## TIGERS READY FOR MUSTANGS

Special To The Wheeler Times  
McLEAN, September 17—The already once-beaten McLean Tigers were working out in all seriousness this week for their first District 3-A conference game of the season with the Wheeler Mustangs Friday night at McLean.

Still hurting from their 26 to 0 trouncing in their opener with B Panhandle last Friday night, the Tigers were brushing up on their pass defense and their defense against around-end plays. These two weaknesses proved fatal in the game with the Panthers, as the Panhandle men roared around end, and went through the air to make practically all their gains.

There were no injuries of a serious nature in the Panther attack to hinder the Tigers' ability, but Coaches Larry Sander, George McCarty, and A. D. Shaver still would not predict a victory over the Mustangs.

In the backfield the Tigers boast Johnny Griffith, who stood out in the Panhandle game and who was an outstanding back during the 1946 season. On the offense, Bill Boston does the passing, and completed several for small gains against Panhandle.

The line of the Tigers is slightly heavier than the backfield, due to the presence of 208-pound Dick Andrews and 205-pound Barney Myatt both of whom fill the tackle slots. The guards on the first string, Allen and Newton, are lighter, however, weighing 150 and 154, respectively.

The game will start at 8 o'clock, and the admission will be the prices set by District 3-A officials.

## ALL-STARS PLAY NEGROES SUN.

The Briscoe baseball club of the Texas-Oklahoma League under the direction of S. E. Mason, manager, is getting together a group of all-stars from the league which will play a team of negroes from Shamrock at 3:00 o'clock Sunday afternoon on the Briscoe diamond.

The Shamrock Negroes defeated the Kelton club a few Sundays back with Junior Martin, the Sweetwater hurler, doing the chunking. Everyone who has seen the Texas-Oklahoma League clubs play this season can tell you that Martin was one of the best chunkers in the league.

The Briscoe club announced that the admission price for Sunday's contest would be 40 cents for adults and children under 12 years of age would be admitted free of charge.

## Wheeler Merchants Back Up Mustangs In Opening Contest

The Wheeler Mustangs will go into their 1948 season with the solid backing of local business men and fans. In a page advertisement in this week's Times, 40 Wheeler merchants and individuals extend greetings to Grady C. Baker, new Mustang coach, and call on the public to get behind the county seat football aggregation.

## MOBEETIE IS VALLEY CHAMP

Frank Coker's Mobeetie baseball team wound up its first season in the Red River Valley League Sunday by defeating Memphis 6 to 1 for the championship of the league. The contest was played at Pampa on the Pampa Oilers' diamond.

The Mobeetie team started the regular season this year by winning their first eight contests in a row then lost three of their next six games to wind up in second place one game behind Quanah, 1946 champions of the league.

In their first play-off series, Mobeetie took two of three contests from the hard hitting Childress nine then trounced the Memphis team in the opener of the final series by a count of 27 to 6 and lost the second by a count of 15 to 6.

Metz LaFollette, who started the season as the star pitcher of the Mobeetie club then was hired by the New York Yankees, pitched superb baseball Sunday allowing the Memphis batters only 4 scattered hits and 1 run. Memphis failed to get more than one hit in any single inning. In addition to his pitching, LaFollette got two hits in two official times at bat, he was walked the other two times up.

Hank Keller, the regular Memphis pitcher, started on the mound for Memphis and set the Mobeetie lads down in order in the first frame, but the second inning spelled disaster for him as the Mobeetie team gained 4 runs on 2 hits a walk and a couple of errors.

As the Mobeetie half of the second inning opened, LaFollette (Continued on Last Page)

## Mobeetie Methodists Begin Revival Friday

The Methodist Revival of Mobeetie, will begin at 7:45 o'clock September 19th. You are cordially invited to come and join in the singing. We will have about thirty minutes of good gospel singing before the evangelist preaches. If you want to hear good singing and help in it, come each evening.

Reverend John Crow, of Anson, Texas will do the preaching. Rev. Crow was pastor of Mobeetie many years ago, and comes as the result of visiting evangelist by request of the church. You will enjoy Bro. Crow's messages. He has a message for the hour.  
—H. S. Salley, Pastor

## MUSTANGS FACE TIGERS FRIDAY

Coach Grady C. Baker's Wheeler Mustangs will open their District 3-A football campaign Friday night when they met the McLean Tigers in a conference encounter on the McLean gridiron. This will also be the first contest of the current season for the Mustang gridmen.

Coach Baker and his lads have been working long hours every afternoon since the first day of September in order to be in the best of physical as well as mental trim for the opening contest.

The Mustangs' starting forward will only average around 150 pounds per man while the four starting backs will average approximately 158 pounds to the man giving the team an average of 154 pounds per man.

The McLean forward wall which boasts a 265-pound and a 208-pound tackle will average an even 175 pounds per man which is a 25 pounds to the man average over the Mustangs. The Mustang backfield will hold an 8-pound per man advantage over the Tiger backs but the entire McLean team will have a 5-pound per man advantage over the Mustangs.

Coach Baker's starting line-up will probably include: Eugene Collier and Nathan Barr at ends; James McCormick and Loyde Goad at tackles; Doyle Waters and Harold Harcastle at guards; Duane Bradford at center; Corky Robertson at quarter; Bill Robertson and Bob Lowrie at halfbacks and Gene Hubbard at fullback.

## COUNTY SINGING AT KELTON SUN.

A convention of the Wheeler County Singing Association will be held at Kelton Sunday afternoon, Hester Dodson, president of the group, announced this week.

The convention will be held in the Methodist Church building, the program starting at 2:30 p. m. Delegates to the 1947 convention of the Texas and Oklahoma Singers' Association which will meet at Quanah in the near future, will be elected.

The Wheeler county group will attempt to bring the convention of the Texas and Oklahoma Singers' Association to Wheeler County in 1948 with the meeting to be held at Shamrock. Date of the 1948 convention has been set for the second Sunday in October. The association is composed of singers of 20 counties of Texas and Oklahoma.

A. J. Byram of Elk City, Okla., president of the two-state group, will be present at the convention at Kelton Sunday.

## Class To Be Organized At Church of Christ

A Sunday morning Bible class is to be started next Sunday at the Church of Christ for young married couples and young single persons of the upper teen ages. The class is to be taught by B. M. Litton, minister with T. J. Daughtry serving as substitute teacher. Wheeler's younger set is cordially invited to attend this class each Sunday at 10 a. m. Jack Wall of Berger is to deliver the morning sermons Sept. 21st and 28th in the absence of the regular minister.

## WHEELER WILL SPONSOR DAIRY CALF CIRCLE

The Wheeler Chamber of Commerce voted Tuesday at its regular weekly luncheon at the Denison Grill to sponsor a dairy calf circle for Wheeler County. The organization voted to sponsor the calf circle which will be designed to improve the quality of dairy herds in Wheeler County.

The Chamber of Commerce voted to sponsor the movement after a thorough explanation of the project by County Agent W. K. Frey. Frey pointed out the advantages of the project both from the standpoint of developing better dairy herds and from the standpoint of the goodwill which will be created for Wheeler.

Frey explained the workings of a calf circle in this manner: Individual sponsors purchase a high grade registered Jersey heifer which is placed in the hands of a 4-H club boy who agrees to feed and take care of the calf and return the first heifer calf to the circle for distribution to another 4-H club boy who will do the same and in this manner the circle is self propagating.

Grainger McIlhany, president of the Chamber of Commerce, will appoint an agricultural committee which will have the responsibility of selecting the calves which will be purchased, selecting the 4-H club boys with whom the calves will be placed, drawing up agreements with the boys and assisting them in every way possible.

It is hoped there will be at least eight or ten firms and individuals in Wheeler who will sponsor a calf for the project.

## MRS. F. MURRAY OF BRISCOE DIES

Funeral services were conducted from the First Baptist Church in Shamrock at 3:30 o'clock Sunday afternoon for Mrs. Frank Allen Murray of Briscoe.

Mrs. Murray, a resident of Wheeler and Collingsworth Counties for 34 years, died at 10 o'clock Saturday morning in the Amarillo Osteopathic Hospital. She had been in ill health for about a year, her condition growing worse during the last 10 days.

Rev. H. C. Lonis, pastor of the Assembly of God Church of Briscoe, was in charge of the last rites, assisted by Rev. M. C. Cox, pastor of the Assembly of God Church of Seminole, Okla.

Duward Price was in charge of the song service and Mrs. Glenn Lester was pianist. Miss Mattie Helton, Mrs. Edgar Kelly and Mrs. Neal Renfro sang a special song. Serving as pall bearers were: James, Frank and Lester Slaton, Virgil and Melvin Helton and Bus Walker. Flower bearers were: Mrs. C. E. Loter, Mrs. James Slaton, Mrs. R. Q. Carver, Mrs. James Helton, Mrs. Shirley Fuiks and Mrs. W. J. Marriott.

Interment was in the Shamrock Cemetery with Clay Funeral Home in charge of arrangements. Mrs. Leona Maud Denham Murray was born in Durant, Okla., January 19, 1904. She came to Wheeler County in 1913, from Throckmorton. She resided for a number of years in the Locust Grove community; made her home in Briscoe for the past nine years. She was married in Amarillo (Continued on Last Page)

## Worthington-Red Post Will Sponsor Legion Carnival At Mobeetie

Marion Williams, second vice-commander of the Worthington-Red Post of the American Legion at Mobeetie, announced this week that the Mobeetie post would sponsor a Legion Carnival which will be held at the Mobeetie High School Gymnasium Friday night, September 19 beginning at 8:00 o'clock.

Williams stated that all kinds of carnival attractions would be offered for public enjoyment. There will be bingo games, fortune telling, slide shows and various other attractions. Proceeds from the carnival will go into the Legion building fund, Williams stated, as a permanent county home demonstration agent, Miss Louise Hicks, the general public to come and enjoy an evening of good clean fun.

## First Two Bales Of 1947 Cotton Ginned In Wheeler Tuesday

Bruce Cochran who resides on the Loubet Moore place 3 miles east and 2 miles north of Wheeler brought in the first bale of this year's cotton crop to be ginned Tuesday afternoon and within a few hours Glen Cowan who resides 2 miles west of Mobeetie pulled into town with the second bale of cotton for the 1947 season.

The merchants and businessmen of Wheeler donated \$71.50 as a premium for the first bale which was ginned by the Planter's gin. The second bale was ginned by the Wheeler Co-Op Gin.

Cochran's bale which consisted of 1900 pounds of snapped cotton was gathered off a 7-acre patch. When ginned, the lint weighed 540 pounds and there was 840 pounds of seed.

Gross weight of Cowan's bale of snapped cotton was 1810 pounds and it turned out 431 pounds of lint.

Barney Burgess, manager of the Wheeler Co-Op Gin, estimated that the bale ginned by them for Glen Cowan would be classed as 7-8 middling and Billy J. Darnell, manager of the Planter's Gin, said he figured the Cochran bale would also be classed as 7-8 middling.

In an interview today Burgess stated that the present market price of cotton in Wheeler was around 30c per pound and the loan value on middling cotton is around 26.25c per pound. Burgess also stated that he estimates the cotton yield for this area would be approximately 2-3 of what it was last year.

Firms and individuals who contributed to the premium money included:

## BRISCOE CHURCH HOLD SERVICES

A series of evangelistic services are scheduled to begin tomorrow night (Friday) at the Briscoe Church of Christ, with B. M. Litton, minister of the Wheeler Church of Christ preaching and Hester Dodson of Twitty leading, the congregational singing. These services are to continue through September 28, beginning at 8:00 o'clock each evening.

The general theme of the sermons is to deal with the gift of Christ and the duty of man. The public is invited to attend each service.

## LARGE CROWD AT P.-T. A. SOCIAL

Mrs. R. G. Russ, Jr., chairman of the Wheeler Parent-Teachers Association's membership committee, announced this week that the committee would start its annual drive for members within a few days and everyone in town or in the school district would be given a chance to join. In fact, Mrs. Russ stated that the town would be canvassed for members.

Mrs. Russ pointed out the fact that membership dues for the year are only 50c per person. Regular meetings of the association are held each second and fourth Thursdays at the grade school auditorium beginning at 8:00 o'clock. The next meeting will be Thursday night, September 25.

## Wheeler Seniors To Put On Box Supper

Two members of the Wheeler high school Senior class called at The Times office Thursday to see if we would put a placard in our window advertising the Senior Class box supper to be held at the Wheeler gym Tuesday night, September 23. We were glad to do it and we are also glad to run this little notice in the paper.

"Come buy a box and see the screen girls," reads the placard. Now The Times doesn't know whether this means there will be Hollywood stars at the box supper or not. Furthermore we care as we think they get prettier in Wheeler than they do in California.

Mrs. R. H. Forrester made an interesting talk which was followed by group singing led by the constant county home demonstration agent, Miss Louise Hicks, after which watermelon was served and patrons and teachers enjoyed an hour of visiting.

**FREE ADVICE TO YOUTH**  
A reader of The Times suggests that we write something in the way of advice to young people and while we do not have any idea whatever that many young people will anxiously await our utterances, we will nevertheless take a chance.

First of all, we would say to young men and women, about to

begin life for themselves that they should guard against making the mistake that sets the acquisition of money as the first objective of human activity.

Secondly, we would urge them to seek an understanding of the expression that happiness is to be found within themselves, rather than in other people and external forces.

In the third place, we suggest that, in their youthful zeal and enthusiasm, they remember that the world is an old place, populated by an infant race and that human relationships and customs are not to be lightly challenged or thrown into the ashcan.

For the fourth, and last piece of advice at least for this issue, we would induce them to seriously set their own values upon all things. Once convinced of the true valuation of anything, or the truth of any principal, we strongly urge them to live their life on the basis of their own honest appraisal, regardless of the criticism of others or the customs formerly followed by their people.

This may seem like a small start to the young person, who is seeking the answers, but it is, we think, enough for a start.

**WHO IS TO BE PITIED?**

"I declare," remarked Mrs. Thornsbury, "I just can't understand it. Jerry Hanover has married Mary Taylor. It's simply awful, awful!"

"Awful?" demanded Mr. T. looking up from the evening paper, "what's awful about it?"

"Why don't you realize," wailed Mrs. T., "that Jerry Hanover is the worst sinner in this town, while Mary Taylor is a perfect saint?"

Mr. T. was suddenly struck by the terrible impact of the news. "Gosh!" he whispered "Didn't he get his punishment!"

**PAINFUL PERFORMANCE**

While the symphony concert was in progress the conductor noticed that one of the violinists had an expression of extreme pain on his face. In great concern the maestro stopped the orchestra to question him. "Guido," he said, "you appear ill. Are you in pain?" "No," Guido replied sadly, "it's just that I don't like music."

**A CHANCE**

A young woman about to be married decided to test her sweetheart, and called on a girl friend. "I want you to go for a walk with Jack," she confided, "and at a suitable moment ask him for a kiss."

Her friend blushed, but consented. The following day the bride-to-be called around to see what had happened.

"Did you ask Jack to kiss you, dear?"

"I didn't get a chance," was the rather upsetting reply. "He asked me long before I'd thought of it!"

There are modern Americans who have read what Thomas Jefferson wrote.

**CARRYING OUT ORDERS**

Down the path sauntered a tall G. I. with two Japs in tow. "Hey, lieutenant, what'll I do with these prisoners?"

"Lissen," hissed the loopy, "don't you know these woods are full of Jap snipers just laying for officers? Call me Joe, call me anything, but don't call me lieutenant."

"Okay, stupid, what'll I do with these prisoners?"

**Facts To Remember When You Go To Buy New Washing Machine**

Buying a washing machine is a major problem with homemakers these days with so many makes and models from which to choose, says Mrs. Bernice Claytor, home management specialist for the Texas A. and M. Extension Service. The problem is to find the one washer that will suit the needs of the family.

For instance, buying an automatic washer would save time and trouble, and a good many other pieces of equipment, but unless a good supply of both hot and cold water, with plenty of pressure, is available, the automatic washer would not be satisfactory enough to justify the expense. So the question to consider is whether the investment is worth while, depending on how big a part of the work washing is, and how much the saving time and labor would mean.

If a nonautomatic or "standard" type washer is chosen, the next choice is between a machine with a wringer and one with a spinner, and depends largely on what the homemaker wants. Wringers and spinners can do equally good jobs. A spinner takes care of a whole tubful of clothes at once; with a wringer the clothes are fed in piece by piece.

Many motors come with sealed-in lubricant and need no re-oiling. One desirable feature on a motor is a protective device that cuts off the electric current if the machine

is overloaded. Capacity is a consideration, too, and may be measured by the number of pounds of clothes that can be washed at one time. In standard size machines, designed for ordinary family washings, this ranges from 6 to 10 pounds.

Check the washing mechanism, whether to get the agitator, cylinder, or vacuum type. The results you get will depend just as much, Mrs. Claytor says, on the way you use your washer as on the washing mechanism.

Other features to check are the

control levers to see if they are conveniently placed, roll easily, water lines are stationary legs, a cord holder, will be a matter of convenience.

Then, whether to get the or gravity drain, a tub of stationary legs, a cord holder, will be a matter of convenience.

The specialists recommend knowing the washing mechanism, checking the voltage and following manufacturer's directions for the care of it.

From where I sit... by Joe M...

Yes, I'm Guilty!

Folks sometimes criticize us small-town editors for the way we often play up "little things" ahead of big... human, local news in place of world events.

I can't deny it. Read the Clarion and you'll learn about the Martins' golden wedding anniversary... about the community sing down by the river... the husking bee at Sober Hoskins', where neighbors helped husk the corn, and later drank sparkling beer together.

"Little things?" Maybe. But from where I sit, they add up to the

bigger things we call America's friendliness of small towns, helping hand... the respect for another's rights. And about love of fellowship and friendship, whether it's freedom to speak your mind or choose between beer or buttermilk.

I figure that if everything after the "little things" the bigger things will take care of themselves.

### DRIVERS ASK SAFER CHILD WITH TOLL

ing drawn by the school committee of the Association in cooperation with the Department of Public Safety, State department of education and other state and local organizations. He pointed out that 1946 produced a "bumper crop" of babies, and that steps are being taken now to provide for the million children now in school.

Clarke said that the concentration of the mass movement of school children into a few short periods each day will bring increased hazards and motorists should use extreme caution and be on the alert for the unexpected actions of children.

Playing in the streets last year caused the deaths of 22 per cent of the child victims; 32 per cent were killed while they ran between intersections; 17 per cent were struck down as they ran in cars. In addition, 18 per cent were killed at intersections and eleven per cent when riding bicycles.

Clarke emphasized that most of these accidents were preventable. The providing of adequate playgrounds for children and safety instructions from parents

are important factors in reducing the number of deaths of children, he said.

Legal protection authorized under the new Uniform Traffic Code, which went into effect September 5, will be extended to cover safety habits of pedestrians and should do much to cut the total of deaths resulting from crossing between intersections, jaywalking, stepping from the curbs before the signal lights change, and other unsafe procedures.

The reckless driving provision and the specific hand-and-arm signals started in the code will afford added protection to children in and around school buildings and to those who walk to school.

The school boy patrol will be of inestimable value in helping their "big brother" policemen, especially at crossings near elementary schools, Clarke said.

Legal protection will be extended, for the first time in Texas history, to school children in rural areas who ride school buses. Under the new Code, school buses will have to conform to rigid safety standards, and the bus driver will accept full responsibility for the

safety of the children while enroute from home and school. He will escort children across the street, but at no other time will he be allowed to leave the bus.

School bus drivers will be trained in safety practices and first aid in institutes to be held at various sites over the state. According to the department of education, it is compulsory that school bus drivers from independent school districts attend these one-day training schools.

More than 40,000 students will receive driver education and driver training in 403 junior and senior high schools this year. Students are given examinations by driver license examiners at the completion of the course and are issued licenses only if they are qualified drivers and if they are at least sixteen years old.

Safety education will be taught in some form in most of the elementary schools in Texas.

Institutes to train the teachers of drivers education and safety education will be conducted as a joint project of the department of education and the Association.

School plant inspections will be resumed this school year. Under

Safe hands guard the future of Texas

They're kindly hands—stern when needed—but understanding always. They are hands of Texas teachers, hands in which lie the future citizenship and culture of our state. These are the hands which conserve the glorious traditions, the manners, the customs and knowledge of the past.

But knowledge is of little value unless it can be put to use for the benefit of mankind, and it is the responsibility of our teachers to give it that value. So, too, other groups in

the state give value to many of the things we hold most dear.

United Gas gives value to a natural resource that might otherwise remain worthless in the ground. By providing a market for natural gas, by constructing pipe lines between wells and consumers, United renders a great service to the state. This is practical conservation, for it gives value to this finest of fuels, stimulates industrial development, creates jobs, and benefits all the families in Texas.

**EDITORIAL**

Mobettie High School seems to have a lot of new teachers and pupils this year. We think everyone was glad to see school start but just wait a while and they will be even happier to get out. With a faculty of fine teachers we are looking forward to a good year.

**SENIOR NEWS**

The seniors met Friday, September 12, and elected the following officers: sponsor, Mr. Brown; president, Vernie Mixon; vice-president, Tom Laman; secretary and treasurer, Sidney Lancaster; editor, Nancy Ware; assistant editor, Mary Louise Matthews; sports reporter—boys, Hugh Jeffus; class reporter, Betty Jean Patton; sports reporter—girls, Virginia Henderson.

The senior class extend a hearty welcome to Charles Gatlin and hope he will be with us all year.

The senior class is looking forward to having a nice time and also working hard this year. The group is with the teachers and parents on making the school what it should be. They know it is a terrible strain on the teachers but they will try to do their part.

The senior class has nineteen members, ten boys and nine girls. It is the largest class in M. H. S. in six years.

**JUNIOR NEWS**

The junior class met Friday morning and elected the following officers: sponsor, Mrs. Render; president, Jimmy Walker; vice-president, Walter Hill; secretary and treasurer, Lou Beck; reporter, Beverly Caldwell.

They welcome back Paul Jones who has attended Pampa High School the past two years and also Helen Crowley who is a new student in the junior class.

**One Way to Stay In Style**

Screen actress Mary Meade mirrors Hollywood's newest and craziest hat creation. It's a porkpie straw festooned with pretzels and miniatures of the new one-way beer bottle. Mary used her head to illustrate that although old hat styles sometimes return to the stores, the non-returnable bottle never does.

**SOPHOMORE NEWS**

The sophomore class selected officers Friday morning.

The are as follows: president, Irvine Ruff; vice-president, Charlotte Hayes; secretary and treasurer, Peggy Williams; class parents, Mr. and Mrs. Tince Williams; sponsor, Mrs. Elsie Scribner; class reporter, Geneva Reynolds.

**FRESHMAN NEWS**

The freshman class of Mobettie has twenty-six pupils, three of which are new. Friday morning they elected their sponsor and officers for the year.

They are as follows: sponsor, Mr. Crowley; president, J. R. Luedicke; vice-president, Edwin A. Brown; secretary, Bernice Carter; treasurer, Madge Patterson; chairman of social committee, Ouida Burke.

**EIGHTH GRADE NEWS**

The eighth grade elected officers Friday morning. They are as follows: sponsor, Mrs. Noble; president, Frances Totty; vice-president, Irene Luedicke; secretary, Inez Lancaster; treasurer, Billy Leonard; reporter, Virginia Ware.

**GUESS WHO?**

This is to be a new column in

the Mobettie Hi-Life. We're going to call it "Guess Who" and tell you the answer next week.

He is exceptionally short and has hardly any hair. He is of dark color, has dark eyes, and dark brown hair. He can play football. He loves to loaf in the drug store. **GUESS WHO?**

**BASKETBALL PRACTICE**

The Mobettie high school girls started basketball practice Wednesday, September 10 with their coach, C. R. Brown. There are 22 girls going out for practice this year with 5 new ones.

Coach Brown announced that the girls would get 12 new suits which they will get sometime in November. The girls are to play their first game October 3 with Kelton in the Kelton gym.

**THE HIGH SCHOOL TEACHERS**

Mrs. J. H. Scribner is the principal of the high school. She is teaching commercial subjects. She received a B. A. degree from West Texas State. She received an M. A. degree from Oklahoma A. and M. at Stillwater, Oklahoma. She is a former teacher at Mobettie. Mrs. Noble is teaching English. She received a B. S. degree at Alva, Okla. also a Master's degree at the University of Okla-

homa. She started teaching in Illinois. This is her first year at Mobettie.

Mrs. Glen Render is teaching Home Economics. She graduated from high school at Tulsa and received her degree from Texas Tech at Lubbock. She has two years' teaching experience. Mrs. Render is a former home demonstration agent, and home management supervisor.

Mr. Crowley is teaching history and math. He received a bachelor's degree at Central State College, Edmond, Oklahoma. He was in the service for three years.

C. R. Brown is the superintendent of Mobettie schools. He has an M. A. degree. He coaches football and basketball and teaches history.

**VACCINATION FOR THE SCHOOL**

The Mobettie high school students went to the Wheeler gym Tuesday, September 16 for their vaccinations of Small Pox, Diphtheria and Typhoid Fever.

The grade school students went Thursday, September 18, for their vaccinations.

**SCHOOL OPENING**

School opened September 8 with a general assembly in the gym. All the faculty was introduced and given a hearty welcome by the students. Several talks were made about making this the best school year ever; Brother Salley and Brother Cooksey made talks concerning this. Mr. C. R. Brown introduced the speakers and made a talk himself.

**FOOTBALL NEWS**

The football boys began practice about a week before school started and since that time they have improved greatly. There are sixteen boys that have reported out for practice. They have been practicing passing, blocking, and running plays.

This is the third year for some of them. These include Marion "Preacher" Reed, Delton Burke, David Abbott, Donald Waters, and Jimmy Walker. The others include mostly freshmen and sophomores. They are L. J. Seitz, Doyle Greenhouse, Charles Gatlin, Paul Jones, Drew Godwin, Bill Godwin, Douglas Corse, Jay Wallis, C. H. Bonds, Horace Trimble, J. R. Luedicke, Lee Roy Hathaway.

The Hornets will have their first game with the Booker team Friday, September 19, at 2:30, on the new Mobettie football field. The Booker team beat us twice

last year and we intend to even the score this time.

The admission will be 25 cents for students and 50 cents for adults. Let's all be out there yelling for the Mobettie Hornets!

**How Long Did You Know Your Wife?**

How long did you know your wife? Did you just happen to see her on the street, walk up to her, ask her to marry you, hold out your arms for her to swoon in, call the minister, and consummate the deal right there on the spot? Perhaps not. It probably took a lot of calls, many evenings on the davenport, candy, theater tickets, flowers, doing the nice things over a period of time, before you closed that deal.

Still, away from the romantically lit living room, you expect to meet a prospect, through the mail or in the columns of a publication, ask for an order and change an uninterested prospect into an interested customer, right on the spot. And if it doesn't happen like that, you blame the advertising or the salesman.

You're the one to blame, for not knowing better.

You've got to woo prospects just like you wooed your wife. You've got to call on them often (either through the printed word or flesh and blood salesman) and do the nice thing over a period of time.

It's odd that so many married men in business don't act as though they knew the first principals of courting customers.

Almost as many World War II veterans will be alive at the turn of the 21st century as there are living veterans of World War I today, according to the latest Veterans Administration estimate.

VA computes that 3,400,000 War II veterans will be alive in the year 2000. The number of World War I living as of June 30, 1947, was 3,727,000.

However, although the average age of World War I veterans now is approximately 74 years, the average age of the World War II veterans expected to be living in the year 2000 will be slightly over 77 years.

The World War II figures come from a projection that VA made to determine what its administrative and operating requirements for these veterans will be in the future.

The projection begins with the potential War II veteran population of 16,051,000 as of July 25, 1947. The average age of this group of that date was 28.6 years.

The projection ends with the year 2030 when VA expects less than a thousand War II veterans to be alive, averaging 104 years of age.

Almost as many World War II veterans will be alive at the turn of the 21st century as there are living veterans of World War I today, according to the latest Veterans Administration estimate.

VA computes that 3,400,000 War II veterans will be alive in the year 2000. The number of World War I living as of June 30, 1947, was 3,727,000.

However, although the average age of World War I veterans now is approximately 74 years, the average age of the World War II veterans expected to be living in the year 2000 will be slightly over 77 years.

The World War II figures come from a projection that VA made to determine what its administrative and operating requirements for these veterans will be in the future.

The projection begins with the potential War II veteran population of 16,051,000 as of July 25, 1947. The average age of this group of that date was 28.6 years.

The projection ends with the year 2030 when VA expects less than a thousand War II veterans to be alive, averaging 104 years of age.

**QUESTIONS AND ANSWERS**

Q—My husband receives compensation because of World War I service will I receive a pension at his death.

A—If your husband dies from a disability proved to have been contracted in military or naval service, or if the death is from another cause and your income does not exceed \$1,000 a year, if childless or \$2,500 if with minor children, you may be eligible of a pension.

Q—I receive compensation for injuries incurred while in the Army. Do I have to show the amount of compensation I receive in making out my income tax report?

A—No. It is unnecessary to show pension or compensation payments in an income tax report.

Q—I draw permanent total disability compensation because of injuries due to service in the Navy. Will I continue to draw my compensation if I move to Australia?

A—Yes. Residence has no bearing on compensation entitlement.

Q—Under what circumstance can I claim that my parents are my dependents?

A—Dependency will be held to exist if your parents do not have an income sufficient to provide reasonable maintenance for themselves and members of their family under legal age.

World War II veterans who renounce disability payments for any reason do not lose their rights to other benefits provided by law for them or their dependents, the Veterans Administration has ruled.

VA said these veterans may re-apply for disability compensation or pension at any time in the future and that approved awards will be payable from the date of the second application, but will not include retroactive payments covering the period the renunciation was effective.

VA's ruling is of particular in-

## The Church and the Child...

A midwestern church has been giving serious thought to the problem of juvenile delinquency, and decided to do something about it within its own sphere of influence.

A Children's Chapel was built on an adjoining lot, with an assembly hall and commodious classrooms for Bible teaching. The picture shows one of the little classes assembled for instruction in the stories and truths of the Bible and their bearing on human life.

If all churches and schools and families would give more attention to child training, and seek to instill in children the principles of right living, the problem of juvenile delinquency would soon be solved.

A wise parent will seek the cooperation of his church and the advice of religious people in rearing and training his children. Thus the child will be taught the value of an upright life and the importance of moral and spiritual guidance in his acts and decisions.

If you are a parent, get in touch with your church leaders. Let them help you solve the difficult problem of child training.

**THE CHURCH FOR ALL... ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake, (2) For his children's sake, (3) For the sake of his community and nation, (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church on Sunday and read your Bible daily.

## Glassed Chili Easily Served

MOST health authorities agree that summer meals should include at least one hot dish. Chili Con Carne, for instance, is one of the foods favored in tropical climates, where the value of hot foods in warm weather has been well illustrated.

It is not necessary to spend hours in the hot kitchen to prepare it. A jar of Chili Con Carne requires only a few minutes to heat for the table.

Serve Chili in a variety of ways. A tossed green salad is a natural accompaniment for it. Potato chips, deviled eggs or fruit salad go well with it.

Chili may be combined or served with noodles, rice or macaroni. Another delicious trick is to empty a jar of Chili over a meat loaf before baking.

For outdoor meals, just heat the contents of the jar on the outdoor

grill. Serve it with any of the above foods, or as a delicious sauce for hot dogs and hamburgers.

The glassed Chili Con Carne that comes already prepared is nourishing and economical and has a rich, hearty, beef flavor. For quick, easy meals in warm weather, keep several jars of it and baked beans on your shelves to be used at a moment's notice.

## BANGS CONTROL GROUP PLANNED

The organization of a state advisory committee to map plans for controlling Bang's disease in Texas livestock herds is nearing completion.

Appointments on the committee have been made out of all livestock breed organizations in the state, including Jersey, Guernsey, Aberdeen Angus, Brahma, Here-

Murray, both of Briscoe; her mother, Mrs. O. L. Slaten, Groom; and one sister, Mrs. Iris Ingram, Wheeler.

Mrs. Murray united with the Baptist Church at Lone Mound in girlhood. Her membership was in that church at the time of her death.

Dorman attempted to sacrifice and was safe on an error, Riley layed down a bunt which the third baseman erred on and all hands were safe, Braden singled to drive in the first and second Mobeetie runs. Ford then advanced the runners with a bunt but was out at first, Stephens struck out, Fullenwider doubled to drive in two more runs and Elmore grounded out pitcher to first base to end the inning.

Mobeetie scored again in the fifth and seventh and Memphis picked up her lone tally in the sixth.

(Continued from Page One) orchard can get out there without putting out too much perspiration we can get a legume into the ground that will do a lot of good.

Sandy soils, you know, are usually low in nitrogen, and hairy vetch is an ideal winter cover crop for that sandy land. About 20 pounds of inoculated vetch in each acre of your orchard this month would do a lot of good. Then follow up with about 200 pounds of super phosphate per acre.

Vetch may be sown or drilled, but drilling is usually preferable, and may be sowed with rye at the usual rate of seeding. Turned under next spring these will give those trees plenty of plant food they badly need.
