THE COUNTY SEAT NEWSPAPER

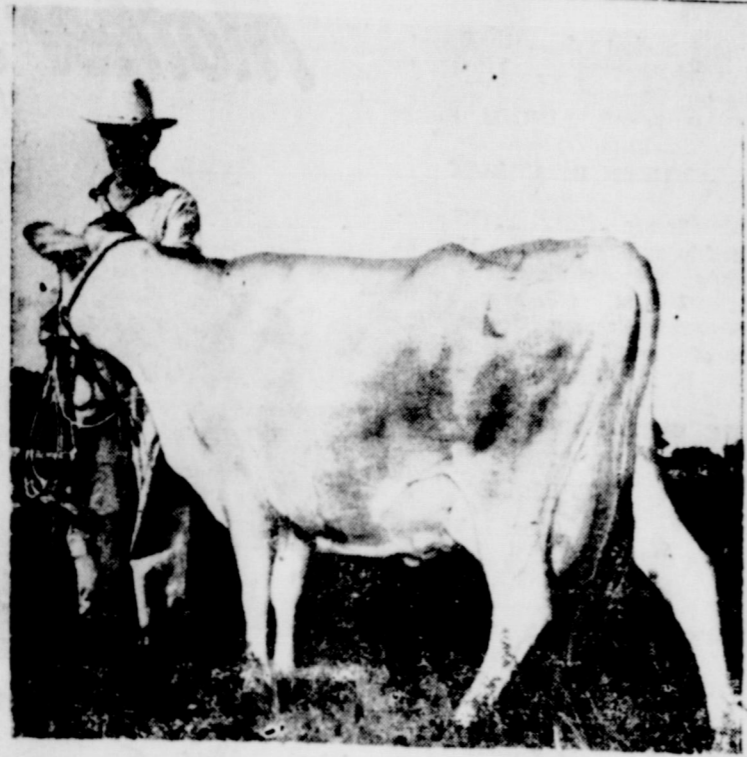

DEPOSITS REACHED TIME HIGH

More money on deposit banks of north county than ever before in history.

The Citizens State Bank of Wheeler and the First National Bank of Mobettie totalled \$1,172,000 at the close of October 6, according to reports made to state banking authorities.

The October 6 figure is \$24,000 more than the combined deposits of Mobettie and Wheeler on October 31, 1945 which was \$1,148,000.

Deposits in Wheeler county during the two Shamrock months amounted to \$6,244,827 in 1946 and \$6,244,827 in 1947. The October 6 figure is \$24,000 more than the combined deposits of Mobettie and Wheeler on October 31, 1945 which was \$1,148,000.

This picture of W. H. Templeton, Wheeler dairyman, and his purebred Jersey, "Raleigh", appeared recently in the Farmer-Stockman, in connection with an article written by T. C. Richardson, Texas Field Editor of the farm magazine. Mr. Richardson formerly resided in Wheeler county, and established The Shamrock Texan over 44 years ago. His article was captioned, "Milk Trucks Travel the Old Cattle Trails," and discussed agricultural development. The concluding paragraph of Mr. Richardson's story sums his feelings: "Ups and downs are normal in the American economy, and Wheeler county is no exception. But forty-odd years of farming experience indicates that she is taking the path to long-range prosperity in keying her future to the dairy cow."

Everyone Invited To Hallow'en Carnival At Gym Next Thursday

GHOSTS, GOBLINS, and SPOOKS will reign supreme at the Wheeler High School Gym Thursday night, October 30 when the Wheeler Parent-Teachers Association opens up for the annual Hallow'en Carnival. Every man, woman, boy and girl is urged to make plans now to come out to the big affair and enjoy an evening of spooking thrills.

Each class in school will have a booth at the affair and the P-T. A. Ladies will serve all kinds of food so people are requested to come on out without their supper. In addition to these attractions many prizes will be offered, in fact members of the P-T. A. stated, that someone who attends will be the lucky winner of a Thanksgiving turkey, a real live one.

There will also be boxing and wrestling matches and various games which both young and old will enjoy participating in. Funds raised at the event will be used by the organization toward the repair of the auditorium in the Wheeler grade school building.

DENTISTS WILL INSPECT SCHOOL CHILDREN FREE

County Sanitarian W. R. Ritter issued a reminder this week that a county-wide dental inspection of all Wheeler County school children will get underway on Monday, October 27.

All arrangements have been completed. The three County dentists have volunteered their services free of charge and it is now up to the parents to see that their children take advantage of this free health measure, Ritter said.

Drs. J. A. Hall and R. M. Barkley will make the dental inspection in the south part of the county and Dr. V. N. Hall will work in the north part, Ritter said.

"All three of these gentlemen are busy and I think that it is mighty fine of them to give their time, experience and services to our children," the county sanitarian declared.

Dr. V. N. Hall will do the inspection in the Wheeler, Briscoe, Allison and Mobettie schools, Ritter said.

Mrs. V. N. Hall will serve as assistant to her husband in the survey in the north part of the county.

Beginning at the Shamrock Schools on October 27, Drs. Hall and Barkley will make the free inspections, filling out forms showing the condition of each child's teeth and what dental care is needed. Kelton, Bethel, Lela and Kellerville and Magic City schools will also be handled by the two Shamrock dentists.

The survey is to be made by the three dentists at their own personal expense. They will call at the schools during the morning hours so that they can be back in their offices during the afternoons.

The program will consist of inspection and report only. Steps to be taken then will be left up to the children and their parents.

The forms which the dentists will fill out will contain the information as to whether the children have: serious malocclusion (crooked teeth), cavities in teeth, cavities in one or more six-year molars, mottled enamel (discoloration), pyorrhea (bleeding gums), dental decay, diseased gums. The forms will show whether dental care is needed and if it is urgent.

SAM MCCRAW FUNERAL HELD

Funeral services were held at the Community Church in Gageby this past Monday for Sam McCraw, son of Mr. and Mrs. C. V. McCraw of Gageby. McCraw passed away in a hospital in Wichita Falls after being in ill health for a number of years.

Rev. O. C. Evans of Lakeview was in charge of the funeral services which were conducted Monday afternoon at 3:30 o'clock.

Sam McCraw passed away at 2:10 p. m. Sunday afternoon at the age of 30 years, 8 months and 26 days and the body was brought overland Sunday night in a Hunt Funeral Home ambulance to the Wheeler where it rested until funeral time.

Besides his parents, Mr. and Mrs. C. V. McCraw, Sam is survived by three brothers, Carrol Wayne and Odus of Gageby and Sidney of Canadian; five sisters, Ruth Frances Hoover of Amarillo, Eva Faye Calhoun of Winnebago, Loretta Laverne Sanders of Kelton, Bea Thomas of Borger and Inez McCraw of Gageby.

Pall bearers included: Lafoy Vise, Forrest Vise, Murray Vise, Willis Fillingim, Cecil Meadows and Carl Simpson.

Flower girls were: Mrs. Jack Meek, Fae Francis, Mrs. Reames, Frances Hefley, Mrs. Claude Baker and Lorene Vise.

Interment was in the Gageby cemetery with Hunt Funeral Home in charge of arrangements.

W. L. Williams Sells Registered Herefords

W. L. Williams announced the sale this week of several registered Herefords. G. B. Sloss, Jr. of Texola, Okla. bought three cows. Nelson Porter purchased a couple of bulls and Lynden Sims bought seven registered heifer calves.

Plan now to attend the Hallow'en Carnival at Wheeler Gymnasium October 30. 44-3tp.

Voters Are Reminded That Safety Of Children Is At Stake In Election

Property owners residing within the Wheeler Independent School District will go to the polls next Saturday to vote on a proposal to issue \$27,000 worth of bonds for the purpose of repairing the badly run-down elementary school building.

School trustees who exhausted every other possibility before calling the election urgently request property owners to study the proposal carefully and then go to the polls and vote their conscience.

Voting will be held in the grade school building and the polls will open at 8 a. m., and close at 7, according to Ben Wofford, election judge in charge.

Voting of the bonds would not cause any immediate increase in tax valuations. In fact the trustees are now working on a plan to refund and reissue present outstanding bonds at a lower interest rate and the savings effected would almost take care of the interest on the new bonds. The new bonds will be sold at a rate not to exceed three and one-half per cent interest.

Board members pointed out again that even though the new bond issue passes in Saturday's election and the refunding issue which is pending fails to go through as planned the new bonds will never be sold.

Property owners who are qualified voters in next Saturday's election are invited to make a first-hand inspection of the present condition of the Wheeler grade school building. The building is in such a bad condition it is unsafe for children to enter, and school authorities fear it may be condemned by state inspectors at any time. The walls are cracked, floors are so thin they are dangerous to walk on and the heating plant is outmoded and insufficient. Plumbing equipment is so old that replacement parts are no longer available, creating a serious sanitation and health problem.

Voters are cautioned to be on their guard against last-minute whispers of "extravagance and waste" from the lips of greedy residents who measure every proposal in terms of how many dollars it may cost them. The health and safety of our children demand that we go to the polls and vote for the bond issue.

MUSTANGS FACE CYCLONES DOWN BRONCHOS FRI. MUSTANGS 25-0

The Wheeler Mustangs will journey to Clarendon Friday night for their fifth conference encounter of the season. The Bronchos of Clarendon have fared little better than the Mustangs in play this season but the Mustangs will be in their worst physical condition of the season so far for the battle.

The injury jinx bobbed up in Coach Grady Baker's squad this week when Duane Bradford, first starting center and one of the mainstays on the Mustang squad, came up with an infected knee as a result of a skinned place suffered last week in the Memphis stringing quarterback, reinjured his side in last Friday night's contest as he dived for a fumble and another. Corky Robertson, first other lad fell on top of him. Robertson may be unable to participate but definitely will not be in top shape for the contest.

One of the few replacements on the squad also came up with a badly sprained ankle which he suffered in practice the first part of the week.

The remainder of the squad have been working with renewed vigor this week in light of the fine contest they gave the buri Mustangs last week in the hopes that they might wrangle their first conference victory of the season from coach E. J. McKnight's Bronchos.

Wheeler's Colt's who average less than a hundred pounds to the man have been putting up terrific battles in their three contests so far this season even though they are forced to play boys that will weigh half as much again as they do.

Last Thursday night they journeyed to Canadian and met a bunch of lads that would average at least 125-pounds per man and were beaten only 13 to 0, then Tuesday night they played the Lefors junior team which also out-weighted them badly and held them to a 13 to 0 count.

The Times congratulates the Colts and wishes them well in future games.

Mr. and Mrs. O. B. Williams attended the home coming of West Texas State College at Canyon over the weekend.

Sgt. Jack Pitcock, who is now stationed at Roswell, N. M. spent the weekend in Wheeler with Mr. and Mrs. Homer Pitcock.

The Wheeler Mustangs lost a hard fought battle to the Memphis Cyclone in a district 3-A conference encounter played in Memphis last Friday night. The final count in the hotly contested battle was 25 to 0 in favor of the Memphis eleven but the Mustangs showed noted improvement over previous performances this season.

Wheeler's fullback, Gene Hubbard was easily the outstanding performer on the field in Friday night's contest as he continued to play good offensive ball and a bang up game of defensive ball. The Cyclone fullback, Bill Davis, was the outstanding performer for the Memphis eleven.

The Mustangs held the Cyclone to a lone counter in the first period but they managed for a couple of markers in the second period. The Wheeler outfit held the burly Cyclone eleven scoreless during the third period and then they came back to score their final counter midway of the fourth stanza.

Every Mustang in the line-up fought tooth and toe nail from beginning to end with Doyle Waters again leading the way for the linemen. Martin and Eugene Colliers played bang up game at their end positions, Loyde Goad and James McCormick manned the tackle slots, Harold Hardcastle showed improvement at his guard position. Duane Bradford played a bang up good game at center.

The starting Mustang backfield consisted of Corky Robertson at quarter where he played brilliantly until he was removed from the game with an injury, Bill Robertson and Bob Lowrie at halves where they both played an improved brand of football, Gene Hubbard played the fullback position.

Former Mobettie Boy On Athletic Council

Bill Candler, junior student from Mobettie, was chosen at a meeting of the junior class to serve on the North Texas State College athletic council, it was announced this week.

Candler, the son of C. H. Candler, is an industrial arts major and a member of the "T" Club and Alpha Phi Omega fraternity.

Mr. and Mrs. R. H. Forrester and Mrs. Lee Guthrie returned Tuesday after visiting at San Angelo and Eden. Mr. and Mrs. Lem Guthrie returned to Wheeler with them.

NORTH COUNTY EXHIBITS WIN

The Wheeler Home Demonstration Club won first place on their general exhibit at the County-Wide Home Demonstration Clubs exhibition which was held at the home-making cottage here last Saturday afternoon. The Good Neighbors Club and the Pagan Club took second and third places respectively in the general exhibit class while the Good Neighbors placed first in the educational exhibits division and Pagan and Wheeler were second and third respectively.

There was a total of 12 exhibits entered by 9 clubs which were viewed by 126 people during the afternoon. Everyone calling during the afternoon was served cookies and punch.

Mrs. Bill Owen of the Wheeler Club was chairman of the council exhibit committee which had charge of arrangements for the affair.

Prizes for the winners were three, two and one dollar along with blue, red and white ribbons for first, second and third in that order. Miss Roberta Furgeson, Lipscomb County Home Demonstration Agent, judged the exhibits.

Clubs which participated along with their exhibits committees included: Briscoe, Mrs. Ernest Zybach, Mrs. Floyd Childress and Mrs. Stanley; China Flat, Mrs. Knox Walraven, Mrs. A. B. Simms and Mrs. W. L. Morrison; Good Neighbors, Mrs. J. M. Finsterwald, Mrs. R. W. Oldham and Mrs. Audie Sivage, general display, Mrs. Chandler, Mrs. Albert Newman and Mrs. Williamson, educational.

Myrtle, Mrs. Elmer Miller and Mrs. Zack Miller; Pagan, Mrs. W. A. Allen, Mrs. W. Walker and Mrs. Paul Macina; Three Leaf Club, Mrs. W. Leake, Mrs. Annie Parrish, Mrs. Bill Orrick, Mrs. W. Williams and Mrs. Baxter; Wheeler, Mrs. L. Simms, Mrs. Cecil Clark, Mrs. Bill Owen and Mrs. B. M. Litton; Young Matrons, Mrs. Raymond York, Mrs. Jack Veazy, Mrs. Ben Boyce and Mrs. Isaacs; Mobettie, Mrs. J. M. Hathaway, Mrs. Murl, Mrs. J. B. McCauley and Mrs. A. B. Brown.

Crosslands Buy Dairy From Albert Chapman

Tom Crossland and son, Gwynn, announce the purchase of the Chapman dairy in an advertisement in this week's issue of the Times. The new organization will be known as Crossland and Son Dairy.

The Crosslands stated they hoped to continue to serve the people of Wheeler and beginning November 1 they will be exclusive dealers for Borden's quality dairy products.

Mr. and Mrs. Jim Hathaway had for their guest Sunday, her mother Mrs. Clarence Lee, and her sister, Mrs. Bill Dart and husband of Booker and her brother, Roy Lee.

ASK RANCHERS INSPECT RANGE

All farmers and ranchers of this area who are interested in controlling brush and weeds and greatly improving their range, are invited and urged to attend a brush spraying inspection field day at the Oasis Ranch, 16 miles south of Higgins on Saturday November 15.

The inspection, conducted by the Southern Great Plains Field Station of Woodward, Okla. will begin at 2 p. m.

Purpose of the event will be to inspect the results obtained from a comparatively cheap and highly effective plane-spraying with D-D chemicals. The spray work was conducted on the Oasis Ranch in May, 1947 on about 1,000 acres of range land infested with shiner oak and the other obnoxious plants.

Date-of-spraying tests indicated that sagebrush and other susceptible plants could be controlled to best advantage by spraying them when they are growing actively from about April 15 to June 1.

An airplane-spraying company now offers to furnish, mix and apply the most effective chemical formula described above at a total cost of \$2.00 an acre.

The results will be discussed by D. A. Savage and J. R. Harlan of the Southern Great Plains Field Station at Woodward. Representatives of chemical companies and airplane-spraying companies will also be present for consultation.

F. L. Timmons of the Weed Control Section of the U. S. Department of Agriculture will discuss the spraying work of his division as it relates to the control of range brush and weeds.

"We want stockmen to inspect the spraying work and satisfy themselves as to the value of the treatment before they attempt any extensive spraying of brush next spring," Mr. Savage, senior agronomist of the Great Plains Field Station said.

Sgt. Leonard Receives Release From Hospital

Sgt. J. R. Leonard, USMC, 20 year old son of Mr. R. B. Leonard of Mobettie, Texas, has been discharged from the Naval Hospital, Bethesda, Md.

Leonard, who entered the Marine Corps on January 15, 1945, at the Marine Recruiting Station in El Paso, Texas, received recruit training at Parris Island, South Carolina. He served at S. H. Hawaii, T. H. prior to hospitalization.

Before entering the Navy, he attended the Mobettie High School, Mobettie, Texas.

Plan now to attend the Hallow'en Carnival at Wheeler Gymnasium October 30. 44-3tp.

MAIL OVERSEAS PACKAGES NOW

Postmaster Chester Lewis announced this week that arrangements have been made by the Post Office Department for the acceptance of Christmas parcels for members of our armed forces serving outside the continental United States.

While requests for parcels from members of our armed forces are not required, many persons in Wheeler County will undoubtedly wish to send special Christmas parcels to their loved ones overseas, and these instructions are therefore, issued with the view of assuring their delivery on time and in good condition. Patrons should endorse each such gift parcel "Christmas Parcel" and special effort will be made to effect delivery of all Christmas parcels mailed during the period stated below in time for Christmas.

The term "armed forces overseas" includes the personnel of our armed forces and authorized United States civilians employed overseas, who receive their mail through an A. P. O. or fleet post office in care of the postmaster at New York, N. Y., or San Francisco, Calif., or an A. P. O. in care of the postmaster at Miami, Fla., New Orleans, La., or Seattle, Wash.

Time of Mailing
Christmas parcels for overseas personnel should be mailed during the period beginning October 15, 1947, and ending November 15, 1947, the earlier the better. Parcels destined for delivery in Japan, Korea, and the islands in the Pacific should be mailed as early as possible during the period stated, preferably not later than November 1, in view of the distances involved.

It is suggested however, that parcels for Navy and Marine Corps personnel serving in the most remote areas be mailed not later than October 15. Parcels for such personnel known to be in an area which would permit mailing subsequent to October 15 may be deposited for mailing at a date selected by the sender.

Christmas cards for Army personnel overseas may be mailed at any time but patrons should mail such cards prior to November 15, 1947, if they are to have a reasonable expectation of delivery prior to Christmas. The War Department advises that greeting cards for soldiers overseas must be sent in sealed envelopes and prepaid at the first-class rate.

Size and Weight
Christmas parcels for armed forces overseas shall not exceed 70 pounds in weight or 100 inches in length and girth combined. The various services have pointed out that members of the armed forces are amply provided with food and clothing and the public is urged not to include such matter in gift parcels.

Mr. and Mrs. M. L. Gunter, Jr. of Spearman spent the weekend with his mother, Mrs. M. L. Gunter and Mr. and Mrs. Terrell Gunter.

Mr. and Mrs. Jim Hathaway returned a few days ago from a visit with her aunt, Mrs. Laura Holt, in Springfield, Colo.

THE DAIRY HERD THIS WINTER
What this winter feed is likely to be, many men have been trying against the round house seems to be in the making. First step is to see that feed will be used to advantage. Every herd has a few cows that are not because they won't eat when the feed load is heavy. Get rid of the ones that are going to be dry and production is lowest or awfully good reason for culling cows in the herd. Just a few weeks, we will have winter time feeding. During these weeks we have an opportunity to more hay and silage. It is the dairymen that make good use of every good roughage that they have. More dairymen are turning the feeding value of

LESSONS FROM AMERICA
The United States has been helping and will no doubt continue to help many countries to recover from their war troubles. One would think the world would be deeply impressed by the contrast between the prosperity of our country and the depressed condition of most of the countries of

Europe and Asia, and would try to imitate the things that the American people have done to create their progress and prosperity.

Our country has been greatly helped by its distance from the war zone, so that it has been spared the terrible destruction wrought by war in Europe and Asia. But the American people have done many things that have contributed enormously to give this country its leading position. The world should imitate these things.

The idea has been expressed that many countries have wanted help from the United States, but when it comes to accepting American ideas, they are apt to balk. Our help given this time has been so generous that one would think many countries would wish to accept American ideas as well as borrow American money.

WHAT AMERICA HAS DONE
In the progress of America, its education has been a mighty factor. The American purpose has been to open the doors of educational opportunity to all, so that the level of intelligence is very high. Our country has a wonderful development of science and technical skill, which has tremendously increased its power in peace and war.

It has a most amazing development of machinery and mechanical devices, which enormously increases its production in peace and war, and its ability to create comfortable home life. In its ideas, in its democratic principles, and in many more ways, it has set an example from which the world can learn most useful lessons.

RIGHT THERE

Suddenly, in the presence of company, the small daughter of the house began to chew gum vigorously. "Where on earth did you get that gum?" asked the mother.

"Right here on the bottom of the seat," the child said. "There's more there. Do you want some, Mamma?"

An improved method of killing potato vines to make crop harvesting easier has been developed by industry. The process involves the use of a powerful chemical "frost" and another compound that greatly speeds up killing action.

Nature's Finest!
The Alaskan "Brown" has been known to weigh up to 1500 pounds. Lay out of the grizzly bear family (Ursus horribilis) it is mainly carnivorous... the strongest and fiercest of all American mammals.

The Crude Is The Answer To Phillips 66 Fine Motor Oil

Nature outdid herself when she produced the great Alaskan Brown Bear, and she was doing a mighty fine job when she made the crudes that go into Phillips 66 Motor Oil!

Ask any oil man what that means in terms of protection for your engine. Yes, a fine crude... plus Phillips 66 refining and practical experience... all these factors gether turn out a smooth, tough, sturdy lubricant able to do a real lubricating job in your motor.

Phillips 66 Premium Oil is a brand new Phillips product. Detergent type and corrosion-resistant, Phillips 66 Premium Oil cleans, as it protects your engine.

And remember, too... Phillips 66 Motor Oil has protected motorists years of satisfactory lubrication!

Look for the orange-and-black Phillips 66 shield!

An ALL-ELECTRIC Kitchen In My 20 Year Old Home?

Sure Lady
Here's how you can do it!

Install Adequate Wiring now.

When your present home was built, perhaps the builder never thought you'd want to cook, refrigerate, and heat your water electrically. So he installed just enough wiring to supply service to a few electric lights and possibly an outlet or two.

To find out how to have an all-electric kitchen just call a wiring specialist from your Public Service Company, or an electrical contractor. They will be glad to tell you more about the wiring you will need.

Adequate Wiring MEANS:

1. ENOUGH CIRCUITS for serving efficiently and safely all the appliances you have.
2. LARGE ENOUGH WIRE for serving your present and future needs.
3. ENOUGH OUTLETS AND SWITCHES for convenient living.

see all the kids
at church Sunday
were about fifteen
there. Keep up the good
seem very happy

since they got their pictures. I reckon so, they are all very good looking! (In their pictures).

Jody is getting her daily exercise, or got it rather. She received 42 demerits for some unknown reason and had to pick up paper in the study hall for a week, poor her. But she is through now.

Mrs. Carrick, now we know where Mr. Carrick gets all his money. Everyone saw how he twisted your arm and made you endorse the check you wanted to pay the bills with.

All the senior girls can hear every morning before the bell rings is all about Dolores's and Georgie's new house and furniture. That's all right, we might get to tell them about our new house and furniture one of these days.

FLASH! Yvonne is pulling cotton. Don't anyone faint.

Robert, haven't you learned not to play in bookkeeping yet? Seems

as if you better, doesn't it?

I think all the seniors are getting afraid to go at night since they are having to read a play written by Shakespeare. From what I hear they murder about a dozen people every night.

VaNeta, what was that you said about anyone not having but one dress to have more than you? We'll see about getting the Red Cross to help you, O. K.?

We are especially proud of the football boys this time. They played a marvelous game at Memphis last Friday night. Even if the score was 25 to 0, they played a better game than they have all year and we are very proud of them.

The colts played Canadian Thursday night, the score remaining 13 to 0. It was a pretty tough game, as our boys were quite a bit smaller than theirs. But here's to you, colts, you played an excellent game and we wish you better luck in the game tomorrow night. (Tuesday).

Everyone better be on the lookout for demerits this six weeks, from what I hear they are going to be a little more strict. And they should be, don't you think, kids? Or did you see anyone else's report cards this time?

We wish to extend our sincere appreciation to Mrs. R. Wm. Brown for the magazines she donated to the school library.

Jody, too bad when David doesn't come and you have to drive someone else around.

What do you think of the situation as a whole, Richard and Gaines?

Peggy is still mad at a certain boy, only because he said 1-2-3 kick.

Lots of the boys are wondering about you and Clyde, Pat. Is you is are is you ain't Clyde's Baby? Why all the frowns Jo Jo?

Billie V. seems to get more enjoyment out of laughing at Ruby and her white skirt with a pleat in front and back.

SOPHOMORE NEWS

C. R., what were you doing up so late Saturday night?

Lennie, what were you doing in town Saturday night?

We saw one of our classmates in town Saturday night. Glad to see you back Barbara.

Jo Ann, who was that Okie boy you were with Saturday night? Better watch out Claudell will get mad.

J. T. we think Junior is a cute name for you.

Dorothy sure looked tired Monday morning, could we wonder she worked all weekend.

Lennie and Berniece, you had better watch out Mr. Teague called you down twice.

Imogene, we thought that dress was cute you had on Saturday night.

Winnie, why was your face so red when you got hit with that eraser Joe threw Monday?

Annie sure is quiet this year.

Doyle, what is this secret between you and Floy? Mr. Williams said that there is one.

JUNIOR NEWS

Horace, why weren't you in school Monday?

Is Clyde still in the Bill?

Harold is nearly over his injury.

It seems that the junior boys are out in the cold although it is warm weather.

Duane got his chance Friday night on that interception, but muffed it. Better luck next time Brad.

FRESHMAN NEWS

Glenda, you missed out on your boyfriend's speech Monday morning in assembly.

Why was everybody so sleepy Monday? Could it be that they were up late Saturday night and Sunday?

Georgia, couldn't you make it to school Monday? We all missed you.

in so Ruby wouldn't have to type her basketball period?

The seniors didn't have any married gals in their class?

Georgia Beth and R. J. could get along without fussing?

Dorothy had to work every weekend?

Winnie and Floy Bell could touch their toes during calisthenics in basketball?

Three certain girls could get along in the gym every day.

Mrs. Baker didn't make an assignment in English every day. (We'd throw a big party that night!)

Miss Mahaffey was seen with a pair of jeans and a blouse on helping the girls clean the Home Ec. Cottage?

Imogene didn't flirt with Johnny Weeks?

Ruby wasn't always wishing this was Wednesday.

Joyce wasn't engaged to Wayne?

The junior girls would be quiet when they come in before noon?

LaVerne wasn't always waiting for one of those weekends?

Virgie went with a boy?

Lois got stood up?

Gene would write news once in a while?

Jody wasn't always embarrassing the boys?

Ruby, Billie V. and Vaneta didn't laugh so much Monday?

AVOIDING INCONSISTENCY

"Did you kill any of your pigs?" "Not yet," answered the Farmer Cornstossel. "First, I've got to give up my membership in the S. P. C. A."

THAT'S HONOR

"I tell you Frank is only marrying you for your money so that he can pay his debts." "Nonsense. He never thinks of paying debts."

nearly all his classmates. Who is it?

WHAT IF?

Mr. Carrick were a student? Coach Baker were a football player?

James Scott could keep his big mouth shut?

There was no such thing as demerits?

All the reporters got their news

James Scott, don't forget to get in your own seat in General Science.

Curtis, you better start curling your hair a little bit more or she's going to get mad at you.

James Gaines, Bonnie Rae sure does like to talk to you doesn't she?

Maurice, did you like the football game Saturday?

Edgar, your "waves" are getting prettier every day.

Gene, you always get by Maurice when we get an Algebra test. (We wonder why?)

Wanda, Curtis said that you could really work Algebra, and I believe that he likes you a lot.

The answer to last week's guess who was James McCormick.

GUESS WHO?

A freshman boy with flirty blue eyes, wavy blond hair, 5 feet 8 inches tall, weighs 142, he flirts with all the girls, and he also plays football. He is liked well by

AN ARIZONA SNAKE STORY

Some years ago I was camping on the bank of Crow Canyon River in Arizona, and, getting short of food, I decided to go fishing. I had a pole, a line, and a hook, but no bait.

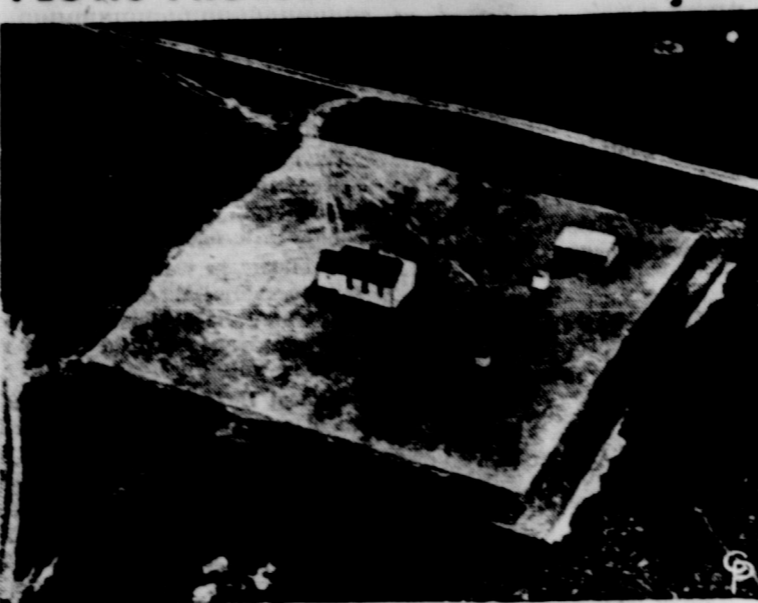

Looking along the bank for bait I saw a snake coming out of the water with a frog. I took the frog from the snake, and having been taught by my father and mother in my early youth "not to take without giving," I gave the snake a drink of whiskey. (When I go fishing in Arizona I always carry whiskey as a precaution for rat-

lesnake bites.) After standing on the bank for an hour or more intently watching the line for a bite, I felt something, tapping my leg. Looking down, believe it or not, there was a snake with another frog

PLOWS PROTECT SCHOOL FROM FIRE

WHEN A RAGING PRAIRIE FIRE swept a wide area of South Dakota, this little white school house near Pierre was saved from the flames by the quick thinking of local farmers who plowed a protective strip of furrows around the school. The blackened area surrounding the building shows how the fire ate around it. (International Soundphoto)

HERE'S

Real Economy

IN FEED MAKING

Feed-making costs hit a new low when you belt up your tractor to a money-saving John Deere Feed Mill. You'll run out more feed per hour with less power—convert your home-grown crops into more palatable feeds that go farther, require less work in handling, less storage space.

With a complete and modern line of John Deere Hammer Mills and Roughage Mills and Feed Grinders from which to choose, you can get the mill that matches your feed-making requirements and your available power.

For all-around feed making, you can't beat the John Deere No. 114-A or No. 110-A Roughage Mills and Feed Grinders—the four-in-one mills that work as a straight chopper, an ensilage cutter, a combination chopper and hammer mill, or a straight hammer mill.

Big capacity, governor-controlled traveling feed table... lawn-mower type cutterhead that cuts fast and clean... heavy-duty grinding unit... and dust-tight feed collector are outstanding features.

COTTON ED says.....

Foldin Money Don't have to be Printed In Your Barn 'Fore It'll Buy Grub

Told ye last time I wuz a golin' to fetch ye a few facts I learned bout cotton classin'. Everybody agrees thet hog-round cotton buyin' taint fair an equal. If'n your cotton is better'n mine ye ort to git more fer it than I do. Course ye want to know its classed right... an like I said... I been lookin into thet.

Found out thet classin' is done by gov'mint men thet's fair an honest an our gov'mint guarantees each feller his correct class... an thet's good nough fer me. Found out the ginner puts up a thousand dollar bond a guaranteein' your cotton is sampled right... an its your own grade your a gittin' back. This year fer the first time the gov'mint is makin, a difference in light an heavy spots, an bright an dull cotton... an thet makes this gov'mint classin plum perfect fer us farmers.

If'n one of them classin offices wuz right here the samples would be took into it by a gov'mint feller an us farmers'd never see the classer ner him see us. The idea is they class the cotton an not the man... Don't make no difference how goodlookin you air, ner how good a talker you air... It's the value of the cotton they look at... Used to wish they had one here... 'fore I found out regardless of whar they air, it's all classed the same anyway. But thet's plum O.K. It's like foldin money... The gov'mint don't have to print it in our barn fer us to know it's buy grub. Sides thet... the gov'mint is a footin the bill fer this an it's all free to us an they jes won't set up a lot a them offices they don't need.

Yet sir... Us farmers shore ort to appreciate this gov'mint classin... it helps us to help ourselves.

Sincerely,

Friendly As Cotton

L. H. Tucker Honored With Birthday Party

Mrs. L. H. Tucker honored her son, L. H., with a party on his sixth birthday, Thursday, October 16, at the home of Mrs. J. A. Tucker.

The living and dining rooms were beautifully decorated with cut seasonal flowers. The dining table was laid with a lace cloth and the birthday cake which bore six lighted candles served as centerpiece.

Games were played and pictures made after which many gifts were presented to the honoree. Refreshments and favors were served to the following guests: Norma Jean Daberry, Beth and Doris Rathjen, Jerry Kenney, Joyce Vines, Georganna Davidson, Sonny and Karen Henderson, L. H. and Beverly Tucker.

Mesdames John Daberry, Leonard Rathjen, Geo. Davidson, Buck Henderson, L. H. Tucker, and J. A. Tucker.

Those sending gifts were: Don and Sandra Hill, J. G. Wells, Mrs. Wallis D. Thornton, Miss Rena Johnson, Mrs. R. O. Johnson and Mr. and Mrs. L. C. Bledsoe.

Miss Reames-D. Farmer Are Married Recently

In a single ring ceremony, Sunday, October 12, Miss Hazel Reames, daughter of Mr. and Mrs. G. A. Reames of Gageby, and Don Farmer, son of Mr. and Mrs. Percy Farmer of Wheeler, were united in marriage at the First Christian Church of Canadian. Rev. Troy Plunk, pastor, officiated.

The bride chose a white two-piece dress with brown accessories. For something borrowed she wore a locket which belonged to her aunt.

Miss Kathryn Ballard attended the bride as maid of honor and Henry Justice served the groom as best man.

The young couple is well known here in Wheeler, the bride having been employed at the Wheeler Drug and the groom attended the Wheeler schools. They are making their home in Canyon where Don is a junior in West Texas State Teachers College.

Mrs. McIlhany Hostess To Cecilia Mann Class

The Cecilia Mann Class of the First Methodist Church met Thursday night, October 16, in the home of Mrs. M. McIlhany for the purpose of electing officers for the coming year.

Mrs. Fred Farmer, president, was in charge of the business meeting at which time the following officers were elected: teacher, Mrs. M. McIlhany, Mrs. H. E. Nicholson, Sr., assistant teacher;

Mrs. Fred Farmer, president; Mrs. C. M. Hampton, secretary-treasurer and the following committees appointed, social committee, Mrs. C. C. Robison, Mrs. Linda Clay and Mrs. J. E. Willard; courtesy, Mrs. C. J. Meek and Mrs. H. M. Wiley. A Christmas party was also planned.

Decorative appointments featured arrangements of fall flowers and Halloween motifs, with fortune telling by Madame Kazombi as the feature in entertainment for the evening.

Refreshments of pumpkin pie, fruit punch and mints were served to the following: Mesdames Linda Clay, J. E. Willard, A. M. Galmor, C. C. Robison, H. E. Nicholson, Sr., S. Y. Allgood, Fred Farmer, C. M. Hampton, C. J. Meek, Miss Blanche Grainger and the hostess, Mrs. M. McIlhany.

EXERCISE

"Why don't you walk down the street instead of galloping 'round in the revolving door?" the hotel porter asked a guest who had explained that he was just taking a walk before breakfast to sharpen his appetite.

"I mustn't go too far," said the guest. "I'm expecting a telephone call any minute!"

Loan facilities formerly provided by Farm Security Administration and by the Emergency Crop and Feed Loan Division of the Farm Credit Corporation are now furnished by the agency, Farmers Home Administration.

News From

(Continued from Page One) good roughages in meeting requirements for the dairy herd. Between now and frost, the best we can hope for is doing a good job of harvesting available hay and silage crops.

Because of dry weather, it has not been possible to get small grain pastures planted early in September. This should not cancel plans for small grain pasture. The odds are in favor of enough feed to justify the trouble and expense for planting during most of October. Last winter, we estimated that one dollar spent for small grain pasture would return \$18.00 worth of grazing. With all feed costs at a higher level, the deal is better than ever this year.

A good basis for comparing feeds is the total digestible nutrient content. This lumps the proteins and energy nutrients together. To rate feeds according to protein and carbohydrate value, it is necessary to refer to feed analyses. Generally speaking, good hays averaging 50 per cent total digestible nutrients while silage averages about 18 per cent. Concentrate mixtures average about 75 per cent total digestible nutri-

ent. This means that one pound of concentrate can be replaced by 1 1/2 pounds of good hay or 4 1/2 pounds of silage.

Mineral and vitamins are not included in total digestible nutrients. Good roughages are good sources of each. Many dairy herds suffer a lack of green feed (vitamin A) from frost until spring grass. During the same period, the mineral content of roughages is low if harvesting has not been done at the proper stage of maturity.

Another important consideration for an ample supply of good hay and silage is feeds that fill a cow. For the digestive equipment of a dairy cow to work properly, it must contain some roughage feeds to stimulate muscular action. Filling on finely ground feeds that form heavy stick mass in the digestive tracts cause trouble. Herds that get plenty of roughage all the time have less digestive trouble and make better use of feed.
