the talents in our thinking about government finance. An expended government dollar is a relatively sterile dollar. It produces some wealth in the form of services and goods. But the privately invested dollar is far more productive. It follows that a relatively high proportion of the national income invested in private industry and spent for its operation will effect a relatively rapid increase in national buying power and consumption capacity. Of course, there is a minimum below which government spending can not fall. And it is higher today than it was in the past. But the expenditure of seventy billions annually for national, state and local government finance out of our current national income is approaching the camel-back-breaking stage.

PROTECTION FROM FIRE LOSS!

The number of homes and business houses destroyed by fire are on the increase. This is reasonable to expect with deterioration of buildings and inability to obtain adequate repairs and maintenance.

ONE NEVER KNOWS

When or where the next fire may strike nor how extensive its damage may be. The surest way to combat this hazard is to be adequately protected by the right kind of fire insurance policy. Insuring your business or home for you against loss by fire is our business. We want to work with you for this protection.

DON'T DELAY ANOTHER DAY

Why not get in touch with us right now -TODAY. We will gladly help you work out an insurance plan with greatest possible protection for the money you pay.

Help Fight

Give Generously To The March of Dimes January 16-31, 1950

During the past two years the people of Wheeler County have really had a chance to see the effects of polio . . . polio has struck several homes, leaving at least one dead and several others crippled. Some of those who are now recovering slowly from the effects of polio probably would have been left hopelessly crippled for life had it not been for your contributions to THE MARCH OF DIMES in past years.

The Wheeler County Chapter of the National Foundation for Infantile Paralysis has spent all its funds in helping to care for those who have been stricken and has drawn

on the reserve of the National Foundation in an effort to adequately treat every victim of

Please remember the above facts along with the facts that no one knows when POLIO might strike his own family when someone calls on you for a donation to the MARCH OF DIMES . . . give generously.

polio who needed such treatment.

You don't have to wait to be called on to make a contribution, you can make your checks payable to the March of Dimes and mail to or leave them at your local post

From where I sit ... by Joe Marsh Why Scoop No Longer

Works Here Scoop Blake paid us a friendly darn if he didn't run and get

call at the Clarion's office last week and we were talking about when he was a reporter here. "Remember how mad I got when

I found out you were writing that election story right from your desk?" I asked him. "And how I made you get out and learn what a sheriff's job was all about?"

"I sure do, Joe," said Scoop. "I want to thank you for teaching me the 'hat-trick'-putting on my hat and finding out the facts, that is." Then we both had a good laugh because he found out so much that

elected sheriff himself!

From where I sit, we should find out the facts before we try to talk about anything. When we do, we're inclined to be more tolerant ... we're apt to understand a little more about the other fellow's preference for, say, his political candidate or for a temperate glass of beer now and then. I say, if you don't want to get tripped up, don't
