PIONEER LADY DIES MONDAY AT MOBETTIE

Mrs. John Ann Sims, 85 year old Mobettie resident, who had lived in that community for the past 36 years passed away as she slept at her home 4 miles south of Mobettie Monday morning, April 26.

Funeral services for the beloved old lady were conducted from the First Baptist Church in Mobettie this afternoon (Thursday) at 2:30 o'clock with Rev. Norman of Wellington and Rev. Fox of Amarillo officiating.

Mrs. Sims was a member of the Primitive Baptist Church, her husband having been a minister of that faith. Mr. Sims preceded his wife in death by one year and 20 days having passed away on April 6 last year.

Mrs. John Ann Sims, daughter of Mr. and Mrs. Mattson Couch, was born at Van Buren, Arkansas August 9, 1862 and passed away at the family home 4 miles south of Mobettie April 26, 1948 at the age of 85 years, 8 months and 17 days.

Mrs. Sims was a grand old lady who was loved and admired by her host of friends and relatives all over the county.

Surviving Mrs. Sims are 8 sons, 3 daughters and over 100 grandchildren, great grand children and great great grandchildren.

The survivors include: James S. of Sacramento, Calif., Matt H. of Mobettie, Hulet M. of Dallas, O. E. of Mobettie, Icar of New Orleans, Obie L. of Amarillo, John O. of Mobettie, Marvin M. of Sacramento, Calif., Mrs. Jessie B. Wall of Quanah, Mrs. Sarah Elizabeth Ledbetter of Causery, N. M., Mrs. Bessie Gabriel of Fresno, Calif. One sister, Mrs. Mary Kirby of Goldwathe also survives.

Preceding Mrs. Sims in death were her husband, one son, Noel K., two brothers and one sister.

Pall bearers were grandsons of Mrs. Sims. A list of flower bearers was available at press time today.

Interment was in the Mobettie cemetery at the side of her husband with arrangements in charge of Kirk-Mason Funeral Home.

FARMERS GO TO CONTROL MEET

Several Wheeler County farmers and farm leaders attended a weed control exhibit and conference which was held under the direction of District Extension Agent Knox Parr, who is program chairman of the West Texas Weed Control Association.

Wheeler County Agent W. K. Frey says the meeting, which was called for the purpose of helping to stamp out bindweed in this portion of the state, was an interesting one and was well attended.

C. E. Fischer, agronomist with the Texas Agricultural Experiment Station at Spur, discussed research in the control of Noxious weeds and shrubs in Texas.

Gray County Agent Ralph Thomas discussed harmful effect of 2, 4-D on certain crops, and then there was a question period just before noon, at which time questions asked by farmers regarding specific uses of various chemicals on weeds and crops were answered by experts.

After lunch, there was special entertainment by Uncle Jay and a western band from radio station KGNC, Amarillo.

Ted Yost, Kansas weed supervisor or discussed the weed control program of Kansas, and told how the program operates under the Kansas State weed control law.

Dave Savage, who has been in charge of the brush and weed control studies on range land at the Woodward Experiment Station at Woodward, Okla. discussed the results of their mechanical and chemical control practices on weeds and brush there.

It appears that "the man with the hoe" is on the way out, and that chemical control of weeds and shrubs has a bright future. However, many weeds such as bindweeds and hoary cress are spreading, and both chemical and cultivation methods must be applied repeatedly until eradication is completed. County Agent Frey pointed out.

Rev. Carl Lamb and daughter, Sandra of Plainview, Mrs. D. B. Lamb and Shirley Pepper of Lela were dinner guests in the home of Mr. and Mrs. W. M. Sanders Thursday night. Rev. Lamb is the Sanders' son-in-law.

McIlhany Compliments Wheeler Shoppers On Parking In New Lanes

Grainger McIlhany, president of the Wheeler Chamber of Commerce, asked the Times to pass his compliments on to the people of this trade territory for the commendable manner in which they observed the parking stripes on the Wheeler streets Saturday night.

McIlhany stated that it was a pleasure indeed to drive down main street in front of the theatre and be able to maintain a normal rate of speed without fear of bumping into the rear of a car that was parked completely out in the traffic lane.

McIlhany also asked that the Times appeal to the youngster set who use the streets of Wheeler as a race track on Saturday evenings and Sundays to please refrain from this practice.

Driving at the rate of speed some youngsters persist in maintaining on Wheeler streets and turning corners on two wheels is dangerous not only to the drivers of the automobiles but also to occupants of these cars, pedestrians and other motorists who might happen to be in the wrong place at the time one of these lads whizzed down the street.

MOBETTIE WINS OVER KIRKLAND

The reigning champions of the Red River Valley League, Mobettie, won their second contest of the current season Sunday by a count of 10 to 2. The Kirkland nine was on the short end of the score and the contest was played on the new Kirkland diamond.

The ball game was not nearly as one sided as the score would indicate according to reports which reached the Times this week. The Mobettie club jumped into the lead by scoring one run early in the contest, then Kirkland scored to knot the count at one-all and an inning or so later the Mobettie boys squeezed another run across the home plate making the count 2 to 1.

The contest rocked along on the count of 2 to 1 until the first half of the seventh inning when the Mobettie lads went on a scoring spree with the aid of a couple of errors by the Kirkland nine.

Some of the Mobettie player expressed the belief this week that they faced one of the best pitchers in the league last Sunday in the person of Kirkland's first string hurler, Jones.

Bill Price of Briscoe playing in his first Red River Valley League contest as he replaced Leroy Robinson in the sixth rapped out a double and a single in two trips to the plate for a perfect day at bat. Price may be remembered by most Wheeler people as one of the best shots with a basketball that has performed in these parts in many moons.

Williams, Price and Hewitt all hit double for the Mobettie nine while Jones and Pelley of the losers both accounted for two-base blows. Gregory, the Mobettie third baseman who was not in the first game of the season, was hit twice by pitched balls and got one hit in three trips to the plate.

Hewitt, the Mobettie pitcher, whiffed 4 Kirkland batsmen in 9 innings, while Jones, Kirkland's starting pitcher, fanned 12 Mobettie lads during the 8 innings he worked. J. Harris, who relieved Jones in the ninth, didn't register a strike-out against the Mobettie Club.

The Mobettie club journeys to Turkey Sunday for their third contest of the current season and will play Wellington on the Mobettie diamond the following Sunday.

Parents Ask To Bring Beginners To School

Supt. W. O. Carrick this week invited parents in the Wheeler school area to bring all children who will be starting to school next year to school next Friday, May 7 and allow them to visit a half day or all day in the first grade class.

Carrick and Mrs. Wilkes, first grade instructor, believe that a short grade instructor, believe that a short visit to a classroom now will save many of the children from being scared and crying during their first day at school next year.

Friends of Hugh Fillingim will be happy to know that he is in a much improved condition at the time of this writing.

MOTHER AND TWO CHILDREN HURT IN ROAD MISHAP

Mrs. Aubrey Higdon and small son, John L., are receiving treatment in a Wheeler hospital for injuries received Saturday afternoon when their car overturned on Highway 83, five miles north of Shamrock.

The accident occurred about 5 p.m. when Mrs. Higdon and her two children, Karen, 9, and John L., were returning to their home near Twitty from Shamrock. Mrs. Higdon stated that one of the wheels of her automobile seemed to lock, causing the machine to overturn one and one-half times, rolling into a wheat field.

Mrs. Higdon, daughter of Mr. and Mrs. J. L. Nunn and sister of John Nunn of Shamrock, freed herself and the two children from the car and flagged a motorist who took them to Twitty, from where Gaston Harbour rushed them to the hospital in Wheeler.

Mrs. Higdon received bruises about the body and lacerations and deep scratches on both legs. Her small son suffered a neck injury and a slight concussion. Both were reported to be in an improved condition this morning.

Karen was released from the hospital after receiving emergency treatment.

Funeral services were conducted from the Smith-Kernke Funeral Home in Oklahoma City at 4 o'clock Monday afternoon with a Baptist pastor in charge.

Pall bearers were: Lonnie Burks, E. W. Poole, S. Q. Scott, Charles Cadenhead and Jess Brewer, all of Shamrock, and Phil Middleton of Wenoka, Okla.

Interment was in the Rose Hill Cemetery.

Mr. Sullivan resided in Shamrock for many years. He moved to Amarillo in 1940, where he lived for a short time before moving to

CLEAN-UP DRIVE IS SUCCESSFUL

In an interview with Mayor Forrester he expressed himself as being thoroughly satisfied with the results obtained last week in the clean-up campaign.

He made the particular request that this paper convey his appreciation to the citizens who took part in the campaign, the merchants who worked so diligently in obtaining the objectives of the campaign, the School and Boy Scout organization, and individual boys who added materially by collecting trash and loading it on the special trucks provided by the Wheeler Gas Company.

He further stated that a special commendation from the City of Wheeler should be extended G. W. Hefley, County Judge, Lloyd Anglin, Commissioner Precinct No. 1, Bert Davis, Commissioner Precinct No. 2, and W. R. Ritter, County Sanitarian.

He further stated that a special commendation from the City of Wheeler should be extended G. W. Hefley, County Judge, Lloyd Anglin, Commissioner Precinct No. 1, Bert Davis, Commissioner Precinct No. 2, and W. R. Ritter, County Sanitarian.

It is the intention of the City that markings will be made on Texas State Bank corner and on Main Street south from the same corner. This marking will be completed in the very near future.

Briscoe Ball Club To Play Miami Team Sun.

The Briscoe baseball team will play a nine from Miami next Sunday afternoon, May 2 beginning at 2:00 o'clock. The contest will be played on the Briscoe diamond.

The Briscoe club dropped a closeley contested battle to the Allison nine Sunday by a count of 9 to 8. The contest was played on the Allison diamond.

Fulks and Johnson toiled on the mound for Briscoe while the Allison pitching chores were handled by Giddens and Helton.

Mr. and Mrs. Roy Meadows are the proud parents of a son, Larry Roy, born April 27, at the Wheeler hospital.

A Child May Dare So Drive With Car.

Lefors Man Gains Lead By Catching Whopper At Frye Lakes Sunday

Bill Watson of Lefors, brought a large bass to Tobe Frye, last Sunday afternoon, asking him to weigh it. The fish was caught in one of the Frye Lakes.

The bass tipped the scales at eight pounds. Watson is now ahead of Holt Green who caught a 6 pound, 21 inch bass earlier in the season.

Watson's fish measured 23 and 1-4 inches.

37 PERCENT OF COUNTY PUPILS VISION NORMAL

An eye screening survey of students of Wheeler County schools, recently completed by Dr. Joel M. Gooch, shows that of 1,675 pupils tested, only 37 per cent have normal vision.

Twenty-seven per cent of the boys and girls have near normal vision and 35 per cent not normal.

Several letters of appreciation have been received by Dr. Gooch from various school superintendents throughout the county. Dr. Gooch stated that he wished to express his appreciation to all school faculties and especially to W. R. Ritter, Wheeler County Sanitarian, who has so diligently worked throughout the entire survey, assisting to make it successful.

The survey required approximately 40 seven-hour days, exclusive of traveling time and time involved in analyzing and writing individual reports for notification to the parents.

The tests were made in the schools of Wheeler County upon the recommendation and through the cooperation of County Sanitarian Ritter.

It is hoped that parents who received reports that the vision of their children is not normal will strive to make it possible for them to receive further examination by a competent eye specialist for proper correction.

The complete results of the county-wide survey follow:

School	No. Stu-	Normal	Near Normal	Not Normal
System	1,675	37%	30%	40%

P.-T. A. Holds Last Meeting Of This Year

The Wheeler Parent-Teachers association held its last regular meeting of the current school year last Thursday night in the Wheeler grade school auditorium.

Officers for the coming year were installed. Mrs. R. Wm. Brown, retiring president, expressed her appreciation for the wonderful cooperation which she has received from the officers and members of the association. The new silverware which was purchased by the organization for the cafeteria was exhibited.

Plans were made for immediate contact with the Texas Scenic Company for the purchase of a new front curtain and cyclorama for the grade school auditorium. Funds are still inadequate for full payment for said stage equipment, but the group voted to install the scenery as soon as the auditorium is redecorated and then complete payment as first project next fall.

Officers for the 1948-49 school year are: Mrs. Bill Owen, president; Clyde Johnson, vice-president; and Mrs. Bradly Meadows, secretary-treasurer.

Mr. and Mrs. Floyd Pennington and W. E. Pennington visited with Mr. and Mrs. W. E. Pennington II and small daughter in Phillips Monday.

Mrs. Delbert Mitchell is a medical patient at the Shamrock General Hospital.

AAA Soil Saving Accomplishments In 1947 Are Listed

According to a survey made by AAA Committeemen and other agriculture workers it has been determined that over 100,000 acres of cropland now being tilled in Wheeler County need to be terraced.

Up to 1947 approximately 20,000 acres on 175 farms were benefitted by terraces. In 1947 another 25 farms with approximately 3,000 acres was terraced and at that rate it would take about 33 years to meet the needs of the county and many of the farms would have no top soil left. It is more important and of greater value to terrace the land while still in a productive state than to wait until it has lost all of the top soil and it would take several years and considerable expense to restore it back to its original fertility.

Conservation payments in the amount of \$5,330.52 were paid by the government for having these 25 farms terraced in 1947. Owners of the farms contributed approximately an additional \$2,000 for having these terraces constructed.

Three farms built diversion terraces with 8,008 cubic yards at a cost of \$640.64 to the Government.

Stock water dams were constructed on 27 farms at a cost of \$2,510.70 to the Government for 25,107 cubic yards. Eleven farms built erosion control dams of 45,132 cubic yards—cost to the government, \$4,513.20; 46 wells were drilled, total depth of 4,974 feet for 29 farms at a cost of \$14,035.00 to the government.

Ninety-eight farms participated in the strip crop practice with a coverage of 8,140 acres. Benefits received for carrying out this practice was \$4,070.25. Two thousand, two hundred and fifty-eight acres of land was flat broken to a depth of 10 or more inches, 39 farms participating, benefits received \$3,387.75.

Three hundred and sixty-six acres summer fallowed—5,983 acres contour listed on 66 farms; 7,827 acres contour farmed on 96 farms.

Twenty-seven farms contour seeded small grains—2,484.3 acres. Forty-five thousand and forty-six acres of grain sorghum stalks left.

Mrs. Wells To Present Pupils In Recital Friday

Mrs. Ray Wells, piano instructor at Kelton, announced this week she will present her pupils in recital at the Kelton Methodist Church Friday evening, April 30 beginning at 8:15 P. M. The public is invited to attend.

The program for the evening includes: "Hey, Diddle Diddle", "Little Grey Owl", "Eskimo Boy" and "The Bobolink" all to be played by Peggy Baird; "Little Squirrels and Chipmunks", Jimmy Pond; "When Dolly Sleeps", Sharon Stiles; "Dolly's Dream", Beth Rathjen; "Doll Dance", Mrs. Wells.

"Here We Come", Troy Dean Jones; "On The Radio", Laura Walls; "Little White Duck", Kay Jones; "Daddy's Waltz", Jerry Don Wells; "Waltz of the Willows", Laurann Lang; "Over the Garden Wall", Sandra Stiles; "Wigwam Dance", Edward Wells; "I Heard A Bluebird", Glenna Faye Addison.

"Song of the Pines", Kenneth Whiteley; "Marine Hymn", Charles Addison; "Little Betty Blue", Norretta Elliot; "Dream Dance", James Earl Henderson; "Balloons in the Air", Maxine Pond; and "Peggy" by Dale Wofford.

Mrs. Clarence Anglin and children, Juanell, Donald, Jimmy and Judy, of Clovis New Mexico arrived Friday to spend the weekend with her parents, Mr. and Mrs. W. M. Sanders of the Pleasant Hill community. Others spending Saturday night and Sunday in the Sanders home were, their granddaughter, Mrs. W. H. Pond and children, their son, Macy Sanders and his son, Boyd, and Johnnie Skelly of Pampa, another daughter, Mrs. Claud Lamb and daughters of Lefors and a grandson, Glen Sanders of Wheeler.

Arrangements were under the direction of the Clay Funeral Home.

Rev. Allgood Gives Services For Week

Rev. S. Y. Allgood has the following announcements to make regarding the services at the Wheeler Methodist Church for the next few weeks.

Beginning Sunday, May 2, the Wheeler Church is to feature three things, first, Sunday morning at 11 a. m. The Family at Communion; second, Tuesday night, May 4 The Family at Home; and third, Wednesday night, May 5, The Family at Church at the Wednesday evening service there will be a play time starting early, a great barbecue, then play, song and worship—everything to make an enjoyable time together.

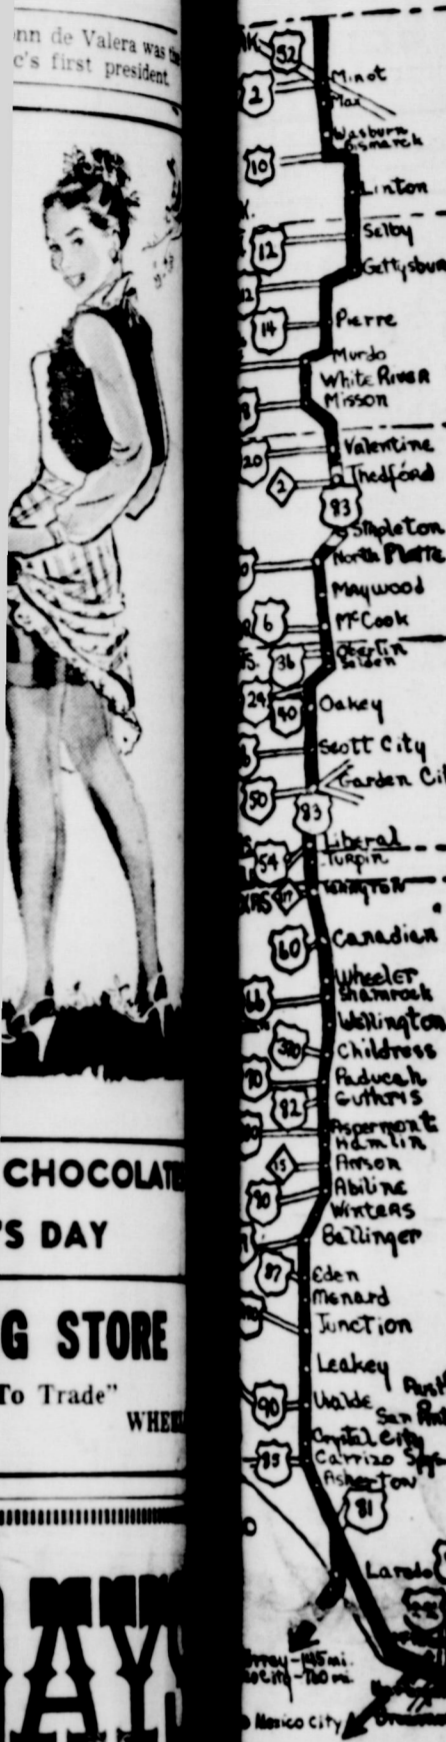

Thursday evening Rev. Hamilton will hold the regular fourth quarterly conference at the church Rev. Allgood stated.

The church will observe Mother's Day on May 9.

THREAT OF INFLATION IN LOAN GUARANTEE

Proposals for expanding federal loan guarantees for home building bring a threat of worse inflation. They come with poor grace from an administration whose

leaders say almost daily they are trying to combat inflation. Even the present guarantee on loans to veterans for new homes has proved inflationary. In Dallas the other day, Charles B. Shattuck, president of the American Institute of Real Estate Appraisers, asserted that this guarantee automatically added \$4,000 to the cost of the veteran's house.

Even if the Shattuck statement is discounted a bit for possible exaggeration, it is essentially true. It would be ideal to deny that postwar meddling in home construction has helped to hike prices. What the prospective home builder needs most is not lower interest rates on loans but cheaper building materials. These will come more quickly with the further dropping of federal regulations. Homes were built more economically before Washington began interfering.

In addition to their inflationary effect, proposals for broader loan guarantees might go a long way toward putting out of business the lending firms and insurance companies which have been operating in this field. Below-cost government loans, with the loss charged to the tax-payer would bring a large-scale socialistic venture that might be hard to halt. Today, instead of getting Uncle Sam deeper into the home loan business, we should be looking for means to pull him out.

—From Dallas News

USE IN PEACE RETAINS AIRFIELDS FOR EMERGENCY

An astonishing development of World War II was the ingenuity with which engineering made ground quickly usable for vital aviation. But what was necessary and successful improvising at the front was not adequate for the heavy demands of air transport in the home theater. As a result, national defense, 1941-45, went in for tremendous construction so that when hostilities ended there were numerous airfields in the country over whose ground improvements made them readily commercially usable. American Airlines, for instance, flying its huge new Convair Flagship Albany last Saturday made its Abilene landing on the abandoned army strip there, because this was better suited than the airport for a plane of this size.

LEGAL NOTICE

CITATION BY PUBLICATION THE STATE OF TEXAS

TO, J. M. Shaw, Ella J. Shaw, and D. E. Ordway, and the unknown heirs, devisees and legal representatives of each of the above named defendants, who may be deceased: GREETINGS: You are hereby commanded to appear and answer the plaintiff's petition at or before 10 o'clock, A. M., on the first Monday after the expiration of 42 days from the date of the issuance of this Citation, the same being, Monday, the 7th day of June 1948, at or before 10 o'clock A. M. before the Honorable District Court of Wheeler County, Texas, at the Court House in Wheeler, Texas.

Said plaintiff's petition was filed on the 19th day of April 1948 and being numbered on the Docket of said Court, No. 3888.

The names of the parties in said suit are: J. L. Hefley, plaintiff and J. M. Shaw and Ella J. Shaw and D. E. Ordway, and the unknown heirs, devisees and legal representatives of each of the above named defendants, who may be deceased, are defendants.

The nature of plaintiff's suit is in trespass to try title to the following described tract of land in Wheeler County, Texas and being all that portion of the N. W. 1/4 of Survey No. 48, Block M-1, of the H&GN RR Co. surveys, which lies within the North 164 acres of the East three-fourths of said survey No. 48, more particularly described as follows: Beginning at a point 475.2 varas East of the N. W. corner of said survey 48; Thence South 646.8 varas point for corner; Thence East 475.2 varas, point for corner; Thence North 646.8 varas, to point in North line said survey; Thence West 475.2 varas, to place of beginning, containing 58 acres of land, more or less.

Plaintiff pleads title to said land as against all said defendants, and each of them, their unknown heirs, devisees and legal representatives, and in support of his title to said land, plaintiff pleads as against all said defendants, the three, five, ten and twenty-five year statute of limitations.

Prayer is for title and possession of said land, and that the title to said land be quieted in the name of plaintiff.

Issued this 19th day of April 1948.
Given under my hand and seal of said Court, at Office in the City of Wheeler, Texas, this 19th day of April 1948.
CHRISTOPHER S. McCLAIN
Clerk of the District Court of Wheeler County, Texas.

SENIOR NEWS

They had their class night, senior and senior reception Friday night, April 20. The party was read by Ruby Reid. Prophecy was read by The Class Will by Van-Johnny Barr said a "Sol Days," and Mrs. Baker said "When Day" to conclude the program. The senior class gave Mr. and Mrs. a surprise gift, present-

ed by Yvone Sivage. It was a pretty toaster. We also enjoyed the dance our Class Parents gave us at the New Legion Building. Every one there reported a good time, and we wish we could do it more often.

We are having our Baccalaureate Services May 9th, at 7:30 p. m. and our Commencement is May 11th, at 7:30 p. m.

After hearing of the good time the juniors had, we are getting anxious to start on our trip. But we won't have to wait very much longer, because May 15th isn't very far off. We had our K'd. Day this past Wednesday. The first and second grades think we are silly, because they were still kids, and they don't act like that. You could have seen any kind of sight imaginable. Jody and her "drawers," James and his short legged pants, Johnny with his water-gun, and suckers flying everywhere, with bubble-gum mixed in with the suckers. Dolls crying, dump trucks flying down the hall, cap guns popping, and the patter of bare feet, or the scream of the little girls who got water squirted on them, or the singing of little voices, that sounded like cow bellowing. Yes! We had a lot of fun on our Kid

Day, and we sincerely hope everyone else has as much fun as we did.

The seniors were honored with a very nice breakfast, Thursday morning at 9:00 o'clock, by the Methodist women and Bro. Allgood. Bro. Allgood gave a toast to the class and then a welcome, to which Jody responded. Jody then introduced all the seniors to others there. Mrs. Baker sang two very beautiful songs, "Now Is The Hour," and "Smoke Gets In Your Eyes." Bro. Allgood introduced us all the very best woman, Mrs. Allgood, who gave us a very pretty talk. As a very special guest we had Mrs. Frey with us, and she made a little speech. To conclude the breakfast we all sang the "Star Sprangled Banner."

The ladies who were so nice in serving us were: Mrs. C. J. Meek, Mrs. Fred Farmer, Mrs. Clarence Robinson, Mrs. H. M. Wiley.

We got our caps and gowns this morning, Monday, and even though it isn't time to wear them, we feel good to get to look at them and realize that it is really us who finally got this far.

Junior-Senior Banquet is also this coming Friday night, and that is a-

How To Bring HOME PRICES Down

Since 1933 we have followed ever fiscal policy known to drive prices higher and there is much talk about high prices and how to halt the upward spiral—but meanwhile continue the same fiscal policies we adopted to inflate prices.

Here are a few examples of economic illiteracy which our government has been practicing:

1. During a period of unequalled nation-wide employment, we are paying out more unemployment compensation than in the depression of the 30's.

2. While farm produce prices are at an all-time high, the government continues the policy of parity price supports—and even enters the market with huge orders when produce (or prices threaten to drop.

3. In proposing tax reductions, the administration selects a method that would inflate risk capital is at an all time low, but the President suggests a tax decrease that would require buying capital needed to expand plant capacity. (Production per man-hour is down for the first time in U. S. History, and obsolete equipment is partially responsible.

4. Parity pricing, payments of unemployment compensation, increased taxation expanding Federal Government employment were all methods selected by the government to inflate prices during the depression.

5. We want to deflate prices—stop inflation—and yet the government continues all the policies so successfully inflated prices. Increased government costs and taxes raise the cost of living frequently far above the value of the service desired. Yet the percentage of each dollar by government continues to increase.

6. Percentage of dollar value of gross national product required to meet, state, local government collections and expenditures.

% of Each		% of Each		% of Each	
Dollar Collected	Dollar Spent	Dollar Collected	Dollar Spent	Dollar Collected	Dollar Spent
10.9%	10.9%	1936	14.1%	20.0%	
26.7%	37.4%	1940	14.3%	18.0%	

7. The chart above shows government is taking 12.4 cents more out of every dollar than it did in 1940. It also is spending 10.7 cents more out of every dollar than it is receiving in 1940. This means that the government is actually spending 23.1 cents more out of every product than it collected in 1940.

8. As this increased government spending is stopped, prices can do very little except continue until a real crash plunges us into a depression. In February 1948 employment in the Federal Government (exclusive of the national military establishment) was higher by 60,000 than the peak wartime period of June 1945.

9. AVERAGE TAX PER PERSON
To look at government costs realistically. Let's assume a family of 4 requires an income of \$4,000 a year, exclusive of taxes. At present the average tax per person is \$335 a year. This would provide a family of 4 with \$900 a year the breadwinner must earn \$2,240 to pay the average tax and still have \$900 left. This is \$125 above the present yearly average earnings. Under President Hoover this same family would need only \$993.12; under Lincoln \$804; and under Washington only \$904.08 to pay all taxes and still have \$900 left.

10. TAX EARNERS PAY THIS TAX
This is not to be confused. The families in the low income brackets are paying the tax on everything they buy. Everybody pays the tax. If you really want to bring down the cost of living (including housing costs) let's have less of the very expensive government service. (Over \$2,000 of an \$8,000 house is tax cost.) In other words, government agencies almost always cost you more money than they save, or give in service value.

11. 79 percent of this tax burden is Federal government cost. The 48 state government local governments account for 11.4 percent of the cost.

12. PRODUCTION AT PEAK
Production is up. Using 1939 as a base we reached the highest point of production in 1947. Our tax production of all building materials was 39.6 percent above 1939. With two minor exceptions production of all materials in 1948 will exceed 1947, unless a series of strikes cripple the industry.

13. MEANS THE NORMAL COMPETITIVE FORCES ARE EVEN NOW AT WORK TO BRING PRICES DOWN—if the government does not artificially keep them up.

14. WAGES AND COSTS
The government assertion that labor can increase its wages without increasing prices is unfounded. Labor wages in home building have increased 79 percent since 1939, but decreased labor cost in putting materials into place has increased labor cost at the home side by an additional 38 percent according to estimates in 50 cities. Both of these labor costs come out of the buyer's pocket—no matter what government officials say.

15. EVERY WORKER ON EVERY JOB, WHETHER CLASSIFIED AS BELONGING TO LABOR OR MANAGEMENT, CAN INCREASE COSTS NEEDLESSLY OR DECREASE THEM EFFECTIVELY BY THE WAY HE DOES HIS WORK.

16. IF YOU REALLY WANT LOWER COSTS EVERY MAN MUST GIVE A FULL DAY'S PRODUCTION FOR HIS PAY. Lower living costs can be attained if we stop trying to get something for nothing. Our tax problems, government problems management and labor problems all start when somebody tries to get the most money for the least effort. Everybody has tried this.

17. IF YOU WANT TO QUIT KIDDING YOURSELVES AND GO TO WORK: HARD WORK ON EVERYBODY'S PART WILL REDUCE PRODUCTION COSTS. We only elevate living costs by STANDING ON OUR RIGHTS—but by accepting our own responsibilities we can bring our living standards at lower cost to all. Information derived from official sources by the National Retail Lumber Dealers Association.

Gentlemen,

We are glad to recommend the Great American Reserve Hospital and Surgical plan.

In the past several years we have had a number of Great American Reserve policy holders in our Hospital and their claims have been paid promptly.

We made a trip to Dallas and talked to the officials of the company, and requested the company to put a representative in this area to give the people an opportunity to purchase this valuable coverage.

The people of Wheeler County and surrounding area can be assured of our utmost cooperation and we offer our service in any way that we can be of help.

Yours very truly,

H. E. Nicholson, M. D.

Gentlemen,

I am glad to recommend the Great American Reserve Hospital and Surgical plan. I have known the president of the company, Mr. Travis T. Wallace, for many years and have carried a policy with this company.

In my experience as a doctor I have observed that coverage that pays hospital and surgical bills is valuable insurance and something that most families should carry.

My experience with this company has been satisfactory in every way and I recommend the coverage to my friends and patients.

Yours very truly,

Dr. Glenn R. Walker, M. D.

Parents Can Protect Child From Diphtheria

It is a tragedy that Texas parents continue to allow their babies to suffer and die from that painful and killing disease diphtheria. This is the opinion of Dr. Geo. W. Cox, State Health Officer, who says "It is up to the parents. If they protect their children with

immunization, they need not have diphtheria." Dr. Cox said that it is amazing that this disease should be allowed to take its toll of young lives when it can be entirely stamped out by proper immunization. Yet in the past week, 33 cases were reported in this state. "Babies should be immunized by the age of eight or ninth month," Dr. Cox advised. Authorities on the care of infants recommend a

MOBETTIE HI-LIFE

Published each week by the students of Mobettie High School.

JUNIOR NEWS

The junior class of 1948 honored their class at the annual junior banquet, Friday night, April 23, at the American Legion. The May-Day plan was the main feature. The hall decorations were made of pastel shades

of crepe paper. Two center polls were decorated as May-poles. The program was carried out by candlelight. The center pieces for the tables were bouquets of red, yellow, blue, green, and white Bridal Wreaths.

The invocation was given by Superintendent C. R. Brown. The Welcome was given by the toastmaster, Jimmy Walker and then the meal was served. Between course entertainment was given by Paul Jones, Hugh Jeffus, Junior Luedecke,

Daril Vawter, and Ridge Russell. A toast to the class of '48 was given by Drew Godwin, and the response by Hugh Jeffus. A toast to the faculty was given by Joe Fred Leonard, and the response by C. R. Brown. The guest speaker, who made a very interesting talk on "Education of Later Years", was Mr. Granger McIlhany. A piano solo was then played by Beverly Caldwell. The senior class history was read by Tom Lamon, and the senior prophecy by Lou Beck. A trio consisting of Mary Louise Matthews, Lou Beck, and Irvine Ruff, sang "Baby Face" and "Now is the Hour". The Senior Wail to the juniors was read by Sidney Lancaster. The last thing on the program was the song "For Old Mobettie High" by the entire group.

Those attending the banquet were: the members of the junior and senior classes, Mr. and Mrs. C. R. Brown, Mr. and Mrs. J. H. Scribner, Mrs. Anna Noble, Mr. and Mrs. Glenn Render. Guests attending were Mr. Granger McIlhany, Madge Patterson, J. R. Luedecke, Jr., Daril Vawter, Ridge Russell, Edwina Brown, Byron St. John, Irvine Ruff and

Dale Haynes. We were sorry our junior class parents, Mr. and Mrs. Boyd Beck were unable to attend this affair.

TEACHERS AND TRUSTEES ATTEND BANQUET

On Monday evening, April 19 many of the trustees and teachers attended a banquet at Kellerville. An instructive and interesting talk was given by Mr. L. A. Wods, State Superintendent of Schools. Delicious food was served to about 250 in the Kellerville gymnasium by Kellerville students.

Those attending from Mobettie were: Mr. and Mrs. A. G. Caldwell, Mr. and Mrs. L. D. McCauley, Mr. and Mrs. J. R. Patterson, Mr. Tom Laman, Miss Maurita Laman, Mr. and Mrs. Albert Scribner, Mr. and Mrs. Alfred Hill, Mr. and Mrs. C. R. Brown, Mr. and Mrs. C. C. Crowder, Mr. and Mrs. Elmer Ware, Mr. and Mrs. Charlie Seitz, Mr. and Mrs. H. L. Trimble, Mr. and Mrs. J. H. Scribner, Mrs. Anna Noble, and Mr. Ed Brown.

Those attending from Mobettie were: Mr. and Mrs. A. G. Caldwell, Mr. and Mrs. L. D. McCauley, Mr. and Mrs. J. R. Patterson, Mr. Tom Laman, Miss Maurita Laman, Mr. and Mrs. Albert Scribner, Mr. and Mrs. Alfred Hill, Mr. and Mrs. C. R. Brown, Mr. and Mrs. C. C. Crowder, Mr. and Mrs. Elmer Ware, Mr. and Mrs. Charlie Seitz, Mr. and Mrs. H. L. Trimble, Mr. and Mrs. J. H. Scribner, Mrs. Anna Noble, and Mr. Ed Brown.

PIE SUPPER FRIDAY NIGHT

Everyone is urged to come to the gymnasium Friday night, April 30, at 8:00 o'clock for a candidate rally, a pie supper, and an amateur program. The ladies are to bring pies, the men some money, and the ones on the program an interesting entertainment. Of course, best of all will be the talks by the candidates. It is to be a general good time for all, so be there.

SENIOR NEWS

The Methodist Ladies Club gave the senior class and their sponsor an Ice Cream Supper Thursday night in the basement of the Methodist Church. All were present except one. There were all kinds of games to play and more ice cream than we could eat. Everyone reported a swell time and want to thank the ladies for their thoughtfulness.

The annual Junior-Senior banquet took place Friday night April 23. Everyone had a wonderful time. The seniors thank the juniors very much for the lovely banquet.

Better Stands Result Of Using Treated Seed

Advice to peanut growers: For better stands and bigger yields, treat shelled seed with two per cent cerasan or a similar product.

That's the word from the Texas Agricultural Experiment Station, based on six-year tests at Stephenville, where unshelled seed treated with three ounces of two per cent cerasan per 100 pounds of peanuts came up to 71 per cent of a perfect stand as compared with 31 per cent for untreated seed.

And the three-year average yield at Stephenville was 26.8 bushels an acre for treated peanuts and only 16 bushels per acre for untreated seed.

Arasan, phygon, spergon and tersan are other chemicals which gave good results.

Other peanut growing tips, as provided by E. A. Miller, extension agronomist of Texas A. & M. College are:

Although peanuts are legumes, and legumes should be inoculated before planting, you can't use

both inoculation and chemical treatment because the chemical will kill the nitrogen-bacteria, just as it will kill the mold and fungi that would rot the seed. The research workers have found that chemical treatment pays off most on shelled peanuts, while unshelled seed responds more to inoculation than to chemical treatment.

Do not treat peanuts with the new improved 5 per cent cerasan; it is not intended for peanuts.

With prices for peanuts as high as they are, 200 pounds of 4-124 or 20 per cent superphosphate per acre will pay off.

Plant at least 25-30 pounds of shelled peanuts or 45-60 pounds of unshelled seed to insure a good stand.

The sweet potato crop has been, and still is, the most important truck crop in the South.

HERE'S DOPE ON NEW TAX CUT

WASHINGTON — After May 1 your pay check will be bigger—your pay envelope will contain more money. That is because your employer will withhold less income tax under the new law, passed by Congress over President Truman's veto. Employers must get busy at once, computing the new, smaller deductions. But only one small group of worker taxpayers has anything to do right now. That consists of workers who will be 65 years old before January 1, 1949—or whose wives (or husbands) will be 65 before that date. It includes workers who are blind or whose wives (or husbands) are blind.

These workers should obtain from their employers the new form "W-4," which already is being printed. This includes spaces for reporting more-than-64 ages, and blindness. Under the new law, every person gets one \$600 personal exemption. A taxpayer who will be 65 or older on Dec. 1 gets a second \$600 personal exemption. A blind taxpayer gets an extra \$600 personal exemption. His 65-or-over wife gets an extra \$600 exemption, and so does a blind wife. There is no extra exemption for 65-year-old or blind dependents.

To take the extreme case of a blind taxpayer 65 years old, with a blind wife also 65 years old, each would get three \$600 exemptions—a total personal exemption, on their joint return, of \$3,600. By filing the new W-4 form with his employer, the blind or 65-year-old worker gets these new exemptions applied to his withholding tax, starting May 1. Aside from these—and employers—nobody has to do anything about the new law until June 15. At that time, everybody who filed an income tax estimate March 15—or who should have done so—should review that estimate and, in most cases, cut it down to conform with the lower tax he must pay under the new law. The Bureau of Internal Revenue estimates that between two and three million taxpayers will have their pleasant privilege of reviewing tax estimates in June. There is no reason to file amended estimates before June 15. Anybody who estimated too high, and overpaid with the March 15 estimate, cannot claim a refund until he files his 1948 return next March 15. Neither can anybody from whom too much was withheld, under the old law, before the new withholding rate became effective. The reason for amending an over-estimate by June 15 is to avoid over-paying during the remainder of the year, and then having to wait for refund.

There will be a few who had to file estimates under the old law but do not have to under the new law. All of these points, together with suggestions how to prepare and file amended estimates and how to get an idea of the size of your 1948 tax, will be covered in dispatches by this writer about the first of June—at the time when you will want to

use them, and after all details have been worked out by the Bureau of Internal Revenue. This table compares the new withholding with the old. It is for a man, wife and two children—or, for that matter, any four persons living off one person's wages—and it assumes that the taxpayer is paid weekly.

The first column shows the man's weekly wage. The second shows how much his employer has been withholding. The third shows how much should be withheld after May 1. The new rates apply to wages paid after May 1, regardless of when they were earned.

AAA Soil Saving

(Continued from Page 1) as protection against wind erosion on 493 participating farms. Eight hundred and eight acres of native pasture mowed. Six ranches deferred from grazing 6,296 acres of pastureland from May 1 to November 1 for the purpose of natural reseeding the grass. Forty-nine farms reseeded old cropland to native grass on 1,580 acres.

Twenty-four thousand, four hundred and forty-five pounds of legumes were harvested from 234 acres on 12 farms. Payment was made for this practice to encourage producers to harvest more legume seed due to the need of the seed.

One hundred and three thousand nine hundred pounds of fertilizer were applied to 550 acres of grass and hay crops on 14 farms.

A total of \$56,878.57 was earned in 1947 on all soil conservation payments. The question is often asked as to why soil conservation payments are made—why not let the owner bear the cost? Payments are made to encourage those tilling the soil to keep the soil in a productive state to produce the needed necessities of life for the nation.

For years people have lived off the fertility of the soil with very little thought as to conservation. Therefore, many farms are in such poor condition it would be to expensive for the owner to pay the entire cost and realize any profit for a number of years. A greater part of the wealth of the nation comes from production of the soil, so why shouldn't taxes from industries and every individual be used to rebuild that which they have and still depend on to keep the nation in operation.

The 150 million dollars authorized

for the 1948 program represents the interest and responsibility of all the people in the country to save the soil. This amount divided among the 145 million people in the country would amount to about \$1 per person. And that dollar, together with the many dollars the farmer puts up is the food and security lifeline of the nation. While a dollar per person isn't very much, when it is matched by the farmers' dollars and used wisely, concertedly, and effectively, it will go a long way toward solving some of the major conservation problems on individual farms. Under the program every farmer carries out conservation practices is the nation's assurance that the aged land will be restored, that ample production of food will continue.
