**IDEALS OF JUSTICE**  
It has been said that there is no virtue so great and godlike as justice. Communists and Socialists say there has been a great denial of social justice. Yet Russia, where Socialism and Communism have ruled, does not provide its people anywhere near the comfortable life that is given in democratic America.

One slogan of some radical

thinkers has been that people should be compensated for their labor according to their needs. In the United States the usual rule has been that workers should be paid according to the value of their service or what they produce. That idea provides incentives, and incites people to do their best. It needs to be tempered with generosity in various ways, particularly toward misfortune, and in helping people to develop their own powers.

There are many who do not seem to have had their fair share of the good things of life. In many cases this is due to their own fault. But there are a great many who have failed to get what can be considered a fair share, through no fault of their own. They have suffered from misfortunes or lacked opportunities, and the world has gone hard with them. It is the hope of the American people that everything reasonably possible will be done to give everyone a fair chance.

Athletic sports dwell on the idea of fair play, which phrase is simply a different way of expressing the ideal of justice. Umpires are given power to see that everyone gets fair play. This influence should have an important effect to produce fair play and justice in ordinary life, and no doubt it does.

Jesus said that "whatsoever ye would that men should do to you, do ye even so to them." This noble statement is called the golden rule. Those who make an earnest effort to follow it, are rewarded by the feeling that they are trying to conform to the highest ideal, and the world applauds them.

**HOME TOWN THOUGHTS**  
The first step in accomplishing any important result for oneself or the home town, is to cultivate the belief that the thing can be done.

That small town that set up a big sign at the railroad station, saying "This is the best town on earth," had the right spirit. A town with that loyalty and faith is going to make great gains.

Advertising a business or some article, stirs the interest of the public. Many are induced to visit that place of business, and see the advertised goods, and when they come they usually buy something.

Newspaper Advertising Pays!

**CONSERVATION AWARD TO NEGRO**

COLLEGE STATION — Henry Caraway, Tenaha, has been declared the Texas winner of the south-wide Negro conservation award. Caraway was nominated for the honor by the Shelby-Panola district supervisors and adjudged the Texas entrant by the Texas Association of Soil Conservation District Supervisors.

The award was announced at the annual Soil Conservation Jamboree in Hancock County, Georgia, by President Benjamin F. Hubert of Georgia State College for Negroes.

Caraway won the honor in competition with 977 other Texas Negro soil conservation cooperators.

The Texas winner said that he first noticed the erosion damage on his farm more than 15 years ago and that his yields were going down each year.

In 1941 a SCS technician worked out a soil conservation plan with Caraway, who completed his terraces the following spring, seeded the outlets with bermuda grass, laid off his rows according to the contour, planted legumes and rotated his crops. He set out five acres of pine seedlings on steep slopes and seeded his pasture with bermuda. He has kept his pasture brushed off for the past seven years.

In 1941, too, he was offered \$500 for all his timber from eight inches up. He did not sell but started selective cutting. To date he has sold \$1500 worth of timber and still has a good stand of trees.

"I believe that my system of conservation farming has increased my crop yields by 25 per cent," Caraway said.

**Danger of Malaria After Heavy Rainfall**

Dr. Geo. W. Cox, State Health Officer, today issued a warning against the danger of malaria following the heavy rainfall, which has finally broken the drought in many sections of the state.

"Malaria will remain a major public health problem as long as breeding places are accessible to the female Anopheles mosquito," Dr. Cox said. "Every householder should make sure that there are no tin cans, broken bottles, or

**FARM FACTS WORTH KNOWING**

Q. How much feeder space is necessary for chicks?

A. According to the age of the chicks, feeder space should be provided as follows:  
First three weeks... 1 in per chick  
3 to 6 weeks of age... 2 in per chick  
6 weeks to maturity... 3 in per chick

Q. What is the proper age for breeding a Jersey heifer?

A. Tests made over a period of years at the Research Farm of the Ralston Purina Company show that it is better to breed heifers according to body size rather than age. A Jersey heifer weighing 500 lbs. is fully big enough to breed. Jersey heifers at the Purina Research Farm usually reach this weight by 12 months of age.

Q. Under what conditions do you recommend creep feeding of pigs?

A. Creep feeding is recommended when sows are hand fed, especially when several sows and litters are fed together. When sows are self fed, a creep for pigs is not necessary. Little pigs become interested in the sow's feed and will eat small amounts of food feeds if given the opportunity. A pig creep will permit the feeding of special feeds to the pigs and exclude the sow. Whether or not creep feeding is practiced, pigs should be encouraged to eat feed from the time they are two weeks old because the sooner they start the easier it is to put on rapid gains and the less setback there will be at weaning time.

Q. Could you tell me the reason I couldn't get my kid to drink colostrum milk?

A. Probably the milk was cold, and kids will not drink cool milk. The fresh colostrum should be heated carefully in a pan placed in hot water or in a double boiler over a low flame, as it scorches and coagulates easily. Stir constantly while heating. It should be quite warm, about 100 degrees F. If kids do not drink well the first one or two feedings, do not be alarmed. Usually the trouble is that the milk is not warm enough.

Send your questions about livestock or poultry problems to FARM FACTS, 815 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

other types of rubbish on his premises that will hold water and offer breeding places to this enemy of good health."

Dr. Cox pointed out that in our practice of mosquito control, we are sometimes like the man who locked the stable door after the horse was already stolen; we are content to wait until all our premises are swarming with mosquitoes before we bring ourselves into active warfare against these recognized agents of malaria transmission.

Dr. Cox further stressed the importance of conserving the public health and preventing the spread of disease in our present crowded housing condition, and he also emphasized the fact that malaria is one of the more debilitating diseases, often causing its victims to lose weeks or even months from his regular employment or from school attendance.

Said Dr. Cox: "The best cure for malaria is prevention. Make sure your premises are free from any stagnant waters, in which may breed the female Anopheles mosquito that transmits the disease."

What has become of the old-fashioned picnic where you got more than you could eat for free?

**'T WAS A Great DAY**

**WITH Greater DAYS TO COME**

When the first gusher started the Panhandle's oil boom just 26 years ago, the area we serve became one of the most productive of crude oil in the world!

But... greater days are yet to come! We have more than one fifth of this nation's reserve... still underground! Oil is destined to become even more important to folks in this area in the years to come.

We have so much faith in the oil industry—and all other industries we serve, that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and better living—electrically—to everyone.

Broadcast: September 13, 1947

4 small potatoes (1 lb.)  
1/2 cup boiling water  
2 large tomatoes  
1 teaspoon salt

few grains pepper  
1/2 cup Pet Milk  
1/2 cup grated American Cheese

Wash and quarter potatoes; cook in boiling water in tightly covered saucepan 20 min., or until tender. Turn on oven; set at moderately hot (400° F.). Cut tomatoes in halves, crosswise. Put into shallow pan, cut side up. Sprinkle with 1/4 teasp. salt and few grains pepper. Drain potatoes; save 2 tablesp. liquid. Mash potatoes thoroughly. Add potato liquid, milk, remaining 1/4 teasp. salt and few grains pepper. Beat until light and fluffy. Pile on tomato halves. Sprinkle with grated cheese. Bake 15 min., or until cheese is melted. Serve hot. Makes 4 servings.

### SPORTS NEWS

The Exes beat the Mustangs 6-0 last Friday night in a practice game between the Ex-Mustangs and the Mustangs of 1947.

The game began with Craig doing the kicking for the Exes and kicking to the Mustangs. Hubbard received the ball and ran it back about six yards.

The Mustangs completed half of their passes which were thrown by C. Robertson and G. Hubbard. Lowrie intercepted three of the Exes passes and made good yardage each time.

At the half the score was 0-0 but in the last three minutes of the game Richerson threw a long pass to Glenn Robertson to make the 6-0 in favor of the Exes.

The Mustangs did pretty good Friday night and Coach Baker hopes they'll get a lot better. They have been working hard getting ready for the McLean Tigers September 19 at McLean. Everybody come out and see the practice game between Wheeler and Mobeette Thursday night. That goes for all the games too. Let's really back our Mustangs up this year for it will help them a lot to see the Wheeler people sitting in the grandstand and yelling for them.

Approximately thirty-five girls were organized this past week to form the Pep Squad that will help to support the Mustangs for the coming season. The girls and football boys chose the leaders, they were Jody Reid, LaVerne Watts, Pat Williams and Georgia Ford. The girls agreed to let the eighth grade girls yell with them, in order to have a larger group. They chose as their sponsor, Miss Celeste Wiley.

After much discussion they decided to wear black skirts and gold T-shirts. And they'll wear during the colder part of the season black battle jackets with long puffed sleeves. They all hope to have their suits by September 19 when we have our first game with McLean.

Friday night at the game between the Mustangs and the Exes they yelled the first time. At the present they have no definite time to practice.

### F. F. A. NEWS

After a length of time the Wheeler Chapter of "Future Farmers of America" met Thursday night September 4 at 7:30 o'clock for their first meeting. The agriculture teacher, Mr. Clepper is the

well cheer leaders. Here's hoping you all the success in the world.

In the senior class meeting Richard Jackson was elected president, Jody Reid vice president, Yvonne Clark, secretary-treasurer. Mr. and Mrs. Baker sponsors.

Lois May is editor of the Annual this year. Dolores Ahler is the Ass't editor. Senior: Bill Erwin, Junior: Duane Bradford, sophomore, Corky Robertson, freshman, Maurice Pettit.

### JUNIOR NEWS

The junior class welcomes J. H. Kelly and Lonnie Kelly who moved here from Meridian. Also Billy Jo Chance from Borger.

Congratulations Patsy Williams, the junior class thinks you will make a swell cheer leader, along with the others.

### LIBRARY NEWS

An inventory is being made of the library. They have found the lack of fiction and novelty books. Five of 25¢ per person are being paid by the students. This will aid in buying new books in the future. The library is under the supervision of Mrs. Easter.

### SENIOR NEWS

Here is another school term started. We want to extend to every senior teacher and pupil a hearty welcome. Let's make this year the best.

Seniors are strutting around here. No wonder it took six hours twelve years to get this far.

I think all the kids were really glad to see all the new seats. We are to get more new seats later. Congratulations July and Le...

Big engines... long trains

mean lower cost to you

But union leaders want "half-trains"—double crews.

Big locomotives are built to do a big job in the big country which is America—a big job in peacetime as in wartime. They are built to pull long trains.

Long freight trains can handle more goods at less cost—to you—than short trains.

Long trains mean fewer trains—fewer chances for accidents—fewer interruptions to traffic.

But a few railroad union leaders oppose long trains—among their current 44 demands for changes in rules is one limiting the length of freight trains to 57 average cars. Why do they demand this?

For "safety," they say. But is it? Government figures show definitely that long trains mean greater safety to railroad employees and public alike.

Then, if safety is not the real reason—what is the reason behind this demand?

It is to make more jobs which are not needed—to get more pay! This "make work" would be sheer waste. Think of big modern locomotives using only half their power.

For this waste, you—the public—would have to pay. Higher costs mean a lower standard of living for everybody. Nobody wants that!

## Here's the record...

In the quarter century... 1921-1946...	
Average length of freight trains has gone up.....	39%
Average speed of freight trains has gone up.....	39%
The rate of injuries to railroad employees has gone down.....	60%
Average wages paid railroad workers have gone up.....	84%
Price of railroad materials and supplies has gone up.....	58%
Railroad taxes have gone up.....	76%
But the average charge by railroads for hauling a ton of freight one mile has gone down.....	23%

## QUESTIONS AND ANSWERS

How much time do I have in which to complete my education under the G. I. Bill?  
 A—Education must be completed within 36 months after July 25, 1949.

Am I a service-connected disability, and would I be eligible for a hospital admission to a hospital?  
 A—If you are a service-connected disability, you are eligible for hospital admission.

Will I like to appear before the Board in my own name?  
 A—You may appear in your own name or through a representative.

What is a definite appointment?  
 A—A definite appointment is one that is made and you are there at the time for the hearing is designated.

What benefits is a man entitled to if he is discharged from the service?  
 A—A yellow discharge is a discharge from the service which is not dishonorable and the veteran is not entitled to VA benefits.

What is a yellow discharge?  
 A—A yellow discharge is a discharge from the service which is not dishonorable and the veteran is not entitled to VA benefits.

eran is not eligible for benefits. If other than dishonorable, the veteran is entitled to file a claim and Veterans Administration will determine whether the claimant is entitled to benefits. The same procedure applies to blue discharges from the Army. Q—May a veteran receive compensation from Veterans Administration and state benefits for old age?  
 A—Yes. There is no restriction as far as VA is concerned.

Agricultural training for nearly 40,000 World War II veterans on farms in Texas, Louisiana and Mississippi probably will not be materially affected by the new legislation passed by the 80th Congress, a Veterans Administration official said this week.

William T. Murphy, VA director of vocational rehabilitation and education for the three states, said the new law (Public 377) assures continuance of full subsistence allowance for veterans engaged in approved institutional on-the-farm training.

New regulations under the act will be discussed by VA officials in St. Louis this week, Murphy said. He pointed out that the law actually stabilizes and gives congressional approval to most policies already established by VA in the Southwest for the farm training program.

Any new regulations made necessary by the act will be available to veterans, educators and agricultural leaders by October 1.

Murphy said, World War II veterans taking institutional on-the-farm training in the Dallas Branch Area under the GI Bill include 21,500 in Texas, 11,000 in Mississippi and 6,500 in Louisiana. As more qualified instructors become available, an increase in this phase of veteran training is expected by VA.

Veterans whose training or education is interrupted in the middle of a month may not expect subsistence payments until the end of the month following interruption, the Veterans Administration has reported in answer to numerous inquiries.

VA said that most veterans' accounts are on a current basis but that veterans whose training is halted in the middle of a month usually receive subsistence payments about four or five weeks from the date of the official termination of that training. All records of a veteran's interrupted training must be received before an account may be certified for payment.

Veterans are asked to notify VA immediately if their training or schooling is interrupted or if there is any other change in training status.

## Children May Be Hard Hearing Instead Dumb

The child who cannot hear is badly handicapped. Hard-of-hearing children are often considered backward and become greatly retarded in school when in reality they may be highly intelligent but simply cannot hear much of what is said to them. Children who appear backward in school should be observed carefully to determine if hearing is a factor in the situation.

According to Dr. Geo. W. Cox, State Health Officer, many injuries to the ear can be prevented by keeping foreign objects out of the ear canal, taking good care of the ears during colds and other diseases and observing certain precautions when swimming.

"The cause of middle ear trouble often is diving and swimming," Dr. Cox said. "Protect the ears by wearing a rubber cap, or ear plugs."

The State Health Officer declared that no hard instrument of any kind should be used in clean-

NATIONAL PRESS BUILDING  
 WASHINGTON, D. C.

By Anne Goode

Because so many people understand the word "flammable" to mean "non-flammable," many safety councils have started giving the word "flammable." Several other fire-fighting organizations have also adopted this word. So, for flammable items in your home why not mark the bottles or cans with red nail polish to readily identify them?

Here's a canning tip to remember: keep constant check on the gauge of your pressure canner. Unless the gauge is accurate, food being processed may not get enough heat for safe-keeping. Or heat may be too high, thereby destroying vitamins and impairing flavor.

Don't take chances on buying table spreads that have become rancid from storage... Buy vitaminized margarine that's fresh and is made only upon order. It's always flavor-right.

Because of the battling in the East Indies, which supply most of the world's black pepper, prices of this seasoning have soared within the past month.

And speaking of prices going up, hides have gone up in price and shoe manufacturers say there's little hope of footwear getting cheaper any time soon. So don't forget that good wax liquid and paste polishes will help to keep leather hides soft and make them wear longer.

Make a few extra jars of jelly for Christmas gifts. Then when Christmas comes, tie a sprig of holly or a big red bow around the jars to make them look festive and see how very welcome they are!

Cleaning the ear canal since it may be injurious. Using ordinary precautions can do much to avoid minor ear trouble which may later lead to partial or complete deafness, the doctor added.

Boll weevils pass the winter as adults in weeds, grass, woods trash or other protected places cotton fields.

According to law, a cooperative marketing or buying association may be formed by five or more persons engaged in the production of agricultural products.

The author who writes the truth can expect to be denounced by everybody who has a special interest to protect.

THE WHEELER TIMES classifieds offer more for less money, to both buyer and seller, than any other business device we know about.

Large chick brooders, accommodating 250 to 500 chicks, need forced ventilation to give the chicks plenty of air under the hover.

## Welcomes Legion

BROADWAY musical star Jane Kean extends a welcome to the American Legion which will hold its national convention in New York City from Aug. 27 to Sept. 2. President Truman is scheduled to address the Legionnaires. (International)

of title. Otherwise the title to his vehicle is clouded because its motor number does not correspond to his title, an awkward situation to handle when he tries to sell his car.

If the new or reconditioned motor bears a manufacturer's number, it should be used. If it is blank, as many are nowadays, the purchaser must apply direct to the Texas Highway Department at Austin for an assigned number.

Forms for this application may be obtained from any County Tax Collector's office. It is illegal to stamp any number on a motor other than a number assigned by the Highway Department.

A new service has been provided for Texans who wish to take delivery on a new vehicle at the factory or from a dealer in another state. Temporary license plates for the exclusive use of buyers while driving their new car back home are now issued under another of the Fiftieth Session's new law.

Suggested by Highway Department officials for the convenience of purchasers wishing to drive their new car back from the factory, the new law eliminates many thorny legal technicalities formerly incident to the practice.

Temporary plates, good for thirty days, can now be secured without delay at the County Tax Collector's office, and carried to the factory or other out-of-state delivery point. The owner may secure certificate of title to his new car and regular registration plates after returning to Texas.

Despite the advance of liberty throughout the earth there are very few free men; most of them bow to their prejudices, superstitions and interests.

Virgin wool is wool that has never been pressed in any way before being completely manufactured into the finished product.

Americans today eat about the same amount of fats and meats that they did in 1910, but less grain products and potatoes, more fruits, vegetables and dairy products.

## TITLE CHANGE LAW IN EFFECT

Changes in title and registration laws made by the Fiftieth Legislature will sooner or later affect all owners of motor vehicles, Texas Highway Department spokesmen say.

A number of these new laws became effective September 5. After that date, for example the Texas Highway Department will be required to charge a fee of \$1.00 for assigning numbers to new or reconditioned motors. A similar fee was ordered for serial numbers on house trailers.

The growing practice of installing new and rebuilt motors, some bearing no identification number, demand a strict accounting of both motor and serial numbers on vehicles to assure valid titles in the name of rightful owners.

New laws outline a procedure giving maximum protection to legal owners of all motor vehicles. When motors are exchanged, the vehicle owner must apply to the Texas Highway Department for a correction of his certificate

Built  
 on  
 Sand?

Is this lighthouse built on sand? Seemingly so! All you can see at its base is sand.

Actually this towering structure is built on rock. Underneath these dunes of sand is a rocky ledge, firm and enduring. The sand may be carried away by sea or wind, but this lighthouse will stand secure. There's a rock, a firm foundation, underneath!

Some people look at the Church and see only sand. They see the shifting sands—of custom—and fashion—and passing personalities pile up and wash away around the Church. "Why is it still standing?" they ask—for they see only sand.

The Church would have fallen long ago were it built on anything so fickle as fashion, so casual as custom, so impermanent as mere people. The Church is built on rock, firm and enduring. It will stand secure for all ages, shedding light and imparting strength to all who are guided by it. It stands on the "Rock of Ages," the divine personality of Jesus Christ and His message of hope for all mankind.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend and support the church of his choice. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

News In  
 World of  
 Religion  
 By W. W. Reid

of the Island of Okinawa's population is "seriously turning" to the Christian faith, according to the Rev. and E. Hopkins, associate secretary of the Board of Mission of the Methodist Church, who returned from a visit there. Hopkins says that before the war there were only ten scattered Methodist congregations, totaling a few hundred people, before the war on Okinawa; and that today there are organized churches in the island, led by laymen, and that more are in the process of formation.

## Earl-Wright Vows Are Read at Hiawatha, Kan.

Nuptial vows were exchanged by Miss Mary Leonore Earl, daughter of Mr. and Mrs. Walter W. Earl of Council Bluffs, Iowa, and S-Sgt. Claude V. Wright, son of Mr. and Mrs. W. F. Wright of Wheeler, Saturday, August 9. Richard W. Shaw, judge, of Hiawatha, Kansas read the ceremony.

The bride was attired in a dress of navy blue with white trimming and wore accessories of black. Completing her costume was a corsage of roses.

The couple was attended by Miss Shirlee Prunty of Omaha, Neb., and John Stell of Ft. Crook, Neb.

Mrs. Wright has made her home in Omaha for the past three years where she has been employed. S-Sgt. Wright is stationed at Offutt Field, Ft. Crook, Neb., and the young couple will be at home in Omaha.

A wise man knows when to sell his business.

## AGENCY KEEPS MOUTH SHUT

Like the daisies, the Social Security Administration won't tell. This Federal agency keeps its mouth shut, and some of the 88,000,000 Americans who hold social security cards would be mighty unhappy if it didn't.

Concentrated in the Accounting Operations Division of its Bureau of Old-Age and Survivors Insurance in the Candler Building in Baltimore are more personal facts and figures about more Americans than in any other place in the country.

Just how old is your mother-in-law? The Social Security Administration might know but it won't tell. How much did your ex-wife earn last year? The record is there, but only she can get that information—and she already knows.

When the Social Security Administration asks for and gets from a worker the information necessary to set up and identify his account, it pledges itself to regard such information as confidential and to withhold it from all but authorized persons.

The worker whose boss thinks he is ten years older than he is need no fear that his secret will come to light. It is guarded from prying eyes at all times of the day and night by guards whose sole job is to keep the records safe.

## Dream Stuff

Negligee with matching gown.

By VERA WINSTON

"TO SLEEP, PERCHANCE to dream"—a pleasant enough idea when contemplating some of the new boudoir wear. Pale green crepe is used for the negligee which is posed over a matching lace banded nightgown. The negligee has a lace edged collar cascading down the front to make a jabot and full sleeves with lace-edged cuffs.

The Social Security Administration's local office in Amarillo receives requests each week for aid in locating missing husbands, absconding treasurers, and persons who find it easier to move than to pay bills. Manager J. R. Sanderson reports. "In every case," he says, we must tell the caller that our records are for Security purposes only and that we are not permitted to release any such information. Without such protection to individuals, we would no longer get the accurate information necessary, and we would soon be spending more time furnishing information than we now put

on the bookkeeping the law requires."

## LOCAL NEWS ITEMS

Mr. and Mrs. Vernon Brown and Mr. and Mrs. Junior Jamison visited in Pampa Wednesday night.

Mr. and Mrs. W. O. Carrick and daughter visited Friday night and Saturday with Mrs. Carrick's parents at Tulla.

Mr. and Mrs. Deibert and children spent the week in Oklahoma.

## LAWRENCE'S BEST 21% PROTEIN Fortified RANGE CUBES

... for Stepped-Up Production!

Now... you can feed a combination of Vitamins... Minerals... Proteins... and Carbohydrates in every bite that gives your stock the very latest feeding advantages to help enable you to more profitably meet present-day market demands for better results with lower production cost.

### PLUS "3" for PLUS RESULTS

Fortified Range Cubes bring you "PLUS-3" for "PLUS RESULTS" through... extra Vitamins... EXTRA Minerals... EXTRA Proteins... AND added Carbohydrates... Extra amounts over the usual just "get-by" necessary requirements.

### WHY NOT MAKE EXTRA PROFITS

It doesn't cost you any more to get extra results than it does to experience "just get-by" results... in fact, it's cheaper as Fortified Range Cubes cost you no more than just ordinary "non-fortified" cubes, yet offer you results, which we feel are years ahead of general present day feeding practices. Here is a feeding method for you brought up to the present high levels of breeding.

# PLEASE NOTICE

The 50th legislature has passed a new motor vehicle registration and title law which states that a person who becomes the owner of a motor vehicle through purchase or otherwise must make application for title within ten (10) days or pay a penalty of Five Dollars (\$5).

It is expressly provided that upon the transfer of any vehicle from one person to another in the State of Texas, all papers or documents relating to or supporting transfer of registration and Certificate of Title shall be executed in full and date of such transfer, and any person who shall transfer a vehicle and execute such papers or documents as provided for herein wholly or partly in blank leaving out any information that is required to be furnished, shall be guilty of a misdemeanor and shall be fined in any sum not less than Fifty Dollars (\$50) and not exceeding Two Hundred Dollars (\$200). It is further provided that any transferee who accepts transfer papers as herein provided executed wholly or partly in blank or any person who alters, changes, or mutilates such transfer papers, or whoever violates any provision of this Section for which no specific penalty is provided shall be guilty of a misdemeanor and shall be fined in any sum not less than Fifty Dollars (\$50) nor exceeding Two Hundred Dollars (\$200).

Please remember the tax collector has no authority to forgive any part of this law.

If at any time we can be of assistance to you please feel free to call on us.
