### Editorial

#### A STRONGER 'VOICE'

The Navy has just announced that it is  
building at Tangier, in North Africa, one of  
the world's most powerful radio stations for  
the State Department's Voice of America. It  
will be completed about October 1. The re-  
ceiver and transmitter units will be situated

several miles apart in the international zone.  
The receiver will pick up high-frequency  
broadcasts from the United States and these  
programs, in several languages, will be re-  
layed to Europe and the Near East.

The project is another indication of re-  
cognition of the powerful force the Voice of  
America and kindred radio facilities, such  
as the RIAS station in West Berlin, can be-  
come if increasing attention is given to the  
technical problems of combatting inter-  
ference by a vast network of jamming stations  
operated by Russia.

The jamming operations themselves are  
an indication of the fear the Soviet leaders  
hold for the dissemination of factual in-  
formation and the Western viewpoint among  
peoples screened from any news except that  
filtered through the Soviet censorship sys-  
tem.

The new station at Tangier will not win  
the cold war, but it will help. The successful  
combating of communism and the Russian  
imperial design must rely in great measure  
upon the conduct of a war of ideas. The great  
number of refugees out of soviet-controlled  
areas to the Western zones of Austria and  
Germany are significant of widespread dis-  
satisfaction and unrest behind the Iron Cur-  
tain. One of Russia's greatest political prob-  
lems is the assurance of loyalty among the  
satellite peoples and it is being sought under  
processes of deceit and false information  
which will react adversely in time of stress  
if meantime unadvised information can be  
made to penetrate. In fighting fire with fire  
the United States needs to increase the com-  
bustibles.—From Ft. Worth Star-Telegram

#### WHY SHOULD ANOTHER WAR BE FOUGHT TO SOLVE NO PROBLEM?

We see that Dr. Gallup comes up with  
a poll which indicates that a large majority  
of the people of this nation think that we  
will be in World War III either next year,  
or within five years.

That is a dismal picture for the future.  
Of course we are taking it for granted  
that this war would be with Russia since the  
Reds insist upon continuing the cold war.  
If our people really think that war is  
coming so soon, we, as a nation are certainly  
not making much preparation for such a  
terrible conflict.

It makes one sick to realize what another  
war would do to this nation. We will be bank-  
rupt, both financially and spiritually, with  
little or no chance of helping those from  
whom we expect help during this conflict.  
If we are forced into another war, the world  
will be worse off than we are today, when  
we consider that we are in pretty bad straits.  
Nothing would be solved by another  
war.—From Canyon News

### HOME OWNERS' QUESTION BOX

Q—Must old wallpaper be re-  
moved before new is applied?

A—If there is only one layer of  
old wallpaper and it is firmly at-  
tached, removal is not necessary.  
In hanging the new paper, use a  
minimum amount of paste. Re-  
moval of old wallpaper is neces-  
sary if there are two layers or  
more.

Q—Can ordinary house paint be  
used on a wood floor?

A—A special floor paint or enam-  
el should be used instead. Ordinary  
house paint is too soft and will  
wear off.

Q—Cane in the seat of a chair  
has stretched and sags. The cane is  
not broken. Is there any way to  
tighten it?

A—Turn the chair upside down  
and sponge the bottom of the cane  
seat with hot water. Let the cane  
dry outdoors or in a room with  
good air circulation.

Q—How expensive is it to color  
a roof?

A—The greatest variety of roof  
colors, both solid and blended, is  
available in asphalt shingles. The  
color is an integral part of the ma-  
terial. There is no additional ex-  
pense to the home owner.

Q—What kind of cleaning mate-  
rials should be used to wash paint-  
ed exterior sidewalls of a house?

A—Soap and water usually are  
sufficient. Where there is a good  
deal of soot in the air, it might be  
necessary to add a commercial  
paint-cleaning agent to the water.  
In either case, wash a small, incon-  
spicuous area first to make sure  
that washing will not harm the  
paint. In scrubbing a wall, start  
at the bottom and work up.

Q—How can the surface of an  
electric iron be cleaned?

A—Rub it gently with the finest  
grade of steel wool.

#### LEGAL NOTICE

No. 14644  
TREASURY DEPARTMENT  
Office of Comptroller  
Of The Currency  
Washington, D. C., April 11, 1950  
Whereas, satisfactory evidence  
has been presented to the Com-  
ptroller of the Currency that Citi-

zens State Bank, Wheeler, County  
of Wheeler, State of Texas, has  
complied with all the provisions of  
the Statutes of the United  
States, required to be complied  
with before being authorized to  
commence the business of banking  
as a National Banking Associa-  
tion;

Now, Therefore, I, J. L. Robert-  
son, Acting Comptroller of the  
Currency, do hereby certify that the  
said Citizens State Bank, hav-  
ing complied with the require-  
ments of the Statutes of the United  
States as aforesaid, is author-  
ized to commence the business of  
banking as a National Banking  
Association, UNDER THE TITLE  
"FIRST NATIONAL BANK IN  
WHEELER", ON APRIL 12, 1950.  
In Testimony Whereof, witness  
my hand and Seal of office this  
11th day of April, 1950.  
(SEAL)

J. L. Robertson  
Acting Comptroller of the  
Currency  
19-9tc.

### What was the RIGHT thing for this Driver to do?

### Drive RIGHT with Phillips 66

Suppose you were driving the car  
in front. The driver behind wants  
to pass, and you see that he may  
run into a car coming from the  
opposite direction. If you are wise  
you will put out your hand and  
signal him not to pass. But, if he  
comes abreast of you too fast, keep  
to the right to provide clearance.

Phillips 66 Gasoline provides the fast, smooth  
response you want whenever you may be faced  
with a "tuckish" driving situation. Thanks to  
improved refining methods, this great motor  
fuel now gives smoother anti-knock perfor-  
mance, faster acceleration and greater power  
than it ever did before! It's right for safe,  
pleasurable driving.

You can get new, improved Phillips 66  
Gasoline now, at your Phillips 66 Dealer's.

LISTEN TO the Rex Allen Show Every Friday Night Over C. B. S. 9 P. M.

### INCUBATORS

— are fine for chickens!

But few people appreciate these same qualities  
in a hot summer's day . . . most of us  
would rather be comfortable. When the sun is  
really bearing down, and the thermometer is  
stuck on a hundred-and-then-some in the shade, your  
evaporative cooler is a real life saver! Turn it  
on and feel it . . . degrees and degrees of difference! Clean,  
fresh air . . . every breath sparkling-washed in  
cool, cool water. That's how much more pleasant summer  
living can be!

See your favorite electrical dealer . . . or ask  
your Public Service representative . . . you'll  
find the evaporative cooler to suit your needs,  
for home or business. It's economical, too . . .  
low-cost, dependable electric service makes it  
that way!

### Supreme Court Rulings Discussed By Rogers

WALTER ROGERS, Candidate for Congress for the 18th Congressional District, when asked for his reaction to the Tidelands and Segregation Decisions of the Supreme Court, replied:

"The tremendous impact of the recent Tidelands and Segregation Decisions by the Supreme Court of the United States on the people of Texas, as well as on the other Southern States, should serve to place us on immediate guard to at least soften the repercussions that can result in the future. I do not think that the Tidelands have been lost, but immediate action by Congress is indispensable in our fight to save them. Unless this is forthcoming without delay, the brunt of the impact will be absorbed by our school children. It

is a battle that must be fought with brains, and not heated talk. Had we used that weapon in the beginning, our position at this time would be considerably stronger. We must not lose sight of the fact that now is the time to build our defenses against further encroachments contrary to our constitutions. Let us be prepared to give up the rest of our public domain, we should heed the warning sounded by those decisions and prepare ourselves for the battles to come."

Flying backward is a stunt only one landbird can do—the humming bird.

Congressmen aren't required by law to attend any session of Congress.

Bolivia and Paraguay are the only South American countries having no seacoast.

## Texas Highway Signs Are Explained

### DO YOU KNOW YOUR HIGHWAY TRAFFIC SIGNS?

The shape and color of a highway sign should have a meaning for you, Mr. and Mrs. Motorist, even though there is no message or symbol on it. You have only a split second at high speeds to read a written message or grasp the meaning of a symbol on a traffic sign. If you fail, you may be meeting disaster. Is it not logical then that meaning should be assigned to shapes and colors of signs as added assurance of your safe recognition? Wouldn't knowledge of both be added insurance for your safety?

From the shape and color of the sign it is possible for you to tell whether it is a REGULATORY sign intended to inform you of a law or regulation enacted to promote safety and convenience upon the streets and highways, whether it is a WARNING sign enacted to warn you of a hazardous condition either on or beside the road, or whether it is a GUIDE or DI-

RECTIONAL sign to lead you to your destination.

This is the first in a series of four articles designed to make Mr. and Mrs. Average Driver more familiar with traffic control signs which when properly understood and obeyed, make our highways a safer place to be. This is the story of the REGULATORY sign.

It is important enough to repeat that REGULATORY sign is used to inform you of certain laws and regulations enacted to promote safety and convenience on streets and highways. A violation of these rules is a misdemeanor.

Generally, the REGULATORY sign is rectangular in shape, and it is mounted with the longer side up. The letters and border are black, and the background is white with only the following exceptions: (1) Night Speed signs which have white letters on a black background; (2) Parking signs which have red or green letters on a white background; and (3) Stop signs which are so important as to merit a full description.

REGULATORY SIGNS

WARNING SIGNS

GUIDE SIGNS

SKETCH G

The Stop sign is the outstanding exception to the usual shape and color combination of the REGULATORY sign group, and it needs no explanation to most motorists. It is the only standard sign which has an octagonal (eight-sided) shape, and it usually has black letters and border on a yellow background.

Unless they are illuminated by a fixed source of light, the REGULATORY signs are always reflected by using reflector buttons to outline the message or symbol or by covering the entire background with a reflective material.

Remember the shape and colors of REGULATORY signs. Remember, too, that they inform you of laws or regulations that have been enacted for your safety and convenience. If you disregard them, you are not only endangering the life and property of others who use the highways, but also threatening the lives and property of yourself and loved ones who may be with you.

Bicycles have been in use for about a hundred years.

From where I sit... by Joe Marsh

### Oh—My Aching Feet!

"After night just as I was settling down with a book and a mellow glass of beer, the wife calls down, 'Joe—I almost forgot—you and I are going over to the High School and take dancing lessons!'"

"Now, I can wait with the best of them, so I put up a quiet struggle against going but it was no use. There out it was the class in square dancing. And from the look of some of the other men I judged I wasn't the only one there who had been taken by surprise!"

Miss Williams and Curly Lawson taught us what to do with our

feet, and before it was over, darn if I wasn't actually enjoying myself. Going back next week, too!

From where I sit, we sometimes get an idea into our head for or against something and then hang onto it for dear life. Whether it's square dancing, or the right to enjoy temperate beer or ale now and then, we owe it to ourselves as Americans to take an open-minded attitude—that's even after we make up our minds about it!

Joe Marsh

## It's Super for Stretched-Out Mileage!

Friends, it's amazing how gasoline mileage can stretch-out when you OIL-PLATE your engine with new Conoco Super Motor Oil!

Proved By 50,000-Mile Road Test! In a punishing 50,000-mile road test, engines lubricated with new Conoco Super Motor Oil showed amazing economy of operation. Gasoline mileage for the last 5,000 miles of the test-run was actually 99.77% as good as for the first 5,000 miles. Proving that Conoco Super Motor Oil—with proper crankcase drains and regular care—can really stretch-out your gasoline mileage!

Come in and let me tell you about "50,000 miles no wear!"

### School Children Add Hazards To Driving

With the end of the Month of May, approximately 2,375,000 school children finished another year of their education, and eagerly began the three months annual vacation period.

Vacation to a school child can mean many things, an all day period of play with the neighbor children, a trip to the big city, a summer of work and play on Uncle's farm in the country, or just three months of leisure time to do as they please and not worry about the three R's.

Regardless of which path these children follow, they will present us with an enormous problem. The fact that they will not be in school will mean that our streets and highways will carry an additional burden of nearly two and one half million persons. These children will use the streets and highways more this summer than ever before. Whether they are driving automobiles, bicycles or other vehicles, or simply using them as pedestrians, they will be exposed to the ever present danger of death or injury by accidents of all types, but particularly through accidents concerning motor vehicles.

Your Texas Safety Association wishes to remind you that each year scores of children meet their death under the wheels of oncoming automobiles whose drivers are negligent, many more are killed in car wrecks of all kinds. The addition of this group of youngsters provides an added burden to our already crowded street and highway system, and it presents us, as adult citizens of our communities with a challenge. These youngsters are entitled to the right for life, liberty, the pursuit of happiness and safety. These are our future leaders of tomorrow who will, if we give them the chance, grow, learn, and mature and take their place in society.

This is our debt to them, and by being careful and cautious as

we drive this summer, we can insure their being safely back in school next fall.

BE CAUTIOUS, THE CHILD'S LIFE YOU SAVE, MAY BE YOUR OWN.

**Tractors Coming With Proof-Meter**

Tractors now being received from the Ford Motor Co. and Dearborn Farm Equipment Co. in this area, are equipped with the Proof-Meter, an instrument which takes much of the guesswork out of tractor operation. It has five instruments in one, and enables the operator to determine at a glance, engine speed, tractor speed, take-off speed, belt-pulley speed and hours of tractor operation.

The outer band of the Proof-Meter dial is the engine speed indicator. It enables the operator to operate at the correct speed for the job being done. It eliminates guessing at the engine speed according to its sound. The tractor speed indicator is important to efficient operation because it allows the operator to select the right speed and gear for mowing, spraying, planting, and the many other farm tasks in which correct tractor speed is essential. Correct power take-off speed for P.T.O. operated farm equipment is

**LOVELY VIEW!**

This attractive sunbather finds a lovely ocean view from her vantage point atop a big rock. She is temporarily shielded from the sun by her cotton terry cloth jacket that is designed to be worn over wet bathing suits or beach clothes. The terry cloth shortsie was designed by Rose Marie Reid.

made possible by the P.T.O. speed indicator incorporated in the Proof-Meter.

Belt-pulley speed which must be regulated correctly for sawing, grinding, pumping and similar belt work is quickly determined by another band on the Proof-Meter.

Accurate records of tractor performance now are possible through use of the tractor hour record on the Proof-Meter. Not only can farm tasks be timed but the tractor servicing can be done at proper intervals.

Under modern farming conditions, when the tractor is called upon to do an increasingly large variety of tasks, the Ford Tractor Proof-Meter is designed to help get these jobs done efficiently and economically.

**Pineapple Upside-Down Cake Is an Easy-to-Make Favorite**

Pineapple upside-down cakes, light and luscious, are a favorite American dessert. And they're one of the easiest to make, if you use a white cake mix for the foundation, and canned pineapple, in chunks or slices or crisp-cut crushed bits, for the topping.

The pineapple, enriched with brown sugar and butter, is the topping when the cake is served, but it is the part that goes into the pan first. So prepare it first, in whatever kind of pan you choose to use—a square one, individual casseroles, a ring or even an iron skillet. It is easy to cut and serve an upside-down cake topped with the crisp-cut variety of crushed pineapple.

You'll be sure of a downy light cake with the white cake mix. The batter can be ready to pour over the pineapple four minutes after you open the package. The routine is simple—mix with milk, beat and bake. In this cake the

baking comes after you have poured the batter over the pineapple mixture. And when you cut your cake, while it's still warm—the pineapple golden brown and fragrant, the cake snowy-white and downy-light—you'll get more praise than you deserve for such an easy triumph.

You can vary your basic pineapple cake—made of white cake mix, baked in a square pan, if that's the one you choose—by varied garnishes. Halved or whole red or green cherries, for instance, pecan or walnut meats or blanched almonds, are attractive garnishes—and any one of these nuts added, chopped, to the pineapple mixture, gives appetizing variety. You can make a pineapple upside-down cake, too, out of the spice cake version of the mix. And you can serve it with whipped cream, if you like that extra touch of richness.

**SOCIETY**

**Heare-Waits Wedding Is Event of June 3**

Miss Mary Belle Heare, daughter of I. W. Heare of Mobeetie and Joe W. Waits, son of Mrs. Myrtle Waits of Dallas, were united in marriage at Enid, Okla., June 3rd, at 7:30 p. m.

The setting for the wedding was the lovely home of Mr. and Mrs. R. C. Dix, close friends of the bride and it was Mr. Dix who gave her in marriage, as they entered the living room from the stairway, and met the groom at the altar formed with baskets of Lillies of the Valley, in front of a picture window. The Rev. A. W. Coleman,

pastor of the First Methodist Church read the marriage ceremony in soft candle light.

The bride was attired in bige linen trimmed in blue lace and her accessories were of blue. She wore an orchid corsage, and an eighty year old brooch, a family heirloom belonging to her grandmother, Mrs. F. P. Heare.

Mrs. Ray Putnam attended the bride as matron of honor. She was dressed in pink linen and accessories of beige.

Herbert Gabiesberg served as best man for the groom. Mrs. Waits was graduated from Mobeetie High School and attended West Texas State College at Canyon. She is now employed by Champlin Refining Co. at Enid, Okla. Mr. Waits graduated from high school at Kearns, Texas from there going into the Air Force. He served in the European theater for two years during World War II. At present he is stationed at Vance Air Force Base Enid, Okla.

Following the wedding ceremony a reception was held, and punch and cake was served by Miss Doris Laughlin and Miss Audrey Klein, from a lace covered table with crystal appointments, and a centerpiece of carnations, flanked by tall candles in crystal holders.

Immediately after the reception the couple left for Dallas for a short visit with the groom's family, then to Mobeetie for a few days with the Heare family, before returning to Enid. After June 11 they will be at home at 501 Grand, Enid, Okla.

ment Station near College Station furnished good grazing during the past winter for 85 steer calves for 94 days and for 88 cows and 30 calves for 21 days.

Less elbow grease is required to do the house cleaning chores today because science has come to

the rescue. High on the list of modern aids for the homemaker are the detergents. They make it possible for the house cleaning job to be done with less effort and with more speed and effectiveness.

Unless the soil where corn was planted this spring was supplied with plenty of nitrogen, yields will be low. The situation can be corrected through the use of a nitrate fertilizer applied now as a side dressing. Two hundred pounds per acre of ammonium nitrate or 300 pounds of sulphate of ammonia will balance the 200 to 300 pounds of 4-12-4 or 5-10-5 that

was applied before the corn

planted. Time can be saved and convenience avoided if completed out before new buildings constructed. New buildings in a suitable location and reference to their use and building.

THE WHEELER TIMES fields offer more for less to both buyer and seller. Other business device we about.

Miss Polly Ward And Ben Parnell  
Are Married At Canadian June 1

The marriage of Miss Polly Ward and Ben Parnell was solemnized Thursday evening, June 1, at 8:00 p. m. in the First Presbyterian Church of Canadian, with Rev. Harvey Parker reading the marriage vows.

Miss Ward is the daughter of Mr. and Mrs. L. P. Ward of Wheeler.

Mr. Parnell is the son of Mr. and Mrs. G. C. Parnell, of Glazier.

The double ring ceremony was held by candlelight, with baskets

of yellow gladioli forming a background for the young couple when the vows were exchanged.

The bride's chosen colors of blue and yellow were carried out in the floral arrangements and gowns of the wedding party.

Mrs. Charles Bird, organist, played selections of nuptial music, "Oh Promise Me," "I Love You Truly," and "Indian Love Call."

The traditional wedding marches were played for the processional and recessional.

The bride, who was given in marriage by her father, wore a bouffant dress of white swiss organdy with bands of white pique, and an ice blue crushed girdle. A buttoned jacket with 1830 sleeves covered the camisole bodice. She wore a white illusion finger-tip veil, with yellow for-get-me-nots scattered on the head piece; and carried a single white orchid with a yellow throat surrounded by yellow rose buds, with white satin streamers. White nylon mitts, and blue linen shoes completed the bridal costume.

For something old, a single strand of pearls belonging to the grandmother of the groom, was worn; and for something new a strand of pearls that were a wedding gift from the groom.

Mrs. Donald Watkins, of Los Animas, Colorado, attended the bride as matron of honor. She was dressed in ice blue organdy with full basque skirt, and a wreath of ice blue tulle around her head. She carried a yellow carnation bouquet.

Mrs. Gordon Hill and Mrs. Warren Hill, both of Canadian, acted as bridesmaids. Their dresses were identical to the matron of honor's in yellow organdy, with yellow tulle binding their heads, and carrying bouquets of blue carnations.

Miss Margaret Holt, of Wheeler, who acted as candlelighter, wore white organdy over blue taffeta, and a blue carnation corsage.

The flower girl in the wedding party was Mary Holt, of Wheeler, who wore ice blue organdy, with a wreath of blue tulle, and carried a miniature yellow carnation bouquet.

The groom was attended by Dickie Barton, of Canadian, as best man. Ushers were Sid Parnell, brother of the groom; and R. A. Flowers.

Following the impressive ceremony a reception, given by the bride's parents, was held in the Fellowship Hall of the Church.

Mrs. Earl Blackmore, of Canadian, presided at the punch bowl; with Mrs. Robert Holt, of Wheeler, serving the traditional wedding cake.

Mrs. W. S. Furlong, of Ada, Oklahoma, and an aunt of the bride's, attended the guest book.

Mrs. Parnell is a graduate of the Canadian High School and attended North Texas College, in Denton, Texas.

Mr. Parnell is a graduate of the Higgins High School, and is engaged in ranching activities near

**Solvents And Cleaning Fluids Endanger Health**

There's a lot of punch corked up in that little bottle of cleaning solvent out on the back porch. State Health Officer Geo. W. Cox called them "hazardous, when special precautions are not used."

It seems that solvent vapors are heavier than air, which, means, according to Dr. Cox, that they will collect at floor levels. The danger of using solvent for such household chores as taking spots off the linoleum, or cleaning dirt or grease off the back steps, is that you have to get on your knees to do the job.

And when you're on your knees, you're closer to the accumulation of solvent vapor.

The state health officer proved his whole point with this story:

A man attempted to remove the grease from the underside of his

Glazier.

For her traveling attire, Mrs. Parnell chose a light weight gabardine suit, with a navy blue skirt and a white pin striped coat. Her hat was of pink straw.

The young couple left for a wedding trip through Colorado, planning to visit Denver and Colorado Springs. They will be at home shortly on the ranch north of Glazier.

car by spraying it with a spray gun he had brought home from his construction job. He was found dead under the car, suffocated by the vapor of the cleaning agent.

Proper use of cleaning solvent, says the doctor, call for opening all the doors and windows when cleaning floors, the underside of household furniture, or clothing. The idea is to get as much ventilation as possible. A fan blowing on the working area is helpful.

When doing a job of this sort, work for a short time—avoid inhaling the vapors as much as possible—and then get into the fresh air for a minute or two.

The first symptoms of vapor poisoning are nausea, dizziness, headache and fatigue. When you notice them, get outside as soon as possible, the health officer advises.

THE WHEELER TIMES classifieds offer more for less money, to both buyer and seller, than any other business device we know about.

Two signers of the Declaration of Independence became president—Washington and Madison.

General John J. Pershing was once Governor of the Philippines.

"Blind as a bat," is an incorrect saying, since bats can see.

**59¢** You can haul more loads . . .  
more miles . . . for less . . .  
with Chevrolet Trucks

Take time out to talk to some Chevrolet truck users. You'll find it revealing. You'll discover that Chevrolet trucks pay their way by hauling more loads—more miles—for less! And you'll find that this extra measure of value is even more apparent in the new Chevrolet models. Definitely, they're America's first-choice trucks. Heavy-duty units feature a brand-new 105-h.p. Valve-in-Head engine with the power to pull heavy loads and conquer steep grades. They offer new Power-Jet carburetion for smoother, quicker operation. They bring you the fast, safe shifting of Chevrolet's 4-speed Synchro-Mesh transmission. But whatever your hauling requirements, Chevrolet trucks are your best bet. See them in our showroom. You'll agree.

The Mt. View Quilting Club met together for their regular day of work and fellowship, Tuesday, June 6th, with Mrs. Alma Seitz as hostess. Two finished quilts and one hemmed, represents more work than play for these industrious ladies, but they enjoy visiting with each other as well as the work accomplished. Mrs. Lizzie Roberts of Leedey, Okla. a former member was present for this meeting, as was also Mrs. Lela Roberts of McLean. Members present were: Mesdames Nettie Walker, Willie Ruth Hathaway, Dassy Thomas, Laura Hill, Oreta Baird, Alice Totty, Maggie Thompson, Carey Willis, Ann Trimble, Pearl Bailey, Marie Howard, Bulah Grimes, Mattie Newman, Mary Brewer, Elizabeth Arrington, Anna E. Waters and Chestnut Thomas.

Mr. and Mrs. H. J. Ridgway and Bill and E. R. Ridgway attended a family get-together at the home of the Clyde Ridgways east of town, Sunday. Others present were: Mr. and Mrs. Bruce Guinn and family, and Mr. and Mrs. Bill Ridgway and family of Pampa and the Jim Hall and Dinzel Coker families of Roby.

Guests of Mrs. F. P. Heare and son, Ike on Thursday, in honor of their daughter, Mary Belle and her husband, Joe W. Waits, here for a short visit were: Mr. and Mrs. F. P. Heare and family of Dumas, Mr. and Mrs. Joe Gordon and family and Miss Alice Gordon of Pampa, and Mr. and Mrs. Fred Gordon of Miami.

Mr. and Mrs. Paul Jeffus and family returned last week from a trip to Rogers, Ark. and report that they have purchased a farm near there and expect to move on it in the near future.

An accident occurred on the highway west of town Saturday afternoon during the heavy rain storm, in which Joe Fred Leonard was slightly injured, necessitating an overnight stay in the hospital

at Pampa where he was treated for shock. He was able to return to work Monday morning.

Mrs. Dora Harris has returned to her home here, following her illness, and a sister, Mrs. C. W. Rains of Ada, Okla. is here for an indefinite stay with her.

Cecil Murrell and family of Sunray, Mr. and Mrs. Johnny Murrell and the Jim Selby family were Sunday dinner guests of their mother, Mrs. Susan L. Murrell.

Mr. and Mrs. Jack Miller spent the weekend in the home of Mr. and Mrs. Olaf Rankin near Friona. They were accompanied by Misses Joyce, Patsy and Shirley McCauley to Bovina, where they visited their sister, Mrs. Bill Alverson. Patsy remained for a longer visit with the Alversons.

Miss Madge Patterson left Tuesday night for Austin to attend Girls State, being sponsored by the American Legion Auxiliary. Her mother, Mrs. J. R. Patterson and Mrs. Grady Patterson took her to Shamrock to join others going from this part of the state.

The J. T. Wallace home was the scene of a family gathering Sunday, when relatives came for a visit with Mr. and Mrs. Wayne Wallace of Haydraw, South Dakota who have been visiting in the parental Wallace home for the past week. Among those present from out-of-town were: Mr. and Mrs. W. O. Jones and Mr. and Mrs. Ross Errington of Amarillo, Mr. and Mrs. Atwood of Shamrock, and Mr. and Mrs. Buddy Errington and family and Mr. and Mrs. Winston Patterson of Wheeler.

Sunday dinner guests in the D. G. Sims home were: Mr. and Mrs. M. C. Pigg of Wellington, Mrs. Ruth Beck and children from Dumas, Mrs. Mary Sellers of Pass Christian, Miss, Mr. and Mrs. Jack Sims and Sharon, Wheeler, and Mrs. W. A. Scribner and son, Bud Carroll, Mr. and Mrs. Al Sims and Mrs. Susie Spearman and sons, Joe and Howard.

Mr. and Mrs. H. E. Matthews entertained Tuesday evening with an outdoor supper on their back lawn, honoring their house guests, Mrs. French Bristow and daughter, Jettie Mae. An hour of fellowship and informal visiting was enjoyed after the supper, in the cool of the evening.

Mrs. R. St. John and daughter, Edith, visited Mrs. Bob Hogan, their daughter and sister, in Pampa, Tuesday. Mrs. Cross Hogan and Mrs. Calvin Hogan were also Pampa visitors on that day.

Mr. and Mrs. Doug Sims and their daughter, Mrs. H. W. Sellers, who has been visiting here for the past several days, went to Amarillo Monday, where Mrs. Sellers left by plane for her home in Pass Christian, Miss.

Miss Patricia Trimble and Miss Allene Walker are spending the week in Borger, the guests of Mr. and Mrs. Kenneth Walker, who moved there from Laketon several months ago.

George Price of San Bardeno, Calif. was a recent guest for two weeks in the home of his daughter, Mrs. Bill Corcoran.

Guests of Miss Virginia Greenhouse over the weekend were her cousins, Kenneth and Terry McCasland of Wheeler.

Harold and Gary Gatlin are spending several weeks in the home of their uncle and aunt, the E. D. Clements near Spearman. While there the boys are picking up some spending money by plowing wheat land.

The new paint job on the interior of the IGA store gives a very pleasing appearance to the place.

Mrs. E. V. Herd visited the first of the week in Pampa, in the home of her daughter, Mrs. Ted Schones and family.

Harvey Close left Monday for Montana and South Dakota, where he will visit in the home of his brother.

Mr. and Mrs. Ernest Lee and Sam Gatlin made a trip to Oklahoma City over the weekend.

Orville Brewer of Borger is spending part of his vacation with home-folks, going from here to Sherman and Durant, Okla. for several days.

Mr. and Mrs. Earl Riley and son, E. W. made a business trip to Levelland over the weekend.

The H. E. Matthews spent Saturday and Sunday at Sanford in the home of their son, the Rev. Eugene Matthews and family.

Mr. and Mrs. Marvin Rogers of Leedey, Okla. spent the weekend in the parental Roberts home.

Mr. and Mrs. Doug Baird and family were Sunday evening visitors in the Roy Lee home.

**CARD OF THANKS**

We wish to take this means of thanking all our friends and neighbors for coming in and planting our crop while Mr. Megee is ill. We also wish to thank you for the food which was brought.

May God bless all of you.  
Mr. and Mrs. John Megee and children

Mrs. Fred Waters has been a medical patient in the local hospital this week.

**Esslinger-Holdeman Vows Exchanged Mon.**

Miss Dorothy Esslinger, daughter of Mr. and Mrs. Roy Esslinger, became the bride of Bob Holdeman, son of Mr. and Mrs. C. A. Holdeman, in wedding vows exchanged at the First Baptist Church in Roswell, N. M., Monday, June 12. The Rev. Arthur Du Laney, pastor, officiated at the double ring ceremony.

The bride was attired in a street-length dress of champagne crepe and accessories of navy blue. Her shoulder corsage was an orchid and she carried a white Bible.

Mrs. H. C. Fields, Jr., sister of the bride, was the couples only attendant. She wore a printed crepe dress and accessories of green.

Mrs. Holdeman was a member of this springs graduating class of Wheeler High School and the groom finished from the Booker High School.

After a wedding trip to Denver, Colo., the couple will be at home in Wheeler where the groom is associated with his father in the John Deere Implement Co. of Wheeler.

Mr. and Mrs. Roy Esslinger, parents of the bride, attended the wedding from Wheeler.

**Miss Reid-Mr. Wright Are Married Sunday**

Nuptial vows were solemnized Sunday, June 11, for Miss Mary Lee Reid, daughter of Mr. and Mrs. Leonard Reid, and Bill Wright, son of Mr. and Mrs. Ray Wright of Ft. Worth, at the First Baptist Church parsonage in Clovis, N. M. Rev. Starch, pastor, officiated.

The bride was attired in a dress of aqua linen with white accessories. Miss Lexie Ford of Hereford, the bride's attendant, wore a brown sheer dress and white accessories.

Bill Chandler of Plains, attended the groom.

Mrs. Wright graduated from the Wheeler high school in 1945 and received her B.A. degree from West Texas State at Canyon this spring. She also taught high school English in Gruver for two years and is now employed by Puckett's Food Store for the summer months.

The groom attended the Ft. Worth schools and at present is employed by South Western Bell Telephone Co. in Borger.

John Carter left this weekend for a two weeks vacation at Penscola, Fla.

**Wheeler hisperings**

(Continued from Page 1)  
Barney Teagues will occupy when they return this fall.

Everyone should come out to the Wheeler Band concert on the courthouse lawn Saturday night and learn how you can help buy the uniforms for the band without much expense to anyone.

Vacation time is here again, and it looks as though we are going to take a little one even though we hadn't planned on one this year. . . . we are leaving Wednesday night for the State Press Meeting in Fort Worth after which we plan to visit friends and relatives in deep east Texas where we know it will be good and warm, but if we haven't got any more sense than to go down there at this time of the year you needn't bother to worry about us sweltering in the heat.

Another suggested arrangement is to place the buildings along a straight walk that leads from the back door of the house. The first building could be a food storage building, then the garage, next the poultry laying house and on to the barn. This arrangement, says Allen, puts the buildings that are visited the most close to the house and at the same time gets the buildings that should not be too close to the living quarters the greatest distance from the house.

**Howells Are**

(Continued from Page 1)  
Badger, Dallas restaurateur and Will Grant, executive vice-president of the Southwest School of Printing.

An opportunity to visit the Con-vaire plant will be given the editors on Saturday noon when the group will be guests of Consolidated-Vultee for luncheon and a tour of the airplane factory where they will see the big 6-motored, pusher type, B-36 bomber at close range.

One of the entertainment highlights of the convention will take place on Friday night. Buses will take the group for a tour of the Fort Worth Star-Telegram's television station, WBAP-TV and thence to Shady Oaks farm for refreshments and a western style barbecue. Shady Oaks is the ranch home of Amon Carter, publisher of the Fort Worth Star-Telegram.

**FARM BUILDINGS NEED ARRANGING**

There are many factors that should be considered by the farm family when plans are made for laying out the farmstead. One of the most important, says W. S. Allen, extension agricultural engineer-buildings of Texas A. & M. College, is arranging the buildings for convenience. Time can be saved and inconveniences avoided by placing new buildings, including the house, in a suitable location with reference to buildings already in use on the farm.

One arrangement, suggested by Allen, groups the most frequently used buildings around a barn. Plan the locations so all buildings can be reached easily from the barn and there should be an all-weather walk from the rear of the house to the barnyard.

The plans for new houses should include the views that can be seen from the windows, roof water disposal, turning facilities for vehicles and practical arrangement of walks. He points out that regardless of how good a house plan may be, if it doesn't suit the spot on which it is built, there is a great loss of convenience and beauty.

He says people who hunt a hill-top primarily for the view the location offers sometimes find too much wind for comfort. Fuel bills are likely to be higher; an adequate supply is usually harder to find in such places and very often

accessory buildings must be located in inconvenient places.

Allen says it is best to plan the entire farmstead just as carefully as you plan the house. Once the buildings are constructed, nothing much can be done to correct a bad situation. Moving buildings is always expensive and for that reason, he says every farmstead should be planned before actual construction gets underway.

Mr. and Mrs. Bill Sides and baby daughter of Amarillo spent the weekend in Wheeler with her parents, Mr. and Mrs. Frank Noah.

Mrs. Jay Hastings, Miss Genevieve Morton, Ralph Wheat and Robert Ledbetter are attending a short course schooling at Texas A & M this week.
