### It's Refreshing

Comes again the time one is impressed with the slick service. It was quite some time since anyone in a filling station had taken time to clean the windshield. Perhaps the motorist has almost forgotten the pre-war policy of service. The man who traveled complained about the lack of courtesy displayed in the hotels where staying and he now reports a marked increase in attention, a catering to guests with the old polish. In restaurants where changing help, inefficient and nonchalant, has shrugged off service, it too is getting in line. Many stores made a lot of money during the war and then proceeded to reduce their oldtime services to customers. They are returning to competition in the market now that peace makes this business possible, and the public will get the break. The curt remark, "don't you know there is a war on," will be replaced with, "thank you, please call again."

### It's In The Bag

In the prewar days the supply of burlap used in America came from India. Many manufacturers of stock feeds were stuck with what to use for bags. Some time before there had been a small turn to making sacks of cotton prints, colorful patterns useful for house dresses, curtains, luncheon sets. And that is what the rural housewife did with them. Soon the folks who make the bags saw it was a way of advertising the packaged product and good for business, so they selected prints for sacks that were pleasing to the feminine eye. The companies stamp the name of the brand of goods on with water color paint which washes out. It all points to the farm wife now shopping for the feed so she can match prints on hand. And, what's even better than that bought by the woman in the dry goods store. And so now, when burlap becomes available, rural wives will want the manufacturer to continue to make the cotton print sacks.

### Not So Fast!

Sunday driving will convince you that gas rationing is off, if nothing else will. Take the family out for a drive and watch cars crowding the roads again and with a return to the speed that has menaced our national welfare ever since the foot was so heavy on the accelerator and caution was thrown to the winds. It was not so long ago that the year's death toll in auto accidents due to speed and carelessness, was a national problem. During rationing we drove less and due to tire shortage we took our speed in a moderate dose, conserving rubber and lives. We had a vacation from death on the country's highways. Of course there have been wrecks but we all know the old speed before the war caused many, many more and horrible ones, too. It hasn't been too monotonous driving at 35 miles an hour. We arrived at our destination in good time and no paint scratched off the fender. In fact, there are many motorists feeling that the privation was perhaps a privilege.

It looks to some folks that nobody is supposed to be responsible for the Pearl Harbor disaster.

### Pertinent Paragraphs from Panhandle Press

Items of interest culled from newspapers on the Times' exchange list.

Next to the discovery of the atomic bomb, the prize for the war's most difficult intellectual achievement might well go to the United States Navy intelligence for its work in unravelling the Japanese secret ciphers. This, according to Australia's defense minister, John A. Beasley, enabled our fleet to anticipate Japanese ship movements, and was the decisive factor in winning the victory of the Coral Sea.

Japanese is one of the world's most complicated languages, largely because of its different systems of writing, and the uncertainty as to how the written characters should be pronounced. Add to this the perplexities of a code which is hard to decipher in any language, and the combination must be tops for difficulty.

Just one more reason for being proud of the Navy. —Amarillo Times

Did you ever stop to think that Japan as a nation has contributed nothing to civilization and mankind? There has never come out of Japan a great scientific discovery, a great medical discovery, a great art, a great musical composition or song. Japan has been an imitator, a copyist, never a discoverer or an original. —Tulia Herald

At this time it is hard to love your neighbors. Frankly we have no love for the Nazis. We hate the Japs. Maybe that is not following the dictates of the Good Book, but we are just too human to be so divine as to turn the other cheek in times like these. The story of atrocities which came out of Germany were terrible; almost too terrible to believe. But those stories are not to be compared with the atrocities which have been imposed on our soldiers and civilians by the Japs. Yet back of the story coming out of Germany, we learn that the Nazis treated American prisoners just a little better than they treated the war prisoners from other nations. The Germans were as brutal to other prisoners as the Japs. The Japs seemed to have taken delight in the brutal and uncalled for punishment and treatment of American prisoners. That is probably due to the fact that the Japs were trying to make examples of the whites for the benefit of the yellow races of Asia. Those who were guilty will be punished, but the punishment will be legal and not so savage as the atrocities which were imposed by the Japs on our prisoners of war. General MacArthur can be trusted to use diplomatic measures which will impress other Asiatics that Americans are not beasts like the Japs attempted to picture us. —Canyon News

By BOYCE HOUSE

My grandpa had a thousand-and-one sayings. He didn't bother with quotation marks; he just reached up and took what he wanted. The wisdom of years of practical experience is found in such observations as:

If a man fools me once, that's his fault. If he fools me twice, that's my fault.

It's the squeaking axle that gets the grease.

And it's the hit dog that hollers.

No gentleman will hurt me; no other can.

What is a gentleman? He is one who is kind and courteous to boot-blacks and newsboys — in short, to those to whom he doesn't have to be.

The Lord gave us our relatives but, thank the Lord, we can choose our own friends.

A wise hunter doesn't waste ammunition on a dead duck.

All of us can admire the rich man's congress. In bragging on Tom and cussing Pappy, it might be well to give justice where justice is due. —McLean News

An experiment now being conducted by the New York Central Railway will be watched by scientists and industrialists with close interest. If it is successful, rail transportation as a whole will be revolutionized.

The railway is trying to operate a locomotive with atomic power. It is undertaking to develop a patent granted in 1939, and later laid aside owing to war conditions, under which the enormous force that wrecked two Japanese cities and hastened the war's end may be harnessed. The broad principle is the same. The process is sharply different. It involves the fusing of steel and mercury through intense heat created by atomic disintegration. One teaspoonful of the fused elements, said Ralph Lucas, who is in charge of the experiment, would provide enough power to haul a 120-car freight train 45 times from New York to San Francisco and back. The formula on which the 1939 patent is based, Lucas said, makes for controllable disintegration of the atom. In other words, the force can not only be developed, but regulated.

If the atom can develop power to pull trains, it can, presumably, be put to work to run automobiles, electric plants and all the other things for which oil and coal are now used. The Central's shops at Belleville, N. J., where the atomic experiment will be conducted, may witness some epochal happenings. —Wichita Times

CHIROPRACTIC'S GOLDEN ANNIVERSARY CAN BE A GOLDEN OPPORTUNITY FOR YOU!

More than 1,000 Chiropractors in Texas this week are celebrating the founding of Chiropractic, September 18, 1895 . . . just FIFTY years ago.

They have a right to celebrate because they KNOW what Chiropractic has done for countless thousands, aiding them to know the great joy of healthful, happy living.

You, TOO, can know that joy if you will give YOUR CHIROPRACTOR an opportunity to examine you and give you the benefit of years of scientific research, knowledge and practice.

Chiropractic first locates the cause of pain or illness. Chiropractic adjustment removes that cause and thus aids nature to restore the body to normal condition.

You owe it to yourself to give Chiropractic the opportunity to PROVE what it can do for you.

### WAGE CEILING \$1.25 IS RECOMMENDED ON COTTON PULLING

Wage ceiling of one dollar and twenty-five cents a hundred for pulling and snapping cotton, and two dollars a hundred "for well picked, clean cotton" has been recommended by the Office of Labor at Washington by the Texas USDA Wage Board for harvesting in 39 southwestern, low harvesting plains and eastern Panhandle counties. According to Chairman E. R. Alexander, state board also recommended to OPA a ceiling of twenty-five cents a hundred for crew leader services for hauls up to fifteen miles, and thirty cents for longer mileages. Wheeler is included in the list of counties.

Action followed public hearings petitioned by producers at Sweetwater on September fourth with eighty-six farmers representing organized groups in 17 counties, and at Vernon September fifth with sixty farmers representing organized groups in twenty-two counties. At Sweetwater farmers voted eighty-four to two for ceiling program, and vote at Vernon was fifty-six to four, Alexander said.

Pending approval of state board's recommendations, which expected soon, farmers will set up county stabilization advisory committees which

Distinguishing himself by meritorious service in connection with military operations against an enemy during the period from February 24, 1943 to May 8, 1945, Pfc. Herbert L. Mitchell was awarded the Bronze Star Medal. Serving with the Field Artillery he "displayed ability and courage throughout seven campaigns in Tunisia, Sicily, Italy, Normandy, Northern France, Rhineland and Central Europe" his citation stated. "He has clearly demonstrated his devotion to duty and outstanding service to his battalion. His actions were in accordance with the highest standards of the military service."

Herbert was formerly projection operator at the Rogue theatre and attended the local school. His mother, Mrs. N. H. Mitchell, and family reside in Clearwater, California.

will assist state office on necessary adjustments, planning and other related matters.

Approval of state board's recommendations by director of labor, Washington will mean producers may not lawfully pay above, nor pickers receive higher wages than those set, except where hardship cases require adjustment with approval of state board, Alexander said. Paying or receiving wages lower than ceiling would not violate regulations.

Alexander said that additional information may be obtained from D. A. Adam, College Station, executive officer of State Wage Board.

### DDT INSECTICIDE TO BE AVAILABLE TO EVERYONE

Good news for the thousands of families in Texas, is the information that DDT, the almost miraculous insecticide developed during the war, is now available for civilian use, and if not already on the market in every community, the time is approaching when it may be purchased wherever insecticides are sold.

Formerly restricted to military use for the suppression and control of malaria and other insect-borne diseases among the armed forces at home and abroad, civilians have awaited with interest the opportunity to use DDT in homes and business buildings to rid them of flies, fleas, roaches and other common pests.

"If every household in the State will spray his home and outbuildings with DDT," Dr. Geo. W. Cox, State Health Officer declared recently, "there is a definite possibility of bringing the incidence of insect-borne diseases down to an absolute minimum. Such insects as fleas, lice, flies, mosquitoes, and roaches have been recognized as vectors of diseases for many years, but heretofore there has been no satisfactory method whereby they could all be controlled by a single poison. That is why DDT is referred to as a 'miracle insecticide.' It is as fatal to one of these pests as to another, and homes, business buildings, outhouses and premises can be rid of such insects through the use of DDT."

Dr. Cox urges that in communities where DDT is already available, every home and every business building be sprayed, as well as outbuildings, privies, and the outside surfaces of closed garbage cans. Even though garbage containers are kept closed, flies are sometimes attracted by the smell of food, and if they alight on a surface that has been treated with DDT, they are killed.

The State Health Officer advises that persons living in communities where DDT is not yet on the market should keep in touch with their local dealers so that as soon as it is received, they can use it in their homes. It is inexpensive and affords one of the cheapest and most certain of all health protections, costing only a few cents for a quantity sufficient to spray the ordinary home thoroughly.

### CHIROPRACTORS CELEBRATE FOUNDED OF PROFESSION

Chiropractors of Texas today are celebrating the founding of their profession by Dr. D. D. Palmer in 1895. Scores of the 1000 or more chiropractors over the state today, this week, and throughout the remainder of the year, will speak before luncheon clubs, at other gatherings, and over the radio telling of the history of their profession and the benefits they claim for it.

"Chiropractic now has grateful followers in nearly every nation on earth and nearly 100 schools and colleges teach its practice, theory, and principles. The profession is licensed in 43 states and the District of Columbia. We, in Texas, will not stop until the people of Texas have their fifth freedom . . . the right to choose their own form of alleviation for their suffering."

A battle has been waged by chiropractors in this state to secure a chiropractic licensing law. Such a law was passed by the legislature in 1943. That law later was declared uncon-

stitutional. A new law, removing constitutional objections, was passed by the lower house of the legislature in 1945, but failed by one vote to get before the Senate because a two-thirds vote was required to get a measure before that body in the latter days of the session."

Chiropractors of Texas have announced their intention to continue

their battle to legalize their profession and to give the people of Texas the rights they should have.

Pvt. and Mrs. B. F. McDonald of Briscoe and children, plan to leave September 24 for Menlo Park, California where he will report to Dibble General Hospital.

JUDY-LANDTROOP RITES ARE READ

In a ceremony at the West Austin Methodist church Sunday, September 2, at 7 p. m., Mrs. Texas Miller Judy daughter of Mr. and Mrs. W. O. Mil-

MRS. DORMAN W. LANDTROOP

ler of Austin, became the bride of Lt. Dorman W. Landtroop, son of Mrs. Ruby Landtroop of Norman, Oklahoma. The Rev. Albert H. Bankert read the double ring ceremony.

Mrs. Worth Beal, sister of the bride, was matron of honor. She wore a dress of cloud blue with accessories of black. Her corsage was of red rosebuds and gardenias.

The bride's niece, Miss Prissy Beal, was soloist. She sang "Always," preceding the ceremony and was accompanied by Mrs. S. B. Purnell. Miss Beal was dressed in an American beauty woolen jersey dress with corsage of shattered pink carnations.

Best man was Worth Beal. The bride wore an early fall model of turquoise wool jersey with matching crystal beaded calot. A brown veil covered the crown of brown maline. She carried an arm bouquet of American beauty rosebuds.

A reception in the Sun room of the Austin hotel followed. Guests included relatives and a few close friends of the couple. A low bowl of American beauty roses and the bride's cake decorated the table. Both Mrs. Miller, mother of the bride and Mrs. Landtroop, mother of the bridegroom, wore corsages of pink amaryllis. Mrs. Miller was dressed in navy sheer. Mrs. Landtroop wore light blue sheer.

Mrs. Landtroop served 25 months as recreational director for the Red Cross in the South Pacific. The bridegroom holds the Distinguished Flying Cross, the Presidential Citation and the Oak Leaf cluster. He was for 17 months a prisoner of the Germans and totaled 2 1/2 years overseas.

The couple flew to Mexico City for a wedding trip.

**WEDNESDAY STUDY CLUB ENJOYS LUNCHEON**

The Wednesday Study Club held its first meeting of the year with a luncheon at the Methodist church last week.

Mrs. D. A. Hunt, the new president, greeted the club members and their guests and gave a brief outline of the year's work.

The club colors and flowers, red and white roses, were used as table appointments. Mrs. Glen Porter gave several piano selections during the luncheon. Miss Georgia Gay Porter gave a vocal solo, "If I Loved You."

Mrs. Lee Guthrie reviewed "The Yankee Stranger" by Elsyth Phane.

Club members and guests enjoying the occasion were Mesdames R. Williams Brown, M. L. Gunter, Lee Guthrie, R. D. Holt, D. A. Hunt, C. J. Meek, Floyd Pennington, Geo. Porter, Glen Porter, J. M. Porter, T. S. Puckett, Ed Watson, H. M. Wiley, W. L. Williams, T. M. Britt, J. W. Barr, H. H. Hunt, Choate of Washington, D. C., R. W. Sayre, R. H. Forrester, Thomas Jones of Canadian, Myrtle Norman, H. E. Nicholson, D. O. Beene, G. R. Walker, O. B. **BUCKLEY-WILEY**

Miss Carolyn Virginia Buckley, daughter of Mrs. Virgil Buckley of Little Rock, became the bride of Maj. Paul Manning Wiley, son of Mr. and Mrs. H. M. Wiley of Wheeler, last afternoon at 5 o'clock Sunday afternoon at Pulaski Heights Presbyterian church.

The Rev. Simril Bryant officiated before an altar of palms and baskets of white gladiolus.

The bride, given in marriage by Alton B. Raney, was gowned in a white satin wedding dress designed with a lace bertha which outlined the net yoke and her illusion veil was caught to a coronet of orange blossoms. She carried a bouquet of gardenias and asters centered with an orchid.

Miss Carolyn Wilkerson served as maid of honor, and bridesmaids were Miss Celeste Wiley of Wheeler, sister of the bridegroom, and Miss Sarah Woolum. They all wore identical models of blue taffeta and carried Colonial bouquets of mixed flowers.

Pfc. Max Wiley served his brother as best man.

At the reception at the home of the bride's mother the serving table was centered with an arrangement of white chrysanthemums flanked by white tapers in crystal candelabra. Assisting in serving were Miss Patricia Wiley, sister of the bridegroom.

Following a wedding trip the bridal couple will be at home in Des Moines, Iowa, where Major Wiley is stationed.

Out-of-town guests included Mr. and Mrs. H. M. Wiley, parents of the bridegroom of Wheeler.

**WHITENER-ROBERTSON**

In an impressive single ring ceremony Saturday evening, Miss Louise Whitener, daughter of Mr. and Mrs. C. A. Whitener, became the bride of Cpl. Lester Robertson, son of Mrs. Bessie Robertson. The nuptial vows were read by Rev. J. Edmund Kirby, pastor of the Methodist Church in Borger, former Wheeler pastor. The bridal couple were attended by Miss Geraldine Williams and Harold Robertson, both of Borger.

The bride wore a powder blue dress of light weight wool accented with brown accessories.

Mrs. Robertson graduated from the local high school with the class of 1943 and was given the award for the most outstanding English pupil of her class. Before going to work for the Phillips Company in Borger, she was employed with the Wheeler County War Price and Rationing office.

Cpl. Robertson attended school at Wheeler and Albuquerque, New Mexico. He took an active part in the school sports. For the past three years he has been with the North Atlantic Division of the army and has been stationed in Newfoundland the past two years. After October 14 he will be stationed at La Guardia Field, New York City.

The dear old English IV students have started on Shakespeare's Macbeth.

The American history students have another new teacher. It happens to be Mr. K.

The seniors had a hamburger supper at Pat Wiley's Wednesday night and afterward went on a hay ride.

There were loud noises coming from the history room Tuesday evening. Could it have been the discussion of whether the boys would or wouldn't wear ties for their senior pictures?

Pat, your lip is looking bad. Didn't Pampa come down over the week end?

It seems as though Margie and Edna have the hardest time keeping up with their jewelry.

Bonnie, did you ever find your quarter you lost in a 1938 Ford?

Edna is wearing a silver ring. You might be surprised who is the owner.

Some of the kids wonder what Fernman's favorite song is. It couldn't be "Accentuate the Positive"?

We wonder if there was much going on down at the roadmarker Monday night. How about that, Jo Reene?

We wonder who Roy and J. C. were with Sunday night. Could it have been senior girls?

### NEW PUBLICATION OUT

A new bulletin "Buying A Texas Farm" has been issued by the Texas A. and M. College Extension Service for the benefit of prospective purchasers of farms and ranches.

Authors of the bulletin are Joe Matthews, Extension assistant in agricultural planning, and Dr. H. E. Hampton, associate professor of agronomy for the college. The publication should be specially helpful to war veterans who expect to buy farm and ranch properties within the next few years, they believe.

Some of the topics discussed are: Farm land values in the Southwest, how to figure how much you can pay for a farm, and tips on the location and selection of a farm or ranch. Copies of the bulletin can be obtained from county Extension agents or from the Extension headquarters at College Station.

Mr. and Mrs. Obal Dollins of Pampa visited relatives here Sunday.

Larry?  
We wonder why Pat Noah and Harold aren't walking down the hall together this year.

Pat Williams why can't you ever learn to appreciate music? Ask Billy V. she should know.

Margaret, who was the sweet little letter from?

Why is Yreva so anxious for Wednesday night to get here?

**First Date**  
She stands by a glass  
In her first long gown;  
Tries a radiant smile,  
Then a withering frown.

Life never was ever  
So sparkling and fair!  
She fastens pink rosebuds  
Across her brown hair.

At last the whole family  
Admits she is grown.  
She'll ride to the party  
With one boy . . . Alone!

Oh, what if he'll fail her  
And not come at all!  
The horrible prospect  
Holds her in thrall!

She flies to the windows,  
Her castles restored;  
For Lochinvar comes  
In a rattletrap Ford!

**These Are The Opinions Of The W.H.S. Girls And Boys**

A girl likes to be asked at least a day before the date, and be on time.

When she wears a new dress and spends much time dressing just to look pretty for you, why not notice the dress and speak up? Above all don't talk of the fun you have had with other girls because she is not interested. She wants a boy with good jokes.

A boy likes a girl to have a strong personality, a good character, to be neat and above all attractive.

He likes for her to suggest the places to go or designate the theater she prefers.

He doesn't like to hear of her other dates, or make a fuss over some boy she sees. He likes girls that carry on a good conversation and whether or not they are having a good time act like they are. He likes for a girl to dress suitable for the occasion. He likes for them to be refined. When having dinner out, he likes to give the orders.

He likes for her to be ready when he calls for her.

### Treat Small Grain Seed For Smut

Chemical treatment of small grain seed before fall planting is a cheap and safe insurance against losses from disease, says E. A. Miller, agronomist for the A. and M. College Extension Service.

Wheat, oats and barley are subject to fungus diseases called smut. Under favorable conditions the diseases often cause reduced yields and further loss from dockage when infected grain is marketed. Accordingly, Miller urges farmers to thoroughly clean and treat their planting seed unless they are certain that it is free from infection.

Wheat is affected by two types of smut disease. Stinking smut can be controlled readily by fanning the seed wheat or cleaning it by other methods to remove the smut balls, and then treating it with either two ounces per bushel of 50 per cent copper carbonate, or one-half ounce per bushel of ethyl mercury phosphate called "improved ceresan."

The grain may be treated in a commercial seed-treating machine or in a homemade container with a tight fitting lid. An oil drum with a pipe soldered diagonally across it and extending about one foot from each end to permit it to revolve easily will do the job. For small amounts any type of container will do. The important thing is to get the powder well distributed over each kernel.

The other type, called loose smut, cannot be controlled by chemical treatment. The best safeguard is to use seed known to be uninfected.

Barley and oats smut can be controlled by treating the seed with one-half ounce per bushel of improved ceresan. Another approved method is to mix one pint of commercial formaldehyde with 10 gallons of water at 60 to 70 degrees temperature. Sprinkle the solution uniformly over 40 to 50 bushels of seed while it is being shoveled from one pile to another on a clean floor, or in a tight wagon box. Then pile the seed and cover it with a wagon sheet for at least four hours or over night. It then should be sown or spread out to dry, Miller says.

Our precious one from us is gone His voice we love is still His place is vacant in our home Which never can be filled.

We wish to express our sincere gratitude to our friends and neighbors for their many acts of kindness, words of sympathy and prayers in our hours of sorrow. We appreciate the beautiful floral offerings.

**MOBETTIE HI-LIFE**

Items of interest pertaining to the Mobettie Schools

**Seniors Receive Class Rings**

All the seniors were very happy Wednesday, September 12, when they received their rings in the post office.

While several members of the class went to get the rings the others waited impatiently until they were presented by the sponsor, Mrs. Marchbanks.

There were fifteen seniors who received these beautiful oval shaped rings with fancy work also. If you don't believe they are pretty just ask any senior.

**Football**

The Mobettie Hornets met the Darrouzett Longhorns at Darrouzett Friday. The Hornets were defeated 24-0. The starting line up for the Hornets was Corse, Waters, Hefley, Burch, Scarberry and Abbott. The Hornets will play Kelton Friday, at Kelton.

**Pep Squad**

The Mobettie high school organized their pep squad Monday for their coming football games. They elected three cheer leaders. They were Mignon Colwell, Virginia Futch, and Belva Abbott. Practically all the girls in high school joined.

**Ex-Students**

Jack Sims, who is in the Marines, is home on furlough. Fred Sims, who is in the Merchant Marines, is home on furlough. Juanita Walker has recently gone to work at Pampa. Billy Lou Trimble left last week for California. Stacy Elder Arnold is enrolling in A. and M. soon. Mrs. Wilma Johnson is a new employee at Anthony's in Pampa. The school is glad to have Zonell Kelley back. She has been in California. Irvine Rugg is a new student from Pampa.

**In Leisure Time**

Since several of the kids were gone to the football game Friday, the remainder of the classes met in the study hall to sing with Doris Barton as song leader and Joyce Lowery playing the piano. Mr. Boswell has asked the group to sing "Bell Bottom Trousers" so the first part of the period was used in practicing it. The boys sang the chorus, "Pistol Packing Mama" and "Don't Fence Me In" were sung during the latter part of the period.

**What's Keeping 'Em Covered**

When girls think of school they think of sweaters and skirts and they are a standby again this year. One of the most popular kind of sweaters seems to be the basketball sweaters the girls got last year. They look swell, especially since the letters, strips, etc., have been put on. Yes, you guessed it. The boys are still wearing levis.

**Registered Men 17-25**

**May Enlist In U. S. Marine Corps**

Men 17 to 25 are eligible to enlist in the United States Marine Corps—even though registered for induction. Applicants must have completed at least eight grades of school, be in sound physical condition, and in the case of 17 year olds, obtain written parents' consent.

This means that men under the jurisdiction of the Selective Service Act now have their freedom of choosing to enlist with the Marine Corps at any time prior to being actually inducted into the Armed Forces.

Upon being accepted for enlistment, the applicant's draft board is notified that he is serving with the Marines by the Marine Recruiting office. Provision is also made to accept men between the ages of 26 and 32 if they have had previous active military service in the Marine Corps, Navy, Coast Guard, or Army. This service will apply to longevity pay and total length of service credit. These men must enlist before one year has elapsed since their separation from the service.

In the case of discharged Marines; regular, reserve, or inductee—if these men apply for reenlistment and are accepted within 90 days of their separation, they will be reappointed to the temporary rank held at the time of their separation, and the balance of the 90 days period will be allowed as enlistment furlough. Write to or call personally at the Marine Recruiting Station, 905 Mills Building, El Paso or Marine Recruiting Station, Post Office Building, Lubbock, Texas for full particulars.

Mrs. Haddock of Briscoe was a Wheeler visitor Monday.

Mr. and Mrs. W. E. Bowen, Mrs. L. T. May and daughter, Mrs. Audrey Pearce and children attended a house warming at the home of Mr. and Mrs. Crede Petree near Canadian Saturday night.

favorite actress, Betty Grable (Legs); ambition, housewife for Alvin.

**Onions and Orchids**

Drew, what's the matter? Won't the boys at old town leave you and Patsy alone? Lorene, does James ever come out the Union way, anymore? How was the supper Friday evening, Richard? There was something strange going on in Mobettie Sunday, could you tell us about it Peggy? Bud, why didn't you ride with Evelyn and Peeler to Darrouzett Friday? It seems that Betty Ann wanted you to Douglas, "Bing" Corse what were you singing to Friday? Mignon, you surely do have a pretty ring. Irvine, did you want to stay in town Saturday night or did you really lose the car keys?

We don't care about Joy's and Drew's "Travels In Europe," all we're interested in is their "Romance in Mobettie." Doris, who's the cute little boy with the mustache who came to see you last week? Belva, don't get so excited. Orvel's been home before. Quintis what's this about you getting married May 16. Willie Mae, don't you know the rules—No courting in the typing room. C. S. you might take a hint too! Helen, you must like for Gene to chase you or you would go with him. Someone had a flat at the park Saturday night. Couldn't have been Betty Ruth and Neal? Marchie started a new style Monday. Wearing glasses with one ear piece.
