

Gardening, Flower Planting Time Here, Please Pen Chickens

Since gardening and flower planting season is now at hand, Mayor R. H. Forester this week issued an appeal to all persons living in the city who raise chickens to please pen them at once if they are not already penned.

People who go to the expense and trouble of planting gardens and flowers do not like to have them dug up by someone's fowls which are running loose.

The mayor also points out the fact that the more pretty flowers and gardens the people of this vicinity raise, the more favorable comments the City of Wheeler will receive and everyone likes to be a part of something of which they can be proud.

The mayor respectfully urges that all who are raising chickens or other fowls within the City of Wheeler please pen them at once so as to avoid them annoying your neighbors.

E. E. SMITH TO HEAD CO. CANCER DRIVE

Selection of E. E. Smith, as chairman of the 1951 Cancer Crusade in Wheeler County was announced today by George E. B. Peddy, state Crusade chairman and prominent Houston attorney.

Mr. Smith will direct the educational and membership drive of the American Cancer Society during April, appointing community chairmen and organizing a county-wide public education program. A message of congratulation was sent by Mr. Peddy to Mr. Smith, expressing appreciation for his acceptance of this post of leadership.

Other cancer control leaders in this county are Mrs. Emma M. Hastings, H. E. Nicholson, M. D. and B. F. Risinger.

"We are participating in a work which is increasingly successful," Mr. Peddy said. "Many people are being cured of cancer today with the knowledge which we now have and which we spread to every corner of Texas during the Cancer Crusade. Cancer research is making rapid progress with the financial support which we give it. Science has developed new ways of aiding even the advanced cancer patient."

Mr. Peddy said that the American Cancer Society expects to raise more than \$500,000 in Texas this year to carry on its programs of education, research and service to cancer patients.

R. C. TAYLOR RECEIVES HONOR

Mr. and Mrs. Bob Taylor of Allison have received word from Capt. L. T. Malone, U. S. N., that their son, R. C., has been selected Honorman of his company.

R. C. entered service on December 27 of last year and is now stationed in San Diego, Calif., where he finished his boot training on March 5. He has been assigned to a ship for further duty.

The contents of Capt. Malone's letter follows: "As your son's Commanding Officer, it gives me great pleasure to inform you that he has been selected Honorman of his company."

"The Honorman is selected by the company from five candidates whose outstanding work in recruit training has been recognized by the company commander. Factors considered for the Honorman are leadership, sportsmanship, military bearing, initiative, response to orders, cleanliness, a good shipmate, and an outstanding individual in all phases of recruit training."

"The Honorman is awarded a certificate and an identification bracelet engraved with his name, company number, and service number. The presentation of these awards is made at the regimental parade by the Commanding Officer or a visiting dignitary."

"I know you must feel a justifiable pride in your son's achievement and I wish to extend to you my personal congratulations. Your son has proven that he has all the qualities of a good citizen and is a credit to the Naval Service of his country."

RED CROSS FUND RAISING DRIVE IS PROGRESSING

C. B. Kirk announced that the North Wheeler County Red Cross drive got under way this week when Ernest Zybach made the first donation of the 1951 fund raising campaign.

Local solicitors have been working in the business section of Wheeler, ladies of the Thursday Review Club have been working in the residential sections of the town soliciting donations and community chairmen at Mobettie, Briscoe, Allison and Kelton have been busy in their respective areas.

Mr. Kirk states that ladies of the Thursday Review Club will take up donations on the streets of Wheeler Saturday afternoon if the weather permits.

The people of the Totty community, northwest of Mobettie are holding a forty-two party Tuesday night and the proceeds from this affair will go toward the Red Cross quota it has been announced.

Mr. Kirk expressed appreciation for the enthusiasm workers in the chapter are showing in their effort to raise the \$1,000.00 quota which has been set for the North Wheeler County Chapter. He is in hopes that the goal will be reached within the next few days and the drive can be forgotten about.

Anyone who is not solicited personally may hand or send your donations to Mr. Kirk at Wheeler, L. D. McCauley at Mobettie, Supt. Harold Barnett at Briscoe, Carl Levitt at Allison or Ollie Elliott at Kelton.

CARRICK LISTS HONOR PUPILS

Supt. W. O. Carrick announced the honor roll for the fourth six weeks of the current school term for the Wheeler Public Schools this week as follows:

Red Cross Drive To Benefit From Party

Residents of the Totty community are staging a 42 party with all benefits derived to go to the Red Cross Fund Drive. The party is to be held at the Totty School House on Tuesday night, March 13, beginning at 7:30 o'clock.

Everyone is cordially invited to attend. Admission will be 50c per player.

Refreshments will be served by the Mt. View Quilting Club.

Laffins Have Agency For Necchi Machines

In an advertisement on another page of this week's Times, Mr. and Mrs. Carl Laffin of the Wheeler Radio and Refrigerator Service are announcing their appointment as dealer for the Necchi sewing machine.

Mr. Laffin reports that the makers of the Necchi claim that it is the World's Finest Sewing Machine and sell it on an absolute guarantee.

The Laffins have some models of the new machine now on display in their store on the west side of the square.

Youngsters Requested To Stop Using Square For Race Track

Sheriff Bus Dorman this week asked the Times to point out the dangers of the younger set using the streets around the square in Wheeler as a race track and ask that they abandon the practice immediately.

Sheriff Dorman pointed out the fact that if the practice is not stopped that sooner or later an accident of some sort will happen, and some one will be killed or maimed for life. There is great danger of running over someone or of turning an automobile over at the rate of speed some of these youngsters turn these corners.

Dorman respectfully requests that this practice be stopped immediately. He stated, however, that if it isn't stopped offenders will be picked up and will be subject to fine or loss of drivers license or both.

Dorman pointed out the fact that the youngsters who have been using the streets around the square here in Wheeler come from all over the north portion of the county, not just the immediate vicinity of Wheeler.

NASH TO HOLD ACTUAL FIELD DEMONSTRATION

Harold Nash of Nash Appliance and Supply of this city has announced in a large advertisement on another page of this week's Times that his firm will conduct an actual field demonstration of the very latest tractors and tools manufactured by the Case Company. The demonstration is to be staged on the T. J. Cole, Jr. farm 1 mile east of Wheeler next Wednesday afternoon, March 14, beginning at 1:00 p.m.

The demonstration will be under the direction of Robert A. Wilkins, crew manager from the Rock Island Case works. He will be assisted by 4 tractor drivers who are traveling with him in the "Case Caravan of Tractors and Tools". C. M. Keener, local blockman of Amarillo will also be on hand for the demonstration.

Mr. Nash points out that the Case Caravan of Tractors is currently touring the United States demonstrating to farmers in every state and locality. It will be here one day only, rain or shine, and in case of bad weather the demonstration will be held at the Nash Appliance and Supply show room on Highway 152 in Wheeler.

Mr. Nash stated further that many of the tools demonstrated have never been shown in this locality, and invites everyone in this vicinity to come and bring his neighbor. He invites you to drive these tractors and see for yourself why the new Case Eagle Hitch and new Case low-pressure hydraulics make farming easier, quicker, safer and more economical.

There will be a free drawing at the site of the demonstration Mr. Nash announced.

Wheeler Whisperings

By J. C. Howell

Mrs. Lyndon Sims, president of the Wheeler Band Boosters, has asked us to remind people all over the north part of the county of the talent show which is being sponsored by the Band Boosters in an effort to raise funds to buy more suits and equipment for the band. The show is to be held Friday night, March 23, at the Wheeler Gym and anyone who is interested in taking part in the program should get in touch with either Mrs. Sims or Pat Boddy, Band Director, by March 20.

"Dixie Boy" Jordan from Radio Station KWFT will be master of ceremonies and prizes will be awarded the winners. First prize will be \$10.00 and second prize will be \$5.00 with privileges of going to Wichita Falls to appear on a radio program.

Mrs. J. R. Carver writes us a card asking us to change her address from Las Cruces, N. M. to (Continued on Last Page)

EDUCATORS TO MEET FRIDAY AT AMARILLO

A program, designed for area educators but one of equal interest and information for all people interested in education, will be presented in Amarillo, Friday, March 9, when the annual convention of District IX, Texas State Teachers Association, opens at the Municipal Auditorium.

The public is invited to attend the meetings. Two general sessions are scheduled, one at 9 a.m. and the evening session at 8 p.m. Afternoon section meetings open at 2 p.m.

The morning session will include addresses by Dr. Ethel J. Alpenfels, anthropologist of New York University, and by Dr. Andrew D. Holt, administrative secretary, University of Tennessee.

The evening session will include an address by Dr. H. Roe Bartle, executive of the Boy Scouts of Kansas City. The subject which he will use is "What Kind of Education Will Save Our America?" Superintendent Chas. M. Rogers, Amarillo, and Dr. Motimer Brown, president of Texas State Teachers Association, Tyler, will extend greetings at the opening session, following the invocation by Dr. Eugene Slater, Polk Street Methodist Church. Music will be furnished by the Clarendon High School orchestra with E. R. Blevins conducting, and by the Four Profs. faculty quartette of Pampa Public Schools.

The evening session will open with dance compositions by the department of physical education for women, West Texas State College, Canyon. Chaplain Morris Lively, Amarillo Veterans Hospital, will pronounce the invocation.

Dr. Ruth Lowes, president of the association, will preside at the opening session. R. B. Norman, vice-president, will open the evening session.

MRS. GRANGER SERVICES HELD

Funeral services for Mrs. Mollie Granger, who passed away in Wheeler last Sunday, were conducted from the Methodist Church in Mobettie by the pastor, Rev. Vernon Willard, last Monday afternoon at 2:00 o'clock.

Following the service at Mobettie, a Kirk-Mason coach carried the body to Commerce, Oklahoma, where it was delivered to Michelson Funeral Home. Funeral services were held at Commerce at the Assembly of God Church with the pastor, Rev. W. F. Gilchrist, officiating at 2:00 p.m. Tuesday.

Interment was in the family plot at Commerce beside her first husband, C. M. Fly, with Michelson Funeral Home in charge of arrangements.

Mrs. Mollie Granger was born in Missouri October 17, 1870 and passed away at Wheeler March 4, 1951 at the age of 80 years, 4 months and 24 days. She was a member of the Methodist Church at Miami and had resided around Mobettie and Miami the greater portion of the time for the past 20 years.

Survivors include: One daughter, Mrs. Jennie Smith of Commerce, Okla., 5 grandchildren, and 10 great grandchildren. Five sisters and 6 brothers preceded her in death, she being the last of a family of 12 children.

She was an aunt of Henry Johnston, Mrs. Rhoda Eisenminger, Mrs. Ethel Mason, Mrs. Pearl Bailey, Mrs. Fay Leake, Mrs. Inis Walker all of Wheeler and Mobettie and Jack Montgomery of Shamrock as well as numerous other nieces and nephews from other places.

Pall bearers for the service at Mobettie were nephews and included: Elbert Johnston, Henry Johnston, W. H. Russell, Frank Russell, Edd Wesley and Charley Russell.

Pall bearers for the service at Commerce were: Perry Weford, Delmar Stapleton, Bessie Cofus, Ernie Kelly and Cecil Jones.

NOTICE

Members of the Wheeler P-TA are reminded of the next regular meeting, which will be Thursday night, March 15, at the Wheeler grade school auditorium, at 7:30 o'clock.

Wildcat Oil Well Near Sweetwater Blows In Saturday

"TEXAS FARM CO-OP WEEK" PROCLAIMED

Hon. Allan Shivers, Governor of Texas, has proclaimed the week of March 19-24 as "Texas Farm Co-operative Week" in honor of the annual meeting of Consumers Co-operatives Associated which is to be held in Dallas on Monday and Tuesday, March 19-20, at the Baker Hotel, according to Narville Arganbright, manager of the Wheeler County Produce Association, a farm cooperative organization operating in this community.

"Texas is proud of its agricultural heritage and of the men and women who carry it on today. This meeting will be a significant occasion for them, and by the same token, for the State of Texas," Governor Shivers stated in his official memorandum.

Representatives from more than 400 farm cooperatives in a seven-state area are expected to attend this meeting. Mr. Arganbright stated, to take part in the two-day program and to transact the business affairs of their regional cooperative organization.

An interesting and entertaining program has been prepared for the CAA annual meeting in Dallas, including an annual banquet and a luncheon for the ladies attending the meeting. Mr. Arganbright pointed out, and farm cooperative members in this community are urged to attend.

VISITATION DAY TO BE MARCH 23

Supt. W. O. Carrick announced this week that Friday, March 23, will be visitation day at the Wheeler Grade School for all children who will start to school next September. He pointed out the fact that all children who are now or will be 6 years old before September 1, 1951 will be eligible to start in September.

Children will be treated to lunch in the cafeteria on that date and will take part in the annual Easter egg hunt with the first grades. Mr. Carrick pointed out.

In this connection, he also announced that Mrs. Terrell Gunter is now taking the school census for the Wheeler Independent School District and it is imperative that everyone who has children of school age see Mrs. Gunter and enumerate them between now and April 1, 1951.

Children born between September 1, 1933 and August 31, 1945 should be enumerated.

Children must be enumerated in order for the school to draw state aid on them; so, anyone can see that it is absolutely necessary that their children be enumerated if they are in the school age.

Brother Of Local Lady Killed In Truck Crash

Mr. and Mrs. Jess Crowder and Mrs. Jaunell Johnson were called to Allen last Thursday night on account of the death of Mrs. Crowder's brother, Willie Marion, who was killed in a highway crash.

Marion was killed when the loaded lumber truck which he was driving collided head-on with a loaded milk truck.

Marion was a resident of this vicinity several years ago.

Mr. and Mrs. Crowder and Mrs. Johnson returned home Tuesday night.

Weekend guests in the C. B. Kirk home were Mrs. Kirk's sister, Faye Harbison, and Edd LaClare of Oklahoma City.

Mr. and Mrs. Levi Reid and Otis Reid were called to the bedside of their mother who was visiting at the home of a daughter near Houston. Grandmother Reid was very seriously ill when her children left Sunday afternoon to be with her.

Don't walk in a daze—Look both ways.

A story which has created much interest among land and royalty holders in this vicinity was published in the Daily Oklahoman Tuesday morning concerning the showing of gas and oil discovered in a wildcat well being drilled between 2 and 3 miles due east of the Sweetwater school house over in the edge of Beckham County, Oklahoma.

The story as it appeared in the Daily Oklahoman follows:

Carter Oil et al are opening a new Beckham county pool in the northwestern part of the county at No. 1 Garrett, in SE SE SE of 32-11n-25w, north of Erick and Mayfield, where the deep wildcat is flowing oil to pits after blowing out.

Working at 10,297 feet last Saturday, the well blew mud and gas in the air, and as pressure built up, crews closed the rams but failed to shut the well in. Several hours later it was shut in after hole was conditioned with 2,000 barrels of heavy mud.

In formation identified only as quartz conglomerate but which may be the Springer section of the Pennsylvanian, the Garrett then flowed gas and distillate to pits, and started showing green oil. It was making a 150-foot stream of gassy oil across pits as it continued to flow. There has been no estimate on the production.

Going Below Contract
Early last week the wildcat in which Stanolind Oil & Gas, Champlin Refining and Superior Oil hold interest with Carter, reached contract depth of 10,000 feet, but it was decided to deepen below original contract point.

It had found a show of free oil in the Hoxbar on 105-minute test at 8,570 to 8,647 feet when it showed gas in 35 minutes, and recovered 60 feet of heavily oil-cut mud and nine gallons of 40-gravity oil.

Northeast of the Garrett well, and across the Roger Mills county line, W. A. Delaney, Jr. et al were drilling below 10,800 feet at the No. 1 Ewton, in C SE SW of 17-11n-23w, southwest of Berlin.

Two Others Go Ahead
Another Carter Oil-operated wildcat in Beckham county, No. 1 State-Taylor, in C SW SW of 31-9n-21w, near the Carter townsite. (Continued on last page)

Band Boosters Elect Officers At Meeting

The Wheeler Band Boosters Club met March 1 for their regular monthly meeting.

Officers for the new year were elected as follows: president, Mrs. Duward Wofford; vice-president, Mrs. J. C. Moore, Jr.; secretary and treasurer, Mrs. Bill Owen and reporter, Mrs. Albert Chapman.

Mrs. Lyndon Sims, retiring president, expressed her many thanks to everyone for their part in helping the band and the Band Booster Club during her term of office.

The next meeting of the club will be April 5 and the officers for the ensuing year will be installed at that time.

COTTON MARKET AND PRICE FIXING

In any scheme of price stabilization, the basic commodities must be included, and that means cotton. But the government's present action is placing a ceiling of 45.76c, basic price, on cotton is doubtful for two reasons. First, the government does not have any general plan for economic stabilization,

including wages and prices. Second, the order throws a monkey wrench into the delicately adjusted machinery of cotton marketing.

Director Michael V. DiSalle of the Office of Price Stabilization says the markets will be able to reopen, operating in future markets at prices below the ceiling. A Starke Taylor, president of the American Cotton Shippers Association, and some other market authorities do not think that the markets can be kept open under such part-functioning. Probably the markets will reopen today or in the near future, but there is logic in Mr. Taylor's assertion that the cost of handling cotton will be increased. And this will be hurtful to the grower, who is now being encouraged to plant more cotton; and it certainly will not be helpful in the fight against inflation—the very purpose of the price ceiling.

A review of the cotton market in recent years holds little assurance that the government has known what it was doing, or knows today what it is doing, in its attempts to stabilize the price of cotton. A few months ago it was trying frantically to bolster acreage reduction. Now it is working frantically in exactly the opposite direction, trying to hold down the price and boost the acreage. Certainly, there would have been greater stability under unrestricted production and marketing conditions. And cotton would have been doing a better job holding its own against rival fibers, both natural and synthetic.

Accepting our present critical situation for a fact, however, the government certainly should do nothing to damage the cotton market which has operated with great efficiency; and it should not discriminate against cotton in its attempt—or lack of attempt—to stabilize prices.—Dallas News

A WOMAN'S PREROGATIVE

A New York builder predicts that modern magic soon will enable the bride of the atomic age to enjoy the same spacious living that existed in her grandmother's day. He forecasts that the apartment of tomorrow will have more room space than the average one today, although it won't occupy any more over-all floor space.

How? The walls will be movable so they can be quickly set up to divide one room into several small ones or removed to transform several small ones into a single spacious one. In other words her apartment will be convertible.

Won't that be just dandy for the wife who is always insisting on moving the furniture around? And bewildering for her husband who detests such goings on?

In addition to wondering in what corner his easy chair will be hiding, or where the magazine rack is or in what part of the room the bed is he will have to come home and find out how many rooms they are having that day. Then he can start the furniture hunt. It will all be no end of fun—for her.—From Fort Worth Star-Telegram

AND, FOR GROWN-UPS, TOO!

Safe food . . . healthful food . . . tasty food is vital to our very existence. We must have it to survive. But there must be a means of keeping food safe . . . healthful and tasty. Electric refrigeration provides the means . . . proven by years of faultless service to thousands of Panhandle-Plains-Pecos Valley residents. Today, proper refrigeration is a necessity . . . something you can't afford to do without. If you are not now refrigerating your food the safe, healthful electric way you're missing something. Why not talk it over with your electric appliance dealer.

thank all the teachers that let us out of their classes to practice. We also want to thank all the people that came. Last, but not least, we want to thank Mr. Barnett for the swell directing he did for us.

We got our invitations in and are all thrilled over them. We hope we will be able to get back in our regular role of school now that all the excitement is dying down.

JUNIOR JABBER

The junior class is very busy now. We are trying to decide to give the seniors a banquet.

We have our annuals now. They are very pretty. Douglas, what happened to your car Saturday night? Did someone pull some spark plugs loose?

Thomas Roy, are you interested in Briscoe, Canadian, or Mobeetie? Tolene, where did you go Sunday?

S. W., why are you always going to Shamrock?

Phone 203-M

Buddy, couldn't you find a girl Saturday night? Van, whom did you get a letter from Saturday? Imogene, whom were you with Saturday night?

SOPHOMORE NEWS

We are all proud of our new annuals. We have been busy signing the yearbooks and having ours autographed.

We wish to congratulate the juniors and seniors on their play. We all enjoyed it. The sophomore girls passed out the programs and the boys sold candy and pop for the seniors.

Tommy was absent Friday. Mary, Patsy, and Lucy went to Shamrock Friday.

Newest couple—Maureta Horn and C. B. Brotherton.

Cleavene, why did you have to turn around and face the wall in the Homemaking department? You'll have to get accustomed to this bunch.

Juanel, we hear that you like fried potatoes. Wonder why everyone was so sad Friday? Yes, we received our report cards.

Couples seen Saturday night were: Lucy and Kenneth; Mary and Carrol; Maureta and C. B. and Patsy and Tommy E. Jayne Ann and Bobby went to Shamrock Thursday night.

Pete, what happened yesterday? We wonder.

W. L., we hear you've been

fighting again. What was in Pampa yesterday, Pete?

FRESHMAN NEWS

Eddie, who got the car keys Saturday night? Martha, how did your report card look?

Monette, we are really proud you finally decided to come back to school. It will not take long to make up all the tests.

Johnnie, watch what you write. It might get you in trouble. Billie and Dean, did you really see Sylvia and Monette in all those places.

Jerry, how are you making those wonderful algebra grades? Zetha, you and Lucille surely are going places on Sundays, aren't you?

Mother nature can't jump from summer to winter without a fall, or winter to summer without a spring.

'Tis reported that soldiers in New Guinea discovered a tribe of natives in which the bridegroom greased himself from head to foot before the ceremony started . . . but seldom escaped.

His wife said he hadn't any business kissing any woman but her, and he agreed. However, he said he felt there was a lot of difference between business and pleasure.

PANOLA COUNTY YOUTH ENJOY NEW CENTER

The young people at Beckville, Panola County, are enjoying a new youth center all because home demonstration club women, who mainly comprise the Parent-Teachers Association there, decided to take a hand.

Two years ago the P-TA at Beckville bought an old army barracks building and from time to time the club women made improvements. A new roof was put on, new windows with screens put in, and a front porch was added. The interior was walled with knotty pine. A kitchen with cabinets, sink, hot plate and serving counter was installed in one end of the structure.

Members of the Beckville, Sims, and Harris Chapel Home Demonstration Clubs assumed the task of landscaping the grounds. They also made curtains and pads for the benches around the wall.

Minna Perry, Panola County home demonstration agent, says that the ground will be leveled and the grounds will be landscaped with native shrubs and flowers.

Included in the plantings will be dogwood, red bud, and sassafras.

Spicy Cinnamon Drops

These soft molasses cookies wear a spicy coat of cinnamon-sugar, and are delicious with fresh fruit.

"Come one, come all, for there are fresh cookies on the table!" You won't need to call twice, for that's an invitation no one can resist. Good cookies to serve for snacks or desserts are spicy Cinnamon Drops, which accent fruit flavors and are good with milk, coffee, or hot chocolate.

Molasses is behind the tangy flavor of Cinnamon Drops, which are made by a method that is standard for cakes. Drop teaspoonfuls of the dough into cinnamon-sugar for that sweet-and-spicy coat. The cookies flatten slightly into plump drops during baking.

Molasses combines with enriched flour in a nutrition special, too, since both have a generous quota of food iron to offer. Enriched flour also scores for its three B-vitamins. These food values are especially important in desserts which are served often on the family table.

CINNAMON DROPS

1/2 cup sifted enriched flour
1/2 teaspoon soda
1/2 teaspoon salt
1/2 cup shortening
1/4 cup Cinnamon Sugar
1 cup sugar
1 egg, beaten
1/2 cup boiling water

Sift together flour, soda, and salt. Cream together shortening and sugar until light and fluffy. Add molasses and egg. Beat thoroughly. Add boiling water. Add flour mixture to creamed mixture gradually, mixing well. Drop by teaspoonfuls into Cinnamon Sugar. Bake on ungreased baking sheets in moderate oven (350°F.) 12 to 15 minutes. Makes about 5 dozen 2-inch cookies.

Cinnamon Sugar

Mix 1 1/2 teaspoons cinnamon with 1/4 cup sugar.

willow oak, sumac, elder, yaupon, winter willow, birdseye, and buckeye. The club women are donating other shrubs for the grounds which they are finding at old homesides.

One side of the grounds will be a picnic area with a barbecue pit and table. A grass tennis court and croquet ground will be located in front on land loaned by local businessmen.

When we see two women kissing we always think of two boxers shaking hands before the fight starts.

CASE CARAVAN of Tractors and Tools

Nash Appliance & Supply presents the CASE CARAVAN OF TRACTORS AND TOOLS in a big demonstration featuring the CASE EAGLE HITCH AND 3-POINT HITCH EQUIPMENT.

The CASE CARAVAN OF TRACTORS is currently touring the United States demonstrating to farmers in every state and locality. IT WILL BE HERE ONE DAY ONLY, RAIN OR SHINE. Demonstration will be supervised by Factory Trained personnel and everyone is invited to see and drive these tractors.

Many of the tools demonstrated have never been shown in this locality. Come and bring your neighbor. Drive these tractors and see for yourself why the new CASE EAGLE HITCH and new CASE low-pressure hydraulics make farming EASIER — QUICKER — SAFER — MORE ECONOMICAL. Vocational Agriculture and G. I. classes especially invited.

New, Easy Way to Farm

- NEW CASE EAGLE HITCH
- NEW LOW PRESSURE HYDRAULIC CONTROLS
- NEW CASE "LATCH ON" IMPLEMENTS

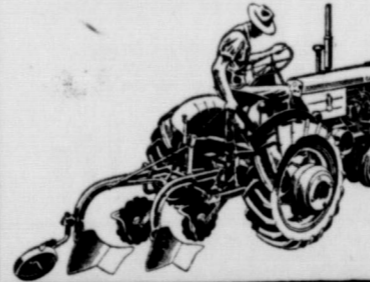

Many of the Tools used in this Demonstration have never been shown here before.

Official Memorandum
BY
ALLAN SHIVERS
Governor of Texas
AUSTIN, TEXAS

GREETINGS

Southwestern farm cooperatives will observe the period March 18-24 as "Farm Cooperative Week." Appropriate observances are planned by farm groups throughout the Southwestern territory. A general meeting is planned at Dallas March 19-20, to be attended by more than 2,000 farmers representing 450 farm cooperatives in Texas, Oklahoma, New Mexico, Colorado, Louisiana and Mississippi. This is the annual meeting of their farm cooperative organization. Texas is proud of its agricultural heritage and of the men and women who carry it on today. This will be a significant occasion for them and, by the same token, for the State of Texas. Texans will be happy to greet the delegates from other States and extend to them a traditionally hearty Texas welcome. THEREFORE, in recognition of this important occasion and as a formal greeting from the Executive Department, I hereby designate the week of March 18-24 as

TEXAS FARM COOPERATIVE WEEK

and direct the attention of all Texans to this meeting and to the important role of farmers and farm cooperatives in the economic life of this State.

GOVERNOR'S MEMORANDUM—Above is Governor Allan Shivers' official memorandum, setting aside the week of March 18-24 as "Texas Farm Cooperative Week." Official observance will be held in Dallas on March 19-20, when thousands of Southwestern farmers and ranchers will meet at the Baker Hotel for their 21st annual meeting of their regional organization, Consumers Cooperatives Associated.

SOCIETY

Ann Hefley And Agan Marry In Delight Service

A pretty candlelight service for the wedding of Ann Hefley, daughter of Mrs. J. R. Hefley, Sr., Shamrock, became the bride of Mr. J. D. Agan, also of that city, on Friday evening, February 22, at the church of Christ. Minister Cooper, pastor officiated in the ring ceremony.

Al vows were exchanged under an arch which was flanked by white baskets of white pink gladioli and fern. The bride was provided by tapers in wrought iron. The bride's bouquet was with three-branched carried with bows of white ribbon.

Miss Freida Johnson and Miss Shirley Lee sang, as pre-nuptial numbers: "O Promise Me," "I Love You Truly," and "Always." For the professional, "The Bridal Chorus" from the Opera, "Lohengrin" by Wagner, was used, and "Till The End of Time," for the recessional.

Mrs. J. D. Clay, sister of the bride, was matron of honor. She wore a floor-length dress of taffeta in a watermelon shade, fashioned with a fitted bodice, round of-the-shoulder collar, with a full gathered skirt of net over taffeta. She wore elbow-length gloves of taffeta, a headdress of matching net, similar to the bride's, and carried an arm bouquet of white gardenias.

Bridesmaids were: Mrs. Jimmy Petropoulos, Mrs. Volney Hildreth of Lubbock, Miss Jackie Briggs of Enid, Okla., and Miss Edwina

Brown of Wheeler. The dresses of the attendants were designed along identical lines as the gown worn by the matron of honor. Their dresses were in shades of rust, lime green, light grey and shell pink. They wore matching elbow-length gloves of taffeta and headdresses of net. They carried Colonial bouquets of gardenias and carnations.

Joy Hefley, niece of the bride, was flower girl, and Barbara Ann Clay served as train bearer. The little girls wore identical dresses of yellow taffeta, styled along similar lines as those worn by the other attendants.

Bill Bond of Pampa, was best man. Ushers were Jimmy Hefley, brother of the bride, Ray Lacy Zeigler, Donnie Ray and J. T. Johnson of Wheeler. Candles were lighted by Hefley and Ray.

The bride entered on the arm of her father who gave her in marriage. She was attired in a gown of white bridal satin fashioned with a lace yoke, round French collar, and fitted lace bodice with a peplum at the waistline. The fitted sleeves, trimmed with tiny covered but-

tons, terminated in petal points at the wrist. The skirt swept into an aisle-wide cathedral train.

The bride's full-length veil of Belgian lace and French illusion, was attached to a halo headdress of lace and illusion studded with seed pearls and crystal beads. She carried a white Bible topped with a white orchid and showered with satin streamers knotted with stephanotis. For something old, she carried a handkerchief which belonged to her grandmother, for something new, wore a strand of pearls, a gift from the bridegroom, and for something borrowed, a sapphire which she wore in her shoe.

Immediately following the wedding a reception was held.

The bride is a graduate of Shamrock High School and a student at Draughon's Business College in Amarillo. The bridegroom is also a Shamrock High School graduate, and attended Texas Christian University at Fort Worth. He is a student at West Texas State College at Canyon. Both Mr. and Mrs. Agan will continue their college work and upon their return from a wedding trip to

points in New Mexico, they will establish their home at 2203-A Taylor Street in Amarillo.

Mrs. Jaco Surprised With Birthday Party

Mrs. E. A. (Grandma) Jaco was happily surprised with a party Friday afternoon honoring her seventy-ninth birthday.

After the honoree opened her gifts, the beautiful birthday cake was served with hot chocolate to the guests.

Those present were: Mesdames Annie Sivage, Allie Minor, Cliff Bradstreet, J. B. Barr, A. B. Griffin, Alta Barber, W. L. Williams, Leta McQueen, Marvin Underwood, Maude McQueen, Cliff Mason, C. O. Sandifer, Estelle Burgess, Delmer Thomas, Jeff Cole, Glen Hibbitts, J. E. Scott, Ben Westmoreland, Clyde Johnson, Fred Drum, John T. Wright, Bill Owen, Sylvia McCracken, Marl Jaco and Master Ray Owen and little Miss Nina Lee McQueen.

Sending gifts were: Mesdames O. L. Bowerman, T. J. Daughtry, E. Tillman, R. G. Russ, S. D. Conwell, Emma Mae Hastings, O.

CAMERA TOPICS

By T. T. Holden

Typical of the beautiful pictures you can find all around you in the snow is this prize-winner from the Graflex Photo Contest by Elwood Armstrong.

SNOW IS WONDERFUL PICTURE MATERIAL

Snow makes every cameraman an artist. Whatever type of picture interests you: panoramas, pattern shots, winter sports, or even pictorial pictures during a snowstorm, you will find that snow is a very photogenic subject.

You will find that snow scenes are very brilliant, even on a grayish day. Keep your exposures as short as you would at the seashore. With a medium speed film, 1/100 sec. at f/16 or f/22 is about right for snow in sunlight.

Stay away from the old sun-over-your-shoulder rule. Cross-lighting and even back-lighting are best to bring out all the right interesting textures. If you are wise, you will use a lens shade to keep the glare from the lens.

A yellow or orange filter is useful to bring out shadow detail and give a pleasing amount of correction to light winter skies. In very cold weather, you may find your camera shutter operates

rather sluggishly, giving exposures longer than the indicated speed. If you keep the camera warm under your coat until you are ready to shoot, this trouble can be minimized. If any controls freeze up or stick, don't try to force them. Let the camera thaw out for awhile indoors, not too near the heat.

If you are planning to do a great deal of photography in extremely cold weather, your camera store can "winterize" your shutter, which consists of a complete cleaning and the use of a very small amount of special lubrication or none at all. Under most conditions this will probably not be necessary, however.

By all means, dress warmly and comfortably when you go out to make snow pictures. Half the fun of making pictures and much of your chances of getting just what you want are gone if you are cold and hurried and anxious to get back to a warm fire.

*Graflex Photo Director

MANY THANKS

Bob Pool, manager, and all the boys at the new Mercury agency in Shamrock wish to extend their sincere thanks for the hearty reception given them last Friday and Saturday on the occasion of the grand opening of their new place of business in Shamrock.

Hundreds of people visited our new showroom, parts and service department and all-paved used car and parking lot during our big grand opening and we hope they enjoyed their visit and will come back to visit with us often in the future no matter whether they need any of our many facilities or not.

Our service department is completely equipped with the very latest equipment and our service personell are all thoroughly trained to give you the most efficient service possible on your Mercury and other makes of automobiles.

We have a new Ford wrecker which stands ready to serve you at all times even though we hope that you never have need for this service. We will maintain a complete body repair and paint shop.

Nations, Johnnie Lynch, Mr. and Mrs. Bogan Griffin, Mr. and Mrs. Cecil Clark, Joe and Pat Griffin, Jeff and Al Griffin.

Remember way back when the postman used to carry the mail in his hat?

Rain always sounds better on the roof than on the raincoat.

He who does only what he is hired to do is a slave.

More than 10,000 Texas cotton farmers last year used rotary hoe equipment on their farm tractors to reduce the cost and amount of labor needed for hoeing their crops.

NOTICE

Since Roscoe is confined to a hospital in Wichita, Kansas, and will be for some time, I am forced to clear out the stock at greatly reduced prices.

Items which we will sell at greatly reduced prices include:

- 3—NEW CROSLY SHEVADOR REFRIGERATORS
- 1—NEW DINETTE SUITE
- 1—NEW CROSLY WASHING MACHINE
- Several small electrical appliances such as: TOASTERS, IRONS, WAFFLE IRONS, MIXERS and other items.
- 1—USED ELECTRIC REFRIGERATOR
- 1—USED MILK COOLER
- 1—USED ICE BOX

There are a number of odd items which we will sell at give-away prices.

Come down and look around, you might find something you could use to great advantage and you can get it at a bargain.

PLEASE CALL FOR YOUR RADIOS!
To those of you who have radios or appliances of any sort here which have been repaired, you must call for these by Saturday, March 17, or we will be forced to get rid of them one way or another.

Texas 4-H Club Members Observe National 4-H Week

Texas 4-H Club members, 118,237 strong, will join with the approximately two million other members in the United States to observe National 4-H Week, March 3 to 11. They will be join-

ed by the 250,000 volunteer local adult leaders, the more than 14 million former members, thousands of Agricultural Extension Service workers and their parents

When Nasty Colds Leave You WEAK AND RUNDOWN HADACOL CAN HELP

If Your System Lacks Vitamins B₁, B₂, Niacin and Iron, Which HADACOL Contains

When a nasty cold leaves you in a weakened and run-down condition, HADACOL can help build you up if your system is lacking in Vitamins B₁, B₂, Niacin and Iron, important elements contained in HADACOL. Many folks have found that this fine family formula helps overcome these deficiencies and soon they feel good again.

Mrs. A. Jimenez, 141 East 13th St., Port Arthur, Texas, gave HADACOL to her young son, Floyd, after he had recovered from a bad cold when she heard how HADACOL was helping folks suffering from deficiencies of Vitamins B₁, B₂, Niacin and Iron. It helped him so much in regaining his strength and energy that Mrs. Jimenez says she is always going to have HADACOL on hand for Floyd.

recovering from a siege of a bad cold.

He was very run-down, lacked an appetite, and I started giving him HADACOL. After about a bottle and a half I could notice an improvement. His appetite picked up and he had increased strength. I think HADACOL has done wonders for Floyd, and can't praise it enough. I have continued to give him HADACOL and intend to always have it on hand for Floyd.

Here is Mrs. Jimenez's statement: "My son Floyd was very subject to colds. He's eleven years old, and he was run-down, didn't seem to have an appetite at all, and just simply lacked energy. I heard about HADACOL on the radio, and it was about this time that Floyd was just

Men, women and children of all ages are praising HADACOL for supplying Vitamins B₁, B₂, Niacin and Iron which their systems lacked. Don't let that "After-Cold Run-down Feeling" drag you down—HADACOL can help you, too, if you suffer such deficiencies.

Sold on a strict money-back guarantee. You'll feel great after the first few bottles you take or your money back. Trial size, \$1.25; large family economy size, \$3.50.

and friends. According to the State 4-H leaders of Texas A. & M. College, the purposes of the week are to provide 4-H members a special occasion for checking their own efforts in relation to the needs of their community and country; to acquaint the public with the 4-H theme for 1951—"Working Together for World Understanding"; to inform all parents of the objectives of the 4-H clubs; to encourage the members to interest other young people in enrolling and in assisting the new members to get started in their 4-H work; and to enlist more public-spirited citizens as voluntary leaders or sponsors of 4-H clubs.

The 4-H members, with their leaders, have planned many activities for the week. There will be special public meetings; exhibits portraying the work of the members; and 4-H members will appear as guest speakers before civic clubs, farm organizations and other groups.

Here are the plans for the Dallas County 4-H Clubs. On March 3 they'll visit, 350 strong, a popular early morning radio show and several will be interviewed. They'll put on two 15 minute radio programs later in the week and are hoping to get a television show lined up also. Every 4-H club in Dallas county will participate in the 10 night programs that have been arranged for the purpose of acquainting parents and the public with the local 4-H program. These night programs will feature 4-H team demonstrations, dress revues, exhibits, along with fun and recreation. The assistant county extension agents are assisting the members and leaders with the plans for the week.

Texas 4-H members last year in addition to their regular demonstration work received training in fire and accident prevention, health, judging, recreation, leadership and conservation. Their regular demonstrations include crop, poultry and livestock production, forestry, wildlife conservation, gardening, foods, clothing, home management and improvement, agricultural engineering and home grounds beautification. Their total production when added together runs into millions of dollars and the livestock they own for breeding purposes is a-

mong the best in the country.

4-H members also find time for fun and recreation. They are strong believers in doing the job first, and hard work doesn't keep them from achieving their objectives. After the work comes the fun and recreation. They attend county and district camps, the state 4-H Round-Up at Texas A. and M. College, the State Fair, visit the major stock shows, send their representatives to state and national meetings, and for the past three years they have been represented in the International Farm Youth Exchange Program.

4-H members will be glad to have every citizen of the state and nation join them in the observance of their National Week and to put into operation their 1951 theme—"Working Together for World Understanding".

Cotton will be planted in 226 Texas counties this year. Farmers are urged to follow the recommendations outlined in the 7-Step Cotton Program for better yields, higher quality and more efficient production.

The week of March 3-11 is National 4-H Club Week. More than 118,000 Texas 4-H club members will join the nearly 2 million members in the nation in observing the week.

Food bargains are true economy only when the commodity purchased is of good quality as well as being low price.

MILLIONS OF FLIES CAUSE MANY DEATHS

Millions of flies help to cause illness and death of thousands of children and adults each year in the United States. Hundreds of these casualties may be in Texas this year if residents fail in their responsibility for developing the best possible sanitation measures in the area where they reside. Typhoid fever, summer complaint and other intestinal diseases can be traced to the common housefly as the carrier of the infection.

Dr. Geo. W. Cox, State Health Officer, speaking in this connection, recently said, "Be sure that windows and doors are tightly screened so that stray flies from a careless neighbor will not endanger your family. Be sure that flies are kept away from food, drink and utensils used in the preparation of food. Make sure, if you live in rural districts, that outside privy vaults are tightly covered so as not to permit the entrance of flies.

"Infections from this source can be picked up and spread to human beings through contact with food, drink and utensils. Keep all garbage covered until collected or buried. Eliminate all breeding places for flies and you will be helping your community in its

work of controlling communicable diseases and preventing unnecessary illness."

Now is the time to do away with the winter's accumulation of trash. Clean up and stay clean is a good slogan for communities and individual citizens.

Man has to work like a horse nowadays to keep his wife well groomed.

Newspaper Advertising Pays!

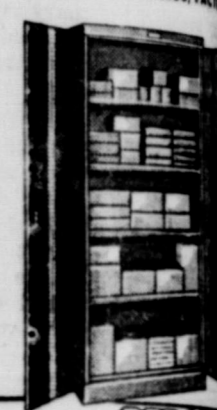

Corn yields can be increased from 20 to 30 percent by planting adapted corn. This has been shown by experiments conducted by the Texas Experiment Station and farm demonstrators.

A lot of wives lead good lives—their own and their husband's.

Recent photograph of a Texas primary highway

\$115,282,344

Damaged highways, such as the Texas highway shown in this picture, are a hazard to the safe operation of automobiles, farm trucks and other motor vehicles.

It costs three times as much to build roads that will withstand the loads of big trucks now being operated over them than it does for the smaller trucks and automobiles.

Latest records show **\$115,282,344** was spent on Texas highways for the year ending August 31, 1950.

A bill sponsored by the big truck operators is before the Texas Legislature. This bill proposes . . .

- (1) to increase the load limit from the present 48,000 pounds to 72,000 pounds, and
- (2) to increase the maximum truck length from 45 feet to 50 feet.

Recent official highway tests at La Plata, Md., sponsored by the U. S. Bureau of Public Roads, the highway departments of eleven states and the District of Columbia, effectively demonstrated that as trucks increased in size and loads, roads cracked up and "died" more quickly.

We need to safeguard our highways for Civilian and Military use. "Increased heavy loading might seriously disrupt the effectiveness of essential routes in the event of an all-out war," according to T. J. Kauer, director of the Ohio Highway Department and Chairman of the La Plata road test committee.

The big truckers want the taxpayers to continue providing expensive highways for them to use as "rights-of-way" for their own, selfish, personal gain.

THIS IS A TUG-OF-WAR BETWEEN THE BIG TRUCKERS AND THE TAXPAYERS OF TEXAS!

Automobiles and small trucks do not require extra strong, extra costly highways. The truth is, that the big truckers are putting the "pinch" on the pocketbooks of the Texas taxpayers.

Get the facts. Mail the coupon below for your copy of "The Case of the One Per Centers," and for a reprint of the article published in TIME, January 22, 1951, about the La Plata highway tests.

SOCIETY

Week Hostess Study Club

J. Meek was hostess to the Study Club at her home on Friday, March 2, 1951. The conclusion of the business of the club was presented. "Internationalism - Communism" was the topic discussed. "Things to Know About Communism" was presented by Mrs. Lee Guthrie. The meeting closed with refreshments were served by Mesdames H. M. Willey, J. M. Porter, J. W. Barr, Nelson E. Nicholson, Jr., Lee Max Willey, D. O. Beene, Shelby Pettit, Luther Carl Laflin, Wendell

Good Neighbors Enjoy Forty-Two Party Thurs.

The Good Neighbors Club entertained their families with a forty-two party in the home of Mr. and Mrs. Milton Finsterwald, March 1. Co-hostesses were Mrs. Melba Robertson and Mrs. Katie Finsterwald. Those enjoying the party were: Mr. and Mrs. Grady Dodd and family, Mr. and Mrs. P. A. Martin and Bob, Mr. and Mrs. Bob Ramsey, Mr. and Mrs. H. J. Finsterwald and family, Mrs. Maurine Barnett, Mrs. Melba Robertson, Mr. and Mrs. W. A. Finsterwald and Mr. and Mrs. Milton Finsterwald and family.

Mrs. Finsterwald Is Hostess At Club Meet

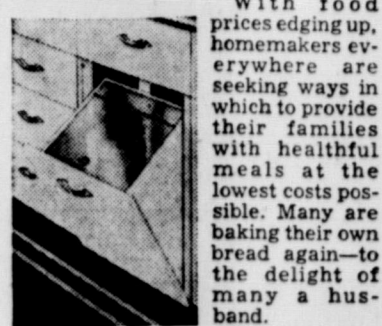

The Good Neighbors Club met with Mrs. H. J. Finsterwald Feb. 27 for an all day meeting and a covered dish luncheon. Aluminum trays were made and a library for the club was organized. Members will give the books they have on their reading list and then a small fee will be charged for use of the books. Members present were: Mesdames Etherlee Dyson, Eunice Treadwell, Maurine Barnett, Mary Dodd, Mottie McCarroll, Florence Burgess, Opal Hefley, Bernice Hefley, Helen Mixon, Melba Robertson, Bernice Ramsey, Katie Finsterwald, Mary Finsterwald and the hostess, Essie Finsterwald. The next meeting of the club will be March 13 with Mrs. Mattie McCarroll as hostess.

Mrs. C. Deering and children from Pampa visited the J. M. Glover family Saturday.

HAVE A BETTER KITCHEN

While the modern homemaker is no longer the family baker in the same way that her mother or grandmother was, the art of home baking is far from lost. Every county fair features among its exhibits beautiful, delicious home-baked bread, cakes, pies and cookies that come out of the kitchens of America's farm homes. And in the city frequent church bazaars and "bake sales" bear proof that the nation's urban homemakers are equal to their country friends in producing baked goods that tickle the palate.

With food prices edging up, homemakers everywhere are seeking ways in which to provide their families with healthful meals at the lowest costs possible. Many are baking their own bread again—to the delight of many a husband. Noting the trend, kitchen equipment makers are providing special cabinets for the safe and convenient storage of flour, says the Youngstown Kitchen Planning Service. One popular steel cabinet looks just like a standard base cabinet, and may be used with a row of base cabinets or as a separate unit. At the top is a handy storage drawer. And beneath it, hinged at the bottom, is a panel that pulls out to reveal an inner bin that holds 50 pounds of flour. The inner bin and its tight fitting lid are made of tin to effectively seal off moisture and foreign matter, keeping the flour clean and dry, even if used infrequently.

Mr. and Mrs. Frank Buchanan of Pauls Valley spent Thursday of last week in Wheeler and were accompanied home by her parents, Mr. and Mrs. J. W. Hooker and Von Eva, who visited with them until Sunday. Mr. and Mrs. Buchanan returned home Sunday and went back to Pauls Valley Monday. The Buchanans have just recently completed their new house there where he is Oldsmobile auto dealer.

Mr. and Mrs. Carl Laflin spent the weekend in Wichita Falls with relatives. Miss Georgie Porter, student at Texas Tech, Lubbock, spent the weekend here with her parents, Mr. and Mrs. George Porter and JoAnn.

MUSTANG BAND NEWS

See Sharp or Be Flat
Mustang Band Council
Billy Owen - Vondell Hodges
Janice Jaco - Helen Johnson
Student Director-Manager - John Dan Bowman
Music Librarian - Martha Lou Chapman
Reporter - LaJaune Mann

The night of the 23rd in the Wheeler Grade School Auditorium at 7:30 there will be a talent program sponsored by the Band Boosters. Dixie Boy Jordan and his boys will be our guests for the evening. Dixie Boy himself

will be master of ceremonies for this program. If you have any sort of talent at all you can be on it. There will be three prizes given away to the first three winners. We are looking forward to having talent from the out-lying schools of Wheeler. It will be appreciated if you take this into consideration and help to make it a big success. We will be looking forward to seeing you at this talent program with Dixie Boy and his gang. We are all very glad Janice suggested playing popular music. We enjoy playing popular music, even though it does sound quite

funny at first, but as you know we are very quick to learn. Everyone has been tuning up a lot this past week, getting ready for the talent program, no doubt. Mr. and Mrs. A. B. Crump have returned home after a month's vacation. Today's style trend seems to be to swap the wedding dress for a divorce suit. Most every family would be improved if the parents would get back on spanking terms with their children.

4 payers to convene for their own, selfish. VEEN THE BIG RS OF TEXAS! do not require ays. The truth ing the "pinch" is taxpayers. pon below for the One Per of the article 951, about the DW ADS 13 XAS ill me a FREE copy of of the One Per Cest a reprint of the article E about the La Pla. hway tests.

Cotton Acreage Will Be Stepped Up During 1951

Cotton will be planted in 226 counties in Texas this year. Indications are that the acreage planted will be stepped up greatly because of reductions in flax, sorghum, vegetables and small grain acreages. These reductions are due largely to adverse weather during last fall and winter says F. C. Elliott.

Elliott, who is cotton specialist for the Texas Agricultural Extension Service, says farmers have

shown a big interest in varieties of cotton adapted to the use of machine strippers and pickers.

Our records show that definite progress is being made in the 7-Step Cotton Program, Elliott states.

He lists the seven steps in the program as (1) fit cotton into balanced farming, (2) take care of your soil, (3) act together on the best variety, (4) make your labor count, (5) control cotton insects and diseases, (6) pick and gin for higher grade, and (7) sell for grade, staple and variety value.

In 1948, the program assisted in fitting cotton into balanced farming on 28,043 farms in Texas. This number was increased to 31,115 in 1949, and to 48,181 last year.

Although little increase in soil improvement practices occurred during the past two years, over the 1948 figures, Elliott says farmers have indicated that they will fertilize about 20 percent of the cotton acreage in 1951. Eleven percent is the most that has ever been fertilized in the past.

The number of spindle type cotton picking machines increased from 92 in 1948 to 335 in 1949. Due to reduced cotton acreage, there was a reduction of machine pickers in 1950. However, Elliott

"THIS CAN CONDEMNED"

Condemnation tags, as shown above, are attached to milk cans which are too battered and worn for use as safe carriers of milk or cream. Often this means a serious money loss to the farmer, for it means that milk or cream carried in such cans is rejected outright or downgraded below the level of top prices. Replacement of old milk cans with new cans at the farm level before they become "borderline cases" subject to condemnation will safeguard dairy farmers' profits and reputations.

says farmers have indicated that they want to buy 586 new pickers this year.

From a total of 4,732 in 1948, the number of stripper type harvesting machines increased to 7,003 in 1949. Little increase occurred in 1950. This year, farmers want to buy 7,491 new strippers—if they are available. If these new ones are bought, there will be more than 14,000 strippers on farms in Texas in 1951.

Elliott reports that machine strippers were used in 84 counties last year, while machine pickers were used in 63 counties. He says that machine harvesting is bringing about an increase in the number of one variety cotton communities.

The number of rotary hoe equipped tractors increased from 6,966 in 81 counties in 1949 to 10,004 in 97 counties last year. Elliott points out that the use of

the rotary hoe cuts the hoe bill by 60 to 65 percent.

Thirty-three million pounds of insecticide were used on cotton in 1948. An increase of about 50 percent occurred the next year with 49,563,948 pounds being used in 1949. Last year, about 60 percent of the cotton acreage was treated for insect control. On nearly five and a quarter million acres of cotton, 97,708,044 pounds of dust and 3,091,123 gallons of spray were applied.

The wide use of the recommended practices under the 7-Step cotton program, says Elliott, have resulted in increased yields per acre, more efficient production, higher quality cotton, better ginning and more income for the farmer.

With summer at hand, those barbed-wire fences are here again . . . the kind that protects the property without obstructing the view.

Kelton Boy Is Enrolled At Okmulgee A & M

One student from Kelton is enrolled at Okmulgee A&M Tech college this semester, according to information released yesterday by J. C. Hammond, registrar at the technical training school.

The student and the course in which he is enrolled is Charles Ray Barrett, Engineering.

According to L. K. Covelle, director of the Okmulgee school of industry, 1201 students have enrolled this semester. Plans are under way to increase the present

training program to include training to meet the critical manpower needs for defense industries. Short courses designed especially for women are being developed.

Over 34 different trade courses are offered at the Okmulgee trade school as well as freshman and sophomore classes of regular college.

Forty-three states besides Oklahoma are represented at the school of industry this semester, according to Hammond.

The man at the top is usually someone who has been going to the bottom of things.

HAVE A BETTER KITCHEN

Every homemaker is concerned with the health of her family, and she's a stickler for making sure that dishes are washed clean before they're put away after a meal. She's right, of course, for a poorly washed dish becomes the breeding ground for bacteria which can have ill effects when that dish is next used.

A lot of research has gone into the proper methods of washing dishes, especially during the past year when so much interest has centered around the home automatic dishwasher. It has been found, for example, that the most carefully hand-washed dishes, rinsed with scalding water, have a bacterial count two and one-half times greater than machine-washed dishes.

Why is this so? Well, first, because mechanical washers that really do a good job use water at temperature hotter than the hands can stand, thus removing all particles of food soil and effectively destroying harmful bacteria. And second, because strong cleaning compounds can be used without danger to the skin.

While the automatic dishwasher does not sterilize dishes in the true sense of the word, it does produce hygienically clean, sanitary dishes. This fact has been recognized by public health authorities who credit the dishwasher with bringing a decided advance in home sanitation.

If you are considering a dishwasher purchase, it is wise to select one that assures a supply of water at high temperature. And, of course, you'll want one that will do the job quickly in order to save you kitchen hours.

PFC. ROY C. LASATER

PFC LASATER WOUNDED TWICE

Pfc. Roy C. Lasater, cousin of Ernest Lasater of Twitty, and Mrs. Elinor Howell of Shamrock, has been wounded for the second time in the Korean fighting.

Young Lasater was wounded first on September 8, 1950, just outside Taegu, Korea, when the city was a focal point in the fight-

ing prior to the amphibious invasion of Korea. He received the Purple Heart.

His parents, Mr. and Mrs. Roy M. Lasater, former residents of the Twitty Community, who now live in Riverside, Calif., received a message last week that he had been wounded a second time on February 4. No details were given.

Pfc. Lasater enlisted for a three year hitch in the army at the age of 17, after graduating from Poly High School in Riverside. He was assigned to the First Cavalry, Seventh Regiment.

He took his basic training at Fort Ord, Calif., and learned boat loading at Camp Stoneman. He went to Japan on July 27, 1950, and loaded boats at Takao, until August 27. On August 31, he was transferred to Teagu, Korea, where he was wounded eight days later.

During the first week of December, his company was retreating at the rate of 40 miles a day. On the night of January 4, just out of Seoul, they were told to place everything on trucks except their rifles and sleeping bags, as they were to march 30 miles through enemy lines and fight their way out.

The soldiers were lucky enough to get out, but the trucks weren't. Pfc. Lasater lost everything from shaving equipment to his Purple Heart, which he had planned to

To put it politely—I'm disturbed. To put it honestly—I'm peeved! The objects of my anger are those speechmakers and writers who now say the washing machine is a luxury and that, accordingly, its production should be halted in favor of defense production and the continued output of certain "essential" civilian products.

I am perfectly willing to give up the luxuries of peacetime life if it is going to help our nation in these perilous times. But I strongly disagree with anyone who says that washing machines are luxuries.

I'm sure that you, as homemakers, will agree with me. You will, if you're like Mrs. Richmond, who lives in our block and is a very busy young mother of three small children. When I asked her what she'd do without a washing machine, she replied:

"I'd just have to throw in the sponge."

Then I began thinking: "Just why is the washing machine so necessary?" The most important reason is to keep our families and homes clean. Cleanliness is the foundation of health, and good health is a prime requisite for high morale, a vital ingredient for personal and national success either in peace or war.

At least seven out of every 10 American housewives do the family washing at home, where they have no choice but to use a washing machine. That is, unless you can possibly consider a return to great-grandmother's scrubboard as an alternative.

The fact that I have a new washing machine doesn't serve one bit to cool my indignation over statements that production of the "luxury" washing machine may have to be discontinued. Recently I read that more than 40 per cent of the washing machines now in use are 10 or more years old and in need of early replacement. In still another article I read that each year an average of 1,180,000 washers are becoming useless and are being junked.

It is important to everyone that these machines be replaced, for the health and cleanliness of the people with whom we associate is as important to us as the health and cleanliness of our own families.

It's my own opinion that it's of vital importance, too, to the entire nation. History proves that one of the surest ways to weaken a nation is to first weaken the unity and strength (and that means health) of the family.

I, for one, am going to write my congressman!

give to his father.

The youth recently wrote that he had almost lost his voice in the extreme cold and four-foot snow. When he first began hiking on the snow, he said he was down as much as he was up, but that now it seemed as though he was reared on it.

Since his second injury, Lasater has been sent to Japan. Up until that time he had been on the front every day since August 31, with the exception of two weeks which he spent in the hospital.

GOOD PRACTICES WILL INCREASE FARM OUTPUT

The use of a combination of good farming practices is one of the answers to increasing the productive output of a farm. In reality, says M. K. Thornton, extension agricultural chemist of Texas A. & M. College, increasing the per acre output amounts to the same thing as increasing the size of the farm. The big difference, he adds, is that the expansion is made vertically instead of horizontally, and generally the net profit on a vertically expanded farm is much greater per acre than on a horizontally expanded farm.

He makes the following suggestions for vertically expanding farm production. Use a balanced cropping system that fits the farm. Avoid the excessive use of row crops. They are more expensive to produce for more labor and usually more farm machinery is needed. The cropping and livestock programs for the farm unit should be balanced. The cropping

system should include the planting on the farm of some deep rooted legumes. The acreage devoted to such legumes should be sufficient to furnish high quality forage for the farm's livestock and, needed mineral nutrients should be used to insure the successful production of the legume crops.

Thornton says if these suggestions are followed, production on most farms can be increased from 25 to 40 percent without too much difficulty. The greater per acre yields will result in more net income, the maintenance of soil fertility, soil and water conservation and all add up to better rural living and more prosperous rural communities.

"I got the story on 50,000 Miles-No Wear and changed to New Conoco Super Motor Oil"

says J. D. Gladwin, Pontiac Dealer, Clinton, Iowa

"THE LOWEST OPERATING COST IN 12 YEARS in the Yellow Cab business—that's what we get when we changed to new Conoco Super Motor Oil," reports J. O. Jackson, Owner-Manager, Tyler, Texas. "Our operations are day and night the year around—a tough job for a motor oil. I recommend Conoco Super."

"AFTER AN OVERHAUL JOB, MY CUSTOMERS who change to Conoco Super Motor Oil have no difficulty driving their cars 50,000 to 75,000 miles without any more work on them," writes R. K. Comstock, Garage Owner, Oklahoma City, Oklahoma. "Conoco Super keeps engines clean and cuts way down on wear."

"50,000 MILES-NO WEAR!"—PROVED HERE:

After a punishing 50,000-mile road test, with proper crankcase drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence... in fact, an average of less than one one-thousandth inch on cylinders and crankshafts.

AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000! This test proved that new Conoco Super, with OIL-PLATING, can make your car last longer, use less gasoline and oil.

CONTINENTAL OIL COMPANY

For HAPPY DRIVING with

Conoco SUPER Motor Oil

LET US DRAIN AND REFILL

YOUR CRANKCASE RIGHT AWAY

Let us get your automobile in shape for safe, economical spring driving... let us change it over to the proper weights of oils and greases, check the starter, battery, radiator and other items which should be seen after regularly.

"SMALL BUSINESS"

Recently this column reported tire rationing would be needless; improbable. Now brace yourself. You could be a podiatrist. Much depends on an action obtained by Sen. John Sparkman's (Ala.) Senate Small Business Committee.

A major scandal brews. Its slimy trail reaches around the world. An International Communist clique acted last summer. American boys now fight and die in Korea. Another foreign idea clique profits on this conflict; threatens American business.

Here's some background facts. Germany, birthplace of Karl Marx, creator of International Communism, also took lead in developing the international cartel system. Both systems spread ruin, disaster. Cartels built two vast German War machines that killed millions.

Here's a brief description of a cartel. A monopoly controls supply of basic commodity; keeps out free competition; rigs prices in a nation. An international cartel is a worldwide monopoly.

Cartels control many commodities. Rubber is one. Sincere public servants like J. Edgar Hoover protect nations against Communist undermining. Other officials wage war on the foreign idea of cartels.

However, there is a difference. An attempt to unseat Hoover starts public indignation.

But Earl W. Glenn, head of National Production Authority ...

rubber division, and for 3 years in same post with Commerce Dept. walks plank over right. His sin? He fought rubber cartel to standstill, so he is replaced by Leland E. Spencer, Vice President of subsidiary of one of America's "big four" in rubber.

A Senate investigation has already unearthed ghoulish facts. Last fall civilian rubber use was cut to 80%. Over protests of "4 Bigs" Glenn allocated supply so every plant could operate a 49 hour week.

Another curious fact. Once before Spencer was "loaned" to government to break up cartels in postwar Germany.

In 1933 a special investigating committee branded his work a failure. But now in NPA Spencer is associated with two of his associates in that failure, Richard Bronson and Henry Heyman.

The facts are long involved. There will be more next week. In meantime, if you buy, sell, use cotton, pray for a good crop.

Marshall plan gifts of cotton stripping supply. ECA release = 2011 announcing \$15 million of cotton to Germany brings total cotton gifts for first 6 weeks 1951 to around \$50 million.

Same release announces gift of another \$1 million worth of tobacco to Ireland, bringing total tobacco gifts to Ireland to over \$8 million, estimated sufficient to give every Irish infant, child, man and woman 30-35 packs of cigarettes.

This has given rise to a new joke in Washington. "Have you heard about the secret Anglo-American plan to dispose of the Irish question? The Marshall Plan is encouraging the Irish to smoke themselves to death."

NEWS FROM— County Agent's Office

By R. D. Siegmund and Robert Ledbetter

GREETINGS FROM THE NEW COUNTY AGENT

Today, I began my duties as Wheeler's County Agent and it really started off in a nice way. Robert Ledbetter acted as my official guide and I believe I met at least a hundred farmers and business men of Wheeler and vicinity. In fact, I met so many people that I know I will have trouble keeping names and faces together. I can truthfully say that everyone is really friendly and I am going to enjoy working here. Since this is a new country for me, the next couple of weeks will mostly be spent in getting acquainted with people, the land, and problems of the county.

AMARILLO FAT STOCK SHOW

Wheeler County 4-H Club boys have just returned from a week at the Amarillo Fat Stock Show. Boys from the county showing calves there were Jamie Clark, Joe Van Zandt, Earl Corse, Jimmy Harris, and Paul Macina, Jr., Shamrock FFA boy. Calves exhibited by these boys averaged 18c per pound at the sale. The livestock judging team took third honors in the judging contest; Lawrence and Donald Whitley were high individuals in beef cattle and swine. Jamie Clark was sixth high individual in grass judging. Boys from the county were well satisfied with their showing but admitted there was room for improvement.

COCCIDIOSIS

Now that many of you are getting baby chicks, we would like to warn you about one of the most serious diseases of growing chickens—Coccidiosis. This disease is caused by a protozoan that inhabits the linings of the intestine and caecum and causes severe hemorrhage and high mortality. Prevention of coccidiosis is the best treatment. Crowded conditions with wet floors and litters are the prime starters for coccidiosis. So avoid these conditions. Treatment for coccidiosis now is

very satisfactory with sulfa drugs. Sulfaguandine, and sulfamethazine mixed with feed will relieve symptoms of coccidiosis in short order. The feeding of aureomycin will help in increased growth and therefore will cut down chances of getting the disease.
