## Mobeetie Meditations

Mrs. Homer E. Matthews

Sunday, July 22, the Meek reunion was held at the home of Mr. and Mrs. A. R. Meek. There was dinner at noon and the afternoon spent in singing and visiting. Those who registered during the day were as follows: J. P. Meek and Mrs. E. Petty; Mr. and Mrs. L. E. Petty; Mr. and Mrs. C. C. Dyson; Mr. and Mrs. Dale; Mr. and Mrs. Dyson and Jane Lee; Mobeetie; Mr. and Mrs. Richard Dyson; Janis Helen, Wheeler; Mr. and Mrs. Geo. Trimble, Jr.; Mr. and Mrs. Scott Lewis, Jr.; of Bo-J. Aaron Meek and John; Mrs. Sidney Mayfield, Jr.; daughter, Mrs. V. S. Keahey; Mr. and Mrs. Claud Meek; Mr. and Mrs. Duard Wilson; Mrs. L. P. Ward; Mr. and Mrs. S. E. Arnold, Canadian; Mrs. Farmer, Wheeler; Mr. and Mrs. Roy Box, Lee and Allen; Mrs. Eula Moore; Mrs. and Mrs. Bob Mar; Mrs. and Mrs. Plainview; Mrs. C. E. Worth; Mrs. C. R. Neece; Mr. and Mrs. L. E. Farmer; Mr. and Mrs. P. L. Farmer; Mr. and Mrs. H. L. and Patricia, Rev. and L. E. White; Mrs. Maggie and Mrs. A. R. of Mobeetie.

## BILL WARD IS KILLED IN AUTO MISHAP WED.

Bill Ward, son of Mr. and Mrs. L. P. Ward, former manager of the Ward Implement Co. at Shamrock was killed in an automobile accident Wednesday night between 9:00 and 10:00 o'clock as he was driving alone a short distance east of Higgins. No particulars of the accident had been learned at press time today. Ward was 30 years old.

It was understood that Ward had driven out near Shattuck, Okla. to show an automobile to a prospective customer and was on his way back into Higgins where he is manager of the Ford automobile agency when the accident occurred.

Ward had just moved from Shamrock to Higgins about a week ago to take over the management of the Ford car agency which he with his father and brother, Bob of Canadian, had just recently purchased. Mr. and Mrs. L. P. Ward had just moved from Wheeler to Shamrock where he was managing their Ford tractor agency.

## A. T. JORDAN FUNERAL HELD

Funeral services for Austin Texas Jordan were conducted from the Blackburn-Shaw Memorial Chapel at Amarillo recently with Rev. Austin Moore officiating. Burial was in the Llano Cemetery, beside his wife who passed away October 13, 1938.

Mr. Jordan was the father of Mrs. W. R. Babb of this vicinity and had stayed with her and her family part of the time since his wife's death. He had been a member of the Nazarene Church since young manhood and was loved by all who knew him.

Mr. Jordan passed away July 7, 1951 at the age of 83 years, 4 months and 12 days at the home of a daughter at Delhi, Calif.

Survivors include: three daughters, Mrs. W. R. Babb of Wheeler, Mrs. P. V. Walker and Mrs. O. L. Langley of Delhi, Calif.; one son, O. L. Jordan of Marysville, Calif.; one brother, J. W. Jordan of Morton; one sister, Mrs. Cora Lewis of Sweetwater; three granddaughters, Mrs. Maxine McCollough of Dodson, Mrs. Toby Vetter of San Francisco, Calif., and Mrs. Wanda Holdbrook of Napa, Calif.; three grandsons, Odell Jordan of Chicago, Ill., Charles Jordan of Japan, and Jerold Jordan of Marysville, Calif.; six great grandchildren; and a host of nieces, nephews and other loved ones.

## Young Doctor And Wife Injured In Wreck Sun.

Dr. and Mrs. Harold Stevenson of Memphis were injured about six o'clock Sunday evening when their car overturned between Wheeler and Twitty. Their baby escaped injury.

The Stevensons were enroute to their home at Memphis after spending the weekend in Canadian in the home of Mrs. Stevenson's parents, Mr. and Mrs. W. P. Varnell.

The accident occurred when the Stevenson car swerved to avoid hitting a car which had pulled onto the highway from a side road.

After receiving first-aid at Shamrock they were taken to the hospital at Memphis where Dr. Stevenson is being treated for a back injury and Mrs. Stevenson for a broken left leg and various cuts and bruises.

Mr. and Mrs. Delmar Faught, Miss Glenna Hefley, Miss Vendell Starkey and Miss Mary Wren left Monday morning for Ridgecrest, N. C. to attend the National Baptist Encampment for the Training Union Department.

REV. J. F. MICHAEL

## METHODISTS AT ALLISON WILL BEGIN REVIVAL

Rev. Gene Louder, pastor of the Allison Methodist Church, announced this week that the annual summer revival meeting of that church will begin Sunday, August 5, and last through Sunday August 12. Rev. J. F. Michael, pastor of the Wellington Methodist Church, is to be the evangelist.

Rev. Louder will conduct the first services of the meeting on Sunday and Rev. Michael will be on hand for the services Monday and throughout the remainder of the week. Mrs. Ray Brown, regular choister for the church, will be in charge of the music.

Rev. Michael held a revival meeting at Allison 21 years ago in 1930.

Morning services will be at 10:00 o'clock each day and evening services will be at 8:00 o'clock.

A cordial welcome has been extended to all to attend.

## GAGEBY REVIVAL TO BEGIN FRI.

The annual summer revival meeting of the Gageby Baptist Church is to begin Friday night, July 27, the pastor, Rev. Sanford Cole, has announced. The meeting will continue through Sunday night, August 5.

The services will be conducted by Rev. George Crawford of Overton and the pastor, Rev. Sanford Cole. Morning services will begin at 10:45 each day and night services will start at 8:30.

The church extends a hearty invitation to all around about them to come and be in the services. "If you enjoy good Gospel Preaching from the Word of God, then you will not want to miss these services," the pastor pointed out.

The pastor and other members of the congregation urge that you come and bring someone with you who needs the Savior.

## Wheeler OES Chapter Hold Initiation Tuesday

Artistic arrangements of seasonal cut flowers decorated the Chapter Room of the Wheeler Chapter, Order of the Eastern Star, when members met for a joint business meeting and formal initiation ceremony, Tuesday night, July 24.

Mrs. Irma Kirk, Worthy Matron, presided assisted by the Worthy Patron, J. C. Howell, with Miss Peggy Rogers receiving the degree of the order.

Plans were made for a picnic to be held at the City Park August 7 for the members and their families during the business meeting.

Lovely refreshments of dainty sandwiches, cookies and iced punch was served to twenty-seven members by Mesdames Lee Guthrie, George Hefley and Robert Holt.

Mr. and Mrs. Robert Hutchinson and family are visiting with her parents, Mr. and Mrs. S. R. Anglen at Biggs, California.

Mr. and Mrs. Andy Davis of Cave Springs, Ark. are visiting with his parents, Mr. and Mrs. S. B. Davis of Briscoe, this week.

Mr. and Mrs. F. E. Barnes of Pampa are visiting here this week with their daughter, Mrs. Buster Callan and family and their son, Earl Barnes and family.

## WHITTENBURG'S CONDITION IS IMPROVED

Shortly after noon Monday, Clarence Whittenburg turned over a pickup about 8 miles northwest of Wheeler on Highway 152. It has been reported that the pickup turned over two or three times.

The condition of Whittenburg, who at first was thought to be quite critically injured, is said to be improved today, and it has been learned that his skull was not crushed as was first reported but was fractured. He is in the Worley Hospital at Pampa.

He is the son of Mr. and Mrs. Wayne Whittenburg of Mobeetie. No one saw the accident, but a passerby came upon the scene and being afraid to remove the youth for fear he would hurt him worse came into town and notified Kirk-Mason whose ambulance picked him up and brought him first to Wheeler then on to Pampa to the Worley Hospital.

The boy was working for Larry Thornburg, whose pickup he was driving at the time of the accident.

Clarence was a popular member of the freshman class of Wheeler High School last year where he was active in sports.

## LOCAL PMA TO OFFER SOIL SAMPLING SER.

A program for soil sampling service, conducted by the Texas Production and Marketing Administration and the Texas Agricultural Extension Service is being established in Wheeler County by the Wheeler County PMA office and the County Agents office.

The immediate objective of this program is to encourage more farmers to have their soils tested for lime, soil reaction, organic matter, phosphoric acid, potash and soluble salts in order to find how much of these are present and the appropriate needs. The overall objective is to encourage and guide farmers into a program of good farming which include soil improvement, erosion control, and balance crop production.

The growing of legumes and grasses is basic to this objective. Soil testing serves as a guide in the intelligent application of soil treatment materials, which in turn must be utilized in the production of soil building legumes and grasses. These are crops that supply nitrogen and organic matter, produce good soil tilt and structure, and help control erosion. A sound cropping system is essential to any successful farm enterprise. A soils test will furnish information on good fertilizer usage under crops in the farm system. It is essential therefore, that the testing be followed with sound corrective recommendations.

Samples will be taken by a PMA employee who has been adequately schooled in sampling techniques recommended by the County Agent, and will be taken in accordance with sound sampling procedures. This includes obtaining and preparing necessary information and proper preparation and identification of samples. One copy of the soils test will be sent to the farmer, one copy will be put on file in the PMA office, and one copy will be filed in the County Agent's office.

Field services to the farmer will be furnished on request by the PMA office, the only cost to the farmer will be \$1.00 per sample for the laboratory fee.

For more information on this service, contact your PMA office or your County Agent.

Mr. and Mrs. Clyde Spruill, Tony and Larry of Tahoka and Mr. and Mrs. Buster Callan, Phyllis and Ranly vacationed last week in the Ozark Mountains in Arkansas.

Mr. and Mrs. B. W. Coffman, Ruth and Wanda of New Mexico, were guests in the home of Mr. and Mrs. H. W. Coffman from Tuesday last week until Monday.

Randy Callan was honored with a party Tuesday evening by his mother, Mrs. Buster Callan, the occasion being his sixth birthday. Twelve of his playmates were present for the party.

## Wheeler Whisperings

By J. C. Howell

First we want to beg the pardon of Mrs. C. C. Robison then we want to wish her a happy birthday. She has called our attention to the fact that we ran Clarence's name in the list of "Happy Birthdays" last week and it should have been her's. She tells us this is the second year in a row that we have given Clarence two birthdays and her none. Says she is not like some women—she has to keep on having birthdays to stay up with Clarence. Anyway we hope you had a happy birthday, Mrs. Robison and hope you will have many, many more in years to come.

Our softball project has been at a virtual standstill this week due to the fact that one of our main promoters, George Gandy, has been out of town all week. Last week one of our other right hand men, Watson Burgess, was out of town; so, things have been a little slow but I think they will both be back in town next week and we hope to have done some work which will be quite noticeable by next Thursday.

First we plan to move some more dirt on the plot which has been leveled off in the park and make it a little larger and a little smoother if we can get the assistance of Mr. Mason and Shorty Erwin, our two county commissioners. Then we have a man who has promised that he will see that the holes are dug and the posts set up as they should. Members of the PMA and Soil Conservation Service staff have offered their assistance in surveying the plot and helping to level it up right.

We still need some more funds there are several business men around town whom we had expected to kick right in and help with this project, but we haven't heard a word from them as yet; however, we believe that they will be willing to get in and do their share once work is actually begun.

If we don't get busy with this job right away, the softball season is going to be over for the year. We hope to get the project completed though so that it can be used this season; however, if we don't get it ready for games this summer, we can go ahead and complete it and have it ready for an early start next spring.

We believe that softball has definitely caught on here and we know that it is furnishing enjoyment and employment of time for a great number of our young folk who would probably be out riding up and down the highways or parked off some where in a dark lane "making love" if they weren't playing softball. We believe that everything we can do to give our young folk better entertainment and environment is worth while and worthy of the whole-hearted support of the entire community.

We have at the Times office a billfold which was turned in the later part of last week by some man. The billfold contained no money but does contain several pictures of some children, some frontier savings stamps and a needle and thread. It has the name of Mrs. Ethel Lund stamped in the inside in gold along with the inscription, "To A Loyal Friend, Hugh & J. B.". The party was apparently from Lubbock since the pictures have the address of a Lubbock studio on the back of them and we know that the stores in Lubbock give frontier savings stamps. The billfold was found on the courthouse lawn. If anyone knows the lady the billfold belongs to we would appreciate it if they would come by and pick it up and send it to her.

## Wheeler Baptist Meet To Be August 12-26

Rev. M. B. Smith, pastor of the local Baptist Church, has announced that the date for the annual summer revival of that church has been set for August 12 through 26.

Rev. A. Edwin Wilson of Amarillo has again been selected to do the preaching. Music will be under the direction of local choisters.

## Farm-To-Market Road To Cemetery May Be Possibility

### COUNTY SCHOOL BOARD TO MEET HERE AUGUST 4

County Superintendent Jesse J. Dyer announced this week that the Wheeler County School Board will be in session at the Court House in Wheeler on Saturday, August 4 from 9:00 a.m. to 12:00 noon for the purpose of passing on all transfers, classifying school, approving bus routes and route changes, and to attend to any other business which might be brought before the board.

The superintendent also issued the following warning to parents of school children: "August 1 is the deadline for transferring children from one district to another. Where the grades are not taught in the home district, it is necessary that the students be transferred and the RESPONSIBILITY IS THAT OF THE PARENTS. If you fail to transfer such scholastics you may be called on for tuition and transportation for the children not transferred by the receiving district."

## WHEELER TO PLAY MIAMI

The Wheeler team in the East Panhandle League will attempt to get back on the winning side of the ledger when they meet the Miami team here Sunday afternoon in a league contest. The Wheeler team has dropped their last three straight games to McLean, Allison and Shamrock in that order. Sunday afternoon's contest will begin at 2:30 p.m.

Last Sunday the local club lost an 8 to 5 decision to the Shamrock nine when they got off to a bad start and the Irish team scored 5 runs in the last half of the first inning. Richard Gaines, Wheeler's fine centerfielder, scored three of the local club's five runs.

Red Richerson and Billy J. Darnell worked on the mound for the Wheeler team and Bud Vanpool worked the entire contest behind the bat.

Reports have it that the Briscoe club of the East Panhandle League handed the Kelton team a solid defeat last Sunday without allowing them a hit or run last Sunday.

A Wheeler team journeyed to Turkey Tuesday night for a contest and handed the Turks a 12 to 1 defeat with Sheriff Bus Dorman and Monk Ford doing the pitching for the locals. Bud Vanpool caught the entire contest.

## Donald Gene Meadows Is Burned At Gageby

Funeral services for Donald Gene Meadows, infant son of Mr. and Mrs. Cecil Meadows of Gageby, were held at the Gageby Church Sunday afternoon at 3:00 o'clock with the pastor, Rev. Sanford Cole, officiating.

Donald Gene was born at Wheeler July 19, 1951 and passed away July 21 at the age of 19 hours.

Survivors include the parents, Mr. and Mrs. Cecil Meadows of Gageby, and one brother Cecil Dwayne of the home; the paternal grandparents, Mr. and Mrs. Allen Meadows, Mr. and Mrs. I. E. Wyant of Briscoe.

Interment was in the Gageby Cemetery with Kirk-Mason Funeral Home in charge of arrangements.

## JUST FORGOTTEN

The wife had been put on a budget plan. At the end of each month she and her husband would go over the accounts together. Every once in a while he would find an item, "H. O. K. \$5" and a little farther on, "H. O. K. \$3." Finally, he asked: "My dear, what is this—'H. O. K.'?" "Heaven only knows," she replied.

It has recently been discovered by local citizens that the State Highway Department Farm-To-Market road program is attempting to provide a paved road from towns to their cemeteries where ever and when ever possible.

This proposition has been discussed by the Wheeler Kiwanis Club at its last regular meeting on Monday and the club voted to go on record as favoring the project. This is also to be discussed at the meeting of the Wheeler Cemetery Association which is to be held on August 11.

A route for such a road has been proposed and this route would start from the corner of Main and Sixth Streets (between Dr. Merritt's home and the Church of Christ) proceed west up Sixth street for two blocks, curve across Block I which is entirely vacant, proceed south for about two-thirds of a block between property belonging to Lonnie Lee on one side and C. C. Clark and John Geyer on the other side then strike a "B" line across the Smith Estate 60 acres which has recently been purchased by the Wileys and across the cemetery property to the west side of the Wheeler Cemetery and on farther west if possible.

The Wileys have offered the right-of-way across their property free of charge if the project can be arranged between the Wheeler County Commissioner's Court and the directors of the Farm-To-Market Road Program.

## Farmer Hefley Has Been Selected On Co. Board For Three Years

Farmer Hefley, who farms in the Briscoe community, has been notified by Farmers Home Administration County Supervisor Homer H. Lynch of his appointment to serve on the Wheeler County Committee for the next three years.

He replaces Nelson Porter of Wheeler, who retired on June 30 after serving three years, the past year serving as Chairman of the Committee.

Mr. Hefley will serve with Irven Hink, a farmer in the Kelton community and John E. Reeves, a farmer in the Shamrock community.

The Committee met Thursday, July 19, and elected Mr. Hink as chairman for the ensuing year.

## Cemetery Association To Meet On August 11

The Trustees of the Wheeler Cemetery Association have announced an important meeting of the group for Saturday afternoon, August 11, at the District Court Room in the Courthouse here. The Trustees urge that all who are interested in the cemetery please make plans to attend this meeting.

The group states that there are several important matters to be discussed on this occasion, one of which is the selling of the residence which is located on the property. There are also other important matters to be discussed and it is imperative that a representative group of the members of the association be present.

*Editorial*

**A SLY TAX SCHEME**

A new idea in the tax field was presented  
by Charles R. Sligh, Jr., of Michigan,  
chairman of the National Association of  
Manufacturers' tax committee. He proposes  
to reach an estimated \$130,000,000,000 of income  
that is not now covered by the taxable

income provisions of the revenue law.  
Mr. Sligh estimates that a nineteen percent  
levy, placed upon manufacturers in the  
form of a sales impost, would raise about  
\$18,000,000,000. He would exempt food,  
which, he says, is the largest item of expenditure  
among low-income groups and asserts  
that his proposal would spread the tax load  
and be an effective weapon against inflation.

The N. A. M. spokesman argues that a  
manufacturers' impost would be easier than  
a general sales tax. He says that there are  
three million retail outlets but the number  
of final manufacturers, exclusive of food  
products, is less than 300,000.

The proposal did not receive an enthusiastic  
reception from Congressmen, who are  
principally concerned with the suspicion that  
if the manufacturers marked up their products,  
subsequent dealers and handlers would  
have their normal markups and thus pyramid  
prices beyond the reach of a large segment  
of the public.

Mr. Sligh glibly talked about a total of  
\$18,000,000,000 but not much emphasis was  
placed upon the fact that this would require  
a nineteen percent manufacturers sales tax.  
The reader can obviously conclude that this  
would automatically advance wholesale prices  
by not less than nineteen percent. What the  
advance would be by the time the products  
got on the counter to the consumer, is  
problematical. If markups went down the line,  
with brokers, jobbers, wholesalers, distributors  
and retailers adding their bits, such a tax  
might work out to mean a fifty percent  
increase in the cost of manufactured articles.

While it may be necessary, in the event  
of a financial crisis, to try such drastic  
proposals, the readers should not overlook the  
fact that taxes of this kind operate on a per  
capita basis. The amount to be paid in would  
be regulated by the amount of money that  
the individuals of the nation spend for what  
they buy outside of foodstuffs. It would mean  
a tremendous increase in the cost of living  
for the average family but not such a heavy  
blow to the wealthy class, which enjoys income  
which provides a surplus over living expenses.

**\$1 A DAY PER FAMILY**

If Congress votes a weak control law,  
Eric Johnston, Economic Stabilizer, predicts  
that it will add \$1 a day to each family's  
cost of living. Thus, he explains, if Congress  
prohibits further price roll-backs, as it has  
done in the one-month stop-gap statute now  
in effect, the cost of living would increase  
twelve billion to fourteen billion dollars.

In addition, Mr. Johnston points out  
that the added inflation would move defense  
costs upward, adding more than \$3,000,000,  
000 to the defense budget. This, he asserts,  
is not a "political issue" and adds that blame  
for the tangled situation might be fixed on  
those in the Economic Stabilization Agency  
because they have "not brought home to the  
people the dangers ahead."

**DISAPPOINTED**

"Don't be afraid!" said the  
burglar to the young widow. "I  
am not after you. I want your  
money."  
"Oh, go away," came the petulant  
reply, "you're just like all  
the other men."

On October 20, 1950, 168 live-  
stock auctions were operating in  
Texas. The top number for a single  
state in the nation. More cattle,  
sheep and hogs are marketed  
through livestock auctions in Texas  
than in any other state.

**BAD BUSINESS**

An old lady went up to the beg-  
gar. As she handed him a coin she  
said: "Oh, my poor man, it must  
be dreadful to be lame. But you  
know it would be much worse if  
you were blind."  
"You're telling me, ma'am,"  
said the beggar. "When I was  
blind I got nothing but foreign  
coins."

Built for Jennie Williams, Wellington, by Thater

**Electric Cooking Is**

**ECONOMICAL**

... as MODERN women KNOW!

Modern Women know you can cook the MODERN way for seven cents a day — less for smaller family units. Truly, electric cooking is economical. It saves your food dollar—for there is less food shrinkage when you cook electrically. It saves your cleaning dollar—for there is no cooking method that approaches the cleanliness of electric cooking. It saves your time and labor—for electric cooking is automatic and constant—you set your electric range at the heat desired and you know that's the heat you'll have. There are no flickering flames to watch—electric cooking is flameless, constant, matchless.

Yes, electric cooking is economical. It's fast, automatic, dependable, clean, efficient, cool and convenient, too... as modern women know! See your electric appliance dealer now.

with a plus value- *It's COOL, too!*

 Guest: "Terrible! I didn't close an eye all night!"  
 "That's your own fault sir. If you want to sleep you must close your eyes."

Texas is the land of plenty, with plenty of land.

**FARMERS ARE LEARNING VALUE OF FERTILIZER**

County Agent R. O. Dunkle reports that Young county farmers are learning the value of fertilizer. Today they are using four times as much commercial fertilizer as they did five years ago.

A demonstration on the F. T. Littlejohn farm in the Red Top community, where an increase of 419 pounds of grain sorghum per acre was obtained last year with 50 pounds of 16-20-0, has been one reason for the increased use of fertilizer. An application of 100 pounds of 16-20-0 per acre to Westar wheat on the Jack Nichols farm gave an increase of eight bushels per acre last year.

"Neighbors have seen the extra growth and increased yields and are thoroughly convinced that applying commercial fertilizer to wheat and grain sorghum pays a dividend of over 400 percent," says Dunkle. "Increased yields per acre, earlier maturity, more efficient production and improved soils mean more income for the farmer."

Dunkle reports that Ed Steele of Henry Chapel and Roy Thompson and Barney Flowers of Graham have sent soil samples to the Soil Testing Laboratory at Texas A. & M. College. They are planning to fertilize their crops according to recommendations from the laboratory.

Farmers interested in having their soils tested should contact their county agents for information on taking the samples and mailing them to the laboratory. Soil samples are tested for one dollar each.

In 1950, peach growers marketing their fruit as "firm-ripe" peaches, instead of as "green mature", received \$3.00 more per bushel for their product.

**BUY OR SELL WITH A TIMES WANT-AD!!!!**

**From where I sit... by Joe Marsh**

**What's So Funny?**

Just finished reading a magazine article that "proves" you and I don't know what's funny.

A bunch of psychologists came to this sad conclusion after telling jokes to college students. Very often they would give out with what they considered a side-splitter—and not get even a chuckle in response. Other times the students would laugh their heads off at stories that weren't considered really funny.

Maybe I'm wrong, but what makes a psychologist such a better judge of humor than the rest of

us? If a man gets a kick out of a joke that proves it was funny to him—doesn't it?

From where I sit, when psychologists try to set up a standard for a sense of humor they're getting too serious for me. Stands to reason that different people laugh at different things, just as they have different tastes for most everything. I'm partial to a glass of beer with meals myself—but I promise not to make any "wise-cracks" if you prefer tea.

"I got the story on  
**50,000 Miles-No Wear**  
 and changed to New Conoco Super Motor Oil"

says Carl W. Smith  
 Chrysler-Plymouth Dealer  
 Miles City, Montana

"Cars coming to my shop after using Conoco Super are cleaner and show less wear than anything I have seen in my 27 years of garage work," Mr. Smith says.

**"50,000 Miles-No Wear!" Proved Here:**

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

**TRAVELING SALESMAN**

"It is my meal ticket," admits Eberhart, Travelingman, Colo. "I average 2,800 miles a month. Since changing to Conoco Super, my operating expenses have been reduced and the performance is much smoother."

**DELIVERY FLEET**

"My work has been cut 50% since I started using Conoco Super on my delivery vehicles," writes Lange, Laundry Partner, Okla. "One has run 50,000 miles on Conoco Super, without any mechanical work."

Wheeler, Texas

**Warfarin Bait Proves Good In Rat Control**

Excellent results in warfarin bait rat control demonstrations are reported by John B. Williams, Leon county agricultural agent.

About 425 pounds of the new rat poison had been sold to rural people of Leon county in May. Warfarin is a relatively safe rat killer, which prevents clotting of blood and causes the rodents to slowly bleed to death of internal hemorrhages.

F. L. Thompson, Sr., of Leona put out five pounds of the warfarin bait, and 33 rats were picked up at this one place.

Ben Boone of Jowett says the buzzards have been sitting on the

fence posts at his barn since he put out five pounds of the slow-acting poison.

With four pounds of the rat bait, Jodie Vann, Leon county commissioner, completely cleaned out his barn and outbuildings.

Thus far, only one dissatisfied user of warfarin has been reported in Leon county. Although this person could not find a single dead rat around his home, his close neighbor has seen many dead rats at his place.

County Agent Williams thinks the sick rats are leaving the dissatisfied farmer's barn and going to the neighbor's place to die.

We like any man who comes right out and says what he thinks, when he agrees with us.

Erwin Ray, 9, of the famous Boys' Ranch near Amarillo, Texas tries on Colorado Dan Thornton's Stetson for size. Erwin and Troy Black, 17, were elected outstanding citizens of Boys' Ranch and awarded a two-day flying trip to Denver, Colorado. They were guests of Wolf Roberts, prominent Denver businessman.

**TWO BOYS FROM BOYS RANCH GO TO COLORADO**

Two slightly dazed but happy boys returned recently to the famous Boys' Ranch near Amarillo, Texas from a two-day trip in Denver, Colorado. The boys, Erwin Ray, 9, of Borger, Texas and Troy Black, 17, of Mason Texas won the trip in a special citizenship election conducted by all the "cowhands".

Erwin and Troy were chosen the best all-round citizens and most popular boys at the Ranch. With this honor went the chance to fly to Denver and spend two days just seeing and doing everything possible.

The boys stayed at the renowned

ed Brown Palace Hotel as guests of Mr. Wolf Roberts, prominent Denver businessman. They were officially welcomed by Governor Dan Thornton in his office, taken on tours of amusement parks and places of interest, and were guests of honor at a special banquet attended by presidents of all the Denver civic clubs.

It is hoped that this will be the start of an annual event at the Ranch. Both Troy and Erwin feel that their is a very special honor because they were the first to be elected "Best Citizens of Boys' Ranch".

**LADY NOVELIST**

Most of the time he was proud of his wife's ability to turn out an endless stream of best-selling romances; but when he'd wake up in the middle of the night and find her still pounding her typewriter "his patience would occasionally wear a bit thin. He turned on the bedside light early one morning, saw the time: 3 a.m.

"Jean!" he yelled, "come to bed!"

"Can't darling," she called back. "I've got my heroine out with a wolf, and I've got to get her safely home."

"How old is she?"

"Oh, 25 or so."

"She's old enough to figure it out for herself! Come to bed."

THE WHEELER TIMES classifieds offer more for less money, to both buyer and seller, than any other business device we know about.

**FOOD VALUE OF GRASS IS LESS IN SUMMER**

Native grasses on the Southern Plains Experimental Range near Woodward, Okla., usually contain ample protein and other foods for rapid growth and fattening of yearling steers during spring and early summer. The April-June daily rate of gain on grass alone has been slightly in excess of 2 pounds per head. However, food values and gains decrease as the grass dries up in late summer, indicating the need for protein supplements at that time.

Feeding a daily ration of 1 pound of 41 percent protein cottonseed cake to yearling steers on grass after July 1 resulted in a six-year average gain advantage of 22 pounds per head. This included two years when the grasses were green all summer. Caking on the green grass gave a gain advantage of only 6 pounds per head which was not profitable. However, the 1-pound caking rate on dry grass during the other four years gave an average summer gain advantage of 33 pounds per head. This justifies the conclusion that feeding a daily ration of 1 pound of 41 percent protein cottonseed cake per yearling steer after the grass dries up in late summer is a clearly profitable practice.

A 2-pound rate of late summer caking was compared with the 1-pound rate and with no cake during two of the six years. The heavier rate of feeding exceeded the 1-pound rate by a gain advantage of 23 pounds per head one year and 11 pounds the next. The heavier rate of caking was profitable the first year but not the second, although it maintained average daily gains at the 2-pound rate throughout the summer six months.

These and many other results on the grazing and feeding of range cattle and the production of grasses will be presented to the general public at the station's Fourteenth Annual Range Improvement Field Day on Saturday, October 13.

**ANTIQU**

"My husband has the strangest hobby," said Mrs. Smith to a friend, "and I never knew anything about it until yesterday, I found in his desk a queer looking ticket inscribed Mudhorse 10 to 1. I asked him what it was and he told me it was a relic of a lost race. Isn't it interesting?"

**Why your promptness is always appreciated**

Your prompt payment of telephone bills helps keep down our collection costs. It also helps us pay the 15% to 25% Federal Tax and long distance connecting charges promptly out of receipts instead of reserves.

We appreciate your fine cooperation, for it helps us keep service values high and costs low.

mittee of the Whole House and if it remains in the House bill, it will probably receive much debate in the conference committee. It provides an immediate stop to inflation and an opportunity to solve the problems within the next 120 days. This is the most important amendment that has been proposed and I hope it stays in the bill. Cloak Room gossip is that unless this amendment stays in the bill, there may be no defense production act.

**RESEARCH ON WHEAT AND OTHER CEREAL INFESTATION:** I appeared before a Senate appropriations committee a few days ago on behalf of an appropriation for research to fight the wheat and other cereal grain infestations. This is a serious problem, especially in our section of the country, and we must have research to protect our food supplies. Here is a portion of a committee report which I think expresses and explains the need for this research:

"Science saves our cereals. Stem rust and other diseases took an enormous toll until varieties developed through cooperative research with State agricultural experiment stations came into general use. When scientists learned that the rust organism spent part of its life on certain varieties of barberries, a large-scale campaign was organized to get rid of these plants. This proved to be a herculean task and is still going on.

Our temporary conquest of stem rust has not come easily. It was one of the earliest diseases to demand attention of cereal breeders. Scientists were puzzled to see a variety that had stood up for several years suddenly succumb. New varieties often met the same fate after a few years of successful resistance. For a while it looked as though we were losing ground as fast as we gained it.

One of the essential ingredients of science is ingenuity. It expressed itself in the mind and hands of young scientists at Minnesota. He demonstrated that there were many races or forms of stem rust and that varieties of wheat or other cereals might be resistant to one race but not to another. This basic discovery explains many failures of the past and set up new guideposts for the future. It complicated the task of wheat breeders immeasurably, because they were fighting not one organism but a host of organisms, all capable of causing stem rust.

Later on it was learned that the rust pores were hybridizing in nature (during the period spent on barberries) at a faster rate than we were able to hybridize between man and nature is still going on. We are only a few steps ahead. If we slacken our pace the gains of a lifetime will quickly

NATIONAL PRESS BUILDING WASHINGTON, D. C.

By Anne Goode

Despite its name, allspice is just one spice. It comes from the pimento tree (not pimiento, the red pepper) and derives the name, all-spice, because its flavor suggests a blend of nutmeg, cinnamon and cloves.

Did you know that nylon resists mildew, moths and silverfish? And also that it can be dyed just like any other material if you use all-purpose dye? Did you know nylon will not blaze in contact with flame but it may melt? Well, they're all facts!

Put some of the ol' shinola on that vacation-racked suitcase of yours. It will remove dust and grime, hide unsightly scratches and rejuvenate its color and luster.

Have you tried rolling pie crust around the rolling pin to set it in your pie pan? You let the dough roll around the rolling pin, lift it from the board and unroll the pastry on the pie pan. The rolling pin supports the tender crust so it does not stretch or break while being moved.

Here's a quick tomato creole sauce that's perfect for omelets. Dilute condensed tomato soup with a little water. Saute diced onion, green pepper and celery in vitaminized margarine. Add to tomato soup and heat.

disappear and the rusts will take over.

The recurring problem of plant diseases is well illustrated with oats. In Iowa, farmers have had to shift varieties of this crop twice in the last 10 years because of diseases. Fortunately, new varieties were available because of research. Through increased use of these new varieties, Iowa farmers alone have harvested what has amounted to one extra crop of oats since 1940, and the total of this new wealth has added up

to more than \$100,000,000. And the benefits have extended over into other oat-growing States.

New races of oat-stem rust—2, 7, and 8—were found over a wide-spread area this summer (1950) with much damage in many States. These new races were found in the Dakotas, Iowa, Illinois, Missouri, Oklahoma, Texas, Mississippi, and Florida. Present commercial varieties are susceptible to these new races. We have a resistant source of parent material in our breeding nurseries, but it will take time to breed this resistance into commercial varieties.

**TELEVISION:** Television is receiving perhaps more attention at the present time than any other field of communications. I think I can tell you that it won't be long before the Panhandle will have television. Great strides have been made in this field and the Federal Communications Commission will probably take action within the next few months that may result in the Panhandle having access to

a television station. I can tell you that it is a great thing, as we have a set here in Washington.

The only trouble is that during school time it is difficult to get the children away from the television set. You never know how many of the neighbors' children are in your house. The way people here find their children is to call some of the neighbors who have television sets.

Usually the children are there. Many of the people here are able to get their children to eat most any kind of food if they put it in front of a television set. The child is so engrossed in Hopalong Cassidy, or Captain Video, that he automatically eats whatever is in front of him and never knows whether it is spinach or apple pie.

"What is your recreation, my boy?" said a banker to his cad.

"I'm a Methodist, sir."

"No, no; that's your belief. I mean, have you any particular sport or hobby? Just as for example, I myself am a golfer?"

"No, that's just your belief, sir," said the boy.

**MORE ON THE DEFENSE PRODUCTION ACT:**

This piece of legislation is one of the most important that will ever come before Congress. The debate has been long and at times heated. There is no doubt that the members of this congress will refuse to place unlimited powers in the hands of appointed officials. This is proven by the many amendments that are being offered. We hope to finish this bill today and it is possible that it will be in a conference committee by the time you read this letter. Much has been said about the fear of inflationary trends and all speeches indicate a desire to stop them. Congressman Jim Davis of Georgia brought the issue to a point where we were able to hybridize by introducing an amendment that would freeze all prices as of July 7th of this year; the freeze to remain in effect for four months. This amendment carried the Com-

**RECIPE OF THE WEEK**  
 By Mary Lee Taylor  
**Frozen Fruit Slices**  
 Broadcast: July 28, 1951  
 3-oz. pkg. white cream cheese 1 1/2 cups drained fruit cocktail  
 1/4 cup salad dressing 1/2 cup ice cream  
 1/4 teaspoon salt 2 teaspoons lemon juice

Put cream cheese into bowl. Scrape salad dressing and salt; mix smooth. Add fruit cocktail and well. Whip chilled milk with rotary beater until fluffy. Add juice; whip until stiff. Fold into mixture. Freeze, without stirring, in automatic refrigerator tray at cold temperature, or in a mold buried in mixture of 3 parts crushed ice and part ice cream salt. Slice and serve as dessert or salad. Makes 4 servings.  
 \*Use the kind that comes in a 4-oz. not a bottle.

You Will Need:  
**Pet Milk, Cream Cheese, Canned Fruit Cocktail, Salad Dressing, Lemon Juice**
