and another thing that might cause concern in McLean is the route through town. It has been stated that highway engineers would be pleased to see parallel parking on the highway in the business district, or no parking at all. In order to save the thought of someone to investigate some improved practices on the present route.

Much time and money were spent on securing the route in an early day, and the time seems to be here when the town can have a real super-highway with proper cooperation on right-of-way and other problems.

When President Truman said that the country as a whole was to blame for Pearl Harbor, he uttered a truth that should be emphasized and remembered. The sneak attack by the Japs was made possible by the wishful thinking of the American people. We didn't want war and we kidded ourselves into believing that a desire for peace was a means to peace.

Less than 90 days before Pearl Harbor, the house of representatives at Washington came within a single vote of abolishing selective service. The obstructionists and isolationists were perilously close to success in their effort to disband the army which was being created. Congress had grudgingly voted funds, not to increase the air force, but merely to replace the planes that had been destroyed in training or had become outmoded. Charles A. Lindbergh, with a Nazi ribbon on his chest, was proclaiming the virtues of the Nazi regime and the folly of opposing him, and there was some talk of running him for president.

Every move that Mr. Roosevelt had made toward preparedness and toward hampering Hitler had met with a storm of criticism. He was denounced as a war-monger on the floors of congress, and elsewhere.

It would be just as well to forget these things were it not for the fact that the forces which were largely responsible for our wishful indifference to danger in 1941 are still active. They are not noisy at present, but they are biding their time. They will be heard from again, soon enough. They will proclaim that all our occupation forces should be brought home, that our navy should be reduced to its 1933 status. They will try to keep alive all the prejudices — anti-Semitism, for example — that were helpful to them before Pearl Harbor. They will abet all efforts to create dissension between this country and its allies. They will restore, if permitted, the same sordid state of mind that prevailed in national affairs after the first world war.

Because of them, this country must remember the days before Pearl Harbor. Otherwise, it would be better to forget.

There's a lot of homely truth wrapped up in these lines by an unknown writer; it's supposed to be a colored preacher's sermon:

You may notch it on de pain's as a mighty risky plan
To make your judgment by de clothes dat kivers up a man;
For I hardly needs to tell you how you often comes across
A fifty-dollar saddle on a twenty-dollar boss.
An wukin' in de low ground, you diskliver as you go,
Dat de fines' shuck may hide de meanes' nubbin' in a row.

I think a man has got a mighty slender chance for heben
Dat holds on to his piety one day out o' sebben;
Dat talks about de sinners wid a heap o' solemn chat,

A negro in the little East Texas town of Lodi mis-uses the English language artistically. When asked, "What is the first thing you do when you enter court," he replied, "Ah polluates de judge." What he meant was that he "salutes" the judge. Fire destroyed a cafe in Crowell.

When the place reopened, the owner advertised, "Portions will be smaller and checks larger on account of the fire." His frankness produced a laugh—and good business.

It's bad enough to know what junk a woman carries in her handbag without having the new plastic kind that clearly show what she carries.

THE ALLISONIAN

A Publication of the Allison Schools

The Home Ec girls of Allison high school choose their club officers last week. They are: Jo Nell Aderholt, president; Virginia Winders, secretary and treasurer. The committee chosen by the president was Dona Jo Brown, Jean Mann, Lora Mea Walls. The girls have decided to make a quilt as part of their home project. Each girl charges 10c for every one who wants their name on the quilt. The girl who gets the most names put on her block gets a prize and a name is drawn from all the names on the quilt. The name drawn was the quilt.

Wonder why a certain high school boy looks so sad lately? Helen seems to be getting interesting letters — who are they from, Helen?

Personalities
Virginia Winders, age 14 (her birthday is the 29th of August), weight 96, height 5 ft., 4 inches, hair brown, complexion fair and eyes brown. She says she doesn't suppose she has a boy friend. Who's she kidding?
Roy Helton, age 14, hair dark brown, eyes brown, complexion dark, weight 132, height 5 ft 6 in. He just doesn't like girls.

Mr. and Mrs. Henry Miller have moved to their new home just north of Wheeler.

Mr. and Mrs. Ira Passons returned Tuesday morning from Greenville where they attended the funeral services of a relative.

Immunization Urged By State Health Officer

Dr. Geo. W. Cox, State Health Officer, urges the parents of all children who will respond to the school bell for the first time in September to be sure the child is physically ready for school duties.

"First and foremost is the need for vaccination against smallpox. Parents should see that children are vaccinated before they are one year of age; however if not done previously, at school age vaccination becomes absolutely necessary," Dr. Cox said. "If your child has not been vaccinated, have it done immediately for his own protection and that of others."

Immunization against diphtheria is also highly important, Dr. Cox declares. This disease which causes serious illness and deaths among young children can be prevented with toxoid. The child who has never been protected should be given this safeguard against a dreaded killing disease. Even though he may have been immunized as a baby, doctors and health officers usually recommend an additional dose of toxoid to strengthen immunity before entrance into school.

"In addition, before you send your child to school you are urged to take him to your family physician and dentist for a thorough examination," Dr. Cox adds. "You will want to know that he is in good physical condition and can compete with the other children on equal terms. If the check-up reveals any weakness or defects they should be corrected at once. Don't let your child start his school life with any avoidable handicap."

This and That

Did you ever see Edna when she wasn't hungry? We are all glad to see Coene and Kenneth together again. Seems funny seeing Mary without Lloyd since he has gone to WTSTC. We were glad to see Charles Hubbard and Junior Pendleton, seniors of last year, home on leave from the Navy. They are stationed at San Diego. Well, it seems as if the sophomore class is getting off right this year. Especially the girls.

Happy, we want you to thank us personally for putting out such an effort to get the news for you. Betty, Jody and Dolores. We sophomores want to welcome Mr. and Mrs. Kammerdiener, and Miss Ashley, who are new teachers and Miss Watt and Miss Lister who taught here last year.

"Surely, in this democratic country of ours, it is expected that every man shall participate in its wars. A great many of our young men in the 18 through 25 group have been deferred for several years for one reason or another. These young men have been on good salaries. They have been able to sleep in good beds and have good food. They have had almost complete security with little or no jeopardy of life or limb. Why should not these young men now take up the gun and 'stand guard' for a while?"
