IS NEWS IN THE WHEELER TIMES WANT-ADS

how much is enough?

We wish we knew. In spite of our best efforts, the demand for telephone service continues to exceed the supply of materials necessary to provide it. We have already installed a record number of telephones, but still more applications for new service continue to come in. All of our efforts are aimed at "balancing the scales"—to have installations keep pace with new applications. It takes time and money, but we hope before too long to keep up with this tremendous demand.

SENIOR NEWS

The senior class presented their play, "The Antics of Andrew", on Wednesday night, March 17, 1948. We were really proud to have the crowd we had. On account of the bad weather and other unexpected things that came up the play had been postponed several times. The seniors cleared \$140.00.

We would like to take this means to express our appreciation to the parents, community and especially to the teachers and sponsors who helped and boosted us along. They were all so patient with us. We would also like to thank the people who let us borrow their furniture for our stage properties. The seniors were grate-

ful for the crowd and we hope you all enjoyed it as much as we enjoyed giving it.

Thanks again for your fine cooperation.

The seniors went to Mr. Brown's after the play. We talked about our play and trip then had refreshments of sandwiches, cookies, coffee, and cokes. Everyone sure enjoyed themselves and reported a swell time.

Doris looks better with that black on her face because it covers all her face.

David, if you would pick your heels up when you walk you wouldn't have to buy so many shoes.

Tom and Vernie sure make good girls.

Doyle Greenhouse, a senior, is 16 years old, 5 ft., 5 in. tall, and weighs 123 pounds. He has blue eyes and black hair. His favorite teacher is Mrs. Scribner. Doyle has been with the present senior class since he started to school in the first grade. He is one out of seven who has remained with the class. He took part in basketball this year playing on the main string most of the time. He also played some football. His favorite sport is basketball, and his favorite subject is P. E. He likes wrestling matches. Dislikes English IV. His ambition is to move to Colorado and be a rancher. Doyle is well liked by everyone

and is known as one of the meanest.

JUNIOR NEWS

Name: Naomi Scribner.
 Age: 15.
 Color of hair: Light brown.
 Color of eyes: Green.
 Likes: Bubble gum.
 Dislikes: Lou Beck.

Favorite teacher: Mrs. Scribner. Naomi started to school in Colorado. She attended there only a short time after which she moved to Mobeetie. However, she did not attend Mobeetie Public Schools at first. She attended Totty school for two years and after that she came to Mobeetie. She has taken an active part in the class work and also in athletics.

Name: Douglas Corse.
 Age 16.
 Color of hair: Reddish-brown.
 Color of eyes: Gray.
 Likes: Girls.
 Dislikes: Basketball.

Favorite Teacher: Mrs. Noble. Douglas has gone to school in Mobeetie all his school days. He has taken an active part in all athletic programs since in High School. He is a prominent member in the junior class of Mobeetie High School.

"GOSSIP"

The seniors were sure glad to have their play off their hands.

The American History class sure had a good bubble gum blowing contest.

It sure would be nice if Bonnie and Tom could go to college together.

Tom, are you and Bonnie getting up a case or is it just puppy love.

Nellie have you sobered up from Saturday night yet?

Onie, is it really so that you have been going to Wheeler too much?

Doyle, did you and Delton kick Hugh and Tom out of the Bachlers Club. Bonnie and Nancy could have something to do with this.

Mary Louise, why were you scared when you saw Bill in town Wednesday?

Preacher, why didn't you come to play practice Sunday evening wouldn't Joyce let you?

It looks good to see Doris and Bud together again.

EIGHTH GRADE NEWS

Billy Leonard is 15 years old and is 5 feet, 11 inches tall. He likes soft ball. Dislikes books. He

has brown eyes and brown hair. His favorite teacher is Mr. Brown. Billy was elected Prince for the eighth grade in the Halloween Carnival. He is also treasurer of the class.

Patricia Trimble is 13 years old. She is about 5 feet, 3 inches tall and has blue eyes and brown hair.

Her favorite teacher is Mr. Brown. Her ambition is to play basketball. She likes basketball and dislikes hateful people. She is vice-president of the eighth grade class. She was elected class favorite.

FARM SALE

WE HAVE PURCHASED LAND IN SOUTH DAKOTA AND ARE MOVING THERE WE WILL SELL AT THE FOLLOWING DESCRIBED LIVESTOCK AND FARM EQUIPMENT AT CLINT HIGGINS FARM LOCATED 10 MILES NORTH OF WHEELER (TO OVERPASS) THEN EAST 6 MILES, OR 5 MILES EAST OF BRISCOE, OR 5 MILES WEST AND 1 MILE SOUTH OF ALLISON.

FRIDAY, APRIL 2 10:30 A. M.

DAIRY COWS

- 1—BROWN JERSEY COW
- 1—SPOTTED JERSEY COW
- 1—GURNSEY COW
- 1—YELLOW JERSEY COWS
- 1—BLUE JERSEY COW
- 1—BROWN JERSEY COW
- 1—BLACK MIXED BREED COW
- 1—BRINDLE COW
- 1—WHITE JERSEY COW

- 1—BRINDLE COW
- 1—ANGUS COW
- 1—RED COW
- 1—HALF ANGUS COW
- 1—RED COW
- 1—BLUE JERSEY COW
- 1—ROAN JERSEY HEIFER, 2 years old.

The above cows are all heavy springers, some may be fresh by date of sale.

- 1—BLACK ANGUS BULL—3-year old, subject to register, from Gordon Stiles Angus herd.
- 1—JERSEY HEIFER, 1-year old.
- 10—HALF BREED ANGUS CALVES.
- 2—WHITEFACE MIXED CALVES.

above cows have been fresh from 2 to 8 weeks and will give 3 to 5 gallons of milk per day. They have also been TB and tested and are in top shape. We have been selling Grade milk for the past 12 months.

- 1—BLACK ANGUS COW
- 1—RED COW
- 1—HALF ANGUS COW

FARM IMPLEMENTS

- 1—41 MODEL GMC PICKUP, 3/4-TON.
- 1—36 MODEL CHEVROLET TRUCK, with grain bed, 1 1/2-ton.
- 1—10-FT. CASE ONE-WAY, on roller bearings and rubber tires, can be made any size to suit your tractor.
- 1—10-FT. INTERNATIONAL ONE-WAY, disc and boxing in good shape.
- 1—WHEATLAND FIELD CULTIVATOR, with power lift.
- 1—McCORMICK-DEERING GEAR DRIVE ROW BINDERS, good shape.
- 1—2-ROW JOHN DEERE PLANTER.
- 1—McCORMICK-DEERING BIG-4 MOWING MACHINE
- 1—ORCHARD DISCS
- 1—2-ROW McCORMICK-DEERING LISTER AND PLANTER, power lift.
- 1—PUMP JACK
- 1—2-ROW LISTER AND PLANTER, for Ford Tractor.
- 1—2-ROW KNIFE ATTACHMENT, for Ford Tractor.
- 1—2-ROW SLIDE GO-DEVIL
- 1—6-IN. MONTGOMERY WARD HAMMERMILL, practically new.
- 1—DRESS BELT FOR FEED MILL.
- 1—IRON WHEEL WAGON, with bed.
- 1—3-SECTION HARROW.
- 1—50-FT. ROLL CRIBBING WIRE.
- 1—VERAL ROLLS OF BARBED WIRE.
- 1—LOT CEDAR POST.
- 1—VERAL FT. OF USED PIPE, 3/4 to 3-inch in size.
- 1—HOG FEEDER.
- 1—VERAL OIL DRUMS.
- 1—VERAL SHEETS OF GALVANIZED ROOFING.
- 1—SOME NEW AND USED LUMBER.

HOUSEHOLD GOODS

- 1—6-FT. SERVEL ELECTROLUX REFRIGERATOR, on Butane.
- 1—4-BURNER HARDWICK COOK STOVE, on Butane.
- 1—GAS RANGE.
- 1—BUTANE HEATING STOVE.
- 1—KEROSENE COOK STOVE.
- 1—OAK DINETTE SUIT, with 6 chairs.
- 1—2-PIECE BEDROOM SUITE.
- 1—NICE DRESSER.

SOCIETY

Mrs. Stremwidge is Hostess To H. D. Club

"Pleasant" and "social" material that will "take" or "stand" in "talk" was the theme of the luncheon given at the Wheeler Home Demonstration, March 23, at the home of Mrs. C. N. Stremwidge. The luncheon was given in the new dining room at the home of Mrs. C. N. Stremwidge. The luncheon was given in the new dining room at the home of Mrs. C. N. Stremwidge. The luncheon was given in the new dining room at the home of Mrs. C. N. Stremwidge.

Summary of the material and other new papers read at the luncheon were shown to Mrs. Stremwidge in her discussion of "New" and "Old" papers. The luncheon was given in the new dining room at the home of Mrs. C. N. Stremwidge.

she led a discussion of "Courtship vs. Personality". Those present were: Mesdames Tom Helton, Ben Helton, Jim Helton, Neal, Chester, Jack, W. W. Helton, and the hostess.

The next meeting will be with Mrs. Tom Helton.

W.S.C.S. Enjoys Luncheon At Monday Meeting

The W. S. C. S. met in the basement of the Methodist Church Monday, March 22, for a luncheon and that assembled in the church parlor for a program from the year book, "The Year May Be Slower" with "welcome" members present.

Mrs. Hazel Davidson gave the devotional and Mrs. Fred Turner gave "Christian Church in History" from World Outlook. Mrs. W. W. Helton read "Christianity in the World" and "The Christian Church in the World". Mrs. Davidson offered a prayer for Japan after which the meeting adjourned.

Former Wheeler Boy Is Married Here Sunday

Miss Doris Fay Phillips, daughter of Mr. and Mrs. E. P. Phillips of Cameron, became the bride of Billy Jean Braggman, son of Jesse Braggman of Burgen, Saturday at the home of Mr. and Mrs. Gen. Helley with Judge Helley officiating at the ceremony.

The bride was attended in a steel length dress of deep cream and black accessories with which she wore a carriage of pink roses.

Those attending the wedding were: Jim Braggman of Shamrock, Mr. and Mrs. Ernest Braggman, Mr. and Mrs. Ernest Braggman, Mrs. J. B. Braggman of Shamrock and Gen. Helbert of Wheeler.

Miss Guynes Honored With Birthday Party

Miss Karman Guynes was last week with a birthday party at the home of Mr. and Mrs. James Davidson, Wednesday night, March 24. The party was given in the home of Mr. and Mrs. James Davidson, Wednesday night, March 24. The party was given in the home of Mr. and Mrs. James Davidson, Wednesday night, March 24.

Riley's Entertain The Biscoe H. Demo Club

Mrs. Fern Riley and Mrs. Tom Riley entertained the Biscoe Home Demonstration Club Tuesday afternoon, March 23 at their home.

The program was in quality and quantity and consisted of singing with Mrs. Betty Lee, Mrs. Ernest Davidson and Mrs. Turner Riley taking part in the program. Refreshments were served to Mrs. Davidson and daughters, Betty and Fern, visitors and to the members, Mesdames Marjorie Lewis, Fern Lee, Ernest Davidson and the hostesses, Mrs. Fern Riley and Mrs. Turner Riley.

Wings have been received from Mrs. E. P. Cannon of the U. S. Navy is serving aboard the light cruiser USS Pennsylvania, 33rd Naval Squadron. The Pennsylvania has made cruises to Gibraltar, the Island of Malta, Naples, Genoa, Athens and Barcelona.

Mr. and Mrs. James Montgomery of Longview visited in the home of her parents, Mr. and Mrs. E. W. Wiley this past weekend.

WHEELER TIMES

SOME PLANTS ARE IMPORTANT AS PASTURAGE

Plant Identification is one of the fundamental principals in proper management of range and pasture land. A large number of forage plants grown in Texas, but only a few of them are of any real importance for livestock grazing. A. H. Walker, extension specialist in range management of Texas A. and M. College, says that an understanding of conditions and the proper use of range land are simple once the desirable and undesirable range plants are known. He believes that it would pay farmers and ranchmen in the state to know the plants on their land and to be able to classify them according to four main divisions: The most desirable grass-

HOSPITAL NEWS

Twins of Mr. and Mrs. Harley Pond of Kelton have been dismissed from the local hospital after receiving treatment for the past few days.

Son of Cecil Martin of Corn Valley entered for treatment March 19.

Baby of Bill Chapman entered for treatment March 19.

Baby of W. M. Luster of Pampa entered for treatment March 19.

Son of Robert Reynolds of Wheeler entered for treatment March 21.

es, better browse plants, good weeds or herbs and noxious or poisonous plants. Many county agents have started plant collections in order to be able to identify the forage plants they find on the farms and ranches in their counties.

A plant collection or herbarium is an interesting as well as helpful hobby and is comparatively simple to maintain, he says. A plant press is easily made, while dryers between each sheet of specimens can be made from building felt, blotter paper or corrugated cardboard. After drying, the plants may be kept in species sheets or mounted on herbarium sheets. An occasional treatment with paradichlor-benzene crystals or naphthalene flakes will usually kill or repel insects.

Instructions on the collection and preservation of specimens for range plant study have been prepared by Walker and O. E. Sperry, associate professor of range and forestry, and persons interested in starting a plant collection may obtain information from county agents.

House Cleaning Is Step Toward Better Health

"A good old fashioned spring house cleaning in every city and community in Texas would do a great deal toward furthering good health in this state," Dr. Geo. W. Cox, State Health Officer, said today, in urging all communities and cities in the state to cooperate in Texas Clean-Up Week April 4-11.

A general clean-up program of state-wide proportions with the objective of bettering health conditions for our citizenship should include surface cleaning, drainage, the graving of streets and alleys, the cleaning of all parks and playgrounds and the cleaning of weeds and rubbish off of va-

IN DIET-PROTEST AGAINST PRICES

ON A RECENT AFTERNOON, when Mrs. Ruth Berbes, Chicago, was told that a pound of butter would cost \$1.04, she decided it was time to do something about it. Recalling the various fasts of the late Mohandas Gandhi, a hunger strike appeared to be an effective weapon. She began limiting herself to a diet of bread and milk, and here she is shown at her meager meal. Her husband, however, is going in for food-as-usual. Mrs. Berbes urges other women to follow her example. (International)

cant lots.

"The destruction of mosquito breeding places and rat harborage, the proper disposal of garbage and trash and the general cleaning up of all premises will be, said Dr. Cox, "of inestimable value to keep down summer health hazards such as dysentery, typhoid and poliomyelitis. Good community house-keeping and ordinary sanitary measures require the prompt removal of all waste matter in and around yards and homes in order to abate the danger of such diseases, and insure good health protection throughout the State."

Dr. Cox stressed the fact that dangerous diseases are filthborne, and the only possible way to control them is to eliminate the insanitary conditions responsible for their spread.

STEM RUST IS POSSIBLE ON '48 WHEAT CROP

The stage is all set for a severe epidemic of stem rust—or black rust—in the wheat county this spring.

That's the warning from the agronomists and plant pathologists of Texas A. and M. College and USDA's Bureau of Plant Industry.

It all depends on the principal factors—the rust spores and the right weather. The combination of wheat germinating so late on the High Plains, together with the large acreage of earlier wheat in the Rolling Plains areas east of the Caprock, makes a favorable situation for the development of stem rust on late wheat if the spores develop sufficiently on the early planted wheat.

Nothing can be done about the weather, of course, but the situation can be greatly aggravated

by the planting of stem rust susceptible varieties of spring wheat and barley, the specialists say, as such varieties would make prolific sources of stem rust spores, which in turn might affect wheat farther north, as none of the hard red winter wheat varieties are immune to stem rust.

Agronomists recommend the planting of oats in place of spring wheat or barley. They say the yields of spring planted oats are much more certain in Texas than either spring wheat or barley and stem rust of oats does not affect wheat. Varieties of oats such as Fultex, Kanota, New Nortex or Ferguson 922 are good selections.

The specialists point out that in view of the great need for a bumper wheat crop in '48, every possible precaution should be taken to reduce the possibility of a stem rust epidemic.

KELTON NEWS

By Rena Johnson

The little Misses Linda and Glenda Pond are on the sick list. Their many friends wish them a speedy recovery.

Mrs. R. O. Johnson left Saturday for Hereford to visit her son, Mr. and Mrs. W. H. Johnson.

Mr. and Mrs. L. W. Davidson visited in Canyon this week with Mr. and Mrs. Barney Davidson.

Mr. and Mrs. J. D. Rutherford, Jr. returned Tuesday from Nevada where they have been living.

Mrs. L. C. Bledsoe and Miss Ree Lummus spent Thursday in Dum-

as. Mr. and Mrs. Neal Davis of Paducah spent the weekend here with his parents, Mr. and Mrs. Claude Davis and Claudene.

The Wheeler County Singing Convention met here Sunday. A large number attended. The next meeting will be at Twitty. Clar-

On those spring days when the weatherman blows his chilly breath, there's nothing like a steaming bowl of soup and nourishing French Onion Soup is a tasty introduction to any type of meal. Cook 6 onions, medium-size, sliced, in 4 tbsp. butter or margarine over low flame, stirring constantly and adding 1/4 tsp. pepper while cooking until onions are lightly browned. Add 5 cups bouillon, or water and 6 bouillon cubes, 1 tsp. Worcestershire sauce, salt if necessary. Cover, simmer 20 to 30 mins. until onions are very tender. Pour into large casserole, float 6 slices buttered toast on top, sprinkle thickly with grated Parmesan cheese. Bake in hot oven (450°F.) for 10 mins. until cheese browns slightly. 4-6 servings.

If there's a "flashback" when lighting a burner, the air shutters may be loose. Turn off the gas, then tighten the air shutter holding screw, or, if shutter is open too wide, close it slightly. Relight the burner. If flashbacks persist, call your utility service man.

To sugar doughnuts quickly, put confectioner's sugar into a paper bag with a few doughnuts, shake them around until sugared.

The average housewife washes nine piles of dishes as high as the Empire State Building in her lifetime. Automatic gas water heaters simplify the task with plenty of hot water when it's needed.

Finely shredded grapefruit rind simmered in syrup gives an unusual flavor to fruit cup.

Bread crusts can be run through the meat grinder to clean it, then use the crumbs for your meat dish.

ence Killingsworth was elected vice-president.

The Junior invitation tourney held at Kelton was a success. In the girls division the winners were Kelton 9th grade, first; Sweetwater, second; and Kelton 8th grade, third. In the boys division Kelton, first; Sweetwater, second; Canadian, third.

A large number from here attended the Ida Red program at Sweetwater Wednesday night.

Mr. and Mrs. John Wright and Tommie, Mr. and Mrs. Frank Wright of Canyon spent Sunday with Mr. and Mrs. Amos May and Mrs. Charles May.

LEGAL NOTICE

NOTICE OF BIDS

Veterans' News

QUESTIONS AND ANSWERS

Q—My son was killed in action during World War II, and I would like to know if I am entitled to receive compensation?
A—You are entitled to compensation, provided dependency can be shown. Dependency will be held to exist if you do not have sufficient income to provide reasonable maintenance for yourself and your family.

Q—I am taking on-the-job training in a hazardous occupation under the G. I. Bill. In case of an accident, will Veterans Administration pay my hospital expenses at a local hospital?
A—No. Any disability incurred while training under the G. I. Bill are considered non-service-connected, but you may be able to establish eligibility for hospitalization in a Veterans Administration hospital because of your war service.

Q—My son, who is in a Veterans Administration hospital, is trying to get a pass to visit the Will Veterans Administration pay for his transportation to and from the hospital?
A—No. All travel while on leave from a Veterans Administration hospital is at the expense of the veteran.

Q—Should a claim ever be filed by a veteran who has been dishonorably discharged?
A—It is always the privilege of a veteran to file a claim, but to show entitlement, it must be established to the satisfaction of the Administrator of Veterans Affairs that the veteran was insane at the time of commission of the act for which the dishonorable discharge was issued.

Veterans needlessly take the chance of losing their money and their insurance protection when they mail cash to pay premiums on National Service Life Insurance policies, the Veterans Administration warned.

A number of NSLI policyholders continue to send cash to the VA Branch Office at 114 Commerce Street, Dallas, Texas, for premium payments. Early this

Jeep Supports "New Look"

The "new look" is affecting more than the length of women's skirts and coats. Even the rugged little jeep has bowed to fashion's decree by adding a step on either side for military's benefit. Willys-Overland engineers designed the world's shortest running board for the all-purpose car in deference to longer skirts.

MEMO To Trunk Housewife

NATIONAL PRESS BUILDING
WASHINGTON, D. C.

By Anne Gould

First order of the day is marriage legislation in Congress which, if passed, would repeal taxes on yellow marriage. So don't forget to write your congressmen in Washington, asking them to end these ridiculous taxes.

More coffee is on the way for breakfast tables. Almost 10 million bags (112 pounds each) from leading coffee producing countries will be exported by the end of September.

Here's something you'll want—a handle-and-spacer bedside lamp which lights when you pick it up. Operates on batteries and costs only \$2.98.

Shoe officials say that footwear sales have slipped this winter because of bad weather. So though you're making your old ones do, remember to keep them at their best with the oil stinkies.

If you've a pair of unattractive French doors, give them a professional decorator's touch or paneling with china or white set of framed flower or bird prints.

An everyday luncheon dish can be easily made for just a few cents. Cut a 16-inch square up of gaily patterned cloth. Make an edge with plastic netting.

VA pointed out that a veteran making his insurance payments in cash through ordinary mail, has no way to prove he made the payment in the event it fails to reach VA. Failure to receive the money leaves VA to choose but to lapse the policy.

Veterans are urged to use money orders, postal notes (with the reverse side filled out in full), or checks for NSLI premium payments, and also to use the yellow envelopes furnished by VA in mailing the payments to the Insurance Service in the Dallas Branch Office.

Shouting costs must be reduced if health is to be maintained serving the veterans' market. Thomas B. King, director of the Veterans Administration 1948 guarantee service, has informed the National Association of Home Builders.

The variance between the prices currently being paid by veterans' families and the prices which can be afforded on the average indicate that "the bottom of the barrel is being approached," he said.

Nearly one-third of all patients in Veterans Administration Hospitals take part in sports activities, many of which have been adapted to the limitations of veterans' disabilities.

Mr. and Mrs. M. L. Gunter of Spearman visited his mother, Mrs. M. L. Gunter Sr. Sunday.

Mr. and Mrs. James Alexander and family spent Sunday in the C. C. Hallman home.

Mrs. Alice V. Green entered the local hospital Monday for treatment. She has been ill for the past six weeks.

A Child May Dare So Drive With Care

Don't Throw Weight Around, Says Elliott

(Seventh of a Series)

"Don't throw your weight around," advises W. J. Elliott, Chief of the Texas Highway Patrol.

"Remember that when you are sitting behind the wheel, you are driving a car that weighs more than 2000 pounds, and the pedestrian crossing the street only weighs an average of 150 pounds. It isn't quite fair, is it?"

The Texas Highway Patrol is cooperating in a nationwide "Kpaw and Obey Traffic Laws" program, and Chief Elliott said that accidents involving pedestrians are one of the "biggest killers." He pointed out National Safety Council statistics to back up this assertion.

Pedestrians at intersections account for 28 per cent of all urban fatal accidents, and 35 per cent of all fatal accidents are non-traffic pedestrian mishaps. In addition, 27 per cent of all pedestrians killed in business and residential areas were crossing at intersections without signals, and 28 per cent were crossing between intersections.

Captain Polk Ivy of the Amarillo District emphasized the following things to remember for the driver in giving pedestrians right-of-way.

1. When pedestrians are crossing at unsignalized intersections:
2. When pedestrians are crossing at signalized intersections they should obey the signals, but drivers turning right or left must yield the right-of-way to pedestrians crossing on the "green" or "walk" light.
3. Pedestrians do not have the right-of-way between intersections, and therefore they should cross only at corners.
4. Drivers must be alert for pedestrians crossing between intersections, particularly at night, even though the walkers should look out for the cars.
5. Know and obey the rules!

drivers must give them the right-of-way if they are walking in the crosswalk or where a crosswalk might be.

2. When pedestrians are crossing at signalized intersections they should obey the signals, but drivers turning right or left must yield the right-of-way to pedestrians crossing on the "green" or "walk" light.

3. Pedestrians do not have the right-of-way between intersections, and therefore they should cross only at corners.

4. Drivers must be alert for pedestrians crossing between intersections, particularly at night, even though the walkers should look out for the cars.

5. Know and obey the rules!

Rambling Around

(Continued from Page 1) Still more dangerous are thallium and compound TEN-EIGHTY. They must not be used, except by trained professional operators.

Red Squill (powdered) should be mixed at the rate of one part squill to 9 parts bait. Be sure to obtain squill with a guaranteed strength of at least "500 mg.-kg". Red squill is the safest of all rat poisons and is very effective when properly used.

ANTU should be used at the rate of 1 to 2 per cent in bait. It is good for brown rats, but is not uniformly successful against black rats.

Many ready-mixed baits, using both squill and ANTU, are on the market, but few of them are as attractive to rats as fresh bait. Fumigation with cyanide gas or gasoline exhausts fumes is effective where burrows or buildings can be tightly closed. Fumigants are highly poisonous to humans and livestock; handle them with care. Calcium cyanide dust is applied with a special dusting pump. Directions are given in U.S.D.I. Conservation Bulletin 8, mentioned later. In using exhaust fumes from tractor, car, or gas engine, run the motor about 10 minutes for each burrow, using a rich mixture. Before starting, plug up all other openings as well as around the one where the gas hose enters. After one day, break up all burrows with a pick or shovel; later, retreat burrows showing signs of renewed occupancy.

Common rat traps should be used where poison or fumigation cannot be used. Enlarge trigger surface of trap as much as possible with cardboard or hardware cloth. Place trap in runway where rats will cross the enlarged trigger. A properly placed trap needs no bait; bait does little good on an improperly placed trap, but if desired the same bait as for poi-

soning may be used. Full directions for rat killing are given in U. S. D. I. Conservation Bulletin No. 8, "Rat Control", obtainable at 10 cents each from the Superintendent of Documents, Washington 25, D. C.

Community action is the only effective way to fight rats. Controlling rats on only one farm in a community is somewhat like trying to sweep back the ocean with a broom. Even if a farmer rids his premises of rats this fall, more will come in from surroundings where control is not practiced. Hence, community action should include not only farms, but feed mills and other food establishments in towns and villages.

Community action, pooling all resources, gives all the benefit of expert advice and many permit employment of a trained rat-control man. County agents can arrange community control projects in cooperation with district agents of the Fish and Wildlife Service. Similarly, community rat control demonstration may be arranged. Cooperative community action is also the only practical way to obtain and utilize the services of a man trained and qualified to use compound TEN-EIGHTY on rat control. Groups may raise funds, to obtain this service from a reputable pest-control operator, selected from lists of such operators that are obtainable from the Secretary of the National Pest Control Association, William O. Buetner, 3019 Fort Hamilton Parkway, Brooklyn 18, New York.

Also, community or county organizations may wish to obtain expert assistance with modern rat control methods, including TEN-EIGHTY, by writing to the district agent of the Fish and Wildlife Service, Department of the Interior. These district agents will, whenever possible, fill requests for giving rat-control demonstrations. Such agents can also assist community or county groups in organizing cooperative rat control projects. Thus small subscriptions from many individuals can be used to pay a government-trained expert to supervise rat control on each member's farm, using modern methods, including TEN-EIGHTY where suitable.

IMPORTANT: Compound TEN-EIGHTY is the most effective rat poison known, but it is much too dangerous for use by the general public. It can be obtained and used only by qualified government employees and pest control operators, who are trained in the safeguards necessary to its use and who carry adequate public liability insurance.

Rats never take vacations. They must raise 6 or more litters per year with from 6 to 22 in a litter. Ignoring the death rate, the progeny from one pair of rats could exceed 350,000,000 in 3 years.

Hence rat control must be a continuous job. "Rat-control weeks" are entirely ineffective against the continuous activities of rats, unless they are followed by a year-round program of rat killing. Once rat members are reduced in a community they can be kept down at little cost by "maintenance control." If regular control is neglected during the year, rats will rapidly increase, until they require another intensive and expensive rat-control week. Cost are decreased and losses of grain are minimized when each farmer, miller, and householder makes rat-control a part of his regular chores.

The Wheeler County Home Demonstration Agent and the Assistant County Agricultural Agent held meetings with all 4-H clubs (both boys and girls) of Wheeler County last week on Health. Each club was shown two movies, one entitled "Health and Happiness" and the other "Something you

didn't eat". Group discussion and talks on good diets, nutrition and health habits were the program for each meeting.

Well, it's that time of year for the tractors to start rolling in Wheeler County. Looks like there won't be very much terracing this spring because it's getting so late.

It is that time of year also to select beef calves for those 4-H Club boys who are going to feed for the shows next year. Good calves are hard to find. If anyone has some good steer calves they can sell these 4-H club boys, the county agent and assistant agent would like to hear from them right away.

Community action, pooling all resources, gives all the benefit of expert advice and many permit employment of a trained rat-control man. County agents can arrange community control projects in cooperation with district agents of the Fish and Wildlife Service. Similarly, community rat control demonstration may be arranged. Cooperative community action is also the only practical way to obtain and utilize the services of a man trained and qualified to use compound TEN-EIGHTY on rat control. Groups may raise funds, to obtain this service from a reputable pest-control operator, selected from lists of such operators that are obtainable from the Secretary of the National Pest Control Association, William O. Buetner, 3019 Fort Hamilton Parkway, Brooklyn 18, New York.

Also, community or county organizations may wish to obtain expert assistance with modern rat control methods, including TEN-EIGHTY, by writing to the district agent of the Fish and Wildlife Service, Department of the Interior. SENIOR NEWS

The seniors wish to take this privilege to thank all the nice people who came to our play. We had a very nice crowd, and we hope you all enjoyed seeing it as much as we enjoyed putting it on for you. We want to thank Mrs. Carrick, Mrs. Brown, Miss Wiley, and a number of the juniors for helping us, we appreciated this very much.

Lois and Ruby were beginning

to think they were going to have to be old maids after the play, when Rosy and Cecil saw them. Thanks very much Lois and Mr. and Mrs. May for the nice reception you gave the seniors after the play.

Jody, we all think you did a very good performance Friday night. Although you didn't do any acting, you were being natural. Happy, will you please stop referring to Ruby as "Miss Dinkie-bury"? The play is over you know.

Dolores, was the trip to Odessa too much for you? We all missed your chattering here at school.

Wai Yernon glad to see you Yvonne? You seemed a little bit brighter Monday morning.

"Dear" you'd better be careful. Wayne might not like that the next time.

After the boys got their make-up on Friday night, they went around trying to kiss the girls to get rid of part of their lip-stick. That's one time you got the lip-stick "first-handed" wasn't it boys?

Bob, Bill, Loyde, and Johnny went to church Sunday night.

someone to the F.H.A. picnic they plan to have soon. Got your way through, didn't you girls?

Maurine, don't you know you'll get fat eating so much candy.

Miss Mahaffey, we saw you Saturday night. You had better hide better next time.

Dolly, what's this we hear about you and your married life?

Le Waine, I wouldn't invite Rub's boy friend to the picnic if I were you.

Billie, who was that you were with at the play Friday night?

Glenda, what happened? We see that David has his watch and football back.

Wanda, we like your yellow skirt.

Loellie, you and Juanita were lucky Thursday. Getting out of work over at the home ec. cottage just to play a F.H.A. program.

Dick, who were you and Edgar sitting in the car with Saturday night?

Gene, we didn't know you could flirt so well. Maybe we're behind time.

Leola, isn't as bashful as she used to be. What's happened Leola?

Dick, did you really miss Georgia?

Juanita, what little eighth grader was that nice letter from Wednesday. Uh-huh, two times.

Our class representatives are Loellie, Bonnie, Dick and James. You aren't tired of play practice already are you kids?

Maurine, JoAnn, and Claudell, did you have a good time over the weekend?

Margaret and Mary Bob have two of the roughest babies we have ever seen.

We know two girls that really got a birds-eye view.

David, and Bob what were you doing following cars around Saturday night?

We know some girls who are getting some courting from a teacher. How about Miss Mahaffey?

(Ideal Boys)

LONE STAR

HOME DEMONSTRATION CLUB

Arent we proud of them?

By the way Bill, do girls often bite you without a reason? Especially on the lip. Just trying to be sweet weren't you?

Ruby, you had better use Life-bury soap from here out. People pass you and hold their noses. And say, were those your Easter bunnets?

Vaneta must have enjoyed the play, because she said her sides hurt when it was over. Uh-huh caught you laughing again.

Francis, do you feel better since you got your teeth pulled?

Uh huh! Dora what did you say you were going to do Wednesday and Thursday?

Lonnie, who is that certain sophomore girl you keep flirting with?

Marie, did you shrink or did your dress stretch?

I wonder why all the juniors enjoyed Monday?

(Guess Who?)

She is a junior girl who sews well, sings well, and can make good grades when she tries. She is five foot three inches tall, has blue-green eyes, and brown hair. She is sweet and rather quiet and goes with one of our junior boys. Guess Who?

Harold, how do you like your part in the junior play?

Billie, what was it you said about those little black cookies Friday night? How did you say you meant it? As a joke, maybe?

Good show last Wednesday and Thursday night wasn't it Margaret, Peggy, Pat, and Melba?

Yvonne, come visit us won't you Yveta Sue?

JUNIOR NEWS

The juniors are having a food sale this coming Saturday. We hope everyone will buy their Easter sweets from us.

Miss Mahaffey you're mean to the junior Home Ec girls. Why wouldn't you let us have a meeting?

Horace, how did you say you hurt your foot?

Bill, what do you and Duane mean by playing with "dough" at play practice Sunday?

Peggy, you haunt Miss Mahaffey for being mean to us. Will you?

SOPHOMORE NEWS

Jerry, you really can tell and answer jokes, especially in assembly.

London, you make such a cute thing in Winnie's dress.

Lonnie, you make a sweet grandmother.

Imagine you and Barb have really got those boys walking the chalk line now. We warned them though.

Ruby, you don't do anything in Home Ec, except sit around since you finished your dress.

J. T., you have really got a swing. Especially in a dress.

C. R., you and Jack look like an old woman and man in those clothes.

Martha, do you really wish you were through with your dress?

Charlotte, you make a handsome cowboy.

Dolly, don't you know better than to run in a ditch with your dad's car?

Floy Bell, are you really crazy about a certain junior boy?

FRESHMAN NEWS

Maurine, we are very sorry to hear you were in a wreck. Did you break your nose?

Georgia, we missed you Thursday, Friday, and Monday. Hope you are feeling better now.

Edgar, it seems as though you're getting your share of hard luck, too bad about that finger.

James, where were you Friday? We missed you.

Bonnie Ray and Juanita sure had a hard time trying to persuade Miss Mahaffey and some of the other girls to let them invite

Chemical Control Of Range Brush & Weeds

The following information obtained from Forage Division, Bureau of Plant Industry, U. S. Southern Great Plains Field Station, Woodward, Oklahoma:

It has been shown by the station that from 51 to 67 per cent increase in carrying capacity has been attained on the range lands where brush and weeds were controlled as compared to other lands where this practice was not carried out. The increases due to brush control range from 45 to 48 head more cattle per section carrying capacity and from 29 to 47 pounds in gain per head.

Excellent results were obtained in the control of sand sage brush, skunk brush, sand plum and most all range weeds, in preliminary tests conducted over wide areas in 1947. Several formulations of 2-4D were tested in cooperation with the USDA and various chemical companies and an airplane company from California. The cheapest and most satisfactory results were obtained from a formula of 1 pound of 98% pure 2-4D acid; 5 pound of sodium carbonate; 4 gallons of water; 1 gallon of diesel oil.

We were very fortunate in being able to secure a car load of 2-4D acid and the sodium carbonate and can supply you with these chemicals at a cost of \$1.00 per pound for the required chemical to treat 1 acre of land. American Dusting Company is available in this area for making the application and my charge is \$1.00 per acre and we also in this charge furnish the diesel oil, making the net cost to the rancher only \$2.00 per acre. This must be applied by April 15 and June 1 to obtain the desired results.

American Dusting Co.

AERO DUSTING AND SPRAYING

PHONE 710 ANADARKO, OKLA.

CLINT FRYE, OWNER

FOR FURTHER INFORMATION, see your AAA director, county agent or me, Clint Frye. I will be in the County Agent's office at Wheeler all day Saturday, March 27 to discuss this type of control with you. Come in and talk about it whether you plan to have any spraying done this spring or not.

The demand is greater than the supply of this chemical, so get your order in early!

SEVENTH GRADE NEWS

(Guess Who?)
 Color of hair—Brown.
 Color of eyes—Blue.
 Weight—100 pounds.
 Height—5 feet, 5 inches.
 Likes—To read.
 Dislikes—Boys.
 Favorite subject—English.
 Favorite teacher—Mrs. Williams.

Sex—Female.
 Ray, who's little girl was that you had in the show with you Saturday night? Was she kin to Vondell?
 Glen, don't you ever go over to Betty Lou's house?
 Buddy, are you collecting steel?

Jimmy, isn't there anyone in your life now? Oh, your sister.
 Doyle, why don't you quit kicking Claudine?
 Bobby, why don't you wear your boots?
 Ray, who did you write to?
 Marilyn, can't you get along without that much giggling in class?
 Carman, you don't need to make that many trips to the pencil sharpener do you?
 I guess JoAnn is finally satisfied now. She got that certain boy.
 Betty Jo, quit blowing bubble gum in class.
 Betty, you finally decided to come to school did you?
 La Jaune, you had better learn how to spell.
 Nadine, we don't hear from you lately. Has the cat got your tongue?
 What was Betty Lou blushing about in class Monday?
 Mary Helen, you sure are happy lately. Wonder why?
 Bobby, you are really quit lately.
 Poor Sue had a tooth pulled. Did it hurt?

We wonder why so much propaganda has gotten around?
 La Jaune, did you have fun Saturday night?
 Patricia, where have you been lately? Driving that car, I guess?
 Betty Lou, did you scare your dad to death driving Sunday?
 Shirley, you had better learn to sweep good.
 Doyle, where were you Sunday?
 Fliptian, you sure do study lately.
 We wonder who C. W. J. is. Maybe we had better ask Waunetta that.
 Betty Jo, can't you get along with any one?
 Ray, who have you been writing to?
Imagine the Teachers—
 Mrs. Williams—Ugly.
 Miss Decker—Wearing levis.
 Mrs. Teague—Chewing gum.
 Mr. Teague—Not being liked by all the kids in school.
 Mr. Baker—Not in class on time.
(What If?)
 Betty Lou didn't ride to school with Glen?
 Mary Helen and Marilyn wouldn't fight in class?

TREATED SEED WILL IMPROVE COTTON YIELD

If Texas cotton growers are wondering about the advantages of cottonseed treatment, E. A. Miller, extension agronomist of Texas A. and M. College, has the answer.

Cottonseed treatment is an inexpensive form of crop insurance that costs only a few cents a bushel of seed; it kills the disease germs on seed, protects seeds and seedlings from diseases which may be in the soil and gives a better stand of cotton.

Texas' worst cotton seedling killers are angular leaf spot and soreskin. In the Blacklands of Texas, angular leaf spot ranks next to root rot as the number one hazard in cotton production. It is found in nearly all parts of the state.

Angular leaf spot generally shows up first on the seed leaves, and if a damp spell sets in after the seedlings come up, lots of them will die unless the seed was chemically treated before planting. This disease can also destroy some of the early buds on cotton plants, and thereby may prevent growth of early fruiting branches. Result: a reduced yield. Angular leaf spot also carries through to the older cotton plants, where it appears as angular spots on the leaves and as bacterial rot on the bolls.

The other serious cotton disease causes brown spots on the plants either below or near the ground level. While many plants may recover from soreskin, they are often late in developing—again causing a reduced yield.

Cotton growers have found that seed treatment prevents much of the trouble resulting from these diseases, says Miller. Furthermore, chemical treatment of the seed also helps to produce a sturdy, vigorous seedling, which gives producers a chance for earlier and

better cultivation.

At the Temple Agricultural Experiment Substation, fuzzy cottonseed treated with either two or five per cent cerasan, give 25 to 30 per cent better stands than untreated seed. The plants had one-third to one-tenth less angular leaf spot infection, and made an average of over 50 pounds more lint per acre than the untreated seed. Over long periods, experiment station tests have shown that chemically treated seed give four-year average yield increases of 25 per cent at College Station, 10 per cent in the Brazos Bottom near College station, 15 per cent at Temple, and 4 per cent at Lubbock.

Results such as these show that the treatment of cottonseed is definitely a part of cotton production, says Miller. USDA leaflet 198, "Cottonseed Treatment", can be obtained at the Extension Service at College Station, or from the local county agent.

THE WHEELER TIMES classifieds offer more for less money, to both buyer and seller, than any other business device we know about.

WARNING...

It has been called to our attention that individuals posing as inspectors for the power companies have been calling on people who are about to be supplied with ELECTRICITY under the RURAL ELECTRIFICATION PROGRAM and if the persons have already had their house wired, these self-styled inspectors, are telling them their wiring is inadequate or there is something wrong with it and the whole job must be done over in order to meet specifications necessary before they can tie on to the ELECTRICITY.

In the first place, we wish to point out that any INSPECTOR is forbidden by law to have anything whatsoever to do with any wiring job and if an inspector calls to inspect your wiring it is not his duty in the least to tell you who you should get to wire your home.

If an inspector calls to check your wiring, be sure that you check his credentials carefully and be sure that he is fully licensed by the state and if he is not, our advice to you, is that you have nothing whatsoever to do with him.

We have been told of an incidence here in Wheeler County in which a family had their house wired and ready to tie on to the electricity and some of these so called inspectors came in and told them the wire was too large and sold them a rewiring job at a cost of approximately \$120.00.

It is not our aim to try to tell anyone how to tend his business, but we feel it is our duty to inform you of the way some of these fly-by-night electricians have been "skinning" people who are soon to get electricity to their home.

WE DO HOUSE WIRING...

We are thoroughly equipped, capable and experienced enough to handle any wiring job you might have and when we do a wiring job we GUARANTEE it to meet the most rigid inspection possible to give a wiring job. Our wiring jobs will stand the inspection as set forth in the National Electrical Code, and this is the stiffest inspection that can be set up.

We have the MATERIAL, the EQUIPMENT, the MAN-POWER, the KNOW-HOW to give you a thorough, complete wiring job and we can do this at a reasonably low cost to you. If you are to get ELECTRICITY in the near future, and your house has not yet been wired, we invite you to come in and see us before you let anyone else have the job.

If you have any wiring problems, such as: proper size of wire for any application, number of circuits you should have for your particular job, etc, we will be more than glad to help you solve these problems. Feel free to call on us... we are here to SERVE YOU.

COMPLETE ENTRANCE \$10.00

We can give you a complete ELECTRICAL entrance into your home consisting of everything that is necessary to bring the electricity into the house for a fee of only \$10.00. The entrance includes switch box, fuse box or multi-breakers, etc.

\$3.50 PER OUTLET

As an introductory offer, and for a limited time only, we are prepared to give you a complete wiring job for your home for only \$3.50 per outlet. An outlet can be described as a wall appliance outlet or hot plug, wall switches or outlets for light fixtures.

25% DISCOUNT

In addition to the low price we are offering on wiring, we are prepared to offer you a discount of 25% on your light fixtures provided you let us do the wiring job.

HOME FOLK, ALSO!

In addition to the above mentioned items, we are home folk here to you and any time you need additional wiring or electrical repair of any sort or should anything go wrong with the job we give you we are right here where you can get in touch with us and we can fix them for you.

In addition to the above, DON ANGLIN, who has had many years experience in housewiring and electrical work and has recently been doing electrical work in Houston, is back with us to do these wiring jobs.

We heartily invite you to come in and let us figure your next wiring job for you.

ALL OUT AID for your Office

Give your office a break. Don't put off buying that file or wastebasket you've been needing. New equipment will greatly increase your efficiency. Everyone from the office boy to the boss will work better and faster with these aids to better business.

ALFRED M. HILL

TULIA, TEXAS
 March 4, 1948

To Whom It May Concern:

We, the undersigned, are former commissioners having served ten years each in Swisher County and during that time Mr. Hill has built and maintained the county roads for each of us. We have found him to be not only reliable, but knew how to do the work and and get the most work from the equipment at a minimum cost.

We each have known him for about twenty-three years and find him to be of good repute and high standing in this county; therefore we believe he will make you a commissioner you will be proud of.

Very truly yours,

 public are invited and urged to attend, manager Sisson said. Special invitations to attend the official opening have been extended to all veteran service organization officials, County Red Cross officials, federal, state, county and city officials, newspaper editors, radio station managers, and college presidents throughout West Texas.

Sisson expressed his sincere desire that a large delegation from Wheeler and Wheeler County be present for the occasion.

"VA wants the people of Western Texas to know that this regional office belongs to them, and to inspect its new building which is set up as a model for other VA regional office buildings throughout the nation," the regional manager pointed out.

While in West Texas the officials will visit the Amarillo veterans hospital on Saturday, March 27, VA announced.
