Street markers for Wheeler?

How do you go about telling a stranger the direction to a certain place in the city of Wheeler?

If the person you happen to be trying to direct to a certain place in the city of Wheeler is an absolute stranger to the town and does not know any of the old landmarks

about the city, the easiest way to tell him how to get to his destination is to get in the car with him or get into your own car and lead him out to the place he desires to go.

We understand that the streets of Wheeler all have names and the lots and houses have even been assigned numbers but so far as we know this is kind of a secret known only by the abstract companies and they probably wouldn't know them if it were not their business to definitely locate a piece of property when they go to make an abstract for someone who is buying or selling a piece of property.

We believe that it would be a worthy project for the citizens of Wheeler to incorporate into the coming clean-up, paint-up and fix-up campaign a plan to erect some sort of street markers on each corner in Wheeler or at least at often enough intervals until a person could find his way to a certain point without having to have someone go with him.

If a plan could be worked out whereby street markers could be erected, we believe that about ninety-nine per cent of the people in the city would be willing to spend a half dollar or so to buy numerals of some sort to put up on the front of their house.

With the streets marked and the houses numbered anyone who lives in Wheeler and pays any attention to where his friends and neighbors lives could direct a stranger to a certain point in just a jiffy and the stranger could reach his destination in almost as short a time as it takes to direct him.

Post and lumber to build street markers would not cost a great deal and we believe Jack Guynes, Wheeler's prominent sign painter, could be induced to do the painting for a nominal fee; so, if the City of Wheeler cannot afford to have this work done we believe it could be done by public subscription and no one have to kick in more than a dollar bill or such a matter.

If anyone has any comment on this matter either pro or con, the Times will gladly print your letters concerning the matter if you will just address them to the editor and sign same.

During the campaign for woman suffrage, militant suffragettes used hunger strikes in an effort to force authorities to release them from jail.

Trinity College at Durham, North Carolina changed its name to Duke University in order to receive funds left it by a wealthy tobacco manufacturer.

Texas is called the Lone Star State because of the one star in its flag during the time it was a republic.

A Child May Run So Drive With Care

Q. Is there a cure for hog cholera?
A. There is no recognized cure for hog cholera, but outbreaks and losses can be prevented through proper vaccination. Cholera usually spreads rapidly, and when it occurs no time should be lost in calling a veterinarian.

Q. How should lice on cattle be treated?
A. Purina Insect Killer is effective in controlling lice on cattle. Work the Insect Killer into the hair thoroughly and repeat the application in 15 days. Insect Killer can also be mixed with water and used as a spray.

Q. What causes limping and lameness in a flock of chickens, and how can this condition be eliminated?
A. This may be the nerve form of the avian leukosis complex, which can affect the nerves in any part of the body. However, it usually affects the nerves of the legs and wings and was originally described as fowl paralysis. The nerves in the legs and wings are affected to the point where the bird has no control over the wing or in walking. One may notice a lameness or limping and finally a complete inability of the foot to stand. It may affect either one or both legs.

We recommend removing chickens from the flock as soon as they show any symptoms of this nature. If they are still in good flesh, they can be returned to the flock. At the present time, the most reliable method of control and prevention is a program of selective breeding, isolation and sanitation.

Q. Can lack of a balanced diet cause breeding losses in dairy cattle?
A. Yes. According to J. W. Hibbs, Ohio Agricultural Experiment Station, underfeeding and insufficient vitamin A content in dairy rations may cause as many breeding losses as infections and malformations.

Send your questions about livestock or poultry problems to FARM FACTS, 415 South Eighth Street, St. Louis 2, Missouri. Questions will be answered, without charge, either by mail or in this column, at a service of this newspaper.

Shipments of fats and oils prior to the war were 13 billion pounds, while the current world trade is barely 7 billion pounds.

REA recently approved \$150,000 for system improvement of 29 miles of lines in Fayette county, and \$470,000 for 174 miles of line serving 631 families in Hondo and Bexar counties in Texas.

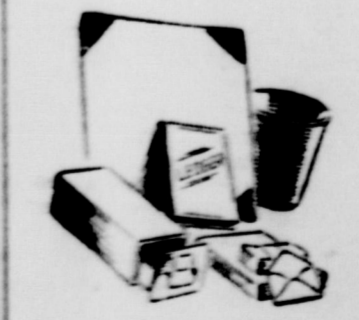

Farm families lose about 3,500 lives and 100 million dollars worth of property each year by fires. This means nearly 10 people die every day because of farm fires.

Accidents around farm homes are often caused by leaving farm tools or implements where people stumble and fall over them.

SENIOR NEWS

(Personality)
I have been here all year, and kept the biggest part of the year. She was Pep Squad last year, and made the first team. She lettered in basketball, and has miniature basketballs for an excellent year. She played an excellent year in this sport. We all know that she is acting natural. She is three inches tall, dark eyes, light brown hair, 105 pounds, and has a personality. She was class president this year. The other senior nominees were... F.A. sweetheart this won't tell us anything about plans for the future, we will get them out

of her pretty soon. And until we do, be careful Jody, that you don't get married.
Yvonne, now you of all people had to get married. But you have our wishes of luck and happiness. Take care of her Vernon, we loved her too.
Bob, we know you think a lot of that certain senior girl, but what if you get your foot in it for going with her?
Johnny, if it isn't one thing, it's another. Can't you ever stay out of trouble?
Happy, what did you do over the weekend? Say, who was that long-lost character you had with you? Joe Chance, when did you hit town?
Lois, school will soon be out, we don't want you rushing the deal too.
Hey Neta! How was the visit to Amarillo? Don't tell me you were there all the time and didn't catch you a man?
Jody, Joyce, and Ruby are the only "Pirates" left unmarried. Girls, you'd better hurry up, leap year is getting away from you.
Bill, are you sure just they had Indian fights in El Paso?
Jody, you think you're smart now that you will get to go to Canyon. Although we are proud of you for it, and we pity Canyon when your cousins get there.
Six weeks tests this week kids, you had better study a little, I think.
Ruby, do you think you can keep your word from now till fall? I'll bet you can't get that far away from the "folks", that is!

Dolores, that was right motherly of you. Say were you Yvonne's bridesmaid? You'll tell her how to keep house clean of these dirty mice, won't you?
Bill, who was that cute blonde that came around asking for you Saturday night? Don't lie to us, you saw her all right.
George, what did you do, make Jimmy come closer home to work where you could watch him? By the way, has he cut your hair yet?
The girls are anxious for Kid Day to get here so they can wear their dresses above their knees again, and carry their dolls to school, and chew bubble gum.
Dolores, the wind does blow, doesn't it? And you with a full skirt on.
Just who on earth is this George and George that Barbara and Georgia Beth, and Ruby have been carrying around with them? Or have they really gone crazy?
Mr. and Mrs. Teague were just courting again Sunday evening, they went to their old familiar places and took pictures.

JUNIOR NEWS

Did you have a good time while you were gone Doris?
The juniors did extra well on their food sale.
We want to thank Clay Food for letting us have our food sale inside their store.
It has finally been decided that the junior play will be April 6.
The juniors expect to receive their rings soon, they are getting rather eager.
Seems there was quiet a few Wheeler kids in the show at Shamrock Friday night.
Have a good time at play practice Sunday juniors?
What's wrong with all these junior boys? They don't seem to know what dating is any more.
Well, the juniors have lost another junior girl. Sorry to see you go Yvona.
Margaret, you seem to get a big kick out of play practice. How about that?
Yes, Peggy, you really had the newest look Monday.
Has everybody heard how good the juniors did on that last English test?

THE ZAVADA QUADS

QUADRUPLETS, A BOY AND THREE GIRLS, born to Mrs. Barbara Zavada, 25, of Dorothy, Pa., at the Latrobe, Pa., hospital are shown in their first "group" photos (top). The babies are posed in two batches, with nurses Gerda Townsend and Beatrice Horrell, holding them in each picture. Mother, quads and father, Andrew, a factory worker, are doing fine

She takes part in all the sports, and most of them she can play without any trouble. She has a very sweet personality, hasn't any trouble getting along with anyone. Guess Who?
Answer to our last Guess Who? was Mr. Carrick.

SEVENTH GRADE NEWS

(Personalities)
Betty Lou Kidwell—Betty Lou is 13 years old with blue eyes and brown hair. She is 5 feet, 2 inches tall and weighs 109 pounds. Betty Lou has gone to school here since she was in the second grade. She plays first baseman on the main team in baseball. She is also an active player in basketball. Her ambition is undecided.
Bobby Johnson—Bobby was born January 11, 1935. He has green eyes and brown hair. He is 5 feet tall and weighs 105. He likes girls and dislikes wolves (although he is one himself). His favorite subject is arithmetic and he likes all of the teachers. He has gone to Wheeler school since last year. His ambition is to be a business man.

Marilyn Carrol Swink—Marilyn is 13 years old. She has green eyes and red hair. She is 5 feet 1 inch tall and weighs 92 pounds. Marilyn has gone to school here since she was in the first grade. Marilyn plays volley ball and likes it a lot. Her ambition is to be a nurse. Her favorite subject is arithmetic.
Guess who last week was Molly Berry.

Wonder Why?

La Jaune dreaded when Monday came. Couldn't be R. B. was leaving could it?
Buddy likes to throw ink bottles around?
Kay laughs so funny?

Marilyn Carrol likes bubble gum, especially in class?
Nadine doesn't play volley ball?
JoAnn was looking so happy Monday, couldn't have been John Dan could it?
Glen's feet hurt? May be the shoes Glen.
Betty Lou said she had spring fever? Betty Lou, you made a mistake there, you mean love fever don't you?
Mary Louise was talking out loud in English class?
Helen looked so cute Monday? Where were you going Helen?
Waunetta was so mad at a certain somebody Friday?
Bobby is always talking to Helen?
Kay got so mad Monday when Mary Helen told her she was laughing?

Gossip

Betty, who's class ring are you wearing?
Jimmy, don't you feel a bit weak? You get around like a turtle lately.
Mary Helen don't you like your new seat Mrs. Teague gave you?
Louise you must really like chewing gum.
There seems to be a little puppy love going on in school now. How about this Glen, Betty Lou, John Dan and JoAnn. At least at noon.
Lois, do you like being librarian?
Sue can't you find anything to do besides talk and act silly in study hall?
Ray, you must have fun on Saturdays. Do you?
Doyle, why are you always smiling at Claudine?
Mary Helen, you are a good baseball pitcher.
Buddy, you had better quit reading funny books in class.
Mary Louise really isn't as smart as we thought. She didn't know how to use come.

This spring, first thing... you've got a date that just can't wait!

So, clear out! Get down the street, where a Conoco Mileage Merchant can drain out dirty, contaminated winter oil and refill with Spring-time Conoco No. 4... the oil that OIL-PLATES as it lubricates!

It's like this: When No. 4 Oil (Patented)* enters your engine, a special added ingredient fastens extra lubricant so closely to metal that cylinder walls and all working parts are actually OIL-PLATED!

Because this extra OIL-PLATING stays up on cylinder walls... won't all drain down to your crankcase, even overnight... a Spring change to Conoco No. 4 Motor Oil extra-protects from "dry-friction" starts... from power-choking sludge and carbon due to wear!

That's why, for extra-cool, extra-powerful, extra low-cost miles you'd better...

SOPHOMORE NEWS

JoAnn, what's the matter with you? Can't you ever be satisfied? Jerry is beyond all our means. Now he goes around pulling the girls noses.
Dorothy, who did you say left one of the buses Monday?
Linnie, do you always act crazy? Or does it come natural?
Ruby, why so quiet?
Lindon, you are really studying nowadays, why so?
Barbara, you really keep that certain somebody busy?
Imogene, why were you so sleepy Monday morning? I thought he came down Sunday evening.
J. T., do you like to talk out loud in class?
Doyle, do you always sleep in English class every Monday Morning?
Margaret, you really know how to hit a volley ball. A little more practice and you'll know how to knock a board off the ceiling.
Floy Bell, did you ever get everything straightened out about the picnic?
Martha is president of a club heard? Especially when everybody talks all the time.
Winnie, you had better study harder, and not on Allison either.
Guess Who?
She is a sophomore girl, with blonde hair, blue eyes, weighs about 120 pounds, about five foot, two inches tall. She hasn't been here long, but she has really made friends while she has been going.

SENIOR NEWS

(Personality)
Elvin Meadows—Elvin has spent all of his high school at Briscoe, except the freshman year he was in Canadian. He started to school at Pleasant Valley when he was later transferred to Canadian. Elvin hasn't taken much parts in sports except for tennis. Most of the high school knows Elvin as ape-shape. Elvin is popular among the high school students, especially with the girls. He likes to ride around in Wheeler on Saturday nights with a certain little freshman girl. He has no definite plans for the future but we heard him say the other day in book-

keeping that he wanted to just live a nice calm, normal life. Sounds good, doesn't it?

The senior pictures came in and they were all pretty good. At least the tinted ones were pretty. Wonder where all the little sweetheart pictures will go?
Faye has gotten to be a regular cowboy lately. Tell us more Faye.

JUNIOR NEWS

The junior class finally got their play over with. Due to the rain, we didn't have as large a crowd as we had hoped we would have, but we had a nice crowd anyway. We would like to thank all the nice people for coming out in such weather to see our play and really hope they enjoyed it. We wish to thank the teachers for their kind cooperation by letting the students out of their classes to practice this play, also the two seniors for giving up their time to help us, and Miss Solomon for her patience and time that she spent with us. The junior class presented Miss Solomon, Mozelle Wilson, Richard Dyson and Helen Childress with some lovely gifts after the play for their help.

Mrs. DSpain gave the juniors a supper one night last week before play practice. Boy, did we eat! It was really swell Mrs. DSpain.

Dear Editor:
About the clean-up for our city of Wheeler.
It will be nice if we can get our officers to clean out the punch boards from the business houses in Wheeler. Stop that open gambling that is before our teen age children. After the inside of those houses that have their counters covered with punch boards clean-

ed out, then to beautify the city by cleaning the trash up as the program is lined up. Our county officers will stop that if it is unlawful if we will ask them to.

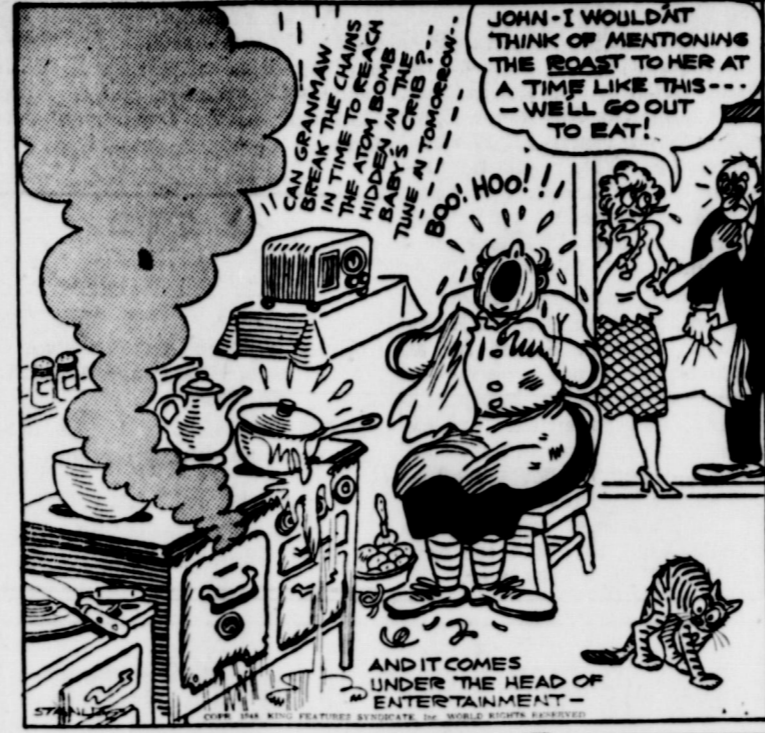

I was told tonight that my boy 16 years old was one of the supporters of those gambling punch boards that is wide open on the counters in several business houses of Wheeler. I am taking steps to stop him, I hope more parents will do likewise.

First let us ask our officers to destroy this if it is unlawful, if it is lawful to operate these then we will just have to take our children's money under control. If it is against the law to operate them, as I have been told it was, if I can catch my boy playing them while he is under age, I will gamble some more money in court to try and stick the house that allow him to play in their business.

Mr. Homer Moss, Mr. Swink, please look it up and see if it is lawful or against Texas law. If it is against the law will you please do something about it. We need to hear from the people of Wheeler on this as these places stay open till after mid-night every

night, they are full of our young people. If I am the only one that

want to see this stopped just forget it, I will try to just stop my boy. I am interested in my neighbor children as well as my own on this, what I call beginners open gambling.

Editor, will you take this up with the Chamber of Commerce and print this, see if there is anyone else want's this stopped.

Thanks,

TEX. TEACHERS SALARIES STILL FAR BELOW PAR

Texas will continue to have difficulty obtaining the qualified teachers it needs despite salary increases granted by the last legislature, it was predicted here recently.

"The high cost of living has more than offset the raises in pay," Miss Emma Mae Brotze of Marshall, president of the Texas State Teachers Association, declared.

"We are grateful because the legislature provided a minimum salary scale of \$2,000 annually for teachers with degrees. That has made the average salary of our teachers \$2,500.

"The fact remains, however, that Texas is still under the average pay for teachers in the United States and that increasing cost of living is forcing many people to look to other lines of endeavor for their livelihood.

"Obtaining a degree which qualifies a person to teach in Texas schools is a costly process. It is quite likely that the fact that teachers receive 12 per cent less than the average pay for all employed persons in the United States, including laborers, is little inducement for persons to train for and enter the teaching profession."

Miss Brotze pointed out that conservative figures of the United States Bureau of Labor Statistics reveal that the cost of living has increased 63.8 per cent since before the war.

"The average salary of Texas teachers, \$2,500, is equal to a paycheck of \$1,526 in the 1935-39 period," the state teachers president said.

"In purchasing power, that means the dollar will now buy what only 61 cents would before the war.

"Take home pay of teachers has also decreased due to the fact that federal income tax is now levied on their salaries. That was not done prior to 1946.

"With income tax deductions, the average salary of Texas teachers is equivalent to \$1,306 before the war.

"So long as high prices continue; so long as the federal government pays larger salaries for persons requiring college degrees, and teachers get less pay than

HOW TEXAS INDUSTRIES PUT NATURE'S RESOURCES TO USE FOR THE BENEFIT OF MANKIND

MAKING HIS Mark IN THE WORLD

Texas is making its mark in the cement industry, converting limestone and clays into good roads, into concrete foundations for prospering new industries, and putting them to scores of other uses that help to serve the state.

But limestone and clay, in their natural state, are of little value. They must be gathered and processed into cement which is then taken to places and used where people need it.

Natural gas is another natural resource that is worthless while it is under the ground. It, too, must be gathered, processed and transported to cities and towns where it can be put to use before it gains value. This is the job being done by the United Gas companies... giving importance and value to an otherwise worthless product of the earth. This is practical conservation, for it stimulates industrial development, creates jobs and benefits all the families in Texas.

CEMENT INDUSTRY

The Free Enterprise system is well exemplified in the cement industry of Texas. Here is an increasingly important industry providing good jobs for Texas people... spending large sums of money with local suppliers of materials and equipment... paying important tax money for the support of state and local governments... providing a sound investment for private capital. It deserves your support in its efforts to build a greater Texas.

UNITED GAS

Serving the *Gulf South*

semi-skilled workmen, I do not believe the profession will appeal to the type of person we want to teach our children." Miss Brotze pointed out that teachers' pay has never been comparable to others and that increases have not kept pace.

"Labor Bureau statistics reveal that teachers throughout the United States received pay increases totaling 65.5 per cent from 1939 through 1947," she said.

"That may, at first glance, appear large.

"Consider, however, the increased cost of living and the pay increases granted in other lines of work to meet the rising prices. Industrial workers, during the same period, had increases totaling 101.7 per cent, wage earners in manufacturing 111.3 per cent and persons engaged in agriculture 304.3 per cent.

"Figures for present day income are not available, but the attraction other professions hold is shown by the 1939 average income of several groups. Lawyers average \$4,391; physicians \$4,229; veterinarians \$2,240 and teachers \$1,400."

The federal government's lowest grade pay in the professional field is \$2,691, Miss Brotze declared.

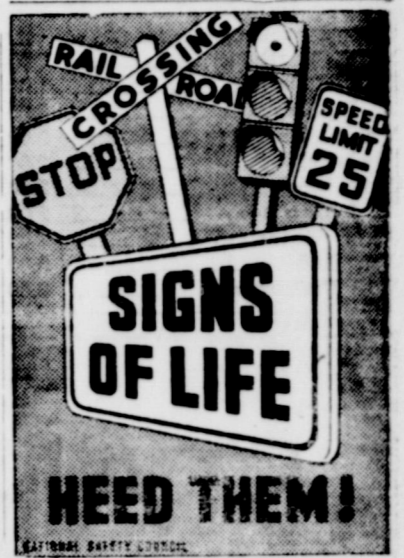

"Compare that with the \$2,000 minimum in Texas and one can readily see why the federal government attracts more people than does the school room.

"Federal salaries in the professional class are as high as \$10,000 a year. I know of no position in the Texas public schools which pays anything comparable to that."

"The expenditure for education throughout the United States is only two per cent of the national income, as compared with as much as six per cent in some other countries.

"I am firmly convinced that if we are to staff our classrooms with persons properly trained to teach our children that it will be necessary to provide better salaries for our teachers."
