

6,000 Is Goal For X-Ray Program

person in Wheeler County and surrounding areas, of age and older, is urged to take advantage of X-Ray service to be offered them all next week by the Department of Health and city and county health

purpose of the mass X-Ray program is to determine number of cases of tuberculosis in the state of and to notify the carriers of the germ so that they can be treated. There is no expense involved; the entire procedure requires only two minutes; it is absolutely painless and not necessary to disrobe.

Large, mobile X-Ray unit will be set up in three places in Wheeler County, on the following schedule:

Monday, September 20—Wheeler, from 12 noon until 5 p. m.

Tuesday, September 21—Wheeler, from 8 a. m. until 5 p. m.

Wednesday, September 22—Shamrock, from 12 noon until 5 p. m.

Thursday, September 23—Shamrock, from 10 a. m. until 5 p. m.

Friday, September 24—Shamrock, from 8 a. m. until 5 p. m.

Saturday, September 25—Shamrock, from 8 a. m. until 5 p. m.

Sunday, September 25—Mobeetie, from 10:30 a. m. until 1 p. m.

City and county health officials are working toward a goal of 6,000 X-Ray pictures in the six days the X-Ray unit will be in Wheeler County.

Since three of the days will be in Shamrock, September 24 and 25, will be the days of the First Annual Free Fair. It is believed that people will avail themselves of the opportunity than otherwise.

The unit will be set up in the City Building, the center of activities.

Representatives of the State Department of Health, Lee Roy Bq. and Mrs. J. F. Dunn, here to conduct the survey. All need outside assistance. All out cards for the participants.

The unit is capable of making pictures during an eight-hour day.

After the pictures are made, they will be sent to state laboratories for examination. If no symptoms of TB or other disease are noted, the card will be returned to the individual. If some complication is noted, the card will be returned to the person's physician, the name of which is placed on the card by the person taking the X-Ray.

Within two or three weeks after the cards have been returned, a public health nurse will follow them up offering advice and assistance. It will be up to the person with the disease to arrange for treatment.

The age minimum of 15 years was set because statistics show that the number of cases of TB increases considerably after the age of 14 years.

WHEELER'S NO. 1 RESIDENT, Mayor R. H. Forrester, sets an example for citizens of his city and surrounding territory by posing for an X-Ray prior to the opening of the mass microfilming program next week. The X-Ray equipment furnished by the State Department of Health will be available to the people of the Wheeler area on Monday and Tuesday, September 20 and 21. Mayor Forrester urges all persons over 15 years of age to take advantage of the service in an effort to curb the spread of tuberculosis.

Health authorities point out that contrary to a popular belief, tuberculosis is contagious but is not hereditary. If the spread of the disease by adults can be stopped, it will be possible to wipe out the germ entirely within a decade.

Colored people are urged to have their chests checked as the percentage of cases of TB in that race is larger than that which prevails in the white race.

The free service will mean a saving of several thousand dollars to the people of Wheeler County since physicians and hospitals make a charge of from \$5.00 to \$25.00 for each X-Ray made.

Persons who work in offices, will note in the schedule that the services of the X-Ray equipment will be available until 7 o'clock Thursday evening, September 24. This arrangement was made especially for persons who will not be off work in time to avail themselves of the facilities by 5 p. m.

It was previously intended for the unit to be in Shamrock only three days, moving on to Mobeetie September 25. Through special arrangements, however, a second unit will be set up in Mobeetie on Saturday, leaving the one here for the convenience of fair visitors.

County Leaders Commend Health Department Survey

Mr. W. R. Ritter
Shamrock, Texas
Dear Mr. Ritter:

I would like to commend to the citizens of our county the State Health Department X-Ray service, which I understand will be available in the city of Wheeler Monday and Tuesday, September 21-22, and in Shamrock and Mobeetie later in the week.

Our State Health Department is offering a splendid opportunity which any individual can ill afford to pass up. The primary purpose, I understand, is to make a tubercular survey of the State, the service is free, readings of the X-Rays will be made by competent lung specialists, and there will be a follow-up, as necessary, within two weeks by a State Health Department nurse.

It is not general knowledge that tuberculosis is one of our number one killers, and of the people that die within the 18-35 year age group, more are killed from TB than any other disease.

The object of the lung specialist is to find early-stage infection, generally classified by lung specialists as 'minimal' and 'moderately advanced' TB. TB in this stage can be cured. Diagnosis of early stage TB is difficult and symptoms are

vague. Too often they are passed off by individuals as a tired feeling or run down condition.

People within the 18-35 year age group are at the most active period, physically, during their life. Generally they work hard and play hard. Bodily well being is at a peak during this time and the individual is liable to attach no significance to tiredness, feeling run-down, or to numerous coughs and spells of flu. Too often the person finds that he is on the brink of advanced TB.

Advanced TB is BAD, not many cases in this classification get well. Everyone owes it to himself and his family to at some time have his health checked from the tubercular standpoint, TB being of the chronic nature that it is, one could easily have an active infection for several years and unknown to the individual, start a process of infection and re-infection that would certainly cause some deaths and wreck or seriously impair the health of others.

I cannot give too strong an endorsement to this program and to the citizens of this county to avail themselves of this excellent opportunity for expert medical service and advice from this angle.

I understand that while primarily the State Department wants a lung survey of individuals of 15 years or older, that any other trouble apparent will be reported in the follow-up program.

Very truly yours,
H. M. WILEY
President
Wheeler County
School Board

Dear Mr. Ritter:

I wish to express my most sincere appreciation and gratitude to you and your colleagues for having made possible to Wheeler County the mass X-Ray survey of all persons above the age of 15 years. I deem such movement or surpassing importance in the advancement of public health for the citizens of

this county. I assure you that you will receive full cooperation from the schools.

Many of the school trustees have already agreed to form transportation committees in their communities and use the school buses to help provide ways for people to attend the survey. We want to help make it possible for every person in Wheeler County to have an opportunity to take advantage of this valuable service which has been provided for him.

I shall be glad to help in any way that I might be needed in this worthy program.

Thanking you for the faithful service you have rendered toward promoting good health programs, I am

Yours truly,
ALLEN KAVANAUGH
County School Supt.

Wheeler County,
Shamrock, Texas
Mr. W. R. Ritter
County Sanitarian

Dear Sir:

At a recent meeting of the Board of Trustees, Shamrock Independent School District, I was instructed to notify you of the action taken by the board in regard to the X-Ray Survey which is to be conducted in Wheeler County during the month of September.

Although the present survey will include but a few of the school children of the Shamrock Schools, it constitutes a great step forward in the prevention of tuberculosis in the children who will eventually attend the schools of this system.

I was asked to inform you that the personnel of the schools will welcome any opportunity to aid and assist in the program.

The members of the board also wish to express their appreciation for your personal efforts that had so very much to do with obtaining this service for the people of the community.

Sincerely yours,
W. A. SIMS
Secretary

Wheeler County School Supt.

PRIVATE AID DOLLARS

Most of the talk about foreign aid since the war has related to loans and grants by the federal government to help nations beyond the seas. Little has been said—per-

haps because little was known—about private funds that have gone from the United States to other lands.

Figures newly gathered by the Department of Commerce furnish enlightenment on this point. They also may contain an element of surprise. For the figures show that private investments by United States citizens in foreign areas outstrip credits extended by the federal government.

Government credits to other nations at the end of 1947 aggregated \$12,100,000,000. But United States private investment abroad totaled \$16,700,000,000. If there were no Marshall Plan, if the \$3,750,000,000 British loan never had been made, if government aid had been withheld from Greece, Turkey and China, the American funds working for the economic recovery of war-ravaged nations still would be at a multi-billion dollar level.

As effectively as funds supplied by the government, these private dollars invested in foreign enterprise are making a contribution to the European recovery program. They are a welcome buttress to government efforts to revive and restore normal trade among the nations of the world. And the huge financial stake, public and private, that the United States has in foreign countries would provide a good reason—if plenty of reasons did not already exist—for opposing the efforts of communism to sweep over Europe. If Europe and other nations receiving American aid should be engulfed by the Red tide the United States could bid goodbye to hopes of getting back any part of the \$28,800,000,000 it has invested in their recovery.

SUPREME COURT TACKLES DIVORCE LAW CONFUSION

The confusion that exists in the United States in connection with divorce laws is apparent in the effort of the U. S. Supreme Court to grapple with the questions that arise as one party, or the other, attempts to avoid the decree of the State courts.

Recently, the Supreme Court ruled that no State could overthrow a divorce granted in another State if both husband and wife agreed to the decree and that no State could set aside or alter alimony payments previously allowed under another State's divorce laws.

The legal issues become important because of the number of divorces that take place in the United States. In 1946, for example, there were 626,000 divorces, or roughly one to every four marriages. The figure, we believe, was less in 1947 although accurate statistics are not yet available.

The Field Wins

BETWEEN racing seasons at Miami's beautiful Hialeah track, vegetable gardens are grown in the home-stretch to keep the turf from being washed or blown away. Here pretty Olga Petersen garners the cucumber crop, which broke a record for the track. (International)

LEGAL NOTICE

THE STATE OF TEXAS COUNTY OF WHEELER NOTICE OF EXECUTION AND SALE

By virtue of an order of sale and execution issued out of the District Court of Wheeler County, Texas, on a judgment rendered in said court on the 24 day of July, 1948, in favor of L. C. Austin against J. R. Austin and T. E. Austin in cause No. 3876 in such court, I did on September 4, 1948 at 2:30 o'clock p. m. levy upon the following described land situated in Wheeler County, Texas, to-wit:

Southeast Quarter (SE-4 of Section 47, Block A-4, H&G N. Co. Survey, consisting of 160 acres, more or less. And on the 31st day of October, 1948, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and 4 o'clock P. M. on said day, at the courthouse door of said County, I will offer for sale and sell at public auction, for cash, all the right, title and interest of said J. R. Austin and T. E. Austin in and to said property.

Dated this 4th day of September, 1948.
JESS SWINK
Sheriff of Wheeler County, Texas 39-3c.

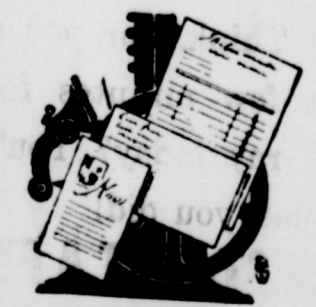

OBVIOUS

While examining a class in grammar the inspector wrote a sentence on the blackboard and asked if any body could see anything peculiar about it. After long pause, one small boy put up his hand.

"Yes", said the inspector encouragingly, "what do you see remarkable about it?"
"Please, sir, the bad writing, sir."

er, Richard Brown

SENIOR NEWS

September 3rd the High School students enrolled once again at the old Wheeler High School. The school went beautifully that day except maybe for a few

missing book cards and a few left over demerits.

We had class meetings to organize and elect officers.

The senior officers are as follows:
President, Richard Gaines; Vice-President, Harold Hardestie; Secretary-Treasurer, Frances Porter; Corral Editor, Pat Noah; Asst. Editor, Billie Brown; Annual Editor, Peggy Rodgers; Asst. Editor, Melba Robertson; Sponsors; Mr. and Mrs. W. O. Carrick; Class Parents, Mr. and Mrs. Nelson Porter, Mr. and Mrs. Amos May.

The following Monday morning we met in the grade school auditorium for opening assembly. Here we got a good look at our new teachers. (We are afraid they got a better look at us.)

When we came back to the High School Building we had five minutes classes and got acquainted

with our teachers. We decided that we liked class periods of that length.

IRISHMEN FRIGHTENED BY WHEELER MUSTANGS

The Wheeler Mustangs were off to a flying start in the football game Friday night. Corky Robertson carried the ball for the first touchdown in the first quarter of the game. Bill Robertson kicked the extra point. In the second quarter the Shamrock Irishmen scored and tied the game at the half, 7 to 7. In the third quarter the Irishmen scored again to bring the score up to 14 to 7. There was no score in the last quarter of the game.

The boys on both sides were bruised up some. J. T. Johnson's nose was broken in the first quarter of the game. The boys played a good game and we are proud of them.

Our team was weakened some by the loss of Johnny Weeks and Gene Hubbard, two of our star players. Both were too old to play.

We regret to lose one of our best fullbacks, Gene Hubbard who has played with the Mustangs for three years. He is attending Junior College at San Angelo and hopes to make the football team there. We think he shouldn't have much trouble. Luck to you.

We want to congratulate the

boys for playing a very good game. We didn't win, but the score wasn't 58-0. Better luck next time.

FLASH

Duane got tired of tackling the boys Friday night so he tried the girls. A Pep Leader from Shamrock. After he knocked her down he was asked by Corky Robertson, "Are you hurt Duane?"

FRESHMAN NEWS

The freshman class has elected Joe Mitchell as president, Dixie Sanders as vice-president, Bob Weatherly as secretary-treasurer, Neil McQueen and Carmaleta Brown as annual staff representatives; and Jo Ann Porter and Richard Brown as reporters. The class elected Mr. and Mrs. Clepper as sponsors.

The freshman boys and girls have surely looked neat and comfortable the past week. That's all right, our initiation will soon be over.

Maurine, why are you so happy after Sunday night? We wonder. Lenard seems to like to go on trips. He has a very good time.

Annie, how do you like "Squirt" for a nickname? I think it fits you to a "T".

Betty is still going with Henry. It looks like the love bug got her. David, you might as well get your mind on Wheeler again.

The show at Shamrock Sunday night must have been good. At

least J. P. and C. C. thought so. Jimmy, if you keep the speed you're going, you'll get a girl before long.

Melvin, (Jack) how do you like to go to Oklahoma? Wayne, you better be careful who you flirt with, your girl might catch up with you.

SOPHOMORE NEWS

The sophomore class met Friday, September 3, and elected class officers. They are:

President, Edgar Hubbard; Vice-President, Gene Sides; Secretary-Treasurer, Billie Traylor; Reporter, James Gaines; Annual Representatives, Lucille Richardson and Leola Richardson; Class Parents, Mr. and Mrs. Luther Sides; Sponsors, Miss Mobley.

The sophomore class is glad to welcome our new members, Von Eva Hooker, Annie Collins, and Ray Ripley.

WONDER WHY?

Glenda doesn't like Briscoe? Gene stays around Annie all the time?

Dick usually gets his way in English? Juanita read that letter so many times Monday?

Georgia always disappears over the weekend? Edgar is never at school on time?

Von Eva and Bonnie always throw their books toward Maurine

when they get mad?

PEP NEWS

Our pep squad got off to a good start Monday with about fifty girls present. We all hope that enthusiasm and interest will remain throughout the football season. Barbara May and Margaret Holde- man were chosen pep leaders by the pep squad and Juanita Tipton and Pat Noah were chosen by the football team. We unanimously decided on Miss Celeste Wiley, Ruth Merrill, and Doris Mahaffey as managers. Our uniforms will be white sweat shirts with Wheeler Mustangs written on them and black slacks. We think they will show up and look uniform.

OUT OF HIS LINE

Little Archibald had had his first arithmetic lesson that morning, and was telling his mother that if he had two apples and some one gave him two more he would have four apples.

"Now then," said his mother, "if you had three bananas and I gave you three more, how many would you have then?"

"Oh, we haven't done bananas yet, Mummy," said Archibald.

A woman can't keep a secret for two reasons: It is not worth keep- ing, or it is too good to keep.

VAUDEVILLE NEXT

"Say, ma," protested the small boy, "what's the idea of making me sleep here every night?"

"Ssh, dear," admonished his American mamma. "You have only to sleep in the piano for two more weeks to set up a new record and then your picture will be in all the newspapers."

H. C. L.

As if you didn't already know it, the Government reports that your living costs have skyrocketed to a new record high. The Bureau of Labor Statistics reports that it took \$21.68 in June to buy the same food items that cost \$10 back in 1925-29. The price chart of all the things that make up the daily bud- get hit a new top of 173.7 on July 15, as against the 1925-29 base of 100. This is 97 per cent higher than a year ago, 30.3 per cent above June, 1946, when most OPA controls were abandoned, and 76.2 per cent higher than prewar Au- gust, 1939.

Newcastle disease is a virus af- fecting the nervous system and breathing system of chickens. It may also affect turkeys, pheasants and pigeons.

THE WHEELER TIMES
The Voice of North Wheeler County"

Our Policy on PONTIAC Deliveries and Prices

Despite the fact that Pontiac has built over a half-million cars since the resumption of production after the war, demand still exceeds supply. In the face of this production record, those who place orders now will still experience some delay in delivery. If you

are among the many people who feel that Pontiac represents an outstanding value—and wish to order a Pontiac for future delivery—you will be interested in the following policy on retail distribution which we, as Pontiac dealers, will observe:

ORDERS FILLED BY PRIORITY

A definite proportion of the cars we receive from the factory is set aside for preferential delivery to users whose work is in the public welfare and to others with certain occupational requirements. *Otherwise, all orders will be filled on the basis of the time when they are received.*

YOU SPECIFY ACCESSORIES

While most of our customers order their cars equipped with accessories, we do not force accessories as a condition of sale. You specify what accessories you want when ordering your car, and these are the ones (and the only ones) it will carry when delivered. Some items may be lacking due to current shortages; but *none will be added.*

YOU PAY ONLY OUR ADVERTISED PRICE

Due to changing economic conditions, we cannot, when you place your order, tell you exactly how much the car will cost when delivered in the future. But, at the time of delivery you will be charged only our advertised price on your model—which will be shown in a published list of local prices.

REGARDING TRADE-INS

Naturally, if you have a car to trade, we would like to have it in order to take care of our regular used car customers. Our appraisals are fair, based on current conditions. But if you do not have a car to turn in, we still want your order and will accept it for delivery based on the conditions outlined above.

WE WANT YOUR ORDER
the sooner you place it, the sooner you will get it. So if you want a Pontiac, order it now.

WE WILL ESTIMATE DELIVERY DATE
to conditions beyond our control, we cannot give you an exact date of delivery. But based on anticipated future shipments from the factory, we when you place your order, give you an honest estimate of when you may expect your car. Such estimates will be reviewed any time on request.

Since this is our "home town", our business and its future is based on our good relations with the people of this community. We are most happy that so many people here—as all over the country—have made Pontiac their number one choice as a new car.

Nothing pleases us more than to turn over the keys of a new Pontiac to one of the many people whose orders we have, because we know they have chosen well—for Pontiac is *always a thoroughly good car, and a thoroughly good value, this year, next year, any year.*

X-RAY UNITS ARE WELCOMED BY CITY MAYOR

Dear Mr. Ritter:
Sometime ago I had a conversation with you concerning the advisability of a tuberculosis survey in Wheeler County, Texas, with particular reference to Wheeler and its vicinity. Later you informed me that such survey had been made possible and you asked that the City Council of the City of Wheeler express its official opinion concerning such survey.

At the last regular meeting of the City Council of Wheeler, Texas, such proposition was brought up for discussion and the Council was of the opinion that such survey would be of particular interest and advantage to our community.

You stated that this "mass X-Ray survey of all persons above the age of 15 years" would be made on September 20th and 21st at the

High School Gymnasium at Wheeler, Texas, and that it would accommodate all people in Briscoe, Allison, and Kelton, as well as Wheeler, Texas, and that the examination would be between the hours of 8 a. m. and 5 p. m. and would be free to the persons participating.

This is to inform you, Mr. Ritter, that the City Council of the City of Wheeler unanimously commends you for your efforts in securing this survey and that they recommend it to the people of this community and especially to the City of Wheeler that they avail themselves of the opportunity offered by this survey.

R. H. FORRESTER,
Mayor,
City of Wheeler.

MAKES IT UNANIMOUS

Art Editor (disdainfully): "We wouldn't think of using anything like that."

Free Lance Artist: "Well you needn't be so haughty about it, you're not the only one who won't use it."

SCOTT'S SCRAP BOOK

By R. J. SCOTT

TEXAS BUSINESS IS CONTINUING AT PEAK LEVELS

AUSTIN.—Texas business continued at peak levels, as the composite index of business activity established a new postwar high in July, the University of Texas Bureau of Business Research reported.

After adjustment for seasonal variation, the July index stood at 227 per cent of the 1935-39 base period, increasing 5 per cent over June and 14 per cent above July of 1947. Dr. John R. Stockton, Bureau Statistician, said that this point was only 6 per cent below the all-time high reached in January 1945, and a 42 per cent increase from the low point of the reconversion period reached in October 1945.

Four components of the index increased from June: department and apparel store sales, 38 per cent; pay rolls and electric power consumption, 2 per cent; and employment, 1 per cent. On the other hand, miscellaneous freight carloadings and crude runs to stills both slipped 1 per cent from June. All components except miscellaneous freight carloadings increased from 1 to 21

per cent above July 1947.

According to Dr. Stockton, all of the measures of total business activity in Texas and for the United States tell essentially the same story, that business is at a record volume, so high that there is little likelihood that it will be able to expand much further, except as prices rise and bring about an increase in the statistical series representing aggregate dollar value. The economic system appears to be operating at as near full capacity as possible in a peacetime economy.

The Bureau's seasonally-adjusted index of bank debits in Texas rose 1 per cent over June to establish another record for this series.

Dr. Stockton said the forces that are supporting the present boom, without doubt the most extensive ever witnessed by the American economic system in peace, are becoming weaker but still exert enough pressure to maintain production at full capacity. Inventory buying was one of the chief inflationary factors immediately after the war, and although inventories are still increasing in some lines, buying for inventory has in general ceased to be a major support to the boom.

Purchases of new plant and equipment, one of the chief factors in capital formation, continue at a high level, although in some lines the volume has ceased to in-

You oughta be in pictures!

THIS IS A PICTURE which assures radiant health. Your chest is the subject of this picture. Your health is its object.

Here are facts you should know:

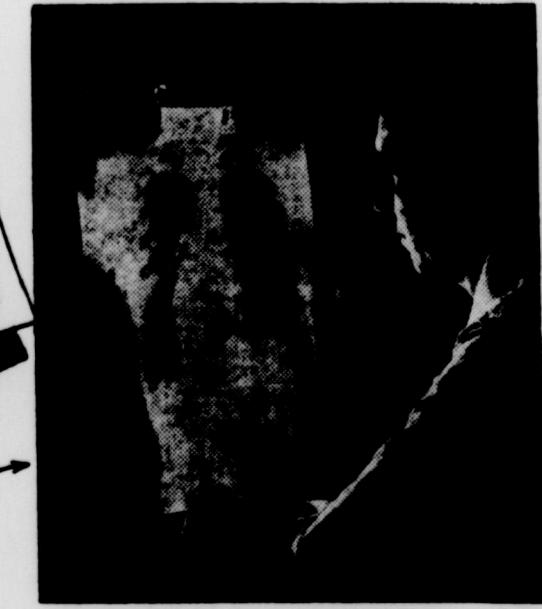

Between the ages of 15 and 44 tuberculosis leads all other diseases as the cause of death.

Tuberculosis kills approximately 50,000 people every year.

A half-million people in this country are estimated to have active tuberculosis. Of these, only one-half are known to health authorities.

One out of every two adults in the United States is estimated to have *tubercle bacilli* in his system . . . which might lead to active disease.

Early tuberculosis frequently has no symptoms of any kind.

The National Tuberculosis Association reminds you that:

The greatest safeguard against TB is excellent health. Active disease does not occur so long as the body's resistance can successfully fight germs.

TB is contagious. It is spread through coughing, sneezing, and personal contacts.

TB is curable.

The sooner the presence of TB is detected, the quicker the cure and the safer your family and friends will be from contagion.

A CHEST X-RAY, AT LEAST ONCE A YEAR, IS THE SAFEST, SUREST STEP TOWARD COMBATING TUBERCULOSIS

crease. Consumer durable goods and residential building are still extremely strong factors in the present demand situation, and particularly for housing, automobile, and refrigerators the demand shows little sign of declining. Foreign demand is still strong, although it has decreased somewhat from last year.

Assuming that the factors mentioned above are the sources of purchasing power most given to wide fluctuations, there is no immediate sign of a collapse of the present high level of demand.

Retail sales increased 2 per cent from June, after adjustment for seasonal variation. Sales of durable goods stores rose 2 per cent above June, and nondurable goods, 1 per cent.

Farm cash income for the first seven months of 1948 was down 12 per cent from a like period in 1947, but was still far above the prewar level. The Bureau's index was 345 per cent of the 1935-39 average, declining 1 per cent from June after adjustment for seasonal variation. Livestock prices are soaring to new levels, but grains and cotton declining in the face of excellent crops in the United States. Freshmeats are cheaper meat, although at the present time meat prices are regularly setting new records.

The index of consumers' prices in Houston was 174 on July 15, an increase of 1 per cent from the preceding month; food prices in Houston were 222, an increase of 1 per cent in a month.

Teachers, School Leaders And Parent Groups Urge Full Participation In Survey

Dear Mr. Ritter:
The Allison Texas P-TA endorses the X-Ray Program sponsored by W. R. Ritter, Health Inspector for Wheeler County, provided it isn't compulsory.

MRS. CHARLES TAYLOR,
President,
Allison P-TA.

Dear Mr. Ritter:
In response to a letter of recent date from the Wheeler County School Superintendent, in regard to the X-Ray program being sponsored by you for the benefit of the Wheeler County school children:

We believe this is a worthy program and if this program is not compulsory you may count on our cooperation to the fullest extent.
JESSE J. DYER,
Superintendent of School,
E. L. WALLACE,
President of School Board
JOHN MEGEE,
Secretary of School Board.

ONE OF THE FIRST TO BE X-RAYED in the two-week tuberculosis screening test program was **Henry Lawrence Hagg**, shown here undergoing the process. Operating the microfilming apparatus is **L. R. Belettee** of Austin. Tests are free to the public.

cent for your health program in Wheeler County. We are very happy that your X-Ray Survey is to be conducted in Wheeler County during this month. We realize the necessity of such a program, for the protection against such a dreaded disease as tuberculosis. I want to pledge our hearty support and cooperation in this program.

It is our desire that every eligible person will take advantage of this opportunity for a free X-Ray to be sure they don't have any symptom of such a disease.

Yours truly,
AURITER WELLS
Superintendent
Kellerville School

Dear Mr. Ritter:
The Thursday Review Club of Wheeler is behind the Chest X-Ray movement one hundred per cent. Since the movement is for the civic good of the county, the full cooperation of all its citizens is needed. If the assistance of our club is needed in any way, we will be more than glad to help.

MRS. LESTER ROBERTSON,
President,
The Thursday Review Club.

Dear Mr. Ritter:
This is to certify that the West-Passons Post No. 138, The American Legion, Wheeler, Texas, heartily endorses the tuberculosis campaign that is in prospect for this county. This Legion Post is for anything that will improve the general health of the people.

Very truly yours,
H. W. COFFMAN,
1st Vice Commander.

Dear Mr. Ritter:
On behalf of the School Board of Wheeler Independent School District I wish to take this means of expressing our thanks to you for securing the Mobile X-Ray Unit which will be in Wheeler September 20 and 21, 1948. I believe that this unit will afford a service that is very beneficial to this community.

The School Board fully endorses this service and we are happy to offer you the use of the High School Gymnasium when you are in Wheeler.

Yours truly,
FRANK O. WOFFORD,
President.

To the People of Wheeler and Surrounding Territory:

We earnestly urge you to take advantage of the X-Ray service that will be provided you during the week of September 20. This service is being provided by the County and State health authorities. There will be no charge for such service, and since your health is most important you should guard it with diligence. Your health condition, as disclosed by X-Ray examination will be revealed to you only, however it will be, at your request made available for your family physician.

HAROLD NASH,
President;
T. J. DAUGHTRY,
Secretary;
Wheeler Chamber of Commerce.

Dear Mr. Ritter:
In regards to the request of Mr. Ritter, I would like to state that Briscoe Schools are ready to cooperate in any health program for school children that is not compulsory.

Yours truly,
CLAUDE W. BARKER,
Chairman,
Briscoe School Board.

thorized and instructed me as president to notify you by letter that our organization thoroughly recommends and endorses the contemplated program of chest X-Rays to determine the existence of tuberculosis in the population of this county. We further urge you to obtain a unit for this purpose as soon as possible and we are willing and anxious to assist you in any way we possibly can concerning this project.

This motion was made, seconded and obtained a unanimous vote in our organization meeting.

Sincerely yours,
DOROTHY LEE JAMISON,
President,
American Legion Auxiliary,
Wheeler, Texas

SPEAKING OF UNIONS

COUNTY HEALTH CLINIC

HIGH SCHOOL GYNASIUMS

WHEELER, SEPTEMBER 20-21

MOBEETIE, SEPTEMBER 25

A mobile X-ray unit will be set up in the High School Gymnasium by the State Health Department, and will be available for use to Wheeler County citizens over 15 years of age. No charge will be made for having X-ray pictures taken. It will require about two minutes to take the picture, and no person will be

asked to disrobe. A record will be made of each picture, which will later be examined. If this picture shows a suspicion of tuberculosis or any other chest condition, the case will be referred to the person, who in turn may contact his or her family physician for proper treatment.

This movement is state-wide, and is being taken to eradicate as far as possible the spread of tuberculosis. It is an opportunity for each and every individual of this county over 15 years of age to have a test made that may mean checking or healing diseased lungs.

MEMO FROM THE SURGEON GENERAL:

"It is my hope that every person in the United States over 15 years of age will have a chest X-ray to make sure he is free of tuberculosis. If, within five years, we discover and follow up the great majority of tuberculosis cases, we can eliminate the disease as a public health hazard."

Signed:
THOMAS PARRAN
SURGEON GENERAL,
U. S. Public Health Service,
Federal Security Agency

Health Officials Are Praised For Bringing X-Ray Unit To County

Dear Mr. Ritter: Although a comparatively few students will come within the minimum age limit of those eligible to take advantage of the free X-Ray service to be offered in Wheeler County September 20-25, both dates inclusive, the persons most closely connected with our schools are heartily in favor of the program.

Printed below are letters from school board presidents and secretaries and P-TA heads of several Wheeler County schools.

Dear Mr. Ritter: The members of Kelton School Board welcome the opportunity to offer our services in cooperation with Wheeler County Health Department in its efforts to conduct a county-wide chest X-Ray survey. We understand that this program is being conducted for the purpose of locating actual or potential tuberculosis sufferers as well as a number of other chest disorders, and we are willing to cooperate with you in carrying out this program. We realize that we do not have the power to force anyone to take this examination, but we will continually urge both high school pupils and adults to do so.

Thanking you very much for your past services we are:

Sincerely yours,
GORDON STILES,
Secretary,
Kelton School Board.

First Wax Polishing In 500 Years

ST. AUGUSTINE, FLA.—Look at the shine on the shell of this 500-year-old Galapagos Island tortoise. It's the first cleaning and polishing the old boy has received in his lifetime. Note the dull shells in the foreground as contrasted to the one which has been polished with liquid wax. These tortoises are believed to be the oldest in the world. The Galapagos tortoises are desert dwellers in their native islands and do not care for water.

We are willing to cooperate with you in carrying out this program. We realize that we do not have the power to force anyone to take this examination, but we will continually urge both high school pupils and adults to do so.

We heartily endorse this X-Ray program.

Thanking you very much for your past services we are:

Sincerely yours,
MRS. LEONARD HAGERMAN,
President,
Kelton P-TA.

X-RAY PROGRAM IMPORTANT, SAY RURAL LEADERS

Dear Mr. Ritter: Your interest and efforts in behalf of the health of Wheeler County people is much appreciated. You are to be commended for obtaining a chest X-Ray for use during the coming Fall Fair at Shamrock.

All 4-H Club boys of Wheeler County will be contacted in the next few days and informed of the importance of getting every member of their families over 15 years of age and members of their neighbors' families over 15 years of age to get their chests X-Rayed.

Sincerely yours,
W. K. FREY,
Agricultural Agent,
Wheeler County.

Dear Mr. Ritter: I am glad to know you have succeeded in setting up a program for examination of all persons over 15 years of age for TB.

President,
Twitty School Board.

Dear Mr. Ritter: The Parent-Teachers Association of Shamrock wants to thank you for your efforts in getting the X-Ray machine here for the tuberculosis test.

We want to urge all adults and children over 15 to take the test. This is an opportunity that everyone should take advantage of, as it is free and highly beneficial.

Very truly yours,
MRS. WILLIAM M. ALLISON,
President,
Parent-Teacher Association.

Since this will be during the county fair it will be convenient for people to have their chests checked. I will talk to my Home Demonstration Club Women and encourage them to take advantage of this X-Ray check-up.

Yours truly,
EMMA MAY HASTINGS,
Home Demonstration Agent.

A Child May Drive So Drive With

From where I sit... by Joe Marsh

"Farming" Versus "Ranching"

Talked to some editors who run my column in their papers—in cases where there's mostly cattle and sheep raising—about the differences there might be between farming and ranching.

And they told me: "Joe, there's no real difference between cattlemen and farmers. We make our living from the land like your folks do; we have the same 4-H Clubs and Granges; the same problems of prices and marketing.

"When it comes to recreation, we have the same liking to get to-

gether now and then for a barbecue and a friendly glass of beer."

And from where I sit, that about sums it up. Ranchers may have different names for things or grow different crops. But all over America folks who work the land share those common traits of hard work, sober moderation, and good fellowship, whether they're growing cattle for beef, or barley for good American beer and ale.

Joe Marsh

Freed by Reds

LT. SHERMAN TURNER

AFTER being held for 18 days by Russian occupation forces in Germany, Lt. Sherman Turner (above), Council Bluffs, Ia., has been freed. Released at the same time was Roland Myers, Brooklyn, N. Y., who with Turner was charged with illegally crossing into the Soviet zone in Berlin and illegally taking photographs (International)

Dear Mr. Ritter: It has been brought to the attention of the Twitty School Board that during the week of September 20th Wheeler County people over the age of 15 years, will have an opportunity to avail themselves of a free chest X-Ray.

It is our understanding that this program is being conducted for the purpose of giving the residents of this county an opportunity to have themselves X-Rayed to determine whether or not they carry the dreaded tuberculosis germ; also that the X-Ray is free, confidential and no dressing is necessary.

We do not have the power of forcing anyone to participate in this program but will urge our pupils and their families to take advantage of this service.

Yours very truly,
J. B. HENDERSON.

His chest was protected BUT...

Drape-shape steel gave this well-dressed knight a certain amount of protection against stray missiles . . .

Yet he died, not in battle, but in bed . . . felled by a deadly dart 1/10,000th of an inch long—the tubercle bacillus.

He and millions of others through the ages never knew what hit them. Today we know. But ignorance and indifference still account for most of the 50,000 people who are killed by tuberculosis each year.

The germ that steel couldn't stop certainly can't be thwarted by a business suit or a mink coat.

Modern science and medicine, however, can give you effective chest protection. A chest X-ray is a sure way to detect TB!

If you are harboring TB germs, an X-ray can "see" their destructive effects long before you feel sick. If proper treatment is started in the early stages, the cure is comparatively easy.

The later TB is found, the longer, harder, and costlier will be the cure.

Remember, too, that TB is contagious. A person who has TB can spread it to other members of his family.

You can find out whether or not you have TB by having your chest X-rayed.

SO PLAY SAFE...

**A Special Notice To Those
Interested In The Wheeler Cemetery**

many of you know, the Wheeler Cemetery Association was
recently reorganized. The following trustees were elected: I.
Passons, F. H. Davidson, and C. M. Hampton. We are now
in process of originating a system of annual assessments of dues.
Dues will be due and payable as of January 1, 1949; for the
calendar year 1949. Funds derived from the assessment will be
used for the upkeep and improvements of the cemetery grounds.
We have a record of most of lot owners, but we do not have
addresses of many of those who have left our county and
reside elsewhere. We appeal to you who know persons who
are interested in the Wheeler Cemetery and now reside
elsewhere to bring or send such information to Cliff R. Wea-
ver's office, P. O. Box 176, Wheeler, Texas.

We sincerely trust that you will cooperate with us in this
undertaking.

WHEELER CEMETERY ASS'N.

**TB COULD BE
ERADICATED
IN DECADE**

WASHINGTON. — Tuberculosis
could be virtually wiped out in a
10-year program using the medical
knowledge we now possess, the Na-
tional Planning Association reported
recently.

It called the disease the main
cause of death for people in their
most economically productive per-
iod, 15 to 44. It produced figures
to indicate a saving in actual cash.

The association, a non-profit or-
ganization in which business, agri-
culture, labor and the professions
are represented, analyzes various
aspects of the nation's affairs and
suggests improvements.

Its comments on tuberculosis are
included in a new report entitled
"Good Health Is Good Business."

"The money cost of tuberculosis
to the people of the United States
—in combined private and public
spending—in 1943 amounted to
\$174,000,000," the association said.

The cost of eliminating tubercu-
losis in a peak year of the pro-
posed 10-year program, it added,
would not exceed \$320,000,000 (in
1943 prices).

At the end of the campaign, the
association said, "only a negligible

amount of the disease would re-
main and we would have to spend
only a relatively small amount to
keep it under control."

That amount, it said, would be
about \$37,000,000 a year.

It is probable that the lives of
a considerable number of persons
are lost annually as a result of fly-
borne infection with such diseases
as tuberculosis, typhoid fever and
intestinal disturbances. Files may
carry the tubercle bacilli from the

19 Interstate Truck Headaches

Here are just a few of the headaches faced by interstate truckers
because of the maze of conflicting state laws and regulations. Note the
profusion of license plates required for interstate operation of this
truck and Fruehauf trailer, 19 of which can be seen in the picture. You
can imagine the plight of a motorist if the same regulations applied to
passenger cars.

amount of the disease would re-
main and we would have to spend
only a relatively small amount to
keep it under control."

That amount, it said, would be
about \$37,000,000 a year.

It is probable that the lives of
a considerable number of persons
are lost annually as a result of fly-
borne infection with such diseases
as tuberculosis, typhoid fever and
intestinal disturbances. Files may
carry the tubercle bacilli from the

spatum cup of a tuberculosis pa-
tient; they may carry typhoid
germs from an open privy; and
they may carry the germs of diar-
rheal disease from the sewage-
soiled bank of a polluted stream.

Aside from being known carriers
of these diseases, files may also be
capable of spreading the virus re-
sponsible for infantile paralysis
and certain communicable infec-
tions.

**MOBETTIE GROUPS
ARE HAPPY OVER
HEALTH PROGRAM**

The American Legion Post 509 of
Mobettie, Texas, would like to take
this opportunity to offer any help
you may need in the forthcoming
drive to detect any person who may
have tuberculosis. On September
25, we will be at your service so
please don't hesitate to call on us.

Post 509, of Mobettie, Texas,
would like to see every family of
this community get behind this
drive and support it to the fullest
extent. We understand that any
person may get an X-Ray free and
in this manner they may know
whether or not they have tubercu-
losis.

As we said before, please do not
hesitate to call on us.

We are at your service,
DINZEL D. LEONARD,
Adjutant,
American Legion Post 509.

The Mobettie School realizing the
health value of the campaigner,
wishes to locate all persons suffer-
ing from TB and those that might
be carriers of the disease. We wish
to assist in every way possible to
help you and the State Health De-
partment in conducting the Wheeler
County X-Ray survey in September
1948.

Yours truly,
L. D. McCauley,
School Board Secretary,
Mobettie Ind. School.

The Mobettie Lions Club realiz-
ing the health value of the cam-
paigner, wish to locate all persons
suffering from TB and those that
might be carriers of the disease. We
wish to assist in every way possi-
ble to help you and the health
department in conducting the
Wheeler County X-Ray survey in
September 1948.

Yours truly,

**CITY HEALTH
OFFICER OKAYS
X-RAY PROGRAM**

To the People of Wheeler and
Vicinity:

The mobile X-Ray unit from the
State Department of Health at
Austin will be in Wheeler Septem-
ber 20 and 21, 1948, for the purpose
of making pictures of anyone fif-
teen years of age or older to check
for possible TB.

This service is free for the asking,
and the assurance it gives will be
well worth your time and effort. It
will take only a few minutes for
each person. I urge everyone to
have a picture made as a precau-
tion. Any information revealed by
these pictures is strictly confiden-
tial and will be released only to
the proper persons. Having a pic-
ture made puts you under no obli-
gation whatever.

Please take advantage of this
safety measure offered by the
State Department of Health.

Anyone wishing additional infor-
mation, come by my office and I'll
be glad to talk to you about this.

Sincerely,
GLENN R. WALKER, M. D.,
City Health Officer,
Wheeler, Texas.

AND OTHERS

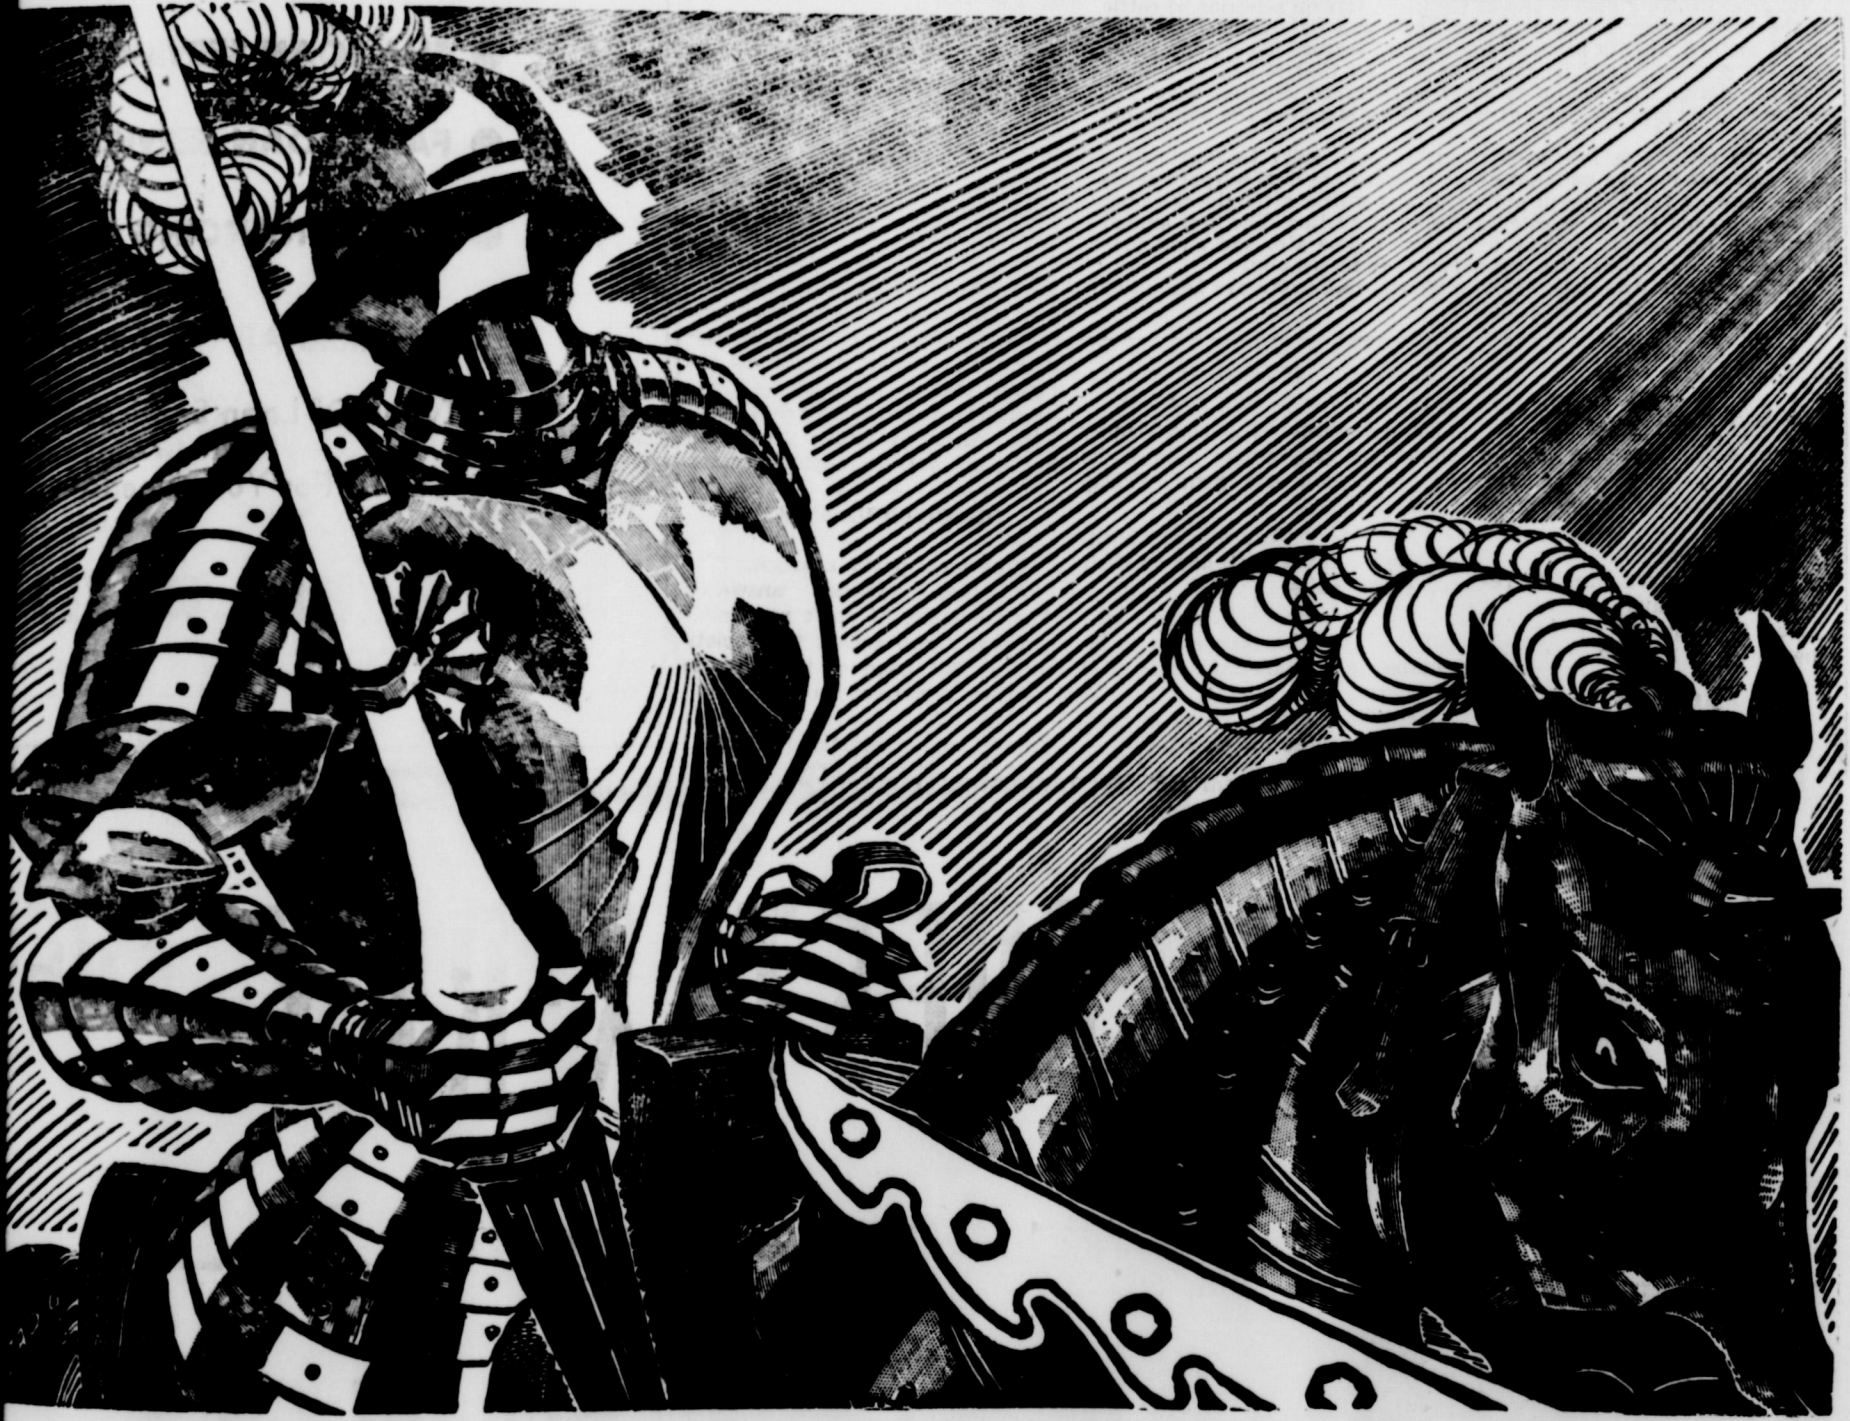

In a fashionable girls' school in
New England the history teacher
was telling the story of the settle-
ment of the country.

"Miss Cabot," she said, "can
you tell me who came over in the
'Mayflower'?"

"Yes," said the girl, "I can; my
ancestors and a few other people."

Newspaper Advertising Pays!

L. D. McCAULEY,
Member Committee,
Mobettie Lions Club.

His chest was protected - but...

Drape-shape steel gave this well-dressed knight a certain
amount of protection against stray missiles...

Yet he died, not in battle, but in bed... felled by a
deadly dart 1/10,000th of an inch long—the tubercle
bacillus.

He and millions of others through the ages never
knew what hit them.

Today we know. But ignorance and indifference still
account for most of the 50,000 people who are killed by
tuberculosis each year.

The germ that steel couldn't stop certainly can't be
thwarted by a business suit or a mink coat.

Modern science and medicine, however, can give you

effective chest protection. A chest X-ray is a sure way
to detect TB!

If you are harboring TB germs, an X-ray can "see"
their destructive effects long before you feel sick. If
proper treatment is started in the early stages, the cure
is comparatively easy.

The later TB is found, the longer, harder, and costlier
will be the cure.

Remember, too, that TB is contagious. A person who
has TB can spread it to other members of his family.

You can find out whether or not you have TB by
having your chest X-rayed.

SO PLAY SAFE!!!

CHECK YOUR CHEST . . . GET AN X-RAY!

EDITORIAL
This is our first issue of the Bronco and we sincerely hope it will be a great success. With the cooperation of all the reporters and editors we can have a good paper and lots of fun.

SENIOR NEWS
The seniors are going to have their pictures made September 16, as naturally we have elected our class officers.
Thurman Horn, President; Betty Jo Standlee, Vice-President; Rosemary Finsterwald, Secretary-Treasurer; Janice D'Spain, Reporter.

We are proud to say that Mrs. Bragg is both the senior and junior class sponsor.

JUNIOR JABBER
The junior class met Friday and elected their class officers.
Tommy Elland, President; Margaret Kite, Vice-President; Melba Strawbridge, Secretary-Treasurer; Roberta Zybach, Reporter.
The junior class are glad to welcome our new members. La Nell Culwell, Tommy Elland, Richard E. Chandless, Most of the juniors are taking English, Bookkeeping, Typing and Economics. We think

that these subjects will prove very interesting.

SOPHOMORE NEWS
The sophomores met Thursday afternoon and elected their class officers. They are as follows:
Glenn Welch, President; Alvie Daughterty, Vice-President; Doris Brotherton, Secretary-Treasurer; Joyce Caudell, Reporter; Mrs. Harrell was elected our sponsor.

FRESHMAN NEWS
The freshman class is glad that school has started again. We have elected our class officers for the year, and also our sponsor.
Tolene Parker, President; Carrol Wayne Mc Craw, Vice-President; Imogene Pannell, Secretary-Treasurer; Thomas Roy Helton, Reporter; Douglas Robertson, Program Chairman; Mrs. A. B. Harrell, Sponsor.

We freshman are glad to enter high school and we shall cooperate with all the activities.

SPORTS NEWS
The basketball girls received their suits Friday, September 10, and are ready to start practice. We are very happy to accept our new coach, Miss Culwell. We are all having to work very hard and hope to develop a good team.

LOCAL CHIT-CHAT
Dorothy was rather disappointed Sunday evening. Tell us about it Dorothy.
Betty, Truman, Roberta and Tom went to see "Red River" Sunday afternoon.

Margaret was seen with her brother Sunday at the baseball game.

Melba said she had a most interesting time Sunday.

La Nell Culwell went to her home at Westside for the weekend.

Dorothy, Rosemary, and Johnny were seen in Wheeler and Shamrock Sunday.

The annual pictures are to be made Thursday.

A PAIR OF Gene Autry COWBOY BOOTS
your junior cowboy will enjoy... and a western atmosphere box for his treasured collections, plus an autographed portrait of Gene himself.

Make your junior cowboy happy, get him a pair today.

American Milking Shorthorn Society Establishes Independent Registry

The American Milking Shorthorn Society has recently set up its own independent registry office for Milking Shorthorn cattle. This was done upon the unanimous vote of the member breeders and, according to Secretary W. J. Hardy, because this branch of the Shorthorn breed had made such rapid growth in the past decade that it was felt to be in the best interests of the members to record and promote their cattle under independent direction.
This branch of the Shorthorn breed should not be confused with the Beef Type Shorthorn, although formerly all the registration work had been handled by the American Shorthorn Breeders' association. The new organization makes its debut with 8,000 member breeders who are highly enthused and full of plans for the future promotion of their chosen breed.
Mr. Keith King is the president—an active breeder who resides at Victoria, Ill. King also is one of the inspectors on selection of cattle for the forthcoming National Breed Show and Sale at Dallas, Tex., Oct. 18 and 19. This is perhaps the biggest feature among the many plans for promotion and is unique in the fact that it will be a show of "State Herds," something no other cattle breed has ever done. The first show of its kind was held at Kansas City last year and was highly successful.
In the picture is President King (in dark suit) looking over a likely prospect for the national event where these dual-purpose cattle will be showing for \$5,000 in premiums and which, after the showing, the best animals will be selected and sold at auction. The first annual meeting of the society will be held at this time also and more than 1,000 members and delegates are expected to be present.
Offices of the American Milking Shorthorn Society are located at 122 S. Union Ave., Chicago 9, Ill.

WONDER WHY

A. & M. COLLEGE Concerned With Pasture Lands

Pastures either established or maintained by such cultural treatment as seeding and fertilizing are the concern of the A. & M. College Department of Agronomy, according to Robert R. Lancaster, extension pasture specialist of Texas A. & M. College.
These pastures are supplemental, permanent, renovation, rotation and irrigated pastures. Supplemental pastures are annual grasses and legumes in rotation with other crops. Among them are the cereal grains, ryegrass, rescuegrass, with legumes for cool seasons, and for warm seasons, lespedeza, sudangrass, and johnsongrass with sweet-clover.
Permanent pastures occupy large areas not suited to other use. Too much is short, thin, weedy and run-down. Improving and maintaining running sod grasses in such locations aids in conservation. They may include overflow bottoms, stump land, rock land and hills.
Renovation is improving run-down permanent pastures by fertilizing and overseeding without total cultivation. Open, smooth land, well drained and with enough rainfall is most suitable for renovation. Re-treatment may need be every 3 to 4 years.
Rotation pastures are a recent development in Texas. The rotation involved is with row-crops after several years in pasture. This calls for grasses worthy in yield and quality of the best land.
Suitable grasses must be easy to plant and easy to get rid of. Grasses available for rotation are rhodesgrasses, KR bluestem, blue panic, weeping lovegrass, johnsongrass, kentucky 31 fescue and others are in prospect. Alfalfa, sericea lespedeza and Madrid sweetclover are legumes that might be used.
Rotation pastures with row-crops offers much in forage production and in soil building, says Lancaster.

Local Ladies Endorse TB X-Ray Program As Beneficial To Citizens

Dear Mr. Ritter:
In regard to bringing the TB X-Ray machine to Wheeler County, I want to pledge endorsement from the Wednesday Study Club of Wheeler.
We are heartily behind this movement and I assure you we will assist you in any way possible.
Tuberculosis along with cancer should concern every person in our county and our club will unite with you in this worthy undertaking.
Sincerely,
Mrs. R. J. HOLT, President,
Wednesday Study Club,
Wheeler, Texas.

Dear Mr. Ritter:
It is a rare privilege for the citizens of Wheeler to have the service of this X-Ray machine brought into our community.
It is also the duty of each one of us to take advantage of this opportunity because it will help improve the health and welfare of our community, state, and nation.

Wheeler County

NUMBER 40

WHEELER, TEXAS, THURSDAY, SEPTEMBER 16, 1948

5c Per Copy

THE COUNTY SEAT NEWSPAPER

WHEELER FOOD PRICES DISCUSSED

Natural support prices for many commodities have been in the news lately. Some of the commodities that should have all the support prices are available on the commodities market at what levels are supported by present legislation.

The commodities prices supported at levels from 90 to 95 percent of parity will be supported at levels from 90 to 95 percent of parity.

Commodities include American cotton, dried beans, Irish potatoes, soybeans, sweet potatoes, wool, etc.

It is meant by parity? Parity represents a fair return to the farmer for the goods he produces.

When farmers get their share of the national income, they are immediately taking the share of the national income that they must keep for their labor and for the maintenance of their farms.

Edgar Hubbard, who has alternated at end and center last year and this year up until Friday night, did a commendable job at the pivot post last Friday night.

In turning through the pages of the Wheeler Times this week you will perhaps note the appearance of news from three of the schools in the north portion of the county in the form of "The Corral", published by the students of Wheeler High School.

Mustangs Lose To Irish 14 To 7, After Game Fight

The Wheeler Mustangs won a moral victory even though they didn't win the ball game last Friday night and it is believed that every Wheeler supporter was well pleased to see their Mustangs score first and almost tie or possibly win from a team that has been picked to win state honors in class A this year.

The Shamrock Irishmen defeated the Mustangs last Friday night in a hard fought contest on Denver Field by a count of 14 to 7 but it was only after coming from behind and the Mustangs were driving down the field toward the end of the contest lasted a few minutes longer.

The Mustangs playing without services of Gene Hubbard and Johnny Weeks, whom it has been found were both too old to participate in high school athletics, rocked and socked for all they were worth against the big experienced Irishmen last Friday night and took the opening kickoff and drove it down the field over the goal line for a counter before the Irishmen could solve their defense.

The Wheeler lads scored nine first downs as against ten for the Irishmen but were behind 1 to 3 on 20-yard penetration when it comes to that end of the statistics.

Bill Robertson, Mustang quarterback, played better ball Friday night than he did in the opening contest of the season and it is the belief of Wheeler fans that Corky will step out and really become a talented leader and director of the Mustang backfield now that he won't have the able assistance of Gene Hubbard.

Garland Parks, playing his first contest as a starting back in the Mustang uniform, turned in a sterling performance and it is believed he will develop into a fine back before the season is very far gone.

Bryan Close scored the first Irish touchdown in the second period on a short line buck and McLemore kicked the extra point. Jimmy Green passed to Pool for 25 yards and the final Irish count in the third period and McLemore kicked the extra point.

School Papers Make First Appearance Of Year In This Issue

The Wheeler Times this week you will perhaps note the appearance of news from three of the schools in the north portion of the county in the form of "The Corral", published by the students of Wheeler High School.

'SCHOOL SPIRIT' HAS RETURNED TO WHEELER

It appears that old "school spirit" which has been so noticeably absent from Wheeler High School during the past two years has returned, thanks to the fine work being done by Supt. W. O. Carrick, Coach Bernie Smith and the fine corp of teachers which Mr. Carrick and the Wheeler School Board have assembled.

Evidence of the fact that the "school spirit" has returned to Wheeler was shown Wednesday night when a large group of students and fans gathered at the Wheeler School buildings to stage a gigantic pep rally and bonfire to help build up the spirits of the Mustang players for their contest with the Pampa Gorillas which is to be played tonight (Thursday) on the Pampa gridiron.

Other evidence that the "school spirit" has returned to Wheeler High School can be noticed by taking a look at the large group of girls which have joined in the pep squad and the larger group of boys participating in football.

Wednesday night's demonstration of spirit by the Wheeler school would make any loyal Mustang supporter bulge with pride and give him that "indefinable feeling" which wells up inside one when he is filled to overflowing with joy.

Again we say congratulations to Supt. Carrick and his fine staff and power to Wheeler High School and the Mustangs.

Reproduced below is the first ten Class B teams in the Panhandle according to Kolander and also what Kolander had to say regarding Coach Bernie Smith and the Mustangs.

Here's the top ten this week:

1. Kress
2. Wheeler
3. Dimmitt
4. Canadian
5. Happy
6. Spearman
7. Turkey
8. White Deer
9. Witharrah
10. Anton

TRI-STATE FAIR BOOSTERS WILL VISIT WHEELER

A "revue" of the Tri-State Fair will be given Wheeler residents when a touring group of Amarillo businessmen visit here 10:35 September 24.

The Fair's Reception and Goodwill Committee is making an area-wide swing through the Panhandle Plains to personally invite Amarillo's neighbors to the annual exposition. Fair dates are October 4 to 9, inclusive.

The trip will be made in a specially-chartered bus, carrying 25 of the Fair boosters. Jay Taylor, Fair President, will head the delegation.

While in Wheeler, a public demonstration will be held at some downtown point. A crew of speakers will tell of the attractions of this year's fair.

"It's the biggest and best ever," President Taylor, an Amarillo cattleman, proclaims. To back up his statement, here are some of the special attractions:

The famous network radio program, "Ladies Be Seated", which will feature both afternoon and evening sessions during the Fair. The All Girls Rodeo, first launched by the Fair last year and expanded for the 1948 program.

A group of Junior Chamber of Commerce boys will be on hand to boost ticket sales for "Ladies Be Seated" and "The All Girls Rodeo".

Mobile X-Ray Unit Will Give Tests Here Next Week

Arrangements have been completed for the two-day visit in Wheeler and one-day visit in Mobeetie next week of the State Health Department's mobile X-ray unit, W. R. Ritter, county sanitarian announced this week.

The mobile unit will be in Wheeler Monday and Tuesday, September 20 and 21 and will be in Mobeetie Saturday, September 25. Free X-ray examinations for the purpose of detecting active cases of tuberculosis will be given.

The unit will be set up at the High School Gymnasiums in both Wheeler and Mobeetie. All citizens of Wheeler County 15 years of age or older will be given the opportunity to take advantage of the free examinations. The State Health Department will assist any persons found to be suffering from tuberculosis to obtain treatment if they are unable to obtain it from their private physicians.

Records of the results of the examinations will be made. Those persons whose X-ray pictures show suspicion of tuberculosis or positive cases of the disease will be notified. A public health nurse will visit the positive cases to determine what can be done to treat the disease.

Members of the Wheeler Chamber of Commerce will go in a body to the TB X-Ray Health Clinic next Tuesday noon to be X-rayed in the drive to fight tuberculosis.

Every member of the club will be X-rayed, Nash said. The members will go to the clinic at the High School Gymnasium during their regular luncheon hour Tuesday noon. The visit to the clinic will take the place of the regular program.

Wheeler Chamber of Commerce members this week joined other groups in urging all citizens of Hall County to take advantage of the mobile X-ray unit's visit here. They urged other civic groups and clubs to join in the campaign by scheduling trips to the clinic, either in a body or individually.

EDITOR'S NOTE:—Below is the second of a series of articles supplied the Times by Dr. V. N. Hall, regarding dental health!

The six year molars are considered the most important teeth in the mouth. They are the largest teeth in the human mouth. Six year molars are among the first permanent teeth to come through the gums. There are four of these teeth, one above and below on each side of the mouth.

Mustangs Gain Second Position In Class B According To Poll

Jerry Kolander, Amarillo Daily News sports writer, ranked the Wheeler Mustangs as second best Class B team in the Panhandle this week in his selection which came out in Tuesday morning's Amarillo News.

Reproduced below is the first ten Class B teams in the Panhandle according to Kolander and also what Kolander had to say regarding Coach Bernie Smith and the Mustangs.

Here's the top ten this week:

1. Kress
2. Wheeler
3. Dimmitt
4. Canadian
5. Happy
6. Spearman
7. Turkey
8. White Deer
9. Witharrah
10. Anton

Coach Bernie Smith of Wheeler won't have to take a back seat from anyone this season, either Class A or Class B. The team was ranked in the fourth spot last week, but the outlook right now would seem to indicate that the Mustangs will never rank that low again all season.

The toughest part of Wheeler's schedule will come when they meet White Deer and Spearman on successive Saturdays, otherwise the set-up is ideal and allows the Mustangs a chance to catch their breath every once in a while.

Effort Will Be Made To Get Jobs For The Physically Handicapped

October 3 through 9, is "Employment of the Physically Handicapped Week" according to L. P. Fort, manager of Texas Employment Commission. The activities of the "Week" in the Pampa area will not be led by Employment Commission, Fort stated, however, the Texas Employment Commission would like to know of each handicapped person in Gray, Wheeler, Hemphill and Roberts Counties, who is unemployed.

FFA CHAPTER IS ORGANIZED

Wheeler Future Farmers of America, Vocational Agriculture Chapter, held a meeting on the fourteenth day of September to elect officers for the school year of 1948-49.

The chapter presented a new idea in the way of electing their officers. The members had to volunteer for what ever office they wished to hold, and when the time came they each said their part as if a meeting was being held.

The officers elected are as follows: president, Harold Hardcastle; vice-president, Corky Robertson; reporter, Richard McWhorter; treasurer, Lindon Sanders; Bobby Henderson; historian, Edgar Hubbard; sentinel, Jack Mitchell and song leader, Doyle Waters.

Tuesday afternoon, Mr. Clepper, the advisor and instructor, attended a district meeting at Panhandle, to elect officers for this district. Attending the meeting with him, as voting delegates, were Charlie Blevins and Gene Sides.

To get a general view of this meeting, I will try to explain it. Only one member from each chapter is eligible to hold office in the district meetings and he must also be holding office in the local chapter.

Every member in the Wheeler Chapter was nominated for some office and as a result, Richard McWhorter was elected District Reporter.

Delivery Is Made On "New Red Job" After Two Years Of Waiting

That "New Red Job" finally arrived last Saturday afternoon and Harold Nash called The Times office and informed one of the employees that he wanted to see the editor who happened to be out of town and he informed our employee that it was very important that he see us and that he had something we had been waiting a long time to receive.

Times employees all knew that we had been on Mr. Nash's list for a very long time and naturally figured that the business Mr. Nash mentioned could only mean that the "New Red Job" we had been waiting for had arrived; so, when we saw one of them down town Sunday morning he put us all in a dither so we could hardly wait to get in touch with Mr. Nash; so, we called him, but it seems that he has a policy of not making sales on Sunday, and he informed us the business could wait.

Anyway, we now have the "Red Job" and it is on display in our show room.

Mrs. Lee Barry Speaks At Mobeetie P-T. A.

The Mobeetie P-T. A. held its first meeting of the season last Thursday evening. The meeting was well attended. Mrs. J. H. Scribner was in charge of the program.

The principal speaker for the evening was Mrs. Lee Barry of Briscoe, who gave an interesting and inspiring talk on, "The History and Ideals of The P-T. A."

Junior News Failed To Make The Corral

Below is an item of school news which should have appeared in the Corral this week but due to some mix-up failed to get with the remainder of the school news.

Medical Group Holds Meeting

The nine-county Top of Texas Medical Association held its first consolidated meeting with a banquet at the Pampa Country Club Tuesday night.

"Melody Menders," a male quartet, under the direction of Dr. Calvin Jones, sang three numbers. Dr. Paul De Camp of Tulane University at New Orleans, La., addressed the group on "Diagnosis of Cancer of the Lung." The lecture was illustrated by pictures of specimens both in X-ray and color.

At the business meeting which followed, problems confronting the doctors in this area were discussed, as was the election of new officers in November.

Dr. M. C. Overton, Jr., of Pampa is president of the association. Dr. Charles H. Ashby is program chairman, and secretary-treasurer is Dr. H. M. Hamra of Borger.

Attending the meeting were eleven doctors from Borger, two from Spearman, one from Wheeler, and three from Perryton. The rest of the group of 50 who were in attendance were from Pampa, McLean, White Deer and various towns in this area.

The Top of Texas Medical Association plans to hold meetings the third Tuesday of each month. The next meeting will be held October 19 at the Sanford Hospital in Perryton. The doctors will be the guests of Dr. Sanford.

C of C Members To Set Example By Going In Group To Get X-Rayed

Members of the Wheeler Chamber of Commerce will go in a body to the TB X-Ray Health Clinic next Tuesday noon to be X-rayed in the drive to fight tuberculosis.

Every member of the club will be X-rayed, Nash said. The members will go to the clinic at the High School Gymnasium during their regular luncheon hour Tuesday noon. The visit to the clinic will take the place of the regular program.

Wheeler Chamber of Commerce members this week joined other groups in urging all citizens of Hall County to take advantage of the mobile X-ray unit's visit here. They urged other civic groups and clubs to join in the campaign by scheduling trips to the clinic, either in a body or individually.

DENTAL HEALTH IS IMPORTANT

EDITOR'S NOTE:—Below is the second of a series of articles supplied the Times by Dr. V. N. Hall, regarding dental health!

The six year molars are considered the most important teeth in the mouth. They are the largest teeth in the human mouth. Six year molars are among the first permanent teeth to come through the gums. There are four of these teeth, one above and below on each side of the mouth.

The Wheeler P-T. A. will begin their fund raising activities for the 1948-49 term with a pie supper at the High School Gymnasium Friday night, September 24 at 8:00 o'clock according to Mrs. Bill Owen, president.

County Singers Will Meet At Kelton Sunday

Bennie Fulks, president of the Wheeler County Singing Convention, announced this week the convention will meet at Kelton Sunday afternoon, September 19.

Everyone is invited to attend and bring someone with them. Fulks stated.

P-T. A. To Open Fund Raising Campaign With Pie Supper Sept. 24

The Wheeler P-T. A. will begin their fund raising activities for the 1948-49 term with a pie supper at the High School Gymnasium Friday night, September 24 at 8:00 o'clock according to Mrs. Bill Owen, president.

As an added attraction some one will receive a beautiful Martha Washington bedspread. The proceeds from the entertainment will be used to help clear up the indebtedness incurred when the P-T. A. purchased new back drops and curtains for the Wheeler Grade School Auditorium. The new curtains and back drops have already been installed and are in use.

Patrons of the school district are urged to make their plans now to attend this event, since the Mustangs have an open date on that weekend.

Telephone Operators To Help In TB Survey

The Wheeler Chamber of Commerce offers a note of thanks to Miss Birdella Genthe and the operators at the Southwestern Associate Telephone Co. office for agreeing to call every number in the Wheeler directory either Monday or Tuesday and remind the people of Wheeler to go down to the Wheeler High School Gymnasium and get a free chest x-ray to determine whether or not they have any symptoms of TB.

SOCIETY

Conwells Are Honored On 50th Anniversary

Mr. and Mrs. S. D. Conwell were honored with a lovely dinner Sunday when they celebrated their Golden Wedding Anniversary. Mr. and Mrs. Conwell were married at Gainesville, Texas, but have made their home in Wheeler the past 35 years.

The three tiered wedding cake, which was topped with a 50th anniversary seal, centered the dining table which was laid with a linen cloth of gold color. Seasonal flowers decorated the entertaining rooms.

Present were: Mr. and Mrs. Oscar Conwell, brother, of Mr. Conwell of Beech Grove, Tenn. Charlie Conwell, another brother, Wheeler, Mr. and Mrs. Oscar Conwell and sons, Albuquerque, N. M.; Mrs. Monte Conwell and daughter, New York, N. Y.; Buford Conwell, Ft. Worth; Mr. and Mrs. A. D. Speck and children, Mr. and Mrs. H. O. Miller and S. D.; and Mr. and Mrs. Fred J. McCarroll and son, all of Wheeler.

Several friends called in the afternoon to congratulate Mr. and Mrs. Conwell and wish them continued happiness.

Mrs. Wilson Hostess Good Neighbors Club

The Good Neighbors Home Demonstration Club met September 9 in the home of Mrs. Mit Wilson, with roll call being answered by ten members after the usual opening song and prayer.

Committees and members spent some time planning for the county fair. A special meeting was called to further the plans and preparations for the fair and baking contest to be held in connection. All members are urged to attend and bring something to be entered in the baking contest.

The program following the business was on recreation, each one participating.

Delightful refreshments were served to: Mesdames T. A. Treadwell, A. R. Meek, W. A. Finster-

wald, Vernon Sivage, Farmer Hefley, M. Finsterwald, Bob Ramsey, Ralph Oldham, Weaver Barnett and the hostess, Mrs. Mit Wilson.

Mrs. Hastings Gives "Storage Space" Demo

"When things are packed away in boxes, label each box so you will know the contents of each box without having to open it," stated Mrs. Emma May Hastings in a demonstration on "Storage Space", given to the Briscoe Home Demonstration Club.

The club meeting was held in the home of Mrs. Elbert Zybach, Tuesday, September 7.

Those present were: Mesdames Malcolm Levitt, Clarence Zybach, Ernest Zybach, R. L. Zybach, Emma May Hastings and the hostess, Mrs. Elbert Zybach.

Future Homemakers Elect Officers Mon.

The Future Homemakers met September 13 at the Home Make cottage, with the meeting called to order by Maurine Herd, acting chairman.

Officers were elected as follows: president, Imogene Reid; vice-president, Winnie Reid; secretary-treasurer, Margaret Holdeman; song leader, Georgie Ford; historian, Maurine Herd; reporter, Dixie Sanders; Club Mother, Mrs. Emma Hastings; and program leader, Ruby Davis, Charlotte Weatherly and Maurine Herd. During the business meeting it was also decided that the club would meet at 7:30 p. m. on the second and fourth Mondays of each month.

The Homemaking III class served refreshments of ice cream and cookies to the 17 girls present.

Mrs. Holt Hostess At Tea Opening Club Year

The Wednesday Study Club opened the 48-49 club year with a five o'clock tea in the home of its president, Mrs. R. J. Holt, Sr.

NATIONAL PRESS BUILDING WASHINGTON, D. C.

By Anne Goode

The last word in shopping comfort comes from a Houston supermarket where self-service customers can sit in a chair and pick their food from a moving belt passing before them.

Remember to save your old summer nylon. Then when cool weather comes you'll be glad, because they can be dyed the lovely deeper colors, the "inky" tones, with all-purpose dye.

Close-toe shoes are outselling the popular open-toe styles in the high price lines, we hear. But nothing replaces the well-kept shoe, so remember to keep all your footwear well shined and brushed.

If you like that tender and so good member of the squash family, zucchini, try preparing this way: slice and saute in vitaminized margarine in a skillet with cubed tomatoes and diced onion.

To remove onion odor from hands, rub with salt immediately. Or perhaps you'll want one of those choppers that's on the market now. It's a covered glass cup with inside chopper. Prevents "weeps" and finger stain.

Enjoy that Sunday breakfast! And to get away from the usual bacon and eggs team, add baked tomatoes to the menu. Just cut off the tops and season with salt and pepper, a bit of vitaminized margarine and they'll bake while you're doing the rest.

The entertaining rooms were beautifully decorated with seasonal flowers. Tea was served from the beautifully appointed table centered with a large basket covered completely with flowers in shades of yellow, tan and brown. From the handle ran streamers in like colors ending in corsages for each of the guests. Mrs. Holt was assisted in serving by the social committee, Mrs. C. J. Meek, Mrs. Lee Guthrie and Mrs. Max Wiley. Miss Margaret Ann Holt played

several piano selections and accompanied Mrs. R. J. Holt, Jr., soloist.

The president greeted the club with her hopes and expectations for a good club year and asked Mrs. Lee Guthrie to give a short introduction of the year book.

Present were: Mesdames Harry Wofford, Jimmie Mitchener, D. O. Beene, W. L. Williams, R. Wm. Brown, T. M. Britt, M. McElhany, J. W. Barr, Frank Wofford, Cora Hyatt, Harold Nash, George Porter, Glen Porter, Carl Laflin, H. M. Wiley, the hostess, social committee and visiting artists.

Thursday Review Club Holds Initial Meeting

The Thursday Review Club met Thursday night at 7:30 o'clock in the home of Mrs. Lester Robertson. Mrs. Lester Robertson, president of the club, presided over the short business session, after which a social hour followed.

Lovely refreshments were served to the following members: Mesdames W. A. Goad, Jr., Earl Barnes, J. A. Clepper, Buster Callan, J. C. Howell, Roy Ford, R. J. Holt, Jr., Allen Kavanaugh, Car-

roll Pettit, Louis Martin, and Misses Vonell Starkey, Glenna Hefley, Louise Tillman, and Wilma Hefley, and the hostess, Mrs. Lester Robertson.

Mr. and Mrs. Louis Martin and Mr. and Mrs. Carol Pendleton were visitors in Pampa Sunday evening.

Kirk Kite of Austin left Wednesday for Austin where he will be a sophomore at the University of Texas.

Mr. and Mrs. J. R. Helton of Briscoe are the parents of a daughter, Ida Lou, born at the Wheeler Hospital September 11.

David Britt left this past week for Texas A. and M. College where he will enroll for his second year work.

A. H. Wilson of Sweetwater, Okla. was dismissed from the hospital September 16 where he had been receiving medical aid.

Vincent Cobb was dismissed from the local hospital today, (Thursday) after receiving treatment the past few days.

Personals

Mrs. J. B. Denson of Amarillo is visiting this week in the home of her son and wife, Mr. and Mrs. Cecil Denson.

S. D. Miller, F. B. and Lewis Craig and Gene Hall left Wednesday for Austin where they will enroll in the University of Texas.

Mrs. Richard Bradley and daughter, Sharron, have been visiting friends in Dumas this week.

Mr. and Mrs. L. L. Anderson's baby of Amarillo entered for treatment at the Wheeler hospital today (Thursday). Mr. and Mrs. Anderson have been visiting in the M. B. Gillispie home.

Narville Clinton Simpson of Mobeetie has returned home after having received aid for a broken leg sustained when he collided with a car while riding his bicycle.

Friends of Mrs. Emma Hastings were sorry to learn of a medical patient in a hospital in Austin.

Gene Hubbard and Corrie left Sunday for Dumas where they will enroll in college.

Mr. and Mrs. L. V. Dumas visited Sunday in the home of Mr. and Mrs. Farmer.

Mrs. Sam Risner, Mr. and son, Henry, plans to go to Moberly, Ark. Friday where they will visit their mother.

The Wheeler Hospital announced that they had the help of Mrs. King from New Orleans, La.

How to End Washday Blues

WASHING machines have taken most of the drudgery out of washday. But the time and steps involved in preparation for the job still make it the longest and heaviest day of the week for many homemakers.

Before they even start the laundry, obstacles loom in the day's work schedule. Among them are the breakfast dishes and a half-dozen trips—with full pack—to the basement laundry. Recent developments in household equipment have shortened and lightened washday by bringing the laundry operation into the kitchen with a combination dishwasher and clothes washer. Thor's combination machine makes it possible to do both the dishes and family wash quickly—without leaving the kitchen.

Completely separate drums perform each operation in one machine. Not a drop of dish water touches clothes. Not a dish comes in contact with water in which clothes are washed.

Easy to Convert
 Seven days a week the automatic machine is a dishwasher. On washday a simple exchange of drums converts it to a washing machine for clothes.

In this new laundry plan the breakfast dishes fit smoothly into the washday schedule. When breakfast is over, the dishes go into their racks in the dish drum and are washed and rinsed in only five minutes.

Complete service for six is washed and rinsed in only six quarts of water and a small quantity of detergent. Since the dishwasher uses water hotter than hands can stand, dish sanitation is assured.

While the dishes are drying in the machine, the laundry is sorted out for washing. The dry dishes are then returned to the cupboard and the dish drum replaced by the clothes tub. Both lightweight units are easily handled.

Now converted to a washing machine, the unit goes to work

1. Breakfast dishes are washed and left to dry in the racks for several minutes before being removed to make way for the family wash.

2. To convert from dishwasher to clothes washer, the dish drum is merely lifted out and replaced by the clothes tub. The lightweight units are easily transferred.

3. Clothes should be rolled gently into balls when placed in the tub. The agitator-type combination washer takes a full load—eight pounds of dry clothing.

4. Clothes are washed, rinsed and spun dried without leaving the tub. One handy dial controls the machine through all its operations of washing clothes and dishes.

on clothes. Untouched by the homemaker, they are washed, rinsed and spun dry.

One dial control puts the machine through its dishwashing and laundering operations. The combination is designed so that washing, rinsing and drying times can be regulated to the

amount of soil and the type of fabric.

Science has thus taken the blues out of washday. Besides saving steps and effort, it has made the once-a-week washing machine into an every-day work-saver for the nation's homemakers.

new hair to lay down. Here's an important point: Use your hand as well as the brush. Finger movement will stimulate secretion and soften the hair and skin.

Training the dairy animal to lead, pose and obey commands is part of the daily routine. Study the animal closely and see what position she looks best in, then train her to pose in that position. Train the animal to stand with all four feet placed squarely under the body and slightly apart.

If the animal drops in the rump, pinch along the back between the hips with your fingers. If low in the back, touch it under the belly. If the back is humped, touch it lightly on the middle of the animal's back. Most important of all, never lose patience or get rough with an animal you are training. Kindness always gets the best response.

Often it is necessary to train the horns on your animals in order to give them a good shape. Many people use fire and mechanical devices. These are recommended by nearly everybody that uses them.

About a week before the show is the time to give the horns a final dressing. Smooth down the rough outside surface with a rasp or horn scraper. Finish off the job with emery cloth. Then apply pumice stone or sweet oil. Polish the horns with a woolen cloth just before showing the animal in the ring.

Trim the overgrown hooves to make them shapely and comfortable. Levelness on the bottom is essential, and most of the weight should be on the outside wall of the foot. You can do a fine job with a file from time to time, and keep the hooves in pretty good shape. Maybe you can pick up some extra points in the ring by cleaning the hooves and rubbing them with oil.

If you have done a good conditioning job on the hair, you won't have to clip the animal all over. Clipping tends to make the hair coarse. A few days before showing the animal, clip the long hair around the head, ears, above the switch, inside the legs and around the udder.

Just a day before the show, wash, braid and wrap the switch. Rinsing it in bluing water will brighten the color of the hair, too. Just before going into the ring, unbraids the switch and comb it out. This will give the animal a clean, fluffy switch that adds points to its appearance.

Feeding roughage puts high medals on dairy animals, says Davis. Feed them good quality hay frequently. The barrel capacity of an animal will show up the best if the animal takes a good drink of water fifteen or twenty minutes before going into the ring.

After these many weeks of fitting the animal for the ring, you want to keep her looking her best when you get her there. Never allow her to drop or go to sleep at any time. When stopping the animal, always try to stop her with her forefeet on slightly higher ground than the hind feet, says Davis. And one of the most im-

portant things of all to remember when you're in the show ring is to keep one eye on the judge shown at all times.

HE WAS ONLY SPARKING

Judge—A few minutes ago I swore that you were only sparring with the plaintiff and that what injured him. Now we've proved that you struck him with the head with a blunt instrument. Why did you lie?
 Prisoner—I was telling the truth, your honor; it was a spar I hit him with.

In cooperation with druggist all over America, our store is observing Advertised Brands Week, September 17 to 24.

We are offering many of these items at special prices during this week and you are cordially invited to visit our store and avail yourself of these many bargains.

CHAMPIONS ARE MADE AT HOME

Champions are made at home, and not in the show ring. The amount of training and conditioning your animal gets between now and show time will determine what color and how many ribbons the animal will get in the ring, says J. W. Davis, assistant extension dairy husbandman of Texas A. and M. College.

Fitted an animal means a combination of good grooming and proper feeding. And there's a big difference between a "fitted" and a "fattened" animal. To show well, a dairy animal should carry enough flesh to fill out the frame smoothly and show a good condition of health. For the show ring, the skin should be thin and mellow, and the hair should be fine, smooth and glossy.

Let's get the animal ready for the fair now. Put it under a blanket six to eight weeks before the first show. Two or three brushings a day with a soft fiber and rubber brush will get the long hair out of the way, and help train the

of Commerce says, the farmer's 1935-39 dollar today is worth 45 cents, the wholesale dollar 45 cents, the retail dollar 47 cents, and the consumer dollar 58 cents. This would indicate that the farmers are not getting as rich as some might think. Production is about 35 percent above prewar levels. Retail prices will surely be considerably higher than they are under present conditions.
