## MRS. HATHAWAY FUNERAL HELD AT MOBEETIE

Mrs. Mollie Josephine Hathaway, 71-year old pioneer resident of Mobeeite, died suddenly at her home in Mobeeite last Thursday morning. She was found by her husband about 4:30 Thursday morning in the bathroom after having apparently passed away a few minutes earlier. She had undergone major surgery in Oklahoma City recently, but indications were that she was making satisfactory recovery until the Sunday preceding her death when she suffered a slight attack, but was still considered in critical condition, and visited in the home of a neighbor the day preceding her death.

A resident of Mobeeite for the past 40 years, Mrs. Hathaway was born August 9, 1876 in Effingham, Ill. She was married to T. H. Hathaway October 28, 1894, he preceded her in death on November 20, 1932, and to this union were born eleven children, five boys and six girls, four of these preceded her in death. She was married to Milt Hathaway December 17, 1938.

The Hathaways came to Mobeeite in October 1907 and have made their home there since that time. Mrs. Hathaway had been a member of the Church of Christ since about 1928.

Funeral services were conducted from the Mobeeite Church of Christ Saturday afternoon at 2:00 o'clock with Alva Johnson, minister of the Church of Christ at Turkey, officiating.

Survivors besides the husband, Milt Hathaway, include: four sons, Arthur of Oklahoma City, Elmer of Wichita Falls, Lester, Church of Christ minister at Mobeeite, and Homer of Borger; three daughters, Mrs. Oscar Johnson of Fremont, Nebraska, Mrs. Fred Waters of Wheeler, and Mrs. Ora Sagley of Hot Springs, N. M.; one sister, Mrs. Mandy McGlaun of Bay City, and 23 grand children.

Burial was in the Mobeeite Cemetery under the direction of Duenkel-Carmichael Funeral Home of Pampa.

## PICNIC FIRES CAUSE DAMAGE

Don't neglect a picnic fire at the expense of someone else's home, is the plea made to Texans by Marvin Hall, State Fire Insurance Commissioner.

Whether you are roasting wieners near a farm, fishing in a wooded lake area or picnicking on the neighborhood lot, your careless fun around a fire can spell tragedy for someone else, he said.

The rules for having a safe fire on pleasure jaunts are simple, the Commissioner stated. First, find out if the law allows you to build a fire at the desired spot. Then, extinguish the fire with water or sand and be sure it is completely out before you leave it.

Also be careful with matches and cigarettes, he cautioned. Always be sure your match is out and break it in two before throwing it away. This safety measure originated from an old cowboy custom which worked on the theory that if a person held a match long enough to break it in two, the flame would be out completely.

Cigarettes, cigars and pipe ashes should be crushed out on a rock or other nonflammable surfaces, he warned. They should also never be thrown out of an automobile window when traveling on the highway or in the woods, but placed in the car's ash receiver.

Most hazardous to life-safety is the practice of using kerosene or gasoline to quicken a fire. Many a person has lost his life when such a fire flashed back engulfing his clothing and everything else nearby.

Hall reminded Texans that last year in the United States, forest fires burned enough trees of saw-timber size to build about 86,000 five-room houses. If all wood burned were of saw-timber size it would provide lumber to build over 200,000 homes.

"In the face of our housing shortage, this is a shameful condition when we know that 90 percent of the forest fires are caused by the carelessness of people," he stated.

## Home Makers To Hold Sewing Clinic, Play School, Three Weeks

Miss Doris Mahaffey, home making instructor for the Wheeler High School, announced this week there will be a summer home making class beginning next Monday and continuing for three weeks now and one week just before the opening of school for the 1948-49 term.

Miss Mahaffey stated that she would hold an adult sewing clinic each Thursday afternoon for the next three weeks beginning May 27. Anyone who is interested is welcome to attend this class. Miss Mahaffey will be on hand to give instructions and pointers to those who wish them.

Each Friday morning from 9 to 12 o'clock the home making class will hold a play school for children between the ages of 2 and 5. The school will last for three weeks beginning Friday, May 28 and anyone who has children in this age group and wishes to send them to the school should contact Miss Mahaffey.

## ALLISON SCHOOL PROGRAMS GIVEN

J. J. Dyer, superintendent of the Allison Schools, announced the programs for the baccalaureate and commencement exercises for the Allison graduating class this week.

The baccalaureate service will be conducted Sunday afternoon, May 23, beginning at 2:00 o'clock. The program for the baccalaureate services will include: Processional by Mrs. R. C. Pugh, invocation by Mrs. Paul Newsum, "You Shall Reap What You Sow" by a special quartet, sermon by Rev. Ingle, benediction by Rev. Robert Estes and recessional by Mrs. R. C. Pugh.

Allen Kavanaugh, county superintendent of the Wheeler County schools, is slated to deliver the main address at the Commencement Exercises which are to be held Thursday night, May 27.

The program for the commencement exercises includes: processional by Mrs. R. C. Pugh, invocation, eighth grade salutatory address by Peggy Gilmer, eighth grade valedictory address by Armenda Aderholt, "Now Is The Hour" by high school girls, High School salutatory by Virginia Winders, high school valedictory by Myrtle Hall, "Commencement Song" by quartet, introduction of speaker, address by Allen Kavanaugh, presentation of awards, presentation of diplomas, benediction, recessional by Mrs. R. C. Pugh.

The graduating class at Allison this year is made up of three boys and six girls, and includes: Reta Aderholt, Parilee Helton, Virginia Winders, Gynell Reed, Bill Levitt, Myrtle Hall, Jay Dean Bessire, Edna Mae Dyer and David Waldrip. Jane Kiker is sponsor for the class.

## Wheeler Church To Hold Revival Meet

Hettie Tschirhart, pastor of the Church of God at Mobeeite announced this week there will be a revival meeting at her church beginning Sunday, May 23.

Rev. J. F. Pace, evangelist, of Portales, N. M. will do the preaching.

Services will begin each morning at 10:45 A. M. and each evening at 8:15 P. M.

Everyone is cordially invited to attend the pastor stated.

## Biggest Fish Of Year Brought In By Edwards

Gwyn Edwards, local farmer, came in with the biggest fish story of the year last Saturday after fishing for a few days at Phantom Lake, near Abilene, and, we guess, he also had the largest fish that has been caught by local anglers this year.

We know for sure he an enormously large yellow cat fish and he claims he caught it himself. Mr. Edwards claimed the fish weighed 51 pounds when he weighed him and we have no reason to doubt his word because it really was a whopper cause it really was the crowd he and judging from the crowd he fed fish dinner to Sunday we'd say it almost had to weigh that much.

Everyone is cordially invited to attend.

## PADUCAH IS FIFTH VICTIM MOBEETIE NINE

Mobeetie's Red River Valley League Champions won their fifth straight contest in the championship race for 1948 by turning back the Paducah entry in the league by a count of 18 to 9 in last Sunday's encounter which was played at Paducah.

A feature of the contest was Stephens home run which came in the third inning with the bases loaded. Stephens also collected a double to mark up two hits in four official times at bat.

W. Hewitt a brother of the regular Mobeetie pitcher, Bill Hewitt, started the contest and worked six innings striking out six men and walking six men. B. Hewitt played first base and pitched the last three innings of the contest.

Besides Stephens, Fullenwider and Riley both accounted to two-base hits for the local club while the only extra base hit allowed the Paducah nine was a home run by C. Harper, secondbaseman.

The Mobeetie lads meet the last place Childress nine on the Childress diamond Sunday and return home for their first engagement with the highly rated Memphis nine the following Sunday.

## Wheeler Group To Fly To State Convention At Brownwood Tuesday

Wheeler County's delegates to the State Democratic Convention are leaving Monday morning for the state convention which is to be held at Brownwood Tuesday, May 25. The Wheeler group is scheduled to fly down there (that is if some of them don't get sick and back out between now and Monday).

It happens that Robert Holt, Wheeler's flying banker, is one of the delegates to the convention this year and he has persuaded the other members of the delegation to accompany him to Brownwood in his personal plane, a Stinson Station Wagon.

The other three members of the Wheeler County party are: Mayor R. H. Forrester, County Attorney Homer L. Moss and Tax Assessor-Collector Thomas Daughtery.

## No One Seems To Want Our Typewriters Now

Since Sheriff Jess Swink went to so much trouble to get those two portable typewriters back for the Times office no one has come in and offered to buy one of them and they have been here for a full week now.

The typewriters were not damaged and they would still make a good present for one of those lads or lassies who are graduating from high school this year.

## Wheeler High Annuals At Carrick Residence

Supt. W. O. Carrick announced this week that the Wheeler High School annuals have arrived and students who have one coming can pick them up at his residence on South Main St. at their convenience.

Everyone is cordially invited to attend.

Everyone is cordially invited to attend.

## Mrs. Flanagan Will Report Mobeetie News Items For The Times

The Times is happy to announce that it has secured the services of Mrs. Edith M. Flanagan as reporter of Mobeetie news items. The long list of items which were carried as "Mobeetie Happenings" last week and which appear again this week were written by Mrs. Flanagan. Some of the other news stories in other parts of the paper concerning events which occurred in and around Mobeetie were also reported by Mrs. Flanagan.

Mrs. Flanagan and the Times would both appreciate your calling her at 48 in Mobeetie and reporting local news items which you may know from time to time.

The Times also appreciates local people turning in or calling in items regarding conings and goings of themselves, their friends and relatives or other items that might be of news value. The phone number at the Times office is 35.

## COUNTY PIONEER DIES IN CALIF.

EDITOR'S NOTE:—The following is a report of the death of W. L. Murphey, former Wheeler County pioneer who passed away at the home of his son in Pomona, Calif. on March 26. The article was brought to the Times attention last week by Mrs. Murphey who was visiting in Wheeler.

William Luther Murphey, pioneer of Wheeler County passed away at 11:15 a. m. on Friday March 26, in the home of his son, Odas Murphey, 1624 Alameda Street, Pomona, California.

Mr. Murphey was born in Anderson County on July 20, 1876, and lived in Wheeler County for 49 years. He and his wife moved to Pampa, Texas two years ago, and Mr. Murphey joined the Church of God while he lived there. Six months ago he moved to Pomona, Calif. and was ill during his stay there.

He is survived by his wife, Mrs. Frances P. Murphey; three sons, Odas Murphey and Alfred Murphey, both of Pomona, and Coy Murphey, Clearwater, California; one daughter, Mrs. Dora Latham, Bowie, Texas; Mrs. O. P. Anderson, Ringland, Oklahoma, and Mrs. C. E. Coe, Cody, Wyoming; and eight grandchildren.

Funeral services were held in the Blackman Funeral Chapel at 10:00 a. m. on March 26 with Rev. D. A. Oxford of the Church of God officiating. Interment was made in the Pomona Cemetery.

## Beene Will Attend Republican Convention

The Wheeler County Republican Party convened May 4, statutory date for holding county conventions, and selected two delegates and two alternates to the state convention which is to be held at Corpus Christi Tuesday, May 25.

Wheeler County delegates to the Republican convention are: Bob Irons and D. O. Beene of Wheeler, alternate delegates are Raymond Sayre of Wheeler and Mrs. Frank Exum of Shamrock.

D. O. Beene plans to leave Saturday for the convention city. He will be accompanied by his wife and daughter, Mrs. Glenn Scott, of Amarillo.

## Kelton P.-T. A. Will Hold Box Supper Friday

W. B. Wofford announced this week that the candidate speaking and box supper season is in full swing and the next meeting of the county and precinct candidates will be at Kelton at the School House Friday night May 21.

The Kelton box supper is being sponsored by the P.-T. A. and the funds will be used for some worthy cause within the school. Everyone is cordially invited to attend.

Allen Kavanaugh spent the weekend in Longview and was accompanied home by Mrs. Kavanaugh who had been visiting there in the home of her parents the past few weeks.

Mr. and Mrs. Junior Fields, Roy Eslinger and Dorothy are visiting relatives at Roswell, N. M.

# People Ask Keep Places Clean To Prevent Polio

The City of Wheeler and the surrounding area can be proud of the fact that they have already held a spring clean-up drive especially because of the fact that there have already been more than 135 cases of polio reported down state and Governor Beauford Jester's office sent out messages to 254 county judges and 684 mayors of Texas encouraging clean-up campaigns to prevent the spread of polio.

County and city health officials commend the people of this area on the manner in which they have cleaned-up trash and other items that might serve as breeding places for flies and other carriers of disease germs. Local Health officials, your county sanitarian and county officials urge the people of this area to continue to keep their places cleaned-up all summer in an effort to prevent there having to be a case of polio reported in Wheeler County.

## PLAY STARTS IN WT-O LEAGUE

Play in the newly formed West Texas-Oklahoma League got underway last Sunday with games at Briscoe, Wheeler, Shamrock and McLean.

The contest at Wheeler between the local lads and Allison was finally taken home by the Allison lads after 12 full innings of play between the two young clubs. The local lads had a three run lead going into the ninth inning and the Allison boys tied up the score causing the ball game to go into extra innings.

Briscoe took a hard earned 7 to 3 victory from the improved Miami nine with Fulks, Francis and Musgraves sharing the pitching honors and Cash Walker doing the catching, Maddox and C. Hogan did the pitching for Miami and Truette was behind the plate.

Sweetwater started its winning ways again this season taking a slugfest from the Shamrock nine by a count of 18 to 9. No report was forthcoming on the outcome of the Kelton-McLean contest but it is understood that it was a close battle.

A complete schedule of the contests for the entire season for the West Texas-Oklahoma League follows:

The governor was advised Friday by the State Department of Health that 135 cases of polio have been reported in Texas this year. That is the largest number of cases ever recorded this early in the year.

Jester's message to county and city officials emphasized the seriousness of the situation, but the governor at the same time urged the people not to become "unduly excited or alarmed."

"Our health authorities tell us that the most important step that can be taken in the preventive campaign is to promote immediately an extensive program of community, home and personal sanitation," Jester said, adding:

"That is a job for each and every city and rural area, a job for each and every person in Texas."

The health department's weekly report Friday said three times as many cases of the crippling disease have been reported this year as had been reported for the comparable period of 1947.

"If this disease continues to occur at the present rate, the number of cases this year may well exceed that reported for any previous year," health officials prophesied.

## DR. COX WARNS ABOUT POLIO

Dr. Geo. W. Cox, State Health Officer, has issued the following statements and suggestions concerning the control and prevention of poliomyelitis which is now occurring in some sections of the state.

Strict sanitary measures should be observed in all communities. Eliminate rats, mosquitoes, and houseflies, and destroy their breeding place. Every effort should be made to secure approved garbage collection systems and safe water supplies. Where adequate municipal sewage disposal systems are not in operation, it is vitally important to maintain sanitary septic tanks and outdoor privies.

All swimming pools should be maintained standards approved by the State Department of Health, which includes maintenance of proper chlorine level.

Only approved milk should be used, and draw foods and vegetables should be washed thoroughly before use, and protected from flies, filth, and insects. All food-handling establishments should adhere strictly to the State Law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain approved sanitation should close one or two hours a day so that employees can assist in maintaining cleanliness.

Over-exertion in children should be avoided, and they should not visit in homes where there is illness. It is advisable to reduce to a minimum all human contacts, especially in children during an outbreak of this disease. It is not advocated that schools, churches, and theatres be closed.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

## CORRECTION!

It is incorrectly stated in today's advertisement of Clay Food Store that Jell-it will sell at the rate of 4 boxes for \$50. Cecil Denson, manager of the store, states the correct price is 4 boxes for 25c.

### Editorial

We are reprinting below an editorial written by Vincent M. Lockhart, publisher of the Canadian Record. We are not reprinting this editorial because we have had the same or similar difficulties with any of our readers but because we believe it defines so clearly the stand which a newspaper should take in regard to printing and

withholding news matter as well as advertising.

### YOU OUGHT TO BE PROSECUTED

In last week's Record, and practically all other newspapers in the nation, appeared an advertisement, paid for by an association known as "Western Railroads" and titled "RAILROAD STRIKE Look Who Gets Squeezed".  
Friday afternoon a local citizen came into The Record office and demanded that his subscription be stopped when it ran out. "Any editor who would publish a thing like that ought to be prosecuted," he said. "I don't give a damn whether it was paid for or not."

Now let's take a look at this situation. The issue at stake today is not on the right or wrong of the prospective railroad strike, but on whether The Record should publish such an advertisement.

In the two and a half years The Record has been under its present management it has NEVER denied the use of its columns to ANYONE. Every man, woman and child in this territory or concerned with activities in this territory may secure space in The Record, through either one of two ways.

First, we publish the opinions of persons interested in this community who write us letters regarding the problems of the community and sign their names to the letters. This is FREE OF CHARGE. It is done because present management of The Record believes that every man is entitled to express his viewpoint.

Mr. Citizen who visited us Friday could express his views in opposition to the advertisement in question by writing a letter which we would be glad to publish. Because he works for a railroad, and would be subject to censure by his company, we are withholding his name now, and would withhold it from a letter if he requested it.

Secondly, the space of The Record is for sale. We make our living by publishing advertisements, which are nothing more nor less than messages which individuals, firms and organizations desire to present to the public. The same space Western Railroads used last week was available this week and will be available every week in the future to Mr. Citizen or anyone else to advertise any problem they have.

But the freedom of The Record is NOT for sale. Neither Western Railroad nor Mr. Citizen can TELL us what to print. We will print both sides of every issue which affects this community, to the fullest extent available to us. We will not withhold any news or any advertising, simply because it (Continued on Page Seven)

### FARM FACTS WORTH KNOWING

Q. How much window space should be provided in broiler houses?  
A. There should be one square foot of window space to each ten square feet of floor space.

Q. Which is better for the brood sow during gestation—hand-feeding or self-feeding?  
A. At the Research Farm of the National Furins Company, hand-feeding is recommended from breeding to farrowing time. Hand-feeding during gestation affords a degree of control seldom attained with self-feeding. This accurate control of ration influences:  
1. Ease of farrowing  
2. Lactation and nursing the litter  
3. Vigor of pigs  
4. Livability of the litter  
5. Final returns and profit

Q. Does what is fed to the breeding stock have any effect on the hatchability of eggs?  
A. Yes, to give the chicks the proper start in life, it is essential that the breeding stock be fed a ration that contains all of the necessary minerals, vitamins and other essential ingredients. Breeding is important too, and every precaution should be taken in the selection of the breeders. The breeding ration should be started at least a month before eggs are to be saved for hatching purposes, and the breeding flocks should be watched closely to see that they are in good condition.

Q. Is it better to bottle-feed or pan-feed young kids?  
A. Generally, pan-feeding is preferred to bottle feeding as it is quicker, the animals are more easily cleaned, and feed of pans can be used so that several kids can be fed at one time.

Send your questions about livestock or poultry systems to FARM FACTS, 215 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in the column, as a service of the newspaper.

### BEST PART SOIL WASHES AWAY

Many years ago a wise midwest farmer recognized what was happening to good farming land in America when he said, "The best of my farm is down below New Orleans."

And this week Howard T. Kingsbury, chairman of the Texas FMA Committee, wonders if anyone has thought to count the number of farms which go under the bridge during a single flood season. He bases his figures on the fact that the deep accumulations of silt in the delta of great rivers of this country is primarily the top soil of farms carried by unchecked water.

Tests show, says the chairman, that around 400 million tons of topsoil roll down the Mississippi River each year. An inch of topsoil from an acre of land weighs

between 140 and 150 tons. At 150 tons of topsoil per acre, this loss would mean the equivalent of a inch of topsoil from the surface of nearly 17,000 farms of 160 acres each.

And even more serious, says the chairman, the topsoil comes from the best land on the farm—the land that is in row crop or which is being worked most to produce the nation's crops.

Says the chairman, "Like the sand in the hour-glass, the soil at the top is going down. But unlike the hour-glass the process cannot be reversed. The topsoil does not run back.

"From that limited amount of topsoil, which is getting less each year must come the 135 million meals a day for the 145 million people in this country. In addition, tons of food are needed to keep

Europe from going hungry. "And every farm that er the bridge means less land from which food we need—that of a burden on the left."

Mr. Kingsbury says primary objective of the National Conservation Program is to reduce this loss. "The program," he points out, "cooperates with in carrying out practices which keep the water on the farm."

"We always have Ice Cream at our house"

### EVERYONE LIKES ELECTRIC REFRIGERATION

ICE CREAM... any time you want it. Yes, it's no wonder the youngsters like electric refrigeration. They know that with an electric refrigerator there's always the chance of having a heaping dishful of home made ice cream or other cool summer desserts.

Mother likes it too, because it keeps all kinds of foods garden fresh and healthful. Makes it easier to have chilled salads, and add wide variety to summer menus.

Father likes it because there is always plenty of ice on hand for whatever kind of cooling beverages he wants. AND he knows that cheap electricity in the area we serve makes electric refrigeration more economical than ever before.

We have nothing to sell but good electric service. You will find the new electric refrigerators available in a choice of makes and models at nearby appliance dealers.

### Intrigues Male Movie Stars

Movie stars were intrigued by the fan-palm printed latex swimsuit shown above as pictured in the May issue of Cosmopolitan magazine. It was selected as one of the winners at a Cosmopolitan Male-Tested Fashion Show at the Beverly Hills Hotel, Beverly Hills, Cal. The jury included George Murphy, Walter Pidgeon, Van Johnson, Robert Ryan, James Fitzpatrick and Frank Morgan. They also approved the beach coat by Tabak of California, and three other swimsuits featured in the May issue.

### EIGHTH GRADE CLASS HISTORY

**EDITOR'S NOTE:**— The class will, class prophecy and other items of interest written by members of the 1948 eighth grade class of Wheeler High School will appear on other pages of this week's Times and in next week's edition.

(By Mary Bob Denson)  
The discovery of the eighth grade class of 1948 was a terrible accident. This history is not to relate every step in the progress of a people, from their humble beginning as first grade students eight years ago to their arrival at the dizzy height they now occupy. On the contrary the author aims to emphasize only those factors in our class development which appeal to us as most vital from the standpoint of today, and explain prevailing conditions by showing how they came about.

Early one morning on September 1, 1940, those members of our graduating class were strolling about the hall, Maurine Cole, JoAnn Porter, Bonita Ragan, Anita Underwood, Carol Goad, David Johnson, Margaret Moore, Billy Crossland, Richard Brown, Don Lowrie, James Cox, Mary Bob

Denson, Bob Weatherly, and Leon Moore. To the casual eyes they seemed merely a group of ordinary boys and girls, reasonably good looking except for a missing tooth here and there. Their timidity and curious moments furnished some comedy moments.

The teachers spent the next few weeks attempting to gain their confidence and friendship. They succeeded after much difficulty, because so many things were strange to these boys and girls, they were forever taking the wrong turn, and finding themselves in the wrong places.

During the first year there were two outstanding events, a Christmas tree and an Easter Egg hunt. At the Easter Egg hunt Bonita Ragan and Margaret Moore won prizes for finding the least eggs. Mrs. Phillips, our first grade teacher, taught us the ABC's and that 2 and 2 didn't equal five. She was a very remarkable woman with a wonderful sense of humor. Some of the things she had to put up with were Maurine Cole sitting out in the middle of the hall crying for mama and JoAnn Porter crying because she couldn't read and so ended our first year in school.

In our second year, our teacher was Miss Irons, we were getting used to coming to school by now. That year we were introduced to demerits, little chalk marks on the black board that meant one lick

for every five. We had the usual Easter Egg hunt, Christmas Party, and also a Valentine box and Halloween party. This year there was something wonderful, a new speller for us.

Our third year we went into Mrs. Crowder's third grade class. We were introduced to our first six week's test. A new book was added, besides a reader and spell-er we had an arithmetic book. We were allowed to use pen and ink for the first time. We liked it although many times we went home with it on our faces and clothes.

In our fourth year, Mrs. L. K. Fields was our teacher. This year Johnny Carlton, Martha Gaines, Annie Willard, Claude Cox, and Joe Mitchell joined us. We were all quite intelligent although a few D's were made in department. One of the main events was a Spanish dance.

In the fifth grade Mrs. Earstein Weeks was our teacher. This year Dixie Sanders, Carmaleta Brown, Lenard Weeks and Jamie Clark joined our ever increasing number. We had a Valentine Box, Christmas Tree, and Easter Egg Hunt, although we thought we were too large to hunt eggs, no one failed.

Mrs. Vanpool was our sixth grade teacher. We had the usual Christmas tree and Valentine box, but we finally convinced the teacher that we were entirely too large for an Easter Egg hunt. That year Billy Crossland learned to put e's on the end of his words. He thought that 10 licks was a pretty good teacher.

In the seventh grade we had three teachers. Mrs. Weeks taught us reading and spelling, Mrs. Nash taught our English and math, and Mrs. Osborn taught us health and geography. Joining us that year were Jimmie Bullard, Morris Nell McQueen, and H. C. Johnson. We had a picnic at McCracken Lake. Our sponsor was Mrs. Carrick in the eighth grade. Joining us

that year were Lillian Denham, Darrell Greenhouse, Melvin May, Ruby Williams, Dorris Magruder, Bobbie Moore and Aileen Evans. We had a party at Margaret Moore's home. We entered the High School building this year, and were introduced to High School's demerit system. Maurine Cole found that sixty-two demerits in one six weeks were easy to get, but rather hard to get rid of. We gave a play "Wildcat Willie in the Doghouse." The \$130 we collected went to the P. T. A. to help buy curtains for the grade school auditorium.

Most of the eighth grade were interested in sports this year, and some of the outstanding players were in our class. We won several basketball games. The boys won a few football and baseball games.

Thus, the days of our class should go down in history forever. We are graduating a proud class that will do its best to uphold the best traditions of our school. The graduating class is as follows: Ruby Williams, Aileen Evans, Jimmie Bullard, Johnny Carlton, Martha Gaines, Annie Willard, Dixie Sanders, Maurine Cole, Claudell Cox, JoAnn Porter, Bonita Ragan, Anita Underwood, Carmaleta Brown, Carol Goad, Lenard Weeks, David Johnson, Melvin May, Margaret Moore, Morris McQueen, H. C. Johnson, Billy Crossland, Jamie Clark, Richard Brown, Don Lowrie, James Cox, Mary Bob Denson, Bob Weatherly, Joe Mitchell, Bobby Moore, Leon Moore, Lillian Denham, Darrell Greenhouse, and Doris Magruder.

### HADN'T THE ACCENT

The Highlander turned to the stranger in the pub and asked: "To what country do you belong?" "To the greatest country in the world, I guess," answered the American.

"So dae I," answered the Scotsman: "but ye dinna speak like a Scot."

Cotton Ed Says:

### Son—Done Got Announcemint Ta Make!

Yep . . . I run smack dab into a fact . . . THE AGE FOR MACHINE CONTRAPTIONS IN COTTON FARMIN' IS HERE . . .

After forty year a Cotton Farmin' with muscle, my woman (Matilda, that is) says, "Ed," she says, "I'M Plumb proud we're a gonna farm with machines instead of muscle. 'Pears to me it's more sense like to put oil on a machine than liniment on your back."

Now Fellers, here's what ya gotta do in plantin' Cotton so as ta harvest with them machine contraptions . . . I'M gonna list it fer ya like I heard it . . .

1. Plant storm-resistant varieties — kind that fruit closely.
2. Space plants 1 or 2 stalks to hill — hills 8 to 10 inches apart. This makes closer fruiting with any variety.
3. Set planter to make rows exactly 40 inches apart.
4. Avoid careless jogs in row.
5. Use stinger (small plow about 1/2 inch wide) for furrow-opening device. This will plant seed in straight line — avoids splattering. Scattered row makes harvesting loss.
6. Plant in shallow furrow, or on bed.
7. Cultivate in manner that when crop laid by the cotton row will be on slight ridge and middles practically level.

Yep . . . Follow this list fer plantin' an' yore shore in the COTTON BUSINESS. It's better Cotton Farmin' ta PLANT FER THAT MACHINE AGE CONTRAPTION.

Sincerely,  
COTTON ED

### LETTER TO THE EDITOR

#### TRACTORS OR MILK COWS?

I am thoroughly convinced that we will have a serious gasoline shortage within the next few weeks. It is not a question of whether we will have it, but when we will have it. The greatest danger of the shortage is to have a good crop of wheat, corn and other crops that will be left in the field because we will not have enough fuel to run the tractors and other machinery that are needed to harvest them.

#### RYAL PLAY

Miss Carter had been visiting in New York when she was in the city and she was all over the place. She was very busy and she was very tired. She was very happy and she was very content. She was very good and she was very kind. She was very smart and she was very beautiful.

"Dear," asked the little woman, "is my hat on straight?" "Yes, yes," her husband replied promptly. "It's absolutely straight. Now be hurry; we're late already."

"Oh sorry," the little woman yawned, "but I'll have to go back now. This isn't the sort of hat that is supposed to be worn straight."

### Chocolate Topped Nut Cookies

"Here, how about one of these hot cookies?"

The mother who regularly makes cookies is no slouch—she is a real cook. The interesting difference in the way of making the chocolate topped nut cookies, into the top of each cookie, is to press chocolate frosting and garnish with a whole almond.

These little delights are good to have around in emergency days when time is a premium and an extra treat for the kids and adults alike is a good thing to have around.

#### CHOCOLATE TOPPED NUT COOKIES

- 1 cup shortening
- 1/2 cup brown sugar
- 1/2 cup white sugar
- 1/2 cup milk
- 1/2 cup cocoa
- 1/2 cup nuts
- 1/2 cup almonds
- 1/2 cup chocolate

Mix together flour, salt and soda. Cream together shortening and sugar until light and fluffy. Add vanilla extract, and egg, mixing well. Add flour mixture and soda. Drop by spoonfuls in greased baking sheets. With spoon make indent in center of each cookie. Bake in moderate oven 175 degrees for about 10 minutes. Let cookies stand on tray for 5 minutes. This is to allow the cookies to set. Then, about the last 10 minutes, use the hot chocolate, the nut and almond pieces.

#### Price Supports Are Intended To Stabilize The Farmer's Market

Price supports are intended to stabilize the farmer's market. The farmer's market is the lifeblood of the rural community. It is the place where the farmer can sell his products and where the consumer can buy them. Price supports are intended to stabilize the market and to ensure that the farmer can make a living and that the consumer can get the products he needs at a reasonable price.

Many consumers tend to be impatient with support programs. They are impatient because they do not understand the program. They do not understand that the program is not being used for their products, because the market price is not high enough. Price supports are intended to stabilize the market and to ensure that the farmer can make a living and that the consumer can get the products he needs at a reasonable price.

number of said suit being No. 3912 and the nature of which is a suit to collect delinquent ad valorem taxes on the following described property, to-wit: (in Wheeler County, Texas)

All of Lot 9, Block 8 of the town of Wheeler, Texas, according to the recorded map or plat thereof in the office of the county clerk said county & state.

together with interest, penalties, costs, charges, and expenses of suit which have accrued and which may legally accrue thereon.

The amount of taxes due each plaintiff, exclusive of interest, penalties and costs is as follows:

State of Texas & County of Wheeler, \$15.24

Wheeler Independent School District, \$17.71

City of Wheeler, \$7.16

TOTAL \$40.11

The names of all taxing units which assess and collect taxes on said property not made party to this suit are none.

Plaintiff and all other taxing units who may set up their tax claims herein seek recovery of delinquent ad valorem taxes on the property hereinabove described, and in addition to the taxes all interest, penalties, and costs allowed by law thereon up to and including the day of judgment herein, and the establishment and foreclosure of liens, if any, securing the payment of same, as provided by law.

All parties to this suit, including plaintiff, defendants, and intervenors, shall take notice that claims not only for taxes which were delinquent on said property at the time this suit was filed but all taxes becoming delinquent thereon at any time thereafter up to the day of judgment, including all interest, penalties, and costs allowed by law thereon, may, upon request thereof, be recovered herein without further citation or notice to any parties herein, and all said parties shall take notice of and plead and answer to all claims and pleadings now on file in said cause by all other parties herein, and all of those taxing units above named who may intervene herein and set up their respective tax claims against said property.

You are hereby commanded to appear and defend such suit on

the first Monday after the expiration of forty-two (42) days from and after the date of issuance hereof, the same being the 5 day of July, A. D. 1948 (which is the return day of such citation), before the honorable District Court of Wheeler County, Texas, to be held at the courthouse thereof, then and there to show cause why judgment shall not be rendered for such taxes, penalties, interest, and costs, and condemning said property and ordering foreclosure of the constitutional and statutory tax liens thereon for taxes due the plaintiff and the taxing units parties hereto, and those who may intervene herein, together with all interest, penalties, and costs allowed by law up to and including the day of judgment herein, and all costs of this suit.

**IT'S A SHAME**

"I'm sorry, madam, said the attendant at the movie, "but you can't take the dog into the theatre."

"How absurd," protested the woman. "What harm can pictures do a little dog like this?"

**LOGIC**

A woman went into a shop to buy a drinking-bowl for her dog, and the salesman asked her if she would like one with the words "For the Dog" painted on it.

"No, thank you," she replied.

"You see, the dog can't read, and my husband never drinks water!"

HOW TEXAS INDUSTRIES PUT NATURE'S RESOURCES TO USE FOR THE BENEFIT OF MANKIND

**Royalty IN THE PLAY ROOM**

Princess Dolly reigns supreme in her cotton-white royal robes. Yes, and it's Texas cotton—that Queen of textiles—grown and ginned in Texas, spun and fashioned in humming Texas mills.

Texas is proud of its growing textile and garment industries—industries that are built on the use of natural resources. Texas is proud, too, of its natural gas industry—another example of the way natural resources can be given value by being put to use.

Cotton in the fields... and natural gas in the ground... would be of little value to anyone unless they could be gathered, processed and made available for use for the benefit of mankind. This is practical conservation, for it stimulates industrial development, creates jobs and benefits all the families of Texas.

**TEXTILE AND GARMENT INDUSTRIES**

Thousands of employees share the benefits of the Free Enterprise system, as it operates in the textile and garment industries of the Gulf South. In one recent year, payrolls of these industries were more than 100 million dollars—money that found its way into every cash register in the area. This is a good example of private capital, American ingenuity and local workers combining to build a business that brings prosperity to everyone.
