Editorial

REST, RELAX OR PREPARE TO DIE

The importance of rest, recreation and
relaxation cannot be overstressed in this day
of heart attacks and other forms of sudden
death.

The average individual, for some
reason, looks askance at idleness, either of
the mind or body, without realizing that a
balanced life must include both. Consequent-

ly, we suggest to those who think they are
too busy to take any time from their busi-
nesses that they are gambling with death
and the odds are against them.

The stress of modern civilization has
developed astonishing casualties. People go
nuts for unknown reasons. They worry them-
selves sick because they overlook the vital
importance of easing the strain of modern
life.

We would do nothing to militate against
the labor that useful individuals perform. It
is true that there are some who have a pre-
judice against earning their living and this
advice is not meant for them.

Those who have the idea that they can-
not miss an hour from appointed tasks, or
fear that an economic collapse will follow
any idleness on their part, might as well
realize that the world will continue to revolve
whether they punch the clock on time or not.
Consequently, if they wish to live long and
enjoy life, they might as well plan an intelli-
gent program of activity to include conscious
relaxation from the worries and cares of the
day.

**PUBLIC NOT ALERTED TO
INFLATION THREATS**

Economic experts, financial leaders and
bankers join in warning the people of this
country against the danger of inflation. Most
of them agree that a business setback is in-
evitable in the future and that while it may
bring some relief to prices, the nation will
acquire a headache.

The process of inflation is like a narcotic.
Every economic group deludes itself with the
idea that it will gain something at the ex-
pense of the whole economy. This may be
true, temporarily, in certain areas, but what
will the gain be worth if the economy of the
country is shattered and we have another
experience like that of 1932?

There is also general agreement that our
present controls are inadequate to meet the
threat of inflation. Price and wage controls,
such as they are, are difficult to enforce
under less than all-out war. Meanwhile,
deficit spending looms ahead in the next
twelve to eighteen months and this means
an added impetus to the inflationary process.

The economic problems of the nation are
confused because of political implication and
the refusal of Congress and officials to face
the economic facts of life. One must admit,
however, that the general public, entirely
unaware of the dangers ahead, have not
made an intelligent contribution by way of
demanding proper safeguards for the econo-
mic emergency facing the country.

Suspicion leads many people into many
mistakes.

The right guess is never as good as the
correct answer.

Paying debts ought to be a pleasure to
any honest man.

NATIONAL PRESS BUILDING
WASHINGTON, D. C.

By Anna Goode

Holiday time is nearing and all
of us want to look our best at the
gay round of party parties and
festivities. . . . If you decide your
color needs a bit of stepping up,
lean toward the pink or peach
shades of make-up.

Warm left-over toast in the
oven. Roll into crumbs and save
in an air-tight jar to use for scal-
loped and au gratin dishes.

Have you tried the wonderful
No-water Way to cook fresh vegeta-
bles? Allow 1 tablespoon margarine
per serving and place in bottom
of saucepan top with pre-
pared vegetable, season Place wet
lettuce leaves over vegetables;
cover and cook over low heat till
done, about same time as boiling
water method. Vegetables are deli-
cious, nutritious and so beautiful
cooked this way.

Eggplant, shiny and purple-clad
is so appetizing prepared this way.
Wash and slice, through skin too,
about 1/2 inch thick. Spread with
real mayonnaise salt and pepper
and broil about 5 minutes. Turn
and repeat mayonnaise and sea-
sonings and broil about 5 more
minutes.

Plan to attend the
American Legion Ministerial
Friday Night, December 7th.

Electric cooking is..

... as fast as a "scat" back going through a
hole on a quick-opening play.

High speed electric range elements glow
red hot in seconds and transmit all their heat
instantly to the cooking utensil, without any
heat waste.

Electric cooking's accuracy adds to its
speed, too. Each setting on the push buttons
or dials of an electric range is pre-set to an exact
heat and that exact heat is always delivered
when your hand at the control demands it.

Let your electric range dealer show you
fast electric cooking soon. Let him show you,
too, that electric cooking is accurate, efficient,
cool, dependable, economical — and most of
all — modern.

When you want all-star performance, you
want all-electric cooking. See it at your favor-
ite appliance store.

Items can be removed from fabric and dishes by soaking in water and salt. If allowed to remain on the fabric, mold growth will weaken and rot the material.

From where I sit ... by Joe Marsh

"TALKS TURKEY" —LONG DISTANCE

People chuckled when they rented a home recorder to record the noise of turkeys make. "The recording to a buyer market chain," Sonny told them "My turkeys themselves—listen to them!" They not only took but bought the record!" "Did they want the record?" "Very simple," they're going to play it to loud speakers in their and an announcer on record reminds the cus-

tomers that turkeys are plentiful and a good buy. From where I sit, it's not always smart to make fun of someone just because he does things a little differently. I think a glass of beer is the most refreshing beverage there is. You — or Sonny — may prefer something else. But who's to decide one's right and the other's wrong? Let's stay "on record" that everyone's entitled to his own tastes and opinion.

Joe Marsh

SPORT NEWS

Mobettie Hornets were defeated last Friday by Sunray. We played in rain the last half of the game. The Hornets were supposed to go to Booker Friday, but due to the weather the game was forfeited to us. We will play Darrouzett next Friday; game time is 2:30. This will be the last game, so come on out and see it. The basketball girls played Wheeler last Monday night and the A team defeated them. But the junior girls lost.

SENIOR NEWS

We are glad that tests are over

and everyone passed this time. We hope to keep this up so we will all graduate next spring.

The seniors were all sleepy Thursday. It couldn't be from Hallowe'en, could it? The senior and junior girls had a slumber party Wednesday night. We wish to thank Mrs. Maggie Thompson for a wonderful time.

SENIOR SOCIETY

Ines, you and Barbara better be careful falling over hedges. Patricia, where did you go Wednesday? Wonder where Frances was Friday? Wonder why Mearlene likes Briscoe? Pete, are you and Bill learning to sing? Barbara, is your boy friend getting married? Nep, we hear you went to a wedding in Amarillo Saturday night. Katie, why weren't you at the slumber party Wednesday night? Wendell, why don't you sing a solo? Paul, why don't you come to school more often? Jimmy, we would learn more at

school if you would keep quiet.

JUNIOR NEWS

WONDER WHY

Lavada was sitting on Joan's front porch at 4 o'clock Sunday morning? Mearlene, Shirley, Vondell, and Lavada stayed behind the couch all Saturday night? Could it be Joan got the dog after them? Vondell was so sick Sunday morning? Could it be because of the canny Mearlene and Lavada made? Martha doesn't want to go with G. W. any more? Sandra looked so cute Tuesday? Could it be she had to mop the Home Ec. room? Dan's face is always red? Waylon isn't bashful any more? Billy Ray was in Wheeler Sunday afternoon. Lanier has so many girl friends? Joan, which one of the Briscoe boys did you go with Tuesday night, W. L., Eddie, Doug, or Jerry? Could it have been all of them? The girls wanted to go to Booker on the bus?

GOSSIP

Shirley McCauley gave a slumber party Hallowe'en night for the sophomore and freshman girls. There were a few who couldn't attend on account of the weather. Those who attended were: Maurea Godwin, Marie Scribner, Virginia Greenhouse, Reba Wright, Nelda Barton, Nelda Baird, and Peggy Hooker. Even if it was snowing, Shirley, we all had a nice time. Wonder what happened to Marie's headscarf?

FRESHMAN NEWS

GOSSIP

We got our report cards Tuesday. Hope every one was satisfied with their grades. But most of us hope to do better next time. Thanks to Mary Sue for the Hallowe'en party. Every one reported a nice time. Cheer up, Nelda Barton; things will be better some day, maybe. Wonder why Jerry is never seen with the boys any more? What about that, Maurea? Wonder how Salley came to the party Friday night? Bobby, why don't you speak to a certain freshman girl? Earl and Joe were seen talking to a certain eighth grade girl. Wonder who it is? Hubert sure is friendly with a certain girl lately. Kenneth never has any thing to say. Wonder why Nelda G. got a red shirt? Couldn't be because Herbert has one, could it?

8TH GRADE NEWS

The eighth grade did very well on their first six weeks tests although there isn't but one on the honor roll. The first six weeks flew by so fast we hardly realized it had gone.

WONDER WHY

Don wasn't at school today? Ora likes a freshman boy? Helen Allen likes a certain boy? Mac likes a certain eighth grade girl? Marion is so silly? Helen Poole was the only girl at the Show Thursday night? Helen A., Laverta, and Ora were so sleepy Thursday?

Further increases in net farm income will likely have to come from added production and increased efficiency instead of higher prices, says Dr. T. R. Timm, Extension economist of Texas A. & M. College.

WE NEED YOU

NUMBERS COUNT TO STOP THE TREND OF WASHINGTON TO DICTATE TO US THEIR PET PLANS.

The Farm Bureau Believes

- We believe the democratic principles of free enterprise and human freedom, upon which our nation was founded are responsible for its greatness.
- We recommend that a Rural Road program for the building of farm to highway roads be financed by a state tax levy upon our natural resources by appropriation of any other method deemed wise.
- The most effective way to prevent inflation prices of livestock and livestock products is to encourage maximum production and avoid price controls of the livestock industry.
- We ask that standard sales of milk be made uniform throughout the state.
- We recommend a financial responsibility law which will require owners or operators of all motor vehicles to be able to prove financial responsibility in event of accident.
- The Farm Bureau kept the tax refund on gasoline used in tractors and other non-highway vehicles from being repealed.
- We ask for additional revenue for the state when needed to be by a tax on natural resources rather than by a sales tax or other taxation.
- We oppose the Brannan Plan.
- We keep men in Austin when the legislature is in session to help put over laws that we recommend and keep other laws from passing that would be harmful to agriculture.
- We also keep some of the brainiest farmers that can be found in the U. S. A. in Washington at all times to help congress in making laws that effect agriculture nationally.

WHEELER CO. 4-H CLUB ACHIEVEMENTS LISTED

Achievements Week Is Being Observed Locally

National 4-H Club achievement week is here and it is time for Wheeler County 4-H Clubs to take inventory. These records and achievements of a year's happenings go together to make 4-H Club boys and girls better citizens and leaders in the communities in which they live. As club members, we are proud to have the chance to work and gain for ourselves. The surprised young people of other countries make our appreciation all the greater. The privilege of writing this section of the paper would not be allowed in many other countries.

4-H Club boys and girls are a proud lot as their motto, "To Make The Best Better" shows. Each 4-H Club boy and girl is striving to do just that. In this account of a year of their history the 4-H Clubs would like to pay tribute to their parents, the County Extension Agents, the County Judge and the Commissioners Court. Our thanks also to all those who have cooperated to make such a fine year of Club work in Wheeler County.

The 207 Club boys in Wheeler County join some one and a half million other club boys all over the country to make up the largest youth organization in America to-

day. The influence that 4-H Clubs exert in their community, County, State, and Country can be seen in their number and in their work. The good Club boys and girls are more proud of their work than how many members 4-H can boast. An old secret of the success of 4-H Club work was passed on by Bill Lacey Stephens, County agent now retired. Lacey said that the basis for the rise of club work was the emphasis that it puts on the individual and not the organization. This is the very theory that made our country great!

Every club boy is required to carry on a demonstration in at least one of the following: beef cattle, swine, dairy poultry, rabbits, garden, field crops, orchard soil conservation, recreation, or any other worthwhile undertaking.

Club work taught by extension agents and leaders include not only better production methods but teach club members self reliance, and ambition, integrity, honesty and fair play.

As we close this year's work and prepare for another one let us look over all our achievements, and look upon them as something that is the best, but will be done better. Club boys and girls can-

J. E. ROGERS AND SWINE DEMONSTRATION

The week of November 3-11 is National 4-H Achievement Week. The 180,000 plus Texas 4-H members will observe the week with special events in the local clubs and countywide activities. 4-H clubs are sponsored by the Agricultural Extension Service.

LOCAL BOY DOES WELL WITH SWINE

When it comes to Registered Swine breeding J. E. Rogers of Wheeler leads the list. J. E. lives one mile west and two miles south of Wheeler. He got his start in the registered Duroc business in the spring of 1950 when he bought a Duroc gilt that was brought from Hyde, Oklahoma by the County Agent. The first litter that fall, had 9 in it and he lost 3. Four were sold for breeding stock and he kept two gilts. Out of the next litter J. E. kept only one gilt. The top price for anyone pig was \$50 paid for a boar by Grady Harris.

To date J. E. has two litters of baby pigs and two more on the way. With the every growing demand for good breeding stock it is a benefit to the county that such good breeding stock can be found here in the County. J. E. has been fortunate to be able to use the services of the boars brought to the County through the Sear's program.

J. E.'s main problem now is the hog market. The declining prices on hogs has really been something. Even the layman fails to understand the contrast of the low hog prices and the extremely high beef prices. As long as the demand for breeding stock is steady and the selling price is good J. E. won't worry much.

Joe Van Zandt was given the gold star award in Wheeler County this year. This is the top County award for 4-H Club work. Joe is the son of Mr. and Mrs. C. J. Van Zandt of Mobeetie. This fourteen year old boy has demonstrated unusual leadership ability. He has served as County 4-H Council President for this year. He has been an inspiration to other members by demonstrating the best projects, and keeping records. His integrity is shown in the many livestock shows, judging trips, and encampments he has taken part in.

Joe was a member of the grass team at State this summer, and also a two winner at the County Calf show this Spring. He was given the Thomas E. Wilson award for a meat animal demonstration in 1951.

James E. "Jamie" Clark, son of Mr. and Mrs. J. R. Clark of Wheeler was given the Leadership Award. Jamie has won many honors as a 4-H Club boy. Last year he was Gold Star winner and the Meat Animal Award winner. The 16 year old senior has served in every office of the Wheeler Club. He has gone twice to the 4-H Club Roundup. He is outstanding as a recreation demonstrator and has served as County Junior Recreation leader for two years. He served as Council Vice-President last year.

Sheron Stephens, fourteen year old son of Mr. and Mrs. Frank Stephens of Shamrock, was awarded the Dairy Achievement Award. He has demonstrated a talent for growing out, fitting and showing of dairy cattle. He made a good record with his first calf, a Shamrock Circle heifer, last year. Sheron is a reporter for the Shamrock Club.

Achievement Award winner is Carrol Pitcock of Kelton, Carrol is in his 6th year of club work. After feeding calves for several years, he now has a registered Hereford Cattle project. The 16 year old son of Mr. and Mrs. Joe Pitcock has been a member of the County livestock judging team for two years. His highest achievement came in livestock judging this past June where he tied for high individual at the State contest.

4-H AWARD WINNERS ARE ANNOUNCED

Joe Van Zandt was given the gold star award in Wheeler County this year. This is the top County award for 4-H Club work. Joe is the son of Mr. and Mrs. C. J. Van Zandt of Mobeetie. This fourteen year old boy has demonstrated unusual leadership ability. He has served as County 4-H Council President for this year. He has been an inspiration to other members by demonstrating the best projects, and keeping records. His highest achievement came in livestock judging this past June where he tied for high individual at the State contest.

DEAN JONES AND COMMERCIAL CALVE

Allison Boy Has Commercial Steer Feeding Project

Troy Dean Jones, son of Mr. and Mrs. L. L. Jones of Allison is carrying on a steer feeding demonstration considered by many as the best feeding program. Troy Dean now has three steers on feed in the dry lot. He is feeding home grown grain sorghum, ground bundles, cottonseed meal, bran, and enough alfalfa hay to assure the vitamin requirements. The county is watching this demonstration with much interest. Dean's three yearling steers will be sold either at the Amarillo Fat Stock show or in Fort Worth at the commercial fat steer sale.

His handling method is unique. First he bought two steers last winter that weighed around 450 pounds. He started them on feed that gave him a 2-pound a day gain until hot weather came. They were turned into native tall grass during the summer months with access to a "creep". On October 15 Jones returned the steers to the feed lot. He also started dry lot feeding another steer. The summer pastured steers weighed 800-pounds each and the new steer nearly 700. Bundles and supplement will be added to the rations fed last winter. They will finish at about 1000-pounds.

The let down that might be expected when steers are feed and put on grass occur. He attributes the feed gain to the oats and feeds of the feed lot. The price of oats that he cost of last year has proved well spent.

His steers are as well as milk fed show calves. They have horns and they are holding their horns that bring steers to the sales at the stock show. His steers are halter broken. This makes them to handle in the sales ring.

Dry lot feeding demonstration have gained favor over feeding. These demonstrations have filled the need of the farmer. Farms that raise sorghums can use this method feeding to profitably raise grain. Club boys are beginning to make the corral feed here at home rather than their calves to the corral fattening.

Troy Dean is in his 14th year of 4-H Club work. He is a member of the Allison Club. He delegates to the district meeting last spring.

JOE VAN ZANDT HAS 2 CHAMPS AT LOCAL SHOW

January 20th was a big day for Joe Van Zandt. Mobeetie 4-H Club boys cheered as he swiped Grand and Reserve Champion honors at the Wheeler County Calf Show. Joe's calves were winners of both light and heavy divisions. 'Ferris' a 1000 pound heavyweight steer, bred by J. Ferris Hess of McLean was put at the top of his class while "Buck" a slight 615 pound steer was placed top of the lightweight class. This steer was also bred by J. Ferris Hess of McLean.

This was Joe's first grand sweep and he carried nearly \$100.00 in prize money away that cold January evening. First place in showmanship went to James Clark, second went to Van Zandt, and third went to Jimmie Harris of Kelton.

This was the first year that the show has been in Wheeler and was held in the new show barn section of the Community Building. The building was heated and proved to be one of the best show places anywhere.

Many old timers of the County that have been viewing calf shows for many years said this was the best show ever held in the County. It was met with favor with all that had any part of making it.

The Wheeler Chamber of Commerce and Kiwanis Club were responsible for the prize money which was afforded each exhibitor.

Boys showing calves and their placements are as follows: Heavy Division—1st, Van Zandt; 2nd, Clark; 3rd, Earl Corse; 4th, James Clark; 5th, Jimmie Harris; 6th, James Gaines; 7th, Paul Macina; 8th, Jack Daberry; 9th, Jimmie Harris and 10th, Dean Sims. Lightweight Division — 1st, Van Zandt; 2nd, James Gaines; 3rd, James Clark; 4th, Dean Sims; 5th, Jack Daberry; 6th, Paul Macina; 7th, Carryn Walsler; 8th, Charles Walsler; 9th, Buck Jones; 10th, Thomas Puryear.

Ranchmen have found through demonstrations that proper stocking rates coupled with good range management practices will increase the amount of beef they can produce on their ranges.

Robert Ledbetter, Buddy Wilson, Bobby Helton, Tooter Helton and W. L. Williams

Dairy Judging Team Leads Way In Briscoe 4-H Club

A white hot dairy cattle judging team from Briscoe led the way for its 4-H Club this past year. That was not all for the club, as its members are fully represented with projects and demonstrations. Swine, dairy and commercial type cattle dominate these.

For recreation there was a party on Gageby Creek and another at a private home in addition to the County wide Christmas party.

This was the first year that Briscoe has been represented with a 4-H team. The boys on the team worked hard and went a long way after those first workouts last March. To start with, some 13 boys over fourteen started working out for the team. After several judging sessions and picture sessions, the top four boys were picked. They were W. L. Williams, Buddy Wilson, Dean Tipps and

Bobby Helton. This group was literally upset the day before their first contest as the Coach Robert Ledbetter overturned and wrecked his car with all four boys in it. Dean Tipps came down with the mumps that night and did not get to judge. Thomas R. "Tooter" Helton took his place. It has been wondered if Dean just didn't get scared of Assistant Agent Ledbetter's driving and give up on that account. Anyway the team placed 1st the next day at the Wheeler County Dairy Day Show.

This team with the exception of Tooter, who was replaced by Gene Haddox, placed 2nd at Lubbock and entitled to go on to the State where they placed fourth. These boys have judged over 75 classes and 300 head of dairy cattle.

Members of the Briscoe Club last year were Tommy Alsup, Dale Dyson, Gene Haddox, Junior Had-

dox, Jerry Hays, Thomas Bobby Helton, Leroy Harkins, Helton, Gary Lester, Rick Levitt, Jimmy Levitt, Rick Donald, E. J. Meadows, Meadows, Willie Parker, Robertson, Jim Selby, Bob Dean Tipps, Orrell Vise, Williams and Buddy Williams.

MOBEETIE FINE RECORD

Mobeetie 4-H Club boys a well balanced program. In addition to their monthly club meetings, they had two outings on Sweetwater Creek participated in a Christmas at Wheeler.

These boys always come (Continued on Last Page)

to the 4H CLUBS
of WHEELER COUNTY

Congratulations

On the occasion of National 4-H Club Achievement Week, we would like to be able to meet and congratulate each of you individually, but, since this is impossible, we wish to take this means of extending to EACH OF YOU 4-H CLUBBERS our most hearty CONGRATULATIONS on a job well done during the past year.

For the fine leadership and direction that the young people of our county have been given through the extension service, we would like to commend County Agent Ray Siegmund, Assistant County Agent Robert Ledbetter, and former Home Demonstration Agent Mrs. Jay Hastings. You, too, have done a laudable job and we want you to know that we appreciate what you are doing for the youth of our county.

Candler To San Antonio Girl

Mrs. L. C. Ezzell of San Antonio, Tex., announces the engagement of her daughter, Barbara C. Candler, to Mr. C. H. Candler, son of Mrs. C. H. Candler of San Antonio, Tex., formerly of Mexico, formerly of Mexico.

The wedding is to be held at the Park Church of Christ, San Antonio, with A. Hugh Candler, pastor of the church, officiating.

Barbara is vice-president of the Student Body of San Antonio College. She is a member of the Phi Kappa Phi Honor Society. Miss Ezzell is a member of the ADP carnival, past president of the Rangesettes, representative in the Miss Candler contest in which she was runner-up to the First Lady in 1951. Her home builder's association has named her "Miss Home Builder" for 1951.

Her prospective bridegroom is

SOCIETY

chairman of the Physical Education department of San Antonio College and coach for basketball and track. He received his Bachelor of Arts degree from North Texas State college at Denton where he was a member of the "T" club, Alpha Phi Omega, Who's Who in American Colleges and Universities, a member of the P. E. Professional club and the Industrial Arts club.

Bessie Crenshaw, Juanita and Alvada Levitt, Bessie Etheredge, Mrs. Bill Wise, Nona Elmore, Julia Dillon, Nona Hall, Nettie Walsh, Reta Grayson, Kitty Bell Taylor, Eula Mae Walls, Evelyn Langford, Opal Evans and Emma Copeland and the honoree, Mrs. Clifton Taylor.

Many others sent gifts.

Mrs. Taylor Honored At Pink-Blue Shower

Mrs. Billy Ray Jones and Mrs. Lester Levitt were co-hostesses to a pink and blue shower honoring Mrs. Clifton Taylor Friday evening at the home of Mrs. Billy Ray Jones.

Delicious punch and cookies were served to the following:

CARD OF THANKS

We would like to take this means of thanking everyone for the beautiful flowers, nice cards, words of encouragement, and everything else that was done for us while Willie Dee was in the hospital.

Sincerely,
Mr. and Mrs. Herbert Whitener and family

BUCKETT'S FOOD MARKET
SPECIALS FOR FRIDAY AND SATURDAY, NOVEMBER 9 & 10

Rats Cause Much Damage On Farms, Carry Disease

Year in and year out, typhus fever continues to menace the health of Texas people with man's oldest and most destructive pest, the rat, being responsible for the sickness and suffering, and the great economic loss incurred by typhus victims.

Rats are so prolific that their number is limited only by the food supply and opportunity for nesting. Their litters number from 6 to 14 and they litter from three to five times a year. In warm areas where

continuous exterior food supplies are available, rats are more numerous than in areas with short crop seasons.

Few persons have any idea of the enormous rat population in cities and on farms; they are seldom seen in the daytime, but swarm to places where food is available at night. Actually, rodents number more than any other single species of mammal, and comprise a total of one-third of all living species of mammals. They always bring sickness and destruction to mankind.

Food infections are responsible for much serious illness and many deaths, and certainly food infections follow literally in the footsteps of rats that are allowed to come in contact with food.

Endemic typhus fever, which is the type prevalent in this state, is also a disease primarily of rats and secondarily of man. The agent of transmission to man is the rat flea. Rats infected with typhus do not die quickly, but in many instances live for a long period of time. While they are thus infected, the blood sucking fleas on the rat naturally

become filled with the germ. If they leave the rat, and then bite a human being, the disease is passed on to the man or woman who may become a very sick person, and even lose his life from typhus fever.

Rat control measures, in order to be effective, must be three-fold in character: rats must be built out, starved out and killed out. Building out rats is accomplished by a comparatively simple and inexpensive method of making buildings rat-proof, and this feature should be included routinely in all new construction.

An outline of correct building procedures can be had from local health departments, or from the State Department of Health. In old buildings, the methods differ somewhat, but here again your health department can supply you with information as to how to make the building safe from rat infestation. The cost of this operation is likely to be much less than the property destruction and possible illness which may be incurred when rats are allowed to invade the premises.

When rat-proofing of our buildings has been accomplished all ground space should be cleaned and cleared of trash and trashpiles, and any other such refuse or waste material as will furnish rat harborage. Rats, like human beings, must have a safe shelter in order to make homes for their families, and they are quick to take advantage of every home-site provided for them.

In the country it is important to build corn cribs, barns and granaries rat-proof with the use of cement, iron sheeting or galvanized

iron netting. The destruction of food, crops, merchandise and property by rats is so great that this alone would justify active measures of suppression, even though they were not responsible for plague, trichinosis, infectious jaundice and typhus fever.

Rats actually destroy more eggs, chickens and game than all other wild animals combined. According to government experts, the cost of a rat nation is about one-half cent per day, which makes the annual heart bill of the rat population of the United States about \$12,000,000,000. This is food alone.—it does not include property damage and other damage.

Starving out rats.—making their food scarce and hard to find—is of utmost importance in assisting other suppressive measures. Thorough covered garbage cans should be required and the garbage frequently removed and burned. Garbage dumps only invite and nourish rats and other vermin.

Slaughterhouses can become centers of rat propagation, and it is therefore best that slaughterhouses refuse be disposed of by burning. Produce in provision stores may be protected by wire screens. Well-set rats mature quickly, breed often, and have large litters.

No progressive community tolerates open trash piles and dump

CAMPUS BELLE

Wearing a glamorous short formal in a designer's wide-waist cotton crepe, the young collegeienne is ready to be the belle of the campus ball. Her short formal by Emily Williams is such luxurious costume has a crisp collar and petticoat under the skirt to add to its flare. Custom petticoats are in the fashion tonight this fall, the National Costume Council reports.

As a carrier of disease, the rat has killed more people than all the wars in history combined. Rats and men prefer the same kind of food, the same type of shelter. Unharmful himself, the rat, through his hitchhiking guest, the prolific and deadly flea, carries disease into man's home—his granary, his pantry, his dairy, his cellar, his attic. Both the flea and the rat reproduce at alarming speed. Rat-proofing and garbage disposal are man's best weapons against this death team.

Business establishments, storehouses, food depots and homes must all be rat-proofed if the rat is to be checked. All small holes around pipes, as well as cracks in the foundations, must be filled. Basement windows and doors should be covered with strong, durable screening. Ventilators and sewer openings require gratings, and doors likely to be left open must be equipped with self-closing devices.

Keep the rat outside and eliminate his food supply. He then will be forced to solve his own problem. Exterminate him whenever possible. The germs that cause disease thrive in filth. Their carriers feed on filth. Extensive substandard housing, created by years of depression and war, provides excellent depositories for filth in every community.

According to the United States

Public Health Service, "five million Americans are disabled by illness on an average day. Since most of these are of that third of our population which is ill-housed and ill-fed, decent living conditions are obviously powerful weapons against disease."

America's real wealth is her men, women and children. Unhindered by illness, they could produce material wealth beyond comprehension. But their capacity to produce and enjoy wealth must be guarded constantly against disease.

Plan to attend the American Legion Minstrel Friday Night, December 7th.

A Message of Importance To Every Automobile Driver In The State of Texas

HERE'S WHAT YOU SHOULD KNOW ABOUT THE NEW TEXAS "SAFETY RESPONSIBILITY LAW"

- 1 Enforcement Begins January 1, 1952.** On this date, the new Safety Responsibility Law, as passed by the Legislature, goes into effect. This law was designed to protect you against financially irresponsible drivers and owners of motor vehicles involved in accidents. It affects all drivers and motor vehicle owners (except Federal, State, County and City-owned cars).
- 2 What Must You Do After An Accident?** Under existing laws, you must file a written report to the Department of Public Safety if your car is involved in an accident where there is a death, an injury or property damage in excess of \$25. Under the new law, a written report must be filed *within ten days* if your car is in an accident resulting in death, injury or property damage in excess of \$100.
- 3 You Don't Have to Carry Liability Insurance, But . . .** If you are not insured against bodily injury and property damage liability, you must be able to deposit with the Department of Public Safety security equal to the estimated damage, not exceeding \$15,000.00, to cover all claims growing out of an accident anywhere in Texas in which you or your motor vehicle were involved. If you cannot establish financial responsibility for the future, your driver's license and your motor vehicle license plates are automatically suspended.
- 4 It's Easy to Establish Financial Responsibility** with a motor vehicle liability insurance policy. If you do not now have such a policy, call your local insurance agent today. He is a qualified insurance counselor who will be happy to advise you concerning your needs.
- 5 What is the Minimum of Your Liability?** The law permits each driver to establish the following minimum limits of liability: up to \$5,000.00 for injuries sustained by one person; up to \$10,000.00 for all personal injuries resulting from one accident, and up to \$5,000.00 for property damage. You do not have to establish such liability but it is the easiest way.

Mid-Week Service ----- 7:30 p. m.
Thursday ----- 7:30 p. m.
N. E. JOHNSON, Pastor

FROM the beginning days of Adam and Eve, Home has been man's delight and pride; families have carried forward the real business of the world, the making of good men and good women. Church and state give their aid, but devout parents have loved growing life into beauty and nobility. It has never been quite the full life, surely not the abundant life, that man has lived in solitariness. Homes are our refuge and our castle and our playground and our world. Every family should own a house and make a home of it. The home is the practice ground for democracy, where every person has his rights and his duties, where a man has a den to which he repairs, where babies have their nursery, where women have their boudoirs, and every child knows he belongs. Its walls are adorned with pictures that awaken the artistic scene and gratify the love of the beautiful. It's tables bear the books that feed the mind and more or less determine destiny. It is a "place to practice religion in a character clinic" (Fiske). It is a fellowship of living spirits where each is warmed and encouraged by the faith and confidence and the love of all the rest. It is a world in miniature, where lessons are learned in the atmosphere of understanding good will. Every family may be a Holy Family of love and loyalty and reverence and the lifting of a prayer to God bind the group together in mutual esteem.

Church Page Is Published With the Hope that More People Will Go to Church. It Is Paid For by Business Firms and Individuals Who Believe We Should Attend Religious Services Regularly.

Mobeetie Meditations

(Continued from Page 1)
Baptist Church and take an active part in Eastern Star and school activities. We hear via grape-vine system they plan to move to New Mexico. Earl Breeding of Miami purchased their farm.

Members from the Baptist Church attending the Brotherhood meeting at Wheeler last week were: Rev. L. E. White, Doyle Grimes, Quintis Godwin, Ernest Howard, R. St. John, Earl Riley and Lewis Shumate.

One of the very nicest news items I have to pass on to you this week is, that two women of our town who live by themselves have had sisters come to spend the winter months with them. Mrs. Clara Hathaway who recently moved to town is happy to have her sister, Mrs. Maude Burum of Lawton, Okla. making her home with her at the present and Mrs. A. V. Ridgeway, who's husband passed away quite recently has her sister, Mrs. Ethel Colgrove of San Antonio with her for an extended visit. These women are all widows and we feel they should get acquainted, they might pass long winter hours as a happy foursome.

Those from the Mobeetie Methodist Church attending the Mass Meeting at Pampa Sunday as a conclusion to the State Wide Evangelistic Revival were: Rev. and Mrs. A. D. Moore, Mr. and Mrs. L. D. McCauley, Mr. and Mrs. Jim Selby and Jimmy, Mr. and Mrs. C. C. Dyson, Rev. and Mrs. Sam A. Thomas, W. D. Wheatley, Ora Landcaster, Joan McCleary, Shirley McCauley and your reporter. Dr. Wallace, Supt. of the Ardmore, Okla. district delivered the message with all the choir in the district forming a huge choir which used as their special numbers Fred Warnings arrangement of "The Battle Hymn of the Republic" and "Fair Lord Jesus". I sincerely hope all who did not attend had your radios tuned to Pampa and heard this very inspiring service in message and song.

Mrs. Maggie Thompson entertained with a Halloween Party Wednesday night at her home for the girls of the senior and junior classes. A worthwhile time was reported the next morning as most of the girls spent the night.

We are happy to report that Mrs. Ernest Lee, who has been in an Amarillo hospital for an operation on her foot, is able to be home.

Supt. L. R. Reaves announces that Friday night the 9th of Nov-

ember there will be a Bingo Party at the school gym. The prizes were donated for the school carnival and were not all given out that night. So come on, lets all play bingo tonight.

We understand the Clyde Dickey family is not going to leave us after all, as they have purchased the F. H. Davidson place. This is the farm Albert Scribner sold when he moved to Holly, Colo.

Visitors recently in the Quintis Godwin home were Mr. and Mrs. Charlie Y'Barbo of Pampa.

Ralph Hill of Amarillo visited Monday with his brother and wife, Mr. and Mrs. Alfred Hill.

Sunday guests in the Arthur McBride home were: Mr. and Mrs. D. Nelson and family of Amarillo, Mr. and Mrs. T. W. McCraw of Miami and Mrs. Lula Thompson and daughter of Borger.

Mr. and Mrs. Chas. J. Hill, who has been spending sometime at Severson, have returned home.

Your reporter attended Eastern Star last night and heard the Worthy Matron, Mrs. Mayme Patterson give her official report from Grand Chapter which was held at San Antonio. Mrs. Theima Duan, who accompanied Mrs. Patterson, gave the report of the trip which was not so official. Together they made the evening both inspirational and entertaining.

Flash! Word has just come to us a baby girl born to Bud Carroll and Charlsley Whitt Scribner at the Wheeler Hospital. Congratulations.

Clyde Ayers, of Jowett, who has been seriously ill of pneumonia in a Pampa hospital, is reported doing nicely at this writing.

Recent guests of Mrs. Milissa Morton were Mr. and Mrs. Burl Harrison, Brownfield, Mr. and Mrs. Noda Harrison, Lubbock, Mr. and Mrs. Junior Harrison, Mr. and Mrs. Baucam and Mr. and Mrs. Ed Hall all of Amarillo.

Mr. and Mrs. Henry Shelton spent last weekend at Dodge City, Kansas visiting with their daughter and husband, Mr. and Mrs. Joe Wolf.

The Mt. Zion Quilting Club met Tuesday at the Mt. Zion School with Mrs. Bill Eberting and Mrs. Ora Eman serving as hostesses. There were 14 present and an enjoyable time reported.

The Reddy Killowatt Club of the Southwestern Public Service at Jowett held a meeting Friday evening at the club house.

A delicious dinner of baked ham and chicken with all the trimmings was enjoyed.

The Halloween motif was carried out in decorations and place settings.

After dinner the group played dominos and canasta.

Those attending this delightful party were: Mr. and Mrs. Don

Newbar of Amarillo, Mr. and Mrs. H. O. Lane and children, Mr. and Mrs. Ralph Sims and family, Mr. and Mrs. Lowell Pendleton, Mr. and Mrs. Clyde Ayers and Linda, Mr. and Mrs. Charles Mixon and Len, Mr. and Mrs. Weaver Barnett and Kathy, Mr. and Mrs. Glen Robertson and Vickie, Mr. and Mrs. Jim Williamson and children and Odell Upchurch all of Jowett, Mr. and Mrs. Homer Matthews, Mrs. Arthur Carmichael and Bruce of Mobeetie, Mr. and Mrs. Eldon Ray Lee and Mrs. Paul Green and Harold Green of Wheeler.

Honor Pupils

(Continued from Page 1)
Thomas, Gary Wernon and Glynda Beck.

FIRST GRADE
All A's—Wayne Hawkins, Sue Lester, Rayburn Corcoran, Marilyn Kay Trout, Lois Allen, Glenn Hathaway and Robert Kelly.

Mobeetie Has

some of the best projects in the County. There was Joe Van Zandt sweeping honors in three calf shows. Earl Corse was right behind him with a fine calf which nudged Joe out at the Amarillo Fat Stock Show. Other boys showing calves were: Charles Waiser, Jeffrey Caldwell and William Puryear. Other type beef projects belong to Dickie Richards, Don Hathaway, Frank Willyard, Jay Godwin, Leslie Howard and Paul Willard. These boys have either cow and calf projects or mixed calf projects.

Dairy heifer projects are demonstrated by John Taylor and Carrol Don Whittenburg.

Hogs as usual are very popular projects. J. W. Turner was a Sears Gilt winner and has kept up a good demonstration program with her. Other boys having swine projects are: Gary Gatlin, Mac Shelton, Leslie Howard, Bill Munday, Tom Standley, Vernon Hickman, Clinton Hickman, Thomas Puryear, Robert Jones and Arnon Lancaster. Poultry projects are demonstrated by Britt Hathaway and Archie Scribner.

Dave Turner has a milk goat for his project.

Rabbit projects are finding favor with many of the boys, particularly E. W. Riley. E. W. has five head of breeding stock. These include two Dutch Belts, two New Zealands and one Angora. Other boys with rabbits are Dewane Trout and Arthur Don Burk.

This year Mobeetie boys have divided into two clubs, a junior and senior club. The senior club which meets at the high school, recently elected officers. They are: Joe Van Zandt, president; Earl Corse, Vice-president; J. W. Turner, Secretary-Treasurer; and Carl Willyard, reporter.

Officers for the grade school club are: Carrol Don Whittenburg, President; John Taylor Vice-president; Archie Scribner, Secretary-Treasurer and Carl Willyard was designated the over all reporter.

RABBIT AND SWINE DEMOS ARE POPULAR

Rabbit and swine demonstrations are popular as 4-H Club demonstrations in Wheeler County. Swine has really become popular with 4-H boys because the demonstrations are not very expensive and do not take up very much time and space.

The Sears Swine Program in Wheeler County has brought in lots of good breeding stock and since alfalfa pastures are the best pasture for swine and it can be grown here in Wheeler County, hogs can be raised cheaper. Every 4-H Club in the County has one or more swine demonstrations in it.

Rabbits are becoming more popular here in Wheeler County and many boys have several does for rabbit production as their demonstrations. This demonstration does not cost much and still each boy learns the fundamentals of good feeding care, and management. These practices can be put into effect when the rabbit grower goes on to a larger demonstration such as dairy, swine or beef cattle. Most of the rabbit demonstrations are located in the Mobeetie, Wheeler, and Shamrock 4-H Clubs.

The breed of rabbits grown are: New Zealand, Dutch Belted, and a few Angora.

There is a possibility of being a rabbit show in connection with one of the livestock shows sometime in the spring of 1952.

4-H Award

(Continued from page 5)
test. Wheeler County 4-H Clubs are proud of this quite, unassuming boy and his achievement.

Ever smiling J. E. Rogers, son of Mr. and Mrs. Frank Rogers of Wheeler is winner of the field crop award. J. E. is president of the Senior Wheeler Club. He was an award winner last year. Rogers has carried on several cotton and grain sorghum demonstration and has been instrumental with his father in planting soil building crops of rye, vetch and alfalfa.

THE WHEELER TIMES classifieds offer more for less money, to both buyer and seller, than any other business device we know about.

Today as we pay silent homage to those who gave their lives that we might continue to enjoy Democracy, let us rededicate ourselves to a continuation of the principles for which they fought. We have freedom at the polls, freedom to participate in civic activities and, above all, freedom of thought and speech. Let us exercise these privileges of democracy wisely and to the fullest of our abilities—for this is the best way we can prove they did not die in vain.
