SMALL-TOWN SURVIVAL

While Texas is becoming more populous, some of its villages are becoming smaller. Their young people can not resist the lure of the city wages and bright lights. Can

these small communities survive?

People in other states are asking that question, too. In Illinois H. Clay Tate, editor of the Bloomington Pantagraph, noted that a once-prosperous coal-mining town of 1,500 had dwindled to fifteen inhabitants after its coal played out. Its sidewalks were overgrown with weeds, its buildings crumbling. People called it a ghost town. Yet, only an hour's drive away was another mined-out town that had remained a thriving community of 1,200. It had paved streets, a library, good schools, thriving businesses and several small processing and manufacturing plants. Tate wanted to know what made the difference. He began looking around. With the help of an agricultural extension man from the University of Illinois he surveyed nearby communities. The two discovered that almost any small town can pull itself up by its own bootstraps if its people work together toward that end.

Citizens of the five Illinois towns became interested. They organized community clubs or councils or chambers of commerce. They began improvement programs. Instead of running to Washington, they used their own money. They hard-surfaced their streets, extended water and sewer lines, put in water-softening plants. They instituted parks and tennis courts, organized new businesses and industrial plants that served local or regional needs.

Now their enterprise is paying off. Would anyone suggest that such initiative and energy would be less profitable in the crossroad towns of Texas?—Dallas News

FLORAL CAPITAL

The State Capital is a beautiful sight, viewed from the University of Texas tower or from the bridge that crosses the Colorado. Now it is planned to make it even more impressive by decorating the grounds with representative shrubs and flowers from all parts of Texas.

Anything grows in Austin. It is a floral paradise. In spring, the city is a valley of verdure, leafy branches overhanging the streets and flowers of every family springing from the earth in abundance.

There will be little difficulty in culture on the Capital grounds. The layout, of course, will need an artistic touch and a sense of symmetry. Too many flowers scattered with no design are almost as bad as none at all. But Austin has plenty of horticultural talent to advise. A look at its homes and gardens is proof.

It is a beautiful, cultivated city. Enfield, Zilker Park, juniper-studded hills, the immortal Forty Acres—and a Capital of native stone surrounded with native flowers—the Capital is a pride of all Texans.—Dallas News

Be More Careful Of Electrical Appliances

An efficient homemaker puts both hands to work—a lot more work is done with a lot less effort.

But there is an exception to that rule—and that exception is when it comes to electrical equipment.

Mrs. Bernice Claytor, extension home management specialist of Texas A. and M. College, points out that, for safety's sake, one hand is better than two when handling any electrical appliance or changing a fuse. If the appliance is worn or otherwise defective, causing a short circuit, there is always a danger of shock. But there is less chance of severe shock if one hand is free—or is not touching any thing else.

The Rural Electrification Administration of the USDA gives an example of a two-handed hazard: Running a vacuum cleaner with one hand and moving a metal lamp with the other—if either of these appliances happens to have a loose wire or other defect, the current may run through your body.

The REA also warns that special care must be taken in the bathroom and kitchen, because electricity travels through water. Be sure your hands are dry when handling any electrical equipment—and make sure the floor is dry, too. When turning on an electric light with one hand, be sure not to touch water or the metal water faucet with the other. And never touch a radio, portable electric heater, or even turn on lights when in the bathtub, or washing dishes or clothes.

Mrs. Claytor concludes that the

National Safety Council lists faulty electrical equipment and frayed electrical cords as major hazards which cause hundreds of accidents each year. Repair or replace such equipment—and remember that "put both hands to work" doesn't apply to electrical appliances.

WITHOUT TRAINING

For managers and overseers," proclaimed a great Chinese landowner, "always give me married men."

"And for what reason?" a visitor inquired.
"Because," said the wealthy Chinese, "I abhor the muddled, unclean reports that have been sent to me by bachelors. They have never had to explain anything to a wife!"

UNDER FALSE PRETEXT

"Jack," asked one of the hunting sportsmen of the hunter, "do you think you are more out of your mind or more bears?"

"You're darn tootin'," rejoined the veteran hunter.

"How so?" he was asked.

"Well," said Jack, "I've seen bears see me dressed in a duds from Memphis, right away that I couldn't side of a barn at ten o'clock, anyhow, I'm sure he too drunk to do any 'tall. So they just don't attention to me. I'm able 'em at point-blank range."

WONDER
 is practicing hand-

Why everywhere Evelyn went Monday someone was sniffing?
 Why all the Home Economic girls were such beauties after class Tuesday?
 What would happen if Edwin didn't get his algebra?
 What was in Patsy's History book Tuesday?
 How Harold always gets his English?
 Why Walden always goes to sleep during a basketball game?
 Why Naomi always misses shorthand class?
 Lavada wanted us to beat Wheeler?
 Who took Oda Jean home from play practice Monday night?
 If Donald Ray could type without singing out the letters?
 What would happen if Lavada's name was not in the Hi-Life?
 Why Joy was sitting by her sisters in the show Saturday night?

SONG DEDICATIONS

From Pauline to Byron: "You Gotta See Your Mamma Every Night".
 From Bitsy to Oda Jean: "One Little Kiss From You".
 From Donald Ray to Peggy: "Why Don't You Do Right?".
 From Lou to Wallace: "My Darling, My Darling".
 From Oudia to Ted: "Just a Little Loving".
 From Joy to Walden: "Every Day I Love You Just a Little Bit More".
 From Mary Louise to Doug: "Why Do You Do Me Like You Do?".
 From Naomi to Bill: "Love Is So Terrific".
 From Bill and Ted to Mrs. Noble: "What Did I Do?".
 From Edwina to J. T.: "I Want a Sunday Kind of Love".
 From Patsy to Chubby: "Say Something Sweet to Your Sweetheart".

with Mobeetie winning by a score of 34 to 29. The last game Saturday night was with Canadian. They again came out winners by a 50 to 36 score. Arthur Seitz was placed on the district all tournament team. There was a 3-way tie among Miami, Mobeetie, and Darrouzett. The coaches together with the District Chairman met Canadian and decided to place the three names in a hat and the one drawn out, which was Miami, would represent 2-B District at the regional tournament at Lubbock. All three teams will receive identical trophies engraved "Champs of 1949".

Gossip

Wonder why Jay has been spending so much time in the library the last period every day?
 Come on, Doris, confess. We know you don't want to go to Canadian Thursday night just to see Mobeetie play basketball.
 If anyone went to Canadian Thursday night to see the boys play basketball, they were sure optimistic.
 Wonder why the juniors are always fussing? It would certainly be a surprise if they ever agreed on anything.
 Horace, what did you mean when you said you were going to talk to the bosses?
 Naomi, are you sure you and Oudia went to Evelyn's house to rest? After hearing the results of the basketball game with Wheeler, we wonder what you had done to need rest.
 Jim, don't you know it's against the rules to hug girls in the hall?
 Ann Nell, why is it you like Royal Crowns so well?
 The eighth grade welcomes Communist Morris to our class.
 Wonder why Lavada and Patsy J. call each other Boss?
 Sandra, just who did you go to Shamrock with Thursday night?
 What was it Bill fell over Saturday night?
 Edith, don't you and Pauline

SPORTS NEWS

The girls basketball team ventured to Shamrock last weekend to compete in the annual county tournament. They played the first game Thursday night, which was Wheeler. The score was Wheeler 26, Mobeetie 21. They defeated Briscoe Friday afternoon by a score of 21 to 11. Kelton won a victory over them by a score of 19 to 13. The girls kept the Shamrock girls worried during their last game in which Shamrock was playing for championship. The final score was in favor of Shamrock 29 to 24. Oudia Burke and Beverly Caldwell was placed on the all-star tournament team.
 The boys basketball team ventured to Canadian last weekend to compete in the annual district tournament after winning the sub-district the week before at Wheeler. Their first game was Thursday night with Darrouzett. They were defeated by a score of 27 to 24. Friday night they had a race with Miami. It was a very close game

Farm Facts

1. The temperature should be about 125 to 128 degrees Fahrenheit, and the broilers should be immersed for about thirty seconds. If the water is warmer, the skin may be scalded.

2. Vitamin work during the past 4½ years with several hundred calves at the Research Farm of the Ralston Purina Company has not been encouraging. The best assurance to produce good calves is to feed the mothers well and follow this by good, wholesome nutrition and sanitary management, rather than to

3. It is difficult to tell the exact age of a dog, particularly after he has reached three years of age. The condition of the teeth does most to help determine the age of a dog, but even the experts cannot tell accurately by examining an old dog just how old he is.

Send your questions about livestock or poultry problems to FARM FACTS, 835 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

know that only Negroes sit in the balcony?
 Pauline, its tough to have to stay home one night a week, isn't it?
 Lou, you had better watch these little boys.
 We're glad Joy finally found the world is larger than just Mobeetie and Wheeler.
 Doug, don't you know better than to bet a whole quarter against your home team? Especially with Lou and Jack.
 What did Beverly and Frances seem to think was their grave? Could it have been a football stadium, girls?
 Oda Jean, are Bitsy's hands really soft?
 Irvine, how about loaning us your car?

The teachers met Wednesday and decided to enter the Inter-scholastic contests this year. In charge of declamation will be Mrs. Seitz and Mrs. Clemons; one-act play, Mrs. Noble; story telling, Mrs. C. R. Brown, Mrs. Crowder, and Mrs. Trimble; ready writers, Mrs. Noble; Fifth and Sixth grade spelling, Mrs. E. T. Brown; Seventh grade spelling, Mrs. Scribner; Eighth grade spelling, Mrs. Clemons; High School spelling, Mrs. C. R. Brown; Number sense, Mrs. Scribner; and typing, Mrs. Scribner.

want to thank each and everyone for coming out to our play. We took in \$50.70. We'll use the money for a loud speaker.

The eighth grade welcomes Fern Wilson to our class. We hope she enjoys going to our school.
 The boys won over the girls by three points in the History contest, so the girls will treat them to refreshments.

WHAT IF?

Edwina was Blue instead of Brown?

DEMAND Minimum Standards for Your Health

THE next time you call a doctor of medicine, osteopath, chiropractor or naturopath — how can you be sure he is competent to treat you?

You cannot be sure, as things stand now in Texas. The answer?

DEMAND MINIMUM STANDARDS FOR YOUR HEALTH

A just, practical minimum standards law for Texas is now pending before the State Legislature. This law would simply require that anyone who wishes to practice any branch of the healing art must prove that he possesses at least fundamental knowledge of the human anatomy, disease, the effect of drugs, and other basic sciences.

In other words, the bill — just as its name implies — sets up *minimum standards* in the basic sciences common to all branches of the healing arts. A practitioner of any branch of the healing art would be required by law to meet those minimum standards. If he does not meet those standards, your health would be endangered in his hands.

No such legal protection is guaranteed the people of Texas today.

An examination would guarantee that an applicant meets these minimum standards. It would be given by a qualified and impartial board. No partiality or preference would be shown by the board because its members would not be practitioners of any branch of the healing art, but instead would be science teachers from the staffs of our own leading Texas schools such as Texas, Texas A. & M., Texas Tech, Rice, S. M. U., Baylor, T. C. U., and so on. The Governor would name the examining board from the people who teach these subjects. What could be fairer?

The Minimum Standards Bill is *not against anyone*. It is *for the public*. It will help guarantee to you that all future practitioners prove they are basically qualified to treat you when your life may be at stake.

For your health's sake, urge your State Legislators to vote for the Minimum Standards Bill.

YOUR INQUIRIES ARE WELCOMED:
 If you would like to have additional information regarding the Minimum Standards Bill, write or phone the secretary of this society.

Quilting Club Elects New Officers At Meet

The Mt. View Quilting Club met Tuesday, February 15, for a regular meeting of the club.

During the business session new officers were elected and included Mrs. Frank Totty, president; Mrs. Tom Hathaway, vice-president and Mrs. Leslie Waters, secretary and treasurer. A report of 46 quilts quilted in 1948 and 556 quilted since the organization of the club was given.

Those present for the day were: Mesdames Frank Totty, Doug Baird, Ernest Howard, Jeff Brewer, Tom Hathaway, Charley Gatlin, L. Seitz, Leslie Waters, Alford Hill, Pierce Walker and Doyle Grimes.

OES Entertain With Covered Dish Supper

Members of the Order of the Eastern Star entertained their husbands with a covered dish supper and forty-two party Tuesday night, February 22, at the Masonic Hall.

Those present were: Messers and Mesdames D. O. Beene, Fred Farmer, C. C. Robison, W. E. Bowen, Jesse Dyer, J. I. Maloy, Lloyd Anglin, R. G. Russ, J. C. Howell, Bill Black, Lloyd Davidson, Ernest Begert, Shorty Loter, Carl Levitt, Floyd Pennington, T. M. Bowman and Mrs. R. L. McClekey.

Mrs. Waters Hostess Briscoe H. D. Club

The Briscoe Home Demonstration Club met Tuesday, February 15, with Mrs. Roy Waters as hostess.

After the business session fourteen members and two guests enjoyed a very interesting program about George Washington. Mrs. Sy Mason told of George Washington's childhood and youth; "Washington as a Christian, Citizen and

Leader", was given by Mrs. Lee Barry and "Washington as a President and Later as a Farmer" by Mrs. Kenneth Douthitt. A round table discussion was then held on the story of the U. S. Flag.

The next meeting of the club will be Tuesday, March 1, with Mrs. Elbert Zybach.

Crossland-Glenn Vows Exchanged Tues. Morn.

Nuptial vows were solemnized for Miss Leona Crossland and Ralph P. Glenn Tuesday, February 22, at 10:30 a. m., in the parsonage of the First Baptist Church of Wheeler. Rev. M. B. Smith, pastor, officiated at the single ring ceremony.

The bride was attractively attired in an aqua wool jersey dress with four strand pearls and black accessories. Her corsage was of gardenias. In carrying out the tradition of "something old" she wore a piece of lace which was purchased in 1918 by her maternal grandmother.

Mrs. Audrey Pearce attended the bride as matron of honor and wore a black faille suit with white blouse and black accessories. Her corsage was of red roses.

Christopher McClain attended the groom as best man.

Mrs. Glenn is the daughter of Mr. and Mrs. B. F. Crossland, Sr. of Wheeler. She graduated from the Wheeler schools and has been associated with the State Department of Public Welfare for several years.

The groom is the son of Mrs. R. D. Glenn of Muleshoe. He formerly lived in the Briscoe community for several years, and served in the armed forces.

After a brief wedding trip the young couple will make their home near Muleshoe where Mr. Glenn is engaged in farming.

Mrs. Jamison Hostess To Wheeler HD Club

The Wheeler Home Demonstration Club met in the home of Mrs. Virgil Jamison recently.

Mrs. James Clepper, president, opened the meeting.

Roll call responses were statements about George Washington. Mrs. Watts had charge of the meeting and led the group in singing of "America". Mrs. Richard Bradley discussed "Childhood and Youth of George Washington". Mrs. James Clepper's subject was "Washington as a Christian Citizen and Leader". Mrs. Don Curl gave the history of the flag.

Refreshments were served to: Mesdames Bill Owen, Barney Ten-

COTTON CHARMER

When the sun shines bright on the winter resort scene, beauties blossom out in pretty cotton costumes for suntime fun. This fair dame enjoys the Southern climate in a cotton chambray sundress by Saba of California. A boned bodice, halter, and ruffles add to its feminine charm.

SUN WORSHIPPER

It's time to tan at sunny resorts now, and sun worshippers have migrated South to bask in Old Sol's rays. Cotton shorts are the order of the day at vacation spots for the girls who are seeking tans. This pretty vacationer wears black cotton shorts and off-the-shoulder midriff by Margaret Newman with a multi-colored brush printed skirt to top the ensemble.

gue, James Clepper, Don Curl, Bill Rushing, Emma Hastings, Richard Bradley and the hostess Mrs. Virgil Jamison.

The next meeting will be in the home of Mrs. Bill Owen, March 2.

Mr. and Mrs. Harold Callan are the parents of a daughter, Debra Lynn, born at the Wheeler Hospital Monday, February 21. She is the granddaughter of Mr. and Mrs. Bill Lowrie and Mr. and Mrs. M. V. Callan.

Mr. and Mrs. W. O. Carrick and Ladine spent the weekend with relatives near Childress.

A group of friends enjoyed a forty-two party at Mr. and Mrs. Luther Parks Wednesday evening.

If you sin, you will pay the penalty here or hereafter; Ignorance, lust or bad associates, the cause of all bad doings.

 Reporter, Richard Brown

SENIOR NEWS

Basketball season has come to an end. We feel that it has been a very successful year. We have won a good percentage of the games. The boys got third place in the County tournament held at Wheeler. Richard Gaines won a gold basketball in the invitational tournament at Wheeler. The seniors are very proud of our star.

The girls won third place in the invitational tournament at Shamrock, and second place in the County tournament at Shamrock. The seniors are proud to say that

Melba Robertson won a silver basketball in the invitational tournament at Shamrock. Billie Brown won a gold basketball in the invitational tournament at Wheeler and in the County tournament at Shamrock.

The seniors are still working on their play, but have not set a definite date for the play to be presented.

OLD AND NEW
 Something new; The seniors going to class.
 Something old; Hard six weeks

tests.
 Something new; Horace flirting with all the senior girls.
 Something old; Harold still going with Pat.

Something new; Senior boys not playing hookie as often as usual.
 Something old; Senior girls having to be last in line at the Cafeteria.
 Something new; All the seniors working hard on their play.
 Something old; Johnny fussing with the teachers.

The juniors are very proud of

Imogene Reid and Margaret Holdeman who received gold basketballs at the county tournament this weekend at Shamrock.

This is six weeks tests week, naturally all the juniors are busy trying to get all their typing lessons and notebooks completed.
 We are hoping to start on our play soon. It has fourteen characters. The name as you all probably know is "One Mad Night".

GUESS WHO?
 He has black hair, brown eyes, and is dark complexioned. About 5 ft. 11 inches tall. He is popular and likes only the senior girls. He plays football, baseball and every other sport, and is the star of them all. He makes good grades and is always passing notes around to the senior girls. When he walks down the hall you can hear girls swooning over him. He is really a swell guy and is someone every girl dreams of going with, but none of them get to.
 Watch for the special announcement of the senior's play, "The Whole Truth", in next week's paper.

Dislikes ----- Nosey People
 Ambition ----- To get out of school

PERSONALITY (Girl)

Name ----- Wilma Chick
 Age ----- 16 years old
 Color of hair ----- Black
 Color of eyes ----- Gray
 Favorite teacher ----- All of them
 Favorite subject ----- English
 Likes ----- Fried Chicken
 Dislikes ----- To go to the show
 Ambition ----- Silly People
 To be happy

SOPHOMORE NEWS

The sophomores wish to welcome Charlene Chance to their class. We hope she will be happy here in Wheeler High.
 We are happy to have Leola back to school with us.

WONDER WHY?

Bonnie likes chocolates?
 Maurice is friendly with the sophomore girls?
 Dick likes Mobeetie?
 Glenda always takes up for Briscoe?
 Roy likes long, black hair?
 Georgia will be glad when school is out?
 James never smiles any more?
 Lucille never goes anywhere?

FRESHMAN NEWS PERSONALITY

Name ----- Mary Bob Denson
 Age ----- 14 years old
 Color of hair ----- Brown
 Color of eyes ----- Green
 Height ----- 5 ft., 4 inches
 Weight ----- 110 pounds
 Likes ----- Allison
 Dislikes ----- Expensive nail polish
 Favorite teacher ----- All of them
 Favorite subject ----- Boys
 Favorite food ----- Anything
 Favorite sport ----- Basketball
 Favorite song ----- "How Soon?"
 Ambition ----- To finish college

WHAT IF?

Mr. Teague let the math class sit where they want to?
 Margaret didn't own such expensive stuff?
 Dixie were as short as Claudell?
 Bonita didn't ever pass a test?
 JoAnn didn't get nervous while playing the piano on the radio?
 Betty were 18?
 The freshman boys could agree with the freshman girls once in a while?
 Maurine couldn't laugh?
 We graduated from High School this year?
 Jamie could agree with Mrs. Carrick in Junior Business?
 The freshman class has a request to make. We wish that everyone would leave our books alone. We are tired of constantly hunting our Math books.
 Our class wishes to thank Mr. Bowman for letting us present the radio program last week for the Cicero Smith Lumber Co. We all thank him for the swell dinner he bought for us.
 We are proud of the basketball players in our room. They are: Dixie Sanders, Ruby Williams.

Mary Bob Denson, Carmaleta Brown, and Margaret Moore. They helped win second place in the county tournament in Shamrock last weekend.

EIGHTH GRADE NEWS PERSONALITY

Name ----- Betty Jo Trayler
 Age ----- 14 years old
 Color of hair ----- Light brown
 Color of eyes ----- Blue
 Height ----- 5 ft., 5 inches
 Favorite subject ----- Math
 Favorite teacher ----- Mr. Osborne
 Likes ----- To flirt
 Dislikes ----- Flirty people
 Ambition ----- To be a housewife

WONDER WHY?

Slamming books is getting started again?
 Everyone is dreading their report cards this time?
 Patricia and Betty didn't get to town until 9:30 Saturday night?
 La Jaune was so quiet in the second period study hall Monday?
 Waunetta seems so gloomy and has that "far away look" lately?

WHAT IF?

Sue had short black hair?
 The eighth grade could understand English?
 The eighth grade had no boys in it?
 Mary Helen had stringy hair?
 Glen and Patricia never sat together in math?
 Marilyn didn't work on Saturday nights?
 Buddy never did pester anyone?
 Helen didn't have bangs?
 Bobby was a giant?

THAT'S EVERYTHING

"Father wants to know if you'll lend us your lawnmower?" said Junior to the new neighbor. The neighbor watched the boy pushing his mower away when he called after him: "Haven't you forgotten to say something son?"
 "No, but dad said if the tightwad refuses, try next door."

A Preferred AID TO BETTER GRADES AND BRIGHTER FUTURES

There's no happier way of showing your appreciation for scholastic goals attained than the gift of a versatile Remington Portable Typewriter. It's bound to be a great aid in a continuing scholastic or collegiate career for tests prove that students using a typewriter get higher grades in many subjects.

The New 1949 REMINGTON PORTABLE TYPEWRITER

Is handbrandy finished in two tones of eye-soothing gray. It has the sensational new Fingerfit Keys, Geared Typebar Mechanism and all the other exclusive and Plus Value features that distinguish Remington Portable Typewriters. Your graduate will be delighted, too, with the new Deluxe carrying case that opens up into a perfectly flat table for typing convenience.

The REMINGTON De Luxe Portable

is smartly designed, eye-soothing in two tones of gray. It is fast, smooth and responsive -- a favorite with students and professional writers the world over. Among its Exclusive and Plus Value features are the famed Remington Geared Typebar Mechanism, Self Sensing Paragraph Key, Variable Line Spacer and a 4-row, 24-column keyboard -- as on office machines.

WHEELER LOCKER PLANT

Wheeler, Texas

Dear Patron:

A new year's rental on your compartment at the Wheeler Frozen Food Locker Plant will begin March 1, 1949. We hope you have enjoyed its modern convenience during the past year and will want to continue its rental for another year. If you do, please make payments for another year's rental by April 1, 1949. If you do not want your compartment for another year please let us know at once and turn in your key, since there is a large number of persons on the waiting list anxious to rent lockers. Your patronage has been, and will continue to be genuinely appreciated.

We also have a Modern Curing Plant for customers.

Roomier Rear Compartment of Dodge Coronet

This view of the more spacious rear compartment of the new Dodge Coronet to be on display Friday, February 25, at Dekle Bros. Motor Co. in Shamrock shows the increased head room, leg room, and wider "knee level" seats to provide more passenger comfort. The new vent wing in the rear door supplies individual rear seat ventilation, and the wider rear window permits better rear-view visibility. (See ad on this page.)

Many Texas Counties Have Clothing Program

Of the 190 Texas counties with county home demonstration agents, 156 carried active clothing programs in 1948. Thirty-two additional counties did some clothing work as a carry-over from active programs in past years.

Continued high prices of clothing was no doubt one of the reasons why home demonstration club women and 4-H Club girls showed so much interest in clothing construction, planning and care, says the extension clothing specialists of Texas A and M College. Articles made at home netted a saving up to 1/2 the price of like garments ready to wear.

They report that more than 571,000 garments were made by home demonstration women, and

18,356 families improved their clothing by better planning. Additional thousands improved the family clothing by changing their sewing methods and by using better sewing equipment.

Accessories came in for their share of the attention. More than 9,000 bags and 4,400 pairs of gloves were made.

The outstanding event in girls 4-H Club clothing work was the dress revues held in 126 counties. Representatives from 96 counties participating in the State 4-H Dress Revue which was held during the State Fair of Texas. Some 5,200 girls participated in these dress revues.

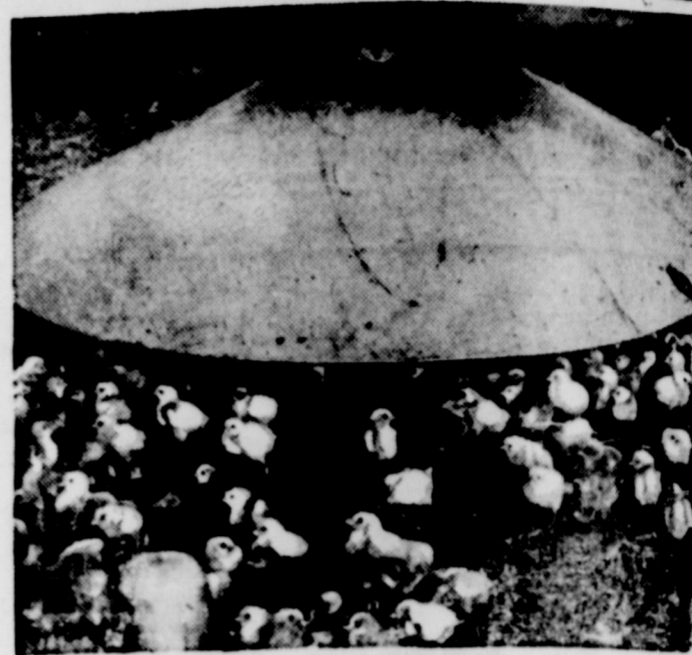

4-H girls, concluded the specialists, made almost 101,000 garments during the year.

A Child May Dare
So Drive With Care!

HALF SIZE

"You are accused of hitting your companion over the head with a bottle. Have you anything to say in your defense?"
"Yes, it was only a half pint."

Milk production takes a licking during bad weather because many herds do not have adequate shelter protection. A simple two or three sided shed will do the job in most cases, and your cows will pay for them in a year or two.

1949 MAID OF COTTON

Pretty Sue Howell, 19-year-old University of California student, flashes the radiant smile that won her the 1949 Maid of Cotton title. Maid Sue, from Bakersfield, Calif., is the first Western beauty ever to capture the coveted title. A brown-eyed blonde, she is 5 feet 7 1/2 inches tall. In her job as King Cotton's fashion and goodwill ambassador, the comely Maid will travel nearly 40,000 miles in the United States, England, and France.

CARD OF THANKS

We wish to take this opportunity to express our deepest thanks and appreciation to each and everyone for every kindness shown us at the passing of our beloved wife, mother and sister. We also wish to thank everybody for the many beautiful flowers. May God bless you.
W. F. Wright and family
Jabe Wright
Wm. Wright
Sam Wright

CARD OF THANKS

We wish to take this means to express our most sincere thanks for the deeds of kindness, sympathy and for the food and beautiful floral offerings so graciously given during our bereavement.
The Herd Children

People are living longer today than formerly, and the biggest percentage of the population is in the old age group.

When eggs are kept in the refrigerator, they should be stored with the large end up. This keeps the air cell in that end from moving around and damaging the membrane.

The Jersey Wakefield, Copenhagen Market or Glory of Enkhuizen are good varieties of cabbage plant. Cabbage should be set a foot apart in the row.

Announcing

As most of you have probably heard, we have purchased the Ford Tractor interest of the Holmes Motor Co. of Shamrock. This dealership along with our Canadian store will be moved to Wheeler in the near future.

We are making every effort to have a building and be operating out of Wheeler by the end of March, and before this if possible.

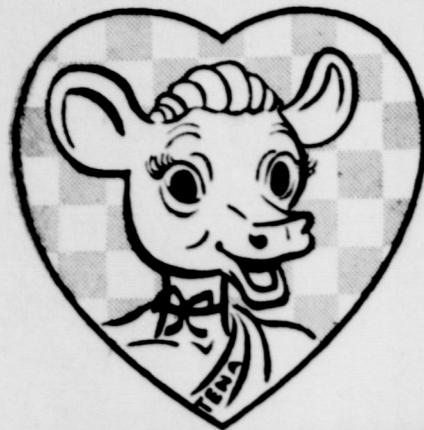

While we are making this move we are giving free pick-up and delivery on overhaul jobs that will be done in our Canadian store. Our Shop dept. is first class and every job, no matter how large or small, is 100% guaranteed, as always.

We also have New Ford Tractors and a complete stock of implements in stock for delivery to you. If you can't make it to Canadian, drop us a card and we will call on you with no obligations, but merely to explain the matter. We have just about everything that a man could want for a Ford Tractor in the line of parts, accessories and implements, give us a chance to show and demonstrate one or more of these to you.

The Red Cross Job March the 1st to March 31st

In the 1949 Red Cross Fund appeal the Wheeler County Citizens will be asked again to contribute to a cause that has become deeply rooted in American tradition.

It is the privilege of the Red Cross to be firmly established in the public mind as a service and welfare organization prepared to meet emergency need that may at any time overwhelm thousands of people without warning.

The Red Cross has accepted this responsibility from the American people for March 1949—and our citizens will be solicited for funds for the National Red Cross as well as our own needs in Wheeler County.

It is our desire this year to enroll every member possible with at least \$1.00 or more and we hope to double our membership list for the county.

Hence we are asking every Citizen in every community to share with those who are unfortunate from floods, storms, blizzards and sudden death by giving of your money what ever it may be.

Your Red Cross is always ready when disaster strikes.

North Wheeler County Red Cross Chapter

By T. J. DAUGHTRY
Fund Chairman

ALLISON ANTELOPES

(Published by the students of Allison High School)

(Too Late For Last Week)
The juniors and seniors have started on their play, "Aunt Susie Shoots the Works!" The characters are: Aunt Susie Stowe, an eccentric old maid, Bette Colburn, Joy Herbert, her delightful young niece, Jane Puga, Scarlet Deane, Joy's colored maid, Helen Marshall, Laura Dawson, Shirley Lovitt, Madame Zola, who sees all, knows all and tells nothing, Jo Brown, Mrs. Edward Dunning, a neighbor, Laura Walls, Portia Lark, a female lawyer, Sammy Moore, Omar Graves, a successful business man, Lyn Levitt, LaSalle Johnson, Omar's colored servant, Jackie Taylor, Johnny Rogers, a boy who is engaged to Joy, Gerald Hall, Slick Conway, who adds to the mystery, Clifton Boydston. We haven't decided when we will put it on. We plan to put it on in March sometime. We invite everyone to come to see it.

The juniors and seniors have planned a party for tonight. We hope the weather will be pretty so we can have it. Each one has invited someone, some think we will all have a good time.

SPORTS NEWS

The boys played in the tournament this last weekend. They were beat by all the teams except one. They beat Briscoe 34 to 22.

GOSSIP

It was reported that everyone had a good time at the party Edna Mae gave Saturday night.

Bessie Jo, what time did David take you home Saturday night?

Jane, how did you like your escort Saturday night?

Shirley S., you and Troy Dean sure do make a cute couple.

Ray, why don't you take us riding in your new pick-up?

Laura, how do you like being stuck?

Troy, did you have a nice Sunday evening?

Edna Mae, who is this boy we are hearing about from Alaska?

Bobby Curlee, who is it you are wanting to go with?

Nanu, we think Charlene is pretty too.

Donna Jo, who is it you have invited to the party? Could it be Clyde?

Bette, did you finally invite him to the party?

Jackie, you have our sympathy.

We wonder if all of the seniors have enough credits to graduate?

Helen, your hair sure looks pretty this morning. Who fixed it?

We hear that those who were at

EARLY AMERICAN

Old-fashioned plaid gingham and a big collar of crisp sheer give a quaint "Early American" air to a cotton dancing frock designed by Emma Domb. The National Cotton Council reports that gingham will be a favorite for day and night wear this spring and summer.

Jones' Sunday night had a good time.

We hear the ones who wrote the school news are very brilliant. Is this true?

Johnny, why are you always grinning?

This is cupid's day, wonder if anyone has gotten shot yet?

Shirley S., did you get shot by one of cupid's arrows or was that Troy Dean?

Jay Dean, why did you go back to Canadian so early Sunday night?

Katy, who is this cute boy from Canadian? His name couldn't be Billy could it?

Shirley S., have you made up your mind or is it any of our business?

WHAT IF?

Bobby could go with Glenna Sue?

We knew who the mysterious J. is that Katy likes?

Helen didn't like C. E.?

Jackie didn't make good grades?

Sammie didn't miss so much school?

Bette didn't like a certain boy?

Bill W. didn't like Beaulah?

The boys didn't shoot paper wads in school?

Jane's hair wasn't curly?

Sammie didn't blush?

Shirley Jo didn't like to go to Wheeler on Saturday night?

If we could look in the future ten years:

Laura Mae would be nurse-maid to five kids.

Donna Jo would be singing on Arthur Godfrey's talent scout show.

Bessie Jo would still be chasing after the boys.

Helen and Jane would still be in high school.

Shirley Jo would be a typist in the Empire State Building.

Jackie would be preaching in New York.

Bette will be singing "Don't Fence Me In".

Gerald will be a movie star, co-starring with Lassie.

Johnny will still have his dimples.

Katy will be running a night club with Jack Dempsey.

Lyn will be a star football player at Yale.

Clifton will be baldheaded.

Bill W. will still be a little pest.

THE WHEELER TIMES

Castor Oil Is Good For Polishing Shoes

Here's some good news for the youngsters. Castor oil is one of the best oils to use for keeping boots in shape. The kids will agree that boots make a better use for castor oil than stomachs.

Castor oil—as well as neat's foot oil and cod liver oil—helps keep the water out of leather. And that's just what folks are looking for 'this time of year during the damp, rainy weather.

Nena Roberson, associate extension clothing specialist of Texas A and M College, says if you put the oil on with a soft cloth very lightly and evenly and rub it in well, the shoes will take a good shine when dry. However, if too much oil is applied, the shoes will not take a good polish. Let the shoes stand from 12 to 24 hours after putting on the oil before you put the polish on. That's time enough for letting them absorb all the oil.

For water proofing work shoes and boots, you'll need neat's foot oil. Be sure the shoes are clean and dry before you start. Put the neat's foot oil on with a soft cloth and rub the shoes thoroughly with the palm of your hand. Make sure

the grease soaks in well where the sole joins the upper. This is one place where the water soaks in very readily.

Then dry the shoes in a warm place—but not a hot one, says Miss Robertson. A shine box is handy for keeping the shine equipment all in one place, and a place to rest the shoe while the shining job is in progress.

Turn the shine job over to the youngsters. They'll enjoy putting castor oil on shoes.

The nearest infected foot-and-mouth disease territory is now 372 miles below the United States border. That is 124 miles further south than at the high point in the northern advance of the plague.

Corn cobs are used in making some types of abrasive hand soaps such as mechanics use. The corn cobs are added to give a mild rubbing action for a faster, better job of cutting grease and paint.

From where I sit... by Joe M...

How's Your Listening Time?

Buck Howell and I were in Balleville last week. Dropped in at Bob's diner where some friends were sitting around talking about whether to sell hogs now or wait.

Buck plunges right into the discussion. He's lecturing away when suddenly they all stand up and start stomping their feet like it was an Indian war dance.

I'm flabbergasted. But Buck only looked sheepish and explains, "Guess I was talking again, when I should've been listening. When a person's talking time gets out of

line with his listening time here, the gang reminds us standing up and stomping."

From where I sit, that's a system. Everyone has a right opinion—but others have a right to theirs, too—whether it's a pie or cherry pie or a mellow beer or cider. Listening between to sell or argue is interesting that way, and has you don't sometimes learn a thing!

THE Extra VALUE, Extra CONVENIENCE OF

INTERNATIONAL HARVESTER REFRIGERATORS and FREEZERS

15.8 CUBIC FOOT

HEAVY DUTY FREEZER

A real Hercules holding 553 pounds of frozen food! It enables you to buy food in large quantities, in season, at bargain prices—or freeze and store the meat, vegetables and fruit you raise for later use. Come in—see special "Freeze-Area," "Lid-Lamp" and "Zero-Larm" features!

SUPER DE LUXE REFRIGERATOR

Extra Room! Extra Features! Extra Quality!

At last you can pack stacks of food into a refrigerator that's built to hold it! Specially IH designed for extra storage space, safe food preservation, greater kitchen efficiency, a place for everything, for long dependable service. See this wonderful Super De Luxe today!

More than 16 square feet of convenient shelf space.

"Stowaway" freezer locker stores 35 lbs. of frozen food.

"Frigidrawer" keeps 35 pounds of meat fresher longer.

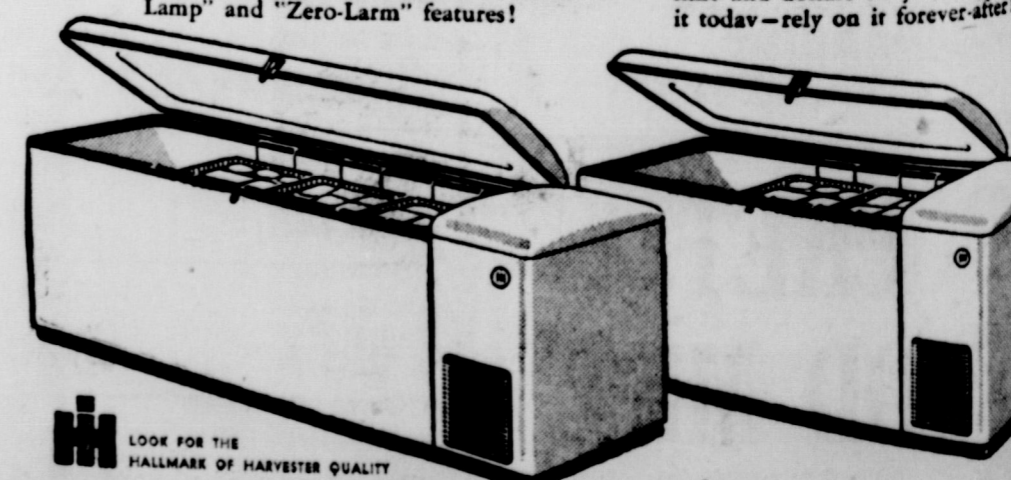

Hermetically sealed "Tight-Wad" unit with 5-year warranty.

FREEZE FOOD...FOR BETTER MEALS, LESS WORK, REAL KITCHEN HELP

11.1 CUBIC FOOT

ROOMY FREEZER

You've an endless variety of delicious food on hand all year 'round with this roomy bank! It freezes and stores 385 pounds of food, holds leftovers, lunches, and more safely. Saves you shopping and kitchen time and dollars on your food bill. Buy it today—rely on it forever-after!

Soil Conservation District's Accomplishments For 1948 And Plans For 1949 Given

The board of supervisors of the
Wheeler County Soil Conservation
District this week released a re-
port of the work accomplished last
year and the plan of operation for
1949. The report is published to in-
form the public as to the status of
the district at the present time
and plans for future operation.

County Agent W. K. Frey be-
lieves the supervisors will be ready
to begin taking applications from
farmers for assistance about April
1, or possibly a little sooner, he
stated Monday.

The complete 1948 report and
the plan for 1949 follow:

ANNUAL REPORT 1948

During the latter part of 1947
County Agent W. K. Frey held a
series of meetings showing soil
conservation pictures which re-
sulted in a petition in October by
over 200 landowners for the for-
mation of the Wheeler County
Soil Conservation District. In re-
sponse to the petition a hearing
was held on Saturday, November
29, 1947 in the courthouse with
Howard Goss and Louis Dawkins
representing the Texas State
Soil Conservation Board. The vote
of 112 landowners present was un-
animously in favor of an election.
The election held on January 31,
1948 was overwhelming in favor
of the District.

Following the election, the State
Board issued a certificate of or-
ganization, dated April 6, 1948.
On April 7, 1948 landowners Billie
R. Cantrell and W. Albert Scribner
were appointed supervisors for
District sub-divisions 2 and 4 re-
spectively, and asked to hold elec-
tions in the other 3 sub-divisions.
They held the elections on May
29, 1948 at which time landowners
Gordon Whitener, Dusan Pakan
and Clarence Zybach were elected
for sub-divisions 1, 3 and 5 re-
spectively.

The organization meeting was
held on July 1, 1948 with Louis
Dawkins and Howard Goss re-
presenting the State Board. Dusan
Pakan was elected chairman;
Billie R. Cantrell, vice-chairman;

and Clarence Zybach, secretary.

On July 15, 1948, using the pro-
gram and plan outline furnished
by the State Soil Conservation
Board, the supervisors divided the
outline into 5 parts with a super-
visor responsible for developing
each section. On July 29, commit-
tees were selected and appointed
to assist the supervisors on the
various sections and they were
called to a general meeting on
August 12, 1948. Approximately
160 people were present at this
meeting, a motion picture was
shown, the program and plan ex-
plained, the basis of a soil con-
servation program discussed and
the following committees organ-
ized: history; physical conditions;
cropland and land use capability;
range, pastures and meadows;
farmsteads, orchards and gardens;
wildlife; railroads and roads; eco-
nomic and social conditions; live-
stock; and farm power commit-
tees.

Dates, approximately 2 weeks
later were set for work on the
program and plan by the various
committee chairmen to begin work
in earnest. These eleven commit-
tees met a total of 43 times in
addition to 3 field tours, two on
land classes and capabilities and
one on range sites and conditions,
representing a total attendance of
1620. In addition the supervisors
have held 7 official board meet-
ings with an average attendance
of 7.5 per meeting. The committee
work on the combined program
and plan has been completed and
the final draft is being prepared
by the supervisors after which it
will be turned over to the editing
committee.

No District applications or ag-
reements have been written at
the present time but there have
been nine Extension-Demonstra-
tion agreements signed with lan-
downers in the District in co-
operation with the Extension and Soil
Conservation Services and 4 water
facilities soil conservation agree-
ments with the Soil Conservation
Service and Farm Security Admin-
istration.

The Shamrock Chamber of Com-
merce assisted in the formation
of the District by circulating peti-
tions for signatures of resident
landowners requesting a hearing.
They also designated Secretary
Guy Hill's farm as a soil conser-
vation demonstration, which shows
rather unusual interest in soil con-
servation work. The Chamber of
Commerce and Kiwanis Club of
Wheeler have set up an agricul-
tural committee which has plan-
ned a program of cooperation with
the District. The attitude of the
individual farmers and ranchers
has been expressed in the fine co-
operation in the development of
the program and plan.

On November 30, 1948 a better
farm lease clinic was sponsored in
cooperation with the Extension
Service. Other agencies partici-
pating were the Farmers Home Ad-
ministration, Agricultural Conser-
vation Association, Vocational Vet-
erans Classes of Wheeler County
and the Shamrock Chamber of
Commerce.

The supervisors on October 28,
1948, voted to sponsor a local
grass judging contest with the
help of assisting agencies with
winners participating in statewide
contests. A team will enter the
Amarillo show.

A cooperative sprinkler irriga-
tion project was begun on Decem-
ber 23, 1948 to demonstrate the
practicability of irrigation in the
District.

The Brownwood Convention of
District Supervisors was not at-
tended due to harvest season but
Jake Tarter was nominated by tele-
gram.

A grass seeder is being con-
structed by the Allison veterans
vocational shop class from a model
loaned by the Soil Conservation
Service with money to be raised
by donations.

An election, in sub-division 5,
was held on October 5 by County
Agent Frey at Allison and Claren-
ce Zybach was re-elected. Super-
visor Albert Scribner has sold
out and moved to Colorado auto-
matically resigning. An election to
fill this vacancy was held Febru-
ary 19.

The secretary of the board has
been authorized to obtain a bond
for \$100.00 at \$5.00 per year. The
price of the bond to be raised by
donations.

The board of supervisors has
passed a motion strongly recom-
mending passage of a state appro-
priation bill to provide funds for
operation of soil conservation
districts.

Annual Plan of Operations, 1949
The foremost job this year is to
complete the combined district
program and plan and complete
the memorandum of understand-
ing with the United States Depart-
ment of Agriculture.

Following the completion of
these objectives and availability
of technical assistance an active
conservation educational program
will be continued throughout the
District with the help of the County
Agricultural Agent. The educa-
tional program will be followed
with complete soil and water con-
servation plans on individual
farms and ranches with the assist-
ance of Soil Conservation Service
technicians. All assisting agencies
will then cooperate in establishing
and maintaining the conservation
practices on the land.

Each supervisor will be responsi-
ble in his sub-division for such
jobs as selection of applications
for approval, selection of commu-
nity and neighborhood leaders and
to help in conducting conservation
meetings.

When there is sufficient interest
in a certain community a meeting
will be called by the community
chairman and the program ex-
plained. The community chairman
will call on an agriculture worker
and one of the supervisors to as-
sist in this work. After this meet-
ing has been held and the program
explained additional applications
for assistance will be accepted
from the farmers in the commu-
nity.

With the information and appli-
cations received as a result of such
community meetings the board of
supervisors will then set up the
order in which groups of farmers
will be assisted with their soil
conservation plans. The largest
group showing the most interest
will receive the first attention. In-
dividual farms or ranches may be
selected for demonstrational pur-
poses to create local interest.

The district supervisors will re-
ceive applications themselves and
through the County Agent, voca-
tional agricultural teachers, com-
munity leaders and other individ-
uals.

We supervisors are desirous of
obtaining all the assistance possi-

ble in carrying out a complete soil
and moisture conservation pro-
gram. Therefore any assistance
now or hereafter available is fur-
thuring the development of such
a program has been requested of
the following agencies: The Farm-
ers Home Administration; Texas
State Forest Service; Soil Conser-
vation Service; State Director of
Agricultural Education; State Di-
rector of Extension Service; Texas
Game, Fish and Oyster Commis-
sion; State Director of Agricultural
Experiment Station; State
Board of Water Engineers; State
Health Officer, State Board of
Health; Chairman of State High-
way Department; Production and
Marketing Administration; and
Farm Credit Administration.

The principle problems of the
District are educational, techni-
cal, financial, equipment and ma-
terial. State and federal agencies
are set up to help with all of these
problems except finances for Dist-
rict operation. This District has
no funds yet. Funds are needed
for clerical and field assistants,
purchase of special machinery,
bulk purchase of seeds and other
materials, storage facilities and
for many other purposes to help
in effectively carrying out the
soil and water conservation pro-
gram with which we are charged
under the Texas state soil con-
servation law.

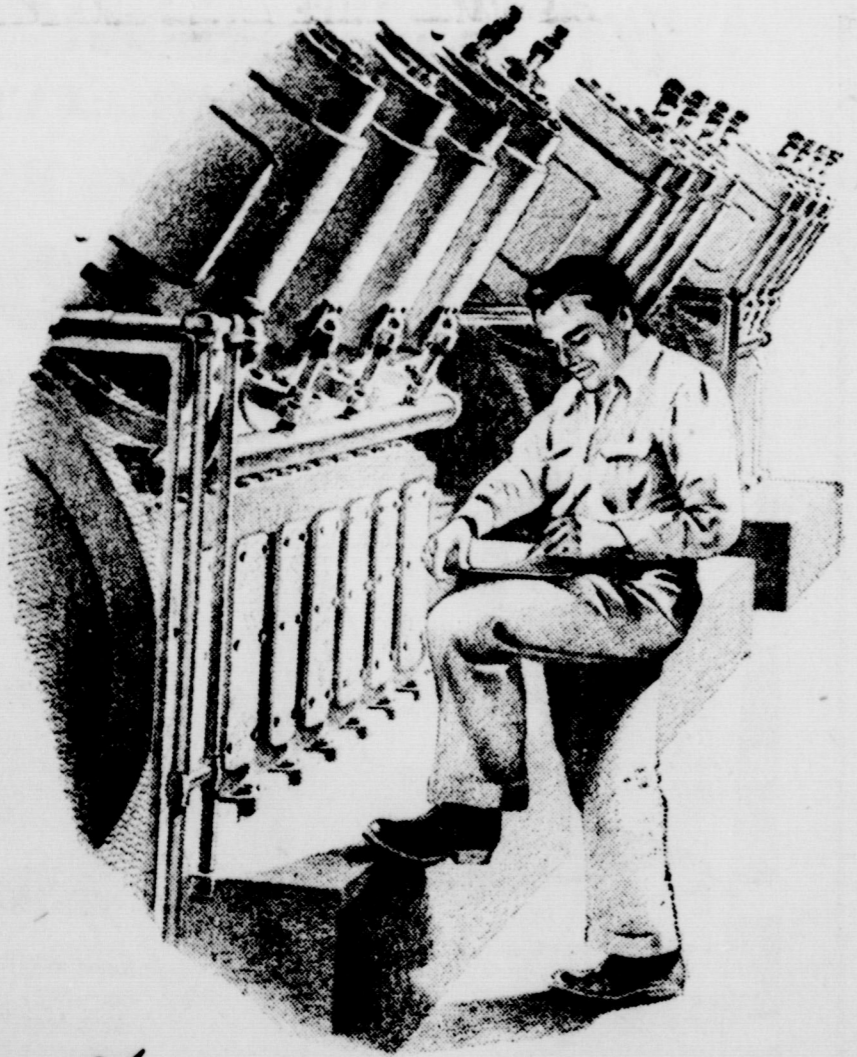

Signed
DUSAN PAKAN, Chairman
CLARENCE ZYBACH, Sec'y.

70,000 Horse POWER UNITED GAS COMPRESSORS

It takes a lot of horsepower to move natural gas through the 6,000
es of pipe lines that form the United Gas transmission system.
Sometimes the gas is under sufficient pressure when it leaves the
ells to carry it to its destination 50 or 100 miles away. More often,
however, it must pass through a compressor station, where it
gets a boost along the lines to cities, towns and industries where
can be used. Operation of compressor stations at key points in the
system is one of many important functions of the United Gas
organization... all of which have the ultimate purpose of
ring a continued dependable supply of gas for our customers.

Field compressors are
used to draw low-pres-
sure gas from remote
locations in a gas or oil
field to a central gather-
ing point.

Main line compressors
step up the movement of
gas along transmission
lines, and are frequently
installed at intervals of
50 to 75 miles.

Cooling towers are em-
ployed to supply engine
cooling water and to cool
the compressed gas. Tem-
perature of the gas in-
creases as much as 120
degrees, for example,
when the pressure is in-
creased from 250 to 800
pounds per square inch.

MAYTAG Dutch Oven Gas Range

It cooks ON... with the gas OFF... Automatically

- Your kitchen's cooler, cleaner! Retained heat is the secret of Maytag's heavily insulated Dutch Oven. Kitchen stays cool and free of cooking odors, greases.
- Cooks while you're away! Dutch Oven control dial automatically turns off gas, yet foods keep cooking by retained heat until deliciously done.
- Full meal on one burner! The thrifty Dutch Cooker Well cooks an entire meal with only one top burner. Also ideal for cooking fruits, cereals, puddings.
- Wipes clean in a jiffy! Heat-focusing Spiral Flame burners and chrome grids lift out so porcelain burner bowls and range top can be wiped sparkling white.

ALLISON NEWS
Mrs. Lester Levitt

Mr. and Mrs. Eugene McClendon and children of Pampa spent Sunday here with Mr. and Mrs. W. S. McCoy.

Mr. and Mrs. Rolce Dennis of Memphis were dinner guests Sunday in the parental Jesse Dyer home.

Mr. and Mrs. Roy Langford and Mr. and Mrs. Lester Levitt spent Saturday at Childress with Mr. and Mrs. C. E. Gibson.

Paul Simpson and family of Gageby visited Sam Moore and family here Sunday.

Mr. and Mrs. Bobby Helm who are students at W.T.S.C. at Canyon spent the weekend here in the parental Millard Donaldson home.

George Helton of Gageby was a caller in Allison Friday.

G. A. Reams and family of Gageby visited Mr. and Mrs. Don Farmer and daughter Sunday.

Mr. and Mrs. Bobby Joe Grayson and his brother, Lewis Wayne of Dumas spent the weekend here. Bobby Joe and wife visited in the L. S. Aderholt home and Lewis Wayne visited Bob Taylor and family.

Earl Waldrip and family were dinner guests Sunday in the Ross Waldrip home.

Mr. and Mrs. Bill Burnett of Arizona came by Sunday and took Frank Chandler and family to Durant, Okla. for a few days visit with relatives.

Mr. and Mrs. Bob Taylor attended the funeral Thursday of Mrs. W. F. Wright in Wheeler.

Harold Jones and family and Clyde Dukes and family were dinner guests Sunday in the Rayburn Hall home.

Ernest Wallace and family were dinner guests Sunday in the J. L. Phillips home.

Mr. and Mrs. Chuck Baker and Mr. and Mrs. Hobart Risner and Mrs. M. L. Risner visited Sam Risner who is ill at his home in Wheeler Sunday.

Ray Brown received word last week that his mother, Mrs. Will Brown, who is living at Los Angeles, Calif. had fallen and broken her hip. Mrs. Brown was a resident of Allison several years before going to California.

Mr. and Mrs. Earl May motored to Pampa Saturday on business.

Mr. and Mrs. Clifton Ogle and daughter of Shamrock visited her mother, Mrs. Mable Ault and family here Sunday.

Mr. and Mrs. W. J. Kirkpatrick of Dalhart spent the weekend here in the parental Glen George home.

Sherman Smith and family of Wheeler visited Charles Taylor and family over the weekend.

Mr. and Mrs. Loyd Jones and daughter, Sharon, motored to Amarillo Friday on business.

Mr. and Mrs. Monroe Reynolds and son, Wayne, Virginia and Al Ferguson of Pampa visited in the Marvin Burruss home Sunday.

Leo Peterman and family spent Sunday with his father, Charley Peterman and family near Sweetwater, Okla.

Mr. and Mrs. J. O. Hayes returned Sunday from Amarillo where they spent two weeks with

SKI STYLE

Some like it hot, some like it cold—for vacations. This young lady chooses the colder climes for her winter outing. She's all dressed up for skiing in a smart cotton ski jacket that is Zelan-treated to keep her dry and warm. The cotton fabric has a finish which sheds snow or showers.

their daughter, Miss Edith Hayes, who is employed there.

Millard Donaldson, accompanied by his sister, Mrs. Nettie Lee, of Canadian spent Wednesday and Thursday at Norman, Okla. with their uncle, Wallace Puckett, who is very ill.

Landscaping Helps To Improve Home's Looks

Landscaping and the women's home demonstration club went a long way last year.

There were over 20 thousand women enrolled as demonstrators who improved their own home lawns. Of this number more than 1,300 gave demonstrations and assisted in conducting training meetings for their clubs. The leaders assisted in making 34 study tours to Experiment Sub-Stations, and they opened their own homes and helped conduct 351 Achievement Day Tours to see neighbors' accomplishments.

Sadie Hatfield, extension landscape gardening specialist of Texas A. and M. College, says in her annual report that 65 tours were also made to homes of garden club members. Control of insects and plant diseases were among the landscaping programs conducted. Other accomplishments for the year included teaching their neighbors how to prune trees and shrubs, build barbecue pits and outdoor living room furniture, and arrange flowers.

The demonstrators say they learned more than the people they taught, reports Miss Hatfield. Not only were they benefited materially, but here are the figures to show the actual number of yard improvements made. There were nearly 4,500 outdoor living rooms arranged and furnished, over 20,300 drives and 2,700 walks built. And nearly 29,300 shrubs and trees were grown from seeds and cuttings.

Making Democracy Work

De Witt Wallace, left, editor of The Reader's Digest, hears George I. Hall, Grand Exalted Ruler of the Benevolent and Protective Order of Elks, outline the Order's campaign to help the nation's schools teach democracy. Elks lodges are equipping their local schools with sets of "Our American Heritage" filmstrips that dramatize the birth and development of our democratic freedoms from Magna Charta to the present, bring the Freedom Train right into school rooms. The campaign is part of Elks' program to "make democracy work." The Digest produced "Our American Heritage" at request of the National Education Association and The American Heritage Foundation, sponsor of Freedom Train.

Not all of the 20,000 demonstrators who enrolled reached demonstration status, says Miss Hatfield, but 663 achieved that honor during the year.

COTTON QUIZ

WHAT DO COTTON FARMERS MEAN WHEN THEY SAY "GEE WHIZ!"

ANS— "GEE WHIZ" IS A FARM MACHINE! IT IS A CULTIVATOR WHICH IS WIDELY USED THROUGHOUT THE COTTON BELT.

Farmers were the only major group in the United States to close out 1948 at a lower price level.

Newspaper Advertising Pays:

LIVESTOCK ARE 40 PERCENT OF AGGIE INCOME

About 40 percent of the Texas agricultural income is derived from livestock and livestock products. Some 93.5 million acres or about 60 percent of the total area of the state is devoted to the grazing of livestock, says A. H. Walker, extension range specialist of Texas A. and M. College.

Range demonstrations have shown that livestock live longer and produce bigger offsprings when plenty of good grass is available for them.

Programs are now underway that have as their objective a sound and practical approach to the problems of range management. Two range management schools for county agents were held by the A. and M. department of range and forestry the past two summers, and the class rooms used were the ranges where something was being established to show what can be done if proper stocking rates are observed and if the good grasses are given a change to reseed.

The record drought has forced many ranchmen to reduce their herds from 27-75 percent and still supplemental feeding is necessary. Too many livestock for too long

has caught up with the livestock man and this added to the recent drought has further aggravated the situation. Those demonstrators who have practiced good range management still have pastures that are in good condition.

Brush control and eradication demonstrations are underway. These include mechanical and chemical methods. Some results have been good but more information is needed on cost and practicability before practices can be recommended.

More ranch operators are practicing deferred and rotation grazing for range recovery and this coupled with adequate watering places, proper stocking rates and plenty of fences should add to the ranch income, concludes Walker.

QUICK RELAPSE

An asylum patient who had been certified cured was saying goodbye to the doctor of the institution. "And what are you going to do when you go out into the World?" asked the director.

"Well," said the patient, "I have passed my bar examinations, so I may practice law. I have also had quite a bit of experience in college dramatics, so I might try acting."

He paused for a moment deep in thought. "Then on the other hand," he continued, "I may be a teakettle."

SPEAKING OF "BULBS"

The absent-minded professor who went to mow the lawn with a carpet sweeper wasn't half as embarrassed when he discovered his mistake as was the school teacher who smiled and spoke very friendly to a gentleman and then discovered she didn't know him. By way of explanation, she exclaimed: "Oh, pardon me, I thought you were the father of one of my children."

Electric fans have a wintertime use, too. Place the fan near the fireplace, stove or radiator, pointing it at the nearest wall or at the ceiling, and set at the slow speed. In this position the fan will circulate the warm air moving through the room.
