Pfc. Raymond Badly Dies On Okinawa

Pfc. Raymond Badly, son of Mr. and Mrs. J. L. Badly, has been killed in action on Okinawa. The War Department notified the parents that the 25-year-old private was killed June 16 while serving with the army. Badly entered service in September 1944 and sailed overseas in February of this year. He had been employed at the Douglas Aircraft plants at Long Beach, Calif., prior to service. Pfc. Mr. Badly is a contractor there. J. D. is across the Pacific at Zambaanga in the Philippines and in the same branch of service as Raymond, the Infantry. Other survivors are his wife, Geraldine, and a sister, Peggie.

Raymond was born July 20, 1920 in Wheeler. His parents received the message of his death on his birthday. He had been a member of the Methodist Church since he was 8 years old.

Persons Who Received Five Pounds Canning Sugar To Get More

Mrs. Audrey Pearce, chief clerk for The Wheeler County War Price and Rationing Board, states that persons who have received five pounds of canning sugar may now make application for an additional similar amount. This does not apply, of course, to the large number of individuals who were issued certificates for fourteen pounds of sugar for canning purposes early in the season. Mrs. Pearce states that several applications are coming in incorrectly addressed and asks applicants to see that their name and address are plainly and correctly written.

Mobeetie Residents Loan Old Saddles For Display

One of the most interesting of all old west collections, and one that will grow more interesting as the years pass is an old saddle collection being formed by Edd McCormick of Pampa. So far he has collected six of the Panhandle's oldest side saddles. These old masterpieces range from 50 to 57 years in age. He has also collected a junior style, one of the very few ever to be owned in the Panhandle area.

The oldest of the collection is a two-tone, one horned affair that is 55 years old, brought from eastern Arkansas by M. A. Scribner for his wife. They brought it to Oklahoma in the latter part of the 19th century and then later to Mobeetie in 1907. Mrs. Scribner used it for approximately 25 years here. At the time of her death she passed the old keepsake on to her son, W. A. "Bud" Scribner, who at his death gave it to Miss Irvine Scribner who is now a Pampa Junior High school teacher.

Second in the collection is a saddle belonging to Mrs. H. S. Baily of Mobeetie. This particular piece of leather art is 54 years old. It was purchased at Palo Pinto in 1897. The saddle was bought by R. G. Chick for his wife, the mother of the present owner. It was brought to the Panhandle in 1921 and used on the old Rocking Chair ranch near Miami.

The third in the series are a large gallop saddle and the small junior side saddle mentioned above, both of them are over 50 years old and have seen much service during the pioneer days in this locale. Both saddles are in excellent shape considering their age, and the service they have seen.

The next object of ancient vintage is a beautiful two-toned job with a red velvet seat. This saddle is also over 50 years old and seems to be preserved in the very best of condition. Frank Addington of the Pampa Pawn Shop is the proud possessor of this product of the saddlemakers' art.

The last on the present list is the one owned by Mr. Dudley of Moy's Second-Hand Shop. While the exact history of this saddle is not known it is evident that it can go down as being very old. All these saddles are prized very highly by their owners as memoirs of the Panhandle days of Texas.

The saddles are to be ridden in the Top o' Texas entry parade on August 17. Prior to that they will be on display in the Cuberson Chevrolet Co., beginning next Monday.—The Pampa News.

NEWS OF OUR MEN—WOMEN IN UNIFORM

T5 WILLIAM T. McCLAIN
T5 William T. McClain, son of Mrs. R. L. McClain, has been awarded a citation for his meritorious performance of duty with the 760th Tank Battalion. The citation, recently sent to his mother, reads:

"William T. McClain, Technician Fifth Grade, Armored, United States Army. From 28 September 1944 to 7 November 1944, Technician Fifth Grade William T. McClain, as a 1/2 ton truck driver, on numerous occasions drove his truck over difficult terrain under blackout conditions, carrying supplies to tanks and their crews in forward areas under shell-fire. Technician Fifth Grade McClain displayed on numerous occasions skill and courage in hauling supplies over constantly shelled roads in the most inclement weather. Many times it was necessary for him to drive his truck over extremely muddy fields under direct observation from the enemy in order to reach the tanks and their crews. His courage under fire and devotion to duty reflect credit on the Armed Forces." Signed: Claire S. Curtis, Lt. Col., 760th Tank Bn., Commanding.

T5 McClain has been in the army for 4 years and overseas since January 1943. He has been through the Africa, Sicily and Italy campaigns and has 105 points to his credit. He writes his mother that he is waiting at a port of embarkation for his return to the states.

WARD STEPHENS, S1C

Aboard the USS Birmingham in the Pacific — Ward Stephens, seaman, first class, USNR, of Twitty, serves aboard this ship which can look back on 121,500 miles of fighting the Axis from the invasion of Sicily to the battle of Okinawa.

The Birmingham struck at Okinawa targets six months prior to the landings and gave fire support to minesweepers clearing the approaches to the island. During the campaign, she sank thousands of tons of shipping.

Operating with the famed 3rd and 5th Fleets and Task Forces 38 and 58, she bombarded Wake Island, participating in air strikes on Tarawa, took three hits at Bougainville, shell-ed Shortland Island and hurled her might into the assaults on Saipan, Tinian and Guam.

At Mindanao, she sank 3,000 tons of shipping and assisted in the destruction of another 3,000. At Bougainville, she blasted four Jap planes out of the sky and scored hits on 11 others.

Following the battle for Leyte gulf, the Birmingham was damaged for the second time. She had gone alongside the USS Princeton to battle fires resulting from a direct hit. The ships lay in a trough of the rough waters separated by about 50 feet when a terrific blast from exploding bombs and torpedoes in the Princeton rained death on the decks of the Birmingham.

After three months for repair, the Birmingham steamed out again to take part in the Iwo Jima operation and the battle for Okinawa.

Rather A Joke

Perhaps you read about an American delegation that was to go to Denmark to instruct them in how to get under way, since liberation, to produce food. Shortly after its liberation Denmark began to furnish British and American forces in Europe with BUTTER, EGGS and BACON, and in large quantities too! The Danes were allowed by the Germans to keep their stock since it meant feeding the Germans. In this way, about a month after being free, Denmark started her oldtime shipment of food stuff to England. This Denmark is a quite, small piece of country, remember, and many an American state would engulf it many times over. And WE should send a delegation to tell Denmark how to produce farm goods, especially butter, eggs and bacon? Evidently she has some system of agriculture that has restored her in a hurry to assume a place in the production market. Maybe they should send a delegation from Denmark over here to consult some of our white collared, swivel-chaired production goal setters.

The Best Crop

We talk big, around Wheeler, about developing our resources, of larger crops and more dividends. A development of the crop of 4-H Clubs pays mighty fine dividends, in case you didn't know. These active organizations are found all over the country. Club members are busy with learning along lines such as home economics and preservation, home furnishing, livestock and crop production which takes in projects in beef heifers, purebred dairy, pig, rabbit, colt, sheep, poultry. Add the Victory garden projects and you can see why the 4-H Club members value their education through counsel and expert guidance. We can always lend a hand to the work of this organization.

Bear In Mind

It takes public opinion to bring about punishment of war criminals. There are complaints heard of the slowness in bringing these criminals to court. As happens in all cases dealing with law and order, when the public becomes disinterested in the cases themselves, the prosecution is apt to be slow in doing anything. It has happened before that the American people quickly forget German crimes and become indifferent enough to allow the guilty to escape punishment. We should take immediate and prompt action before our memories fail us again. The Allies, in their court to try these war criminals, should proceed to demand a reckoning. Do something before somebody starts to organize a committee to protest against the mistreatment of our enemies and asks that we subscribe to a cigarette fund for their sakes!

Costume jewelry may be pretty to some folks but to others it looks like the dream of a frustrated inventor of gadgets.

A real badge of honor to wear for any Wheeler boy and girl, is a buster on their hand from helping on a farm during summer vacation.

Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on the Times' exchange list.

My powers of observation have suffered much damage through the years or perhaps my memory is up to its old tricks. After a lifetime of association with cowboys with frequent visits to round-ups and chuck-wagons, I have yet to hear a rider play his guitar while his companions joined in singing. However, Hollywood has become great because it placed silk-ens robes over ragged and often naked facts.

—Douglas Meador in The Matador Tribune

Rep Ennis Favors has sent this paper a story saying that all four of the constitutional amendments should be passed. One amendment he cites is the one permitting all members of the armed forces and all ex-members, honorably discharged, to vote for the duration of the war and for 18 months thereafter without the payment of any poll tax. That is O. K., of course; but look at it. It is about the only thing the past Legislature did for servicemen. Boil it down and look it over realistically and it amounts to the remarkable total of \$1.75 that the veterans will be saved in expense. The least that should have been done would have been to submit a constitutional amendment to care for veterans during the time they are waiting for claims with the Federal Government to be acted upon.

—Wellington Leader

There ought to be some suitably smart comeback to that mossgrown expression, "Hot enough for you?" But it's just too hot to think up smart answers to stupid questions, so most folks will continue to grin feebly, wipe the sweat from their brows and say something original like "Sure is."

—Hereford Brand

Like many other towns and cities in Texas, and the nation as a whole for that matter, Dalhart has a school problem. They are meeting it on July 28 with an election which either will or will not authorize the school district to raise the tax rate from \$1.00 to a maximum of \$1.50. This procedure is permitted under a law passed by the last legislature. Such an election may be the solution of raising more funds for the Higgins Independent School District.

—Higgins News

Every important war is likely to make some new addition to the art of warfare. In our present war with Japan we see, in the Japanese "suicide plane," one of the strangest and most effective weapons in human history. There is no advantage in refusing, as some observers do, to recognize this fact.

The most remarkable thing about it is that the Japanese fighting man makes himself a weapon. Plunging in an airplane toward his objective, with a load of powerful explosives, plane and man make one missile, and seem more effective in blowing up warships than any other device yet used. It is the very acme of self-sacrifice in warfare. No American would be asked to fight in this fatal fashion, although Americans have made similar sacrifices. The Japanese command evidently has no such squeamishness.

—Amarillo Times

It is interesting to note that wording on the ballot to put members of the Legislature on a full-time salary basis makes no reference to amount of pay the members would receive. It may be a coincidence; on the other hand, it may be deliberate. In either event voters are entitled to know the facts of the proposition they will pass on when they go to the polls in the special election on August 18.

The ballot merely reads for and against "providing for continuous salary per diem of all members of the Legislature during their tenure of office."

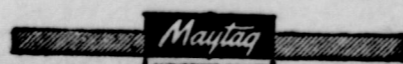

It does not explain that tenure of office is two years; and nothing is said about the pay being \$10 per day, for the full two-year period, nor is

Folks I'll tell you: I was a driving thru the country the other day and I stopped at a dairy to watch them milk with them new fangled milking machines — and that got me to thinking about my Grandpa's old cow.

She et some Rough on Rats one time and all her hair come off and left her with nothing but her black skin and some of the boys got a bucket of white paint one night and stripped her up like a zebra, and I want you to know the next morning when Granddad set down to milk and looked up and seen what he was a milking he left there in one flat.

My little poem today will be:
No fine, fancy cattle
Holds for me the charm
Like that old knock-kneed heifer
That roamed Granddad's farm.

She was always so hungry
Unkept and forlorn,
And bawling for feed
When you neared the barn.

I never knew why I held for her pity,
For she gave more trouble, at evening and morn;
But it was fun a watching her swallow
A big ear of hard yellow corn.

there any explanation that the regular term during the two year period is fixed at 120 days.

Facts are that members of the Legislature now are paid for the time they are in session. They are paid \$10 a day, plus travel allowance to and from Austin. Unless there is a special session called by the governor, which is the exception to the rule, the members are in session four months, or 120 days out of the two-year term.

Under the constitutional amendment coming up on August 18, members of the Legislature would be paid \$10 a day, every day in the year including Sundays, for the two-year term. The time they spend at Austin would have no bearing on their pay. Whether you are for or against such a plan, it is well to bear the above facts in mind when you go to the polls, for none of this pertinent information will be found on the ballot.

How well you'll work perhaps another year;
Tomorrow's chance you do not need to borrow—

OFFICE OF DEFENSE TRANSPORTATION GENERAL ORDER 52

Effective 12:01 am, June 30, 1945

"No carrier shall reserve, assign or allocate seating or sleeping space on a passenger train more than 120 hours in advance of scheduled departure time of such train. No carrier shall issue a ticket for a reserved seat or sleeping space on a passenger train more than 120 hours in advance of scheduled departure of such train, except in the case of tickets for reservations made prior to the effective date of this Order which have not been picked up."

OFFICE OF DEFENSE TRANSPORTATION GENERAL ORDER 53

"On and after 12 o'clock noon, July 15, 1945, no common carrier by railroad or sleeping car company shall operate or transport any railway car containing sleeping space or sleeping accommodations to a point of distance 450 miles or less from the point of origin of such car, such distance being measured by the shortest distance by railroad over which sleeping cars are operated between such points. Each common carrier by railroad shall forthwith cancel all reservations for space after 12 o'clock noon on July 15, 1945."

What about Travel now....

under the new Government rulings?

The Government has curtailed civilian travel by ordering the railroads not to make reservations on passenger trains more than five days in advance of departure and by banning sleeping car service on trips of 450 miles or less.

A lot of people are assuming that, with the European war over, the travel situation on trains should have eased up by now.

But they are finding out that it's harder than ever to get space. They're asking themselves, "Why?"

The reason is simply that the railroads are being called upon to repeat a job of moving over 3,000,000 soldiers. But this time it is to be done in 6 to 9 months whereas originally it took more than 2 years to move these men.

The railroads are still operating with the same number of passenger cars that they had when the war started. Building new passenger cars has not been permitted since Pearl Harbor.

Many Pullman cars have been converted into

hospital cars, and, of course, more Pullmans and coaches than ever are being withdrawn from civilian service to use in the movement of men to the Pacific.

The great bulk of traffic for the Pacific funnelled into 4 railroads to ports of embarkation in California. Santa Fe, with its improved facilities, is carrying a large part of this traffic.

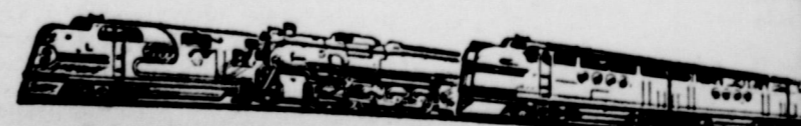

This all adds up to the fact that only a very limited amount of space is left over for civilian travel.

Of course we like to accommodate our friends and make new acquaintances. But you, too, agree that the troops and materials needed to whip Japan must come first.

New cars are now on order. Santa Fe has enough new chair cars on order to seat 3186 people. 16 new lunch counter-diners are also on order. A substantial number of new sleeping cars will be placed in service on the Santa Fe as soon as War Production Board orders permit.

Issuance Of Canning Sugar Is Speeded Up

A recent campaign to encourage housewives who had certificates for more canning sugar than they actually need for that purpose to return them to their local War Price and Rationing Board so that essential rationing could receive their share has already resulted in about 25,000 pounds reclaimed in the six states of this OPA region.

This plea to housewives to share their sugar supplies with other home canners has not gone unanswered and the results show that the spirit of neighborliness is still paramount in West Texas, the District OPA reports.

Home canning sugar issuance has been cut to about five pounds per person in this District because of limited supplies. Original plans called for issuance to continue through October, but because sugar stocks are depleted and sugar has been so hard to locate in the past few months, issuance has been speeded up so that the program will be completed by August 31. This will give the housewives their certificates earlier so they will have time to find sugar and have it ready for late fall canning.

"This does not mean that the total amount to be issued to home canners will be any less," according to OPA Rationing Executive William G. Williams. "It merely means that what is available for home canning will be issued in less time so the program can be completed."

NEWS IN THE WORLD OF RELIGION BY W.W.R.E.I.D

Private Berman E. Smith, of Canover, N. C., serving at the most northerly post of the American Army—an airfield continually snow swept in the Arctic waters of vast Hudson Bay—combines duties of engineering clerk and duties of another "clerical" nature. Chaplain Charles A. Davis cannot visit the post regularly, but he has appointed Private Smith to conduct Bible classes and other services for officers and men each Sunday. Recently, as a result of the soldier's efforts, three other soldiers were baptized by the Chaplain. Once before, a Catholic missionary to the Eskimos baptized a Canadian; but these were the first white Protestants baptized in this country.

"The largest Protestant church in America or in the world" is growing still larger according to its official statistician, the Rev. Albert C. Hoover, of Chicago. It is the Methodist Church, which now claims a total membership of 8,046,129, or an increase of 67,000 during the past year. Dr. Hoover lists 21,104 Methodist parishes and about that number of active ministers; while there are 41,067 preaching places—some ministers having from two to ten churches at which they hold services. He estimates also that Methodists gave \$133,000,000 last year for the support of its local churches, for missions and benevolences, and for war relief and reconstruction.

"There must be a strange feeling in the hearts of thousands of men who fled Europe and came to America to get away from universal military service, to find so much talk now in favor of a peacetime draft for all young men in America," says Dr. Hugh O. Isbell of Springfield, Co. "That was the god which Germany worshipped. Now we have beaten Germany, and there are people among us who would set up the German god of militarism and worship it. Have we so far failed that we must have militarism in order to have discipline? . . . The Roman knew better. No general with an army might approach closer to Rome than Rubicon. Caesar crossed the Rubicon with an army, the die was cast, and Roman democracy fell. America, take warning!"

Gas Cooking, Heating Stoves Off Ration List Beginning August 1st

Rationing of gas cooking and heating stoves will end July 31, the District Office of Price Administration has announced. Combination ranges, except oil-gas combinations, will also be removed from rationing on that date.

Oil cooking, oil heating, combination oil-gas stoves and oil conversion burners for stoves will remain rationed.

OPA explained that a substantial increase in production of gas heating and cooking stoves is scheduled for this quarter. Authorized production appears great enough to remove the necessity of rationing gas stoves. The supply of fuel oil and kerosene is so short, that unrestricted sale of oil burning stoves cannot be permitted. They will remain under the same rationing restrictions as formerly.

and the International Y. M. C. A. joined recently in honoring Edwin Merton McBrier, of Monclair, N. J., businessman, educator, philanthropist, and former missionary to China, on his eightieth birthday. A cousin of the late Frank W. Woolworth, Mr. McBrier was associated with him in early stores founded in Lockport, N. Y., Buffalo, and Detroit, and was an executive of the present Woolworth Co., until his retirement in 1921. Since then he has devoted himself to promoting educational and missionary interests in China through the above agencies, and has given large shares of his fortune and of his time to schools and colleges in China and elsewhere. Generalissimo Chiang Kai-shek awarded him the "Order of the Jade."

Methodists in Santa Ana, Calif., recently welcomed Shosuki Nitta "home" again to the First Methodist Church, in which he had been active for years before being evacuated to the relocation center at Poston, Ariz. The pastor, the Rev. J. N. Ashley, mindful of the church which Mr. Nitta had organized in Poston, where his son and daughter-in-law taught in the Sunday school, preached a short sermon on racial tolerance and after the service members of the congregation crowded about the returned evacuee.

The Rev. William A. Brown, D. D., of Cave Junction, Oregon, former pastor in the Philippines, in Argentina, and in Kansas, is promoting the observance of the third Sunday in August (Aug. 17 in 1945) as "Old Home Church Sunday." On that day people would gather at their earliest family church, and observe memorials to former members, to the founders of the local church, to former pastors, and to ministers and missionaries who have gone out from the local church. The day was first observed in 1931 in the Grand Avenue Methodist Church, Kansas City, Mo.

Working through the Home Missions Council of North America, twenty-three Protestant denominations are carrying a religious and welfare ministry to migrant agricultural workers in twenty-three states: to 85,000 seasonal workers from Mexico, Jamaica, and Bahamas, and the Barbadoes; to 200,000 Spanish-speaking Americans; to 68,000 American negroes; and to about 250,000 other Americans and immigrants. The ministry includes church services, Sunday schools, Bible classes, nurseries, recreation, language study, counselling, home-making. It is conducted by 274 ministers, community workers, child specialists, and teachers. Texas, California, Arizona, Oregon, Washington, Michigan, New York, and New Jersey are the principal states employing these migrant farmer workers.

Ross Weeks Receives Translation Of Dutch Letter Pertaining To Son

Ross Weeks has finally received a translated copy of the letter written him a few months ago by a native of Nederland. After failing to find someone locally who could read the letter, Mr. Weeks mailed it to Sears Roebuck headquarters at Chicago where it was promptly translated and a copy written in long hand in English was mailed him.

The letter received from the native Dutchman is in regard to a visit paid him by Sgt. Hosea B. Weeks who was reared near Allison and graduated from high school in Wheeler. Sgt. Weeks was with the 9th army that lost several thousand men in the crossing of the Rhine. He has since transferred to the 3rd army that is being retained in Europe for occupation. He has been in the army 3 years and overseas since September, 1944.

The letter received from Kerkrade, Limburg, Nederland translated in English is as follows:

Kerkrade, 4-11-45
Mr. Weeks,
Dear Sir:

I feel it is my duty to write you a letter whereas your son, Sgt. Weeks, and four other soldiers were stationed near us from the 23rd of February to March 2nd before that they were resting for 14 days in Heeslen, a little town 3 miles distance from us. We ourselves live five minutes walk-

Kelton Man Is Member Short Snorter Society

T-5 Grover C. Nichols, 26, of the Ordnance department has been added to the roster of the International Short Snorter Society, the exclusive organization made up of men and women who have flown trans-ocean. They were landed at Air Transport Command's Miami Army Air Field after flying there from overseas in ATC planes.

Camp Blanding, Florida was their next step. From there they go to reception centers nearer their homes for separation or furloughs prior to reassignment.

Nichols has seen 36 months service which was terminated in France. He wears five battle stars.

ing distance from the German border and from our place they left the 2nd of March in the afternoon at about 5 o'clock.

And as they left your son charged me to send you a book which he had taken from Germany as a souvenir when he was at the front. And as we just got permission two days ago to send letters, that's the reason this letter was delayed. As soon as we are allowed to send parcel post we will send the book. (Here the censor cut some out, now it goes on) probably we will see the boys again.

Your son felt very much at home at our house. In the evening he would sit with us in the living room with his stationary, newspapers and have American music on the radio. We can understand, sir, how it is that they always speak of home.

We ourselves with our small children spent four weeks with strangers and when we were liberated by the Americans. Thanks to the Lord, our house was still there, but the Germans had taken everything out of the house even the bare necessities, but that's past, now we are free.

Your son looked well, we could understand each other quite well also.

Whereas we cannot write English I hope you can read this letter. We are sending the best regards from your son to you, also his wife and children. We hope you soon will meet each other in health and strength.

With best regards from us all,
Respectively,
A. Stevens Kornick,

Cpl. Robert Mason With Cavalry Division That's Been Total 806,937 Miles

Cpl. Robert E. Mason, son of Mr. and Mrs. W. E. Mason, is a member of the 16th Quartermaster Squadron whose vehicles have traveled a distance of 806,937 miles, an equivalent of almost 32 1/2 times around the world, since January 27, 1945. They have handled and hauled a total of more than 29,600 tons of supplies and equipment. Were this all simultaneously on 2 1/2 ton trucks and arranged in convoy formation, it would extend a distance of more than 330 miles, or from one side of the state of New Mexico to the other.

While the above figures are commendable in themselves, they become more remarkable when it is noted that this was accomplished under combat conditions and with only 80 percent of assigned vehicles operative. It is also notable that during the entire period the group had a total of only 14 accidents, or only one in every 57,638 miles.

Mason, who wears four combat stars, two spears and the good conduct medal, has been in the army 4 1/2 years and overseas the past 26 months. After first going to Australia, he has participated in campaigns in New Guinea, the Admiralties, Lady Island and Luzon where he is now stationed. **NEW CARS?
NOT YET.

**Keep Your Old Car Fit
Till New Cars Are Here**

THE LONGEST CUSTOMER LINE-UP IN HISTORY—

Millions of people nationally are waiting to buy new motor cars. Most every family in our own trade area, not only have the need and desire for a new car but have the money to pay for one. There just won't be enough cars for a long, long time. (Don't be misled by the talk about "Quick Conversion"—it takes time, and materials are going to be scarce.) Labor difficulties may also delay production.

Average car and truck production before the war was six million units per year. The last half of 1945, the industry has been authorized to build only 241,000 cars. In 1946, only 2 million cars. Thus, instead of absorbing any of the shortages resulting from "no production at all for nearly four years," we will still be running 4 million cars short per year, even in 1946.
